Births and Deaths in the County.

The supervisors of the various townships in the county are now filing their reports of births and deaths with the county clerk, for the year ending Dec. 31, 1889. Aon Arbor leads by a large majority in both the births and the deaths, while the township showing the best record is Lima, where there was but one death and fourteen births. Comparing the births and deaths, Salem shows the poorest record— four deaths and two births, being the only township that shows a falling off, although Dexter stands just even, six of each. The oldest person who died during the year was Mrs. Hettie Morton, who died at

the county house, and is reported as being 110 years of age. There were three others who were 90 years of age or over, William Turner, of Dexter, 90 years; Mrs. Ruckman, of Manchester, 90 years; John Kanouse, of Saline, 93 years.

There were 32 deaths in the county of persons who were eighty years of age or older, those in this city being as follows: Nelson B. Beers, 81 years, 7 months; John Geddes, 88 years, 7 months; August Hutzel, 82 years; W. W. Dean, 87 years, 11 months, 17 days; Mrs. Mary E. Clark, 84 years; Peter Carey, 80 years; N. A. Pruden, 84 years, 3 months; Mrs. Valonia Nickols 82 reages 6 months; Mrs. Valonia Nichols, 83 years, 6 months, 12 days; Mrs. Bethuel Potter Gilbert, 82 years, 3 months, 25 days; Miss Harriet Mason, 81 years, 4 months; John Courtney, 84 years, 11months, 20 days.

mained of their worldly goods, he led the way into the western wilderness. The journey was long and laborious, and it ended when they pitched their last camp under the old oaks on that beautiful spot to which they gave the name of Ann Arbor. There they found other pioneers of like principles and purposes. The spirit that brought them hither never flagged. They devoted themselves to the work of civilization. To clear and develop the resources of the country; to secure healthful surroundings; to establish schools and churches: to inspire the people with a spirit of liberty and equality; to prepare the territory for its place among the states of the Union, and make it one of the noblest of them all; this was the task they set themselves, and they accom-plished it. And when their labors were ended they were reverently laid to rest in the spot selected by their children. These marked the resting places as best they could. When they were compelled to leave the neighborhood for other fields of duty they trusted to the respect and sense of duty of the enlightened community which had mere an other the terms of the terms of the sense. which had grown up there to guard their graves or to decently remove them to some suitable location when it should be-come necessary. Half a century has passed since then. The children of the pioneers are scattered or dead. On this sacred Decoration Day all the land is gathering around the graves of its heroes. One of Ann Arbor's noblest women, with her associates from other states, is at the tomb of Washington, giving her best thought and labor to the care of that thought and labor to the care of that place, which has rightly become the Mecca of all Amer cans. In this year of grace the whole world is pressing forward to the sepulcher of Christ when, centuries ago, angels announced "He is not here, He is risen." And on this day I read the published statement that the leading citi-rans and officials of Ann Arbor are her zens and officials of Ann Arbor are bargaining to find the man who, for the smallest number of pieces of silver, will dig up the bones of its founders and cart them away to some unknown place. The proposition is monstrous: to carry it out would be infamous! Ann Arbor cannot afford to do such an out ageous thing. On its community rests the responsibility f allowing the old cemetery to fall into run and become a disgrace. The grewth and advancement of the city make it necessary that the cemetery should be re-moved, but the memory of the band of men and women who founded the city and imbued it with the spirit which made its success possible should not be forgotten. There is no need for the undue haste and impatience which have been manifested. Interested persons should be notified of the proposed change. The records of burials and lot ownersh p should be gathered and preserved. The location of the graves in the old cemetery can, in of the graves in the out care, and the place many instances, be determined. This should be done with care, and the place of reinterment properly marked. Some day a history of that part of Michigan Territory, and of the local organizations, will be written and on the data which will be written, and on the data which may be now secured and preserved, or forever lost, its correctness and completeness will largely depend. The principles and the examples of the dead are the heritage of the living. The memory of the pioneers should be cherished—their graves should not be obliterated. At Arlington stands a tombstone dedicated to the memory of eleven thousand soldiers, and on it is the touching and pathetic in-scription "Unknown." If Ana Arbor can do no better let her collect the remains

COMMUNICATION.

A Reminiscence of the Old Dominion.

The brightness and the glory of this closing day of the beautiful month of May, 1890, are shining over the mountains and valleys of this fairest portion of old Virginia. From this mountain side I look down on a picturesque valley through which flows a rushing stream. Sixty-six years age today an old man looked down from this spot on the ruins of the home that he and his father had spent many years in building. Houses, mills, crops, had been swept away in a night by a disastrous flood, and of all his possessions little remained except his wife, his children, and his courage. Born of Scotch-Irish ancestors, whose love of liberty had broken the bonds of monarchies and sent them across the seas to found a home under the banner of freedom, he regarded liberty as the best inheritance he could leave to his children. Having spent his life in an atmosphere of slave-holding aristocracy, and comprehending the logic of events, he foresaw the coming contest between the South and the North. With the burden of this conviction upon him he decided, for himself and his people, that they should be on the side of God and freedom. Then gathering them together, with what re- | ance of the grounds than this walk.

MORE CAMPUS.

N. D. Corbin, B. S. '86, who takes his M. S. degree this year, has been appointed professor of political economy in the State Agricultural College at Lansing.

The Coldham Bros., of Toledo, champion tennis players of Ohio, will play several matches with Messrs. Angell and Page, on the campus courts, Saturday, June 14, at three o'clock.

On Frilay, the Northern Oratorical League was formed by delegates from Oberlin college, University of Wisconsin, Northwestern University and the University of Michigan. It is expected that Cor-nell and possibly Princeton and another eastern college will enter the league, making a truly representative intercollegiate oratorical society. Annual contests will be held, the first one to take place in this city on the first Friday in May, 1891.

Argonaut: The programmes used at the performance of the Menzechmi at Centhe tral Music Hall, in Chicago, last evening, were unique in design, and will be a fit-ting souvenir of this memorable occasion in the annals of the Chicago Alumni Association. The programmes were in the form of parchment rolled in true Latin style, about twelve inches long and tied with our yellow and blue. The announcement was printed in Latin, after which came the cast of characters, followed by the list of officers of the Alumni Association and a short statement concerning its aims and intentions.

Secretary Wade is proud of his "boulevard," as he calls the elegant new walk which has just been finished on the Statest side of the campus. The walk was laid by Wm. E. Caligan, of Jackson, and is the longest piece of patent stone walk in the state, being eighty rods long and six feet wide. The walk is as smooth as a billiard table, made of Portland Stettine cement, and the secretary is certain that the walk will be there in good condition a century hence. Mr. Wade is highly delighted with the walk, all the more so as the contractor completed the job a week before the contract expired. The height of his ambition now is to have the walk continued on the other three sides of the campus, and make one of the finest promenades in Michigan. Certainly none of the many improvements directed by Mr. Wade, have added more to the appear-

LITERARY NOTES.

The June Century opens with another article by Albert Shaw, whose paper on "Glasgow" recently attracted so much attention. This time Mr. Shaw treats of "London Polytechnics and People's Palaces." John La Farge, who is writing "An Artist's Letters from Japan," this month describes the very beautiful temple of lyémitsu, and makes some general remarks on Japanese architec-ture. Perhaps the most striking feature of this number is the beginning of another anonymous novel called "The Anglomaniacs." The scene is laid in New York, and the story is evidently written by one who knows well the sit-uation. The pictures are furnished by C. D. Gibson. A paper illustrated with four very striking wood-cut engravings by Elbridge Kingsley is devoted to the young American, Albert Pinkham Ryder, who is here called "A Modern Colorist." Joseph Jefferson's Autobiog-raphy, this month deals with the raphy this month deals with the "Keans in Australia," there being full-page illustrations of Mr. and Mrs. Chas. Kean. Charles de Kay has another paper in his series on Ireland, this one being entitled "Irish Kings and Bre-hons." An extremely timely paper is Edward Atkinson's on "Comparative Taxation," which will be found to bear directly upon current discussions of tariff revision. "What's the News?" is a fresh and interesting statement, by Eugene M. Camp, of the cost of gathering news, with other matters germane to the subject. He publishes, by per-mission, some striking figures in this connection. Century Co., New York.

"Midnight Talks at the Club" is the title of a volume published by Fords, How ard & Hulbert. It is made up chiefly of a series of articles under the same title from the Sunday issues of the New York Times, which excited a good deal of interest when they first appeared, and of an article entitled "A Protest Against Dogma," by the same author, Amos K. Fiske, which attracted much attention in a recent number of The Forum. These papers contain free and candid discussions of various religious, social, political, and moral questions that interest thinking people of the present day. Fresh and attractive in style, they are practically an appeal for politics without prejudice, Americanism without proscription, religion without superstition, Christianity without creed-lines, and, in brief, for toleration, common sense, and reasonable views about the Deity and man's relations to Him, as the solvents for most of the "prob-lems" of the time. 16mo, vellum clo., gilt top, \$1.00. New York: Fords, Howard & Hulbert.

The frontispiece of the Magazine of Art for June is a photogravure of Hu-bert Herkomer's famous painting, "The Chapter of the Charterhouse." M. H. Chapter of the Charterhouse." Spielman opens the number with a paper on "Current Art," which is filled with interesting studies by well-known artists. This is followed by a paper on "Satsuma Ware and its Imitations" by Masayuki Kataoka, fully illustrated. Then comes the first of a series of papers on the National Gallery of Ireland. A paper that cannot fail to attract the attention is "Rhone Sketches," by Joseph Pennell. "The Literary Remains of Albert Dürer." with illustrations, is a valuable paper, but the one with a more contemporary literary interest is the second of W. M. Rossetti's series on "Portraits of Robert Browning." Cassell Publishing Company, New York. \$3.50 a year in advance.

The question of hours of labor is dis cussed by General Walker in the "At-lantic" for June. He has made social questions a study, and his criticisms and suggestions on the present "Eight-Hour Law Agitation" come from a man more fully fitted to speak with authority than any one in the United States. Charles Dudley Warner's article on "The Novel and the Common School," is a keen analysis of the duty of the public schools in the supply of reading for our young citizens. This and Hannis Tay-lor's consideration of "The National House of Representative: Its Growing Lossician as a Logislative Body," are Inefficiency as a Legislative Body," are two articles which make up the solid reading of the number. Dr. Holmes discusses "Book-hunger," the uses of cranks, and tells a curious story entitled "The Terrible Clock". Honetter Mit "The Terrible Clock." Houghton, Mifflin & Co., Boston.

The postoffice war waxeth warm at Chelsea, but nothing definite has yet been done, although 'tis said that Wm. Judson is almost certain of the appointment. The latest prop-osition is to petition for the appointment of Miss Alice Gorman as a compromise.

The June meeting of the Saline Farmers' Club will be held at the house of S. R. Crittenden, in Pittsfield, tomorrow. The topic for discussion will be: Resolved, That the times are no harder for farmers than ten years ago." H. D. Platt will read a paper on "Money in Politics; Its Effect on Taxation."

Chelsea Standard : During the past supervisor year, there were eighteen deaths in this township, as Supervisor Gilbert finds. Of these nine averaged 761 years each, the other nine 351 years. During the same time twenty-five females and thirteen male babies were born. By this we might judge that no war was at hand.

Ypsilanti Commercial: Mr. Victor Sanford, who lives on the J. N. W. Smith farm, has eight ducks, which have laid 688 eggs since Feb. 18. And there was nothing small about the eggs either if we may indee by the one either, if we may judge by the one shown us. It was $3\frac{1}{2}$ in. long, $7\frac{4}{2}$ in. around and weighed $5\frac{1}{2}$ oz., by far the largest duck egg we ever saw.

When the Ypsilantians are called upon to contribute they come down for just the amount required. Ypsilantian: The Congregational church of this city was assessed \$7.56 as its share of the expenses of the Jackson Association, and took up a special envelope collec-tion to raise the amount two or three weeks ago. When the last envelope was opened and counted, the amount footed up available STAC footed up exactly \$7.56.

Milan Leader: Nathan Phillips has 42 hens. During the months of January, February and March these hens laid 1 416 eggs. These hens don't lay small eggs, either. Mr. Phillips brought us over a half dozen Tuesday morning, over a half dozen Tuesday morning, and they weighed a trifle over 11 lbs., or 21 lbs. to the dozen, or 33 ounces each. At that rate the 1,416 eggs would weigh 295 lbs. Let us hear from some farmer who has hens that can beat this.

A Chance to Make Money.

MR. EDITOR :- I bought one of Griffith's machines for plating with gold, silver or nickel and it works to perfection. No sooner did the people hear of it than I had more spoons, knives, forks and jewelry than I could plate in a month. The first week I cleared \$31.30, the first month \$167.85, and I think by July 1st I will have \$1,000 cash and give my farm considerable attention, too. My daughter made \$27.40 in four days. Any person can get one of these machines by sending \$3 to W. H. Griffith & Co., Zanesville, O., or can obtain circulars by addressing them. You can learn to use the machine in one hour. As this is my first lucky streak, I give my experience, hoping others may be benefited as much as I have been.

A NEW PEST. A Strange Insect Adds to the Woes of

Illinois and Michigan Farmers by Destroying the Oat and Wheat Crops. SPRINGFIELD, Ill., June 9.-Reports

are coming into the Department of Agriculture at Springfield from nearly every section of the State complaining of an oat pest something similar to the grain louse. In Christian, Clay, Clinton, Effingham, Edwards, Fayette, Greene, Jefferson, Jersey, Logan, Lawrence, McLean, Menard, Morgan, Macoupin, Madison, Marion, Washing-ton and Williamson counties the ravages of the pest have been general, and

the damage great. KALAMAZOO, Mich., June 9. - W. Blake and Edwin Freer, two farmers near Kalamazoo, report that an insect resembling the wheat louse is working on wheat stalks to the first joint. The tops do not yet show the effect. Last year's wheat in that section was somewhat injured by an insect in the head of the wheat.

ROBBED A MAIL-CARRIER.

Two Masked Highwaymen in Missouri Get Away with \$4,000.

ST. Louis, June 9.- A telegram from Mine Lamotte, Mo., says that a mailcarrier, while en route to a mine near that place with \$4,000 in currency, was suddenly brought to a halt by two men who had their faces covered with flour sacks, The men presented revolvers to the carrier's head and demanded the money, which was given up, and the men made their escape. It is said the money was consigned to the owners of the Mine Lamotte and was to be used in paying off the miners.

Weak Women.

The more sensitive nature of the female sex renders women much more suscept ble than men to those numerous ills which spring from the lack of harmony in the system. The pervous system gives way, sick headache is frequent, the appetite is lost, and other ailments peculiar to the sex cause great suffering Hood's Sarsaparilla is peculiarly adapted for such cases, and has received the most gratifying praise for the relief it has afforded thousands of women whose very existance, before taking it, was only misery. It strengthens the nerves, cures sick headsche and indigesticn, purifies and vitlizes the blood, and gives regular and healthy action to every organ in the body.

When poverty attacks a man it first breaks out on his hat.

The effect of using Hibbard's Rheumatic Syrup is unlike all medicine containing opiates or poison, it being entirely free from them. It cures rheumatism by purifying the blood.

A fool laughs at his own folly, and a wise man puffs up in trying to look un-concerned when he hears of his own wisdom.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

It makes no difference how good people are to a man, they are never as good, in his eyes, as the folks he used to know.

Remarked by R. C. Joiner, of Allen P. O., Hillsdale Co., Mich.: "Nothing gave my rheumatism such quick relief as Dr. Thomas' Eclectric O 1—believe it infallible for rheumatics."

Patti refused \$1,000 for an essay on the voice-said she hadn't time to write it. Foolish girl; doesn't she know that celebrities are not expected to write the essays that they sign ?- Texas Siftings.

SEVEN MEN DROWNED.

Sad Fate of Fishermen in the Bay at Boston.

Seven Occupants of a Boat Perish Be-fore Assistance Could Be Rendered-Four Children Drowned Near Rock Island, Ill.

SEVEN LIVES LOST.

Boston, June 9. - About 6 a. m. Sunday a party of eight young men started for a fishing excursion in a sail-boat. When they were about one mile from Thompson's island, in Dorchester bay, the boat was struck by a squall and capsized. All but one were swimmers, but instead of trying to swim ashore they tried to climb on the boat, which was so heavily ballasted that their weight would force her beneath the surface, leaving them struggling in the water. In this manner the strength of the men was exhausted, and they sunk, one by one, un-til but one was left. The survivor, Walter Quinlan, had sunk for the last time, when the boat in rising came up under him, lifting him above the surface. He floated in an unconscious condition for some time, when the boat was seen from the shore by employes of the gas works at Cow Pasture Point, who went out, brought him to shore and resuscitated him.

The drowned are: Lawrence Mc-Tiernan, aged 24 years; John Sullivan, 24; Albert Lombard, 20; James Husband, 17; Thomas Troy, 18; Joseph Tuffts, 18, and Edgar Maloney, 15. McTiernan left a wife and child. The others were unmarried.

FOUR CHILDREN DROWNED.

DAVENPORT, Ia., June 10.-Four children, Maggie Baker and Albert, Charles and Ela Sheib, aged between 3 and 11, were drowned near Rapid City, a coalmining town on the Illinois side of the Mississippi, a few miles above here Sunday. The children were out in a skiff above the dam at that place, and in trying to reach an island near by were taken in by the current that ran to the mill-race, and before any one could help them all went over the dam. John Yost, one of the children, was rescued below the dam, but the others perished. The bodies of the Baker girl and one of the boys have been recovered, but the others are still in the river.

ALMOST A RIOT.

Trouble at Columbus, O., Over the Street Railway Strike.

COLUMBUS, O., June 10.-The strike on the Consolidated street railway, which has been in progress seven days, culminated Monday in scenes which bordered on a riot. The company has been unable to run cars since the strike was inaugurated. Public sympathy has been with the employes, and Monday the feeling was ripe for a riot. The principal trouble the company has had was the failure to get police protection to start the cars. The mayor has shown a willingness, but the police, in sympathy with the strikers, construed the instructions that they should not interfere unless there was an assault committed. The presence of the police at the barns has been no barrier to the strikers in controlling the cars and intimidating the new men.

THE Astor estate will build the finest hotel in the country upon Fifth Ave., New York. It will cost with furnishings, about \$3,000,000. The contrast between the old John Jacob Astor house erected at about the beginning of this century at Mackinac Island and still occupied as a hotel, and the new hostelry, will be quite marked. The progress of a century will be well illustrated in these two buildings.

THE New York Sunday Mercury predicted last winter that "June promises to open with fine warm weather, which is likely to continue with slight interruptions for close upon ten days. Variable weather, accompanied by great changes in temperature, is likely to characterize the period included between the 11th and the 20th. The remaining days of the month are likely to be warm and fine on the whole, with a few showers and probably more than one thunderstorm." We give this prediction to our farmer friends for what it is worth-something easier to be told a month from now.

It would be very interesting to read the opinion of noted literary scholars as to a certain number of the "best" books in our language, and to note the difference in their selections. Suppose twenty of the best critics in the land should each make up a list of fifty, of the best books, in their opinion; we imagine the difference in this list would be surprising. Would any volume be found in every list? In the May number of the Book Buyer, Rossiter Johnson, in answer to a correspondent gives the following list of "best" novels, but wishes a " perhaps" understood with each reply. The best sensational novel is Collins's "The Woman in White;" the best historical novel is Scott's "Kenilworth;" the best dramatic novel is Brønte's "Jane Eyre;" the best marine novel is Cooper's "Red Rover;" the best countrylife novel is Blackmore's "Lorna Doone;" the best military novel is Lever's the best military novel is Lever's "Charles O'Malley;" the best religious novel is Kingsley's "Hypatia;" the best sporting novel is Whyte Melville's "Digby Grand:" the best political novel is Disraell's "Coningby;" the best rovel written for a purpose is Stowe's "Uncle Tom's Cabin;" the best im-aginative novel is Hawthorne's "Marble Faun;" the best pathetic novel is George Ellot's "Silas Marner;" the best humorous novel is Dicken's "Pickwick;" the best Scotch novel is Scott's "Rob Roy;" the best English novel is George Roy ;" the best English novel is George Eliot's "Adam Bede ;" the best Ameri-can novel is Hawthorne's "Scarlet Letter;" and the best novel of all is Thack-eray's "Henry Esmond." It should be said that Mr. Johnson considered only those novels that were written in the English language. "J. E. S.," undoubtedly James E-Scripps, of the Detroit Evening News, predicts that nearly every Detroiter will be greatly disappointed at the result of the census. Guesses have ranged all the way from 190,000 to 250,000. He thinks the lowest of these too high, placing the figures at about \$186,000. He warns the speculators of inflated values in real estate in that city, and predicts that the present boom the city is having will soon collapse and many will find themselves stranded on a shore strewn thickly with the wreckage of fond hopes and delusive schemes. He fears the danger of a financial crash such as the country experienced in 1857 and in 1873 is very iminent. Such revulsions occur at somewhat regular intervals of time-say from 15 to 20 years; and the time has about come around for another. Those who remember former panics will recollect that they in each instance came without warning, like a clap of thunder from a clear sky, and when everything in a business way seemed most prosperous." A good many of our brighest business men agree with this view of the financial prospects of the day. 'The wise man will trim his sails before the storm comes. It requires great courage and a firm will to resist the powerful temptation to try one's chances in the fascinating schemes for wealth that almost every city now offers, but every thoughtful person must realize that some one who can't afford it, must "putup" for the great game. Mr. Scripp's advice to Detroit people is eminently suitable for numerous other towns and cities where the "booming" craze is prevalent.

does not turn out that way. Judge Ramsdell, chairman of the executive committee of the state grange, answered Chipman's assertions in such an able and convincing manner, showing the sophistries of Chipman's arguments by facts well known to all intelligent readers of history and writings on economic questions, and giving so much better reasons for the farmers to stick to the party and principles that have ever served their interests more faithfully than any other, that the result will be just the opposite of what Mr. Chipman expected. He will let the farmers alone after this. He will have more success in airing his economic philosophy down among the "boys' of Mackerelville. "When you assume," said Judge Ramsdell, "that the farmers of Michigan, and especially that portion of them that belong to the grange, are ignorant of the true causes that depress agriculture in this and other states, you make a great error; and

when you tell us that the tariff, imper! fect as it is, is the cause of the depression, you make an unpardonable blunder for one of your intelligence and position.

CONGRESSMAN J. LOGAN CHIPMAN, of Detroit, has been writing a letter to the Grangers, giving them some advice upon political topics. There is not another man in the state, probably, who has as little in common with the farmer as Chipman, but he probably thought if he should tell them what hard times they were having, and that it was the tariff that was the cause of it all, they would, in their ignorant bewilderment, say "rats" to the republicans and take refuge in the democratic ark. POISONED AT A PICNIC.

Sixty Persons Made Deathly Sick by Milk Taken from Unclean Cans.

Union City was greatly excited the other morning over the report that sixty people had been poisoned from drinking milk from improperly cleaned cans. A large picnic was given at Runyan lake and the party took their provisions with them. Fortunately there were some doctors in the party and they were able to re-lieve the sufferers, but for a time it was feared that seven of the party would die from the effects of the poisoning, the nature of which was unknown at that time. An analysis of the milk showed tyrotoxican. All the party were in a fair way to recover.

A Frightful Railway Accident at Warrenton, Mo.

Eight Men Lose Their Lives and Twenty-Two Are Injured-A Number of Race Horses Killed-The Noted Mare Huntress Mortally Hurt.

AN AWFUL DISASTER.

WARRENTON, Mo., June 10.-Eight persons were killed, twenty-two injured and fifteen valuable horses killed or crippled by a wreck of two freight trains which occurred on the Wabash railway one mile west of here at a few moments before 2 o'clock Monday morning. The west-bound train contained five cars, race horses on the way from Cincinnati and St. Louis to the Kansas City meetings. The wreck was caused by a mistake of the telegraph operator in sending out the ranning time of the race train fifty minutes instead of five minutes. Both engines and seven palace horse cars were completely wrecked. The loss to the company will reach \$200,000. Both crews were running under orders received. The following were killed:

Were killed: Killed-William H. Thomas, (colored) Cynthiana, Ky.; Henry Stone, a trainer, Harrodsburgh, Ky.; James and Frank Kelley, both of Chicago; Ed Simmons, Lexington, Ky.; Morris Green (colored) Frankfort, Ky.; Samuel Davis, a jockey, Lexington, Ky.; Frank Mar-tin, N. Y.

The thoroughbreds were in palace stock cars and the train was run on passenger train schedule. It is impossible to learn the names of the horses, as many of them are still under the wreck. The Chicago stable lost its greatest winner, the mare Huntress. All the horses which were not killed outright were shocked and shaken up so that they will not face a flag for many weeks. Old railroad men say it is the worst wreck that has ever occurred on the Wabash. A majority of the horses killed are two-year-olds, among them Little Prince, Ben Ridg-Mattie Park, E. R. Oders' Lige P., by imp. Silver mine, and J. F. Keller's Egypt, by imp. Silver Mine; Springdom, a filly, and Turner, a colt. Huntress is not dead yet, but will die. The great mare was crushed internally and has two legs broken. All these horses were from Latonia.

FIREMEN KILLED IN A COLLISION. HAMILTON, Mo., June 10.-Two freight trains on the St. Louis, Keokuk & Northwestern railroad collided head-end on a curve near Busch Station, about ten miles south of here, at an early hour Sunday morning. The firemen on both engines met their death, one of them, B. Thayer, of Fort Madison, Ia., being caught between the boiler head of his engine and the tender and literally burned alive. The other fireman, named Nelson, was wedged between the cab and the boiler, and the escaping steam cooked him so that he died in a short time. Both engineers and a brakeman were badly hurt.

UNCOLLECTED BOUNTIES.

Iowa Soldiers Entitled to a Large Sum

of Money. MARSHALLTOWN, Ia., June 10.-No event of recent years has so stirred up tais community as the discovery Saturday that the bounty authorized by the Board of Supervisors of this county to volunteers during the war of the rebellion remains in most cases unpaid. It seems that but few of the veterans were aware that the board offered a bounty of \$150 in 1863. The fact was discovered by the merest chance Saturday. More than 400 men enlisted from this county. Claims are already being filed for back bounty and accrued compound interest, which will probably aggregate \$100,000 if all the claims are presented. Prominent attorneys here say the claims are undoubtedly valid, and the only question is whether interest can be collected.

We used it for Whooping Cough with remarkably quick and satis-factory results, and use it for any and every cough the family may have." Only one size, large bottle. Price \$1.00. THE FIGURE "9."

The figure 9 in our dates will make a long stay. No man or woman now living will ever date a focument without using the figure 9. It stands in the third place in 1890, where it will remain ter years and then move up to second place in 1900 where it will rest for one hundred years.

There is another "9" which has also come to stay It is unlike the figure 9 in our dates in the respect that it has already moved up to first place, when it will permanently remain. It is called the "No 9" High Arm Wheeler & Wilson Sewing Machine

9" High Arm Wheeler & Wilson Sewing Machine The "No. 9" was endorsed for first place by the experts of Europe at the Paris Exposition of 1889 where, after a severe contest with the leading ma-chines of the world, it was awarded the only Grand Prize given to family sewing machines, al others on exhibit having received lower awards of gold medals, etc. The French Government also recognized its superiority by the decoration of Mr. Nathaniel Wheeler, President of the company, with the Cross of the Legion of Monr.

The "No. 9" is not an old machine improved upon, but is an entirely new machine, and the Grand Prize at Paris was awarded it as the grandest advance in sewing machine mechanism of the age. Those who buy it can rest assured, there-fore, of having the very latest and best.
