ANN ARBOR, MICHIGAN, THURSDAY, JUNE 5, 1890.

WHOLE NO. 806.

## WHAT THE COUNCIL DID.

**The Old Cemetery Vacated.**—The Board of Public Works want \$5,000 for building street crossings.—Other business transacted.

The common council held a long and protracted meeting last Monday night, most of the time being taken up with the proposition to widen Division st, north of North-st. All of the property owners who would be effected by the proposed change were present. John F. Lawrence made an argument against the project and placed the price of \$800 on the strip two rods wide that would be taken from his land. Mr. Corawell asked \$500, Mr. Deubel \$400, and Mr. Miller two hundred for their strips. Edward Treadwell and H. J. Brown argued for the widening of the street. The matter was finally referred to the street and finance committees.

The Board of Public Works recommended that new sidewalks be built on the south side of Huron-st, from First-st to Allen's creek and one on the west side of State-st from North to Fuller-st. They also recommended that Smith Motley be appointed city engineer at a salary of \$600 per year. In the matter of the old cemetery they recommended that they be authorized to proceed to vacate it at once and that the council authorize the city attorney to file the necessary petition to obtain the decree from the circuit court. The report, of which the above is the substance, was accepted.

The board further recommended that a special election be called to vote \$5,000 to the street fund for building crossings throughout the city, of which about 200 are needed at the present time. Referred to the finance committee.

A petition was presented signed by L. L. Jaynes and 19 others asking that the council reconsider the action granting the street railway the right to run on E. University-ave. The petition was laid upon the table.

A petition from Mrs. Sophia Pierce claiming that she was injured by falling into a hole on Pontiac-st and asking that the matter be looked into and that she be compensated for the injuries was referred to the city attorney.

The bid of the Ann Arbor Savings Bank for the depositing of the city fund was accepted. They agree to pay 3-10 per cent on daily balances and charge five per cent on overdrafts.

The finance committee made their report a recapitulation of which is as follows:

The above was received and adopted and warrants ordered drawn.

The committee recommended that the salary of the health officer be fixed at \$150, of president \$50, and of inspector \$50. Adopted.

Seventy-five dollars was allowed for painting the engine house.

The city marshal reported 15 arrests made during May; 7 drunk, 3 assault, 3 larceny, 1 vagrancy and 1 violating city ordinance.

John R. Miner reported that he had examined the books of the city clerk and books and vouchers of the city treasurer and found the same correct.

Ald. Miller offered the following: Whereas, There are numbers of trees in this city that are an obstruction and a nuisance in our streets and sidewalks to the public, therefore be it

Resolved, That the board of public works are hereby ordered to cut down and remove said trees.

Carried.

An ordinance was read a second time in relation to the public health.

The liquor bonds of Ludwig Walz and Christian Roth were accepted.

The street committee reported in favor of adopting the recommendation of the board of public works that the expense of opening streets hereafter be raised by assessment on adjoining property. Laid upon the table.

Ald. Hall moved that E. B. Norris be employed at a sum not exceeding \$150 to assist the city attorney in revising the city ordinances. Tabled.

Adjourned.

## The Street Railway.

Mr. Barkley, a contractor from Chicago, was in the city, Saturday, in company with Messrs. Corlies and McLaughlin, looking over the lay of the land prior to commencing work on the street railway. The general plan of work was laid out and in fact all the preliminaries were arranged for. It is still undecided whether the company will furnish their own power or secure it from the electric light company. The material for the road is expected to be here by the end of next week, so that the company will be able to fulfill their contract by commencing the construction before July 1st.

Herbert Gladstone will visit the United States and Canada during the coming summer.

## THE GARFIELD CYCLE.

**Honor to the Memory of the Noble Martyr.**

Twenty miles to the southeast of Cleveland, on the extreme verge of Cuyahoga county, is the pleasant village of Chagrin Falls, builded at the rapids of the same name. Three miles from this village, and about a mile north of the Cleveland road, in the southern part of Orange township, is the old Garfield farm.

At present Chagrin Falls has a population of about 2,000, but fifty years ago it could not have had a population of more than two or three hundred. Some time before 1870, General Garfield said to the writer, as we walked along one of the streets of this village: "When I was a little boy, I came regularly to this place once a week in the summer season, bare-footed and wearing a 'chip' hat. I was sent by my mother, bringing a little pail of butter, three or four pounds in weight, that she had been able to save above the wants of the family. This I exchanged at the store for a little tea, coffee or sugar, a paper of pins and some thread, or such other small articles as the wants of the family demanded, and then trudged home again over the hills to Orange."

This bit of history very fitly characterizes the beginning of the Garfield Cycle.

Cleveland is a beautiful city of 250,000 people. It never appears to better advantage than on a perfect day at the end of May or at the beginning of June. This has been such a day. The city has been full of strangers. The president, vice-president, members of the cabinet, the chief justice, the general of the army, a greater soldier once the general of the army, the governor of the state, a multitude of men distinguished in public life, civic societies and military organizations have been here. The city people have turned out en masse. The city is aflame with flags and other decorations. From Monument Square to Lake View Cemetery, five long miles, a distinguished procession moved along Euclid ave, three hours in motion, between masses of people that have lined the avenue, often ten or twenty ranks in depth, throughout the whole distance, and then on through the cemetery, also filled with people, to the high ground in the rear on which the American people have erected the magnificent memorial to President Garfield. All the arrangements were perfectly made beforehand and there has been no break or jar in carrying them out. Everybody has been pleased and delighted. This is the program presented at the monument:

**ORDER OF EXERCISES.**

Music, "America," Memorial Chorus. Introductory remarks by the President of the Memorial Association, Hon. Ruford B. Hayes. Prayer, Eight Rev. W. A. Leonard. Oration, Hon. Jacob D. Cox. Music, "O, Weep for the Brave," Mettske, Memorial Chorus. Presentation of the President and Vice-President of the United States, Members and ex-Members of the Cabinet, the General of the Army, and the Governor of the State of Ohio. Music, "O, Weep for the Brave," Mettske, Memorial Chorus. Brief eulogies by the Knights Templar. Music, Doxology, Memorial Chorus. Benediction, Rev. T. D. Powers, D. D.

To-day's celebration is the close of the Garfield Cycle. He whom the people have thus honored has himself significantly suggested its deepest meaning. In one of his most finished public utterances, characterizing the genius of America, he once said: "We point to the fact that in this country there are no classes in the British sense of the word,—no impassable barriers of caste. Now that slavery is abolished, we can truly say that through our political strata above which none can pass. Our society rather resembles the waves of the ocean, whose every drop may move freely among its fellows, and may rise toward the light until it flashes on the crest of the highest wave."

B. H. A.  
Cleveland, May 30, 1890.

## Memorial Exercises.

Contrary to all expectations last Friday, Memorial Day, passed off without a drop of rain to mar the usual exercises. At 9 o'clock Welch Post, G. A. R., proceeded to the Fifth Ward and Forest Hill cemeteries and decorated the graves of their deceased comrades with appropriate floral designs. Services were held in strict accordance with the ritual.

In the afternoon the line of march was formed at the corner of Main and Washington streets from whence the procession proceeded to University hall. The line was made up as follows: Maj. Millard, 1st Regiment M. S. T., and Maj. Harrison Soule; Gibler's Band of 12 pieces; Co. A, M. S. T., with 30 men in line; Patriotic's Militant, with four sets of three, colors and guard, and two officers; Sons of Veterans drum corps of eight men; Welsh Post G. A. R., with 60 veterans; and J. T. Jacob's Camp S. of V. in considerable numbers.

About 1,200 people collected in University hall and listened to an excellent oration by Col. John Atkinson, of Detroit. Music was furnished by a male chorus under the charge of Prof. A. A. Stanley. After the services were over the procession marched down to the place where organized and broke ranks.

## The College Alumnae.

The meeting of the Detroit Branch of the Association of Collegiate Alumnae was held in this city, last Friday, with about forty non-resident members in attendance.

The business hour was set for 11 o'clock and was mainly taken up with the reports of the committees on endowments and fellowships. Miss Ardisle Young holds this year's fellowship at the sum of \$300 and is at present pursuing work at the University of Michigan.

In the afternoon an appreciative audience listened with interest to papers on

"Social Life in Colleges" by Miss Isabella G. French, Wellesley '83, and Mrs. W. H. E. Emerson, Vassar '72, while Mrs. Alice Freeman Palmer, formerly president of the Wellesley college and now president of the General Association of Collegiate Alumnae, supplemented with an admirable talk on the same subject.

In the evening a reception was tendered Mrs. Thomas S. McGraw, the president of the branch, and the visiting members at the Delta Upsilon house, from 8 to 11 o'clock. Music was furnished by the University Glee Club.

## THE GREAT GILMORE

And His Wonderful Band.

The Annual June Musical Festival of the Detroit Musical Society will be held in Detroit, June 9th and 10th. In view of the remarkable success of last year the Society have thought best to again engage the services of the renowned conductor, Mr. P. S. Gilmore, and his famous band. The Grand Chorus of the Society is this year larger—now numbering 600 voices—and will be heard to better advantage than ever before. The Society will be assisted by the vocal artists of the Gilmore organization, all of whom are brilliant singers of reputation; also by a chorus of 500 children selected from the public schools of Detroit, whose performance is alone worth going miles to hear.

It is not too much to say that as the result of the combination of these exceptionally fine musical bodies, the June Festival of 1890 will excel in attractiveness and prove more thoroughly enjoyable than any of its predecessors. Ann Arbor will send a large delegation.

## A Former Ann Arborite's Exploits.

F. W. Jewell, formerly well-known here as one of the proprietors of Cook's hotel, appears to have met with poor success since leaving here. He managed hotels in different Ohio towns, at Lansing, and at several southern summer resorts, and now appears to have placed himself in an unenviable position, as the following from the Birmingham, Ala., Age-Herald shows: "F. W. Jewell, late proprietor and manager of the Cadwell hotel, has left town, and it is said that he has gone for good. He carried off with him all the books and papers of the house, and to record can be found which will explain his management of the house. During his absence from the city, Dr. Caldwell requested Jewell's manager to permit him to examine the books. He was told that that could not be done until Mr. Jewell returned. When the latter got back several demands were made for the books, but Jewell succeeded in staving the examination off until it was too late, and the books were gone. When his game was discovered, an attempt was made to intercept him, but in vain. It is said he has not settled anything, and will most assuredly not assume the management of the hotel again."

## CURRENT OPINION.

[Congressman J. P. Drollerin, Ohio.]  
"This nation has less than half conquered the confederate army if the ideas that formed the basis of confederate politics are to remain a part of our national life."

[Mail and Express, N. Y.]

That in the year 1890 an American city should be robed in the rebel colors which it took the nation four years of bloody and terrible effort to tear down, is one of the most deeply shameful things in United States annals.

[Gen. Sickles at Boston, May 30.]

I read in the morning papers a description of the ceremony at the unveiling of the statue of Gen. Lee in Richmond. Now, comrades, I yield to none in the sentiments of fraternity and charity that actuate you and our country. I am unmoved by any rumor or aspersion or hatred toward the men we met in battle, but I am an American; I am a Union soldier and I love my flag, and I say here and will say everywhere, that for Americans there is but one flag—[tremendous cheering and cries of "Good! Good!"]—the flag of Bunker Hill and Saratoga and Yorktown, the flag of Lundy's Lane and Lake Champlain and Lake Erie and New Orleans; the flag of Scott and McDonough, Perry and Jackson; the flag of Lincoln, the flag of Hancock, the flag of Grant, the flag of Washington, the only flag deserving of honor from Americans.

It is the only flag that should float over this broad land. It is the flag that represents the right and in all our charity let us not forget the difference between the right and the wrong.

BADLY DRENCHED. The Town of Loveland, Ia., Suffers from a Flood.—COUNCIL BLUFFS, Ia., June 3.—Loveland, a little village on the Northwest-ern road, in Harrison County, was deluged by a waterspout Saturday night which caused great damage, put many lives in peril and resulted in the loss of one. The town is located on the Boyer river, and to the eastward stretched a gully which gradually increases in width as it leaves the town. A mile or so up the gully a cloud surcharged with water poured a fearful flood into the gully and a great wave swept down upon the village. It gathered more and more force until at last it rolled onward like the ocean tide. A building located some distance from the river was twisted around on its foundation and left in an almost ruined condition. The dwelling houses in all parts of the town were flooded, their contents ruined and their inmates compelled to flee for their lives. The depth of the flood varied from three to ten feet in different localities. The house of Luke Sayles, a short distance from the river, was the scene of the direst mishap. The family, consisting of Sayles, his wife and son, and the latter a young man of 23, were driven out of the house by the incoming flood. Finding their escape cut off in the front, they left the house clinging together, hand in hand, going out of the back door. In the back yard there is a steep slope from front to back, and the current of water was so swift that all three were swept from their feet and lost their hold on one another. The old man and his son seized a clump of willows past which they were swept by the current and managed to save themselves. Mrs. Sayles, however, was carried past this slender refuge, and all that her husband and son could do was to watch the mad waves sweep her down into the Boyer river to her death. She was never seen again alive. All Saturday night and all day Sunday the friends of the family were busy dragging the river for her body, but they were unsuccessful, and it is probable that if the body is ever recovered it will be many miles below. The waters have now subsided and the town presents a picture of desolation.

A LETTER from a Chicago concern calling itself "The Society of University Extension and Home Culture" asks for the notice of a meeting here. The University authorities do not recognize this society or encourage its methods.

In Minnesota a law has been passed making it compulsory on the courts to imprison a person convicted of drunkenness for the third time. It is said this has decreased drunkenness in that state fifty per cent. in a year, and has considerably diminished the sale of liquor.

JOSEPH B. MOORE, cashier of the Peninsular Savings bank of Detroit, and the efficient treasurer of the republican league of Michigan, will be a candidate for the office of state treasurer. He has excellent qualifications for the position and will, undoubtedly, have the endorsement of the entire delegation of his county.

The Chicago Herald declares, very truly, too, that Russell A. Alger is a "tariff-made man." The tariff has made him very rich. But he is not the only man the tariff has made. It has made the farmer—very poor.—Monroe Democrat.

If the tariff will make more men like Alger, give us more tariff. As to making the farmer poorer, that is not so. The farmers of this country were never more prosperous than under protective tariff laws, and they know it too.

The Detroit Tribune devotes a column of its valuable editorial space in last Sunday's edition to one of its most puerile attacks upon the University students. One unfamiliar with the facts in the case and with the feeling of opposition to the University usually exhibited in the Tribune editorial department, would, upon reading its leading editorial last Sunday, conclude that the students here were without exception a set of rowdies fit only for the house of correction. Such articles are clearly designed to injure the University and probably will affect some few voters among the more ignorant classes. It is not reasonable to suppose, however, that right thinking people will be influenced by such nonsense.

In the circus row, which affords the Tribune with an excuse for its uncalled for abuse, there were among the students not more than a dozen or fifteen at most who were in any way to blame. This is an exceedingly small number of lawless people among so large a number of law abiding students, representing as they do, nearly every state and territory in the union. It is to be regretted that a conflict was precipitated by a few fellows who doubtless were longing for a little rowdy sport. Could their names be found out they certainly would be dealt with as they deserve. The punishment they should receive, however, should be small as compared with the severe condemnation of the editor of the Tribune deserves for publishing such a ridiculous article.

While hinting that every student here is none too good to be in state's prison, the Tribune makes the feeble endeavor to curry favor with the farmers by indirectly warning them against voting for legislators who will be likely to favor the University. There is no other class of people in the state among whom, in proportion to their numbers, there is less rowdiness and lawlessness than among the students at Ann Arbor. A little investigation would prove this to the satisfaction of any right thinking man. As for influencing the more intelligent farmers against the University the Tribune has a big job on its hands. Anybody with only a little bit of intelligence is able to appreciate the fact that the University of Michigan has, directly and indirectly during the past fifty years, caused a sufficient amount of property outside of that actually belonging to the University to be brought into the state or to be developed within its borders, to pay, in taxes, an amount more than double all the appropriations that the state has, in various ways, made for its support during this time. Thus it becomes evident that maintaining such an institution, instead of increasing taxes, is, from a purely financial point of view, actually a source of profit to the state. This is something the Tribune might reflect upon to good advantage. The benefit of greatly increased intelligence in the state does not seem to cut any figure with the above named paper.

Its attempt to influence farmers against appropriations for a gymnasium is another example of its wisdom. It is the farmers' boys above all others who need a gymnasium, and who would derive the greatest benefit from one. Hundreds of young men come here every year direct from the severe physical labor of the farm and devote their entire time to their studies. The

inevitable result is that many of them break down before the end of their course. With city boys it is different. They are not accustomed to any great amount of physical exercise, hence the change is not great and less evil results follow a close application to study. If the Tribune has the best interests of the farmers at heart as it pretends, and not merely their votes against the University, it would urge, above all else, that a first class gymnasium should be built and thoroughly equipped at once. Otherwise the intelligent farmers who read and help support newspapers will only laugh at the foolish efforts of the Tribune in trying to gain their favor by ridiculing the attempts made to secure a gymnasium for the use of their children while here at school.

**THE "LITTLE BIRDS TWITTERING, BEAKES FOR CONGRESS."**

From the Adrian Times.  
 The Ann Arbor Argus, some weeks since, had an article seeming to favor Banker Cook, of Hillsdale, as a Democrat candidate for Congress. The Times noted this fact, and as a chronicler of the news of the day, stated the further fact that down this way the proposition was to nominate Mayor Bean, and we added the thought it looked "a trifle queer to see the Argus engineering a Cook boom."

Subsequently the editor of the Argus paid Adrian a visit, and if he did not frequently run across the Bean boom here all we can say is that the soft soporific influences that have environed him in Ann Arbor have robbed him of the keen scent for news, and the aptness for political diagnosis, which were characteristic of him when he sojourned hereabouts. But if he failed to steer entirely clear of the Bean boom, it looks certain that it failed to encompass him, as witness the following from his paper:

"Why does it look a trifle queer? [Engineering the Cook boom.]  
 "The Argus does not understand that Lenawee lays claim to the congressional nomination, or that Mayor Bean is a candidate. Is there any reason why a Hillsdale man should not be mentioned in connection with the congressional nomination, or a Monroe or Washtenaw man for that matter? The democracy fortunately do not care so much for county lines as to allow such divisions to interfere with the choice of strong candidates, but if they did a Lenawee candidate would be out of the question, especially a new one. Lenawee has furnished the democratic candidate for the last five congressional elections, and in that time three different men have borne the banner to victory or defeat. We repeat, the only proposition to nominate Mayor Bean, that has come to our ears, has been that of the republican Times. The Mayor is a good democrat, and we doubt if he likes that kind of a sponsor for his political aspirations."

Hush my babe, he still and slumber. If you didn't hear the booming of the Bean while you were in Adrian you had cotton in your ears continually.

Again, THE TIMES has not proposed to nominate Mayor Bean, and does not propose to. But it is fact that it is patent to everyone here, who is not naturally or purposely blind and deaf, that a large number of tried and true democrats are working and will work to give our Mayor the nomination for Congress in this district.

Moreover, THE TIMES has no idea of standing sponsor for Mayor Bean, and we have no notion that he desires it for a godfather. We had supposed the Argus was newspaper enough to know the difference between stating a fact and expressing an opinion. According to its theory if it prints the fact that a burglar has been committed it makes itself a coparcener with the burglar.

Some months since, before Brother Beakes began wearing cotton in his ears, there were little birds twittering through the district—"Beakes for Congress." Can it be that this little song sounded to him so sweet that he at once clapped cotton in his ears and has been since deaf to all other sirens songs? Else why did he fail, on his recent visit to Adrian, to hear the thunder of the boom for Bean?

### ON THE CAMPUS.

The Latin play was a big success.

Oberlin versus U. of M. next Saturday.

The election of Argonaut editors will be held Saturday morning.

The election of officers of the Webster Society was held last evening.

The parties injured during the recent fracas at the circus are all recovering.

The delegates of the Inter-collegiate Oratorical Association will meet next Saturday.

Mr. A. E. Jennings, lit '89, now of Jenu, Germany, reports an eight pound boy born May 18th.

A number of alumni were guests at the fraternity houses, Saturday. They came to see the Latin play.

Prof. Knowlton is now able to be on the streets again. He has been having a hard struggle with the malarial fever.

The California students will return to that state at the close of the college year in a body and a special car will be placed at their disposal.

Judge Kinne has set June 16 as the date upon which he will examine the members of the senior law class for admission to the bar.

T. Kerl was elected president of the Students' Lecture Association at the meeting Saturday morning. The remaining offices will be filled June 16.

It was the expectation that the faculty would take some efficient action last Monday night on the recent circus row, but nothing was determined upon.

A week from next Saturday the Shiawassee county teachers, some two hundred strong, will visit the University. Rumor has it that they will take possession of the city.

The Universities defeated the D. A. C. at base ball, Friday afternoon, by a score of 19 to 6. The morning game was not played because the suits of the Detroit nine did not arrive.

The supporters of the Independents' paper met last Saturday and adopted a constitution. The list will have 7 editors, the laws and medics each 2 and the rest will be parceled out among the other departments.

Bannon, the substitute pitcher of the Universities, did some fine work against the Agricultural College team at Lansing last Saturday, they only being able to get four hits from his delivery. The result of the game was 19 to 5 in favor of the U. of M.

Mr. E. L. Miller, who is quite prominent in University organizations, having this year been manager of the Chronicle, Castalian and the base ball team, will soon accept a position in the telegraphic department of the Detroit Tribune.

Next Monday will decide the class championship in base ball. The senior lites defeated the junior medics last Tuesday afternoon by a score of 9 to 1. The senior laws have taken the game from the dental students by default. On the above date the senior lites and senior laws will cross bats for the pennant, and as there is a good deal of rivalry an exciting game may be expected.

Mr. G. M. Walker, jr, left Wednesday to accept a position with the A., T., & S. F. R. R. Having already been in the employ of this road, he realized that it was best to accept the fine offer they made him, notwithstanding it keeps him from obtaining a diploma with the other members of the class. The senior class loses its treasurer, and the Engineering Society its president by this departure.—Argonaut.

The last meeting of the Webster Society was held last evening, the program including the following: Declamation by T. W. Hughes; essay, H. M. Porter; oration, Torajiro Mogi; debate, "Resolved, That the Supreme Court of the U. S. should be the judge of the election, returns and qualifications of the members of Congress;" affirmative, J. C. Vinsonhaler; "Our Professors," C. C. Butler; "College Friendships," F. J. Lynch; "Our Bachelors," W. H. Wadley; "Our Futures," J. W. Curtis; "Our Benefactors," J. T. Condon; "Cooley Club," H. M. Porter.

### THE LATIN PLAY.

There were about 1200 persons present at University Hall last Saturday evening, to witness the first production on this side of the Atlantic of the Latin play, "The Menaechmi" of Plautus. Messrs. Smith and Parry as the twin brothers, and Mr. Meader as Cylindrus, made hits. The incongruity of the bass voices and female attires of the gentlemen who took female parts was the cause of much mirth until the audience became accustomed to it. That the rendition of the play was a success goes without saying and those who took part were amply repaid for the vast amount of time spent in preparation by the reception given them by the audience.

## Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently.

It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind. Headache

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

## The Beautiful Guild.

ALVIN WILSEY, ESQ., Ann Arbor, Mich.

Dear Sir:—We purchased a Guild Piano of you nearly (or quite) nineteen years ago. We also purchased a Boardman & Gray of you four years ago. If the B. & G. will do as good service as the Guild has we will be perfectly satisfied with it. Thus far, however, the Guild has stood better, and required less tuning than the Boardman & Gray.

South Lyon, Mich., March, 1890.

WM. DOTY.

Mr. W. F. Griffith, of Howell, (in the employ of Farrand, Williams & Clark, of Detroit), has just decided on a "Guild," after looking the field over pretty generally. Said a teacher of many years experience, "It is the best Upright Piano I have ever seen." It is the best selling Piano I have ever sold; for the reason that it is a PERFECT Piano at a REASONABLE price. Sold for cash or on easy monthly or quarterly payments.

I have sold a good many "Guild" Pianos. Every one without exception, has given complete satisfaction. They are EXQUISITELY finished and please the most fastidious customer. I say emphatically that I have never seen a more perfect piano in detail, AT ANY PRICE, BEARING ANY NAME. Finished in mahogany, walnut, rosewood, etc. See them before you buy. Prices reasonable. Over 25,000 in use. Have been manufactured in Boston nearly thirty years.

A DAY OF DISASTERS.

Many Fatal Accidents Reported from Various Localities.

A Train in California Plunges Into a Stream, and Men, Women and Children Are Drowned—Casualties in Other Places.

THIRTEEN LIVES LOST.

SAN FRANCISCO, May 31.—One of the most horrible railway accidents ever known in California occurred at 1:40 o'clock Friday afternoon, when a local train connecting at Oakland with the ferryboats from San Francisco ran through an open draw bridge over San Antonio creek at Webster creek, Oakland. The yacht Juanita had just passed through the draw when the train appeared, going in the direction of Alameda. The draw-bridge keeper endeavored at once to close the bridge, but it was too late, and the engine and tender and the first car, which was filled with passengers, plunged into the estuary, which was here quite deep. Engineer Sam Dunn and Fireman O'Brien went down with the engine, but were picked up and immediately disappeared. The former, when he saw that the bridge did not close, reversed the lever, but the momentum of the engine was too great to be stopped in time. The weight of the engine and the first car broke the couplings and left the other two cars of the train standing on the track. The second car ran about one-third of the way across the bridge and stopped, but the jar was sufficient to break open the front of the car, and many of the passengers were thrown into the water.

The first car, which had followed the engine to the bottom of the muddy estuary, soon rose, and such of the passengers as had escaped therefrom were picked up by yachts and small boats which had gathered at the scene.

In a short time thirteen bodies lay on the floor and on the marble slabs of the morgue, awaiting identification.

STRUCK BY AN EXPRESS TRAIN.

MARION, Ind., May 31.—Two women and two children were killed Friday afternoon near the eastern limits of the city, where the Pan-Handle track crosses the Jonesboro pike. The Chicago, St. Louis & Pittsburgh express, west-bound, running fully fifty miles an hour, collided with a buggy and killed Mrs. O. J. Stone and her two children and Mrs. Poe Wimmer.

NORWICH, Conn., May 31.—An express train on the New York & New England railroad struck a wagon containing four woolen-mill employes at a crossing in Putnam Friday evening. Zed Robillard, who was driving, was instantly killed, and Frank Gartefer and two sisters named Duprey were probably fatally injured.

FOUR MEN KILLED.

PUTNAM, Conn., May 31.—Four men were killed by the cars here yesterday. They attempted to drive across the track in front of a train.

The complete story of Stanley's recent thrilling adventures and the disclosure of his important discoveries will appear for the first time in the work written by himself, entitled "In Darkest Africa." Do not be deceived by any of the so-called "Stanley books" now being offered as "genuine" and "authentic." To no one of these has Stanley contributed a line.—We are now ready to appoint canvassers. Applicants should state experience, if any, and first, second and third choice of territory. Remember that Stanley's own book, the only one in which he has a personal interest, will bear on the title page the imprint of

HAMILTON, ROSE & SHEEHAN'S

ADDITION to the City of ANN ARBOR

We believe Ann Arbor is the Best City in Michigan IN WHICH TO LIVE.

The Educational Advantages here are unsurpassed! The Streets are broad and well kept! Ann Arbor has a low rate of taxation! It has the best system of Water Works in the West.

Our Addition is just five Blocks from the University of Michigan; it has a front of One Hundred Rods on State Street, the best residence street in the city. Its location is unsurpassed for health and convenience. The levels taken by our Engineer, Geo. W. Sanborn, show the lowest point to be higher than Main Street in front of the Savings Bank. The slope of the ground is such that the drainage is perfect, having a fall of from six to ten feet.

We have filed our Plat and have given

8 1-2 Acres for a Park.

We have paid Fifty Dollars for a handsome and attractive plan for a Park.

Work will commence on the streets and Park early in April. Four new houses are already contracted for to be built upon our addition this year. New sidewalks will be laid, shade trees will be planted upon the streets and Park. Two professors in the University have already purchased Lots in this addition, and will soon build good houses on their lots.

All the Lots have an Alley 16 feet Wide, in the rear. We have made the price of the lots very low. If you buy a Lot we believe you will double your money in three years time.

The Investment is Safe

as a Savings Bank, and the gain much more rapid.

We will sell Lots for Cash. We will sell lots on time Payments.

We will sell Lots to parties who wish to build houses at once, and will help them to furnish money to build.

Buy a Lot, Money Made!

Payments may be made by the week, by the month, or by the year as suits purchaser.

Call at Sheehan's Store, or at Hamilton Block to see the Plat. We have the Park Plans. We desire those intending to purchase lots to examine them. Call and see them.

The new buildings on State Street this year will amount to Fifty Thousand Dollars. Investigate what we have, then judge for yourselves. This is better than a Loan and Investment Association. Your money is kept at home.

SUCCESSFUL TREATMENT

Of Chronic Diseases at the Provident Medical Dispensary, New York City - A Word to the Afflicted.

Are you accustomed to think and act for yourself? If so, do not heed the counsel of skeptical friends or jealous physicians. You perhaps know nothing of us nor our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing then of all these advantages you still know as much as the would-be friend who never loses an opportunity to pre-justify the afflicted against us. We wish to add that we are responsible to you for what we represent, and we would ask you to call on Dr. Fruth, Examining Surgeon of the Provident Dispensary, on the occasion of his visit to Ann Arbor, Cook House, Tuesday, June 10th, and examine our record of cases cured, when hope of cure had been abandoned. We court honest, sincere investigation, and the Doctor will be glad and anxious to show interested people what we can and are daily doing for suffering humanity. If, therefore, you are afflicted and are seeking relief, go where genuine ability is a ruling feature and the alleviation of human suffering our mission.
