Crittenden, Ed. Taylor, Ed. McAllister, Arthur Tagge, and others. A very pleasant dance was given at the hotel.

The Coldwater Republican, in speaking of the recent art loan, gives Mrs. W. S. Perry much credit for its success. It says further: "Mrs. Perry is known to several of our people as the wife of Capt. W. S. Perry, who in 1865-67 was superintendent of our city schools, but now of the Ann Arbor city schools, where he has been for nearly twenty years. Mrs. Perry had a large responsibility and has been faithfully supported by the ladies of Ann Arbor in the task which she undertook but really shrank from when it was urged upon her."

From the Waterloo (N. Y.) Observer we clip the following: "Augustus Clark of this place and Mrs. Anna M. Mozart of Washington, D. C., were married in that city, on Wednesday last, by Rev. Dr. Perry. Waterloo relatives in attendance were William B. Clark and wife. The bridal pair arrived home on Saturday evening, and will receive their friends at their residence, corner of Virginia and North-sts. Their many friends join in wishing them a lone and happy wedded life." Mrs. Mozart is well known to Ann Arbor people, having lived in this city for a number of years.

The Semi-Monthly Grist.

At the council meeting Monday evening the mayor reported the discontinuance of the case of David Henning against the city and recommended that the sum previously appropriated for trial expenses be given to A. J. Sawyer in return for legal services. The council granted the latter \$300. The case against the Michigan Central still stands. Mr. Sawyer was of the opinion that the company could not compel the city to pay part of the damages, should Mr. Henning's suit prove successful.

A communication was received from the Arbeiter Bund, thanking the mayor and council for courtesies extended to the delegates.

The proposed license ordinance passed through a second reading. It provides the following special taxes and bond: Auctioneers—tax, \$5 a year; bond, \$250. Peddlers and hawkers, moving from place to place: on foot, \$2.00 a day; with one horse, \$3.00; with two or more horses, \$5.00. Selling in an open place—\$3.00 a day, the mayor to designate the place. These taxes are not to be assessed on bakers, farmers and other local sellers. Pawnbrokers are to pay \$25 per annum and provide bond of \$500. For every back or omnibus \$1 a year must be paid. The bond is \$250. The taxes on trucks or drays are: With one horse, \$5 a year; two, \$1.00. Circus with a menagerie is to pay \$50 a day; without a menagerie, \$25; menagerie without circus, \$10. Merry-go-rounds and similar contrivances must pay \$3.00 for first day and \$1.00 for each succeeding day. Every theatre is taxed \$50 a year and all entertainments or exhibitions, except agricultural, musical, religious and local affairs, must pay \$10 the first day and \$3 thereafter. The mayor is authorized to refuse such licenses as he sees fit.

The water company was instructed to blow off the mains and clean the reservoir, under the supervision of the board of health. They were also asked to locate two hydrants on Hill-st and one on Seventh-st.

The sum of \$135 was appropriated for re-carpeting and re-decorating the council room. The committee reported that a good map of the city would cost \$65. The matter was referred to the president of the council.

Salaries of the board of health were fixed as follows: Health officer, \$150; president, \$50; inspector, \$100.

The drugist bond of C. Eberbach & Son was approved.

Cigars were passed around by the city clerk, in honor of a happy event which took place last Wednesday.

Nine Horses Burned.

An alarm of fire called the fire department, between eleven and twelve o'clock, Tuesday night, to the livery barn of Hiram Kirtredge. The flames had already gained great headway in the hay on the second floor, and it was only with great difficulty that they were quenched.

At the time there were sixteen horses in the barn. Nine of these were either suffocated or burned to death. The men attempted to lead them out, but it was impossible to stir most of them. Seven of the animals belonged to Mr. Kirtredge; one of the remaining two belonged to Mrs. Belle K. Edson, and the other to Philip Duffy, of Northfield. Seven horses were saved.

Three hundred bushels of corn and between four and five tons of hay were entirely destroyed. The harnesses were all ruined, but the carriages were not injured. The insurance on the building was \$1,000. There was none whatever on the other property. Mr. Kirtredge's total loss is \$2,900.

How the fire caught is not definitely known. One of the horses that was saved belonged to George D. Stevens, mail transfer agent. It was ill and Mr. Stevens had been treating it. A lantern was left in the stall, and it is thought that the horse overturned it, thus starting the fire. Mr. Fulcher and Mr. Stevens were both sitting in front of the barn, but did not see the fire until it had gained considerable headway. Wm. Stoll and Ed. Pierce were sleeping up stairs at the time.

Commencement Concert.

The fine work of the orchestra at the Redemption Concert elicited such words of commendation from all, that our music lovers will be pleased to know that they will have an opportunity of listening to it again at commencement. A bright, sparkling program has been arranged for this concert, and we are confident that the Commencement Concert this year will equal in value any concert of the season. The orchestra will be assisted by the celebrated Chicago soprano, Mrs. Ginevra Johnstone Bishop. Tickets may be secured at Moore's bookstores, both on Main and State-sts. Boards will be open on Saturday, June 20, at 10 A. M. Don't forget the date of concert, University Hall, Wednesday evening, June 24, 8 P. M.

CLASS DAY EXERCISES.

Contrary to previous custom, the class of '91 held class day exercises, Tuesday, in the high school hall, instead of at Whitmore Lake. The room was prettily decorated with flowers and with festoons of maize and red, the official colors of '91. After a musical selection by the Chequamegon orchestra the class president, Claude J. Price, gave a brief and graceful address.

The orator, James S. Handy, of this city, taking as his subject the class motto, *nil sine labore*, showed that neither success nor happiness could be gained in life except by severe labor. Besides labor, character is demanded, for labor alone cannot make the perfect man.

The poem of Miss Genevieve Kittredge of this city, was a pratty conceit. It pictured the reflections of a graduate upon whom the clouds of despondency had fallen—finally ending in the joyous thought that life had only begun—not ended.

J. Sterling St John, of Highland, gave the class history. His pen picture of "Miroi," which name he applied to the composite photograph of the class, was good.

Miss Winifred Orr, of Ann Arbor, read the class address. She urged the necessity of cherishing high ideals, choosing the right calling and persevering in the chosen work of life.

Miss May E. Taylor, of this city, read the class prophecy. The metre was good, the style graceful and the hits at individuals taking.

The exercises closed with the singing of the class song, by Miss Donna M. Pinckney, to the tune of "And Lang Syne."

THE BANQUET.

Rainy weather did not deter the class from attending the banquet at Whitmore Lake. They were chaperoned by Mesdames A. A. Stanley, C. E. Greene, G. S. Morris, L. D. Wines and J. C. Knowlton. John C. Condon acted as toast master. The following responses were gracefully made: The Class of '91, J. S. Handy; The Boys of '91, May E. Taylor; The Girls of '91, Edwin Gray; The Faculty, Clara McComber; Our Successors, '92, W. D. McKenzie. After the toasts came the dancing, there being over forty numbers.

COMMENCEMENT PROPER

will take place tomorrow morning at ten o'clock in the high school hall. Papers will be delivered by the following students: Charles H. Duncan, Jessie E. Midgely, Harry L. Griswold, Emily J. Purfield, James S. Handy, Lawrence Seymour, J. Sterling St John, Florence E. Smith, Nettie Treadwell and Vance P. Wilkins.

THE ANNUAL ALUMNI BANQUET

will be held tomorrow evening in the hall. Prof. Jerome C. Knowlton will act as toastmaster and impromptu responses will be made by alumni. Dancing will follow the banquet proper, music to be furnished by the Chequamegon. All alumni are urged to be present.

About Dr. Briggs and Heresy.

Rev. J. M. Gelston, Sunday evening, discussed the action of the Presbyterian General Assembly with regard to Dr. Briggs. Personally he was not satisfied with the decision, but he did not think Briggs guilty of heresy. Suspicion, however, rested upon the professor of being an advocate of German rationalism, a school which undermines the authority of the Bible and scoffs at miracles. The significance of the assembly's decision is that the Presbyterian church will not tolerate any teacher in its schools who denies that the Bible is the word of God.

The decision is significant, in the second place, because it emphasizes the fact that churches are responsible to God if they allow error to be taught. A church must have the right of self-protection. At the same time the minister or teacher is independent. He can preach what he pleases, provided he does not deny the divinity of Christ or the infallibility of the Bible.

In the third place, the present controversy shows the need of a new definition of heresy. In the New Testament a heretic is one who is continually stirring up dissensions in the church—not always one who teaches false doctrine. The speaker hoped that future controversy in the church would be without rancor. Controversy itself is not an evil; it is like a storm which plows up the deep only to cleanse it. He hoped that some time all Christian men would unite on essentials and disregard their petty differences. Mr. Gelston defined the two kinds of higher criticism: First, German rationalism, or that which tears the Bible all to pieces and tells you to take as much or little as you please; second, evangelical criticism, or that which, from a rigid examination, proves from the historic data that the Bible is none other than the word of God. It is the latter kind of criticism which Dr. Briggs employs.

Around the Campus.

The game between Michigan and Oberlin last Saturday ended in a spat. Two students were expelled from the chemical laboratory last week for stealing chemicals.

Prof. F. N. Scott Thursday evening gave a paper before the Philosophical Society on "The Origin of Literary Species."

C. L. Meader, lit '91, has been appointed to the Elisha Jones fellowship. He is a member of the Delta Upsilon fraternity.

The officers of the Palladium for 1892 are Fred Sherwin, managing editor; H. C. Bulkley, business manager; W. Hawkins, secretary and treasurer; assistant editors—F. Porter, H. Burnes, F. C. Smith, Sam Trevellick, W. W. Cheney and W. B. Larrabee.

At the meeting of the Geological Society of the University, Friday, June 12, the following were elected officers for the first semester of the year 1891-92: President, Eli R. Sutton; vice president, Miss E. C. Ladd; secretary and treasurer, Stuart H. Perry; executive committee, C. C. Starr, Miss Patterson, Geo. D. Sones.

A Stabbing Affray.

Mack Dunlop, a young painter, not long after eleven o'clock Tuesday night, stabbed George Knoll, of Catherine-st, in the side. Dunlop had been calling upon a young woman who lives in Knoll's house and was just leaving, when the latter came to the door and berated the girl for keeping late hours. Thereupon Dunlop interfered and inflicted the wound, which proved not to be serious. He was soon arrested and yesterday afternoon Knoll swore out a warrant charging assault with intent to do great bodily harm. Dunlop's friends claim that Knoll attacked him with a hammer.

Among the Churches.

Rev. J. H. Johnson, of Christ's church Detroit, exchanged pulpits Sunday with Rev. Henry Tatlock. The gentlemen were former schoolmates at Williams college.

The Mission Circle of the Methodist church enjoyed a social, Saturday evening, at the residence of Benjamin Day.

The choir of the Methodist Sunday school furnished the music at the Disciples church last Sunday evening. The selections chosen were well rendered.

Grand View.

It is seldom that so picturesque a piece of land as the Deacon Crossman property is cut up into single lots. It lies at the end of Huron-st, and from any point the whole city is visible. Landscape gardeners are already preparing it for the transformation. The property will be auctioned off at 2 o'clock Thursday, June 25 (commencement day) by O. Wardell & Sons. A special excursion train will leave Detroit at 11:30 A. M.

The condition of crops in this county, according to the last crop report, is shown by the following figures: Wheat, 101; oats, 88; barley, 75.

Fourteen new books have been added to the Dexter Ladies' Library. The titles would indicate that they are love stories. Purses to the amount of \$2,000 will be awarded to the winners of the Stockbridge races, which take place July 29, 30 and 31.

George Rawson, of Bridgewater, is certain that natural gas can be found under his farm. He talks of driving down a pipe. At the last meeting of the Southern Washtenaw farmers' club Mrs. L. D. Watkins read a poem that was written 3000 years ago.

If any of our boys ever indulged they had sworn off.—Manchester Enterprise.

While driving into the country on Monday we noticed some farmers cutting the rye from their wheat. All farmers should do so now while they can distinguish it. Wheat containing rye is worthless for milling purposes and no good mills will buy it. Such wheat will drop in the market to the value of rye.

An intelligent witness in the Washtenaw circuit court lifted up his right hand and solemnly swore to divulge the truth, the absolute truth and the whole of it. Then he testified that there were 395 rods in a mile. Here was a man bound to be exact, though it should weigh out every section line in the United States.—Adrian Press.

Max Robbins tells of catching two eels above Ann Arbor, the other day, which, measured, together, seven feet one inch in length. He doesn't say whether he took a drink of Ann Arbor water while passing through the city.—Ypsilanti. Better take the eels out of your own Ypsilanti water before you look for eels in the water of other cities.

A female itinerant, giving her name as Mary Stewart, landed here Tuesday evening and conducted herself as only a woman who is full of "bug juice" can. After smashing a window out of the passenger house and otherwise disturbing the peace, she was incarcerated in the village bastle. MICHIGAN LEGISLATURE.

SENATE.

LANSING, Mich., June 15.—The senate yesterday passed the house bill providing for the election of county commissioners of schools and the appointment of examining boards to assist them, and also concurred in the house amendments to the Benson free text-book bill. The house bill detaching territory from Manistowick county and attaching the same to the county of Leelanau was passed. The contest proceedings against William C. Graves, the Detroit Tribune correspondent, for refusing to answer questions asked him by the special committee engaged in investigating the bribery charges brought against Representatives Doyle and Mumbe, of the upper peninsula, were quashed.

LANSING, Mich., June 11.—The senate yesterday passed the house bill, amending it so that deer can be shot in the upper peninsula only from October 15 to November 1. A bill was also passed placing all special charter railroads on the same footing as other roads in the matter of taxation, and another abolishing all specific railroad taxes and substituting a general tax instead.

LANSING, Mich., June 12.—The senate yesterday passed the rechartering house bill providing for bringing all railroads of the state for general rechartering for taxation purposes; also the senatorial apportionment bill, and the bill making ten hours a legal day's work and requiring that employes be given extra pay for extra work. The bill making a misdemeanor for employers to cooer employes into signing contracts waiving the above provisions.

LANSING, Mich., June 13.—A bill passed the senate yesterday abolishing the entire special tax system relating to mining property and placing it upon the same basis as all other property for purposes of taxation. Adjourned to Monday evening.

HOUSE.

LANSING, Mich., June 15.—The house yesterday passed the senate bill for a consolidation of the penal institution boards of control after making a sweeping reduction in salaries. Those of the wardens of the prisons and of the superintendents of the criminal insane asylum and of the reform school were reduced from \$2,500 to \$1,500; those of the deputy wardens and clerks from \$1,500 to \$1,000, and all provisions for board salaries and other expenses struck out. Bills were also passed appropriating \$2,600 for the support of the state weather service; repealing the charter of the Lake Shore & Michigan Southern railway and bringing it under the provisions of the general law; for a reorganization of "Michigan and its resources." The committee on public health has by adverse reports killed bills prohibiting the sale of tobacco in any form, and also bills of age, and establishing a state homeopathic medical college at Detroit. The same committee reported without recommendation the bill abolishing the state board of health.

LANSING, Mich., June 12.—The bill appropriating \$25,000 for the fish commission this year and next passed the house yesterday. Although Reporter Graves, who made sensational charges against Doyle and Mumbe, escaped conviction, he was ordered to pay the costs of the trial, and the house voted to expel him from the floor.

LANSING, Mich., June 12.—In the house yesterday the bill appropriating \$30,000 for entertainment of the National G. A. R. at Detroit, which had passed the senate, was brought up, and was vetoed by the governor, came up for reconsideration and failed to pass over the veto. The bill providing for the payment of bounties to soldiers still remaining due after sending it so as to apply only to bounties promised soldiers who enlisted under the call of February, 1863, was passed.

LANSING, Mich., June 13.—The house yesterday passed the senate bill repealing all specific taxes on mines, and providing that hereafter they shall be taxed locally the same as other property. The state last year realized about \$75,000 from taxing the mines specifically. The bill also repeals the law which exempted from state taxes 640 acres for each mining company. The conference committee reported a substitute for the reorganization of gerrymandering changes from the bill which passed the house only in the proposed Second and Sixth districts. Adjourned to Monday evening.

VICTIONS OF THE FLAMES.

Three Persons, Father, Mother and Son, Burned to Death in Their Home.

New York, June 15.—A whole family—father, mother and son—was swept out of existence Sunday morning by a fire which completely gutted the five-story brick apartment house at the northeast corner of Third avenue and Seventy-fourth street. The victims were Philip Brady, a laborer, aged 55 years; Catherine Brady, his wife, aged 40 years, and Joseph Brady, their son, aged 13 years. The fire started at half past 3 o'clock in the morning, when everybody in the building was asleep. That many other persons did not lose their lives is owing entirely to the active work and heroic conduct of the firemen.

The total appropriations this session will, in round figures, be as follows: General: \$6,750,000; World's fair: \$800,000; Total: \$7,550,000. The total of the last session was about \$200,000 less.

IN FAVOR OF BLAINE.

Important Political Conference at Indianapolis.

Republican Leaders Meet and Resolve to Make a Strong Effort to Secure the Nomination of the Man from Maine.

A ROOM FOR BLAINE.

INDIANAPOLIS, Ind., June 13.—A secret political conference of some significance was held in Indianapolis Thursday, and so well was it managed that not until Friday did the real character of the conference become known. The participants were men of prominence in politics, and they were brought together on a call issued about a month ago. Most of them are known as Gresham men. Among those who were present were: Gen. James McVulla, of Chicago, one of the strong adherents of Judge Gresham; Col. A. L. Conger, of Akron, O., a member of the national republican committee, and a Blaine man; Congressman Burrows, of Michigan, a follower of Alger; James O. Bradley, of Kentucky; three Detroit men, who are close to Alger and hard workers for him, but who managed to conceal their identity; Charles W. Fairbanks, of this city, who has all along been one of Judge Gresham's chief supporters; Judge Fields, the only Indiana delegate to the last national convention who refused to vote for Harrison; M. W. Simons, of Plymouth, the Indiana delegate to the same convention who voted first for Harrison and then went over to Gresham. There were also Addison C. Harris, of this city; C. B. Landis, of Delphi; G. W. Wilson, of Fort Wayne; A. A. Purman, of Fort Wayne; Charles A. Bookwalter, of Fort Wayne, and Austin Kummer, of Lafayette.

There was a settled agreement to make a strong fight against Harrison's re-nomination. The conference expressed a determination to oppose Harrison in the convention, but to stand by him if nominated. The conference was in the interest of the nomination of Blaine, the purpose being to at once inaugurate a movement in support of him. In an interview Col. Conger said that it was the desire of the participants to keep their more secret, if possible, but, since some information regarding it had leaked out, he was not disposed to conceal the facts. He said frankly that the purpose was to organize the republican friends of Mr. Blaine in Ohio, Indiana, Illinois, Kentucky, Wisconsin, Michigan and Kansas in support of his nomination for the presidency. It was also determined to hold another and fuller conference, but the time and place were kept a profound secret.

"It is simply our purpose," he said, "to do all that we can from now until the national convention is held to secure his nomination, and I am confident that we will succeed."

Then and Now. When first I saw him, flushed with pride, He stood upon the stage And read his college essay on "The Folies of the Age." Like cannon balls of speech around its eloquence he hurled. And showed the proper way to steer This now misguided world. When last I saw him, there he was, At six or so a week, And filled his little life niche as A remnant-counter freak.

"Continual dropping wears away the stone." The continual breaking of lamp-chimneys costs a good deal in the course of a year.

You can stop it. Get Macbeth's "pearl top" or "pearl glass." You will have no more trouble with breaking from heat. You will have clear glass instead of misty; fine instead of rough; right shape instead of wrong; and uniform, one the same as another.

You will pay a nickel a chimney more; and your dealer will gain in good-will what he loses in trade; he will widen his trade by better service.

THE HEATED TERM.

The Summer Season Fairly Opened—Suffering in New York.

NEW YORK, June 16.—New York experienced on Monday the hottest weather ever known June 15. At 3 o'clock the thermometer registered 70 degrees, which beats the record for the year at that hour. At 11 o'clock it had jumped 14 degrees, and there seemed every prospect that by 3:30 p. m. the mercury would mount close up to the 100 point. At noon the people sweltered in a heat of 89 degrees, which is 2 degrees ahead of the best previous record, and at 3:30 p. m. the thermometers in some parts of the city indicated 98 degrees. Sergt. Dunn's records show that June 15, 1889, when the thermometer reached 87 degrees, was the next hottest day in this. Everywhere, especially in the tenement-house region, where the population is thickest, there was intense suffering. At night thousands of the dwellers in these regions slept on the roofs of their houses, and when these were too crowded took themselves to the sidewalk. The worst of it is that Sergt. Dunn predicts a continuance of the hot weather for to-day. Reports from the leading cities in this state show that the intense heat is general. At Albany 93 degrees is reported, while Hudson, the coolest place heard from, tells of 96 degrees. Advice from many towns in New England show a very sultry condition of things. The reports received from Maine points show a range from 82 degrees to 90 degrees, the latter at Portland. Of three-weight towns in New Hampshire, but one shows below 90 degrees. In Massachusetts 93 degrees is the lowest temperature reported, but the hottest place yet heard from is Providence, R. I., where the top notch of 107 was touched. The thermometer at Hartford registered 91 degrees in the shade. Everything is dried up by the drought. Vegetation all over Connecticut is suffering for want of rain.

PITTSBURGH, Pa., June 16.—At the signal office Monday 93 degrees was registered, though down on the streets 90 degrees was recorded. Many cases of prostration by heat are reported, though but two were fatal—an infant and a Slav serving woman. Several iron mills were obliged to suspend operations in the afternoon owing to the inability of the men to continue work.

THE THRONE SHAKEN.

Indignation in England of the Middle Class Over the Baccarat Scandal.

LONDON, June 13.—The fate of Sir William Gordon-Cumming is sealed, as far as the army is concerned, for the following paragraph is published in the Official Gazette:

"AN OFFICER, June 13, 1891.—Scots Guards, Maj. and Lieut. Col. Sir William Gordon-Cumming, baronet, is removed from the army, her majesty having no further occasion for his services."

"Dated June 10, 1891."

The storm rising round the prince of Wales is fast obtaining intensity, endangering his chances of succession to the throne, if not the existence of the English monarchy. No class appears to be stirred so deeply as the great middle class, the real strength of the country and hitherto a solid and stolid prop of the monarchy. Wherever the voice becomes audible its earnest denunciations of the prince of Wales are accompanied by regrets at his nearness to the throne. Representative gatherings of religious bodies—Congregational, Methodist, Baptist, Unitarian and Presbyterian—have already recorded their condemnations. Boards of guardians are going out of their accustomed paths to discuss motions branding the gambling propensities of the prince of Wales as a disgrace to the country. Several liberal societies have adopted protests against his continuance in the army. The agitation has every character of permanence. It has not yet touched more than a fringe of the political parties, but ere long the glowing fierceness of the popular heat must penetrate to the core of politics, causing party action within and without parliament.

Fatal Electrical Storm in New Jersey.

NEW YORK, June 13.—Tidings of a severe electrical storm along the New Jersey coast Friday afternoon are received here. At Cape May electric fluid struck the lighthouse tower, burning a small hole in the dome and passing down to the cottage connected with the tower, destroying a feather bed and painfully burning one foot of the son of the assistant keeper. At Hammondton Daniel Cross and two of his children were killed by the lightning. He leaves a wife and three children.

A FATAL PLUNGE.

An Excursion Train in Switzerland Goes Through a Bridge.

As a Result Sixty Persons Meet Death, Most of Them by Drowning—A Hundred or More of the Remaining Are More or Less Hurt.

DOWN TO DEATH.

BERLIN, June 15.—A fearful accident is reported from Switzerland. A railroad bridge across the Moenchchen, a small affluent of the Rhine, at Stein, in the canton of Basle, not far from Germany, gave way Sunday under the weight of an excursion train, crowded with throngs of people. The long train was crowded with people on the way to attend a musical fete. Six score of persons were killed outright while hundreds were injured. Two engines and the first car plunged into the river and all the passengers in the car were drowned. Two cars remained suspended from the bridge. All the trainmen were killed. Thirteen cars were saved. The musical fete at Moenchchenstein was abandoned as soon as the news of the accident arrived, and hundreds of villagers hurried to the scene to assist in rescuing the victims. The bridge was an iron skeleton structure which was considered well built and substantial. The only apparent reason for the collapse of the bridge is that the train left the rails and threw its entire weight on one side of the bridge.

The gorge was about 30 feet deep and the water was deep and swift. The engines and car were entirely submerged and none of the passengers or trainmen were able to escape. The bodies of these victims remained a long time in the water before being reached but finally the car, which was badly crushed and splintered, was torn apart and the victims penned within released. Of the remaining cars all were more or less damaged, the forward one being almost suspended over the torrent below, having been thrown off its trucks and lying almost crosswise of the track. All the others were derailed and not a passenger escaped without some injury. At least a hundred were badly hurt and of these several, it is feared, will die. The dead and wounded were taken to Stein. The calamity has stricken the people with horror. Relief trains with surgeons have been sent to the scene of the accident.

STARVING TO DEATH.

Great Suffering Among Immigrants in the Argentine Republic.

SOUTHAMPTON, June 13.—Over 300 families have arrived here by steamers from Buenos Ayres, having been forced to leave in consequence of the stoppage of work there and the lack of money. Nearly all are entirely destitute, and the Southampton authorities were obliged to provide them with food and other necessities. There are many Irish families among them, who were in special need of relief. Some of them report a distressing state of affairs in the Argentine republic owing to the recent financial disturbances. The foreign population, large numbers of whom emigrated there on glowing promises of highly-paid labor, are said to be in some cases actually dying of starvation, as they are practically shut out from all work and can earn no money either to sustain themselves or to enable them to leave the country.

FOUR WERE DROWNED.

A Party of Pleasure Seekers Thrown Into the River at Rockford, Ill.

MASON CITY, Ia., June 13.—A terrible accident occurred at Rockford Sunday night. A party of four—Miss Jessie Rollin, Miss Anna Kochler, C. H. Anderson and A. D. Cooley, the two latter residents of Cedar Rapids—were out boat riding on the Shell Rock river. In some manner the rowboat capsized and all were thrown into the river. Their cries for help were heard, but before they could be reached they were all drowned. The river was dragged and all the bodies were secured.

HIS CAREER ENDED.

Geromino, the Noted Mexican Stage Robber, Killed.

TUCSON, A. T., June 15.—Deputy Sheriff Gray arrived here Saturday morning with the body of the notorious Mexican stage robber, Geromino, and Leon, his accomplice. They had been robbing stages in southern Arizona during the last five years, and officers have been after them continually. Friday night Gray and his posse ran them down in the mountains near Pantano. They made a fight and Geromino fired five and Leon three shots without effect. Geromino was killed and Leon surrendered. Geromino robbed the United States mail and stage passengers more than a dozen times and has committed many murders. He was captured several times and escaped. Leon, his accomplice, up to six months ago was a deputy sheriff.

A DOLLAR SHORT.

Result of the Count of the Cash in the United States Treasury.

WASHINGTON, June 15.—The count of the cash in the vaults of the treasury consequent on the recent change in the office of treasurer has so far resulted in the discovery of a discrepancy of one dollar. This is missing from a bag of silver in a vault containing nearly \$70,000,000. The bag broke open by its own weight and the decay of the canvas and its contents were scattered among the other bags in the vault. It contained 1,000 silver dollars, all but one of which were found and that one will probably turn up before the examination of the vault is concluded. Otherwise ex-treasurer Huston will have to make it good.

PIONEER LIFE.

PAPER BY JUDGE HARRIMAN BEFORE THE PIONEER SOCIETY.

Pioneer Life not Unpleasant—Reminiscences—The Slave Girl on the Auction Block.

MR. PRESIDENT, LADIES AND GENTLEMEN: When your secretary asked me to speak here today, the thought at once occurred to me, "What can I say that will interest a gathering of pioneers?"

The pioneers in a new country are usually men and women in the prime of life and health, and vigorous manhood and womanhood.

Nothing seems, as in an old community, to be going to seed around them.

The early pioneer of Washtenaw county paced his field, and like the patriarch of the ancient world, sowed his grain with his hand.

When we think of all that invention and science have done in fifty years to lighten the burden of the farmer, it is sad to think that nothing, absolutely nothing, has as yet been accomplished to lessen the responsibilities or alleviate the labors of the farmer's wife.

WORK, WORK, WORK, is concerned, than the average farmer's wife in Washtenaw county today.

So far I have spoken of the pioneer generally, but I believe the pioneers of Washtenaw county were no exception to the general rule.

THEIR SOLITARY WAY, out into the great and unknown world beyond, where by the "sweat of their brows" they were to lay the foundations of the civilization, the progress and the true glory of their race!

THEIR SOLITARY WAY, out into the great and unknown world beyond, where by the "sweat of their brows" they were to lay the foundations of the civilization, the progress and the true glory of their race!

I do not know whether Methuselah lived 969 years or not, but if he did, he did not see as much progress, as many changes, or as much material improvement in society or civilization in his long 969 years as has occurred in the lifetime of one of our pioneers.

A PIONEER has told me that when he came to Washtenaw county it took him six days to travel with his ox-team from Detroit to Dexter, fifty miles.

THE EARLY PIONEER of Washtenaw county paced his field, and like the patriarch of the ancient world, sowed his grain with his hand.

passes through any other waterway upon the globe—not excepting the Suez canal.

But we need not dwell further upon these evidences of material progress, but let us look for a moment at an evidence of social and moral progress of far greater import, that has occurred in the lifetime of our pioneers.

A YOUNG GIRL SIXTEEN YEARS OF AGE, bare-footed, bare-headed and thinly clad, placed upon a dry-goods box upon the street for sale.

HOW MUCH AM I OFFERED FOR HER? Fifteen hundred dollars I am offered! Who will raise the bid? The 'gal' has got to go; her master is dead and the widow is obliged to sell her to close up the estate.

It is sad to think that nothing, absolutely nothing, has as yet been accomplished to lessen the responsibilities or alleviate the labors of the farmer's wife.

OUR YPSILANTI RAMBLER.

Tells What He Has Seen and Heard in that Burg During the Past Seven Days and Nights.

Normal receptions, musicales and private soirees are being held nearly every evening and are sure signs that the "last days" are nearly upon us and soon the old Normal halls will be haunted only by the "summer scholars" and the dignified janitor. Miss Dixie Mulvaney, who for three years has been a typo in the Ypsilanti office, left for Colorado Springs, Monday morning, where she will fill a similar position with one of the city papers.

Misses Millsbaugh and Stebbins, who have recently returned from New York, gave a pleasing recital at the Conservatory Monday evening. Xpsi is running over with first rate singers, something in the atmosphere seems to be a wonderful voice producer, and people about to change abiding places would do well to notice this fact and take a bee line for this city. An effort is being made to get up a real old fashioned celebration here on the Fourth. It looks as though we'd be pretty lively here anyway and folks wishing a nice respectable time are cordially invited to spend the day in Ypsi. The weather has been too warm to allow any great happenings to happen and so in spite of my persistent ramblings I found nothing to reward the "sweat of my brow" in the way of interesting items. RAMBLER.

Webster Farmers' Club.

The last meeting was held at the residence of Wm. Scadin, Saturday, June 13. A goodly number attended, not only from Webster but from other places as well. Dinner was served at noon. At one o'clock, or thereabouts, President Olsaver called the meeting to order in the open air, under the shade of trees. The male quartette rendered music, after which Rev. Scott Williams offered prayer. Business, recitation by Miss Alice Ball, and music by the quartette, led to the important feature of the meeting, a paper on "Banking and Handling Money," by Robert Gibbons, of Detroit, editor of the Michigan Farmer. He did not wish to touch on free coinage of silver or kindred subjects, but held more closely to the banking system. Money, he said, is simply labor performed or labor in a portable form, and is produced by three essentials, labor, economy and self-denial. The depositors are benefited much, as also are the banks, but not these alone, for great enterprises are many times conducted by borrowed capital, and thus the country at large is benefited. Banks are a necessity to trade and commerce. To sustain them integrity and good character are necessary. National banks were organized to hold up the government. Some statistics were used to show that they made nothing out of the government. Bankers are not, and cannot be, generous, but are strict and exacting to all alike. The editor then spoke of the savings banks, and showed that the patrons, who are mostly manual laborers, helped to keep up the circulation and form new enterprises. Hoarding is evil. Stagnation of money is death. He then showed, just as the rivulets join larger streams of water and they in turn join to form vast rivers that turn vast water wheels and empty into seas and oceans, thus sailing mighty ships from continent to continent, so do the small deposits of the laboring man find way into channels of good, and produce the great affluence that carries on mighty enterprises and keeps the wheels of commerce turning. After the male quartette rendered music, quite a warm discussion was brought out, which was not confined to the paper, but brought out the opinions of different ones on the justice of the present systems. Mr. Gibbons, when called upon, described briefly the clearing house of Detroit. Mr. Nordman thought rates of interest too high and money too scarce. Mr. Starks spoke about private banks. If these were swept from the community, said he, places that are now ruined would be prosperous. There ought to be a system of commercial integrity established. Rev. Mr. Morris, of Dexter, brought out the thought that money is a symbol of work, and protested against its indiscriminate waste, in great dinners, resorts and costly furnishings. He referred to the able contribution by Mr. Andrew Carnegie in the June number of the North American Review. Rev. Mr. McMahon, also of Dexter, said that although much money was spent in various ways, yet the money was not wasted, for it found its way to the home of the laboring man, the mechanic or the painter, and gave them their living. Thus he defended a limited amount of luxury. Other joined in the discussion, after which Mr. John Williams sang "Forty Years Ago." Adjournment followed. The next meeting will be held in August, at Mr. E. Ball's.

ANN ARBOR MARKET REPORT.

Prices Paid by our Merchants.

Table with market prices for various goods like Beef dressed, Butter, Beans, etc.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. A Boston lady, whose example is worthy imitation, tells her experience below:

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me that I would last longer; that I might take it on trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia and so weak that at times I could hardly stand. I looked like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GORF, 61 Terrace Street, Boston.

RAILROAD JOTTINGS.
 Toledo has a prosperous Railway Clerks' association, and has already a membership of 182 clerks.
 A train of live stock delivered to the Merchants' Terminal company by the Iron Mountain on a recent Sunday was delivered to the Wahash, on the east side of the river, just fifty minutes later.
 Colonel Davenport, of the Clover Leaf, refers with pride to the elegant new passenger equipment, including Wagner buffet cars, just introduced in the St. Louis-Toledo night express service both ways.
 The Boston and Albany is to build a new granite station at Warren, Mass.; also one at Charlton and Huntington. The future policy of this company is said to be the substitution of stone for wooden stations, all of which will be of artistic design.
 To bring the attention of the public to the products of the Canadian Pacific Northwest, the Canadian Pacific Railroad company is having a car built that will be run over the British railroads loaded with the various specimens of agriculture and mineral wealth.
 The Ohio senate passed a bill prohibiting railroad companies from employing engineers who are given to drink. The bill also requires railway companies to transmit private messages over their telegraph lines in cases of accident, and prohibits discrimination between shippers of freight.
 The passenger department of the Pennsylvania railroad's lines west of Pittsburgh furnishes newspapers that print the company's time tables with stereotyped plates in place of proof slips, because with the latter so many errors were made in setting up the figures that a change had to be made.
 Recently an engineer on the Louisville, New Orleans and Texas road, on the Jackson division, Mississippi, ran over a goose. Since then its mate expresses great animosity for the engine. The engineer says that whenever his engine signals for the station the old gander knows the whistle, and in spite of attempts to scare it off flies at the engine as though it were its deadliest foe.

NOTES AND COMMENTS.

She—You seem to have become wonderfully interested in that book, Mr. Stallong. He—I am. I should like to borrow it sometime. She—Certainly. You can take it home with you right now, if you like.

Thirty days is about what the Prince of Wales would get in New York as a baccarat banker for his first offense.—New York Press.

Some one said once that he could almost hear the grass grow. We disbelieved him until, while crossing the park, the other day, we distinctly heard it mow.

A large and curious fish, recently caught at Calhoun, Ga., had a head that resembled that of a snake, and had teeth like a human being. It is of a variety unknown to the oldest fisherman of the place.

Fox Brothers, La Porte, Ind., are large manufacturers of flannels. The passage of the McKinley bill has so stimulated their business that the cost of manufacture has been reduced, and in consequence they are now able to offer, and are offering flannels at 47 cents per yard for which they received 60 cents per yard before the passage of that famous American measure.

LITERARY NOTES.

The fifth paper in The Popular Science Monthly's illustrated series on The Development of American Industries since Columbus will describe The Manufacture of Wool. It will appear in the June number, and the writer is S. N. Dexter North, Secretary of the National Association of Wool Manufacturers, and special agent of the Eleventh Census.—D. Appleton & Co., New York, N. Y.

"Glad Spring," by George Wetherbee, is the subject of the frontispiece in the Magazine of Art for June and is a graceful and typical bit of out-of-doors. The opening paper is by M. H. Spielmann and is devoted to the recent exhibition at the Royal Academy, Berkeley Castle is the subject of a most interesting paper by Percy Fitzgerald, which is profusely illustrated. Then we come to an article on Cassell's famous International Shakspeare. S. Bing, the well-known expert in Japanese art, gives the first of two papers, Hokusai, with illustrations, while Frederick Wedmore discusses "The French Revival of Etching," with reproductions from some of the best-known masters of that art. There are copious notes, giving full accounts of the progress in the art world during the past month, and, altogether, the magazine is up to its usual high standard.—Cassell Publishing Company, 35 cents a number; \$3.50 a year, in advance.

The June number of Harper's Magazine contains the opening chapters of "Peter Ibbetson," a novel written and illustrated by the celebrated artist, George du Maurier. This story is one of peculiar psychological interest, and being Mr. Du Maurier's first effort in the field of romantic literature, its publication will prove to be one of the chief literary events of the year. Louis Frechette, the famous Canadian poet, contributes to the same number a picturesque description of "The Royal Chateaux of the Loire," accompanied by numerous illustrations drawn by C. S. Reinhardt and others. Henry Loomis Nelson writes a timely article on "Town and Village Government." Theodore Child, in his ninth article on the Spanish republics of South America, describes an inland voyage of 1350 miles, "Up the River Parana." Walter Besant contributes the first of an important series of papers on London. He gives an entertaining account of the last days of the Roman occupancy of the city, and of the probable nature of the catastrophe by which the memories of its former prosperity were so utterly buried. Excellent fiction by Charles E. Craddock and Sarah O. Jewett, poetry, and the editorial department are all of a high degree of merit and interest.—Harper & Brothers, New York, N. Y.

NOTES AND COMMENTS.

The president has not had his photograph taken lately, but several applicants for office have taken negatives of him.

"The power of music, all our hearts allow," but there are a few ignorant persons who have not learned yet, that all colds are cured by Dr. Bull's Cough Syrup. Buy it and try it, 25 cents a bottle.

The People's party ought to be an advocate of woman's rights, as it is reported to have been borne with a hoop.

"There is a slave, whom we have put in prison." Aye and we'll keep him there, he was a tyrant once, but his reign is over, his sceptre lies in the dust. His name is pain, and his conqueror is the far-famed and world-renowned Salvation Oil.

Don't be too severe on the man who smokes cigarettes; he may have promised a dying mother that he would never use tobacco in any form.

I had a severe attack of catarrh and became so deaf I could not hear common conversation. I suffered terribly from roaring in my head. I procured a bottle of Ely's Cream Balm, and in three weeks could hear as well as I ever could, and now I can say to all who are afflicted with the worst of diseases, catarrh, take Ely's Cream Balm and be cured. It is worth \$1.00 to any man, woman or child suffering from catarrh.—A. E. Newman, Grayling, Mich.

When a miner thinks he has struck a vein of silver and finds it all a delusion he comes to the conclusion that things are seldom what they seem.

A Preacher Militant.

Sam Jones says: "This whiskey question has got to be settled. There was lots of blood spilled in this country to make free men out of 4,000,000 slaves, and I don't see anything wrong in a little more blood being spilled to save the women and children from the misery and sufferings that result from this damnable traffic. I don't care when the fight comes. I am willing to get at the head of the procession with my rifle."

A Farmer Writes.

"Hibbard's Herb Extract is a wonderful blood purifier; it cured my boy of scrofula of the worst form." See Mrs. Hibbard's picture in another part of this paper. Read of her own case. Remember she gives advice free to all who write her.

Don't Like Grover.

The Alliance in North Carolina will not support Cleveland. President Polk, in his paper, the organ of the Alliance; has for the last three weeks given the Democratic party to understand that the farmers would stick to their position on the silver question, and, if that party insisted on bringing Cleveland to the front in the next Presidential campaign, there will be a breach which cannot be bridged by any effort on the part of the Democrats.

A Wooser's Progress.

I asked the maid, with heart aglow, Will you be mine? she answered, No. Next week I asked again, and she said with a sigh, It cannot be. A fortnight after that I said, Be mine, she smiled and shook her head. Next time I asked instead of no. She said, Oh, please, don't plague me so. Last night, I asked again and she said, Yes, just to get rid of me.

Got the Mitten Every Time.

"I can marry any girl I please," was his exclamation, but unfortunately then he did not please any; and there was a plain reason for it. He had contracted catarrh of the worst form, and, although a wealthy, educated, attractive person every other way, he was positively repulsive to his lady friends, a number of whom rejected his offers of marriage. A friend advised him to use Dr. Sage's Catarrh Remedy. He took his advice, and now is the most popular beau in town, and he really can "marry any girl he pleases" to ask. It made his breath pure and sweet, he has no headache, no offensive discharges from the nose, in short, is in perfect health, and all from using a few bottles of Dr. Sage's Catarrh Remedy.

Will the Democrats Please Explain? A billion dollar Congress will only be an effective issue when the Democrats show that the money was not wisely expended. What item shall be cut off—pensions, ships for the navy, coast fortifications, mail payments or what?

The Purest and Best

articles known to medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, personally examined, and only the best retained. The medicine is prepared under the supervision of thoroughly competent pharmacists, and every step in the process of manufacture is carefully watched with a view to securing in Hood's Sarsaparilla the best possible result.

A Need of Caution.

—Cholly—"I'm afraid I'm getting too fond of indaw spawts since I fawmed the acquaintance of the Miss Giggles." Chappie—"You don't say!" Cholly—"Pon honah. I played fawty games of tiddle-winks last night." Chappie—"You should be caahful, old man, and not ova do it. The bwain wan't stand it, you know."—N. Y. Press.

Handsome Versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great Blood Purifier, and now would not be without them.

A Famous Journalist.

George Augustus Sala, is a red faced and small eyed man of 63, who is always trying to cultivate a somewhat attenuated mustache, which does not seem to be on good terms with itself. He is one of the pleasantest and most readable writers on the London Telegraph, but is at his best in gossiping, sketchy and amusing personal and scenic description. His "Journey Due North" is one of the best examples of his best inimitably discursive and descriptive style.

Conjugal Wisdom.

"She who never answers till her husband speaks, Or obeys him, never shows she rules." is a type of wife happily becoming common in these days when women may have good health, cheerful dispositions, strong nerves and clear minds, simply through the use of Dr. Pierce's Favorite Prescription. Before the reputation and use of this remedy became world-wide, irritable, cross, nervous debilitated women, suffering with displacements, hysteria, and every female disease, were the rule rather than the exception. "The Favorite Prescription" has proven to be the key to a long and happy life—the key which effectually locks out that old array of uterine disorders, periodical pains, weak back, prolapus, inflammation, ulceration, nervous exhaustion and general debility. See printed guarantee on wrapper. Money refunded if it doesn't give satisfaction in every case.

The Tariff is Not a Tax.

Fox Brothers, La Porte, Ind., are large manufacturers of flannels. The passage of the McKinley bill, has so stimulated their business that the cost of manufacture has been reduced, and in consequence they are now able to offer, and are offering flannels at 47 cents per yard for which they received 60 cents per yard before the passage of that famous American measure.

An Ardent Love Letter.

The boy who wrote it was ten years old and the girl presumably of the same age. Here is the charming message: "Dear Emma—I love you and wish you would write to me. I love you and I wish I could kiss you. Emma did you tell that boy that lives beside your house that you was going to slap my nose? Emma I could not help but cry when that boy told me. I have given you about twenty-five cents worth of candy and you don't treat me well, besides I gave you some gum." There is no doubt about the condition of that boy. He is in love. He may be only ten years old, but if he lives to be one hundred he will never be any more in love than he was when he penciled that letter.
