## ANN ARBOR'S PROGRESS.

### WHAT HAS BEEN DONE IN THE PAST.

**Improvements for This Season.**—Electric Railway, the Hospital Buildings, a New Church, a Block of Stores and Many Other Buildings to be Erected This Summer.

Should one of our former residents return to the "Athens of the West," he would be surprised at the many improvements which have been made in Ann Arbor during the last decade. Where were then muddy streets and unkempt lawns, are now well graveled, hard roads, handsome lawns and beautiful curbs of which larger and more pretentious cities might well take pattern. The city is supplied with good water by a system of water works which is daily being extended, and instead of being dimly lighted with gas and gasoline lamps, the most thorough system of electric lights is now used.

While these improvements are great and are what might well be expected in an enterprising and pushing city, it is in the building of fine residences and beautiful homes that Ann Arbor's greatest progress has been made. It is estimated that nearly one-fifth of the houses now standing in the city have been erected or remodeled during the past ten years. The houses in this city are neither cheap affairs nor expensive mansions but come under the head of moderately priced model homes, of tasty design and with modern conveniences.

These improvements have not been made in a single season or by an unhealthy boom, but each succeeding year has seen a number of new buildings erected, signifying a steady growth and progress. That this growth has not ceased is shown by the preparations being made for building lots at anything like a moderate price has run out, and three large pieces of land have been or are now being platted to make the supply equal the demand. Ann Arbor's prospects for new buildings and other improvements during the summer are fully as flattering as they have been in years.

### ELECTRIC RAILWAY.

Probably the most expensive improvement to be made this year will be the construction of the new electric street railway, which will cost in the neighborhood of \$70,000. This one improvement must prove of incalculable value to Ann Arbor, for when completed it will lead to the expenditure of thousands of dollars annually for years to come, in building residences upon lots which are on the line of the road but which are now considered too far away from business and the University.

### HOSPITAL BUILDINGS.

Following closely upon this in cost are the new hospital buildings to be erected by the University, the expense of which will be over \$60,000. Even this large sum will build but a small portion of the hospital buildings as they are contemplated when finished, the completed buildings which will be erected as needed being estimated at nearly \$200,000.

### OTHER BUILDINGS.

The other expensive buildings to be built will be a handsome stone and brick edifice by the church of the Disciples, costing when completed nearly \$20,000; the new Tappan Guild hall, costing \$15,000; a brick block of stores on State st., costing from \$10,000 to \$12,000, (at least, estimates have been asked for such a building); William Brown, residence, \$7,000; Hon. C. R. Whitman, two residences, \$5,000 and \$2,500 respectively; Prof. Beman, residence, \$3,500. There are numerous others which will be built. Below are given the contracts already held by our builders, so far as they can be learned, these forming a small part of the private residences which will be erected during the season just commenced:

## ANOTHER LONG LIFE ENDED.

**Death of Samuel Crossman, Tuesday Afternoon, Who Had Passed 94 Years on This Earth.**

On Tuesday afternoon at two o'clock, the spirit of the oldest inhabitant and one of our most respected citizens, Samuel Crossman, passed to rest at his residence at the west end of Huron-st. The deceased was born in Connecticut on Aug. 3, 1796, during Washington's administration, and was consequently nearly 94 years of age. In 1836 he came to Michigan and located lands in Ingham county, where he lived from 1845 to 1855. In the latter year he moved to Ann Arbor and located upon the place where he died, on the "forks" at the west end of Huron-st, where he made his home during the intervening years. He was a soldier in the war of 1812 and drew a pension from the government for services rendered at that time. He was in remarkable good health until about four years ago, but has been gradually failing since that time, his death being caused by the infirmities of age rather than disease. During his long life Mr. Crossman was closely allied with the Baptist church and was a devout member of that congregation. By Mr. Crossman's death *The Register* loses one who has been its oldest subscriber.

He leaves four children: Hon. D. S. Crossman, of Williamston, who for many years has been clerk of the Michigan House of Representatives; Chas. S. Crossman, a prominent New York jeweler; Mrs. P. Hill, of Elbridge, N. Y., and Mrs. L. Strong, of Danville, Mich., all of whom are now in the city to attend the funeral, which will be held at the residence Friday afternoon, at one o'clock.

## THE SOUTHWESTERN ALUMNI.

**Their Second Annual Banquet at Kansas City Last Friday Evening—A Pleasant Reunion.**

The second annual banquet of the Michigan University Alumni Association of the Southwest was held at the Coates house, in Kansas City, last Friday evening, and the event was even more successful than the meeting of last year. The banquet was superb, and nothing was left undone by the alumni to make the event a pleasant memory to those who attended. Among those present were: President James B. Angell, Prof. Calvin Thomas, Prof. Henry C. Adams, Prof. Frederick N. Scott, Prof. Martin L. D. Ooge of the University faculty; A. P. Wood of Omaha, H. Tucker and Willis H. Davis of Iowa, John H. Couch of Fort Scott, Kas., J. W. Mackey of Palmyra, Mo., Homer Stanford of Kalamazoo, John Sopher of St. Louis, J. C. Goodale of Kalamazoo, A. B. Quinton of Topeka, E. B. Farley of Dubuque, H. H. Carney of Iowa City, E. E. Brandon of St. Louis, George R. Hewitt of Alton, Ill., M. Swenson and A. N. Walburn of Fort Scott, Kas., Jefferson Chandler and J. E. McKeigan of St. Louis.

Previous to the banquet a reception was held in the parlors of the Coates. Chief Justice Albert H. Horton, of Kansas, acted as toastmaster, and the toasts and responses were as follows: "The University," President James B. Angell; "Alumni Responsibilities," Sidney C. Eastman, president of the University of Michigan Alumni association of Chicago; "The university in practical affairs," Prof. Henry Adams, statistician of the interstate commission and professor of political economy in the University of Michigan; "The University in the Occident," Hon. W. C. Ransom, deputy commissioner of railways of the state of Michigan; "Was it worth while?" J. E. McKiegan, of St. Louis; poem, Hon. Joel Moody, Kinsley, Kas.; "Where is the Life, that Late I Led?" Frederick N. Scott, professor of rhetoric in the University of Michigan; "Industrial union of the South and West," Hon. Jefferson Chandler, of St. Louis; "The dignity of judges," Hon. William R. Smith, of Atchison, Kas.; "Today," Hon. William Warner, of Kansas City; "University education in Missouri," Alexander Martin, dean of the law department of the State university at Columbia.

## Why Should It Be Thus?

EDITOR REGISTER: The Board of Education of this city deserve a lively shaking up. For years this Board has been a strictly "close corporation." It is true that in September of each year the voters are permitted to assemble, and cast their votes for three members of the Board. But almost uniformly the candidates presented are either the members whose terms of service are about to expire, or others selected by the Board. The result is, that in effect the Board, through the apathy of the people manages to continue itself in office, from year to year, until that set of men have come to think that they own the city so far as school matters are concerned. The public are not allowed to know any thing about the proceedings of the Board. Inasmuch as the money raised by taxation to be expended by this Board, comprises nearly one-half of the whole sum of the city, county, and state taxes, it appears to me that the public are entitled to know how this money is expended. Perhaps I am blind, and that others are able to see what is invisible to me, but in many years' residence in this city, during which time I have been a subscriber to and reader of all of the local papers, I have never seen one line of proceedings of the Board of Education other than a list of the teachers appointed. In my opinion, the time has come, when the people should arise in their might and infuse some new blood into this "close corporation," and give some of the old fogies a chance to rest from their arduous labor of re-electing themselves, and give the moss on their backs an opportunity to grow.

Respectfully, ANON.

Ann Arbor, May 27, 1890.

## The University Field Day.

The field day on Saturday was a success financially, if in no other way. The price of admission was increased to fifty cents, and as about 1,000 people were present the Base Ball Association will clear nearly \$400.

As an athletic event the day was far from successful. An entire lack of management prevailed, which in itself was enough to discourage the large audience. This together with the rainy weather, the poor track and the absence of many entries by U. of M. boys went to make up a poor field day, and had it not been for the hearty way in which the Detroit Athletic Club took hold and the large number of entries made by the members of this club, the event would have proven a failure.

The only close contest of the day was the hundred yards dash, the final of which was between Owen, of Detroit, and Jewett, of Notre Dame, and was as pretty a race as was ever run. The sparring matches degenerated into "slugging" matches of the worst kind, and should be a lesson to those having these affairs in charge either to see that the contestants spar for points or leave them off the program hereafter.

The following were the winners of the various contests.

Broad sword—R. L. Farrand and P. D. McNaughton, draw.

100 yards dash—First heat won by John Owen, Jr., A. C., time 11 seconds; second heat won by Harry Jewett, Notre Dame, 11 1/2 seconds; final heat won by Owen by a foot, time 11 seconds.

Lightweight wrestling—Won by A. W. Dusef, Ypsilanti.

Throwing the hammer—Won by J. E. Jenkins, Ypsilanti, distance 88 feet and 9 inches.

220 yards run—Won by Robert Beattie, D. A. C., time, 2 3/5 seconds.

Middleweight wrestling—J. H. R. Wagner, D. A. C., by default.

Middleweight sparring—Won by Wm. Vhay, D. A. C., defeating Arthur Frantzen and S. C. Gilden.

Running hop, step and jump—Harry Jewett, Notre Dame; distance, 46 feet 8 inches.

Hitch and kick—F. C. Hinchman, D. A. C., height, 8 feet 4 inches.

Lightweight sparring—A. A. Deyo, U. of M.

Four hundred and forty yards run—R. A. Ward, D. A. C., first; William Gregg, D. A. C., second.

Fencing—Pedro Delvalle U. of M.

Putting shot—J. R. Jenkins, Ypsilanti, distance, 34 feet 10 inches.

Standing broad jump—Ford North, D. A. C., and Fred Ducharme, D. A. C., tied and North won on final.

Pole vault—Guy Haywood, D. A. C.

Shot high jump—Fred Ducharme, D. A. C.

Heavyweight wrestling—A. Meeker, D. A. C., by default.

Running high jump—Ned Ducharme, D. A. C., 6 feet 7 1/2 inches.

Running broad jump—Harry Jewett, Notre Dame, 19 feet.

## Attention, G. A. R.

HEADQUARTERS GRAND ARMY OF THE REPUBLIC, DETROIT, April 24th, '90 }  
GENERAL ORDER, No. 13.

Again Memorial Day will call us to assemble to pay our tribute of respect, love and veneration for the heroic dead. No sight so quickens the heart of the veteran as to see the children with their baskets of flowers at the graves of his comrades. Why is it that we observe Memorial Day after the lapse of these many years? No legislation ordered it; no governor directed it, yet in every state of this Union, it is religiously and reverently observed. It is a custom no other nation or people ever followed. All nations have honored their soldiers; they have welcomed home their victorious armies with many demonstrations of love and affection. Monuments have been reared to perpetuate their memories. It has been left to the American volunteer soldiery to inaugurate Memorial Day.

Better than all monuments, better than all triumphal arches, better than all statues, is this beautiful tribute.

Better by far that this country have no granite shafts than to forget this sacred day. It is a living, breathing patriotism renewed each year. It is a monument rebuilt annually in the hearts of the people. Granite or bronze monuments are erected but once. It is by far the best lesson of loyalty that could be taught to the children who are so soon to be the men and women of the nation.

Better for the Nation that its children and youth remember this day than that it have armies as large as those of all Europe.

No war of dissension will come to this country so long as it observes Memorial Day, which, securely entrenched in the hearts of the people, will make the government safer than a myriad of forts bristling with cannon.

No standing army, if we give to the people the education this day teaches. It is a day which the people themselves created. It is founded upon the best and holiest sentiments of our nature.

At Gettysburg Lincoln said: "We have come to dedicate a portion of this field as the final resting place for those who gave up their lives that the nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate we cannot hallow this ground. The brave men who on a hundred battle fields, gave their lives that the nation might survive, have consecrated it far beyond our power to add or detract."

It is for us to dedicate ourselves to the work of perpetuating the Union they preserved—the country they saved—to the end that their devotion, which ended with their lives shall not have been in vain.

It is earnestly recommended that such posts as cannot jointly attend Memorial Services at the cemeteries, or other appropriate places, hold such services in their post halls or other convenient places, and invite all patriotic citizens to join them.

By order of  
R. A. ALGER,  
Commander-in-Chief.

Geo. H. HOPKINS,  
Adjutant-General.

The company, five in number, was too much for James, took the straw and all is lovely now.

BURLINGTON ROUTE

Cheap Lands in the West. Along the line of the BURLINGTON ROUTE in Nebraska, Colorado, Wyoming and northwest Kansas, particularly on its new extension in that territory, there is still some Government Land awaiting settlement, as well as other cheap lands held by individuals.

These lands are among the best to be had anywhere in the country for agricultural and grazing purposes. In the comparatively new districts are many improved tracts which can be purchased at a very low rate of that class of restless pioneer-settlers who are ready at all times to move "further west."

In the territory embraced by the BURLINGTON'S lines west of the Missouri River, there are in the vicinity of two hundred new towns which offer to manufacturers and business men an excellent opportunity to locate with profit. Send to the undersigned for descriptive pamphlets and other matter giving location and full particulars concerning these lands.

A MAP OF THE UNITED STATES, showing north and south latitude, longitude and suitable for office or home use and issued by the BURLINGTON ROUTE, will be furnished responsible parties free on application to the undersigned.

THE free trader says: The people of the United States consume 600,000,000 pounds of wool. The producers or growers grow 800,000,000 pounds. The question is simply this, who shall manufacture this 300,000,000 pounds of wool? Shall the American mills be prohibited from purchasing the deficiency at a fair price or shall we tax wool so high that it cannot be bought by the American manufacturer, so that he can sell the manufactured article at a fair price to the consumer?

## The Beautiful Guild.

ALVIN WILSEY, ESQ., Ann Arbor, Mich.

Dear Sir:—We purchased a Guild Piano of you nearly (or quite) nineteen years ago. We also purchased a Boardman & Gray of you four years ago. If the B. & G. will do as good service as the Guild has we will be perfectly satisfied with it. Thus far, however, the Guild has stood better, and required less tuning than the Boardman & Gray.

Yours truly,  
South Lyon, Mich., March, 1890. **WM. DOTY.**

Mr. W. F. Griffith, of Howell, (in the employ of Farrand, Williams & Clark, of Detroit), has just decided on a "Guild," after looking the field over pretty generally. Said a teacher of many years experience, "It is the best Upright Piano I have ever seen." It is the best selling Piano I have ever sold; for the reason that it is a PERFECT Piano at a REASONABLE price. Sold for cash or on easy monthly or quarterly payments.

I have sold a good many "Guild" Pianos. Every one without exception, has given complete satisfaction. They are EXQUISITELY finished and please the most fastidious customer. I say emphatically that I have never seen a more perfect piano in detail, AT ANY PRICE, BEARING ANY NAME. Finished in mahogany, walnut, rosewood, etc. See them before you buy. Prices reasonable. Over 25,000 in use. Have been manufactured in Boston nearly thirty years.

Sukey were appointed to solicit for work and money to build the race track.

Don't ask a Chelsea man how he arrived in this city, because he is liable to lose his temper. Since the changes on the Michigan Central last week, Chelsea has been side-tracked, and when a man leaves town it is doubtful when he will be able to get home again. The citizens there complain bitterly of the accommodations now furnished them and are looking around for some means of getting the company to step more trains at that station.

Mrs. L. A. Blake, on Thursday last, received a very handsome tea-set as a prize from the "Housewife" Publishing Co., of New York. Some time ago, Mrs. B. saw an advertisement, that they would give free a tea-set to each person subscribing for the paper, "The Housewife," price fifty cents per year, whose letter they opened first each day, and she was one of the lucky ones. The set consists of fifty-six pieces of Ridgeway's handsome decorated ware.

The articles of association of the Ann Arbor Ladder and Trestle Co. were filed yesterday, with a capital stock of \$5,000. The object of the company is to manufacture and sell Sorg's combination step ladder and trestle. The stock is owned by Albert Sorg, trustee, Henry Frank, C. F. Kayser, Wm. Merithew, C. F. Meyer, J. R. Murray, C. L. Schneider, J. E. Harkins, J. T. Woodhouse, M. P. Vogel, M. J. O'Brien, W. F. Armstrong, G. J. Schiapacasse, H. Frank, trustee, and Albert Sorg, trustee.

Three ocean steamers had an exciting race across the Atlantic last week. The "City of Rome," "Aurania" and "Alaska" left Queenstown on Sunday, May 18, within an hour of each other. They started on the race across the Atlantic and arrived in New York, Sunday, reaching that port in the order named. The "City of Rome" made the trip in seven days and four hours, the others being two and four hours later. Among the passengers on the winning boat was Randall W. Watts, a nephew of B. F. Watts, of this city.

It is queer that the people cannot be satisfied with the proposed route of the street railway now that the matter is decided and after the thorough manner in which the council and the company considered this matter. Mr. Corliss has recently received a petition from certain residents of East University-ave, asking that the road be changed from that street. The great contest before the council was by citizens who wished the road to run closer to their premises and the East University-ave residents were considered fortunate because the line ran down that street.

Lightning made things lively in several parts of the city, Saturday, but fortunately none of its pranks resulted seriously. The house of Mrs. S. G. Benham, on Liberty-st, was struck, the lightning running down the lightning rod into the ground. The woodwork on the side of the porch was scorched slightly, and the furnace pipe was torn from the chimney. Mrs. Benham who was looking out of a window near the rod was thrown backwards but not injured. At the same time the house of A. W. Ames, on Will-am-st was struck, the only damage being to the paper on the walls in one room, which was scorched and discolored. They were both pretty close calls.
