#### "THE MAYOR INSULTED."

THE COUNCIL HANGS HIS NOMINA. TION UP IN A SPECIAL COMMITTEE.

A Storm Expected-The Mayor's Nominations-Ald. Prettyman Asks Why but Gets no Answer-Neven to Five Against the Mayor - Ald. Martin Graws Sarcastic over Watts' Committees-Ald, Manly Waves the Amerlean Fing-What is the Matter With the Gas Franchise?

There had been political storm signals flying all day Monday and consequently the reporter's tables and the spectator's seats in the council chamber were completely filled up and all the available standing room preempted sometime before President Watts called to order at 8 o'clock. Every alderman was in his place except Fillmore who is reported on the sick list, and many who came in later.

There was considerable consulting in corners before the call to order among other significant combinations being that of Miller, Watts and Pond.

Proceedings opened with communications from the mayor. The first one read recommended that the council consider the propriety of appointing a city physician, and in case such an officer was thought desirable the name of Dr. Anna M. Flynn was presented for consideration.. Pres. Watts asked for the will of the council in this matter, but several called for the other communications to be read before any action be taken on this one, The second message contained the following appointments; for Marshal, Parris E. Banfield; for Treasurer, George Pond; to Board of Public Works, Thomas J. Keech; for Fire Commissioner, Jas. E. Harkins; for Building Inspectors, Gottlob Luick, Warren E. Walker, Herman Krapf, Ald. Prettyman at once moved that these nominations be confirmed the motion being seconded by Ald. Schairer. Somebody twitched the string that he has tied to Alderman O'Mara and that individual bobbed up with "I move to amend to refer to a committee of five." He gave as his reason that the council had got to stand the brunt of these appointments and they should look into them as well as the mayor. Ald. Schairer said that such a proceeding could be looked at only as an insult to the mayor. The men were all well known to the coun-

cil now and that excuse of looking them up was not good. Why should such a different course be taken this year than ever before? Ald. Kitson said that the mayor had full jurisdiction over the marshall, he should certainly be allowed to make that appointment of the court includes the court of the court includes the c ment entirely to suit himself. Ald. Snow believed that other men were being insulted besides Schairer, but he failed to specify who these people were. Ald. Prettyman agreed with Ald. Schairer that it was an insult to the mayor to treat his nominations in such an unusual way. How can the mayor man-age his part of the city government unless he has officers of his own choosing. It is the mayor who is responsible for these officers. What reason is there or referring them to this committee. Ald, Herz asked why the nominations were not all in. Ald, Martin said that, the mayor really asks for a committee for in his first communication he asks for consideration of a matter, and a committee ought to consider it. Besides it was not right to act on these names all at once. They should go one at a time. Ald. Prettyman asked why these men should not be acted on at once. To refuse is to take all power away from the mayor. Give a reason for not from the mayor. Give a reason for not proceeding at once. Here a vote was taken on O'Mara's amendment and it was carried: Yes,—Ald.'s Herz, Snow, Martin, O'Mara, Ferguson, Taylor, President Watts; No,—Ald.'s Schairer, Wagner, Prettyman, and Kitson.

Ald. Prettyman then moved as a substitute to the original motion that the council now proceed to consider the mayor's nominations, one by one, in the order presented. Ald. Herz thought that a motion voted down was settled. Ald. Martin thought the motion out of order as it was practically the same as the motion voted down. President Watts ruled the motion in order; but Ald. Martin said it was unparliamentary just the same and would vote against it on that ground. Ald. Prettyman said that he made the motion to please Ald. Martin who objected to the please Ald. Martin who objected to the other motion because all the names were to be considered at once. Why he continued, not consider these name now. Give a reason for not proceeding. Let us call up these names one at ing. Let us call up these names one at a time and confirm all those that are satisfactory. Who are you opposed to? What kind of a performance is it for sensible men to refer these names to a committee without giving a single reason for the reference. Let us stop making donkeys of ourselves and be reasonable. Here Herz fizzed out something about donkeys, and then a vote was taken and Ald. Prettyman's motion was defeated by a vote of seven motion was defeated by a vote of seven to five. Ald. Manly had come in just as the vote was being taken and voted yes. Then the original motion as amended, now reading to refer the nom-inatoins of the mayor to a committee of five, was carried by a vote of seven to five as follows: yes—Herz, Martin, Snow, O'Mara, Ferguson, Taylor, President Vatts; no-Schairer, Wagner, Manly,

Prettyman, Kitson. The council then proceeded to other usiness, and a number of reports from ty officers were received and filed. The treasurer reported over \$13,000 in the bank. Bids were opened from the banks for the city's business, the Ann Arbor's Savings Bank and the new State Savings Bank being the only

bidders. Bids were also received from the newspapers for the city's printing. The bids were referred to special committees. In the printing matter, Ald. Martin declared in favor of giving our Martin declared in favor of giving our German citizens a chance to read council proceedings in their own language. Ald. Manly reminded Ald. Martin that the American flag floated in this country and that English was the official language. Pres. Watts finally arnounced the committee to which the mayor's appointments were referred, as Ald.'s Martin, Ferguson, Snow, Taylor and Prettyman. Ald. Martin sacastically informed the president that he had some private affairs requiring attention and that he couldn't serve on quite all the regular and special committees of the council, whereupon the name of Herz was put in place of Martin.

Ald. Snow then introduced a resolution that the council take a vote on paying Palmer \$35 for property destroyed. By vote the council refused to take a vote.

The finance committee moved that salaries be fixed for the coming year as follows: city clerk, \$800; city attorney, follows: city clerk, \$800; city attorney, \$300; treasurer, \$100; marshall, \$780; and patrolmen, \$600. Ald Snow thought that everything was going to special committees, so moved that this be so referred and thus it went.

Ald. Manly brought up the matter of the gas ordinances passed by the last council as to whether they were properly signed and in force. Ald. Prettyman suggested that the gas companies

man suggested that the gas companies would undoubtedly see to it them-selves, being the parties most interested, but that reference to the city attorney was undoubtedly proper; and so the reference was made.

Very soon after this the curtain fell and the large audience dispersed.

#### A Fine Showing.

Not the least interesting and instructive portion of the World's Fair exhibit of the U. of M. is that made by the chemical laboratory. Dean Prescott kindly gave a REGISTER reporter a very complete account of it rerecently. It will take three upright cases twelve feet long by seven and one-half high by three feet through and a flat show case three by fourteen feet to contain it. In case I. is the metallurgical exhibit, prepared by the students working under the directions of Prof. E. D. Campbell, and all the more remarkable on that account; the painful loss of eyesight to this popular teacher being a vivid memory to all. Here will be shown a large collection of bars of standard grade specimens of wrought and cast iron, and steel. Each bar will be surrounded by glass jars containing all the constitutent elements of that par separated out and quantitatively accurate. An iron bar for example will have about it jars containing pure iron, sulphur, carbon, phosphorus etc., respectively, the quantity in each jar being the same as the quantity of the same substance contained in the bar itself. Case II, will contain a collection of medicinal drugs grouped according to their family traits, with plants from the herbar-ium, showing where many of them come from. The preparations here are also students' work. In a part of case ustrated, much of the apparatus hav ng been designed by teachers in the University laboratory.

In the other part will be the chemistry of foods exhibit. Here will be foods and medicines divided up into their chemically free elements; A loaf of bread divided into water, starch, gluten, etc. Wheat, corn, tea, coffee and a host of other things are all thus analyzed. A man can see exactly what he puts down when he takes a breakfast on rolls and coffee. The proportions of these elements in foods are so shown that they can be understood at

a glance.
The flat case will be labeled "Methods of Teaching." At one end will be the bibliographies on chemical topics, the bibliographies on prepared in conwhich students have prepared in con-nection with their library work. Each one of these books is a very full dictionary index of some branch of chemical literature. Several have been printed, and one is now in press by the Smithsonian Institution, the proof sheets of which will be shown in Chicago. In annother part of this case will appear the collection of chemical models. These are intended to show how the atoms combine to form molecule of a complex substance. The atoms are represented by balls differently colored for different elements each, one having as many projecting wires as the element has "bonds." The model of the alcohol molecule strag-gles around enough to make a drinking man think he has got'em again.

There will be a full set of those dry unknowns in little boxes that beginners

in qualitative analysis wrestle with so long and find all sorts of remarkable combinations in. That mysterious key behind which the knowledge of their contents is hidden is not to be ex

#### Mrs. C. L. Ford.

Last Tuesday afternoon it was earned that the brief illness of Mrs. C. L. Ford, wife of Dr. Ford, a most encyclent and generally admired and respected lady, had resulted fatally. Mrs. Ford was born in Pittsfield, Mass. 1829, and came to Ann Arbor, twenty-seven years ago, the bride of Dr. Ford. She has always been a most earnest and generous member of the Congregational church, and her death is regarded as a loss to the whole community

The base ball game with the D. A. C. last Saturday was a fine one. The home nine played in great form, and clearly outplayed their opponents. The game was exciting, the score standing 1 to 0 for D. A. C. up to the seventh in-ning when U. of M. made 3, and added 3 more in the next two innings, making the score 6 to 1 for U. of M. Crog-man's pitching, and Shield's batting were especially endorsed by the grand

#### To Aid Their Alma Mater.

Dr. J. M. Lee, of Rochester, N. Y president of the N. Y. State Homoeopathic Society, and also of the Homoeopathic Alumni Association of the U. of M., has issued a call to the mem-bers of the latter organization to assemble in Lansing today, to hold a convention conjointly with the regular annual meeting of the Michigan State Homoeopathic Society which is held at

Lansing yesterday and today. Dr. Lee states that the meeting is called "for the consideration of ques tions of vital importance to the alumni of the college and of the Homoeopathprofession at large" and that "unle a vigorous effort he speedily made the influence and growth of our Alma Mater will be greatly impaired." In closing he says "Do not fail to make every effort to be present."

There will be some definite action taken concerning the recent and still unsettled troubles in the Hcmoeopathic department.

### A Bad Fall.

Benjamin Glassford, a well known carpenter of this city, was working on a house now building on Fuller-st last Thursday afternoon, when a board broke under him letting him fall about two stories. He struck on his left side, breaking his wrist, pelvis and hip. A hack was summoned from the Central depot and Mr.Glassford taken to his home at 47 N. Fourth-ave., where Dr. Breaky attend-

Mr. Glassford died of his injuries Sunday evening. His remains were taken to Clinton for burial.

#### The Mayor's Answer. The following communication speaks

for itself: Mayor's Office, May 3, '83.

WM. J. MILLER, City Clerk, Sir:—Please call a special meeting of the common council to be held to-morrow, May 5th, at 7:30 P. M. to consider the question of amending the city charter so as to confer upon the mayor the power to appoint and remove the city attorney, marshall and patrol-men without the consent of the common council.

B. M. THOMPSON, Mayor.

Just Received. An exceedingly handsome art souvenir of Ann Arbor and the University was left at this office by Moore & Wetmore last Tuesday morning. It contains 45 pictures of the city and University, all excellent, and up to date. It is certainly a very attractive publi-cation, and a credit to the enterprise of the gentlemen who handle it.

#### At the World's Fair.

The Veterinary Department of the Agricultural College have dissected two horses and preserved them. They were prepared by feeding them 10 grains of arsenic three times a day for a week, then bled and then five gallons of corrosive sublimate were injected into the veins and arteries of each. After this was done they were so dissected that the most important muscles and tendons show and are now dried and free from odor. One of these dried and free from odor. One of these go to the U. S. exhibit and the other is a part of the college exhibit at the Columbian Exposition. On each horse will be shown 100 points of interest, among which will be the seat of the common diseases, laminitis, sidebone, ringbone, sprain of fetlock, breaking down, splint, bone-spavin, bog-spavin, thoroughpin, capped hock, sweeney and many others. A card will be attached to each explaining them and avoiding scientific names as much as possible. Besides these are natural skeletons (that is a skeleton held by ligaments instead of wires) of a horse, cow, sheep instead of wires) of a horse, cow, sheep and hog. Also a skeleton of a horse having 19 pairs of ribs, which makes it having 19 pairs of ribs, which makes it unusually interesting. This department will also have 25 models of teeth taken directly from the animals' mouths, whose ages are certified to. These show the teeth from 1 year old to 25 years old. All of this exhibit represents students' work almost entirely and has been done largely under the and has been done largely under the supervision of Dr. B. O. Johnson, with class of '92 and a graduate of Chicago Veterinary College.—College Specu-

#### To Farmers

Some years ago I had the pleasure of visiting with the late Hon. George Sutton, whom I admired as a true type of American character of the good old school, and a first-class farm-er. He had a very fine lot of winter apples with hardly any insect marks. pon inquiring in regard to this pom-logical success he replied that he oc-asionally sowed peas in the orchard. When the pods were filled, he turned his hogs in, which harvested the crop

of peas and wind fall apples, and were sold at once in the autumn.

Friend John Nanry of Superior, a su-perior farmer indeed, thinks that seed peas, which he sows annually, come very peas, which he sows annually, come very high. He intends giving the Jerusalem artichoke a trial, needing no seed after started, for 40 years. However, he is somewhat afraid that he will never be able to exterminate them. His hogs, if turned into the field, will make tabular ages with the control of the sound of the started and the sound of t make tabula rasa with the tubers When once established he will never grow weary of this fat and milk producing plant, which is a tuber in the ground and a sunflower above the ground When dry in the fall, these sunflower stalks will delight his sheep and cows, while the tubers will be enoyed by man and beast. The tubers left in the ground during winter, will come out of the ground as sweet and fresh as Venus came out of the sea

The Aprill brothers of Scio, who are wide awake farmers, not only in April but all the year around, have started this Helianthus Tuberosus. I am sure they will make it a success.

Had the Russian autocrat raised artichokes instead of Cossacks, his subects would not be cursed with a famine, which is now as bad as last year.

Does this fellow expect of Uncle
sam to be his beadle, to deliver to his clutches those that have fled from tyranny and starvation, to his big farm under the stars and stripes? Ne

He is improving and will be able to return to work in a few days. -Chelsea Standard.

country on the face of the globe can produce more kinds of weather in the same length of time than has been "enjoyed" by the people of Michigan during the past ten days, we should like to, know the latitude and longitude. Within a period of forty-eight hours we have passed brough the climate effects of every zone on the globe, with some extras thrown in. Talk about copper mine, school furniture, condensed milk, murders and all the other things in which the Wolverine state has the inside track, but it must be admitted that her industry in the way of weather puts everything else in the shade.-Howell Democrat.

#### True Heroism.

It should be an important part of the education of every child to form within him a true and worthy conception of heroism and to enable him to recognize it wherever it exists. Too often his only idea of it is found in the sensational romance or in the examples around him of men who for praise or glory or gain will do daring deeds and manifest a physmal bravery, often at a fearful cost to their fellow men. Let us give them a truer ideal and afford them a higher example.—Philadelphia Ledger.

WORLD'S FAIR RATES.

Michigan Railways Have Agreed Upon a Schedule of Prices. Lines in the Michigan Railway association have agreed on the following world's fair rates:

There will be one rate of 85 per cent of double one-way rates for the round trip. Pickets sold at this rate will have thirty-day limits and carry with them all the privileges of regular first-class tickets. The second basis will be 80 per cent of double one-way rates Tickets sold at this rate will have six months' return limits. They will be good only on trains arrying no sleeping cars and will carry with them only ordinary coach privileges. The third casis is 75 per cent. of double one-way rates. Tickets sold at this rate will carry only thirty-day return limits and will be available only in ordinary passenger coaches. The fourth grade will be 66% per cent of double one-way rates. These tickets will have return limits of seven days and be good only on special excursion trains announced from time to time while the fair is open.

Incendiaries Plug Fire Alarms. During a terrific storm the destruction of the manufacturing district of West Bay City was planned. Fortunately Fire Chief Plummer, in passing fire alarm box, stopped to examine it. He found it plugged. He then made an examination of all the boxes and found those in the manufacturing district filled, and with the same peculiar plug. The plug had been made for the purpose and was of steel, fitted like the lead in a cartridge and pounded into the box. The whole lock was destroyed

The Royal Arcanum. The grand council of the Royal Arcanum of Michigan, in session at Mus kegon, elected officers as follows:

Grand regent, H. C. Hedges, Lansing: grand vice regent, John Devisser, Kalamazoo; grand secretary, S. A. Griggs, Detroit; grand treas-urer. W. S. Campbell, Detroit; grand orator, L. H. Plues, Saginaw; grand chaplain, J. S. Briggs, Hudson; grand guide, H. H. Aplin, West Bay City; grand warden, E. F. Woodcocks, Niles; grand trustees, C. A. Fatin, Almont: F. A. Steven, Ionia; H. R. Backster, Grand Rapids; grand sentry, L. B. Edinborough, West Bay City.

Reports to the Health Board. Seventy-eight observers in various ocalities in the state say that during the week ended April 22 remittent fever and pleuritis increased and scarlet fever and inflammation of the bowels decreased in area of prevalence. Diphtheria was reported at twenty-five places, scarlet fever at forty-three, typhoid fever at ten and measles at twenty-eight places.

Fire at Plymouth. A fire that started in George Van De car's barber shop in Plymouth destroyed the block, causing a loss of \$60,000. The following were burned out: George Van Decar, barber shop; Chaffee & Hunter, boots and shoes; Miss Nellie Steele, millinery; Alfred D. Lindon, hardware; John L. Gale, drugs; A. H. Dibble, boots and shoes; Bassett & Son, furniture; R. G. Hall, dry goods; First national bank.

Deputy Inspectors Appointed. State Iron Inspector McMillan has appointed the following deputy in spectors: Theodore Walter, Thomas Bettinger, Third district; Clayton M. Nash, Fourth district: W. L. George, George M. Bunnell, Fifth district; Geri B. Cutler, Ninth district; E. O. Dewey, Eleventh district.

Part of a Crew Missing.

The steamer Ohio, from Buffalo to Chicago with coal, was towed into Detour nearly a total wreck. Capt. B. F. Evans and four sailors are missing and are thought to have been lost. The Ohio had on board 1,260 tons of coal. It was worth \$50,000 and was insured for

Short But Newsy Items. King's brewery was burned at Detroit, causing a loss of \$60,000; insurance, \$51,000.

The stockholders of the Houghton copper works have authorized the officers to sell the real estate and wind up the affairs of the company. One hundred and twenty-eight per

sons in Algonac are captains, first mates, second mates or wheelsmen. The spring term of the mining school at Houghton has commenced.

The body of Frank White, missing from his home in Lansing since election was found in the Grand river, 4 miles below that city

The Lansing Driving club has decided to hold a meeting July 3, 4 and 5, for which small purses will be hung up. F. W. Hastings' grocery store at Bay

City was burned, the loss on stock be ing about \$500 and on building \$200. The board of state auditors have employed a landscape gardener and are laying out the grounds around the state capitol building with the intention of beautifying them with flowers and

shrubbery. The resort lately kept by Mrs. Nick Orth in Port Huron was entirely de-stroyed by an incendiary fire.

Capt. R. T. Evans, who with four of his crew was supposed to have been lost off the steamer Ohio in the recent big gale, arrived at Cheboygan. They were nearly starved when found by the tug River Queen at Scammond's cove on Cockburn island.

The barber shops in Port Huron will be closed hereafter on Sunday pursuant o an order issued by Mayor Merriam.

The appointment of W. D. Rees, of Cleveland, O., treasurer of the Lake Superior Iron company at Ishpeming is looked upon as confirmatory of the reports of consolidating the iron mines in the upper peninsula.

The birth of the new township of Bearinger, in Presque Isle county, has been the signal for new industries to start up in Hammond's Bay. Arthur Wood died at Grand Rapids,

aged 61. He was a prominent manufacturer and at one time a newspaper George E. Green, of Charlotte, has

been appointed chief clerk of the labor bureau by Labor Commissioner Charles H. Morse. The Gloucester iron works of Grand

Rapids obtained a judgment for \$26,000 against the Hydraulic Water company and the sheriff took possession of the plant.

#### HEMMED IN BY WATER.

A Destructive Flood Raging in Ohio and Other States

SPRINGFIELD, O., May 2 .- One hundred acres in the northeast part of this city, containing 200 houses, were flooded Monday evening. Scores of families are threatened with destruction and the police force has been called out to rescue them. Boats and horses are being used and all citizens are lending a helping hand. The electric steet car traffic of the entire city is stopped. The power house is under water. The Spring street bridge went at midnight.

At noon Monday an immense waterspout burst over Tremont City, a village near here. At about the same time the river broke its banks, and within eighteen minutes the water had flooded the town, carrying away outbuildings and stables and flooding the first story of residences. No person is reported killed or drowned, but there is a heavy loss of stock.

Sr. Louis, May 2. -An additional rise in the river Sunday night brought disaster and the situation now is critical. The East St. Louis dock immediately south of the Eads bridge gave way before the rush of water at 11:30 Monday morning, and fully one-fourth of the vast building, with the heavy contents, fell in a the roof sinking and settling upon the wreck. Thousands of barrels of flour, sacks of grain and boxes of canned goods were precipitated into the water. One of the laborers, Cicero Pate, a colored man, is missing, and William Harris had his arm broken. The building is said to belong to Chicago peo ple and wasused as a warehouse.

VINCENNES, Ind., May 2 .- The lowlands in Indiana and Illinois are inundated by the Wabash river and thousands of bushels of wheat in the vicinity are at the mercy of floods, which shows no signs of abatement. The river at this point is nearly 20 feet above lowwater mark and still rising. It is feared that a repetition of the freshets of 1875 an 1 1883 will occur. River men predict that a rise of 2 feet within the next few hours is inevitable, in which event the loss of crops and live stock will be

VANDALIA, Ill., May 2.—The Owak river has flooded all the bottom lands in this vicinity. Hundreds of cattle and hogs have been drowned and mile of fencing have been washed away.

#### SIX LIVES LOST.

A Tenement House at Burlington, Ia. Burns with Fatal Results.

BURLINGTON, Ia., May 2.—Burlington was visited Saturday morning by a terrific and sickening holocaust the like of which has never been known in this locality. Shortly after 2 o'clock Sunday morning fire was discovered bursting from the windows and doors of an brick tenement house at 85 Jefferson street. The house was full of lodgers of the poorer class of workmen and mechanics, and many of them saved themselves only by jumping from the windows, a number with no clothing on their persons, but all did not escape. The house was a veritable fire-trap, with numerous devious halls and dark landings. A number of the sleeping-rooms had no windows.

So quickly did the fire spread that six of the lodgers were caught like rats in a trup and perished miserably. They were: F. G. Schuman, a carpet weaver: Mike Rines, a transient lodger; Mike Lee, a stove molder, of Chicago; Joe Swindler, a plasterer, of Burlington John Morgan, a stove molder, residence not known; a boiler maker, known as "Charlie," supposed to be from Chicago.

Figures of the Michigan Election. ANSING, Mich., May 2.—Complete turns have been received by Secretary of State Jochim of the vote cast in the state April 3. It appears therefrom that the proposed constitutional amendments relative to circuit courts, highways, improvement of Grand river and increasing the salaries of certain state officers were carried. The republican plurality on supreme justice and regents was about 16,500. The state board of canvassers will meet May 16, and until then the official figures will not be available.

Storm on the Atlantic Coast.

HALIFAX, N. S., April 29 .- A terrific storm swept over Prince Edward Island Wednesday. The wind blew 40 miles an hour; it was bitterly cold with heavy snow and hail. A large number of lobstermen were blown out to sea and undoubtedly perished.

Statement of the Condition of Uncle Sam's Finances.

The Public Debt Increased \$3,727,369 During April-Receipts and Expenditures During the Past Ten Months.

THE DEBT GROWS LARGER.

WASHINGTON, May 2.- The monthly public debt statement issued from the reasury department Monday shows a net increase in the debt during last month of \$3,727,869 and the smallest cash balance and gold in the treasury for many years. The reduction in eash and consequent increase in the debt during April are mainly due to heavy interest payments, which during the month were more than \$5,000,000 There was a decrease of non-interest bearing debt during the month amounting to \$421,005; a trifling increase in the bond indebtedness, and a decrease of \$4,-147,814 in the net cash balance.

THE CASH BALANCE. The net cash balance stands at \$24 471,573 and the gold reserve at \$97, 011,330. The gold reserve increased about \$5,000,000 during the last few days, and if what has been offered and accepted by the department within a day or two had been covered in the treasurer's statement it would have swelled the gold reserve fully up to \$100,000,000, or about \$7,000,000 less than it was a month ago.

The national debt, less the net cash balance in the treasury, is \$840, 924,861, of which amount \$585,033,660 is interest-bearing debt, mainly 4 per cent bonds.

Silver assets now aggregate \$481,788, 691, against which there are silver cer tificates and silver treasury note liabilities amounting to \$450,486,829; leaving a silver balance of \$31,291,862, an increase of \$6,000,000 during the last month. Up to date there has been issued \$139,069,778 in silver treasury notes, and of these \$128,779,103 are in

RECEIPTS AND EXPENDITURES. Government receipts last month in round numbers amounted to \$28,500,000, or three-quarters of a million more than in April, 1892. Customs receipts were \$15,418,637 and internal revenue receipts \$11,799,367. Expenditures during the month aggregated \$33,771,365, or two and a half millions more than in April, 1892.

For the ten months of the current fiscal year, or up to May 1, receipts from all sources aggregated \$324,589,-393, or \$20,000,000 more than during the corresponding months of the preceding fiscal year. On the other hand, expenditures during the last ten months were \$332,377,552, or \$32,500,000 more than during the corresponding months of the preceding fiscal year. Twentyfour million dollars of this increase alone is due to larger pension payments this fiscal year, and which for the last ten months aggregate \$133,678,345.

#### ABOUT \$6,000,000 INVOLVED. The Sioux City Smash-Up Several Times Worse Than First Given Out.

Sioux Ciry, Ia., May 2.—Assignee E. H. Hubbard, of the Union Loan & Trust company, makes a statement which has created a sensation here. In the original statement of the liabilitie of the company, filed when it failed, they were placed at about \$750,000 with assets of twice that amount. It proves from the assignee's statement that the liabilities are immensely greater, amounting to about \$6,000,000. In an interview Mr. Hubbard said:

"I will be ready in a day or two to file my statement of the liabilities. No. I have not gone far enough to make a statement of the exact amount of liabilities of the company, but exact amount of liabilities of the company, but from various sources I learn indefinitely that they are about \$6,000,000. This includes both direct and indirect liabilities, the last being on account of notes indorsed by the company. The indorsed paper was mainly that of the syndicate, the individual members of the syndicate or of the companies connected with it. I cannot now state how much paper of the different companies or individuals was issued. The paper has been sold all over the country. It is held mainly by banks. I cannot estimate the per cent that the company will be estimate the per cent that the company will be able to pay. It will take a month for me to get affairs straightened out so that I can tell any-thing definite about the situation."

THREE SET FREE.

Five Others Accused of the Oliver Killing Are Held Over.

Morganfield, Ky., April 29.—George Henry, the first of the defendants tried in the Oliver murder case, clearly established an alibi and was discharged from custody Thursday morning. Alexander Thomasson, who was implicated by the confession of Lewis Land, proved that he was not with the party until after the shooting and had no information as to its purpose. He was discharged in the afternoon. Will Holt, who was with Thomasson, will be released. The other five defendants waived examining trial and will be held for the grand jury.

Bound to Die. New York, April 29.—Benjamin Buchanan, 70 years old, who for the last thirty-five years had been an officer of the supreme court, cut his throat with a razor on the roof of his residence and then jumped into the street. He was instantly killed. Mr. Buchanan had been in very low spirits for some time owing to the fact that he was a sufferer from dyspepsia and dropsy.

BEST LINE TO THE WEST

Superb Dining Car Service

As long a time as David reigne i, so long has the Chicago, Rock Island & Pacific Railway run trains westward from Chicago.

The Rock Island is foremost in adopting any advantage calculated to improve speed and give that luxury, safety and comfort that popular patronage demands. Its equipment is thoroughly complete with vestibuled trains, magnificent dining cars, sleepers and chair coaches, all the most elegant, and of recently improved patterns. Faithful and capable management and polite, honest service from employes are importent items. They are a double duly—to the Company and to travelers—and it is sometimes a task difficult of accomplishment. Passengers on this line will find little cause for com laint on that ground.

The importance of this Line can be better understood if a short lesson in geography be now recited.

What is the great Eastern termini of the Rock

The importance of this line can be better understood if a short lesson in geography be now recited.

What is the great Eastern termini of the Rock Island Route?—Chicago. What other sub-Eastern termini has it?—Peoria. To what important points does it run trains to the Northwest?—St. Paul, and Minneapolis, Minnesota; and Water town and Sioux Falls, Dakota. To what important Iowa and Nebraska points?—Des Moines, Davenport, Iowa; Omaha and Lincolin, Nebraska. Does it touch other Missouri River points?—Yes; St. Joseph, Atchinson, Leavenworth and Kansas City. Does it run trains to the Foothills of the Rocky Mountains?—Yes; to Denver, Colorado Springs and Pueblo, solid vestibuled from Chicago. Can important cities of Kansas be reached by the Rock Island Route?—Yes; its capital city, Topeka, and a full hundred others in all directions in the State, and it is the only road running to and into the new lands opened for settlement in the Cheyenne and Arapahoe Reservation.

It will thus be seen that a line tapping, as the Rock Island does, such a varied territory, has much in that regard to commend it to travelers, as all connections are sure on the Rock Island, and passengers can rely on a speedy journey, as over a bulk of the system through trains are run, and it has become, and rightly too, the popular Liue.

A very popular train on the Chicago, Rock Is-

and it has become, and rightly too, the popular Liue.

A very popular train on the Chicago, Rock Island & Pacific Railway leaves Chicago, daily, at 10 p.m. It is called "The Bio Five," is only one day out, and passengers arrive at Denver, Pueblo or Colorado Springs early the second morning.

The Rock Island has become a popular Colorado Line, and the train above referred to is Vestibuled, and carries the Rock Island's excellent Dining Car Service.

#### THE GATES OPEN.

The World's Columbian Exposition Ready for Guests.

Nearly Half a Million Persons Attend the Inauguration Ceremonies - A Scene of Splendor-The President Starts the Machinery.

THE GREAT PAIR READY. CHICAGO, May 2—A great achievement, the fame of which has set the world a-ringing, has been accomplished. Before thousands of delighted, enthusiastic spectators who gathered agained, entities as a spectators who gathered at Jackson park, despite the lowering clouds the president of the United States at noon started the World's Columbian exposition and unfolded all the wondrous glories of an art that seems inspired of Heaven, the highest products of man's handleraft and the miracles of nature turned

GOVERNMENT BUILDING.

to the uses of the occasion by the hand of man Around him stood the representatives of gov-ernments that now, for the first time, have oined in manifesting their friendship and admiration for a nation that locks to the rising sun for inspiration. Among them stood the de-scendant of the man whose sturdy faith against misfortune, whose earnestness and whose cour-age cut through the sea the path that led west-ward the pioneers of the new world.

The nature of the opening ceremony was characterized by dignity and simplicity. It was the express wish of the president that the parade and pageantry should be cut down as much as possible, and that he should be permitted to perform the function for which he came west with the sort of simple dignity that sits so well on the president of the United sits so well on the president of the United States. He was escorted quietly to Jackson park and the exposition grounds themselves furnished the rest of the show.

furnished the rest of the show.

Some music by the orchestra, prayer by the chaplain of the national house of representatives, the reading of a poem and the celivery of addresses by the director general and the president were all the features of the very simple and appropriate programme. Then came the real sight of interest. The president, declaring the fair open, touched a button; down tumbled the drapery from the golden statue of the republic, out leaped fluxs of every color from 900 staffs, out leaped flags of every color from 900 staffs

the fountains and the band both played and the great Columbian exposition was formally in-

HOW THE FAIR WAS OPENED. As he stepped out on the platform to declare the world's fair formally opened to the world President Cleveland was greeted by as great a crowd of people as witnessed the dedication ceremonies last October in Manufactures hall. The event was of far greater importance and deeper interest than the one that is passed. Then the exposition was in great part only an anticipation. Now it is a gorgeous reality.

THE INVITED GUESTS.

anticipation. Now it is a gorgeous reality.

THE INVITED GUESTS.

On the platform were scated the specially invited guests of the fair in the following order:

President Cleveland, Vice President Stevenson, Secretary of State Gresham, Secretary of Treasury Carlisle, Secretary of Navy Herbert Secretary of Interior Smith, Secretary of Agriculture Morton, the duke of Veragua, the duchess of Veragua, Marquis de Barboles, Christobel Colon of Aguilers, Pedro Colon y Bertenado, Thomas F. Bayard, Lambert Tree, Maj. Gen. Miles, Admiral Gherardi, Gov. Altgeld, Mayor Harrison, Director General Davis, Director of Works Burnham, President Palmer, President Highbotham, Lyman J. Gage, William T. Baker, Vice President Waller of the commission, Vice President Peck of the

directory, Mrs. Potter Palmer, president board lady managers.

THE CEREMONIES.

All things being in readiness, the following programme was carried out:

Music—Columbian march for orchestra—John

Prayer-Rev. W. H. Milburn, D. D., Washington.
Poem, "The Prophecy," written by Mr. W. A. Croffut, of Washington.

ner.
Address by the director general.
Address by the president of the United

States.
Starting of machinery.
Official reception of the president of the
United States and the officials of the World's United States and the officials of the World's Columbian commission and the World's Columbian exposition by the various foreign commissioners in the Manufactures and Liberal Arts building.

DIRECTOR GENERAL'S ADDRESS.

The following is a synopsis of the address of Director General Davis: He said the exhibitive content of the content o

Director General Davis: He said the exhibi-tion was not the conception of any single mind; it was not the result of any single effort; but it was the grandest conception of all the minds and the best obtainable result of all the efforts put forth by all the peo-ple who have in any manner contribut-ed to its creation. In this connection he praised the work of his co-laborers and of the various chief of departments. Referring

to the expenditure entailed by the various governments he said the government had appropriated about \$5,000,000, the various states a sum in excess of \$6,000,000 and the foreign nations another \$6,000,000. Chicago and its citizens besides contributing \$11,000,000 furnished a loan of \$5,000,000 more. The total expenditures on account of the fair exceed \$100,000,000. He expressed his obligation to the thousands of exhibitors and to the women of the land, and, closing, expressed the hope that the exposition may inaugurate a new era of normal and material progress and a tervent aspiration that the association of the nations here may secure

material progress and a tervent aspiration that the association of the nations here may secure not only warmer and stronger friendships, but lasting peace throughout the world.

THE PRESIDENT'S ADDRESS.

Mr. Davis was liberally applauded during the delivery of his address, but as he took his seat and the burly form of President Cleveland arose and took a step forward, the applause took out with a spoiling the desired. broke out with a spontaneity that was irre-pressible. Mr. Cleveland bowed slightly and smiled and then spoke as follows:
"I am here to join my fellow citizens in the congratulations which befit this occasion. Surrounded by the stupendous results of

of magnificent evidences of American skill and

intelligence, we need not fear that these congratulations will be exaggerated. We stand to-day in the presence of the oldest nations of the world and point to the great achievements here exhibited, asking no allowance on the score of youth. The enthusiasm with which we contemplate our work intensities the warmth contemplate our work intensifies the warmth of the greeting we extend to those who have come from foreign lands to illus

trate with us the growth and progress o human endeavor in the direction of a higher civilization. We who believe that popular education and the stimulation of the best impulses of our citizens lead the way to a realization of the proud national destiny which our faith promises, gladly welcoming the opportunity here afforded us to see the results accomplished by efforts which have been exerted longer than ours in the field of man's improvements, while in appreciative return we exhibit the unit ours in the field of man's improvements, while in appreciative return we exhibit the unparalleled advancement and wonderful accomplishments of a young nation, and present the triumphs of a vigorous, self-reliant and independent people. We have built these splendid edifices, but we have also built the magnificent fabric of a popular government, whose grand proportions are seen throughout the world. We have made and here gathered together objects of use and beauty, the products of American skill and inventor; but we have also made men who but we have also made men who rule themselves. It is an exalted mis-sion in which we and our guests from other lands are engaged, as we cooperate in the inauguration of an enterprise devoted to human enlightenment and in the undertaking we here enter upon we exemplify in the noblest

FISHERIES BUILDING.

sense the brotherhood of nations. Let us hold fast to the meaning that underlies this cere-mony, and let us not lose the impressiveness of this moment. As by touch the machinery that gives life to this vast exposition is set in motion, so at the same instant let our hopes and aspirations awaken forces which in all time to come shall influence the welfare. Its dignitive to come shall influence the welfare, the dignity and the freedomof mankind."

As the president was concluding the final sentence his eyes wandered to the table that was close at his left hand. Upon this was the button the pressure upon which was to start the machinery and make the opening of the exposition an accomplished fact. It was an ordinary form of Victor telegraph key, such as in use in most telegraph offices, except that it was of gold instead of steel, and a button of ivory instead of bone. It rested upon of ivory instead of bone. It rested upon a pedestal upholstered in navy blue and golden yellow plush, and on the sides of the lower tier, in silver letters, were the significant dates 1492 and 1893. As the last words fell from the president's lips he pressed his finger upon the button. A WONDERFUL SCENE

The demonstration when President Cleve-land pressed the key to start the machinery in motion was one long to be remembered. At that same instant the electric fountains in the lagoon began to play, the chimes in Manufactures hall and on the German building sounded the news of the exposition opening, and steam whistles

ELECTRICAL BUILDING tooted all over the grounds. Overhead the flags at the tops of the flagstaffs in front of the platform unfolded and revealed two gilded models of the ships in which Columbus first sailed to American shores. The stars and stripes and the flags of all other nations that top the pikes on every building within view were unfurled. Salutes were fired from the Michigan and from the battleship Illinois, and everything that could make a racket to be heard joined in the great glorification. Nearly 700 men were employed to carry out this in-stantaneous display feature.

stantaneous display feature.

SEEN BY A MULTITUDE.

CHICAGO, May 2.—President Palmer of the national commission telephoned to New York last night that the total receipts for the opening day of the exposition were \$178,00.50. He stated that 357,000 people were admitted to the grounds and paid admission. The number of complimentaries would increase this number to more than half a million.

IN THE EVENING. Last night for the first time the dome of the Administration building donned its electric jew-els. Girding the cornice of each of the two stories which form the pedestal of the dome were gleaming rows of incandescent lamps. From the top of the dome to its base there ran long slim pendants of light, also made of in

of view in the grounds one could see the flash and glimmer of the building in its diamond or-naments. At the end of the basin the peristyle naments. At the end of the basin the peristyle shope back in similar splendor. Along the conice from Music hall to the Casino there ran a cord of jewels, while each one of the pillars forming the colonnade of the peristyle bore a cluster of them. The white lights of the arc lamps fronting the Agricultural building and illuminating the principal avenues threw an added radiance over the scene. The grand court fairly shone in its bath of illumination. Seen from either end the water of the basin was a stretch of swimming light, crumpled at was a stretch of swimming light, crumpled at places by the pressure of the wind. To the north, down the long vista seen from

To the north down the long vista seen from the bridge joining the terrace of the Liberal Arts building to the piazza of the Administration building, the Illinois building reared its heavy head in the shade. Near at hand stood a vision of marble palaces, gleaming in the radiance of the lights along the basin. The snowy arch of the hall of the Liberal Arts, and the alabaster front of the Agricultural building formed the two sides of the parallelogram which Mr. Hunt's glowing dome dominated at one end and the brightly-lit peristyle ruled at the other.

ruled at the other.

WOMAN'S BUILDING DEDICATED.

Witnessed by representative women of the land, the board of lady managers of the World's Columbian commission, officials of the exposition, the president of the United States and several hundred invited guests, the decremeny attending the dedication of the Woman's building that magnificant last them. and speaking by distinguished representatives

of foreign nations.

Missouri building was dedicated with fitting ceremony at 3 p. m. The service was held in the pariors of the building and was

some excellent music and addresses by Gov. W. Stone and others. After the ceremony the doors of the building were thrown open and visitors invited to enter.

CONNECTICUT BUILDING.

The Connecticut state building was formally dedicated in the afternoon. Gov. Morris and staff were entertained at lunch there, provided by Executive Manager Vaill, after which brief dedicatory speeches were made by Gov. Morris, ex-Senator Read and others.

The formal opening of the lowa state building occurred at 2 p.m. A large crowd was in attendance at the ceremony. The music was furnished by the lowa state band. After an address by James O. Crosby, president of the Iowa Columbian commission, Secretary of State W. M. McFarland, as representative of the chief executive of the state, delivered the formal address which threw Iowa's latch-key into the lake and left the doors of the spacious and attractive home open for IOWA BUILDING. of the spacious and attractive home open for all who wish to rest within its ever open and

HALL OF MINES AND MINING. at some length. The building was crowded with visitors throughout the day.

GROUND FIRST BROKEN.

GROUND FIRST BROKEN.

Ground was broken for the first building at Jackson park, that of Mines and Mining, July 2, 1891. One of the most important epochs in the World's Columbian exposition was marked by the dedicatory exercises held in Chicago October 19, 20 and 21. The first day was deviced to a parade of United day was devoted to a parade of United States troops at Washington park and to the inaugural reception at the Auditorium at which Vice President Morton was the guest of honor in President Harrison's place, and which was attended by members of the cabinet, the supreme court, the diplomatic corps and the governors of the states. The second day was marked by a great civic parade in which 80.000 men were in line and a reception to the military. For the last day was reserved the as semblage of representatives from almost every civilized nation on the face of the earth to wit ness the dedication of the buildings. SPENT A MINT OF MONEY.

SPENT A MINT OF MONEY.

The expenditures within the boundaries of Jackson park and Midway Plaisance have reached the enormous sum of \$40,000,000. The exposition company itself has spent \$20,000,000. In addition to that are the expenditures

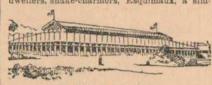

were to speculate further and make some estimate of the total accumulation of wealth which will be bounded by the exposition fence he would arrive at figures which would be nothing short of astounding. Of course, no accurate measure of that aggre or course, no accurate measure of that aggregate figure can be made, but directors of the exposition company say that the remarkable total of \$300,000,000 would not be too large. Never before in the history of the world has such an aggregate of wealth been gathered within the same compass.

The cost of the principal buildings has been as follows:

Manufactures and Liberal Arts...... \$1,727.43 dusic hall Casino and Peristyle. The total number of exhibitors will not be far from 50,000, and exhibits installed from 90,000 to

THE MIDWAY PLAISANCE The Midway Plaisance is a section of the boulevard 600 feet wide, extending 1 mile west of the rear of the Woman's building. It bears the same relation to the exposition that the sideshows have to the circus. German, Irish, Austrian, Turkish, Javanese and Egyptian villages, mosques, kiosks, and pa-godas, menageries, panoramas, casinos, cliff-dwellers, snake-charmers, Esquimaux, a slid-

A CHURCH PANIC.

An Explosion in Fairview, Pa., Causes In-

jury to Several Persons. WILKESBARRE, Pa., April 29 .- During an entertainment at the Methodist Episcopal church at Fairview Thursday night a terrible panic was caused by the explosion of a mixture of powder used to produce colored lights in the tableaux. The church was packed with people. Men, women and children made a mad rush for the doors and trampled on one another in their wild rush to escape. No one was killed outright, but several are so seriously injured that their deaths are probable. Mrs. George Edwards was holding a baby in her arms, which was torn from her and stepped on and its skull fractured. Many were taken out unconscious.

A Young Girl and Her Misfortune. KANSAS CITY, Mo., April 29.-Ella Day, who, when 8 years old, thirteen years ago, was kidnaped by gypsies, and who was not recovered until six years afterward, has again disappeared, and the police believe she has again been kidnaped to obtain the fortune of \$30,000 left her by her grandmother. The girl's father lives somewhere in

THE REGISTER requests all of its friends, who have business at the Probate Court, to send their printing to this office. Reasonable rates only are charged.

THE ARGUS made a most decided improvement last week in excluding all editorial matter.

THE editor of the Times offered us \$50 last week if we would give a complete account of one of those times when a prominent citizen went in and fixed up his policy for him. We concluded first we would take in this contribution, but on second thought we decided that such an exposure might operate to prevent the citizens concerned from doing the same thing over again some time. We always consider the public welfare first.

Ir is to be hoped that the present legislature will provide for the woman's gymnasium. It would be both a gallant and sensible thing to do. Michigan has taken an advanced stand in the matter of the education of its women, a stand that redounds immensely to the honor of the state and to the wisdom of its legislators. The present body has already made a most honorable record in promoting the cause of education. But there is an important interest, that of health, that of the physical basis of success, that has always suffered at the U. of M. Now that this matter is almost provided for it would seem very impolitic not to finish the job; and the young women need this kind of consideration even more than the young men. To the latter it is very important, to the former almost a necessity. Let the present legislature add another great item to their already fine record.

#### THE GAS ORDINANCE.

The legality of Fuel Gas Co's ordinance has been questioned because Mr. Wines, who is a stockholder in the company was a member of the council when the ordinance was passed, and but for his vote the ordinance would not have passed. There was a bare quorum present and all voted yes, Had Mr. Wines refused to vote, a quorum would not have voted and thus the franchise would not have passed. Mr. Wines had a perfect right to vote, he was violating no provision of the charter whatever, and the statement to the [contrary made in the columns 'of another paper of this city is false. Mayor Doty did not sign this franchise nor return it with his objections, and Mayor Thompson qualified about that time and finding these ordinances duly passed| signed them. The question is whether his signature or ex-Mayor Doty's is the legally neces-

Mr. Wines was attacked by the same paper for opposing certain bonds tlast year because aldermen were securities on them. It is specially stated in the charter that such bonds are illegal.

#### THE HOMOEOPATHS.

The meeting in Lansing this week of the State Homoeopathic Medical Society and also of the Alumni of the Homoeopathic department of the University, will probably result in definite action with regard to the recent recommendations of Dean Obetz for the fusion of the two schools of medicine on our campus. Among the members of the Homoeopathic profession in the state at large fusion is regarded as practically suicide for their department. They look on Obetz as a traitor and intend to have him out. In Detroit and elsewhere there is also a feeling that the Homoeopathic profession would be strengthened, if their college was moved to Detroit and connected with Grace Hospital with its \$200,000 endowment. The Alumni of this college, do not wish to see it destroyed either by fusion or by removal, for removal would include the taking of the department from under the control of the regents probably. The alumni are quite likely to regard Obetz as an enemy, and get after him as vigorously as the others. They probably will not sympathize with removal to Detroit. They deplore the present condition of things at Ann Arbor but prefer to strengthen the present establishment. It is possible that the alumni may regard removal as better than fusion-The attaching of the rider to the sixthmill bill was significant of a desire to maintain the department here, and give it force and independence.

#### WHAT IT MEANS.

The council have thrown down the gauntlett to the mayor. War is intended. There are some who say that all this fracas is entirely concerned with the

city attorneyship. They say that a cer- | wise the same shall be in full force and tain gentleman known to have a hunger for that office, who does not regard his recent activity on the losing side during the late local campaign as any bar to honors and emolument under

the new administration, has kicked up

this row in order to pose later as the

great pacificator and reap the reward

of righteonsness, that is to say, the city attorneyship. There are others who

regard the recent council evolution as

inspired by the saloon interest entirely.

These say that the saloon-men intend

to force the present police force on the city by preventing their successors

from being appointed. Nearly everyone subscribes to the statement that

the move was a very ill-advised one.

The council by rejecting Mayor

Thompson's appointments assumes all

responsibility for the executive control

of the city. They practically tie his

hands and say; "We'll be mayor our-

selves." By forcing their own nomi-

nees on Mayor Thompson they relieve

him from all responsibility for any dis-

order that may arise. The marshall

who owes his place to the council and

not the mayor may disobey all com-

mands and laugh at suspension. Is

the council ready to face the majority

#### Rolling Chairs.

Visitors to the World's Fair who are infirm, crippled or simply weary, can do their sight seeing in the various buildings by making use of rolling chairs. A company was granted the right, some time ago, of operating such vehicles, and by May 1 will have 1,600 young, men, chiefly college students, in its employ to push them. The charges to visitors for making use of these chairs will be as follows: For chair carrying one person, 75 cents per hour, 40 cents per half hour; two persons, \$1 per hour, 50 cents per half-hour; one person, when chair is taken for a per-iod of not less than ten hours, \$6 for the first ten hours and 40 cents an hour for the time over ten hours; carrying two persons, \$8 for the first ten hours and 75 cents an hour after that.

The various transportation lines between the central portion of Chicago and the World's Fair grounds will be able to carry upwards of 100,000 people

#### in Immense Circulation.

The Lowell, Mass., Courier recently gave three columns to a description of the magnitude of the business of J. C. Ayer & Co. and its world wide extension There is a very large printing plant and concerning one of the most familiar of several publications the following facts

Ayer's American Almanac is the Ayer's American Almanae is the company's principal and most familiar publication. It is the most popular issue of "yellow-covered" literature known. On this familiar pamphlet' as on the British flag, the sun never sets. In ten languages it is circulated to the number of 18,000,000 annually—a number so large as to be almost inconceivable. It would be impossible to produce such a number without the finest machinery, and so there is a Scott press which turns out 100,000 32 page books a day, and all ready for the binder. Four are issued simultaneously, and just at present the press is running on that number of languages. The work of preparing the almanac necessarily begins long in advance of the date which it bears. Work on that for 1895 is now going on, while almanacs for 1894 are now aiready printed for Australia, South Africa, Chili, Peru and Ecuador. The astronomical tubles are prepared by one of the ablest astronomers in the world, who is a recognized authority in the science, and has had charge of this part of the book since its first

#### A Dainty Bramatic Dish,

The phenomenal success of the faninvariably favorable reception by press and public wherever and whenever presented has been generally accepted as a hopeful indication that the taste of the play loving public has finally been surfeited with the coarser diet of the knock about farce comedy and craves something more substantial and wholesome. To take the place of the trashy specialties, strung together without plan or purpose, and miscalled plays, there could hardly have been served a daintier dramatic dish than the admir .ble comedy by the Paultons, as staged by the master hand of Ben Teal and interpreted by the superb company of his selection. Many of the once most successful farce comedies of the coarser order have been withdrawn this season while "Niobe" still lives, and not in an invariant stars but in the living in an inanimate stone, but in the living and lively appreciation of a discrim inating public. This latest of laugh provoking conceits, which has enjoyed put upon the road in August will reach us on Thursday and can be seen at the Grand Opera House, Ann Arbor.

#### A New Certain Cure for Piles.

We do not intend to indorse any except articles of genuine merit; we therefore, take pleasure in recommending to sufferers from Piles in any form, a prompt and permanent cure. The fol-lowing letters speak for themselves:

Mrs. Mary C. Tyler, of Heppner, Ore., writes: One pkg. of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them

Mis E. O'Brien, Rock Bluffs, Neb., says: The pkg. of Pyramid Pile Care en-tirely removed every trace of itching piles, I cannot thank you enough for it The Pyramid Pile Cure is a new, cersin painless cure for every form of piles. It is safe, sure and cheap. Any druggist will get it for you if you ask

Probate Order.

STATE OF MICHIGAN SS
COUNTY OF WASHTENAW SS
At a session of the Probate Court for the County of Washenaw, holden at the Probate Office in the City of Ann arbor, on Wednesday, the 3d day of May, in the year one thousand eight hundred and interty-three.

decessed. William P. Brown, and Foster Brown, executors of the last will and testament of said decessed, come into court and represent that they are n w ready to render their final account as are n wready to render their final account as such executors.

Thereupon it is Ordered, that Friday, the 26th day of May instant, at ten o'clock in the foremon, be assigned for examining and allowing such account, and that the next of kin of said ward and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the said account should not be allowed.

And it is further ordered that said executors give notice to the persons interested in said estate of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the Ann Arbor, Registers, a newspaper printed and circulated in said county, three success we weeks previous to said day of hearing.

J. WILLARD BABBITT,

#### Jee Jefferson's Home.

Crow's nest the summer home of Joe Jefferson on Buzzard's Bay, Mass., was recently destroyed by fire. Shortly after its completion a writer described it as

"There was a bit of old French a bit of the colonial and a little of modern American in the style of the architecture. There are two icuous towers in the edifice, part ly of stone and partly shingled. By the way, the shingling gives the house its singularly beautiful appearance. The shingles are of cypress brought especially from the dismal swamps in North Carolina. They are of a silvery hue and as time goes on will become a

"There are wide double doors at the front entrance, each one having a handsome stained glass panel One is a life size picture of Edwin Booth as Hamlet, the other a picture of William War-ren as Falstaff. Around the pictures are olive branches and underneath emblematical designs of tragedy and

"As you enter the hall you see in the rear over the stairs the famous thousand dollar flamingo window The design-trat of the flamingo with droop ng neck, standing under rich toliage i termingled with glowing clusters of bananas—is of the best workmanship The idea of a symphony in stained glass was Mr. Jefferson's. The ceiling is a mosaic of cherry and pine.

"To the left a handsome staircase leads to the upper apartments. Mr. Jefferson has put in the balustrades four ancient carved bedposts. The hall is ornamented with costly pictures, articles of virtu and bric-a-brac. Handsome Persian rugs set off the polished floors of all the rooms.

"To the right is the drawing room."

"To the right is the drawing room with bay windows in the tower; ad-joining is the library, which is a secluded nook. Plain panels of American oak form the walls and ceilings. A bronze of "Old Rip" is in the window, and busts of distinguished actors are scattered about. Two large

and your cough may end in something serious. It's pretty sure to, if your blood is poor. That is just the time and condition that invites Consumption. The seeds are sown and it has fastened its hold upon you, before you have that it is near.

it has fastened its hold upon you, before you know that it is near.

It won't do to trifle and delay, when the remedy is at hand. Every disorder that can be reached through the blood yields to Dr. Pierce's Golden Medical Discovery. For Severe Coughs, Bronchial, Throat and Lung Diseases, Asthma, Scrofula in every form, and even the Scrofulous affection of the lungs that's called Consumption, in all its earlier stages, it is a positive and complete cure.

ti is the only blood-cleanser, strength restorer, and flesh-builder so effective that it can be guaranteed. If it doesn't benefit or cure, in every case, you have your money back. All medicine dealers have it.

cabinets, one of fine mahogany, are filled with books. But the most prom-ment object is the marble bust of Mr. Jefferson himself. It is an excllent

"The dining-room is one of the most notable apartments in the house. Mr. Jefferson has put a great deal of brain work into it. Two immense windows, arched, fill up the front, which commands a full view of the sparkling bay beneath and the green and hilly country beyond. The room has a coffered ceiling. The intersecting beams are of oak, and in the center of each penel is the old Dutch plate brought from Holland. In the intersection of the beams are little antique Dutch tiles. This ornamentation gives the room an odd but surprisingly pleas-ing appearance. The walls are of oak and cherry. A magnificent cherry mantel is supported by large dragons."

Preferred Death to Marriage. SAN FRANCISCO, April 29. - J. D. Spencer, Pacific coast agent of the Leggett & Meyers Tobacco company, of St. Louis, was found dead in bed in his room at the Grand hotel Thursday morning. He was to have been married that night to Miss Nellie Wing. It is thought that he committed suicide.

#### LITERARY NOTES.

"The Psychologic Basis of Social Economics" is the subject of an interesting monograph by Prof. Lester F. Ward, as set forth by the author, "The object of this paper is to emphasize the distinction between that system of political economy which is based upon the actions of the human animal and that system which is based upon the actions of the rational man. The former is the prevailing system of the schools, and constitutes the warp of modern individualism. The latter has, from time to time, been dimly foreshadowed by certain writers, but has never taken any scientific form."

Prof. Edward A. Ross, of Cornell University, is the author of a recent monograph entitled "Seligman's Shifting and Incidence of Taxation," published by the American Academy of Political and Social Science, Philadelphia. This paper is a careful resume of the subject of Taxation, taking Prof. Seligman's recent book as a basis for the discussion. Prof. Ross first takes up taxes in general and shows where they fall and where they finally rest after being shifted as much as possible. He then discusses the shifting and final incidence of particular taxes, such as the land tax, license taxes on wages, etc. Price 25c.

#### NOTES AND COMMENTS.

In a certain quarter of London the newsboys are encouraged to save a penny a day. The money is kept for them in a savings bank and the boy who de posits regularly for a month is given one penny "interest" on his money. The bank is the work of a good woman.

The plain truth is good enough for Hood's Sarsaparilla. No need of embellishment or sensationalism. Hood's

Andre Gaertner, founder of the Mechanical museum at Dresden, who was born in 1654, is said to be the inventor of the elevator. In 1717, having become infirm, he made a machine which enabled him to go up and down the three stories of his house.

There's a good deal of guarantee business in the store keeping of to-day It's too excessive. Or too reluctant. Half the time it means nothing. Words—

only words.

This offer to refund the money, or to pay a reward, is made under the hope that you won't want your money back, and that you won't claim the reward. Of course.

So, whoever is honest in making it, and works-not on his own reputation alone, but through the local dealer, whom you know, must have something he has faith in back of the guarantee. The business wouldn't stand a year without it.

What is lacking is confidence. Back of that, what is lacking is that clear honesty which is above the "averge practice."

Dr. Pierce's medicines are guaranteed to accomplish what they are intended to do, and their makers give the money back if the result isn't apparent.

Doesn't it strike you that a medicine.

which the makers have so much confidence in, is the medicine. for you?

The first umbrella was carried in England by a man by the name of Macdonald. The umbrella is a borrowed one. The owner, who had purchased it in China, challenged Mr. Macdonald to carry it publicly in the streets of

Old Lady-Yes, and I'm that lady. Music Teacher-But pardon me, madam, will not your age interfere?

Old Lady-My age? I'm only seventyfive, and I've got a grudge agin my neighbors, and I'm goin' to pay it off by taking lessons on the pianner.-Jury.

There is more Catarrh in this section of the country than all other diseases put together, until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing o cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimon-

The Kangaroo Plague.

The kangaroo plague has always been a great nuisance to the Australian squatters, for on an average these animals consume as much grass as a sheep. It is stated that on a sheep run of 60,000 to 80,000 acres 10,000 kangaroos were killed annually for six consecutive years, and yet their numbers remained very formidable in the locality. In the colony of South Australia hundreds of thousands of kangaroos are slaughtered annually for their skins and the bonus offered by the authorities. The number of these marsupials in New South Wales in 1889 was estimated to be over 4,000,000, and yet about 500,000 kangaroos and 650,000 wallabies were destroyed in the colony in that year.

A bonus of 16 cents for each kangaroo killed is offered in Australia. Hence the colonists are gradually exterminating these native animals. Over half a million skins are annually shipped to England and a large number to North America to be converted into leather.-Hardwicke's Science Gossip.

WHEN BESET BY "Asthma, Golds or Like Troubles"

MEREDITH'S

W. MEREDITH & CO., Sole Proprs. EAST LIVERPOOL, OHIO.

By J. G. BETHUNE.

[Copyright, 1893, by American Press Associa-CHAPTER I.

THE CAREFULLY OBSERVED THE MANNER OF THE DOCTOR. Detective Max Manson uttered an ex-

pression of impaticace.
"This is too bad. I have been away from home for nearly six weeks on that affair in Manitoba, and having worked it up so well that the chief took the trouble to telegraph me his thanks and congratulations I was confident of having a little vacation with Mollie and the baby at home. I was so certain, indeed, that I have telegraphed her on what train to expect me, and now this turns up-confound it!"

The "this" to which he referred was a cipher telegram that he held in his hand. It was his duty to keep them posted at headquarters as to his precise whereabouts, so that it was easy to intercept him at any point. Thus it happened that when within a few hours' ride of his home the following peremptory message

Miss Antoinette Livermore at Ellenville has been robbed of valuable jewelry. Go thither without delay and take charge of the case.

It was a sore disappointment, but Detective Manson had followed his profession long enough to learn to take things philosophically, and by and by his ruffled temper was tranquilized, and he was able to address himself to his new task with his accustomed energy and skill.

A half hour later the train drew up at the junction, and the detective, taking down his grip from the rack overhead, buttoning his overcoat about his athletic figure and "shaking himself together," as the expression goes, stepped out upon the platform and watched the train with a sigh as it swept out of sight around a curve. Then he stepped into a little telegraph station and sent a message to his wife apprising her of the sudden change made necessary in his arrangements. He thought himself warranted in indulging in a slight explosion of wrath over their mutual disappointment.

'It will add a little to the cost of the elegram," he grimly muttered, "but it is a relief and worth all it costs."

The crisp autumn night was closing in when Detective Manson left the train at the small station of Ellenville and made his way to the only inn in the coun-

He carefully observed the manner of the

try town. He expected a letter giving him fuller information, and on inquiry at the postoffice the missive was placed in his hand.

Not until he had eaten his dinner and gone to his room did he open the letter. He found it to the point as far as it went.

Miss Livermore was a wealthy spinster about 50 years of age, who lived alone with her niece, Evelyn Gilder, an orphan. The latter was a most excellent lady, hardly out of her teens, bright, beautiful and accomplished. Naturally she was believed to be the heiress of the wealth of her aunt, who had been in poor health

for a long time. Miss Livermore was the owner of a number of very valuable jewels, heirlooms that had descended to her through several generations and with which nothing could induce her willingly to part. The gem of the collection was an immense pure "pigeon blood" ruby worth more than \$100,000, and with a history which traced it back to a famous rajah of India.

Like all great jewels of the world, the story of the "rajah's ruby" was one of fire, blood, rapine and crime. It had played a prominent part in many fierce struggles between the native chieftains of the Punjab, and at one crisis in its history came near causing a war between two leading nations in the east. Finally, through means which it will not do to inquire particularly into, it came into the possession of Captain Burbank of the royal navy, who when he sailed for England took the magnificent gem with him. This Captain Burbank was an ancestor of Miss Livermore, and from him it tranquilly descended through several generations to her, who was a resident of the sleepy New England town of El-

After imparting these interesting facts the letter of Chief Varick broke off with the instruction to Detective Manson to consult Dr. Henry Maidhoff, the family physician, who would give him all neces-

sary information. Under other circumstances this suggestion would have read strangely, but Detective Manson accepted it as the most natural thing for him to do. No one could be presumed to be acquainted with the family history of the despoiled family to that intimate extent as the gentleman who had ministered to the ailments of the invalid. He was the one of all others to whom he should apply, and the officer decided to go thither before calling at the house to interview Miss Livermore, the victim of the crime, though his inclination was to begin his investigations at headquarters, as it may be termed.

He was fortunate in finding Dr. Maidhoff in his little office and disengaged. He was a small, wiry man, slightly gray, nervous and quick of speech and movement, and with the keenest and most piercing eye that the officer had ever seen in all his experience. It cannot be said that the appearance of the physician

100.00

inspired the visitor with instant conn-

Detective Manson introduced himself and explained that he had called at the suggestion of his employers, who assured him that the doctor would impart valuable information. "I am glad to see you," replied the

physician in his sharp, nervous manner.

'It was I who wrote to your office in New York asking them to detail one of their best officers to trace the gem that was stolen last week."

"Last week!" repeated the officer.
"Why, we are close to the end of the
present week. This is Friday. When did the robbery take place?"

"On Wednesday a week ago." "And when, may I ask, did you write

"Eight days ago." "Why did you delay so long? Hours are worth days at such times."

"One day is not very long, but I see that it would have been better had I been more prompt. Regrets, however, can do no good now. You must remember, too, that the flurry and excitement caused by the funeral naturally interferred with deliberate action."

"The funeral? Of whom?" "Is it possible that your folks did not tell you? Whose funeral would it be but Miss Livermore's?"

"Is Miss Livermore dead?" asked the detective, forgetting himself in his ex-

"We are not accustomed to bury people alive in Ellenville, though it must be confessed that such instances are not

unknown." "I beg pardon, but will you be kind enough to give me the particulars of the robbery?"

"Briefly they are these: Miss Livermore at the time of the burglary was at home alone—that is, with but a single female attendant. She kept this famous ruby with a number of superb diamonds in a safe in the dining room. About midnight of Wednesday of last week she was aroused from slumber by a masked man with a dark lantern at her bedside. You will admit that the experience was enough to startle the bravest person. Consequently when the fellow demanded that she should give him the combination of the safe under pain of instant death in case of refusal she could do nothing less than comply. The burglar opened the safe, took out the "rajah's ruby" and departed without leaving a trace behind.

"You said there were other jewels in the safe. May I ask whether any party

is under suspicion?" Dr. Maidhoff seemed to be disturbed by this pointed question, for if his eyes were sharp and penetrating they were no more so than those of his visitor, who, sitting back in his chair twiddling his fingers in front of his face, looked straight into his countenance while making his inquiries.

"Have a cigar?" abruptly said the doctor, springing up from his chair in front of the grate and taking a half filled box from the shelf. Manson thanked him and accepted one of the weeds and proceeded deliberately to light it with the match which his host handed to him. It need not be said that he carefully observed the manner of the doctor, though appearing not to do so.

"And they are there still. The visitor seemed to have a fancy for rubies only, or rather for this particular specimen He took nothing else.

"But you spoke of Miss Livermore's

"The criminal offered her no violence, for, as I told you, she complied with his demand without question, but the shock of his visit (for what could have been more terrifying to one in her weak, nervous condition?) threw her into a deplorable state. The servant came in great haste for me in the morning, for not until then was the poor woman's condition discovered. Miss Livermore was suffering from an affection of the heart, and despite all I could do survived but an hour after my arrival. During that hour she managed to give me the particulars of what I have just told you, to request that she should be buried beside her mother in her native town of Warhampton, to leave a message for her niece, Miss Gilder, and that is all."

Now that the professional gentleman was on his feet he became more at ease. He took two or three quick turns across the small office, then dropped into his easy chair, crossed his legs, puffed at his cigar and replied to the question of his

"I hardly know what answer to make to your query. For a couple of days after the robbery I did not suspect any I would not have done so even then had I not learned that two suspicious characters were in Ellenville the day before the crime." "Who were they?"

"A couple of ostensible peddlers. They seemed to be East Indians-swarthy fellows, almost as dark as negroes, with white teeth, jet black eyes and hair, fantastic dress and a lot of laces and handkerchiefs, of which they sold quite a number in this town. When I learned of their presence, I wrote at once to Hugh Varick, who is an old acquaintance of

CHAPTER II.

"WATCH HIM!" "You know how such things are managed in a sleepy town like Ellenville," continued Dr. Maidhoff. "I have been a practicing physician here for more than 20 years, and this is the first instance of a burglary that I have known. I informed the chief constable, and," he added with a smile, "he went through a certain investigation, looking exceedingly solemn and wise all the time, with the result of declaring that the crime had been committed by some person or persons unknown."

"What of those supposed East Indians?" "They were traced to the adjoining village of Meadmore, arrested and subjected to an examination."

"With what result?" "Nil. If they were the guilty parties, of course they were cunning enough to hide the ruby beyond all possibility of its being traced."

"They certainly had every opportunity

You have noticed

The interview between the detective

and physician had progressed far enough

for the former to see that prodigious

blundering had marked every step on

the part of the authorities, even if it

could be conceded that any steps at all

had been taken. The fact that Miss

Livermore kept such exceedingly valu-

able jewels in a safe in her own house

was a standing invitation for desperate

men to make just such a visit as had

been made. The wonder was that it

was delayed so long. The safe might

have been sufficiently secure to resist a

regiment of soldiers, and yet so long as

she of necessity possessed the secret of

the combination it could be obtained on

demand precisely as it had been obtained.

Miss Gilder, where is she?"

and the property left by the late Miss

"A young lawyer in this place."

that some houses always seem to need repainting; they look dingy, rusted, faded. Others always look bright, clean, fresh. The owner of the first "economizes" with "cheap" mixed paints, etc.; the second paints with

### Strictly Pure White Lead

The first spends three times as much for paint in five years, and his buildings never look as well.

Almost everybody knows that good paint can only be had by using strictly pure White Lead. The difficulty is lack of care in selecting it. The following brands are strictly pure White Lead, "Old Dutch" process; they are standard and well known—established by the test of warrs. by the test of years:

"Armstrong & McKelvy "Beymer-Bauman" "Eckstein" "Fahnestock" "Anchor" "Morley" "Kentucky" "Shipman" "Southern" "Red Seal" "Collier" "Davis-Chambers"

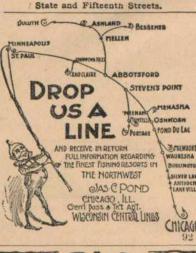

For any color (other than white) tint the Strictly Pure White Lead with National Lead Company's Pure White Lead Tinting Colors, and you will have the best paint that it is possible to put

on a building. For sale by the most reliable dealers in paints everywhere.

If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.

WHEN WRITING MENTION THIS PAPER.

## THE GUILD PINAO AGAIN.

"Mr. Geo. M. Guild, Boston, has received a special silver medal from the Massachusetts Charitable Mechanics Association for the Guild Piano. This is very strong endorsement for the instrument of Mr. Guild's manufacture. The Association is a prominent one and the findings of its judges are highly respected. Mr. Guild's manufactures have won many honors in past years and these distinctions have always been acquired upon the merits of his productions. Inasmuch as there was strong competition in the recent exposition, Mr. Guild must feel elated over walking off with such high honors."

The above is from "The Presto" of Jan. 19, 1893, a leading musical journa published in Chicago.

Reference is made to "strong competition," The GUILD PIANO won its lurels in competition with Chickering, Miller, Kranich & Bach, Haines, Mehlin & Son, Blassius, Stultz & Bauer, and Pease.

THE GUILD PIANO received a silver medal and a Special Award of a Silver Medal Diploma. The improvements in the Guild were heartily endorsed and approved by the judges. We present a list of purchasers of The Guild Upright Piano in Ann Arbor nd vicinity, and could we have obtained all the pianos we wanted, the list could

We Have During the Past Year Been Obliged to Reject Cash Orders for the Guild Piano.

ALL of these pianos were sold by ONE salesman. We are now receiving the pianos more freely, as facilities for their manufacture have been greatly increased

#### THE CITY.

The national association of teachers of dancing meet in Chicago, June 13

The Lackawanna & Western has without doubt gained control of the T., A. A. & N. M. Ry.

The first guild party since Lent at Harris Hall last Saturday evening was a very delightful affair. Secretary Wade lett for Lansing Tues-

day afternoon to look after University interests in the legislature. I. O. G. T. will give a social in their hall on State st Saturday evening next.

Everyone cordially invited. The Baptists of Washtenaw Co. are holding a very interesting and valuable convention in this city this week.

It is reported that \$80 worth of meal checks were sold recently by an Owosso saloon-keeper, to the engineers and firemen of the T., A. A. & N. M. Ry.

C. A. Maynard has a recently arrived Coralloid colt from the mother of Nellie B., who has a record of 2:14. He's a beauty, black with a tiny star.

The detestable house plant and flower thief has commenced his sneaking ope rations. A few evenings since a lady on E. Liberty-st was robbed of her beautiful hyacinths.

Agnes Herndon, the actress, wrote Alfred Hennequin recently that the play that he wrote for her was a great success. It is a comedy-dramae ntitledy "A Girl with a Temper."

C. E. Holden, yardmaster, and D. Potts, fireman, on the Toledo road, at this place were ordered to fire for a "scab" engineer one evening last week. They refused and got fired themselves.

Ex-Secretary of Agriculture Rusk, in testifying before the weather bureau investigating committee, said that he and not Harrington was responsible for those appointments, now said to be unsatisfactory.

The Young People's Society and the Ladies' Missionary Society of the Church of Christ united in giving a very pleasant social last Friday night at the residence of Mr. and Mrs. S. A. Moran at 22 S. Fifth-st.

The final one of the series of chamber concerts given by the School of Music, Thursday, May 4, in Newberry Hall. Modern composers. Mr. Schmaal, pianist and Detroit Philharmonic Club. Admission, 50 cents.

Some fifteen or twenty delegates from Churches of Christ representing Michigan and other states were in the ci y Monday last and formed : n organization preliminary to the establishment of a Biblical Seminary in this city. Full particulars will be given in due time.

A travelling man, A. D. Stone, dropped senseless at the Central depot last Thursday evening: Dr. Kapp was passing and came at once to his assistance. It was a slight attack of apoplexy, but after a night's rest at the Germania, he was able to proceed on his way.

Mr. Wm. L. Frank, the genial host of the Germania Hotel, celebrated the 23d anniversary of his wedding last Friday. The week before he experienced an unusual combination of grief and joy, as he buried a brother and received word that he was a grandfather in the same af.ernoon.

The next entertainment to be given by the Inland League will consist in a concert under the direction of M. Mell Gillespie, Director of the Ann Arbor Banjo and Guitar Clubs, to be given one week from to-morrow night. A full program will be published in this paper next week.

Rev. H. D. Willett will preach a second sermon next Sunday evening at the Church of Christ on "Some Peculiarities of the Disciples." These sermons are given upon request of a considerable number of students and others who wish to know more of the views of these people.

Next Sunday evening a series of lectures will begin in the M. E. church on "Old Testament Bible Stories Re-examined in the Light of Modern Discovery.' Among the subjects to be treated are "Adam and Eve," "The Apple and the Serpent," "Jonah and the Whale." The course will begin with "The Creation."

It was only about two weeks ago that Prof. and Mrs. Rolfe received the present of a magnificent Gordon setter from a friend in Washington. One day last week, while driving on the south Ypsilanti road, Mrs. Rolfe had the great grief of seeing the beautiful animal get entangled in the wheels of the motor and crushed to death.

Samuel Dett had a bad runaway accident last Friday afternoon on N. University-ave. His horse was frightened by comething giving way on one thill letting it drop down. The animal turned around quickly, throwing Mr. Dett out and inflicting some uncomfortable scratches and bruises upon him. She then ran up Washtenaw to GedHighest of all in Leavening Power.-Latest U. S. Gov't Report.

#### ABSOLUTELY PURE

The following Ann Arbor people registered in the Michigan state building on the first two days of the fair: Pres. Angell, C. E. Taylor, Chas. H. Howard, F. E. Mills, Chas. H. Kline, Chas. W. Traynor and Wm. H. Walker. T. H. Buck, W. H. Platt, H. S. Platt, John Duboise, J. H. Wilbur and A. Campbell represented Ypsilanti.

Rev. T. G. Milsted, of Chicago, will preach at the Unitarian church next Sunday morning and evening in exchange with Mr. Sunderland. His evening subject will be "The World's Fair: Live More Abundantly." On Monday evening he will lecture before the Unity Club on "Emerson." Mr. Milsted is the successor of Robert Collyer and a very eloquent speaker.

Sunday afternoon, Mr. Charles Hewett, of Flint, proprietor of the Michigan Artificial Store Co., of Flint, attempted to cross the T. & A. tracks on Felch-st by climbing over the bumpers of a freight train that had blocked that crossing for some time. The train began backing in time to catch his foot between the draw-bars and crushed it to jelly. He was carried some thirty feet before he could extricate himself, when he jumped through to the side on which he desired to land. He was picked up at once and carried to a convenient place and Dr. Herdman called. A part of the foot may be saved.

The parlors of the Church of Christ were crowded on last Monday night to hear Rev. A. S. Carman's lecture on "Some Illusions of Vision," before the Inland League. Mr. Carman illustrated and explained very clearly how easily it was to be mistaken in matters of vision. One of the most practical points made was the illustration, showing how it was possible to see three silver dollars where only two actually existed. There were not a few present who wished the speaker had explained how it might be possible to persuade one's creditors to look at silver dollars from such an angle of observation, and that they would willingly accept what they then saw with "their own eyes."

#### A PURE FOOD BILL.

#### Before The Michigan Legislature,

(Lansing Journal)

"A bill for the preservation of the public health, and to provide against fraud and adulteration in food, drink and drugs," has been introduced in the Legislature at Lansing, by Mr. Newkirk. This bill is intended to prevent the adulteration of food and drink, and should it become a law, would no doubt go a great way toward protecting the iblic against the manufacturers of lum and Ammonia baking powders. The leading medical authorities every where condemn the use of Alum in baking powders.

The Chicago Tribune, referring to the question of legislation on Alum and Ammonia baking powders, says: "It deals in a direct manner with an evil that must be cut down."

Following is a partial list of the names of the brauds sold in this state that have been examined and found to contain either Alum or Ammonia. Many of the Alum and Ammonia powders are labeled and advertised as "absolutely pure" in order to mislead the

public:

"Kenton," "Calumet," "Chicago
Yeast," "Grant's Bon Bon." "Hotel,"
"Forest City," "Silver Star," "Monarch,"
"Rocket," "Home," "Perfection," "Unrivaled," Town Talk," "Loyal," "Snow
Ball," "Climax," "Western Prince,"
"Crown," "White Cross," "Fos Fon,"
"Imperial."

In addition to the above list there is a multitude of brands sold with a prize. It is safe to reject all baking powders sold with a prize, as the tests show they are composed largely of Alum and cost but a few cents a pound. Also refuse any baking powder sold for twenty-five cents a pound, or less; it is sure to con-

Surely nothing but their cheapness could induce the public to experiment with unwholesome baking powders, at the risk of health. Aside from the question of health or wholesomeness, and viewed from the standpoint of economy alone, a pure grape cream of tartar baking powder like "Dr. Price's" from its greater known strength and unquestioned purity will prove more economical to the user in every way.

#### A USEFUL BOOK.

#### Of Information to Parties Contemplating a Visit to the World's Fair. M. W. Hayes, agent of the Michigan

Central has received a book that should be in the hands of every one who contemplates a visit to the Co-lumbian Exposition in Chicago. It is entitled "Homes for Visitors to the World's Fair." The book answers in convenient and useful form the question so many times asked, "Can Chicago furnish comfortable entertainment or the millions of humanity that will flow into the city during the term of the World's Fair?" The list of families who will take roomers and boarders numbers 9,000. In addition a revised list of hotels is given. Numerous con-venient maps will enable everyone to find his whereabouts without difficuldes, then to the cemetery, and then around by way of Volland-st to Washtenaw again. She was somewhat cut up but the wagon was still clinging to her.

der alphabetically arranged streets. By corresponding with these families they can learn of their surroundings, size of rooms, conveniences, facilities for reaching the Exposition grounds and other parts of the city, rates, dates,

The book is on sale at the Michigan Central ticket office, price 50 cents. 60

# DEPARTMEN

(2nd FLOOR, TAKE ELEVATOR.)

We have always had the credit of doing the Lion's Share of the Carpet Business in Ann Arbor, but this season we have made out preparations on a larger scale than ever and expect to do a correspondingly larger business.

Beautiful designs in Axminsters, Moquettes, Velvets, Body and Tapestry Brussells can be found in our beautiful Car pet Room, and the prices at which we are selling these Elegant Goods will please the expectant buyer.

In the handsome new Agra Carpets we have a most exquisite line of Designs and Colorings, while in Ingrains our Stock is Com plete and comprises nearly every idea that may be asked for. Cheaper Carpets in Great Variety tempt those who wish to economize. We keep an immense variety of Rugs in Moquette, Smyrna,

&c., and you will be surprised to see how a few dollars spent in this line will brighten and beautify your home. We have superior facilities for making up Bordered Carpets from our best grades of good and guarantee work satisfactory in every particular. Mr. E. J. Stilson, our Carpet layer, has had a large experience with two of the best Detroit houses, and patrons will find his work superior to that with which they have been familiar in Ann Arbor. In Lace Curtains we carry Irish Point, Swiss and Not-

tingham Goods of every price from 57c to \$12 a pair, while Silk an Brocade Curtains represent the acme of beauty and cost. Embroidered Mulls for Curtains are now very fashionable and we have new designs at 20c, 25c, 30c, 35c, and 40c a yd., and Muslin Curtains at \$3.00 and \$3.50 a pair.

Mattings are growing in popularity each year, and as we give import orders for the goods we are prepared to offer surprising bar gains in these Cool, Neat Floor Coverings. Prices are very much lower than last year, a fact which you will appreciate. We are agents for Jos. Wild & Co.'s American Linoleums, the best made, and are offering an unusually fine line of patterns this spring in these durable goods.

Our line of Curtain Poles and Fixtures is large and attractive prices ranging from 25c up, while in made up Window Shades we offer especial good numbers at 25c, 40c and 50c. We also make up Shades of any size on short notice.

Our entire Second Floor, 22x100 feet is occupied by our Carpet Dept. and the stock carried is the most complete in Ann Arbor.

If you wish the Best Qualities, the Lowest Prices consistent with Good Goods, if you value Artistic and Durable Furnishings, inspec what we have to offer. It will be quite certain to make you a customer
