

## ANOTHER ACT.

### IN THE MUCH REPORTED CLANCY AFFAIR.

**An All Day Session of the Coroner's Jury—Examination Will Be Completed Tomorrow—The Cause of Clancy's Death Still Unsolved—Pat Boyle Falls to Put in an Appearance.**

The Coroner's inquest in the Clancy case was begun yesterday, at Diesterle's undertaking rooms on Liberty St. The hearing did not attract much attention, on account of the interest in the matter having nearly died out.

Pros. Atty. Randall had charge of the case in the forenoon, but being obliged to leave the city during the day, Mr. T. D. Kearney continued the investigation with Coroner Ball. The first witness sworn was Mr. Wm. Gerstner, of this city. He had come up from Toledo, on Aug. 5th., and had seen Frank Clancy on the train, said he seemed like a very sick man. Witness had helped the deceased at two different times to get a drink of water. Said he seemed dazed. Witness had noticed just after the train left Toledo, that a certain person approached Clancy who seemed to know him, but that the said person soon disappeared.

V. L. Shankland, in charge of the county farm, was the next on the stand. His testimony and that of Mr. Mason, one of the commissioners of the poor, developed nothing that has not already been published.

Following these witnesses Dr. Howe, city physician of Toledo, was called. He had seen Clancy in Toledo the morning he had been sent to Ann Arbor. He said, at that time, Clancy was able to talk rationally and had said he was sick and wanted to come to Ann Arbor, where he had friends and relatives. Clancy had not hinted that he had been hurt by anybody. Patrolman Boldt, of Toledo, said he had met Clancy the latter part of July, on the streets of Toledo, that he looked as if he was in hard luck. Boldt said that Clancy then told him about coming from Bay City, to look for his children, which his runaway wife had taken with her. Later Boldt had seen him at the police station early Monday morning, the day he was shipped to this city. At that time Clancy said he was sick.

Another police officer by the name of O'Sullivan had seen Clancy, at one o'clock on Sunday Aug. 4. He came to police station for lodging. Was evidently quite sick. Sunday night Clancy came back. Was evidently worse. Was again given lodging and the next morning was sent to Ann Arbor. The examination of Carew, the Toledo detective developed nothing new except that it was learned that two Kalamazoo drummers had called at the hotel in Toledo, where Mrs. Frank Clancy was stopping and wanted to see her and that Boyle had had a row with them.

The testimony of George Clancy, brother of Frank was the last taken before the noon adjournment. His testimony was mainly in regard to the domestic relations between his brother Frank and his wife and the mother of Frank. Witness said that his brother Frank blamed Hasenack and Boyle and his mother, as being largely to blame for his trouble with his wife, that Frank had said that he would kill Hasenack if the latter ever attempted to marry his mother and that Hasenack had said Clancy would have to see him first.

### AFTERNOON SESSION.

"Doc" Nagele the semi-centennial janitor of the medical department was the first witness called. It was clear that he did not want to give anybody or anything away. As a result but little was elicited from him. He was very positive that both Mrs. Clancy, senior, and Hasenack saw the body of Clancy the first time but that neither of them pretended to recognize the body. He said that Hasenack helped cover up the body of Frank Clancy when he first went to the basement and did not recognize it as the body of Clancy. Mrs. Margaret Clancy, who was the next witness declared that she saw only the one mistake for her son by the old janitor. She was very positive that Nagele was all wrong when he stated that she had seen more than one body when she first visited the medical building. Witness declared that she was sure her son Frank and Hasenack were good friends. She attempted to shield Hasenack from all complicity in the matter by declaring that he had not been out of town since he came here which was before Frank was hurt. Witness quietly acknowledged the tender relations existing between herself and Hasenack. Said they had been engaged since about last Christmas. The other witnesses examined during the afternoon were Sheriff Judson, John Stevens, a brother of Mrs. Frank Clancy, and Wm. Verber

who seems to have been somewhat acquainted with Frank Clancy and had heard him talk a few times about his domestic troubles, also about his determination never to allow Hasenack to marry his aged mother. The boy Stevens seems like an innocent plain sort of a fellow about 20 years of age. He evidently did not know anything about the cause of Frank Clancy's death. The inquest was adjourned at half past five until 9 A. M. tomorrow. At this time Hasenack, Mrs. Frank Clancy, and Pat Boyle, of Toledo, will be put upon the stand.

### School Day at the Fair.

Secretary Mills proposes to make School Day at the fair this fall a greater success even than last year. In order to get the schools at work in the matter he has addressed the following circular to the directors in each school district in the county.

The Fair Society solicits the hearty co-operation of all the schools of the county in order to make School Day at the Fair a success. We desire to aid you in showing to the people what the common schools of the county are doing and in starting them on the way to establish school libraries. Last year the Society offered four flags for attendance at the fair; by a vote of the Board of Managers, after the fair we presented ten schools in this county with fine flags. This year the Society has increased its premiums not only for attendance at the fair, but also for school-work. It is hoped that teachers will take an interest in the work and that School Boards will give the teachers and pupils the day. We expect to make it a great Institute day.

In addition to the premiums offered by the Society we have many fine special premiums offered by friends of the Society, for which we hope there will be a lively competition. These premiums have been offered after consultation with the Commissioner of Schools, Mr. Wedemeyer, and Ex-Commissioner Cavanaugh. Let every teacher take an interest in the affair.

The list of special premiums will be complete in the Fair News, which will be the last publication of the Society before the fair. These will be ready by Sept. 1st. If you do not receive a copy send to the secretary. We hope that every school will compete for some of the prizes. Remember School Day is Sept. 25th.

### Wants Better Accomodations.

Ann Arbor, Aug. 21 '95.  
To the Editor of the Register:  
As school election draws near we remember the "crush" at the polls last year, and wonder if the men and women who have charge of the election could not take care of the electors in a little more systematic way and thereby save precious time and votes. Could not some of our city officers be present to keep the confusion out of the line, instead of the candidates themselves being obliged to do this, thereby creating more confusion and ill-humor as well.

The candidates last year were also called upon to assist in counting the votes, and painful as it must have been one of them even had to announce his own election.

The school meeting after election might be better attended if any arrangement could be made to give the people an opportunity to sit, as at other gatherings. At the last meeting a small group of men attended to all the business, standing, the only seats provided being one chair and one old fire engine.

### THE MICHIGAN PUBLIC SCHOOLS.

#### Some Interesting Items Gleaned From the Report of Superintendent Pattengill.

Supt. Pattengill has just issued in pamphlet form some statistical statements relating to the Public Schools of Michigan for the year ending Sept. 1, 1894. It is rather late in making its appearance. It contains several items, however, that will be of interest to people interested in public school matters. There are 65 of the 84 counties in the state that have regular organized teachers' associations which hold regular meetings—The State Superintendent, in a brief paragraph, does not commend the idea of school trustees employing as teachers those who are not citizens of the United States. He says that the work of such teachers in history and civil government is weak and perfunctory and unsatisfactory. He would recommend that such teachers be not employed. The law making it necessary that a teacher who is 21 years of age shall be a citizen of the United States is cited. The supplying of questions by the state to be used in teachers examinations, has, Mr. Pattengill says, done a great deal towards bettering the standing of teachers throughout the state. It is stated that complaints have been made that the law concerning the teaching of the evil effects of alcoholic drinks, stimulants and narcotics is not being enforced either in spirit or in letter in many portions of the state. This has led the superintendent to issue a circular which has been sent to all the teachers in the state setting forth the requirements of the law and urging that more careful attention be paid to it.

There are in the state 350 districts where free text-books are supplied to the pupils. A long list of reports from these districts almost invariably commend the free book system, claiming that much better and more uniform work can be done. A summary of recent school legislation is given. One of the recent laws is that making it compulsory for parents and guardians to send children of a certain age to school so many months each year.

The school age for compulsory attendance is 8 to 14 in the state and 7 to 16 in cities under police regulation. Pupils must attend at least 4 months each year and at least 4 days in each week. There are certain cases where the law does not apply. Although the claim is made that the children of today are better spellers than those of 40 years ago, still spelling contests are recommended and a long list of words are given for use in such contests. The State Superintendent has not made himself popular at Ypsilanti by urging the establishment of another normal school. At the close of the report is a general summary of statistics from which we give the following:

**A HUNTING TRIP IN ALASKA.**

Chris Henne's Expedition Against Moose and Caribou in Alaska.

Chris Henne, of Los Angeles, Cal., who has hunted all sorts of game the world over, arrived in Alaska a month ago to spend the summer hunting caribou and moose in the ranges adjoining the Yukon river and its tributaries. He started at once for the interior, taking with him a guide and two Indians as packers. His route will be up the Takov, thence over the divide to Lake Teslin, where he will make his first halt. Mr. Henne carries with him a 14-foot canvas canoe which weighs but sixty-five pounds and is guaranteed to carry 500 pounds with safety. Mr. Henne takes with him a Sharp's express, which he has used in hunting tigers and elephants. It weighs fifteen pounds and has a barrel thirty-two inches long. He expects to reach Forty Mile in time to take the steamer down the river connecting with the last boat to leave St. Michael's, and to take back a lot of heads with him.

**THE VOICE.**

A Few of the Opinions of Waldsterm Pegg, Musical Doctor.

Dr. Pegg, who was once an associate of Abbé Liszt, entertains the opinion that the voices of singers may be affected by their diet. In those parts of Europe where fish is the chief article of food, there are few fine vocalists, and the voice in ordinary speech there is apt to lack delicacy of timbre and also dignity. Dr. Pegg has come to the conclusion that the food most desirable for singers is of a granivorous kind, yet they may properly include a moderate quantity of meat in their daily repast. He discards the idea that malt liquors give strength to the voice, though they may stimulate its action for a brief time. They had better be avoided by those singers who desire to keep their tones fresh and rich.

The smoking habit is not necessarily injurious to the voice, if the indulgence in it be well restrained and temperate. Dr. Pegg has no patience with those French composers professing to be symbolists who would mingle with music the "potent spirit of perfume." The ancient Romans believed that in perfume there was a subtle power to be used in combination with music to intensify an artistic impression. The music alone should be all-powerful.

**A MICHIGAN VISITOR.**

**HE INVESTIGATES THE FAMOUS PECOS VALLEY.**

The Pecos Valley Argus Has An Interview With A Michigan Man—Shows What He Thinks of This Wonderful Valley—The Greatest Place In The World to Make a Paying Investment.

Among the valley visitors this week was Arend Visscher, prosecuting attorney at Holland, Ottawa county, Michigan, an American of Holland extraction. Mr. Visscher, accompanied by John Vanderslice, came to the Pecos country to prospect on behalf of the people of this district, who, because of crowding, are looking for new territory in which they and their sons may spread out.

After driving through all the valley settlements and visiting the Roswell district, Mr. Visscher called upon The Argus to see what kind of a printing office could be found in the new land. "We are very much surprised by all we have seen in the west, and especially here. We had very erroneous ideas as to the kind of country and the sort of wild people we could find. We find that you are not western people, but simply our own folks, only removed to new surroundings, and that schools, churches, laws and society are quite satisfactory," he said.

"As one raised on a farm, and now owning an orchard, I can say that you have great possibilities and opportunities, for it is a good farming and fruit country, particularly for apples. All crops are doing well, and the trees wonderfully prolific. In fact, the fruit should be thinned, as it is in our country."

"We have 50,000 people of Holland extraction in our part of Michigan. They are mostly farmers, who have become Americanized fully, most of them having been born here. They have even better farms and improvements than are found in Illinois. Each farmer has an orchard, and they succeed in all branches of industry. The Hollanders, you know, are from a country of dykes and ditches, and they ask nothing better than to wade in and reclaim swamp lands of Michigan; so, if they come here, they will soon become familiar with your irrigating system."

"Your apple orchards are free from insect pests now, but this is true of every new country. These troubles will come however; but I would not be at all alarmed on that account. We have to fight insects, but do it successfully with sprays, emulsions, etc. I would say that the valley is undoubtedly fine for apples. I inspected the newly planted 500 acre apple orchard near Roswell and think it in fine condition. The trees were planted last winter, started almost without exception and have made fine growth. I think those planted on the old alfalfa fields have done better than those on new land. Most new land anywhere is too sour for fruit, but this is overcome by a year or two of cultivation. Your lands are very fertile. It is a question as to how long they can run without fertilization, but this is cheaply done by turning under any one of various crops. In our country we turn under some sort of vegetation each alternate year."

"I shall to-day visit the great reservoirs and then go back to Michigan. I shall have only praise for the Pecos Valley when I meet the people whom I represent in visiting this and other sections."

**Only Doing Their Duty.**

The New York World is still standing on the sidewalk howling itself red in the face over the enforcement of the Sunday liquor law. How little headway our contemporary has made with its crusade became manifest through its own columns last Sunday. There appeared in the last Sunday edition of the World interviews with a number of prominent liquor dealers in this city, who frankly admitted that, though the law was obnoxious, the police commissioners were only doing their plain duty in exacting obedience to the law.

**AT THE SEASIDE.**

**Fashions That Pass in Review on the Crowded Board-Walk.**

Upon the promenade at a very fashionable summer seaside resort is daily given a wonderful view of an ever-changing throng of superbly attired women—a very kaleidoscope of color and movement. Not a few of the costumes are undeniably gaudy—silks that the color-loving Orientals would delight in, and a combination of shades and patterns that cause the eyes to ache as they rest upon them, making it a relief to turn to the quieter lines, which are by no means lacking in that great medley of color. Among many charming toilets noted was one all black, and the other black and white. The last named was of white glaze silk, so narrowly striped with fine hairlines in black that a silvery effect was produced. The skirt was immensely wide at the hem. The sleeves formed one very large puff, terminating above the elbows. The vest front was made of accordion-plaited white chiffon, overlaid with broad black velvet ribbon. A velvet girdle confined the waist and a full plaited ruche of chiffon encircled the throat. The very small toque was of black straw, trimmed with jetted lace and white field daisies. A frilled white silk parasol and long gloves of white suede kid, stitched with black, completed an elegant and most becoming toilet. The black costume was made of crepon of corrugated design. It was extremely full in the back, falling in heavy flutes that tapered toward the waist. The bodice of black satin, softly draped with chiffon, was brilliant with a mass of superb arabesque trimming of finest French jet that covered its upper half. The sleeves of satin, draped with the chiffon, formed one immense puff to the elbows, above which fell long Vandyke points of the jet. The tiny head covering was a mass of jet, and the parasol of black chiffon. The whole formed a costume that stood out from among the more garish gowns as distinctly elegant and ladylike.

**THE GOOD OLD TIMES.**

The Question of Prices of Food, the Wages Paid and the Fees Expected.

The question of prices in those days, the first quarter of the seventeenth century, as compared to these is full of interest to everyone, and it is satisfactory to find that food was not as fabulously cheap in the days of our forefathers as we are often led to believe. Mary Verney writes to Raip at Blois, complaining bitterly of the dearthness of provisions in London. Beef is 4d, veal and mutton 8d, while Pen Verney reckons 8s a week too much for her diet, which is afterward fixed at 16s a year. Twelve pounds a year seems a great deal for willful little Betty, aged 13, to spend on her dress; but country bred as she was, she declines, Mary writes, to wear anything but silk. The sum of £30, claimed by Nancy Denton, who was a spoiled child and rich man's daughter, is far more appropriate to her position. In fact, the fees earned by physicians in those days were far in excess of what we should give now, in spite of the exceeding simplicity—not to say remarkable unpleasantness—of their pharmacopoeia and treatment. Dr. Theodore Mayence, the fashionable doctor, left £140,000 (equivalent to over \$500,000) behind him, and Sir Ralph is miserably because he cannot afford to pay Dr. Denton the £50, which is the ordinary fee for a confinement. A Venetian mirror costs £40, a portrait by Van Dyke £50. A maid's wages come to £3, but the pair of "trimmed gloves," with which it is the fashion to reward any extra work on her part, come to £1 5s—an absurdly disproportionate present. The price of Sir Edmund's Covent Garden house is £100, and many horses fetch as much, while £200 a year is the usual price for a boy's board and teaching in a good French family.

**Swam Half a Mile Handcuffed.**

Norfolk, Va., Special: Martin Sullivan, a white sailor on the cruiser Minneapolis, now at the Norfolk Navy Yard, was ironed Saturday night for desertion. He escaped from his cell last night and while handcuffed leaped overboard and swam across the river to Berkley, half a mile away. He hid under a raft while the cruiser swept the water with her search lights. When they were turned off he made his way to Berkley, where some negroes fled his handcuffs off. He then exchanged his uniform for citizen's clothes and engaged to work his passage to New York on a barge. When a launch from the yard passed the barge today he hid in a boiler, but was subsequently captured.

**Boston's Richest Men.**

The death of Benjamin F. Cheney, the second richest man in Boston, was announced yesterday. He was a citizen who had confined his activity to his business operations, which had been very large in the express company with which he was identified and in railroads. The richest man in Boston, I believe, is still J. Montgomery Sears. Next to the Cheney estate is that of the late Frederick L. Ames, with that of the still living John M. Forbes, supposed to be very large also. Mr. Forbes is in the close vicinity of 80 years of age, but still vigorous.

**The Decadence of Falls Church.**

No country village has reached an ideal existence until it can boast of a brass band. Every citizen from the small boy up to his honor, the mayor, takes a personal interest in such an organization and is ready to root for it on state occasions. Once upon a time we had a band that dispensed soul-inspiring music during the long summer evenings, but now these rehearsals, concerts, and serenades are as myths of the past, and Falls Church has degenerated into a bandless town.—Ex.

**ONE MAN'S SUFFERING.**

**The Trials and Tribulations of a Battle Creek Citizien—How He Comes to Tell This Story.**

(From the Battle Creek Moon.)

Among the moulders at the works of the Michigan foundry company can be found Mr. Amos Maynard; he has lived in Battle Creek for over ten years, is honored and respected by all who know him; such is the man who makes this statement, he says: "I have had kidney trouble for years, and it has made my life miserable. The heavy lifting, necessary in my business, made me worse. I have been compelled to lie in bed in a helpless condition for as long as nine days at a time; the greatest pain was from my back, which sometimes felt as though a bayonet was being run through me in the region of my kidneys; many citizens of Battle Creek knew how bad I was. I could not move without the greatest caution, for as soon as I attempted to stoop over, bend to one side, or even turn in bed, the pain was simply unbearable. I wore porous plasters constantly for the little temporary relief they brought me. Whenever I caught the slightest cold it went straight to my kidneys and made me worse. I was advised to try Doan's Kidney Pills, and got some. I have taken all four boxes of them, and I now feel as active as ever. A few months ago I would have ridiculed the idea of being cured so quickly, and being able to work as I can now. All the long-standing pains are gone, and the former traces of kidney disorders found in my urine have disappeared. I have recommended Doan's Kidney Pills to many friends who were troubled as I was, and in every case I have learned they proved as beneficial as with me. Doan's Kidney Pills would be cheap to me at almost any price."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

**LIVE IN SNOW HOUSES.**

**Winter Dwellings of Adventurous Miners on the Yukon River.**

Many adventurous prospectors have been making their way in the last year toward the Yukon River valley, in Alaska, and they have had to live very much after the fashion of the natives. Caribou and moose abound, though it's not much sport hunting them when the thermometer registers 50 degrees below zero. The natives construct snow huts in about the time that would be required to pitch a wall tent. They select a place where the snow is about four feet deep. A space 6 by 9 feet is marked out. Blocks two feet square are cut from the surface snow and set on edge around the excavation for side walls. At one end three feet of space is dug down to the ground; in the balance about two feet of snow is left for a couch. The sides and ends are built up tight and the whole is roofed with broad slabs of crusted snow cut in proper dimensions to form a flat gable roof, and loose snow is thrown over all to chink in. At the end, which is dug down to the ground, a hole is cut just large enough to admit a man crawling on his hands and knees. The hut is now finished and sleeping bags and provisions are packed inside. The arms and ammunition are generally left outside. After the outside work is finished everybody crawls into the hut and the opening is stopped up from the inside with a plug of snow that has been fitted carefully, and no one is expected to go out until it is time to break camp. The combined heat from the bodies of the inmates, together with the lamp they use, soon raises the temperature, and a degree of comfort is obtained, no matter how cold it may be on the outside. The Alaska Mining Record says that a similar degree of warmth is obtained by no other manner of camping in that region. Snow tents that are occupied for a month or more are more elaborate, and are usually built when the snow is six or eight feet deep, as the roof can be made higher and the hut entered by a covered way and through an ante-room in which the dogs sleep and the sleds and other articles are stored.

### SIXTY PEOPLE KILLED.

Five Story Hotel Collapses After a Terrible Explosion—Hot Fire Follows.

The Gumry Hotel, Denver, Colo., was wrecked by a terrific explosion at 12:30 a. m. The rear half of the building, a five-story brick and stone structure, went down with a crash. The hotel was crowded with guests, and many of them must have been killed as well as the entire force of hotel employees who were sleeping in the portion of the building which fell. The hotel structure for 100 feet along the alley, and extending 75 feet toward the front, was a mass of debris. Brick and plaster was piled in heaps 20 feet high, and from this mass of wreckage could be heard the moans of the injured are dying. Within 20 minutes five badly injured people were removed from debris which had composed the upper floors. The ruins then began burning fiercely and the firemen had to cease the work of rescue to subdue the flames. Only 15 people who are known to have been in the building at the time of the explosion were accounted for three hours after the disaster. This leaves 60 people supposed to be dead.

The cause of the explosion is uncertain, but it is supposed that the battery of boilers in the hotel basement must have exploded. The sound of the explosion was heard throughout the city, awakening people in bed a mile from the scene. The force of the explosion carried away a large portion of the rear of the building adjoining the hotel. One wall crushed a stable and a small frame house, but no one was injured. A piece of the cornice of the Cheesman block, fully a block from the Gumry hotel, was torn out and fell to the street, narrowly missing several passersby. It weighed at least a ton.

The Gumry was a five story brick with stone front and was built about six years ago. It was of the better kind of second-class hotels, catering largely to the transient family patronage. Thus, many ladies and children were among the guests. The building was built as the Eden Musee by the widow of General Tom Thumb, and was so occupied later, being remodeled for use as a hotel.

### The Mob Put a Rope Around His Neck.

Mrs. Geo. Smith, of Otsego, was awakened by a Negro who held a revolver to her head and demanded her money and valuables. She gave them up and the Negro then attempted to assault her, but her screams brought assistance. The brute was pursued and captured and after being identified was taken to jail where he gave the name of Sam Sheeler. Soon afterward a mob surrounded the jail and dragged Sheeler out with a rope around his neck. As preparations were being made to swing him up the cowardly brute made a confession and said that he and two others had committed various thefts and other crimes about Otsego. Sheeler was taken back to jail and the mob started to capture his two pals.

## Epilepsy 20 Years.

Cured by Dr. Miles' Nervine. A few years ago, Mr. L. W. Gallaher, was an extensive, successful expert manufacturer of lumber products. Attacked with epilepsy, he was obliged to give up his business. The attacks came upon him most inopportune. One time falling from a carriage, at another down stairs, and often in the street. Once he fell down a shaft in the mill, his injuries nearly proving fatal. Mr. Gallaher writes from Milwaukee, Feb. 16, '95.

"There are none more miserable than epileptics. For 20 years I suffered with epileptic fits, having as high as five in one night. I tried any number of physicians, paying to me alone, a fee of \$500.00 and have done little for years but search for something to help me, and have taken all the leading remedies, but received no benefit. A year ago my son, Chas. S. Gallaher, druggist at 191 Reed St., Milwaukee, gave me Dr. Miles' Restorative Nervine, and I tried it with gratifying results. Have had but two fits since I began taking it. I am better now in every way than I have been in 20 years." Dr. Miles' Remedies are sold by druggists on a positive guarantee that the first bottle will benefit or price refunded. Book on the Heart and Nerves, free. POINTS FOR ADVERTISERS. (Printers Ink.) Legitimate advertising is merely business news.

The better a thing is the better it pays to advertise it. Big words look better in the dictionary than in an advertisement. Advertising is an insurance of business—but you must take care and not let the policy lapse.

WHAT EVER diminishes the demand for labor of an American workman is essentially a blow at his wages. The important thing for the wage earner is that his labor shall be in active demand.

WHILE our Free-Trade friends are pluming their feathers over what they choose to call an increase in wages, let them bear in mind that it is not an increase of wages, but a restoration of wages; and there is one point in this connection that should not be overlooked, and that is that, in most cases, the restoration has been only partial.

PROBABLY no agricultural crop that is grown exhibits the idea of intense farming in a higher degree than does the cultivation of the sugar beet. It is claimed, and with perfect justification, that a farmer will make more money, provided his soil and land be suitable for this crop, by growing five or ten acres of sugar beets than he would by raising corn or small grain on one hundred acres of land.

From the Adrain Press. Chelsea's telephone exchange costs citizens \$18 for business service and \$15 for private use, per year. It seems vulgar to pay such low prices.

Wm Hasneck, of the University city, has been fined for assault and battery. The other fellow has neck, also, but it is nearly broken.

The electric light spirit has taken hold of Saline with a strong desire to daze the green straddlebugs in that region.

An Ann Arbor liverman, it is asserted, resembles George Washington. Indeed! George Washington had the reputation of being one of the finest poker players of his time.

A ten days anti-liquor crusade is in progress at Ypsilanti, M. J. Fanning and Prof. Skinner doing the oratory.

One of the new special features of the county fair this fall will be "Woman's day."—Ann Arbor Register. It seems as though this aggression ought to stop somewhere. Aren't seven days in a week enough.

The Banquo ghost of postoffice removal has again secured a sit among those who have "box" seats on the Ann Arbor street corners. "It is proposed," says the ghost, "to trundle the postoffice over on Washington."

Prof. Harrington, of Ann Arbor, lately removed from the headship of the weather-furnishing bureau, has been offered and will accept the presidency of the Washington State University, and defies Grover Cleveland to get him removed.

finish. A fair harvest of sugar beets sold to a sugar beet factory, at the rates which have hitherto been paid, will give more satisfactory returns than the average farmer has been receiving for his crops during the last year or two.

OUR INSANE TARIFF POLICY.

The report of the first year's exports and imports under the Wilson bill is at hand. It is interesting. During the fiscal year of 1894 we imported silk to the value of \$16,234,182, and in 1895, the fiscal year ending June 30, to the value of \$22,626,056; that is to say, we paid about \$6,400,000 more to foreign silk manufacturers and artisans for the year ending June 30, 1895, than the corresponding prior twelve months.

The free traders told us that what we lost in wages under a low tariff we should gain in the reduction of prices. The treasury report does not confirm this statement. It confutes it. A sure test of the prosperity of the American people is their consumption of the almost necessary foreign luxuries, tea and sugar. We import all our tea and most of our sugar.

The free traders also told us that what we paid out for imported manufactures would be returned to us for grain, meat, and other products of agriculture. For, said they, the foreigner must eat, and the more American money he gets for his work in European factories the more American-raised food he will be forced to buy.

WHILE our Free-Trade friends are pluming their feathers over what they choose to call an increase in wages, let them bear in mind that it is not an increase of wages, but a restoration of wages; and there is one point in this connection that should not be overlooked, and that is that, in most cases, the restoration has been only partial.

UNFERMENTED WINE FOR COMMUNION TABLES.

Right always wins, sooner or later; it is God's eternal truth. For years the W. C. T. U. has labored to remove fermented wine from the communion table. It has been successful here and there, but more often it has been repulsed and told politely, perhaps, "to mind its own affairs." With in the past few months several large bodies of ministers of different denominations have unanimously recommended the pure grape juice at the Lord's Supper. Last week the Chicago Presbytery joined the ranks. The statements of some of the ministers agree with the sentiments of the W. C. T. U. precisely. Rev. Leroy Hooker, pastor of the Fifth Pres. church, said, "I believe it only proper that every means should be taken to keep temptation from a man. The very fumes of the fermented wine in the communion cup have been known to start a reformed drunkard to drink again and the losing of a good man to his family and society."

Communication.

Ann Arbor, Mich. Aug. 21. To Editor of THE REGISTER: You state in your last issue that I was called up before Justice Pond for burning rubbish and not remembering the city ordinance. As the matter was not fully stated I ask you to give me some space in your columns to make proper explanation. I am taking out peach trees that are diseased with the yellows and the law requires me to burn them as the disease is considered contagious. There was no room at that time to burn the trees in the orchard on account of growing fruit and trees and so burned them on the road. I burned them in the evening as at that time there is little or no travel in this part of the city as I am located near the city limits, and half of my grounds are in the township. I selected an evening therefore when the traveling public would be the least inconvenienced at that time. The court and the police acknowledge that I acted innocent in the matter and excused me. I was assured that the complaint was made on account of the fire department. Now Mr. Editor, I am glad to know that the fire department is improving and is ready to do its duty. On a certain fourth of July I happened to be out of town and on my return home passed through the city when I saw a great smoke in the direction of my place. I felt alarmed, hurried on and followed the smoke. I found that my tenant house was on fire and burned to the ground, being about two hours burning down. The fire department did not take notice of the fire as it did not turn out. I presumed it was also out of town celebrating the fourth. Hereafter, I can burn my peach trees on that part of my place lying in the township and thereby avoid a city ordinance, but it would not in least do away with the liability in alarming the fire department.

As peach yellows commissioner, I am ordering people within the city limits to grub out peach trees (affected with the yellows) all the time from July till September and to burn them. I do this under a state law. These trees are green and are slow to burn and it cannot be expected to get them entirely burned up within a prescribed time during the day. Neither does the State law at present prescribe any particular time during the day when the burning is to be done or ended. Peach growing is an important business to the city and vicinity, and the fruit men are having a struggle to save it from destruction by the yellows. Respectfully, JACOB GANZHORN.

Little Tots Want Coffee for Breakfast.

"Please let me have a little cup of coffee to break my doughnuts in—you have it and why can't I?" It is hard to refuse the cute little folks, even when we know that coffee and tea are injurious beyond a doubt. A physician has discovered a method of preparing grains so as to produce a beautiful drink, an exact fac-simile of the finest Mocha coffee and fattening and nourishing. It fits a place with weak stomachs and for little folks, "coffee." The coffee habit can be dismissed instantly when the new food drink is used in its place, and health is assured because of the fact that it is made of only pure and wholesome grains. "It makes red blood" is the motto and Postum Cereal is the name. Grocers sell it.

Only Ten Days More.

There are only ten days more of the great inventory sale now going on at Jacobs and Allmand's. Already a large number of people have taken advantage of the great reduction in price of fine foot wear. There is yet an opportunity for all not already supplied to secure some of the great bargains. One of the things that attracted our attention was an elegant calf shoe in both congress and lace, which we supposed was worth at least five dollars. During this sale Jacobs and Allmand are selling this shoe at only \$1.98. Upon inquiry we found by actual count that they had just 163 pairs of these shoes left. If you want a pair of them, you should remember that this very low rate holds good only until September first,—and they may not last that long. In russet shoes, or tan shoes, as they are more commonly called, they have a large stock. These shoes are becoming exceedingly popular and will be worn a great deal in winter time. A great variety of these shoes for both ladies and gentlemen are constantly kept on hand and they are all going during the present sale at a quarter off the regular price. Samples of the popular \$1.98 calf shoe, and of their russet shoes in the various styles may be seen in their magnificent show window in the Washington Block on East Washington-st., Ann Arbor.

OFFICE OF THE Mich., Mutual Life Ins. Co. DETROIT, MICH.

To Whom It May Concern: On January 29, 1895, Mr. O. R. Looker, President and General Manager of the Michigan Mutual Life Insurance Company of Detroit, requested permission from its Board of Directors, to invite the Commissioner of Insurance of Michigan, to make an official and thorough examination of the business management and financial condition of the Company.

Since which time the Hon. Theron F. Giddings, Commissioner of Insurance of Michigan, assisted by Hon. John J. Brinkerhoff, expert Actuary of the Insurance Department of the State of Illinois and others, have been busily engaged in said examination.

Every piece of property owned by the Company, or upon which the Company holds a mortgage, together with all other securities, have been thoroughly investigated.

All books and papers pertaining to every part of the business of the Company have also been carefully examined, and we take pleasure in submitting the following report:

Michigan Mutual Life Insurance Co. Department of Insurance, Lansing, Mich., Aug. 16th, 1895. O. R. Looker, Detroit Mutual Life Insurance Co., Detroit, Mich.

Sir—In accordance with your request I herewith transmit to you a statement of the condition of your company and some conclusions that I have come to, resulting from the examination lately concluded by this department.

For the satisfaction of this department and for the benefit of policy holders, the examination was made very thorough in every particular, and for that purpose I procured the assistance of Mr. J. J. Brinkerhoff, whose expert work has been of material assistance to me in the examination.

From an examination of the books of the Company, we arrive at the quantity of the assets and liabilities, and here I desire to quote from Mr. Brinkerhoff's report: "I find the books of the Company relating to its financial transactions, are explicit, comprehensive and intelligible and well and accurately kept."

From a personal examination of the quality of the assets, I am pleased to state that I find them in all respects first-class, and of such a nature that they are gratifying to this department, as they must be to the officials of the Company.

The liabilities of the Company have been carefully computed, and, in the opinion of this department should be charged up in accordance with the figures as herein given. And I desire to express my satisfaction with the action of the Company in their desire to throw out all but what can be considered as legitimate assets, and charge up all that in business reason can be considered a liability.

The promptness of the Company relative to the payment of legal claims brought against it, is greatly to be commended, and is of particular interest to policy holders. The inclination of the management to make prompt remittances after accepted proofs of death, deserves this good word from me in their favor.

It is proper for me at this time to say a few words in relation to the general management of the Company. It has been pleasure to be acquainted with the majority of the officers of the Company for some years, and upon the conclusion of this regular examination into the affairs of the Company, I find no more than I expected to find, which is, that the affairs of the organization are conducted in an honest and business like manner, that the Company is reliable in every particular, and the policy holders well secured.

The examination shows the following to be the financial condition of the Company, June 30th, 1895:

Table with columns: Total Assets, as shown by books of Company, Total Assets, as admitted by Insurance Department, Total Liabilities, Surplus as to policy holders, as admitted by Department, Gross Surplus, as shown on books of Company.

IMPORTANT NEWS.

INTERESTING CHRONICLE OF GENERAL NEWS MATTERS.

Gen. Maceo, of the Cuban Revolutionary Army, Writes Encouragingly of Their Prospects—Scheme for Hawaii to Get Under the Eagle's Wing.

Cubans Feel Confident.

New York: Gen. Maceo, leader of the Cuban forces in the field, has written a letter to Gen. Do Quesada, secretary of the revolutionary party in America. He reports the Cubans in good health and spirits and is satisfied with the progress being made by the revolutionists. The Spanish soldiers are panic-stricken and surrender to their besiegers who spare their lives. In an interview Gen. Do Quesada says: "It would not be surprising if Gen. Campos carried out his overtreasured threat of throwing up the command of Cuba. Information from Camaguey tells of the success of Gen. Gomez and of daily reinforcements to his ranks. The city is in a panic, and the Spanish troops are afraid to venture beyond its limits. In the hospital at Puerto Principe there are over 400 Spanish soldiers, and the deaths average 12 per day. From Madrid I am informed that the reserves of 1891 are so disgusted at being ordered to Cuba that the government is afraid of a mutiny. The reserves declare that they will join the revolutionary forces when they are disembarked in Cuba."

A recent arrival from Havana says: Capt.-Gen. Martinez Campos called together all the volunteer organizations, and demanded the transfer to Cuba of the regular army of 100 men from each camp. General indignation prevails among these organizations, but the order will be enforced. The insurrection is more widespread than the people of Havana are allowed to believe. The insurgents win in every fight. In the past four months the Spanish forces have lost fully 15,000 men. No reports are allowed to be circulated concerning losses in battle. Thirty thousand insurgents are known to be in the field. A large majority of the people are hoping for concession from Spain in preference to independence as the feasibility of a republic without Negro domination would be difficult to obtain.

Seven Drowned While Sailing.

By the overloading of a small pleasure boat near Ocean City, Md., an entire family was drowned and two other families are in mourning. A party of farmers from the neighborhood had a fish fry on Grey's Creek, with boating, fishing and amusements. Wm. Hudson carried a party of nine out sailing and as the boat was about to come back the women of the party jumped screaming on the high side, capsizing the little craft. The capsizing occurred within 20 yards of the shore and in water seven feet deep. Mr. Storr had only one hand and was blind in one eye, but was an expert swimmer. He succeeded in getting his two daughters on the bottom of the boat and was getting his wife when the girls became scared and slipped off the boat and went to their parents and together the four perished. Hudson, who was sailing the boat, got the two girls on the boat and was trying to save another when they slipped off and were drowned before he could get to them. Two other young ladies were rescued by a fisherman.

A Scheme for Hawaii to Join Us.

Capt. Judson N. Cross, a prominent attorney of Minneapolis, has written to President Dole, at Honolulu, a letter containing a novel suggestion as to how Hawaii might annex herself to the United States without presidential intervention. His proposition is that Hawaii elect delegates to the American congress and demand that they be seated on the same basis as the territorial delegates. Congress, Capt. Cross says, would not then be asked to settle the matter. He maintains that there are historical precedents and logical reasons for such a course of procedure.

English Parliament Opened.

London: The fourteenth parliament of Queen Victoria opened with the customary ceremonies. Mr. Hatch was the first of the members to arrive. He reached the house at five o'clock and sat in the door for an hour before it was opened. Wm. Court Gully was re-elected speaker of the house without opposition. Among those in the galleries of the house of commons were the Hon. Charles Crisp, ex-speaker of the U. S. house of representatives, Hon. Thos. F. Bayard, U. S. ambassador to England, and the Hon. Edwin F. Uhl, assistant secretary of state.

Holmes Chicago "Castle" Burned.

H. H. Holmes' "castle" at Sixty-third and Wallace streets, Chicago, which is said to have been the scene of his numerous murders was discovered to be on fire. It did not extend beyond the on "castle." This famous building has for some time past been tenanted only on the ground floor, by a drug store and small restaurant, and it was in the latter that the fire originated. The interior of the building was practically ruined. The loss will aggregate \$15,000.

Hailstones as Large as Cannonballs.

A tornado swept over Steele county, Minn., doing immense damage. It centered at Belle Plain. Hail stones from 4 to 6 inches in diameter fell, breaking all glass fronts in business places, all the window buildings were unroofed and overturned. Horses standing on the streets were knocked senseless. The corn crop in that region is totally destroyed.

Theosophy claimed the life of George Robie, whose body was found in the Calumet river at Chicago. He thought of nothing but this doctrine for months and finally drowned himself to see if there was anything beyond. He was 24 years of age.

An explosion and resulting fire entirely consumed the plant of the Peerless refinery at Findlay, Ohio, with \$60,000 loss, half insured. Two still men, Wm. Adams and Wm. Bemis, were probably fatally burned. A mammoth tank of 30,000 barrels was fired into with a cannon letting the oil run out, where it caught fire, so that the tank would not explode.

What at first looked like a disastrous fire broke out in the shaving room of the Holland furniture factory at Holland. It was put out with small loss. Night watchman Kramer was badly burned.

Since the Calumet & Hecla mine raised wages to the scale of 1893 the Tamarack Junior, the Osceola and the Keasarge at Houghton, have done likewise and other copper mines will do so soon.

About 250 commercial lawyers from all parts of the U. S. met at Detroit and after discussing many important questions effected a permanent organization of the "Commercial Law League of America."

The Association of Edison Illuminating companies composed of the men who own plants all over the world, working under the Edison patents met at the Hotel Cadillac, Detroit, in annual session.

Michigan spiritualists have closed a lease of a picturesque park between Pere Marquette lake and Lake Michigan, opposite Ludington, where they intend to hold a 30-days' assembly each year during July.

The miners at the Badger mine, near Florence, struck without warning and Manager Davidson says he will make no concessions or advance in wages as he is paying the largest wages of any mine on the range.

Waltz village was greatly excited over the finding of a partially decomposed body of a babe in the garret of Chas. Brandes' residence, which was occupied by A. J. Stevenson, who disclaims all knowledge of it.

The Calumet & Hecla Mining Co., employing 3,000 people at Calumet and Lake Linden and 250 at Buffalo, will restore a cut of 10 per cent made in wages two years ago. Other big copper mines will do likewise.

Surveyors are now engaged in running the line out for the extension of the D., B. C. & A. railroad through Arenac county, touching Au Gres, Omer and Standish, starting at Emery Junction and terminating at Bay City.

Wm. Stoll, aged 39, a prominent Detroit German suicided by hanging himself. On January 14 his father suicided because of failure in business. The estate paid only 10 cents on the dollar and this preyed upon the son's mind.

About 60 veterans of the Fourth Michigan cavalry held a reunion in Ypsilanti. The regiment will send a large delegation to Chickamauga. Officers elected: President, Jas. T. Hurst, of Wyandotte; vice-president, E. C. Crane, of Kalamazoo; secretary, H. A. Backus, of Detroit.

Fishermen on the east shore of Lake Michigan have given up in disgust. At Saugatuck a few years ago 30 to 40 families were supported by fishing, while nine tugs were used. Now there is not a net spread. Things are just as bad at St. Joseph and Grand Haven. On the west shore, however, fishing is reported as good as ever.

A servant girl was cleaning a bedstead in Sweet's hotel at Grand Rapids with gasoline, and lighted a match. An explosion followed and in an instant the room was filled with flames. The loss on the building, owned by Martin L. Sweet, is estimated at \$5,000, mostly from water, and on the furniture, \$1,000. The hotel guests were badly alarmed, and many of them evacuated with their effects, but nobody was injured.

Nick Becker, aged 35, was drowned in the river at St. Joseph.

Mr. and Mrs. E. H. Pratt, of Battle Creek, celebrated their golden wedding.

Bulgarians attacked and burned the Mohammedan village of Kustendil. Many were killed on both sides.

Mary Korstange, aged 22, met instant death in a runaway accident at Kalamazoo. She was thrown from the carriage striking the back of her head on the pavement and fracturing her skull.

Leroy Cardiff, aged 9, committed suicide at Warsaw, Ind. His mother recently obtained a divorce on sensational grounds, and the boy said he could not stand the taunts of his playmates about it.

Chicago's Brotherhood of Carpenters adopted resolutions protesting against the appointment of any representative or attorney of a corporation or monopoly as supreme court justice to succeed the late Justice Jackson.

A large colony of Negroes returning to Texas from Mexico were quarantined at Eagle Pass, Texas, because some of the 350 people had small pox. Since that time four deaths have occurred daily and there are 150 cases.

The farmers of Nebraska who were on the verge of starvation last winter, and only pulled through on supplies sent from the east, are now in want of room to store their immense crops. This year's crops would feed the world for 12 months. The grain yield will not be less than 225,000,000 bushels. Of this 15,000,000 bushels will be of wheat, 30,000,000 of oats and 180,000,000 bushels of corn. Miscellaneous crops are equally as large.

The Pacific mail steamer Empress of Japan brings advices which tell of very disastrous storms on the south and west coasts of Japan. Over 1,000 fishermen of the single province of Satsuma were drowned. Three steamships were driven ashore and few of the crews or passengers escaped alive. Railway accidents have been numerous in consequence of heavy floods. Several villages on the seacoast have been literally destroyed. The list of deaths will exceed 3,000.

It is estimated from the returns of the eleventh census that 95 per cent of the wage-earners of this country own less than \$10,000 each.

During the years between 1860 and 1870 the wealth of the northern states advanced 56 per cent, while that of the southern diminished 34 per cent.

The greatest difficulty in estimating the wealth of the United States lies in ascertaining the value of the personal property, which constitutes a very considerable item of our national wealth.

Between 1850 and 1880 the wealth of this country increased 126.5 per cent; in the next decade, between 1860 and 1870, it had increased 85.5 per cent; between 1870 and 1880, the increase was 45 per cent, and between 1880 and 1890 the increase amounted to 43.6 per cent.

FALL TERM

OF THE

School

OF

Shorthand.

WILL OPEN

MONDAY, SEPTEMBER 9th.

The school offers splendid opportunities for young men and women to fit themselves to fill important positions for which good salaries are paid. The old story that there are more stenographers than positions is utterly false. It is true that there are many young people who have only half fitted themselves for work who have attempted to hold a position and, of course, failed, and who cannot therefore, get another place. For those who have had the perseverance to thoroughly prepare themselves there are always plenty of openings.

We Will Not

allow a pupil to begin the course unless we believe he is able to make a success of it, if he will. All of our

Teachers Are Thoroughly Competent

to fit any student who is willing to work to hold a lucrative position. We frequently have calls from business and professional men for

Competent Amanuenses.

During the past year we have not been able to supply all the demands we have had for stenographers. Pupils from our school are holding some of the

Best Positions in the United States.

We make a special effort to assist all of our graduates to secure good situations.

Come and see us or write for large catalogue giving full information about our school, cost of tuition, living expenses in Ann Arbor, etc.

Remember That although our fall term opens September 9th. Students may enter at any time, as our school is in session all the year through.

Begin Now for the reason that the sooner you begin the sooner will you be able to complete the course and begin to earn a good salary.

BIG PROFITS ON Small Investments.

Returning prosperity will make many rich, but nowhere can they make so much within such a short time as by successful Speculation in Grain, Provisions and Stock.

\$10 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year; ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

Write For Convincing Proofs, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. All Free. Our Manual explains margin trading fully. Highest references in regard to our standing and success.

### BRIEF ITEMS ABOUT MICHIGAN PEOPLE AND THINGS.

**The Situation of the Striking Miners in the Upper Peninsula Grows Worse.—Many of the Men Wanted to Accept Owners' Proposals but Leaders Prevented.**

**Striking Miners Ask for Help.**  
The miners of Ishpeming and Negaunee who are out on a strike have appointed a committee to solicit aid from outside sources in the way of supplies and provisions. The cash system adopted by the business men has cut off the credit of the miners and many of them are in distress. Both sides remain firm, and the men, as well as the mine officials, are very determined in the stand they have taken. The next important move to be made by the miners is the calling out of engineers in charge of the pumping engines.

F. Braasted, operator of the Winthrop mine, has submitted a proposed new scale of wages to his men. It is not positively known that the proposed scale of the other companies will correspond with that submitted by Mr. Braasted. It is generally conceded that the companies will never grant the full scale demanded, and are, in fact very indifferent as to whether the men return to work before the close of navigation, about November 1, as ore sold for next year will bring 50 cents more per ton than it does now and the delay will be worth at least a cool half million to the companies.

**It Looked Like it was Settled, but—**  
The great miners' strike at Ishpeming and Negaunee, after lasting five weeks, is practically at its end. The majority of the men voted for a speedy settlement. They concluded to return to their different working places and learn the new scale. Many of the men applied individually at the mine offices and some of them were presented with the new schedule which shows an advance over former wages from 10 to 25 per cent, about the same as offered by F. Braasted to his men at the Winthrop mine. The threat by the companies to pull the pumps and the adoption of the cash system by the merchants thoroughly disheartened the men. The miners at the Champion mine sent a petition to Supt. Fitch asking that they be allowed to return to work. The business men and the miners generally are jubilant over the near approach of the end.

**The Companies' Schedule Rejected.**  
There was a big meeting of strikers at Union park where the scale presented to their men by the mines was discussed. The leaders and hot heads fought for continuance of the strike, and this was the decision finally announced. There was a very bitter discussion of the matter. There are many miners who claim that the vote to return to work received a majority, but that the chairman did not decide it fairly. They claim the leaders believe the cause to be lost, but are making a fight, thinking they may get something out of it personally. They think they may not be employed when the mines resume, and for this reason are seeking to keep the fight up. Many men left the park in disgust. The union is certainly much less in evidence than at any time since its organization.

**Mine Owners Will Stop Pumps.**  
The news soon reached the local headquarters of the mines of the rejection of the scale and in less than 20 minutes preparations were going forward to stop the pumps and let the mines fill with water. In the case of the Cleveland, Salisbury and Lake Angeline mines, the furnace fires have been wholly extinguished, and the water blown from the boilers. The owners say the prospects of re-opening their property are too remote to talk of. Their contracts for the present season have been broken by the strike, and an ample supply of ore for next season's delivery can be mined after February, 1896.

**Hillsdale County Village Burned.**  
Fire was discovered between Rowe Brother's saloon and the Warden building, at Montgomery, which quickly consumed nine business houses, including the postoffice. One-half of the bank building was wrecked, besides damage done other buildings. Three families lived over the buildings. The loss will be from \$30,000 to \$40,000. The insurance will reach about \$12,000. The fire is supposed to have been of incendiary origin, for the purpose of plundering.

**A Peculiar Fire at Muskegon.**  
A blaze started under the sidewalk opposite the new Union depot, at Muskegon, and swept to a two-story building occupied by Foall's saloon. The flames also attacked a two-story building owned by Daniel Finlayson. In the rear of these were a number of old wooden structures and back of them a dense residence section and as the fire spread to this a general alarm was felt but by heroic work the fire was drowned out with a loss of \$6,000.

**Mother and Son Drowned.**  
A sad double drowning occurred at Spring Lake, near Grand Haven. The victims were Mrs. A. Francis and her six-year-old son, members of a wealthy family summering there. The child was bathing and went beyond his depth. The mother frantically rushed into the water to save her child and both were drowned within a few feet of the shore.

The trial of Frank Annis, at Flint, on the charge of killing his wife and burning his home resulted in a verdict not guilty.

Tramps started a fire among the barns on the Eberstein farm near Battle Creek and \$5,000 worth of property was destroyed.

Erastus Hamilton, of Buchanan, probably fatally cut Henry Weese, of Berrien Springs, with a razor, in a street fight at Buchanan.

Mrs. Bernetty Woodward celebrated her hundredth anniversary at the old homestead near Coldwater. Her only infirmity is blindness.

Battle Creek has dropped out of the state base ball league and Jackson parties have purchased the Findlay, O., team and will fill the gap.

## WAS CLANCY MURDERED?

A Tragedy Which is Attracting a Great Deal of Attention.

Another of those cold-blooded murders for which Michigan is becoming famous is interesting the citizens of Ann Arbor, Kalamazoo and Toledo, and incidentally the newspaper reading public all over the state. Frank Clancy was an Ann Arbor boy and seven years ago married Edith Stevens, of White Pigeon. They lived at Kalamazoo and Chicago, but were not happy as Clancy was a rather hard drinker and a poor provider. Three children were born to them. The fore part of July Mrs. Clancy disappeared from their home at Kalamazoo with two children. Pat Boyle, with whom it was known she was very friendly, dropped from sight at the same time. Clancy surmised that they had eloped and with John Stevens, the woman's brother, followed a clue to Toledo. A few days later he was arrested there, the police thinking he was drunk, but on examination found him to be very sick and so they shipped him to Ann Arbor, where Clancy said was his home. At Ann Arbor he was again arrested, but being ill was sent to the poorhouse where he died. Clancy's mother lives at Ann Arbor and it was only by accident that she learned of her son's death and by the time she arrived at the poorhouse the body had been sent to the college and placed in the pickling vat. When a demand was made for the body the person in charge of the vat brought out a body and claimed that it was the one that came from the poorhouse. This was not Clancy and it would have been considered all a mistake had not a friend of the old lady insisted that an error had been made. The sheriff took hold of the matter and Clancy's body was produced. A postmortem examination resulted in finding that Clancy had died from the effects of heavy blows on the head. The Toledo police, with the aid of a Kalamazoo reporter, finally found Boyle and he was locked up on suspicion, but he claims that he had not seen Clancy, but had been caring for Mrs. Clancy to free her from a brutal husband, and notwithstanding the fact that he had deserted his own family for over a month, he said that there was nothing improper in his relations with Mrs. Clancy. The latter woman could not be found for a time, but was finally located at Windsor, Ont., with her brother John Stevens. She says she knows nothing of Clancy being injured or killed, and Stevens protests his innocence.

**Spain Will Pay the Mora Claim.**  
Madrid: At a meeting of the cabinet ministers it was decided to pay the Mora claim in a lump sum, in September, without interest. The Mora claim was for about \$1,500,000 and the interest amounted to about \$800,000. It has been a subject of dispute between Spain and the United States for many years, and grew out of the confiscation of the Cuban estates of Mora, a naturalized citizen of the United States. Secretary Olney vigorously pressed the claim and insisted on an early settlement of it.

The Missouri Democratic convention committed itself to the free coinage of silver at a ratio of 16 to 1.

The entire business part of Pikeville, Tenn., was destroyed by an incendiary fire. Only one store is standing. The loss is \$35,000; insurance only \$600.

Louis Gimm, the crack long-distance bicycle rider of Cleveland smashed the American 24-hour record by making 453 miles and 1,700 yards, and rode the last 10 miles in better than a 3:30 clip. The previous record was 408 miles and 84 yards, by W. B. Twyman, of Chicago.

Anxiety is felt for the safety of American missionaries at Marsovany, a small town in Asia Minor, owing to the campaign of Armenians against suspected spies. Five professors of the American college have been marked by the committee owing to suspicion of their connection with the Armenian movement. United States Minister Terrell, has protested to the porte and received the promise of a prompt inquiry into the affair.

**REVIEW OF TRADE.**  
Bradstreet's says: Midsummer quiet is more conspicuous than a week ago, though less so in industrial than in commercial lines. As a rule, leading manufacturing industries are exceptionally busy for the season, and it is worth adding that the increase in output of demand and prices for iron and steel continues. Gross and net railroad earnings returns for the first half of the present year shows very satisfactory aggregate gains over last year, a period of great coal and railroad strikes and of financial and industrial depression and derangement. Jobs in the more important staple lines at Chicago, St. Louis, Kansas City, Omaha, Detroit, Milwaukee, Minneapolis and St. Paul report an improved demand. The outlook at all these points is for an active fall business.

Information comes that the Hanoock Indians, together with Duck Valley Indians, are going into Juniper valley in Idaho to slaughter deer. They killed 1,500 there last fall for their hides and trouble was only averted by the Indians being called back to their reservation. The settlers announce that they will not permit the Indians to kill game in the valley.

The admiralty court decided that the mate of the British steamer Crabtree was to blame for the collision which resulted in the sinking of the North German Lloyd steamer Elbe and the loss of 300 over lives in the North sea last January.

M. Martin and wife, E. H. Eberbach and wife, L. H. Clement and wife, N. D. Gates and wife, Elmer E. Beal and wife, Fred H. Belser and wife, Miss Emma Hayley and Mrs. Davis, John R. Miner, Charles E. Hiscock, Al. Shetterly, John H. Cutting, Pusey W. Moore, Dr. J. W. Morton, George H. Blum, E. V. Hangsterfer, Ross Granger, Eugene Koch, Herman F. Miller, I. B. Bent, Thomas Taylor and J. F. Hoelzle.

An Ann Arbor base ball team went to Milan last Saturday, to play the Milan team. Somebody had given them to understand that their expenses would be paid, but the Milan team denied all knowledge of such an arrangement. Not expecting to be compelled to pay their bills, most of the fellows had no money with them. A threatened arrest by the Milan hotel keeper, gave the boys a good scare but they were finally allowed to come home. Now they are endeavoring to find out, who perpetrated the joke.

Later—The Milan officers came up here yesterday and arrested ten fellows and took them down there and each was ordered to whack up \$6.30 fine and costs, or go to jail 30 days. We understand all but one have paid. A reasonable fine would have been alright, but the amount the boys had to pay makes it look almost as bad as the train robbery in Michigan Tuesday night.

# DRESS GOODS!

The Fall Dress Goods are by all odds the most stylish, the most effective and the most reasonable in price that the people of this nation have ever seen. Room for a little outburst of "Americanism" in connection with them too, as some of the very choicest productions come not from a foreign shore but are responsible to American brain and muscle alone. You will admire them all, whether American or Foreign and unless we told, it would be impossible to tell which had crossed salt water

The *Advance Guard* of our magnificent Fall Stock of Dress Goods is already here, and its pleasant picking the present assortment will give you. Rough fabrics, shaggy as the sheep that furnished the wool. Stylish Wool and Mohair—Effects in Combinations destined to be immensely popular—Neat plain Fabrics always tasteful and durable and last but not least a variety of cheap but handsome and durable fabrics suitable for school or house wear.

To open the seasons business we offer 34 inch All Wool Fall Novelties, especially durable for school.

LITERARY NOTES.

It is too early to indicate autumn fashions, except in very general terms; but hints of the coming season will appear in the August numbers of HARPER'S BAZAR.

The old town of Machias in Maine had a more remarkable history in the time of the Revolution than perhaps any other town upon the long line of the exposed Maine coast.

Mr. Stead's sketch of the new British Ministry in the August Review of Reviews is a clear-cut analysis of the makeup of the third Salisbury cabinet.

Herbert Spencer opens the August Popular Science Monthly with the fourth of his papers on Professional Institutions, in which he shows that the functions of the orator, poet, actor, and dramatist are all developed from the acts of the primitive tribesman.

Andrew D. White, writing on "The Continued Growth of Scientific Interpretation," describes the battle by which reason conquered tradition in English theology.

Women at Billiards.

A quarter of a century ago few ladies indulged in billiard playing. The billiard room was reserved for the men of the house and for the male guests for whom hunting was wearisome and the drawing-room unattractive.

WHAT DO THEY DO WITH IT?

The Mystery of the Constant Chinese Demand for Ginseng.

Passing through the wholesale district the other day a Nashville American reporter stopped in at one of the large houses to ask about prices.

"What the Chinese use ginseng for is to the masses one of the mysteries of the age, but that they gobble up every ounce of the herb that the known world supplies is nevertheless a fact.

"The American ginseng is growing scarcer yearly. The cultivated root has not the wonderful power which fixes the value of the wild article; at least it does not manifest itself to the same degree.

"The market here is largely speculative. The Chinese ginseng houses each year send their buyers from California to the East to buy up the receipts of ginseng.

MISS WILLARD'S ROMANCE.

The W. C. T. U. President Was Once Courtied by a Young Minister.

The recent rumor regarding the engagement of Miss Frances E. Willard, president of the National Woman's Christian Temperance Union, to an elderly English gentleman of means, who uses a large part of his annual income in the furthering of reform movements, has recalled to the minds of many of Miss Willard's friends in this country the romance of her early womanhood.

MERITED REWARD.

SALES OF LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Unequaled in the History of Medicine. Honesty, Excellence, Faithfulness Filly Rewarded.

[SPECIAL TO OUR LADY READERS.]

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by Lydia E. Pinkham's Vegetable Compound and never in the history of Mrs. Pinkham's wonderful Compound has the demand for it been so great as it is today.

From Maine to California, from the Gulf to the St. Lawrence, come the glad tidings of woman's suffering relieved by it; and thousands upon thousands of letters are pouring in from grateful women, saying that it will and does positively cure those painful

Ailments of Women.

It will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure

Backache.

It has cured more cases of leucorrhoea by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache.

Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All druggists sell the Pinkham's remedies. The Vegetable Compound in three forms, — Liquid, Pills, and Lozenges.

The Pecos Valley of New Mexico.

Offers unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruits as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world. Enormous yields of such forage crops as alfalfa, sorgham and Egyptian corn make the feeding of the cattle and sheep and the raising and fattening of hogs a very profitable occupation. The climate of the Pecos Valley is no superior in the United States, being pre-eminently healthful and health restoring. Land with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this, with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length will cause these lands to enjoy a constant, and at times a rapid, increase in value. The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feltz section. The Company has recently purchased many of the older improved farms about Roswell, and has for sale lands to meet the wants of all—raw land, partially improved lands, as well as farms with houses, orchards and fields or alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted and cared for by the Company for three years, at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which the several classes of tracts are sold. For all information regarding the Pecos Valley, with copy of illustrated publication, address S. A. MORAN, Agt. The Pecos Irrigation and Improvement Company. REGISTER OFFICE, Ann Arbor, Mich.

THIS IS A PROGRESSIVE AGE. New and Startling Discoveries are Made Daily.

The greatest discovery for sufferers of catarrh, Hay fever, Asthma is Mayers' Magnetic Catarrh Cure. Its wonderful cures since its discovery are known to thousands. This grand medicine will positively cure all forms of these terrible diseases. It accomplishes what no other remedy has done. So simple a child can use it. No cure no pay. One bottle will do the work and lasts for a three months treatment. Entirely new, no other remedy made like it. This is what the eminent Dr. Henry Carrington Alexander, D. D., L. L. D., has to say of its marvelous cure. The Mayers Drug Co., Oakland, Md. Gentlemen:—Ever since I have tried your famous catarrh remedy I have intended to give you a voluntary testimonial of its efficiency. I have been a sufferer for years from nasal and post nasal catarrh, and the bone in my nose has been visibly changed in its shape. After a trial of all manner of good and indifferent remedies, I have no hesitation in pronouncing your Magnetic Catarrh Cure the best, the speediest and most effectual remedy I have yet encountered. I wish and predict your success in the effort to demonstrate the value of your neat device in the way of a truly scientific and meritorious inhalant. You have made me your everlasting debtor. I am my dear sirs, Yours faithfully, Henry Carrington Alexander. Sept. 12th, 1893.

MONEY NOT NECESSARY.

An Exchange That Gets Along Without Gold or Silver. A coterie of advanced labor men in San Francisco have solved the money question, as far as they personally are concerned, by getting along without gold or silver. They are endeavoring to prove that it is possible to do business without any medium of exchange other than common honesty. The new society is known as the Labor Exchange, in connection with the American Industrial Union, with national headquarters in Chicago, and is based on the idea that people seldom want what they themselves produce. Therefore, they say that the way to solve the labor problem is to put the products of industry in the market for exchange for other commodities. This Labor Exchange conducts a general store, to which the idle shoemaker or other manual worker brings the products he has manufactured at home or in his shop during a lull in business. He is paid nothing in money for the goods he deposits, but is given a certificate, which entitles him to any goods in the store as pay for his wares. Mr. Glesser, the manager of the store, says that by the aid of this system during the past year goods valued at many thousands of dollars have been exchanged among the members of the society. The certificate reads that it is not redeemable in legal tender, but is receivable by the association as payment for merchandise for all services. The certificate is secured by the real and personal property of the association. There are, according to the San Francisco Examiner, 150 members of the exchange in San Francisco, and about 800 in the state. Plans are under consideration by the San Francisco branch by which shoemakers, glove makers, knitters and other artisans will be kept employed to keep up the stock of the various stores in the state. They will be paid wholly by checks or certificates, which entitle them to draw out goods to the value of their earnings.

ALMOST EATEN ALIVE.

Mosquitoes and Flies Attack a Man Who Escaped Drowning. Five young men who left the city in a small sailboat for Greenwich had a terrible experience, says a Salem (N. J.) telegram. One of them, George Taylor, 21 years old, was drowned and another, William Warrington, saved himself by swimming and then narrowly escaped death from the bites of mosquitoes and greenhead flies. The five had secured work at strawberry picking on a farm at Greenwich and expected to begin this morning. They had reached Dunk's bar, above Bayside, when they were struck by a squall. Despite their best efforts their boat was capsized and all were thrown into the water. While their companions managed to reach the bottom of the overturned boat Taylor and Warrington started to swim ashore. They had reached within fifty yards of the beach when Taylor called to Warrington for help. He had become exhausted and his swimming was slow and measured. Warrington turned about to help his friend, but as he did so Taylor sank beneath the surface and rose no more. Nearly exhausted himself, Warrington turned shoreward again and by great effort managed to reach it. He fell in a faint amid the rank grass of the salt marsh, where he was found several hours later almost dead. He had suffered untold torture from the stings of "greenheads" and mosquitoes, which swarmed in myriads about the salt meadows. The rest of the party clung to the upturned boat and were rescued by a passing vessel.

It appears that the comparatively few losses to the Japanese troops in the Manchurian engagements in the recent war with China were not altogether due to the bad marksmanship of the Chinese. As a means of protection against the cold the Japanese wore a quantity of floss silk under their outer clothing, and this acted more or less as a bullet-proof shield.

EXPEDITING THE MAILS.

A Western Editor Starts Out in a Grand Cause.

Two or three months ago, when appointed Postmaster of this town, we mentioned the fact that the tri-weekly mails from Lone Jack, Pine Hill and Dog Creek reached this postoffice in the most erratic manner and evidently at the convenience of the mail carrier, says a Western exchange. We promised to look into the matter as soon as we got things in hand, and last Tuesday afternoon, as the Lone Jack mail, due at 11 o'clock a. m., had not arrived at mid-afternoon, we mounted our cayuse and set out to investigate. This route is carried on horseback, and the name of the carrier is Simms. We found Mr. Simms luxuriously reclining under a tree about four miles from town. He was luxuriously drunk and sound asleep, while his old horse had shaken the mail bag off his back and was stamping on it with his hind feet. Mr. Simms is a very sober man just now, but we doubt if he has any clear remembrance of a tenth part of what happened to him during the ten minutes following our arrival. All he can remember is of being struck by a cyclone, which lifted him up and tossed him into the air. He was a hard man to wake up, but when he got his eyes open and began to realize the situation he didn't waste much time getting onto his horse with his mail bag and heading for town. On his next trip he came in an hour ahead of time and we understand he intends to do better than that. Some day this week we shall look into the delay on other routes. For weeks past the Pine Hill mail has been from six to ten hours late on every occasion and we shall make a great effort to discover the cause and remove it. It is our duty as postmaster to see that the mails arrive and depart on time and we feel quite certain that our manner of "expediting" the service will meet with the approval of both our fellowtownsmen and the postal authorities at Washington.

Regular Encouragement.

"Do you find your religious work to your liking?" a Montana minister was asked. "Well," returned the divine, slowly, "I can't say that I do. For instance, last Sunday a newly converted member of the church, who sits near the door, said he'd fill me full of holes if I didn't speak out."—Harlem Life.

Keep All Food Covered.

Every article of food should be kept covered until it appears on the table. Milk and butter should be kept in airtight covered vessels. They take up every odor flying in the air, and are positively harmful to the stomach after standing uncovered for an hour or two. Not only odors, but the maulae that fill the air are attracted to milk and butter. Uncovered jelly is a menace to family health, yet in two-thirds of the pantries in the city will be found half-used dishes of jelly standing uncovered.

Superstition in the Mountains.

One reason why it is so hard to get anybody hanged legally in the mountain regions of Kentucky is that the dwellers in the town fear that they will be haunted by the murderer's spirit.

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated 12th day of May in the year 1885 executed by Warren Babcock, Mary A. Babcock, Frank Babcock and Effie Babcock, his wife, of Milan, Washtenaw County, Michigan, to Margaret Kearney, of the City of Ann Arbor, Washtenaw County and State of Michigan which said mortgage was recorded in the office of the Register of Deeds of the County of Washtenaw in Liber 64 of mortgages on page 479 on the 13th day of May A. D. 1895 at 11:05 o'clock a. m., of said day.

And whereas, the amount claimed to be due on said mortgage is the sum of two thousand one hundred and six and twenty-seven hundredths dollars (\$2,106.27) of principal and interest and the further sum of twenty-five dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of said premises therein described at public auction, to the highest bidder, at the west front door of the Court House in the City of Ann Arbor, in said County of Washtenaw, (that being the place of holding the Circuit Court for said County) on the 23rd day of November A. D. 1895 at 10 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to-wit: All that certain piece or parcel of land situate and being in the township of York, in County of Washtenaw, and State of Michigan. Commencing at the south-west corner of lot one (1) of Edwards plat in the Village of Milan and running south sixty-one and one-half degrees east along the south line of said lot and on the north line of Front street sixty-six feet, thence north twenty-nine and one-half degrees east parallel with west line of said lot one hundred feet, thence south sixty and one-half degrees east parallel with south line until it comes within forty-four feet of the east line, thence north-easterly to the north-east corner; thence south twenty-nine and one-half degrees west along the west line of said lot and on the east line of Tolan street to the place of beginning.

Dated this 8th day of the August A. D. 1895.

The Incomparable Chicago & Alton

In these United States of America at least, and it is highly probable that throughout the entire world, the official record for the safety and welfare of its passengers made and maintained by the Chicago & Alton Railroad cannot be surpassed if indeed it can be equalled. Over its completely rock-ballasted, dustless roadway between Chicago and Kansas City, Chicago and St. Louis and St. Louis and Kansas City, eighteen magnificent appointed express trains are run on uniformly fast time every day. But in spite of this heavy passenger traffic the official records show that from December 4, 1879 to December 4, 1890, eleven years, there was no passenger, who was in place as a passenger, killed on Chicago & Alton trains. Moreover there was not a passenger seriously injured, to the extent of losing a limb, an eye or a member of any kind during that time.

During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four-fold, and special excursion trains were very many, there was not an accident of any kind—a most remarkable record.

Besides being America's most popular railroad, the Chicago & Alton is the Pioneer Dining Car Line, the Pioneer Pullman Sleeping Car Line and the Pioneer Palace Reclining Chair Car Line.

Be sure that your ticket reads over the Chicago & Alton Railroad, when its matchless and direct lines can form the whole, or even a part of your journey.

Mortgage Sale.

Default having been made in the Conditions of a certain Mortgage made by Louisa S. J. Johnson to the Ann Arbor Savings Bank dated the 5th day of March 1891 and recorded in the office of the Register of Deeds for Washtenaw County, Michigan, on the 6th day of March, 1891, in Liber 76 of mortgages on page 220 on which mortgage there is claimed to be due at the date of this notice the sum of seven hundred and six dollars and eighty cents (\$706.80) and an attorney fee of twenty-five dollars provided for in said mortgages and no suit at law or proceedings in equity having been instituted to recover the money secured by said mortgage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, notice is hereby given that on Friday the first day of November 1895 at ten o'clock in the forenoon the said Bank will sell to the highest bidder at public auction at the east front door of the Court House in the City of Ann Arbor (that being the place where the circuit court for said county is holden) the premises described in said mortgage or so much as may be necessary to pay the amount due on said mortgage and the expense of this foreclosure. The premises to be sold being described as a part of lots 100 and 101 of R. S. Smith's third addition to said city of Ann Arbor fronting 95 feet on Observatory-st. and extending west on the north end of said lots 110 feet. The premises herein defined being bounded east by Observatory-st. north by Volland-st. west by a line parallel to Observatory-st. and 110 feet therefrom and south by a line parallel to Volland-st. and 66 feet therefrom.

Chancery Sale.

In pursuance of and virtue of a decree of the Circuit Court for the County of Washtenaw, State of Michigan, in Chancery, made and entered on the fifteenth day of January 1889 in a certain cause therein pending wherein John E. Van Nata is complainant and Charles F. Conrad, Mary E. Conrad, Thomas McComb, Maria McComb and Dennis Warner are defendants, notice is hereby given that I shall sell at public auction to the highest bidder at the eastern entrance of the Court House in the City of Ann Arbor, State of Michigan (that being the building in which the Circuit Court for the County of Washtenaw is held) on Wednesday the 25th day of September 1895 at ten o'clock in the forenoon of said day, the following described real estate situated in the Township of Dexter, County of Washtenaw and State of Michigan and described as follows, to-wit: Commencing at the east section corner common sections twenty-five and thirty-six and running north on the section line six rods to a stake, thence west in the direction of a stake standing thirty-two rods south of the quarter post between said sections, until it intersects the section line between said sections, thence easterly to the place of beginning.

Dated August 5, 1895. O. Elmer Butterfield, Circuit Court Commissioner, Washtenaw County, Michigan.

VIOLA CREAM. A lovely complexion only Nature can give. She gives it to those who use Dr. Hebra's Viola Cream. It is not a paint or powder to cover defects. It restores the vitality of the skin; banishing all roughness, redness, freckles, moles, pimples, blackheads, sunburn and tan. It does this surely and harmlessly, because naturally. Its use means both skin-beauty and skin-health. Viola Skin-Soup softens the process, because it is a pure and delicate soap. It should be used in connection with the Cream. It should be used in the nursery, too. Ordinary soaps are not fit for a baby's skin. Viola Cream, 50 cents. Viola Skin-Soup, 25 cents. Sold by druggists or sent by mail. Send to G. C. Mortgage Sale.

Default having been made in the conditions of payment of a certain mortgage made on the 13th day of May A. D. 1891 by John Pfisterer and Mary his wife, to The Farmers and Mechanics Bank; whereby the power of sale therein contained has become operative which mortgage was recorded in the office of the Register of Deeds in the County of Washtenaw on the 13th day of May aforesaid, in Liber 76 of mortgages on page 273 and on which said mortgage there is claimed to be due at the date of this notice the sum of thirteen hundred and seventy-five dollars and no proceedings at law or in equity having been instituted to collect the said sum of money or any part thereof. Now Therefore Notice is hereby given that on the 21 day of November 1895, at eleven o'clock, a. m. at the south front door of the Court House, in the City of Ann Arbor, State of Michigan, the said mortgage will be foreclosed and the lands and tenants in the said mortgage mentioned and described will be sold at public auction or vendue to the highest bidder to satisfy the principal and interest of the said mortgage and the costs and expenses of these proceedings including an attorney's fee of thirty dollars provided for therein. The lands tenements and premises in the said mortgage conveyed and then to be sold are described as follows:

All that certain piece or parcel of land situate in the City of Ann Arbor, in the County of Washtenaw, and State of Michigan, to-wit: Commencing at the north-east corner of land owned by Eugene Osterlin on the south side of Huron street between Allen Creek and Jewett street, thence south along Osterlin's land, eight rods to Mrs. Eiseles land, thence east along Eiseles land four rods, thence north eight rods to Huron street, thence west four rods to place of beginning, all on section twenty-nine town two south, range six east. Dated, Ann Arbor, August 6th, 1895. FARMERS & MECHANICS BANK, Mortgagee.

E. B. NORRIS, Attorney for Mortgagee.

Mortgage Sale.

Default having been made in the conditions of a Mortgage executed by Thomas H. Geer to Philip Leonard, for the purchase money for the premises hereafter described, which mortgage bears date September 17th, A. D. 1883, and is recorded in the office of the Register of Deeds for Washtenaw county, Michigan, on the 20th day of September, A. D. 1883 in Liber 62 of Mortgages on page 565, by which default the power of sale contained in said mortgage became operative, and no suit or proceeding in law or equity having been instituted to recover the debt secured by said mortgage or any part thereof, and the sum of twenty-four hundred nineteen and fifty-three one-hundredths dollars (\$2,419.53) being now claimed to be due on said mortgage, notice is therefore hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises therein described or some part thereof, to-wit:

All of the following described land situated in the city of Ann Arbor, in the county of Washtenaw, in the State of Michigan, viz: Lot commencing at the north-east corner of lot No. one (1), in block No. two (2) north of Huron street in range No. four (4) east, running thence south thirty-five (35) feet on the east line of said lot, thence running west sixty-six (66) feet parallel with the north line of said lot, thence running north parallel with the east line of said lot thirty-five (35) feet, thence east on the north line of said lot sixty-six (66) feet to the place of beginning, at public vendue on Friday the Eleventh day of October, A. D. 1895, at 10 o'clock in the forenoon, at the east front door of the Court House in the city of Ann Arbor, in said county of Washtenaw, that being the place of holding the Circuit Court of said county. Dated, July 8th, A. D. 1895. PHILIP LEONARD, Mortgagee.

NOAH W. CHEEVER, Attorney for Mortgagee.

Sheriff's Sale.

Notice is hereby given that by virtue of a writ of fieri facias issued out of the Circuit Court for the County of Washtenaw, in chancery, in favor of the Ann Arbor Milling Company, against the goods and chattels and real estate of Hiram Storms and Agnes E. Storms in said county, to me directed and delivered, I did on the 11th day of July instant levy upon and take all the right title and interest of the said Hiram Storms and Agnes E. Storms in and to the following described real estate, that is to say: Commencing in Brown and Fuller's addition to the village now city of Ann Arbor, County of Washtenaw and State of Michigan, twelve feet from the northerly side of the cabinet shop as formerly located on the south bank of the race which now runs to the Ann Arbor Milling Company's mill, thence up the line of the race forty feet, and extending westerly from said line at right angles with said line forty feet wide to the river, with the privilege of erecting a bulk head thereon and the privilege of taking from said bulkhead seventy-two inches of water; also commencing in said addition at the south-east corner of a certain piece of land lying on the south-west side of the mill race heretofore deeded to Josiah Beckley, Samuel Doty, John Thomas, Herman Thomas and Zebul M. Thomas, running thence down said race sixty-two feet, thence at right angles with said race to the river, thence up the river to said lands heretofore deeded to Josiah Beckley and others, thence to the place of beginning and privilege of taking from said race on said premises one hundred and forty-four inches of water, said water privileges being subject to the limitations contained in deeds recorded in Liber C, page 296 and Liber J, page 129, in the office of the Register of Deeds of said county. Said lands being all the lands owned by the said Hiram Storms and Agnes E. Storms, upon the south side of the race of the Ann Arbor Milling Company's mill.

All of which I shall expose for sale at public auction or vendue to the highest bidder, at the south front door of the court house in the city of Ann Arbor in said county on the 18th day of September 1895 at ten o'clock in the forenoon. Dated, this 30th day of July 1895. WILLIAM JUDSON, Sheriff. LAWRENCE & BUTTERFIELD, Solicitors for Complainant.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage made by Albert F. Vanatta and Maria A. Vanatta, his wife, to Albert L. Walker, and dated the 30th day of December 1869 and recorded in the office of the Register of Deeds of Washtenaw County Mich. on the 30th of December 1869, in Liber 43 of mortgages on page 114, which mortgage was assigned by said Albert L. Walker to Alexis Packard on the 13th day of April 1871 and recorded in Liber 3 of assignments of mortgages page 90, and assigned by Israel D. Packard administrator of the estate of Alexis Packard to Prudence Packard by deed of assignment, dated April 20, 1879 and recorded in Liber 6 of assignments on page 241, and afterwards assigned by Israel D. Packard, administrator of the estate of Prudence Packard to Chloe E. Waters by deed of assignment dated the 15th day of August 1880, and recorded in Liber 10, assignments of mortgages page 287, on which mortgage there is claimed to be due at the date of this notice, the sum of seven hundred and ninety-two dollars and fourteen cents (\$792.14) and the costs of this foreclosure and no suit or proceedings in law or equity having been instituted to recover the moneys secured by said mortgage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, notice is hereby given, that on Saturday, the 26th day of October, at 11 o'clock in the forenoon of that day, the said mortgage will be foreclosed by a sale of the mortgaged premises at the east front door of the Court House in the city of Ann Arbor (that being the place for holding the Circuit Court of the said County.) The premises described in said mortgage to be sold are described as follows:

Thirty-two acres of land from the west side of that part of the east half of the south-east quarter of section nine (9), which lies north and east of the trail road (so-called) and eight and one-half acres commencing at the south-west corner of the south-east quarter of said section nine (9) running thence north forty-two and one-half rods, thence east thirty-two rods, thence south forty-two and one-half rods and thence west to the place of beginning all in the township of Salem, Washtenaw County, Michigan. Probate Order.

STATE OF MICHIGAN, ss. COUNTY OF WASHTENAW, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Tuesday, the 6th day of August, in the year one thousand eight hundred and ninety-five. Present, J. Willard Babbitt, Judge of Probate.

In the matter of the estate of Marcia H. Gelston, deceased. Joseph Mills Gelston and Henry Wisewell Gelston executors of the last will and testament of said deceased, come into court and represent that they are now prepared to render their final account as such executors. Thereupon it is ordered, that Tuesday, the 3rd day of September next at ten o'clock in the forenoon, be assigned for the examining and allowing such account, and that the devisees, legatees and heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate office, in the City of Ann Arbor, in said County, and show cause, if any there be, why said account should not be allowed. And it is further ordered, that said executors give notice to the persons interested in said estate, of the pendency of said account, and of the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER, a newspaper printed and circulating in said county three successive weeks previous to said day of hearing. J. WILLARD BABBITT, Judge of Probate. (A true copy.) W. G. DOTY, Probate Register.

**A PREHISTORIC TUNNEL.**

Apparently Implements of Stone Were Employed in Its Construction.

A few weeks ago a number of well-known residents of Butte left here on a prospecting expedition to the Big Hole country, says the Inter Mountain. Among the number were W. D. Clark and Thomas J. Howard. They are men of unimpeachable veracity, who number their friends by the hundreds in this city. This latter statement is perhaps made necessary by what is to follow. The gentlemen returned to Butte last evening, and to-day filed for record a location notice of the Catalpa lode claim, which the notice says is located three miles south of Divide station on Fleece mountain, a portion of country that has not been prospected very thoroughly on account of the large amount of snow in that locality during the summer months. The remarkable part of the locating of this claim is the statement of the locators that they discovered a tunnel fully fifty feet long, which had been driven into the mountain apparently several years ago. In prospecting along the side of the mountain the men found several pieces of good-looking copper ore in a hollow which they first supposed had been a buffalo wallow in the days when those animals roamed the prairies of the Big Hole country. The prospectors, believing that there was a lead somewhere in the vicinity, began to dig in the mountain side. After an hour's hard labor they were considerably surprised to find the earth suddenly yielded to the blows of the pick and a big hole loomed up before them. They cleared away the earth and entered a tunnel about six feet high and four feet wide, walled in with blocks of stone. The top of the tunnel was protected by large flat stones, and for about twenty-five feet there was not a break in the primitive timbering. About twenty-five feet from the mouth of this tunnel the prospectors came to a spot where the earth had apparently broken down the stonework, and after clearing away the debris the men were enabled to go in about twenty-five or thirty feet further. Here they came to a ledge, which was carefully examined, but as to what was discovered there the men will say nothing, except that they found some implements made of stone which had apparently been used in driving the tunnel.

**SMUGGLED GLOVES.**

Oregon Postal Officials Find Them in Packages of Papers.

Officials connected with the Postoffice Department of this city have discovered a neat attempt to swindle the United States Government by smuggling kid gloves into this city and escaping the payment of duties. Some time since a sudden increase in the newspaper mail between Hong Kong, China, and this city became apparent, says the Portland Oregonian. It was surmised that certain persons had become interested in the Japan-China war and were being supplied with newspapers containing full accounts of the war's progress, and the first lot of papers was delivered without question. Last Saturday there was another batch of papers received, many of them being addressed to women in the city, and the suspicions of the postoffice authorities were aroused. Collector Black, of the customs service, was informed of the suspicious nature of the packages, and thirteen of them were turned over to his custody for investigation. It is required, when the postal officials have cause to think that the mails are being used for the purpose of smuggling contraband goods, that the package under suspicion must be given to the Collector of Customs, and the party to whom the same is addressed must open the same in the presence of the customs officials for inspection. On Saturday a woman to whom a number of apparent newspapers had been sent called at the Custom House to receive the same from the Collector if they passed inspection after being opened and examined. Within the folds of the papers two pairs of kid gloves were found, and examination of other bundles resulted in similar finds. The gloves were all confiscated by the Collector, and will be sold at auction in due time.

The woman stated to the Collector that she had an idea who sent the gloves, but she refused to disclose any names, and there is no law to compel her to do so. Neither can the party sending the gloves be molested, and the only thing that the Government can do is to seize the goods. The gloves are of ordinary make, coming in a variety of shades, but those who have been receiving presents from such sources will find the supply of gloves now cut off, as every package of papers will be inspected. The duty on kid gloves is 50 per cent of the value at port of importation, and in amount the money which the Government has lost is a trifle.

**The Monkey Up a Tree.**

"I see a monkey up a tree. He sees me and gets behind the trunk of the tree. I start to go around him and he keeps going around as I do, keeping the trunk of the tree between him and me. I reach the place I started from, with the monkey still opposite on the tree. Now I have been around the tree. Have I also been around the monkey?" A Boston woman is quoted as saying: "I tried it on my husband. I had him for the monkey, and I took a whisk broom and went around him, brushing his clothes. He kept turning around just as I did, and when I had been clear around I had only brushed one side of him and one leg of his pantaloons. Now, all the professors of Harvard university couldn't convince me that I had been around that man, and neither had the man been around the monkey in the tree."—Buffalo Express.

**Each His Own Weather Prophet.**

Every man who owns a bicycle is now his own weather prophet. He holds in his hand the long-sought solution of the problem how to make rain.

If his wheel gets muddy and he lets it stay so, clear weather will be assured. If he attempts to clean off the mud a shower will result within twelve hours. If he cleans and polishes the wheel so that it shines like new, a terrific thunder shower will fall as soon as he tries to go for a ride.

A large number of wheelmen have found this to be a fact and as you can't ride a wheel during wet weather, the fact that so many muddy wheels are seen proves that they are left dirty to avoid causing a rainstorm.—Louisville Post.

Mexico produces anything that may be raised in any other country. So varied is the climate that in the same state may be raised any product of the tropics and of the polar regions. Cotton, wheat, rye, silver, silk, coconuts, bananas, rice, cocoa, vanilla, logwood, mahogany, hides and wines are the principal products. The center of population in 1790, was about twenty-three miles east of Baltimore; in 1800, about eighteen miles west of Baltimore; in 1810, about forty miles northwest of Washington; in 1820, about sixteen miles north of Woodstock, Va.; in 1830, about nineteen miles southwest of Moorfield, W. Va.; in 1840, sixteen miles south of Clarksburg, W. Va.; in 1850, twenty-three miles south of Parkersburg, W. Va.; in 1860, twenty miles south of Chillicothe, O.; in 1870, forty-eight miles east of Cincinnati; in 1880, eight miles west of Cincinnati; 1890, twenty miles east of Columbus, Ind. The University Press at Oxford has appliances for printing in one hundred and fifty different languages. Dr. Lerner, of Zurich, by chemical and mechanical means, practically supercedes the silkworm, and spins from such raw material as cotton waste, lute waste, or wood pulp, a thread that even the expert eye can hardly distinguish from that of the natural cocoon. Scientists believe that all salt, wherever found, has come originally from the sea, in some way or other. The lake of Urumia, in Persia, contains more salt than any other body of water in the world. On analysis the water has been found to contain even more salt than the Dead Sea, which holds twenty-six per cent. or eight times as much as the ocean. Taking the world over, there is an average of one death and one and a quarter births per second. Only one-half of all who are born into the world live to the age of seventeen years. Only one marble statue of the human figure with eyelashes is known. It is the sleeping Ariadne, one of the gems of the Vatican, and was found in 1503. An inch of rain, falling upon an area of one square miles, is equivalent to nearly 17,500,000 gallons, weighing 145,250,000 pounds, or 72,625 tons.

A Unique Puzzling Composition by a 12-Year-Old Schoolgirl.

The Northwestern Magazine gives the following unique composition written by a 12-year-old school girl. Let our young readers see if they cannot make it still more puzzling: "A right suite little boy, the son of a kernel, with a rough round his neck, flue up the road as quick as a deer. After a thyme he stopped at the house and wrung the belle. His tow hurt hymn and he kneaded wrist. He was two tired to raze his fare, pall face, and a feint mown of pane rose from his lips. The made who herd the belle was about to pair a pare, but she through it down and ran with all her mite, for fare her guessed would not weight, but when she saw the little won fiers stood in her eyes at the site. 'Ewe poor deer. Why do you lye hear? Are yew dyeing?' 'Know,' he said, 'I am feint.' She boar him inn her arms as she ought, to a room where he might be quiet, gave him bred and meet, held a cent bottle under his knows, untide his choler, rapped him warmly, gave him a suite drachm from a viol, till at last he went forth as hail as a young hoarse."

**A Ludicrous Mistake.**

A cyclist who had lost his friend asked an old woman if she had seen a man on a bicycle along there. She answered: "No, sir; but I saw a man mending umbrellas at the top of yon lane." The cyclist went up the lane, and was amused to find that the "man mending umbrellas" was his friend, who had come a cropper and was sitting among the ruins of his machine.—Tomet Aster.

**Enough Coal for 800 Years.**

The report of the United States geological survey is about ready to be made public. In treating on the bituminous coal fields of Pennsylvania, it relieves the fears of those who have been anxious about the supply of that particular fuel—surveys and examinations of these coal beds have led the government experts to announce that at the present rate of consumption the supply will not be exhausted for 800 years to come.

**THE HAMMOCK INVALID FOLDING BED.**  
The hammock feature is one of the most valuable of the many good points of this bed, facilitating the change and airing of bedding, giving the patient the relief of being lifted from a heated mattress to a cool and comfortable hammock, securing perfect ventilation of the body and preventing bed-sores. The circular opening in the hammock enables the use of a chamber without inconvenience. In fact this bed is a revelation to the weary invalid, being invaluable in the treatment of all acute and chronic Diseases, Paralysis, Rheumatism, Consumption, Continued Fevers, Heart Disease, Fractures and other severe injuries and surgical operations.
