COLUMBIAN ORGAN CONCERT TO CLEAR THE DEBT.

Unity Club Lecture—Death of Jacob Haller—A Ladies' Evening—The Thompson-Moore Slander Case Again—The Common Council—Trial by Ordeal—Gave 808 Garments to the Needy—Installation of Officers.

Columbian Organ Concert.

The complete program for the Columbian Organ Concert, which we promised to give in full this week has not yet been completed as the committee on program fully expected and promised. So far it has been arranged that addresses will be given by Pres. Angell, Gov. Rich, and General Alger. The musical selections have not all been decided upon. We are assured that they will consist of varied selections from all the best composers. The concert will very likely begin at half-past seven though it may be necessary to delay the opening until eight o'clock in order to accommodate those who will come by special train from Detroit. The musical program, though intended to cover a wide field will not be made unduly long. The entire exercises will not require more than two hours—plenty long enough for one to endure the seats in University Hall even though the angels were to give a concert upon their heavenly harps. It is proposed that all who contribute for the reserved seat tickets shall have their names enrolled in some permanent form as contributors to the purchase of the Columbian Organ. From the present outlook there will be a packed house. In view of this fact, it is important that all who wish to be certain of securing, not only good seats, but seats at all, should secure reserved seat tickets. It should be remembered that these must be purchased and the seats secured some time in advance.

James Kay Applebee.

Perhaps the greatest attraction in the Unity Club Course this year is the four lectures promised from James Kay Applebee of Boston. The first two will be given next week Monday and Tuesday evenings, Dec. 10 and 11. The subject will be Shakespeare's great tragedies "Othello" and "Hamlet." On the following Monday and Tuesday evenings, Dec. 17 and 18, he will lecture upon "George Eliot" and Douglas Gerrold, the Wit of London Punch." Mr. Applebee has visited Ann Arbor three times before, once to lecture in the University Lecture Course, and twice to deliver series of lectures before Unity Club, so that he needs no introduction to Ann Arbor people. Few men have ever spoken in this city who have created such enthusiasm or given such unqualified satisfaction to their audiences. The Chicago times says of Mr. Applebee: "He is an orator of remarkable gifts, who sways his audience apparently without an effort." Says the Boston Globe regarding Mr. Applebee's lecture on "Othello" delivered in Park Theatre: "So interesting was the lecture that scores of people remained standing all the evening rather than miss the lecturer's words. Very seldom does a lecturer meet with such enthusiastic success on a Boston platform."

Death of Jacob Haller.

Jacob Haller, one of our old and well-known German citizens, died at his home, 22 E. Huron st. Tuesday night at six o'clock from congestion of the lungs. Mr. Haller came to Ann Arbor in 1854. He was born Schwenninger, Wurttemberg, 72 years ago. For the past 30 years Mr. Haller had carried on successfully the Jewelry business in this city. He was a skilled workman. In 1851, at the World's exposition, in London, Mr. Haller received several medals for superior workmanship and for fine tools which he had invented. He also secured several medals at Philadelphia in 1876. The funeral services will be held at half-past two this afternoon at the home of his daughter, Mrs. Ottmar Eberbach, on South Fourth ave. Rev. Max Hein will officiate.

Burglary.

Some one broke a light out of the rear window in Elmer's fish market on E. Huron-st. last Wednesday night and secured an entrance. He found about \$8.00 in the till, to which he helped himself. Nothing else was molested. Thursday morning Geo. O'Brandt, colored, was arrested on suspicion with rather strong circumstantial evidence against him. In his trial a few days later he was not held the evidence not being such as would convict him.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

Council Meeting.

A short and harmonious meeting was held Monday night. It was decided to advertise for bids to repair the main sewer on Depot-st., also for bids for the branch of the main sewer in the Fifth ward. The Electric Light Co. was the only bidder for furnishing light for the city for 1895. Their bid was \$73 per light. The finance committee reported bills against the following funds which were allowed.

Contingent fund, \$871.52; sewer fund, \$3,091.83; street fund, \$327.17; bridge, culvert and crosswalk fund, \$374.08; fire fund, \$558.67; police fund, \$281.12; poor fund, \$189.05; water fund, \$1,025; total, \$5,704.29.

Ald. Wagner read the bids for repairing the hook and ladder trucks, and that of Walker & Co. was accepted at \$45.

The report of the city treasurer was read and ordered placed on file. \$222 dog tax had been collected. The amount of money on hand is \$31, 822.71.

The report of the marshal showed that the whole number of arrests made during the month was 21. Drunk 3, violating city ordinances 15, larceny 3. Ald. Brown offered a resolution authorizing the mayor to appoint a special policeman in place of Joseph Kirby at the opera house. This was carried.

Ald. Prettyman moved that the mayor be authorized to appoint a special policeman at the Michigan Central depot without liability or cost to the city.

A Ladies' Evening!

Next Monday night the Inland League will give a special ladies' evening. Short talks will be given by Mrs. Pres. Angell, Mrs. Dr. J. N. Martin and Mrs. Elsie Jones Cooley. Mrs. Angell will take for her subject, Home Life in China. Mrs. Angell having spent between one and two years in that country will speak from personal experience and observation. It is needless to say that this part of the program will be one of more than usual interest. Mrs. Dr. Martin, in company with the doctor, spent last summer in making an overland journey of several hundred miles among the Rocky Mountains. Mrs. Martin will relate, in her entertaining way, some of the interesting experiences one must necessarily have during such a journey. Mrs. Elsie Jones Cooley, who always pleases her audience, will read a story, and her stories are always excellent. Miss Elsa Leibig vocalist, and Miss Minnie Davis, pianist, will furnish music for the evening. Miss Leibig has won a high place in the esteem of all who have heard her singing. The League is confident that this evening will be one of the most pleasant and enjoyable in the course.

About Millet.

The State Agricultural College has recently issued a Bulletin on the subject of Millet, by Mr. A. A. Crozier, who is now a professor in that institution. The paper is an interesting one and should be in the hands of every farmer who is at all interested in the growth of Millet. The Bulletin treats of the following topics relative to this plant: Soil for Millet, Time to Sow, Amount to Sow per Acre, Effect on the Soil, As a Cleaning Crop, Curing Millet Hay, Millet as a Soiling Crop, Millet for Pasture, Seeding with Millet, Is Millet Dangerous to Feed? Feeding Value of Millet, Varieties of Millet. Copies of this Bulletin may be had by addressing the Secretary of Agricultural College, Agricultural College, Mich.

Installation of Officers.

Ann Arbor Chapter, No. 122, O. E. S., held an installation of the officers for the ensuing year and followed the same with a very delightful social. There were fully one-hundred ladies and gentlemen present. The officers installed were Mrs. Mabel K. Pond, worthy matron; Arthur C. Nichols, worthy patron; Mrs. Charlotte E. Fitzgerald, secretary; Mrs. L. Mae Nichols, treasurer; Mrs. Carrie Martin, chaplain; Mrs. Ida L. Moore, conductress; Mrs. Matilda Granger, associate conductress; Mrs. Ella Bennett, Adah; Mrs. Dora Vandawarker, Ruth; Mrs. Mary L. Ball, Esther; Mrs. Adolea Howlett, Martha; Mrs. Mary J. Mingay, warder; Thos. Taylor, sentinel; Miss Nina M. Davison, organist.

The Thompson-Moore Slander Case.

The well-known slander case of Kate L. Moore versus E. B. Thompson was completed at Howell last Saturday. It resulted in a verdict of \$2,500 damages for the plaintiff. This was the third trial. The first resulted in a disagreement of the jury. The second gave Mrs. Moore \$2,500 damages. This was reversed in the supreme court and sent back to Howell for a re-hearing, with the present result. Mrs. Moore was accused by Thompson of stealing certain articles from Mrs. Waldron while the latter was taking treatment here at the hospital, and Mrs. Moore was acting as nurse. The articles were afterwards found at Mrs. Waldron's home, hence the suit for slander.

Professor Thompson's Lecture.

The lecture by Prof. B. M. Thompson before the Inland League last Monday night was one of unusual interest. The professor's graphic description of the method during the dark ages of trying a person accused of any crime by the ordeal of fire or water, that is by compelling him to carry a red-hot iron a certain number of feet, or plunge his hand to the wrist or elbow into boiling water and then be adjudged innocent if he escaped without a blister, was listened to with close attention. The old method which also prevailed, of trial by battle, was minutely explained. The fact that the latter law was still in force in England when our townsman, Ex-Gov. Felch, was nearly twenty years old, was a surprise to almost every one present. The lecture showed that Prof. Thompson had given much time and careful work in its preparation.

The Needle Work Guild.

The first annual meeting of the Needle Work Guild was held Tuesday afternoon at Mrs. W. S. Perry's. There were about 75 ladies present. The meeting opened at 3 p. m. by all the members reciting the Lord's Prayer. Following this Miss E. Cora DePuy read a paper on "The Needle Work Guild of England and America." A short business session followed. The ladies then adjourned to the dining-room to inspect the garments which had been given. There were 808 in all, comprising underwear for men, women and children, pantaloons, vests, coats, ladies' print wrappers, girls' cloaks, flannel skirts, woolen blankets, sheets, pillow cases, night dresses, shoes, rubbers, girls' hats, children's hoods, mittens, etc., etc. Every article was new and many of them of excellent quality. The distribution of these articles was begun Wednesday.

Vital Statistics of Michigan.

A commendable innovation has been introduced by Secretary of State Gardner in the manner of the distribution of certain reports issued from his office. It has been the custom to ship every year to the County Clerks great numbers of the "Vital Statistics," "Joint Documents," etc., which were far in excess of any demands made for them by the public, and which accumulated as useless lumber in the county offices until finally destroyed. This office is in receipt of a copy of the Vital Statistics Report for 1892 directly from the State Department, and County Clerks will be supplied in future with only as many copies as they can actually distribute. The report is an excellent one, well illustrated with maps and diagrams, and will prove of great interest to physicians, health officers, clergymen, and all interested in the important subjects included—population, births, marriages and deaths, and the comparative vital statistics of other states and countries.

Another Ann Arbor Industry.

The Electric Toaster Company is a new Ann Arbor enterprise that has recently begun operations on Depot st. Messrs. Armstrong and Matteson, who are the principal men in the company, declare that they have the finest toaster on earth, and they are making arrangements to carry on the business in an extensive way. Among the many commendable features in this new toaster there are two of especial merit. One is the large base which makes it possible to use the Electric upon the large burners now so commonly used on gasoline stoves. Another very important improvement over other toasters is the arrangement by which the supply of heat can be easily regulated by an adjustable plate, and by the use of a cap plate by which the heat, which would otherwise be lost, is radiated directly upon the bread. This toaster may be found at all the hardware stores. The price is fifty cents. If the business is properly pushed there is a big thing in it for the boys.

A Student Disappeared.

A student in the lit. department by the name of Beardsley seems to have lost his head over his college work, and the morning of the U. of M.—Cornell game he wrote his mother at Elkhart, Ind., that he was going to leave school and that she would not see him again. He attended the football game in Detroit, and since then has not been heard from. He will probably come to himself soon and return to his work.

There will be a W. C. T. U. meeting next Sunday evening at 6:30 o'clock, at 59 E. Washington-st., in the interests of the Reform League. A program of interest has been arranged, and a full attendance is desired. Several other branches of the League will hold services in their respective places at the same hour.

Dr. C. C. Osmond, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

CLEVELAND'S WORDS.

A CHARACTERISTIC MESSAGE SENT TO CONGRESS.

Discusses at Length the Issue of Bonds and Comptroller of the Currency Eckel's "Baltimore Plan."—Our Foreign and Internal Affairs All Serene.

To the congress of the United States:

The assemblage within the nation's legislative halls of those charged with the duty of making laws for the benefit of a generous and free people impressively suggests exacting obligation and inexorable responsibility involved in their task. At the threshold of such a task now to be undertaken by the congress of the United States and in the discharge of an executive duty enjoined by the constitution, I submit this communication containing a brief statement of the condition of our national affairs, and recommending such legislation as seems to be necessary and expedient. The history of our dealings with other nations, and our relations with them at this time, additionally demonstrates the advantage of consistently adhering to a firm but just foreign policy, free from envious or ambitious national schemes and characterized by entire honesty and sincerity.

Our Foreign Affairs.

The president speaks of the firm neutrality of the United States in the Brazilian revolution as having prevented serious complications in that country and as having aided in an early ending of that war. Our negotiations with Chile regarding our claims against that government are still unsettled. A new treaty with China is only awaiting a ratification by that government. In regard to the China-Japan war but little is said by the president, except to remark that he had intended to exert his good offices at the beginning of the trouble in Korea, but the opening of actual hostilities defeated the purpose. Deporting the destructive war between the two most powerful of the nations of the world, and the commercial interests in those countries may be preserved and that the safety of our citizens there shall not be jeopardized, I would not hesitate to make any intimation that our friendly aid for the honorable termination of hostilities would be acceptable to both belligerents. With reference to the relations with France and the death of Carnot and of the czar of Russia; the exclusion of meat and cattle from Germany and the Germanusus tariff against the provision in the customs tariff act which imposes a discriminating duty of 1-10 of a cent per pound on sugars coming from countries paying an export bounty thereon, and the claims that the exaction of such duty is in contravention of articles five and nine of the Treaty of 1823, with Prussia, and recommends the repeal of so much of the statute as imposes that duty. Referring to the Berlin agreement, the president says that the United States will pay to Great Britain \$45,000 in full satisfaction for all claims which may be made for damages growing out of the recovery of the former government. They have signified a willingness to abide by the regulations of the Paris tribunal. Preliminary surveys of the Alaskan boundary and a preparatory examination of the question of protection of food fish in the waters of the United States and the dominion of Canada are in progress. The United States will endeavor to settle the boundary differences between British Guiana and Venezuela. In Hawaii the organization of a government for the islands, the provisional government which followed the deposition of the queen has been announced with evidence of its ability to operate. The recognition usual in such cases has been accorded the new government. Our relations with Japan could profitably be broadened. The people of that empire are seeking closer intercourse with us. A new treaty of commerce and navigation should be promulgated with Mexico.

Prominent among the questions of the year was the Bluefields incident, in what is known as the Mosquito Indian strip, bordering on the Atlantic Ocean and within the jurisdiction of Nicaragua. By the treaty of 1850 between Great Britain and Nicaragua, the former government expressly recognized the sovereignty of the latter over the strip, and a limited form of government was guaranteed to the Mosquito Indians. The so-called native government, which grew to be largely made up of aliens, for many years disputed the sovereignty of the strip, and claimed the right to maintain therein a practically independent municipal government. Early in the past year efforts of Nicaragua to maintain sovereignty over the Mosquito territory led to serious disturbances culminating in the suppression of the government and the attempted substitution of an impracticable composite administration, in which Nicaragua and the alien residents were to participate. Failure was followed by an insurrection which for a time subverted Nicaragua, expelling her officers and restoring the old organization. This in turn gave place to the existing local government, established and upheld by Nicaragua. Although the alien interests arrayed against Nicaragua in these transactions have been largely American and the commerce of that region for some time has been chiefly in their hands, controlled by our citizens, we cannot for that reason challenge the rightful sovereignty of Nicaragua over this important part of her domain. He refers to the banishment of two Americans and their subsequent pardon, by reason of consular intervention, and regrets the failure of justice by which the murderer of Wilson was permitted to escape from Nicaragua. The Nicaraguans have receded from their canal position.

A modus vivendi has been arranged with Russia regarding the sealing question, and Russia is urged to grant reciprocal equality of treatment for our great life insurance companies whose operations have been extended throughout Europe. Unreasonable and unjust fines imposed by Spain on the vessels and commerce of the United States have demanded from the United States during the past twenty years earnest remonstrance on the part of our government. In the immediate past exorbitant penalties have been imposed upon our vessels and goods by customs authorities of Cuba and Porto Rico for clerical errors of the most trivial character in the manifests of bills of lading. Turkey claims the right to expel, as persons undesirable and dangerous, Armenians naturalized in the United States, and returning to Turkey jurisdiction. Numerous questions in this relation have arisen. While this government acquiesces in the exercise of the right of expulsion it will not consent that Armenians may be imprisoned or otherwise punished for no other reason than having acquired without imperial consent American citizenship.

The present government of Samoa has proved a failure, and is only maintained in power by the American, British and German warships. Our participation in the establishment of this government against the wishes of the natives was in plain defiance of the conservative teachings and warnings of the wise and patriotic men who laid the foundations of our free institutions, and I invite the judgment of congress on the propriety of steps by this government looking to the withdrawal from its engagements with the other powers on some reasonable terms not prejudicial to any of our existing rights.

Uncle Sam's Money Matters.

The secretary of the treasury reports that the receipts of the government from all sources of revenue during the fiscal year ending June 30, 1894, amounted to \$376,802,498 22, and its expenditures to \$448,806,758 87, leaving a deficit of \$69,803,259 38. There was a decrease of \$15,622,647 68 in the ordinary expense of the government as compared with the fiscal year 1893. There was collected from customs \$131, \$135,530 62, and from internal revenues \$147,168,449 70. The balance of the income for the year amounting to \$93,815,517 07, was derived from sales of lands and other sources. The value of our total dutiable imports amounting to a large sum, \$145,851,625 less than during the preceding

year, and the importations free of duty amounted to \$379,755,536, being \$1,745,745 less than during the preceding year. The total amount of gold exported during the fiscal year was \$46,898,961, as against \$108,800,444 during the fiscal year 1893. The amount imported was \$72,443,119, as against \$21,174,381 during the previous year. The imports of silver were \$13,286,552 and the exports were \$20,450,450.

The total bounty paid upon the production of sugar in the United States for the fiscal year was \$12,100,000 00, being an increase of \$2,725,078 91 over the payments made during the preceding year. The amount of bounty paid from July 1, 1894, to August 25, 1894, the time when further payments ceased by operation of law, was \$966,135 54. The total expenses incurred in the payment of the bounty upon sugar during the fiscal year was \$120,110 35. It is estimated that upon the basis of our present revenue laws the receipts of the government during the current fiscal year ending June 30, 1895, will be \$24,427,744 44, and its expenditures \$44,427,744 44, resulting in a deficit of \$20,000,000.

On the first day of November, 1894, the total stock of money of all kinds in the country was \$2,240,713,588, as against \$2,204,651,000 on the first day of November, 1893, and the money of all kinds in circulation included in the treasury holdings, was \$1,672,933,422, or \$24 27 per capita upon an estimated population of 68,357,000. At the same time there were held in the treasury gold bullion amounting to \$44,815,177 55, and silver bullion which was purchased at a cost of \$127,776,868. The purchase of silver bullion under the act of July 14, 1893, ceased on the first day of November, 1893, and up to that time there had been purchased during the fiscal year a cost of \$8,715,521 32, an average cost of \$0.7313 per fine ounce. The total amount of silver purchased from the time that law took effect until the present time, was \$168,674,622 53 fine ounces, which cost \$155,931,002 25, the average price per fine ounce being \$0.9244. The total amount of standard dollars coined at the mints of the United States since the passage of the act of February 28, 1873, is \$21,774,468. Fifty national banks were organized during the year ending October 31, 1894, with a capital of \$5,235,000, and seventy-nine, with a capital of \$1,475,000, went into voluntary liquidation. Twenty-one banks, with a capital of \$2,770,000, were placed in the hands of receivers. The total number of national banks in existence on the first day of October, 1894, was 3,756, being forty less than on the first day of October, 1893. The total resources of the banks at the date mentioned amounted to \$9,473,522,930, against \$3,109,563,284 26 in 1893.

Condition of the Army.

The secretary of war reports an effective force of 21,135 officers and 250,000 enlisted men, an apparent decrease from last year, but an actual effective increase of two regiments. Fifteen small posts have been abandoned by concentrating troops at large cities. Three-fourths of the army is stationed west of the Mississippi. The president recommends that the effective force of the army, now about 20,000, be made equal to the legal force, 25,000. The president recommends the authorization of the three-battalion formation of regiments, and the reorganization of the regular army skeleton organization. The president only cursorily alludes to the use of troops during the railroad disturbances of 1894. The enrollment of militia is 2,000,000 men, an increase of 5,343 over last year. The reports of the militia inspectors show a marked increase in interest and efficiency among the state organizations and a continuance of the policy of affording every practical encouragement possible. An important auxiliary to our military establishment is recommended. The skill and industry of our ordnance officers and inventors have, it is believed, overcome the mechanical obstacles which have heretofore delayed the armament of our coasts, and this great national undertaking upon which we have entered may now proceed as rapidly as congress shall determine. The total expenditures for the fiscal year ending June 30, 1894, amounted to \$5,339,009 34. Estimates for the next year call for appropriations of \$5,313,629 55. The president suggests that the rank of brigadier-general be restored in recognition of the services of Maj.-Gen. John M. Schofield to permit his retirement with rank befitting his merits.

The Realm of the Blind Goddess.

Satisfaction is expressed by the president because of the success of the Supreme Court in overcoming the barriers in its business, as reported by the attorney-general. A recommendation is made for an additional judge in the Supreme Court and the Court of Appeals. Congress is asked to consider the abolition of the fee system in compensating federal officers the allowance of a trial of error on behalf of the United States; the establishment of degrees of murder; the Federal Court for the Indian Territory; the reorganization of the United States Railway Co. on a basis equitable to all public and private interests; an appropriation for the erection of two or three prisons for the confinement of United States prisoners.

The Postoffice Department.

The postmaster-general says: The receipts of the postoffice department for the fiscal year were \$75,089,479 04; expenditures, \$84,324,414 15. The postmaster-general suggests the rearrangement of second-class rates so that none but legitimate newspapers and periodicals shall get the benefit of the rate. He recommends an amendment excluding government seeds from free transmission. With these changes the postoffice department can pay its way from its own resources. The total number of postoffices in the United States on the 31st day of June, 1894, was 886, an increase of 1,403 over the preceding year. Of these 3,428 were presidential, an increase in that class of sixty-eight over the preceding year. There are 619 towns are provided with free delivery, 18 other cities and towns entitled to this service have not been accorded it on account of insufficient funds.

The Navy Department.

The report of the secretary of the navy shows very gratifying progress in the construction of ships for our new navy. All the vessels now building will probably be completed during the coming fiscal year. The estimates for the increase of the navy for the year ending June 30, 1895, are large, but they include practically the entire sum necessary to complete and equip all the new ships now in commission, so that our navy will be authorized the appropriations for the naval service for the fiscal year ending June 30, 1897, should fall below the estimates for the coming year by \$12,000,000. The secretary presents with much earnestness a plea for more torpedo boats. The secretary recommends the manufacture of a reserve supply of ordnance and ordnance material for ships of the navy, and also for the auxiliary fleet. Guns and their appurtenances should be provided and kept on hand for both these purposes. The president refers to the present situation of the coast-guard interests in various parts of the world in the past year. Admiral Benham's action at Rio is commended. He recommends the transfer of the coast-guard to the navy department, and suggests that some remedy be provided for the present situation of the coast-guard in the navy. He wants the civil service system continued in navy-yard administration.

The Interior Department.

During the year there were 10,406,109 acres of public land sold, including 23,876 acres of Indian lands. The public domain now left amounts to 600,000,000 acres, excluding 60,000,000 acres in Alaska, and all military reservations and selected railroad lands. Total cash receipts for land were \$2,674,255. Thirty-five thousand patents were issued, and 3,100 more to Indians of lands in severalty. The Indians can't sell their lands for twenty years after allotment. The president recommends that there be more money spent on protecting the government lands, and that a comprehensive forestry system be adopted. He also urges a cessation of the policy of selling lands that ought to be kept as a source of permanent year supply. He also recommends a change in the method of hearing the cases growing out of contests for government lands, which are now practically decided by a board many taken before the local register, who has not even power to issue a subpoena. The president says by a law giving power to certify its cases to the Supreme

HOUSEKEEPERS who are delicate, run-down, or overworked, and those who suffer from back-ache, headache, dragging-down sensations in the abdomen, and many other symptoms of derangement of the female functions can find renewed strength and health by taking Dr. Pierce's Favorite Prescription. For the pains and aches, the periods of melancholy and sleeplessness, nothing can do you so much permanent good as this vegetable compound. You save the doctor's fee, as well as your modesty, by purchasing this "Prescription" of Doctor Pierce. For a great many years Dr. R. V. Pierce (chief consulting physician and specialist to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.) made a specialty of the diseases of women, and from his large experience he was able to compound a "Prescription" which acted directly upon the special internal parts of women. When in doubt as to your ailment write him, it will cost you nothing. A Book, on "Woman and Her Diseases," published by the World's Dispensary Medical Association, Buffalo, N. Y., is of interest to all women. It will be sent for ten cents in stamps.

When women are afflicted with nervousness, irritability, nervous prostration or exhaustion and sleeplessness, in nine cases out of ten the source of the trouble is some displacement, irregularity or derangement of the special internal parts. Dr. Pierce's Favorite Prescription cures permanently such cases as well as that distressing internal discharge from the mucous membrane, inflammation and ulceration.

Brooklyn, Jackson Co., Mich. Gentlemen—I am more than willing to say your most valuable medicine has cured me of female weakness and a catarrhal discharge from the lining membrane of the special parts. I suffered for years with pain in my back, never a night was I free. At your request I commenced treatment with Dr. Pierce's Favorite Prescription. I could not sleep on a mattress; it seemed as though it would kill me. Since taking the medicine I can sleep anywhere; I am perfectly well. I would not be placed in my former condition for any money. Gratefully yours,

ALREADY the question of who will be appointed circuit judge to succeed Judge Kinne should he be nominated for supreme judge, is beginning to agitate some people. Isn't it a trifle early yet to trot out a candidate for Judge Kinne's seat?

A prominent business man, a Republican too, said to THE REGISTER last Friday that the proper thing for the mayor to do at the present time would be to use his utmost influence to secure the appointment of some competent Democrat as street commissioner. The present mayor owes his election, to a great extent, to the independent element among the Ann Arbor democracy who voted for him and good city government and it is nothing more than right that, if a suitable Democrat can be found, and we believe there can be, he should be given the place.

As usual some people outside of Ann Arbor are talking about the Columbian Organ Concert and the purchase of the Columbian Organ as they do of every other Univ. affair, as being an Ann Arbor scheme. It is unfortunate that people cannot take the proper view of such things. The University of Michigan is a state institution, and every thing that goes to build up the University and extend its fame is just so much gain to the whole state. Everybody within the borders of the state should feel that the Columbian Organ is a great acquisition to the whole state and everybody should be proud of it.

The extent of the work which the Y. M. C. A. is doing, in a quiet way, for the young men in our city is such as to deserve great praise. The association has fully seventy active members. So far all expenses have been met and there is a nice balance in the treasury. Their present quarters have proven too small, and they have secured the rooms over Tinker's store on South Main-st., where the society will move the first of the year. The work that is being done is among a class which none of the churches in the city attempt to reach. A large number have been induced to make a new start in life while others who might have gone to the bad have been kept from doing so. There is plenty of work for such an organization in the city, and it should receive the hearty approval and support of every right minded citizen.

THE report is being circulated about the city that one of the most prominent candidates for the appointment as street commissioner, is a man who has so little loyalty to the city that he purchases all of his household supplies in a neighboring city, and even sends the weekly family wash to the same place because he can save a few pennies each week thereby. If such is the case the gentleman in question is certainly not sufficiently interested in this city to deserve any very great consideration at its hands. THE REGISTER does not believe that any man is so especially entitled to this appointment because of exceptional fitness that no one else in the city will compare with him. There are a half-dozen men in town who would make competent street commissioners. From among these one should be selected for this office, who is thoroughly in sympathy with Ann Arbor's interests. The appointment of a man who is not would be a great mistake.

The addition of \$100,000,000 to the national debt within ten months is a fair sample of a free trade "object lesson." It is "a condition" that confronts the people, not "a theory." This addition of debt, during ten months of a free trade administration, is at the rate of \$10,000,000 a month. It has cost the people \$333,333 during each and every one of the 300 days in these ten months to pay for the privilege of threatening protection. It has cost \$13,900 every hour of the ten months; it cost over \$230 every minute; it has cost the country almost \$4 during every second of the ten months. This is only the cost to the people, as represented by the actual increase in the national debt in the sum of almost \$4 during every second of the ten months; over \$230 during every minute; \$13,900 every hour, and \$333,333 every day of that time. The cost of a course of lectures delivered

Dr. Price's Cream Baking Powder

ed by a Buffalo lawyer and a West Virginia college professor is certainly considerably more than it is worth and very much more than the present generation of people will ever pay again.—American Economist.

Congress met Monday. It was, indeed, a gloomy meeting. A large per cent. of the members had recently heard something drop with a dull and heavy thud.

SOME people seem to have become permeated with the idea that the slight reduction in the rate of taxation this year is due to a reduction in city expenses. This is not the case. The reduction in the rate is due to the fact that there is more property in the city that is assessable. A million dollars or thereabout, added to the tax rolls is what makes the lower rate.

A DESERVED TRIBUTE.

The Mancelona Herald, speaking of the candidacy of Hon. Schuyler S. Olds for the U. S. senate has the following to say of Mr. Olds, every word of which is well deserved:

"Of a quiet, unassuming disposition, no one not intimately acquainted with Mr. Olds, would point him out as one of the shrewdest, brainiest men in the State, and yet no one who knows him would think of disputing this assertion. If he is your enemy you have always found him an open, aggressive one; if your friend, you never had a more earnest, sincere and loyal friend. His is a frank, manly and generous nature, and though keen and shrewd, his record, both public and private, is an unmistakably clean one and will bear the closest scrutiny. While not questioning the fitness or capabilities of either of his adversaries or wishing to detract from them in the least. The Herald believes that by reason of his long experience in public life, and of his wide knowledge of men and of the affairs of State and Nation, that Mr. Olds is the logical candidate for the short-term Senatorship, and never did we champion the cause of any man with more earnestness and zeal than we now do his."

It is true that Schuyler Olds is a poor man, at least in the generally accepted term, and it has been said that no poor man can be elected to the United States Senate. But he is a man of ability as well as of honor, and we are not yet ready to believe that the mere fact of his not having accumulated an abundance of this world's riches will act as a barrier or stumbling block to his election. That his worth and capabilities are generally recognized and conceded, is plainly manifest from the large personal following now rallying to his support. Enthusiastic Olds men will be found in every section of the State, and, really, it now looks as though Mr. Olds will return to Washington as Senator from one of the greatest States in this great sisterhood of States."

"The Point on a Line" is the subject which Dr. Markley will talk upon at the S. C. A. next Sunday morning.

CARDS AND A DOSE OF POISON.

How an Englishman and a Frenchman Fought a Duel in Arizona.

"I was once the master of ceremonies at the most sensational duel ever fought," said L. R. Frenison to a reporter for the Cincinnati Enquirer. "In fact, if I had not been present I could not have believed that it could take place in the way it did. I was in Tombstone, Arizona, when a young Englishman, who was prospecting through the country, quarreled with a high-spirited Frenchman. I have now forgotten in what way the trouble arose, but that night I was sitting in the Englishman's room when he received a challenge from the offended party. As coolly as if accepting an invitation to dinner, he said: 'Tell your principal I believe him to be a coward. If he is not he will not object to my method of settling this affair. As the challenged party I have a right to choose my weapons. I choose a deck of cards, a game of seven-up and a dose of strychnine, the looser to kill himself in the presence of the others, the time to-night at midnight.' The Frenchman was game and appeared at the appointed time with his second. We could not interfere, and the game was started, a white powder lying on the table. It was for seven points, and each dealt with as much composure as though it was a mere friendly pastime. At first the Englishman led, and had five points when his antagonist had but two. Three points for the latter made them even and the Frenchman's deal. The Englishman begged, and was given one; then showed the jack and four for high and low, with an excellent running hand had the cards been run. The Frenchman showed the queen and tray, and without a word the Englishman swallowed the poison. It was more than any of us could stand. Even the Frenchman relented, and all of us went to work trying to save the man's life, with the assistance of a doctor who boarded in the house. Fortunately, an overdose had been taken, and in a few days he was out of bed, but looking very pale from the ordeal through which he had passed. The two duellists afterward became friends, and were partners in the cattle business up to a few months ago."

ADDITIONAL LOCAL.

Gov. Rich and wife and the governor's military staff will attend the Columbian Organ Concert.

Frank O'Hearn and Miss Nellie Butler were married yesterday morning at St. Thomas church, Rev. Father Kelly officiating.

The marriage, last Thursday noon, of Miss Bertina Bliss, of this city, to Mr. Fred. L. Keeler, was a very pleasant affair. There were about twenty-five relatives and friends present. The wedding gifts were numerous and valuable. The happy couple left Thursday afternoon for Houghton, Mich., where Mr. Keeler is principal of the High School.

THE REGISTER, this week, received a letter from an Ann Arbor business man condemning the custom so many Ann Arbor people have of going to Detroit to do their trading. His complaint is a just one, but it had one peculiar feature about it. The letterhead used by the gentleman had the imprint of a Detroit printer upon it. He is just the man to kick—himself.

The U. of M. foot ball rustlers defeated Cornell at Detroit last Saturday, by 12 to 4. They are wildly jubilant over the victory, but in our opinion they have nothing to brag of. The Cornellists never played before with a club that had its strong center at the left end. It made them so crossed-up they couldn't tackle, and they kicked everything but the ball.—Adrain Press.

The Ann Arbor Canton, I. O. O. F., chartered the "City of Ann Arbor" last Wednesday and went to Milan where they helped recussitate a former encampment and confer degrees upon eleven new members. It was an all night job, but all report a magnificent time. Milan people provided a 6 o'clock lunch and a splendid midnight dinner. The Ann Arbor Canton will not miss a chance to go again.

Ez Norris was defending Fred Brown for violating the liquor law. It so happened that Pres. Angell was on the panel to try the case. "I object," says the learned Ez, "to Mr. Angell" and the president of the U. of M. had to stand aside. It was the greatest opportunity of Ez's life to command great men and he made the most of it. Even after that move Brown paid a fine.

Mr. and Mrs. George Armstrong, of Hillsdale, have celebrated their golden wedding. They have lived there since 1845.

Edward Pfister, farmer near Harbor Springs, stole two of a neighbors sheep, was arrested, mortgaged his farm to pay the fine and ended his fun by marrying an Indian woman.

The celebrated Crouch murders occurred in Jackson county just 11 years ago. In settling the estate the homestead fell to Jud Crouch and constituted a fortune of more than \$50,000. Rumor says it is all dissipated and a mortgage is now foreclosing on part of the famous old property.

Chicago officers tried to arrest William G. Gill, an Albion student, on the charge of robbing W. T. Robinson at the Windsor hotel in August last. The evidence was very slim, consisting only in a bell boy's statement, and Gov. Rich refused to issue a requisition. Gill still denies the story and is believed at Albion.

Pleasant Family Reunion.

The annual Thanksgiving reunion of the family of Mrs. E. P. Calkins was held last Thursday at Mrs. Calkins' home, 17 S. Ingalls-st. The following members of the family were present: E. I. Arms and family, John Arms and family, Rev. S. Calkins and wife, and Mrs. H. T. Smith and family, of South Lyon; Mr. Frank Bidwell and family, Mrs. Anna D. Birkenstock and daughter, and Miss Ella Bidwell, of Brighton; Mr. J. Harker and family and E. E. Calkins and family, of Ann Arbor, and John Hawley and family, of Detroit. A bounteous Thanksgiving dinner was served by Mrs. Calkins and a day of unusual enjoyment was spent. The family is descended from the family of Israel Arms, who came to Michigan in the early days and settled on a farm in Webster, afterwards moving to the township of Brighton. The lineage of the family extends back to the early days of Connecticut, when the Arms were prominent in the religious life of the old state. Rev. S. Calkins is now engaged in writing a history of the family.—Courier.

Cheerful Winter Evenings.

Nothing brings so much joy and genuine satisfaction to the fireside as a genial visitor—one that you heartily welcome and are always glad to see. The latch string is always out for The Prairie Farmer, for it always brings a big weekly budget for the entertainment and instruction of every member of the family. It has, this year, nearly 200,000 readers and admirers. It is brighter than ever, with a host of new writers. Prof. G. E. Morrow is special staff writer. He is a very powerful writer on all agricultural and live stock topics, and his letters will be looked for with much interest. Mr. C. P. Goodrich handles the Dairy in the best possible manner, and he speaks, too, from a life's experience. Waldo Brown, F. B. Mumford, Prof. Thomas Shaw, are among the noted contributors to the Live Stock department. Joseph Moechan and John Wragg are among the more noted writers on Horticultural matters. Chas. Dadant, the best American authority on Bees, writes especially for The Prairie Farmer. The Household department is complete, and the young people are not forgotten. THE REGISTER and The Prairie Farmer may be had for \$1.50 for one year for the two.

"FOUR-TRACK SERIES" ETCHINGS.

The Unexampled Offer of the New York Central. Art lovers will find one of the best bargains placed before the public for many a month in the offer of the Passenger Department of the New York Central, to sell at a merely nominal figure a collection of etchings, which have become famous all over the country as the "Four-Track Series." The titles of the etchings are "The Washington Bridge," "Rock of Ages, Niagara Falls," "Old Spring at West Point," "Rounding the Nose, Mohawk Valley," "No. 999 and the Dewitt Clinton," "The Empire State Express," "Horse Shoe Fall, Niagara," and "Gorge of the Niagara River." These etchings are all printed on fine plate paper, 2 1/2 x 3 1/2 inches, and the absence of any objectionable advertising feature renders them suitable for framing and hanging in one's office, library or home. Copies may be secured at the office of W. B. Jerome, General Western Passenger Agent, 97 Clark Street, Chicago, for 50 cents each, or will be mailed in stiff tubes, secure from injury, to any address, for 75 cents each, or any two of them to one address for \$1.30, or any three or more ordered at one time to one address, 60 cents each, in currency, express or postal money order. Miser Murdered for Money.

Michael Goyt, aged 82, who lived alone in Locke, northwest of Williams, was found lying on his bed with his head crushed in. A club covered with blood and hair was found near by and was evidently the instrument used by the murderer. Goyt worked a small farm and was fairly successful and was reputed to be worth a considerable sum of money. As he never deposited in the banks it was always supposed that he kept it about the house. This fact was the probable motive for the crime as no money was found after a strict search by the neighbors.

Flint Mill Burned a Third Time.

For the third time in its history the Thread flouring mills at Flint went up in smoke. The fire was discovered in the second story of the building and two hours later the structure was a mass of blazing ruins. The building was completely gutted and the new machinery with which it was equipped found lodgment among the ruins in the basement. The grain elevator which formed part of the structure contained ten carloads of wheat all of which was roasted or ruined by fire and water. About 50 barrels of flour were saved. Two men were severely injured.

Frozen to Death While Drunk.

The remains of Harry Johnson, a Finlander of Ludington, were found in a rowboat at the southeast corner of Pere Marquette lake. The body lay face down in the boat with the face frozen. The boat was half full of ice, and the head and legs of the man were frozen in this. It is supposed that he started to cross the lake, but, having done a little drinking, lost his way and died from exposure.

Farmer Killed by a Train.

David Zoll, a farmer of Montecrey, Allegan county, with a load of potatoes, was struck while crossing Seventeenth street, at Holland, by the Chicago & West Michigan fast mail; his skull was crushed and his shoulder broken. He died at the depot while being transferred from the train to the platform.

An Old Soldier's Sad Death.

Angus McConachie, an inmate of the Soldiers' Home, was found dead on the river bank, near Grand Rapids. He was drunk when last seen at a road house, and it is supposed fell into the river, which is only three feet deep, and was able to pull himself to shore only to perish from exposure.

The 16-months-old daughter of W. E. Cowden, at Galien, was suffocated by being left in a close room where there was a coal stove, which generated gas, causing suffocation.

The body of an unknown man was found on the railroad tracks near Bronson. Life was extinct and the body was horribly mutilated. The man had evidently been struck by the cars.

Going home from a Polish dance at Grand Rapids, Albert Wosinsky was attacked by two men. He drew a revolver to defend himself and shot himself in the leg. His assailants escaped unharmed.

There is a scarcity of laborers in the upper peninsula, and it is said that the lumber operators are finding it difficult to get all the men they want. Considerable work will be done this winter in the pineries.

The '95 lists of the University at Ann Arbor have decided to purchase a bronze bust of President Angell and place it either on the campus or in the art gallery. The unveiling ceremony will commemorate the 25th year of President Angell's administration.

The village council of Lake City passed a resolution bonding the village for \$2,000 as a bonus to M. O. Walker, of Mecosta, to erect a \$5,000 grist mill, which will have a capacity of 30 barrels of flour per day. The building of the mill will begin at once.

What may prove to be one of the most valuable coal finds of recent years near Saginaw has been discovered in Albee township. It is on the property of the Albee Coal company and the work of developing the find will begin at once. It was struck 55 feet below the surface.

LITERARY NOTES.

The Review of Reviews for November, in its editorial department ("The Progress of the World") has some suggestive paragraphs bearing on the present attempts at "municipal housecleaning" in the great cities of New York, Chicago and San Francisco, and takes the occasion to emphasize certain lessons to be learned from European municipal experience.

New England Magazine for 1895.—Some important illustrated articles which will appear in early numbers are, Old Milk Street, by Hamilton A. Hill; Round About Monadnock, by Dr. Edward Emerson; Horace Mann, by Frank A. The leading article of the November Eclectic Magazine is Mr. Gladstone's "True and False Conceptions of the Atonement," Mme. Caillard's "Spirit and Matter," "What Evolution Teaches Us," in which the writer, Mr. Lawrence Irwell, compares the popular idea of evolution with its true meaning, "The East End and Crime," an altruistic article by the Rev. A. Osborne Jay, and a review of Prof. Drummond's now famous "Ascent of Man"—these are among the more serious numbers in the magazine. Published by E. R. Pelton, 144 Eighth Street, New York. GRAND OPERA HOUSE.

Taking a Snap Shot at the Start.

Monday, Dec. 10.

At the Lyceum—"The Great Brooklyn Handicap." The latest of the race track plays, "The Great Brooklyn Handicap," from the pen of Miss Alice E. Ives, a former resident of Detroit, was presented at the Lyceum last night to an audience made up mainly of friends of the author and the manager, who is also of Detroit.

The play is distinctly a melo-drama. It has the melodramatic equipments both in characters and scenery. There are several villains, a thief, an unlucky hero altogether too innocent of the ways of the world a tramp, a waiter, some horses, a race track, some cable cars, some pickaninies and startling climaxes, distributed all through the five acts. It was enthusiastically received last night, and the manager, who is also the hero, was called several times last night before the curtain.

GRAND OPERA HOUSE.

Saturday Night, Dec. 8.

"Killarney on The Rhine" as presented by J. E. Toole and his excellent company, is sure to be one of the big successes of the present season. It was presented at the Academy of Music last evening to a large audience, and from the rise of the curtain until its fall on the last act there was nothing but applause.

Mr. Toole himself was seen in the principal role, that of Conrad, and he may feel very highly flattered at the reception he received. He sang some new songs last evening, which completely captured the house, and as for his acting, he is decidedly capable of filling the place left vacant by the late Joe Emmet. The support extended the star was more than adequate. Miss Alida Cortelyou is a painstaking actress, who assumed the role of Rosa in a manner which left nothing to be desired. Miss Minnie Jarboe, a decidedly fetching little actress, was seen in the soubrette part of Eily, and she had the house with her.

The work of John Doud, as Reginald Carey, was a finished piece of acting, and he comes in for a share of the honors of the evening. Chas. Brandon did good work as Larry Kernan, as did also Jay Hunt as Captain Fitzsimmons. The rest of the parts were in competent hands. In all, "Killarney" is a very strong attraction and is deserving of all the success it is receiving. It will be presented again this evening and to-morrow matinee and evening.

If all wives and mothers could fully realize how apt each one is at all times to be benefitted by the protection and support of themselves and their children, they would be more fully able to appreciate the real benefits of a life insurance policy. As an investment it is as safe and profitable as a savings bank while in case of accident or fatal illness the return is much larger. Persuade your husband to lay by something in a life insurance policy and be protected in case of misfortune which sickness or accident may bring. A policy in the old reliable New York Life Insurance Company is unequalled for protection and investment.

At an official meeting last week the school board adopted a new series of readers, the Normal, in place of Swinton's which have been in use the past twelve or fifteen years. The new readers will be used in all grades from the 1st to the 5th inclusive, and will be furnished by the book-dealers in exchange for the old books, dollar for dollar, thus entailing no additional expense.

No occasion for uneasiness, "Is that your umbrella, sir?" inquired the stranger in the brown suit, hurrying after the stranger in the drab suit who had just got off the train.

"My dear sir," answered the other, "there need be no formalities in this case. We both saw it in the vacant seat at the same time. You got it first. I see it is a gold-handled affair and I congratulate you. Good day!"

A COLLEGE LIFE.

Thrilling Adventures of Timber Hunters in North Carolina Mountains. If you want to see primitive life, such as Daniel Boone lived, where the loom and spinning-wheel are going all day, log cabins wheeling with lean dogs and fat children, where every man carries a rifle to store or church and where crime is unknown, go to the western part of North Carolina. Of all Southerners there are none more manly and straightforward than the Tar Heels.

So says a Philadelphian, James Calder, who has been on a timber hunt in that region. So great is the domestic demand for fine hard woods that very little is exported. Along the North Carolina streams are fine walnuts and wild cherries and some very large curled maples. The principal trouble is transportation, as many of the roads are little better than cattle tracks. "I got a black walnut thirty feet two inches, beautifully curled, and it cost me \$90 to get this hauled forty miles. Cut into veneers the value of this log is not far from \$2,000," said Mr. Calder, to a Philadelphia Times man.

"A few nights before my departure," he continued, "I stopped at the cabin of a widow with two stalwart daughters. In the middle of the night there was a tremendous noise outside, a hog squealing and dog barking. The old woman turned out, shouting: 'Thar's a b'ar a-tacklin' my old sow—catch him, Tigh—come on, gals—pitch in, stranger!'"

"Such a scrimmage I never saw, the moon was up and light as day, the bear had clambered into the pen, seized the hog, and then the dog sailed in, the widow had an ax, one daughter a pitchfork, the other a club and I emptied my revolver into something black, but the widow's ax did the business, and all hands pulled a full-grown black bear out of the pen. The hog and dog were badly mauled, but the women were game and by morning the bear was skinned, hung up and we had steak for breakfast as good as pork, but no better.

"I never saw ducks so plentiful as on the Yaddin. No one hunts small game here save a party that comes annually from Baltimore. As for quail they are everywhere and wild pigeons by the millions. These made into pot-pie, with crust like a brick wall, are a popular delicacy. Otherwise the food—hog and hominy, with coffee—is palatable as lye. "I borrowed a muzzle-loading gun from a friend in Rockford and went for duck, taking with me a queer-looking negro lad as guide. We went through the meadows to the river. Suddenly something crossed the road, a big water moccasin. The boy made one dash and the next moment had the snake in his hands. It was fully five feet long. It writhed and struck at him. I yelled: 'Drop him quick!' He waved it around his head, gave a snap like a whip and the reptile was dead. This was repeated several times, till I got nervous, and declared I would shoot him, and the snake too, if he did not quit it. "I soon got into the ducks and found it mere slaughter. They would fly after every shot about fifty yards and light. I got twenty-eight in two hours and started home with ten. "I was told that the boy was the son of a voodoo near the town, and he could charm any snake. "It looks curious to see half a dozen neighbors meet, each one balancing a long rifle, stocked to the muzzle and the name of the maker, who, by the way, lives in Lancaster, Pa., on the barrel. These men can take 'he head off a squirrel at 100 yards, but at the shooting matches the Winchester carries the prize. Among these people pride of birth and family is more intense than anywhere else in my knowledge, and it's a patent of nobility to have had an ancestor who fought at King's Mountain. "Tried by the standard of common sense, these people are far happier than the same class North. All seem to have enough, and there are but few poor, and these mostly negroes. Any one seeking rest at little expense can find it at the small towns throughout this region, and the society is quite as good as elsewhere with fewer fads. Only keep clear of the war and its records. There is still an undercurrent of sensitive feeling that is easily brought to the surface. As for sport with gun and line, I don't believe it can be surpassed north of Florida.

IT WAS STEALING A RIDE.

A Deadly Tarantula Captured in a Railway Car.

A young man with much excitement, mingled with big beads of perspiration on his face, came into the smoking car of an Erie railway train as it was getting along toward the meadows of Orange county the other day. He carried a dinner bucket in one hand and pressed its lid down with the other. He was the express messenger, says the New York Sun.

"I've bagged something," he exclaimed. "Can any one tell me what kind of a pup it is?"

A big man with long whiskers and hair and a cowboy's hat, who was smoking strong plug tobacco in a clay pipe, said:

"Lemme see it?"

The young man held the dinner bucket at arms' length and raised the lid. The big man looked into the bucket.

"A 'trantuly, by cedar," he said, and took the bucket from the young man.

"A 'trantuly, as sure as guns!" he continued. "A citizen of Bermuda, this chap is. And a beauty, too!"

The big man got out of his seat and passed the dinner pail around among the passengers. It was nearly half full of something that seemed to be all hair and claws and eyes. No one seemed pleased with the sight except the hirsute big man. It was a tarantula, sure enough. A unanimous request was made by the rest of the passengers that the hideous spider be pitched out of a window. But the big man gazed at the deadly thing with undisturbed interest.

"Where did you run ag'in him?" he asked the express messenger.

"Came out of a bunch of bananas in my car," replied the young man. "I cornered him, and he jumped into my dinner bucket and I shut him in. What is he good for?"

"He's a first-class benefactor of the corner when he's to home," said the big man. "If there's any fellow citizen of your'n that you'd like to see have a funeral at his house, just take this stowaway from Bermuda home with you and turn him in your fellow citizen's garden. If your fellow citizen fools around much in his garden you'll see craps on his door in less than two days. The 'trantuly is pizen for keeps to them as hain't been vaccinated for 'trantules. If I was you, young man, I'd take this chap and let your locomotive run over him. A good strong locomotive is about the only thing that kin tackle one o' these chaps and make a success of it."

The big man handed the dinner bucket back to its owner, who took it and carried it away. When the train left the next station he came in and said the train had met the tarantula, and that twenty feet of grease spot and a pint or so of legs and hair had indicated that the locomotive had won.

Scared Out of His Wits.

Canon Bowles became very absent-minded and nervous in his later years, and was always singularly alarmed by thunder and lightning. When a widower he was once the guest of Lady Lansdowne, when a terrific storm came on shortly after the guests had retired for the night. Lady Lansdowne was startled by hearing his bell ringing violently while she was undressing, and she at once sent her own maid to see what was wrong. After tapping at the door, the young woman was admitted, and said: "Mr. Bowles, her ladyship has sent me to see what is the matter. Is there anything I can do for you, sir?" "Oh, yes," said the old gentleman, in a state of abject terror; "I'll give you a guinea if you'll stop here and sleep in the room." The maid went back laughing to her mistress, to whom she told what had occurred, and at breakfast the next morning Lady Lansdowne chaffed the good Canon unmercifully, to the amusement of every one present.—Argonaut.

"To Benefit the Unfortunate Thousands who are Suffering So Keenly."

Benevolent

Unselfishness is always ready to help others. The eagerness shown by hundreds of grateful, unselfish people to give their unsolicited testimonials to the value of Dr. Miles' remedies is not at all astonishing: Dear Sirs:—Seventeen years ago while engaged in writing a sermon, instantly, I had an attack of congestion of the brain, which incapacitated me for nearly two years. I then resumed the duties of my profession, but not without more or less nerve trouble. Five months since my nervous prostration became so severe and violent that at times I fell suddenly and unconsciously on the floor or ground. Preaching, reading and writing, became impossible. I was confined to my room, and my weight was reduced twenty-four pounds. I expected to die in a very short time. Providentially, as I firmly believe, I was induced to give Dr. Miles' nerve remedies a full and fair trial. Two bottles of "The Restorative Nerve," and one bottle of "The Restorative Tonic," together with one box of "The Nerve and Liver Pills," made a perfect cure. All nervousness is gone. I can eat, sleep, read, write and preach. In short, I could not wish to enjoy better health than that which I now enjoy. My youth is renewed like the eagle's. I regard it as my imperative duty, dear sir, to send you this testimonial, though unsolicited on your part, for the benefit of the unfortunate thousands who are suffering so keenly. And moreover, I should be glad if you could arrange to have the same published. Very truly, A. H. LONG.

Dr. Miles' Restorative Nerve is effective because it quickly replaces the waste of the hard-worked nerve and brain tissues, and furnishes, direct, appropriate, and sufficient food for the nerve tissues all over the body.

Dr. Miles' Remedies are the result of twenty years of study and investigation by the great specialist in Nervous Diseases, Dr. Franklin Miles, and are sold on a positive guarantee that the first bottle will benefit. All druggists sell them at \$1.60 bottles, \$5.00, Pills, 25c., or sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Matrimonial Engagements Are Blithely Entered Into In Kentucky.

A Mr. Godwin of Camillo and S. A. Davis of Pelham, Ga., both towns being in the same county, were last week visiting John Burgess of Bowen, in Powell county, this state. Mr. Godwin married a sister of the wife of Mr. Burgess, but she died a few years since, and on Thursday of last week he remarked to his host that he wouldn't mind marrying again if he could get some one to suit him. Mr. Burgess replied that he knew a lady in the town that would suit him and Godwin said he would go and see her. Friday morning he spruced up some and went over to see the lady, who during the day consented to change her name to Godwin. Returning to the home of Mr. Burgess, he informed him of his success, when Mr. Davis, being thus encouraged, and feeling lonely under the circumstances concluded that he would like also to marry. Mine host Burgess, ever ready to accommodate his visitors, told him that he could find him a helpmate also, at the same time stating her name and where she could be found. Saturday Mr. Davis repaired to the residence of the lady named, and after some commonplace talk and an explanation of his mission, she too agreed to wed a Georgian. Preparations were made for the event, and on Monday night the two couples were duly installed into the matrimonial harness. The bridegrooms being much elated at their matrimonial success, set 'em up to the crowd to the extent of a gallon of red liquor each, and quite a jollification was held. On Tuesday morning the preacher was paid his fee for the double services, and he, too, set 'em up to the crowd for a drink all 'round to those in the bar-room.—Hazel Green Herald.

SO LIKE A GIRL!

But Everybody Loves Them Just as They Are.

It was in a Lewiston horse car of the uptown line the other evening, after the performance of "Shore Acres," when everything was crowded. Among the party who entered after the car was crowded were three young ladies. Each of them grasped a strap and stood. One of the girls who lifted her gloved hand had a beautiful bracelet upon her wrist. A middle aged man jumped up and offered her a seat. She declined, waving one of her friends into it. Then a young man who is interested in the Lewiston Y. M. C. A. jumped up and offered his seat. The young lady bowed and told a lady back of her to sit. Then several gentlemen proffered her seats, but she declined them all with a sweet smile. After she left the car she said to her friend, "I'm awfully tired, I can hardly drag one foot after the other." "You ought to be," was the reply, "Why?" "You should have sat down in the car." "Yes, but that was Mrs. S—, and I want to make friends with her." "I know, but even then there were seats offered." "Mabel," said the pretty girl suddenly, "don't be a blockhead. Do you suppose I was going to sit down when my bracelet was showing off just lovely?" Lewiston Journal.

RUBIES AND SAPPHIRES.

The Same Stones, Only Differently Colored.

The finest "pigeon blood" rubies come from Burma, those from Siam or Ceylon being too dark or too pale, and the Montana stones being cloudy and brown. A perfect one carat specimen may cost \$600, while a diamond of the finest water of the same size can be bought for \$125, says the Houston Post. The rich color of the ruby, a color which does not blacken like the blue sapphire by night, is supposed to be due to a trace of oxide of chromium, but this is still a moot point with chemists, and all are not even agreed as to the sapphire's velvet tinge.

This latter stone is much less valuable than ruby, being found larger and more abundantly. Sapphires really present all colors, the pure white variety, when skillfully cut, being difficult to tell from a diamond. This is a deception dishonest jewelers frequently practice to catch the unwary. Both rubies and sapphires are occasionally met with as "star stones"—that is, opaque cabochon-cut gems showing the perfect steely rays of a star. A star ruby is excessively rare, but the sapphire star is fairly common.

Said of Clara Barton.

Clara Barton, the "angel of the battlefield," was among the spectators at the railroad station at Washington when the regiment arrived there from Baltimore, where the first blood had been shed. She nursed the forty men, the wounded victims of the Baltimore mob, and from that day she shared the sufferings and risks of the soldiers in the Union army to the great close. At Andersonville she was able to identify all but four hundred of the thirteen thousand graves of buried soldiers. Brigade Surgeon James L. Dunn, after the battle of Antietam, said the great joy with which the sick and wounded hailed her and her mule team as she arrived with a wagon load of bandages, just as everything had given out, was indescribable. He ends his eulogy by saying: "In my feeble estimation, Gen. McClellan, with all his laurels, sinks into insignificance beside the true heroine of the age—the 'angel of the battlefield.'"

HUNTING RUSSIAN WOLVES.

An Exciting Sport, But Apt to Be Dangerous.

Wolf hunting is probably the most dangerous sport there is. With a servant and a couple of fast horses attached to a sleigh, I have gone out and baited the ground for the brutes on numerous occasions. A fat hog tied to a tree never failed to collect a pack. The trouble was that it drew too many. The wolves would gather to the number of 200 or 300 and devour the pig. Then we would dash upon the scene and the fun would commence. They are as fleet as a deer. To say that they are as fleet as wolves would be more like it. They can outrun the horses every time, and if they are not picked off as fast as they come up you might as well give up the fight and permit yourself to be devoured.

Imagine yourself making a running fight with a band of 300 hungry, maddened wolves and with the knowledge that if one of the fleet little brutes reaches your horses you are a dead man, and you can possibly imagine what a nerve sport it is. It requires a cool head and a good eye. If you miss your mark, you're gone. Your only chance of safety is in keeping your horses up. It is generally a long fight. You look back and see the carcasses of the animals dotting the snow for a mile or two in your wake, and still they pursue you in great numbers. Slowly the pack thins out. Many have dropped bleeding to the ground. Others stop to devour the carcasses. The more that fall the more timid the rest become. When you finally outdistance the pack you have been through the most trying ordeal that the most ardent sportsman could wish.

I consider wolf hunting the most dangerous sport there is. Tiger hunting in India is tame beside it. If you go into the jungles of India to shoot a tiger, you are accompanied by a long retinue. You shoot your prey from the howdah of an elephant. If you miss your victim there are twenty bullets ready for him before he springs. A person might as well go tiger hunting in a menagerie. The only unsatisfactory part of the sport which wolves afford is that after you are all through you haven't anything to show for your efforts. But it is great sport.

NEW STYLE OF DUCK HUNTING.

Sportsmen May Now Paddle After Their Game in a Pneumatic Boat.

Sportsmen whose tastes induce them to seek duck and other water fowl as a quarry should feel particularly happy, says the New York Sun. They are being catered to in a way which promises to render their amusement as comfortable as watching a kitescope fight. The innovation which is to work this transformation among aquatic marksmen is a pneumatic boat which can be carried around as a small parcel when not in use. When fully inflated and ready for active service the new sporting craft presents the appearance of a circular soup tureen on feet. The marksman gets inside, and having adjusted his feet in the rubber boots attached to the boat he has only to paddle away and enjoy himself. The outfit is completed by a storm cape, which protects the sportsman from the chin down and practically incloses him in a waterproof suit. The effect is not very impressive from an artistic point of view, but as an antidote to rheumatism and the other ills which victimize hunters of water fowl it has a practical appearance which looks encouraging. Having shut in everything but his head and gun, the sportsman may still further impose on the watchful game by filling the loupes around the boat with whatever he deems best adapted to screen him from the eyes of his future victims. Foliage from the bank, artificial flowers, old newspapers, or, in fact, anything which is not transparent, will suffice to complete his bower. The outfit, exclusive of the trimmings referred to, weighs only twenty pounds. The boat is made in four compartments and is of rubber duck cloth. The boots, which take the place of a yacht's center-board, are provided with fins, by the expert use of which a duke shooter may attain fair speed in his voyage.

Only for Royalty.

There seems to be a curious restriction existing in Berlin to hamper the designers of monumental sculpture. Only royal personages are allowed to be commemorated by equestrian statues; meaner mortals have to be content with being on foot. Attention has been called to this matter in consequence of the wish expressed by members of the committee responsible for the erection of the national tribute of regard for Bismarck, that their great fellow-countryman should be represented mounted on horseback. Some £60,000 has been collected for this monument, and there is naturally a desire that it should be made as important as possible; but the regulations appear to be immutable, and no departure from the usual custom is to be allowed.

She Was no Beauty.

Into the ear of the horse being driven by a young woman whispered the Voice of the Tempter.

"Why," asked the Voice, "don't you run away with her?"

The horse looked at the Voice in great surprise.

"Just gaze at her face," he exclaimed. "Nobody but a blind man would run away with her."

Saying which the horse fell naturally into a fifty-five minute clip and was soon lost to sight.—Detroit Tribune.
