STILL SOME MYSTERY.

WHEREABOUTS OF STEVENS AND MRS. CLANCY DISCOVERED.

The Clancy Affair Has Some Peculiar Developments - The People Have Talked of Nothing Else for the Past Week - A Senseless Blunder by "Doc." Nagele? - The Coroner's Inquest Postponed One Week.

Last Thursday, just after THE REGISTER went to press, what had seemed to be a matter of slight importance showed some very unexpected developments. A week ago last Sunday the police authorities at Toledo found a man wandering about that city in a stupefied condition. The man was able to say that he wanted to go to Ann Arbor. They at once shipped the man to this place, to get rid of him. The railroad agent here notified sheriff Judson who took the man to the county jail. Mr. Judson had had the fellow there but an hour or so when he became convinced that he was sick and not intoxicated and hence turned him over to Mason the Supt. of the poor who took the man to the county house. Here he remained until Tuesday, without any medical attendance, when he died. The remains were at once turned over to the University as no one claimed the body. The next afternoon it was discovered in some way that the man had a grip with him with the name of Frank Clancy upon it. This led to an investigation. Mrs. Clancy, who resides here went at once to the University and was shown a body by Mr. Nagele, who has charge of the pickling vat. Mrs. Clancy did not recognize it as that of her son, but thought that it might be that of one, John Stevens, a brother of her son's wife. This led to a further investigation and it was learned that Frank Clancy, who has been living in Kalamazoo, had recently left there for Toledo with his brother-in-law, Stevens, in search of Clancy's wife who had, a short time before, ran away with a man by the name of Boyle. Clancy had learned that the runaway couple were in Toledo and he and Stevens, his wife's brother, had gone to Toledo to find them. As it was claimed that the man Boyle had threatened to "do up" Clancy it was feared that the latter had found the runaway couple and that Boyle had carried out his threat, and then had dragged Stevens and dressed him up in Clancy's clothes and with the latter's grip, turned him out to die. This was the condition of things last Monday. The coroner had sworn in a jury and viewed the body supposed to be that of Stevens and had set yesterday as the day for holding the inquest. In the meantime the doctors had been making a careful examination into the cause of the death of the man supposed to be Stevens. On Monday, however, the whole affair took an entirely new turn. By the merest accident it was discovered that there had been a mistake made at the University by Mr. Nagele and that the body exhibited was not that of the man who had been sent here from Toledo, but instead the remains of a convict who had died at the Detroit House of Correction last week and whose body had been sent here a few days later. Then another investigation was begun. This time it resulted in a prompt recognition of the body as that of Frank Clancy. The coroner at once called the jury together again to view the body, the right one this time, and the doctors set to work to make an examination into the cause of his death.

On Monday, Pat. Boyle, who it was claimed had skipped with Frank Clancy's wife, was located in Toledo, and was placed under arrest. From him it was learned that Mrs. Clancy had been there and that the two and Mrs. Clancy's brother Stevens had been stopping at the same boarding house, but that last Friday, when the matter was beginning to become public Mrs. Clancy with her two children and her brother had gone to Windsor, Canada, as she claims, to avoid being discovered by her husband. Here she was found by the officers and newspaper reporters on Tuesday, where she was stopping at the Steven's house. Boyle at first attempted to evade admitting that he had seen Mrs. Clancy at Toledo, but was cornered and admitted that she had been there and that the two had stopped at the same hotel. Also that Mrs. Clancy's brother, John Stevens, had been stopping there, but that Mrs. Clancy, with her two children and brother had last Friday gone to Windsor to escape detection by her husband. Boyle stoutly denies all knowledge of how Clancy was hurt in Toledo, affirming positively that he had not seen Clancy in Toledo. The officers have so far been unable to shake him in the least in his position in regard to seeing Clancy in Toledo. Mr. Clancy, who is in Windsor, passed there, until she could conceal her identity longer, as a Mrs. Kennedy. She claims that she

has no idea of how Clancy came to his death. Judging from the interviews that have been had with her she gives the straightest account of herself of anyone connected with the affair. She tells a sad tale of how her husband has brutally abused her almost constantly since their marriage, while at the same time she has had to support herself and children since the day she was married to Clancy. So far, there has scarcely a thing that has appeared in print going to disprove the wife's story of how she has been shamefully abused by her husband. If Clancy is the character that he is declared to be by his wife, it is possibly that his death may be finally explained upon an entirely different hypothesis from that which has thus far been adopted by most people. Sheriff Judson was in Toledo Tuesday in conference with the Toledo officials. It seems that some clues have been discovered which may lead to important results. A prominent official in Ann Arbor even went so far as to hint to a REGISTER reporter that a party who has not thus far been publicly mentioned in connection with the affair is strongly suspected and is being closely watched. It was also intimated that the said party was at that time right here in Ann Arbor. As a result of what Sheriff Judson learned in Toledo, it was thought best to postpone the inquest which was set for yesterday morning for one week, and so at the request of the Toledo officials sheriff Judson on Tuesday wired Coroner Ball requesting that he postpone the hearing for one week. The doctors, Messrs. Darling and Bourns, who made an autopsy of the body of Clancy, announce that he came to his death as a result of having been struck at the base of the brain by some soft but heavy weapon, probably a sand bag, which caused several large blood clots to form within while no abrasion or bruise was left upon the scalp. The case has already been full of strange developments and it would be difficult to surmise how many more surprises are in store before all the truth in the matter is discovered, if it ever is.

Michigan Crop Report for August.

The estimates in this report are based on more than 800 returns received since August 1.

Wheat is estimated to yield in the southern counties 10.33 bushels; in the central 12.14 bushels and in the northern 11.48 bushels per acre, the average for the State being 10.91 bushels per acre. One year ago the estimates were for the southern counties 15.57 bushels, for the central counties 15.05 bushels, and for the northern 15.46 bushels, the average for the State being 15.47 bushels. The reports as to quality vary greatly from the same and from adjoining localities, some of the correspondents reporting the quality "good," others "average," and still others "very poor." In the State 265 report the quality "good" 373 "average" and 104 "bad."

The number of bushels of wheat reported marketed in July is 437,804 as compared with 847, 972 reported marketed in July, 1894, and the amount marketed in the twelve months, August - July is 11,007,604 bushels as compared with 15,146,278 bushels in the same months last year.

Oats are estimated to yield 22 bushels per acre in the southern counties, 23 in the central, and 17 in the northern, the average for the State being 21.

The average condition of corn is 79 per cent. comparison being with vitality and growth of average years, and potatoes in State are estimated to yield 70 per cent of an average crop.

The estimated yield of hay per acre is only three-tenths of the yield in average years, and the condition of meadows and pastures is but 31 per cent. of condition in average years. Clover sowed this year is nearly an entire failure, the estimates showing condition but 13 per cent of an average.

Apples promise scarcely more than one-fourth of an average crop.

The mean temperature of the State for July was 67.8 degrees, which is about 1.0 degree below the normal. It was below the normal in each of the four sections of the State. The mean of the maximum temperature was 80.6 degrees, and the mean of the minimum 54.8 degrees.

The average precipitation in the State during July was 1.23 inches, which was about one-half the normal. The average in the southern four tiers of counties was 1.62 inches as compared with the normal of 2.51 inches. The average rainfall in the central counties was about one-third, and in the northern one-fourth of the normal.

There was practically no rainfall in the lower peninsula before about the middle of the month. Three light rains have since passed over the State, the first occurring on the 15th, the second on the 19th to 21st, and the third on the 27th and 29th.

THE ANNUAL PICNIC.

WHITMORE LAKE SATURDAY AUGUST 24th.

Many Noted Speakers—Among Them Are Thomas Palmer, William A. Moore, Rev. Father Goldrick and William Ball—Also Some Fine Music—And a Dinner—And a Good Time Generally—The Driving Will be Good So let Everybody Go.

Every farmer within reach of Whitmore Lake should not fail to be on hand at the annual Farmers' Picnic to be held there a week from next Saturday. These Annual gatherings of the farmers are a source of pleasure and rest while they afford a splendid opportunity to renew old acquaintances and visit with friends whom you are not able to see at other times. These occasions have always been most pleasant ones long to be remembered by all who have attended them. The attractions this year are fully up to the average if not even superior to those of former occasions. It goes without saying, that farmer Tom Palmer will interest and please every one who hears him. The rumor that he would not be present is not true so Mr. Waldon, the president of the day, informs us. Mr. Waldon stated to THE REGISTER that he had positive assurance from Mr. Palmer that he would be on hand to talk to the people as has been announced. Hon. Wm. A. Moore, of Detroit, a former Washtenaw county boy, now one of the best known and most successful lawyers in the state will also deliver an address which cannot fail to be interesting. Mr. Wm. Ball, of Hamburg, one of our well-known and most successful farmers always makes a good speech and knows from practical experience just what will appeal most strongly to that class of people. The committee on arrangements urgently request all who can possibly do so to come and make this day an enjoyable one. The more the merrier.

STOP IT NOW!

Stop It Quickly, Just the Same as Did Mr. Charles H. Hoffman, of 132 Ten Eyck Street, Jackson.

If you have a pain in your back, stop it! A lame back, stop it! An aching back, stop it! Do you want to know how? Let us tell you! In the first place, never try to rid yourself of pain without knowing the cause. If pain or ache exist there is reason for it. Find out this reason and get after it. Strike cause a stiff blow with the right weapon, and its allies, pain and ache, will flee like chaff before the wind. To get right down to it, back-ache is indicative of kidney disorders, a spasm placed there by nature; listen to his warnings and take up with lepton, strike before disease is reinforced with allies that can not be routed by hand of man, such as this weapon! Let us introduce to you this weapon! Let us prove its superiority to all others! Here is a blow it struck:

Mr. Charles H. Hoffman is a fireman on the M. C. R. R., and resides at 132 Ten Eyck Street, Jackson, Mich. He says: "I have suffered for a long time from a kidney and bladder disorder which has at times rendered me incapable of work; have been at the hospital for my complaint and discharged from there as cured, but the old complaint has invariably come back again. Some time ago I heard of Doan's Kidney Pills, and I began taking them, with most gratifying results. Urinary complaints which bothered me greatly are very much improved, and the pain I suffered in my back has entirely left me, my general condition is much improved. I would not like to be without Doan's Kidney Pills, I think others should know what a valuable remedy it is."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

SHAKESPEARE IN INDIA.

A Baboo Bill of the Play Recently Circulated in Benares.

The following announcement of a grand Shakespearean performance at l'Indienne at a native place of entertainment was recently circulated in the city of Benares:

Will Give Performance To Night! To Night!! To Night!!! "Fasana Hosh Roba" The Most Tragic Drama of Othello and Desdemona with Wonderful Scenes and Sceneries. Brilliant Actors and Ornaments. Genius Actors and Actresses. Come One! Come All!!! Come Sharp!!! and

See Young Dancing Girls with their Dance and hear their Attractive Songs.

Gentlemen—With due respect and humble submission I beg leave to state that I have taken the contract on the instant, the piece chosen to be given is Fisanah Hosh-Ruba.

The last plot of this play is taken from Shakespeare's famous play of Othello, and I stand guarantee that the play is a nice one and will be shown with the best scenes and scenery, made specially for this play, never think to be disappointed. The following scenes in this play are worth attentions and show the experience and skill of the painter:

1. The scene of Durbar fully decorated with chandeliers and other furniture.
2. The scene of Jungle and a long-bearded pious man's coming out of the moon, and animal's grazing in the Jungle and Othello's hunting one of them down. All these sights would be attractive to make mention of. They depend on seeing.
3. The scene of garden with a bridge therein, and a river flowing from below. A very beautiful sight indeed. Sweet and melodious singing of the birds in the garden. The nauch party is held in the garden, several dancing girls charming the audience with their sweet songs and showing their best practices in the art of dancing.
4. Washerman's scene—a river flowing by—two asses with a big bundle of clothes on their back—Washerman's joke with asses. A very comic and laughable scene.
5. Tragic scene toward the close of the drama will be so effective and touching the spectators shed tears—Othello's going with a sword drawn and burying with anger near the bed of Desdemona, her apology and last words are very heart rendering—her sighing and agonizing a painful sight.

To be followed by a very interesting and laughable farce of chunyan and nunyan.

I promise to show more than I have written in this program. Yours faithfully, Shaikh Abdul Gani, Contractor.

LONG AND CLOSE RACE.

Two Sailing Vessels Vary Hardly Any in Their Speed from Hong Kong.

For two sailing vessels to leave a Chinese port on the same day, on almost the same hour, and, after voyaging considerable more than half way around the world, to reach New York no further apart than when they started from Hong Kong, is an event, which, while not unprecedented, comes not far from being miraculous. The Tam o'Shanter and the Wandering Jew, both of them American ships, built and owned in the state of Maine, have just accomplished this remarkable feat. The Tam o'Shanter is of 1,522 tons burden, hails from Portland, and has twenty years of service to her credit. The Wandering Jew is a Camden vessel 128 tons heavier than the seas, and has not wandered about the world so long by two years. During the long journey of ninety-eight days there seemed to be a strange conspiracy on part of wind and waves and currents to keep the two ships in company. Even when one of the racers carried away some of her sails, the other was unable to take advantage of the accident and haul ahead, for the squall that did the damage was followed by a calm. Before the breeze came again new pinions had been spread by the temporarily disabled vessel, and the contest of speed was resumed on equal terms.

BIG PROFITS ON Small Investments.

Returning prosperity will make many rich, but nowhere can they make so much within such a short time as by successful speculation in Grain, Provisions and Stock.

\$10 FOR EACH DOLLAR INVESTED can be made by our **Systematic Plan of Speculation** originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year; ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested, on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

Write For Convincing Proofs, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. All Free. Our Manual explains margin trading fully. Highest references in regard to our standing and success.

THE BABY ON THE FARM.

To Romp and Play with the Little Ones a Religious Duty.

Even if the baby's coming interferes with all sorts of thrifty mortage to help the husband pay off the mortgage on the farm, an acute financier once gave a large sum of money to endow a college upon the ground that he considered boys a better investment than land, writes Helen Jay in the Ladies' Home Journal. In the childless home the money may come in more quickly than it goes out until the whole farm is paid for, but what does it profit if there are none of our own to enjoy it with us, and no one to receive it as a sacred inheritance when we are gone? As a class, farmers' wives identify themselves more closely with their husbands' financial interests than any other class of women. They are willing to work hard and sacrifice themselves to help to buy a home and to educate their children. They feel that if they cannot earn money they can at least save it. It becomes a problem sometimes how to steer between legitimate thrift on the one hand and unnecessary economy on the other. Sometimes a woman works so hard in trying to increase the bank account that she ruins, not only her physical health, but her disposition as well. A nervous, worn-out, fretful woman is not a fit associate, even on hygienic grounds, for a sensitive, impressionable child, who reflects the passing moods of those about him as in a looking-glass. If it is a question then of bank accounts, immaculate closets and well-filled store-rooms on the one hand, and a bright, cheerful mother on the other, I would unhesitatingly choose the latter. The children whose mothers have not time to pet them are to be pited. To amuse the baby and to romp with it is sometimes quite as much a religious duty as to pray for it.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

BEATING ANTI-GAMBLING LAW.

How the Indiana Barkeechers Utilize Files and Cockroaches.

For months a thousand fertile minds have been busy at work attempting to devise ways and means to get around the Nicholson law, says an Indianapolis paper. Many saloon-keepers and patrons of saloons have lain awake nights figuring on how to dodge this law. A saloon-keeper in Delphi claims to have discovered a way of getting around one of the rough corners. It will be recalled that the law provides, among other things, that no games of chance shall be permitted in a saloon, which means that dice boxes and other similar devices have to go. The dice box was a great feature of the trade, and how to supply the deficiency and not violate the law was one of the questions that vexed the saloon-keeper. Files and loaf sugar are all that is necessary to carry out the scheme of the Delphi man, and the dispensers of liquor in this city have provided themselves accordingly. The plan of operating is as follows: Say two men enter a saloon for the purpose of regaling themselves and desire to decide with the "house" which of the three shall "set 'em up." Three lumps of sugar are produced from behind the bar and a lump placed in front of the saloon-keeper and each of the others. The fellow's lump upon which a fly lights first decides that he is to pay for the drinks. The saloon men claim that this is not a game of chance in the strict sense of the word, and that the fly is the guilty party. They allege that they simply put the sugar and the fly does the rest. Heretofore all saloons have kept up screen doors and windows for the purpose of keeping out flies. They will be taken down now, and the festive fly will be made welcome. The more flies the more rapidly will business go.

One saloon-keeper in town has been detected in attempting to "cold deck" his customers. He has one loaf of sugar that he sets for himself touched with turpentine, the others being pure. The fly will never light on turpentine sugar, and he had a sure thing. In the winter time, when the flies have disappeared, the cockroach will take his place. Heretofore the cockroach has been the bane of the average saloon-keeper's life. Henceforth every encouragement will be given them to produce and multiply. The saloon-keepers are now figuring on educating flies and cockroaches.

THE PRESIDENT AS TRAGEDY.

One of the most disgraceful features in our modern style of journalism is that the President of the United States, whose very station should command respect for him, is made a constant target for disrespect, writes Edward W. Bok in the Ladies' Home Journal. It makes not the slightest difference whether we admire or do not admire the man who occupies the Presidential chair. He is placed there by the expressed suffrage of the people, and when he is so placed and is the occupant of the high office, he has a right to the respect of the people of the country over which he presides. But this is denied our President. The decent respect which we mete out to ordinary men is refused him. We excuse this by saying that he was not our choice, or that he holds the position by accident. No man elected to the office of President of the United States can be an accident. He is placed there because of his fitness for that office. And although we may not agree always that he is as able as some other man, it is only pure justice that we give him the benefit of the doubt.

See Young Dancing Girls with their Dance and hear their Attractive Songs.

Gentlemen—With due respect and humble submission I beg leave to state that I have taken the contract on the instant, the piece chosen to be given is Fisanah Hosh-Ruba.

The last plot of this play is taken from Shakespeare's famous play of Othello, and I stand guarantee that the play is a nice one and will be shown with the best scenes and scenery, made specially for this play, never think to be disappointed. The following scenes in this play are worth attentions and show the experience and skill of the painter:

1. The scene of Durbar fully decorated with chandeliers and other furniture.
2. The scene of Jungle and a long-bearded pious man's coming out of the moon, and animal's grazing in the Jungle and Othello's hunting one of them down. All these sights would be attractive to make mention of. They depend on seeing.
3. The scene of garden with a bridge therein, and a river flowing from below. A very beautiful sight indeed. Sweet and melodious singing of the birds in the garden. The nauch party is held in the garden, several dancing girls charming the audience with their sweet songs and showing their best practices in the art of dancing.
4. Washerman's scene—a river flowing by—two asses with a big bundle of clothes on their back—Washerman's joke with asses. A very comic and laughable scene.
5. Tragic scene toward the close of the drama will be so effective and touching the spectators shed tears—Othello's going with a sword drawn and burying with anger near the bed of Desdemona, her apology and last words are very heart rendering—her sighing and agonizing a painful sight.

To be followed by a very interesting and laughable farce of chunyan and nunyan.

I promise to show more than I have written in this program. Yours faithfully, Shaikh Abdul Gani, Contractor.

Crop Report for August. The Michigan crop report for the seventh month contains the following: Wheat is estimated to yield in the southern counties 10.33; in the central 12.14, and in the northern 11.48 bu. per acre.

MICHIGAN HAPPENINGS.

Frank Jacobs, aged 8, was drowned while bathing at St. Joseph. Huckleberries and blackberries are a total failure about Schoolcraft. Mackinac island has been formally transferred to the state of Michigan.

The little village of Unadilla had many mysterious fires, and the fire John Webb's barn and its content went up in smoke. Loss, \$1,200.

The secret service gives warning of the discovery of a new counterfeit \$ national bank note, series of 1882, or the First National bank of Flint. The printing of the bill is badly blurred.

The joint session of the prison board at Mackinac island reported 300 idle convicts at Jackson, 150 at Ionia and 100 at Marquette.

Men were put at work clearing up at the Arnold mine at Houghton, preparatory to resuming work on a large scale.

Shemping held a firemen's tournament for the upper peninsula. Visiting departments were present from Michigan, Nebraska, Republic, Lanz, Ironwood, Marquette, Hancock and Red Jacket.

Dingens Brandt, aged 60, while handling wheat from a stack to the thrasher at Zealand slipped and fell into the machine. Both legs were taken off, one above and the other close to the knee.

Michael Kreig, a laborer at Detroit, was fatally shot by his son-in-law Wm. Haas. The latter was enraged because his wife refused to live with him, on account of his abuse, and had returned to her father's house.

Simon and Edward Kasteed tried to protect two girls from a burly Negro, Wm. Rose, at Kalamazoo. Rose pounced upon them with a knife and both were so badly cut about the arms and body that they will be disabled for life.

The forest fires which have been raging on Beaver island since July 1 have not done any particular damage to the farmers, but destroyed valuable timber owned by Chicago parties.

R. E. Wigent, while looking for Forest Beach at Paw Paw struck on his head in shallow water and failed to come up. His wife, who had been watching him from the bank, called help and he was pulled out dead.

Mabel Gray, the keeper of a questionable resort at Portland, was shot by Mrs. N. Pline. The revolver shot pierced her right shoulder, but the wound is not serious.

The peach crop about South Haven is the largest it has been in the history of the oldest fruit-grower. It is estimated that the crop will be 2,000,000 baskets, larger than has ever been harvested before.

The Port Huron-Lexington railroad may yet be a success, although the bonds couldn't be sold. The workmen, who have \$8,000 due them, made a proposition to wait six months for the money provided the work can be resumed and all labor paid every week in the future.

Miss Fannie Hunt, an esteemed young lady near Stockbridge, was on a 20-foot ladder picking cherries when she fell unconscious. An intelligent dog with her seemed to realize her position and made his master understand that something had happened and thus medical aid was summoned in time to save her life.

Lightning burned Brandt's building at Durand occupied by C. E. Glover and Mrs. M. H. Glover, with stocks of groceries, loots and shoes and millinery goods. Glover's family lived in the upper part of the building and were badly dazed and it was with difficulty that they escaped.

T. A. Carten, dry goods dealer of Ionia, missed gloves and other articles from his stock and made up his mind that they had been taken by Mrs. John Morton. He got a search warrant and succeeded in finding part of the missing goods.

A man visited Elsie a few days ago inquiring for a daughter of John Paulding. Paulding disappeared 27 years ago and his daughter was raised by the family of Wesley Curtis and is now Mrs. Minnie Van Deusen, of McBain, Mich.

The report of Warden Chamberlain in the Jackson prison for the fiscal year ending June 30, 1895, has just been presented to the joint boards of control of the state penal institutions.

Annie Kerr was arrested at Muskegon by Deputy U. S. Marshal O'Donnell, charged with using the U. S. mails fraudulently. In answer to a matrimonial advertisement she wrote W. H. Lucas, at Red Lodge, Mont., stating that if he would send her \$20 or expenses she would go to him and become his wife.

The American archeological institute as just awarded two of the four fellowships under its control for study in the American college at Athens and home to recent graduates of the University of Michigan.

The eighteenth annual encampment of the veteran soldiers and sailors of Jackson and St. Clair counties will be held at Marine City, August 20 and 21.

Chas. Harter was instantly killed by being struck by pieces of a bursting engine wheel at Bowstick's factory at Millington. N. Perkins was in the undertaking business at Clayton 51 years and has buried over 2,000 persons. He has just retired from business. Mrs. Geo. T. Boynton attempted to suicide by jumping into Black River at Port Huron. She was rescued by the bridge tender. Sickens. Mrs. Richards and Pat McDonald, both of Traverse City, were severely injured by the overturning of a coach on the G. R. & I. railroad. Battle Creek has dropped out of the state base ball league and Jackson parties have purchased the Findlay, O., team and will fill the gap. Chas. Faust and John Johnson were caught in a cave-in at the Chapin mine, Iron Mountain. Faust was killed and Johnson seriously hurt. The Brunk Shirt Co., of Albany, N. Y., signed a contract with Warden Chamberlain, of Jackson prison, to employ 300 convicts to make shirts. Owing to a drop in salt, from 55 to 45 cents a barrel, Thompson Bros., of St. Clair have suspended salt manufacturing operations for the time being. Henry Doberton, night operator of the G. R. & I. railroad at Sturgis was held up in the office and \$21 of the company's money taken, by a masked robber. A 12-year-old son of O. W. Riley at Greenville, got caught between a wagon box and a beam at the Hanney refrigerator sawmill and his skull was crushed. John Young, of Grand Traverse county, is wanted at Vicksburg for an assault on an old man, in which the latter had his skull fractured and five ribs broken. A farmers' institute society has been organized at Coldwater, under the law of 1895, with Hon. L. M. Marsh as president, and A. J. Aldrich as secretary and treasurer. While leasing to ride a bicycle L. E. Rosenfield, of Detroit, slightly hurt his ankle, blood poisoning followed and his leg was amputated, but he died despite all the care. Chas. Hemming's planing mill was destroyed by fire at Sebewaing. It had not been run for three years and it is thought that enemies of Mr. Hemming started the blaze. John McDonough, Will Barnes, Asa Benson and Frank Ludwig, of South Haven, were jailed on charge of alleged illegal liquor selling, the result of a raid by Sheriff Lamberson and deputies on two "blind tigers."

Lightning burned Brandt's building at Durand occupied by C. E. Glover and Mrs. M. H. Glover, with stocks of groceries, loots and shoes and millinery goods. Glover's family lived in the upper part of the building and were badly dazed and it was with difficulty that they escaped. Nothing was saved but the scant garments they had on. The loss was \$5,000. T. A. Carten, dry goods dealer of Ionia, missed gloves and other articles from his stock and made up his mind that they had been taken by Mrs. John Morton. He got a search warrant and succeeded in finding part of the missing goods. Mrs. Morton is over 60 years of age, in good circumstances and an old and respected resident and the news has created a sensation. A man visited Elsie a few days ago inquiring for a daughter of John Paulding. Paulding disappeared 27 years ago and his daughter was raised by the family of Wesley Curtis and is now Mrs. Minnie Van Deusen, of McBain, Mich. The stranger said Paulding had left \$70,000 in property in New York City for his daughter. Many believe the stranger was Paulding himself. The report of Warden Chamberlain in the Jackson prison for the fiscal year ending June 30, 1895, has just been presented to the joint boards of control of the state penal institutions. Total earnings, \$125,828.76; disbursements, \$137,508.63; average number of convicts, 863; earnings on contract work, \$97,183.43; total cost of food \$26,460.24; hospital expenses, not including salary of physician, \$549.57; fuel, lights and water, \$10,992.03. Annie Kerr was arrested at Muskegon by Deputy U. S. Marshal O'Donnell, charged with using the U. S. mails fraudulently. In answer to a matrimonial advertisement she wrote W. H. Lucas, at Red Lodge, Mont., stating that if he would send her \$20 or expenses she would go to him and become his wife. She got the money, but did not go, and Lucas made complaint. It is said that Lucas was not the first "sucker" she had caught. The American archeological institute as just awarded two of the four fellowships under its control for study in the American college at Athens and home to recent graduates of the University of Michigan. The lucky men are Herbert F. Decoa, of Detroit, and Walter Dennison, of Ann Arbor. This is quite a distinction for our university as the award is made only after careful and exhaustive examination by a committee of disinterested persons. The eighteenth annual encampment of the veteran soldiers and sailors of Jackson and St. Clair counties will be held at Marine City, August 20 and 21.

POINTERS FOR ADVERTISEES.

A good ad makes itself felt as well as seen.

It is just as important to put your ads in the right medium as it is to ship your goods over the right railroad.

It is a great tribute to the ad writer that so many persons frankly admit they read the advertising pages simply because they are so interesting.

THE falling off of 25 per cent. in marriages under Cleveland and low Tariff is not at all surprising. It has been difficult enough for the average young man to feed and clothe one person.—Journal, Kansas City.

If the Free-Traders are not satisfied to compare the imports of 1895 with those of 1894, why are they so anxious to compare the improvement in business, as represented by bank clearings and the better Treasury exhibit made this year with those of 1894? What is sauce for the goose is sauce for the gander.

MESSRS. Landers, Fray & Clark have supplied all the cutlery that is used on the new American liner "St. Louis." Patriotic Americans will rejoice in this fact, because it shows that the International Navigation Company believes in patronizing American industries. Transatlantic travelers who have been in the habit of using cutlery supplied by English manufacturers will, we are quite sure, find that there is no deterioration in the quality of the American cutlery that is used on the American steamship "St. Louis," and which will also subsequently be used on her sister ship the "St. Paul."

THE next ten months will be a period of political wire-pulling, speculation and scheming, preceding the nomination of presidential candidates for the election of '96. The wooing note of the candidate and the enthusiastic cry of the convention delegate are even now to be heard in the land, and when the robins nest again the country will be filled with the sound thereof. Of platforms and declarations of principles there will be no end. The present prospect is that there will be an unusually heavy crop of presidential nominees. Besides the candidates of the great parties, there will be a score, more or less, of nominees named by small associations of men. There will probably be a Socialist ticket and a Woman Suffrage ticket, possibly a Single Tax ticket and a Free Silver ticket. Eugene V. Debs, late dictator of the United States, but not languishing in jail, has already been nominated for President, but we regard his election as by no means assured.—Ex.

THE election of last fall was a rebuke to the Administration and a condemnation of the policy which has in large measure turned our market over to the foreigner, and the manufacturer has confidence that the restoration of the Republican party to power means a restoration of this market to him. The improvement we note in trade today is in large part based upon the confidence that no more pernicious legislation is possible.—Textile Manufacturers' Journal.

AN exchange, commenting upon the construction of great railroads, remarks as follows upon the completion of the Trans-Siberian road, the longest, and, in many respects, the most important commercial enterprise of the century; The great Trans-Siberian railroad, when completed, will be to Asia what the Union Pacific road was to North America—a new thoroughfare across a continent. It will be by far the longest road in the world, running from Vladivostok on the Pacific Ocean, to Cheliabinsk, a distance of over 7,000 versts, or about 5,000 miles. At Cheliabinsk the road will connect with existing roads, so that a passenger will be able to travel from Vladivostok to St. Petersburg, a journey of 7,000 miles, without changing cars or leaving Russian territory. The cost of the road is estimated at 350,000,000 rubles, a ruble being equivalent to fifty cents. There are some advantages of an autocratic government, such as that of Russia, one of which is, that a great enterprise like the building of this Siberian railroad, can be consummated with economy and expedition and without passing around "huddle" equal to the actual cost of the work, to greedy legislators and lobbyists.

ANN ARBOR has never been successful, to any great extent, in inducing capitalists to make investments here. Still there is nothing that this city needs more, to boom it in a commercial way, than additional manufacturing enterprises. Why the city has not been more successful in this respect may be a disputed question. One thing however, is certain unless the city is willing to act in a reasonable way towards enterprises which have already been established here and in which large sums of money have been invested by both local and outside capitalists, it will not be difficult in the future to find a good reason why capital cannot be induced to invest here. We refer to the action of the council upon the question of electric lights. It is the duty of the council to secure the city lighting at a reasonable rate. It is also, it seems to us, their duty to give the first consideration to those who have already invested their money here, who have given the city good service, and who are perfectly able to continue to give the city acceptable lights. So far as the council is aware, judging from any expert examination in the matter the city is lighted at as low a rate as can be done and furnish the service demanded. If, after a proper investigation, it is found that the city could be lighted at a lower rate, then it is time to demand that the local company reduce its rate. If it should then refuse to do so, the council would of course be in duty bound to secure bids from outside. We do not believe that such an investigation would show that the price the city has been paying has been more than enough to cover the cost of running the plant, keeping it in repair and paying a reasonable income upon the investment. We are well aware that it is reported other cities secure better rates, or that some cities own their plant and as a result are able to light the public streets at a much lower rate than is being paid by Ann Arbor. We do not believe that when all the items are taken into consideration that such reports are true. In regard to the low rates bid by the outside firms there is probably one of two motives behind them. Either the bidders hope to secure the contract and render a poor service and run the risk of the city going to law to compel a better service, or they expect by securing the contract for the city lighting, to drive the company already established here to the wall and then to purchase its plant at a sufficient sacrifice to amply compensate them for the low rate made the city. Can this city afford to encourage such a condition of things? We believe not.

STIRRED UP THE DRY BONES. The article in last week's REGISTER relative to the removal of the post-office seems to have given the owner of the building now occupied by the Ann Arbor post office a severe, nervous shock. As a result the Courier devoted a half column to the subject showing how perfectly absurd it was for anybody to even think of a change of location of the Ann Arbor post office. Among other things the Courier says "Of course people having a selfish interest in the matter, who would desire to have their own property enhanced in value regardless of the effect upon the balance of the city will probably never cease to agitate this matter." A disinterested person would have a hard time to persuade himself that it is not more selfish on the part of the Courier to urge that the post office remain off at one side of the city than it is selfish for others to want it located more centrally. The Courier also stretches a point almost to where it will break when it states that the post office has always been located in a building facing the

court house square. A great many years of that time it was located in the rear part of such a building and, as a result, was nearly a block from the court house square. There can be no question that a removal of the post-office to Washington-st. would not benefit property in the vicinity of the present location of the office. A question of equal, if not much more importance is: Would a removal of the post-office to Washington-st. materially benefit the property holders on that street as some of them seem to think? We believe that it would take but little effort to convince the business men in the city that it would not. As it is now located all the people in the south, southeast and southwest portions of the city are obliged to pass the large majority of the business houses in the city to reach the postoffice. It is these parts of the city that are making the most rapid growth. Ten years from now, judging from the past ten years, at least four-fifths of Ann Arbor will be south of Huron-st. It such proves to be the case, as it certainly will, it will most assuredly be to the interest of the stores between Huron and Liberty-sts. to have the post office north of them so that three-fourths of the citizens will find it necessary to pass all these places of business when visiting the post office as every citizen has frequent occasion to do. The Courier would have made itself much less ridiculous had it taken some such position and said less about people being selfish.

From the Adrain Press. Up at Waldron the other evening, while a young man was acting as pilot to his girl, there crouched in the path of the pair, another fellow possessed with a jealous devil, as large as a woodchuck. He threw a lasso over the neck of the escort, and would have choked him to death had not a passer by interfered.

Mr. Wisdom resides at Milan. Members of the Folly family can be found in most all towns.

The result of the attack on Ann Arbor, by the Salvation Army, was quite a surprise to all concerned. Each side appears to have misunderstood the others strength. Both sides are in council.

Little Johnny Ritz, of Ann Arbor, peered into the barrel of a child's rifle, to see how it looked inside, but owing to a severe scalp wound he received at just about that time he has no distinct remembrance of how it did look.

It cost two Ann Arbor boys jointly \$82.48 to chase boats containing young ladies, off the water, at Whitmore Lake, the chasers being clad only in hats, and the Paisian costume, worn in Eden before the transgression.

W. C. T. U. For God, and Home and Native Land. Edited by Mrs. A. E. Van Valkenburg, Press Superintendent. Next Sabbath evening, August 18th, the union services in the Methodist church, under the auspices of the Woman's Christian Temperance Union of Ann Arbor, will be addressed by Dr. Mary Wood-Allen, national superintendent of the "Purity" department. Subject "Hereditry" or "The Bequests We Make Our Children." Mrs. Allen was invited to give her lecture on "Hereditry" before the Pennsylvania Legislature in the House of Representatives. Of this lecture a writer in the Union Signal says: "If any went there from mere curiosity, they soon became impressed with the earnestness of the speaker, and of the great importance of her subject. The interest became intense, and many declared that they never knew before what it was to hear every word of a speaker in that hall in profound silence. At the close of the lecture the members gathered around Mrs. Allen with expressions of thanks and words of commendation, such as: "That is every word true." "That is the strongest argument for temperance I ever heard." "That lecture should be heard in every city and town, in every church and school in the land." The local union hold their next regular meeting one week from today in the parlors of the Presbyterian church, at three o'clock. Our president has returned from Hackley Park refreshed and enthusiastic, other members are returning from their outings, and it is hoped that there will be a large attendance at this meeting. A special invitation is hereby extended to all those who have been members of the W. C. T. U. in other places, and to all who are interested in the cause and would like to join our union, to be present at our meetings. We need all the consecrated talent of the women of the city to carry on successfully the various departments of W. C. T. U. work.

Try Our "Old Bourbon." By Mary Maxley. Yesterday while seated with my books and paper trying to steal a quiet hour from my domestic duties, the door-bell rang with such convulsive impatience that I quickly hurried out to see who was there. I was surprised when I opened the door to find no one. At my feet, however, lay a square, snowy white envelope. Opening it, I read "Yourself and family are cordially invited to attend the opening reception of

our "sandy rooms." Then followed date, street and number. In one corner in very small script was written, "Try our "Old Bourbon." The hot blood of resentment surged through my veins, and as I looked down at my little white ribbon, it seemed to me that it, too, was turning crimson with the indignation it felt at being brought into such close proximity with this invitation from Hades.

It is not enough that every public place must be smirched by filthy play-cards, but the sanctuaries of our homes, our nation's very bulwark must be invaded, our door-ways and hall-ways used for their advertising purposes, and our fathers and sons inveigled out to these enticing places. I felt thankful, as I consigned the polluting thing to the mercies of the devouring flames, that if and not one of the twenty young men of our household had received this invitation.

Try our "Old Bourbon"—the accursed product of the still? Had I the voice of the thunder and the trumpet of Gabriel I would cry out to all the inhabitants of the earth, "For God's sake, for your mother's sake, for your soul's sake, try not 'Old Bourbon.'" Concealed within that sparkling amber cup is hidden a poison that is just as sure to do its deadly work as is the angel of death. Does not the Bible say, "No drunkard shall inherit the kingdom of heaven?"

The Board of Public Works, Office of the Board of Public Works, Ann Arbor, August 7th, 1895. Regular session. Called to order by President Clark. Present, Pres. Clark, Schuh, absent Mr. Bullis. The minutes of July 31st and August 5th, were read and approved.

Hochrein and Theo. Backhaus be granted. Yeas—Pres. Clark, Schuh—2. Nays—None. Pres. Clark moved that the application of John C. Carroll be laid on the table. Yeas—Pres. Clark, Schuh. Nays—None. Mr. Schuh moved that the Street Commissioner expend \$15 in filling washout on Felch-st. Yeas—Pres. Clark, Schuh. On motion the Board adjourned. GLEN V. MILLS, Clerk.

ADDITIONAL LOCAL. The effort to raise a bonus to induce the Hay and Todd company at Ypsilanti to establish a large branch factory here is a good one and should have the hearty support of our citizens.

Mrs. Abram Abel, the mother of Eugene Abel, who was partner of Phillip Bach, of the firm of Bach and Abel, died at her home in Fultonville, New York last Sunday night at an advanced age.

Mr. O. E. Wagner, Prin. of the Shortland school reports a bright outlook for this fall. He states that the inquiries from various parts of the state indicate a larger attendance than ever before. For several months past the school has not been able to supply the demand that has been made upon it for first class stenographers by business men. This a petty good indication that business is picking up.

A quiet wedding was celebrated at the home of the bride's mother Mrs. Mary E. Worrall, 53 S. Division-st., on Thursday, when Miss Grace D. Worrall was united in marriage to Mr. Benjamin Wade Burleigh, of Yankton, Dak. The ceremony was performed by Rev. J. M. Gelston only the immediate family being present. The happy couple left on the evening train for Chicago, where Mr. Burleigh will complete his course in the Congregational Theological Seminary this fall.—Saturday's Times.

Mrs. Anna M. Weitbrecht died of old age yesterday afternoon at the home of her son-in-law Gottlob Staebler of Dixboro, aged 86 years, 4 months and 5 days. One daughter Mrs. Gottlob Staebler, of Dixboro, one son Jacob Weitbrecht, of Howell, and a number of grand children survive her. The funeral services will be held at the home tomorrow morning at 10 o'clock, Rev. Max Hein officiating. The remains will be interred in Forest Hill cemetery about 1.30 P. M. tomorrow. Mrs. Weitbrecht was a resident of this city for a great many years, living on W. Liberty-st. She went to live with her daughter about four or five years ago.—Friday's Times.

Dr. Mary Wood-Allen, national superintendent of the "Purity" department of the W. C. T. U., will deliver a lecture in the M. E. church next Sunday evening under the auspices of the Woman's Christian Temperance Union. Her subject will be "Hereditry" or "The Bequest We Make Our Children." In 1875 Mrs. Allen received a medical diploma from the University of Michigan. After this she spent three years in study and travel in Europe. She spent a year and a half in a hospital at Vienna, Austria. For seven years Mrs. Allen has been one of the most popular and successful national lecturers of the W. C. T. U. Her writings which are quite numerous, show great literary ability. All who can possibly do so should hear this lecture.

SEALED PROPOSALS WANTED.

Sealed offers to purchase Thirty Thousand Dollars of the bonds of the City of Ann Arbor, State of Michigan, will be received by the City Clerk at any time on or before Monday, August 19th, next, at twelve o'clock noon.

These bonds are to be sold for the purpose of raising money to enable the city to construct lateral sewers in Districts Nos. 3 and 4, otherwise known as Hill and Huron street Districts and they were authorized by a special act of the Legislature, and will draw interest from August 3rd, 1895, at 5 per cent per annum, payable at the City Treasurer's Office. The principal will mature in yearly installments of Seven Thousand Five Hundred Dollars and are to be charged upon their respective districts payable on or before the first day of March of each year. The bonds will be issued in denominations of \$500 each. The said bonds will not be sold for less than face value and accrued interest and the right to reject any or all bids is reserved.

By order of the Common Council. GLEN V. MILLS, City Clerk.

A KNIFE

In the hand of a Surgeon gives you a feeling of horror and dread. There is no longer necessity for its use in many diseases formerly regarded as incurable without cutting.

The Triumph of Conservative Surgery

is well illustrated by the fact that RUPTURE or Breach, is now radically cured without the knife and without pain. Clumsy, chafing trusses can be thrown away! They never cure but often induce inflammation, strangulation and death. TUMORS, Ovarian, Fibroid (Uterine) and many others, are now removed without the peril of cutting operations. PILE TUMORS, however large, Piles of the lower bowel, are permanently cured without pain or resort to the knife. STONE in the Bladder, no matter how large, is crushed, pulverized, washed out and perfectly removed without cutting. ICTERUS of Urinary Passage is also removed without cutting in reds of cases. For pamphlet, references in particulars, send 2 cents (in stamps) to The Dispensary Medical Association, No. 663 Street, Buffalo, N. Y.

MOTHERS

and those soon to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its tortures, terrors and dangers to both mother and child, by aiding nature in preparing the system for parturition. Thereby "labor" and the period of confinement are greatly shortened. It also promotes the retention of an abundance of nourishment to the child.

ITS DORA A. GUTHRIE, of Oakley, Overton Co., W. Va., writes: "When I began taking Dr. Pierce's Favorite Prescription, I was not able to stand on my feet without suffering almost death. Now I do all my housework, washing, cooking, sewing and everything for my family of eight. I am stouter now than I have been in six years. Your Favorite Prescription is the best to take before confinement, or at least it proved so with me. I never suffered so little with any of my children as I did with my last."

 The Catholic Picnic, held in Reynold's grove at Whittaker last Thursday was a great success, both socially and financially. They cleared \$57.
 At the annual meeting of the Ladies Aid Society of the Willis M. E. Church held in their Hall last Wednesday, the following Officers were elected for the ensuing year: Pres. Mrs. Albert Day, Sr.; Vice-Pres. Mrs. Kate Sherman; Secty. Mrs. Mary U. Russell; Treas. Miss. Ella Warner.
 The Farmers Annual Basket Picnic, will be held in Wm. Thorn's grove one quarter mile west and half mile north of Willis R. R. Station Tuesday, August the 27th. There will be good music and it is expected that Capt. E. P. Allen and Rev. Father Kennedy, of Ypsilanti, and Mr. John McDougal, of Superior, and John K. Campbell, of Augusta, will make short speeches. A general invitation is extended to all to come. Fetch your baskets well filled and have a good social time. Exercises to commence at 10 o'clock A. M.

der was in evidence from the fact that whenever any one arose and obstructed the vision of the occupants of the grand stand, yells and shouts rent the air from the demonstrative spectators.
 The features of the entertainment were so numerous that it is a task in itself to refer to them all. In the introduction the public were made acquainted with Senor Antonio, a Mexican leader, a troupe of Mexican vaqueros, George Elser, fancy and trick cowboy rider, a band of cowboys, Standing Bear, chief of the Sioux Indians, a tribe of Sioux warriors, Grey Eagle, chief of the Mahaje Indians, a tribe of Mahaje braves; Capt. A. G. Shaw, Indian agent and interpreter; a group of western lady riders, Miss May Little, champion lady horseback shot, and Maj. George W. Lillie, Pawnee Bill, white chief of the Pawnees, and late leader of the Oklahoma boomers.
 This interesting and numerous troupe of performers appeared in a programme that was very well conceived, holding the attention of the audience to the end. The difficult rifle practice by Pawnee Bill made a favorable impression. May Little was not so well received, it being claimed that her horse was accountable for her poor shooting. The Mahaje cremation was followed by an exhibition of lassoing and riding wild Texas steers. The act of the pony express carrying the United States mail and being attacked by Indians was again given but with a vim that added new zest to this feature of their entertainment. A true representation of the Deadwood stage coach robbery made a great hit. The cowboys, while riding at full speed, picked up all kinds of objects from the ground amid the enthusiasm of the multitude, and the score of other acts were heartily received, for they were novel, strong and fairly illustrative of the life in the west and in Mexico. This show will appear in Ann Arbor one week from today.

COMING TO ANN ARBOR
Pawnee Bill's Wild West—Hundreds Were Turned Away From the Famous Show in Detroit.
 The following is from the Detroit Free Press of Aug. 1. Pawnee Bill's historical wild west show, Indian museum, and Mexican hippodrome, an imposing and varied aggregation, opened yesterday on the circus grounds out Grand River avenue. Extremely large audiences greeted both afternoon and evening performances, hundreds of people being turned away, especially in the evening, when the seats were all filled half an hour before the curtain arose on the opening acts of frontier life. The spectators found an abundance with which to satisfy themselves and the wild western and Merican features were generally applauded with shouts of approval. That the interest manifested was of the most intense or-

der was in evidence from the fact that whenever any one arose and obstructed the vision of the occupants of the grand stand, yells and shouts rent the air from the demonstrative spectators.
 The features of the entertainment were so numerous that it is a task in itself to refer to them all. NEWS OF THE HAPPENINGS IN MICHIGAN.

St. Ignace Celebrates in Honor of Father Marquette Who was Buried There—Michigan Crop Report for August—Prison Parole System Recommended.

2,300 Soldiers at Camp Devlin.

The Michigan National Guard was greeted by heavy rain when they went into camp at Island Lake. The camp was christened Camp Devlin in honor of the late quartermaster-general. There were 2,300 boys in blue in camp when the first day's work had been finished, including the Nineteenth Infantry of the U. S. Army from Ft. Wayne, Detroit. Brigadier-General Hawley was in personal command and gave the boys 18 hours work daily. Several of the boys were arrested for various offences and a court martial was necessary to enforce discipline. Wm. Bowman, of the Fourth regiment, was dishonorably discharged and drummed out of camp for drunkenness and insubordination. Patrick Cunningham and Henry J. Hastings, also of the Fourth, were fined their camp pay for deserting their posts while on guard duty. The arrival of Gov. Rich, as commander-in-chief, was made the occasion of considerable display, and the old 10-pound howitzer which served in the famous Loomis battery during the war, was brought out to fire a salute of 19 guns. At the seventeenth gun a premature discharge occurred and Chas. McCullough, Frank Kelly and Ira Lent, all of Co. E, First regiment, received injuries which caused the loss of a finger to each.

In Honor of Father Marquette.

Father Marquette, the famous Jesuit missionary whose name is so closely woven into the history of Michigan, was honored by a splendid celebration at St. Ignace. The purpose of the event was to raise funds for the erection of a monument to the missionary of long ago whose remains reposed at St. Ignace for more than two centuries. The celebration opened with a parade in which were hundreds of Indians in costume. They gave a war dance after the march. The city fire department and civic organizations and four brass bands also participated. The formal exercises were held in a big tent on the bluff and were opened by Mayor Connors. Rev. Father J. E. Keul, of St. Ignace, told of the discovery of Marquette's remains in 1877 in the buried ruins of the ancient Jesuit mission church. Gov. Rich, Hon. T. A. E. Weadock and Hon. W. M. Springer delivered addresses and Fr. Chebul spoke to the Indians assembled. About \$2,000 was raised toward a monument.

"Hold Your Head up and Look Natural."

The Photographers' Association of America held four days' convention at the Museum of Art at Detroit. There were 400 members from the various points of the compass. On the first day the photographers did little business. President Schneider, of Columbus, O., read the annual address. The report of J. Ed. Roeche, of St. Louis, the treasurer, was read by Secretary C. M. Hayes, of Detroit. It showed the receipts last year were \$4,787.56, and the expenditures \$3,795. President Schneider's speech was brief, complimentary and encouraging.

The salon exhibits comprised some of the finest specimens of the photographers' art ever shown in this country and contained several hundred very fine photographs of all classes of subjects.

Parole System Adopted by Prison Board.

The state prison boards in session at Mackinac island adopted the parole system authorized by the legislature last winter. The rules provide that the governor may release convicts on parole upon the recommendation of the board which shall be guided by the warden's report. No convict shall be paroled until half his sentence expires and may not leave the state until the full time of sentenced is passed. He shall be deemed in the legal custody of the governor and by him may be ordered back to prison. In event of his refusing to obey he shall be considered an escaped convict. While on parole he shall be subject to prison rules and save or forfeit "good time" the same as if actually in confinement.

New Prohibition Committee.

At the meeting of the Prohibition state central committee at Jackson a resolution was adopted praising Chairman Fanning. Later Mr. Fanning presented his resignation to take effect when his back salary had been paid. Then the committee reconsidered its complimentary resolution and adopted another declaring the office of chairman vacant. A new executive committee was elected: Chairman, John Bilberson, Clair; vice chairman, Dr. H. A. Reynolds, Pontiac; secretary, W. C. Shephard, Grand Rapids; treasurer, C. K. Perrine, Jackson; members, Dr. Paul T. Butler, Alamo; Brent Harding, Bay City, and D. W. Grandon, Adrian.

Nelson Addis, a wealthy farmer near Williamston, was arrested on a charge of illegal parentage, preferred by a Mrs. Wilson, of Grand Rapids. Suit was commenced against Addis a few months ago by the woman's husband for alienating his wife's affections, claiming damages to the amount of \$10,000. Addis settle and Wilson soon after obtained a divorce from his wife, and Mrs. Addis died soon after. Addis has one child, a daughter, aged about 13 years.

The fourth annual convention of the Michigan conference branch Young Peoples' association of the Evangelical Alliance (German) was held at Detroit. There were 37 delegates in attendance, representing 2,000 members, the aims of the conference being similar to those of the Epworth League.

The Copper Falls mine at Calumet, resumed work with 35 men, which force will be materially increased in the near future, as it is probable that the Arnold and Copper Falls mine will be consolidated and strongly worked. This is the first idle mine to resume since the improvement in copper.

United States' Hostility Toward Hawaii

Honolulu advices contain a copy of a letter sent by U. S. Minister Willis to the Hawaiian government, demanding that reparation be made James Durel, an alleged American citizen, of Negro and Indian blood, who was arrested last January charged with treason. In refutation of the demand the Hawaiian government will prove that Durel aided the queen; that he furthered the conspiracy to reseat the queen, and that his demand of \$25,000 is exorbitant. Hawaii is viewing this action of Minister Willis with serious apprehension. They fear that it indicates active hostility toward them on the part of the American administration, and that it is designed to encourage and lead the way to a series of similar demands from Great Britain, and perhaps other powers, which would be ruinous to Hawaii to comply with.

An Extra Session of Congress, Maybe.

Washington: There is considerable talk of congress, or at least the senate, being convened in extra session, before the regular meeting in December, for the purpose of acting upon a nomination for justice of supreme court, so that a full bench may assemble at the October session, which is deemed a matter of considerable public interest in view of important cases pending before that court. If both houses shall be convened, it will be because of the necessity for providing immediate relief to the treasury by raising additional revenue. Other raids upon the treasury gold reserve are confidently predicted, and the belief prevails that the syndicate may not be able or disposed longer to protect it, in which event another bond issue will become inevitable.

Murderer Holmes Has a Rival.

The mystery surrounding the death of Miss Lizzie Knapp, at Wealsboro, Pa., was partially cleared up by the arrest of Lottie Dutton, alias Howell, on a charge of murder. There are two other mysterious deaths which occurred in the Howell family which will probably be charged to Miss Dutton. Soon after her appearance at the Howell residence Howell's wife died under peculiar circumstances. Not long after a young son died with symptoms of poisoning and it is alleged that they were both poisoned by the Dutton woman. She now feigns insanity.

Forty Lives Lost—Two Vessels Sank.

The British ship Prince Oscar, from Liverpool, Capt. Henderson, collided in mid-ocean with an unknown sailing vessel. Both ships sank in less than ten minutes. Six members of the crew of the Prince Oscar, and all on board the unknown vessel, which doubtless had a crew of 35 men, were lost. The survivors, 17 in number, were rescued by the ship D. Harwar, after being confined in an open boat, with neither food nor water, for three days.

Big Fire in Philadelphia.

A fire which did damage amounting to between \$350,000 and \$400,000, started in the big five-story building occupied by Brown & Bailey, as a paper box manufactory at Philadelphia, and before the flames had been gotten under control the big gas fixture establishment of Buck & Co., adjoining and a dozen dwellings which surrounded the two factories were laid in ashes. Several firemen were injured, but none fatally.

NEWS IN BRIEF.

Italy is crowding Brazil for a settlement of the claims of Italians resident in that country.

It is reported that the United States government claims that Spain should pay interest on the Mora indemnity. It is understood that the Spanish government has decided to refuse this demand.

While Mrs. Minnie Poul was walking along the W. & L. E. tracks at Toledo carrying a two-year-old babe in her arm, she was struck by an incoming passenger train and both were instantly killed, being thrown against a loaded freight car.

Mrs. Nancy Barnum, of Bridgeport, Ct., the rich widow of P. T. Barnum, was married to Demetri Callias Bey, of Constantinople, a titled Greek, holding high rank in the Turkish government. Mrs. Barnum was the second wife of the showman. She was born at Southport, Lancashire, Eng., 45 years ago.

Over 25 head of cattle were killed by lightning in a most remarkable way in Finnis county, Kan. A herd of 800 were being moved to another pasture and for a part of the distance were driven through a narrow lane hedged in by a wire fence. While in this narrow passage a thunderstorm overtook them and a bolt of lightning descended and struck a fence post, felling the wire for 200 yards. Every head of cattle that was crowded against the wire was killed.

Six men had a desperate battle in a box car between Erie, Pa., and Ashtabula, O. Three stonecutters, named H. G. Eastick, Bert Smith and John Meinhart, boarded the train at Erie. At a water tank three tramps entered the car, drew revolvers and asked the men to hand over what money they had. Smith had a revolver and showed fight. In an instant a battle was in progress. Eastick was shot through the groin, Smith received a wound in the neck and one of the tramps had a bullet through his neck. All three will die.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

W. J. BRODIE.

1067 W. Polk St., Chicago, Oct. 27, 1893.

THE OWEN ELECTRIC BELT AND APPLIANCE CO.: Gentlemen—Solely in the interest of others who are, or may become similarly affected with myself, I venture to offer my experience with the use of the **Owen Electric Belt**, and that I am actuated entirely by that motive, must be apparent from the fact that until you see my name and address recorded on this letter you had no knowledge of either. I had long been a sufferer from chronic dyspepsia and nervous prostration, contracted or aggravated by many years residence in the East Indies. About three years ago I purchased one of your Belts in the hope that its use might afford me some relief and wore it continuously as directed for about four hours every afternoon for a month or so, and the result was perfectly marvelous. My indigestion with all its attendant miseries, nervousness, depression, irritability and insomnia, from which latter I was a great sufferer, have disappeared. I then discontinued the use of the Belt (the existence of which I had indeed forgotten), until about six weeks ago, when a recurrence of my old trouble very forcibly reminded me of it. I again put it into wear (after ceasing its use for over one and one-half years), and with the same extraordinary results, being again restored to health, strength and vigor, after wearing it for only ten days. Under these circumstances I can most emphatically recommend to others suffering from the ailments which I have endeavored to describe, the adoption of the use of the **Owen Electric Belt**. I had long been aware of the curative powers of electricity from what I had read on the subject, and on my return to England I purchased from Pulvermacher of Regent Street, London, the combined chain bands, of which he is the patentee, for which I paid three guineas, and although I must admit that I derived some benefit from their use, I am bound to say the general result did not approach the benefit derived from the use of the **Owen Belt**, besides which its utility is so great an improvement in comfort and convenience; Pulvermacher's being cumbersome and complicated in adjusting to the body, besides causing from being uncovered, blisters and sores, and above all not being able to regulate the current as is the case in the **Owen Electric Belt**. You are at perfect liberty to make what use you think fit of this letter, and I shall be glad to answer either verbally or by letter any inquiry made from me on this subject. I am, gentlemen, Yours respectfully,
W. J. BRODIE.

FAMOUS PECOS VALLEY

IN NEW MEXICO.

Four years ago a company was formed to construct dams to hold water for use in irrigating the land along the Pecos Valley. This company has the

LARGEST RESERVOIRS IN THE WORLD.

The land along the valley, with plenty of water for irrigation, is the richest land in the country. For the purpose of raising Peaches, Pears, Apples, Grapes, Plums, Apricots, it is equal to any section in California. The cost of land is **Surprisingly Low**, while the water tax is merely nominal. There can be no question that in the next three or four years land in this valley will increase, from three to five times what it can now be secured for. The company that has constructed these great reservoirs are anxious to place the land with actual settlers and are using every legitimate means to induce farmers to remove to so inviting a field. Great numbers have already gone. Thousands more will be sure to follow soon. This place has

HERE AND THERE.

VARIETY OF NEWS ITEMS FROM A RIOUS PLACES.

Missionaries in China Continue to be in Great Danger of Their Lives from Fanatical Rioters.—Cuban Insurgents Form a Republic.

American Missionaries Slaughtered. Dispatches from Foo Chow, China, say: A mob has looted the American Zion chapel at Inghok, 50 miles from here. Unless prompt action is taken there is danger of great riots in other places. The Chinese soldiers sent to protect foreign property plundered the Stewart residence and the general situation is critical. There is no American protection and that government's neglect is infamous.

Hong Kong: The British and American missions at Fat Shan, near Canton, were attacked by a large mob and the hospitals were demolished. The missionaries fled for their lives. It is rumored that other missions will be destroyed.

London: Archdeacon Wolfe cables from Foo Chow saying that the Chinese soldiers sent to protect the mission at Ku Cheng broke into and plundered it. He adds that no reliance can be placed upon the Chinese authorities. It is known that the authorities knew of the intention of the so-called vegetarians to destroy the missions and kill Christians, but they did nothing to prevent the massacres, and did even warn the Christians.

More Missionaries May be Massacred. Dispatches from Fu Chow and Hong Kong says that the situation of European and American missionaries is critical owing to the open hostilities of the natives and native officials. If an outbreak occurs, the native officials will be unable to cope with the mob. Fu-Kien province is said to be in a state of rebellion and the mission of Fung-Fuk, in that province, has been burned. The missionaries have telegraphed for gunboats to protect the foreign settlements. The massacre at Ku Cheng was carried out in the most diabolical manner and it was evidently a premeditated and carefully arranged attack, entirely unprovoked, made upon the occupants of the missionary station while they were asleep. There are rumors of further riots at places nearer to Fu Chow than Ku Cheng. This district includes the stations of the Church of England at Zenana, the American Methodist stations at Fuhkien, Fuhning, Layong, Ningtaik, Hokchiang and Huighwa.

More News of the Murders. Foo Chow, China: Baby Stewart, the eleventh victim of the massacre of missionaries by Chinese at Hwasang, is dead. One of the murderers of the Stewarts has been caught and confessed that the vegetarians cut off the hands and head of Mrs. Stewart, who was frenzied and fought till hacked to pieces. Foo Chow is cut off from Peking. The Chinese say the telegraph lines are blocked north of Yangtse river. The American warship Detroit is coming.

Washington: A telegram received at the navy department announces that Commander Newell has sailed with the U. S. cruiser Detroit from Shanghai to Che-Foo. This latter port is further from the scene of the riots than Shanghai, and the navy officials take this as indicating that the United States authorities in China do not fear further outbreaks.

Cubans Form a Republic.

Reports from the rebel headquarters in Bari, Cuba, confirm the rumored foundation of a provisional government in the valley of the Yara. Gen. Bartolomeo Mazo, nominated by the general-in-chief, Maximo Gomez, was proclaimed as president. The cabinet is yet unannounced, though Antonio Maceo, it is said, has received an offer of the portfolio of war. It is understood that Dr. Catillo may be sent to Washington to attempt to secure recognition and belligerent rights for the provisional government. Admiral Mello, of Brazil, volunteers his services to organize a naval squadron to run the Spanish blockade. The organization of the Cuban forces there is now perfected, and is composed of 15 regiments of infantry and six of cavalry. Of this number, however, only about 50 per cent are well armed. In Camaguary and Las Vegas, Gomez reports 7,000 men as under arms.

Supreme Court Justice Jackson Dead.

Hon. Howell Edmunds Jackson, associate justice of the supreme court of the United States, died at his residence at West Meade, six miles west of Nashville, Tenn., at the age of 63, of consumption. Judge Jackson had been in failing health for the past four years. The strain of the hearing of an income tax case is believed to have hastened his death. Judge Jackson was a Democrat, but was appointed to the supreme court bench by President Harrison in 1893.

Trouble in Spring Valley.

The trouble over the race riots at mining town of Spring Valley, Ill., seems to be about over. A mass meeting was held by the miners and resolutions were adopted guaranteeing protection to all hands. The resolutions did not meet with much favor from a great many of those present, however. Manager Dalzell, of the mines, says that he will open the mines and give all hands work. If the Negroes apply they will be put to work at once.

The governments of Nicaragua and Costa Rica have notified steamship agents that the prohibition against the landing of priests and nuns has been removed, and free entry is accorded to all, except Chinamen.

Gen. Antonio Ezeta, an exile from San Salvador who is now in California, issued a proclamation to his countrymen saying that he will soon return to lead a revolt against the government. He says the army is disheartened and will welcome him back as their leader.

The bridge across Paint creek, on the Ohio Southern railway near Bainbridge, O., gave way under a loaded freight train. The bridge, engine and engine cars all went into the reek, taking with them Engineer Clint Radcliffe, Fireman Howser and brakeman Thomas Byers, who were buried under the wreck. The water is 15 feet deep.

UNION VETERANS' UNION.

Old Soldier's Meet at Lima, O., Have a Good Time and Elect Officers.

The tenth national encampment of the Union Veteran's union and the Woman's Veteran's Relief union was held at Lima, O. Commander-in-Chief Oaks' annual address showed that 32 new unions had been added during the year, Kentucky and South Carolina being in the list. Over 1,100 recruits were received, while the loss by death or expulsion amounted to 700. Officers elected were Gen. L. F. Ellis, of Lima, commander-in-chief; Gen. Sheet, of Washington, D. C., first deputy; Gen. J. G. Benson, of Maine, second deputy; Col. Miller, of Pennsylvania, surgeon-general; Rev. Silas J. Robbins, Rochester, N. Y., chaplain. The Women's Veteran's Relief Union have elected Mrs. Hortense White, of Fremont, president; Mrs. Lorinda Smith, Lima, senior vice; Mrs. Bernard, of Maine, junior vice; Mrs. Lillie Thomas, of Washington, Pa., conductress; Mrs. Mary J. Wright Howe, Michigan, chaplain.

Prospects of a Bloody Race War.

Two colored women, refugees from Spring Valley, Ill., from whence they were driven by the Italian miners, have reached Chicago and the reports they give of the treatment of the colored people at that place have inflamed the Negroes to the highest pitch. Over 500 excited Negroes in a mass meeting at Chicago passed resolutions demanding that Gov. Altgeld protect the colored people at Spring Valley, and asserting their determination to leave for that place with arms should the governor refuse to take action. The men were excited and the speeches were violent and determined. The sentiment so alarmed the Italian consul that he held a conference with Mayor Swift and Chief of Police Badonoch and it was decided to prevent the colored men from assembling an armed mob in Chicago.

Women Riot at Shantytown.

A riot broke out in Shantytown, Wis., the land which is claimed by the Menominee River Lumber Co. and over 200 squatters. The lumber company built a fence and 30 or 40 women attacked it with axes, tore it down and then threw the fragments into Green Bay. When another crew attempted to rebuild the fence the women chased them away with clubs, and John Lunberg, the foreman, was seriously hurt. Mike Corry, superintendent of the company, attempted to start the fence building again and the women threw hot water on him. The men have decided to help the women fight it out, and they now stand with sleeves rolled up ready to drive the first man off who trespasses on their alleged rights.

German Emperor Visits England.

Emperor William, of Germany, on a visit to England stopped at Cowes for a time and later went to Lord Lonsdale's seat, Lowther Castle. Lord Lonsdale met him at Clifton station, accompanied by a body of huntsmen in scarlet coats drawn up on the platform. The country people from far and near came to witness the emperor's arrival. The party drove a mile in open carriages to Lowther Castle. Emperor William is to make a tour of the English lakes.

Mrs. Annie Gardner, the Nebraska delegate to the C. E. convention at Boston who so strangely disappeared and whose husband received letters saying she was dead, has been discovered at Norwich Ct. She says she does not want to return to her home.

REVIEW OF TRADE.

Dun's says: Business continues unusually active for midsummer, and though there is perceptible relaxation there are no signs of reaction. The one change of great importance which the past week has brought is eminently helpful—the amicable settlement between coal miners and operators in Western Pennsylvania, Ohio and Indiana. It is said that about 100,000 men will have their wages increased after October 1 by this adjustment, and while the enlargement of purchasing power is of consequence it seems even more important the chronic cause of controversy has been removed by the new agreement as to company stores. There is no important change in crop prospects. Wheat declined a fraction with scanty receipts influencing the market for the present more than the restricted exports. The concerted withholding of wheat by western farmers, if continued, would doubtless affect the price in the end, but it has already stopped Atlantic exports almost entirely, and when foreign markets have supplied their needs from other quarters the western farmers may find reason to regret that they did not ship their wheat at ordinary time. Corn tends to lower prices with more encouraging prospects, and the expectation of a heavy corn crop affects prices of provisions, which might be expected. The industries continue to make progress, and higher prices for iron and steel products prove that the supply has not outrun the demand. The anthracite coal market is completely demoralized and prices have again yielded a little to about the lowest ever known. Sales of wool are not so much inflated by speculation as they were during July, but they still considerably exceed the actual consumption in the manufacture. Prices are very firm.

Mrs. Mary Murphy, aged 60, and Frank Kelley, aged 4, were fatally burned at Cohoes, N. Y. The woman fell asleep while smoking and her dress caught fire. It is thought the boy must have been burned in attempting to extinguish the flames.

George F. Root, the noted composer, died at Bailey's Island, Maine. His death was unexpected. He wrote many war songs by which he is best known. "The Battle Cry of Freedom" ("Yes, we'll rally round the flag, boys,") "Just Before the Battle, Mother," "Tramp, Tramp, Tramp," and "The Vacant Chair."

AMONG OUR NEIGHBORS.

MANCHESTER ENTERPRISE. Manchester will have a day of sports in few weeks. Leonard Herman has bought the Hudson farm opposite his own place, southwest of town. Time was when wool time was reckoned on by the merchants as the looked for pay day and farmers were sure to pay their store bills out of their wool money. But now it is different and but little of the wool money gets in to circulation through the merchant's hands. We were much pleased on Sunday morning by a call from Prof. Miller of the Big Rapids schools and S. W. Clark, cashier of the 1st national bank of Ann Arbor. It is nearly 20 years since Prof. Miller was superintendent of our schools and 16 years since he visited here. A party of young ladies of the village hired a team and wagon with hay rack, and with Prof. Thos. Moran as driver, and Fred Freeman as all around man, drove to Wampler's lake last Friday to the farmer's picnic. They had heaps of fun going out at the lake, but a hay rack is no phaeton to ride home in and the ladies were nearly exhausted when they returned. DEXTER LEADER. Sixty tickets were sold at this station for the Maccabee excursion to Detroit today. A large blue Heron mounted by Ed. McLain and A.K. Collins is on exhibition at Davis Bros' store. The children of the M. E. Sunday school turned out en masse and enjoyed a picnic at North Lake last Friday. C. Schultz contributed \$5 and costs for riding his bicycle on the sidewalk Tuesday, contrary to the bicycle ordinance. Miss Eva Mains arrived home from her trip to Baltimore and Washington Saturday evening, accompanied by her friend, Miss Hollister. Every hitching place taken and the streets and stores filled with people show that Dexter was getting her share of business Saturday evening. The best of it is this is a regular weekly occurrence. YPSILANTI COMMERCIAL. Dr. Walting and family started for Boston by the way of Montreal, Tuesday night. They expect to be gone a couple of months. The yield of wheat is much better in this county and southern Michigan than was expected before threshing commenced. Although straw is short, the average yield is all of 20 bushels. We see by the Evening Journal of Jersey City, N. J., that Rev. Mr. M. Morey has charge of the union meetings in Jersey City, held under the auspices of the evangelical churches there on the Sabbath. SALINE OBSERVER. A little son was born to Mr. and Mrs. Will Toller Saturday. Mrs. Armda Trapp and family have temporarily moved to Ann Arbor. The Farmers' Club meeting which was to have been held at G. L. Hoyt's tomorrow afternoon has been postponed until the first Friday in September, on account of the funeral of Mrs. Phelps. Mrs. Phelps who has been sick for a long time died at the home of her daughter, Mrs. Wood Wednesday morning. The funeral will be held at the house tomorrow at 2 p. m. Particulars next week. A committee from the village council are negotiating with the school board for the erection of a large cistern to be erected on the school ground, to be built by the district and village jointly, for the protection against fire both to the school and adjoining properties. Mrs. J. H. Barr invited her many friends to her home Sunday evening to view the blossoms of a night blooming cereus. The plant stands about two feet high and had five open blossoms at the time, and other buds nearly open blossoms were about four inches deep and nine across, very fragrant and beautiful. CHELSEA STANDARD. Dogs have killed five sheep for G. Freer one night last week. One hundred and six of our inhabitants took in the excursion to Detroit yesterday. A bicyclist named Levis, with a wheel geared to 100 was the center of attraction on our streets Tuesday evening. The motive power is furnished by the feet and the hands. He claims to have ridden a mile in 1:43 on the machine. The fourth quarterly meeting of the M. E. church will be held August 18th. The fourth quarterly meeting will be held Friday evening, August 16th. This will be the meeting for the election of the new church officers and for the appointment of committees and for hearing reports for the year.

POSTUM MAKES RED BLOOD CEREAL FOR THOSE WHO CANNOT USE COFFEE, A DELICIOUS SUBSTITUTE. It brews a deep seal brown color, changing to a rich golden brown when cream is added. It is made wholly of the nourishing grains, and is fat-free, pure and wholesome. Sold by Grocers in 15 and 25-cent boxes. Sold by Rinsey & Seabolt, F. G. Scheiber & Co., Dean & Co., S. Baumgartner and A. E. Mummery.

Word has reached us that Will Whitcomb, son of Rev. W. W. Whitcomb formerly pastor of the Baptist church here, is very sick, with no hopes for his recovery. CHELSEA HERALD. Local hunters look forward to unusually good sport this fall. The dry spring has been favorable for rabbits, as very few of the young ones were drowned in their burrows, which are usually made in damp places. The dry summer has encouraged the quail to breed twice, and farmers in all sections of the state report them present in unusual numbers. The State Dairyman's Association of Michigan organized under the new law, will hold a series of dairy institutes at the various county fairs this fall, in which experienced dairymen will give familiar talks to butter and cheese makers on the practical side of dairying. They will hear and answer questions and illustrate their actual knowledge and point out defects in dairy products and tell how to remedy them. It is expected that ex-Governor Hoard, of Wisconsin, one of the best informed dairy experts in the country will be one of the instructors. \$100 Reward \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. For list of testimonials, Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists.

ONE ON GOMPERS. The Record was slow, but the Road was Rough. A year ago those three practical jokers, Dick Powers, J. J. Ryan, and Jim Linehan, attempted to bump the life out of Samuel Gompers, ex-president of the American Federation of Labor, by giving him a front seat in the boat which took the chutes. Sam was in town last week to show his love for the stars and stripes, says the Chicago Mail. After he had had his say at Sharpshooters' park he was taken in hand by James J. Linehan, G. W. Perkins, and several other good citizens. Friday Linehan proposed a ride through the city on bicycles. Gompers holds the record for speed on Manhattan island, and he wanted to exhibit his proficiency on the wheel. The wheels secured, the party started over on the west side. After riding over the corduroy roadway under the Lake street elevated railroad, the conspirators branched off into worse conditioned streets. Wherever the roadway was exceedingly rocky Perkins and Linehan would say: "Now, Sam, let us take advantage of this splendid track and speed our wheels." The victim would pull his hat down over his face to conceal his determined feelings and say: "I have heard of your streets before, but never thought they were as bad as this." Why, this is a boulevard," said Linehan, "and you have nothing to equal it in New York." Gompers kept manfully on. In this way about ten miles had been covered, but Gompers thought he had ridden 100. Not a sandy road nor a rocky street was omitted by the conspirators. It was about 8 p. m. when the party, all fagged out by their extraordinary feat, stopped at a north side summer garden. Then Gompers confided in his friends that he would never take another bicycle ride in Chicago until the streets had been paved. He never suspected that he had been the victim of his friends, and there is no telling what he may do when he finds out he had simply fallen into a trap laid for him by his Chicago friends.

Grandma's Funeral. A sad-eyed schoolboy approached the naster and begged leave of absence for he afternoon, in order to run the errands of his sick grandmother. The naster, pitying the helplessness of the nfirm old woman, granted his request. Some time after the boy again asked permission to be absent, as his grandmother was dying, and, needless to say, his petition was a second time granted. A few days later the poor boy, with ears in his eyes, begged leave to attend his grandmother's funeral, and for he third time he was excused attendance at school. About 5 p. m. the same day an irate female viciously rang the door-bell and indignantly demanded of he schoolmaster why the boy was detained at school every afternoon. "My dear woman," exclaimed the astonished edagogue, "I thought you were dead and buried. Your grandson has gone o your funeral!" Did You Ever Think That you cannot be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth, the great blood purifier.

Found a Petrified Fish. A prisoner on the stone-pile broke open a big limestone and rolled out a perfectly petrified fish at Portsmouth, Ohio, the other day. The specimen is complete, and is now at the mayor's office. It is said by experts to be a almon.

BANKING IN ILLINOIS. Operations of the Torrens System of Guaranteeing Real Estate Titles. Illinois is a commonwealth of many small towns, in which, numerically the private banking institutions predominate. Nor does the supposition that business men prefer to deal with incorporated banks seem to check the progress of private banking enterprise in that state. In 1890 there were 482 such institutions in operation; in 1894 there were no less than 500, exhibiting a ratio of increase which is not equaled by the growth of the national or the state banks. The following table gives the numerical position of the three classes of banks at two periods:

Table with 3 columns: Year, No. of Banks, No. of Depositors. 1890: National banks 196, State banks 90, Private banks 485. 1895: National banks 218, State banks 131, Private banks 455.

The field for the national banking system is comparatively limited, owing to certain well known restrictions imposed upon the associations organizing under it. In the country districts the bankable collateral is an asset composed of land securities, an asset discounted by the federal banking act. Here a cautious banker operating at his discretion, and comparatively unlimited as to the nature of the securities in which he may deal, secures an opportunity for rendering an efficient service to the community. As affecting the availability of such investments in Illinois, it is of interest to note that real estate security is about to be relieved of many of the disabling legal burdens which interfere with its easy transference. The legislature of Illinois recently passed an act providing for the introduction of what is generally known as the Torrens system. Under this system titles to real estate are guaranteed by the state, so that once the title is established the instrument of proprietorship may be transferred with the facility of a negotiable note. Thus titles to real estate become bankable assets of greater effectiveness than that class of securities has ever enjoyed. The American Banker years ago urged the general introduction of the Torrens system for the particular reason that it turned a cumbersome security into a quick asset of unquestioned validity, and the results of the experiment now to be tried in Illinois will receive the closest attention of all who are interested in freeing the material of credit from obsolete legal complexities.

Consumption Can Be Cured by the use of Siloh's Cure. This great Cough Cure is the only known remedy for that terrible disease. For sale by all druggists.

Couldn't Make It Out. One evening last November Shepherd's Bush was visited by a dense fog, making it extremely awkward for pedestrians crossing the road opposite Cambridge Road Station, where cabs and buses are continually passing to and fro. So bad was the fog that it was almost impossible to see more than a foot or so in front of one, says Pearson's Weekly. A gentleman going home from the city, and just coming out of the station, thought it would be safer to cross the road first; then, once over, he would have the assistance of the lights from the shops. He got across the road safely, as he thought, and ran up against a shop window. Being an old resident, he was well acquainted with all the shops, but on looking through the window, this one puzzled him considerably. He observed several persons inside, most of them reading newspapers, sitting in rows and facing each other. All at once, however, while he was racking his brain as to what kind of shop it was, the shop and people glided almost noiselessly away before his eyes, leaving him in the dark again! It turned out it was a tramcar that he had run up against, standing in the middle of the road, and it almost cut his toes off.

Kitchens of Long Ago. The colonial kitchens lasted in many country houses until about fifty years ago. There are men and women still living who vividly describe their glories. They were low, with heavy rafters lighted by small-paned windows, for glass was a luxury in those days. The chairs had narrow, high backs and rush seats. There was, besides, a rudely shaped "settee." The great wood fire burned its prodigious back log in the chimney, and was never allowed to entirely die out. Banked with ashes in the evening, there was always supposed to be a spark to rekindle into new flames in the morning. Not long ago a woman died whose pride it was to say that in the forty years of her married life the hearth fire never went out. If so dire a mischance arose a child was sent to the nearest neighbor with a shovel to "borrow fire," and from the glowing pine knot relighting was again possible. Along the walls were festoons of dried fruits and vegetables.

Shortsightedness. To waste your money on vile, dirty, watery mixtures, compounded by inexperienced persons, when you have the opportunity of testing Otto's Cure free of charge. Why will you continue to irritate your throat and lungs with that terrible hacking cough when John Moore, the druggist, will furnish you a free sample bottle of this great guaranteed remedy? Hold a bottle of Otto's Cure to the light and observe the beautiful golden color and thick heavy syrup. Largest packages and purest goods. Large bottles 50c and 25c.

A Game with Strong Features. The onion sociable is the latest innovation in sociables. It is played as follows: The young ladies stand in a row; one of them bites a piece out of an onion and the men pay 10 cents for the privilege of guessing who the biter is. The successful guesser kisses the other girls, and those who are unsuccessful kiss the girl who bit the onion. The game is said to be a catchy one and is not without its strong features.

Terry's Silverware. Among the many discoveries of the present age, none rank higher than the new metal silverware, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware. Silverware is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want everyone to have a chance to compare silverware with silver, so for the next sixty days we are going to give away one half dozen Terry's Tea Spoons Free, to every person who will send for one of our Silverware sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silverware goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only. Price Silverware set \$2.00. TOLEDO SILVER CO., TOLEDO, OHIO.

A Bad Wreck. —of the constitution may follow in the track of a disordered system, due to impure blood or inactive liver. Don't run the risk! The proprietors of Dr. Pierce's Golden Medical Discovery take all the chances. They make a straightforward offer to return your money if their remedy fails to benefit or cure in all disorders and affections due to impure blood or inactive liver. The germs of disease circulate through the blood; the liver is the filter which permits the germs to enter or not. The liver-active, and the blood pure, and you escape disease. When you're run down, debilitated, weak, and your weight below a healthy standard, your general health, strength, and wholeness of flesh, by using the "Discovery." It builds up the body faster than nauseating Cod liver oil or emulsions. Dr. Pierce's Peppermint Cure constipation, piles, biliousness, indigestion, or dyspepsia, and headaches.

WIDOW OF FEUILLET. She Had Been Brought Up a Royalist by Her Mother. Valerie Feullet had been brought up a Royalist in the provinces by her mother, Madame Dubois, who belonged to the most prejudiced ancient regime, and there are pretty anecdotes of little Valerie's childhood, when she was bidden to kiss a lock of blonde hair belonging to King Henry V, who was to be King only in exile, and when her pretty, dainty, frail mother going to some ball in a sedan chair, took Valerie with her as far as the threshold of the fete and then sent her home to the old Norman house where the little girl had first seen the light, writes "Th. Bentzon" (Madame Blanc) in a charming sketch of "The Romantic Career of Madame Feullet." The mother of Madame Feullet was own niece to a heroine of the revolution, Mademoiselle de Ste. Suzanne, who saved her father from the guillotine by going alone on horseback into the midst of the battle-field to ask the condemned man's pardon of General Hoche. Monsieur and Madame Dubois Grecoeur, sometimes in the little city of St. Lo, the ultra-provincial society of which is described by the author of the "Memoirs" with an extraordinary spirit. It is very easy to find in these portraits the types which inspired her husband with the delightful "Story of Sibile," and with the provincial scenes of "Camors." In fact, there was always between them a kind of involuntary collaboration.

Is Marriage a Failure? Have you been trying to get the best out of existence without health in your family? Have you been wearing out your life from the effects of Dyspepsia, Liver Complaint, and Indigestion? Are you sleepless at night? Do you awake in the morning feeling languid, with coated tongue and sallow, haggard looks? Don't do it. A shout in the camp tells how Bacon's Celery King has cured others: it will cure you. Trial package free. Large sizes 50c and 25c at John Moore, the druggist.

About Knives. A cheap Pocket-knife can be bought at every Store, but it is not the kind you want. One dollar is the lowest price that a really good knife can be sold for. This aluminum is placed in this paper to advertise the very best Pocket-knife ever sold. It is J. C. TIMMARSH'S Sheffield Steel Knife. Never buy a knife only because it looks well. If blades are not the best Sheffield steel they will soon bend, no matter how they will look. Still, you want a fine-looking knife. The United States law provides that only samples to agents and to the trade will be admitted free of duty. You can, therefore, see the advantage that I have in sending samples to agents over those who deal in Sheffield goods in America. I am an advertising agent! I am entrusted with a certain amount to spend advertising these knives (the best value ever seen in America at One Dollar each). Now, the knife is its own best advertisement. Imagine a Pocket-knife (3 1/2 inches long) with the most beautifully-grained ivory handle—genuine African ivory manded with two blades of the very best Sheffield steel that will last a lifetime and cut like a razor. The tips of the handles are heavily plated with sterling silver. And then a very nice chamois leather case goes with each knife. Now, would it not be easy work selling this knife at One Dollar each? I know it would, for it looks as if it were worth two dollars. And so it is if you compare it with the value offered in the ordinary Store. Is not this knife its own best advertisement? You can make \$4 per day selling these knives. This is a genuine and straightforward statement. This is counting that you show it to only twelve buyers every day. And every one that sees it will say it is a good value for \$1. The knives are sold to you at \$8 per dozen; you sell them at \$1 each. I determined to use large sum of advertising money entrusted to me in sending out free samples to those who promise to act as agents for the sale of these knives. I will send you a free sample, but you must sign the promise at the foot of this column, and make a deposit to show that in asking for the knife you are acting in good faith. The deposit that I ask of you is 44 cents about half the wholesale cost of the knife, and less than one-third what you would have to pay for a knife like it, if you bought one. Send the money by a Postal Order or one-cent stamps for 44c., and put a five-cent stamp on the letter, which must not weigh more than one-half ounce. The deposit of 44 cents will be placed to your credit, and will be deducted from your first order at the dozen rate. I am an advertising agent, contractor and publisher with one of the largest Advertising businesses in the world, and absolutely guarantee to send, postage paid and duty free, the knife described above free to anyone who signs the promise below, and sends it with the deposit as stated. Let me advise you not to part with your sample, even if you should lose a sale at \$1 by refusing, as it will take time to replace it. I could not send you another even if you sent the full \$1. After the sample they can only be supplied to you by the dozen as there is duty on them to be paid. Any English Banker can give you information about my high standing, or write to the publisher of this paper who knows that I do a large and straightforward advertising business, and that I do exactly as I say. I have taken this pace in this paper for three years! The first one answering this advertisement after this number of the paper has come out will, if he likes, have his name printed in this space as agent for these knives. The Editor of the Springfield (Ohio) New Era writes, in his paper of June 29, 1894:—"I have received a sample knife from Mr. Sears, and am very much pleased with it. He is the owner of a very large advertising business in London, and is, I believe, perfectly responsible and straightforward." Sign your name and address to the following, cut it out and send it with Postal Order or stamps for 44 cents, and you will receive by return of post the beautiful knife as described above. F. W. SEARS, ADVERTISING AGENT AND CONTRACTOR, WHOLESALE KNIFE ADVERTISING DEPARTMENT, 138 FLEET STREET, LONDON. DEAR SIR.—I faithfully promise on my word and honour to show the Sample Knife you have promised to send me to one or more of my friends, thereby constituting myself an agent. This will make me "in the trade" as far as Pocket-cutlery is concerned. By this promise I am entitled to a sample of your beautiful Dollar Pocket-knife with chamois leather case, to be sent me post-paid and duty free. I also enclose 44 cents Postal Order or stamps, which please hold for me until I send you an order at the dozen rate. Name... Address... Address all letters to F. W. SEARS, Wholesale Knife Advertising Dept., 128 FLEET ST., LONDON ENG.

LITERARY NOTES.

A late issue of Harper's Weekly contains the following interesting item on bicyclic costumes.

AT THE BIG HOTEL CAFES.

Plenty to Drink If You Ordered a Bite Which Came Free.

Old enemies, and new ones, in the guise of headache and neuralgia can surely and speedily be overcome with the assistance of Gessler's Magic Headache Wafers.

Goldsmith Was Full of Chivalry. Poor "Goldy," as he was fondly nicknamed later in life, did not look much like a knight.

Captain Sweeney, U. S. A. San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good."

A Bicyclenne. Saturday afternoon passengers on a north-bound limits car going past Lincoln park saw a large, odd-shaped object flitting among the trees and moving along a distant driveway in the same direction as the car.

Wines for Debilitated Females. Physicians have used Speer's wine, and having applied to it the strictest test known to chemistry, they do not hesitate to pronounce it a pure wine of medium strength, and recommend it to be of great advantage to the aged and infirm.

A German's Prescription. Diseased blood, constipation, and kidney, liver and bowel troubles are cured by Kay's Clover Root Tea.

Friend in Need, is a Friend Indeed. A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh.

My son was afflicted with catarrh, I induced him to try Ely's Cream Balm and the disagreeable catarrhal smell left him. He appears as well as any boy.

Youthful Adoration. He loved her — very much! He thought that he had never loved half so much before.

As for her, she looked upon him with favor; she would take his hand as they walked along the beach, and when the waves rolled farther than she expected on the sand, she would cry, "Look out, Harry, dear," or the like.

Of course, when he came up, she treated him civilly, and he had no fault to find — no fault, that is, in order. Yet he asked himself sometimes if she was treating him as one individual, or as a species.

Take Your Summer Vacation Trip to Colorado and Yellowstone Park. The Burlington route will run special car, personally conducted tours to Colorado and the Yellowstone Park.

Delicious Tuscan Pudding. Make a boiled custard with one pint of milk, sweetened with half a cup of sugar, boiled and poured on three beaten eggs.

A Thoroughly Mean Man. He worked the restaurant waiter so as to economize on his wife's appetite. The champion mean man paid San Francisco a visit yesterday, says the Post.

Pills Do Not Cure. Pills do not cure constipation. They only aggravate. Karl's Clover Root Tea gives perfect regularity of the bowels.

SPECIFICS.

The Pecos Valley of New Mexico.

Offers unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and the homeseeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone.

In such fruits as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorgham and Egyptian corn make the feeding of the cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of Tanaigre—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this, with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length will cause these lands to enjoy a constant, and at times a rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feliz section. The Company has recently purchased many of the older improved farms about Roswell, and has for sale lands to meet the wants of all—raw land, partially improved lands, as well as farms with houses, orchards and fields or alfalfa and other crops.

In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the Company for three years, at the end of which period they will be handed over to the purchasers.

Write for pamphlet fully describing the terms and conditions on which the several classes of tracts are sold.

SUNSET AT PROSSER.

In the Beautiful Month of May the Eloquent Editor Sees It at Its Best.

From the Prosser American: Overlooking the falls, the little town of Prosser lies beneath the shadow of the hills; around it in the month of May the brown fields show that the farmer has done his work well.

Studded here and there, like oases in the desert, are patches of green, upon which the eye instinctively rests—then the ray of vision extends on and on toward the western horizon, where, like two grim sentinels, stand Rainier and Adams—their summits towering far up into the heavens—almost touching the clouds.

Surely God will rebuke such presumption! But, no; these are only creatures of His hand. As they stand unchangeable, grand, inspiring, they seem to say: "Oh, man, in thy conceit, think thee on the power of the Almighty! We are His children—with one wave of His hand we disappear from the face of the earth. Think ye and tremble at His power!" And as if to emphasize the reflection, the peaks are lighted with that unearthly glow. A flash like that of ten thousand cannon; a blinding glare—the red mist breaks above them, and a radiance descends and settles upon the everlasting snow.

The domes of these monarchs of the range stand out in boldest silhouette—back of them Old Sol in all his glory. Low down in the horizon the orb descends slowly, yet more slowly, until, with one last expiring blaze, the ball of fire sinks to rest beneath the waves of the Pacific. And as the twilight steals o'er the scene there is heard nothing but the resounding roar of the waters. This is sunset at Prosser in the beautiful month of May.

New and Startling Discoveries are Made Daily.

The greatest discovery for sufferers of catarrh, Hay fever, Asthma is Mayers' Magnetic Catarrh Cure. Its wonderful cures since its discovery are known to thousands.

This grand medicine will positively cure all forms of these terrible diseases. It accomplishes what no other remedy has done. So simple a child can use it. No cure no pay. One bottle will do the work and lasts for a three months treatment. Entirely new, no other remedy made like it. This is what the eminent Dr. Henry Carrington Alexander, D. D., L. L. D., has to say of its marvelous cure.

The Mayers Drug Co., Oakland, Md. Gentlemen:—Ever since I have tried your famous catarrh remedy I have intended to give you a voluntary testimonial of its efficiency. I have been a sufferer for years from nasal and post nasal catarrh, and the bone in my nose has been visibly changed in its shape.

After a trial of all manner of good and indifferent recipes, I have no hesitation in pronouncing your Magnetic Catarrh Cure the best, the speediest and most effectual remedy I have yet encountered. I wish and predict your success in the effort to demonstrate the value of your neat device in the way of a truly scientific and meritorious inhalant. You have made me your everlasting debtor.

I am my dear sirs, Yours faithfully, Henry Carrington Alexander, Sept. 12th, 1893.

DEAD COMES TO LIFE.

Remarkable Case of Suspended Animation Reported From New Jersey.

There is an excited but happy father and mother in Pittsboro, N. J., and a wondering child and a number of astonished neighbors, says the New York Advertiser. The parents are happy because their baby was given back to them apparently from the dead. No body is wondering its mother clasps it to her breast and cries over it half a dozen times a day, and the neighbors are astonished to think that a doctor and experienced nurse should lay the child out for burial when it was alive.

The case is a remarkable one of suspended animation. To all appearances the child died, and then, after being unconscious nearly twelve hours, it came back to life. The child belongs to Louis Erdner, Early Tuesday morning it was taken sick and a physician was summoned. The doctor treated the little one, but after a time pronounced it dead. The body was laid on a cot and covered with a sheet.

The mother then sent word to her husband, who was at work a couple of miles from home. On his way to the house in the evening Erdner stopped at the office of Undertaker Evans and engaged him to care for the body. The father selected the coffin and made all the arrangements for the funeral. About two hours later the undertaker with an ice box, arrived at the house. Instead of finding a grief-stricken family the undertaker found an excited but joyful one. Shortly after the return of the father the child, which had previously been cold, showed signs of life and again became warm.

The doctor was summoned in haste, and he with but little effort restored the child. It was weak and pale all night, but yesterday it seemed to recover all of its health and was crawling about the rooms as though nothing untoward had happened.

"GOODS MUST GO."

How a Buffalo Man Interpreted a Selling-Out Sign.

A man wearing a last year's straw hat and having a generally faded appearance entered an uptown bargain store yesterday, and, after looking around a few minutes, picked up a number of things from the counter and started to walk off with them.

"Do you wish to buy those articles?" politely asked the clerk, intercepting him.

"Certainly not," replied the other. "Why should I buy them?"

"Then please put them back on the counter," said the clerk, sternly.

"Well, I guess not. Young man, I was invited by the proprietor of this place to come in here and carry these things away."

"Were you, indeed? Then perhaps you have some letter from him directing me to let you have them."

"Letter nothin'. I don't need no letter. The invitation is a public one, and hangs right out here in front of your store. What does that sign say? These goods must go regardless of cost. Come I'm taking them." Well, that's what I'm doing. I'm takin' them regardless of cost."—Buffalo Express.

The Incomparable Chicago & Alton

In these United States of America at least, and it is highly probable that throughout the entire world, the official record for the safety and welfare of its passengers made and maintained by the Chicago & Alton Railroad cannot be surpassed if indeed it can be equalled.

Over its completely rock-balanced, dustless roadway between Chicago and Kansas City, Chicago and St. Louis and St. Louis and Kansas City, eighteen magnificently appointed express trains are run on uniformly fast time every day. But in spite of this heavy passenger traffic the official records show that from December 4, 1879 to December 4, 1890, eleven years, there was no passenger, who was in place as a passenger, killed on Chicago & Alton trains. Moreover there was not a passenger seriously injured, to the extent of losing a limb, an eye or a member of any kind during that time.

During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four-fold, and special excursion trains were very many, there was not an accident of any kind—a most remarkable record.

Besides being America's most popular railroad, the Chicago & Alton is the Pioneer Dining Car Line, the Pioneer Pullman Sleeping Car Line and the Pioneer Palace Reclining Chair Car Line.

Be sure that your ticket reads over the Chicago & Alton Railroad, when its matchless and direct lines can form the whole, or even a part of your journey.

VENETIAN MOSAICS.

An Old and Beautiful Art Revived by Modern Demands.

The revival at Venice of the mosaic art, chiefly for internal and external artistic decoration of private and public buildings, goes on uninterruptedly and working in mosaic is now (our consul says) carried on in that city on a large scale and with great success, says the London Daily News.

A work framed by the use of "tesserae" or small cubes of enamel, marble or other material and of a gold-and-silver leaf between two films of the purest glass of various colors, which are skillfully mixed on cement so as to produce the effect of a picture. The composition of human figures in different attitudes, animals, draperies or other objects requiring a careful delineation are intrusted to the best workmen and the execution of the background to less trained workmen.

The splendid mosaics which are made at Venice continue to be in great demand in the artistic markets of the world for the skillful manner in which the tesserae are arranged, for their extreme beauty and delicacy of color, for the rich harmony of effect and from their being nearly indestructible. The manner in which mosaics are now made for decorative purposes is quite different from the elaborate system used by the ancients, which consisted in fixing the tesserae one by one on the cement previously applied on the wall.

The modern method of the Venetian school consists in executing the mosaic in the workshop by having the tesserae fixed with common paste on the section of the cartoon assigned to each workman. When all the parts of the mosaic are complete they are put together on the floor or on a special wooden frame.

The mosaic, which is then a perfect representation of the original cartoon, is again divided into sections on the reverse side, marked with a progressive number and carefully packed to be sent off to the place for which it is intended. The surface of the wall where the mosaic is to be fixed is then covered with cement, into which the sections of the mosaic are uniformly pressed according to their numbers and the key-plan supplied to the fixers.

When the cement has hardened the paper on which the tesserae have been pasted is gently taken off and the faithful copy of the original cartoon is again exhibited on the right side.

Notice is hereby given that by virtue of a writ of fieri facias issued out of the Circuit Court for the County of Washtenaw, in Chancery, in favor of the Ann Arbor Milling Company, against the goods and chattels and real estate of Hiram Storms and Agnes E. Storms in said county, to me directed and delivered, I did on the 11th day of July instant levy upon and take all the right title and interest of the said Hiram Storms and Agnes E. Storms in and to the following described real estate, that is to say: Commencing in Brown and Fuller's Addition to the village now city of Ann Arbor, County of Washtenaw and State of Michigan, twelve feet from the northerly side of the cabinet shop as formerly located on the south bank of the race which now runs to the Ann Arbor Milling Company's mill, thence up the line of the race forty feet, and extending westerly from said line at right angles with said line forty feet wide to the river, with the privilege of erecting a bulk head thereon and the privilege of taking from said bulkhead seventy-two inches of water; also commencing in said addition at the southeast corner of a certain piece of land lying on the south-west side of the mill race heretofore decided to Josiah Beckley, Samuel Doty, John Thomas, Herman Thomas and Zebul M. Thomas, running thence down said race sixty-two feet, thence at right angles with said race to the river, thence up the river to said lands heretofore decided to Josiah Beckley and others, thence to the place of beginning and privilege of taking from said race on said premises one hundred and forty-four inches of water, said water privileges being subject to the limitations contained in deeds recorded in Liber G, page 296 and Liber J, page 129, in the office of the Register of Deeds of said county. Said lands being all the lands owned by the said Hiram Storms and Agnes E. Storms, upon the south side of the race of the Ann Arbor Milling Company's mill.

All of which I shall expose for sale at public auction or vendue to the highest bidder, at the south front door of the court house in the city of Ann Arbor in said county on the 18th day of September 1895 at ten o'clock in the forenoon. Dated, this 30th day of July 1895.

WHY "No. 9"
WHEELER & WILSON'S
SEWING MACHINES
POPULAR?
BECAUSE LADIES
BUY THEM LIKE THEM
AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needed. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

COME AND SEE US.

Limp Nobility and American Money.

There are a good many rich girls in America who have never kept their genealogical record, or, if they have, take no particular interest in consulting it, and find more amusement in contemplating their own or their fathers' assets, writes the Rev. Charles H. Parkhurst, D. D., in the July Ladies' Home Journal. Then, per contra, on the other side of the sea there are a good many single male scions of nobility whose original royal blood has been diluted down to almost the vanishing point of attenuation, but who find in that feeble dilute more satisfaction than they do in their still more attenuated bank account. Limp nobility anxious for his exchequer meets prudent commonality concerned for her pedigree, and propose not to marry one another but to wed their respective commodities—their blood and her dollars, and go before the priest and decorate the occasion with orange blossoms and strangled instruments, in order to throw over the whole the glamour of royalty.

Increase in Number of Lives Lost.

General Dumont of the United States steamboat inspection service has records to show that during the last fiscal year the number of lives lost on steam vessels approximately was 368. This was an increase over the average of the preceding 18 years of 128. The great increase was caused by the large loss of life by the foundering of the steamship Colima recently off the Pacific coast. The average for the last 19 years is 247. The highest previous annual loss was 586, in 1874; the lowest was 133, in 1886.

Capped the Climax.

An exchange tells that a good story was heard the other day of a father and mother who were trying to find names for their twin babies, who, by the way, were girls. It was decided that the father name them. After casting about and finding no names that exactly suited him he determined to end his strain on his mind and named them Kate and Duplicate. In the course of time another pair of twins came and they were boys. This was the husband's opportunity to get even, and he wanted his wife to christen the boys. Imagine his feelings when the mother one day told him she had named them Pete and Repeat. But when the third pair came the father grew frightened and named them Max and Climax.

Enough Coal for 800 Years.

The report of the United States geological survey is about ready to be made public. In treating on the bituminous coal fields of Pennsylvania, it relieves the fears of those who have been anxious about the supply of that particular fuel—surveys and examinations of these coal beds have led the government experts to announce that at the present rate of consumption the supply will not be exhausted for 800 years to come.

IN THE HAREM.

The Slave is Submissive and Obedient to Her Lord and Master.

For the service of the harem as at present constituted slaves are indispensable, it being unlawful for a free Moslem woman to appear unveiled before any man not a near relative, while to a slave, who is the property of her master or mistress, no such restriction attaches so far as they are concerned. Since the abolition of the public slave market the private trade in slaves has become much more general and widely spread than it formerly was, and is carried on to a great extent by ladies of rank, some of whom are themselves emancipated slaves. In addition to the negroes and other women of unattractive exterior, to whom the menial duties of the household are assigned, these lady dealers pay large sums for pretty children of from 6 to 10 years of age, who are carefully trained for the higher positions they will probably be called upon to occupy. Many Turks prefer, for various reasons, to marry women who have been brought up as slaves. Marriage with a free woman is, indeed, a very expensive matter for a young bridegroom and his parents, owing to the lavish outlay in presents and entertainments required by custom on such occasions. Consequently if a father cannot afford to marry his son to a lady of his own rank, he purchases for him a slave girl who has been educated in some lady's harem, and no expense is incurred beyond the purchase money. A slave, having no objection to her own, is submissive and obedient to, and anxious to please her lord and master, has no troublesome pretensions or caprices, and no interfering relatives to take her part against him. A free woman on the other hand, is by no means disposed to have, according to her own expression, "neither mouth nor tongue." She is fully aware of her rights, and inclined to assert them, and the moral support afforded by her family gives her an assurance which the husband often finds extremely inconvenient.

The Smallest Woman.

It is thought that the smallest living woman is Miss Isabella Pinder, of Spanish Wells, on the Bahama Islands. She is 35 years of age, 36 inches tall, and weighs less than 50 pounds. She is said to be perfectly formed. She is now visiting her cousin, "General" Abe Sawyer, who is 31 years old, 41 inches tall and weighs 55 pounds.

THE GREAT STRIKE OF 1877.

A Desperate and Bitter Fight on the Railroad Systems

The most desperate and extensive strike that had yet occurred in this country was that of 1877 by the employes of the principal railway trunk lines—the Baltimore and Ohio, the Pennsylvania, the Erie, the New York Central and their Western prolongations. At a preconcerted time junctions and other main points were seized. Freight traffic on the roads named was entirely suspended and the passenger and mail service greatly impeded. When new employes sought to work in lieu had to be called out to preserve order. Baltimore and Pittsburg were each the scene of a bloody riot. At the latter place, where the mob was immense and most furious, the militia were overcome and besieged in a round house, which it was then attempted to burn by lighting oil cans and pushing them against it. Fortunately, the soldiers escaped across the river. The militia having had several bloody and doubtful encounters on July 21, 22 and 23, at the request of the Governors, President Hayes dispatched United States troops to Pennsylvania, Maryland and West Virginia. Faced by these forces the rioters in every instance gave way without bloodshed. The torch was applied freely and with dreadful effect. Machine shops, warehouses and two thousand freight cars were pillaged or burned. Men, women and children fell to thieving, carrying off all sorts of goods—kid ball shoes, parrots, coffee mills, whips and gas stoves. The police found seven great trunks full of clothes in one house; eleven barrels of flour in another. It is said that a wagon load of sewing machines was sold on the street, the machines bringing from ten cents to \$1 apiece. The loss of property was estimated at \$10,000,000. In disturbances at Chicago nineteen were killed, at Baltimore nine, at Reading thirteen, and three as many wounded. One hundred thousand laborers are believed to have taken part in the movement, and at one time or another 6,000 or 7,000 miles of road were in their power.

Divided Among Schools.

The parliamentary grant for elementary education in Great Britain was distributed last year in the following amounts: Board schools received £2,533,658; Church of England schools, £2,732,436; British and un-denominational schools, £410,127; Wesleyan Catholic schools, £321,421; and Roman schools, £183,376. The average attendance of children at these schools was about 4,750,000.

PUNISHMENT WAS SWIFT.

Story of the Kitten-Napping Monkey and a Nemesis.

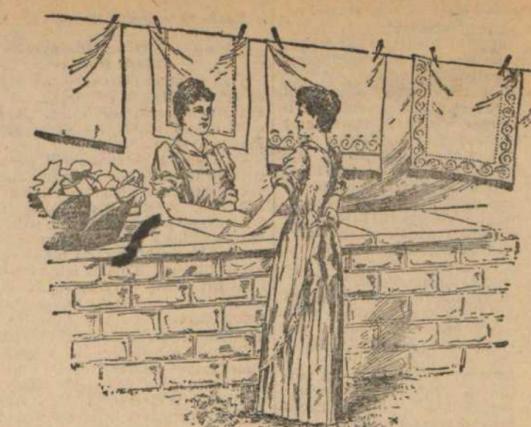

Dick Walker lives at No. 15 Vandam street, and is manager of an uptown glassware emporium, says New York World. Animals of all sorts he is fond of, especially dogs and monkeys. The mate of a Brazilian ship recently brought him a monkey which he named Adam. The simian was very tame, and was allowed the liberty of Mr. Walker's residence and back yard. The fence there was a favorite roosting-place for Adam until Friday.

Mr. Walker was looking out of the window, and in the next yard saw a mother cat with three or four kittens. She carried them one by one in her mouth and deposited them on the grass plot. Adam was gravely watching the proceeding, and, suddenly descending into the neighbor's yard, he seized a kitten as he had seen the cat do, and with it dangling from his jaws, he scrambled up the fence. He was not slow either, for the fence behind him was Mrs. Cat, with her back up and her tail as big as a muff. Along the fence to the window Adam ran, and jumped into the room. Mr. Walker took the kitten from him just in time, and shut the window. Mrs. Cat knew no stopping, however, and through the glass she dashed, and after Mr. Adam. Walker managed to separate them, but not until he was scratched and bitten, too. Adam was punished severely by the enraged cat, and whenever he sees one now he runs under a sofa and hides. He still owes Mr. Walker the price of a pane of glass.

VICTORIA'S NEW SECRETARY.

Sir Arthur Bigge Said to Have Great Tact.

Arthur John Bigge has been appointed by Queen Victoria to be her private secretary, in place of Sir Henry Ponsonby, who has been very ill for some time. Sir Arthur is said to have remarkable courtesy, talent, and tact. He was Lieut.-Col. Bigge of the Royal Artillery, when appointed, but the Queen made him a knight as a further mark of her esteem. Sir Arthur Bigge, K. C. B., C. M. G., comes of an old Northumbrian family, being the son of the late Rev. J. F. Bigge, vicar of Stamfordham, Northumberland. He is in his 46th year. Entering the Royal Artillery in 1869, he successively became captain in 1880, major in 1885, and lieutenant-colonel in 1893. He served through the campaign in Zululand in 1878-'79, and was mentioned in dispatches. In the latter year he was appointed aid-de-camp to Sir Evelyn Wood. The French Prince Imperial, when attached to the Royal Artillery, became acquainted with Lieut. Bigge, whose intimate friend he remained until the young Prince's tragic death in South Africa. He became groom-in-waiting in 1880, and seven months later was appointed assistant private secretary to the Queen. The ability with which he performed these duties marked him out for further promotion in the royal household, and this was not long in coming. In 1881 he was made equerry-in-ordinary. In that year Bigge married Constance, daughter of the late Rev. W. F. Neville.
