## TO HER FIRST LOVE.

### WELL-KNOWN ANN ARBOR YOUNG LADY MARRIED SUDDENLY.

Miss Mary Purfield Married Saturday Night—Both She and the Gentleman in the Case Passed Under Assumed Names—An Engagement Broken to Marry a Former Fiancee—The Couple Married at Ypsilanti Saturday Night—At Home at Kalamazoo.

Mr. George Paltre, of Kalamazoo, and Miss Mary French, of Ypsilanti, were united in marriage by the Rev. Bastian Smits Saturday evening, Sept. 7th.

The above notice appeared in Monday's Evening Times, but no one suspected that there was anything unusual about the affair. It has developed, however, that there are several unusual things connected therewith. In the first place both the names are assumed ones, Mary French being one of Ann Arbor's well known young ladies.

Miss Mary Purfield, who for several years has been the popular and highly respected clerk at the store of Moore and Wetmore, was the lady who played the part as Miss Mary French. It seems that there are several romantic features connected with the affair. Some two years ago, a young man by the name of Geo. Paltridge, of Kalamazoo, was a student here and became acquainted with Miss Purfield. This acquaintance grew into more than mere friendship, and it was reported that the young people were engaged. Young Paltridge, who is highly respected by all who know him, is a photographer. He is now engaged in that business at Kalamazoo.

For some reason the latter did not meet the approval of the young lady's parents and a few other friends. As a result, the young lady was induced to ship Paltridge. Later she began to receive the attentions of a Mr. A. W. Weir, a young man of considerable means, who graduated from the law department last spring and is now traveling in the west looking up a location to begin the practice of the law. It was currently reported last spring that the couple had become engaged and that they would be married as soon as Mr. Weir could find a suitable location and get started in practice. Affairs took a sudden turn last Saturday. Friday night young Paltridge came to Ann Arbor, determined to win back the love of his former fiancee. He seems to have been eminently successful as subsequent events show. Saturday afternoon he visited the county clerk's office and gave the name of Geo. Paltre, of Kalamazoo, and secured a license to marry Miss Mary French, of Ypsilanti. That evening they took the motor to Ypsilanti, and upon reaching there they went immediately to the residence of Bastian Smits, pastor of the Congregational church, and were married. The matter was kept a profound secret until Tuesday. On Monday Miss Purfield, as everybody still supposed she was, was at her duties at the store as if nothing had happened. Monday night Mr. Paltridge left for Kalamazoo, and it has since been learned that he took his bride with him. The disappearance of the young lady from her home was the first intimation her people had that anything had taken place. They are nearly heart broken at the turn affairs have taken, but there is nothing left for them to do but to forgive and forget. In the meantime the young people seem to be living happily at Kalamazoo. Mr. Weir will probably not be very ready to forgive or forget that he has been outgeneraled in the matter. The news of what has happened here within the past few days will doubtless be a great surprise to him.

### SCHOOL BOARD OFFICERS.

#### A New Deal All Around—Some Unexpected Moves—Shoe Leather Said to Have Cut a Figure.

The new school board met Tuesday night and effected an organization. A new deal was made in the officers and in the committees. It was generally supposed since it had been decided to change the presidency each year that Dr. W. B. Smith was to be elected this time. But some of the members could not see it that way and Evert H. Scott carried off the honors. During Tuesday afternoon a slate was made up and came very near being adopted which would have made Mrs. P. Bach the president of the Board. For secretary John R. Miner was chosen. When it came to the election of a treasurer another change was made, Miss E. Bower being elected to succeed L. Gruner. It was in the contest for this office that it is said the question of shoe

leather came in as a political issue. Mr. Scott, the new President announced the following committees: Finance—Gruner, Smith, Mack. Teachers and Text-Books—Beal, Miner, Bach. Library—Mack, Bower, Gruner. Building and Grounds—Jacobs, Beal, Scott.

## A GREAT FAIR.

### THE FAIR THIS YEAR TO OUT-DO ALL PREVIOUS ONES.

A Large Number of Desirable Premiums Offered—Also a Large List of Special Premiums Offered by Entertaining Business Men—School Day, September 25—Woman's Day, September 26—Other Special Features.

The Fair News which has just been issued contains a great deal of information concerning our coming fair. From all appearances it will be the most successful fair that has ever been held in Washtenaw County. School Day has been set for Wednesday, September 25. Woman's Day will be held on Thursday, the 26th. The special programs for these days will be given next week. The bicycle races are also sure to be a drawing card. Some fine premiums amounting to several hundreds of dollars in value are offered. These races will take place on Friday afternoon, September 27. One of the special features this year will be the exhibition given by the famous Kemp Sisters. They will give eight special features as follows:

1. Kemp Sisters with High Jumping ponies. The Kemp Sisters, aged 7 and 9, are the youngest and most daring female riders on earth, attempting leaps which cause the hair to rise and the blood to grow cold. They are possessed of a daring that is astonishing in girls so young.
2. Grand Two-Horse Running Standing race. Given with two teams, each team being ridden by an athlete standing with one foot on each horse, making a close and exciting finish.
3. Four-Horse Chariot Race, Brilliant half-mile dash with glittering chariots and thorough-bred race horses. Very exciting and spirited. Driven by Mlle. Rosalia and P. M. Kemp.
4. Umbrella Race. Beautiful spectacular race, with three mounted jockeys carrying open umbrellas, making a very laughable and mirth-provoking race.
5. Novel Hurdle Races, exciting and artistic. This is given by Mlle. Rosalia and two noted jockeys, and will be a closely contested and spirited race from start to finish. These races are far superior to the average hurdle races of the present day.
6. Welch Pony Race—something for the little people as well as the old. Imported Welch ponies ridden by children riders.
7. Horse against Greyhound. Mlle. Rosalia rides this race, one-half mile against "Lampighter," the swiftest greyhound in America.
8. Skeleton Wagon Race—lady driving team against single horse.

Though not so numerous, the special premiums offered amount to many hundreds of dollars and will undoubtedly call out some sharp competition. Here are the more important ones: The Ann Arbor Organ Co. offers three prizes to schools showing the best knowledge of music.—1st prize, a \$90.00 organ; 2nd prize, a Webster's Unabridged Dictionary; 3rd prize, 1 dozen copies "The Song Budget." Dean & Co., offer five premiums for the best five in a race of untrained horses. Their premiums are all in sugar.—1st, 300 lbs.; 2nd, 200 lbs.; 3rd, 100 lbs.; 4th, 50 lbs.; 5th, 25 lbs. If the winner does not like sugar, he can have the cash. Lindenschmitt & Apfel will give three suits of clothes for the three best lots of corn of 5 ears each. George Haller, the Jeweler, will give a berry dish for the best loaf of rye bread. Grossman & Schlenker will give one of those famous Quick Meal Gasoline Stoves for the best pair of fat turkeys. Rinsey & Seabolt want the ladies to try their hand at baking and have offered a barrel of flour for the best two loaves of bread. Staebler & Co., the grocers, will present a fine lamp to the one bringing the best gallon crock of butter. E. V. Hangsterfer will give a 5 lb. box of fine candy for the finest collection of Macaroons. M. W. Blake, the picture frame man and dealer in fine art goods, will give for the best pencil drawing made by any school child in the county, a fine framed picture worth \$4.00. H. Randall will give a dozen cabinet photographs for the best collection of kodak pictures. To induce the boys to train up their farm nags the Noble Star Clothing House will give \$6.00 worth of clothing to the boy who can go three times around the race track in the least time with a plain work horse. Henry Rich-

Dr. Price's Cream Baking Powder World's Fair Highest Medal and Diploma.

ards wants to encourage the raising of corn and offers an Advance plow for the best 12 ears of corn. Jacobs & Allmand like cake and will give a \$5.00 pair of shoes to the lady, or gentleman, who can bake the finest loaf of white cake. The Eberbach Hardware Co. will present one of their Majestic Steel ranges, valued at \$53.00. Just how this may be secured will be announced later. Mack & Co. will give a case to the winner in the Ladies' Bicycle race and a suit of clothes to the winner in the Boys' Bicycle race. Martin Haller desires to encourage the art of drawing and for the best hand drawn map of Washtenaw County will give a handsome oak school arm chair. A number of other special premiums are offered, but of which we have not room to make mention. The entire list may be found in the Fair News, a copy of which may be secured by addressing F. E. Mills, secretary, Ann Arbor, Mich. With so many special and attractive features, the fair is certain to be a great success. Make up your mind to attend and do not let anything interfere to keep you away.

### A FATAL ACCIDENT.

#### Edwin Hurst Shoots a Supposed Burglar—It Proves to Be His Sister-in-Law—She Dies in an Hour.

Between one and two o'clock a. m. last Saturday there occurred a fatal accidental shooting affair at the home of Edward Hurst who lives at No. 6 Maiden Lane. With Mr. Hurst and his wife, who are colored people, lived Mrs. Hurst's younger sister, aged about fifteen. Mr. Hurst who works for Dr. Wessinger is kept away considerably of nights. Lately his wife has complained of persons trying to enter the house at night in her husband's absence. Friday night Mr. Hurst decided to stay at home and make an effort to discover who it was that was bothering his wife. About one o'clock Saturday morning Mrs. Hurst heard some one at the door and at once awakened her husband who got up to investigate. It seems that his sister-in-law, Miss Vena Johnson, was not feeling well that night and had gone out doors. It was her going out that had awakened her sister, Mrs. Hurst. When she came back she got as far as the door and started to open it and then turned back again. At this time Hurst called out to know who was there, but evidently the girl did not hear him. Pretty soon she came back and when she opened the door, Hurst thinking it was a burglar fired upon her at close range with a shot gun. The charge took effect in the girl's abdomen from the effects of which she died within an hour. Mr. Hurst was overwhelmed with grief at what he had done. He at once gave himself up to the officers. Coroner Ball called a jury and held an inquest which showed that the shooting was purely accidental. The remains of the unfortunate girl were buried in the Dixboro cemetery Sunday afternoon.

### Majority of Foreign Parentage.

The report of the Secretary of State recently issued contains some startling facts as to the nativity of the people of this state. The figures have been compiled from the census reports and show that of the 2,175,211 which includes the entire population of the state, except 66,430, of whom the reports were incomplete, over one-half, or 1,004,931, were born of parents both of whom were foreign born. Of the remaining, 911,806 have both parents native born while there are 258,475 with either father or mother foreign born.

Although it may be a surprise to most people to know that over half our population comes from foreign born parents, it is certainly nothing to be deplored. The class of foreigners who came to this country up to within the past few years was a desirable one in the main, the large proportion of them making splendid citizens. What this country needs to stop, and that promptly, is the miserable rabble that European countries have been dumping upon our shores during the past ten or a dozen years.

## MICHIGAN MENTION.

### BRIEF ITEMS ABOUT MICHIGAN PEOPLE AND THINGS.

**Gov. Rich Sends the Fifth Regiment, Michigan National Guard, to Ishpeming to Protect Mining Property. — Strikers Don't Like It.**

#### Marquette Miners Still Striking.

The day following the arrival of the troops at Ishpeming there was great excitement caused by the burning of the strikers headquarters, but whether it was accidental or incendiary is not known. Negaunee strikers were greatly excited over the ejection of a boy named James Finley from the Buffalo mine property by Supt. Cole, because the boy made himself extremely obnoxious. Finley's father had Cole arrested on a charge of assault and had it not been for the courageous stand of the city officials and the presence of troops at Ishpeming serious trouble might have occurred. One company of militia was sent to Negaunee later to guard the Buffalo property.

The socialistic element of the strikers are endeavoring to work up a petition to Gov. Rich to withdraw the troops, but with poor success. Mayor Foley of Negaunee, objected to troops, being sent there, but the strike leaders would not guarantee safety to property. Manager Cole was fined \$56, the limit, for striking the Finley boy. It is said that the men running the shovels are not experienced and are doing poor work. Ten more outside men arrived at Ishpeming and were escorted to the mines by the troops amidst curses and jeers from the miners. Supt. Fitch has asked for troops to protect the champion mine. It is reported the Frederick Braested, of the Winthrop mine, has offered his men a 10 per cent advance over the scale offered by the other mines, and it will be accepted.

#### Chapter of Street Car Accidents.

Detroit has had rather a serious time with its street cars for some years, but unless something is done to stop this recently inaugurated slaughter of the citizens the city will be depopulated. Here is the history of one day's massacre: The first victim was Michael McLaughlin, aged 86, who was talking to his brother while standing beside the track on Michigan avenue. The gong of an approaching car evidently rattled the old man as he stepped right in front of it and was fatally mangled.

At the corner of Woodward and Grand River avenues a little girl was struck and badly cut on the arms and chest. A little later at the same place Mrs. Geo. L. Maltz and daughter were pulled from under a car, but were not seriously injured.

On Jefferson avenue a car struck and dangerously injured Martin Bove, a newsboy, who was trying to board it to sell papers. His skull was fractured.

Peter Burns was run into while driving. His buggy was demolished, his horse killed and Burns so badly hurt that his life was despaired of.

Fred Dudas was instantly killed at Ecorse, a suburb, by being struck by a motor car on the Wyandotte & Trenton suburban line.

#### Lively at Ishpeming—Soldier Killed.

Since the arrival of the troops, the beginning of work with steam shovels, and the importation of men to take strikers' places there have been no dull times at Ishpeming. One of the incidents which pleased the strikers was the desertion of several of the new men from the working force at the shovels to their ranks. Frederick Braested secured 106 of his employees and has resumed operations at the Winthrop mine, he having agreed to pay a 10 per cent advance over the scale offered by the other mines, after Dec. 15. The union didn't want the men to go to work at the Winthrop, but they threatened to break away if they were opposed. Three non-union men went to work at the Winthrop but they were promptly pulled off and they then joined the union.

A fierce thunderstorm passed over the mining section and Camp Ishpeming was for a time threatened with destruction. Trees were felled in every direction and flying branches filled the air. A falling tree struck and instantly killed Joseph Helmes, of Co. D, Calumet. Eight trees fell in the campment during the night, several falling between occupied tents.

#### Big Fire at Alpena.

The Folkert & McPhee shingle mill at Alpena, together with a large stock of piled and manufactured shingles and bolts, and a portion of No. 2 engine house, was destroyed by fire. The loss will not be far from \$43,000, with but \$4,000 insurance. The wind was blowing a gale, and it was only by the hardest work that the flames were kept from spreading to the business portion of the town. A half million of shingles were saved by throwing them into the river.

#### Severe Loss at Hermansville.

A lumber fire in the yards of the C. L. Meyer Lumber Co., at Hermansville destroyed almost every stick in reach. A strong wind was blowing at the time and it was feared that the entire town would be destroyed, but good work by visiting firemen kept the flames from reaching the mills. The loss is about \$35,000; insurance \$20,000. The fire was caused by a spark from a passing locomotive.

#### Roscommon Had a Hot Blaze, Too.

Fire was discovered in the main building of the G. B. Hodgemann manufacturing plant at Roscommon. It spread to the sawmill and dry kiln and cars standing on track and destroyed the whole plant. The loss will reach \$50,000; insured.

#### Steamer Burned on the Lake.

The steamer Forbes of the Shore line, which plies between Saginaw and Bay City, left Saginaw with quite a number of passengers and several tons of hay, but she caught fire when opposite Melbourne, and burned to the water's edge. The steamer was commanded by Capt. Will Armstrong who succeeded in landing the passengers in safety. Many were terrified and attempted to jump into the river. The loss is a complete wreck. The Forbes is covered by insurance. The loss is owned by W. N. Armstrong, of Saginaw, and is said to be valued at \$5,000.

## MORE HORRORS IN ARMENIA.

### Turkish Troops Torture Christian Men and Ravish Women and Children.

London: A dispatch from Kars, Armenia, says that the entire district of Kemalis is surrounded by Turkish troops dispatched by Zekki Pacha under the plea of arresting Armenian revolutionaries. The villages of Carni, Tiriguerno, Tortan, Horopout, and Marigar are reported to have been completely sacked while the population aggregating 5,000 people were foully treated. The men were tortured and the women and children were ravished. The four monasteries of Aukwank, Sourphop, Therovithchoga and Souphagop were sacked and the altars destroyed. The excitement and alarm are universal.

#### High Officials Plan Another Massacre.

Authentic information from Moosh is to the effect that an anti-Christian society of Turkish officials has been formed there and at Bitlis with the avowed intention to slaughter the Christians in the event of the acceptance by the Porte of the scheme of reforms presented by the powers. It is declared that Consul Hampton is to be the first victim.

#### 680 Spaniards Killed in Battle in Cuba.

Key West, Fla.: Private letters from insurgent sources bring the news of a big battle fought on August 31, near Santiago de Cuba, between the insurgents and Spanish troops, commanded by Carnellas, in which the insurgents completely routed the troops, killing 600 soldiers and 80 officers and wounding Carnellas. The Spanish papers report that the battle was fought, but do not give the details.

#### Cubans Will Appeal to Uncle Sam.

New York: Thomas Estrada Palma, the president of the Cuba revolutionary junta, issued an address on the recent arrest of Cubans at Penn's Grove, N. J., using the incident as a basis for a plea to the United States government for recognition of the Cuban insurgents as belligerents. He compares the present relations of Spain and Cuba as similar to those of America and England, and recalls the help extended by France to the United States.

#### Another Attempt to Dynamite Rothschild.

Paris: Baron De Rothschild's banking house was the scene of another anarchistic attempt at murder. A man entered the bank from the Rue LaFite. In the vestibule a detective who was on guard there saw the stranger ascend the first staircase leading to the banking office and try to light a bomb. When he saw that he had been detected he threw the bomb to the ground and ran out into the street, being pursued by the bank detective. When overtaken the desperate man turned and confronted his pursuer with a razor. The officer warded off a blow which was aimed at him and seized the man. At the station he told Commissary Girard that he made the bomb himself. He expressed regret that he had not taken enough precaution to insure an explosion. He had tried to light the fuse with a cigarette, but the ashes upon the latter interfered.

#### Train Plunged Through a Bridge.

Twenty-five persons were hurt in a wreck on the K. C. F. S. & M. railroad near Monmouth, Kas., several seriously. As the train neared the bridge over Indian Creek, and axle on the rear coach broke, and when the train had reached the bridge, the baggage car tipped and crashed into the side timbers of the bridge. The structure gave way and the entire bridge pitched into the creek 20 feet below. The baggage car fell first and the front coach fell partially over it, thus preventing the passengers from being drowned.

#### Kansas Town Destroyed by a Storm.

Gridley, Kas., a town of 400 people on the Santa Fe road suffered the total destruction of many of its best buildings by a storm while hardly a structure in the place escaped injury. The loss is very heavy. Mrs. Clara Massie was fatally hurt. Another report says the storm extended from the north to the south end of Coffey county, destroying scores of houses, barns and granaries and greatly damaging orchards and crops. At least three persons were killed and a number badly injured.

#### Stole \$16,000 From the Express Co.

J. D. Farden, cashier of the Adams Express Co., and J. R. Barnett, city ticket agent of the Vandallia, at Terre Haute, Ind., have disappeared, after a package of \$16,000 deposited by Revenue Collector Jump for shipment to the Cincinnati sub-treasury. Farden gave a receipt for the \$16,000. The police say that the amount stolen by the men will probably reach \$40,000, and that the two men had literally cleaned the office of the four day's receipts.

#### "Baby" McKee a Hero.

There came very near a drowning accident at Dodd Camp, near Old Forge, N. Y. Mrs. Russell B. Harrison's little daughter and Benny, better known as "Baby," and May McKee were playing about the dock at the camp when the Harrison child slipped and fell into the water. Benny McKee saw her fall and ran to her rescue. He held her hand until Gen. Harrison heard the screams and rescued his granddaughter.

#### Spaniards Kill 37 Innocents.

Atrocities by Spaniards have just been reported to the Cuban revolutionary party in New York, in a letter from Juan Franco, chief of staff, under Gen. Gomez the commander-in-chief of the insurgent army. It gives details of the capture and recapture of the city of Baire, and the massacre of 37 inoffensive Cubans, mostly women and children, by the Spaniards under Garrido.

The Ohio Wool Growers' association passed resolutions urging the Fifty-fourth congress to pass legislation favorable to wool protection.

Benjamin Sutter, treasurer of Ripley township, Putnam county, O., is missing and his accounts are about \$7,000 short. It is feared he has suicided.

A horrible accident occurred at the State fair grounds at Springfield, Ill. The west tower of the great machinery hall, which is being machined, collapsed and fell in, burying several men beneath its ruins. Two were killed outright and three probably fatally injured.

## Heart Disease Kills

### Dr. Miles' Heart Cure, Cures Heart Disease.

Mr. Geo. L. Smith, of the Geo. L. Smith Mantel Co., Louisville, Ky., writes Feb. 26, 1894: "For about a year I was a terrible sufferer from heart trouble, which got so bad I was obliged to sit up in bed to get my breath. I had to abandon business and could hardly crawl around. My friend, Mr. Julius C. Voght, one of our leading pharmacists, asked me to try Dr. Miles' Heart Cure. I had used little more than a bottle when the pain ceased and palpitations entirely disappeared. I have not had the slightest trouble since, and today I am attending to business as regularly as ever."

A disgraceful affair, disgraceful from every standpoint and to all parties concerned, occurred in Yreka, California, a day or two ago. It was another case of a mob taking the law in its own hands, a thing which is becoming entirely too common an occurrence. At one o'clock in the morning a mob of two hundred and fifty men marched to the county jail, captured four prisoners who were being held for murder, and hanged them. For months past there has been an epidemic of lawlessness in Siskiyou County, which found its climax in this lynching. A number of atrocious crimes have been committed during this period, and the citizens, impatient at the law's delay, took matters in their own hands. We have only to repeat what we have before said of similar affairs: that no matter how awful a crime has been committed a lynching can never be justifiable so long as there is even a feeble administration of law. Therefore, these men who put the prisoners to death are themselves murderers, and should be punished. On the other hand we see too much delay in the punishment of evil-doers. Not infrequently years elapse between the commission of a crime and its punishment, if it ever is punished. This is calculated to exasperate the people, and the result is that few men, hot-headed and wanting in patience, organized a mob and appoint themselves executioners. The only remedy is to make punishment of crime both swift and sure.—Ex.

THERE are some things that try our patience very much. The other day there was a mass-meeting of the school directors of McLean County, Illinois, to consider the Illinois "flag law," a statute which requires that the American flag, the Stars and Stripes, shall be raised over every public school in the state while the school is in session. These directors passed a resolution declaring that "we feel that the flag law is un-American and despotic, and, therefore, protest against its enforcement." Then they appointed a committee to take steps toward testing the constitutionality of the law. It is when brought in contact with such a thing as this that we are forcibly reminded that the English language, though it is the most complete tongue spoken on earth, is, after all, a very imperfect vehicle of thought, and we feel our hearts go out in sympathy to the poet who wrote: "I would that my tongue could utter the thoughts that arise in me." We know, now, how he felt. The flag that stands for all that is highest and best in the social progress of the world, the symbol, which, when first unfurled, sent a thrill of hope to all the slaves and serfs and bondmen of earth, the glorious ensign which the writer never passes without uncovering his head, the emblem which should be, to Americans, second in sacredness only to the cross of Calvary—it is this flag these directors object to place on the little red school-house! We are utterly unable to characterize their action as it deserves.

THE address of the Ohio Wool-Growers Association, just published, was particularly timely. It so happened that only the day before Congressman Dalzell came out in an interview designed, evidently, as a bid for the chairmanship of the committee on ways and means, and for some unaccountable reason he went far out of his way to make it plain that he would not be in favor of trying in this next Congress to take wool out of the free list. Why should he take so much pains to kick a sheep? Is he any such to John Randolph, of Roanoke?

THE Inter Ocean is not in favor of singling out any industry, animal, mechanical, or any other, for special favor or disfavor, but surely there could be no better way to raise a part of the additional revenue necessary to maintain the government than by putting a duty on wool. We do not say, restore any particular line of duties. The McKinley tariff of 1890 may or may not be suited to the condition of affairs in 1896. Six years is a long period in the business growth of a country like the United States. But the duty should be such that wool growing can be carried on with a fair and average profit in such portions of the country as are suited to it. For instance, in Maine the farmers are getting more and more

into raising sheep for the mutton, as is sensible, but the West must look to the wool for a profit.

There are sections of the country where sheep alone can be raised to advantage. The more rugged parts of Ohio belong in this category. There are vast stretches of the Western plains much more suited to sheep than to cattle. The two kinds of animals do not go well together on the same feeding grounds. On the plains their respective areas are distinct. Millions of sheep are feeding today in the wild and almost inaccessible mountains, and thriving, too, where cattle would almost starve.

It is estimated that free wool has reduced the number of sheep in this country from 49,000,000 to 39,000,000. If grub-in-the-head, or some other sheep disease, had killed off that number everybody would have been shocked by the enormous fatality. The Wilson bill put the butcher knife to the throat of these millions of wool bearers, and they went to the shambles as mutton.

The truth is that the flock masters who were in debt for their sheep were obliged to let them go to meet their obligations. Those who were not in debt could hold on in the hope of Republican return to power. All through the West this cutting out of the mortgaged sheep and rounding them up for the market went on last year and the year before. The election of a Democrat Congress and president did the business, largely, without waiting for the Wilson bill. At the present slightly improved prices of wool there is no profit, but the flocks, if paid for, already are perhaps self-sustaining. They should yield some return on the investment.—Inter Ocean.

IF J. Sterling Morton will note the fact that 134,000 baskets of peaches were shipped to Chicago one day this week he may change his notion about the potato being king.

THE marriage of a young couple on wheels going at the rate of ten miles an hour, near Unadilla, N. Y., furnishes an example of trying a fast nuptial knot.

THE fad of ousting mayors seems to be spreading in Wisconsin. No mayor should go to bed at night without taking in his office and putting it under lock and key.

THE declaration by Dr. Hunter McGuire that appendicitis is never caused by swallowing fruit seeds need not deter the fruit growers from raising the usual crop of seedless grapes and seedless oranges.

A bloomer waltz may fill a long-felt want, but we desire to admonish the dancing masters that a dance with no trains for the clumsy young man to step on will be devoid of all interest and attraction.

Michigan Crop Report for September.

For this report correspondents have secured from threshers the results of 4,929 jobs, aggregating more than 76,000 acres of wheat threshed in the State, the yield from which was 962,332 bushels, an average of 12.61 bushels per acre. In the southern counties more than 61,000 acres threshed averaged 12.37 bushels per acre. In the central counties the average is 13.83 bushels, and in the northern counties 11.29 bushels.

The number of bushels of wheat reported marketed by farmers since the August report was published is 702,999. Of this amount 263,195 bushels were marketed before August 1, but not reported until late in August, and 439,804 bushels in August. The amount of wheat reported marketed since the August report was published is 249,804 bushels less than reported for the same time in 1894, and the amount reported marketed in the twelve months ending with July, which is the wheat year for Michigan, is 11,270,799 bushels or 4,180,159 bushels less than marketed in the same months of the previous year.

There are 317 stations in the State from which reports of wheat marketed were received regularly each month during the two years 1893-4 and 1894-5. The amount marketed during the former year was 6,872,583 bushels, and during the latter year 5,287,792 bushels, a decrease of 1,584,791 bushels.

Oats are estimated to yield in the State about 23 bushels, and barley 16.50 bushels per acre. Beans promise 76 per cent; potatoes, 81 per cent; apples, 28 per cent, and peaches, 80 per cent of average crops.

The mean temperature of the State for the month was 67.9 degrees. The mean temperature of the southern four tiers of counties was 70.4 degrees; of the central counties, 66.5; of the northern, 64.8; and of the upper peninsula, 62.4 degrees. Compared with the normal there was a slight excess in each section except the northern.

The average rainfall in the State during the month was 3.09 inches; in the southern counties, 3.35 in.; in the central, 3.14 inches; in the northern, 2.68 inches, and in the upper peninsula, 2.30 inches. Compared with the normal there was an excess in the southern and central counties in the State, and a deficiency in the northern counties and upper peninsula. In the southern part of the State the rainfall after the 22d was nearly three times the amount previous to that date.

ROOM FOR MORE.

THE Y. M. C. A. NIGHT SCHOOL A GOOD THING FOR WORKING BOYS.

Some of the Young Men Who Live Near the City Should Take Advantage of It—There Are Many Farmer Boys Who Cannot Attend College Who Could Derive Much Benefit From These Courses—Instruction Given in Five Branches.

The educational committee of the Y. M. C. A. has not been idle during the past summer. They have arranged five excellent courses for the coming year. There are hundreds of young men in Ann Arbor and vicinity who should take advantage of the opportunity the Y. M. C. A. offers. There are a great many young men who live in the country who could take the studies just as well as not. We believe a large number of them will.

There will be two business courses, two language courses, and one in mechanical drawing. These will be as follows:

Course 1.—Bookkeeping, Business Correspondence, and Business Arithmetic by Prof. D. W. Springer; and penmanship by Mr. Ed. Seyler. There will be 50 lessons of 1 hour each, recitations being held twice a week.

Course 2.—Practical Business Law and Civil Government by T. W. Hughes, consisting of 50 lectures and quizzes, two being given each week.

Course 3.—Conversational German by J. A. C. Hildner, 50 lessons, 1 hour each, twice a week.

Course 4.—English Composition and Spelling, 25 lessons, 1 hour each, one each week.

Course 5.—Mechanical Drawing by Mr. H. J. Soulding, 50 lessons, 1 hour each, twice a week.

The tuition for these courses will be merely nominal, only \$2 being charged members of the association for a course of 50 lessons and \$1 for a course of 25 lessons. The cost of each additional course, after the first, will be only half that of the first one. Young men not members of the Association may take these courses, the cost to them being just double the tuition charged members. Thus a member of the association can take any two of the above courses at a cost of only three cents a lesson.

These courses will begin Oct. 1, and will close during the early part of April. A printed announcement explaining the entire work of the association in detail will be out next week. For further particulars call on or address the general secretary, B. B. Johnson, Y. M. C. A. rooms. Office hours from 7 to 10 every evening.

For God, and Home and Native Land.

Edited by Mrs. A. E. Van Valkenburg, Press Superintendent.

In order to accommodate those attending Conference, there will be a W. C. T. U. business meeting this afternoon at 3 o'clock in the vestibule of the Methodist church.

Miss Willard and Miss Gordon will sail from Southampton, Sept. 21st on the steamer New York.

The uncompromising enforcement of the Sunday closing law in New York has brought the saloon-keepers to submission, and they have announced their readiness to obey the law.

Before the enforcement of the excise law in New York, Sunday was always a busy day in the emergency wards of the hospitals. The most of the cases brought in were men injured in fights in saloons, or by accidents, because being under the influence of liquor they were unable to take care of themselves. Sunday is now the quietest day of the week.

The Pullman company being subject to the law of the state or county through which their cars run, the same as other liquor sellers, it has been decided in a test case in Wyoming that they can be required to take out license for each county through which the cars run. The result has been the stopping of the sale of liquors in all their cars in that state. What has been done there may be done in all licensed states.

Mr. Crittendon, the founder of the Florence Crittendon rescue homes, is about to make a tour of the United States in the interest of these homes. He and his party will travel in his private car, "Good News." He will stop at the large cities from three to ten days where evangelistic services will be held and missions and homes established. Nineteen missions devoted exclusively to the saving of fallen women have been opened through his efforts.

The festivities at Eastnor Castle and Reigate Priory, attendant upon the coming of age of Mr. Somerset, only child and heir of Lady Henry Somerset, and which involved well nigh two thousand guests, were conducted without the use of intoxicating liquors in any form. All honor to Lady Henry Somerset for her staunch adherence to principle, and all honor to the great public that begins to comprehend the reasonableness of women's work to advance the cause of a clear brain and steady hand.

HOW HE BEGAN.

A man was sitting in a saloon with an old battered hat on his head, a short black pipe in his mouth, a dirty shirt and ragged clothes, and down-

trodden shoes on his feet. But he had not always been like that; he had seen better days once. As he looked out of the saloon door he saw two tidy, clean little children come for their father's beer. As soon as they were outside the door the little girl took a drink from the jug, while her little brother waited patiently for his turn. The poor drunkard looked at them very sadly, and then said with a sigh, "Ah, that's how I began, and I cannot leave off now."

THE WAY TO THE POOR-HOUSE.

A physician was walking along a road in the country one day. An old man met him who had a bottle of whiskey sticking out of his pocket. "Is this the way to the poor-house, sir?" asked the old man, pointing in the direction in which he was walking. "No sir," said the physician, "but this is,"—laying his hand on the bottle of whiskey.

From the Adrain Press.

"Where is the money of the country?" screams a financial exchange. Blest if we know, but to clear us of suspicion, we will state that a Webster man with 21 children has been caught saying that he was going to take the "hull family" and his grandmother to the Washtenaw fair."

H. W. Newkirk displays a relic 150 years old in the Savings Bank window. He will give a three month's subscription to the Leader to the person questioning what the relic is.—Dexter Leader. O, he has secured—is it possible!—that early bustle of Susan B. Anthony. Send on your Leader.

Crime is beginning to be punished as it ought to be. In Branch county, a man was fined \$13 for misusing a dog, and an Ann Arbor man had to pay \$2 for whipping his wife.

Sunday bathing has received a set back at Whitmore Lake. The Ann Arbor Courier says: "George H. Winslow's six-year-old boy cut his foot very badly Sunday, while wading in the water. An artery was cut and the little fellow nearly bled to death."

The Argus says in its report of the Whitmore Lake picnic, (when Mr. Peters stopped, on motion of Mr. Waldron, W. Ball was elected president for the ensuing year." And did the silent man stop on motion of Mr. Waldron?

What is virtually the "curfew" ordinance, may be passed at Ann Arbor. An ordinance is offered, to restrain boys under sixteen from running about the streets after 8 o'clock, standard time. Happy would it be if the "curfew" ordinance could be slapped to some of those boys' dads!

It has been discovered at the University that the longitudinal measurement of a diphtheria bacillus is one 25-1000th of an inch long. Wooh! what a critter to meet in the night.

The Grass Lake News cheers its readers with a complete list of those who sleep in the local cemetery. The list fills six columns.

Left a Soft Thing.

"My hair," remarked the bald-headed man, as he rubbed his bare poll in a reminiscent way, "was the most ambitious thing about me." "Ah?" responded his companion, questioningly. "Yes. It always came out on top."

Pain has no show with Dr. Miles' Pain Pills. 444 drugists sell Dr. Miles' Nerve Plasters.

Mrs. E. Fogarty wishes to announce to her lady patrons and friends that she has removed her millinery business to the rooms over the store now occupied by Mr. B. St. James, for many years occupied by Bach, Abel & Co. Mrs. Fogarty will conduct her business in connection with the dry goods business of Mr. St. James. Entrance to her millinery parlors will be through Mr. St. James store. Opening will be September 19.

The well fever has struck Milan and in the last two months there has been over a dozen wells put down. Little Blanch Farrington lost the middle finger on her hand Wednesday p. m. in the gearing of Mr. H. C. Sills, windmill.

The L. O. O. F.'s of the Milan Encampment, and the D. of R.'s gave a pleasant surprise to Past Grand Master J. Sprague and lady, of Ann Arbor, in honor of the 50th anniversary of their wedding. After the Encampment adjourned and had reached the lower hall, the D. of R.'s captured the brothers and invited them into their parlors and from there into their dining hall where a dainty banquet was spread. Mr. and Mrs. J. Sprague were seated in the place of honor at the head of the table, where they were welcomed in a pleasant manner. Mr. D. Hafford in behalf of the brothers and sisters. Rev. J. Ward Stone followed with grace and after the refreshments were partaken of, all adjourned to the parlors where Rev. J. Ward Stone, made a very appropriate address. Mr. D. T. Hafford then followed with interesting remarks. Past Grand Master J. Sprague was then called for and made a neat and fitting little speech thanking the brothers and sisters for their kind efforts in honor of himself and fair lady who had walked by his side in the matrimonial path for the last 50 years. The evening was an enjoyable one and will long be remembered by all of the participants.

SMALLER THAN USUAL

—Billiptian, in fact, are Doctor Pierce's Pleasant Pellets. Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., was the first to introduce a Little Pill to the American people. For all laxative and cathartic purposes these sugar-coated pellets are superior in a great many ways to all mineral waters, sedlitz powders, salts, castor oil, fruit syrups, laxative teas, and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their secondary effect is to keep the liver active and the bowels regular, not to further constipate, as is the case with other pills. They don't interfere in the least with the diet, habits or occupation, and produce no pain, griping or shock to the system. Dr. Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. These "Pellets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the liver, and arousing to activity all the glandular secretions. Thus they act in nature's own way. In proof of their superior excellence, it can be truthfully said, that they are always adopted as a household remedy after the first trial. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are unequalled. They are tiny, sugar-coated granules; any child will readily take them. Once used, always in favor. Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

**AMERICA'S GREAT SCHEME.**

**THE DENVER TIMES SPEAKS OF THE GREAT PECOS VALLEY.**

Thinks It the Greatest Scheme of the Age—Making the Desert to Blossom as the Rose—What Pluck Will do—Something of Interest to the People With Capital—An Opportunity to Double an Investment.

The Denver Times of recent date sent a special correspondent to the famous Pecos Valley to prepare an article for that paper upon the wonderful growth of this great enterprise. The substance of the article is as follows: "Seven years ago R. W. Tansill, whose make of cigars are known the world over, was obliged to give up his business, on account of overwork, and go west. He first went to Colorado. Among the numerous subjects which here claimed his interest, the first and most important place was given to that vast reclamation enterprise which during late years has made the Pecos Valley known throughout the United States and in many parts of the old world. Visiting southeastern New Mexico in the fall of 1888, and traveling hundreds of miles by wagon through the valley where as yet were only the beginnings of development, he was fascinated by the possibilities which lay in those vast stretches of fertile land and in the abundant supplies of water for its irrigation then finding unused to the sea. From that time till the present day his interest in the Pecos Valley has been an active and aggressive one. These seven years have sufficed to establish in this valley—through the splendid leadership of Mr. J. J. Hagerman, who early became interested in the undertaking, and has since been at its head—the largest irrigation enterprise in America, and one of the greatest in the world. Upward of \$4,000,000 have been expended in vast irrigation works, with reservoirs impounding a total of 50,000,000 gallons of water and a network of main canals and laterals aggregating 1,200 miles in length; in 164 miles of standard-gauge railway extending through the valley's entire length; in the establishment of numerous towns and villages; in the setting in motion of the multitude of forces and agencies there are engaged in bringing civilization into the desert. Here 400,000 acres of land will ultimately be reclaimed, and 10,000 families will be provided with homes and an opportunity to achieve industrial independence. Fully 80,000 acres have already been settled upon, and the settlers are profitably engaged in raising the standard crops of the temperate and semi-tropical zones, together with fruits which are disputing for the pre-eminence with those grown in the most favored sections of our land. The valley, which seven years ago was an unbroken, barren plain, practically uninhabited, is to-day dotted with farms, orchards and vineyards, while towns and villages are springing up in many places, in which, the foundations of prosperous communities are being securely laid. The Pecos Valley is likewise destined to become one of the most prominent sanitarium centers of the Rocky Mountain region, for it combines pre-eminently favorable climatic conditions with opportunities for profitable occupation not elsewhere to be found.

But Mr. Tansill's active business habits forbade his being a mere on-looker, however interested a one, in this great work of development. Among his extensive holdings in the valley was a tract of 640 acres of land in a solid body, and about four years ago he entered upon the improvement of this property with the sole object of demonstrating what could be accomplished in farming and stock raising in the Pecos Valley by the use of the most approved methods.  
A brief description of the model stock farm, for such it is, will be of interest. It is situated near the center of the Pecos Valley. The altitude of this part of the valley is 3,200 feet, an altitude which, combined with its southern latitude, gives it a most delightful all-year-round climate, adapted to the cure or alleviation of a wide range of chronic ills, particularly of that dread foe of the human race, consumption. The land lies beautifully for irrigation and is all under cultivation. About 400 acres are in alfalfa, of which from five to six tons per acre are raised yearly and which can be put in stock at a cost of \$1.00 per ton. Twenty acres are in orchard, set principally to apples, which are a superb crop in the valley and five acres are in vineyard, the remainder being in general crops, principally corn. In this arrangement of products, as well as in the planning of the entire establishment, the main purpose of the farm is had in view, which is the raising of cattle, horses and hogs. Hog raising is a very profitable industry in the Pecos Valley, and the Tansill farm is fully equipped to conduct it on an extensive scale. With the abundant alfalfa and cheap corn of the Pecos Valley hogs can be raised and fattened at a cost not to exceed 1 1/2 cents per pound. Since cholera is unknown the stock raiser does not need to be assured that hogs are a highly profitable crop in the valley.  
The water system of the farm is worthy of extended notice. From a

well 165 feet deep is obtained an inexhaustible supply of most excellent water. This is pumped by a fourteen foot windmill to a large tank in a tower, whence it is piped to all the buildings, pens and corrals. In addition there has recently been completed a 200-barrel cistern, to which pipes extended from the barr roof, so that the farm need never be without an ample supply of pure rainwater.  
I have dwelt at length upon this Pecos Valley farm because it has seemed well worthy of careful description. It is a notable piece of work, a worthy achievement of a man with whom success has become a habit. Unless I greatly mistake, this model stock farm, while an inspiration and an example to the Valley farmers, will bring its owner ample material returns for his labor and investment, as it has already brought to him the blessing of restored health.

Told at Newport.  
That Lady Alva Vanderbilt has the prettiest foot at Newport. She wears a No. 2.

That the Willie K. faction are mean enough to say that she isn't a bit averse to showing it encased in the sweetest and prankiest of French boots, when she mounts her wheel.

That Miss Consuelo Vanderbilt inherits the tiny foot and beautiful Andalusian instep of her mother, the erstwhile Moblie belle.

That this daughter of the famous nouse is a picture fair to see in her white satin ball dress, with fairy slippers to match, embroidered with seed pearls.

That the other Vanderbilt women all have aristocratic feet, molded on Trilby lines—long and daintily slender.

That drawn work is the fashionable craze of the hour, and that Miss Gertrude Vanderbilt excels all the fair maids of the 180 in this dainty needlecraft.

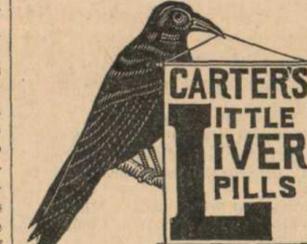

An Autumn Suggestion.

The library can be done in red, red matting covering the floor, upon which are spread great rugs in brilliant colorings. A long reclining chair of Chinese pattern, one or two easy chairs, a settee and a table, all of the same make, are almost all that are necessary to comfort; upon the settee or lounge are piled cushions of gayly-striped Madagascan grass, Turkey-red or Bagdad cushions, and those of India cotton embroidered in tinsel.

"In the interest of the masses, for whom these reports are compiled, the United States Health Reports have examined and investigated many preparations having for their object the cure of the tobacco habit, but among them all we have no hesitancy in giving the editorial and official endorsement of these Reports to the remedy known as "Uncle Sam's Tobacco Cure," manufactured by the Keystone Remedy Company, at 218 La Salle Street, Chicago. We have demonstrated by personal tests that this antidote positively destroys the taste and desire for tobacco in ten days, leaving the system in a perfectly healthy condition, and the person using the same forever free from the habit.

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year; ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

INTERESTING CHRONICLE OF GENERAL NEWS MATTERS.

Thirty-three Miners Entombed by Fire In the Osceola Copper Mine at Calumet, Mich. - No Hopes of Their Rescue Alive - Indications Suggest Incendiaries.

Thirty-three Miners Killed.

The Osceola copper mine at Calumet caught fire, and 33 miners were imprisoned far below the surface of the earth. There was little hope of their escape, and in all likelihood most, if not all of them, were dead within a few hours. The fire started in No. 3 shaft, and investigation showed that the blaze commenced at the twenty-seventh level. This shaft contained more woodwork than any other shaft of the Osceola mine and this, together with the fact that the blaze started in spot where it was scarcely possible for it to be accidental leads many to believe that some fiend started the fire in order to cripple the mine.

Something over 200 men were at work on the day shift when the fire was discovered. Of this number the greater portion escaped in safety, although some of the men who were last to reach the surface climbed out of the other shafts on ladders and in a fainting condition. A number were half carried out by their companions. Rescuing parties were sent down the other shafts but without avail and escaped themselves with difficulty. It was judged impossible to quench the fire by ordinary means, and the buildings at the mouth of the shaft were torn down and heavy timbers placed across the mouth, over which dirt was thrown and closely packed. This work was very difficult because of the great volume of smoke pouring out. As the natural vent was stopped, the smoke and hot air forced its way along the connecting drifts to the main mine, and soon began to emerge from them in great clouds. It was now out of question to enter the mine through any shaft connecting with the main workings. The person attempting it would be suffocated before he had descended fifty feet, it will be impossible to enter the mine until the fire has burned out which will require several days. The Osceola fortunately has a smaller amount of timbering underground than almost any other copper mine in the district, using very little wood except in the shafts. The outlook for the 33 missing men is now most gloomy. It is probable that most if not all of them were overcome by the smoke while attempting to fight their way out of the mine. If they are on any level above the twenty-seventh it is certain that they are dead. If, however, all or a portion of the number descended to the levels below the twenty-seventh they are doubtless still alive. If they are still living they can survive in the lower levels for several days. The scene about the mouth of the shafts beggared description. Wives and children of the unlucky miners, fathers and mothers of the poor little drill boys, relatives and friends, are crowded about, weeping and wailing. No blame can be attached to the mine owners or managers.

Boston's Masonic Temple Burned. Boston's Masonic temple is the scene of desolation and destruction wrought by fire, which gutted the two upper stories. The loss is estimated at \$400,000. All of the regalia of the Scottish Rites, one of the most expensive outfits in the Masonic order, was destroyed, and the Gothic hall, Egyptian hall and red rooms, with their valuable tapestries and furnishings, were ruined. The are 26 lodges and commanderies which meet in the temple, and all of them will sustain some loss. Several accidents occurred during the fire. District Chief Regan was carried by the falling roof 30 feet, sustaining a broken leg and injuries to his head, and severe internal injuries. Lieutenant Madden's skull was fractured. Fireman James Downey was struck on the head by a piece of slate.

600 Pounds of Dynamite - Five Killed. Edward Lathshaw, a government contractor on Mississippi river improvement, had 600 pounds of dynamite stored in the cellar of his house at Specht's Ferry, Ia. His son, while practicing with a revolver, missed the target, the bullet entering the cellar and firing the dynamite. The house was blown to splinters and five persons were killed, including Lathshaw, his wife and two children and a friend. Three other persons were probably fatally injured. The report of the explosion was heard 12 miles away.

Sioux Indians Prepare for Bloodshed. The Sioux Indians at the Rosebud (S. D.) agency, under the leadership of Hollow Horn Bear, have warned Indian Agent Wright and the agency employes to vacate the agency, and they make threats to burn the buildings. The Indians became enraged because the agent reduced the rates paid them for hauling freight from Valentine, Neb., to the agency. The Indians sent out runners to distant camps and about 3,000 angry and excited Indians gathered about the agency. Settlers are becoming very uneasy.

Alleged Crooked Officials at Toledo. Last February the common council of Toledo appropriated \$4,000 for the investigation of the various city departments and expert accountants were set to work. They state that they have discovered a den of official rotteness and corruption that promises to be a big sensation. Discrepancies to the amount of \$7,000 have already been discovered.

Five employes of the Providence (R. I.) Gas Co., went to their death in cellar of the West field street gas holder, asphyxiation by gas being the cause. For several days leaking gas had been detected in the holder and the six men went to repair the leak, which proved to come from a defective valve. The men disconnected it and tied a cloth bag about the large main extending in from the street, when the bag gave way and an immense volume of gas rushed out. In less time than it takes to tell it, all were overcome with the exception of one, who managed to grope up the stairs, where the fresh air enabled him to recover.

CUBA AS A REPUBLIC.

The Insurgents Form a Government with a Capital at Nagasa.

Havana: The meeting of insurgent delegates at Nagasa proclaimed a constitution for the republic on a federal basis of five states. They also elected the Marquis of Santa Lucia president and appointed various officers, as well as confirming the nominations of Antonio Maceo to be general commanding in Santiago de Cuba, Maximo Gomez in Puerto Principe and Roloff in Santa Clara. Nagasa was proclaimed as the provisional federal capital. A resolution was adopted permitting farmers to sell their produce in the towns on the payment of 25 per cent ad valorem duty. A proposal to proclaim Maceo dictator of Cuba was discussed for six days and was finally withdrawn. The autonomist party intend to petition Spain for self-government on Canadian lines. It is stated that Gomez is inclined to accept conditional autonomy, but Maceo declines any compromise. The Spaniard residents in Havana have decided to form a volunteer guard to defend the city in case of need. A company of Cubans, under sentence of imprisonment in the fortress of Centa, Morocco, for rebellion, were deported on board the steamer Cataluna. Three are under sentence of life imprisonment, and 10 are condemned to 20 years.

Numerous dispatches are being received from Cuba which tell of skirmishes between the Spaniards and the rebels but no decisive engagements have been fought recently.

Michigan's Foreign Population Increasing.

Secretary of State Gardner has issued advance sheets of a bulletin showing the parent-nativity of the inhabitants of Michigan, July, 1894. Of the total population 1,670,786 were native, and 570,855 foreign born. Of the native inhabitants 850,198, or 50.89 per cent, were males, while of the foreign inhabitants 310,343, or 54.36 per cent, were males. The number whose parents are both native is 41.92 per cent, the number whose parents are both foreign-born 46.20 per cent, and the number whose parents are one native and the other foreign-born is 11.88 per cent of the total number reported. The number of inhabitants with native parents, to each 1,000 of population, was 172 less in 1894 than in 1870. In each 1,000 inhabitants, the total of foreign parentage was 412 in 1870, 547 in 1890, and 584 in 1894. Comparing the state by sections, in each 1,000 inhabitants, the number whose parents are both native is, in the southern section, 498; central, 365; northern, 353; upper peninsula, 313. The number whose parents are both foreign is, in the southern counties, 390 to each 1,000; central, 493; northern, 514; upper peninsula, 793.

36 Vessels Sank - Hundreds Drowned.

Advices have been received of a destructive typhoon of unusual fury which spent its strength at Kuebinotsu, Japan. All foreign ships in the harbor were blown on shore. Thirty-six vessels became total wrecks and the crews were all drowned. The wreck age pounded to death hundreds of men, women and children clinging to the floating parts of vessels. The loss of life was enormous. The crew of an American steamer spent a day in rescuing the drowning. The damage done by floods in Gifu prefecture, Japan, is very alarming. Over 600 villages suffered, 1,399 bridges were washed away, 20 people drowned and 22,226 persons received relief.

REVIEW OF TRADE.

Dun's says: There is no real reaction in business. Gains which were recognized as temporary are vanishing but there remains a decided increase over last year at date, although prices for raw materials are lower than last year. It needs no keen observer to see that the reaction against rapid advance of prices is strong. Prices were the first to raise, but a decided break has come and other products are following. Wheat jumped over 2 c to 3 c, but is now slow of sale below 6 c. Wool was late in rising, but has lost about an eighth of a cent in average prices within the past fortnight. Iron still rises, the Michigan miners strike having hindered shipments of ore. But the quality and price of iron ore begins to move. Cotton is strong but has paused. The general tendency to curtail purchases where prices have notably advanced grows clearer in boots and shoes, in wool and in some products of iron. Copper is also a shade weaker with large supplies. In the boot and shoe industry many shops are discharging hands and in woolen manufacture a few workers are closing for want of orders. The cotton manufacturing has raised cotton and a strong market to help, but there is a chance of a great strike for higher wages. The brightest feature in all the horizon is the certainty that the crop of corn will be enormous. Frosts now can only affect a small fraction and the surplus will go into the manufacture of meal, because at the present low price there is no other profitable use for corn. The latest reports of wheat thrashing induced the best western judges to raise their estimate of yield, and with the great amount left over the supply will exceed all probable demands.

Germany celebrated the battle of Sedan with imposing parades and aeromonies at Berlin. Two score American veterans of the Franco-German war were given the place of honor in the parade and were greeted individually by Emperor William.

The London Chronicle says that advices received from St. Petersburg are to the effect that Russian police have discovered a wide-spread plot against the life of the czar and other members of the imperial family. Some of the leaders were quietly arrested. Bombs, arms and revolutionary pamphlets have been seized by the police of Moscow.

Examinations for Teachers.

The examination of teachers of Washtenaw County for the ensuing year will be held as follows:

Regular examinations for all grades at Ann Arbor, the third Thursday of August 1895, and the last Thursday of March 1896.

Regular examination for second and third grades, at Ann Arbor the third Thursday of October, 1895, and on the third Thursday of June, 1896.

Special examination for third grade, at Manchester, the third Friday of September 1895.

A GREAT EXPENSE

To Carry on an Almost Helpless Fight. - At Last the Fight is Over.

(From the Battle Creek Moon.)

Our representative called at 26 Battle Creek Avenue, the residence of S. I. Robbins, and in an interview with him brought out the following facts: Mr. Robbins tells of his wife's experience in a manner that carries conviction with his words. He says: "I am sorry my wife is not at home this P. M., but no one knows better than I how she has suffered during past years. For twenty years she has been afflicted with the various forms of kidney complaint and an enlargement of the liver. She was often confined to her bed for more than two weeks at a time suffering untold agony. She has doctored constantly, and I have paid out in doctors' bills for her alone as much as \$900.00, and then her relief was only such that she would be able to be around for a spell. Some time ago she felt the symptoms of another attack coming on, such as a pain in through the kidneys and back. I hardly know what induced me to get a box of Doan's Kidney Pills, instead of sending for the family physician; however, I got some and she commenced their use. It was a surprise to us both to see their action; the attack was warded off, and she continued taking them with marked improvement each day of their use. She is better now than she has been in years, the pain in the back and others in the kidneys have entirely gone. Hardly a day goes by that we do not mention the great good Doan's Kidney Pills have done her. I was always opposed to patent medicines, but confess that my wife's experience with Doan's Kidney Pills has done much to change my opinions. If it were not for those pills she would not have been able to be out this afternoon. Doan's Kidney Pills for sale by all dealers - price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. FALL TERM

OF THE

School

OF

Shorthand.

WILL OPEN

MONDAY, SEPTEMBER 9th.

The school offers splendid opportunities for young men and women to fit themselves to fill important positions for which good salaries are paid. The old story that there are more stenographers than positions is utterly false. It is true that there are many young people who have only half fitted themselves for work who have attempted to hold a position and, of course, failed, and who cannot therefore, get another place. For those who have had the perseverance to thoroughly prepare themselves there are always plenty of openings.

We Will Not

allow a pupil to begin the course unless we believe he is able to make a success of it, if he will. All of our

Teachers Are Thoroughly Competent

to fit any student who is willing to work to hold a lucrative position. We frequently have calls from business and professional men for

Competent Amanuenses.

During the past year we have not been able to supply all the demands we have had for stenographers. Pupils from our school are holding some of the

Best Positions in the United States.

We make a special effort to assist all of our graduates to secure good situations.

Come and see us or write for large catalogue giving full information about our school, cost of tuition, living expenses in Ann Arbor, etc.

Remember That although our fall term opens September 9th. Students may enter at any time, as our school is in session all the year throughs

Begin Now for the reason that the sooner you begin the sooner will you be able to complete the course and begin to earn a good salary.

For full particulars call upon or address,

O. E. WAGNER, Prin.

John Johnson, a farmer living near Mooreville went to Ypsilanti last Friday. Soon after he arrived there he became unconscious and did not know what he was doing or where he was until Sunday when he came to his senses in Bellville. He had evidently been drugged. Part of the time while he was unconscious he was in Ann Arbor.

There is no crop in which farmers ought to be more interested than the children crop, the yield of which they say is not lessened by dry weather. The county fair is not going to be slow to take advantage of such a reliable exhibit. If you want to see what a hustling lot of little fellows there are sprouting up all over Washtenaw County come to the fair on school day, Wednesday, Sept 25.

The annual election of Ann Arbor Chapter, No. 122, O. E. S., was held last Wednesday evening. The following were elected to serve for the coming year: Worthy matron, Mrs. Mable K. Pond; worthy patron, Chas. B. Davison; associate matron, Mrs. Kate Doty; secretary, Mrs. C. E. Fitzgerald; treasurer, Mrs. L. Mae Nichols; conductress, Mrs. Matilda Granger; assistant conductress, Mrs. Minnie Adams.

It is understood that the policy of the Detroit Tribune is to be more bitterly opposed to the University than ever this coming year, and that the Ann Arbor correspondence must flavor of everything that is sensational. This is the rumor here, we can not vouch for its truth, but the people of Ann Arbor are thoroughly convinced that such is the fact, and it is very much regretted.—Courier.

Must be some cause for this state of things. Wonder if it would not be a good idea to ascertain what it is, and, if possible, remove it?

### GRAND OPERA HOUSE. Monday Night Sept. 16.

Si Plunkard carries Oldtown by storm—good play, good house. The "Si Plunkard" comedy company having at its head Mr. J. C. Lewis, played last night to a crowded house in Oldtown. It is a play of Yankee type, and from beginning to end had the close attention of the audience, and from the frequent interruption by loud and prolonged applause one would say that the play carried the house by storm. The threshing machine in full operation on the stage was well carried out. The whistling by Mr. Lewis was worthy of special mention.—Oldtown, Maine, News, Aug. 19.

### SAFE BLOWN OPEN.

Burglars entered the store of Ald. C. A. Maynard on State-st. last night and blew open his safe. Patrolman Isbell happened to be in the neighborhood at the time and at once rushed to the store in time to see two burglars disappear in the rear. No money was secured. The safe was ruined.

LITERARY NOTES.

Among the many valuable articles in the September Ladies' Home Journal may be found the following: Dr. Parkhurst's Early Training; Cultivate Your Child's Teacher; Conversation at the Dinner Table; Etiquette of Wedding Presents; The Child's Mind; Etiquette for Church Weddings; The Axis of Character; Planting Lillies in the Fall; The Duty of the State; DeKoven; Value of a Becoming Bonnet; How to Make a Mustard Plaster; New Dress Goods, and Winter Window Gardens; Any number of this Journal is worth as much as an entire year's subscription will cost.—Curtis Publishing Company, Philadelphia, Pa.

The Review of Reviews for September is as usual brim full of the pith of what is going on all over the world. Some of the leading articles are: The Catholic Temperance Convention; An Unbecoming Business; The New French Liquor Monopoly; Russia's Abolition of Private Saloons; The Ups and Downs of Foreign Missions; The Cuban Conflict; The Elections in New South Wales; The Poster in Politics; The Tosla "Oscillator"; Industrial Niagara; Power Transmission by Electricity; Wind as a Motive Power; Wind Wheel; The Value of Weather Forecast to Agricultural; Loss by Fires. The Review of Reviews is the magazine of all magazines for the busy man. \$2.50 per year.—Review of Reviews, N. Y. City, N. Y.

The Atlantic Monthly for September contains the first installment of a three-part story, by Charles Egbert Craddock, entitled The Mystery of Witch-Face Mountain. The second of Dr. John Fiske's historical papers has for a subject, John Smith in Virginia, in which he reopens vigorously the discussions in regard to this interesting character.

Bradford Torrey contributes another Tennessee sketch, Chickamauga, which will be of interest in view of this summer's memorable gathering at Lookout Mountain.

Among other features are, Guides: A Protest, by Agnes Repplier, important book reviews, and the Contributors' Club.—The Atlantic Monthly, Boston, Mass.

A second and concluding article on Apparatus for Extinguishing Fires, by John G. Morse, will be printed in The Popular Science Monthly for September. Water-towers, hose and hose fittings, ladders, etc., will be considered in this article, which like its predecessor, is to be copiously illustrated. The Closing Struggle in the advance of the higher criticism will be described by Dr. Andrew D. White in the September Popular Science Monthly. The question whether a child is naturally moral or immoral will be taken up by Prof. James Sully. The article will be devoted to Primitive Egoism and Altruism, and will show that many of a child's acts that seem perverse or cruel are explained when we try to look at things from the child's personal standpoint.—D. Appleton & Co., N. Y. City, N. Y.

Divorce in France. Divorce has been legal in France now or eight years. The first year the number granted was 1,700; the second, 4,000; in 1894 it was 8,000. The total for eight years is 40,000. The working classes supply the largest proportion, 47 per cent; the peasants the smallest, 1 per cent.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Belle Boyd the Spy. Belle Boyd, known as the "rebel spy," is making a tour of the south. She is described as being dramatic in her style, with eyes expressing a daring disposition and with an abundance of light auburn hair, which hangs over her brow. She is as piquant and vivacious at fifty-one as she was at sweet sixteen, when she entered the "service."

300 Russians Killed by Nihilists. An explosion occurred at the Artillery barracks at Tula, capital of the government of that name, in Russia. Three hundred persons are said to have been killed, including many officers. The barracks are a heap of ruins. An examination into the cause of the explosion led to the discovery that the barracks had been undermined everywhere. Many arrests have been made of persons suspected of being implicated in the outrage, which is supposed to have been the work of nihilists.

George Boyle was killed in a sewer cavern at Belding.

Pleasant to take, positive and instant in its results, in fact, the best cough medicine in the world, Dr. Wood's Norway Pine Syrup.

How to Get Rid of Weeds. An observing man who has noticed now wormwood and pigweed and dock and all the rest of their unwelcome brethren flourished undisturbed by squash bugs and aphids and cut-worms and all the rest, sees but one way to escape the constant warfare that the agriculturist now has to continually wage. We must learn to eat weeds.

ENGLAND ONLY HALF CRAZY

Wheeling Not So Much of a Fad Abroad as It Is in the United States. "Bicycling is not nearly so much of a craze in England as here; and the reason therefor, as I figured it out after much interested investigation, is illustrative of a notable difference between the United States and England in athletic and sporting matters," said a wheelman just returned from a transatlantic trip to a New York Sun reporter. "Because of the superb roads to be found in every part of England I expected to find the country simply overrun with bicyclists. But I didn't. Of course there are bicyclists to be met all over the land, but I soon learned that the sport had by no means the general hold on the people disposed to exercise or athletics that it has here. It has taken a comparatively greater hold upon the women than the men which is entirely consistent with my theory. Here in the United States the growth of bicycling has meant very largely the growth of the habit of taking exercise. We do not go into sports actively, as the English do. We, as a people, don't play baseball, football, or any other athletic game. We are mightily interested in sports, but mostly in seeing professionals at play in them. Of the twenty thousand people who go to see the three or four big football games in a year, how many play football? How many of the ten thousand or more cranks who watch the paid baseball nines ever play the game themselves? Now in England there are actually dozens of football and cricket clubs in every town, and every village and hamlet has its team. They play cricket all summer and football all winter. Every fine evening and every Saturday afternoon every bit of turl near a town or village is covered with players of some game or another. Sport is a profession here; a pastime there. Here the mass of the people are interested as spectators; there as participants. Bicycling is there only an alternative means of exercise and amusement; here it is practically the one form of athletics that the whole people have taken to. It's a mighty good thing that something has turned up at last to turn the attention of the nation to healthful exercise and athletics. The bicycle fad will wane after a while, for it isn't an ideal sport, although in many ways an attractive one. But other popular outdoor sport will follow in its wake, and I imagine the bicycle craze will figure as the beginning of an important era in American history."

An Indian Sea Serpent Legend. The red men of the west have many curious legends concerning the rivers, lakes and mountains of that region, none more weird than that which is told concerning Rock Lake, Washington. Since time out of memory the Indian tribes of that vicinity have believed the lake to be inhabited by a sea monster, which never grows old, and whose chief diet is Indian flesh. According to the legend, no Indian ever entered its waters and returned therefrom alive, no matter whether the rash act was committed by approaching its margin for a drink, for a plunge and a swim, or for a canoe ride upon its placid bosom. All of the Indians of the northwest know of the terrors of Rock Lake, and each and every one would prefer death than to touch its waters. The last Rock Lake horror, according to the legend, was in 1858, when a whole band of noble red men were sent to the happy hunting grounds by the monster.—St. Louis Republic.

Marrying on \$50 a Month. Yesterday a young man asked me if it would be safe for him to marry on \$500 and a salary of \$50 per month. I told him I could tell better when I saw the girl. There are girls who have grown up in ease and who have kicked great black and blue welts in the lap of luxury, yet who are more ready and willing to accept a little rough weather than the poor girl who has stood for eighteen years looking out through the soiled window of life waiting for the rain to rinse it off and let the sunlight through that she might see her approaching lord.—Bill Nye.

A Musical Language. Americans who go to Italy to be educated in music have a great advantage—if they master the Italian language and study its melodies. Otherwise they have none. The whole secret of the musical nature of the Italian people lies in the musical nature of the Italian language. No one can speak it habitually without becoming unconsciously educated in the laws of melody which underlie all music.

Life Insurance in Kansas. Not one life insurance company is now doing business in Kansas. The statutory conditions are so onerous that all have withdrawn. The State Banking Life association, of Des Moines, Iowa, was the last and only one in the field, and it has just permitted its license to lapse rather than file a \$50,000 bond and make a deposit with the state treasurer of 10 per cent of all assessments.

Coffin on a Trolley Car. An unusual sight was witnessed on a Brooklyn trolley car heading toward a cemetery. An employe of a well-known undertaker was seen carrying the body of a baby in a coffin, which was wrapped in a blanket, on the car. There was considerable excitement among the passengers for a while, but no attempt on the part of the conductor was made to collect an additional fare. This is the cheapest funeral on record.

Worth a Contest. Caller—I wish to contest my uncle's will. Lawyer—Is the estate worth it? Caller—He left \$100,000. Lawyer—Let me see. That's \$50,000 for me, and \$50,000 for the lawyer on the other side. Yes, it's worth it.

It's a Grand Success.

The fact has been demonstrated by the thousands of testimonials the Mayers Drug Company, of Oakland, Md., has received since it has sent its famous Mayers Magnetic Catarrh Cure out to the sufferers of catarrh. No medicine has received such an endorsement from the people in so short a time as it did. The makers sell the medicine on business principles, and a patient is not required to buy the medicine by the dozen to get a cure. The Mayers' Magnetic Catarrh Cure sells for \$1 per bottle, one bottle to last for a three months treatment. Three bottles is the highest order required to complete a cure. General catarrh one bottle is guaranteed. No cure no pay.

This is an unequalled offer and if you are a sufferer from catarrh get a bottle from your druggist, if no benefit derived costs you nothing. A prominent R. R. conductor speaks:

Cumberland, Md., April 29th, 1893. To The Mayers Drug Co., Gentlemen:—Yours to hand, in reply will say that I have the highest regard for your Catarrh Remedy, my trouble is in a chronic form and expected to use more than one bottle. I used one bottle which removed the trouble from the head in good shape and am on the second bottle for throat trouble, I'd should succeed with the latter as I did in the former. I shall write you again in the near future. Hoping it will do for the suffering humanity what it did for me, I remain Yours truly, G. J. Schmutz.

The Baldwin Apple.

The people of North Woburn, Del., are raising money to erect a monument in Wilmington in honor of the Baldwin apple. On the monument will be the following inscription: "This pillar, erected in 1895 by the Rumford Historical association, marks the estate where, in 1793, Samuel Thompson, Esq., while locating the line of the Middlesex canal, discovered the first Pecker apple, later named the Baldwin. Exact spot, 250 feet west, 10 degrees north."

It was called the Pecker apple because of the great number of woodpeckers around the tree when discovered. Samuel Thompson and his brother Abijah grafted a large number of trees from the Pecker tree. Col. Loamiz Baldwin, the well-known engineer, did a great deal to make these grafts celebrated, and the apple was therefore called after him.

The Liar's Club.

There is an eccentric hen in Hopkins, Kan., which persists in going each day to the top of a tall cottonwood tree in the yard to lay. The Journal says the children stand under the tree with their aprons spread, to "catch the precious missile as it falls." A man in Saco, Maine, recently had a terrific fight with a monster mud turtle. When it finally succumbed to his prowess and to a fence stake, he found that it weighed thirty-two pounds. In the same remarkable state a fox trap was recently found, which, though set sixty years before, was in a good state of preservation. Maine is such a dry state, it had scarcely rusted at all.

About French Journalism.

The following, says the New York Sun, is the explanation given by the Paris correspondent of the Independence Belge for not sending to that paper an account of a garden party at the residence of President Faure: "I must say a word, even if a day late, about the charming fete given yesterday at the Elysee by Mme. Felix Faure. I was there and I stayed there; that is the reason why I could not send any account of the function. That is my only excuse, and it is the strongest proof of the charm of the evening which we all passed there."

R. C. Joiner, Allen P. O., Hillsdale Co., Mich., says: "Nothing gave my rheumatism such quick relief as Dr. Thomas' Electric Oil."

Some Wholesome Perfumes.

A French naturalist has discovered that many perfumes are not only harmless, but actually of value to health. He demonstrates this fact by the results of an experiment, whereby he exposed a number of disease microbes to the action of various essential oils distilled from flowers and plants. Bitter almonds, wallflowers, thyme, lemon and mint proved extremely deadly, while lavender ranked higher than either eucalyptus, turpentine or camphor.

Fast Railway Time in England. Arrangements have been completed for running, beginning next month, a train to be known as the American Special Express. It will make the run from London to Liverpool, 201 miles, in 3 hours and 50 minutes, and, north-bound, will make close connections with the transatlantic steamers. The train will make no stops and its schedule time will be 45 minutes faster than that of other express trains between the two cities.

Irrelevant.

"What do you know about gold and silver?" asked the young farmer of the irrelevant youth. "You are too young to understand anything about the coinage question."

"Oh, of course," jeered the youth, "I guess I am too young to be a safe man to sell a gold brick to." The allusion was painfully personal.—Indianapolis Journal.

Butter and Cheese in Japan.

The ordinary native of Japan knows nothing of butter and cheese, and the only place in the empire where they are made is Sapporo, a town in Yezo, built entirely on American models by a director general from this country. The town is laid out in squares, according to the American idea, and contains an American brewery.

The Incomparable Chicago & Alton

In these United States of America at least, and it is highly probable that throughout the entire world, the official record for the safety and welfare of its passengers made and maintained by the Chicago & Alton Railroad cannot be surpassed if indeed it can be equalled.

Over its completely rock-ballasted, dustless roadway between Chicago and Kansas City, Chicago and St. Louis and St. Louis and Kansas City, eighteen magnificent appointed express trains are run on uniformly fast time every day. But in spite of this heavy passenger traffic the official records show that from December 4, 1879 to December 4, 1890, eleven years, there was no passenger, killed on Chicago & Alton trains. Moreover there was not a passenger seriously injured, to the extent of losing a limb, an eye or a member of any kind during that time.

During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four-fold, and special excursion trains were very many, there was not an accident of any kind—a most remarkable record.

Besides being America's most popular railroad, the Chicago & Alton is the Pioneer Dining Car Line, the Pioneer Pullman Sleeping Car Line and the Pioneer Palace Reclining Chair Car Line.

Be sure that your ticket reads over the Chicago & Alton Railroad, when its matchless and direct lines can form the whole, or even a part of your journey. JAMES CHARLTON, General Passenger and Ticket Agent, Chicago, Ill.

Notice to Creditors.

STATE OF MICHIGAN, COUNTY OF WASHTENAW. Notice is hereby given, that by an order of the Probate Court for the County of Washtenaw made on the 3d day of September, A. D. 1895, six months from that date were allowed for creditors to present their claims against the estate of Malley Geiston, late of said county, deceased, and that all creditors of said deceased are required to present their claims to said probate court, at the probate office in the city of Ann Arbor, for examination and allowance, on or before the 3d day of March next, and that such claims will be heard before said court, on the 3rd day of December, and on the 3rd day of March next, at ten o'clock in the forenoon of each of said days. Dated, Ann Arbor, September 3rd, A. D. 1895. J. WILLARD BABBITT, Judge of Probate.

Mortgage Sale.

Default having been made in the Conditions of a certain Mortgage made by Louisa S. J. Johnson to the Ann Arbor Savings Bank dated the 5th day of March 1891 and recorded in the office of the Register of Deeds for Washtenaw County, Michigan, on the 6th day of March, 1891, in Liber 76 of mortgages on page 220 on which mortgage there is claimed to be due at the date of this notice the sum of seven hundred and six dollars and eighty cents (\$768.80) and an attorney fee of twenty-five dollars provided for in said mortgages and no suit at law or proceedings in equity having been instituted to recover the money secured by said mortgage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, notice is hereby given that on Friday the first day of November 1895 at ten o'clock in the forenoon the said Bank will sell to the highest bidder at public auction at the east front door of the Court House in the city of Ann Arbor (that being the place where the circuit court for said county is holden) the premises described in said mortgage or so much as may be necessary to pay the amount due on said mortgage and the expense of this foreclosure. The premises to be sold being described as a part of lots 100 and 101 of R. S. Smith's third addition to said city of Ann Arbor fronting 66 feet on Observatory-st. and extending west on the north end of said lots 110 feet. The premises herein described being bounded east by Observatory-st. north by Volland-st. west by a line parallel to Observatory-st. and 110 feet therefrom and south by a line parallel to Volland-st. and 66 feet therefrom.

Mortgage Sale.

Default having been made in the conditions of payment of a certain mortgage made on the 13th day of May A. D. 1891 by John Pfisterer and Mary his wife, to The Farmers and Mechanics Bank; whereby the power of sale therein contained has become operative which mortgage was recorded in the office of the Register of Deeds in the County of Washtenaw on the 13th day of May aforesaid, in Liber 76 of Mortgages on page 273 and on which said mortgage there is claimed to be due at the date of this notice the sum of thirteen hundred and seventy-five dollars and no proceedings at law or in equity having been instituted to collect the said sum of money or any part thereof. Now Therefore Notice is hereby given that on the 2d day of November 1895, at eleven o'clock, a. m. at the south front door of the Court House, in the City of Ann Arbor, State of Michigan, the said mortgage will be foreclosed and the lands and tenants in the said mortgage mentioned and described will be sold at public auction or vendue to the highest bidder to satisfy the principal and interest of the said mortgage and the costs and expenses of these proceedings including an attorney's fee of thirty dollars provided for therein. The lands tenements and premises in the said mortgage conveyed and then to be sold are described as follows:

All that certain piece or parcel of land situate in the City of Ann Arbor, in the County of Washtenaw, and State of Michigan, to-wit: Commencing at the north-east corner of land owned by Eugene Osterlin on the south side of Huron street between Allen Creek and Jewett's addition, thence south along Osterlin's land, eight rods to Mrs. Eiseles land, thence east along Eiseles land four rods, thence north eight rods to Huron street, thence west four rods to place of beginning, all on section twenty-nine town two south, range six east. Mortgage Sale

Default having been made in the conditions of a Mortgage executed by Thomas H. Geer to Phillip Leonard, for the purchase money for the premises hereinafter described, which mortgage bears date September 17th, A. D. 1883, and is recorded in the office of the Register of Deeds for Washtenaw county, Michigan, on the 20th day of September, A. D. 1883 in Liber 62 of Mortgages on page 565, by which default the power of sale contained in said mortgage became operative, and no suit or proceeding in law or equity having been instituted to recover the debt secured by said mortgage or any part thereof, and the sum of twenty-four hundred and sixteen and fifty-three one-hundredths dollars (\$2,419.53) being now claimed to be due on said mortgage, notice is therefore hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises therein described or some part thereof, to-wit:

All of the following described land situated in the city of Ann Arbor, in the county of Washtenaw, in the state of Michigan, viz: Lot commencing at the north-east corner of lot No. one (1), in block No. two (2) east of Huron street in range No. four (4) north, running thence south thirty-five (35) feet on the east line of said lot, thence running west sixty-six (66) feet parallel with the north line of said lot, thence running north parallel with the east line of said lot thirty-five (35) feet, thence east on the north line of said lot sixty-six (66) feet to the place of beginning at public vendue on Friday the Eleventh day of October, A. D. 1895, at 10 o'clock in the forenoon, at the east front door of the Court House in the city of Ann Arbor, in said county of Washtenaw, that being the place of holding the Circuit Court of said county. Dated, July 8th, A. D. 1895.

PHILIP LEONARD, Mortgagee.

NOAH W. CHEEVER, Attorney for Mortgagee.

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated 12th day of May in the year 1885 executed by Warren Babcock, Mary A. Babcock, Frank Babcock and Effie Babcock, his wife, of Milan, Washtenaw County, Michigan, to Margaret Kearney, of the City of Ann Arbor, Washtenaw County and State of Michigan which said mortgage was recorded in the office of the Register of Deeds of the County of Washtenaw in Liber 64 of mortgages on page 479 on the 13th day of May A. D. 1895 at 11:05 o'clock a. m. of said day.

And whereas, the amount claimed to be due on said mortgage is the sum of two thousand one hundred and six and twenty-seven hundredths dollars (\$2,106.27) of principal and interest and the further sum of twenty-five dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be due and unpaid on said mortgage and no suit or proceeding having been instituted at law or in equity to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of said premises therein described at public auction, to the highest bidder, at the west front door of the Court House in the City of Ann Arbor, in said County of Washtenaw, (that being the place of holding the Circuit Court for said County) on the 23 day of November A. D. 1895 at 10 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to-wit: All that certain piece or parcel of land situate and being in the township of York, in County of Washtenaw, and State of Michigan. Commencing at the south-west corner of lot one (1) of Edwards plat in the Village of Milan and running south sixty-one and one-half degrees east along the south line of said lot and on the north line of Front street sixty-six feet, thence north twenty-nine and one-half degrees east parallel with west line of said lot one hundred feet, thence south sixty and one half degrees east parallel with south line until it comes within forty-four feet of the east line, thence north-easterly to the north-east corner; thence north-westerly along the north line to the north-west corner; thence south twenty-nine and one-half degrees west along the west line of said lot and on the east line of Tolan street to the place of beginning.

Dated this 8th day of the August A. D. 1895.

MARGARET KEARNEY, Mortgagee.

Mortgage Sale.

Default having been made in the conditions of a certain mortgage made by Albert F. Vanatta and Maria A. Vanatta, his wife, to Albert L. Walker, and dated the 30th day of December 1890 and recorded in the office of the Register of Deeds of Washtenaw County, Mich. on the 30th of December 1890, in Liber 43 of Mortgages on page 114, which mortgage was assigned by said Albert L. Walker to Alexis Packard on the 13th day of April 1891 and recorded in Liber 3 of assignments of mortgages page 90, and assigned by Israel D. Packard administrator of the estate of Alexis Packard to Prudence Packard by deed of assignment, dated April 26, 1891 and recorded in Liber 6 of assignments on page 241, and afterwards assigned by Israel D. Packard, administrator of the estate of Prudence Packard to Chloe E. Waters by deed of assignment, dated the 15th day of August 1890, and recorded in Liber 10, assignments of mortgages page 287, on which mortgage there is claimed to be due at the date of this notice, the sum of seven hundred and ninety-two dollars and fourteen cents (\$792.14) and the costs of this foreclosure and no suit or proceedings in law or equity having been instituted to recover the moneys secured by said mortgage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, notice is hereby given, that on Saturday, the 29th day of October, at 11 o'clock in the forenoon of that day, the said mortgage will be foreclosed by a sale of the mortgaged premises at the east front door of the Court House in the city of Ann Arbor (that being the place for holding the Circuit Court of the said County.) The premises described in said mortgage to be sold are described as follows:

Thirty-two acres of land from the west side of that part of the east half of the south-east quarter of section nine (9), which lies north and east of the trail road (so-called) and eight and one-half acres commencing at the south-west corner of the south-east quarter of said section nine (9) running thence north forty two rods, thence south forty-two and one-half rods, thence west to the place of beginning all in the township of Salem, Washtenaw County, Michigan. Dated, August 1st, 1895.

Chancery Sale.

In pursuance and by virtue of a decree of the Circuit Court for the County of Washtenaw, State of Michigan, in Chancery, made and entered on the fifteenth day of January 1895 in a certain cause therein pending wherein John E. Van Nata is complainant and Charles F. Conrad, Mary E. Conrad, Thomas McComb, Maria McComb and Dennis Warner are defendants, notice is hereby given that I shall sell at public auction to the highest bidder at the easterly entrance of the Court House in the City of Ann Arbor, State of Michigan, (that being the building in which the Circuit Court for the County of Washtenaw is held) on Wednesday the 25th day of September 1895 at ten o'clock in the forenoon of said day, the following described real estate situated in the Township of Dexter, County of Washtenaw and State of Michigan and described as follows, to-wit: Commencing at the east section corner common sections twenty-five and thirty-six and running north on the section line six rods to a stake, thence west in the direction of a stake standing thirty-two rods south of the quarter post between said sections, until it intersects the section line between said sections, thence easterly to the place of beginning. Dated August 5, 1895.

## WHY ARE HEELER & WILSON'S No. 9 SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

Torpedoes That Mitigate the Horrors of Nocturnal Visits From Cats.

The heights' cat by virtue of not only its exceptional attainments, but also of its multifarious experience, may be justly entitled to the distinction of being termed a cosmopolite, says Brooklyn Eagle. The proverbial bootjack, buzz saw, paris green decoction and dynamite bomb are incidents in his experience, which he views retrospectively with only passing emotions of interest, not unmixed with pleasure. For it is recorded that he met them and conquered them hands down. Swell residents of the heights have been left at his mercy. For a time cayenne pepper judiciously distributed into the diet of the midnight prowlers gave the peaceful citizen a respite from the nocturnal harpies of the love-making and argumentative animals. But after several councils of war which involved mutual recriminations and a tangle of evidence as to the cause of their setbacks, the cats cleared up the mystery and went to work again, with a clear understanding and a proper plan of campaign. The day, or rather, the night of cayenne pepper was past. It was reserved for one ingenious citizen on Willow street to introduce an expedient which thus far proved to be the conqueror of the cat. The remedy was not less startling than the nuisance it was designed to abate was painful. A troop of black cats had made the rear stoop and fence of this particular citizen's residence a nightly rendezvous. Last Sunday night the feline chorus was in full swing and the debates between the singers were pitched in high tones. The leader of the band was explaining his views on the silver question, while his first assistant, so far as the controversy could be interpreted, was endeavoring to divert the line of discussion to a consideration of the question as to whether marriage was a failure. Suddenly an upper window opened and a stalwart arm, grasped in a flowing white sleeve, made a swift movement. Something hurtled through the air. There was a crack against the fence just above the leader's head, a roar, and a blinding flash. The cats were petrified for an instant. Then came another roar and a flash and the cats were in full retreat. A careful comparison of notes subsequently led the cats to a conclusion that heavy artillery had been introduced and that future operations should be abandoned. The torpedo had gained the day. It has now been generally adopted as a preventive for these night concerts.

### Needs His Charmed Life.

Willard M. Belmont of Belchertown, Mass., 76 years old, and a most estimable person, has experienced more of casualties than usually falls to the lot of one mortal who lives to tell the story. At the age of 7 he had part of the fingers of one hand cut off. In later years he had the bones of one ankle smashed. The next accident that happened to him was the result of being caught by the mouth by the sweep of an old-fashioned cider mill. His mouth was enlarged to an unnatural capacity and had to be partially sewed up. Next, a horse fell on him and broke the bone of one leg above the knee; next, as the result of a fall, he had his ribs on one side broken in; next, a sandbank caved in and buried him under it, breaking his limb over again, and after it healed he was left with one leg considerably shorter than the other. Last winter he fell and shattered his knee pan. When he was over 60, nature, as if to atone for some of the shattered bones, replaced the teeth on his upper jaw with a new set of double teeth.

### Astor's Storage Battery Yacht.

Col. John Jacob Astor has been more active than any amateur in the country in his devotion to electric propulsion on the water, having experimented with every known variety of storage battery and engine. His last attempt in this direction is in quite a large launch, thirty-seven feet long and furnished with twin screws driven by thirty horse power engines actuated by storage cells. This boat in miles in construction, can make ten miles an hour, and has the electric quality of noiselessness. Indeed so quietly does she glide about the smooth Hudson that very possibly from her deck one could pick up a sleeping gull on the water.

### For Better or for Worse.

Seldom do those engaged in the work of marrying indulge in a pun during the ceremony, however much they may be tempted by the names of the happy couple, but a Salt Lake Justice of the peace could not lose an opportunity recently afforded him. In a couple presenting themselves the name of the bridegroom was John Phil. When the justice reached that part of the ceremony where the bride agrees to take the groom for better or worse, instead of the usual formula, he said: "Clara, do you take this Phil?" to which the bride was heard to respond, "Yes," almost inaudibly.

### A Mutual Service.

He—I am very unfortunate; it seems I can please nobody.  
She—Come, cheer up; I have no one to admire me, either.  
He—Tell you what—let's found a society for mutual admiration; I, for instance, admire your beautiful eyes; and what do you admire in me?  
She—Your good taste.—Brooklyn Life.

### Curious, Isn't It?

Mr. Joseph D. Weeks explains the increasing activity of English iron mills as a result of the inability of American mills to fill orders. They can and do sell as cheaply as the English mills, but they have more business than they can handle and are obliged to refuse contracts. This is a curious way of being ruined by a "free trade tariff."

### DUCK IN FAVOR AGAIN.

Sensible Fashion in Men's Clothes Coming Back Into Popularity.

White duck has made a bold bid for popularity in men's clothes this summer, and the tailors say that another season will find it firmly established. Much may be said in its favor, according to the New York Sun. It is cool and it looks neat and clean, or, at any rate, it should. Duck trousers may be bought at prices ranging from \$2 a pair for cheap cotton duck to \$15 and \$16 a pair for the best linen duck. These prices permit a man to indulge in three or four pairs of white trousers at a comparatively small expense. New York occasionally has a bit of warm, humid weather in summer that is about as uncomfortable as that found in the tropics, and the quicker New York men learn to dress for it the happier they may be. Down in the Bahamas, where the mercury soars high, the men have solved the problem of hot weather dressing. They wear duck coats made with military collars, and duck trousers, and not much else. The white duck suit made in this style is inexpensive, cool and becoming. Many men whose business keeps them in town much of the summer would find two or three duck suits useful as well as ornamental if they have a good laundry.

### BEAR'S FAITHFUL VIGIL.

Found Crouching Over the Body of His Dead Master.

A hunter who was hunting in the back portion of Harrison county, Mississippi, at Daisy, some thirty miles from Scranton, came upon the corpse of a man, over which a large white bear was crouching. The bear growled and rushed on the hunter, who fired, killing the animal. The body was found to be badly mutilated, but not devoured. The hunter reported the matter, and it was found that the dead man was Joseph Souquet, a Frenchman, recently from New Orleans, who was traveling through the country with a tame dancing bear, giving exhibitions. The hunter was under the delusion that the bear had killed Souquet, but all the indications now are that the man was murdered by robbers, as the country where he was killed is wild, sparsely settled and somewhat lawless, and the satchel which he carried with him, and which contained a considerable sum of money, is missing. The bear was a very tame one, and, as Souquet declared, "a brother to him." It was probably watching over the body of the murdered man when the hunter came up, and mistook him for one of his master's assassins. Souquet was 25 years of age and from Marseilles, France.

### Fined Himself.

"In the early days in Kansas," said a lawyer, Judge Sam Vandibert was district judge of the western district of the state. One night the officers caught his honor and five friends playing poker. They were brought up to be tried before himself. Judge Vandibert first called the state of Kansas vs. the five defendants, who all pleaded guilty, and the judge fined each \$10 and costs. Then the judge said: "I'll now call the state of Kansas vs. Samuel Vandibert." "What is your plea, Mr. Vandibert?" He then got up and walked around in front of the bench, and said: "Plead guilty, your honor." Then he went back on the bench and proceeded to lecture Sam Vandibert. He said: "Mr. Vandibert, I have fined your comrades each \$10 and costs, but yours is an aggravated case; you should receive a more severe punishment than the others. You have been elected to an honorable position. You owe a duty to society, and you should set a proper example for our young men growing up. I'll fine you \$25 and costs, and you stand committed until the fine and costs are paid."—Chicago Inter Ocean.

### An Oration Under Difficulties

Ex-Governor Roberts of Texas is a queer character. Recently he was called upon to deliver an address to the inmates of the state penitentiary. The governor consented, and after viewing his audience for a few minutes, began: "Gentlemen—but no," he hesitated, "you're not gentlemen or you would not be here." He paused for another moment. "Fellow-citizens, then—" He stopped again. "No, you're not citizens, either." The governor grew impatient for want of something to say. "Well," he began again, "it doesn't matter what you are, I'm d—d glad to see so many of you here."

### Unhappy Combination in a Woman.

Notwithstanding her genius, Sonya Kovalevsky was always mentally dependent upon a man. We have her written confession that she lectured better when Prof. Mittag-Leffler was in the audience. Notwithstanding her solid contributions to applied mathematics, she originated nothing; she merely developed the ideas of her teachers. What is the conclusion of the whole matter? Setting aside all partisan questions, it would seem like this: That a masculine head united to a feminine heart is likely to prove a very unhappy combination for a woman.—Isabel F. Haggood.
