### A SAD AFFAIR.

ALEMBERT EDWIN KEITH TAKES HIS OWN LIFE.

Intend to Reciprocate Them.

People were shocked last Sunday before twelve o'clock the night before L. Obetz and C. S. Morely, of Detroit. Edwin Keith had taken his own life by shooting himself just above the heart.

greement with Miss Lizzie Covert with evening the two attended a dancing class together at Granger's. They returned to Miss Covert's home at 70 N. Main-st. at about half past ten o'clock. During the evening Miss Covert had message to a certain other young lady which Mr. Keith did not wish to do and so told Miss Covert. This seems to have piqued the girl and in such feeling she told him that their relations must cease. This was more than the young man could stand, as he had come to have a very strong affection for the young lady, who had received his attentions constantly for nearly a year past. When he left her Saturday night he told Miss Covert that he had nothing more to live for. It seems that Edwin went directly home where he secured a revolver and returned at once to the young ladies' home and fired the fatal charge directly under her window. Miss Covert, who was about to retire, heard the report and looking out saw the prostrate form of her dismissed suitor just beneath the window. With the assistance of her father, the young man was carried into the house and medical assistance summoned. Dr. Kapp arrived about twenman breathed his last. Mr. Keith was conscious for a short time after being taken into the house and upon being asked by Miss Covert why he had shot himself, he replied "For You." Coroner Ball was notified and immediately summoned a jury who viewed the remains and adjourned until Sunday afternoon at Martin's undertaking rooms. The verdict of the jury was that the eceased came to his death by his own hands. Funeral services were held Tuesday afternoon at 4 o'clock at the

The parents who thought the world of Edwin are deeply grieved over their son's untimely death.

### Alderman Bodmer Dead.

Mr. Pearson L. Bodmer, the junioralderman from the first ward, who had been ill for about ten days with heart trouble died last Thursday afternoon at halfpast 5 o'clock. Mr. Bodmer came to Ann Arbor about three years ago from Three Rivers, Mich., and purchased the lumber business of W. J. Just, and has been engaged in this business ever since. Though he has resided here but a short time Mr. Bodmer has made many friends both in a business and social way. A year ago he was elected alderman in the first ward on the republican ticket by a large majority. As an alderman he has proved a careful and painstaking official. He was a member of of Arbor Tent, No. 296, K. O. T. M.

Mrs. Bodmer and a daughter about 16 years old survive him and have the sympathy of the large circle of friends they have made in the city, in this their sad hour of bereavement.

The funeral services were held on Sunday afternoon at the M. E. church. conducted by Rev. C. M. Cobern.

At a special meeting of the council held last Saturday morning the following resolutions relative to the deceased were adopted :

At the evening session, the committee reported that three plans had been re-Mr. Keith, who had reached his ported to it: the one chair plan, the twenty-first year last Thursday, was removal plan and the scheme of amalthe son of Mr. and Mrs. E. A. Keith, of gamation. Their recommendation was 17 S. Thayer-st., and one of the most as follows: "We deprecate the spirit of a report of the first one that took place men in the city. The cause for the in the medical faculty, and therefore young man's rash act was the fact that favor the reorganization of the college term of school opened. There have sacrafice no distinctive feature of our whom he had been keeping company policy. We we are of the opinon that for the past nine months. Saturday such legislation should be had as will secure an organic union of the medical schools into one medical department." As to a basis of reorganization it was affairs was going to take place that decided to ask for chairs of materia evening in the octagonal building medica and therapeutics and of theory asked her escort to carry a distasteful and practice, and two of the four chairs of ophthalmology and otology, surgery, and secure a moderately poor account o' stetrics and gynecology The further recommendation was made that all lectures be made compulsory.

The first section of the resolution, regarding the one chair plan, was unanimously endorsed. The removal scheme clause was stricken out by a 16 to 15 vote. The resolution was then carried by a decisive vote, so that the state association stands committed to amalgamation. If the legislature will not School! That reporter will probably enact that, removal to Detroit will be make another brilliant discovery some advocated.

#### The Legislature Coming.

The members of the state legislature have decided to make a visit to Ann Arbor to inspect the University. They will come down next Thursday afternoon and remain over until Friday evening. Elaborate preparations are being made to receive them. Thursday evening they will be taken to Granger's where supper will be served. In the evening a grand concert will be given ty minutes later, just as the young for their benefit in University Hall. Prof. Stanley will preside at the big organ and the Choral Union, and Glee and Banjo Clubs will assist. Friday forenoon will be spent visiting the various buildings upon the campus until 11 o'clock when the legislators will meet the student body in University Hall. At this meeting a number of speeches will be made. Pres. Angell, as well as good thing for the boys as it very likely a aumber of the legislators, are on the saved them a doctor's bill. On a formprogram. The afternoon will also be spent in visiting the laboratories, libraries and hospitals. There can be no parent's home, the Rev. Henry Tatlock doubt that such visits do more to give those legislators who have never been here a better idea of the extent of the University and its needs, than all the speeches that could possibly be made at Lansing. Such visits are very desirable and should be made every two years by the members of the legislature.

The daily fellows found that the program, so far as they were able to get onto it, was much the same as that efit. given in this paper some months ago. The only difference was that the pipes were frozen and the fellows could not give the initiates a series of ice-cold baths in a building that had not contained, during the entire winter, any more heat than that afforded during a few hours by a dark lantern, and at a time when the ground outside was covered with snow and frozen to a depth of at least five feet. Bills That will Be Considered by the State Legislature.

Springfield, Ill., March 12 .- The senate will have under consideration for passage a number of measures this week. Prominent are Senator Humphrey's race track bill, which allows pool selling races to be carried on for a period of ninety days during the year, and Senator Crawford's street railway The opposition to Senator Humphrey's bill is strong and it is doubtful if it will be passed. Senator Coon's woman suffrage bill, giving women the right to vote in certain township elec-tions, will be a special order this week. Senator Wall's bill fixing the fees and salaries of members of the general as-sembly has been made a special order for Wednesday on its second reading. It fixes the compensation at \$1,000 for the regular session and \$5 per day for any special session.

Several measures of importance will come up either in committee or on the floor of the house. Mr. Needles' constitutional convention resolution, which was debated at some length Wednesday last, is a special order for Wednes-day next. The house committee on elections has decided to take up Weston's municipal suffrage bill Wednesday for final consideration.

Run Down by a Train

St. Joseph, Mo., March 12 .- One woman was killed outright and two others fatally injured by a Missouri Pa-cific passenger train at 1 o'clock yesterday afternoon seven miles south of the city. The woman killed is Mrs. Thomas Allen. The injured are Mary Allen, 25 years old; Mattie Dixon, 12 years old. The party started to drive across the track in front of the train when the horse balked. The engine struck the conveyance, throwing the occupants thirty feet from the track. Mrs. Allen's neck was broken, her daughter's skull The horse was killed.

Two Men Convicted of Murder. Murphysboro, Ill., March 12.-Frank Jeffry and Arely Henderson have been convicted of murdering James Towle, Dec. 20, 1894. They killed him for money, but found only two silver dol-lars on his person. Each charged the crime on the other, but denied his own guilt. The case was given to the jury at 5 o'clock Saturday evening and at 11 yesterday morning the verdict was returned, fixing the death penalty. The court will pass sentence to-day. This will have been the first legal execution in this county.

Both Want Marriage Annulled.

Greenville, Ala., March 12.—Last Christmas Major Samuel Blackman, aged 80 years, married Ada Weaver, girl in short dresses. Yesterday both parties came to town and asked that their action be disaffirmed, the bride making affidavit that she was only 13 years old. She will be 14 in a few days. Under the Alabama law a girl under 14 is incapable of contracting marriage. The dissolution appears to be entirely agreeable to both parties.

Sunday Trip of the President.

Cape Hatteras, N. C., March 12.— President Cleveland and his party tided over Sunday by a cruise to Pimlico Sound. The Violet left Cape Hatteras about 6 o'clock in the morning. She steamed south, passed Hatteras inlet to Ocrocoke inlet, and returned to her old anchorage in Cape Channel at 6 o'clock in the evening. The weather is delightful and the trip was enjoyed by all on board. Weather permitting, a big day's sport is expected to-day.

### STATE NEWS NOTES.

A CHAPTER OF THE D. INGS OF MICHIGANDERS.

Name Lieut.-Gov. Milnes for Congress

Menominee is going to have a furniture factory employing 150 men. Convention of Third District Republicans on the 114th Ballot. - Mysterious Tragedy at Mt. Morris.

Third District Republican Convention.

The Republicans of the third con-gressional district met in convention at Kalamazoo to name a candidate for the vacaney in the Michigan delegation to congress created by the resignation of J. C. Burrows, who was elected to the seat in the U. S. senate made vacant by the death of Senator Stockhyidge Stockbridge. A stiff fight was expected and there was no disappointment on that score. Not much time was lost in preliminaries. Hon. Chas. E. Brown, of Kalamazoo, was made temporary chairman and L. P. Bissell, temporary chairman and L. P. Bissell, of Charlotte, temporary secretary, and they were also made permanent officers. Nominating speeches were limited to two minutes and resulted in giving the following names to vote upon: Lieut.-Gov. Milnes, Coldwater; State Senator Clapp, Battle Creek; John M. C. Smith, Eaton R. pids; Secretary of State Washington Gardner, Albion.

ner, Albion.

The first ballot resulted: Cardner, 27; Smith, 19; Clapp, 12; Milnes, 11.

Every ballot until 109 had been taken resulted the same way, and then the convention adjourned for the night.

The opening of the second day of

The opening of the second day of the convention showed no charge in the situation as the 110th ballot was the same as the first. Two more ballots resulted in but one change, a gain of one vote by Smith. The next ballot, however, ma le a big change, Senator Clapp's followers going over to Smith making the vote stand: Smith, 32: Gardner, 26; Milnes, 11. A recess of one hour was taken and then the 114th ballot regulated, Milney, 25; Smith, 24 ballot resulted: Milnes, 35; Smith, 34. After the defeated candidates, Smith, Gardner and Clapp had made speeches the resolutions committee report was adopted. It declares for the restoration of silver "to its time honored position in the nation's finances.'

Suicided for Love.

Alembert E. Keith, a mail carrier of Ann Arbor, committed suicide in a rather romantic manner. He called at the home of Miss Lizzie Covert to escort the young lady to a dancing school. While at Granger's academy it is said they had a slight quarrel. Keith took the young lady to her home and then went to his own home and secured a revolver. Half an hour later Miss Covert heard a shot under her window. They opened the door and four I Keith almost breathing his last. There were two bullet holes each about an inch above the heart. He lived for 30 minutes and on being asked by Miss Covert why he had shot himself, he replied, "It is all for you, my large."

Third District Free Silver Nominee. The silver convention for the Third congressional district was held at Batcongressional district was held at Bat-tle Creek with nearly full delegations from every county in the district. A long string of resolutions with the usual demands of free silver men were adopted. On the third ballot the result was: Robert McDougall, of Hillsdale, 34; A. M. Todd, of Kalama-zoo, 32; George Willard, of Battle Creek 10. McDougall, who has already Creek, 10. McDougall, who has already been nominated on the Populist ticket, withdrew, and Todd's nomination was made unanimous. Mr. Todd is a wealthy manufacturer of Kalamazoo, and has also been nominated for congress by the Prohibitionists.

Mysterious Murder at Mt. Morris. Frank H. Cowles, of Mt. Morris, found his wife dead in bed with two ghastly cuts in her throat, and the bed clothes saturated with blood. The couple had had trouble, and had lived apart for some months, but she went to his hardware store and said she wanted to stay over night. He gave her his bed and he took another. When he got up in the morning, not hearing her, he went to her room and found her dead. She was 45 years old and leaves a son and daughter.

Big Church Burned by Incendiaries. The large brick Roman Catholic (Polish) church at Posen, Presque Isle county, was totally destroyed by fire.

Loss, \$30,000; insurance, \$5,000. The
fire is believed to have been the work
of an incendiary, as there have been
two factions in the church for some
time and much bad feeling. Last year
the priest's barn was burned, with much stock and grain, by an incendiary. Father Bogatski is almost crazed at the loss of his splendid

Three Farmers Suicide.

Bellaire: Gotlieb Weisthoff, aged 90,

Clare expects to have her streets lighted by electricity after April 25.

The striking miners at the Cleveland hematite mines at Negaunee have gone back to work on a compromise scale.

Joseph Hambitzer, ex-state treasurer, has been admitted to the bar at Marquette and will practice at Houghton. This spring Port Huron will again vote on the proposition to bond the city for \$30,000 for a municipal lighting

The common council of Union City has issued bonds to purchase the elec-tric lighting plant and improve the service

The Democratic convention for the Tenth senatorial district was held at Ann Arbor. Without much discussion James McDougall, of Superior, was

nominated. The monthly report of the Michigan salt inspector shows salt inspected in February as follows: Bay county, 26,-930 barrels; Saginaw, 22,653; Manistee, 4,813; St. Clair, 3,207; Midland, 2,000; Mason, 766; making a total of 60,369 barrels, the smallest output in years. Salt is selling very slowly.

#### MICHIGAN HAPPENINGS.

Ex-Gov. Felch is ill at Ann Arbor. Petoskey Christians pledged \$1,000 in aid of the Y. M. C. A.

A large three-story hotel is to be built on Les Cheneaux islands.

Petoskey is proudly boasting of its latest acquisition—a woman barber. Michigan University literary classes are so crowded the students are re-

fused admission almost every day. Charles Rufley, of Northport, killed two wild cats, each of which weighed

23 pounds. A bust of Judge Cooley will be unveiled by the seniors of Michigan University, April 6.

A new four-story temple to cost \$20,000 is being talked of by the Masons of the west side at Saginaw. Arrangements were completed for

the building of a second railroad be-tween Saginaw and Bay City.

The lumber cut on the Menominee river this winter has been about 350, 000,000 feet, a very good record.

The Menominee Sash and Door company will build a three-story brick building for the manufacture of coffins. Pontiac builders are looking for an unusually active season. Over 100 new houses will be added to the town.

The Universalist church at Bay City burned. Loss, \$12,000; insurance, \$7,300. A finer church will be erected.

A silver club has been organized at Grand Ledge. The members of the club are composed of adherents of all

Henry Kiddle, aged 68, was found frozen in his hut at Saginaw. The entire lower part of his body was frozen stiff.

James M. Turner has been elected president of the free silver club at Lansing. Over 200 have signed the club's constitution.

Moses C. Lichtner, of Muskegon, committed suicide in the toilet room of the union depot at Grand Rapids by taking carbolic acid.

Fire started from a defective furnace flue in the house occupied by Professor Neil, at Agricultural College, and it was gutted. Loss \$1,500.

Albion students are much wrought up over the action of President Fiske in practically forbidding the wearing of sweaters in class room

John Miller and family who live near Saginaw, were taken sick after drinking some tea. They found that an enemy had poisoned the sugar. A civil engineer with assistants are

at work surveying the route of the proposed Michigan Central branch from Buchanan to Berrien Springs. Frank Forey was killed at McManus mill, Petoskey. A log from the top of a pile he was unloading rolled upon his head, crushing it in a horrible

Horse thieves near Carleton, stole two horses, a carriage or two and several other articles, worth in the aggregate \$500. They escaped over the

manner.

E. H. Spencer, the embezzling agent of the American express company at Sunfield, has returned from Tacoma and surrendered himself. He stole about \$400.

Plans for the new court house and jail at St. Joseph have been completed. The court house is to be of brick stone, of imposing architecture, three stories high, with a high tower.

Tenth district Prohibitionists have nominated Levi Decker, of Jackson, for state senator. The Populists have nominated Walter Gould, an intelligent young farmer of Tompkins.

John Bebeau was crushed by a log falling upon him at Menominee and he died shortly afterward. His back and both legs were broken. He was 35 years of age and leaves a widow.

Patrick McDonald, a wealthy farmer at Whitmore Lake, was severely injured by a falling tree, which drove his teeth through his tongue and broke his right arm twice. He will

R. C. Hendrick, a well-known Sagi-naw man, after 30 years, has just discovered his brother William in East Dubuque, Ill. The brother was adopted by a family named Mayhew years ago and he never knew his right name was Hendrick. Both brothers are well

The town of New Buffalo has given a bonus of \$3,000 and five acres of land to a Chicago syndicate to secure the establishment of a brass foundry which will employ 50 skilled laborers and many common laborers. Ground has already been broken for the build-

Bellaire: Gotlieb Weisthoff, aged 90, shot and killed himself at his home in Case township. No cause known.

Hudson: James Droun, a Medina farmer, deranged and despondent, hanged himself in his barn.

Horton: Melvin Shaw, a farmer near the village, took a fatal dose of laudanum and died. He was in financial difficulties, being unable to pay the interest due on a farm mortgage.

The nomination of Lieut.-Gov. Milnes for congress will result in no change in the personnel of the state officials. The constitution makes no provision for filling a vacancy in the office of the lieutenant-governor, simply providing that in case a vacancy oc-curs in such office the president pro tem. of the senate shall act. Lieut.-Gov. Milnes will not resign until after the April election, if at all, and from that time until January 1, 1897. Sen-ator Joseph R. McLaughlin, president pro tem. of the senate, will be acting lieutenant-governor.

The genuine "Parson" J. W. Arney, The gennine "Parson" J. W. Arney, of race horse fame, surprised the congregation of Pilgrim church at Lansing by tendering his resignation, to take effect April 1, when he will engage in evangelistic work, with headquarters at Lansing. It is Rev. J. H. Arney who has resigned at Middleville to accept a call to Pana, Ill. State papers have confounded the latter with the Lansing "parson."

John Torrent, of Muskegon, says that while he has been figuring on a big timber deal on Georgian bay there is no truth in the report that he is heading a syndicate for sawing the

THE SOUTH THEN AND NOW.

The South prospered in ante-bellum times, and argues that Free-Trade will not burt her now, because it did not hurt her then. Conditions, however, have entirely changed. The South anterior to the war was almost exclusively an agricultural section, having no other labor than that peculiar to slavery and, therefore, no population to be protected from pauperism. She is now largely a manufacturing people and has a growing population of thrifty factory operatives, which could not be assimilated in the general industrial economy of the Southern States in any other way than as now occupied.

These operatives form an important part of the consumers of the South, and their loss would be felt very materially The average attendance at the eight by Michigan. ANNA B. BACH,

SECRETARY'S REPORT.

The swiftly passing months again bring us to the time when we must review the work of a year. The record of visits made and received and of families assisted indicate less done than during the preceding twelve months; but this, we feel sure, is not due to diminished activity on the part of the workers in the Union, but rather to the fact that there have been less suffering and need, and therefore fewer appeals for help. This is, of course, a cause for rejoicing. One hundred and ninet,-one visits have been made by the ward visitors and 103 received by them. The number of visits made last year there were 160 received. #### U. OF M. VS. NORTH WESTERN. Sadier, Oxtoby and Kimball will Be the U. of M. Debaters.

The final preliminary contest held last night to choose Michigan's representatives in the second annual debate with northwestern resulted in the selection of F. P. Sadler, '96 lit, J. V. Oxto by, '95 law, and C. F. Kimball, '95 law. The audience filled the law lecture room and a sufficient sum is in the hands of the debate committee to meet the necessary expenses.

The three men chosen will support the affirmative of the question, "Resolved, that the United States government should construct and control the Nicaragua canal." The choice of sides was made by Michigan some time ago, but was not made public until last night. It was at first decided to defer the choice of sides until it could be made by the successful debaters. Northwestern mittee was appointed, consisting of President Angell, Prof. Adams and Prof. Thompson, who chose the affirmative. This was unknown to tho judges and contestants until after the result of the debate was announced last night.

All the speakers showed a thorough preparation and their arguments were well delivered. C. F. Kimball, who closed the affirmative, illustrated his remarks with a clever map of his own drawing. The judges' markings were as follows, the first figure being the mark given the speaker on argument. the second being that he received on his delivery; the contestants are given

### TO BE HEEDED NOW.

In the Spring You Are Always Run Down.

THIS WILL TELL YOU JUST WHAT Michigan Crop Report for February. TO DO FOR YOURSELF.

And Just Why You Should Fellow Exactly This Plan.

In the spring everybody needs to think about taking a spring medicine. Not only is this a common practice, but a very necessary and healthful one. It is a fact which physicians acknowledge Bread to farmers and the people recognize generally, that a spring tonic taken during the months of March, April and May is more conducive to the restoration of health, in cases of those who are sick, than any other course of treatment that could possibly be adopted.

It is further understood by everybody that even for those who call themselves well, it is very important at this season of the year, if they would maintain good health and vigor, to take a spring remedy to strengthen and invigorate the nerves, tone up the action of all the organs, and thus, by creating a healthy condition of the nerves, blood, stomach, liver, kidneys and bowels, assist Nature in the efforts she always makes in the spring to cleanse, purify and invigorate the system.

In the spring there are a great many and important changes going on in the body. Perfect health cannot be maintained while the system is clogged and the organs sluggish, and the person has a languid and weakened feeling, with more or less nervousness and debil-

Now in regard to what you should take. The best spring medicine, indorsed and recommended by physicians, druggists and the people, is Dr. Greene's Nervura blood and nerve remedy. In proof of this, thousands of testimonials are being constantly published in the papers. The following is from Mrs. Etta Sumner, of Goodells, Mich. "I have been afflicted," she says,

"with nervous debility for a year. My nerves were completely prostrated, and I suffered at the slightest excitement, with great headache. At times I was entirely overcome by this disease. I would stay in the house alone, and despise the sight of my own people.

"My entire nervous system was shattered, and my life was a worriment and burden to me. I was advised to try Dr. Greene's Nervura blood and nerve remedy, and while on the first bottle, began to recover. My friends were very much surprised.

"Before I had finished the second bottle, I could sleep with a quiet mind, and eat with a ready and refreshing appetite. I have taken three bottles and am entirely cured of all my sufferings. I have found Dr. Greene's Nervura bleed and nerve remedy to be exactly what it is represented.

"I cannot speak half h'ghly enough of it. I cheerfully and earnestly recommend it to everyone afflicted with disease. What gives people absolute confidence in it, is its being the discovery of one of our best known and most successful physicians."

No remedy in the world is so sure to bring back bloom and color to the wan and faded cheeks, the brillinay to the hollow and haggard eyes, the lightness and investment. and elasticity to the weak and weary steps, the strength and vitality to the unstrung, shattered and worn-out nerves. It is, indeed, the greatest of all spring medicines, for it makes the sick well and strong. It is not a patent medicine, but the

prescription of the most successful living specialist in curing nervous and The Favorite Exponent of Rural Charchronic diseases, Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone, at any time free of charge, personally or by letter, gives absolute assurance of this wonderful medicine.

sales in February and previous months, not yet reported, will wipe out the remainder shown. In other words, the amount of wheat sold and amount fed between August 1, 1894, and March 1, 1895, together with seed and a sufficient reserve for bread of farmers for one year, equal the crop of 1894. All future deliveries by farmers must come from reserves from previous crops. The marketings by farmers as returned to this office and published in these reports from month to month seem to confirm this conclusion. They are less each month than in the corresponding month of the preceding year. The quantity of wheat reported marketed from all points in the State in the seven months, August-February, is 2,278,421 bushels less than reported marketed in the same months last year, but as no reports for February this year have yet been received from a large number of stations, the actual decrease is less than this total.

The amount marketed at 273 points in the State from which reports were received monthly from August to February each year, was 617,337 bushels less in six months from August 1, 1894, to February 1, 1895, than in the six months ending with February 1, 1894.

Temperature and precipitation in February were both below the normal in all sections of the State; snow, however, covered the ground fairly well until near the close of the month, afford ing good protection to wheat. In the southern counties the snow was all gone at the end of the month, but in the central and northern counties the covering was sample.

In condition, live stock averages from five to seven points below a full average, comparison being with stock in good, healthy and thrifty condition.

### STATE LEGISLATURE.

SENATE .- 38th day .- The resolution to submit to the people the question of increasing the salaries of state officers came over from the House, where it has been adopted, but was delayed by being referred to the judiciary committee—presumably at the solicitation of Attorney-Ceneral Maynard, who wishes to have the question of his salary voted on separately from the others. The charter bill for fourthclass cities was again under discussion and was agreed to in committee of the whole. A few bills were passed, but each was of interest to only one city or locality; the most important were: Making term of mineral statistician expire April 1; authorizing Buchanan township. Berrien county, to borrow money to dredge St. Joseph river: to legalize \$10.00 courthouse bonds for Berrien county. House—The salaries amendment was again the cause of a struggle. The resolution placing the salary of the auditor-general at \$5.000 was repealed and then came the vote on the joint resolution for a general raise, and after a deal of hard work the necessary two-thirds was mustered and it

SENATE. - 37th day. - Senator Brundage's factory inspection bill was passed. It carries SENATE.—37th day.—Senator Brundage's factory inspection of \$8.00) and provides for five inspectors at a salary of \$80. The committee on the Industrial School for Boys reported \$56.000 a year for current expenses and \$24.500 for improvements. The committee on labor favorably reported the bills allowing labor organizations to become incorporated so that they can sue and be sued; also to punish tramps by putting them to work. The joint resolution thanking Senator McMillan for his efforts in securing Mackinac Island for the state was passed. House.—A strong protest was received from Bay City against the charter commission's bill for third-class cities. Resolutions were adopted congratulating Lieut-Gov. Milnes on his nomination for congress from the Third district. Rep. Covell's bill for state inspection of swamp lands was called up, but because of opposition it was tabled. Rep. Foster characterized the bill as a land steal. The bill was passed placing the secretary and governor's executive secretary under bonds. The growing opposition to the voluminous general charter bills prepared by the special charter commission, consisting of Gerrit J. Diekema, Mark S. Brewer and Edwin F. Conely, culminated in the following resolution of inquiry, which was introduced by Rep. Fitzgerald and unanimously adopted: Resolved. That the clerk of the House do furnish and report as soon as possible information upon the following: 1. When and by what authority ritzgeraid and unanimously adopted: Resolved. That the clerk of the House do furnish and report as soon as possible information upon the following: I. When and by what authority was a special commission organized to draft the general charter bills? 2. What are its duties? 3. What compensation was said commission to receive? 4. How long has said commission to receive? 4. How long has said commission been employed in framing said charters? 5. What expense has thus far been nourred? 6. When will its labor be completed? The bill allowing Kent county supervisors to pay their committees for work performed between sessions was amended to make it general and the nearly every county wanted to get in out of the wet." The bill was returned to the committee to be constructed so as to cover all the state. The House end of the joint committee to investigate the charges against Superintendent Clark of the Filmt school for the deaf and dumb, was increased to four, and Representatives Lee, Fitzeraid, Westcott and Wo'ter were appointed.

Ancient Mexican Volcano in Eruption

Cordoba, Mex: The peak of Orizaba an ancient volcano, is in a state of mit to the people the question of increasing eruption. It is now vomiting poison-the salaries of state officers came over from our gases and thick volumes of smoke are emitted from 100 apertures in its great maw. The earth for 100 miles around is shaken periodically with subterranean vibrations. A great alarm exists in the cities of Cordoba. Orizaba, Kalaha, and the dozens of small villages scattered within the scope of the monster. The shocks as yet have not been of a disastrous nature. The present eruption is in the heart of the best improved coffee district in Mexico, where are located many Americans who have embarked in the profitable business.

The long trial of Harry Hayward at Minneapolis for the murder of Cather-ine Ging has ended and the accused is nearing his end. The jury considered the case only two hours and when they returned to the court room it was easy to see that they had agreed on a solemn verdict. "We, the jury, find the prisoner guilty as charged," was the announcement. Hayward scarcely changed color, and when he was being taken to jail remarked that the verdict was an outrage and he was a long way from the hangman yet. The verdict was greeted with cheers by the mob waiting outside the courtroom.

The Toledo high school building, a four-story brick structure, occupying the square bounded by Madison, Adams, Michigan and Tenth streets Toledo, O., and one of the best appointed educational institutions in this part of the country, was almost completely destroyed by fire. The en-tire fire department was called out and managed to save the Scott manual training department, which is situated at the north end of the building. The explosion probably was caused by chemicals in the laboratory. The loss is estimated at \$150,000.

The records it has it had not been seen. tre-goers. The people like "Alvin Josin;" they are amused at its broad com-edy and fairly double up with convulsive shouts at the eccentricities of poor "Unle Alvin." Mr. Davis announces this as his farewell tour. We believe a certain Mme. Patti has done the same thing several times, but Mr. Davis says he means it. He has trouped for seven-teen years, has played "Alvin Joslin" several thousands times; has seen lots of the country and thinks he has earned a rest and intends to take it after this season: so this is positively the last chance to see "Uncle Alvin." The play will be presented here in an elaborate manner by the best company Mr. Davis has ever had in his support.

Wealthy American Authors.

Robert Buchanan's bankruptcy is ascribed in part to unwarranted extravagance in living. No American writer has recently been brought into court on account of his debts, but it is noteworthy that successful authors in America frequently adopt a scale of living that seems to be a mere aping of the ways of the rich. Nearly every such author is driven into a variety of avocations to increase his income, and, while few literary men earn more than \$5,000 a year by strictly literary work in their originally chosen specialty, several earn three or four times as much in related occupations.

"Contains a multitude of interesting and valuable articles, notes and hints, presented by a close student and investigator."—Daily Spokesman-Review, Spokane, Wash.

"The best thing of the kind that has yet been published. \* \* The future of the fruit business is brought out strongly without exaggeration."—Rural Northwest, Portland, Ore.

"The Fruit Bulletin is a storehouse of facts interesting to our growers. It is also calculated to show eastern people that the Pacific Northwest is 'strictly in it' as a producer of staple fruits."—J. B. Holt, Manager Snake River Fruit Association, Wawawai. Wash.

"Most artistically printed and contains more horticultural matter relating to the northwest than we have ever before seen in one publication."-Pacific Farmer, Portland, Ore.

"I am delighted with the Bulletin. I do not think I ever saw anythiny more comprehensive on the fruit business. My belief that the country out here is the best part of the Union for home-seekers is stronger than ever."—H. H. Spalding, Treasurer State Board of Horticulture, Almota, Wash.

"Should be in the hands of every fruit raiser in the Pacific Northwest.

\* Shows in an interesting way just what our country offers to fruit growers and men who believe in small farms well tilled."—Northwest Horticulturist, Tacoma, Wash.

"There is not a topic likely to be of interest or value to the inquirer that is overlooked. \* \* A most complete and attractive compendium of the horticultural interests of the West."—Daily Oregonian, Portland, Ore.

# WANTED-A married man would like to ADDITATION ADDITATION

Our Spring Opening will occur Friday, Saturday and Monday, March 15th, 16th and 18th, at which time we shall be pleased to show to the ladies of Ann Arbor and vicinity the largest and finest line of Dry Goods and Carpets ever displayed

Thus far we are the only Ann Arbor firm that has had a representative in the New York market this spring. The advantages of this to us are plainly evident to every one who takes the trouble to compare our stock with others. These experessions have been heard in our store this week and serve to voice the sentiment of every shopper?—"Why is it that other stores don't get these new designs?"

"They asked us 65c at 'Blanks' for this, how is it tha you only charge 50c?" "The fashion papers speak of these goods, but you are the only one that has them in town." And we might add to the list almost indefinetly.

The sum and substance of it is that we have the finest and best selected stock of goods in Ann Arbor, a stock in which you will find quality has not been sacrifised to price, and yet the price in almost every case is twenty to twenty-five per cent. lower than last year.

May we have the pleasure of your presence on some one at our "Opening Days."

Spanish Cork Cutters.

This country imports more cork from the province of Catalonia, Spain, than does any other country of the world. Many of the cork cutters in this country are Spaniards, and they have a fine faculty of getting all out of a piece of cork that it contains. After a stopper or a sole has been made the smaller clippings are powdered so that they may be used for packing glassware. In Spain particles re-garded as unfit for packing are compressed into bricks that are used for building. The Spanish corkcutters of this country sometimes have considerable skill in making ornaments of cork.

the use of the Owen Electric Belt, and the I am actuated entirely by that motive, must be apparent from the fact that until you see my ame and address recorded on this letter you d no knowledge of either. I had long been sufferer from chronic dyspepsia and nervot prostration, contracted or aggravated by man cears residence in the East Indies. About thre ears ago I purchased one of your Belts in th ope that its use might afford me some relic and were it continuously as directed for about our hours every afternoon for a month or se id the result was perfectly marvelous. My ndigestion with all its attendant miseries, ne vousness, depression, irritability and insomnia from which latter I was a great sufferer, have Isappeared. I then discontinued the use of the Belt (the existence of which I had indeed for cotten), until about six weeks ago, when recurrence of my old trouble very foreibly reminded me of it. I again put it into west (after ceasing its use for over one and one-half years), and with the same extraordinary results seing again re-tored to health, strength and vigor, after wearing it for only ten days. Under hese circumstances I can most emphatically ecommend to others suffering from the allments which I have endeavored to describe, the ad ion of the use of the Owen Electric Relt. had long been aware of the curative powers of lectricity from what I had read on the subject d on my return to England I purchased from ulvermacher of Regent street, London, the combined chain bands, of which he is the patentee, for which I paid three guineas, and although I must admit that I derived some benefit from their use, I am bound to say the general result did not approach the benefit derived from the use of the Owen Belt, besides which its utility is so great an improv nent in comfort and convenience; Pulvermachers' being cumbersome and complicated in adjusting to the body, besides eausing from being uncovered, blisters and sores, and above all not being able to regulate the current as is the case in the Owen Electric Belt. You are at perfect liberty to make what use you think fit of this letter, and I shall be glad to answer either verbally or by letter any inquiry 205 TO 211 STATE STREET, made from me on this subject. ### FREE COINAGE OF SILVER.

The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe of a Very large adventising the state of the Springfield (Ohio) New Era writes, in his paper of June 29, 1894;—"I have received a sample knife from Mr. Sears, and am very much pleased with it. ### Knives.

A cheap Pocket-knife can be bought at every Store, but it is not the kind you want.

One dollar is the lowest price that a really good knife can be sold for. This sloumn is placed in this paper to adverise the very best Pocket-knife ever sold. It is J. C. TIDMARSH's Sheffield Steel Knife.

Never buy a knife only because it ooks well. If blades are not the best looks well. If blades are not the best Sheffleld steel they will soon bend, no matter how they will look. Still, you want a fine-looking knife.

The United States law provides that only samples to agents and to the trade will be admitted free of duty. can, therefore, see the advantage that I have in sending samples to agents over those who deal in Sheffield goods in America.

I am an advertising agent! 230 ontrusted with a certain amour \$ 30 30 and advertising these knives (31) best value ever seen in America at One Dollar each). Now, the kall, is its own best advertisement.

Imagine a Pocket-knife (3) inches Imagine a Pocket-knife (3‡ inches long) with the most beautifully-grained vory handle—genuine African ivory mand with two blades of the very best Sheffield steel that will last a lifetime and cut like a razor. The tips of the handles are heavily plated with sterling silver. And then a very nice chamois leather case goes with each knife. Now, would it not be easy work selling this knife at One Dollar each? I know it would, for it looks as if it were worth two dollars. were worth two dollars.

And so it is if you compare it with the value offered in the ordinary Store,

NO MORE BUFFALO SKINS. Wolf and Raccoon for Robes and Coats

A Carlbon's Head. "Buffalo skins?" said a clerk at a fur store in answer to an inquiry by a reporter. "They are practically out of the market. No new ones come in now, and the few that we have on hand are old ones that find their way to the furrier's. The price of a good buffalo skin is from \$50 to \$60. They used to be made extensively into fur coats for driving and rough winter traveling, but such a coat now is rarely seen except in out-of-the-way Northern localities where many old ones are still in use. Raccoon skins have taken the place of buffalo skins in the making of overcoats, but the fur coat is not much used now anywhere except in Minnesota and the British dominions. There is some demand for fur linings for which mink and Persian lamb are used, and sometimes Hudson bay sable, which cost from \$400 to \$1,000 for a coat. you will readily infer, the buffalo driving robe has become scarce and valuable. The gray wolf skins are more abundant.

"For robes and for ladies' furs the skin of the wolverine, of foxes of all kinds, raccoons, the Australian opossum of a smooth mouse-gray tint, and the young kangaroo, all furnish material. Almost everything in the way of fur may be used for boas and muffs. Here are some odd skins from the czar's dominions used in trimmings and linings, the Russian hamster, a health, strength and joy to the afflicted sian lamb, of a natural black, the astrakhans, krimmer, and pinhead; the badger, a beautiful silver gray with black dashes, and the fisher, a rare fur, a little darker than sable.

"This bison's head is worth \$160," he went on. "These heads of the moose, deer, and caribou are merely ornamental features of our line of stock. But they are worth looking at. Notice the moose's magnificent antlers and that peculiar protuberance above his muzzle. There in the caribou's antlers observe the flat, shovel-like prongs that push out from their base in front of his forehead. These he uses as shovels to dig away the snow from the plants and mosses he feeds on. He is the American reindeer fitted to get his living at all seasons in the far North. Look at his muzzle, how it is protected from the cold by fine white hair completely covering it down to the lips. It is the only animal that I know of that has this peculiarity.

"We have no head of the musk ox, but here is the skin of one, which is rare," and the clerk held up a skin, covered with long hair, deep brown in color, beneath which was a wool exceedingly thick and fine. Upon the back between the shoulders was a natural spot of lighter tint "This skin is worth \$65 for a rug," he said. "It came from the Arctic regions-Northern Asia I think.'

For cheap collections of butterflies and bugs we use the ordinary brass pins mostly, but everyone of these must be carefully examined before impaling the insect to see that it is well tinned. for were the tin coating imperfect or the slightest flaw evident it would be in nine cases out of ten liable to oxidize in the body of the insect and thus destroy it. We also use black varnished pins, but they are almost as bad, for the glazed coating soon cracks, leaving the metal exposed and consequently it is not very long before oxidization sets. Even the more expensive kind, the nickel-plated pins, are not much better. The latest things we have now are solid silver pins and bronze pins, and there is being used as an experiment a nickel and aluminum alloy which possesses decided advantages over all the other kinds used."—New York Sun.

He had been calling for some time upon a very charming young lady, whose most prominent features were her liquid brown eyes. The beauty of these eyes particularly impressed itself upon the susceptible Germantown youth. One day he met the young lady's most particular friend, and the conversation naturally turned upon the absent fair one. The young man, wishing to say something nice about her, remarked upon the "cow-like expression of her eyes." Of course, the particular friend told the young lady what the youth hal said, and the young lady not knowing that the cow has the most beautiful eyes of any animal, human or brute, became very indignant, and now she doesn't speak to the young Germantown youth. He, on his part, is inclined to believe that the young girl's friend told the other that he had said "she looked like a cow."

Escaped With Slight Injury. A lady who shared the late Kensington panic was going home one after-noon, writes James Payn in the Illustrated London News, when in a lonely part of her road a woman respectably dressed asked her the way to the very square in which she lived. Thinking this a certain prelude to the usual stab with a knife, the lady, with great presence of mind, hit her interrogator two violent blows in the face with the handle of her umbrella, which put her to flight, and ran home at the top of her speed. It was an adventure of which she thought she had some reason to be proud, though it rather upset her. She had advertised for a cook, and at 5 o'clock she was expecting a person to call upon her for the situation. She did not arrive, however, till nearly six, and then not in a very presentable condition. A bandage was on her forehead and some sticking-plaster over her nose. "I am sorry," she said, "to be late, ma'am, but I have had a frightful adventure. I asked my way to your house of a person who almost looked like a lady, and she up with her umbrella and knocked me about most dreadful: however, I am glad to have escaped, for I have no doubt it was the Kensington Rip-

SETTING TYPE IN JAPAN.

The Printer Must Keep the Run of Over | Wonderful Fower of Personation Result-4.000 Kinds of Type.

There are very keen journalists in the land of the chrysanthemum; but a sinuous Caze of gliding measures, it must be allowed that the business is appears almost a transformation or carried on under difficulties from reincarnation of the performer into the newspaper man might shrink.

The Japanese written and printed from bygone generations of Nautch characters consist of the Chinese dancers combine with close observaideographs, those complicated square figures made up of an apparent jumble of zigzags and crosses and ticks and triangles and tails-"the footprints of a drunken fly"-and of the original Japanese syllabary called

all, of which perhaps 14,000 constitute who concentrates the whole force of the scholar's vocabulary, and no her genius upon the requirements of fewer than 4.000 are in daily use, her art, differs as much from the while the forty-seven simple charac- ordinary Nautch girl of India as a ters of the kana are known to everybody. Therefore the Japanese compositor has to be prepared to place in his stick any one of over 4,000 different types-truly an appalling task.

several consequences naturally follow, writes Henry Norman in the Real Japan. First, he must be a good deal of a scholar himself to recognize all these instantly and accurately. Secondly, his eyesight suffers fearfully, and he generally wears a huge pair of magnifying goggles, and, thirdly, as of life seems to glow through the veil it is physically impossible for any man to reach 4,000 types, a totally different method of case arrangement has to be devised.

The typo, therefore, of whom there are only three or four on a paper, sits at a little table at one end of a large room, with the case containing his forty-seven kana syllables before him. From end to end of the room tall cases of type are arranged like the shelves in a crowded library, a passage three feet wide being left between each two.

The compositor receives his copy in large pieces, which he cuts into little "takes," and hands each of these to one of half a dozen boys who assist him. The boy takes this and pro-ceeds to walk about among the cases till he has collected each of the ideographs, or square Chinese picture words, omitting all the kana syllables which connect them.

While the boys are thus running to and fro snatching up the types and jostling each other, they keep up a continual chant, singing the name of the character they are looking for, as they cannot recognize it till they hear its sound the ordinary lower-class its sound, the ordinary lower-class Japanese not understanding his daily paper unless he reads it aloud.

There is not the slightest reason why you should not feel well and strong. That great offer of Dr. Greene's is proving the best friend that weak and delicate people ever had. A letter sent to him at this office, 35 West 14th St., New York City, telling the symptoms you are suffering from, will be immediately answered by the doctor, describing your complaint minutely, and making you understand perfectly just what all this costs you nother. And all this costs you nother than the circulation of The Chicago Herald is phenomenal and we glad to say that our own town "keeps up with the wagon." The Herald is the most popular Chicago paper that is sold here, and can always be obtained of F. Stofflet. Leave an order with nim. him at this office, 35 West 14th St., ails you. And all this costs you noth- with nim. ing. You don't have to leave your home and you don't have to pay any doctor's fee to learn exactly what your complaint is, and how to get well and strong, from Dr. Greene, the greatest living specialty of curing patients through his great system of letter correspondence, and is having wonderful success. Thousands of weak, delicate men and women are writing him about their complaints, and are being permanently cured. It was he who dicovered that world-renowned curative, Dr. Greene's Nervura blood and nerve rem. edy Write the Doctor at once and see what he says about your complaint. Heart-Broken Poll.

When a man tells you that he knows about a heart-broken parrot you are apt, on the first impulse, to look at him with suspicion. "But it is so," continued the man who said it, "and I will show you the moping Poll and can prove to you by several peo-ple that the bird is grief-stricken. There was a little girl in this household where this parrot lived, and the two used to chatter the livelong day when they were near together. The child sickened, and, of course, the parrot was taken to another room, and there it muttered for a few days and finally refused to eat. It was taken back to the sick room, and immediately its spirits revived and it chattered incessantly until it was again removed. The child died and the parrot has been silent ever since. Every effort has been made to enliven it, but the bird mopes about its perch and sits most of the time with its head under its wing. Over on Ohio street." -Chicago Tribune.

Watch Clubs.

Some persons recall with grief the days of watch clubs, when everybody in the club contributed a dollar a month, and as each watch was paid for some one of the club drew it by lot. The club principle has been applied somewhat differently to portrait photography, and that art, which is cheaper and better for the money than ever before in all its history, is made cheaper still to members of the

A bird dealer of New York evidently has a fair knowledge of human nature, if we may judge by a unique advertisement he has inserted in the papers. In this pronunciamento he claims to have for sale "gray parrots, Mexican parrots, vocal historians, sacred and profane." This range would seem to be wide enough to reach all classes of people in search of parrots, but the enterprising dealer has other cards "up his sleeve," so to speak. He states further that he has on sale "bullfinches which pipe opera airs, psalm tunes and polkas."

SUSAN AND THE MULE.

She Was a Shrewd Girl, But He Won

Her for His Wife. I was sitting out in front of the tavern in the West Virginia mountain town where I made my headquarters one summer, says a writer in Harper' Barar, when a lank mountaineer about 20 years old, rode up on a mule and greeted me by name, although 1 could not exactly place him. He dismounted, and, coming to where I was,

he sat down quite close to me.
"Colonel," he said, in a low, curious tone, "you kin respeck a man's feelin's, cain't yer?'

they are," I answered, slightly un-

proceeded, very confidentially, after sitting on. "I've been goin' to see evidently affected by the ha old man Mullins' gal Susan, an' she's exposure of his early life. tuck to me like a wet kitten to a hot

"Most women do," I ventured. "I reckon you're more'n half right," he admitted. with a sigh. "Anyhow, Susan tol' me to-day I wuz too pore, an' when I disputed the p'int, she said ez how I didn't have a cent ter my name; an' when I tol' her she didn't know what she was talkin' about, she up an' said she did, that if I could show her \$7 she'd nab me in home after it, an' I come ter you. You gi' me the money an' hol' that years mule fer hit till I get back yer agin, won't yer?"

The proposition seemed fair enough, he went away on foot, holding the \$7. While he was gone I got to thinking, and when he came back I lay for him. "Did you get her?" I asked, as I re-

turned the \$7 to my pocket.
"In course I did," he replied triumphantly, "fer Susan's a gal uv her

"By the way," I asked, as he Why didn't you call the young lady's attention to that?"

He winked slyly as he dug his heels into the mule's ribs.

"'Caze, colonel," he laughed aloud, "Susan knew hit warn't my mule." Susan's, I pondered profoundly or what a queer little cuss Cupid is.

A PONY TRACK.

The Unusual Concelt of a Weilthy Man in Brooklyn. A wealthy Brooklyn man recently built a handsome residence in a densely populated part of the city.

His action created considerable surprise among his friends, as the structure he erected would have been an ornament to the most fashionable thermometer. neighborhood in the city. It adjoined a coal yard, while directly opposite it are a number of why don't you try it yourself? It is ramshackle frame buildings, each one highly recommended.

of which provides homes for half a dozen families. The man's next move was to purchase and then tear down one of these houses and erect a fine red brick stable in its place. His last action, however, has stamped him as a really eccentric character.

He purchased the coal yard behind his house, tore down the fences and then had the place leveled off. Then he had a small trotting track laid out. The remainder of the ground he had sodded with the finest grass obtainable, and then an iron fence was erected, through which the whole of the interior was visible. The trotting track is a most diminutive affair, says the New York Sun, but amply large for the purpose for which it was laid out, which is the amusement of the man's 9-year-old son.

This lad owns a pretty little Shetland pony, which he rides like an expert, and any fine afternoon he may be seen tearing around the track at a great rate. The other children in the neighborhood gather around the fence and watch him enviously.

Occasionally he invites one of them in and gives him a ride around the track on his pony. He is a manly little fellow, and makes a pretty figure with his brown leather leggings as he urges on his pony. It is a strange sight in what is recognized as one of the poorer sections of the city, and sometimes as many as 200 people may be seen watching him through the fence.

John Van Tyle, of Edwardsburg, Mich., doctored for 30 years for fits, but got no help until he used Adironda, Wheelers Heart and Nerve Cure, which conditions the state of the which completely cured him. Sold by Druggists.

His Indebtedness to Cod. The following is an extract from Daniel Webster's notebook and pub-Hshed in the Boston Transcript:

WASHINGTON, D. C., Jan. 18, 1839. -Friday-I am this day 5? years old. My brothers and sisters have all died young. I was by much the most feeble and slender of the family in early life, but have yet outlived them all, and no one of them, I think, attained my present age, altho' I am not quite certain how this may have been with my half-brother, David "I think I can if I know where Webster, who was older than myself by ten or twelve years and who died certain as to what he expected of me. in Canada some years ago, but exactly "Well, I'm in this sort of a fix," he at what time I do not know.

"Uncle William Webster went to Salisbury with my father. He died several years ago, being much the longest resident in the township, and being, I think, something more than seventy years of age.

"My paternal aunts lived, as far as I remember, to be 70 or more.

"My mother also reached 70. Her two shakes uv a lamb's tail. Then I mother, Mrs. Jerusha Fitz, whom I said, I did, ez how I'd have to go remember well, died in my father's home about June, 1796, aged about 50

"My own health from the age of 25 has been remarkably good; and for little occasional illnesses I have too often been able to see obvious causes, for the young man was honest and often been able to see obvious causes, very earnest, so I held the mule and in want of proper care and discretion.

"If I were now to strike out from the number of my sick days ose which have been occasioned by ant of proper exercise, by unnecessary exposure, and by some degree of intemperance in eating and drinking, I should make a very great deduction from the whole list. For this uncommon health and for all the happiness mounted the mule, "why did you come to me for the money. The mule is worth a good deal more than \$7. Why didn't you call the young lady's I thank him for existence, for the pleasure and glory of rational being, for an immortal nature, and for all the gratifications, the joys, and the means of improvement with which he has blessed my earthly life; for the Then, as he rode merrily toward time and the country in which have lived, and for those objects . love and affection whose being has been entwined with my own."

Internal Temperature of Trees.

The internal temperature of trees is the subject of study upon which M. Prinze of Uccle, Belgium, has been engaged for some time. He says that the mean annual temperature of the heart of trees is exactly that of the surrounding air, but that the mean monthly temperature may vary from two to three degrees of the centigrade
