

## ON TO ATLANTA.

### A RECORD OF SOME PECULIAR EXPERIENCES.

**A Visit to The Cotton States International Exposition—The Red Tape of Atlanta Methods—A Mighty Mountain Beside the Trials Endured By Job—Big Guns Who Visit the Exposition Feted And Given Every Attention So That They Will Laud the Exposition—But the Common Visitor! They Will Get His Cash—Even If It Compels Him to Walk a Thousand Miles Back Home.**

The writer returned Monday from a trip to Atlanta. Some of his experiences will doubtless interest some in this vicinity who may contemplate a visit to Atlanta to attend the so called exposition now being held in that city. We left here a week ago last Tuesday morning for a brief visit to Atlanta's big show. At Cincinnati we secured tickets over the L. & N. R. R. to Nashville and return and left that city Wednesday a. m. in company with some four hundred Ohio and Michigan newspaper men and their wives. It was a jolly company and all anticipated a pleasant trip. The ride through Kentucky and Tennessee to Nashville was of especial interest to the majority of the passengers who had never before visited "Dixie Land," in that it was painfully apparent even from the car window how far the South was behind the North in every evidence of thrift. One incident occurred about four o'clock in the afternoon. The train was rushing along at a rate of about fifty miles an hour, the fastest running we did until back across the Ohio river. Suddenly the train was brought to a standstill and then in a few minutes moved on again. The writer by merest chance learned that a farmer had happened to be walking along the track just before our special was due and had discovered a broken rail. By rushing back and frantically waving his bandana he had prevented what would otherwise have proved an indiscriminate slaughter of the genus editor. Another incident occurred upon reaching Nashville which did not tend to increase the peace of mind of the passengers. When the train left Cincinnati the Pullman conductor had taken up our railroad tickets which were good to Nashville and return and our sleeper checks good to Atlanta and return. He had promised to return them before reaching Nashville, but here we were at Nashville with no return railroad or sleeper tickets—and the conductor—well he was gone too. This condition of things continued to exist for sometime and of which we shall speak later. Thursday morning we arrived in Atlanta. Arrangements had been made with a certain hotel proprietor to meet our delegation with hacks, but nothing in the line of a meeting took place. Our company then proceeded to get to the hotel some three miles away as best they could and there learned that the proprietor could not meet us for the reason that he could not ascertain from the railroad the time within six hours of when our special would reach Atlanta. This and a number of other incidents showed very plainly that the telegraph is of little use in that section of the country. It seems to be too fast for them. Once located in their hotel the question of getting back their return tickets began to agitate the minds of the members of our company. Many of them had brought their wives and had not come prepared to put up an extra \$20 or \$25 for the return trip. As newspaper work cannot be laid aside indefinitely almost all had expected to spend but two days at the exposition. Fully three-fourths of this time was squandered in chasing after railroad officials, ticket agents and heads of departments, located in different parts of the city, and usually not in their office, and being sent to one place for an identification and to another for an endorsement and to another for a certificate all for the railroad ticket and having the same thing to do all over again for one's sleeping car ticket and having to go to each place two or three times before you could catch the sleepy southerners in their places of business. This left about 6 hours to take in the Great Cotton Exposition, but in the state of mind in which most of the editors found themselves, this was ample time.

Some fifty of our company had a special misery still to endure. Special admission tickets were to be furnished, but in making them out, at least fifty had been omitted. These were given blanks to be filled out by one official, checked by another, endorsed by another, countersigned by another, approved by still another and finally signed by an official who must certainly have secured his position by "inflorence" for he certainly had not the least particle of fitness for it. The said official seemed to think that it was absolutely necessary to make his signature exactly imitate steel plate engraving and the time he took to exercise his hobby with fifty people waiting for him was exasperating enough to make the very flesh creep upon the marble statue of liberty. What it took him four hours to accomplish would all have been easily done by any Ann Arbor business man in 30 minutes and then have enough time to spare to have taken a nice little nap. One is constantly and overwhelmingly impressed with the intolerable slowness of the South. It is so evident in every thing that to a northerner it is painfully distressing. Every resident of Atlanta is constantly bragging that it is far in advance of every other city in the South as a wideawake, progressive place. If it is, then may the good Lord pour out a great ocean of pity on the rest of "Dixie Land." Atlanta, and the state of Georgia, have spent a large amount of money in preparing for this exposition and the people of Atlanta are doing their full duty in trying to make it all back off the people who visit them. As an example the writer rented a room, and paid an extra fee to get one with a grate and fire. He was not a little surprised when an additional bill was presented for the coal burned. This would have been paid without much protest had not the price asked for the coal been just 625 per cent above what we happened to know the landlord paid to have it delivered at his door. We finally agreed to pay the bill, preferring, however, to consider the expenditure as a donation in honor of the chivalry and hospitality of the South. Numerous other instances of a like nature which were thrust upon us, greatly to the injury of our purse, might be mentioned but space forbids. The Exposition is considerable of an affair and all who can spare the time and the cash should visit it. They will at least learn lots of the South. We are glad that we are not obliged to go a second time.

### ANNUAL MEETING.

#### The Needle Work Guild Has a Successful Year.

The annual meeting of the Needlework Guild was held on Friday last at the residence of the president, Mrs. Perry, 61 E. Washington-st. About 50 were present. The secretary's report was given by Mrs. Cushman, showing that 820 garments were contributed last year and 1,031 this year. It was thought the number could be made up to 1,100, in which case the Guild could stand as a city branch in the annual report to the parent guild at Philadelphia. For this, as well as other obvious reasons, all delinquents were requested to send their garments as soon as possible.

In the absence of the treasurer, Mrs. Perry reported a bill of \$3.15 for secretary's books and leaflets paid and the Guild out of debt. A little money is needed every year for directors' and section presidents' blanks, a dollar a year is ample.

Mrs. Perry made a few remarks on the work and spirit of the Guild, especially noting the cheerfulness with which the donations were made, and the large results of organized effort. She urged the officers to use no undue influence to secure members, but to keep the offerings voluntary. She made a few suggestions for next year and thanked the society for its support and enthusiasm.

Mrs. Angell, the honorary president, spoke in a most pleasing manner of the substantial value of this work and of the value to its members in bringing such members together on common ground to work for a common cause. She thought the Master was touching the hearts of the people in this work.

About 100 families were reported as needing help, 900 garments have already been distributed, and a few are reserved to be given out later at the discretion of the president. The garments were assorted and placed on exhibition, and the 1,000 new garments made a very excellent display. The collection was composed of good, useful articles and very wisely selected, which shows that it is not necessary to advise in regard to it.—Times.

### Struck Him with an Ax.

Monday a dispute arose between two colored men at Whitaker over the location of a line fence. James Thompson, one of the men, claimed that the fence was three feet on his land. Bryant, his neighbor, denied this and attempted to repair the fence on the old line. This was resisted by Thompson when Bryant struck him two times with ax, one of the blows inflicting a severe wound in Thompson's shoulder. Bryant has been arrested. It cannot be told yet what will be the result of Thompson's wound.

### Lecture of Prof. Greene Before the Unity Club.

A fair-sized audience attended the lecture of Prof. Charles E. Greene, upon Engineers and Engineering Schools, before the Unity Club, Monday evening. Those who stayed away, supposing the subject would be dry and uninteresting, missed a very profitable and interesting lecture. The Professor reviewed the progress of engineering from the earliest times to our day, and showed very clearly that the engineer has contributed quite as much to the progress of the age as the doctor, the lawyer and the clergyman. Engineering has become one of the learned professions and is a progressive science, while the other learned professions are conservative and comparatively stationary. In the future the engineer is likely to become more necessary and important than ever. He is to be the great leader in the world's progress, the pioneer in civilization's onward march. The lecture interested the audience from beginning to end, and its close was greeted with hearty applause.

BETWEEN THE LAKES.

The recent heavy rains quenched many of the forced and swamp fires raging in Michigan.

A new Catholic church has been dedicated at Black River. Alger, Smith & Co. donated the site.

John Boyer fell from the roof of Wagner's new brick at Kalamazoo and soon died of his injuries.

Mrs. Edgar Tyler, of Jasper, attempted to commit suicide by cutting her throat. She may recover.

The log jam in the Manistee river extends several miles and it is said to include 15,000,000 feet of timber.

David L. Pearson, a farmer living near New Buffalo, has gone insane on account of the recent earthquake.

Charles Williams, well-to-do farmer, ended his life by hanging himself from a beam in his barn near Yale.

Norman Holmes shot a pure white "red" squirrel near Fowlerville, and Edith Beak has it among his curios.

Joseph Besner, near Iron River, was shot by a set gun which had been set for deer, and will die from his injuries.

Rev. P. T. Rowe, of Sault Ste. Marie, will be consecrated Bishop of Alaska in St. George's Episcopal church, New York, Nov. 30.

While helping unload the steamer Colorado at Port Huron James Wers was fatally injured by a barrel of flour rolling on him.

Warren M. Wright, of Ishpeming, has been appointed chief bookkeeper in the state treasury to succeed Will Evans, resigned.

Fireclamp caused an explosion at the Winning colliery at Blackwell, in the county of Derby, England. Seven persons were killed.

Men are boring for coal about six miles from East Jordan. They struck a four-foot vein and will begin active mining operations.

Lewis Stretch accidentally shot and killed Eben Ireland, aged 15, while hunting near Benton harbor. Stretch is likely to go insane.

Grand Rapids furniture workers will demand that on January 1 wages be restored to what they received previous to the recent hard times.

Kalamazoo's common council voted to issue bonds to pay for the electric light plant. These are the only bonds standing against that city.

A small force of men were put at work at the Norway line at Norway, which has been idle five years, preparing for the resumption of mining.

Andrew Damon, of Tekonsha, while returning home from Coldwater, was waylaid by three men, pulled from his buggy and his pockets rifled of \$180.

The Negannee brewery, but the plant at Negannee will be used for a starch factory and potato whisky distillery.

The secretary's books at the Michigan University show the registration to have reached the total of 2,850. This is a gain of 153 over the same time last year.

The recent heavy freeze caught many farmers in Manistee county with their late potatoes yet unad, and the loss is variously estimated from 12,000 to 15,000 bushels.

Foreign capitalists propose establishing one of the largest glass manufacturing establishments in the world, a plant of 200 pots capacity, at Delray, a suburb of Detroit.

Jason Carpenter, aged 75, near Standish, received a divorce on the grounds of cruelty. In less than 10 minutes he had made application for a license to take another bride aged 32.

The 3-year-old son of Mr. and Mrs. Frederick Wrege, of Saginaw, while at play, in stepping backward fell into a spill of boiling water and was fatally scalded.

Bradley Matison, the oldest business man of Pontiac, has just made his first visit to Detroit in 20 years. He knew Detroit as a poorly-built old French town, and was hardly prepared to find a splendid city.

Ernestus and Dodson Webster were sentenced in the Livingston circuit court by Judge Stearns F. Smith to two years at Marquette prison for blowing up the residence of Geo. L. Hull, in Hamburg.

Receiver Stone, of the defunct Central Michigan Savings bank, at Lansing, has notified the stockholders that they must put up the par value of the stock held by them to make good the claims of depositors.

"Mark" Milk, proprietor of a lunch counter, Jesse Thomas and Clayton Sherwood, prominent young men of Kalamazoo, have all been arrested, charged with having criminally assaulted a girl 14 years old.

The recent dismissal of Prof. Gorton from the Agricultural college presidency is creating a great deal of discontent throughout the state, especially since it has become known that he was not given a hearing.

Capt. Spear has had City Marshal Mitchell arrested at Adrian for tearing down a rail fence which the city claims was on the highway. Spear says the fence stood there over 40 years, and that established his property line.

Previous to the recent earthquake coldwater lake had risen four inches. Since that time it has been falling rapidly. On the other hand, creeks and rivers near Bronson and Tekonsha that were nearly dry are gradually rising.

A society young woman of Jackson donated a full suit of men's clothes and promenade the streets with her beau, smoking a cigarette. The police ran the couple in. On their promise to be very good hereafter, they were discharged.

Simon Pokagon, chief of the Pottawatamies, says he selected South Haven as the place for the distribution of the \$101,000 allowed his braves by the government, because no firewater can be obtained there. David Fisher, of Kalamazoo, has been appointed special agent for the distribution.

The Park Congregational church, of Grand Rapids, sent a telegram to the state department urging that steps be taken to secure reparations for the destruction of missionary property in Turkey. Assistant Secretary Uhl replied that every step possible would be taken to protect American lives and property.

Kalamazoo county has presented the Michigan supreme court with a crayon portrait of Judge Abner Pratt, late of Marshall, who was one of the members of the supreme court under the old system, and the first U. S. consul to Honolulu.

Fire at Grand Ledge destroyed Rossman's harness shop, valued at \$2,000; Brown's barber shop, \$300; damaged Robinson's dry goods stock, \$1,500; Stanton & Son's dry goods, \$300; Schumaker's building, occupied by Stanton & Son, \$1,000.

Secretary Baker, of the state board of health, is after the "Illinois Health University" which is flooding Michigan and other states, with bogus doctors by selling "diplomas" without the "graduates" being required to have any knowledge of medicine.

Judge Eldredge, of Gratiot county, granted a temporary injunction restraining the Ann Arbor railway from taking up its road at St. Louis, so as to abandon St. Louis, and requiring them to run all freight and passenger trains over that part of the road running through St. Louis.

Dr. Joel A. Thomas, convicted of manslaughter in causing the death of Helen Ross by performing a criminal operation, was sentenced to serve seven years at Jackson. Wm. McEwen, who pleaded guilty to criminal assault upon his 13-year-old daughter, got 15 at Jackson prison. Both are Kalamazoo county birds.

George Harsoon, a native Armenian, whose family perished in the recent massacres at Constantinople, and who himself has been driven from Turkey, addressed a mass meeting of all the churches in Kalamazoo. A set of resolutions urging the United States to take immediate action were adopted and sent to Washington.

Samuel R. and Louis Kaufman, of Marquette, and Samuel Hoar, of Negaunee, have purchased of Capt. J. C. Kirkpatrick, of Negaunee, the fee of the Wheat and Star West iron properties on the Cascade range, and have consolidated them under the corporate title of the Star West Iron Mining Co. The company has already contracted for the delivery of 125,000 tons of ore by Jan. 1, 1897.

Fire was discovered in a large barn at the rear of the Hotel Linden at Lake Linden. When the fire department responded to a call their wrenches were all missing and the business portion of the town was in danger before the couplings could be made. Several barns were burned and seven horses cremated before the flames were subdued. This is the third fire in that locality and, with the disappearance of the wrenches, seems to point to incendiarism.

The little frame building owned by L. M. Brandt and occupied by Dr. J. J. Sweetland as an office and drug store, in the little town of Pottville, seven miles west of White Pigeon, was blown up by dynamite. At the time of the explosion the building was occupied by Andrew Gray, the doctor's hostler, who was terribly shaken up, but fortunately escaped with only a few cuts and bruises from flying missiles. The perpetrator of the outrage was seen and chased, but escaped. He is supposed to be someone with a grudge against Dr. Sweetland.

NEWS IN BRIEF.

IS PLUNGED TO THEIR DEATH.

An Electric Fall 100 Feet from a Draw-bridge at Cleveland.

The lives of 19 residents of Cleveland were snuffed out in a moment by one of the strangest and most horrible accidents in the history of that city. One of the sights viewed by every visitor to that city is the central viaduct, a huge steel bridge 3,000 feet long, made of iron which connects the heights and the prosperous residence section on the south side with the business center of the city. Directly over the river is a drawbridge of the pivot swinging pattern, and this is 101 feet above the surface of the water. The South Side street railroad passes over the bridge and on either side of the draw there is a safety switch, which, unless the conductor alights and holds up a handle, will derail a car instead of allowing it to go on the draw.

About 7:45 p. m. a number of working and business people were returning to their homes, a heavy motor car containing between 20 and 30 passengers neared the draw and stopped. The conductor ran forward about 200 feet, raised the handle operating the switch, the motorcar turned on the current and the car started forward. At the same time a vessel was passing and the draw of the bridge had been swung to give her free right-of-way. The electric car struck the gates at the end of the span, crashed through them and five seconds later had plunged from the rails into space.

The motorcar realized the situation, as did a few men on the rear platform, and throwing themselves off the car they saved their lives, but 19 other people went down with the car, which sank below the water in the inky blackness of the night, and all were drowned. Alarms were sounded and in a short time the fire boats, the life saving crew, the police patrols and the ambulances were of the scene and within five hours 12 bodies were recovered. The work of rescuing the dead continued all night and was witnessed by thousands from the bridge and from the banks of the river. After 24 hours' work 17 bodies had been recovered and all were identified and there was known to be two and perhaps three still in the car, or under it. The list of the killed is as follows: James McLaughlin, base ball player; Henry W. Mecklenburg, merchant tailor; Edward Hoffman, conductor; Mrs. John A. Sauerheimer; Miss Bessie Davis, school teacher; Harry W. Foster, clerk; Mrs. Minnie Brown; Curt Lepke, aged 14; Mrs. A. W. Hoffman, aged 30; Harvey Hoffman, aged 7; Mrs. Martha Palmer; Marie Mitchen, aged 21, domestic; Miss Augusta Saranski; Gertrude Hoffman, aged 4; Louis F. Huletz, mail carrier; Cooney, aged 9; B. C. Page. The missing: Miss Martha Sauerheimer; Matthew Callahan.

There were many sad scenes about the scene of the horror and at the morgues as thousands of people looked for their dear ones who were missing and who might have been on the ill-fated car. The body of little Gertrude Hoffman was among the last ones found and this filled the cup of sorrow for A. W. Hoffman, a grocery salesman. His wife and son Harvey, the latter aged 7, were taken from the river the first night. The little girl's body was found lodged against the bank of the river. When Hoffman realized what had happened to him he became hoarse from his emotion. Rushing to the river he plunged in and tried to drown himself, but was rescued by friends. The father of Martha Sauerheimer also tried to suicide, but was prevented.

Edward Hoffman, conductor of the car, had jumped on the car as it started after he gave the signal, and was drowned, but Motorman August Rogers leaped from the car and fell prostrate on the very edge of the bridge span. He was later arrested on a warrant sworn out by the chief of police charging him with manslaughter. It is believed the conductor became confused by the electric lights and thought it was all right ahead when he gave the signal.

### OUR MISSIONS BURN

#### AND OUR MISSIONARIES FLEE FOR THEIR LIVES.

Infidel Fanatic, Bloodthirsty Turkic Fire  
The American Missions at Kharput—  
Thousands of Christians Murdered—  
No Relief in Sight.

The later reports from the scenes of the massacres in Armenia only make the terrible affairs seem more bloody. There were fully 800 victims at Harput (or Kharput) and eight of the 12 buildings belonging to the American missionaries there were sacked and burned in spite of the assurances of the porte to U. S. Ambassador Terrill, that the lives and property of Americans would be protected and although it was announced that Turkish gendarmes had been detailed to guard the missions. The American missionaries, however, escaped, and are now in a place of safety. Mr. Terrill has notified the porte that the United States will hold it responsible for the lives of the missionaries. The inhabitants around Kharput are in great distress. From Guram, in the vilayet of Sivas, where the Kurds have been besieging 4,000 Armenians, it is reported that all the Armenians have been massacred. In the district of Mardin, where there is a large Christian population of Chaldean and Syrians, a number of villages have been burned to the ground, the people are destitute and suffering. This outbreak is regarded there as being very significant and as indicating that a systematic campaign against all Christians, and not against the Armenian Christians in particular, as has generally been believed to be the case.

Boston: News of the massacre at and the devastation of the American mission at Kharput was received at the room of the American board of foreign missions commissioners and caused the greatest consternation, as the Kharput mission was one of the most prosperous and successful and was also considered and most secure from trouble. Kharput is 200 miles southwest of Erzeroum and about 20 miles east of the Euphrates. The city itself has a large Turkish population, but the plain villages are almost entirely Armenian. Fifteen out-stations lie within 10 miles from the city. The limits of the Kharput station embrace a district nearly one-third as large as New England. The first church was formed in Kharput in 1856, with two members. Now there are 25 churches which have received membership more than 3,000 persons. The value of the property destroyed is between \$75,000 and \$100,000. There were five men and seven women missionaries from America at Kharput.

The following cable message was received by the American board of foreign Missions from Rev. H. O. Dwight, of Constantinople, by way of Philadelphia:

Five hundred were killed in Kharput, eight of twelve mission buildings burned, lives spared, houses stripped. Turks will regard this as a test of the intention of the United States to defend missions. No missionaries anywhere. Villages everywhere desolated. People naked and starving. Instant help.

300 More Christians Murdered.

Rome: A dispatch received here from Alexandria, northern Syria, says that a massacre of Christians has occurred in the vicinity of that town and in the presence of 300 Turkish soldiers who did not render any assistance. The agitation and slaughter is being extended and a bloody massacre is now reported from Aleppo. It is added that the European residents of Alexandria are in danger. Alexandria is peopled by about 2,500 persons, principally Greek Christians and lies on the gulf of the same name on the extreme northern end of the Syrian coast.

The Ambassadors Do Nothing.

Constantinople: No definite action is known to have been taken by the ambassadors of the powers, but it is reported that they will join in a note to the porte, to the effect that as the sultan's authority is not sufficient to quell the disturbances, the powers will occupy jointly various portions of the Turkish empire until order is fully restored and a better system of government inaugurated. In order to carry out the policy of the powers, the most powerful fleet ever gathered together is being assembled at Salonica bay.

England Wants Reforms Delayed.

London: The Post has published an article, evidently inspired by the foreign office, which is understood to indicate that Lord Salisbury, after consultation with Sir Phillip Currie, British ambassador to Turkey, has decided that the utmost effort must be made to maintain the integrity of the Turkish empire and, therefore, efforts must, in the first place, be directed to restoring order in the disturbed districts. "All thought of coercing the sultan should be laid aside. He has already given evidence of a desire to introduce reforms. It cannot be doubted that he will defer to the wishes of the powers as soon as circumstances permit him to do so." The ambassadors of the foreign powers in general, and Sir Phillip Currie in particular, have acquired a position enabling them to give important support to the Turkish government at this critical time. Sir Phillip Currie's instructions are such as to justify him in delaying the execution of reforms until the authority by which they are to be carried out has recovered from temporary weakness. At the present moment any naval demonstration in the Turkish waters, or undue pressure on the Turkish government, can only help precipitate a crisis from which Turkey's friends can hope to gain nothing, and her enemies everything. "Dying People's Appeal—100,000 Starving."

London: The following telegram from Constantinople was received by the Anglo-Armenian association: For God's sake urge the government to stop the most awful events of modern times. The porte is powerless, as all telegraphs are under the control of the palace officials, who have incited the massacre throughout Anatolia. The Armenians are being massacred everywhere in Asia Minor. Over 100,000 are dying of starvation and exposure. The Sassoun work of relief is closed.

The Ashland, Wis., Sulphite Fibre Co.'s immense plant has burned. Loss \$90,000; insurance \$40,000.

### CHRISTIANS KILLED BY TURKS.

Situation in Turkey and Armenia Grows Worse—The Powers Defied.

The cable dispatches from London, Berlin, Constantinople and other European centers show that the situation between Turkey and the powers grows more warlike every day. Since the appointment of a new ministry by the sultan the powers have been openly snubbed and defied; in fact in making his new cabinet the sultan gave prominent positions to men who were known to be opposed to the proposed reforms in Armenia and also placed officers at the head of commands, sent to quell interior disturbances, who were known to have led in recent bloody massacres of Armenians and against which the powers protested.

The new ministry is notoriously weak and unpopular, and revolutionary movements are spreading throughout the empire. The Armenians have armed themselves as best they could and are preparing to fight for their lives against future attacks. At Zeitoun they captured a battalion of Turkish troops and obtained possession of the city. They then attacked the village of Tehaukourhissas, killed 30 Mussulmans, pillaged a house at Dangeh and carried off the arms and cattle of the inhabitants of that neighborhood. There are few localities however in which the Armenians are strong enough or sufficiently armed to protect themselves. It is believed now that estimate of 10,000 Armenians killed during the recent massacres is far under the real total and that the number may come nearer 15,000. Reports are reaching the embassies of the powers at Constantinople from all directions of wholesale massacres. The report is gaining ground, even in diplomatic circles, that the sultan has ordered the extermination of the Armenian race. The excitement is spreading to Syria, Bagdad and Mosul. Murder and rapine are rampant and reports from Syria declare that the Armenians have been massacred under direct orders from the government. Reports continue to arrive of troubles at Malatiah, Arabkir, Harput, Moosh, Bitlis, Marash and Sivas. It is reported that innocent persons are being slain with the sword and their buildings destroyed by fire in all these towns.

The joint action of the foreign ministers, and their individual and peremptory demands upon the porte is regarded as the most grave and significant demonstration of recent years. They informed the porte that force would be used unless the Turkish government took adequate action to protect the Armenians. As each day passes, however, the situation becomes more and more alarming. The porte in replying to these demands simply said that information regarding the scheme for reform in Armenia would be forwarded to the representatives of the powers "without delay." There is no satisfaction in this and it is regarded as a mere subterfuge. The action of the sultan in expressing thanks to his officers for the "energetic" measures taken in "suppressing" the disturbances in Asia Minor and adding that "precautions have been taken to insure the maintenance of order," is looked on as an actual mocking of the ambassadors.

The distribution of revolutionary literature throughout Asia Minor is being carried on extensively. The spirit of revolution is spreading even among the old Turks and the young Turk party is ripe for a revolt. In Syria the Redifs, who were called upon to join the army, refuse to leave their homes. There would be no great surprise if the most of the army and navy should side with the revolutionists when an uprising takes place. The Armenians are receiving support from unexpected sources, probably Russian, and it is daily growing more apparent that the Turkish government is about to face an open and widespread revolt. Many arrests have been made in Constantinople and other measures adopted to insure the safety of the sultan.

Now Let the Lion Roar.

Constantinople: The English mission near Jerusalem has been attacked by a riotous mob. The missionaries escaped, but some of the servants of the mission were killed.

Christian Teachers Murdered.

Berlin: A dispatch to the Cologne Gazette from Constantinople says that all the Armenian Christian teachers in the Trebizond and Erzeroum districts have been killed.

American Missionaries in Danger.

Washington: Considerable anxiety has been felt on account of the absence of news from the districts where the American missionaries are stationed, and U. S. Ambassador Terrill, has telegraphed to Commissioner Darnham, at Harput, asking him if the American mission is safe. According to advices from Hadjin, several villages in that vicinity have been attacked by rioters who massacred the people and plundered their property. Commissioner Darnham telegraphed from Harput that the American missionaries are alive, but in extreme danger. The most serious state of affairs still prevails at Zeitoun, and desperate fighting may shortly take place, as a large force of Turkish regulars and reserves is moving rapidly in that direction. Several American missionaries en route for Asiatic Turkey will remain at Constantinople.

The Powers are Waiting.

It is now believed that the powers will not take definite action against the porte until all the naval squadrons have assembled in Turkish waters, which will be about the time that the British ambassador to Turkey, Sir Phillip Currie, returns after consulting with his government as to the future action of Great Britain. In the meanwhile the state of suspense is decidedly wearying and the ambassadors themselves will be greatly relieved when the hour for action upon the part of Europe arrives. None doubt that this time is coming; it now seems to be only a question of days.

French Jesuit Priests Killed.

Fresh disturbances are reported from Malatiah, where a number of persons have been killed, including four Jesuit priests, who were under French protection. A squadron of five French warships have sailed from the Piraeus for Turkish waters and it is stated that an Italian fleet will rendezvous with the British fleet within a few days. There has been most serious trouble at Caesarea, not far from Jerusalem.

Brazil will make a formal protest against a new British map including Brazilian territory in British Guiana.

THURSDAY, NOVEMBER 21, 1895.

FOR shrewd manipulation of figures and twisting of facts to misrepresent the truth, the Argus, as usual, takes the persimmons. Last week it came out under glaring headlines with an article declaring that the Republican administration in this county had already cost the county at least \$9,000 more than the last year under democratic administration. The statements are so ridiculous that they do not deserve an answer, and we shall not attempt to reply.

The Figures Correct. Railroad Official—I must say you put rather a high value on that trunk. What's in it? Passenger—I don't know. My wife packed it. Official—Hum! Perhaps your estimate is correct. If a woman did the packing, everything in the house is in it.

Campus.

The November Inlander is out. The consultation room in connection with the law library is about completed. The first freshman social this year will be held at Granger's tomorrow night.

The board of control of the Athletic Association has ordered the freshman foot ball team must disband. A number of new drains are being dug about the campus to prevent if possible the usual spring flooding.

It was a narrow escape that the U. of M. team made last Saturday before the foot ball team of Perdue. The score stood 10 to 12.

Arthur Brewer, captain of the Harvard foot ball team has been put on probation on account of being behind in his studies.

There will be a big delegation at Detroit Saturday to witness the game between the Minnesota and the U. of M. foot ball teams.

The Tribune correspondent is authority for the statement that there is a possibility of the erection of an auditorium on the campus with a capacity to seat 16,000.

Foot ball men are hastening to secure enough tickets to warrant the running of a special train to Chicago next Wednesday. It will require the sale of 200 tickets at \$5.00 to secure the train.

All western foot ball enthusiasts are proud of the fine playing done by our team in the Harvard-Michigan game. Although defeated the playing was such that our team must be given an equal standing with the eastern teams.

The Gym received a gift of twelve easy chairs and a reading table from some unknown donor last week. They will be placed in the reading room at the right of the entrance which will be used as a reception and reading room.

Much enthusiasm is being manifested in Chicago over the Thanksgiving game to be played there on that day by our team. It is believed that at least ten thousand people will attend. A \$5 rate from here will induce a large number to go from Ann Arbor.

Very Remarkable. Titt—You'll take part in the football game, I suppose, Mr. Tatt? Tatt—Very sorry, but I don't know anything about the game.

Why, I thought you had taken a full college course? So I have, but I went to college to study, merely.

Ode to a Turkey. One would think you owned the town By your strutting up and down, And your gobble, gobble, gobble all so gay; But you'll sing a different tune When, a little after noon, I gobble, gobble, gobble you Thanksgiving Day.

PARIS IN NINETEEN HUNDRED.

Great Exposition, Like Its Predecessors, Will Be An Educator.

Paris at her exposition in 1900 will probably give fresh strength to the growing movement for pure food which was so successfully started at the Chicago World's Fair. Indeed the Columbian Exposition marked a new epoch in the important matter of wholesome eatables. As a result of the decisions of Prof. W. O. Atwater, Dr. H. W. Wiley, chief chemist of the U. S. Department of Agriculture, and the other scientists associated with them, impure articles of food are being shunned. Enlightenment has brought better living.

At the very beginning of the fair Dr. Wiley, who had the matter in charge, ruled out alum baking powders on the ground that they were not fit articles to enter into human food. Leading physicians have emphasized this condemnation by pronouncing them positively injurious to health. To cap the climax these powders have carried their own condemnation, revealing their true character in a perceptibly bitter taste they impart to food.

But the World's Fair could approve as well as condemn. Among baking powders, after the most elaborate tests, it bestowed the highest award for purity, leavening power, keeping qualities and general excellence on Dr. Price's Cream Baking Powder.

Under the ruling of Dr. Wiley at the World's Exposition any one of the following list of alum powders would have been rejected as each of these brands has been subjected to chemical tests and found to contain alum:

- "Kenton," "Chicago Yeast," "Grant's Bon Bon," "Hotel," "Forest City," "Silver Star," "Monarch," "Rocket," "Home," "Unrivaled," "Town Talk," "Loyal," "Snowball," "Climax," "Western Prince," "Crown," "White Cross," "Imperial," "Peerless," "New Era," "Zipp's," "Crystal."

SHORTER LIFE FOR LAMPS.

Incandescent Lights Now Run at a Higher Tension.

New York Commercial-Advertiser: A short life and a merry one is to be the guiding principle of the new order of lamp manufacture. At one time an incandescent lamp cost so much that it was made to last as long as possible, even if it had to be run at much below its nominal candle power. Now, lamps are cheap, and people insist on having light. A significant sign of the tendency of the times is that the twenty-five-candle power lamp is daily being put in place of the original standard sixteen-candle-power lamp. It is assumed that when Edison adopted the sixteen-candle power standard for his lamp he took what was probably a very good average of the illumination given out by five-foot gas burners the country over. But during the last fifteen years the gas standard has been raised through improvements in manufacture, and whereas twenty-candle gas was once seldom seen, the larger cities of this country now average well up to twenty-five-candle gas. The public has not been slow to see this, and now demands a unit of light at least equal to the prevailing standard gas unit. The central stations, fortunately for them, realize the situation, and the use of high economy lamps is growing. It is noted, too, that the time-honored 600 hours of life is not nearly so often insisted on as formerly. Indeed, the specific requirement now commonly made is for a lamp that will maintain its candle power at high economy for from 300 to 400 hours. The introduction of lamps of twenty-five-candle power, although already started upon, will doubtless be gradual, as it must naturally be accompanied by a corresponding change in the fittings, outlets, wiring, etc., if applied to existing installations.

Don't Be Too Critical.

Whatever you do never set up for a critic. We don't mean a newspaper one, but in private life, in the domestic circle, in society. It will not do any one any good, and it will do you harm—if you mind being called disagreeable. If you don't like any one's nose, or object to any one's chin, don't put your feelings into words. If any one's manners don't please you remember your own. People are not all made to suit one taste; recollect that. Take things as you find them, unless you can alter them. Even a dinner, after it is swallowed, cannot be made any better. Continual fault-finding, continual criticism of the conduct of this one, and the speech of that one, the dress of the other and the opinions of 't'other, will make home the unhappiest place under the sun. If you are never pleased with any one, no one will ever be pleased with you. And, if it is known that you are hard to suit, few will take pains to suit you.

The Threadbare Apology.

"The officer arrested you for being drunk," said the judge, severely; "very drunk indeed." "Yes, your honor," replied the culprit; "but there were extenuating circumstances." "What were they?" "Why, your honor, you see I was under the influence of liquor at the time." Washington Evening Star.

New Bear in Town.

A good-sized bear was killed in the city limits of Montezano, Wash., last week. The animal strayed in from the near-by forest and got within four blocks of the courthouse before anyone appeared with a gun. Then a 14-year-old boy killed it.

For God, and Home and Native Land. Edited by Mrs. A. E. Van Valkenburg. Press Superintendent.

The local W. C. T. U. met this afternoon, at three o'clock in the Y. W. C. A. rooms over the post-office. Thanks, giving occasions this special meeting held one week earlier than usual.

The meeting last Thursday was largely attended, and arrangements were made to take up several new lines of work, and to enlarge the usefulness of some already organized. A Lookout committee consisting of Mrs. Wetmore, Mrs. Worden, Mrs. Snauble and Mrs. Clark was appointed to secure names of those in the city having been members, of unions in other places, and with a view of calling upon all such and personally inviting them to take up the work here. Also to solicit new members. Truly the laborers are few compared with the size of the field.

The Loyal Temperance Legion will meet every Saturday afternoon hereafter, at two o'clock, in the rooms over Calkin's drug store formerly occupied by the Good Templars. A cordial invitation is given to every boy and girl in the city to be present at these Loyal Temperance Legion meetings. Miss Anna Richards with her rare ability, and experience in temperance work will make a Leader that the children will delight to follow.

EXTRACTS FROM RESOLUTIONS PASSED BY THE NATIONAL W. C. T. U.

Resolved, That we reaffirm our belief in the pledge as an expression of definite commitment to the cause of total abstinence, and as an educator of public sentiment.

Resolved, That we reaffirm our former utterances regarding the sanctity of the Sabbath, and pledge ourselves anew to keep it holy, as the Lord hath commanded, and to do all in our power to secure for all people rest and the opportunity to worship God in His sanctuary upon the day which He has blest and sanctified.

Resolved, That we rejoice in the advance made by various religious denominations in their use of the unfermented wine at the sacramental table.

Resolved, That we rejoice that by the acts of state and national legislatures universal scientific temperance education is made a mandatory study for all pupils in the public schools in forty-one states and in all the territories, including fully 16,000,000 children of school age in our land, and we urge upon all school boards, teachers and educational authorities the faithful enforcement of these laws.

Resolved, That we earnestly request educators of all schools throughout the country to devote at least ten minutes of each week in the school year to the teaching of kindness to the lower animals; and also that they will refrain from all demonstrations on the bodies of living animals in giving lessons in physiology, as we believe such demonstration to have a demoralizing tendency.

Resolved, That we believe the newspaper is a powerful agency for the prevention of crime and impurity; therefore, we rejoice in the position taken by the Editorial Association of several of our states, and of the National.

Resolved, That in view of the fact that the use of narcotics is increasing with alarming rapidity in our country, we wish to voice our earnest warning against the use of chloral, bromides and other insidious remedies, which often lead directly to the formation of the opium habit.

Resolved, That we hereby affirm our adherence to the single moral standard for both men and women, we rejoice in the increase of White Cross and White Shield societies, which work for a higher, nobler manhood and womanhood.

Resolved, That we greatly rejoice in the continued usefulness of the young people's societies of the church, and for the strong position taken by them in favor of temperance and good citizenship.

Resolved, That this convention authorize a letter of appreciation to Bishop Vincent for his kind invitation for a White-ribbon Day at Chautauqua, which we most gratefully accept, and inasmuch as all the leading Chautauqua, and many other summer assemblies have given us the warmest welcome, and accorded us large place in their programs, we hereby recognize their appreciative courtesy.

NO MORE RHEUMATISM.

Sheriff Howe Cured of Rheumatism By Dr. Greene's Nervura.

No One Need Longer Suffer from Rheumatism or Neuralgia. Dr. Greene's Nervura Blood and Nerve Remedy Always Cures.

SHERIFF E. W. HOWE.

Half the world suffers from pains and aches when there is not the slightest reason for so doing. Headache is alarmingly frequent and leads to serious results. Backache is most common and keeps thousands in misery. Neuralgia pains of side or chest torment myriads of victims. All this suffering is caused by a weakness, irritation or diseased condition of the nerves and blood, is entirely unnecessary, and can easily be cured.

Sheriff E. H. Howe, of Northfield, Vt., advises you in all such cases to use Dr. Greene's Nervura blood and nerve remedy. He tells the great good this remarkable medicine did him, and to show the high esteem in which he is held by his townspeople and that you can trust implicitly in every word he says, it is only necessary to state that Sheriff Howe has been Sheriff and Deputy Sheriff, of Northfield, for 23 years; is Town Trustee, Street Commissioner, of Northfield, Chief of the Fire Department, Town Grand Juror and School Committee, besides being a prominent business man well-known throughout the state of Vermont. The word of a man so highly trusted and honored should be taken and his advice followed by all.

"I was sick five months which left me with asthma and rheumatism. The asthma would take me most anytime, especially nights, when I was obliged to get up and open windows and doors to breathe. It took me once on my way home so bad that I was obliged to have help to get home. I suffered greatly with this trouble. My rheumatism at this time was very bad, being so that for six weeks I did not leave the room and for five months I did not do a day's work."

"I saw Dr. Greene's Nervura blood and nerve remedy advertised and the cures effected by its use, and thought it might hit my case, and it did. The asthma is greatly improved, in fact, it is nearly cured, and the rheumatism is greatly helped. I think very highly of this remedy for it is good. I would recommend anybody to use Dr. Greene's Nervura blood and nerve remedy for asthma or rheumatism for it is a good medicine. I deem it simply justice to a great remedy to write this letter. I never expected to do any more work when I was sick, but the Nervura did me a great deal of good and I am now able to work again."

It is not a patent medicine but the prescription of the most successful living specialist in curing nervous and chronic diseases. Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure and the fact that he can be consulted by anyone at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

### COUNCIL PROCEEDINGS.

[OFFICIAL.]

COUNCIL CHAMBER,  
Ann Arbor, November 18th, 1895.

Regular session.

Called to order by President Hiscock.

Roll called. Quorum present.

Absent, Ald. Koch, Prettyman, Cady.

Upon motion the Council resolved itself into a Board of Review to consider the report of the Board of Public Works relative to the construction of Sidewalks by the City.

Ald. Butterfield moved that Pres. Charles E. Hiscock act as Chairman of the Board.

Adopted.

After the consideration of the report the following resolution was introduced by Ald. Taylor.

WHEREAS, this day having been assigned, for continuance, of the hearing and determination of the truth of the certificate of the Board of Public Works relative to the grading, construction and repairing of sidewalks adjacent to private property at the expense of the Street Fund for the year ending on the third Monday of October, 1895, and due notice having been given, and all persons having been heard, and due consideration having been had and it appearing to this Council sitting as a Board of Review that the said certificate is in all things true. Therefore

Resolved, and this Board of Review do hereby certify the said certificate with our determination as aforesaid to the Common Council.

Adopted as follows:

Yeas—Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Brown, Ferguson, Taylor, Shadford, Coon, Butterfield, Pres. Hiscock—12.

Nays—None.

On motion the Board of Review adjourned and the Council reconvened.

COMMUNICATIONS.

Ann Arbor, Mich.,  
Nov. 18th, 1895.

To the Common Council:

The Board of Review for determining the truth of the certificate of the Board of Public Works of the City of Ann Arbor of the construction and repairs of sidewalks do hereby certify to the Common Council of said City, that they have duly considered the certificate of the construction and repair of sidewalks as certified by the Board of Public Works and after such due consideration of said certificate they have approved and do hereby approve and confirm of said certificate, and of matters and things therein contained.

The Board of Review,  
Charles E. Hiscock,  
Chairman.

Glen V. Mills,  
Clerk.

Accepted, and leave being granted the following resolution was offered:

By Ald. Taylor.

Resolved, And it is hereby ordered that the several sums of money paid, laid out, and expended for the grading, construction and repair of sidewalks in front of and adjacent to private property, in the city of Ann Arbor for the year ending on the third Monday of October, 1895, as set down on and contained in the certificate of the same to this Common Council by the Board of Review, with ten per cent. thereof added thereto be and the same are hereby assessed and levied on and against the several lots and parts of lots, in front of or adjacent to which the said sidewalks were respectfully graded, constructed and repaired, as appears in and by the said certificate, and the said assessment is hereby duly certified to the city assessor, and the said city assessor is hereby directed to assess the said several sums of money, with ten per cent. thereof added thereto on and against the said several parcels of land mentioned in the said certificate, pursuant to the charter and ordinances, in such case made and provided.

It is further ordered that the city clerk do certify this order and resolution to the city assessor.

Adopted as follows:

Yeas—Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Brown, Ferguson, Taylor, Shadford, Coon, Pres. Hiscock—12.

Nays—None.

PETITIONS AND COMMUNICATIONS.

A petition signed by the Ann Arbor T-H. Electric Company asking for the privilege of laying pipes from their works to the dam on Washington street was read and referred to the Street Committee.

The Clerk laid before the Council the copy of the order of the Commissioner of Railroads to the M. C. R. R. for an electric bell at the Fuller street crossing.

Received and placed on file.

To the Honorable Common Council of the City of Ann Arbor:

Gentlemen:—We have the report of the Special Committee on changing the name of Toledo Ann Arbor & N. M. Ry. and allow us to say it gives us pleasure to know it meets with your approval.

We can assure you the Directors and Managers of the Ann Arbor feel a deep interest in the future prosperity

of your city and will do all in their power to further the continuance of the past pleasant relations; believing it to be one of the most promising cities on the line.

Thanking you on behalf of the Directors for your kind expressions, we are

Yours truly,  
W. R. Bart,  
Pres. A. A. R. R. Co.  
Received and placed on file.  
Buffalo, N. Y.,  
Nov. 15th, 1895.  
Glen V. Mills, City Clerk.  
Ann Arbor, Mich.

Dear Sir:—

Mr. Henn returned a day or two ago and reports that he left the roller in first class running order. We feel sure the little things he found out of order, were not due to any trouble with the roller itself, and although we are glad in this instance to put the roller in order, of course we cannot assume the responsibility of keeping such matters in order. A steam road roller is an expensive and more or less complicated piece of machinery, and we think it pays any city to see that it is carefully handled and properly laid up for the winter.

Yours very truly,  
The Pitts Agricultural Works.  
Received and placed on file.

Pres. Hiscock stated that A. J. Sawyer Manager of the Grand Opera House had extended an invitation to the members of the Council to attend the production of Trilby.

Ald. Maynard moved that the invitation be accepted with thanks.

Adopted.

On motion the Council adjourned until Wednesday at 7 o'clock p. m.

Adopted.

Glen V. Mills,  
Clerk.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. You can impose on it to a wonderful degree. It is really astonishing how much abuse it will stand before it breaks down. "The last straw" doesn't break it down, but it makes it stop work. Continually put the wrong things into your stomach, and digestion will get weaker and weaker. Before long, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Let it continue, and there is nothing bad that it will not lead to. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sickness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. You can take them just as freely as you take your food. There is no danger that you will become a slave to their use. They will cure you and then you can stop taking them. Send for free sample package of from 4 to 7 doses. COUNTY OF WASHTENAW.

At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Saturday, the 16th day of November, in the year one thousand eight hundred and ninety-five.

Present, J. Willard Babbitt, Judge of Probate.

In the matter of the estate of Rosalia E. Butterfield, deceased.

On reading and filing the petition, duly verified, of Oscar H. Butterfield, praying that a certain instrument now on file in this court, purporting to be the last will and testament of said deceased, may be admitted to probate and that administration of said estate may be granted to himself, the executor in said will named, or to some other suitable person.

Thereupon it is ordered, that Monday, the 18th day of December next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the devisees, legatees and heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

(A true copy.)

## It is Known By Its Cures

It is not what we say, but what Hood's Sarsaparilla does, that tells the story of its merit.

The thousands of people whom it has raised from disease and despair to happiness and health, are the strongest and best advertisements Hood's Sarsaparilla has. No other preparation in existence has such a record of wonderful cures.

This is why Hood's Sarsaparilla has the largest sale, and requires for its production the largest laboratory in the world. Now if you need a good medicine, why not try that which has done others so much good. Remember

### IN TWO PENINSULAS.

NEWS FROM ALL PARTS OF THE PENINSULAR STATE.

Three People Burned to Death at Detroit—New Episcopal Diocese in the Upper Peninsula—Young Detroit Man Killed by a Train Near Lapeer.

Another Fire Horror in Detroit. Three more deaths have resulted from fire in Detroit. This time the new factory of the Improved Match Co., was the scene of the disaster and two men and a young girl were the victims. It was about 3:30 a. m. when the flames were discovered and a night shift of about 50 men, boys and girls were at work. A terrible panic at once ensued, but a few retained enough presence of mind to attempt to extinguish the flames. This was a futile effort however as the highly inflammable nature of the material in the building caused the fire to spread with frightful rapidity. The employees were soon surrounded by dense smoke and heavy sulphur fumes and it is only a wonder that many more did not lose their lives. The dead are John Wagner, aged 57, nightwatchman; Reuben Davis, aged 24, night foreman; Agnes Yettike, aged 17. Five others were injured, but not seriously. The burned building was of brick, three stories high and in less than an hour was a mass of ruin. The loss falls heavily upon a new company and amounts to \$50,000. Only \$6,000 insurance was carried, owing to the high rates charged on such a business.

New Episcopal Diocese of Marquette. The primary convention of the Episcopal church of the new diocese erected out of the missionary jurisdiction of the northern mission was held at Marquette, with 40 delegates present, representing all the parishes except Calumet and Ironwood. The venerable archdeacon, G. Mott Williams, of Marquette, was chosen as bishop on the second informal ballot. The name Marquette was chosen as the official designation of the new diocese. This virtually fixes the city of Marquette as the cathedral city, and St. Paul's church as the bishop's cathedral. The same constitution and canons governing the diocese of Michigan, with a few verbal changes, to adapt it to the new diocese, were adopted. G. Mott Williams was born at Fort Hamilton, N. Y., Feb. 11, 1857. He entered the ministry of the Episcopal church in December, 1880, as deacon and was made priest in '82 by Bishop Harris. He was located in Detroit, Buffalo and Milwaukee and went to northern Michigan in 1893.

Detroit Killed near Lapeer. Michigan Central passenger train No. 207, northbound, ran over a man lying on the track about three miles south of Lapeer about midnight and crushed him into an unrecognizable mass of flesh, blood and clothing. The engineer saw the man lying on the track, but not in time to stop his train, it being at a curve. An investigation proved the remains to be those of Luther H. Beecher, son of George Beecher and grandson of the late well-known Luther Beecher, of Detroit. Relatives in Detroit were notified, and the father and mother arrived and took charge of the remains. It is supposed that he was on his way from Detroit to Mayville on his wheel and for some reason had taken to the railroad to walk part of the way. He often took trips through the country on his bicycle for his health. Foul play was suspected and several tramps were arrested, but investigation proved it to be an accident.

A Novel "People's University." Walter Thomas Mills, of Chicago, secretary of a proposed People's University, is negotiating with the supervisors of Berrien county for the purchase of the old county seat grounds and buildings for their university, and also for land at Berrien Springs, for their farm, workshops, etc. Prof. Mills, it will be remembered, lost his chair in the Chicago university, because, it is alleged, of his attacks on corporate wealth. The new institution will begin work as soon as 1,000 students are obtained. Opportunities will be given young people to work their way through college, in gardens, shops and small factories. It is figured that students can support themselves by devoting only a few hours each day to manual labor. The university will ask for no gifts, and offer no charity to "worthy students." Applicants for admission will pay \$100 down and more as they are able. The money obtained will be invested in shops and farms.

Senator Palmer's Residence Burned. Thomas W. Palmer's elegant residence, at 1060 Woodward avenue, Detroit, was destroyed by fire, entailing a loss of many thousands of dollars and wiping out of existence numerous valuable works of art, paintings, books and other treasures including costly bric-a-brac and furniture. But for the fact that many of the more valuable articles had been shipped to Mrs. Palmer's new home on the Hudson river, or were stored, the loss would have been an immense one. As it is, many of the things which were burned cannot be replaced, as they were relics prized for their historical value. This is especially true of the World's Fair records, the only complete records in existence, and many mementoes of his residence in Washington and Spain.

George Lovely was fined \$100 or 90 days for violation of the liquor laws at Fowlerville.

Henry Hall, a brick mason, fell from the roof of a two-story building at Sturgis and was seriously injured.

The Cambria and Lillie mines have resumed operations at Negaunee after having been idle since the miners' strike.

Thos. Watson, motorman on the Detroit & Mt. Clemens electric line, fell from his car and was killed beneath the wheels.

A county organization has been formed in Osceola to take steps toward submitting the local option question to the voters.

Blakeslee's mill at Galien, which was erected in 1856, is being torn down. This mill marked the very beginning of the village.

### PERSONAL APPEARANCE.

Girls, Do Not Neglect the Little Details of Your Toilet.

"I should like to call a halt," said a woman, "on the lack of thought and care that most women put upon their personal appearance. Now, I know very well that the average woman pays a great deal of attention to such things, but the trouble is that what attention she does pay is of the wrong sort; it's directed toward things that are of no vital consequence, if not absolutely wrong. She's like the man who had a great deal of taste only it was all bad. The average woman that one sees upon the streets, in the shops and aboard the street cars is first and foremost rarely dainty—a criminal act where a woman is concerned. Daintiness, however, does not imply costly frocks, loves of hats and lots of lace and jewelry. It doesn't even include, although it is undoubtedly enhanced by the severity and simplicity that are so admirable in a tailor-made costume, but which, as every woman knows, cost like everything. It does imply and include, however, absolute cleanliness from top to toe, absolute neatness and an unswerving regard for the eternal fitness of things. No matter how plain or even poor the attire may be from necessity, so far as choice goes, it may always keep clear of pendant skirt braids, frayed edges, run down boot heels and spot and soil. Just look at the army of working women that the elevated trains bear down town daily. Typewriters, stenographers, clerks or whatever they be, they are, as a rule, tricked out in finery, instead of the sober, sensible garments suitable for business wear. It's fluffy white veils and feather hosa and flower and feather-laden hats. The very same girl, too, whose hat is heavy with the biggest and brightest of roses; whose once white kid gloves are the grimmest, and who flourishes a coarse-embroidered handkerchief redolent of cheap perfume is also sure to be the girl whose shoe buttons are conspicuous for their absence, whose collar is soiled, and whose dress skirt and shirt waist are losing their connections. If that same girl, however, would take a tithe of the money and care that she wastes upon her roses, her laces and her perfume and put it upon repairing, cleaning, and, above all, seeing to it that her garments are suitable for the occasion on which they are worn, the gain would be immeasurable. Therefore I say that it would be better for most women if they gave more care and attention to their personal appearance."

### The President's Sentimental Side.

This story illustrates the sentimental side of President Cleveland's nature. There was a certain officer in the service who had been tried by court martial. The officer was sent to prison, and was in a fair way to remain there until the expiration of his sentence. The member of congress from his district did all in his power to have him pardoned, but it was of no avail. The department said that he did not deserve to be pardoned and Mr. Cleveland agreed with the department. All sorts of argument and every possible political influence was resorted to, with no avail. It was useless and everyone gave it up except the member of congress who had first taken an interest in the case. This member went to the white house regularly every two weeks for about a year to make a formal petition for pardon. The president was amiable with the congressman, but always firm, and each time gave the same answer. Then it came about that Mr. Cleveland participated in some dedication ceremonies in New Jersey. In his address the sentimental spirit was awakened, and he uttered some moving sentiments concerning his mother. The member of congress read the address in the papers the next day and on the day following that went at once to the white house.

"I have come," he said to the president, "to ask for the pardon of—"

"I know," replied Mr. Cleveland. "I know what always brings you."

"Yesterday morning," the M. C. continued, "I read your address. I read your beautiful reference to your mother. I have never read or heard uttered anything which showed more feeling or to equal it. Now, bear me through. It was that which brought me here this morning. This young man has a mother. She is now dying of a broken heart. Unless this only son is pardoned and goes to her at once, he will not see her alive. She loves him above all things on earth. His pardon may prolong her life a short while, and it will render her dying hours happy. In the name of your mother—the mother of whom you spoke so lovingly—I ask you to grant the pardon."

"I will," was all the president replied, and the pardon was granted.

### Turkey Has a Woman's Paper.

Turkey has a newspaper devoted to the interests of women. It has just been started, and although it is at present edited by men, it has some women permanently attached to the staff. Fatma Alle Hanoum, daughter of the late Djavid Pasha, and two other Turkish ladies, who have earned a high reputation in the Mussulman world of letters, have promised their support to the new venture. Besides illustrated articles on fashion and other subjects especially interesting to women readers, the paper contains local and foreign news.

## For Thin Children.

Children are always thin and pale when they do not assimilate enough fat. This seems strange, perhaps, but it is literally true. Unless there is a healthy assimilation of fat food the blood becomes depleted, tissues waste away, vitality becomes low and the body languishes for the need of proper nourishment.

## Scott's Emulsion

is useful to children, especially in two ways. It is Cod-liver Oil emulsionized, thus being easily assimilated and rendered palatable, with the Hypophosphites of Lime and Soda added to tone up the nervous system and nourish the bones. This combination of these potent nutrients is just what thin children need to give them flesh, color and vitality. Almost all children like it.

CROSS-EXAMINATION

Could Not Weaken Such Testimony As This.

(From the Kalamazoo Telegraph.)

The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken down by our representative:

"My name is John A. Wallace. I am a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 109 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months I have been having attacks of kidney complaint, the pain in my back over my hips was very severe at times; my urinary system was also in a bad state of derangement, sometimes the urine was scanty and then again the amount would be excessive, and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I am now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am continuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. I have unbounded confidence in Doan's Kidney Pills as a remedy for all kidney ailments; have good reason to be, as they have done so much for me."

Can you ask any more than this? Doan's Kidney Pills are relieving more backs of the burdens they have been forced to bear through the kidneys than all other means devised, and, better still, they are doing this right here in Michigan. Ask any one who has ever taken them and see what they will say.

LITERARY NOTES.

A new and corrected edition of Mental Development in the Child and the Race, by Prof. J. Mark Baldwin, of Princeton, will be published at once by Macmillan & Co.

The new volumes in the edition of the novels of Ivan Turgenev, translated by Constance Garnett, and published by Macmillan & Co., contain A Sportman's Sketches. Turgenev began his literary career and won an enormous popularity in Russia by his sketches from peasant life. These volumes contain some of the best of his short stories, and gain a special interest from the influence they had upon the action of the late Czar in his more kindly treatment of the serfs.

The Nature of the State, a study in Political Philosophy by Westel W. Willoughby, Ph. D., Lecturer in Political Science at the Johns Hopkins University, is a work lying within the field of pure political speculation and developing a complete system of political philosophy, and as such involving the determination of the rational origin of the State, its essential attributes, powers, and aims, the nature of sovereignty and its location in the body politic, the nature of positive law, and other such theoretical questions. By means of a rigid definition and use of terms, the aim has been to furnish the fundamental principles upon which must necessarily be based the analysis and juristic construction of the complex political conditions (especially those presented by the so-called "Federal" or "Composite" State) that characterize the present day.

The October Forum is a number of unusual interest. The following are some of the leading articles: The Present Aspect of the Silver Question, Hon. Charles S. Fairchild; Well-Meant but Futile Benevolence: The Remedy, Charles F. Thwing; Significance of the English Elections: A Crisis in English History, Sir Herbert Maxwell, M. P.; Causes of the Liberal Defeat, George W. E. Russell; The Renaissance in English, Richard Burton; Demand and Supply under Socialism, W. H. Mallock; The Resuscitation of Blue-Laws, Louis Windmuller; Political Leaders of the Reconstruction Period, ex-Senator E. G. Ross; Higher Pay and a Better Training for Teachers, Jno. Gilmer Speed. The Forum Publishing Co., 111 Fifth Ave., New York.

The Art Amateur is offering three months free to all persons sending in their subscription before January 1st. And looking at the October issue, now before us, we should certainly say that it is an offer well worth accepting. A better or more instructive number than this for the art student or art lover one could scarcely imagine. It fairly teems with practical information. Beginning with the color plates, we find an exquisite panel of American Beauty Roses, which is accompanied by another plate showing the progressive stages of painting it. This is an unique feature of The Art Amateur, and showing, as it does, "how a real artist paints a picture," it is simply invaluable to those learning to paint without a teacher. All this is merely supplementary to the magazine proper. In it we find the first of a series of articles on "Elementary Drawing for Beginners;" on "Drawing for Advanced Students;" on the various methods of reproducing drawings for illustration in newspapers and magazines; "Hints to Young Sculptors," Flower Painting, China Painting, Wood Carving, etc. For "The House" we find a view and description of a charming though inexpensive Dining-Room. Price, 35 cents. Montague Marks, Publisher, 23 Union Square, New York.

LABOR NOTES.

The stone work crafts are active in organizing again. The printers chartered seven new unions last month. Two A. R. U. unions were organized in Minneapolis. The laundry drivers of Chicago have organized a union. The large iron works of Pennsylvania have work for a year ahead. The molders have issued twelve charters since their annual convention. The new bicycle workers' national union starts out with 20,000 members. Barbers of Minneapolis have formed a union with eighty-seven charter members. In the province of Mogilev, Russia, eight-hour experiments are proving a success. The use of convict labor is increasing in Germany, according to consular reports. Honolulu Typographical Union is the only labor organization on the Hawaiian Islands. A union label league, composed of unions having a label, has been formed in Chicago. The Minneapolis Trades Council has decided to hold open meetings for the next three months. The journeymen plumbers and gas-fitters held their state convention at Minneapolis last week. Federal Labor Union, of Cincinnati, holds open meetings to discuss political and economic questions. A large number of unions of clerks have been formed in different cities since their late convention.

Children Cry for Pitcher's Castoria.

FIGHTING FOR STURGEON.

It is Good, Hard Work to Pull One of Them In.

The fishermen along the river at Essex and Saybrook are now engaged in sturgeon fishing. Few are aware of the methods used to catch this monster of the waters, for a monster it surely is, often weighing 600 pounds or more. The sturgeon fisherman is compelled to use good judgment and master his prey when caught, for the fish are desperate as well as powerful. The net is of the same style as an ordinary fishing seine, the meshes being fourteen inches square of twenty-seven thread twine. This thread would not be sufficient to hold the fish when caught because of its great strength and shape, but no sooner is it caught in the seine than it becomes entangled in the loose twine and the work of landing him in the fishing boat begins. The fishermen know when the fish is in the net, for the seine corks begin to sink and dance on the water, as though electrified. Two fishermen in the boat approach this troubled spot, gradually haul in what is known as the cork line and the monster is raised till the lantern reveals its position. Then the hatchet is used on its head with repeated blows, after which the fish is allowed to remain submerged for a time until life is thought to be extinct. But the fishermen are often deceived, for the sturgeon may have been playing possum, as Mr. Daniels and Mate Brockway, of Hamburg, will testify. They recently had a midnight encounter with a 450-pound sturgeon, which, after being safely landed in the boat, came to life in good shape and proceeded to take charge not only of the boat, but of the crew in such a manner that the frightened fishermen started their boat for shore and finally reached it, but neither was able to tell how, so excited were they. The fish lived two hours and wasted no time; it succeeded in breaking two of the boards and one oar, as well as tearing the sail which was stowed in the forward part of the boat. This fish was considered one of the most desperate kind of the sturgeon species, being known as the "bull nose," which does not often leave salt for fresh water. In gone-by shad fishing days when a sturgeon got in a seine with a shad it was always sure to liberate the whole catch by tearing a large hole in what is called the "bust." These fish are always dreaded by the shad fishermen. Their time for visiting these waters is from the middle of June to the first of September, and, like the swallows, all go—or seem to go—in one day.—Hartford Courant.

THE CURFEW BELL.

16. Origin and Its Revival in Portion of This Country. Philadelphia Press: The curfew bell movement, which has become such a craze in the Northwest especially in Minnesota and the Dakotas, has been the subject of an investigation by a Chicago newspaper, which finds that everybody is pleased with the new law. The curfew was established in England by William the Conqueror. All legal obligation in reference to it was abolished by Henry I in 1100, but for some time after that it was used as a call to prayer. Its renaissance in Scandinavian America is curious. Yankton, S. D. reports that although at first the law had few supporters the children now favor it, and the law is a success. This is the experience in Aberdeen, S. D. In this town, in case of excursions, parties or any worthy public entertainment the mayor takes opportunity to formally grant permission to the children to attend beyond the hour of 9 o'clock. Anoka, Le Soem, Stillwater, Northfield, Morris and Hastings, all Minnesota towns, report the curfew law as a great success, and that it is self-enforcing. The curfew ordinance is very much alike in all cities. It provides usually that all children under 16 years of age shall be home between the hours of 9 p. m. and 5 a. m. each day under penalty of first being taken home by the police, and second, a fine or imprisonment or both. At nine each day a policeman causes nine taps to strike on the fire bell as a signal to all under 16 who are unaccompanied by their parents to go off the streets. Immediately a scattering in all directions is noticed, so the general testimony runs, and in a few moments not a child is to be seen on the corners. No difficulty has been experienced nor opposition offered from any quarter in carrying out the details of the ordinance. In fact, every encouragement is offered to help in enforcing it.

A WONDERFUL DOG.

Tennessee Canine Which Imitates the Cries of Numerous Animals.

While on a trip through Moore county of this State recently I was the guest of the Rev. Frank M. Downing, who lives in the neighborhood of a small settlement called County Line, says the St. Louis Globe-Democrat. His family consists of himself and wife and a small yellow dog, which I noticed received an unusual amount of care and attention. As there was nothing particularly attractive about the dog, which was only a mongrel cur, I rather wondered at their manifest affection, and one day inquired the reason of it. Mr. Downing, for answer, called "Bench" and placing him in a chair, commanded him to "crow." My astonishment was unbounded when the dog gave a perfect imitation of a Shanghai rooster, and without further command, followed it with the neigh of a horse, lowing of cows, grunts and squeals of pigs, meowing of cats and various noises incident to farm life. He could give all the yelps of a pack of hounds in pursuit of a fox and in so realistic a manner that you could scarcely help believing that a hound was in progress. Mr. Downing said nobody had taught the animal and his peculiar imitative powers were discovered by accident. The summer previous, when Bench was a mere puppy, the Rev. John Melcom, the preacher for their circuit, was ill at Downing's house and was made extremely nervous at night by a rooster crowing at all hours beneath his window. The people who were attending could not discover the rooster, but one morning Mrs. Downing, in passing the window, was startled by seeing the puppy throw back his head and crow. She hastened to relate the circumstance to her husband, who was incredulous and carefully watched the dog. He quickly corroborated his wife's story and for some time the neighbors flocked to see the wonderful dog. He quickly learned to crow at command, and each day picked up some new sound. Last November a neighbor of Mr. Downing's carried Bench to Nashville, while the circus was there and the manager offered a handsome price for him, saying that he was convinced Bench could be taught to talk, but Mr. Downing refused to give him up.

In appearance Bench is not prepossessing, his color being a dirty yellow, his hair coarse and wiry, his legs short and his body rather unwieldy. In his eyes, however, there gleams an intelligence almost human.

The next lecture before the Unity Club will be given next Monday evening by Ex-Congressman Allen upon "The Greatest American." Captain Allen's well known reputation as an orator should assure him a large audience. His subject the "Greatest American" is a capital one and his discussion of it will be of interest to all.

As THE REGISTER predicted some time ago would be the case, the Board of Education is now confronted with the question of room in the school buildings due to the enforcement of the truant law. A new building will certainly have to be erected in the seventh ward, while several of those now in the other wards will need to be enlarged.

The ladies claim that they won a great victory over Santanelli's hypnotic claims. They gave one of his subjects a hearty dinner and then allowed him to be put to sleep and sat by his bedside for eight hours to see that he ate nothing else. A stomach pump was then applied, but the food was all digested notwithstanding the claims of Santanelli to the contrary.

Rt. Rev. Bishop Gaylor, bishop coadjutor of Tennessee, has been asked and has consented to deliver the lectures before the Hobart Guild this year. There will be four lectures in the course. The first one will be delivered Sunday evening, Dec. 8. Two more will be delivered in Harris Hall during the week and the fourth Sunday evening Dec. 15.

The Board of Education have authorized the employment of an assistant janitor to look after the steam heating apparatus during certain hours of the day when Mr. Mummery, the regular janitor is engaged in other work about the High School building. The explosion in the Journal building in Detroit has warned the board that it is not safe to leave the boilers without an attendant.

Tuesday morning THE REGISTER was handed tickets to the Choral Union series of concerts. THE REGISTER has already given considerable space to advertising this series and expects to give more. What has already been given is worth \$25.00 if it is worth a cent. The tickets received were in consideration of this advertising, and yet they were stamped "Complimentary!" We wonder how some people are constituted.

Vernor Powell, a farmer from York brought a beef to Ann Arbor last Saturday and sold the same for \$33. He then proceeded to load upon Ann Arbor budget and slept off the effects in a room over Polhemus' saloon. When he waked up his cash was gone. He notified Marshall Peterson who arrested Fred Cullom and two women. Cullom and one of the women were soon discharged and the other bound over to the circuit court for keeping a disorderly house.

**God's Will.**  
"Since God doth will that some shall dwell at ease,  
And others shall know hardness, this is sure,  
The lot that fits each nature He foresees;  
And wherefore murmur when we must endure?  
Some day His loving wisdom will be plain  
As the sweet sunshine following after rain."

AMONG OUR NEIGHBORS.

CHELSEA HERALD.

Mr. and Mrs. D. N. Rogers, of Stockbridge, called on friends here Wednesday.

Mrs. Gus Warren left for Chicago last week, where she is filling an engagement at one of the museums.

Married, Nov. 13, 1895, at the residence of Mr. and Mrs. A. A. Weeks, Grand Rapids, Mr. James S. Allyn to Mrs. Susie Cathcart, both of this place.

H. D., the four-year-old son of James H. Runelman, came very near being drowned last Friday morning by falling into a cistern which contained several feet of water.

MANCHESTER ENTERPRISE.

There has been a good deal of money spent for improvements in this village this season, and our citizens are not done yet.

Work on the city hotel continues and Landlord Reichert hopes to soon have the place in condition to accommodate the traveling public in good shape.

John F. Spafard went to Chicago last week and bought 450 large Montana sheep and brought them here Saturday night on the special train. He will feed them for market.

This is not the only town that is in trouble on account of the unsatisfactory manner in which the electric lights are run. Chelsea has twice been in darkness on account of the breaking of the engine in the electric light plant.

CHELSEA STANDARD.

Miss Nellie Hall entertained a few friends at her home on South street on Friday evening.

Mrs. Henry Frey died at her house on Main street, Tuesday morning, after suffering for a long time with consumption. Her husband and one child survive her. The funeral was held Thursday at her late home.

Austin Youum, well known to Standard readers, has entered the mercantile business at Manchester, having, with a friend, opened a dry goods store. Mr. Youum's many friends here will wish him success in his venture.

People are anxiously waiting for news from Bob Ingersoll, as to whether he has accepted the Christian religion or not. It is said that a number of years ago he made the declaration that if Kentucky ever went republican he would change his religious views. The time has now arrived for Bob to step out and prove himself a man of his word.

SALINE OBSERVER.

Ernest Rhodes was in Ann Arbor Monday night to take his Royal Arch degree in masonry.

E. A. Hauser, for the town of Saline was last Saturday summoned by Clifford Shaw to appear in the Circuit Court, December 3d next, to answer to a \$10,000 claim for damages, which he (Clifford) received last winter.

Who said that J. M. Gross was not in luck? In the corn prizes offered by Lindenschmidt & Apfel at fair time, Mr. Gross comes in for the suit of clothes marked first prize. There were in all 172 entries. J. Blaess, of Lodi, takes the second and the third is claimed by Wm. Bolgos, of Ann Arbor. The first prize is a \$15 suit of clothes.

S. T. Fairbank this morning received a letter from his brother-in-law, S. M. Miller, who is with the sawmill boys in the north woods, saying that he had killed a deer, and that he had expressed it to Mr. Fairbank with instructions how to eat it. Now watch S. T. for a few days and see if he does not get some of the shy pranks of the deer family and give a header to some of his friends.

DEKETER LEADER.

Henry M. Wood and Miss Orza M. Placeway, both of Unadilla, were married Nov. 7th.

John Springmann, of Lodi, who was badly shot at the battle of Gettysburg, has had his pension restored through W. K. Child's agency. The pension was withdrawn last December through a misunderstanding of his record.

Poor sidewalks come high. Pauline Oesterle, by her next friend, Tuesday, brought suit in the circuit court against the village of Chelsea for \$10,000 damages. Last winter the plaintiff was severely injured by a defective sidewalk. The village fathers refused to settle.

Miss Olga Jedele celebrated her 18th birthday anniversary in a very appropriate and enjoyable manner last Monday evening, by entertaining at her home about fifty of her friends of Dexter and vicinity, including the senior class of the High School, of which she is a member. Guests were also present from Ann Arbor and Chelsea. Vocal and instrumental music, light refreshments and various other amusements furnished a very pleasant evening entertainment, highly appreciated by all. Miss Jedele was the recipient of several beautiful birthday presents.

YPSILANTI SENTINEL.

Mrs. M. T. Woodruff returns today from a short visit with her parents at Ovid.

If Smith's jokes in the last Monroe Democrat were as poor as the print, the Sentinel is glad the paper was illegible.

James Thomas, killed in the explosion at Detroit Wednesday last, was a brother-in-law of Charles Brown and Mrs. C. M. Warner of this city.

The students of the Cleary Business College are to have a gymnasium, the old Presbyterian church building on Ple son street having been secured for their use.

A slight blaze at the residence of Herbert Clauson, Thursday evening, was the cause of a fire alarm. It was extinguished before the fire department arrived at the scene.

The filling in of a trench near the new training school building was the cause of a break in a six-inch water main yesterday, and before the pumps could be stopped and the tower supply shut off, considerable damage was done. A section of the foundation wall was injured so it must be retold, and dirt was washed upon the motor track for a block.

POINTED LETTER.

A Peep Into Some Business Correspondence.

In reply to a letter from a minister in New Jersey who had inquired regarding some nourishing and healthful drink that would take the place of coffee for those who had been injured by coffee drinking, the following statements were made: "Our Postum Cereal is a food drink which looks like the finest Mocha coffee and has the fragrant aroma. It creeps up with the golden brown color of old Java, and really seems to the coffee drinker a veritable cup of the much loved beverage, but it is made wholly and entirely of grains, and is decidedly fattening and nourishing. The stomach troubles and bowel and liver complaints disappear under its use, for the reason that the real coffee, which contains the same poisonous alkaloids as strichnine, tobacco, whiskey and morphine, has been dismissed, and pure food in a liquid form taken in its place.

Postum Cereal is shipped to physicians, and by order of physicians, to various parts of the country; a package containing enough for 50 cups is sent for 25-cents, postpaid; 12 packages by express prepaid, \$2.50.

It is used by the children and their parents freely with good results. It is highly recommended by the medical profession and others, but we take the position that a preparation that is made of nature's pure grains alone, needs no human endorsement. It has its health certificate from a higher source. Very respectfully, Postum Cereal Co., Lim., Battle Creek, Mich.

WHEN THE CHILL MISTS OF THE MORNING

Hang like a pall over the surface of the earth, if will be well for you before venturing into the raw vaporous air, charged, perhaps, with the seeds of malaria or provocative of rheumatic twinges, to take a wineglassful of Hoffstetters Stomach Bitters, and thus shield yourself from atmospheric influences threatening to health. If you happen to get snowed, sleeted or rained upon, use the same preventive, and avoid the rheumatism or a dangerous cold. The agreeable warmth infused into the circulation by this genial stomachic, its invigorating and regulating properties commend it to all appreciative of the fact that prevention is better than cure. Use the Bitters for dyspepsia, biliousness, nervousness and kidney trouble, sick headache and debility.

LABOUCHERE'S LITTLE JOKE.

Notice—Several influential dowagers have combined together to charter the steamship Frisco, 6,000 tons, for the purpose of conveying a cargo of disappointed British girls to America, with a view of disposing of them advantageously in the states. Attention is earnestly requested to the circumstance that presentation at court is desirable, since importance is attached to this social formality across the Atlantic, and ladies who have attended a drawing room may, therefore, be expected to obtain more satisfactory terms than those who have not. The steamship Frisco, according to present arrangements, will sail from Southampton for New York on October 15th next. Speech Restored.

For five years I suffered with pain and discharge of the throat, hacking cough, frontal headache, weak eyes, etc., at times could not talk above a whisper; lost weight continually, and not able to be at work. I was treated by the best physicians in the country, but received no relief. After giving up all hope I was recommended to use a bottle of Mayers' Magnetic Catarrh Cure. After using it for four weeks my speech returned. All symptoms of catarrh have disappeared and "I feel like a different person."

SHARKS IN BALTIMORE WATERS.

Great numbers of sharks are gathered at Curtis Bay, Baltimore, where they are said to have thinned out the sible fish and kept the fishermen from making money. Col. Godfrey Eagle, chief engineer of the sugar refinery, has tried to snare the sharks with pork. He had a large steel hook made on which he put five pounds of meat, and then tied it with a line to the pier. He caught many soft shell crabs, but no sharks. Now the Curtis bay folks are talking of using live dogs as bait. It is notorious that a shark will risk his life for a live dog, even if he is yellow and without a pedigree. There is plenty of material at the bay in the shape of worthless dogs. The scheme is to hide the hook behind the animal so that the shark won't see it. William Lowry, a shark fisherman, says that he never saw so many of them in his life. They round up the fish under the sugar refinery pier and then wait for them to come out or die.

Mrs. Jos. Bailey, Cedar Springs, Mich., says: "Adironda." Wheeler's Heart and Nerve Cure, is the best medicine I ever had in my family; it never fails." Sold by all druggists.

QUEEN WHO CLIMBS MOUNTAINS.

That famous royal climber, Queen Margherita of Italy, converts herself into a Tuscan contradina when she climbs the mountains around Gressoney. Her costume consists of a short, full petticoat of the brightest scarlet, a close-fitting black velvet corsage, with laces across the shoulders, and large sleeves of cambric. Black silk stockings were worn and low shoes with handsome old silver buckles, and a heavy chain, also of silver, hung round the neck and down to the waist. The unrivaled headpiece of white tulle falling on to the shoulders and fastened to the hair by large liver pins, which is now unfortunately so rarely seen in its native home of Italy, rested on the Queen's beautiful hair and completed as charming a costume as any painter might wish to depict.

Hang like a pall over the surface of the earth, if will be well for you before venturing into the raw vaporous air, charged, perhaps, with the seeds of malaria or provocative of rheumatic twinges, to take a wineglassful of Hoffstetters Stomach Bitters, and thus shield yourself from atmospheric influences threatening to health. If you happen to get snowed, sleeted or rained upon, use the same preventive, and avoid the rheumatism or a dangerous cold. The agreeable warmth infused into the circulation by this genial stomachic, its invigorating and regulating properties commend it to all appreciative of the fact that prevention is better than cure. Use the Bitters for dyspepsia, biliousness, nervousness and kidney trouble, sick headache and debility.

About Knives.

A cheap Pocket-knife can be bought at every Store, but it is not the kind you want.

One dollar is the lowest price that a really good knife can be sold for. This dollar is placed in this paper to advertise the very best Pocket-knife ever sold. It is J. C. TIMMARSH'S Sheffield Steel Knife.

Never buy a knife only because it looks well. If blades are not the best Sheffield steel they will soon bend, no matter how they will look. Still, you want a fine-looking knife.

The United States law provides that only samples to agents and to the trade will be admitted free of duty. You can, therefore, see the advantage that I have in sending samples to agents over those who deal in Sheffield goods in America.

I am an advertising agent! I am entrusted with a certain amount to spend advertising these knives (the best value ever seen in America at One Dollar each). Now, the knife is its own best advertisement.

Imagine a Pocket-knife (3 1/2 inches long) with the most beautifully-grained ivory handle—genuine African Ivory mand with two blades of the very best Sheffield steel that will last a lifetime and cut like a razor. The tips of the handles are heavily plated with sterling silver. And then a very nice chamois leather case goes with each knife. Now, could it not be easy work selling this knife at One Dollar each? I know it would, for it looks as if it were worth two dollars.

And so it is if you compare it with the value offered in the ordinary Store.

Is not this knife its own best advertisement?

You can make \$1 per day selling these knives. This is a genuine and straightforward statement. This is counting that you show it to only twelve buyers every day. And every one that sees it will say it is a good value for \$1. The knives are sold for you at \$8 per dozen; you sell them at \$9 each.

I determined to use large sums of advertising money entrusted to me in sending out free samples to those who promise to act as agents for the sale of these knives.

I will send you a free sample, but you must sign the promise at the foot of this column, and make a deposit to show that in asking for the knife you are acting in good faith.

The deposit that I ask of you is 40 cents about half the wholesale cost of the knife, and less than one-third what you would have to pay for a knife like it, if you bought one.

Send the money by a Postal Order or one-cent stamps for 40c., and put a five-cent stamp on the letter, which must not weigh more than one-half ounce.

The deposit of 40 cents will be placed to your credit, and will be deducted from your first order at the dozen rate.

I am an advertising agent, contractor and publisher with one of the largest Advertising businesses in the world, and absolutely guarantee to send, postage paid and duty free, the knife described above free to anyone who signs the promise below, and sends it with the deposit as stated.

Let me advise you not to part with your sample, even if you should lose a sale at \$1 by refusing, as it will take time to replace it. I could not send you another even if you sent the full \$1. After the sample they can only be supplied to you by the dozen as there is duty on them to be paid.

Any English Banker can give you information about my high standing, or write to the publisher of this paper, who knows that I do a large and straightforward advertising business, and that I do exactly as I say.

I have taken this space in this paper for three years! The first one answering this advertisement after this number of the paper has come out will, if he likes, have his name printed in this space as agent for these knives.

The Editor of the Springfield (Ohio) New Era writes, in his paper of June 29, 1894:—"I have received a sample knife from Mr. Sears, and am very much pleased with it. He is the owner of a very large advertising business in London, and is, I believe, perfectly responsible and straightforward."

Sign your name and address to the following, cut it out and send it with Postal Order or stamps for 40 cents, and you will receive by return of post the beautiful knife as described above.

F. W. SEARS, ADVERTISING AGENT AND CONTRACTOR, WHOLESALE KNIFE ADVERTISING DEPARTMENT, 138 FLEET STREET, LONDON.

DEAR SIR,—I faithfully promise on my honor to show the Sample Knife you have promised to send me to one or more of my friends, thereby constituting myself an agent. This will make me "in the trade" as far as Pocket-knife is concerned. By this promise I am entitled to a sample of your beautiful Dollar Pocket-knife with chamois leather case, to be sent me post-paid and duty free. I also enclose 40 cents Postal Order or stamps, which please hold for me until I send you an order at the dozen rate.

RELIGION AND REFORM.

Salvation Army work has penetrated Denmark. It is said there are no religious periodicals published in Idaho. All branches of Protestantism have in Europe an estimated membership of \$0,812,000.

Rev. D. S. Gregory, D. D., LL. D., has succeeded to the editorship of The Homiletic Review. About two-thirds of all the Protestants in the world belong to the Anglo-Saxon race; that is, 109,000,000 of the total.

If all Christians of every denomination were to attend service on one Sunday, that day would witness an audience of 477,080,158. Twenty-one temperance associations have been formed in India during the past winter with an enrollment of 2,000 new members.

There are 230 societies for the prevention of cruelty to animals and children in the United States and Canada, with a membership of a million. The Havre chamber of commerce have petitioned the director of customs to abolish Sunday work on board ships, save in cases of urgent necessity.

Not a woman's name was signed to the petition favoring re-submission of the prohibitory amendment in Kansas. There were 22,000 men's names. That abstinence from intoxicating liquors be required as a condition of pardon is the recent wise recommendation of the Ohio state board of pardons.

Sir William Vernon Harcourt, though defeated in Derby, was returned to parliament on a temperance platform by a majority of 7,000 from West Monmouth. A minister of the gospel once approached President Lincoln for an office, and was told that he could give him no better office than he had already held.

Instant Relief for That Choking Sensation in Catarrh.

A pain in the head is not always headache, quite frequently this pain is caused by an inflammation that has excited in the passages of the head and the pain is from this inflammation. This is catarrh, and in this country there are few people who are not afflicted with it in some form. The passages sometimes become so clogged from this inflammation that the mucous matter cannot find any egress, and the painful hawking and choking is simply nature's effort to create a passage.

Pretzinger's Catarrh Balm is a salve containing healing camphors that instantly all the inflammation. Catarrh of the head, where it is of long standing, and where scabs have formed in the mucous membrane, or where the disease has reached the stage where the membrane is rotting and the stenches from it is insupportable, requires more than one bottle to effect a cure.

Pretzinger Bros., Chemists, Dayton, Ohio, will send small sample on receipt of two-cent stamp. As a rule, a good husband is a settled husband. A man's sins will not find him out as soon as his wife.

AS TO APPARITIONS.

Mark Twain Has an Experience in Thought Transference.

A great many people are being converted to the claims of mental telegraphy. Mark Twain gives a number of curious experiences in Harper's Magazine which indicate telepathy. Among them is the following: "Several years ago I made a campaign on the platform with Mr. George W. Cable. In Montreal we were honored with a reception. It began at 2 in the afternoon in a long drawing room in the Windsor hotel.

Mr. Cable and I stood at one end of the room and the ladies and gentlemen entered it at the other end, crossed it at that end, then came up the long left-hand side, shook hands with us, said a word or two, and passed on, in the usual way. My sight is of the telegraphic sort, and I presently recognized a familiar face among the throng of strangers drifting in at the distant door, and I said to myself, with surprise and high gratification: 'That is Mrs. R.; I had forgotten that she was a Canadian.'

His unparalleled offer to consult with anyone, free of charge, by letter correspondence, is doing wonderful good. If you have any complaint which you do not thoroughly understand, and which you would like cured, write the Doctor a letter stating just how you feel and what symptoms trouble you. He will answer it, giving a complete description of your case, explaining the meaning of every symptom, and telling how you can surely get well and strong.

FASHION'S FANCIES.

The very short sleeves for evening dresses have revived the fancy for bracelets. The most fashionable shoes are made with extremely long pointed toes, which look anything but comfortable. Patent leather and silk-topped shoes will be worn with the very short walking skirt for winter.

New bonnets are described as being no larger in size than those now in vogue, but more attention is being given to the ornamentation. Among the newest hats worn by the bicycle girls are the white canvas Tam O'Shanter caps.

A new style of cycling coat is cut like a man's dress coat, and is made double-breasted. It is fashioned so as to cover the saddle, and looks extremely well worn by a thin woman. A black alpine hat with a cock's feather at the left side has been adopted as part of the cycling costume by women who desire to attract attention.

White tulle, always a becoming and beautiful material for young girls, is to be in vogue the coming season for ball and party frocks, and as the best is an expensive material it will not become common. Valuing materials in new fabrics have come for the autumn days, and they are, no doubt, gladly welcomed by the women who have complexions that were a sin to expose to sun and wind.

Where He Wrote His Will. Strange things happen in Florida. A recent instance is reported by the Times-Union of Jacksonville. One of the queer documents in the office of the county judge is a will written on a piece of unpainted plank five feet long and one foot wide. The plank was sawed out of the house of Mrs. Arnold, who lives just outside the city.

GOOSE-PLUCKING IN HESTER.

The Profit Is in the Sale of the Feathers of This Fowl.

Passing through Hester street a few evenings ago I paused before a steep flight of steps leading down into a cellar room beneath a tall, overcrowded tenement, says the New York Herald.

There were four occupants, a man, woman, girl and boy, all Russian Hebrews, and scantily dressed. The woman and children were seated upon the floor, amid a mass of geese, which they were busily engaged in plucking.

CATARRH DESTROYS

Any Part of the Human Body—Head, Throat, Lungs, Kidneys, Stomach.

Catarrh attacks any part of the human system. Not only are the head and throat liable to catarrh, but all other parts of the organism may be affected by it.

Martin Schott, of Breckenridge, Minn., had catarrh of the head six years and Pe-ru-na promptly relieved him; Mrs. T. V. Rogers, Flushing, Mich., was completely cured by Pe-ru-na of acute catarrh of the lungs (pneumonia), following la grippe, after she was given up by two physicians; W. H. Wilson, Comanche, Texas, catarrh of the kidneys cured by Pe-ru-na; Mrs. James Freeman, Temple, Texas, cured of catarrh of female organs by Pe-ru-na; C. G. Bastian, Wayne, Neb., catarrh of liver, cured by Pe-ru-na; Joseph Bower, Medina, Ohio, catarrhal deafness, Jerry Harrington, Eau Claire, Wis., catarrhal dyspepsia, both of whom were cured by Pe-ru-na. So the list might be lengthened indefinitely.

BIYCLES, WOMEN, INSURANCE.

The Wheel More Eligible to Policies than Their Brave Riders.

The bicycle that has let down the bars of conventionality in attire for women has superseded her, I believe, in eligibility to insurance. You can insure your bicycle and collect indemnity that will pay for repairs, and in case of wreckage the wheel will be replaced, writes Hargot Cabeon. This is more than can be said for women as far as accident insurance is concerned.

However, the reputable insurance companies, or one of them, at least, has recently dropped the extra rate they have always claimed from women, thereby placing them on the same level as the male risk. The new woman will regard this as interesting news.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by John Moore, Druggist Ann Arbor.

A MISSIONARY SCHOONER.

Building by the American Board to Ro place the R. W. Logan.

A new schooner is building by the American board of commissioners for foreign missions for the use of missionaries on the island of Ruk, in the Micronesian group in the South Pacific ocean. This vessel will take the place and name of the R. W. Logan, a missionary craft of the same character, which was lost two years ago on a voyage to Ruk from Yokohama, whither she had gone for repairs. Her captain and crew went down with her, probably in one of the fierce storms which now and then sweep the Southern ocean, says the New York Sun. It is expected that the new schooner, at present building in San Francisco, will be launched in the early part of next month. She will be commanded by Capt. Isaiah Bray, for many years commander of the Morning Star, the fourth vessel of that name to be built with money provided by the children of the Sunday schools of the Congregational church in the United States. The R. W. Logan will be of about 50 tons burden, its work being supplementary to that of the larger vessel, the Morning Star, in transporting the missionaries to and from the islands in the archipelago. Its cost will be about \$5,000, which has been provided almost entirely by the insurance money obtained after the loss of the former schooner.

ORIGIN OF SONGS.

"Cheer, Boys, Cheer" was the work of Charles Mackay, the music being by Henry Russell. It was the outcome of an evening of conviviality in 1843.

"What Are the Wild Waves Saying?" a duet that was once immensely popular, was suggested to Dr. Joseph Edwards Carpenter by the conversation in "Dombey and Son."

"Rule, Britannia" is usually credited to James Thompson. It first appeared in a play entitled "Alfred," by Thompson and Mallet in 1740. The air was by Dr. Thomas Arne.

"The Wearing of the Green" exists in several forms and versions. The best known one was written by Dion Boucicault, the dramatist. It is sung by Shaun the Post in "Arrah-na-Pogue."

"A Life on the Ocean Wave" was the work of Epes Sargent, an American poet, the idea being suggested to him during a walk on the battery in New York one day when a high wind was blowing in from the sea. It was set to music by Henry Russell.

"The Blue Bells of Scotland" was the work of Annie McVicar, afterward Mrs. Grant, the daughter of a Scottish officer in the British army. The melody was long believed to be Scottish, but is now known to be of English origin, being an old English folk-song.

"The Last Rose of Summer," one of Patti's favorite songs, was the work of Thomas Moore. The melody is a very ancient Irish tune, formerly known as "The Groves of Blarney." This tune has been found in collections of Irish music at least two hundred years old.

Old enemies, and new ones, in the guise of headache and neuralgia can surely and speedily be overcome with the assistance of Gessler's Magic Headache Wafers.

ODD HAPPENINGS IN REAL LIFE

A Western Passenger Train Held Up by a Swarm of Hornets.

A swarm of hornets held up a passenger train on the Chicago, Fort Madison & Des Moines railroad, and gave the trainmen and passengers a battle that will be remembered longer by far than if it had been against bandits, says an Ottumwa dispatch to the Cincinnati Tribune. The train was running slowly up a steep grade just outside the city, where the hillside is covered with trees. Suddenly Engineer Cunningham noticed a black mass moving through the air ahead of the train. Had he known what was coming he would have stopped his engine and asked to the next station. The small load soon developed into a swarm of hornets. The hornets noticed the slow-moving engine and made for it. They attacked the engineer and fireman, who were forced to stop the train. It was a sultry day and all the car windows were open. This gave the hornets an opportunity to enter the cars and pester the passengers. It was an hour before the trainmen and passengers succeeded in driving away the hornets. A number of persons were severely stung. The train stopped at a farmhouse until the injuries could be attended to and then proceeded to this city.

Some Deaths of Ninety-eight

Aug. 30, 1798, came near being the birthday of Irish liberty. The dashing Gen. Humbert had marched from the northwest coast of the Green Isle to strike at Dublin. He led 1,000 Frenchmen and a contingent of patriots denominated by the British as "rebels." At Castlebar the column was met by 6,000 regulars under Gen. Lake. Being confident of a sweeping victory Lake refused to make a plan of battle, but proposed to finish the invasion and the rebellion at one blow with a body of horse known as the "Fox Hunters." In fact, Humbert himself gave up the fight at the outset, but decided to go in just for honor's sake. Moreover, he would begin at once. The attack was headed by the Irish insurgents, who dashed among the British cannon pell-mell and in a twinkling were mowed down in swaths. Then up marched Humbert's French grenadiers, treading, with fixed bayonets, the bloody road and losing all semblance of a line of battle at the first volley. With the fragment of barely 500 men Humbert charged forward and so astonished the British that the infantry broke, the artillery fled and the invincible British horse stamped, maiming more of their own people in the mad ride than had been touched by the enemy's bullets and steel. Lake and his soldiers to a man fled for their lives, and Humbert pushed on to within a day's march of the goal without meeting an enemy.

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated 12th day of May in the year 1885 executed by Warren Babcock, Mary A. Babcock, Frank Babcock and Effie Babcock, his wife, of Milan, Washtenaw County, Michigan, to Margaret Kearney, of the City of Ann Arbor, Washtenaw County and State of Michigan which said mortgage was recorded in the office of the Register of Deeds of the County of Washtenaw in Liber 64 of mortgages on page 479 on the 13th day of May A. D. 1895 at 11:05 o'clock a. m. of said day.

And whereas, the amount claimed to be due on said mortgage is the sum of two thousand one hundred and six and twenty-seven hundredths dollars (\$2,106.27) of principal and interest and the further sum of twenty-five dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be due and unpaid on said mortgage and no suit or proceeding having been instituted at law or in equity to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of said premises therein described at public auction, to the highest bidder, at the west front door of the Court House in the City of Ann Arbor, in said County of Washtenaw, (that being the place of holding the Circuit Court for said County) on the 23 day of November A. D. 1895 at 10 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to-wit: All that certain piece or parcel of land situate and being in the township of York, in County of Washtenaw, and State of Michigan. Commencing at the south-west corner of lot one (1) of Edwards' plat in the Village of Milan and running south sixty-one and one-half degrees east along the south line of said lot and on the north line of Front street sixty-six feet, thence north twenty-nine and one-half degrees east parallel with west line of said lot one hundred feet, thence south sixty and one-half degrees east parallel with south line until it comes within forty-four feet of the east line, thence north-easterly to the north-east corner; thence north-westerly along the north line to the north-west corner; thence south twenty-nine and one-half degrees west along the west line of said lot and on the east line of Tolan street to the place of beginning.

Dated this 8th day of the August A. D. 1895. MARGARET KEARNEY, Mortgagee.

The Incomparable Chicago & Alton

In these United States of America at least, and it is highly probable that throughout the entire world, the official record for the safety and welfare of its passengers made and maintained by the Chicago & Alton Railroad cannot be surpassed if indeed it can be equalled. Over its completely rock-balanced, lustless roadway between Chicago and Kansas City, Chicago and St. Louis and St. Louis and Kansas City, eighteen magnificently appointed express trains are run on uniformly fast time every day. But in spite of this heavy passenger traffic the official records show that from December 4, 1879 to December 4, 1890, eleven years, there was no passenger, who was in place as a passenger, killed on Chicago & Alton trains. Moreover there was not a passenger seriously injured, to the extent of losing a limb, an eye or a member of any kind during that time.

During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four-fold, and special excursion trains were very many, there was not an accident of any kind—a most remarkable record.

Besides being America's most popular railroad, the Chicago & Alton is the Pioneer Dining Car Line, the Pioneer Pullman Sleeping Car Line and the Pioneer Palace Reclining Chair Car Line. Be sure that your ticket reads over the Chicago & Alton Railroad, when its matches and direct lines can form the whole, or even a part of your journey.

I even drank water with the prohibitionist party—and he's going to be right with us."—Washington Star.

Throat Cures With Grapes and Horehound. The noted old nurse, descendant of Holland Dutch, discovered that a certain combination of grapes with the Horehound Herb and the Root of E-campane made into a cordial will cure sore throats and coughs, and is excellent for colds, catarrh and all irritations of the bronchial tubes, and tonsils, throat, and for singers and public speakers. Druggists say the sales are immense, and it is doing great good. It is called Aunt Rachel's Elecampane and Horehound Cordial.

WOMEN MARRY THEIR JUNIORS

A Number of Reasons that Are Advanced for It.

A late conversation between a number of women chanced to fall upon the common occurrence of women marrying their juniors, says the New York Times. It was remarked that these marriages were almost invariably happy ones. One of the group ventured the opinion that the reason for this lay in the wisdom gained with years by the wife, and in the knowledge thus attained as to how to manage her husband. Another thought that a man always wanted his wife to be "mother" him, and was best satisfied when she did, while she was naturally satisfied by his satisfaction. A third was sure that to take care of others was a woman's true vocation and the secret desire of her heart, and that this calling was most entirely entered upon when the selfishness of extreme youth was past, and when the husband was younger than herself. Whatever the cause, the fact remains that of these matches, which do seem to be made in heaven, almost all make a little heaven below.

One of the talkers contributed her quota of the stories of remarkable differences in years between man and wife. A one-time Bishop of Maryland, she said, married a woman who had been one of his mother's bridesmaids, and who had made his own christening robe. He was so devotedly attached to her that when she died from extreme old age he mourned her memory, with no thought of filling her place, all the rest of his life.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, salivaceous distress after eating, headaches and lassitude. A salowness, distress after eating, headaches and constipation, and a little will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules mild and natural in their action. There is nothing injurious about them. Sold by druggists.

HOW LADIES TALK.

Mrs. Smith—"Oh! Mrs. Jones want you please tell me what makes your clothes so clear and white. I've noticed them every wash day and they always look so much better than mine."

Mrs. Jones—"Why, I have been using Dr. Miles' Blue now for nearly a year. Its just splendid and a 10c box makes a whole quart, always ready, no waste, no streaks, and the best I ever used. I could buy of my grocer but he's out and I just sent 10 cents the other day and got a box this morning from J. H. Taylor Owego, Otsego county N. Y. Any housewife who cannot get the above goods of her grocer will receive a box by following Mrs. Jones' directions. Buy of your grocer if you can."

NEW REMEDY FOR HEADACHE

Walking Backward Said to Be a Sure Cure.

"An excellent and never failing cure for nervous headache," is the simple act of walking backward. Just try it some time if you have any doubt about it.

I have yet to meet the person who didn't acknowledge its efficacy after a trial. Nobody has as yet discovered or formulated a reason why such a process should bring such certain relief. Physicians say that it is probably because the reflex action of the body brings about a direct action of the brain, and thus drives away the pain that when induced by nervousness is the result of too much going forward. Don't you know how at such times you have the feeling that everything in your head is being pushed forward? As soon as you begin to walk backward, however, there comes a feeling of everything being reversed, and this is followed by relief. The relief is always certain and generally speedy. Ten minutes is the longest I have ever found necessary. An entry or a long narrow room makes the best place for such a promenade. You should walk very slowly, letting the ball of your feet touch the floor first and then the heel; just the way in fact, that one should, in theory, walk forward, but which, in practice, is so rarely done. Besides curing nervous headache there is no better way to learn to walk well and gracefully toward the practice of walking backward. A half hour of it once a day will do wonders toward improving the gait of any woman."—New York Evening Sun.

It will not cure everything. It is not claimed that it will cure but one complaint, that is, dyspepsia. We cannot say that it will cure a large majority of them. Such cases as are adapted to its use will derive immediate benefit. One small bottle will be sufficient to test it.

The Shaker Digestive Cordial is especially adapted for emaciated or elderly people whose food does them but little or no good because it is not digested. The Cordial contains an artificially-digested food and is a digester of food happily combined. Read one of the little books which your druggist is now giving away and learn of this wonderful remedy.

A really palatable Castor Oil can now be had under the name of Laxol.

GREAT THOUGHTS.

The essence of lying is in deception, not in words. A lie may be told by silence.—Ruskin.

Let it make no difference to thee whether thou art cold or warm, whether thou art ill spoken of or praised, if thou art doing thy duty—Marcus Aurelius.

Hypocrisy is folly; for it is much easier, safer and pleasanter to be the thing which a man seems to appear, than to keep up the appearance of being what he is not.—Lord Brough.

Scriptural repentance is that deep and radical change whereby a sinner turns from the idols of sin and self into God, and devotes every movement of the inner and outer man to the captivity of his obedience.—Chalmers.

A man might empty a church tonight if he preached on justification by faith, or any of the grand, living, juicy doctrines of the old orthodoxy. One day we shall get tired of the new paste—then we shall ask for the old diamond.—Joseph Parker.

No wave on the great ocean of time, when once it has floated past us, can be recalled. All we can do is to watch the new form and motion of the next, and launch upon it to try, in the next our best judgment may suggest, our strength and skill.—Gladstone.

A devout thought, a pious desire, a holy purpose, is better than a great estate or an earthly kingdom. In eternity it will amount to more than have given a cup of cold water, with right motives, to a humble servant of God, than to have been flattered by a whole generation.—Dr. Cumming.

If a man could run out of debt as easily as he can run into it, times would not be so hard.

Farms on the Crop Plan. Do you want to buy lands in the far-famed grain-growing district of the Red River Valley of North Dakota. Remember that they are the best wheat lands on earth. Write to us and get particulars. We can sell you a farm and take pay from a share of the crop.—Grandin & Edwards, Mayville, N. D.

CHRISTIAN ECHOES.

If some people would do more thinking, their tongues would get more rest.

The prayer of the grateful man will please God, whether it pleases anybody else or not.

When men get in earnest about quitting their meanness, they stop asking who Cain's wife was.

The main reason why Paul kept the faith, was because he didn't try to do it in his own strength.

God's will done in earth as it is in heaven, is the only thing that can make earth like heaven.

A couple of quarreling church members can hurt the cause of God more than any sinner in the town.

Jesus knew what it was to be weary and disappointed, but he never complained that his lot was hard.

Can you say, "Forgive as I forgive," with as much earnestness as you say, "Give us our daily bread?"

No matter what business the Christian is in, he has no choice to be in it if Christ is not at the head of it.

The sermon that has nothing in it that comes out of the Bible, will never bring any persecution to the preacher.

The person you meet at camp meeting may think you are a Christian, but what does your enemy think about it?—Ram's Horn.
