## MERE ROUTINE.

### REGULAR MEETING OF THE CITY COUNCIL.

#### Resolutions of Respect for the Late Aid. Kearns—Financial Estimate—Cemetery Matters, Etc.

There was no excitement and little interest connected with the regular meeting of the council last Monday night. All the aldermen were present except Dieterle and Spafford. The chair of the lamented Thos. Kearns was appropriately draped. The committee appointed to draft resolutions of respect for the deceased alderman presented the following:

We, the Common Council of the city of Ann Arbor, being deeply afflicted by the death of our friend and associate, Alderman Thomas Kearns, and being desirous of perpetuating the memory of this faithful officer, exemplary citizen and beloved colleague upon the public records of the city, hereby bearing testimony before the world to the affection we bore him while living and to our loving remembrance which triumphs over the grave do

Resolve, That while we bow in submission to the wise orderings of the Universal Parent, we do deeply deplore the loss we suffer as a city and as individuals in the dispensation which removes from our councils a man who in every relation of life was manhood personified. As an official he served the public zealously, honestly and impartially, and his six years of active service upon our board have left an impression for good upon our civic life for many years to come.

As a citizen he never forgot his responsibilities, his duties or his privileges. Tireless and vigilant for what he considered the public good, he manfully exercised the proud prerogatives of American citizenship, using and never abusing the sacred trust.

At home as well as abroad, he bore his character stainless and without reproach. Kind and affectionate to all within its circle, his domestic virtues were in perfect consonance with his upright character and honest life.

Ald. Miller introduced a resolution congratulating the street railway company upon the successful completion and operation of their line.

Relative to the same matter, Ald. Hall offered a more tangible resolution, to the effect that the certified checks deposited with the city clerk by the company be returned, inasmuch as the latter had carried out its pledge.

Certain citizens living on and near Packard-st presented a petition, asking for an electric light on the corner of that street and Fifth-ave. Referred to the lighting committee.

On motion of Ald. Miller, the polling places for the next election were established as follows: First ward, Chris. Sanzi's store, corner of Fourth-ave and Williams-st; second, Wm. Herz's paint shop; third, agricultural room in the court house; fourth, engine house; fifth, engine house, and sixth, engine house.

Warren E. Walker was appointed to the position on the registration board made vacant by the death of Ald. Kearns, and a special election for the choosing of an alderman from the third ward was called for November 4.

Ald. Hall presented a resolution, which was adopted, providing for the removal of the bodies in the old cemetery and the opening of Huron-st through the grounds. The sum of \$500 was appropriated for the purpose.

The matter of appointing patrolmen again came up, and the council again refused to appoint two additional men. The nomination of David Collins for the position was confirmed.

FINANCIAL ESTIMATE. The financial committee presented the following report, which was adopted: "Your committee of finance would respectfully recommend that the assessor be instructed to levy an assessment of five mills on the dollar for general city purposes for the coming year, and that a special assessment of \$4,000 and \$840 for interest to apply on hospital bonds be levied and that an assessment of one-tenth of a mill be levied for the soldier's relief fund, and that \$399.21, the amount of the delinquent tax fund, be assessed. Further we would recommend that the following appropriations be made: Street fund, \$8,000; poor fund, \$2,000; police fund, \$2,500; water, \$5,000; fire department, \$3,500; cemetery fund, \$50; balance to be credited to the contingent fund."

VARIOUS MONTHLY REPORTS. The board of public works made the following recommendations: that sidewalks be laid on the east side of First-st from Ann-st to Miller-ave, and on the north side of South University-ave from Washtenaw-ave to the city limits; that the width of all sidewalks on the east side of Main-st from Catherine-st to Williams-st be established at twelve feet and all on the west side laid fourteen feet be ordered to conform to the city ordinance. The recommendations were referred to the street committee. The treasurer reported: balance on hand, \$878.95; received, \$24.10; disbursed, \$2,512.57; overdraft, \$1,609.92. The city clerk reported: balance on hand, \$199.19; received, \$24.10; disbursed, \$2,196.78; overdraft, \$1,609.92. The marshal reported four arrests during the past month, three for violating city ordinance and one for drunkenness. The poor superintendent reported relief given as follows: First ward, \$8.25; second, \$5.05; third, \$14.69; fourth, \$37.22; fifth, \$14.91; sixth, \$7.00; total, \$87.15. According to the report of the finance committee, which was adopted, the following bills were allowed during the last month: contingent fund, \$980.30; police, \$129.00; poor, \$85.65; fire department, \$336.30; building, \$19.63; street, \$1,676.94; total, \$3,227.81.

Chelsea Fair. Good attendance and good exhibits have made the Chelsea fair a success. The live stock department is particularly good. O. C. Barkhardt, of Lima, and William Wood, of North Lake, exhibit shropshires, while L. B. Lawrence, of Sharon, S. O. Hadley, of Lyndon, and Mr. Hartshoff, of Unadilla, exhibit merinos. W. E. Stocking, of Lima, and others show some fine Poland china hogs. There are about ninety entries in the horse department. In the cattle department John Pratt exhibits short-horns, Geo. P. Glasier Jerseys and S. O. Tubbs Galloways. The program of races is unusually good. Bicycle and trotting races will take place this afternoon. At one o'clock E. P. Allen will address the people on the political issues of the day.

## RICHMOND-CHAMPLIN.

### An Account of the Recent Marriage, at Boone, Iowa, of Charles H. Richmond, jr., of this city, and Miss Katherine Champlin.

Charles H. Richmond, jr., son of C. H. Richmond, of this city, and a graduate of the university, and Katherine Champlin were married at the residence of the bride's father, Frank Champlin, at Boone, Iowa, on Thursday, October 2, at 7 o'clock in the evening. The wedding was followed by a reception from 8 to 11.

The Boone papers describe the wedding and reception, above mentioned, as being in all respects a very pleasant and recherche affair. We make the following extracts from their description of the wedding ceremonies: "At 7 o'clock the 'Norwegian Bridal Procession of Grieg,' rendered by Miss Bibbs, announced the approach of the bridal company. The bride was preceded by two little girls, who led the march into the parlor, each carrying a bouquet of white rose buds. They were followed by the bride, who wore a beautiful dress of white faille silk with a veil of tulle, carrying in her hand a beautiful bouquet of white roses.

Next came the maid of honor, Miss Edith Bush, of Boone, who was dressed in white crepe, also carrying a large bouquet of white roses.

The bridesmaid was Miss Mary A. Richmond, of Ann Arbor. Her dress was of amber silk with crepe lisse, and she carried a bouquet of yellow roses contrasting with the snowy costumes of those preceding and bringing out the prevailing idea in decoration and costumes as represented by the colors, 'amber and white.'

Mr. Frederic S. Richmond, of Ann Arbor, Mich., brother of the groom, was best man, and Mr. Charles Champlin, of Chicago, the bride's brother, was usher. The parlor was profusely decked with flowers; the prevailing colors being amber and white.

The Rev. Mr. Barington of Grace Episcopal church, officiated.

There were about fifty guests present at the ceremony and one hundred and fifty or more at the reception. The guests from abroad were Governor Boies of Iowa and his daughter, Miss Jessie Boies; Mrs. A. A. Pattengill, and Miss Kate Hemingway of New York City; Mr. and Mrs. A. J. Nutter, Clare and Harry C. Nutter of Des Moines; Mrs. C. H. Richmond, Miss Mary A. Richmond and Mr. F. S. Richmond of Ann Arbor, Michigan; Mr. Charles Champlin of Chicago, Mr. Charles Reynolds of Omaha, Mr. George W. York of Grand Junction, and Mrs. Warren Garst of Coon Rapids.

The interior of the house was beautifully decorated with flowers of different kinds, the prevailing colors being amber and white. Over the archway between the parlors, in flowers of corresponding color, was a motto containing the Latin word "Telasio" or "The Chosen One," referring to the familiar legend of Telasus. On the other side of the archway was a monogram with the letters "C. R." in flowers of different hues.

The presents received were in number over one hundred, many of them very valuable as well as beautiful, and most of them useful, such as a check for \$1,000 and a very handsome parlor grand piano from the bride's father and mother, chest of solid silver wear from the groom's father and mother, from Governor and Miss Boies a solid silver piece, and presents from Mrs. and Miss Richmond of Grand Rapids and Mrs. Kendall, of Topeka, consisting of a solid silver ice cream set, a salad set and a fish knife. And many others were received in silver, French china, pictures, etchings, bric-a-brac, etc.

The bride and bridegroom left by night train west, after the reception, for Council Bluffs, which place will be their home for the winter.

## LITERARY NOTES.

The Magazine of Art for September is as usual full of beautiful illustrations. George du Maurier writes and illustrates an article on The Illustrating of Books from the Serpents Point of View; and Claude Phillips begins a short but important series of articles on The Modern School of Painting and Sculpture, as illustrated by the Grand Prix at the Paris Exposition. Cassell Publishing Co., New York.

The Jenness-Miller Magazine for September is full of things sure to interest women. This month the article on Physical Culture deals with The Hand and Arm. Various social topics are discussed, and the paper on Fashions and Fancy sustains the well earned excellence of this periodical. The Jenness-Miller Pub. Co., New York.

The September Book Buyer has for its biographical sketch a survey of the life of Arthur Shelburne Hardy, professor of mathematics at Dartmouth college and the author of several mathematical treatises. Professor Hardy has written beside these several novels, among them, But Yet a Woman, and The Mind of Destiny. Charles Scribner's Sons, New York.

Some titles of the interesting articles in the October number of the Jenness-Miller Magazine are: The Philosophy of Motion; Politeness; Social Etiquette—Mourning; Tapestry; A Classic Toilet, and A Girl Student's Year in Paris. \$2.50 a year. Jenness-Miller Pub. Co., 363 Fifth-ave, New York.

A copiously illustrated account of Ancient Dwellings of the Rio Verde Valley, in Arizona, will be contributed to the October Popular Science Monthly, by Captain Edgar A. Mearns, Assistant Surgeon U. S. A. It contains a description of ruined cliff-dwellings and pueblos explored by Dr. Mearns, with plans showing the exact arrangement of the rooms on the five floors of one of the former, and pictures of the exteriors of several dwellings, and of many curious implements found within them. D. Appleton & Co., New York.

## LARGEST IN THE COUNTRY.

### ENROLLMENT OF THE UNIVERSITY OF MICHIGAN.

#### Hobart Guild—Football—Class Rushes—Moot Courts—Glee Club—Choral Union—Minor Notes.

According to the new requirements, no person can belong to the Hobart Guild who is not either a communicant of the Episcopal church or attached to that church. During the summer, Mrs. H. S. Frieze presented, in memory of her late husband, seventeen books to the library. Relatives of the late Rev. J. S. Large, of Traverse City, have contributed over 100. Rev. Henry Tatlock, and his able assistant, Rev. W. O. Waters, are doing much to make the guild an ideal organization of the kind.

The managers of the choral union have already made arrangements for three concerts to be given during the coming winter. They are the following: Miss Adele Aus der Ohe, November 1; New York Philharmonic Club, December 10; Boston Symphony orchestra, some time in May. Prof. Stanley will endeavor to persuade the latter to give two concerts in this city.

The glee club will sing at Buffalo, December 22; Cleveland, December 23; Detroit, December 24; Chicago, December 25; St. Paul, December 26; Minneapolis, December 27; Kansas City, December 29; St. Louis, December 31; Cincinnati, January 2. J. A. Jameson has been chosen president of the club.

Two or three weeks ago the university authorities predicted no increase in number over that reached last year. They have been disappointed, for the present indications are that at least 200 more will be enrolled this year than ever before, and that the total will not be less than 2,400.

The law students have organized their mimic court, christened it "Michigan Club Court" and elected the following officers: Chief justice, G. R. Irving; associate justice, T. J. Cavanaugh; clerk, E. F. Gower; prosecuting attorney, G. A. Brown; sheriff, S. Treby.

A successor to Henry Wade Rogers will be elected at the next meeting of the regents, which is to take place on October 15. Whether one of the present members of the faculty or an outside lawyer will be chosen, is as yet uncertain.

The irrepressible westerners in the law department have organized a "Trans-Mississippi Club Court," with the following officers: Chief justice, W. F. Wanless; associate justice, E. R. Spotts; clerk, Mr. Araud; sheriff, T. A. Morrin.

A chapter of the Kappa Kappa Gamma Sorority has been established at this University. The charter members are the Misses Penny and Damon, '90; Pritchard, '91; Sprague, '91; Penny, '92; Hinsdale, '92.

The candidates for positions on the football eleven will take possession of their training table at Prettymans' within a few days. They will play with the Albion club here next Saturday.

The football game which was to have been played with the D. A. C. last Saturday, did not come off, owing to the failure of the Detroit eleven to keep their engagement.

The freshman "spread" will be given one week from to-morrow night, in Nickel's hall. Sophomore girls will at that time "rush" their young sisters in first-class style.

The faculty will try to persuade the freshmen and sophomores to abolish their time-honored "rush" and substitute the more civilized "tug-of-war."

E. M. Brown, lit '80, took his Ph. D. at Goettingen, last June, and is now professor of modern languages in the University of Cincinnati.

A book will soon be published, containing a full account of the trip made by the Rocky Mountain Club during the past summer.

The Sophies will meet next Saturday, for the purpose of electing a football captain and declaring war against the quill-less fresh.

W. E. Goddard, '90, who was president of the S. C. A. last year, now holds the position of principal of the Marshall high school.

The old joke of placing the word "push" on the front door has been perpetrated upon the freshmen again this year.

Miss Silver, state secretary of the Y. M. C. A., delivered an address in the University chapel on Monday evening.

A guileless freshman recently inquired of the attendant if the dissecting room was to be found in the library.

The Oracle will offer prizes for the best cover design, prize article, poem, humorous story and cartoon.

Fresh and Soph will again meet in dire conflict this year—probably two weeks from next Saturday.

The dental department has two students bearing respectively the names of Casebeer and Selzer.

Three hundred and four students are racking their brains this year, with the study of Psychology.

The choral union has begun to practice on the Christophorus of Josef Rheinberger.

The banjo club will soon be reorganized by its former efficient leader, Henry Haug.

Prof. Thompson has recently published a new edition of "Equity Pleading."

President Angell gave the usual opening address before the S. C. A., last Sunday.

Over 5,000 books have been added to the general library since Oct. 1, 1889.

The first number of the Chronicle-Argonaut will appear next Saturday.

The Literary Adelphi will give an informal social on Saturday evening.

The number of horses in the state last May was 306,883; milch cows, 405,675; cattle, other than milch cows, 363,519; hogs, 450,748; sheep, 1,908,254.

Compared with the statistics of a year earlier, there is an increase of 11,892 in the number of horses and 2,842 in the number of milch cows, and a decrease of 30,586 in cattle other than milch cows, and of 26,725 sheep.

The number of sheep reported shorn in 1889 is 1,944,297; pounds of wool, 11,983,491, an average per head of six and one-sixth pounds. At the same average per head as in 1889 the wool clip of the present year amounts to 11,754,844 pounds.

On the 22d day of June, 1814, she was married to John Edward Cecil, in Christ Church, in the city of London, by the pastor, Rev. Samuel Crowthor. Mr. Cecil, who died four or five years ago, was a British seaman and assisted in rigging out the vessel that carried Napoleon Bonaparte to the Island St. Helena.—Milan Leader.

How far, in voting on county matters, we should carry our partisan politics for each man to decide for himself. As a general principle, we should not indulge such partisan spirit to our own hurt.

The county officers stand in close relation to our personal interests. Do not these officers have to do more with our business interests and personal safety than with politics? Should we vote for a democrat because he is a democrat, or a republican because he is a republican?

Would it not be far wiser to act as we do in purely business relations? Republicans employ democrats and democrats employ republicans, in their stores, offices and on their farms.

Why not act on the same broad plan in these matters which are purely of like character?—Ypsilantian.

A LEVEL HEAD.

The Advantage of Presence of Mind in an Emergency.

During the late strike on the New York Central Railroad, the militia were ordered out to be in readiness in case of a riot, but they were not called.

In an interview, Gov. Hill said the troops were not to be called upon except in case of an emergency.

The emergency had not arisen, therefore they would not be ordered out. He remarked that this was the first great strike with which he had had experience, and he did not propose to lose his head; the only point at which there had been serious trouble was at Syracuse, and there a deputy-sheriff had lost his head and precipitated an encounter.

The strike continued several weeks and there was riotous action at various points along the road, but the civil authorities were able to cope with it without calling on the militia.

The test of a man's ability comes when an emergency arises which makes a hasty call on his good judgment and discretion. The man who retains his presence of mind, maintains his equanimity and exercises sound discretion at such critical junctures, is to be relied on and will be put to the front.

Men with level heads have the staying qualities which do not falter in the face of danger. Otis A. Cole, of Kinsman, Ohio, June 10, 1890, writes: "In the fall of 1888 I was feeling very ill. I consulted a doctor, and he said I had Bright's disease of the kidneys and he would not stand in my shoes for the state of Ohio." But he did not lose courage or give up; he says: "I saw the testimonial of Mr. John Coleman, 100 Gregory St., New Haven, Conn., and I wrote to him. In due time I received an answer, stating that the testimonial he gave was genuine and not overdrawn in any particular. I took a good many bottles of Warner's Safe Cure; have not taken any for one year.

Gov. Hill is accounted a very successful man; he is cool and calculating and belongs to that class which do not lose their heads when emergency arises.

OF NEW YORK, WILL BE AT THE Cook House, Tuesday, October 11.

Along the lines of the BURLINGTON ROUTE in Nebraska, Colorado, and northwest-ern Kansas, particularly on its new extension that territory, there still some Government Land awaiting settlement, as well as other cheap lands held by individuals. These lands are among the best to be had anywhere in the country for agricultural and grazing purposes. In the comparatively new districts are many improved farms which can be purchased at a very low rate of that class of restless pioneer-settlers who are ready at all times to move "further west." In the territory embraced by the BURLINGTON'S lines west of the Missouri River, there are in the vicinity of two hundred new towns which offer to manufacturers and business men an excellent opportunity to locate with profit. Send to the undersigned for descriptive pamphlets and other matter giving location and full particulars concerning these lands.

The Government Now Assists Over Five  
 Hundred Thousand Persons—Thous-  
 ands of Claims Still On  
 File for Adjudication.

THE PENSION ROLL.  
 WASHINGTON, Oct. 7.—The annual re-  
 port of Commissioner Green B. Raum, of  
 the Pension Bureau, shows that there  
 were at the end of the last fiscal year  
 537,944 pensioners borne upon the rolls  
 and classified as follows: Army invalid  
 pensioners, 392,809; army widows,  
 minor children and dependant rela-  
 tives, 104,456; navy invalid pen-  
 sioners, 5,274; navy widows, mi-  
 nor children and dependant rela-  
 tives, 2,467; survivors of the war of 1812,  
 413; widows of soldiers of the war of  
 1812, 8,610; survivors of the Mexican  
 war, 17,158; widows of soldiers of the  
 Mexican war, 6,764; total, 537,944.  
 There were 66,637 original claims al-  
 lowed during the year, being 14,716  
 more original claims than were allowed  
 during the fiscal year 1889, and 6,385  
 more than were allowed during the fis-  
 cal year 1888.

The amount of the first payments in  
 these 66,637 original cases amounted to  
 \$2,478,941, being \$1,036,492 more than  
 the first payments on the original claims  
 allowed during the fiscal year 1889, and  
 \$10,179,235 more than the first pay-  
 ments on the original claims allowed  
 during the fiscal year 1888. There were  
 20,638 pensioners unpaid at the close  
 of the fiscal year who were entitled to re-  
 ceive \$4,357,347, which has since been  
 paid from the appropriation for pen-  
 sions for the fiscal year 1891.

Commissioner Raum says more work  
 has been performed in his office in the  
 past year than ever before in the same  
 length of time. The number of cases  
 now in the hands of the special examina-  
 tion division has been reduced from  
 14,225 to 7,824; of these only about  
 5,000 are in the hands of special ex-  
 aminers. He concludes as follows:  
 "There have been received in the Pension  
 Office 28,000 claims to September 30, 1890,  
 under the disability pension act of June 27,  
 1890. It will be readily understood that the  
 care of such an enormous number of claims  
 received in so short a time necessarily taxed  
 the resources of the office to its fullest extent.  
 The work of the mail division ran up to more  
 than 28,000 pieces of mail a day to be opened,  
 classified and properly disposed of. At this  
 writing (October 1) the division is handling  
 10,000 claims a day. If upon the assembling  
 of Congress in December it is found that  
 the present force is insufficient for the ad-  
 judication of these new claims as rapidly  
 as they are completed, I will not hesitate to  
 ask that you recommend to Congress an in-  
 crease of the official force of the bureau."  
 "It is believed that there are properly 100,000  
 claims in this office which can be properly al-  
 lowed under the provisions of the regulations  
 approved September 16, 1890."

**TRADE IS ACTIVE.**  
 All Important Branches Show Phenom-  
 enal Briskness.

NEW YORK, Oct. 4.—The details given  
 in Dun's review of trade show that in  
 all parts of the country and in all im-  
 portant branches of business there is  
 phenomenal activity, and nevertheless  
 there is comparative freedom from specu-  
 lative excitement or disturbances. The  
 general soundness of trade is shown by  
 the reports of failures, which for the  
 third quarter of 1890 were smaller in  
 number and amount of liabilities than  
 for the same quarter of 1889, though in  
 Canada rather larger in both respects.  
 The decrease in number in the United  
 States was small—2,196 this year, against  
 3,376 last year—but the liabilities were  
 but \$35,452,436, against \$56,297,045 last  
 year, showing a decrease in the average  
 for each firm failing. The business  
 failures occurring throughout the coun-  
 try during the last seven days number  
 197, as compared with 319 last week.  
 For the corresponding week of last  
 year, the figures were 205.

**Five Men Killed by a Boiler Explosion.**  
 PURDY, Tenn., Oct. 4.—Thursday at  
 Chewalla, McNairy County, five men  
 were instantly killed by the explosion of  
 a saw-mill boiler belonging to a Mr.  
 Gurley. Gurley's body was torn into  
 shreds. William Johnson's head was  
 torn from his body and thrown fifty  
 yards distant. Walter Pitman and his  
 brother and a son of Gurley were horri-  
 bly mangled. A negro laborer was fat-  
 ally injured.

**A Lost Lad Found.**  
 ST. CLOUD, Minn., Oct. 7.—Little  
 Tommy O'Rourke, who had been lost in  
 the woods near Foley, in Benton Coun-  
 ty, since September 28, was found Sun-  
 day. He was nearly starved, having  
 lived on acorns and water. It is a mir-  
 acle that he survived, as he had been  
 lost eight days. He will recover with  
 proper care.

**On Trial for a Heinous Crime.**  
 BUFFALO, N. Y., Oct. 7.—The trial of  
 Arthur Day, the bigamist of Rochester,  
 who, it is alleged, sought to hide his  
 crime by pushing his first wife over the  
 cliff at Niagara Falls, has begun at the  
 fall assizes, and promises to attract  
 about as much attention as the famous  
 Birchall case.

**Population of Three States.**  
 WASHINGTON, Oct. 7.—The Census  
 Bureau gives the population of the fol-  
 lowing States: California, 1,204,002;  
 increase, 339,308. Michigan, 2,089,792;  
 increase, 452,855. Indiana, 2,189,030;  
 increase, 210,729. Territory of New  
 Mexico, 144,862; increase, 35,297.

**To Improve the Lower Mississippi.**  
 NEW YORK, Oct. 6.—The lower Missis-  
 sippi river commission finished its  
 labors Saturday night, after appropriat-  
 ing over \$3,000,000 for improvements on  
 the lower Mississippi and its tributaries.  
 The original amount appropriated for  
 the work was \$3,200,000.

**His Life Valued at \$2,447.**  
 DUBUQUE, Ia., Oct. 4.—In the district  
 court Friday a verdict of \$2,447 was  
 awarded Mrs. Haggerty against the Kan-  
 sas City road. She sued for \$20,000 for  
 the killing of her son while making a  
 switch.

**Twelve Sailors Drowned.**  
 LONDON, Oct. 7.—The British steamer  
 Ouse collided with and sunk a bark off  
 Flushing. The whole crew of the bark,  
 numbering twelve men, were drowned.

**BASE-BALL.**

 for the Week Ended Oct. 4.

With the close of the games played on  
 Saturday came the ending of the base-  
 ball season of 1890. The following ta-  
 bles show the standing of the clubs  
 in the leading professional organiza-  
 tions:

The season has been a disastrous one  
 for all organizations, but few clubs  
 clearing any money and many falling  
 to pay expenses.  
 NEW YORK, Oct. 7.—The average  
 tables of the base-ball season show that  
 Glascock (New York) and Orr (Brook-  
 lyn) lead, respectively, the League and  
 Brotherhood in batting; that King  
 (Chicago) and Rusie (New York) are  
 the star pitchers, and that Bennett  
 (Boston) and Ewing (New York) are  
 champion catchers.

**SLAIN BY THIEVES.**  
 An Aged Negro Killed and His Daughter  
 Mortally Wounded by Robbers.

BELLEVILLE, Ill., Oct. 6.—While out  
 nutting Saturday afternoon seven miles  
 east of this city, on the Mascoutah road,  
 Lorenz Karius and Lorenz Mueteren  
 came across the senseless bodies  
 of a negro man of 70 and his  
 daughter, aged 40, with their  
 throats cut from ear to ear. The  
 woman revived sufficiently to tell a  
 horrible story of crime. She said that  
 they were attacked while sleeping by  
 an unknown man, who cut their throats  
 and robbed them of all the money they  
 had—three dollars. Subsequently the  
 man died—the woman can not live.

**A PRAIRIE FIRE.**  
 It Leaves Desolate Thousands of Acres in  
 Minnesota.

ST. PAUL, Minn., Oct. 6.—A large por-  
 tion of the town of Lawrence, Grant  
 County, Minn., has been devastated by  
 a prairie fire during the last two days,  
 which destroyed fully \$40,000 worth  
 of property. The fire started in  
 the southwest part of the town  
 from cinders dumped in a roadway from  
 a thrashing engine, and fanned by a  
 strong south wind, swept across the  
 township, consuming every thing in its  
 path. Thousands of acres are black  
 and desolate, and at least a score of  
 farmers report great loss.

**Can't Enjoy It for a Year.**  
 COLUMBUS, O., Oct. 6.—Probably the  
 wealthiest convict in the Ohio prison,  
 excepting E. L. Harper, is Arthur  
 Picard, a Portage County man who  
 donned the stripes Friday night for  
 one year for burglary. He is a young  
 man and the black sheep of a respect-  
 able and wealthy family. Just before  
 he was taken from the jail at Ravenna  
 to be brought here he received notice  
 of the death of a relative by whose will  
 he received \$100,000.

**Mrs. General Booth Dead.**  
 LONDON, Oct. 6.—Mrs. Booth, wife of  
 General Booth, chief of the Salvation  
 Army, died Saturday. From the begin-  
 ning of the Salvation movement Mrs.  
 Booth had been her husband's chief as-  
 sistant in the development of the or-  
 ganization, having been the first to in-  
 troduce the female element, which  
 forms so conspicuous a feature of the  
 army.

**Worms Damaging Trees.**  
 KALAMAZOO, Mich., Oct. 4.—A pecu-  
 liar worm, something like a yellow  
 caterpillar, is doing great damage to  
 the trees in this locality, and old set-  
 tlers say it is similar to a pest that in-  
 fected the timber thirty years ago.  
 They are covering the trees by thou-  
 sands.

**His Life Threatened.**  
 OKLAHOMA CITY, O. T., Oct. 7.—Speaker  
 Daniels of the Oklahoma Legisla-  
 ture, is at his home in this city and will  
 not return to Guthrie, as his life has  
 been threatened in case he should do so.  
 The threats grew out of the contest over  
 the location of the capital.

WILLIAM G. DIETERLE is one of our most enterprising young merchants. He is thoroughly reliable and highly popular with all classes of people. As county clerk he would make a most conscientious official. Should he be elected he would, moreover, have the satisfaction of knowing that in his case the office sought the man and not the man the office. No machinations of bosses or packing of caucuses secured his nomination. Men of all parties who love fair play and detest peanut politics will vote for Mr. Dieterle.

IMPORTERS who are raising such a hue and cry over the McKinley bill really are much less displeased by that measure than by the customs administration bill, which passed some time ago. By undervaluations foreign manufacturers have managed to evade duties in a large measure, and thus not only has the government been defrauded of revenue, but the protected industries have been deprived of that assistance which is due them by statute. Such evils are to be obviated by the board of appraisement, which being strictly non-partisan and thoroughly competent can fix the real value on imported goods. Of course the importers are not shameless enough openly to oppose the customs administration bill on that account, and they consequently select as the object of their attacks the McKinley bill, which would be quite ineffectual if the old scheme of undervaluation could still be employed.

THE humorists are, as a class, thoroughly conversant with the foibles of human nature. Not only that, but they have also a faculty of seeing a thing sharply and distinctly. This fact is illustrated by a recent utterance of "Eli Perkins" on the subject of the "force" bill. Says he: "The election bill simply protects the right of every citizen, black or white, to cast his vote and have it counted. If there is no opposition to this honest vote and honest count, then there will be no force. The law against murder is a force law to the murderer. The election bill will force a few dishonest whites of the South to be honest. It does not force the honest man, it protects him. If elections have been honest in the South, as the southern democrats assert and the northern democrats politely assent, then the election bill will make no change. But the poor negro soldier, who fought for the republic, has not been allowed to vote, and when he has voted his vote has been stolen. The rights of the black man have been destroyed for twenty years, and now when the strong arm of the government reaches out to protect him, when the nation is about to say to the vote stealers, 'Stand back and let this man have his rights'—I say, when this is done, how strange that even a preacher of the Gospel should stand up and tell intelligent Christians that the nation is 'destroying the rights of man.' The election bill destroys the rights of no man. It destroys the wrongs of the vote stealer and protects the rights of man. Force? Yes, the election bill will force men to be honest. The law against murder forces the murderer not to kill."

In a county or city election, politics has no legitimate place whatever. A man's views on the question of free trade or protection can in no wise affect his success as custodian of public funds or as preserver of the public peace. The personal fitness of the candidate should be the only criterion upon which

the voter bases his choice. If there is reason to believe that the candidate has secured his nomination by questionable means, it is the duty of every good man to vote for a more unobjectionable person. In a congressional or presidential election the case is different. Issues, and not men, are there the most important considerations. All this is said with proper restrictions. A representative to congress should not, of course, be a convicted horse-thief or murderer. Capt. Allen is neither of these. He has, it is true, made many promises, which certain honorable men claim he has never performed—but notwithstanding this, he is, even with respect to personal character and fitness, far above his democratic competitor. But the main point is this. If Capt. Allen is elected, his vote will be cast for the preservation of the protective system; if Mr. Gorman is elected, his vote will be cast for the establishment of free trade. Here is a case in which "I'm a republican" is the very best of reasons for supporting the party candidate. And yet the wily Argus is trying to persuade republican voters to vote against republicanism—simply because Mr. Allen is not (as THE REGISTER admits) an ideal candidate. Its editor will find that republican voters are too intelligent to be caught by any such chaff as that, for they have learned by long experience to close their ears to demagogic appeals from the enemy.

# OUR FOREIGN TRADE.

WILL OTHER NATIONS BUY OF US  
IF WE DO NOT BUY FROM THEM?

England's Free-trade Policy and Hopes. Our Tariff of 1846—What Has Resulted from Our Present Tariff—How to Increase Wages.

Our farmers are now enjoying a series of forensic encounters between the advocates of Protection and Free-trade, in which the Protectionist will be found talking for American interests every time, and the Free-trader will appeal for tolerance or sympathy for some foreign interest, generally British, as their heaviest contributions, both of ideas and money, are derived from that source.

The suggestion, if not the argument, of the Free-trade orator will be that, as England is the largest purchaser of our farm products, clearing our markets of a surplus which would otherwise be very inconvenient, we should reciprocate and admit her manufactured goods; that England will not buy of us unless we buy of her.

This is a fallacy. England will buy where she can buy the cheapest in the future, as in the past. The foundation idea of the British political economy, Free-trade, is to sell dear and buy cheap, keeping the wages of operatives at the lowest possible point, so that the profits of the completed transaction shall be at the maximum.

England adopted Free-trade only when her statesmen knew their country superior to all others in abundance of money, in organization and in facilities of transportation, which gave her at that time the cheapest freight rates of any country in the world. The measure was adopted without regard to the interests of her farming population, who are being eliminated.

It was the hope of England that all the world would grow raw produce to sell to her for her manufacture and consumption, taking a portion of it back in payment, England charging her own price for transportation each way; that the world should "sell her skins for a sixpence and buy back the tails for a shilling."

When England devised Free-trade and induced us to accept it also she thought to offer us the only market for our farm produce. She intended to keep the only shop at which we could buy. Our tariff of 1846 gave her such a start in that direction that the balance of trade on merchandise against us was over one thousand and five hundred million dollars, a sum paid in gold and bonds for goods we find we can manufacture cheaper and better than those she sold, while we have a debt to her requiring the transmission of about one hundred million dollars yearly as interest money.

These vast sums she has immediately invested, largely in countries intended to compete with us in the sale of farm produce. The efforts of the Free-traders seem to be directed to increasing the capital which England can so employ in the future.

Under our present tariff laws over five hundred million dollars' worth of merchandise was brought into this country the last fiscal year, all of which could have been manufactured here. This sum at an average of \$200 per capita would have supported a quarter of a million people, whose expenditure for American farm produce of all kinds cannot be put at less than twenty-two million dollars, whereas if they were employed in England—our largest customer for such produce—they would not take much over a million dollars' worth. Free-traders also claim that a tariff enabling us to afford the employment five hundred million dollars would pay for would not increase the wages of those so employed.

Performance vs. Promise. There have been twenty-four sessions of congress since the close of the war of the rebellion. By a peculiar coincidence the control of the house of representatives, with which must originate all legislation affecting the revenue, has been for an equal period—twelve years—with each of the two great political parties.

While one of these parties has been committed to legislation having in view the protection of American labor and industries, the other has been inviting the support of voters by its promises of "revenue reform" and the reduction of taxation. It may prove instructive to look over the record of each party for the twelve years it has controlled national legislation, and find out just what has been accomplished.

The Protectionists, while in a position to originate legislation, passed eight acts by which the revenues were reduced \$362,504,569. On the other hand, the party clamoring for "revenue reform" has, during the twelve years of its supremacy, reduced the revenue but \$6,368,935. The figures upon which this summary is made have been before congress repeatedly, and have never yet been controverted. Upon the record thus made—performance on the part of the one, promises on the part of the other—the two parties again appeal for the support of American voters. Which is most to be trusted?

A Free-trade Dividend. The Consett Iron company, limited, furnishes in its recently declared dividend an illustration of the enormous profits of employers in Free-trade England. The London Iron and Steel Trades Journal says of this company:

"The shareholders' capital is a few sovereigns short of £700,000, and on this sum dividends are to be paid which, with the interim distribution of profits, make 3 1/2 per cent. for the year. The actual net earnings in the twelve months amounted to £366,409 14s., or more than 50 per cent. on the shareholders' capital." Mr. Gladstone evidently did not exaggerate in denying that profits were higher in protected than in unprotected industries.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck; which causes running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or "humors," which, fastening upon the lungs, causes consumption and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla. "Every spring my wife and children have been troubled with scrofula, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to foot. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.

CONGRESS ADJOURNS.

Close of One of the Longest Sessions on Record.

A Resume of the Proceedings During the Latter Days of the Fifty-First Congress—Both Houses Adjourn.

SENATE.

WASHINGTON, Oct. 1.—The conference report on the tariff bill was agreed to in the Senate yesterday by a vote of 33 to 27. Three Republicans voted against the measure—Messrs. Paddock (Neb.), Pettigrew (S. D.) and Plumb (Kan.).

WASHINGTON, Oct. 2.—In the Senate yesterday, after the journal had been approved, Senators Sherman and Harris were appointed a committee on the part of the Senate to inform the President that unless he shall have any further communication to make the Senate was ready to adjourn. The tariff bill, which had been signed by Speaker Reed, was presented to the Senate, and Vice-President Morton affixed his signature to it. The committee reported that the President had no further communication to make, whereupon Mr. Morton thanked the Senators for their uniform kindness to him, and declared the Senate adjourned sine die.

HOUSE.

WASHINGTON, Oct. 1.—A joint resolution was passed in the House yesterday appropriating \$10,000 to enable the Postmaster-General to test at small towns and villages the system of free delivery. The Senate bill was passed establishing a customs collection district in the States of North and South Dakota.

WASHINGTON, Oct. 2.—In the House yesterday the resignation of James L. Wheat as postmaster of the House was received and accepted. A Senate concurrent resolution was agreed to requesting the President to enter into negotiations with the governments of Great Britain and Mexico for the prevention of the entry of Chinese laborers into the United States. Mr. McKinley (O.), chairman of the committee appointed to wait upon the President, announced that the President had no further communication to make. Speaker Reed then declared the first session of the Fifty-first Congress adjourned without day.

FOREVER BARRED.

President Woodruff, of the Mormon Church, Issues a Proclamation Forbidding Further Polygamous Marriages.

SALT LAKE, U. T., Sept. 7.—At the general conference of the church of Jesus Christ of Latter-Day Saints Monday morning the official declaration of President Wilford Woodruff forbidding in future any marriages in violation of the laws of the land was read, and the congregation, numbering nearly 10,000 persons, including the apostles, bishops and leading elders of the church, by unanimous vote recognized the authority of the president to issue the manifesto and accepted it as authoritative and binding.

George Q. Cannon publicly announced his indorsement of the manifesto and his recognition of the supremacy of laws that had been declared constitutional by the Supreme Court of the United States. The conference also re-adopted the original articles of faith, among which is this:

"We believe in being subject to Kings, Presidents, rulers and magistrates in obeying, honoring and sustaining the law."

The action taken settles the vexed question and places an effectual bar against future polygamous marriages in Utah. It is the most important step taken by the church for more than a quarter of a century.

Cheese Sam Is Willing.

CHICAGO, Oct. 4.—Assistant Secretary Grant, of the War Department, has written to Secretary Butterworth, of the Columbian exposition, authorizing in the Government's name every use and enlargement of the Lake Front requested by the world's fair management, thus at length confirming absolutely the dual site of the world's fair of 1893.

Close of the Illinois State Fair.

PROBIA, Ill., Oct. 4.—The Illinois State fair closed here Friday after a most successful five-days' run. There were about 40,000 people on the grounds. One of the members of the fair association said that they would clear fully \$15,000. They have paid out in premiums \$27,500, and there was great expense in fitting up the grounds.

The Cuban Tariff Suspended.

MADRID, Oct. 6.—The Cabinet on Saturday discussed the United States tariff law and decided to suspend the application of the new Cuban tariff until a satisfactory reply has been received from America to representations which the Spanish Minister has been instructed to make to the United States Government.

End of the Brick War.

NEW YORK, Oct. 4.—The Brick Manufacturers' Association, after a long session Friday, decided to discontinue the curtailment of brick supplies and allow all bricks to come without interruption. This practically puts an end to the brick war, which has been carried on with more or less severity since July last.

Carriage Works Burned.

MANSFIELD, O., Oct. 4.—The Mansfield Carriage Hardware Company's works were destroyed by fire at 4 o'clock this morning. The works were closed for repairs and the cause of the fire is unknown. Loss estimated at \$30,000.

Masons Are Barred.

COVINGTON, Ky., Oct. 7.—A circular was read in the Catholic churches of this diocese stating that the church's objections to secret societies would not be insisted upon with reference to any except the Masons.

MICHIGAN STATE NEWS.

SUCCESSFUL SWINDLE.

Land That Is Six Hundred Feet Under Water Being Sold.

A deed has been received at Sault Ste. Marie by the register of deeds from Central City, Col. for a section 3, town 48, north range 4, west, consideration \$5,000, conveyed by James Hatch, of Philadelphia, Pa., to Joseph P. Ward, of Gilpin County, Col. The land referred to lies ten miles off shore in Lake Superior under 600 feet of water. This is the second deed of the same nature received during the past month, the writing being of same hand. The deed was acknowledged in Detroit before Harry J. Dewey, notary public, under his official seal of office under date of July 15, 1890. The man with the alias of James Hatch is apparently one of a gang of swindlers and has issued Ward a deed for the property not in existence. He has a partner in the West and one in Detroit. It is one of the most extensive swindling schemes ever carried out in this section of the country. The amount realized from the swindle must now reach \$10,000.

STOCK STATISTICS.

The Number of Horses, Cows and Sheep in the State Last May.

The number of horses in the State last May, as shown by the farm statistics just issued, was 396,883; milch cows, 405,675; cattle, other than milch cows, 363,519; hogs, 450,748; sheep, 1,908,254. The number of sheep reported sheared in 1889 is 1,944,297; pounds of wool, 11,983,491, an average per head of 61.4 pounds. At the same average per head as in 1889 the wool clip of the present year amounts to 11,754,844 pounds.

Health in Michigan.

Reports to the State Board of Health by sixty-eight observers in different parts of the State for the week ended September 27 indicated that whooping cough and tonsillitis increased, and typhoid fever, inflammation of the brain, inflammation of the bowels, cholera infantum, erysipelas and cholera morbus decreased in area of prevalence. Diphtheria was reported at twenty-six places, scarlet fever at twenty-two, typhoid fever at thirty-four and measles at seven places.

Lost His Ticket.

Bon Deves, a drummer employed by Edward Flatow, jeweler, of New York, held a lottery ticket which drew \$500. Instead of getting the ticket cashed Deves carried it about to convince customers of his astuteness. He showed the ticket in a Lansing saloon, when a bystander snatched it and passed it along quickly to a confederate in the crowd. Deves was nearly crazy over his loss.

To Enforce the Anti-Lottery Law.

Governor Luce has sent letters to all the prosecuting attorneys in Michigan ordering them to see to it that the new United States law against lotteries is strictly enforced. This move was made at the request of the anti-lottery people of Louisiana, and as far as Michigan is concerned the Governor says the law shall be enforced to the very letter.

A Strange Accident.

For some reason the bucket in which they were riding was rapidly lowered several hundred feet, falling in twenty feet of water at the bottom of the shaft. Uren was drowned but his companion escaped.

WHERE TO SPEND THE SUMMER

If Undecided, Perhaps This Will Help You.

Where to go, what to do, how to do it, and the expense involved—questions agitating so many households, contemporary with the advent of summer, are all answered satisfactorily in the pages of the handsome volume entitled "Health and Pleasure," just issued by the Passenger Department of the New York Central & Hudson River Railroad.

The book is profusely illustrated, contains several valuable maps, and the information is presented in a concise, yet readable manner. It embraces an extensive list of summer hotels and boarding houses along the Hudson, among the Catskills, in the Adirondack Mountains, at Saratoga, Lake George, Niagara Falls, and other famous resorts.

Copies of the book may be obtained free upon application to W. B. Jerome, General Western Agent, No. 97 Clark St., Chicago, or will be mailed post paid upon receipt of ten cents in stamps, by George H. Daniels, General Passenger Agent, Grand Central Station, New York.

A Chance to Make Money.

Mr. Editor:—I bought one of Griffith's machines for plating with gold, silver or nickel and it works to perfection. No sooner did the people hear of it than I had more spoons, knives, forks and jewelry than I could plate in a month. The first week I cleared \$31.30, the first month \$167.85, and I think by July 1st I will have \$1,000 cash and give my farm considerable attention, too. My daughter made \$27.40 in four days. Any person can get one of these machines by sending \$3 to W. H. Griffith & Co., Zanesville, O., or can obtain circulars by addressing them. You can learn to use the machine in one hour. As this is my first lucky streak, I give my experience, hoping others may be benefited as much as I have been.

Yours truly, M. O. MOREHEAD.

The Educational Advantages here are unsurpassed! The Streets are broad and well kept! Ann Arbor has a low rate of taxation! It has the best system of Water Works in the West.

Our Addition is just five Blocks from the University of Michigan; it has a front of One Hundred Rods on State Street, the best residence street in the city. Its location is unsurpassed for health and convenience. The levels taken by our Engineer, Geo. W. Sanborn, show the lowest point to be higher than Main Street in front of the Savings Bank. The slope of the ground is such that the drainage is perfect, having a fall of from six to ten feet. We have laid drain pipe through our land.

We have filed our Plat and have given

8 1-2 Acres for a Park.

We have paid Fifty Dollars for a handsome and attractive plan for a Park.

Work has commenced on the streets and Park. Seven new houses are already contracted for to be built upon our Addition this year. New sidewalks have been laid, 1,100 shade trees have been planted upon the streets and Park. Two professors in the University have already purchased Lots in this addition, and will soon build good houses on the lots. Hutzel & Co. have donated a handsome Fountain for the Park.

All the Lots have an Alley 16 feet Wide, in the rear. We have made the price of the lots very low. If you buy a Lot we believe you will double your money in three years time.

The Investment is Safe

as a Savings Bank, and the gain much more rapid. Ten new houses on South State Street will be built this year.

We will sell Lots for Cash.

We will sell lots on time Payments.

We will sell Lots to parties who wish to build houses at once, and will help them to furnish money to build.

The amount paid out of the county treasury, during the month of July, for the maintenance of the insane persons sent to the eastern Michigan Asylum at Pontiac, was \$828.33.

A prominent farmer, who knows what he is talking about, says that Hon. J. V. Gregory is losing voters every day with the P. of I. and grange orders, by his liberal patronage of the saloons.

Nina, the two-year-old daughter of Mr. and Mrs. Jerry Welsh, died on Friday last of diphtheria. Only a short time ago the bereaved parents lost another child from the same dire disease.

Adolphus C. Brock is an aggrieved husband who is much more radical in his ideas of cleanliness than his wife. He asks for a divorce from the latter, because she is lazy, slovenly and possessed of a sharp tongue.

The remains of John Hilsley, of Ouida, Eaton Co., Michigan, who died on October 3, at the age of seventy-nine, were brought to this city and afterwards taken to Bridgewater, where they were interred on Monday.

The bicycle races at the fair grounds last Friday were more than usually interesting. William Frank, jr., won first and Edward Staebler second prize on the Ordinary wheel. On the Safety, Henry Ridley won first and Alfred Mayer second.

The Webster farmers' Club will meet at Johnson Backus' Oct. 11, program as follows: Discussion—"What are the Causes of the Decline in Population of Rural Districts," led by Johnson Backus; Declaration by Arthur Lincoln; reading, Blanche Butler.

Fred Z. Hamilton, a cousin of A. W. Hamilton, and an old Washenaw boy, has just been nominated for the office of county clerk of Eaton county. Judging from what the Charlotte Republican says of him, he will without doubt be elected by a rousing majority.

At the contest held by the Schuetzenbund last Sunday, Fred Graf won the gold medal, scoring exactly 200 points. John Meyer scored 197 points and won the second prize, while Reuben and John Armbruster, scoring respectively 195 and 192, won third and fourth.

The second game between the Ferguson and the high school nine was played on the fair ground Thursday afternoon, the former winning by a score of 9 to 1. The pitching of Seymour, batting of Taylor and Stellberger and fielding of Beal were the prominent features of the game.

In alighting from a street car on Tuesday last, Mrs. John S. Mann was thrown, with the child which she carried, violently to the ground. Both mother and child were badly bruised. If the conductors would kindly assist ladies to alight, their courtesy would be appreciated.

The number of separate entries at the fair last week was 1,028, classified as follows: Horses and cattle, 352; sheep, 52; swine, 44; poultry, 82; dairy and culinary products, 134; flowers, 25; paintings, etching, etc., 54; ladies' work, 67; farm and garden produce, 146; fruit, 41, and mechanical work, 31.

The Detroit News are out with another of their liberal propositions to its readers. A beautiful picture, a reproduction of that famous painting, "The Russian Wedding Feast" will be given to every reader. The picture alone is worth five times the money it will cost to take the paper 60 days necessary to receive a picture.

The Washtenaw county grange met in convention at the court house on Tuesday last. Horace Baldwin was elected chairman and N. C. Carpenter secretary. W. E. Stocking was chosen delegate to the meeting of the state grange which is soon to take place. The different farmers organizations of the county, including the grange, are agitating the formation of a county union, which will hold quarterly meetings.

Since the evaporator works have started up, the company has shipped 40,000 pounds of dried fruit. They sent yesterday a consignment of 5,000 pounds to one firm alone. During the past week they have employed no less than thirty hands. The process of peeling, coring and drying the apples is a very interesting one. When they have been prepared they are packed in small boxes which hold fifty pounds each. Some apples are cut up cores and all, and used for making glucose jelly.

Frank Tyler, one of Ann Arbor's most enterprising hackmen, suddenly departed last Friday, leaving many loving friends and unpaid bills behind him. J. M. Stafford mourns the loss of a brand new suit of clothes, which the said Tyler wore to protect him from the chilliness of the cold, cold world.

Messrs. Henry Clark and Michael Ryan drove down to Ypsilanti last Sunday in one of Polhemus's rigs. The night was dark and the drivers were having too good a time to notice passing teams. At about 6:45, while they were driving swiftly down Congress-st., their rig collided with a rig coming from an opposite direction. The Ann Arbor horse broke its leg and had to be killed, and both buggies were completely wrecked. Clark was seriously hurt, while the other parties were more or less bruised.

Bachman; Parthenia, her Daughter, Miss Lois Ticknor.

Grove Spencer, an Ypsilanti livestock dealer, met with a serious accident last Thursday night, at the first crossing of the Michigan Central east of the Ann Arbor depot. All that he knows about it is that he was riding home late in the evening and that when he regained consciousness he was lying in the baggage room of the depot. The railway officials had found Mr. Spencer on the bank near the track, the horse killed and the buggy smashed. It is probable that the rig was first struck and wrecked, without injuring the horse. The latter evidently wandered down the track and was struck by another train. Mr. Spencer was thrown out without sustaining serious injury. His escape was almost miraculous.

We learn from N. W. Cheever some facts of interest in regard to William H. Walker, of this city, a graduate from U. of M. class of '87 and now a student in the Andover Theological Seminary. Mr. Walker preached at West Salem, Wisconsin, during the last summer vacation. At the close of the summer the church there gave him a call to be its permanent pastor, which he was obliged to decline in order to finish his course at Andover. The entire church speaks in the highest terms of his work there, and made him a present in money in addition to the compensation agreed upon when he came. They assembled at the depot to bid him good bye when he left, and expressed earnest wishes for his future welfare and success.

Miss Teresa Slattery died on Wednesday last in Detroit at the home of her aunt, Mrs. Kate Prendergast. Her funeral took place in this city from St. Thomas' church, last Saturday morning. She had returned only three weeks previously from Ishpeming, where she spent the summer with her sister, Mrs. M. C. Sheehan. Miss Slattery has been a sufferer from consumption for two years more or less. She went to Dakota and afterwards to California in search of health, and did not return to Michigan until this summer. She was about twenty-one years old at the time of her death. Miss Slattery was a lady universally admired and respected, not only for her mental gifts and high character, but also for her genial disposition and winning ways. Her death is mourned by scores of friends in this city.

A Lady's Perfect Companion. PAINLESS CHILD-BIRTH, our new book, tells how any woman may become a mother without suffering any pain whatever. Also how to treat and overcome morning sickness, swelled limbs and other evils attending pregnancy. It is reliable and highly endorsed by physicians as the wife's true private companion. Send two-cent stamp for descriptive circulars and confidential letter, sent in seal envelope. Address FRANK THOMAS & Co., Publishers, Baltimore, Maryland.

Dr. Fruth. After witnessing the success that attends the practice of Dr. Fruth, we can but speak of him as a thorough and efficient practitioner, ever ready to perform his obligations to his patient. Through his wonderful skill in treating many patients here he has become deservedly popular with the afflicted. For over two years we have watched him advancing his favorite doctrine for the cure of chronic ailments, and disseminating the principles which he concedes to be the true, scientific and unerring basis of medical practice. We know that Dr. Fruth is not one of those one-idea, all-idea and no-idea doctors who exist but for a day. He seems to be of more enduring material, free and clear from medical fashions and superstitions, with an independent system of his own, drawn from the secrets of nature and common sense. Devoted as he has been for so many years to the treatment of certain chronic diseases, with all the qualities of a skillful physician, he could not be otherwise than successful. If you wish to avail yourself of his superior skill, it will cost you nothing on Tuesday, October 14, at the Cook House, Ann Arbor.

Fight Against a Great Evil.

The great evils connected with the use of tobacco ought to be apparent enough to everyone, and yet many people persist in declaring that tobacco is not only not injurious but even positively beneficial. Against such assertions, A. S. Livermore, the great agitator, contends, in his book, entitled: "Fight Against a Monster Evil." The book of which we have spoken is divided into four parts, the first being a short sketch of the author's life; the second being an address; the third being a short account of the work done by Mr. Livermore in attacking the evil, and the fourth, a history of tobacco and its effect upon the human race. The author of this great book is a native of this state. In his youth he worked in shingle mills. When the war first broke out, he enlisted as a volunteer. After Lee's surrender he went with his company to the western plains, in order to suppress an Indian outbreak. He was mustered out in December, 1865, and worked at the carpenter's trade successfully for several years. He is now owner of a general store in Saginaw. For some time he has been very active in church and Sunday school work. He delivered his first address on the evils of tobacco last December. Since then he has spoken in many places. The book, of which he is the author, is for sale at Wahr's

Children Cry for Pitcher's Castoria. A pair of shoes is one of most typical products of modern industry. To make them the Animal Kingdom contributes from the herds of the Western Plains; the Vegetable, from groves of oak and hemlock or from the great forests still left to us; great factories supply cloth and thread; mines, furnaces and forges combine to furnish nails or wire. Through scores of processes, the forty-two pieces of a pair of shoes require to bring them together, the co-operation of fifty men and women, whose division of labor is so thoroughly systematized that everything goes with the same regularity attributed to the works of a clock, until as a result, you, well shod reader, who wear the W.
