Republican Convention.

One of the best attended and most enthusiastic Republican conventions ever held in Washtenaw county convened in the court house last Tuesday at eleven a. m. Every voting precinct in the county was represented by a full delegation, and the delegations were made up of the best class of men to be found in the county. The convention was called to order by Mr. H. G. Prettyman, chairman of the county committee. Mr. Prettyman called to the chair as temporary chairman Hon. A. J. Sawyer. Mr. Sawyer made a splendid, though brief address, in which he spoke of the great victory the party had won last fall, and the causes that had led up to it. Mr. C. P. McKinstry was then elected temporary secretary. Committees on credentials, order of business, and resolutions were then appointed as follows:

Credentials-H. W. Newkirk, Scio; A. W. Wilkinson, Chelsea; and F. W. Green, Ypsilanti.

Order of business-A. F. Freeman, Manchester; John Cook, York; and Geo. S. Wheeler, Salem.

Resolutions-H. G. Prettyman, Ann Arbor; Andrew Campbell, Pittsfield; and John Lawrence, Ann Arbor.

The convention then adjourned to meet at one o'clock p. m. local time. The first business of the afternoon session was the report of the committee on credentials. There being no contests and the delegations all filled, the report of the committee was accepted without reading. The report of the committee on order of business was then made by chairman Freeman. After a few slight changes the report was adopted. A. J. Sawyer was then unanimously elected as delegate at large to attend the state convention at Detroit. It was then moved and carried that Judge Kinne be allowed to name the other 18 delegates to the state convention, and a committee was appointed to wait upon the judge to ascertain his wishes in the matter. This committee reported the following delegates all of whom were unanimously elected to represent Washtenaw at the state convention to be held in Detroit a week from today:-

First District-J. F. Lawrence, J. E. Beal, Col. H. S. Dean, J. C. Knowiton, Seth C. Randall, Reuben Kempf, Geo.

Second District-Capt. E. P. Allen, Samuel A. Post, A. F. Freeman, Dr. F. K. Owen, C. P. McKinstry, W. B. Seymour, Frank Jones, Wm. Campbell, W. H. Whitmarsh.

Nominations for a candidate for the office of commissioner of schools being called for, Mr. Wilkinson, of Chelsea, placed in nomination Mr. W. W. Wedemeyer, Mr. Greene, of Ypsilanti, anominated Prof. Lister, of Saline, and Mr. Newkirk did a like duty for Mr. Corbin. A number of seconds were made to the various speeches, the large majority being made for Mr. Wedemeyer. Although intense interest had been aroused over this nomination, everything was carried on in the best of spirits. The first ballot showed very clearly that Mr. Wedemeyer was by far the strongest one of the candidates. The ballot stood: Wedemeyer 85, Lister 56, Corbin 47. The second ballot resulted as follows: Wedemeyer 98, Lister 53, Corbin 42. The success of Mr. Wedemeyer was greeted with hearty applause. The vote was then made unanimous for Mr. Wedemeyer, who was loudly called for. The chair then appointed a committee to wait upon the successful candidate and invite him to make a speech of acceptance before the convention. In the meantime the convention seperated into districts and selected delegates to a convention yet to be called to nominate a successor to the late senator Watts. The delegates selected were as follows:

First District-Maj. Stevens, Nathan Pierce, James E. Harkins, W. G. Burchfield, C. S. Pierce, I. N. S. Foster, Vernor Parker, Robt. Campbell, W. K. Childs and Wm. Judson.

Second District-J. P. Vroman, O. E. Thompson, G. D. Wiard, E. B. Strum, Andrew Campbell, E. W. Croft, W. B.

Brinkler, S. R. Crittenden. Mr. Wedemeyer then made a very neat speech accepting the nomination. He said he had prepared a few remarks in case he was defeated but was wholly unprepared to make a set speech of acceptance. His remarks, however, were to the point, and were well being

The Regents Meeting.

The Board of Regents met last Wednesday and continued in session until Thursday. Although most of the meetings were behind closed doors, it has been learned that the main business was an attempt to settle the row in the medical department between the Gibbes and the Vaughan factions. The Vaughan element seems to have won at every point as it is commonly reported that, in order to keep peace in the department, the chair of pothology held by Dr. Gibbes was abolished and the doctor notified that his services would not be required after the first of next October. Although none of the authorites will admit, that this has been done, none have denied it. It is also reported that another professor in the medical school has indulged in some letter writing to a member of the Board of Regents sin which he bore down very heavily on another of the medical professors. It is reported that when the letter was read before the board, the writer was given to understand that his head depended upon his promptly making an apology to his fellow professor whom he had attacked. It is not yet known whether he has humbled himself or not.

This Takes the Cake.

Geo. Spathelf, the north side butcher, bought a hog of a farmer yesterday. The tail of the pork was frozen so hard that in bringing it into the store from the sleigh it was broken off. The thrifty farmer thereupon procured a needle and thread and sewed the tail on again in order that the pig should weigh heavier. Mr. Spathelf will preserve the tail with the stitches in it as a memnto of the most gigantic case of economy on record.-Times.

Would Slash Salaries.

J. V. Campbell, of Augusta, H. D. Platt, of Pittsfield, and George Mc-Dougall, of Superior, composing the special committee of the state grange on legislation, has presented its report to that body and the report has been adopted. The committee recommended that inasmuch as the purchasing power of fixed salaries is from 15 to 20 per cent more this year than formerly, the law which raised the salaries of the justices of the supreme court from \$5,000 to \$7,000 a year be repealed, and thata general reduction of the salaries in all state institutions be inaugarated. It also recommended an amendment to the constitution to raise the salary of the attorney general to \$3,000 a year, on the ground that this important office now requires fully as much ability on the part of its occupant as does the of fice of supreme court justice.

CONGRESSIONAL NEWS.

SENATE .- 44th day-Senator Carlisle sub-SENATE.-45th day-The session opened with a very breezy altercation between Mr. Mitchell of Oregon, and Mr. Harris, of Tennessee. The appropriation bill was passed after having been before the Senate more than a week, and discussion of the consular and diplomatic bill was begun. House—The debate on the administration bill to authorize the issue of 6500,000,000 gold bonds for the purpose of retiring the legal tenders and treasury notes continued for six hours. The silver Democrats and Populists opposed it outright. Some of the administration Democrats fayored a substitute on the lines of the Carlisle bill, while Mr. Reed, the leader of the Republicans, after a speech charging the present trouble to the deficiency in the revenue, introduced a bill authorizing the secretary of the treasury to sell 3 per cent coin bonds to keep up the gold reserve and certificates of indebtedness, redeemable at the pleasure of the government, to pay current expenses until the revenues shall equal the expenditures. The issue of gold bonds, he said, would discriminate against the coin bond of the past. This bill received close attention during its reading.

SENATE—46th day.—The Democratic majority

SENATE-46th day.—The Democratic majority in the Sepate was eliminated when Clarence D. SENATE—46th day.—The Democratic majority in the Senate was eliminated when Clarence D. Clark, the new Senator from Wvoming, was sworn in to fill the vacancy which has existed for two years. The resolution of Mr. Peffer was agreed to calling on the secretary of the treasury for information as to the kinds of money which had been realized from the sale of bonds. The Hawaiian question in general, and the Hawaiian cable in particular were the main themes of discussion. The diplomatic consular appropriation bill was taken up, and would have been quickly disposed of except for the item of \$500.000 for immedicately beginning able construction between the United States and Hawaii. Mr. Mills made a point of order against the cable proposition, but the decision was withheld until Senators could further debate Hawaii. Mr. Hale presented estimates showing the prospective cost of the cable to be about \$2.500.000. Mr. Platt upheld the cable project, and read early presidential messages of Mr. Cleveland urging congress to provide for the cable. Mr. Platt also maintained that Great Britain would build this cable if the United States did not, thus linking England and Hawaii by commercial ties. Mr. Teller renewed his criticisms of Secretary Herbert's course toward Hawaii, Mr. Gray defended the course of Secretary Herbert and of the administration, and caustically characterized the overthrow of Queen Lil. as a "mean, paltry conspiracy." He declared it was about as commendable as a husband beating a wife. The bill for a new postoffice building at Chicage was passed. HOUSE.—The second day's debate on the administration financial bill in the house, authorizing the issue of \$500,000,000 of of old bonds for the retirement of the legal tenders and treasury notes, was not productive of marked incidents of any kind. Most of the amendments were defeated as rapidly as offered.

SENATE.—47th day.—The laying of a cable to Hawaii was further discussed, but no conclusion was reached and the item remains as a stumbling block to the diplomatic and consular appropriation bill. All of the Republican speeches have been favorable to the cable and it is expected that the entire Republican vote will be given to the appropriation of \$500,000 to begin the work. House—The last hope of financial legislation for the relief of the treasury at the present session of congress went by the board when the House by a vote of 134 to 161 rejected the third reading of the administration bill to authorize an issue of \$500,000,000 gold bonds. This result was reached after three days of spirited, and at times heated debate, and at the end of a seven hours session. When the bill, with the pending substitutes, was reported to the House from the committee of the whole, amendments were offered in rapid succession, most of which were voted down as fast as offered. Both the Reed and Cox substitutes, with the amendments thereto, were rejected. Mr. Springer moved to reconsider the vote by which the third reading was refused, but the motion was laid on the table, 135—123, and the bill was killed, parliamentarily speaking. An analysis of the vote shows that 44 Republicans and 90 Democrats voted for the bill, and 56 Republicans. 97 Democrats and eight Populists voted against it. SENATE .- 47th day .- The laying of a cable to

SENATE.—48th day.—The Hawaiian cable was again discussed at length, and the need of was again discussed at length, and the need of it was emphasized by the reading of a message from the President regarding the sentence of death imposed upon two Americans in Hawali for their participation in the late revolt against the government. The message stated that instructions had been sent to Minister Willis to demand a delay of the execution of sentence until the United States investigates. Another important message was transmitted by the President announcing an issue of gold bonds to the amount of \$62,400.000, under act of July, 1875, to replenish the treasury's gold reserve. HOUSE.—President Cleveland's bond message was read and referred. The Hawalian message caused Mr. Boutelle, of Maine, to ask whether motion to refer the message and dispatches to the committee of the whole was in order in view of their demonstrating a remarkable and striking change of the public policy of our govthe committee of the whole was in order in view of their demonstrating a remarkable and striking change of the public policy of our government since January 19 last when instructions were given to Rear Admiral Beardslee, in which the doctrine was laid down that American citizens in foreign climes at the time of a revolution, and participating therein, forfeited their claim to the protection of the American government. Calls for the regular order were made, and the speaker referred the message to the foreign affairs committee. The bill providing for the immediate relief of the suffering poor of the District of Columbia was passed. The legislature appropriation bill filled the remainder of the day.

SENATE.-49th day.-By the decisive vote of Se to 25 the Senate voted to inaugurate the project of laying a cable from the Pacific coast to Hawaii. An amendment to the diplomatic and consular appropriation bill was made giving \$500,000 for beginning work on the cable and authorizing the President to contract for the entire work estimated to cost \$3,000,000. This was the first practical result coming from the intermittent Hawaiian debate, lasting more than a year, and renewed with intensity the last week in connection with the proposed cable. The diplomatic and consular bill was then passed and culogies on the late Senator Stockbridge, of Michigan, closed the day, House.—The House in committee of the whole, by a vote of 124 to 59, voted to place individual cierks of members on the annual salary roll at the rate of \$100 per mouth. The annual attempt to strike out the appropriation for the civil service commission was made, but was defeated, 32 to 20. A joint resolution was passed to extend the time for making income tax returns to April 15. The remainder of the day was devoted to eulogies on the late Representative Wright, of Pennsylvania.

SENATE.-50th day.-The financial question again came forward when Mr. Hill (Dem., N. SENATE.—50th day.—The financial question again came forward when Mr. Hill (Dem., N. Y.,) presented a resolution defining the policy of the government to pay its bonds in gold in case the parity between gold and silver could not be successfully maintained. Mr. Stewart, representing the radical silver element, submitted a counter resolution declaring that the government had no right to prefer gold to silver. The resolutions went over under the rules. Most of the day was spent on the postoffice appropriation bill, a spirited contest being made against the Senate amendment giving the postmater-general discretion in expending the \$2.200.000 for raliway postal routes. Mr. Davis (Rep., Minn...) submitted resolutions from the legislature of Minnesota characterizing the railroad pooling bill as an effort to "legalize a gigantic trust." Resolutions were presented by which the legislatures of both Kansas and Minnesota expressed themselves in favor of the election of U. S. Senators by direct vote of the people. Mr. Pettigrew (Rep., S. D.,) presented a resolution severely arraigning the management of the Union and Central Pacific Rallroad companies. It directed the President to employ counsel to recover the sums "stolen by the directors." etc. The Senator said the manipulation of these railronds was a "disgrace to American civilization." House—The day was devoted to the legislative appropriation bill. A bill to incorporate the International Pacific Cable company for a cuble from California to the Hawalian Islands and thence to Japan and other points in the Pacific and mainiands of Asia and Australia. was introdued by Mr. Stone, of Pennsylvania.

SENATE.—Nineteenth day.—Senator Thompson's Detroit health board bill suffered a temporary defeat. There was a silm attendance and when the bill came to a vote it failed to pass by a vote of 18 to 6. Senator McLaughlin moved to ronsider the vote; a motion to table Senator McLaughlin's motion was defeated and the bill was then tabled temporarily. Aside from the health bill fight, the most interesting thing in the Senate was the noticeing of two bills for representative reappointment of esting thing in the Senate was the noticeing of two bills for representative reappointment of the state. The irist was by Senator Bialy and provides for the usual number of members. 100, giving Wayne an extra one and taking it from St. Clair county. This is the committee bill and has been carefully prepared. Senator Barnard sprung a bill to divide the state into 64 districts, the minimum allowed by the con-stitution. He thinks the present House is cum-bersome and that better results would be reached by making its membership smaller. Several bills were favorably reported from committees: Giving salaried justices exclusive jurisdiction: with unimportant amendments. reached by making its membership shalter. Several bills were favorably reported from committees: Giving salaried justices exclusive jurisdiction; with unimportant amendments, the general village charter bill; to incorporate Masonic associations; appropriating \$20,000 for monuments for the battleifelds of Chickamauga and Chattanooga. Important bills noticed: Providing for the payment to the state treasurer of all moneys given the regents of the University in trust; to enable regents to take in perpetual trust land or other property; requiring theatres, dance halls, etc., to be closed on Sunday; to prohibit corporations requiring employes to insure in any particular company; to prohibit wearing of unsightly head coverings in places of amusement: for the use of McDowell voting machines in all elections; for an electric lighting plant for the capitol; to limit special assessment system in puolic improvements in ofties; making it unlawful to mesmerize or hypnotize any person without such person's consent. Senator Wheeler offered a joint resolution requesting congress to rescind its recent action in the matter of abandoning Mackinaw Island as a military post. House.—The tight for the establishment of capital punishment in Michigan is to be revived this session. Rep. Fuller, of Delta, introduced a bill to so amend the statutes as to provide for the infliction of the death penalty. In committee of the whole the bill was agreed to giving a \$20,000 emergency appropriation for the mining school; the bill then passed. The bill to incorporate the Leagues of American Wheelmen was agreed to. The bill was favorably reported providing for complete re-registration of voters prior to the spring election. A bill was noticed fixing the charge for the transportation of iron ore in the state at one cent per ton per mile. It does not apply to transportation of iron ore in the state at one cent per ton per mile. It does not apply to transportation of iron ore in the state at one cent per ton per mile.

SENATE.—Eighteenth day.—No session, because of the funeral of Senator Watts at Jackson. House.—A short morning session was held, but it was a dull day. A bill was passed providing for the care and maintenance of insane inmates of the Soldiers' Home in other state institutions. A number of important bills were noticed: For appointment of county scalers of weights and measures; for instruction in vocal music incity schools and teachers' institutes; amending law relative to compulsory education; to raise the bonding limit of Detroit to 3 per cent to enable the city to creed a new municipal building; to provide for election of members of caucus boards in same manner as ward committee men are now chosen; a stringent compulsory education law; authorizing the sale of lands held live years or less, for 50 per cent of the taxes and interest and of lands held for a longer period for 25 per cent of taxes and interest and of laxes held for a longer period for 25 per cent of taxes and interest.

SENATE.—20th day.—The Senate promptly undid its action of the previous day, and without a word of debate the Detroit health board bill, fathered by Senator Thompson, was passed by a vote of 22 to 2. Senator Barnard noticed a bill from the registration of physicians and to regulate the practice of medicine. Senator Kilpatrick floticed a bill creating a state weather service to co-operate with the United States weather bureau. Senator McLaughin noticed a bill for the branding, stamping or placarding of all articles manufactured in whole or in part by convict labor. The judiciary committee reported the House bill providing for the determination by probate courts of the sanity of persons theretofore adjudged insane. In committee of the whole the village corporation charter was considered and several local bills agreed to; also the bill requiring secretary of state. Drivate secretary and executive clerk of governor to give bonds. House—Rep. Flood, of Mason county, noticed a bill providing the death penalty by hanging for murder. The question of the infliction of the death penalty shall be left with the jury which tries a defendant for murder. If the jury finds in favor of hanging the convicted person must remain in custody for one year subsequent to conviction and, in case during that time it appears to the trial judge or his successor that the penalty should not be inflicted, he may commute the sentence to imprisonment for life. A number of other important measures were noticed: A joint resolution for a constitutional amendment injecting the principle of the reference. number of other important measures were noticed: A joint resolution for a constitutional amendment injecting the principle of the referendum into the fundamental law of the state; to prohibit the working of convicts on the contract system and providing that they shall be employed so far as possible in the manufacture of articles for use in the state institutions, and when this work is not sufficient to keep all convicts employed, they may then be employed in the manufacture of such other articles as the board may see fit on the state account system, but the total number of convicts employed in any one line of manufacture shall not exceed 5 per cent of the whole number of persons engaged in that industry in the state; for the submission to juries of the question of contributory negligence in negligence cases; to provide for a lien upon the property of employers in case of judgment for damages for injuries to employes; to prohibit the transportation of prisoners in uncovered patrol wagons; to establish a state board of registration for physicians and to regulate the practice of medicine; to prohibit the insurance of the lives of children.

of medicine: to prohibit the Insurance of the lives of children.

SENATE—21st day.—Among the bills noticed was one by Senator McLaughlin to raise the age of consent to 18 years. Senator Preston has a bill to prevent foreign beneficiary societies from doing business in Michigan. Senator Jewell will introduce the bill passed last session providing for the taxation of legacies. The law was held to be unconstitutional because it did not provide that this tax, a specific one, could go to some educational purpose. At present the unclaimed dead bodies of convict. etc., are sent to the U. of M. for dissection. The Detroit College of Medicine and Michigan College want the cadavers from Wayne county institutions, and a bill to this effect was noticed by Senator McLaughlin. The street car vestibule bill came up in committee of the whole, and a spirited discussion took place. In order to comply with the demand of the street car companies for more time, it was amended to extend the time when all street cars were to be equipped with vestibules to January 1, 1896. The bill was then passed in the committee and now goes to the Senate in formal session. Senator Martins' amendment to the tax law, exempting \$200 worth of property, was also passed in committee of the whole. House—The most important thing in the House was the noticing by Rep. Covell, of Grand Traverse, of a measure providing for the collection, compilation and printing of the general laws of the state. Such a compilation has not been made under direction of the legislature since 1871. The usefulness of the Howell volumes has become in large measure crippled through amendments and changes in the statutes. The whole judiciary committee of the House, is a candidate for the position of compiler. A protest was received from the office-holders of Manitou county against the proposed measure to disorganize that a new compilation is desirable. Lewis M. Miller, clerk of the House, is a candidate for the position of compiler. A protest was received from the office-holders of M

Michigan Populists Meet in Convention at Greenville. - A Terrible Holocaust at Omer in Which an Entire Family Perished.-Cashier Bradley Goes Free.

Populist State Convention. The state Populist convention at Greenville was attended by 252 delegates. J. W. Ewing, of Grand Ledge, was made chairman and V. J. Bower, of Mt. Clemens, secretary. The report of the platform committee, to strike out all of the Omaha platform except the money plank, met some opposi-tion. It was compromised by adopting a resolution denouncing the Cleveland administration and both old parties; demanding unrestricted coinage of gold and silver at a ratio of 16 to 1; the issue of paper money without intervention of banks; to prohibit further issue of government bonds. Resolutions were adopted commending Gen. Weaver and Eugene V. Debs; extending sympathy to labor organizations and inviting them to join the Populist party. Gen. Weaver, R. B. Taylor, Judge Cole, and Mrs. Martha Root of Bay City mada addresses.

Bay City made addresses. The following were nominated on the state ticket: Justice of Supreme Court, R. B. Taylor, Bay City; regents, V. J. Bower, Mt. Clemens and Geo. H. Smith, Benzie county.

Family of Six Burned to Death.

A whole family, consisting of six persons, was wiped out by fire, and nothing is left but a few charred bones in the ashes of what was once a happy home. John Bock lived a mile east of Omer in a comfortable little farm house. The fatal fire broke out in the early morning. The neighbors with pails of water rushed to the scene, but the house was already consumed, and six persons had perished in the merciless flames.

Bock and his wife, the latter having one of the children in her ar us, were found in the main living room. They appeared to have been trying to escape, but had been overcome by the smoke and flames and perished miserably. Bock was a hard-working, steady man. about 35 years of age, and nothing goes to show anything of a suspicious character in the matter. He had lived at Omer about six or seven years, and the family had many friends.

Wreck on the P. O. & N. in a Snow Bank. One of the worst wrecks on the Pontiac, Oxford & Northern railroad happened to a special train out from Cass City, headed by a snowplow and two engines. The snowplow was turned completely around and the rear end placed on the top of a 14-foot embank-ment, which is nearly perpendicular. The engine turned half way around. The fore part of the engine was completely demolished. The second engine was also damaged. The first coach was stove in so as to be practically useless. No one was injured to any extent. There were three men in the snowplow when it was smashed. There were some 35 passengers on board.

A Mother's Shameful Conduct.

Officers from Homer arrested Mrs. Cora Hannahill and Burt Simpson at the Hotel Ruhl at Jackson where they were staying as man and wife. -lilliputian, in fact, are Doctor Pierce's Pleasant Pellets. Dr. R. V. Pierce,

"Pellets" are superior in a great many ways to all mineral waters, seditz powders, salts, castor oil, fruit syrups, laxative teas, and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their secondary effect is to keep the liver active and the bowels regular, not to further constipate, as is the case with other pills. They don't interfere in the least with the diet, habits or occupation, and produce no pain, griping or shock to the system.

Dr. Pierce's Pleasant Pellets cure billousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. These "Pellets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the liver, and arousing to activity all the glandular secretions. Thus they act in nature's own way. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in glass vials, therefore always fresh and reliable.

One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from overeating, they are unequaled.

THE results of the war between China and Japan are likely to be very far reaching and in the end may be disastrous to Japan although so far, the Island Empire seems to be having everything its own way. If the effect of the war is to arouse the dormant patriotism and awake the sleeping energies of China, if it should develop some great man capable of organizing and handling the vast population and immense resources of that great Empire, Japan would cut a sorry and insignificant figure in a contest between them. Practically so, far. the Japanese have had no opposition, especially on the land.

The Chinese in intellectual ability and in solid substantial manly character are far superior to the Japanese and of course there can be no comparison between the two nations. Napoleon, when he invaded Russia won every battle on his way and at last marched the facility with which it can be kept in triumph into Moscow. It would not be surprising if the Japanese even if they reached Pekin were not in as dangerous a position as Napoleon was when he watched the burning Krem-

The death penalty had its origin in barbarous times, when governments had no means of safely looking up and caring for large numbers of criminals. It is the certainty of punishment rather than the extent of the punishment that deters crime. Taking a long series of years for examination it is found that the amount of crime committed depends, not upon the amount or kind of punishment imposed, but upon such conditions as the price of food, the opportunity for employment, the absence of disease, and the general material prosperity of the community. It is to be hoped that the Legislature of Michigan will take no step in this matter. FREE COINAGE OF SILVER.

The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe money, "giving aid and comfort to our country's enemies." To shield the guilty parties, the well authenticated facts, often published, have been vigorously denied.

The Enquirer will continue to expose this unpardonable crime until right and justice are done the people by the full restoration of silver to its old companionship with gold. We need the assistance of the people in disseminating the truth, to which end we invite all in your selection of papers for the coming season to include the Enquirer, that costs only \$1.00 a year. NEWS OF INTEREST AND MORE OR LESS IMPORTANCE.

Queen Liliuokalani Renounces all Claims

Queen Lil Renounces Her Throne-

San Francisco: The steamer Australia has arrived from Honolulu bringing important news. Liliuokalani had ab-dicated her throne in favor of the republic. This is by far the most important outcome of the late rebellion. The document was drawn up by A. S. Hartwell at the request of the ex-Hartwell at the request of the exqueen. It was presented on Jan. 26 to President Dole. The document, according to the wording, was executed freely and voluntarily. The queen's abdication was not expected. In many quarters it is looked upon as a ruse to secure clemency when she appears before the military court. Evidence of a very damaging court. Evidence of a very damaging character has been piled around her. She was arrested on a military warrant, and without delay she was es-corted to the executive building and confined in a room, where she now remains under guard. On the day of her arrest her house was searched with the result of finding the largest amount of arms and ammunition at any time since the recent rebellion beany time since the recent rebellion began. The discovery caused a great deal of indignation, and proved conclusively that the ex-queen was in league with the rebels. A number of damaging papers were found. They showed that ex-Queen Lilluokalani was so certain of restoration that she went so far as to have a new cabinet made out.

Arrests for treason and conspiracy have been numerous. are about 350 men under lock and key. The three leaders all pleaded guilty to open rebellion. The murderer of Charles L. Carter has been found. He is a half white carpenter named Thomas Poole. He admitted to a native rebel that he did the shooting. The trial of the leaders was concluded on the 30th instant but the finding of on the 20th instant, but the finding of the court has not yet been made public. Since the arival of the U.S. steamer

Philadelphia it is learned from trust-worthy sources that U. S. Minister Willis has made objections, both written and verbal, to the powers of the military court now setting. His objection causes much uneasiness to the government.

Chinks Licked at Every Step.

London: A cable dispatch from Wei-Hai-Wei says that the Chinese fleet has practically ceased to exist. The ironclad Chen Yuen and her sister ship, the Ting Yuen, have been sunk and the other vessels of the Chinese fleet are within the grasp of the Japanese. The fight between the Japanese and the Chinese island forts and fleet continued for four or five days, and the former won at every point, al-though the Chinese fought unusually well. Towards the close of the fight the Ting Yuen and Chen Yuen were disabled. They gradually settled disabled. They gradually settled down and foundered amid shouts of triumph from the Japanese both on land and sea. The other Chinese vessels were in distress. The dispatch concludes with the statement that the Japanese are preparing to carry Liu

Saloon for Ministers.

Chicago: The first of the so-called "home saloons" is now in full blast at 69 West Adams street. John A. Nichol and several ladies act as assistants to th barkeeper and a pretty miss plays the piano. Several clergymen dropped in during the opening evening, took their temperance drinks, sampled the free lunch, and went out. With five cents drinks, soup and sandwiches are served. With 10-cent drinks a meal is given. Later on there will be a roof garden. The enterprise is con-ducted by the Home Saloon association and is intended to offset the evil in-fluences of saloons selling intoxicating beverages. The new venture has started out with a boom and another will be opened on Dearborn street at

REVIEW OF TRADE.

New York.—Dun's review of trade says: For a week the confident expectation of the sale of bonds kept back exports of gold. Withdrawals from the treasury amounted to about \$2,000,000, but were mainly for domestic purposes. No bond bill has passed or is likely to pass congress, but the latest bond issue, it is noped, will arrest the outgo of gold. In the two

actually lost \$67,000,000 in gold. Condition of industries presents some points of encouragement; no advance in the prices of manufactured products indicates a better demand. On the contrary iron and steel products have slightly ieclined. In cotton goods there has been a rejuction and the general tone of the market is not encouraging. In woolens the openings of the finer grades for the heavyweight season have brought some increase in business, but not at satisfactory prices. No improvement in prices of farm products, wheat being slightly nigher. Receipts of corn are small and price steady. Fallures the past week were 281 in the United States against 385 last year, and 38 in Canada against 60 last year.

New York.—Bradstreet's trade review says: Extremely low temperature, snow, etc., have visited the greater portion of the country and have had a marked influence by restricting orders received by jobbers in all standard lines. But they have tended to stimulate purchases of seasonable goods. Prices in the main show a favorable tendency, sugar aione of the more important staples having declined. Even cotton has remained firm and wool and coffee unchanged. Pig iron and steel billets steady, though demand is not equal to expectations. Live cattle and hogs firm with an upward tendency. Advances in prices include those for leather, fruits and produce under the stimulus of the cold weather, and wheat, corn, oats, pork and lard. The damage to the Florida orange crop by the freeze was exaggerated. NEW YORK.—Bradstreet's trade review says

Electric planos, which play themselves, the keys, being depressed as though by some un-seen hand, are now being manufactured.

Names of Chinese war Ships.

To the Chinese there is no confusion in the names of their cruisers and gunboats, and if Ting Yuen and King Yuen get mixed by the time they arrive in New York it will not seriously affect the fortunes of war in the China sea. In colloquial Chinese the distinction is preserved by the difference of tone. In the Chinese characters, or ideographs, the possibility of confusion is absolutely nil, for Ching Yuen and Chih Yuen no more resemble each other than do New York and Minneapolis, or than Bunker hill monument resembles the state house. "Ting Yuen" signifies "future security;" "Chen Yuen," "guarding the future." The characters on the other vessels are as distinct in sound, appearance and meaning as these two.

Fighting Fire in China.

When a fire starts in a certain locality in Chinese cities protected by walls extending from one end of the town to the other, a large wooden gate is swung across the street. In this way the fire is confined to definite limits. Generally the fire is uninterrupted until there is nothing left within the inclosure but ashes, and in the ashes the owner must seek his property. He has no insurance methods, and unless helped by his own family is left to start anew. The re-building is not a difficult matter, as there are no foundations or cellars.

A Fine Passage.

A very vain preacher having delivered a sermon in the hearing of the Rev. Robert Hall, pressed him to state what he thought of the sermon. Mr. Hall remained silent for some time, but this only caused the question to be pressed with greater earnestness. At length Mr. Hall admitted: "There "I am was one very fine passage." rejoiced to hear you say so. Pray, sir, what was it?" "Why, sir, it was the passage from the pulpit to the

GOWNS COST \$100 EACH.

Those Worn on Official Occasions by Justices of the Supreme Court.

A justice pays as much for his robe of office as he would pay for a very handsome suit of clothing, says the Washington Star. There is a fixed price for the gown-a price which does not vary with the fluctuations in the duties on silk. One woman has made all the justices' gowns for forty years, and her invariable price for one is \$100. Like the tailors who make a specialty of outfits for officers of the army and navy, she knows just what are the requirements of a justice's gown, cerned about is its fit. The gown must set well across the shoulders, and it should reach from the neck to the heels; but it should not drag on the floor. I say floor, because, except on inauguration day, the justice does not wear his gown out of doors. When he attends an official dinner or reception at the White house, he wears the garb of everyday life; even when he calls on the president on the opening day of the court's session, he goes in the clothes he would wear at the breakfast table. If you visited one of the justices at his home of an evening, you would find a pleasant, rather offhand man, in a frock coat, with none of the solemnity of manner that cloaks the justices when they are on the bench. The supreme court justices are by no means unapproachable. They are, in fact, considered very jolly after-dinner companions and they are in great demand in social Washington. The justice wears his robe only when the supreme court, as a body, is participating in some official ceremony. He may go gowned to a funeral, if it is an official funeral. He wears it at the inauguration of a president, but ordinarily he puts it on in the robing-room in the morning and takes it off in the robing-room at dusk. He does not wear it even in the consulting-room, so there is very little wear and tear on it, and one robe will outlast several suits of clothing. According to the technical descrip-

tion of it, the judge's robe is made of large, straight widths of silk. It is three and a quarter yards wide at the bottom. It has a narrow hem around the bottom and a broad hem down the front. It is guaged at the top to a yoke, which is short on the shoulders and forms a deep scallop at the back. The flowing sleeves are? yard and a quarter wide and reach to the wrist. A justice usually accepts his first gown without question; but as he grows a little older on the bench he is as fussy about the fit of the garment as a young woman with her first ball Having donned their robes with the aid of the old attendantsand they are old enough to be conspicuous even in this city of long service—the justices, at a few minutes before noon, cross the hall to the ante-room of the court. The transit of the justices is a matter of daily interest and wonder to the visitors at the capitol. It is the signal for a raid—a very subdued, dignified raid—on the door of the courtroom, where a doorkeeper sits, solemnly manipulating the swinging door with a cord. Only so many people are admitted to the courtroom, and the number is small. members of the bar. No crodwing of the courtroom is permitted.

COLONEL "BILL" RANDOLPH. He Likes Quall and Shot for Them on a Rising Figure.

If you know anything about Florida you know Colonel "Bill" Randolph. If you don't know him-well, just go down to Florida and ask about him. The Hon. Colonel Smith, late of Florida. now of New York, is authority for the statistics of the Florida liars. According to him there are only three liars in the whole state. Somebody else is one and Colonel "Bill" Randolph is the other two.

Colonel "Bill" Randolph likes quail. He says he is a good shot. He proved it the other day by telling a story. A boy drove into town (down in Florida, of course) with twenty-six live quail in a coop.

"How much do you want for your quail?" shouted Colonel "Bill" Randolph.

"Twenty-five cents apiece." "Tell you what I'll do. You take your quail out one at a time and throw'em into the air. Every one that rises I'll shoot at after he rises. No rise, no shoot. For every bird I kill I'll give you ten cents. For every bird I miss I'll give you fifty cents. How do you like it?" "I'll take you," said the boy, and

he jumped down from the wagon. Then, according to Colonel "Bill" Randolph's story, the boy began to throw the birds and Colonel "Bill" to shoot them.

"Yes, sir," said Colonel "Bill" Ran-

dolph, telling the story, "I shot one after another and got that batch of quail for \$2.50. Saved fifteen cents a bird by buying 'em that way."

"Hold, up, colonel," cried one of his friends, "your story is all right, but your mathematics are wrong. Twenty-six birds, at ten cents a bird, would make \$2.60!"

"Yes, that's so," said Colonel "Bill" Randolph, cool as a fish, "but one bird didn't rise."

GUARD AND CONDUCTOR.

Difference Between Bosses of English

and American Railroad Trains. The guard is found on the station platforms, where he looks at your ticket, opens and closes the door of the compertment, will try to see you well placed according to your class, then hops into his van and goes with the train on your journey. He is by no means the important person that the conductor is in the United States, says Colonel H. G. Prout in Scribner's Magazine, for he has no opportunity to sit with the passengers, to talk politics, or horses, or railroads. He never rises to the rank of captain, as all conductors do in our Southern states. He may become a Knight Templar for all I know, but I never Pittsburg by the police.

Dominick McCaffrey is down on his luck and practically "broke" in Nev with the symbols of that order which so often decorate our own conductors. The Buffalo police have chased the lightweights, Solly Smith and Van of influence in his neighborhood, but on duty he is a quiet servant, and his relations with the public are purely

those of business. He is a tidy man in blue cloth uniform with white metal buttons, and often wears a broad patent-leather strap over one shoulder with white buckle and ornaments. He sometimes carries a small bag, presumably for such papers as he needs to have, and is provided with a green flag to wave to the engineman as a signal to start the train. Altogether he is a simple, efficient and civil official, and just here is a striking contrast between the men of the two countries. On the English railroads one never sees the conductor or ticket seller who scorns you if you ask a question, and gives the minimum of information with the maximum of brusqueness: and one never sees the usher who stands in the gateway and bellows in inarticulate pride, then turns a quid in his cheek and squirts tobacco juice into a corner.

A HALT ON PICKLES.

Boston Schoolgirls to Be Deprived of

Their Favorite Luncheon. Considerable interest is being manifested in regard to the luncheons provided at recess for the boys and girls in the high schools. At almost every high school in the city the majority of the pupils buy their luncheons from the lunch counter kept by the janitor, says the Boston Transcript, and the food so provided consists largely of pies and cakes- bakehouse stuff. some people call it-and pickles. The janitor keeps that kind of food because the pupils will buy it in preference to any more wholesome kinds, and also because there is probably more profit

Nevertheless, the parents of the pupils are anxious that some different system may be adopted in the matter of furnishing luncheons. They think it high time that something was done about it, for in schools where there are no lunch counters, peddlers of cheap candy, cocoanut cake and other unwholesome compounds make their appearance at recess, and are generally well patronized by the hungry boys and girls. The first official step toward better-

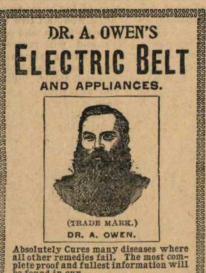

ing this state of things was taken when an order was passed by the school board providing that all luncheons sold in the public schools should be such as are approved by the committee on hygiene and physical training. Moreover, the committee was instructed to report at the next meeting of the board a plan for providing suitable luncheons at proper places for the high school pupils.

Just what the committee intends to do is hard to say, but several persons interested are hoping that it will be able to make some arrangements with the New England kitchen whereby soups, sandwiches, milk and other wholesome articles of food may be furnished directly to the pupils at moderate prices. The kitchen has its main station on Pleasant street, and another station at the North End. It is thought that soups might be carried from the kitchen to the schools in tanks, just as coffee is sometimes transported, and in that way might be served hot. Such a system of providing luncheons would be more favorable to the health of the pupils. and therefore more acceptable to the parents. As for the old system, the janitors are not thought to merit any blame, for they simply provided what the pupils buy; but now that the committee has taken the matter in hand, it is likely that most pupils will give up the practice of making a luncheon on an eclair, a piece of pie or a pickle.

About Knives.

A cheap Pocket-knife can be bought at every Store, but it is not the kind you want.

One dollar is the lowest price that a really good knife can be sold for. This aloumn is placed in this paper to adverise the very best Pocket-knife ever sold. It is J. C. TIDMARSH'S Sheffield Steel Knife.

Never buy a knife only because it looks well. If blades are not the best Sheffield steel they will soon bend, no matter how they will look. Still, you want a fine-looking knife.

The United States law provides that only samples to agents and to the trade will be admitted free of duty. You can, therefore, see the advantage that I have in sending samples to agents over those who deal in Sheffield goods in America.

I am an advertising agent! I an enrusted with a certain amount to spend advertising these knives (the best value ever seen in America at One Dollar each). Now, the knift is its own best advertisement.

Imagine a Pocket-knife (3½ inches long) with the most beautifully-grained vory handle—genuine African ivory and with two blades of the very best Sheffield steel that will last a lifetime and cut like a razor. The tips of the handles are heavily plated with sterling silver. And then a very nice chamois leather case goes with each knife. Now, would it not be easy work selling this knife at One Dollar each? I know it would, for it looks as if it I know it would, for it looks as if it were worth two dollars.

And so it is if you compare it with the value offered in the ordinary Store.

Is not this knife its own best advertisement.

You can make \$4 per day selling these knives. This is a genuine and straigtforward statement. This is counting that you show it to only twelve buyers every day. And every one that sees it will say it is good value for \$1. The knives are sold to you at \$5 per down; you sell them at \$1. you at \$8 per dozen; you sell them at \$1

I determined to use large sum of advertising money entrusted to me in sending out free samples to those who promise to act as agents for the sale of hese knives

I will send you a tree sample, but you must sign the promise at the foot of this column, and make a deposit to show that in asking for the knife you are acting in good faith.

The deposit that I ask of you is 44 cents about half the wholesale cost of the knife, and less than one-third what you would have to pay for a kni'd like it if you house to prove the control of the knife. t, if you bought one. Send the money by a Postal Order or one-cent stamps for 44cts., and out a five-cent stamp on the letter, which

must not weigh more than one-half The deposit of 44 cents will be placed to your credit, and will be deducted

from your first order at the dozen rate. I am an advertising agent, contractor and publisher with one of the largest Advertising businesses in the world, and Advertising dusinesses in the world, and I absolutely guarantee to send, postage paid and duty free, the knife described above free to anyone who signs the promise below, and sends it with the

deposit as stated. Let me advise you not to part with your sample, even if you should lose a sale at \$1 by refusing, as it will take time to replace it. I could not send you another even if you sent the full \$1. After the sample they can only be supplied to you by the dozen as there is duty on them to be paid. duty on them to be paid.

Any English Banker can give you information about my high standing, or write to the publisher of this paper who knows that I do a large and straightforward advertising business, and that I do exactly as I say.

I have taken this pace in this paper for three years! The first one answer-ing this advertisement after this number of the paper has come out will, if he likes, have his name printed in this space as agent for these knives.

The Editor of the Springfield (Ohio) New Era writes, in his paper of June-29, 1894:—"I have received a sampleknife from Mr. Sears, and am very much pleased with it. He is the owner of a very large advertising business in London, and is, I believe, perfectly responsible and straightforward."

Sign your name and address to the following, cut it out and send it with. Postal Order or stamps for 44 cents, and you will receive by return of post the beautiful knife as described above.

THE DOCTOR LOST.

A Bet of \$1,000 That His Patient Uould Die.

The gambling instinct is strong in most men, but it is seldom that one hears of a man with sufficient nerve to bet a sum of money on his own life. A wager of this kind had just leaked out in which two prominent members of a Philadelphia club are concerned.

These two men have been close friends for years. One is a doctor and the other a lawyer. A year ago the a distance of 4,000 feet. lawyer who had previously enjoyed the best of health, began to complain of feeling run down. He consulted his friend, the doctor, who, after a minute and thorough examination, told him frankly that his lungs were affected, the action of the heart was impaired, and that he wouldn't live a year. The lawyer, who was a man of indomitable pluck and will power, was naturally stunned for a moment. After the first shock had passed off his true nature asserted itself. "I'll bet you \$1,000 you are wrong, and that I do live over a year!" he exclaimed. He was deadly in earnest. The doctor was positive that his diagnosis was correct, and was forced to accept the bet.

The money was placed in a safedeposit vault and the lawyer went abroad. In six months he returned. The year was up a short time ago and he won his wager. And what is more he says he is open for more bets of a similar nature.

BIG ARMIES IN BATTLE.

Greatest Number Engaged in Modern Times Was at Lelpsic in 1813. Without doubt of all the battles recorded in modern history, the longest and sternest, as well as the one in which most men were engaged, was the memorable battle of Leipsic, October 16, 18, 19, 1813, called by the Germans the battle of the nations. The number of troops engaged is variously stated by different writers at from 136,000 to 190,000 on the side of Napoleon I, and from 230,000 to 290,-000 on that of the allies under Prince Schwartzenburg, Blucher and Bernadotte. In this awful battle the slain on both sides amounted to 80,000, and thousands of the wounded lay for days around the city. In the battle of Koniggratz, or Sadowa, July 3, 1866, fought during the "Seven weeks' war," the allied Austrian and Saxon troops engaged amounted to about 200,000 men, while the Prussians, under their king mustered in round numbers 260,000 combatants. The total loss of the Austrians, etc., amounted to about Irish bog oak is probably the best 40,000 men while that of the Prussians was 10,000. If we go back to the dug from the ground. It is perfectly melee of ancient days, we find it stated that at the one foug!it at Tours in 732 between the Franks and the Saracens, from 350,000 to 375,000 men were killed on the field. This would, for cows to Johanna, whose record is of course, mean that many more men were engaged than at Leipsic. In a battle mentioned in Chronicles II, between Ass, king of Judah, and Rerah, king of Ethiopia, we are told that the former had an army of a thousand thousand, or 1,000,000. Canon Rawlinson observes that this statement does not exceed the numbers of other oriental armies. Darius Codomannus brought into the field a force of 1,040,000 men near Arbela, where he was finally defeated by Alexander the Great 331 B. C. Xerxes, too, Professor Rawlinson says, crossed into Greece with certainly above 1,000,000 combatants, and Artaxerxes Mnemon collected 1,260,000 men to meet the attack of the younger Cyrus.

LITERARY NOTES.

The Harvard Annex has had a very remarkable development in the few years of its existence, up to the time, the present year, when it became Radcliffe College. Miss Helen Leah Read, one of the most scholarly graduates, has an article upon the college in the January number of the New England Magazine, giving an account of its growth and describing its work today. The article is illustrated by many interesting pictures, and it will be read with pleasure, by the friends of the higher education, of women everywhere. - Warren F. Kellogg, Publisher, 5 Park Square, Bos-

General Lord Wolseley makes a most important contribution to the literature of the China-Japan war. In an article for the February Cosmopolitan, he discusses the situation and does not mince matters in saying what China must do in this emergency. From every part of the world, drawings and photographs have been obtained of the instruments used to torture poor humanity, and appear as illustrations for a clever article, by Julian Hawthorne, entitled, "Salvation via the Rack." Mrs. Reginald de Koven, Anatole France, W. Clark Russell, Albion W. Tourgee and William Dean Howells are among the story tellers for this number Cosmopolitan Pub. Co., New York.

Outing for February is an interesting and finely illustrated number. The frontispiece depicts a lively hunting episode of the far West. Noticeable features among other good thinge are With Gun and Palette Among the Redskins:" "Blind Parisians Awheel," by Fannie Edgar Thomas: "An Adventure with a Tarpon," by Fred. J. Wells; "A Junior Promenade," by Walter Camp, and "Graeco-Roman Games in California," by Arthur Inkersley. - Outing Pub. Co., New York.

The North American Review for February opens with three timely and important articles on "The Financial Muddle," written respectively by the Hon. J. Sterling Morton, Secretary of Agriculture, Representative William M. Springer, Chairman of the House Committee on Banking and Currency, and Henry W. Cannon, President of the Chase National Bank of New York and formerly Comptroller of the Currency.-N. Am. Review, New York.

The February Harper's opens with a stirring tale of early American maritime history, entitled "New York Colonial Privateers," by Mr. Thomas A. Janvier, with illustrations by Mr. Howard Pyle. A Japanese gentleman, Mr. Sen Katayama, gives an insight into the family life of his countrymen in a brief article called "The H'yakusho's Summer Pleasures," with illustrations by a Japanese artist, Mr. F. Morinoto. Apropos of the recent decision of the people of New York State to suppress gambling through a Constitutional Amendment, the Hon. John Bigelow treats the subject of gambling. Mr. Antonin Dvorak contributes a paper on "Music in America"; and Mr. Edwin Lord Weeks completes his series of papers on Indian cities with a superbly illustrated article on "Oudeypoor, the City of the Sunrise." The fiction of the number is note-worthy.-Harper & Bros., New York.

The leading article in The Forum for February, "Should the Government Retire from Banking?" is contributed by Mr. William C. Cornwell, President of the New York State Bankers' Association, who points out very forcibly the folly of the Government in usurping the function of note-issuing which rightly and naturally belongs to the banks; Mr. Alfred S. Heidelbach, one of the largest international bankers in New York, explains "Why Gold is exported."-Forum Pub. Co., New York.

The Countess of Aberdeen, the wife of the Governor-General of Canada, contributes to the February Arena an article outlining the platform and purposes of "The Coming Triennial Meeting of the Council of Women of the United States at Washington." This council has become necessary to bring into common relations the different organizations of women that are work." ing along various lines without knowledge of each other. It includes representatives from all sections, from all classes, from all creeds and churches and organizations holding conflicting views. Its aim is to find a common platform for social progress.-Arena Pub. Co., Boston, Mass.

Prisoners as Domestic Servants. Hawaii is not the only place where prisoners have been known to be hired out for domestic service. It was discovered some years ago that longterm convicts in jail at New Castle, Del., were commonly sent on errands about town, and even life prisoners were slightly watched. A murderess

was employed in the jailer's family

and permitted to go about the streets.

cach Thing as Cheapness. Some of the English as well as the German cutlers are making razors by the drop forge method. In this way a remarkably cheap razor can be produced, but as the quality of the work in so fine a piece of cutlery has to be considered the remark of Ruskin that there is "no such thing as cheapness" would seem to apply in this instance.

SKETCH OF AN ACTOR.

BEING THE STURY OF RICHARD F. CARROLL'S STAGE LIFE.

He First Won Some Fame as a Dumb Comedian and Latterly as a Star in Leading Roles-One of the Famous Carroll Family.

ICHARD F. CARroll, who has acquired somefame on the stage, was born in Boston, Mass., on Oct. 27, 1864, and made his first appearance at the age of five years. From 1870 to 1876, in conjunction with his father, R. M. Carroll, and his brothers, known as the

the principal vaudeville theaters of this country, among them being Tony Pastor's, and Josh Hart's Theater Comique. During this time he appeared with G. L. Fox's "Humpty Dumpty," at the old Globe theater, Wood's museum and the old Bowery theater. During the season of 1876-77 they starred in Bartley Campbell's "Orphans," a play especially written for the Carroll family. In 1880 the subject of this sketch made his first venture alone when he joined the Hanlon Bros'. "Voyage en Suisse," replacing Alfred Hanlon, who had been taken sick. He remained four years with this company, and in 1885 was a member of the stock company of the Union Square theater, appearing as the dumb idiot in "The Prisoner for Life." During the season of 1886-87 he was with Lydia Thompson in "Oxygen," with Patti Rosa and in Tony Hart's last venture, "Donnybrook," joining David Henderson's Burlesque company at the Chicago opera house for the summer, playing in "The Arabian Nights." In 1887-88-89 he was at the Casino, New York, taking James T. Powers' place in "Nadjy" and afterward appearing in "The Brigands," "The Grand Duchess" and "The Brazilian." In 1890 he opened with Marie Tempest in "The Red Huzzar" at Palmer's theater, and remained with the company until the end of the New York run. He joined the Pauline Hall opera company for the season of 1890-91, appearing in "Amorita" and "Erminie," until the end of the regular season, when he joined the J. C. Duff opera company for the summer and for the following season, playing the leading comedy roles in "Th Mikado," "The Pirates of Penzance," "Pinafore," "Patience," "The Gondoliers," "The Queen's Mate," "A Trip to Africa," "Paola" and other operas. During the season of 1892-93 he appeared as Charles Favart, in Fay Templeton's production of "Mme. Favart," and afterward joined Fred C. Whitney's company, to play the Duke, in "The Fencing Master." Mr. Carroll is still under engagement to Mr. Whitney, and, at present, is playing the role of Dugald MacWheeble, the very entertaining mayor of Perth, in Smith and De Koven's opera, "Rob Roy," now running at the Herald Square theater, New York city, in which he has deserved, ly won unanimous praise. In addition to his successful labors as a comedian, Mr. Carroll has other professional claims worthy of consideration. He has found time to indulge in dramatic authorship, and among the plays he has written are "Where Can It Be," produced at Tony Pastor's Fourteenth Street theater, and "The Dago," played last season by the Carrolls, his father and brothers. He also claims a

portion of the responsibility for the

A Vassar girl, not long ago, cramming for her examinations, sent down an order to the refectory for strong tea and cracked ice. It was her freshman year, or she would never have done it, a proper diet being one of the important matters in that admirable institution. At the Woman's college in Baltimore a glance at the food contracts for the nine months of study is interesting. It takes eleven tons of beef, three and one-half of mutton, two of pork and four of poultry to satisfy the healthy young appetites of the 200 students in the meat line alone. There are, besides, 3,600 dozens of eggs, two and one-half tonof butter, five of sugar and one and one-half of crackers to be disposed of. HINTS TO CIGAR SMOKERS.

Always Blow the Dust Out Before Lighting a Fresh Weed.

"There are two things which all cigar smokers might observe with profit," said T. C. Brownlee to a reporter. Mr. Brownlee travels for a large cigar manufactory and knows a thing or two about the ethics of smoking. "Before lighting a cigar bite off the end, and, placing the end to be lighted between your lips, blow through it. In this way you get rid of a fine dust that accumulates in a cigar when it is dry, which is apt to inflame your vocal chords and injure your voice. It is a valuable hint for singers, and I know of quite a number of professional opera singers who never light a cigar until they have blown out the dust. To the failure to do this may be attributed in great part the throat diseases with which steady smokers are afflicted.

"Another valuable suggestion from an economic standpoint is to thrust your cigar into your vest pocket with the pointed end up. Many vest pockets are so shallow as to cause the end of a cigar to stick out over the edge. The constant rubbing of the coat against the large end, which is very much more sensitive than the other, causes it to fray and break, necessitating the wetting of the wrapper in order to make the cigar available at all. Any one who will act on these two hints will live longer and save

THE COREAN CURFEW.

Those Who Walk the Streets After the Bell Tolls Are Soundly Flogged.

The Corean code enforces a rigid observance of a very strict and arbitrary curiew law. Soon after dusk the curfew strikes. Then every human being has to go home, and stay there until dawn. There are but three classes exempt from an actual observance of this rule-the high official class, the blind and the doctors and messengers sent to summon them to the sick, or by them sent for medicine. Watchmen roam the deserted streets, and any one outside these three classes found upon the streets after curfew is promptly walked off to the nearest magistracy and thoroughly flogged.

The three exceptions made to the curfew law are rather interesting. The high official class are above suspicion. It is inconceivable that they should take advantage of the cloak of darkness to do wrong. To the Corean mind an official can do no wrong. The blind are allowed to go war in heavy seas. "Upon my place at home there is an apple-tree, the fruit of which is sweet on one side and sour on the other," said C. E. Harrington, of Baltimore, Md., recently. "It has been known for many years that these apples existed, but no one has ever been able to explain the phenomenon."

ANECDOTE AND INCIDENT.

The other day M. Casimir-Perier, the president of France, went into a shop in Paris and opening a package which he carried produced an auto-matic doll, and asked the shop girl behind the counter whether it could be repaired. She replied that it could and asked who he was, that the doll might be sent home. He told her, when she stared at him a moment and fainted away. His dignity was too much for her.

Bishop William Boyd Carpenter of Ripon, England, is the court preacher. I wanted something cheap for the boy to have fits in;" and then she went out.

Famous Men Who Were Chock Full of Love and Lost Good Judgment.

A large number of the world's eminent men have made fools of themselves for love of women. Holofernes lost his head-in two senses-by accepting the caresses of Judith. Antony was a lunatic to have sacrificed everything to his love of the charming Cleopatra. Paris, son of Priam, ought to have been put in a straightjacket for having tampered with the matrimonial preserves of Menelaus, the result of which poaching on his part caused the spilling of oceans of human blood, as well as the destruction of Troy.

Petrarch spent his crazy life penning sonnets to the eyebrows of a portly married woman, the mother of a large family, while he utterly neglected his legitimate wife and would not permit his daughter to live under his roof.

Dante, in his maudlin love of Beatrice says: "So powerful was the spell of her presence that I had to avoid her. From thinking of this most gracious creature I became so weak and lean that it was irksome for my friends to look at me."

Love found ready victims in the knights and troubadours of the middle ages. Ulrich von Lichtenstein, a mediæval German cavalier, loved a woman with all the intensity of a lunatic. He used to roam over hills and valleys in quest of other knights, whom he challenged to duels if they dared to doubt that his Dulcinea was the fairest of the fair. On one occasion he amputated one of his fingers and presented it to his patroness as a proof of the torture he could endure for her sweet sake. And meanwhile his wife pined alone in her chateau in the forest.

his wife, anxiously. "Never you mind what things," he returned gruffly. "It ain't nothin' for women folks to worry about. Now, Henry, where's that there new pitchfork I bought last week?"

"Out stickin' in the strawstack," replied the boy.

"Get it an' put it by the barn door where it'll be handy," instructed the old man. "Then take the old pitchfork down to the gate to the tenacre lot and leave it there."

"Mercy, Hezekiah, what be you goin' to do?" asked his wife, in alarm. > THE LADY OF THE PLAINS. She Thought the Young Man Was Drawing the Long Bow.

A young woman from the treeless plains of the West had gone to Boston to a music school on her first trip East, and among the first persons she met at her boarding house was a youth from Bangor. As their acquaintance ripened, she told him of what had interested her on the journey.

"Why," she said, with an exultant spirit, "I saw at one place in Pennsylvania a hundred sawlogs in one

"Do we?" he replied magnificently. Do we? Why, my dear young lady, sawlogs grow on trees in Maine." "Really?" she asked in open-eyed

astonishment. "It's a literal stact," he asserted positively.

'Well, I don't believe it." she contended, and do what he could, he could not convince her that he was telling plain, unadorned truth.
