## TWO PIONEERS GONE.

### DEATH OF HANSON SESSIONS AND J. D. BALDWIN.

Sketch of the Lives of Two of Washtenaw County's Noblest Men.—Both Nearly Four-score Years of Age.

One by one, the little band of pioneers is passing away, and those who have seen generation after generation rise up and fall have themselves at last yielded to the great destroyer. During the past week two of the oldest and most highly respected citizens of Washtenaw county have joined the ranks of the innumerable majority. The first of these to depart was

#### HANSON SESSIONS.

who breathed his last on Tuesday morning, at about half past two o'clock. He had been ill ever since last winter, when he was taken by a severe attack of the "grip." The immediate cause of his death, however, was dropsy. His disease was of so severe a type that recovery seemed scarcely to be hoped, and his departure was not unexpected. The funeral will be held at the house on Fifth-ave, at four o'clock this afternoon, Rev. Mr. Studley performing the last sad rites.

Mr. Sessions was born in the village of Lenox, Madison Co., N. Y., nearly seventy-seven years ago. In his early boyhood he received a district school education, subsequently entering the Casnovia Seminary, from which he graduated several years later. In 1833 he settled in Northfield township and devoted his attention to farming, which profession he followed until 1867, when he removed to this city. Here he has lived in quiet retirement, enjoying that rest which was due to a man who had labored hard for many years. Incidentally he has devoted considerable attention, of late years, to his peach orchard, which is situated just north-east of the city limits. In 1842, Mr. Sessions was married to Miss Harriet Chubb, and their union has been blessed with four children, all of whom are now alive. They are Charles A. Sessions, of Mears, Oceana Co., Mrs. Eliza Draper, of Niobrara, Neb., Hanson Sessions and Miss Mary Sessions. J. Q. A. Sessions, of this city, is a brother of his.

Mr. Sessions was a man of sterling integrity, a staunch republican and a straight-forward, thorough-going business man. While quiet in his ways and a person of few words, he was well read and held decided views of his own on all questions. His death will cast a shadow over all those who were fortunate enough to be numbered among his friends.

#### JOSEPH DORR BALDWIN

is another pioneer of Washtenaw county who has just passed over to the other shore. His death occurred on Tuesday last and was caused by heart failure. During the past winter he had an attack of the grippe which made grave inroads upon a system already weak. For a number of years he has been far from well, and the only thing which has kept him up so long has been the outdoor exercise which he ever forced himself to take.

Mr. Baldwin was born, seventy-six years ago, at Baldwinsville, N. Y. His father was one of the most prominent physicians in that section, while his mother was the daughter of one of those patriotic Bostonians who threw the load of tea into Boston harbor, just before the Revolution. Joseph Baldwin came to Detroit, in 1836, and engaged in the leather trade. In that early day he was one of the city assessors, and was very well known to everyone in the community. In 1847 he removed to Ann Arbor and purchased the large farm which includes the present homesteads of Louis B. and Eugene B. Hall and much of the adjacent land. Just east of the residence lately erected by the former, he built a log-house in which he lived for several years. Mr. Baldwin, at the time of his death, resided on a fine farm located on Geddes-ave just east of the city limits. Here he had about thirty-three acres of peach trees, besides about twelve acres devoted to berries. For some time he has been president of the pomological society, and it is safe to say that he has done more than anyone else to encourage fruit culture in this county. Mr. Baldwin also enjoyed the distinction of having been one of the founders of the Congregational society in this city and he has ever cherished an unflinching interest in that church and the cause of religion in general. The Sunday-school, especially, furnished to him a very attractive field of labor. In his early days he enjoyed very limited school advantages, but in later life he more than made up for this lack by a very diligent course of reading. He was particularly proficient in his knowledge of scripture and ancient history.

Mr. Baldwin was married in 1839 to Miss Elizabeth F. Hubbard, of Oswego, N. Y., who survives him. Two children, Mrs. J. B. Davis, of this city, and Eugene F. Baldwin, of Jackson, Miss., are also left to mourn his loss. It is somewhat doubtful whether the latter will be able to attend his father's funeral, which takes place at the house, to-morrow afternoon at four o'clock. The final obsequies will be observed by Rev. Mr. Bradshaw, of the Congregational church.

#### Lutheran Conference.

A conference of the Michigan ministers belonging to the Ohio Senate of the Lutheran church, has been in session here during the past three days. Ten pastors from abroad have present: the Rev. Messrs. Meiser, Detzer and Freudenreich, of Detroit; Born, of Maybee; Schmierer; Volz, of Saginaw, and Hemminghaus, of Columbus, Ohio. The thesis for discussion by the conference has been the doctrine of the millennium. On Wednesday evening the ordination sermon was delivered by Rev. Mr. Meiser, of Detroit, after which Mr. Schultz, a theological student from Detroit, was admitted into the Lutheran ministry.

## TEACHERS' INSTITUTE.

A Large Attendance Present and Great Interest Displayed.—Lectures by Prof. Hinsdale, Prof. Goodison and M. J. Cavanaugh.

The teachers' institute, now in session at the court house, has been unusually interesting. No institute ever before held in Washtenaw county has called forth so large an attendance. Secretary Cavanaugh has done his utmost to bring as many teachers here as possible and he has succeeded beyond his expectations. On the first day, 108 teachers responded to the roll-call, and since then there have been from 100 to 150 persons present at each session. The first lecture, entitled Education, was delivered on Monday morning by Prof. Hinsdale. The speaker discussed the question in its three phases: theoretical, practical and scientific. He was followed by Prof. Goodison, of the state normal school, who treated the subject of geography. In the afternoon Mr. Cavanaugh lectured on the gradation of district schools. The state manual recently adopted prescribes eight grades and Mr. Cavanaugh discussed the best method of conforming to the standard. On Tuesday morning Prof. Hinsdale told how arithmetic can best be taught to children. Prof. Goodison followed with a dissertation on drawing, in the course of which he strongly advocated the introduction of that study into the primary schools. On Tuesday evening a large audience listened to a lecture by Prof. Goodison, on the Signification and Origin of Modern Geographical Names, which was both interesting and profitable. Prof. Hinsdale, during the Wednesday morning session, discussed the subject of reading. He advised, among other things, that reading lessons should be prepared beforehand, and that as much study should be given to reading as to other branches. More attention should also be devoted to the meaning of words. Wednesday afternoon Mr. Cavanaugh lectured on gradation and explained the use of Welch's register. To-day Prof. Hinsdale will discuss the subject of history. Lectures will be delivered on Friday, and the sessions of the institute will be concluded on that day.

## A BREAK FOR LIBERTY

Which Proves Unsuccessful.—Four Slippery and Very Desperate Horse-thieves Who Do Not Like the Accommodations at the Hotel Dwyer.

The four horse-thieves and one or two other hard cases who are sojourning at the county jail made an ingenious attempt to break out on Monday night last. Some person, probably an accomplice in their previous robberies, succeeded in providing them with several feet of stout wire and one or two pieces of wood, which they undertook to use in gaining their liberty. They passed the wire, which was covered with cloth, through the iron grating and lifted the staple holding the bolt which locks the outside door of the cage. Then they succeeded in pulling the bolt back and gaining an entrance into the corridor. Near the southwest corner where the sewer pipe leads down to the cess-pool, they dug down about three feet, throwing the dirt upon blankets, until they reached the solid cement which lies under the whole jail. They were then obliged to desist and when Sheriff Dwyer went into the cage on Tuesday morning he found all the men apparently sleeping the sleep of the innocent. Several clubs were afterwards discovered, indicating that the prisoners were ready to resort to force if necessary. Sheriff Dwyer is constantly on the alert and will not hesitate to resort to stern measures should another attempt be made to break jail. It is not at all likely that any such attempt would prove successful, for the jail is one of the strongest in the state.

## THE CENSUS.

Returns Made by Supervisor Sharp Indicate Losses in the Country Districts and Gains in Ann Arbor and Ypsilanti.

Supervisor Sharp has furnished for publication figures which, while not entirely accurate, furnish good food for reflection and study. Returns for the towns of Sylvan and Salem have not yet been given out by the supervisor. The figures are as follows:

	1880	1884	1888
Ann Arbor Township.....	1,374	1,422	1,400
Ann Arbor City.....	9,331	7,912	8,061

Ypsilanti City.....	7,160	5,801	4,984
Totals.....	39,939	41,694	39,308

This would indicate a slight gain for the county during the past six years. The city of Ann Arbor has gained about 1,400. Jackson, Branch, Lena-wee and Monroe counties all show decrease of population since 1880, but the returns are too incomplete to make exact statement. It may safely be stated, however, that Washtenaw is the only county in this congressional district which shows a gain.

The bids for the construction of the new hospital buildings will be opened by Secretary Wade, to-day, and forwarded to Charles Wade for inspection by the building committee, consisting of Regents Whitman, Draper and Hebard.

## STREET RAILWAY MATTERS.

### AN EPIDEMIC OF INJUNCTIONS ON FOREST AVENUE.

Facts Stated in the Bills of Complaint.—An Inter-Urban Line.—Notes and Remarks.

The new street railway is not having very smooth sailing just now. In fact it is meeting with very formidable opposition in certain portions of the city. On Thursday last, A. H. Holmes, who owns a livery stable on Forest-ave, filed a bill asking for an injunction to restrain the company from building on Forest-ave, and the request was granted by Judge Kinne. Mr. Holmes claims, among other things, that the road will be dangerous to the public and obstruct travel, that Forest-ave is but three rods wide from Washtenaw to South University ave, and never dedicated to the city, that he has not granted to the company the right to use the street and finally that three-fourths of the property-owners are opposed to having the line constructed on that street.

On Monday two new injunctions were granted, also in favor of residents on Forest-ave. Dr. Heneage Gibbs makes a complaint in many respects similar to that made by Mr. Holmes. His residence is located on the southwest corner of South University-ave and Forest-ave, and is estimated to be worth \$7,000. He is engaged in the scientific investigation of diseases and in this pursuit he uses a magnifying-glass of high power and photographic apparatus of great delicacy. Both instruments, he claims, must be kept very quiet—which would not be possible in case a heavy car was permitted to run down the street. He also asserts that the defendant, under the laws of the state, has no right to operate an electric railway and he holds the ordinance authorizing it to be void, because in passing it the council did not comply with the rules prescribed by the charter.

Peter Woodruff, who lives on the northeast corner of South University-ave and Forest-ave also entered a bill of complaint. He stated more specifically than had previously been done, that Forest-ave does not appear upon that plat of the city bounded by South University-ave, Washtenaw-ave and Church-st. Dr. Smith, he adds, "opened an alley three rods in width from South University-ave, after said part of the city was platted, which from being a continuation of Forest-ave on the south was called Forest-ave, but that said alley was never dedicated to the public as a street and that the fee of said alley in the entire length thereof from South University-ave to Washtenaw-ave is wholly in your orator and Mrs. Corydon L. Ford, your orator owning so much as lies in front of his premises and Mrs. Corydon L. Ford all south thereof." Mr. Woodruff also claimed that the company intended to construct the road not in the center of the avenue but on the east side, which would be a source of great danger to the petitioner.

#### AN INTER-URBAN LINE.

The scheme, broached some time ago, of building an electric railway between Ann Arbor and Ypsilanti, has been revived. On Saturday last, a meeting was held at the office of Justice Joslyn, in Ypsilanti, to consider the project. The supervisors of every township, except Ann Arbor, have already given their consent. Petitions have been circulated by H. D. Platt and Wm. Campbell, asking for the proposed railway, and everything looks favorable. Haines Bros., of Kinderhook, N. Y., who are desirous of building the line, were in the city several weeks ago, and after a drive over the various roads, selected the south road as the one best adapted to their purpose. If the consent of the proper authorities can be obtained, they intend to build the line at once. Cars will be run at intervals of one hour each way, thus furnishing very good accommodations for inter-urban travel. It is to be hoped that this project will meet with hearty approval on the part of our citizens.

#### NOTES AND REMARKS.

The old building, near the Michigan Central depot, formerly owned by E. J. Knowlton, is being moved toward the DeForest property, on Detroit-st. It will be used for the housing of the electric cars.

A petition is being circulated, asking that the route of the street railway be changed from Forest-ave, so as to run out farther on Washtenaw-ave.

The line men have been setting the wires which connect pole to pole across the street.

The efforts on the part of residents on Forest-ave to enjoin the street railway are not meeting with much public approval, and experienced lawyers seem to think that the injunctions will necessarily be dissolved.

#### Wonderful Success.

Of all the gentlemen of the medical profession of whom we are acquainted, we know of no one who stands higher in the esteem and confidence of the people than Dr. Fruth, who makes regular professional visits to our city. This is due to his wonderful success in treating many patients here that were considered beyond human power to aid. The chief reason he succeeds so well is due to a thorough knowledge of the human system gained by the most careful training in the principal centers of medical learning, which is worth but little, yet in connexion with years of experience in hospital and private practice and the judicious use of common sense, adds greatly to making his knowledge more valuable. One thing in particular will impress you with the doctor and that is his wonderful method of determining diseased conditions without asking questions. The

doctor makes no charge for consultation. He undertakes nothing which he cannot perform and if he can cure you will say so, and guarantee a cure. The date of his next visit to Ann Arbor—Tuesday, August 19th, at the Cook House.

AROUND THE COUNTY.

There are many rabbits throughout the county.

The mill-pond at Manchester has been drained of its weeds.

Everybody in the county is rejoicing over the recent rains.

The York mills have been undergoing extensive repairs.

Chris. Kaiser, of Francisco, died recently, aged seventy years.

Gov. Luce will devote the farmers' club at Bridgewater on August 26.

During July the Ypsilanti waterworks pumped 24,212,658 gallons of water.

Over 250,000 pounds of wool have been purchased in Chelsea this year.

The house of Wm. Wanty, at Whitaker, was destroyed by fire recently.

The Manchester German Lutheran Sunday-school held a picnic yesterday.

The North Sharon Sunday school held their annual picnic at Wolf Lake, yesterday.

The I. O. G. T. lodge of Chelsea enjoyed a picnic, yesterday, at Cavanaugh Lake.

Mrs. Elizabeth Cheshire, of Ypsilanti, died recently at the age of eighty-seven.

The Epworth League of Chelsea gave an ice-cream social last Saturday evening.

About \$2,500 worth of stock in the proposed creamery at Saline has been taken.

The alumni of the Manchester high school enjoyed a lawn ice-cream social, yesterday.

The campers at Base Lake are living on woodchuck stew. So says the Dexter Leader.

During July 11,000 pounds of butter were made at Sanford's Crossing in Manchester.

The P. of I.'s will hold a union meeting at the Chelsea town hall on Saturday, August 16.

Conrad Finkbeiner, of Lima, has thrashed barley on his farm, which averages 52 1/2 bushels to the acre.

While Jacob Streeter, of Lima, was threshing, the other day, he jumped off the separator in such a way as to break his leg.

Barns belonging to David Potter, of Willis, were burned by lightning recently, including hay and grain and one cow.

The county papers are devoting considerable space to interesting accounts of the editorial excursion. THE REGISTER was not represented.

Rev. Mr. Lincoln, W. E. Boyden and A. Osmer have leased a piece of ground at Portage Lake and will soon erect a cottage thereon.

A correspondent of the Detroit Free Press advises farmers not to thresh their barley until September. He says the color will be brighter if the barley has passed through its first sweat in the stack.

Quite a stir was created in the vicinity of Pleasant Lake, Freedom, last Friday, on finding the body of an unknown man in the lake with a large stone tied to his neck. Foul play is suspected.—Chelsea Herald.

The Dundee Reporter copies THE REGISTER editorial on the candidacy of Mr. Allen without comment. If "silence gives consent," we must infer that the Reporter sanctions the sentiments therein expressed.

Mr. Goodman, a second-hand dealer of Ypsilanti, has the works of a primitive wooden clock purporting to be made in Connecticut. It is entirely of wood, except the pallet and escapement, and the wood is not the same as that used in later clocks.

The contract for building the sub-structure for the new bridge across the race in Milan has been let to Lockwood & Van Wormer, for \$120. The new bridge, which is to be of iron, same pattern and width of the river bridge, is to be finished about the 20th.

The following corps of teachers will wield the rod at Milan next year: G. A. Dennison, principal; Miss Gertrude Hanson, assistant; Miss Viola Mead, grammar room; Miss Laura Paine, intermediate; Miss Lena Swick, second primary; Miss Anna Delaforte, first primary.

When a girl is sixteen she likes to be thought older; when she is thirty she tries to appear younger; when she is fifty it flatters her to be rated at thirty-five, but when she is eighty she likes to be taken for a hundred and ten, at the very least. Fearfully and wonderfully made.—Chelsea Herald.

A shameful spectacle was seen on the Ypsilanti streets recently. A young colored woman, with her baby in her arms, was being transported upon a dray, on her way to jail. She was crazy drunk, and screaming and struggling with all her might, and the officer in charge had all he could do to hold her down upon the platform of the vehicle. The child was hurt in the scuffle, and added its lamentable protestations to the horrible noise of its mother. Upon this text the Ypsilanti preacher a very effective temperance sermon.

Thus far in the history of Michigan the editor of the Ypsilanti Sentinel has worn the blue ribbon as a cantankerous donkey, but his record is seriously threatened by the editor of the Sheboygan Democrat. You want to stick your nose clear out, as well as up, Brother Woodruff, of the Sheboygan, for I will get his muzzle under the wire first.—Detroit Journal. In reply to this piece of polite flattery, the Sentinel speaks as follows: "Well, you don't want to stick your ears up nor out, for they overshadow the longest of your brother donkeys, and look like Eiffel towers among loadstools. Nature intended you for an unmatchable ass and succeeded beyond her expectations."

Ypsilanti Commercial: The Hammond importation of Shropshire sheep arrived here Sunday morning. They were at once taken to the farm. Some 30 went in wagons, and the balance, about 265, were driven. Ten of the sheep died either during their journey or after arriving here, from the effects of over-heating, but as is usually the case, these were the poorest and least valuable ones. The prize winners which Mr. Hammond purchased in-

cluded the two-year-old ram, Windsor Prince. He was bred by the Mansells, England's greatest breeders, and has won the First Royal twice in succession. He is undoubtedly the finest Shropshire ram ever brought across the pond; and is indeed the best ever bred, except perhaps the great Rector, now dead. Windsor Prince occupies the position in the Shropshire world that Axtell does among trotting stallions. They are each the best alive.

Emery. (Crowded out last week)

Huckleberrying is the rage in this vicinity this week.

Emery Townsend, of East Saginaw, was seen on our streets, Monday.

Mrs. Smith and Blanche Benbow are spending a few days visiting friends at Hamburg.

Mrs. S. Bird's many friends are pleased to see her back in her old neighborhood. She is recovering from her late illness.

Miss Estella Laraway, who has been spending a few weeks at the home of H. Laraway, has returned to Grand Rapids.

That sneak who is filling L. E. Hebard's reaper boxes with wool wants to beware, for the latter has caught on to that racket.

Messrs. Geo. Burd, Will Popkins, Will Clawson and ladies departed by the evening train, Tuesday, for Whitmore Lake on a camping expedition.

Rather a bold robbery occurred in this place the other night, the victim being Wm. Whipple. Thieves gained an entrance through the front door by cutting the screen so they could unlatch the door. They made off with \$65, which they obtained out of Mr. Whipple's pants pocket, by the side of his bed.

LITERARY NOTES.

The Forum for August is an unusually attractive number. Prince Kropotkin, who has made a thorough investigation of the greatest yields in the most densely settled sections of Europe, writes of the Possibilities of Agriculture. He shows that by methods already in use, cultivated lands can be made to sustain ten times as many people as are now alive with both better food and food of a less cost than now. Elizabeth Stuart Phelps, in an essay on the decay of delicacy in American life in its several departments. Senator W. E. Chandler explains the pending bills for national control of congressional elections, arguing favorably to such control. Mr. Donald Morison explains the discontent in Newfoundland, and Mr. Robert J. Burdette has an article entitled Are Wea Fervidulous People? The Forum Pub. Co., 253 Fifth-ave, New York.

Scribner's Magazine for August is a fiction number containing six short stories, five of them illustrated. A number of entirely new writers are brought forward with stories of striking originality. H. C. Bunner contributes a continuation of Sterne's Sentimental Journey, writing in the quaint manner of that author. A Sentimental Annex, describing a visit to modern New York. Mr. Aldrich contributes a dramatic poem, The Sisters' Tragedy, one of his most finished productions. There are other poems by Andrew Lang, G. Melville Upton, and Emily Dickinson. The Point of View discusses The Tyranny of Things, An Obsolete Distinction, and The Passing of a Week. Charles Scribner's Sons. New York.

For midsummer reading, the August Ladies Home Journal is like a cooling breeze—all the storiesavor of the sea and country, and Julian Hawthorne, Maud Howe, Louise Chandler Moulton, Kate Upton Clark, Jenny June, Dr. Talmadge, all vie with each other in story, poem and article. The article on Promiscuous Bathing for girls is especially timely. The life of the fashionables at Newport is delightfully told in an article. Dr. Talmadge tells how he preached his first sermon, while ten of our most famous women try to answer the question, Which is the Happiest Hour in a Woman's Life? Ten cents a number. One dollar a year. 433-435 Arch-st, Philadelphia.

Theodore Child, in the last number of Harper's Weekly, has a timely article on The Argentine Republic and its Present Crisis. Having spent the six months from January to July, 1890, in South America, Mr. Child writes directly from his own observation and experience. The paper is the result of a careful personal study of the condition of affairs in the country of the Argentines, and of the causes which have led to the present complications.

The August Popular Science Monthly will contain the first of two important articles by Mr. Edward Atkinson, dealing with tariff revision from the scientific standpoint, under the title, Common Sense Applied to the Tariff Question. Like other articles in the field of political science which appear in the Monthly, these papers will discuss the subject with a refreshing disregard of partisan advantage. \$5.00 a year. D. WINGED SWEETNESS.

ONE OF THE OLDEST AND MOST IMPORTANT INDUSTRIES.

A Craft That is More Ancient Than History—Bees and Bee Keeping, Ancient and Modern—Lands Flowing with Milk and Honey—A Great Bee and Honey Exhibition.

When Moses promised to bring the children of Israel to a land flowing with milk and honey, that promise meant far more than it would to any modern nation. For in those days no nation on earth knew the art of making sugar. No, nor for many centuries afterward. When Rome and Greece were in the height of their power honey was the only sweetening known to civilization. Still later Richard the Lion Heart, the leader of the crusaders, never tasted sugar. Later yet, William, the Conqueror of England and, still later, Wallace and Bruce, of Scotland, knew not sugar. For ages honey was the world's sweetener for sweets. Honey was used to relace wine; to make lemonade with various acid juices; in all cooking; to make all confectionary and candies. Barley sugar in a rude form came first; but other sugars rapidly followed the discovery of America.

How ancient is the art of rearing tame bees is unknown. But,

AS FAR BACK AS HISTORY GOES, even in the most ancient Egyptian records, honey is spoken of. The mention of "wild honey" in the Bible is an indication that tame honey was common; as, indeed, it must have been to supply the enormous demand. Honey is also mentioned in the other ancient Bibles of the human race, as well as in the Jewish Bible, and in such a way as to prove that bee culture must have been a Roman art. In Grecian history, and also in Roman, various localities, as was natural when honey was so important an article, are mentioned for the superior flavor of their honey, and also as wonderfully rich provinces, because honey was abundant there. Whether the art of bee culture was carried to so great a degree of skill and science in ancient times as it is to-day is a problem; but there is reason to suspect that the apiculturists of three or four thousand years ago were extremely skillful. Certainly to-day the Italian bees, that are deemed so superior, are the descendants of the superior bees reared by the bee keepers who SUPPLIED THE FEASTS OF THE ROMAN EMPERORS.

with choice honey, and the very name of the choice Syrian bees of modern times is a reminder of their immense antiquity. Probably the Syrian bees of to-day are not as highly cultivated as they were when Assyria was in her glory. Syria has long been a decaying country, going back toward barbarism from her ancient high civilization and splendidly organized industries in the days when her gardens and her honey were the pride of the Orient, and when her splendid cities and grand palaces were the wonder of the nations. And yet her long neglected bees, or long reared only by ignorant and degraded keepers, are to-day one of the two most highly valued varieties of cultivated bees in the world.

The bee is not by nature a native of many countries; yet their cultivation by man has spread bees into all countries, and that to a degree of civilization, and escaping colonies have caused wild bees wherever they can possibly sustain the climate. In tropical countries their cultivation is said to be stopped by their sweets learning to cease storing their honey for winter except in small quantities. Nevertheless wild bees are found in most tropical countries, though with different habits from ours. Cultivated bees have acquired, from centuries of inheritance,

A WONDERFUL FACILITY OF ADAPTATION to climate, like the horse, the dog, and other domestic animals and fowls, so that they now flourish in climates so cold that nature would never have taken them there.

How the world managed to get on so long without sugar is a thing to wonder at. Think what we should do if suddenly deprived of sugar! Yet there were mighty cooks in the ancient days, and luxurious feasts; and Roman and Grecian families of the higher classes set good tables, even judged by our modern tastes, and kept pretty comfortable homes. No doubt an ancient Roman cook, if restored to life to-day, could teach our most skillful housewives and caterers how to prepare all sorts of delicious viands and preserves with honey in place of sugar, that might be superior in delicacy to most of what we consider our best of sugared cakes, pastries, preserves, jellies and confections. Most large expositions and fairs in which modern products figure now offer premiums for cooking, preserving, jellifying and candying with honey. In this the Detroit International Fair and Exposition, to be held Aug. 26 to Sept. 5, sets a notable example this year, and includes the delicious vinegar in its list.

Undoubtedly the ancients were far behind moderns, especially Americans, in their bee apparatus. Invention was not highly prized nor at all protected by governments in the old historic ages, as with us. Hence the hives of the ancients were rude, though the old, typical, pine apple shaped beehive, that figures so largely in pictures, is a very ancient form, and figures in the most antique Syrian drawings and sculptures. But those old bee keepers had no patent hives, frames, comb foundations, extractors, or tools of any kind, and so, such as moderns use. However, they were up to all the tricks of the trade. No modern could teach them anything about diluting honey, or keeping over and re-melting, or any other fraud that can possibly be performed without the aid of sugar. In fact, ancient history records that the Greeks knew of a way to keep honey liquid for a long period by some sort of adulteration that was difficult to detect, but reduced its sweetness materially. They also knew how to give a fresh bouquet and odor to old and diluted honey. Such is

THE IMMORTALITY OF RASCALITY.

The International Department of the Detroit Apian Fair and Exposition will, this year, be one of the most important ever held in America. The entries are very large from the best bee keepers on the continent, who will exhibit bees, hives, combs, honey, honey cooking, confectionery and preserves, and all manner of tools, implements and conveniences for the business, with explanations of methods, and all bee products, making the most instructive and interesting exhibition ever shown in this line. Besides there will be everything else at this great fair that can attract, amuse, delight or instruct—processions, concerts, games, spectacles, fireworks, pictures, machinery, stock, balloon ascensions, and the magnificent fiery drama nightly of The Destruction of Pompeii by volcanic eruption—free daily to all who attend.

CONGRESSIONAL.

A Summary of a Week's Work in the Senate and House. The Former Body Engaged for the Most Part in Debating the Tariff Bill—Measures Passed and Discussed in the Lower Branch.

WASHINGTON, SEN. 8.—In the Senate Thursday the tariff discussion was resumed, and a number of amendments reducing rates provided for in the iron schedule were rejected.

WASHINGTON, Aug. 9.—After some preliminary business in the Senate on Friday the conference report on the fortification bill was taken up and agreed to. The conference report on the sundry civil appropriation bill was taken up and passed.

WASHINGTON, Aug. 11.—In the Senate Saturday Senator Hoar (Mass.) introduced a resolution intended to limit the time to be devoted to debate on any measure. It was referred. The debate on the tariff bill consumed the rest of the session.

WASHINGTON, Aug. 12.—The Senate on Monday resumed consideration of the tariff bill. Senator Sherman (O.) warned the Senate that unless more rapid progress was made on the measure the majority would be forced to take the responsibility of limiting debate.

WASHINGTON, Aug. 8.—In the House Thursday a resolution was adopted calling on the Postmaster-General for copies of the agreement for the transportation of mails between the United States and foreign countries. A bill was passed making the inter-State commerce law applicable to unincorporated express companies.

WASHINGTON, Aug. 9.—In the House Friday consideration of the general deficiency bill was resumed, the pending question being on the amendment granting a month's extra pay to employees of the House and Senate. The amendment was lost.

WASHINGTON, Aug. 11.—In the House Saturday the Senate joint resolution accepting from the Grand Army of the Republic a statue of General Grant was passed. Mr. Enloe (Tenn.), rising to a question of privilege, said that pending a roll-call he had started to leave the chamber to attend to some business, but the door-keeper would not permit him to pass out, declaring that it was the order of the Speaker not to allow members to leave during roll-call.

WASHINGTON, Aug. 12.—After discussion Monday the House agreed to portions of the conference report on the sundry civil bill, and ordered a further conference on the amendments in dispute.

## Republican State Convention.

HEADQUARTERS REPUBLICAN STATE CENTRAL COMMITTEE.

DETROIT, July 12, 1890.

A State Convention of the Republicans of Michigan will be held at the Detroit rink, Detroit, beginning at 7 o'clock P. M., Wednesday, August 27, and continuing Thursday, August 28, 1890, for the purpose of nominating candidates for state offices and for Justice of the Supreme Court to fill vacancies, also for the purpose of selecting a chairman of the State Central Committee and two members thereof from each congressional district, and the transaction of such other business as may properly come before it.

In accordance with a resolution adopted at Grand Rapids, May 10, 1875, every county will be entitled to one delegate for each 500 of the total vote cast for Governor at the last State election (November, 1888), and one additional delegate for every fraction amounting to 300, but each organized county will be entitled to at least one delegate.

Under a resolution of 1888, no delegate will be entitled to a seat in the convention who does not reside in the county he proposes to represent. The delegates from each congressional district are requested to meet in caucus at 12 o'clock noon, Wednesday, August 27, and select candidates as follows, to be presented to the State Convention for confirmation: Two members of the State Central Committee, one Vice-President, one Assistant Secretary and one member for each of the Committees on "Credentials," "Resolutions," "Permanent Organization and Order of Business."

GEORGE A. HOPKINS, Chairman.  
H. C. TILLMAN, Secretary.

FRED. B. BRAUN,  
WM. BERG,  
GEORGE W. FOSTER, } Committee.

## Webster Republican Caucus.

Republican electors of the township of Webster will meet at the town hall, Tuesday evening, August 19, at 7 o'clock P. M., for the purpose of electing four delegates to the county convention to be held in Ann Arbor, August 21.

BY ORDER OF COMMITTEE.

UNLESS all the indications are deceptive, Joseph B. Moore, of Detroit, will be the republican candidate for the office of state treasurer. Mr. Moore, who is cashier of the Peninsular Savings Bank in Detroit, is an experienced financier. Not only that, but he has always taken a prominent part in politics. At present he is treasurer of the Michigan Republican League. There can be no question but that Mr. Moore would fill the office of state treasurer with credit both to himself and to the state. It would be a mistake, in our opinion if the party fails to place him upon the ticket.

THE attempt on the part of the New York Mail and Express to induce the negroes in South Carolina to run a ticket comprising only full-blooded Africans, is both nonsensical and wrong. Ever since the war, the southern whites have done just what the Mail and Express advises the negroes to do, i. e. band together on race lines, and northern people have protested with just indignation. The democrats have always been bound to one section and to one race, but true republicans know neither race nor section. Those who advocate the establishment of an exclusively negro party are guilty of the rankest political heresy.

THE International Parliamentary Conference in London, recently, passed the following resolution, the wisdom of which must appeal to every thinking man: "That, as a means for promoting peace and good will between nations, the members urge the conclusion of treaties of arbitration by which, without interference with their independence or autonomy, nations would engage to submit to arbitration the settlement of all differences which might arise between them. But where the conclusion of treaties of arbitration may, for the present, be found difficult of realization, the conference strenuously urges the settlement of disputes by arbitration or mediation."

STRIKERS WORSTED.

New York Central Railway Employees Quit Work.

They Are Able Only to Temporarily Cripple the Road, Which Is Now Running Nearly Its Full Quota of Trains Without Their Aid.

FAILED TO TIE UP A RAILWAY.

NEW YORK, Aug. 9.—Without a word of warning all Knights of Labor employed on the New York Central railroad between New York and Buffalo went on strike at 7 o'clock Friday evening, and the key-road of the Vanderbilt system was at a standstill.

Trains were abandoned at whatever point of the road had been reached at that moment. The fast mail trains were allowed to run unobstructed, manned by actual strikers.

The demands of the men are for a minimum day's wages of \$1.50; station agents to receive an increase of \$5 a month; men in yards at Troy and Green Island to receive the same compensation as at Schenectady and East Albany; all firemen on six-wheel connected engines to receive 2 1/2 cents a mile; all engineers on same, 4 cents; 4-wheel-engineers, 3 1/2 cents a mile; firemen, 2 cents a mile; for all men, overtime, double pay.

NEW YORK, Aug. 12.—The Central strike seems to be nearing an end. The company appears to be slowly but surely gaining the upper hand.

Mail, express, passenger and freight trains are all moving. It is thought that unless the strikers adopt some new course their cause is lost.

There are no indications of a strike on the Jersey Central. Reports to the effect that the various operatives of the Michigan Central will go on a strike in sympathy with the Knights of Labor strikers on the New York Central fail of verification.

On Monday's schedule at the Grand Central depot there were 138 Central railroad trains. Of these 120 left the depot on schedule time.

Vice-President Webb informed a reporter that the rumor that the firemen had joined the strikers was untrue. The signal towers are all fully manned. Everything, he said, was working beautifully all along the road.

Officials of the Central speak in the most confident manner of a speedy settlement of the troubles. They say that it is only a question of time when work will be resumed.

They are hourly getting men to take the strikers' places. Two hundred men have been sent from Chicago and many have been secured in the East.

It is generally conceded that the Brotherhood of Locomotive Engineers will have nothing to do with the switchmen in this strike. The engineers themselves are not in sympathy with it, and if they are called out it will be entirely against their will.

The trouble on the tracks used by the New York, New Haven & Hartford railroad caused needless and tiresome delay for numerous Grand Army organizations, many of which had come from considerable distances, and members were already tired out and in no humor to take gracefully the long waiting in New York.

ALBANY, N. Y., Aug. 12.—Adjutant-General Porter, when asked regarding the movement of the State troops in connection with the strike on the New York Central road, said:

"Up to this hour there has not been a dollar's worth of property destroyed or a single act of violence committed, so far as I can learn. As a whole, the strikers are behaving admirably and are in good temper. Governor Hill had a consultation with some of the leaders during the forenoon, and after listening to their grievances called their attention to the situation at De Witt and asked that all hostile demonstrations there be stopped. They promised that his request would be complied with."

Immediately after the interview some of them started for Syracuse, and the result is that they have brought about what they promised. The company has now peacefully resumed the possession of its property at that place and its trains are running through without molestation. It is doubtful whether any troops will be now needed unless an unexpected change in the situation occurs. The strikers profess a desire to avoid violence."

ERUPTION IN INDIANA.

Shelby County Visited by an Uplaval-Formation of Geysers—An Explosion of Natural Gas the Cause.

SHELBYVILLE, Ind., Aug. 12.—A volcanic eruption is now taking place in this county. At 9 o'clock Sunday morning the denizens of Waldron and vicinity living near the Ogden graveyard, ten miles southeast of this point, were thrown into great excitement by the upheaval of the earth and the falling of stones and mud in the neighborhood. About three miles south of Waldron, at a point where Conn's creek empties into Flat Rock river, the streams form a horseshoe bend and within the bend are about ten acres of land. At this point a terrific explosion or upheaval occurred, tearing holes in the ground and igniting surrounding objects from burning gas. The river bend is rent with great fissures and the water is pouring down into the earth, leaving the bed dry. Geysers in various places are throwing mud, water and gas to a height of fifteen feet, and the whole surface of the river is aflame. Great noises are heard from the earth and the road which runs alongside the river has sunk ten feet. Great excitement prevails throughout the country and the citizens who live near the scene are much alarmed.

IT IS CONSTITUTIONAL.

PIERRE, S. D., Aug. 12.—Chief-Justice Dighton Corson, of the Supreme Court, has handed down a decision that has been awaited with great interest from all parts of the State. In effect it totally does away with the sale of intoxicating liquor, as required by the laws already enacted.

BY THOUSANDS.

Odd-Fellows of the United States and Canada Flock to Chicago.

Meeting of the Triennial Cantonment of the Patriarchs Militant—Many Valuable Prizes Are Contested For.

THE THREE LINKS.

CHICAGO, Aug. 7.—At the triennial cantonment Patriarchs Militant Wednesday the competitive contests in the Rebekah degree work were continued at Battery D armory, and the prize drills on the Lake Front. In the latter, cantons from Van Wert, O., Winchester, Ind., Germantown, O., Dayton, O., Sullivan, Ind., and Logansport, Ind., took part. At night on the Lake Front the famous Chicago Zouaves under command of Captain Ford gave an exhibition drill, the degree of chivalry was conferred upon sixteen candidates and a magnificent display of fire-works was witnessed by 30,000 persons massed within the inclosure and perhaps 20,000 more congregated in the immediate vicinity outside.

CHICAGO, Aug. 8.—Over 12,000 Patriarchs Militant and members of subordinate lodges L. O. O. F. participated in the parade Thursday afternoon. The line of march was six miles in length and the procession was an hour and a half in passing a given point. It was reviewed at the Lake Front by Governor Fifer and staff, Mayor Cregier, and General Underwood and staff. In the contests in subordinate lodge degrees work at Battery D in the morning the following lodges participated: Fort Dearborn, No. 214, Chicago; North Star, No. 6, Minneapolis, Minn.; White Water, No. 41, Richmond, Ind.; and Bloomington, No. 400, Bloomington, Ill.

At night there was another jam of people on the Lake Front, 60,000 being a conservative estimate of those present. The decoration of chivalry was conferred on forty-three candidates, but the ceremony was very short and not one-tenth of the people in the grounds saw or heard any part of it. The exhibition of fire-works surpassed that of the night before, and included a number of the most elaborate and intricate set pieces ever made.

CHICAGO, Aug. 9.—The following cantons took part in the Patriarch Militant drill on the Lake Front on Friday: Marion, of Marion, Ind., the present holders of the first prize in class A; Wichita, of Wichita, Kan.; Indianapolis No. 2, of Indianapolis, Ind.; Ann Arbor, of Ann Arbor, Mich.; Elwood, of Elwood, Ind.; and Amsterdam, of Amsterdam, N. Y.

In the individual contest for the best drilled chevalier in the sword manual the prizes were awarded to W. S. Winters, of Canton Indianapolis, No. 2; T. H. Campbell, of Canton Van Wert, and P. Mortison, of Canton Occidental, No. 1, Chicago. The winners in the individual prizes for the line officers were: Captain J. H. Wise, of Canton Logansport, Logansport, Ind.; Ensign A. T. Wolcott, of Grand Canton Excelsior, of Chicago; and Captain E. Rott, of Canton Frank, Germantown, O.

At the ball given in honor of the generalissimo at Battery D Friday night the prize-winners in subordinate and Rebekah degree lodge contests were announced as follows:

For Subordinate Lodges—First prize, North Star Lodge, No. 6, Minneapolis, \$500; second prize, Wicker Park Lodge, No. 281, Chicago, \$300; third prize, Fort Dearborn Lodge, No. 214, Chicago, \$200.

For Rebekah Degree Lodges—First prize, Naam Lodge, No. 6, Columbus, O., \$500; second prize, Edith Lodge, No. 2, Chicago, \$300; third prize, American Lodge, No. 188, Chicago, \$200; fourth prize, Ruth Lodge, No. 1, Omaha, Neb., set of regalia and jewels, special prize by Roudy Company, Chicago.

CHICAGO, Aug. 11.—Saturday was the last day of the Odd-Fellows' celebration. It closed with the presentation of jewels of merit to the mayor and chief of police and a fire-works display in the evening. The competitive drill prizes were awarded as follows:

CLASS "A" CANTONS. Prizes. 1. Canton Marion, No. 6, of Indiana, \$1,500 2. Canton Frank, No. 58, of Ohio, 800 3. Canton Occidental, No. 1, of Illinois, 500 4. Canton Indianapolis, No. 2, of Indiana, 300

WHERE TO SPEND THE SUMMER.

If Undecided, Perhaps This Will Help You.

Where to go, what to do, how to do it, and the expense involved—questions agitating so many households, contemporary with the advent of summer, are all answered satisfactorily in the pages of the handsome volume entitled "Health and Pleasure," just issued by the Passenger Department of the New York Central & Hudson River Railroad.

The book is profusely illustrated, contains several valuable maps, and the information is presented in a concise, yet readable manner. It embraces an extensive list of summer hotels and boarding houses along the Hudson, among the Catskills, in the Adirondack Mountains, at Saratoga, Lake George, Niagara Falls, and other famous resorts.

Copies of the book may be obtained free upon application to W. B. Jerome, General Western Agent, No. 97 Clark St., Chicago, or will be mailed post paid upon receipt of ten cents in stamps, by George H. Daniels, General Passenger Agent, Grand Central Station, New York.

A Chance to Make Money.

MR. EDITOR:—I bought one of Griffith's machines for plating with gold, silver or nickel, and it works to perfection. No sooner did the people hear of it than I had more spoons, knives, forks and jewelry than I could plate in a month. The first week I cleared \$31.30, the first month \$167.85, and I think by July 1st I will have \$1,000 cash and give my farm considerable attention, too. My daughter made \$27.40 in four days. Any person can get one of these machines by sending \$3 to W. H. Griffith & Co., Zanesville, O., or can obtain circulars by addressing them. You can learn to use the machine in one hour. As this is my first lucky streak, I give my experience, hoping others may be benefited as much as I have been. Yours truly, M. O. MOREHEAD.

A pair of shoes is one of most typical products of modern industry. To make them the Animal Kingdom contributes from the herds of the Western Plains; the Vegetable, from groves of oak and hemlock or from the great forests still left to us; great factories supply cloth and thread; mines, furnaces and forges combine to furnish nails or wire. Through scores of processes, the forty-two pieces of a pair of shoes require to bring them together, the co-operation of fifty men and women, whose division of labor is so thoroughly systematized that everything goes with the same regularity attributed to the works of a clock, until as a result, you will shed reader, who wear the W. L. Douglas's Shoe, can buy a pair from three to five dollars that would have cost your forefathers from six to twelve.—Ex 10

BURLINGTON ROUTE

Cheap Lands in the West.

Along the lines of the BURLINGTON ROUTE in Nebraska, Colorado, Wyoming and northwest Kansas, particularly on its new extension to that territory, there is still some Government Land awaiting settlement, as well as other cheap lands held by individuals. These lands are among the best to be had anywhere in the country for agricultural and grazing purposes. In the comparatively new districts are many improved farms which can be purchased at a very low rate of that class of restless pioneer-settlers who are ready at all times to move "further west." In the territory embraced by the BURLINGTON ROUTE lines west of the Missouri River, there are in the vicinity of two hundred new towns which offer to manufacturers and business men an excellent opportunity to locate with profit. Send for the undersigned for descriptive pamphlets and other matter giving location and full particulars concerning these lands.

A MAP OF THE UNITED STATES.

A large, handsome Map of the United States, showing north and south Dakota, mounted and suitable for office or home use and issued by the BURLINGTON ROUTE, will be furnished responsible parties free on application to the undersigned.

### THE CENSUS.

The Rough Count Shows Illinois to Be the Third State in the Union in Population—Her Residents Number 3,801,285—Figures from Other States.

WASHINGTON, Aug. 12.—Illinois is now the third State in the Union in population. The population as fixed by the rough count in the Census Office is 3,801,285. By districts it is as follows: First district.....1,235,292 Second district.....342,500 Third district.....363,155 Fourth district.....493,692 Fifth district.....370,000 Sixth district.....384,293 Seventh district.....332,949 Eighth district.....329,376

Total.....3,801,285 In 1880 the population of Illinois was 3,077,871, so that in ten years the increase has been 723,414. It is doubtful if any State east of the Mississippi can show so large a per cent. of increase. New York hasn't reached a million increase by nearly 100,000, and it had over 5,000,000 to start with. Pennsylvania also shows a gain of nearly 900,000, but it had about 4,500,000 for the starting point.

By the end of the present week Superintendent Porter expects that the work of counting the census returns will be completed. Already the count has reached 50,000,000, and, according to Mr. Porter's estimate, which he said would prove to be about correct, there are 14,000,000 more to be counted, which will make the total population of the country about 64,000,000. The rough count shows Colorado's population to be 410,800. Wisconsin, by districts, shows up as follows:

First district.....430,000 Second district.....311,000 Third district.....377,817 Fourth district.....324,000 Fifth district.....399,332

Total.....1,838,749 For the following States and Territories, some of which, however, embrace only one census district only the grand totals have been obtainable thus far:

Massachusetts.....2,194,586 Minnesota.....1,429,000 North Dakota.....188,000 Oregon.....384,342 Utah.....223,589 Vermont.....332,000 Washington.....539,000

### A USEFUL LIFE ENDED.

Death at Birmingham, Eng., of the Venerable Prelate, Cardinal Newman.

LONDON, Aug. 12.—Cardinal Newman died of pneumonia Monday at Birmingham. He was taken ill on Saturday, the attack beginning with a severe chill. He passed into a comatose condition on Sunday and remained unconscious until he died. The last rites of the church were administered to him Monday morning, and during his illness prayers had been offered for him at all the churches.

[John Henry Newman was born in London in 1801. He entered Trinity College, Oxford, in 1816, and was elected a fellow of Oriel College in 1822. At Oriel College he formed a friendship with John Keble, the poet, and with Dr. Tohately. He was ordained a priest in 1824, and became a principal of Alban Hall in 1825 and a tutor of Oriel College in 1826. In 1828 he was appointed vicar of St. Mary's Oxford, and of Littlemore. In 1833, Newman, Keble, and Pusey initiated the "Oxford movement" in favor of high church doctrines, which they advocated in a series of "Tracts for the Times." He manifested a growing tendency to Roman Catholicism in his "Aryans of the Fourth Century: Their Doctrines, Temper and Conduct" (1833), his "Essay on No. 90" (1841), and his "Essay on the Development of Christian Doctrine." He became a member of the Roman Catholic church in 1845, and was the principal of the Oratory of Saint Philip Neri, at Birmingham, from 1848 to 1856. He defended or explained his religious course in a work entitled "Apologia pro Vita Sua" (1854). He published a collection of poems (1858), "The Grammar of Assent" (1870) and "A letter addressed to His Grace the Duke of Norfolk on the Occasion of Mr. Gladstone's Recent Expatriation" (1875). He was made a Cardinal Deacon in 1879.]

### FOR CONGRESS.

Candidates Nominated by Various District Conventions.

Congressional nominations were made on Wednesday as follows: Illinois, Fifteenth district, Jesse Harper, nominated by a joint convention of farmers, miners, prohibitionists and knights of labor; Texas, Seventh district, W. H. Crain (Dem.), renominated; Missouri, Eleventh district, R. P. Bland (Dem.), renominated; Kansas, Third district, B. H. Clover (Farmers' Alliance); Georgia, Sixth district, James H. Blount (Dem.), renominated.

The following nominations for Congress were made on Thursday: Illinois, Fifteenth district, L. L. Lawrence (Labor); Sixteenth district, A. J. Reeder (Farmers' Alliance); Iowa, Seventh district, J. H. Barnett (Labor); Indiana, Ninth district, Milton Handson (Pro.); Ohio, Thirteenth district, Irvine Sungan (Dem.).

Congressman Morton, of the Seventh Missouri district, was renominated to succeed himself by the Democratic convention held at St. Charles on Friday.

The Democrats of the Twelfth Missouri district in session at Butler nominated Judge D. A. Desmond for Congress on Saturday. It required 621 ballots to reach this result.

### A Plague of Rats.

BLOOMINGTON, Ill., Aug. 9.—A plague of rats has fallen upon the farmers of McLean County. The vermin raid the corn-fields in swarms that have headquarters in the hedges and stacks and climb the corn-stalks and devour the young ears. The farmers are waging war on them with traps, dogs and cats, but so far have met with little success.

### Prairie Fires in Western Kansas.

DODGE CITY, Kan., Aug. 12.—Raging prairie fires are devastating the counties of Western Kansas, totally destroying the entire crop in vast stretches of the country. There has been no loss of life, but in numerous instances the live stock has been lost. Farmers will suffer greatly, and the distress next winter will be general with them.

### Big Gain in Colorado.

DENVER, Col., Aug. 11.—Complete census returns give Colorado a population of 410,800. This is a gain over 1885 of 166,899, and over 1880 of 126,482, and will give the State one additional Congressman.

### Big Wheel Works Burned.

FORT WAYNE, Ind., Aug. 9.—White's wheel works were destroyed by fire on Friday, causing a loss of nearly \$300,000. Over 900 men were thrown out of employment.

### A POET GONE.

Sudden Death at Cohasset, Mass., of John Boyle O'Reilly.

BOSTON, Aug. 11.—John Boyle O'Reilly, the poet, agitator and editor of the Boston Pilot, died at his summer residence at Cohasset, Mass., on Sunday, aged 46 years. He had been suffering from sleeplessness for several days, and it is thought took an overdose of medicine designed to afford him relief.

[John Boyle O'Reilly had a brilliant and varied career. He was born at Dowth Castle, County Meath, Ireland, in 1844, of scholarly and patriotic parents, and after learning the printer's trade in Dublin, eluded in the "Tenth" (Prince of Wales) hussars, the crack dragon regiment of the army, his intention being to spread Republican principles among the soldiers of his own and other regiments. He did his work so thoroughly that at the end of three years he was promoted to high treason. After two years in chain gangs in England the young patriot in November, 1867, was sent to the penal colony of West Australia in a convict ship crowded with 840 criminals. His sentence was for twenty years, but in February, 1868, he made his escape, putting to sea in an open boat.

Mr. O'Reilly came to Boston in 1870, and within a few months went as correspondent of the Pilot with the Fenians who "attacked" Canada. Here he had a very narrow escape from being taken prisoner by the British. He was in command of the Irish for a short time after O'Neil was taken prisoner. Returning to Boston Mr. O'Reilly soon became the editor of the Pilot and in 1876 its managing owner. He became a contributor to the Galaxy, Scribner's, the Atlantic Monthly and Harper's, and was even a welcome contributor to the exclusive Dark Blue, the magazine of Oxford University, England, until the publishers discovered that he was a Fenian.

His frank, earnest personality secured the friendship of Phillips, Whittier, Garrison and other staunch Americans. His countrymen have seemed to put more faith in him than in any one else, because of his unselfishness and generous consideration for the interests of others.

Among his books are "Songs of the Southern Seas," "Songs, Legends and Ballads," "Statues in the Block" and "In Bohemia." His novel, based on Australian experiences was entitled "Moodyne." Among his noted orations was that on "The Common Citizen Soldier," delivered in Boston on Memorial day, 1886, while his greatest public poem was delivered at the dedication of the Plymouth monument at Plymouth a year ago. Recently he had written a number of essays on athletic sports, of which he was a devotee.]

### HELGOLAND.

Emperor William's Proclamation on Taking Possession of the Island.

BERLIN, Aug. 12.—In his proclamation upon the formal taking over by Germany of the Island of Heligoland Sunday, Emperor William says he welcomes the reunion of the island with the fatherhood. He promises protection and the utmost care for the inhabitants and their rights. The proclamation further says that the local laws and customs will as far as possible remain unaltered and concludes: "The retention of the faith of your fathers and the care of your church and schools will have my earnest attention."

Says the Free Press, coming to the rescue of the small boy: There is only one right way of celebrating the Fourth, and that is by pop! fuzzi bang! hurrah! The man who grows fat at it is an old kicker without a grain of patriotism in his soul, and nothing he says should be heeded. When noise and smoke go hence on the Fourth, there will be no more glory.

SPECIAL

Clearing Sale

—OF—

SUMMER DRY GOODS.

All of our large stock of merchandise at special prices for a few weeks. Bargains for you and money for us. As we have the goods and you have the money, we propose to trade with you, and in order to make things move we shall offer the most extraordinary bargains.

One case (only) of 4-4 Bleached Cotton, No Name, at 8 cents per yard. Cheaper than anything you have seen to compare with it.

One Bale each of Brown Cottons, yard wide, at 5, 6, 7, and 8 cents per yard, at which price they are far less than you can buy them at any other house.

One case of Colored Check Shirtings at 10 cents per yard, such goods as are sold elsewhere at 12 cents. Buy what you need, as they will not last long at the price.

All kinds of Gingham, Satines, Lawns, Foulards, Percalines and Prints, suitable for the warm season, at prices less than we can replace them. Buy them now, as you will not see such a chance for a long time to come.

Wide Cottons for Sheets and Pillow Cases, bought before the recent advance in price, and we propose to give our customers a benefit at prices way below current rates. Lay in what you want of them for the next season. All the best makes included in this sale.

Forty pieces of 28-inch Colored Dress Flannels, All Wool, at 25 cents per yard, suitable for Traveling, Camping and Bathing Costumes. These are rare bargains and you cannot buy any better Dry Goods for the money.

BLACK DRESS LACES.

We have more of them than we want and name a few prices that will move them. La Tosca (All Silk) Dress Flounccs, \$2.50 per yard, reduced from \$4.00. Spanish Guipure Flouncc \$1.20, reduced from \$1.75 and \$2.00.

Just received, an A 1 Black Surah at 60 cents per yard, sold at other places at 75 cents. It's a corker at the price.

We have just replenished our stock of Black Dress Goods, and show the most complete line of Cashmeres, Henriettas (Silk Warp and All Wool), Serges and Fancy Weaves, and we put them all in this sale—no reserves.

After reading over the list of bargains offered you, don't entertain the idea, or class us with the trade who make a specialty of giving great bargains in job lots and auction goods, for we do not handle them. Nothing but First-class goods are handled by us, giving the purchasers value for their money in every instance.

The bill on Fuller-st is being cut down, preparatory to building a sidewalk on the south side.

The commencement exercises of the agricultural college begin to-day and last till Tuesday evening next.

The sparrow orders given by the county treasurer for the week ending last Saturday amounted to \$91.50.

Frank Ticknor, of Pittsfield, has just purchased twenty full-blooded Shropshire of Valentine Bros., of Dexter.

The A. P. Ferguson company has just turned out delivery wagons for O'Hara, Boyle & Co. and A. Fruhauf.

Union services will be held in the Methodist church next Sunday evening, Rev. Mr. Studley occupying the pulpit.

John Schalar was sent to jail, Monday morning, on a charge of disorderly conduct. He will remain there ten days.

Cards are out, announcing the marriage, on August 26, of Louis C. Hill, of Detroit, and Miss Gertrude B. Rose, of this city.

The Ann Arbor bicycle club went to Saline last Sunday. Next Sunday about twenty-five of them will wheel into Detroit and back.

Little Oscar and Elsie Eberbach have been quite sick with diphtheria at their home on south Fourth-ave. They are now out of danger.

The death of the little child of Mrs. Lee Ward, formerly Miss Ninette Burleigh, of this city, occurred, the other day, at New York city.

Eugene K. Frueauf has an interesting letter in the last issue of the Columbia (Pa.) Courant, on the subject of Ann Arbor and the university.

The Ferguson nine was defeated last Friday by the M. A. A. The score was 9 to 1. The batteries were Laugna and McClure, Mahany and Seymour.

A. L. Noble has decided to put in an entirely new store front. The doors will be set back farther and larger plate-glass windows will be placed in front.

Engene Gilmore, of the Michigan Central freight office, has accepted a position as cashier at the T. & A. A. depot. Charles Green takes his place with the Michigan Central.

The midsummer games of the Detroit Athletic club will take place on August 16. Gold medals will be awarded to winners in open events and silver medals to those who are second best.

Dr. W. C. Dabney has declined the position on the medical faculty recently offered him by the board of regents. He is suffering from ill-health and fears that he could not stand the climate of Michigan.

Frank Ingalls, while working on the addition to H. G. Prettyman's house, last Monday, fell through the floor joists down into the cellar below. He was rendered unconscious for a few minutes, but suffered no serious injury.

A sneak thief broke into the cellar of Wm. Wagner's house, last Friday night, and helped himself liberally to the eatables which were stored there. He used one of the T. & A. A. brake lanterns for illumination and left behind his card in the shape of a dirty shirt.

Roy, the ten-year-old son of Mrs. Sarah Thompson, was kicked to death by a horse at his home in Oregon City, recently. Mrs. Thompson and children spent last summer with her mother, Mrs. Chas. Allmendinger, of Lodi, and the lad is remembered as a bright active boy.

THE REGISTER office has just printed, for the Colorado College Scientific Society, a pamphlet containing the papers read at different meetings of that organization during the present year. The REGISTER print is becoming very familiar to many people throughout the United States.

Mary Roper, wife of Wm. H. Roper, of Northfield, sued for a divorce, the other day, on the ground of extreme cruelty. She has been married only seven months, and has lived with her husband only two months. She also asks for an injunction, which has been granted, restraining Mr. Roper from selling his farm property.

THE REGISTER calls attention to a needed improvement in Ann Arbor—the putting up of street signs. The writer knows how it is himself, for although tolerably well acquainted with the city, we found it difficult to locate parties, recently, after consulting the directory, as street names were not to be found.—Ypsilanti Sentinel.

Telegraphic information from Montreal to Cleveland reports the accidental drowning of Dr. William Mason Payne, of Cleveland, in the recent accident which occurred in the G. A. R. excursion steamer Bohemia, at Cedar Rapids. Dr. Payne is a graduate of the University of Michigan and well known in the city of Ann Arbor. He was unmarried and had been in the practice of medicine but a short time.

For the third time the fire-fiend has made an ineffectual attack upon the old Weil building on Huron-st. The firemen were called out at about one o'clock Sunday morning and succeeded in saving the old structure, much to the chagrin of many people who were anxious to see it go. Broken window sashes and bottles were found on the second floor, which indicated that possibly the fire was of incendiary origin.

The Methodist ladies give a social and tea at 8:30 this evening.

John P. St. John and Mary T. Lathrop will address the prohibitionists on September 5.

Mrs. Mattie Wetmore will build a new house on W. Huron-st, to cost from \$4,000 to \$5,000.

A flowing well was drilled on J. F. Lawrence's farm near Pittsfield, the other day. Water was discovered at a depth of fifteen feet which spouted five feet above the surface.

The Ferguson nine will play at Tiffin, Ohio, August 25 and 26; at Fremont, August 27; and Clyde, August 28. They will meet nines at Grand Rapids and Jackson some time during the month of September.

The new Sager block, on State-st, marks a new departure in the architecture of Ann Arbor. It is three stories high, and about forty feet wide, containing two store-rooms on the first floor. Large arches extend from the ground up through the second story. No part of the building has as yet been rented.

A serious break in the water pipe running under the Detroit-st bridge occurred on Tuesday last. Inasmuch as the pipe is about twenty feet below the roadway at this point, the water company has been obliged to change its location, and a new pipe will be laid further to the east at an expense of \$300.

A party of thirty-three young people drove out to Whitmore Lake on Tuesday afternoon. Some of them took the "bus," which was decorated with the University colors, while others preferred to ride on hayracks. They took their supper in the grove at Whitmore Lake, and after a very pleasant dance returned to Ann Arbor about 2 A. M.

The Catholic picnic held yesterday at Whitmore Lake was a great success. Over 1,500 people, from Northfield, Ann Arbor and other places, were present. Harkins and St. James gave several vocal selections, Miss Andrews, of Dexter, and Miss Walsh, of Detroit, furnished instrumental music. The young people danced quadrilles during the afternoon. In the course of the day, speeches were made by Rev. Fr. Kelley, of Dexter, and Rev. Fr. Goldrick, of Northfield.

The Iron Mountain Water company has filed articles of association with the county clerk. The capital stock is \$75,000, held by the following Ypsilanti parties: D. L. Quirk, F. A. Todd, D. C. Batchelder, C. King, R. W. Hemphill, H. P. Slover and H. C. Swift. The company holds a franchise for thirty years from the city of Iron Mountain, Menominee Co., and will receive \$9,000 annually for 156 hydrants, with \$50 for every extra one required.

The Patriarchs Militant returned on Saturday night from Chicago, where, according to reports, they had a glorious time. The Ann Arbor canton won the third prize in class D, amounting to \$300, which was awarded for proficiency in drilling, and Captain Manly won an additional prize of \$40 which was given to him as commanding officer. When it is remembered that the judges who oversaw the drilling were regular army officers, it will be seen that Ann Arbor has made a good showing.

John Krone, the suspected horse thief, was given another hearing on Monday morning. He produced no witnesses in his own behalf and attempted no defence. The only important testimony on the other side was that given by Charles Palmer, of Sumter, Wayne Co., who identified Krone as the man whom he had seen with Mr. McCormick's horse, on the Monday morning after the robbery, between seven and eight o'clock. Krone was bound over to the circuit court and in default of bail, committed to the county jail.

There are probably some young people in this community who possess more or less talent for drawing, and who only need the opportunity of cultivating their talent to make an artistic and financial success, and achieve fame and fortune by their work. For the benefit of such aspiring artists the Detroit Museum of Art was founded, and it is now fully equipped for the work of thorough instruction in drawing, painting, modeling, architecture and decorative design. The next term opens on September 15.

While M. M. Steffey and L. M. Stevens were driving home from Whitmore Lake, the other evening, the former spied an animal by the side of the road which he took to be a rabbit. With a true sportsman's zeal, he immediately jumped out of the carriage and pursued his game. As he got nearer he was convinced that he had tracked a coon, and was becoming highly elated over his good luck, but when he had fairly cornered the animal, his fair dream vanished in the fumes of an intolerable stench and he was forced to beat a hasty retreat. He has buried his clothes and promises to tell no more stories about his prowess as a hunter.

"Steamboat" Johnson, well-known to Ann Arbor citizens, was given a baptism, last Monday night, which he did not in the least relish. He had, during the day, taken possession of the old building on the corner of Broadway and Wall-st, much to the displeasure of some of the residents of the fifth ward. About ten o'clock in the evening, a gang of rowdies collected around the newly acquired domicile and placed a barrel, containing straw, on the side-

walk in front. This they ignited; then raising a cry of fire, they turned on the city water. Incidentally, so to speak, they wet down the inside of the building, thoroughly drenching the occupants and breaking all the windows. The "Rev." Johnson is highly indignant at the work of the rowdies and has brought the matter before the authorities.

The wedding of E. V. Hangsterfer and Miss Ada Herbert took place on Tuesday evening at the home of the bride's parents. The ceremony was performed by Rev. Dr. Studley. J. E. Harkins was the groom's best man and Miss Lottie Andrews, of Dexter, acted as bridesmaid. The newly married couple took their departure on the nine o'clock T. & A. A. train for parts unknown. They will return about August 25 and after that time will be at home to their friends at their residence on north Main-st. Among those from out of town, who attended the wedding, were J. W. Hangsterfer, wife and daughter, W. J. Luyck, wife and son, Mrs. J. C. Stevens and daughter, all from Detroit.

The building occupied by the Farmers and Mechanics Bank is undergoing considerable improvement. On Monday evening the bank furniture was moved into the vacant store formerly occupied by Stevens' barber shop, where business will be transacted until the bank is ready for occupancy. The ceiling of the bank will be raised nearly two feet, a tile floor will be laid and the walls will be neatly painted. The main entrance will be placed on the corner instead of on the sides as at present. The private office will be made larger and more cozy. New furniture will be placed throughout the bank. All of these improvements, it is expected, will have been completed by September 10th or 15th.
