Republican City Convention.

One of the largest city conventions ever held in Ann Arbor met in the court room last Monday night. Eighty-nine of the ninety delegates were present. There had been evidence of discord in the party during the few days previous but when the convention met it was clearly evident that there would be perfect harmony. Geo. Pond, secretary city committee, called the convention to order. E. F. Johnson was called to the chair and Ald. Prettyman was elected secretary. Messrs. Scott, Dean and Goodyear were appointed a committee on credentials. The tellers were Dansingburg, Gasser and Schumacher. Upon a motion it was then decided to take an informal ballot for mayor. Result, J. T. Jacobs received 51 votes, G. F. Allmendinger 37 votes. There was one blank—total 89. Upon motion of A. J. Sawyer the nomination was made unanimous. A similar ballot was then taken upon President of the Council. Result, Fred. McOmber 47, Prof. Wines 39, scattering 3—total 89. Mr. McOmber was declared the unanimous nominee. The ballot for City Clerk showed that the other faction of the party still had a hold and Mr. Mills was nominated by a vote of 52 to 38 for Mr. Vandawarker. For Justice of the Peace, Corbin received a majority of the votes cast and was declared the candidate of the party. For Assessor, John R. Miner received 58 votes to Mr. O'Hearn 21, scattering 6. The convention then adjourned.

Democratic Convention.

The democracy were out in full force last Tuesday night. The important question, who shall we nominate for mayor; was the main topic of conversation. The leader in the democratic ranks, Chas. H. Kline, democrat for revenue only, had, however, settled that in advance and W. E. Walker was nominated on the first ballot over such men as H. J. Brown and Eugene Mann. This was a great disappointment to the better element in the party, but that element is not running the democratic party just at present. For president of the council Dr. Wessinger was nominated, and for clerk, Ald. Walter Taylor of the 5th ward was chosen. The two really good nominations were those of E. B. Pond for Justice of the Peace and Patrick O'Hearn for Assessor. The prevalent opinion seems to be that the ticket will lose by about one hundred and fifty majority.

Death of Daniel L. White.

Daniel L. White, the father of Mrs. Carrie Freeman, of 48 S. 4th-ave., died at the home of his daughter last Monday at half past 1 o'clock, p. m. Mr. White's home was at Savona, N. Y., though of recent years he has spent a portion of each year in Ann Arbor. The deceased suffered a slight stroke of paralysis two weeks ago last Sunday. Just a week later he suffered a much more severe shock after which he gradually grew worse until his death Monday. Mr. White had always been hale and vigorous although he lacked but a few weeks of his 84th birthday. Brief funeral services were held at residence Tuesday evening conducted by Prof. Coler of the Church of Christ. The remains, accompanied by Mr. and Mrs. Freeman, were taken to Savona, N. Y., for interment. The deceased had made many warm friends in Ann Arbor who with several children and grand children will mourn his loss.

The annual meeting of the local W. C. T. U. will be held this afternoon at 3 o'clock, in the parlors of McMillan Hall.

An Enemy of the City.

When THE REGISTER, at one time, spoke plainly about the moral condition of things in Ann Arbor under a former democratic administration, The Argus came out in bold head lines characterizing THE REGISTER as an enemy of the city. Because we would not bury our head in the sand and refuse to see the undesirable condition of affairs in the city at that time, we were made the subject of a vicious attack. Last Friday The Argus came out with a bitter assault upon the city government in which it makes out that Ann Arbor is the worst sink hole of iniquity in the whole state of Michigan; that rank moral lepers are daily parading our streets and flaunting their vices in the faces of self respecting people. One who does not know the real nature of the Argus would naturally think that lewd women ran the town! that all the officers of our city government were in league with this vicious element and only winked at the doings of this class, even if they did not go any further and accept bribes from them. The Argus had better read up its old files and see how really wicked it is for a newspaper to mention such things; how, as it then declared, the city is greatly injured by such statements, whether they are true or false. But the tables have turned since the former article mentioned above appeared in the Argus. It shows very plainly that it is not the interests of the city, but rather that of the party that furnishes the Argus, that concerns the editor most. Formerly it was to the interest of the party to cover up the evil, or deny its existence. Now it is different. Now "the city be d—d," if only it can paint things black enough and make enough wild and untruthful assertions to delude the unsuspecting into believing that a horrible state of affairs exists here, and thereby win back the city to the democracy next Monday. But its glaring headlines, and wild statements will have no effect upon the ballots that will be cast next Monday. People are well informed as to the real condition of things in Ann Arbor, and it is foolish for the Argus to attempt to influence a single vote by making such charges and thus making itself an admitted "enemy of the city."

Michigan School Masters' Club.

Yesterday and to-day there has been in session in Ann Arbor under the auspices of the Michigan School Masters' Club, an important educational conference. The program for this was given quite fully in last week's REGISTER. The regular meeting of the club will be held in Newberry Hall tomorrow and Saturday. A number of papers will be read by the following persons: D. C. Worcester, Ann Arbor; Miss H. M. Bailey, Grand Rapids; Florence M. Lyon, Detroit; Miss M. Merrill, Saginaw; F. E. Wood, Bay City; Miss G. Hastings, Detroit; G. W. Patterson, Ann Arbor; C. F. Adams, Detroit; H. N. Cuhte, Ann Arbor; P. C. Freer, Ann Arbor; D. E. Smith, Ypsilanti; C. E. Goddard, Saginaw; and C. B. Williams, Kalamazoo.

Death of Miss McCauley.

Miss Patience McCauley, sister of Mrs. J. M. Wheeler and Mrs. Anna E. Warden, died at the home of Mrs. Wheeler, on W. Huron-st., shortly after midnight last Thursday, aged 50 years. Miss McCauley has been living with her sister since the death of Mr. Wheeler, two years ago. The funeral services were held at the house on Sunday afternoon at 4 o'clock. Rev. C. M. Coburn officiated. The remains were placed in the vault in Forest Hill cemetery.—Times.

He will gratefully acknowledge receipt of desirable data from non-members, as he desires the directory to be as complete as possible."

There is an effort being made to induce the regents to provide for military instruction in the University. Capt. C. Gardner of the 19th Infantry, U. S. A., appeared before the board at their March meeting relative to the detailing of an army officer to give such instruction. It is understood that the majority of the board of regents are in favor of such an addition to the courses offered.

1030 Miles of Advertising.

The extent to which printers ink is relied upon in successful business enterprises the general public has very little conception of. It reads the advertisements it finds in the weekly and daily newspapers and its opinion of a business house is largely made up from the impression it receives from that source and so largely is an advertisement a true reflection of the character and business methods of the firm that places it before the people that the impressions it imparts and opinions molded thereby are very seldom erroneous. The public is a very just and discerning judge and is seldom deceived by matter found in newspaper columns. Like the character or business it represents, it gives it a casual glance or passes it unnoticed as being of no importance, or if it strikes the eye favorable and is found to contain the proper ring denoting that it is the agent of a progressive, wide-awake, and up to date business house, sent out for the purpose of informing the public of what its principal is doing, the goods it has to offer, the styles, prices, intentions and business methods all faithfully stated, the purchasing public soon finds itself interested in that kind of matter, it soon learns that there is intelligence there which it wishes to possess, that is of personal advantage, of vital importance in its every day personal transactions. An example of this kind of advertising is sent out by one of our business houses in this city and denotes a management that has a fine appreciation of what it requires and which has profitably occupied more newspaper space at given periods than any other business house great or small in the state. Some idea of the extent to which they have used printers ink in the past twelve months may be gained when we state that if all the advertising matter they have sent out during the past year were placed in one column it would make a column over one thousand miles long and this enormous space has all been occupied with matter in which the public is interested and was all circulated inside the limits of Washtenaw county. It is scarcely necessary to say the firm referred to is

MACK & SCHMID.

The question will naturally arise the mind of the reader, Does this kind of advertising pay? Can a firm in Ann Arbor advertise to this extent with profit to themselves? This question is best answered by Walter C. Mack their manager who says, "The only way such advertising can be made profitable is by taking the public into partnership dividing the profit with it, making buying and selling a mutual benefit, making the interest of the buyer identical with that of the seller in doing business at 'THE STORE'—keeping what the public requires. In a word, placing before it advantages in the way of selections that are positively unimpeachable and unapproachable. Where it can get the best with pleasant surroundings courteous treatment, ready service and a hundred other things to encourage trade that make us grow to its own advantage."

To be the leading trading place—"the trading center of Washtenaw county" with its 40,000 inhabitants is a desideratum they fully appreciate and have lost no opportunity, have spared no effort that they might gain that proud distinction. That they now occupy that position no one will question and the immense trade they have enjoyed the past years is a fitting recognition by the public of their efforts and their sound business principles.

Past achievement with them means future inspiration. No content to stand still or go back they are now more active than ever laying plans for the present year to still further increase their business and the great provision they have made to supply the spring trade, the tempting things they offer in desirable fabrics and bargains attest the success of their activity. Many months before the tariff schedule went into effect contracts were made with foreign manufacturers of several lines of Dress Goods and Linens very favorable to themselves on an anticipated market and at prices which have proved far below that possible to obtain at any importers in this country. These goods are now being sold at sensational prices and as a result their sales during February surpasses all previous corresponding months, largely when counted by dollars, immensely when measured by bulk and "THE STORE" has presented an appearance such as is usually found there during the heavy fall trading, a condition of things most gratifying and encouraging to them and eminently satisfactory to their customers.

Mr. Mack is now making preparation for his usual spring trip to the eastern markets and will spend some time there this year gathering up whatever may be found in desirable offerings. Basing his purchases on present trade indications they will be more than usually large. Many specialties for Easter will be brought out for their great Easter Sale.

Head work and hard thinking has built up The Store at every point. With money anyone can rent a store, put up signs, blow trumpets, but it takes more than money to do the kind of merchandizing that is really serviceable to a community. Money does not put people in possession of artistic taste and sound judgement. Genius for organization and the everlasting hammering at the thing to have it right, because nothing less than right will do, is an example of what The Store stands for, as an illustrated essay on commerce, good taste, comfortable and price, saving shopping.

"The Heart" is the title of an excellent paper lately published. Not until we read this instructive treatise did we have the true conception of how wonderful is the work of the human heart. We quote by special permission of the author the following from the preface:

"Very few people have ever given the attention to their hearts that this important organ warrants. This wonderful little machine which is not much larger than your hand, and only about two and a half inches thick, labors day and night without rest, performing such an enormous amount of work as to be almost beyond belief. Physiologists say each pulsation, or contraction of the heart exerts 50 pounds of force, which amounts to 3,600 a minute, 216,000 an hour, and the inconceivable number of 5,184,000 in a single day! Now, it is necessary that all this vast amount of labor should be done, and well done every day. The health will surely suffer in consequence of the least failure on the part of the heart to properly perform its duties. When it is weak or deranged it directly affects every organ in the human body and they are unable to perform their duties from lack of blood and nerve force. Those organs that are more intimately associated with the heart are usually first to feel the effects when it is irregular and fails to perform its proper functions."

This treatise is very artistically illustrated with colored plates, and, although strictly scientific, is written in a popular language, making it very interesting reading for all. The editor of this paper has made special arrangement with the publishers to have this treatise sent free to any reader who sends a postal card and mentions this paper, to

If all wives and mothers could fully realize how apt each one is at all times to be bereft of the protector and support of themselves and their children they would be more fully able to appreciate the real benefits of a life insurance policy. As an investment it is as safe and profitable as a savings bank while in case of accident or fatal illness the return is much larger. Persuade your husband to lay by something in a life insurance policy and be protected in case of misfortune which sickness or accident may bring. A policy in the old reliable New York Life Insurance Company is unequalled for protection and investment.

\$2,000 SAVED IN LANSING.

LANSING, MICH., Dec. 3, 1894. "I have been greatly afflicted with sciatic rheumatism for a long time and during the past ten or fifteen years have expended a great deal of money for medicine, visited Mount Clemens and other health resorts, but received no satisfaction from the treatment. Last spring, hearing of SCHRAGER'S \$1,000-000 RHEUMATIC CURE, I commenced using it and with two bottles I feel perfectly cured; not an ache or pain since. I can recommend it to be all that is claimed for it and know of many others who have been using it the same with best results. It saved me over \$2,000. Isaac Lederer, Hatters and Men's Furnishings.

NEWS OF INTEREST AND MORE OR LESS IMPORTANCE.

Li Hung Chang the Chinese Peace Envoy to Japan, Shot by an Over-Zealous Young Jap—Japan May Suffer—Working Men Desperate in Cleveland.

Li Hung Chang Shot by a Young Jap.

Simonski, Japan: As Li Hung Chang, the Chinese peace envoy, was returning to his lodgings in this place after having attended a conference with Count Ito and Viscount Mutsu, the Japanese peace plenipotentiary, a young Japanese fired a pistol at him. The bullet, fortunately, did no more harm than to inflict a wound in Li Hung Chang's face. The attempt to assassinate the representative of the emperor of China caused the most intense excitement, and on every side there were expressions of deep regret. The would-be murderer was arrested. It is believed he was prompted to the crime by misguided patriotism. His name is Kiyama, aged 21.

Yokohama: The news of the attempted assassination of Li Hung Chang created much excitement here. The emperor and empress will send a message to Shimonski to express to the distinguished Chinese statesman their regrets at the most unfortunate occurrence.

Washington: The news of the assault on Li Hung Chang caused a sensation in diplomatic circles. The opinion here is that Japan will suffer greatly as a consequence of the assault and that the position of China will be so strengthened that she may be able to secure better terms of peace than she could otherwise have hoped for. The incident may lead to the breaking off of peace negotiations which were proceeding so satisfactorily, or at least may postpone further action until Japan has guaranteed the safety of China's envoy and made proper reparation.

A Workhouse Club.

A number of socialists and populist reformers have begun the formation of the Workhouse club at Cleveland. The idea is to obtain 1,000 members, all unemployed workmen, and appeal in a body to the director of public works for employment. If he claims to be unable to furnish it they propose marching to the police court and requesting the judge to send them to the workhouse that they may have work, food, clothing and lodging. If the judge refuses, which they consider probable, they declare that they will deliberately violate some city ordinance, in order to be arrested and sent to the workhouse, probably by tramping on the grass in the public square or taking possession of a freight train. The purpose is to give the public a striking object lesson, showing that the city will not provide work for idle, starving men, unless they become law-breakers.

Japanese Fight at Formosa.

Yokohama: The Japanese attempted to make a landing at Makung on the Pescadore islands about Formosa, but were repulsed with slight loss on either side. The next day they occupied Fisher island, one of the Pescadore group. Sailors were landed on the coast and these were followed by troops. The Chinese made no opposition. Japan has purchased two warships from Chile. An official return that has just been issued shows that the total Japanese loss during the whole campaign has been only 1,654 men killed.

Was Senator Fair Poisoned?

San Francisco: The Call says the latest sensational development in the noted Fair will case is that insinuations are abroad that the deceased millionaire died by poison administered by parties interested in his death taking place at a certain time. Miss Phoebe Cousins, who claims to have been the affianced wife of Senator Fair, broadly hints at her suspicions that Senator Fair had been given poison at more than one time.

Spaniards Dismast a U. S. Schooner.

A Key West special says: The latest report is to the effect that the schooner Irene was fired into and dismantled by the Spanish cruiser Infanta Isabel. The Irene is a small schooner owned in this port by Canary Islanders. She sailed for the fish ranch at Punta Gorda, where it is reported an expedition sailed for Cuba. This point has been under surveillance by the Spanish cruiser and the schooner was followed from here and fired into.

25 Killed by Dynamite.

While 9,000 cases of dynamite were being transferred by boats on the Rhine from Germany near Lobith, the cargoes of two of the boats exploded, blowing the boats and boatmen to atoms. At least 25 persons lost their lives. Taking into consideration the fact that 1,600 of the cases exploded, the damage done in Lobith was not great.

Four Firemen Burned to Death.

Four firemen lost their lives in the fire in the St. James hotel, at Denver, Col. They went down with the floor of the rotunda and were horribly mangled and burned. There were 165 guests in the hotel, all of whom escaped uninjured. The damage by the fire amounted to \$40,000.

Dr. and Mrs. Hatten, Christian scientists, were arrested at Dayton, O., charged with manslaughter, pending the investigation of the death of Lillah Mead, the daughter of prominent people.

Announcement is made at Toledo that James M. Ashley, Jr., is an avowed candidate for the United States senatorship to succeed Calvin S. Brice, whose term expires next year. Mr. Ashley was vice-president of the T. A. A. & N. M. railroad.

Margaret Allen, who recently died near Gladwin, had, through hard work, become wealthy, owning hundreds of acres of fine farming land, but up to the time of her death she lived in a hovel that was often shared by pigs, poultry, sheep and dogs. She would often shoulder a sack of grain, carry it to the mill and return with the meal.

60 MINERS KILLED.

Terrible Explosion of Mine Gas Causes Scores of Deaths.

An explosion of gas occurred in the Rocky Mountain Coal & Iron company mine No. 5 at Red Canon, seven miles from Evanson, Wyo., with terrible results, 60 men being killed. The covering of the slope and buildings at the mouth were blown to atoms. The mine was considered one of the safest in the state.

Gresham Wants Thurston Recalled.

Washington: Rumors of weeks past have been now become practically confirmed to the effect that Secretary of State Gresham has demanded the recall of L. A. Thurston, the Hawaiian minister at Washington, and that at the same time the doors of the state department have been closed against the representative of the new republic and he has been told that he must communicate in writing with the secretary, as the latter declined to see him in person. Secretary Gresham is reported to have requested Minister Willis to formally communicate to the Hawaiian minister of foreign affairs the fact that Minister Thurston was persona non grata. The reason for this trouble is said to be the result of the administration's attempt to restore Queen Lili to the Hawaiian throne.

Building Blown Down—One Man Killed.

During the high wind at Creston, O., the side walls of a two-story brick building in course of erection collapsed, burying three persons. One, Jacob Wentz, the contractor, was taken out dead. His body was terribly crushed. Andrew Baird sustained a broken arm and a slight fracture of the skull, and Martin Murray was internally injured, but not seriously. Wentz leaves a widow and three children.

NEWS IN BRIEF.

Final ratifications of the new treaty between the United States and Japan have been exchanged.

The Cleveland Chamber of Commerce adopted a report from a committee upon the proposed ship canal between Pittsburg and Lake Erie. It was to the effect that if such a canal was made it would be of mutual benefit to Cleveland and Buffalo, but that the scheme was impracticable.

Great Britain was visited by severe March gales which did great damage in several large towns. At Birmingham four people were killed, at Leicester three were killed, in Wolverhampton one, in Walsall one. The property loss will amount to fully \$1,500,000.

The Danish steamer Horsa sailed from Savannah, Ga., with 197 Negro emigrants who are to establish a colony in Liberia. They are thoroughly equipped and the government will give them lands free and if this venture is a success thousands of southern Negroes will follow.

The tug Velos, bound for the stone quarries at Nelson and Haddington islands, was driven ashore on Trial island, off British Columbia, during the gale and is a total wreck. Five men were drowned. A barge with 25 laborers aboard was driven ashore on a sandy beach and all were saved.

For 35 hours a fishing fleet of five small steamers, with crews aggregating about 50 men, were icebound in Lake Erie, off Sandusky. The weather was very cold. It was a night of terror for the men, and when they finally stepped ashore they were weak from the effects of the cold and exposure.

In the reichstag of Germany a resolution was presented to congratulate Prince Bismarck on his birthday anniversary. It failed after a stormy discussion, and the president of the reichstag immediately announced his resignation, which caused an extraordinary scene, the members of the right rising in a body and cheering him vociferously.

The Saginaw authorities tried to force D. W. McDewitt to pay \$10 a day for the privilege of selling books at auction. He was fined for refusal to pay, and the circuit judge has just decided that the tax is unreasonable and against public policy.

STATE NEWS NOTES.

A CHAPTER OF THE DOINGS OF MICHIGANDERS.

Club Women Form a State Federation.—Drinkers' Club Displace Saloons at Saginaw.—Murder Rampant in the State—Better Crop Reports.

State Federation of Women's Clubs. A convention for forming a state federation of women's clubs was held at Lansing with about 60 clubs represented by many of the prominent women of the state. There was lots of talk and outside that the only business was the adoption of a constitution and the election of officers. The latter are as follows: President, Miss Clara Avery, Detroit; vice-president, Mrs. N. B. Jones, Lansing; recording secretary, Mrs. Kate E. Ward, Lansing; corresponding secretary, Mrs. Lorraine Immen, Grand Rapids; treasurer, Mrs. Martha A. Root, Bay City; directors, Mrs. L. H. Stone, Kalamazoo; Mrs. D. C. Brooks, Grand Rapids; Mrs. James O'Donnell, Jackson; and Mrs. Anna A. Palmer, Saginaw. The delegates were tendered a reception at the residence of Mrs. O. M. Barnes.

The organization was named "The Michigan Federation of Women's Clubs." The annual meetings will be held the first Wednesday of November of each year and Grand Rapids will entertain the first. Forty-nine clubs were made charter members.

Town of Decatur Badly Burned. For the third time in its history Decatur has been visited of a disastrous conflagration. Shortly before 6 o'clock a. m., fire was discovered in the Duncombe house, and before a stream could be turned on from the hand engine, which represents Decatur's fire department, the flames had made such headway that it seemed as if the whole business district was in danger of destruction. From the corner on which the Duncombe house stands the flames spread on both streets, and before the fire was under control eleven buildings were burned. Prompt assistance was rendered by the Dowagiac fire department with a steamer, but the mains for the new water works have not yet been laid and no water supply was at hand. The burned district occupied the principal corner in the village. Total loss about \$20,000; insurance, \$10,000.

A Bloody Murder at Ludington. S. D. Guenette, aged 22, a Ludington paper hanger, disappeared March 2, and it was thought that he had jumped into the lake, as he had expressed despondency because of ill health. Charles Lettau was passing the Epworth League assembly grounds when he discovered the remains half concealed in a barrel. His throat had been cut from ear to ear. There was but little blood on the snow near the barrel, and no traces of the knife could be found. There were, however, the prints of two different sizes of shoes in the immediate vicinity, and the conclusion was reached that two people had a hand in the crime. In Guenette's pockets were found 81 cents and a watch. No satisfactory motive for the crime has yet been found. It was not a case of robbery and Guenette is not known as having had enemies.

Shot the Clerk and Robbed the Till. About 8:30 p. m. a man walked into Light's meat market at Mason and shot Fred Williams, the clerk, in the face with a revolver, grabbed the money drawer and escaped with about \$75. He was a mulatto about five feet six, mustache and sideburns, wore brown Derby hat. Several people got a good look at the fellow, and part of an onlooker started after him, but without success. Lansing police officers arrested A. D. Riley, a colored man about 30 years old, for the shooting at Mason. The officers believe they have the right man, although his identification is not complete. Mason people were greatly excited over the crime, the boldness of the act being without parallel in that vicinity.

Improved Weather and Crop Reports. The U. S. department of agriculture, in connection with the weather bureau at Lansing, will begin the issue of a weather crop bulletin on April 9. The prevailing weather conditions, and their probable effect on Michigan crops, will be issued from week to week during the season of planting, cultivating the harvesting of crops. It is expected that farmers will derive considerable benefit from this service.

Suicide of a Prominent Farmer. Albion Smith, who lived on the same farm at Watervliet for 40 years, committed suicide by shooting himself through the temple. He had made all preparations for the event, leaving directions in writing on business affairs and funeral, and was dressed for the occasion. He leaves a large estate. Mr. Smith was perfectly sane, but troubled with insomnia.

George Timony was Murdered. The water in the mill race at Niles was let out and the body of George Timony, the Bertrand mail carrier who had been mysteriously missing, was found. There was suspicious marks on the face and a cut on the back of his head. No money was found on his person. It seems to be a clear case of robbery and murder.

Miss Eunice Welch, over 95 years old, living alone near Palmyra was found dead. She lay on the floor near the bed, as though she had fallen from a chair. Death must have occurred two or more days previous.

While Edward Hoyer, near Caro, was hauling logs to his home the sleighs tipped over. The little daughter of Peter Hoyer was buried under them in a ditch full of water. Strange to say, when the logs were removed she was found to be alive, and will recover. The girl was almost suffocated, but no bones were broken.

James H. Mullen, a leading business man of Charlevoix, was burned to death in a fire which destroyed the Walter's house at Central Lake. Loss on the hotel is \$5,000, no insurance. The fire caught from the kitchen at midnight, and the other inmates barely escaped in their night clothes.

MICHIGAN HAPPENINGS.

There are prospects for a new theater at Bay City.

The twenty-fourth reunion of the Eighth Michigan cavalry will be held in Mt. Clemens, March 26 and 27.

Benny Moon was struck by a derelict blown down by a gale at Allegan and knocked into the river and drowned.

Colored people of Saginaw held a meeting to protest against the massacre of their kinsmen at New Orleans.

A fish, game and protective club has been organized at Big Rapids to look after violations of law in Mecosta county.

The supreme court has decided that the governor has a constitutional right to transfer convicts from one prison to another.

A writ of error has been granted in the case of Dr. M. P. Fogelsong, of Hillsdale, who is serving a life sentence for poisoning his wife.

Owosso has cleaned away every dollar of its floating debt and has no debt of any kind except the water-works and improvement bonds.

Asher Wood is accused of burglarizing a church and a store at Shepherd. He is only 18 years of age, and has been in the Reform school at Lansing.

The wedding of Henry Goebel and Mrs. Barbara Reinike, at Sebewaing, was celebrated by 300 guests, and 25 barrels of beer were provided for the occasion.

I. Edgar Jones, the Muskegon poet, has been elected president of the International Society of Writers, which has vice-presidents in England, France and other countries.

A bimetallic league was organized at Grand Rapids. Charles R. Sligh, president, Judge E. A. Burlingame, vice-president, W. B. Folger secretary, James Verrier, treasurer.

A tramp caught Miss Gertrude Kelly at Blissfield and nearly choked her into insensibility. He was captured after a long chase and the hard hearted justice fined him \$15 and costs.

Manley Mageron, an inmate of the Asylum for Demented and Criminal Insane at Ionia, made his escape. He was sent from Genesee county for three years and his time was nearly up.

Lore Anderson, an alleged horse-thief, attempted suicide in the Ithaca jail. He tied a sheet around his neck, jumped and would have strangled to death had not a boy notified the sheriff.

The three-year-old daughter of Edgar Wining was terribly burned at Marlette by her clothes catching on fire from the stove. The mother's hands were burned in attempting to put out the flames. The child cannot recover.

Frank Lucia shot George Valdyne at Ewen in self-defense, Valdyne having drawn a knife in a drunken row. Lucia escaped and has not yet been arrested. He is a desperate character.

Valdyne is shot through the abdomen and may die.

It is reported that a beer garden and pavilion will be established a mile north of Grand Ledge, just over in Clinton county. A movement is about to be set on foot to urge the adoption by the legislature of the bill for township local option.

The Twenty-seventh Michigan infantry held a reunion at Laingsburg and elected the following officers: President John S. Blackmer, North Adams; vice president, Oscar Hancock, Hillsdale; secretary and treasurer, F. J. Buck, of Adrian.

John G. Waterman was arrested at Jackson on the charge of embezzlement. It is alleged that he purchased large orders of goods of Minor, Beal & Co., of Boston, and the Excelsior Manufacturing Co., of Bryan, O., then sold out for what he could get and left.

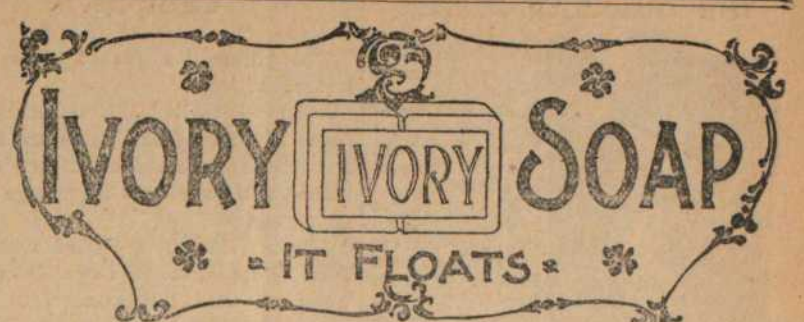

Peter English, who established the Benton Harbor water works and built the water works and tower at Buchanan, applied for an electric lighting and power franchise for Benton Harbor. The power to be furnished by damming the Paw Paw river one mile above town.

At Fife Lake fire destroyed the City hotel block, in which there were five dwellings, a shoe store, a grocery, the postoffice, a barber shop, a jewelry store and the Fife Lake Monitor office; also a dwelling across the street, a large hardware and agricultural implement establishment and three warehouses. The rest of the town was saved with difficulty. The total loss is \$20,000.

Mail Carrier Chambers and five passengers had a thrilling experience a short distance out from Mackinac island while crossing the straits on the ice. Without warning, horse and rig went through. All the occupants succeeded in reaching firm ice, although Mrs. Ferguson was about to sink for the third time, and County Clerk Hoban was seriously cut about the head. The horse was drowned, but the sleigh and mail were recovered.

James Battle, for years chief of the Detroit fire department, died of cancer of the stomach. He was at the head of the Detroit fire department for 45 years. He became chief in 1860, and with the exceptions of the year 1863 has remained in the position continuously. In point of consecutive service he was the oldest fire department chief in the United States. In February he was placed on the retired list on half pay and James R. Elliott made chief.

Charles Pacinaw was arrested at Saginaw on suspicion of setting fire to Emery & Simpson's mill, which was destroyed with a loss of \$15,000.

FORTY MILLION CAKES YEARLY.

THE PROCTOR & GAMBLE CO., CHICAGO.

FOR THE SENATE.

No other candidate can compare with Charles H. Smith, of Jackson, for the important office of state senator. His qualifications for the office are of the highest degree, his knowledge of public affairs is broad and thorough, his zeal and energy unlimited and tireless. At the recent Republican senatorial convention held in Jackson Mr. Smith was the unanimous choice of the delegates and his popularity is so wide spread that his election is assured by a majority which will run about 2,000.

Charles H. Smith is a product of Jackson county, born in 1857, one mile north of the village of Leoni, where the early years of his life were passed. He resided in Leoni township until the death of his father, Francis B. Smith, who was a soldier and was killed in the awful battle of the Wilderness, in May, 1864.

At this time Charles H., when but 7 years old, was thus early called to face the problems of life. With the family he removed to Waterloo, Jackson county, and assisted as best he could in earning a living until 1872. He then went to Grass Lake and entered the High School where he remained four years. After teaching school four years in the township of Henrietta he began the study of law in Jackson, where he has since resided. He is now the senior member of the well known law firm of Smith & Ware, who enjoy a large practice in all the courts. Mr. Smith was admitted to the bar in 1880. In all the years of early struggle he supported himself and earned money to carry him through school by hard labor on farms in the county during the summer time, tilling the soil, reaping the harvest, cutting hay on the trackless marshes of the Portage, and performing every variety of farm work. In this experience he learned to sympathize intelligently with those who toil and earn a living by the sweat of the brow.

This early struggle naturally directed Mr. Smith's attention to labor problems, of which he has made a careful study and with which he is familiar. He has at present the largest library of books relating to labor and money questions to be found in Jackson county. His views on these questions, reached through profound study, render him a safe representative of the whole people, and he has the courage to champion his honest convictions.

THE MUSCULAR SYSTEM

of every weary, thin or thin blooded person does its work with constant difficulty and fatigue. They feel "worn," or tired out, "run-down," or nervous. Feeble people who are dyspeptic, find that exercise after a meal is sure to cause lessened power to digest food—because there is so little blood, and what there is, is carried off from the gastric organs to the muscles. What is needed is plenty of blood, and that of the right kind. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and to gain in blood is nearly always to gain in *wholesome flesh* up to the healthy standard. Every one should have a certain surplus of flesh to meet the emergencies of sickness; to resist the attack of consumption, grip, malaria and fever. Thin blooded people are always getting sick, and none of the organs of the body can get along without the food they require for work, which is *pure blood*. To gain and to keep strength and flesh is the secret of health, usefulness and happiness. With new blood and refreshed nerves a confident feeling of returning health comes also. Nervous manifestations, such as sleeplessness, nervous debility and nervous prostration are in nine cases out of ten "the cry of the starved nerves for food." If you feed the nerves on pure, rich blood the nervous symptoms will cease. It is bad practice to put the nerves to sleep with so-called sedative mixtures, coca compounds or malt extracts; what is needed is a blood maker. The "Discovery" is composed of vegetable ingredients which have an especial effect upon the stomach, liver, and blood making glands. For the cure of dyspepsia, indigestion, liver complaint, weakened vitality, and for puny, pale people, Dr. Pierce's Golden Medical Discovery cannot be equaled. Thousands have testified to its merits.

Chancery Sale.

In pursuance and by virtue of the decree of the Circuit Court for the County of Washtenaw, State of Michigan, in Chancery, made and entered on the 24th day of March, 1894, in a certain cause therein pending, wherein John D. Mount is complainant and Fred E. Fisher is defendant, notice is hereby given that I shall sell at public auction, to the highest bidder, at the Southern or Huron street entrance of the court house, in the city of Ann Arbor, State of Michigan (that being the building in which the Circuit Court for the County of Washtenaw is held), on Wednesday, the 15th day of May, 1895, at three o'clock in the afternoon of said day, the following described property, viz: All that certain piece or parcel of land situated, lying and being in the city of Ypsilanti, County of Washtenaw and State of Michigan, and described as the south west quarter of section three (3) in township number three (3) south range seven (7) east; and bounded on the south by Forest Avenue; west by lands of Sarah M. Buland, north by lands owned by James Morton Teeple on the 1st day of May, A. D. 1884; on the east by lands of Susan Webster at the same date, containing four (4) acres of land, more or less, as described in Liber 126 of Deeds, on page 276, in the office of the Register of Deeds for the County of Washtenaw, Michigan. Dated, Ann Arbor, March 27th, 1895. O. ELMER BUTTERFIELD, Circuit Court Commissioner, Washtenaw County, Michigan. BOWEN, DOUGLAS & WHITING, Solicitors for Complainant.

Probate Order.

STATE OF MICHIGAN, ss. COUNTY OF WASHTENAW, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Thursday the twenty-first day of March in the year one thousand eight hundred and ninety-five. Present, J. Willard Babbitt, Judge of Probate. In the matter of the estate of William R. Hamilton, deceased. On reading and filing the petition, duly verified, of E. M. Palmer, praying that the original commission on claims against said estate be revived, or that the court appoint a time and place for hearing the claims of said petitioner before himself. Thereupon it is ordered, that Tuesday, the 23rd day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the prayer of said petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in THE ANN ARBOR REGISTER, a newspaper printed and circulating in said county three successive weeks previous to said day of hearing. J. WILLARD BABBITT, Judge of Probate. W. G. DOTY, Probate Register.

Campus.

The junior lites gave a class social last night.

Isaac Sheets, lit '95, who went to his home at Troy, Ohio, some time ago, on account of the sudden illness of his father, will not return to college until next year.

Edward Horsky, a senior-law student, from Montana, broke down from over work and was taken last week to Philadelphia for treatment by Dr. Pepper, of the Univ. of Pa. Lack of exercise and too hard study were more than he could stand.

W. G. Salter, '95, an engineering student, met with a severe accident last Saturday afternoon. While carrying a heavy piece of iron up a flight of stairs, he slipped and fell and was struck upon the head by the iron he was carrying. At first it was feared that his skull was fractured, but this proved untrue. He is now rapidly improving.

The co-eds were made glad when Pres. Angell announced in his speech before the legislators that regent Hebard had telegraphed the information that he and a friend would give \$10,000 towards the co-ed annex to the gym, and that regent Barbour had consented to transfer his gift of a lot in Detroit worth \$25,000 to the same fund. It will take only \$15,000 more to erect the annex.

Having made extensive purchases of bed room sets I will sell them at greatly reduced prices. A handsome set with German level mirrors at \$13.50. Mattresses and springs together at \$4.50.

Elegant New Goods.

Martin Haller has again made extensive purchases of Furniture, Carpets and Draperies for spring trade. His three floors are crowded with all kinds of goods at prices and styles for furnishing your homes. Having been in the furniture business for over fourteen years he is acquainted with all the most prosperous manufacturers and knows where to buy the best goods at the lowest prices. A walk through his store will convince you that there is not another stock like his in the city. The first floor is filled to overflowing with ladies desks, combination book-cases, hall trees, chiffaniers, folding beds, office chairs and desks, dining chairs, cheap arm chairs and rockers, side boards, draperies and furniture coverings of all kinds. On the second and third floors, which are reached by a passenger elevator will be found a large number of parlor suits, easy chairs, lounges, divans, parlor cabinets, rattan and reed rockers, library chairs, leather rockers and couches, fancy hall and reception chairs in all the newest woods, bed room sets, parlor and library tables, linoleum, art squares, extension tables, student tables, baby carriages, carriages, china and Japanese matting, spring beds, mattresses, cots, pillows, comfortable, brass and iron beds, white enameled dressers and wash stands.

Mr. Haller has just received a large assortment of carpet samples of O. W. Richardson & Co. the largest jobbers of cut carpets in the United States. You are invited to call and inspect his stock before buying your goods and all mail or telephone orders will be promptly attended to.

Probate Order.

STATE OF MICHIGAN, ss. COUNTY OF WASHTENAW, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Tuesday the 26th day of March, in the year one thousand eight hundred and ninety-five. Present, J. Willard Babbitt, Judge of Probate. In the matter of the estate of Julia A. Clark, deceased. On reading and filing the petition, duly verified, of Edward A. Clark praying that administration of said estate may be granted to Leonard Gruner or some other suitable person. Thereupon it is ordered, that Monday the 23rd day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in THE ANN ARBOR REGISTER, a newspaper printed and circulating in said county three successive weeks previous to said day of hearing. J. WILLARD BABBITT, Judge of Probate. W. G. DOTY, Probate Register.

As between J. T. Jacobs, the republican nominee for mayor and Warren E. Walker, the democratic nominee, there can be no comparison. Mr. Jacobs has always been one of our leading business men, has been foremost in many of our most important public enterprises, has always been a staunch friend of the laboring man, has not weakened his popularity by compromising complications of any kind, has always had the respect and confidence of our business men, and is in every way worthy the respect and honor which his party desires to bestow upon him. A vote for Mr. Jacobs and the whole republican ticket will be a vote for the best men in the field and will insure good government for our city for the next two years.

AMONG the various candidates for office this spring there is no one more worthy of support than Glen V. Mills, the candidate for city clerk. Mr. Mills was born and has grown up in this vicinity. He has had his own row to hoe and has learned what hard work is. As a result he has a strong feeling for the laboring men whom he has always favored whenever and wherever opportunity has offered. Mr. Mills by his own efforts worked his way through the University. He has always been a staunch supporter of his party, and as such, will receive its solid vote. It is to his credit that he has built up a large directory business here which every year brings to Ann Arbor business houses and to Ann Arbor labor several thousands of dollars. Vote for the man who believes and works for his own town and who is in every way fitted for the duties of the office for which he is a candidate.

The Legislative Visit.

The legislators were here in full force, or nearly so, last Thursday and Friday. A few of the principal opponents of the University failed to put in an appearance. They were evidently afraid that they might see something that would convert them. All the arrangements made for the entertainment of the distinguished guests of the city and University were carried out and all seemed to enjoy their visit here. What will be the result of the visit, so far as the appropriations asked by the regents is concerned, it is, as yet, difficult to say. The magnitude of the University and the great demands for money necessary to keep the institution in the front rank, are things which cannot be fully realized from a few hours investigation and a few brief speeches, no difference how much is seen, or how apt and to the point are the speeches. To adequately appreciate the needs of a great university, one must give it more than a passing thought, or do more than take a mere glimpse of the various departments. Almost without exception the members of the legislature were pleased with what they saw. Few of them, however, were ready to go back to Lansing and vote for the appropriations asked. If each one who was here will give the matter a due amount of careful deliberation the chance for the appropriation would be good. It is not likely, however, in the hurry incident to the latter part of the session, that such a thing will be possible. The chances, therefore, of all the money asked, being granted, are not good. Not a few people claim, and a goodly number of the legislators seemed to be of the same mind, that it was a mistake to ask for any appropriations at all from this legislature. There is, possibly, considerable truth in this. After getting the sixth mill bill only two years ago, and since, by an error of the legislature, this was made available at once so that the University received both the sixth and the twentieth mill tax the same year, a great many people claim that it would have been better to have waited a few years longer before appealing for more help, no matter how great the need for additional appropriations.

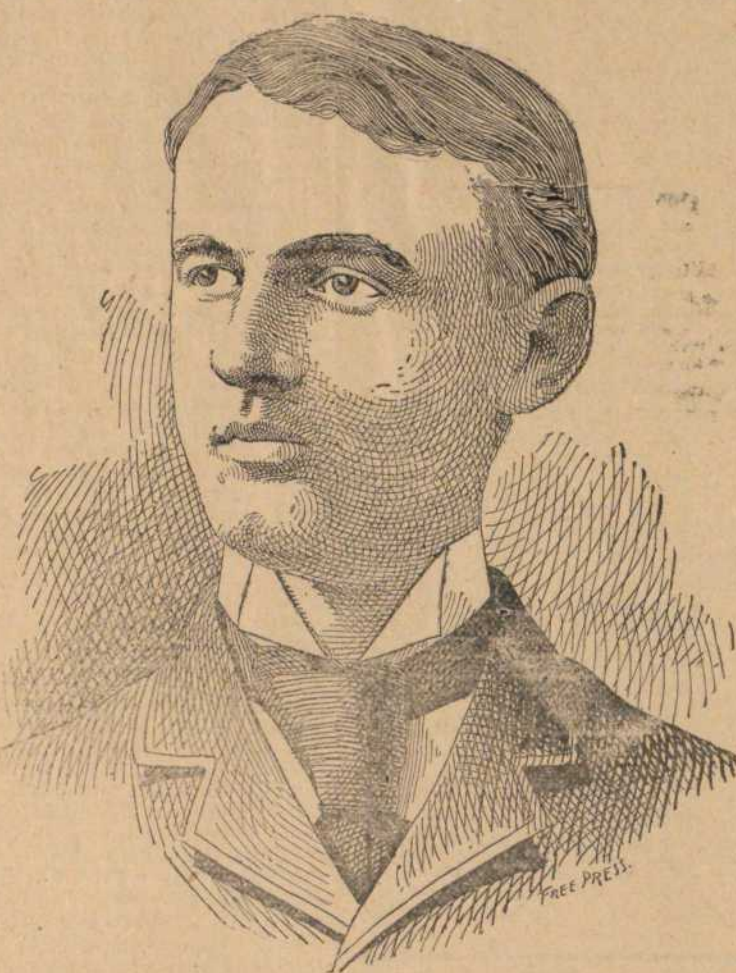

The Peoples' Candidate.

William W. Wedemeyer, the Republican candidate for county school commissioner, of Washtenaw county, is one of the most worthy representatives of the German population of the county, especially among the younger men. He is a son of the county, having been born in the township of Lima, the son of Frederick and Augusta Wedemeyer. Mr. Wedemeyer's early life was spent on the family homestead, where he had the healthy and vigorous early training that is largely responsible for the energy that has always characterized his work.

Up to the age of 15 years he attended the district school, when his desire to obtain a higher education, led him to enter the Ann Arbor High School, from which he graduated in 1890. He at once entered the literary department

of the University, and has also become well acquainted with the schools and the teachers of the county, an acquaintance that has only been extended from the previous knowledge that he had acquired. Above all this, Mr. Wedemeyer is a thorough student, one who would make a study of the common schools and their needs, and such an officer is one who can do great good for the public school system.

Mr. Wedemeyer has inborn executive ability. His mind is peculiarly fitted for organization and leadership. The problem presented in the common schools just now is their unification. System is the great need. To solve the problem a student of the system must take hold of the matter. Only a natural organizer can bring the schools of the county up to the desired ideal. The work cannot be done in one or two

MR. WILLIAM W. WEDEMEYER.

of the University, graduating therefrom last June with high honors.

It is not out of place to speak of the hard struggle that Mr. Wedemeyer had in getting through the University. In the year 1885, his father had died, so that the young student could not look for the assistance from home that most young men have in their University course, and which is considered almost indispensable. But he surmounted this obstacle by working his way through. In the summer of 1892, when his second year's work was completed, his mother died. He left the University that summer telling his classmates that he did not know whether his financial resources would permit him to return the next fall or not. Those who were acquainted with the persistence of his character were not surprised to see him back at the beginning of his junior year. From this time on his University expenses were largely earned by doing newspaper work, writing for the Washtenaw Evening Times and lately for the Detroit papers. In this way he worked his way through the University and won his degree.

Though filled with unusually hard work, Mr. Wedemeyer's University career was also unusually full of college honors from classmates and faculty alike. He was on the staff of the U. of M. Daily. In his senior year he was one of the editors of the Castilian, the senior annual. He gradually became known as a brilliant orator, and in 1894, President Angell appointed him to deliver an oration for the Union League Club in Chicago. In his senior year he was President of the Students' Lecture Association and was the orator of his class. He was also elected an officer of the Northern Oratorical League, and in this capacity went to Madison, Wis., in the spring of 1894, to preside over the contest of the league, in which were the representatives of seven different colleges and universities. Besides this he held many other offices and became one of the best known men in the University. His ability as presiding officer became so well known that at the beginning of the present year President Angell asked him to preside over the freshman election, the most difficult body of students to handle. The result was to turn what promised to be the most disorderly meeting into a model student gathering. In connection with his gifts as an orator, it might be mentioned that Mr. Wedemeyer took the stump for the Republican party last fall and delivered several able campaign speeches.

Mr. Wedemeyer is a fine specimen of the product of our public schools. Beginning with the lowest, he advanced rapidly until he has graduated from the highest institution in the county, in the state and in the country. He has also taught several terms in the district schools of the county, the very schools with which the county school commissioner has the most to do. For the past two years, also, he has been one of the board of county school examiners, from which office he has gained valuable experience as to the duties of

years, perhaps not under the administration of any one man. The work has been begun. The task is to push it to completion. If the electors of Washtenaw county see fit to place the burden upon the shoulders of Mr. Wedemeyer, they will not have cause for regret.

PRETTY NEARLY ENOUGH.

The Argus office is now receiving from the public treasury as salaries to its proprietors, each of whom hold office, between three and four thousand dollars per year. To most people this would seem to be about enough, but this does not appear to be true. At least one of these gentlemen, Mr. D. A. Hammond, is now asking the citizens of Washtenaw county to add another \$1,500 to this each year for the next two years. This verges extremely near the gall limit! This might be justifiable if, first, the candidate of the opposite party were incompetent, or second, if the Democratic party had no other competent man to nominate.

Neither of these conditions exist. Mr. Wedemeyer, the Republican nominee, is one of the most able young men in Washtenaw county today. He is a product of Washtenaw county and has for the past three years been county school examiner, a position which he has filled with unusual credit to himself. He is the man whom the people of Washtenaw should elect Commissioner of Schools next Monday. They will make no mistake if they do so.

The Salaries Amendment.

The following is the substance of the proposed amendment to the constitution of Michigan relative to the salaries of state officers, to be voted on at the general election to be held on Monday, April 1, next:

Section 1.—The governor shall receive an annual salary of \$4,000; the judges of the circuit court shall receive an annual salary of \$2,500; the state treasurer shall receive an annual salary of \$2,500; the secretary of state shall receive an annual salary of \$2,500; the commissioner of the land office shall receive an annual salary of \$2,500; the attorney general shall receive an annual salary of \$3,500; the superintendent of public instruction shall receive an annual salary of \$2,500; the auditor general shall receive an annual salary of \$3,000; they shall receive no fees or perquisites whatever for the performance of any duties connected with their office, and they shall personally attend to the duties of their offices. It shall not be competent for the Legislature to increase the salaries herein provided.

The amendment is to be submitted to the people at the spring election, on the first Monday in April. The ballots for and against the amendment are to be printed at the foot of the general ticket as provided by law, and designated as follows: Amendment to the constitution relative to salaries of state officers. —"Yes." Amendment to the constitution relative to salaries of state officers. —"No." The ballots in all respects are to be canvassed and return made as in elections of justices of the supreme court.

SPRING HINTS.

Some Good and Necessary Advice at This Season.

THERE ARE SOME THINGS WE MUST SUPLY DO.

And This Thing is by Far the Most Important of Them All.

Everybody needs a spring medicine—a remedy which will strengthen and invigorate the system, and tone up the action of all the organs. The change from cold to warm weather causes a depression of the vital forces, resulting in weakened nerves, impure blood, and inactive organs.

Our esteemed correspondent, Mrs. A. S. Gould, writes from Garland, Me., some facts in regard to this subject which will be of great interest and value just at this season:

Through the loss of my mother, the sickness of my husband, and the extra work which fell upon me, I was thrown into a condition of nervous and physical exhaustion. I grew constantly worse. I cannot find words to express that terrible feeling that existed through my whole system—a feeling of utter weakness, prostration, with strange nervous sensations.

"My right foot was so bad it was with great difficulty I could walk. I had to place my foot every way to keep from falling. My hands and arms were weak, numb and prickly. I was very tired all the time. There was a heavy dull feeling in my limbs. When out riding a mile distance, they would feel as though I had lost the use of them. I would move my fingers and arms to see if I could. I expected any day to be found paralyzed.

"Then I began to take Dr. Greene's Nervura blood and nerve remedy. The first bottle did not seem to help me much, but the second bottle did, and made me better. I kept on using it.

MRS. A. S. GOULD.

"Now I am feeling well, can do all my work and sleep well nights. I feel as though a great burden had been rolled away from me. I am doing a great amount of work every day and often walk, besides, as much as two miles.

"I think I will pass for a smart old lady, so much for Dr. Greene's Nervura blood and nerve remedy! I can truly say it has done wonders for me. I cannot speak too much in praise of it, for it has been the greatest blessing to me.

"I only wish other people afflicted with disease would try it—not one bottle, but several, in order to give it a fair trial. I truly think they would never be sorry. My earnest prayer is that this wonderful remedy may go out into the wide world to sick and suffering humanity."

If you want to be perfectly strong and healthy, the best possible thing to do is to take this great curer and strengthener. You can be cured quicker in the spring than at any other season. You must take a spring medicine, everyone knows that, and Dr. Greene's Nervura blood and nerve remedy is the best and most certain, because it always cures.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 W. 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene, is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone at any time, free of charge, personally, or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

Easter Opening.

Miss Mae D. Esty, formerly of this city, who has spent some time in Detroit with Madam Rouen, of 409 Woodward-ave., Detroit, has returned to Ann Arbor and opened up elegant millinery parlors in the Sager Block on E. Speaking of the Adrain Council, the
Adrain Press contains the following
emphatic assertions about the Adrain
Water Works:

It has failed to compel the water
works to furnish wholesome water, and
has entered no protest against the
filthy, unwholesome water that has
come through the mains, in which the
mud and slime and frog spittle, are
plentifully mixed with bugs, beetles,
blood-suckers and lizards.

That beats anything ever said against
the water furnished by the Ann Arbor
Water Co. Adrain people seem to be
furnished by its Water Co. with both
meat and drink. Do you have to pay
extra, Bro. Stearns, for the mixture!

The democrats had a very hard strug-
gle to choose their candidate for high-
way commissioner. After a ballot of
twelve times, B. A. Logan was declared
elected. It's too bad they have so much
trouble.

The following is the Republican
ticket: for supervisor, Wm. Buttrick;
clerk, B. W. Amnden; treasurer, Ed.
Root; justice, J. H. Kingsley; highway
commissioner, Geo. M. Sutton; board of
review, Geo. Heinenderger; school in-
spector, Fred Hall; constable, Ed.
Hythe, Adam Schiele, Porter Broner
and W. Decker. You Republicans have
made a good choice this year and will
have an easy victory over the "Boy
party."

WHITMORE LAKE.

Mr. F. Holmes is on the sick list.

Mr. and Mrs. Jas. Hanby and son, and
Geo. Switzer spent Sunday with friends
in Dixboro.

Henry Weber and wife spent the
Sabbath with relatives in Francisco
and Chelsea.

The Misses Stackable, of Pinckney,
spent part of last week with Miss Mag-
gie E. Kelley.

Don't forget the spelling contest and
entertainment under the auspices of the
school at Lake House on Friday even-
ing.

Master John Butterfield who has
been attending school at Clinton is home
on a two weeks vacation. He is the
same old John.

Mr. Freeman Shuart, of Dixboro, will
move his family here this week. He
and his son Fred will erect a new barn
on the Babcock place this spring.

Wm. Orr, telegraph operator at this
place, was called to his home in Dun-
dee on Saturday by the death of his
sister. His wife and niece, Miss Nellie
Orr, left Monday to attend the funeral.

The millinery social announced for
this week Wednesday at the residence
of L. J. Stiles in Green Oak is postponed
one week on account of sickness. This
will give the girls a chance to learn
the millinery trade.

Mr. E. E. Latson school master at this
place gave the youngsters a half holi-
day on Friday and took them to visit J.
D. Stackable's school in Green Oak.
All report a jolly good time. Claud
Moss of this place spelled the schools
down.

About 50 friends gathered at the
home of the M. E. pastor on Wednes-
day evening, and presented him with a
beautiful oak chair for his study. Rev.
Gibson is an earnest worker for the
cause of Christianity and very much
liked by both young and old in this
community.

Miss A. Lowe, of Webster, was initi-
ated, and one of the best literary pro-
grams rendered that has ever been
given at their meetings. They will
give an entertainment at Lake House
on Saturday evening, April 13.

WEST PITTSFIELD.

Mr. Zwergle, of Saginaw, is visiting
Alfred and Lizzie Hutzel.

Hanford Bros., are making prepara-
tions to build an addition to their house.

Mrs. Susan Dillon and daughter, Mrs.
Vada Guinon, of Petosky, were the
guests of Mr. and Mrs. Geo. Sperry
last week.

A very neat surprise party was given
at Geo. Wilsey's last Friday evening.
Progressive Pedro was the order of the
evening until eleven o'clock when ice
cream and cake were served. Mr.
Wilsey and Mrs. C. Almdinger were
the prize winners.

FIRE AT CHELSEA.

Glazier Stove Works in Ashes.

[Special Correspondence.]

Again the fire-fiend has visited the
defenceless town of Chelsea. Chelsea is
too poor to maintain even the pretence
of an efficient fire department. The
result is that her citizens are treated
to frequent pyrotechnic exhibitions
that furnish interesting night enter-
tainments without admission fee. The
most ambitious enterprise, in a busi-
ness way, and the one that is doing the
most to stimulate the growth and pro-
sperity of Chelsea, is the Glazier Stove
Company which is engaged in manu-
facturing oil stoves, heaters and cook-
ers. It has been in operation about
four years, and employs when in full
blast about 80 men. This was the
location, Monday evening, March
25th, of one of the saddest sights, of its
kind, that has ever been witnessed in
Chelsea.

About twenty minutes before eight
o'clock last Monday evening, the
hoarse whistle at the Stove Works sent
forth in rapid succession three shrill
screams, repeating the same three times.
These were followed by the fire-bell
which repeated the alarm by a vigorous
and rapid rattle. The cause of these
startling signals was soon ascertained
to be at the Stove Works. Thither a
large crowd soon gathered and wit-
nessed, during the next two hours, the
most desperate efforts to extinguish
flames that many of them had ever seen.
It was a brave fight. Much valuable
property was saved. The flames, how-
ever, had their own way at the end;
though their victory for a long time was
a slow one. Of the five buildings, stand-
ing in close proximity to one another,
three were entirely consumed. Next
to the buildings that were consumed
stood a fire-proof structure, a part of
which is occupied as the office. This is
built of brick, with iron frame,
iron ceilings, and stone floors and
roof. Here the work of destruction
was stopped; and the next building con-
taining the electric plant; engine, boil-
ers, and heavy stamping machines,
were thus saved from ruin. The loss
will aggregate about \$50,000, covered
by insurance, \$33,000.

Adrian Press Notes.

The Bridgewater postmaster is
learning shorthand. It's a great sav-
ing in handling letters. No wonder the
Bridgewater correspondent of the En-
terprise speaks of him as "Our genius
railway agent and postmaster."

Must be a Democrat and is daily ex-
pecting the G. B. and is preparing for a
better position. He is on the right
track, by taking the course given by
the school in Ann Arbor.

C. H. Chapman, of Reading, tapped
700 trees in his sugar bush about two
weeks ago. Maple sugar icicles as big
as hand-spikes are gathered up daily,
and Chapman will have the first "pure
maple" sugar on the market in that
vicinity.

Rev. Walker, of Chelsea, lately deliv-
ered at a church in Ann Arbor, a lec-
ture on "The Germans at home." The
domine spoke from personal experi-
ence, and the way he combed down the
Tenton, was a caution. He had visited
that country, and he didn't like things
a little bit, and said so in language
that could not be misunderstood. It is
needless to say that the Ann Arbor
"Deutschers" are indignant.

Last Sunday morning Rev. Coburn,
of Ann Arbor, discoursed upon "The
greatest man of his age." Senator
Eaton went down to hear what the
domine had to say concerning him, and
Pingree came up from Detroit to learn
what the Ann Arbor preacher had to
say about Detroit's mayor. Both claim
that Coburn don't know his business
and the sermon won't be used as a part
of the family record by either.

Ann Arbor's city engineer has esti-
mated the expense of a district sewer at
\$50,000. The sewer is 15 miles long.
This is a good deal of sewer, but it
must not be forgotten that there are
nine newspaper offices in the city, and
anything less than 15 miles would hard-
ly afford relief, though fourteen and
three-quarters might answer.

You never can tell just what a jury
will do. Some time ago, a chap was
apprehended, charged with burglariz-
ing Sheehan's book store at Ann Ar-
bor. He was arranged in the circuit
court last Tuesday, pleaded guilty, and
then just as he was to get his sentence,
he withdrew his plea, and after a trial
lasting some time, the jury acquitted
him. Must be the jury got "miffed"
over Sheehan's anti-silver ideas.

For the Fruit and Flower Mission.

The ladies of Ann Arbor are arrang-
ing for a novel social event. It is to
take place on the afternoon and even-
ing of April 5, at the residence of Mrs.
President Angell. Although it is in-
tended to be a "way-up" society affair,
it is primarily a money-making scheme
for a worthy cause, to furnish fruit and
flowers to the poor sufferers at the Uni-
versity hospitals. If money enough is
raised, some of it will be applied to-
wards helping poor girls to take ad-
vantage of the hospitals who would
otherwise not be able to obtain medical
aid. The event will consist in an elab-
orate "Blue Ware Exhibit." One of
the Detroit papers, speaking of the
affair says: "By making the event
recherche in every respect, the ladies
expect to reap a harvest. Dainty invi-
tations will be sent out on finely en-
graved blue and gray to about 1,200 of
the really elite of the faculty, city and
student body. A healthy admission
fee will be attached to each and every
invitation. The exhibit itself will be a
stunner of its kind. None of the blue
ware to be exhibited will be less than
forty years old, and many of the pieces
will have no age. Some will have
guaranteed pedigrees, reaching back
to very ancient English and Chinese
times. The only pieces of less than old
maid age that will be permitted to have
a place in the procession will be the
modern delft ware, the fad for which
is said to be close on the heels of the
Tribby craze. The exhibit will be cat-
alogued for the benefit of the men. The
committees having the exhibit in
charge are as follows: Collecting, Mrs.
Charles B. Nancrede, chairman, Mes-
dames J. P. McMurrich, J. L. Markey
and H. C. Adams, Miss Rose Demmon,
and Messrs. B. P. Bourland, J. R. Elin-
gor, H. Randall, J. R. Babcock and
J. E. Beal; invitation, Mr. W. H.
Lewis, chairman, Mrs. A. H. Lloyd
and Miss May Cooley; arrangements,
Mrs. I. N. Demmon, chairman, Mrs. M.
L. D'Orange, and Mrs. A. C. McLaughlin,
cataloguing, Dr. A. S. Warthin, chair-
man, Mrs. W. P. Lombard, Mrs. W. S.
Perry, Miss Alice Hunt and Miss Dean;
press, Miss Paine, chairman, Miss Bes-
sie Dunster, Messrs. W. W. Wedemeyer
and Harry Coleman. The men who
have been drawn into the enterprise
look askance, as if a little out of place,
and swear that they could not tell a
piece of delft ware from the product of
a brick and tile factory.

Dr. Wood's Norway Pine Syrup
brings instant relief in cases of asth-
ma, bronchitis, and all throat and lung
diseases, down to the very border
land of consumption.

New Store.

One of the neatest little stores in the
city is that just opened on the North
Side by Mr. Henry G. Lodholz at No. 6
Broadway. The store has heretofore
been used by Mr. W. F. Lodholz as a
stock room. Henry has had the room
entirely refurnished upon the inside, has
put in new shelving, show cases and
furniture and a brand new line of can-
dles, nuts, cigars, tobacco and pipes and
fruit on one side and a well selected
line of stationery, blank books, writing
pads, pens, ink and pencils on the op-
posite side and is now prepared to sup-
ply everything one may need in these
lines. People of the North Side and
farmers coming into the city by any of
the roads leading to the North Side
bridge will find it convenient to do
their trading in these lines with Mr.
Lodholz. Mr. Lodholz will make every
effort to keep just what the people want
in the special lines of goods he hand-
les. If you want a good cigar, some fine
fruit, a pound of delicious fresh candy,
or anything in the line of fine station-
ery go to No. 6 Broadway and Mr.
Lodholz will be glad to serve you. Mr.
Lodholz especially invites all of his old
friends to give him a share of their
patronage.

WHY "NO. 9" ARE HEELER & WILSON'S SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

Send for our illustrated catalogue. We want dealers in all unoccupied territory. WHEELER & WILSON MFG. CO., 185 & 187 WEAVER AVE., CHICAGO.

STATE LEGISLATURE.

SENATE.—48th day.—Bills passed: Incorporating the Grand Council of Royal and Secret Masters; dropping the word "Dutch" from the title of the Reformed Protestant Dutch church; exempting industrial and charitable institutions from taxation on property to the amount of \$10,000; for the formation of corporations for literary and scientific purposes; relative to real estate bequests to the University; incorporating the K. of P. uniformed rank; prescribing severe penalties for embezzlement by administrators. A score of prominent ladies of the state urged the passage of a bill to raise the age of consent to 18 years. A hearing was given a large number of Catholics in opposition to Senator Johnson's bill providing that the title of church property shall be vested in trustees instead of in the bishop alone. The committee of the whole agreed to a bill prohibiting the marrying of inmates of the Reform School for Girls without the consent of the board of control. The joint committee had an all-day session on proposed fish and game laws, sportsmen from all over the state being present to talk on bills. They discussed spring shooting of ducks, the season for killing deer, times for fishing, etc. HOUSE.—Bills passed: For an official canvass of the votes cast in special elections of Senator or Representative; compelling public officials to turn over books and records in their offices to their successors; authorizing the state to sue companies for insuring plate glass; for admitting to the state public school at Coldwater children under one year of age; relative to the division and distribution of property held in trust; providing a penalty for the maintenance of hives of bees within 90 feet of a public highway; providing safeguards against the spread of communicable diseases; relative to the licensing of peddlers; for the recovery of premiums paid to "graveyard" insurance companies; amending the act for the incorporation of gas companies; incorporating as cities the villages of East Tawas and Tawas City; providing that children in county poor houses may attend the nearest district school; authorizing the refunding of a \$100,000 issue of stone road bonds in Hay county. Rep. Partridge introduced a resolution providing for a committee from the House and the Senate to investigate the Navin & Simpson letters which have caused such a sensation. The resolution was laid over.

SENATE.—46th day.—Bills passed: For refunding \$100,000 worth of stone road bonds in Bay county; subjecting Lloyds insurance concerns to the same restrictions as other companies; appropriation for continuing the construction of the Michigan Central Railroad; for the payment by the regents to the state treasury of cash gifts to the University; for the better protection of indentured children; for the licensing of agents of foreign insurance companies; to prohibit newspaper proprietors from sending their publications for carriage time that is designated by the publisher; authorizing the enlistment of two musketeers for each company of organized militia; for vacating township cemeteries; incorporating the Modern Order of Craftsmen. There was a pretty fight over the bill to allow villages and cities which maintain municipal lighting plants to commercial lighting. The bill had a provision limiting its operations to towns of less than 10,000 inhabitants; the committee amended it by making 6,000 the maximum. An amendment was offered to strike out the limit so the bill would apply to all cities and then the bear dance commenced. Senators Thompson and McLaughlin, and Wayne, being the warriors. The matter was compromised by the legislature to Wyandotte only. Senator Barham's bill to regulate lobbying was also passed. It provides that all persons who act as counsel or agent "to promote or oppose in any manner, directly, or by the passage of any legislation, the pecuniary interests of any individual, association or private or public corporation, as distinct from the whole people of the state," shall be compelled to enter their names on a docket kept by the legislature of the two houses. Disbarment proceedings are provided for in case lobbyists shall be found guilty of improper conduct. Within 30 days after the legislature adjourns, sworn statements must be filed with the secretary of state showing the expenses incurred in attempts to influence legislation. HOUSE.—No session, the day being given up to a stormy committee hearing of protests against the municipal charter commission's blanket charters.

SENATE.—47th day.—Senator Jamison's bill placing the control of church property in the hands of trustees instead of with the bishop was taken up and discussed, but was laid upon the table for the present. Mr. Barham's bill relating to lobbying was also tabled. The bill passed the day before to allow Wyandotte's municipal lighting plant to do commercial lighting was reconsidered and had it sent to the committee on cities and villages, which later reported it back amended so as to apply to cities of less than 10,000 which at this date own and operate plants. The bill received just enough votes to pass it, but the House will have another whack at it, yet. Other bills passed: Perfecting legal procedure in attachment cases; for the reorganization of fire and marine insurance companies whose term of existence may have expired; prescribing that only those who have had three years' service in the national or state force shall be eligible to staff appointments in the militia; extending the duties of Detroit police force to include sidewalk inspection; making insane veterans sent to asylums from the Soldiers' Home a state instead of a county charge. Adjournment was taken to cover two days at the Michigan University and the regular Sunday recess. HOUSE.—The resolution offered by Mr. Partridge providing for an investigation of the Navin & Simpson letters sensation came up and after some discussion was tabled. A favorable report was made on the bill prohibiting the use of public highways to vehicles equipped with narrow tires when the said vehicles have a capacity for over 1,300 pounds. Bills passed: Incorporating the Loyal Orange institution; appropriating \$10,000 for the equipment of the Home for the Feeble Minded at Lapeer; providing a penalty for dumping rubbish in highways.

SENATE.—48th day.—Only a brief session held. Because of a defect in its title, the Senate recalled from the House the bill to regulate the placing of insurance with unauthorized companies outside the state. Bills passed: Prescribing precautions to prevent business in young infants; for election returns in triplicate; amending the swamp land act. HOUSE.—The time was mostly spent in committee on the whole. The question of the distribution of state manuals was a lengthy subject of discussion. In committee of the whole Mr. Fisk's bill cutting \$50 from the compensation of the sheriff of Wayne county and reducing the number of his deputies by five, was agreed to. The Kimmins measure exempting townships of 600 or less population from the provisions of the general election law which prohibits candidates for office from acting as election inspectors aroused considerable opposition. The bill making it compulsory to teach in the public schools the methods of restricting communicable diseases also passed. The committee on fisheries and game reported a bill making the open season for deer uniform in the upper and lower peninsulas and providing for the licensing of hunters. It makes it unlawful to kill deer anywhere in the state except from November 1 to November 25 of each year. Sportsmen who hunt for deer are obliged to take out a license. Michigan hunters paying a fee not exceeding 10 cents and hunters from other states paying \$25 each. Five deer is the maximum number anyone person may lawfully kill in any one year.

Military Instruction at the U. of M. There is every probability that military instruction will, in a short time, be introduced into the University. The regents considered the matter at their regular March meeting, and although no definite conclusion was reached, every one of the board seemed to fall in with the idea, and it will doubtless be settled at the next meeting. A system of military instruction would cost the University practically nothing, as the government makes provision for such matters in such institutions.

Supreme Court to Test Anti-Fusion Law The supreme court has granted an order directing the election commissioners of the counties composing the Third congressional district to show cause why a mandamus should not issue requiring them to print the name of A. M. Todd, the Populist, free silver and Prohibition candidate for congress, on the official ballot three times instead of once, as contemplated by the anti-fusion law.

Grand Rapids furniture men report that February was a bad month for sales being reported than in any month since the depression set in.

MICHIGAN ANTI-FUSION LAW.

The State Supreme Court Decides That It Is Constitutional.

The anti-fusion law passed by the present legislature has been declared to be constitutional by the supreme court. At the same time the court decided that Albert M. Todd, the Free Silver, Populist and Prohibition candidate for congress in the Third congressional district, is entitled to have his name printed on the three tickets, because it was not possible at the time of this nomination for him to comply with the provisions of the law. In other words the law was declared valid, but Candidate Todd, who asked for a decision, was exempted from its provisions. Justice Montgomery concurred in the opinion of Justices Grant, Long and Hooker, so far as it relates to Candidate Todd. Justice McGrath did not sit.

A. M. Todd, of Kalamazoo, who is the candidate of the Prohibition, Populist and Free Silver parties for congress in the Third district, has had the case in the supreme court against the Shaw anti-fusion law decided in his favor for the coming election for technical reasons only. The court has not declared the law unconstitutional. Mr. Todd says he will appeal to the supreme court of the United States to have the question settled for all the people, for all time, declaring that the law is despotic in its nature.

Patrick H. Gilkey, of Kalamazoo, the Democratic nominee for congress in the Third district, withdrew his name in favor of A. M. Todd, the nominee of the Prohibition, Populist and Free Silver parties. In his letter he advises the Democrats to vote for Todd.

SPANIARDS IN A TRAP.

Cubans Give Their Masters a Severe Set-back at Bayamo.

Port Tampa, Fla., March 24.—The latest steamship from Cuba brings authentic news. An eye witness to an engagement at Bayamo speaks of the Spanish forces being ambushed at Bayamo and Ellobre with serious losses. Manzanillo was barricaded. Impromptu forts were erected to protect valuable property. The country residents are fleeing to the city. Two thousand Spanish troops have arrived at Santiago. Four Spanish regiments were involved in the battle which came off March 15. The insurgents were under command of Santocildá. The Spaniards' loss was exceedingly heavy. They were routed completely, and the Cubans notified the Spanish authorities to send for the dead and wounded. The number of the Cuban band is unknown.

Around Canto River section the whole country is under the sway of rebel influences. Bands of these are marching toward Lasunas de Victoria and Puerto Principe, growing stronger as they march. A strong band of insurgents is on the northern coast daily expecting an expedition from the United States. These insurgents are to assist in the debarkation of such an expedition the moment of its arrival. The insurrection movement does not appear to be received with favor by people in the fields, who are moving into the cities. All kinds of work is suspended. The cutting of high grade timber has stopped, from the fact that numbers of cutters are with the insurgents and others dare not enter the forests for such purposes. The insurgents do not allow of the movement of cattle, keeping them in their regular pastures.

Gang of Noted Burglars Caught.

Fort Wayne, Ind., March 25.—For six months burglars, highwaymen and cracksmen have piled their work here, also at Wallen and Huntington, looting twenty or more stores. Capt. Borgman and police surrounded the entire gang in a house here and captured them. The house has thousands of dollars worth of goods in it.

Vice-President Stevenson will leave for Europe the 10th of April, with his family, where they will spend the entire summer, making London and Paris their principal abiding places.

WEEKLY TRADE REVIEW.

NEW YORK.—Dun's weekly review of trade says: Indications of improvement in business grow more distinct. The most optimistic of them the speculative advance in cotton and in stocks, is the least reliable, nor can either of these be said to reflect actual improvement in business conditions. Railroad earnings are scarcely better and the speculation is largely based on expectation of more effective money policy in coal and some other products. London was buying largely, but likely to sell on any rise. More valuable indications is that the volume of domestic trade gains a little, money is in much better legitimate demand, and the force of hands at work gradually increases in some industries and in others is restricted only by strikes, which are presumably temporary. The rise in cotton seems to have scarcely any contact with the facts of demand and supply, but had a very substantial basis nevertheless. If, as some maintain, more cotton had been sold in this country for future delivery than could be produced here until another crop comes. The rise in wheat, which started with the report of wheat in farmers' hands, has been followed by a reaction, so that prices are lower than they were prior to the report. Corn has not followed, but after a rise holds the price, receipts being about a third of that of wheat and exports insignificant. Pork has declined also, has laid. The advance in wages of coke workers raises the cost of fuel for a large proportion of the iron manufacturers, but it does not affect prices of iron or its products, as no increase in demand appears. Sales of wool gradually decrease, and that wool was smaller than the week previous. Failures during the past week in the United States were 176 compared with last week.

Homes and Living for Thousands.

Read what western papers and fruit raisers say about a special number of the Great Northern Bulletin, devoted to the fruit business in the Pacific Northwest:

"Contains a multitude of interesting and valuable articles, notes and hints, presented by a close student and investigator."—Daily Spokesman-Review, Spokane, Wash.

"The best thing of the kind that has yet been published. * * The future of the fruit business is brought out strongly without exaggeration."—Rural Northwest, Portland, Ore.

"The Fruit Bulletin is a storehouse of facts interesting to our growers. It is also calculated to show eastern people that the Pacific Northwest is 'strictly in it' as a producer of staple fruits."—J. B. Holt, Manager Snake River Fruit Association, Wawawai, Wash.

"Most artistically printed and contains more horticultural matter relating to the northwest than we have ever before seen in one publication."—Pacific Farmer, Portland, Ore.

"I am delighted with the Bulletin. I do not think I ever saw anything more comprehensive on the fruit business. My belief that the country out here is the best part of the Union for home-seekers is stronger than ever."—H. H. Spalding, Treasurer State Board of Horticulture, Almota, Wash.

"Should be in the hands of every fruit raiser in the Pacific Northwest. * * Shows in an interesting way just what our country offers to fruit growers and men who believe in small farms well tilled."—Northwest Horticulturist, Tacoma, Wash.

"There is not a topic likely to be of interest or value to the inquirer that is overlooked. * * A most complete and attractive compendium of the hor-

One-Hundred Dollars

is not a large difference between a cheap piano and a good one. It may seem large at first, but figure a little. The average life of a piano is twenty-five years. If you pay \$100 more for a good piano than for a cheap one, you pay \$4 a year for the satisfaction of having a thoroughly reliable musical instrument. This is about

ONE AND ONE-TENTH CENTS PER DAY.

It will cost more than \$4 additional each year to keep a cheap piano in tune to say nothing of the increased satisfaction of owning and using a good instrument.

The Clifford Piano

is made to resist wear; made to stand use, and to satisfy. Its action will please the finest player, and its tone the most musical ear. It is built by a man who knows how to make pianos and also how a good piano should be made. The Clifford can be bought for from \$375 to \$425. This is but little more than is charged every day for instruments not worth as much. Think this over, and examine the Clifford before you buy.

THE DEMOCRATIC SCHEME TO MISLEAD
REPUBLICANS EXPOSED.REPUBLICAN VOTERS WILL NOT
WALK INTO THE TRAP WHICH
DEMOCRACY HAS SET.Only Hope for Good Legislation on Sil-
ver or Any Other Question Rests
With Republicans.

The Democratic campaign managers in Michigan have shown their hand. Despairing of success upon principles, they are now striving to deceive voters into support of the Democratic ticket, and are flooding the state with literature of the catch-penny order, certifying to the excellence of everything Democratic, and especially on the question of silver, attempting to hoodwink the people into the belief that he who is the friend of silver can express his friendship at the polls only by a Democratic ballot. We want to emphasize this warning to Republicans: The men who are conducting this alleged non-partisan campaign ostensibly in behalf of silver, are men whose every move is made to advance the interests of the Democratic party. They would as soon advocate views directly opposed to those expressed in their campaign posters this spring if they thought that thereby they could cajole Republicans into voting for Democratic candidates. In the face of the very recent action of the Democratic majority in Congress against the free coinage of silver, and the well-known attitude of the Democratic President on this question, it takes nerve to attempt to work such a barefaced confidence game in Michigan.

The Republican party is the only party from which the friends of silver have anything to hope. It is pledged to the restoration of silver as a money metal, and the Republican party never fails to fulfill its pledges. Free coinage of both silver and gold is bound to come as soon as the Republican party again assumes control of the government, but it cannot come as long as a Democratic President, whose every utterance is against free silver, stands in the way. It does not seem possible that any sane man can be misled by the free silver talk of these Democratic campaign managers into voting against the Republican party. Judge Moore, the Republican candidate for justice of the supreme court, is emphatically in accord with the advocates of the free coinage of both silver and gold as money, and is in favor, as is every Republican in favor, of having every dollar as good as every other dollar. Campaign circulars tending to put him in a false position on this question may be expected this week. The unscrupulous tactics of the enemy thus far in the campaign give promise of even more desperate methods before next Monday.

Republicans should be on their guard. Every Republican ought to go to the polls and vote the Republican ticket, and every true friend of silver should do the same.

JOSEPH B. MOORE.

HIS EMINENT FITNESS FOR THE
SUPREME BENCH IS CON-
CEDED BY ALL.Judges Do Not Regulate Coinage—Demo-
cratic Congress Should Have Done So—
Next Republican Congress Will Do So.

The nomination of Judge J. B. Moore, of Lapeer, for justice of the supreme court was one of the best that has ever been made in our state. He is a ripe scholar, a lawyer of many years' practice, and he has occupied a seat on the circuit bench for a number of years. In ability, education, legal equipment and experience he is the peer of all the men who in the history of the state have been elevated to the court of last resort. Personally he is courteous, and his manner is peculiarly winning, while his private character is singularly pure, and is in fact without a stain. Recognizing the peculiar qualifications and undeniable fitness of the judge for this judicial position, and also the fact that under ordinary circumstances his election by an overwhelming majority would be among the certainties in Michigan politics, the opposition has adopted an ingenious device by which they hope to accomplish his defeat. This is the injection of the financial question into a judicial and educational campaign—judicial and educational because a justice of the supreme court and two regents of the University are to be elected in April.

The state has been flooded with posters, and later will be with cards, eulogizing Mr. McGrath and coupling his name with the, at present, quite popular "16 to 1" aspect of the silver question.

The hope is to float the Democratic candidate for the supreme court on the tide of an assumed popular clamor for free silver.

The fact is that the question of the judgeship of our supreme court is absolutely separated from any question of coinage or finance.

But if it were not true why should preference be given to the Democratic candidate over Hon. J. B. Moore?

One is a Democrat, and the inquiry is pertinent as to what that inquiry—Judge McGrath's party—has ever been able to accomplish on one side or the other of the question of national finance? It has been on both sides and occupies exactly that attitude today.

The fact is simply that if relief is to be secured, the country must look to the Republican party, and the great victories of last autumn emphasized this after two years of Democratic control and business and financial depression.

The scheme of the Democratic party managers may be ingenious, but it is only an invention for the purpose of securing votes by false pretenses and misrepresentations.

The renomination of Regent Butterfield by the Republicans was a deserved compliment to that earnest and painstaking official. Hon. Charles H. Hackley the other Republican candidate for Regent is the philanthropic and progressive resident of Muskegon, whose name is a synonym for good citizenship. He is a friend of education and in securing his consent to accept the nomination the University and the state have been fortunate.

They will both be elected.

Cutting a Hallstorm in India.
During a severe hailstorm in the Himalayas our native gardener brought out a hatchet and placed it, edge upward, in the garden, to "cut the storm," as he said. Catlin, in his "North American Indians," describes a ceremony of the Mandan Indians, in which hatchets and edged tools are sacrificed to the "spirit of the waters" to avert a recurrence of the great deluge, of which the tribe has the tradition.—Notes and Queries.

LITERARY NOTES.

One of the most interesting periods in Napoleon's career—his marriage with Josephine—is reached in Prof. Sloane's life of Napoleon in the March Century.—The Century Co., New York, N. Y.

"Art Idols of the Paris Salon" is a quarterly publication begun by the White City Art Company, Chicago, which will number in all 100 plates, about 15x20 inches in size, reproducing the masterpieces of French art for 1894. The January number contains six plates. The reproduction is admirable in its mechanical execution.—Published at 319 Dearborn-st., Chicago, Ill.

In the March number of Frank Leslie's Popular Monthly the wonderful story of life and inventions of Thomas Alva Edison is set forth, in an article by Henry Tyrrell, with the apparent purpose of contrasting an actual living hero, a modern conqueror of science, with the dark and sinister shadow of Napoleon. There are other important contributions to this unusually full and interesting number of this Popular Monthly.—Frank Leslie's Publishing House (Department B), 42-44 Bond St., N. Y. City.

Mr. D. M. Frederiksen, of Chicago, has written a paper on "Mortgage Banking in Russia," which has been published by the American Academy of Political and Social Science. Mr. Frederiksen is an authority on mortgage banks. In the present paper he explains the different kinds of such banks there are in Russia, tells how much land is mortgaged to them and shows results they have brought about. The paper should attract much attention among bankers and financiers.—"Frederiksen, D. M. "Mortgage Banking in Russia." Philadelphia: American Academy of Political and Social Science. 1894. Publication No. 130. Pp. 16. 8vo. Paper. Price, 15 cents.

One of the most important projects ever undertaken by Scribner's Magazine begins in the March number with the first instalment of President E. Benjamin Andrew's dramatic narrative, "A History of the Last Quarter-Century in the United States." That this will be always interesting is proved by the statement of the author's plan in his readers in the introductory paragraph, in which he tells them that they are "going upon a rapid excursion, through vast tracts, with frequent use of the camera, and not upon a topographical survey." Each instalment will be filled with what was once the sensational episode of the day, and which has been proved by time to be of great historical importance.—Chas. Scribner's Sons, New York, N. Y.

The Art Amateur for March has two exquisite color plates, "An Opening in the Forest," by R. M. Shurtleff, and "Garden Poppies," by Paul de Longpre. There are the usual eight pages of Practical Working Designs for China Painting, Embroidery, and Wood-Carving. The leading artist represented this month is the famous painter and illustrator, Albert Lynch, and the beautiful drawings will delight every one. There is an article on "Landscape," by R. M. Shurtleff, with some sketches by him. Other articles are "Drawing for Artists' Colors," "What is Tone?" "Flower Drawing in Pen-and-Ink," "Flower Painting," and several on "China Painting." Price, 35 cents. Montague Marks, Publisher, 23 Union Square, New York.

The Overland Monthly for March is a Fiction Number—the first fiction number ever published on the Coast. In addition to his regular department, "As Talked in the Sanctum," Mr. Wildman contributes a thrilling story of an Idaho stage robbery—General Lucius H. Foote, under the caption of "Swipes," relates a charming tale of a pair of wails in the days of the Argonauts. Batterman Lindsay contributes another installment of her charming "Extracts from Mrs. Lott's Diary." "Blackfeet and Bruin" by S. S. Boynton, and one by C. D. Robinson—"The Mystery of a Drill" are genuine additions to history. "Elvira's Chance" is a remarkably strong story of the Kansas prairies. Horace Annesly Vachell has another of his interesting "Chronicles of San Lorenzo"—"Hepsibah's Wooling." All

the stories are charmingly illustrated by Boeringer, Dixon, and Robinson.—Overland Pub. Co., San Francisco, Cal.

WE WANT TO TELL YOU

Why Your Back is Lame—Why it Aches
and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment won't do it; for, while it may give temporary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore you must correct their action if you would be cured. Read the following from D. D. Cook, whose address is No. 18 Michigan Street, Grand Rapids. He says:—

"I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Doan's Kidney Pills and wondered if they could make an almost lame man well. I got some, and soon after taking them began to feel their good effects. I used them for some time, my lameness all left me and I have not felt it since. Doan's Kidney Pills have done me an inestimable amount of good."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

Mr. Thompson also assured Mr. Jacobs that he would vote for him. Has the Professor forsaken the Municipal Club?

Fred T. McOmber saw, after the democratic convention, that he was sure of election and when he came to consider how the duties of the office would interfere with his business decided to withdraw his name. The committee then substituted that of Chas. E. Hiscock, whose name will add much strength to the ticket.

A letter from Mr. O. D. Royall, formerly of THE REGISTER office, now at Tampa, Fla., says that the past winter has been one of unusual severity in Florida, and that untold damage has been done to the orange groves. However, Tampa, Mr. Royall says, does not depend upon oranges, and will not suffer materially as it has over 200 cigar factories which give steady employment to thousands of people.

Walter C. Mack left for New York last week, where he was joined by the same business men who with him formed a syndicate last fall and whose buying was most decidedly advantageous. The combination of the larger business houses in purchasing goods saves them the importers and jobbers charges as they deal directly with manufacturers and places them in a position, give great bargains to the trade.

Miss Mary Preston died at her home in Pittsfield, Friday, March 22nd, after a short illness, aged 56 years. The funeral services which were held at her late residence last Monday were conducted by Rev. Mr. Morey, of Ypsilanti. Miss Preston leaves a brother and two sisters to mourn her loss besides a very large circle of friends to whom she had greatly endeared herself.

It seems that all the sports and gamblers in Ann Arbor, Jackson, and a number of smaller places in this vicinity, met at a barn about two miles west of Ann Arbor, last Saturday night about midnight, and indulged in a cock and bull dog fight. It is reported that thousands of dollars changed hands, that even all the members of one of the university fraternities were on hand betting on the result of the fight.

The prohibitionists made the following nominations for city offices at the convention last Monday night. Mayor J. H. Warner, Pres. of the council, H. C. Markham; clerk, Vernon Snauble; assessor, B. J. Conrad; Justice of the peace, Chas. Boylan.

CARPET DEPARTMENT!

Occupying Entire 2nd Floor--Reached by Elevator.

Our Carpet Department has an enviable reputation for carrying reliable goods—a reputation which we prize too highly to sacrifice.

In no line of goods is quality so desirable as in Carpets. A saving of a few cents a yard is not to be compared with an extra year or two of satisfactory wear.

We carry the *best*, but you will find our prices as low as others ask for trashy imitations.

At no time in the history of the country have the prices for *Carpets, Mattings, Rugs, Lace Curtains*, etc., etc., ruled as low as this Spring, and it is absolutely certain that the next six months will see an advance in prices.

Mills representing millions of Capital have gone into bankruptcy the past year, simply because making goods at present prices involved a tremendous loss. Others have closed and will remain closed, until prices advance.

This means that no such opportunity to refurnish a room or your entire house is likely to occur again in a life time.

Why not take advantage of it?

CHelsea HERALD.

Gus Warren has secured the privilege with the Gardner Circus for the coming tenting season, and will leave here above the 15th of May with his side show.

Died, Tuesday, March 19, 1895, Mrs. J. M. Letts, aged nearly 83 years. The funeral was held Thursday afternoon from the family residence.

Miss Ellen Johnson, of Lyndon, died Tuesday evening, March 19, 1895, of paralysis.

A. E. Wines received a handsome fur rug from South America last Tuesday. A present from his brother, Charlie.

YPSILANTI SENTINEL.

The Normal band made its first—and a very creditable—public appearance on the streets Saturday.

Fred A. Ashley, a native of Ypsilanti but for some time past a resident of Saginaw, died suddenly in that city, last Saturday.

Rev. E. A. Shaw, of Benzon, has been visiting his parents in this city.

The Detroit Tribune has found out about the practice, now about two years old, Ypsilanti druggists have of taking turns in keeping open on Sundays.

Bert Moorman's loss from the fire by which his new barn was destroyed, has been adjusted at \$2,328.42, of which \$1,800 is upon the barn and the balance on the contents. The adjusters are very much pleased with Moorman's candor in making his proofs, and the settlement was effected without arbitration or dispute.

SALINE OBSERVER.

E. A. Curry and son Elmer, of Washington, D. C., were guests of H. W. Bassett and family Wednesday. They came with the remains of Mrs. Curry who was buried that afternoon.

F. F. Tucker delivered to our buyers last Saturday another fine lot of sheep, it being 60 2-year lambs, which flock gave an average weight of 131 pounds.

The Milan Leader brings J. Henry Ford to the front as a prominent candidate for the office of Supervisor of York.

Last Thursday Miss Bush was by Deputy sheriff Gillen taken to the Pontiac asylum.

MANCHESTER ENTERPRISE.

Wm. Rehfs shipped two car loads of hogs and sheep to Detroit today. In the lot was also a yoke of oxen, purchased of Hiram Mills.

Township treasurer Holmes was in Ann Arbor last week to make his account with the county treasurer. He returned only \$22.34 of delinquent taxes.

What will the caucuses be? Both occur the same day, at the same time, and place.

DEXTER LEADER.

H. W. Newkirk has received another addition to his museum and this time from an uncle in Utah. It is a highly ornamental war club made of two finely polished buffalo horns, to which is fastened a gayly colored handle, the whole embellished with colored eagle feathers. The club is an Indian insignia of rank such as is carried by the mighty chieftains when on dress parade.

The 14th anniversary of the introduction of Maccabees into Dexter was fittingly celebrated by Crystal Tent at their lodge room last evening. The order is one of the strongest in the village and rapidly increasing in members.

YPSILANTI COMMERCIAL.

Prof. Harry Thompson, who went to take charge of the science department in the high school at Moline, Ill., last year, is rejoicing in a daughter who came to his house about a month ago. Prof. Maury, of Ann Arbor, is principal of the high school there, and his mother lives with him; and Miss Underwood, of Ann Arbor, is a teacher of languages in the same school.

Next Thursday will be a great day in Ypsilanti, and especially in the history of the Normal, when will be observed the first celebration of Foundation Day, the forty-sixth anniversary of the enactment establishing the schools, heretofore more fully announced.

At the residence of W. A. Burt, Grove st., last evening was celebrated the marriage of Mr. Ernest E. Cheney, of Goodrich, Genesee Co., Mich., a former student at the Cleary Business College, and Miss Maud M. Van Houten of this city. Rev. E. W. Ryan officiating.

Scarcely a week passes in which The Chicago Times-Herald does not "scoop" its competitors on important news. Its Washington service is especially good, political appointments and movements being frequently followed with marvelous accuracy. F. Stofflet always has The Herald-Times on sale and delivers promptly by carrier.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

He Had Forgotten.

"I dreamed of you last night," he said to her as one dove coos to another.
"And what did you dream?" she whispered, as she nestled close in his wings.
"I dreamed you had gone to heaven and become an angel."
"Mr. Van Smith," she said, disengaging herself instantly, and speaking in icy tones, "you forget yourself."
This was a tremendous jar to his feelings.
"Why—why—what is it, darling?" he gasped. "What have I done?"
"You said only yesterday, sir, that I was an angel."
Half an hour later he had re-established his identity.

Waterproof collars and cuffs that will not wilt, are not effected by moisture and look just like linen are all the fashion now. They are made by covering a linen collar or cuff with "celluloid" and are the only waterproof goods made with an interlining, consequently the only ones that will stand wear and give perfect satisfaction. Try them and you will never regret it. Always neat, and easily cleaned. When soiled simply wipe off with a wet cloth or sponge. Every piece of the genuine is stamped as follows:

Ask for those so marked and refuse any imitations, as they cannot possibly please you. If your dealer does not keep them, we will send a sample direct on receipt of price. Collars 25c. each. Cuffs 50c. pair. State size and whether stand-up or turned-down collar is wanted.

THE CELLULOID COMPANY,

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms.

Castoria allays Feverishness.

Castoria prevents Vomiting and Sour Curd.

Castoria cures Diarrhoea and Wind Colic.

Castoria relieves Teething Troubles.

Castoria cures Constipation and Flatulency.

Castoria neutralizes the effects of carbonic acid gas or poisonous air.

Castoria does not contain morphine, opium, or other narcotic property.

Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.

Castoria is put up in one-size bottles only. It is not sold in bulk.

Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

THE OWEN ELECTRIC BELT AND APPLIANCE CO.

Gentlemen—Solely in the interest of others who are, or may become similarly affected with myself, I venture to offer my experience with the use of the Owen Electric Belt, and that I am actuated entirely by that motive, must be apparent from the fact that until you see my name and address recorded on this letter you had no knowledge of either. I had long been a sufferer from chronic dyspepsia and nervous prostration, contracted or aggravated by many years residence in the East Indies. About three years ago I purchased one of your Belts in the hope that its use might afford me some relief, and were it continuously as directed for about four hours every afternoon for a month or so, and the result was perfectly marvelous. My indigestion with all its attendant miseries, nervousness, depression, irritability and insomnia, from which latter I was a great sufferer, have disappeared. I then discontinued the use of the Belt (the existence of which I had indeed forgotten), until about six weeks ago, when a recurrence of my old trouble very forcibly reminded me of it. I again put it into wear (after ceasing its use for over one and one-half years), and with the same extraordinary results, being again restored to health, strength and vigor, after wearing it for only ten days. Under these circumstances I can most emphatically recommend to others suffering from the ailments which I have endeavored to describe, the adoption of the use of the Owen Electric Belt.

I had long been aware of the curative powers of electricity from what I had read on the subject, and on my return to England I purchased from Pulvermacher of Regent street, London, the combined chain bands, of which he is the patentee, for which I paid three guineas, and although I must admit that I derived some benefit from their use, I am bound to say the general result did not approach the benefit derived from the use of the Owen Belt, besides which its utility is so great an improvement in comfort and convenience; Pulvermacher's being cumbersome and complicated in adjusting to the body, besides causing from being uncovered, blisters and sores, and above all not being able to regulate the current as is the case in the Owen Electric Belt. You are at perfect liberty to make what use you think fit of this letter, and I shall be glad to answer either verbally or by letter any inquiry made from me on this subject. I am, gentlemen, Yours respectfully,

W. J. BRODIE

About Knives.

A cheap Pocket-knife can be bought at every Store, but it is not the kind you want.

One dollar is the lowest price that a really good knife can be sold for. This dollar is placed in this paper to advertise the very best Pocket-knife ever sold. It is J. C. TIDMARSH'S Sheffield Steel Knife.

Never buy a knife only because it looks well. If blades are not the best Sheffield steel they will soon bend, no matter how they will look. Still, you want a fine-looking knife.

The United States law provides that only samples to agents and to the trade will be admitted free of duty. You can, therefore, see the advantage that I have in sending samples to agents over those who deal in Sheffield goods in America.

I am an advertising agent! I am trusted with a certain amount to advertise these knives (the value ever seen in America at One Dollar each). Now, the knife is: own best advertisement.

Imagine a Pocket-knife (3 1/2 inches long) with the most beautifully-grained ivory handle—genuine African ivory mand with two blades of the very best Sheffield steel that will last a lifetime and cut like a razor. The tips of the handles are heavily plated with sterling silver. And then a very nice chamois leather case goes with each knife. Now, would it not be easy work selling this knife at One Dollar each? I know it would, for it looks as if it were worth two dollars.

And so it is if you compare it with the value offered in the ordinary Store.

Is not this knife its own best advertisement?

You can make \$4 per day selling these knives. This is a genuine and straightforward statement. This is counting that you show it to only twelve buyers every day. And every one that sees it will say it is good value for \$1. The knives are sold to you at \$8 per dozen; you sell them at \$1 each.

I determined to use large sum of advertising money entrusted to me in sending out free samples to those who promise to act as agents for the sale of these knives

I will send you a free sample, but you must sign the promise at the foot of this column, and make a deposit to show that in asking for the knife you are acting in good faith.

The deposit that I ask of you is 44 cents about half the wholesale cost of the knife, and less than one-third what you would have to pay for a knife like it, if you bought one.

Send the money by a Postal Order or one-cent stamps for 44c., and put a five-cent stamp on the letter, which must not weigh more than one-half ounce.

The deposit of 44 cents will be placed to your credit, and will be deducted from your first order at the dozen rate.

I am an advertising agent, contractor and publisher with one of the largest Advertising businesses in the world, and I absolutely guarantee to send, postage paid and duty free, the knife described above free to anyone who signs this promise below, and sends it with the deposit as stated.

Let me advise you not to part with your sample, even if you should lose sale at \$1 by refusing, as it will take time to replace it. I could not send you another even if you sent the full \$1. After the sample they can only be supplied to you by the dozen as there is duty on them to be paid.

Any English Banker can give you information about my high standing, or write to the publisher of this paper, who knows that I do a large and straightforward advertising business, and that I do exactly as I say.

I have taken this place in this paper for three years! The first one answering this advertisement after this number of the paper has come out will, if he likes, have his name printed in this space as agent for these knives.

The Editor of the Springfield (Ohio) New Era writes, in his paper of June 29, 1894: "I have received a sample knife from Mr. Sears, and am very much pleased with it. He is the owner of a very large advertising business in London, and is, I believe, perfectly responsible and straightforward."

Sign your name and address to the following, cut it out and send it with Postal Order or stamps for 44 cents, and you will receive by return of post the beautiful knife as described above.

DEAR SIR,—I faithfully promise on my and honour to show the Sample Knife you have promised to send me to one or more of my friends, thereby constituting myself an agent. This will make me "in the trade" as far as Pocket-cutlery is concerned. By this promise I am entitled to a sample of your beautiful Dollar Pocket-knife with chamois leather case, to be sent me post-paid and duty free. I also enclose 44 cents Postal Order or stamp which please hold for me until I see you an order at the dozen rate.

AN EXPENSIVE DINNER.

Here Is One That Cost One Hundred Thousand Dollars a Plate.

New York, says an article in "Current Literature," cannot claim all of the famous banquets that have tickled the palates of the gourmets. Other cities have served feasts which have an almost historic interest. In Philadelphia forty friends of the late F. B. Gowen, who was then president of the Central railroad of New Jersey, once gave that gentleman a dinner at the Bellevue which was a marvel in its way. The room in which it was served was thirty-eight feet square. Every foot of the wall was covered with green foliage, in which were concealed small electric lights of various colors. The room itself was a veritable flower garden. So abundant were the masses of blossoms that it was almost impossible to move from the table without crushing some of them. The table was oval in shape, the center being filled with American beauty roses. From these radiated maiden hair ferns across the table, thus converting the inner edge of the table into a field of green foliage. The dinner was given in winter when flowers are most expensive and when game birds are hard to find. The element of cost, however, seemed to have had little weight in preparing this banquet. Frozen trapped birds, snails, especially imported from France, diamond-backed terrapin from Maryland, hot-house grapes that cost \$4 a pound, champagnes and still wines of choice old vintages equal to the feast a richness seldom equaled in gastronomic history. One hundred dollars a plate was the subscription price.

An Eager and a Nipping Wind.

A continuous down pour of rain, inclement weather, generally in winter and spring, are unfavorable to all classes of invalids. But warmth and activity infused into the circulation counteracts these influences and interposes a defense against them. Hostetter's Stomach Bitters, most thorough and effective of stomachics and tonics, not only enriches the blood, but accelerates its circulation. For a chill, or premonitory symptoms of rheumatism and kidney complaint, particularly prevalent at these seasons, it is the best possible remedy. It is also invaluable for dyspepsia, liver complaint, constipation and nervousness. Never set out on a winter or spring journey without it. Elderly persons and the delicate and convalescent are greatly aided by it.

The Stage Paid Better Than the Army.

Mario, the born tenor, was the son of an Italian count, and he himself was formerly known as Mario, conte di Candia, but Italian noblemen are not always rich, and Mario's father found all his resources exhausted when he had bought his son a commission in the army. Expensive tastes soon compelled the young count to seek some better means of gratifying them than the salary of a lieutenant, and Mario went on the stage in 1837, to remain there until 1867, when his voice gave way and he retired. He had lived like a prince, spending money for every whim, and to gratify not only the caprices of himself, but also those of his wife, the almost equally renowned Grisi.

A Happy Mother—\$72.00 in a Week.

MR. EDITOR:—I feel so happy that I must tell, through your valuable paper, what I did, so others can be happy and make money too. Things looked blue; these hard times had thrown my husband out of work; the interest on the mortgage was coming due and no money. I saw an advertisement of the Rapid Dish Washer and thought I could sell them. I sent \$5.00, got one, and my husband washed the dishes because he did not have to put his hand in the water, and did not have to rub them nor dry them; they came out all nice and clean and ready for the shelf. He also took care of the house and baby. I got the agency and sold ten the first day, and have cleared this week \$72.50, and will by next week have enough to pay the interest, and am sure we will have money all winter. Anyone out of work should send to W. P. Harrison & Co., Columbus, Ohio, and get a circular, have a happy home, and money too. Much suffering can be eased if mothers and daughters would do as I have.

CHICAGO'S SEWING SCHOOLS.

Teaching 10,000 Children of All Colors to Use the Needle.

Over 10,000 Chicago children receive instructions at least once a week in the time-honored art of hand sewing. The instruction is literally given, for this great army of little folks is taught without money or price; in fact, they are in a way rewarded for receiving the instruction.

On the avenues and boulevards, in the guild-rooms of fashionable churches, and in churches less fashionable, in highly respectable neighborhoods, in highways and by-ways, far out from the central part of the city where nothing is plentiful save children, dirt and malodors, are sewing schools, and in each of them 100 to 300 children are very carefully taught all kinds of sewing from taking stitches through canvas to dress-making. These schools hold their weekly sessions each Saturday morning from the 1st of October until the last of May. In most of them there is no discrimination; all who come are welcomed and taught, providing there is not a dearth of teachers, as not in frequently happens, since service of this kind in these schools is voluntary.

White and black, old and young, boys and girls, are received in most of the schools, although in some boys are not admitted, and, truth to say, in but a few are they accorded a very cordial reception. They are permitted, tolerated, but not unreservedly encouraged save in exceptional instances.

It is odd that, under the circumstance, boys in numbers should desire to enter these schools and learn to sew. In fact, so long have women been exclusively associated with work of this sort it seems strange to see boys engaged in it, notwithstanding the earliest record of needlework tells of a man's sewing with a woman, for we read: "They sewed themselves fig-leaves together and made themselves aprons." However, boys not only come uninvited to the sewing schools, but they learn to sew every bit as neatly as the girls, although it is true that the very best of them are a trifle awkward about it, and none of them take kindly to the thimble.

The Trouble Over.

A prominent man in town exclaimed the other day: "My wife has been wearing out her life from the effects of Dyspepsia, Liver Complaint and indigestion. Her case baffled the skill of our best physicians. After using three packages of Bacon's Celery King for the Nerves she is almost entirely well." Keep your blood in a healthy condition by the use of this great vegetable compound. Call on John Moore, sole agent, and get a trial package free. Large size, 50c.

Some Explanations of the Ocean's Salt.

The Pythagoreans held that the sea was salt by reason of the tears shed by Kronos, father of Zeus. According to the old Hebrew tradition the ocean was originally a great body of fresh water, but which was made salt by the abundant tears of the fallen angels. One sect of Buddhists believe that Lot's wife (that is to say the "pillar" which was once the wife of the humble gentleman named above) lies at the bottom of the ocean in a certain narrow strait, and that once a year the waters of all oceans flow through that narrow channel. The Talmudic writers say that it was never salt until Moses wept repentance after breaking the tables of stone.

MARITAL ODDITIES.

Most Widowers and Widows Remarry, Sometimes Twice.

It has been remarked that times of speculation are invariably accompanied by an increase of marriages. Dr. Farr, the eminent statistician, hazards, therefore, the suggestion that it is the spirit of speculation that leads many to embark on matrimony at such times. Another reason, which he is careful not to ignore, is the increased prosperity that induces and sometimes seems to accompany what he calls the periodical epidemic of speculation.

A great war, after it is over, is good for marriage. So is a good harvest, so is the establishment of new industries or the extension of old ones. The reason is the same in all these instances; the increased prosperity of the general body of the people. So intimately is matrimony associated with national well-doing that it is come to be styled the barometer of prosperity. Its indications, however, are more for the future than for the present, and therefore rather with the expected and anticipated than with the actual. But this only goes to substantiate what was said of marriage as a speculation.

The nation is sometimes extraordinarily sanguine, and when this is the case marriages are plentiful. Great popular leaders inspire this feeling. A statesman of genius at the head of affairs perceptibly increases the marriage rate.

In a word, the great fluctuations in the marriages are the result of peace after war, abundance after dearth, high wages after want of employment, speculation after languid enterprise, confidence after distrust, and national triumphs after national disasters.

The marriage returns invariably show a corresponding increase for any augmentation in the duties paid upon malt, wine and spirits. They in the same way keep pace with the consumption of tea, sugar, coffee, and tobacco, and with the imports of raw silk, cotton, wool and timber. The one increase is not, however, the cause of the other; both are but effects of the same cause—increased national prosperity.

Marriages after banns are five times as numerous as marriages after licenses. When the price of wheat is high the diminution in the former class is comparatively much greater than the latter. They are the first to be affected by high prices, license and banns being regarded as the prospective badges of capital and labor—not without important exceptions, however.

Autumn is the favorite season everywhere; with a few spring is preferred. Half the weddings throughout the country are celebrated on Wednesday and Tuesday. Saturday has more than the average number. Friday is not a favorite, as few marriages are celebrated on that day.

Widowers are more inclined to marry than bachelors. Widows are more inclined to marry than spinsters. Both facts are eloquent in favor of the comparative advantages of matrimony.

For one bachelor that marries between the ages of 50 and 55 seven widowers remarry between these ages. These are marriages out of equal numbers of each class; the actual numbers of bachelors married will be greater only in proportion as they exceed by seven to one the actual number of widowers living at these ages. Under the same conditions, for every spinster married between 30 and 65 two widows are remarrying.

Free, and What Everybody Wants.

Perfect health and strength, to dare and to do, that's what you want and you know it. Here is a sure way to get it. Dr. Greene, of 35 West 14th St., New York City, is the most successful specialist in the world in curing nervous and chronic diseases. He is also the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. He has established a remarkable system of letter correspondence, by which you can write him about your complaint, tell just how you feel and stating each symptom from which you are suffering. He will answer your letter, describing your case thoroughly and telling you a sure way to regain health and strength. And for all this you have nothing to pay. He gives most careful attention to every letter, and describes each symptom so exactly that you cannot fail to understand precisely what ails you. He makes a specialty of curing patients through letter correspondence. You have no fee to pay and you don't have to leave home. Here is the best opportunity you ever had to get well. Will you accept or reject?

Judicial Clemency.

Lawyer Sharp—I must beg the utmost clemency for my client, your honor. He was hypnotized at the time the crime was committed, and did not know where he was nor what he was doing.

Judge Hooper—The court will consider your plea, sir! For the safety of the community the prisoner is sentenced to three years' imprisonment. But the same man may hypnotize him again, so that he will imagine he is spending the time in paradise.—Puck

Children Cry for
Pitcher's Castoria.

The sort of story most in favor for serial publication in newspapers is apt to be tragical and bloody in the extreme. It is related that a contributor offered a continued story intended for such publication to the head of a syndicate.

"Is your story sufficiently dramatic?" asked the syndicate manager.

"Does it contain crimes, poisonings—is it dark enough?"

"Dark!" exclaimed the author; "why the moment you begin to read it, you'll think you are on a train and have gone right into a tunnel!"

THE best investment

in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Strictly Pure

White Lead

You cannot afford to use cheap paints. To be sure of getting Strictly Pure White Lead, look at the brand; any of these are safe:

"Anchor," "Shipman,"
"Eckstein," "Morley,"
"Armstrong & McKelvy," "Southern,"
"Beymer-Bauman," "Red Seal,"
"Davis-Chambers," "Collier,"
"Falmestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead. He desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the hands of a painter will give any shade desired.

A good many thousand dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

"Imagination is not to be sneezed at," said a prominent surgeon to a Rochester Democrat man the other day, as his eyes followed the brisk movements of a middle-aged woman who was passing.

"Three years ago," said he, "that woman came to one of the hospitals of the city and engaged a private room. She drove to the institution in a carriage and was carried to her bed on a stretcher. She insisted that one of her ankles was helpless and that she could not walk. The house surgeon made an examination and could not discover that she had the slightest ailment. The next day the head surgeon looked her over carefully and came to the same conclusion. What is more, being a somewhat brusque and outspoken person, he said as much to her. At this she was very indignant and insisted upon keeping her bed. No amount of persuasion could induce her to make an effort to walk, and she insisted that her ankle was helpless and so sensitive that the slightest touch of her foot to the ground caused her the most acute pain.

"Finding all efforts to persuade her to do anything for herself fruitless, the surgical staff held a consultation and determined to humor her. Consequently the following day the woman was told that she was suffering from a serious ailment, and preparations for an operation were made with a great parade of nurses, instruments and the like. The patient was then placed under the influence of an anesthetic and a slight incision was made over the ankle joint. This was merely superficial, although it was several inches in length. It was immediately sewed up, carefully bandaged and the patient removed to her bed, where she found herself when she recovered consciousness. After this she was subjected to the same care that would be given to the most serious cases for two weeks. The wound was dressed daily; the patient was enjoined to remain in one position and her diet carefully prescribed. At the end of this time the bandages were removed, the stitches taken out, and a few days later the woman walked out of the hospital as well as you see her to-day. There has never been the slightest thought the matter with her, but she thought there was and the pretended operation satisfied her."

Children Who Suffer

from scrofulous, skin or scalp diseases, ought to be given Dr. Price's Golden Medical Discovery, for purifying the blood. For children who are puny, pale or weak, the "Discovery" is a tonic which builds up both flesh and strength. What is said of it for children applies equally to adults. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength. In recovering from "grippe," or in convalescence from pneumonia, fevers, and other wasting diseases, it speedily and surely invigorates and builds up the whole system.

For all diseases caused by a torpid liver or impure blood, as dyspepsia, biliousness, blotches and eruptions, it gives most perfect satisfaction.

A Microbe hat is Hard to Kill. Professor Renk, who is engaged in some interesting experiments on the vitality of the comma bacilli, the so-called "microbe of cholera," has just finished a treatise containing his observations on the ability of such organism to withstand intense cold. He has found that they will live for some time, and exhibit all their usual liveliness in a temperature ten degrees colder than freezing. A single "culture" of these germs in a bowl of beef broth, reduced to a temperature of from five to seven degrees below the zero of the centigrade thermometer (which is about the same as twenty to twenty-three above the zero mark of the Fahrenheit instrument) were unusually lively at the end of 100 hours' exposure. He found, however, that as they were uninterruptedly exposed to such a degree of cold for a longer period than that mentioned above, they gradually lost vitality, and at the end of five days were perfectly lifeless, and utterly unable to do damage, should they be taken into the human system.—St. Louis Republic.

A Humorous Fact About Hood's Sarsaparilla—it expels bad humor and creates good humor. A battle for blood is what Hood's Sarsaparilla vigorously fights, and it is always victorious in expelling foul taints and giving the vital fluid the quality and quantity of perfect health. It cures scrofula, salt rheum, boils and other blood diseases.

Hood's Pills act easily, yet promptly and efficiently on the bowels and liver. 25 cents.

Another Illusion Gone. Those who may have hitherto believed that the vanity of the female sex was invincible should make a note of the fact that only one member of the Colorado legislature has refused to be photographed in a group, and that member, alas, was a woman.

Communion Badges. Badges worn in the buttonhole have taken the place of communion tickets in Belgium, where the new system of fortnightly season tickets good on the railroads over the whole government system has greatly increased the number of commuters.

An Arctic Railroad.

Probably few readers are aware of the fact that modern industry has already got a foothold in the arctic regions, and that mines are worked on a large scale and a railroad regularly operated in such high latitudes. This is the case in Sweden, where the Lulea-Gellivare railroad, built for the purpose of carrying iron ore from the Gellivare mines to the seaport at Lulea, extend fifty miles above the arctic circle and enjoys the distinction of being the first railroad to open up the frigid zone.

"Trust Those Who Have Tried." Catarrh causes hoarseness and difficulty in speaking. I also to a great extent lost hearing. By the use of Ely's Cream Balm dropping of mucous has ceased; voice and hearing have greatly improved.—J. W. Davison, Att'y. at Law, Monmouth, Ill.

I used Ely's Cream Balm for catarrh and have received great benefit. I believe it a safe and certain cure. Very pleasant to take.—Wm. Frazer, Rochester, N. Y.

Price of Cream Balm is fifty cents.

Rosebush Over a Thousand Years Old. The famous rose bush of Hildesheim, on the River Innerste in Germany, is said to be over 1,000 years of age. The great King Charles is said to have planted this rose bush in the year 800 A. D. About 100 years ago this rose bush died down to the ground, but it has since grown from the same root to a height of thirty feet.
