

## OLD PIONEER GONE.

**WILLIAM MCCREARY PASSED AWAY SATURDAY AFTER-NOON.**

He Was One Of Our Oldest and Most Highly Respected Citizens—Was One of the Original Directors of the First National Bank—Owning All His Early Bank Associates—Accumulated a Comfortable Property—Two Daughters Survive Him.

William McCreary, one of our oldest and most highly respected citizens passed away at half past two o'clock last Saturday at the age of eighty-five years and six months. Mr. McCreary was born in Londonderry, in the north of Ireland, in 1810. He came to this country in 1831, or as soon as he had attained his majority. He first settled in St. Albans, Vermont where he remained until 1834 when he removed to Ann Arbor where he has since resided. He attended school a short time and then followed teaming for a few years, that business in those days being quite lucrative. A few years later, Mr. McCreary had accumulated a sufficient amount of capital to enable him to go into business and he engaged in the tanning business. Later on he went in to the leather trade which he continued with great success until 1867 when, having gained a competency and not being in good health, he retired from business life, devoting his time to the care of his property interests. In 1849 Mr. McCreary was married to Miss Margaret Bush, the sister of Mrs. Charles Spoor. To them were born four daughters and one son. The son and one daughter died in infancy and another daughter died in Missouri, soon after her marriage. The two surviving children are Mrs. Philip Stimson, of this city and Mrs. A. F. Hanson, of Toledo, Ohio. Mr. McCreary was a Whig and cast his first vote for William Henry Harrison. Later he was a staunch Republican. In addition to his private business Mr. McCreary was also interested in the First National Bank of this city. He was one of the first board of directors and has continued a member of the board up to the present time. The first board consisting of six men, all lived to a ripe old age. They were, Wm. McCreary, Philip Bach, Edward Treadwell, James Clements, John M. Wheeler and C. H. Richmond. Three of these, as our readers know, have died within the past five weeks and the others have all died within the past few years.

Funeral services were held at the home Tuesday afternoon the Rev. Dr. Cobern officiating.

## Michigan Crop Report For December 1895.

Lansing, Mich., December 9.—The Michigan crop report for December says:

"The average condition of wheat December 1 was 82 per cent. of condition in average years. This is a gain of four per cent since November 1, but is eight per cent. below condition December 1, 1894. The average condition in the southern counties is 79; central 86, and northern 92. One year ago the condition in these sections respectively was 88.92 and 86 per cent.

"Snow fell in all or nearly all parts of the state in sufficient quantity to cover the ground November 19 and 20. This was added to by a storm on the 25th and 26th and by another on November 30 and December 1. December 2 the average depth in the northern part of the lower peninsula was about six inches, and south of this to the south line of the state about three inches. At this date, December 9 the ground is still well covered and is not frozen.

The total number of bushels of wheat reported marketed by farmers since the November report was published is 1,195,246, and in the four months—August, September, October, and November—4,118,011. This is 622,357 bushels less than was reported marketed in the same months last year. The amount reported marketed in November this year is 75,627 bushels more than was reported for November, 1894.

"The relay temperature of the state for November was 34.6 degrees or about 1.5 degrees below the normal. In the southern counties there was a deficiency of 1.4 degrees, in the central of 2.7 degrees and in the northern of 1.3 degrees.

"The average precipitation, including both rain and melted snow, in the state was 3.28 inches; in the southern counties 3.82 inches; in the central counties 3-23 inches and in the northern counties 2.06 inches. Compared with an average or normal year there was an excess of 0.26 inches in the state, of 0.67 inches in the southern and of 0.27 inches in the central and a deficiency of 0.55 inches in the northern counties."

## Death of Mrs. Williams.

The following from the Quincy (Ill.) Daily Journal of Dec 2, will interest many Ann Arbor people:

The young wife of the assistant superintendent at the postoffice, Lee Williams, died suddenly at 11-30 o'clock yesterday morning at the home of Dr. and Mrs. J. O. Williams. On Thanksgiving the young couple went to the doctor's to spend the day, and Mrs. Williams was taken ill of congestion of the lungs. On Saturday her babe was born and the young mother died shortly afterward. The boy lived only twelve hours. Her maiden name was Nellie Shurley. Her parents live in Ann Arbor, Michigan. A little daughter nineteen months old survives. The deceased was a member of the Vermont Street M. E. Church, a sweet and loving little woman, and her very sad death is deeply mourned by her many friends. She was 22 years old.

## ADDITIONAL LOCAL.

Washtenaw Lodge, No. 9, I. O. O. F., last Friday evening elected the following officers to serve for the next six months: N. G., Henry P. Danforth; V. G., Robert E. Staebler; R. S., J. D. Vance; P. S., George Scott; Treasurer, M. Staebler.

A good audience at the Presbyterian church last Sunday night listened to some very charming music of quartet and solo rendering, it being a praise meeting. Some Bible readings, well explained by the pastor, was a feature of the evening.

William Clancy, an old resident of this city, died last Thursday night at his home on Fourth-st. Deceased was 66 years of age, and died from the effects of paralysis. Funeral services were held at St. Thomas church on Monday morning.

Said a prominent real estate man to THE REGISTER one day last week: The number of vacant houses in Ann Arbor is larger than ever before at this time of year. He thinks that it will have a strong tendency to crowd rents down somewhat.

The rooms of the Young Woman's Christian Association, second floor, postoffice block, will be open afternoons until Christmas. It is a good place to work on Christmas presents or to rest or wait for a car when down town. Go in and see the girls at any rate.

We want every one of our readers to remember that we have changed the location of our office from the Hamilton Block to No. 30 East Huron-st., just across the street south from the Hamilton Block and about ten doors east. Call and see us in our new quarters.

Paul G. Tessmer has begun suit against M. Staebler and others for damages to the amount of \$10,000 for malicious prosecution. It all grew out of an arrest of Tessmer some months ago on a charge larceny from which he was acquitted in justice Pond's court.

A fatal accident occurred near Dexter last Thursday evening. While Patrick Farnum was driving from Dexter to Pinckney late in the evening, he in some way fell or was thrown from his buggy and broke his neck. Coroner Ball was called, and held an inquest with result as above.

Golden Rule Lodge, No. 159, F. & A. M. has elected the following as officers for the ensuing year: H. B. Dodsley, W. M.; W. W. Wadhams, S. W.; H. F. Miller, J. W.; L. C. Goodrich, treasurer; Norman Gates, secretary; W. H. Butler, S. D.; Chas. Burkhardt, J. D.; O. M. Martin, tyler.

"Well," said a young man, one of a group of southern students who were on the streets last Saturday morning, "Look at that hack on runners." It was a novel sight to the whole party judging from the expressions heard. They will get used to such sights before they spend an entire winter in Michigan.

Farmers who have a quantity of small cobble stones in piles about their farms, and most farmers in this part of Michigan do, should read the announcement of the city clerk in another column calling for bids to furnish the city with just such material. Here is a chance to get rid of this incumbrance and get pay for it.

The new dog catcher is after the canines not bearing evidence of having a city permit to live. If you have not taken out a license for your pug or poodle, you must not be surprised if your pet disappears some day. The dog catcher is keeping a sharp lookout for just such canines and the medics are ready to take off his hands all that are not redeemed promptly.

The lecture by Dr. Kellogg, of Battle Creek, in Newberry Hall, last Sunday afternoon, on "The Religion of the Body" was one of especial interest. The manner in which the doctor dealt with many of the modern methods of life among civilized nations proved beyond question that in many respects they are worse than the heathen they are endeavoring to convert.

## CAUGHT THE ELOPERS.

**MARSHAL PETERSON FOUND THEM AT YPSILANTI.**

L. D. Packard, of Detroit, Elopers with Miss Jessie Young, of Jackson—They Come to Ann Arbor—Stay Here One Night—Go to Ypsilanti—Are Arrested and Taken Back to Jackson.

Monday evening the officials here received word from Jackson to intercept a runaway couple who had just fled from that city. The officers at once hastened to the depot but no such parties as described could be found on the train. They were there, however, and instead of going on to Detroit, left the train here and put up for the night at Andrew Hughes' place near the depot. The next afternoon they took the motor for Ypsilanti. It had been discovered in the mean time that the couple was in the city, but they were not found, and reached Ypsilanti about three p. m. Officer Peterson followed them and arrested the pair at Ypsilanti and took them by the 5:30 p. m. train back to Jackson. The parents of the girl who is only 17 are bitter against young Packard who has known the young lady but a few weeks. But little is known of the young man. When returned to Jackson he was locked up on a charge of larceny, it having been claimed that he had taken a number of articles from persons in Jackson. Packard denounces this as a trumped up scheme to ruin him. The young lady is engaged to a respectable young man in Jackson and her parents are greatly put out because she took up with a comparative stranger about whom none of the family knew anything.

Yesterday young Packard was given a hearing and was sent to the Detroit House of Correction for 30 days. Before being taken away, however, he was allowed to marry Miss Young.

## Fine Concert Tonight.

It is with pleasure we are able to announce that Prof. Francis L. York of Detroit so well known to our citizens, has been induced to take charge of one of the evenings in the Inland League. The concert under his direction will be given in this course at the Church of Christ tonight. Mr. York will be assisted by Miss Jessie Corlette, soprano; Mr. Herman Breuckner, violinist, and Mr. Alfred Hoffman, cellist.

The following are a few of the many favorable notices given Miss Corlette in other cities:

"The gem of the evening was a solo by Miss Corlette, 'Knowest Thou the Land by A. Thomas.'"

Saginaw Courier Herald.

"Miss Corlette has a pure beautiful soprano and sings with delightful feeling. She is one of the most popular sopranos in the city and well deserves the reputation she has won by honest artistic work. Gifted with many natural advantages she has studied well and is fully prepared to advance rapidly into the musical world where voices so sweet as hers are rare. She received a hearty encore for so delightful an interpretation and responded with the ever welcome 'Within a Mile of Edinburgh Town', which proved to be a number that pleased everyone."

Detroit Free Press

"It remained for Miss Jessie Corlette to move the audience to tumultuous applause last night."

Detroit Tribune.

"Miss Corlette has an excellent voice and her Arias are beautiful. Her voice is so full of melody and her delivery so artistic that it is always a pleasure to listen to her."

Mr. Breuckner is solo violinist of the Detroit Philharmonic Club and a noted all around musician.

Mr. Hoffman is Detroit's well known Cello Player—and is a master of this beautiful and expressive instrument.

The lecture by Rev. John Snyder before the Unity Club last Monday night was of a high character. His subject, "The Evolution of American Humor" showed Mr. Snyder to be an excellent reader. His rendering of selections from famous humorists was very fine. The lecture was mainly made up of readings from American writers. It was a model of its kind and was highly appreciated by all who heard it.

[OFFICIAL.]

COUNCIL CHAMBER, ANN ARBOR, December 5th, 1895. Special session. Called to order by Pres. Hiscock. Roll called. Quorum present. Absent Ald. Koch, Ferguson, Taylor, Shadford.

COMMUNICATIONS FROM THE MAYOR. ANN ARBOR, Mich., December 5th, '95. Glen V. Mills, City Clerk. Sir:—You will please call a special meeting of the Common Council to be held Thursday at 7:30 p. m. at the Council Chamber for the purpose of considering labor claims on sewer contract District No. 3 and payment thereof.

Warren E. Walker, Mayor. Ald. Prettyman moved that the Council suspend Rule 21 of the Rules of the Common Council for this session.

Adopted as follows: Yeas—Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Brown, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—11. Nays—None.

By Ald. Brown. Resolved, that the sum of \$3694.71 be paid to the order of the Board of Public Works from Lateral Sewer Fund District Number Three, in accordance with the estimate of the City Engineer, for the purpose of paying the labor claims which have occurred, since the last estimate of said engineer was made upon the contract of Henry Collins for construction of lateral sewers in said District.

The said sum is paid in accordance with section Number 113 of the specifications to apply upon said contract between said Collins and the City of Ann Arbor.

Ald. Prettyman moved that Cashier F. H. Belsler be allowed to address the Council. Adopted.

Ald. Butterfield moved to amend the Resolution of Ald. Brown as follows: Resolved, that the Board of Public Works be requested to report to this Council at 8 o'clock December 6th, 1895, the person or persons to whom they wish such money paid and the amount paid to each.

Ald. Brown moved that Mr. Bullis be allowed to address the Council. Adopted.

After discussion of the question the amendment was lost as follows: Yeas—Ald. Maynard, Allmendinger, Snyder, Laubengayer, Butterfield—5. Nays—Ald. Moore, Brown, Prettyman, Coon, Cady, Pres. Hiscock—6.

Whereupon the original motion was lost as follows: Yeas—Ald. Brown, Coon, Cady, Pres. Hiscock—4. Nays—Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Prettyman, Butterfield—7.

Ald. Brown moved that the fifth estimate of the engineer as submitted to the Council be referred back to the Board of Public Works for further consideration. Adopted.

On motion the Council adjourned. GLEN V. MILLS, City Clerk.

COUNCIL CHAMBER, ANN ARBOR, December 9, 1895. Adjourned session.

Called to order by President Hiscock. Roll called. Quorum present. Absent Ald. Moore, Allmendinger, Taylor.

COMMUNICATIONS FROM THE BOARD OF PUBLIC WORKS. To the Common Council: WHEREAS, one Henry Collins, did on the 19th day of June A. D. 1895, enter into certain contracts with the City of Ann Arbor, through its duly authorized representatives, for the construction of two certain lateral sewers known and designated as the Hill street lateral sewer, situate in lateral sewer district number three, and the Huron street lateral sewer, situate in lateral sewer district number four of the said City of Ann Arbor, and

WHEREAS, section 113 of the sewer specifications of the City of Ann Arbor the same being a part of said contract of Henry Collins with the City of Ann Arbor, provides,

The contractor shall well and truly and promptly pay as the same may become due and payable, all indebtedness which may become due to any person, firm or corporation on account of any labor performed, or material furnished in the construction of any sewer for the City of Ann Arbor, and in case any claims or claims for failure to so well and truly pay for materials and labor as above the Board shall retain from any monies due or to become due to the contractor, a sufficient sum to pay such claim or claims and shall pay the same therefrom when such claim or claims is, or are fully proven to the satisfaction of the Board.

And whereas said contractor, Henry Collins has failed to pay certain claims that have become due for labor and material used in the construction of said sewers, which failure has been brought to the attention of this Board therefore,

Be it Resolved, That this Board deem it expedient to exercise the authority vested in it by said section 113 of the sewer specifications of the said City of Ann Arbor, and hereby declare that the Board does retain all money due or to become due said contractor Henry Collins for the construction of said sewers said money to be held for the benefit of said claims for labor and materials furnished in the construction of said sewers said money to be paid on such claims as the Board may deem expedient, when the same are to be proven to its satisfaction, and

Be it further resolved, that the Clerk be instructed to notify the Common Council of the City of Ann Arbor and said contractor Henry Collins, of this declaration.

Board of Public Works, Glen V. Mills, Clerk. Received and placed on file.

LATEST COUNTY NEWS. Crowded out last week. SALINE. Sleighing parties are the order of the day.

Mrs. Bush, of Peabody, Kan., has been spending a few weeks here. J. E. Sumner, of Ann Arbor, was in town Saturday calling on old friends.

While going down cellar Saturday, Miss Yager fell, breaking her collar bone and otherwise injuring her. The Baptist social at Mr. and Mrs. Peter Weinnett's Friday evening was a decided success. The society cleared nearly \$18.

E. U. Wallace spent a few days of last week in Detroit. Mr. and Mrs. A. B. Van Duzen, entertained the pedro club last Wednesday evening.

Died, suddenly of heart disease, John Wood. Deceased was an old resident of Saline township. Funeral services were held Sunday afternoon.

WEBSTER. Mr. Larson serves on the jury this month. The social at Mr. Alexander's last Friday night was well attended in spite of the storm. A good supper was served.

Mrs. Kate Scadin has returned from the south. Henry Scadin has gone to Florida. Mr. O. W. McColl and family, of Charlotte, spent Thanksgiving week at Robert McColl and family.

The "Arona" meets this week at Will Scadin's. DELHI MILLS. There was no school Friday, the day is to be made up in the future.

The school is busy now getting ready for Christmas exercises the last day of the term. There was enough of the "beautiful" snow that came Sunday night to make good sleighing, and people seem to be improving it, by the sound of the sleigh bells.

SALEM TOWN. A. C. Curtis and family spent Thanksgiving at Ann Arbor with Mr. and Mrs. George Metcarrick. Rev. Conrad conducted the Union Thanksgiving services at the Congregational church in Salem.

Mr. George Savery and sister Miss Anna Savery, of Webster, visited at Isaac Savery last week. Mr. and Mrs. N. A. Withee visited their daughters, Mrs. A. Van Aken and Mrs. F. J. Packard, of Detroit, last week.

Mrs. Mary Quackenbush and Mrs. Cynthia Wykoff, are visiting Ed. Quackenbush and family, of Grand Ledge. Our community was startled last week Friday forenoon to hear of the sudden death of George N. B. Renwick. He left home in the morning for Ann Arbor, and his hired man was unloading a load of wheat at the Argo Mills, when Mr. Renwick complained of feeling bad, was carried into the mill and died almost instantly. He had been afflicted with heart disease for some time, and this was the cause of his death. Undertaker Martin brought the remains home to the sorrowing friends Saturday morning. Mr. Renwick was sixty-eight years old and has lived in this vicinity all his life. He will be greatly missed in his home and in the neighborhood where he has so long resided. Rev. Calkins, of South Lyon, conducted the funeral services at the late residence Monday and the remains were placed temporarily in the vault at Leeland cemetery.

WHITMORE LAKE. Prof. E. W. Richards, of Detroit, gave an entertainment at the Lake House hall on Monday and at the Webster M. E. church on Tuesday evenings under the auspices of the Ladies' Aid Society owing to the fact that they neglected the most essential part, viz. using printer's ink in advertising the performance, the audience was very slim, although Mr. Richards in his impersonations was per excellent and was enjoyed very much by those present. The audience at Webster was fair and enough money taken in to pay the expenses. Prof. Lumber's full orchestra furnishing excellent music.

Jas. Hanby has removed his lumber mill from this place to Dixboro, we are sorry to say as Mr. Hanby and his family will be missed in this place. Miss Carrie Barker is visiting friends in Ann Arbor this week.

Mrs. Wm. Stevens, mother of A. Stevens, proprietor of the Lake House, is seriously ill. Dr. Smith is attending her and hopes to bring her through although age is against her.

Skating on the lake is excellent and the young folks are taking advantage of it from early moon till break of day. Sleighing never was better and everybody is hauling wood which is rapidly consumed.

The Rev. H. W. Hicks was out for a ride yesterday around the lake when he espied a wild duck on the ice, not having a gun he grabbed a snow shovel he had in the cutter, and got within thirty feet of it when it flew and left him smacking his lip.

The Good Templars of this place will give the play "Sweet Briar" or the "Flower Girl" of New York at the Lake House hall on Saturday night Dec. 14th and expect to see all the inhabitants of Ann Arbor here to enjoy the display of real genuine first-class talent. Now don't disappoint us and miss the one grand opportunity of your lives.

Fred Smith, of the Clifton House, is very sick, we are sorry to announce and sincerely hope to soon see his genial countenance on our streets again.

MILAN. Milan is highly favored with the "beautiful" and the sleighing is fine. The M. E. ladies made a success with their Thanksgiving dinner.

Dr. Lack returned to the U. of M. after a pleasant visit with Mr. D. Murray and family. Mr. and Mrs. H. Sill and children returned Friday from their Lansing visit. Mrs. Lucy Clark is quite ill.

Milan's arc light had a fall one evening last week, but is all right and able to shed its rays over progressive Milan once more. Rev. H. F. Shier and family are entertaining guests from Ann Arbor.

The Nimrod, of Milan, and vicinity have returned home and brought nine deer with them, so venison can be had for regular diet for the next few weeks. In addition to the time tables of all railways the Rand-McNally Railway Guide gives a list of Electric Railways, a Gazetteer of all important towns in the United States, Canada, and Mexico, and much other information of interest to travelers, shippers and the public at large. For sale by Moore and Wetmore.

FORGOTTEN TREASURE. Unclaimed Deposits in California Savings Banks. Interesting discoveries of lost heirs have just been made in the unclaimed bank deposit cases. The public administrator, Attorney Oscar D. Shuck, and the legal representatives of the various San Francisco savings banks, where \$500,000 are unclaimed, have lately settled with a number of the heirs of depositors, but there are several hundred unclaimed deposits still in the banks.

One of the most remarkable of the long list of abandoned deposits is that of Jeremiah Pendergast, to whose credit there are \$12,000 at the Hibernia bank. His heirs are in Ireland. Very little is known of Pendergast, save that he was never a resident of San Francisco, though he was here for a short time about 1868, and probably as late as 1876. These facts are known, because the Empire hotel, which he gave as his residence, was opened in 1863 and closed in 1876. For many years there has been a search for Pendergast or his heirs, and Attorney Shuck has just located the heirs in Ireland, and has learned that the depositor was burned to death in his mining cabin more than twenty years ago. Pendergast was unmarried and lived in an isolated cabin, where he was burned to death in a fire which enveloped his home while he was asleep. In the remarkable case of Henry C. Belf, who left \$2,400 in the Hibernia bank many years ago, there is no clew whatever. It is known that he once lived at the corner of Kearney and Jackson streets, but further than this there have been no tidings. The money awaits the coming of the owner.

At the same bank there is a deposit of \$1,630 in the name of William E. Crosten, who was a sailmaker in San Francisco in 1868. Shortly thereafter he quietly left the city and has never been heard from, though there are several persons here who knew him well and worked with him at Crawford's sail loft. If the depositor, who was born in Norway, is still living, he is 72 years of age. A search for his heirs has been in progress for years. A similar case is that of Charles N. Miles, supposed to have been a seaman. There are \$2,500 to his credit at the Hibernia bank. He lived at the old United States hotel. Oscar McEanman left \$1,250 at the bank in 1872, refusing to give his address, and has never been heard from since, and about the same time P. D. Malloy left \$1,200 at the same bank in the same manner, refusing to give any particulars about his residence. Thomas Standon, of 424 Powell street, but whose name does not appear in any of the old directories, left \$1,000 at the Hibernia and has never been heard from since. John B. Casey, who was a carpenter for the Southern Pacific, also left \$1,000 at the same bank and disappeared in an equally mysterious manner.

REPORT OF THE CONDITION OF THE ANN ARBOR SAVINGS BANK At Ann Arbor, Michigan, at the close of business, September 28th, 1895.

It is not BAD To have a new deal. Commencing October 10th, 1895, I will do a strictly cash business, which will allow me to make a reduction of from 10 to 20 per cent. in the retail price of Implements, Buggies, Wagons, Cutters, etc. Not having to contend with the cost and trouble of collecting bad DEBTS I can therefore afford to make this liberal discount. It will pay you to get prices on my goods. Also the best grades of Hard and Soft Coal, Wood, etc. Satisfaction guaranteed. HENRY RICHARDS, Corner Detroit, and Catherine Sts., Telephone 163. Ann Arbor, Mich.

# oxygen starvation

You can starve the body in more ways than one; you can give it food and not feed it. It needs oxygen. The oxygen you get from the air is carried to all parts of the body by the red corpuscles of the blood. One drop of blood contains millions of these. When these are deficient in blood, we call it poor blood, and it shows itself in general weakness, lack of appetite, and loss of weight. What you want is something which will make more red corpuscles.

# Scott's Emulsion

of cod-liver oil, with hypophosphites, is something more than an oil. Its peculiar action depends on a number of substances—active principles—which will increase the red corpuscles of the blood.

### DOINGS OF THE STATESMEN.

SENATE—Second day—The galleries were well filled again and the Senators plunged right into business. The President's message was read and was listened to with a great deal of attention. At its conclusion Mr. Lodge, of Massachusetts, offered a resolution in vigorous terms regarding the nomination of Agassiz to the office of secretary of the Smithsonian Institution. It is in such form as to permit their enactment as a permanent law, rather than an expression of the policy of the government. Mr. Cullom and another by Mr. Allen, Pop. Neb. At the brief executive session the nomination of Mr. Olney secretary of state and Mr. H. H. Holmes as attorney-general were confirmed and that of Rufus H. Peckham to the supreme bench referred to the judiciary committee. Senator Stewart, Pop. Nev., created laughter by introducing his time-honored bill for the free and unlimited coinage of silver. Mr. Call, Dem. Fla., introduced the following resolution: "Resolved, That the government of the United States recognizes a condition of public war between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and the United States of America hereby declare that they will maintain a strict neutrality between the contending powers, and accord to each all the rights of belligerents in the ports and territory of the United States. The Congress of the United States doth hereby reiterate its protest against the barbarous manner in which the war of Cuba has been conducted, and the President is hereby authorized to take such steps as may be expedient in the interest of the observance of the laws of war as recognized by civilized nations." Among the large number of bills offered by Mr. Peffer, Pop. Kan., were those limiting the President's term to six years, without re-election; repealing all laws permitting the issuance of bonds; the limitation of the power of injunction; Mr. Allen, Pop. Neb., offered a concurrent resolution for the immediate recognition of the Cuban insurgents; the annexation of all islands proximate to the United States; the repeal of the Monroe doctrine, and a firmer foreign policy respecting the protection of American citizens abroad. HOUSES—The session of the House was very brief, and was consumed entirely by the reading of the President's message. It was listened to with attention, but without the attending document received no sign either of approval or disapproval from the members until the conclusion of the reading, when several members made a slight demonstration. When it was finished the House adjourned.

SENATE—Third day—Most of the business transacted was of a routine character. Mr. Hoar showed a disposition toward co-operation with the President in dealing with the Turkish question by offering a resolution denouncing the recent atrocities in Turkey, and assuring the executive of the cordial indorsement by congress of a vigorous course for the protection of American citizens in Turkey and the suppression of the atrocities against Christianity. Mr. Hoar did not ask immediate action of the resolution, but he secured the adoption of another resolution requesting the President to submit to the Senate all correspondence relating to Turkey. The resolution makes specific inquiry as to what American consuls are absent from their posts, and as to the disorder prevailing. The first formal speech of the session was made by Mr. Allen, Pop. Neb., on Cuba and the Monroe doctrine. Mr. Allen urged the recognition of the Cuban insurgents, the annexation of Cuba and a strong foreign policy. A number of bills and resolutions were introduced, among the important ones were the following: By Senator Lodge, to amend the immigration laws, excluding all immigrants between 14 and 40 years of age who cannot both read and write the English language. By Senator Gray, to incorporate the international American bank in accordance with the recommendations of the International American conference. By Senator Cullom, providing that no person shall be eligible as assignee or receiver of a bankrupt railroad who has been a director, officer or employe of such road at any time within three years. By Senator Hale, to reorganize the persons employed by Senator Lodge by request; appropriating \$100,000 for the encouragement of aerial navigation. By Senator Voorhees, increasing all pensions granted under the act of 1862 to 12. By Senator Sherman to fix a uniform standard of classification and grading of grain; also a bill for the readjustment and increase of pensions granted on account of loss of limbs. HOUSES—No session.

SENATE—Fourth day—The session was brief. Its only feature, beyond the introduction of a bill by Senator Chandler, of New Hampshire, for the free coinage of silver was the reading of a message from the Emperor of Germany and Germany should enact similar legislation, and a resolution by his colleague, Senator Gallinger, declaring it to be the sense of the Senate that it was wise and inexpedient to retire to greenbacks, was a short speech by Senator Call, of Florida, in favor of the recognition of the Cuban rebels as belligerents. In executive session the appointment of Matt W. Ransom, minister to Mexico, was confirmed.

SENATE—Fifth day—No session. HOUSES—Nothing of importance.

SENATE—Sixth day—The feature of the day was a speech by Senator Morgan, of Alabama, chairman of the committee on foreign relations and a member of the Panama Exposition tribunal, upon a resolution offered by him instructing the foreign relations committee to investigate the question of the liability of the United States for the seizure of British ships in the Berling sea in 1893. Mr. Morgan took the position in the last congress that the settlement of these claims, by the payment of a lump sum of \$45,000, as recommended by the President, was neither wise nor proper. His remarks on that occasion were the subject of some sarcastic comment from Julian Paucotote, the British ambassador here, in the latter's official correspondence with Lord Kimberly. That correspondence was printed recently from the British blue book, and most of Mr. Morgan's speech was devoted to paying his respects to Sir Julian. His resolution, which was as follows, was unanimously adopted: "Resolved, That the message of the President, received by the Senate on Feb. 13, 1895, and his message read in the Senate Dec. 3, 1895, relating to the payment by the United States of the claims of Great Britain arising out of the Berling sea controversy, be referred to the committee on foreign relations with instructions that said committee examine into the question of such liability to Great Britain and the amount thereof, if any, and of any liability on the part of Great Britain or Canada arising out of said controversy, and that said committee shall have authority to report by bill." Among the bills introduced was one granting a lump sum of \$25 per month to the widow of a late secretary of state, W. Q. Gresham. A resolution was agreed to, calling upon the President to transmit to the Senate all documents and correspondence at the state department relating to the case of ex-consul John L. Walker, now under arrest in France. In executive session the nomination of Rufus W. Peckham, of New York, to be associate justice of the U. S. supreme court was confirmed. HOUSES—The feature of the day was devoted to discussing the appointment of House officers. Resolutions were presented by Republicans calling for the correspondence in the Walker case; for lists of pensioners who have been stricken from the rolls or reduced since March 4, 1895; and for Secretary Smith's reasons for an order affecting the action of the land office in connection with the perfecting of titles to Pacific railway grant lands in Utah and Nebraska, but all were objected to by Democrats. An effort to have printed in the record the memorial of the National Wool-growers' association for higher tariff met the same fate.

### REVIEW OF TRADE.

Business is still sluggish, as if gorged by excessive indulgence of the appetite of buying when prices were advancing. In nearly every branch stocks, not yet distributed to consumers, stand in the way of new orders and competition of a producing force largely exceeding the present demand puts down prices, that decline retarding purchases yet more. After the holidays many look for a large demand. For the present the springs of new business are running low, but enough is doing on old orders to keep most of the works employed in part and a good proportion fully. Financial indications have not hindered and really has the opening of a session of congress affected business so little. Wheat has advanced although receipts are large and exports small. The recent estimates of the crop have been raised a year ago the low prices hindering. Cotton has been weak by dull sea. Turkeys, 74c. Eggs, strictly fresh, 19c per doz. The following quotation and comment from the American Economist will interest most of our readers:

The deficiency is about \$30,000,000. It can be met either by lowering Tariff duties to stimulate importation, by the imposition of new duties, or by increased internal taxes.—The World, N. Y., November 27, 1895.

"Lowering Tariff duties" will result in more imports and, consequently, less work for American labor. The "imposition of new duties," under Tariff Reform, will increase the "burden of taxation" of the people, and "increased internal taxes" will be heavier taxes that always bear directly upon the people. And all these suggestions come from a paper that professes to have the welfare of the masses at heart. Fle, Mr. Pulitzer! What's the matter with your editorial council?

The following from the London Economist for November 9, will be of especial interest to our wool growers. With such a condition of things when will the price of our home-grown wool get back to a figure that will allow even a small margin of profit?

Our (British) export of woolen goods shows a satisfactory increase to most countries, though of the total gain of £183,317 for the month no less than £103,509 appears in the exports to the United States. The recovery in this quarter may be judged of from the fact that the total shipments of woolen goods to the United States in October last year were valued at only £14,630. An almost similar expansion is shown as regards worsted fabrics, for whereas shipments to America in October, 1894, were valued at only £111,029, their last month reached a total of £402,589.

During the current year nearly one-half of our total exports of worsted goods have gone to the United States, the value being \$4,094,880, as compared with \$2,010,176 in the first ten months of 1894.

SECRET SOCIETIES.

One of the good results of temperance agitation and education is seen in the policy, now so common which makes saloon-keepers ineligible to membership in secret societies. It indicates a growing antagonism to the liquor traffic most encouraging, for we take it for granted that it is not the liquor sellers themselves that these societies object to, but the way they make their living; not the men they desire to ostracise, but the business. The Supreme Council of the Independent Order of Odd Fellows, in highest tribunal assembled, recently decided to exclude from its fraternity all saloon-keepers, bar-tenders and professional gamblers." We rejoice when any society, secret or otherwise, takes this advance step which tends to render drunkard-making odious.

LIGHT IN DARKNESS.

The Bible Institute Colportage Association of Chicago, of which Mr. D. L. Moody is president, has a fund at its disposal to be used in the free distribution of books and Testaments among prisoners in our jails. Mr. Moody asks the co-operation of ministers, W. C. T. Unions and other local Christian workers, in addition to that of regular prison chaplains in this noble effort. He requests those who would like a package of books to communicate with him at his home address, East Northfield, Mass., enclosing some card or reference to show their good faith, and the books will be sent post-paid. Up to the end of November the association had distributed twelve thousands six hundred and nineteen volumes, in twenty-three different states. "If I am spared" writes Mr. Moody, "I hope to put a book into the hands of every prisoner in the United States before a year passes.

A GLASS OF GIN.

Bob Burdette says: "My homeless friend with the chromatic nose, while you are stirring up the sugar in a ten cent glass of gin, let me give you a fact to wash down with it. You may say you have longed for years for the free, independent life of a farmer, but you have never been able to get money enough to buy a farm. But there is where you are mistaken. For some years you have been drinking a good

improved farm at the rate of 100 square feet at a gulp. If you doubt this statement figure it out for yourself. An acre of land contains 43,560 feet. Estimating, for convenience, the land at \$43.56 an acre, you will see that it brings the land to just one mill per square foot. Now pour down the fiery dose and imagine you are swallowing a strawberry patch. Call in five of your friends and have them help you gulp down that 500 foot garden. Get on a prolonged spree some day and see how long it will take to swallow a pasture land to feed a cow. Put down that glass of gin; there is dirt in it—300 feet of good, rich dirt, worth \$43.56 per acre."

C. J. Burnett, of Lansing, was in the city last week looking after some legal matters.

Dr. Heneage Gibbes has opened an office down town over Schleicher's grocery store.

A. M. Hull, of Colorado, was in the city last week visiting his sister, Mrs. E. F. Edmunds.

G. Frank Allmendinger has been indisposed for some days on account of a severe cold.

L. H. Clement was at Flint, Mich., on a business trip for the Ann Arbor Organ Company last week.

Emil Meyer and daughter, of Sandusky, Ohio, are spending a few days visiting with Mr. Eugene Mutschel.

Ex-congressman James S. Gorman was seen upon our streets last Monday. He was down on business, not politics.

Mr. and Mrs. Henry A. Kyer, of Seattle, Washington, arrived in Ann Arbor Sunday. They will visit for some time with the family of Mr. Kyer's father, Nelson J. Kyer.

Mr. Shurley, who with his wife were called to Quincy, Ills. last week by the sudden death of their daughter, returned Monday. Mrs. Shurley returned as far as Jackson where she was obliged to stop with her daughter, Mrs. Bannish, on account of illness.

It has just been learned that a young man, a student, whose name we will not mention, found, when he came here this fall, that his expenses were quite a little more than he had calculated upon. His means being limited he set out to look for a job at which he could put in his time on Saturdays. Not finding any opening, and seeing that he must make some money somehow, he donned an old suit of clothes and went to work upon the sewer. He now has enough to enable him to complete his college year. Such a course in a young man is worthy of commendation.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, nervous and without force.

The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. He isn't capable of continuous and vigorous effort. His bodily discomfort affects his mind. Even when he knows just what is the matter, he neglects the simplest precautions and the simple treatment that would cure him. Most of dyspepsia starts with constipation, and constipation can be cured. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are quick, but not violent in their action. There is nothing about them that will give the system any shock. They not only relieve immediately, but if taken according to directions, they will absolutely cure. You do not become a slave to their use. They are different and better than any other pill or preparation offered for the same purpose. Almost all druggists understand this, and are conscientious enough to tell you so. The druggist who tries to sell you a substitute is not a safe man from whom to buy medicine. If you will send your address, we will send you a sample package, containing from 4 to 7 doses, and you can see exactly what the "Pellets" will do for you.

If you will send 21 one-cent stamps to cover cost of mailing only, we will send you gratis the most useful medical book ever presented to the public. This is Dr. Pierce's Common Sense Medical Adviser, in Plain Language; a book of 1008 pages, profusely illustrated, the great expense of preparing which has been covered by a sale of 680,000 copies at the regular price, \$1.50 per copy. Address, World's Dispensary Medical Association, No. 653 Main Street, Buffalo, N. Y.

**Campus.**

The holiday recess will last from Dec. 20 to Jan 7.  
 The sophomores gave a hop last evening at Granger's.  
 The Christmas recess begins one week from tomorrow.  
 Henry M. Senter has been elected football captain of the U. of M. team.  
 The score for the U. of M. football team this fall stood 266 for, to 14 against.  
 There were 56 couples at the party given by '96 at Granger's last Friday.  
 Lockers for the use of the law students are being put in the basement of the law building.  
 Yale's new football captain is a Western man, F. P. Murphy, of Junction City, Kansas.  
 The net profits of the Yale vs. Princeton football game were \$20,538.03, a neat little sum to divide between the teams.  
 The November number of the Michigan Alumnus came out last week. It is, as usual, well filled with interesting matter for old students.  
 The second year laws are having a tough time trying to elect officers, the friends of the various candidates refuse to give up and a resulting dead lock is maintained.  
 The graduate club will hold its next meeting at the residence of Pres. Angell next Tuesday night. Professor V. M. Spalding will read a paper on "Experimental Evolution of Plants."  
 A student slipped and fell in front of the Kindergarten billiard hall last Saturday night, striking his head heavily against the stone step. Fortunately only a slight injury was sustained.  
 Dr. Charles F. Sterling, of Detroit, submitted a petition to the Supreme Court at Lansing a week ago Tuesday asking that the court order the Regents to comply with the act of the last legislature and remove the Homoeopathic department to Detroit.  
 In summing up the scores of the various foot ball teams this fall Michigan stands third having won 265 and lost 14 points. Pennsylvania is at the head with 480 to her credit and 28 against. Yale is second with 318 for and 38 against.  
 The successful debaters in the various home contests to select representatives to the interstate contest are H. Golsmer and Mr. Carmandy, Alpha Nu; Mr. Lathers and Mr. Harrison, Adelpi; Mr. Vert and Mr. Albright, Webster; These men will now hold a contest between themselves to settle which shall represent the University in the interstate contest.

University Lodge, No. 325, is the name of the lodge organized by the Elks last Wednesday night. There were 24 charter members. Chas E. Hiscock was chosen Exalted Ruler; W. E. Walker, Esteemed Leading Knight; Chas H. Kline, Esteemed Loyal Knight; A. P. Ferguson, Esteemed Lecturing Knight; Fred Huntoon, Secretary; James E. Harkins, Treasurer; Jas. E. Burke, Tyler. Senator C. H. Smith, of Jackson, presided at the banquet.

Chas F. Meyers, of THE REGISTER office, was called to Norristown, Pa., Tuesday night by a telegram announcing the sudden death of his uncle, Mr. Charles Shultz. Mr. Shultz' death resulted from an attack of diabetes. The remains will be brought to Ann Arbor for interment. Mr. Shultz is well known in this city, he having been a coal dealer here for a number of years. He removed to Pennsylvania some three or four years ago. Deceased leaves a wife but no children.

THE REGISTER scribe came very near sadly misrepresenting one of Washtenaw's popular young officers this week. He understood that Mr. Fred J. Dansingburg had gone to Shelbyville, Ind. to attend a wedding, and that he was to be one of the principals in the affair. Ye scribe squared himself to give the occasion the write up that the affair would of course warrant when the scales were rudely torn from his eyes by being informed that it was another fellow's wedding and Fred was only to be best man.

 Nays—None.  
 On motion the Board adjourned.  
 Glen V. Mills, Clerk.

# CAUTION

THE greatly increased price of cream of tartar, the chief ingredient of a pure baking powder, has induced some manufacturers to substitute burnt alum (which costs but 3 cts. a pound), largely or wholly in lieu thereof, making a very low cost but a very unwholesome baking powder; and great efforts are made to foist these inferior powders upon consumers by the inducement of a lower price and by grossly false representations as to their ingredients and comparative value.

Alum baking powders have been declared by the most competent authorities injurious to health. Therefore every precaution must be taken to keep them out of the house. They masquerade under many names, and new brands are continually appearing.

It is safe to avoid all new brands. Baking powders that are sold either wholesale or retail at a lower price than Royal are almost invariably made from alum, and therefore not only inferior in quality, but positively dangerous to health.

Consumers can be more certainly protected from alum baking powders, and make the wholesomeness of their food doubly sure, by rigidly refusing all substitutes for Royal Baking Powder. The Royal is certified by the Government and State chemists free from alum, absolutely pure, and superlative in leavening power.

It is unwise to take chances by the use of other brands.

### IN TWO PENINSULAS.

NEWS FROM ALL PARTS OF THE PENINSULAR STATE.

**Tug Pearl B. Campbell** Founded in Lake Superior and Seven Lives were Lost—Another Outbreak at Jackson Prison.

The tug Pearl B. Campbell, white going from Marquette to Duluth, founded in Lake Superior off Huron Island, and all on board, seven men, were lost. They were: Capt. McGilivray, master of Campbell, Duluth; John E. Lloyd, mate of Campbell, Duluth; George McCort, first engineer, Cheboygan; Fred England, second engineer, Duluth; two firemen, names unknown; cook, name unknown.

The Campbell was in company with the tugs Corona and Castle, and the three had formed a wrecking expedition to release the schooner Moonlight and H. A. Kent, ashore at Marquette. All three boats belonged to the Inman Tug line of Duluth. The attempt to release the schooner was given up and the tugs started for Duluth. They made good progress until they were in the vicinity of Huron Island, when they were struck by a furious northeast storm, accompanied by blinding snow. The sea increased with great rapidity and the weather became freezing cold, the thermometer going down almost to the zero mark. Soon the Castle and Corona heard signals of distress, but could not go to their companions' rescue and in a little while the signals died away. The Castle and Corona, so heavily leeched that they bore little resemblance to tugs, managed after a hard fight to make Huron bay, where they stayed until the storm subsided. The Campbell was valued at \$5,000.

### Report of the State Game Warden.

State Game Warden Oborn in his report for November, which includes the open season for deer, says the new law has been a great saving of game, but has not enriched the state to any great extent in fees. Non resident hunters have apparently kept away. The game warden of Wisconsin says that the effect of flooding Wisconsin with Ohio and Indiana hunters who formerly camped in Michigan. The total number of arrests reported for the month was 89, of which 65 were for violations of the game laws and 24 for violations of the fish laws. The total amount of fines assessed against offenders was \$510, while the costs amounted to \$455. The total number of convictions was 45 and 30 cases are still pending. It is evident from the returns received from the county clerks, that they do not intend to pay the state its share of the fees collected. It is apparent that thousands of 50-cent licenses were issued, but very few fees have been turned in. It is thought that these county clerks will be forced to deliver the state's share or stand suit.

### Michigan Federation of Labor.

The annual convention of the Michigan State Federation of Labor was held at Saginaw and was lively and full of interest. Among the resolutions adopted were the following:

Favoring the government ownership of the telegraph; favoring the referendum and direct legislation; asking the legislature to pass a law that all franchises in cities be submitted to the vote of the people; an eight-hour day; for plumbing inspectors; to affiliate with the American Federation of Labor; for the appointment of lecturers by the federation; endorsing the boycott on the Grand Rapids School Furniture Co.; endorsing all trades' labels; approving the action of the Grand Rapids salesmen in prosecuting violators of the Sunday closing law; endorsing the boycott on the United States Baking Co.

A resolution favoring independent political action was defeated. Officers for the following year were elected as follows: President, L. E. Tossy, Detroit; first vice-president, W. J. Hardy, of Saginaw; second vice, John Daane, of Muskegon; third vice, Jesse Radford, of Bay City; secretary-treasurer, William Crewe, of Grand Rapids.

### Another Outbreak at Jackson Prison.

Convict Root, one of the four held for trial on the charge of murderously assaulting Deputy Warden A. C. Northrup in the riot at Jackson prison two weeks ago, broke from his cell and attempted to liberate his pals when the night shift of guards was taking place. Keeper Mellenkamp came upon him and a fight between the most desperate and powerful convict and plucky keeper in the prison ensued. Mellenkamp was seriously injured, but other keepers came to his assistance. Root was put back in his cell and hung up by the hands. Root had sprung his cell lock with a piece of his iron bedstead, and was thus able to swing the door, as the bolt locking the tier of cells was not in effect. A guard has now been placed over the four desperate men.

"In the interest of the masses, for whom these reports are compiled, the United States Health Reports have examined and investigated many preparations having for their object the cure of the tobacco habit, but among them all we have no hesitancy in giving the editorial and official endorsement of these Reports to the remedy known as "Uncle Sam's Tobacco Cure," manufactured by the Keystone Remedy Company, at 218 La Salle Street, Chicago. We have demonstrated by personal tests that this antidote positively destroys the taste and desire for tobacco in ten days, leaving the system in a perfectly healthy condition, and the person using the same forever free from the habit.

"In the light of our examinations and tests of UNCLE SAM'S TOBACCO CURE," we are but performing a duty we owe the public when we endorse the same, and stamp it as the crowning achievement of the nineteenth century, in the way of destroying a habit as disgusting as it is common, (FOR ONLY \$1.00.)

(SPECIAL TO OUR LADY READERS.)  
This class of women are more or less  
afflicted with illness brought on by  
constant application in one position. There-  
fore all will be interested in the candid  
expression of this bright young lady of  
Denver, Col., who writes Mrs. Pinkham  
as follows:—

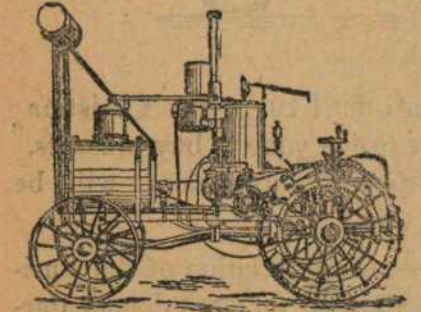

"This is the first opportunity I have found to write and thank you for the good your Compound has done  
me. I feel better than I have for years. It seems a seven days' wonder to my friends. Where I used to be pitted, everything is the opposite, and there is not a day but that some one wants to know what I have done to work such a wonder.  
"Before taking the Compound I had constant headaches; was constipated; bloated; eyes weak, with watery whites; bearing down pains; pains in the small of my back and right side; took cold very easily, which always caused intense pain in ovaries. I did not want to go anywhere or see any one.  
"I was called cross, but I could not help it, feeling as I did. I could not lift anything or do any hard work without suffering for days afterward. Menstruation lasted from eight to ten days, the first two or three days being in almost constant pain, day and night.  
"Lydia E. Pinkham's Vegetable Compound has made a new girl of me; am now well, happy, and strong." Yours truly, A STENOGRAPHER, Denver, Col.

**THE ELECTRIC LAMP.**

Stories of Hotel Men Who Manage to Have Lots of Fun Out of It.  
Several hotel men were standing in a group in an uptown hotel recently chatting. The conversation turned upon the eccentricities of guests. The many odd ways in which different people handle electric lights came up, and one hotel man said:  
"Nearly every one now knows how the incandescent lamp is operated, but still we meet with some funny instances of ignorance. Last week we nearly had our hotel set on fire on account of a piece of stupidity on the part of a guest. The building being fire-proof alone prevented a conflagration. A woman came to the house who was in the habit of sleeping with a dim light in her room, and the electric lamp bothered her. She either had to let it burn brightly, or else turn it off altogether. Finally she hit upon the idea of wrapping a towel around it. Then she began to question whether the towel would catch fire. Then she adopted the happy expedient of wetting the towel. That was the worst thing that she could do. She soon dropped asleep, and of course the towel soon began to burn. A blazing piece dropped on the curtains, and soon the whole room was afire. She was badly scared and, of course, the contents of the room were ruined."  
"That was odd," said another one of the party, "but the strangest thing I have heard of was the case of a farmer who came into St. Louis. He went to a hotel where electric lamps were used. He tried for an hour to put it out, and then sent for a call-boy. The guest explained his dilemma, and the boy promptly stepped up to the lamp and turned the button. There was a moment of silence, and then from the place where the farmer stood there came a flash and report, and a bullet buried itself in the wall, narrowly missing the boy. Again and again the pistol was heard until every chamber was empty. Fortunately the boy escaped and the police entered the room and placed the farmer under arrest. The old fellow was talking incoherently, and seemed mad clear through. When he was finally quieted down he gave his reason for shooting. He said that he had been trying to put out a new-fangled sort of a light and had not been able to do it. Then he called a boy, who blew it out. Just after the light went out he heard a click, and knew that someone had cocked a revolver. He at once thought he was about to be murdered and robbed, and did not wait, but began shooting at once. When told of his mistake he was much chagrined, and apologized most humbly."  
This story brought forth another one from a member of the party, who had not yet spoken. He said:  
"When we put electric lights in our hotel we placed them so that they could be moved to any part of the room, plenty of wire being allowed for that purpose. One night a man came to the house who was unfamiliar with the light, and could not find the way to put it out. Evidently he did not wish to show his ignorance, and as he could not sleep with the light burning, he sat about for some way to get rid of it. Finally he drew the bureau up alongside the lamp. Then he took the globe and placed it in one of the bureau drawers, and closed the drawer tightly. The result was the light was practically put out. The chambermaid found it there in the morning, and it was still burning brightly. He admitted his ignorance then, and we showed him how the machine worked."  
—St. Louis Chronicle.

M. D. Bailey, Receiving Teller Grand Rapids (Mich.) Savings Bank, says he cannot say too much in favor of "Addison's" Wheeler's Heart and Nerve Cure. Sold by all druggists.

A fuel famine is on at South Haven and the city electric light works were closed.  
Georgia Elliget, who was burned from kerosene explosion at Adrian, died of her injuries.  
Mrs. James Deline, who was murdered assaulted near Columbiaville, will probably recover.  
Bay county has sold \$115,000 worth of bonds in order to pay her tax indebtedness to the state.  
John Canute, aged 25, of Shepherd, was taken to Bay City on a charge of passing counterfeit money.  
Mrs. Maria Conant, aged 90, mother of ex-Secretary of State H. A. Conant, died at her home in Monroe.  
John Z. Peck went violently insane at Morley and struck Mrs. A. Stetson a fatal blow on the head with a club.  
It has been decided to remove the body of Maj.-Gen. Winfield S. Hancock from Norristown, Pa., to Arlington cemetery, at Washington.  
Co. F, M. N. G., at Port Huron expected to be mustered from the state service. They made preparations to organize an independent company, but a visit of Assistant Inspector-General Williams, of Grand Rapids, showed that their affairs were not in such very bad shape, and he will probably report in favor of retaining them in the Michigan National Guard.  
When going East be sure that your tickets read from Suspension Bridge, Niagara Falls or Buffalo, via the LEHIGH VALLEY RAILROAD to Philadelphia, New York and all points East. It is a most attractive line; has vestibuled trains, Dining Cars, and all modern conveniences. Anthracite coal used exclusively on locomotives insuring cleanliness and comfort. Write Chas. S. Lee, General Passenger Agent Philadelphia, for particulars. 95

The Winter season of Southern travel is at hand, this year made doubly attractive by the Atlanta Cotton-States and International Exposition, which is (excepting only the Columbian Exposition) the grandest and most comprehensive American international exhibit ever accomplished reflecting great glory upon the enterprising Gate City, upon the State of Georgia, and upon the South generally.  
The Railways of the North have made unusually low rates, and even lower figures may be obtained on specified dates in connection with special parties now being formed to start from Detroit and other Northern centres.  
A beautiful and illustrated and descriptive folder of the Exposition, and also setting forth the perfect Southern service of the Cincinnati, Hamilton & Dayton Railway, can be had by addressing D. G. EDWARDS, G. P. A., C. H. & D. Agent. 94

**The Powers Renew Their Demands for Permission to Pass the Dardanelles With Extra Guardships—Said Pasha Flees From the Sultan's Wrath.**

London: The Times has a dispatch from Constantinople which says that the embassies have received instructions from their respective governments that the guardships question must be pushed home, and that it is impossible for the powers to retire from the position which they have assumed.  
This indicates that the powers have decided that extra guardships must pass through the Dardanelles and the sultan has been asked for the last time for the firmans. A time limit was given for a reply and the alternative was that the passage would be forced. When Great Britain threatened to take this course if the firmans were not granted, the sultan appealed personally to the governments of Russia, Austria, Germany and France, begging them not to press their demands, but met with no success. The Russian government replied that it would sound the cabinets of France, Germany and Austria, and did so, but received nothing but unfavorable replies, of which he informed the Turkish ambassador. Thus, apparently, the sultan was shown that he no longer has a backer in Europe. There have been frequent cabinet councils at the sultan's palace and several exchanges of communications with the representatives of the powers, but no decision seems to have been arrived at. The existence of a cabinet crisis has long been commented upon. Said Pasha, the president of the Turkish council of state and formerly grand vizier, has taken refuge in the British embassy at Constantinople, believing himself not only to be in danger of arrest, but fearing for his life. All the Turkish ministers stand in great apprehension of being summarily dealt with by the sultan. Seeing the meshes of the European net drawing closer and closer around him every day, Abdul Hamid is described as being frantic with impotent rage and likely to wreak vengeance upon any or all of his ministers.  
There are more rumors in circulation regarding the massing of Russian troops on the Turkish frontier and the gathering of a Russian fleet near the Bosphorus. It has been reported that several Russian war vessels have been sighted off the Black sea coast of Turkey, and nobody would be astonished to see Russia's extra guardship steam into the Bosphorus from the east at about the same time that Great Britain's extra gunboat passes the Dardanelles.

**Later Reports from Asiatic Turkey.**  
A massacre has occurred at Hassan Kahleh in the vilayet of Erzeroum, where the Armenian monastery was sacked and burned and the bishop and vicar and other inmates were killed. Over 200 Armenians were killed in Cesera. The Armenians are now barricaded in their homes and are in fear of being massacred. Panic reigns also among the Christians of Jerusalem and Beyrouth.  
The situation at Bitlis causes renewed anxiety among the missionaries as many alarming reports of rioting and bloodshed are in circulation. A dispatch from Marash says the American missionaries there are safe, but the mission buildings were attacked by Turkish troops and a number of the inmates killed.  
Letters from Aleppo state that even the most vague reports of the outbreaks or threatened outbreaks in or about that city cause panics among the Christians, who are in dread of being massacred that at the first note of alarm they hastily close up their stores and seek refuge in their houses, where they have made all preparations possible to defend themselves.  
Turkish officials at Erzeroum, Erzingan, Balbour and Bitlis force the Armenians, under penalty of torture, to sign addresses of gratitude to the Turkish government for the "protection" during the recent "disasters."  
The police of Constantinople are again arresting Armenians and transporting them in batches to their own country on the plea that they are a menace to the peace. Over a thousand Armenians have thus been expelled. It is understood that the advance upon Zeitoun may be expected at any time, and the Armenians who are in rebellion there will be glad to see no mercy.

E. E. Pelton arrived at Benton Harbor from Mitchell, S. D., having driven all the way by team and wagon, leading two other teams, a distance of 900 miles. One of his little boys accompanied him, and his wife and other children will come by train.

Peter Giesman, an emigrant from Monroe county, Mich., on his way to Swan, Ga., was struck and instantly killed on the Cincinnati Southern near Burgin, Ky. His son, Thomas, asleep in the wagon, was thrown over a fence and was slightly bruised.

C. Wire, a philanthropist, residing near Berrien Springs, has erected a commodious building on his farm, in which he proposes to establish a retreat for old, unfortunate soldiers. It is said that the home has been furnished with everything necessary for the welfare of the veterans.

Mike Savant, alias Sullivan, who murdered Matti Banlander at Bessemer, was caught by Marshal Carlson, at Bessemer, and taken to the city jail at Ishpeming. When discovered he was in hiding in an attic in an Italian rendezvous, and only yielded after a desperate struggle. Three murders are charged to him.

Emery & Simpson, operators of a planing mill and box factory at Bay City, have had a great deal of hard luck. Last spring their mill burned down; later a boiler explosion wrecked part of the plant, and now they have filed heavy chattel mortgages and dissolved partnership. Arthur Simpson will continue the business.

In the circuit court at Grand Rapids a verdict was given to Florence D. Walker against the Grand Rapids Electric Light and Power Co., for \$2,000 for the loss of an eye. The woman walked under one of the electric light towers while a workman was trimming the lights and she looked up just in time to catch a falling carbon in the eye.

The Saginaw Valley District union of the Christian Endeavor met at Flint. There were 500 in attendance. The following officers were elected: President, Lewis G. Seeley, Caro; vice-president, Miss Mattie Hill, Flint; secretary, M. Reed, Vassar; corresponding secretary, J. P. Robertson, Bay City; treasurer, Miss F. E. Kelsey, Millington.

By the shutting down of the Mountain & Rathbun mines at Mountain Iron, 190 men were thrown out of employment. A few weeks ago it was given out that all the mines on the range would run all winter, and in consequence miners came in by the hundreds. The labor market is overstocked, and there will be considerable suffering before spring.

The condition of the iron market is such that operations on the Gogebic range this winter will be more extensive than ever before. Usually at this time of the year the mine managers reduce forces and wages, but instead of doing this, both have been increased. Many of the mining properties, which have not been worked since 1892, have begun operations.

The Halliwell Mining Co. is working on its property in the Porcupine mountains, Ontonagon county, and as soon as buildings can be completed and machinery installed will begin developing its copper deposits. There has been no active mining in Ontonagon county for nearly 10 years, although the first copper mines of Lake Superior were discovered there.

Emil Schmiss, a machinist employed at the Calumet & Hecla mine, left his Prussian home 12 years ago. He had not written home until two months ago when he sent a photograph showing himself and family. As a reply he has just received official documents showing that through the death of his father, mother and brothers, he inherited a large fortune.

In the circuit court at Grand Rapids Judge Grove decided that the iron safe rider to the Michigan standard fire insurance policy was invalid. He held that this and other riders are clearly at variance with the Michigan standard policy law, which explicitly directs that nothing shall be added to or taken from the form of an insurance policy furnished by the commissioners.

Last September a party headed by Capt. Wm. A. Knight started from Ironwood for Johannesburg, South Africa, to find employment in the mines. A letter has been received from the captain, which stated that things had been grossly misrepresented. They find that they cannot get work at living wages. They will return to Michigan as soon as they can do so.

The State Horticultural society met at Adrian in annual convention and after a very profitable session elected the following officers: President, Roland Morrill, Benton Harbor; secretary, Edwy C. Reid, Allegan; treasurer, Asa W. Slayton, Grand Rapids; members of executive board, Prof. L. R. Tait, of the Agricultural college; Elmer Smith, of Adrian; and W. W. Tracey, of Detroit.

The Soldiers' Home at Grand Rapids now gives shelter to 594 veterans as compared with 563 one year ago, and in addition to the veterans are 34 widows and wives of soldiers. The Home population last year reached 700 and from present indications many more will be cared for this season than last. The present hospital capacity is severely tested and a new building, to cost from \$4,000 to \$5,000, will be erected.

Mr. and Mrs. W. B. Kindie, of Kalamazoo, were trying the faith cure on their ten-year-old daughter, who has been ill from a disease which was gradually taking her life, but secured a physician, who thinks he can save the child's life. Humane Agent Harper notified the parents that if the child died without having been attended by a physician they would perhaps have to answer to a charge of manslaughter.

The nomination of Rev. Henry N. Conden, the blind ex-pastor of the Universalist church of Port Huron, as chaplain of the house of representative, of the Fifty-fourth congress, is a fitting reward for a brave man. Port Huron people, of all denominations, worked hard to bring about this appointment. Mr. Conden lost his eyesight in the service of the union. He enlisted at the age of 18, when the first call for troops was made, serving in the Sixth Ohio Infantry, and re-enlisted for three years when his term was out. Near Anstin, Miss., he received a charge of small shot in his eyes, causing total blindness.

WE WANT TO TELL YOU

Why Your Back is Lame—Why it Aches and Pains, and How to Cure It.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching pain, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire.

I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that my trouble was sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion.

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

A NEW FRUIT.

A Plum Grows on Barred Land in Minnesota.

St. Paul Pioneer Press: The people in Hubbard county, Minnesota, are puzzled over a new fruit which has made its appearance this summer for the first time. The crop is very abundant. It is a yellow, egg-shaped plum, the larger specimens being about the size of a small hen's egg. It grows on a plant very much like the tomato plant and the plant smells like a tomato.

A tired stomach is very much like a sprained ankle. If you suffer from any of the symptoms of dyspepsia, your stomach is tired. It needs a crutch. We must relieve it of all work for a time, or until it is restored to its natural strength. To do this successfully, we must use a food which is already digested outside of the body, and which will aid the digestion of other foods that may be taken with it.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

A New Cure. For those who refuse to give up the pretty parting of the hair, the Napoleon one will be permitted. The parted hair is pulled fully over the ears and so drawn loosely to the back, where it is braided.

For earache, on a few drops of Thomas' Electric Oil on the bit of cotton and place it in the ear. The pain will stop in a few moments. Simple enough isn't it?

Coils of Fire. "Take my seat," she said. A flush of genuine gratitude suffused the pink and white complexion of the man who was clinging to the strap.

"Thank you," he answered cordially. The age-old woman betook herself to the front platform, where she affected to smoke her cigarette insouciantly, but her thoughts were nevertheless with the past, when conditions were different, and her heart was full of the bitterness of remorse.—Detroit Tribune.

Aunt Rachael's Horshound and Elecampene. Made of Grape Juice, Rock Candy Crystal and the Horshound herb, it is a simple and effectively remedy for coughs, colds, hoarseness and sore throat—highly recommended for consumptives. This is no patent medicine mixture, but it is pure Horshound, Elecampene Root, Rock Candy and Grape Juice, combined with other medicines much used by consumptives, public speakers and singers. Sold by druggists. Price 25 cents and 75 cents.

Sympathy. "Yes, friends," said the reformed gentleman at the mission temperance meeting, "I, too, have known what it is to be under the sway of the demon rum. I have known what it is to feel that wild desire for rum surging through every vein. Can you imagine anything more terrible?"

The red-nosed man on the most comfortable seat wiped his eyes. "What was the matter, partner?" he asked. "Didn't you have the price?"—Cincinnati Enquirer.

All Recommend It. Ask your physician, your druggist and your friends about Shiloh's Cure for Consumption. They will recommend it. For sale by A. E. Mummy.

Facts About Ivory. Antwerp is the principal market in the world for ivory. In 1894 583,117 pounds were imported. Prior to 1890 ivory markets were held annually at Antwerp, since that date, however, they are held every month. Merchants come from Germany, France and England.

131.174 pounds. There are thousands of cases on record where persons suffering from consumption have been completely cured by the use of Aunt Rachael's Horshound Herb, Elecampene Root, and Speer's Grape Juice, and persons are willing today to testify to the miraculous cures wrought for them by this pleasant and most effective remedy. Used by public speakers. For sale by druggists.

OLD-TIME TRADING.

Furs All Had Their Value and Money Readily as the Equivalent of Panned.

In the backwoods region of the United States, years ago there was such a scarcity of money that the people adopted a standard in which furs were a circulating medium. Fox, wolf, bear, beaver and other skins all had their value and were readily taken and given in all dealings. A traveler paying his bills at a hotel received a beaver skin as the equivalent of a dollar and when he expostulated he was told by the landlord that beaver skins were legal tender at a dollar each all through that country.

"I was just told a curious thing by the landlord of the hotel. He said beaver skins were legal tender here for one dollar."

"So they are," was the reply. "Everybody takes 'em at that figure."

"If that's so," said the stranger, as he brought forth the beaver skin and laid it on the counter, "will you kindly oblige me with change for a dollar bill?"

"With pleasure," replied the storekeeper, "there it is," and he drew from beneath the counter four muskrat skins, which were legal tender for twenty-five cents each.

Determined to get rid of some of his inconvenient "change," the stranger threw one of the new-fangled "quarters" on the counter and asked for a five cent cigar.

The dyspeptic carries a dreadful load on its back. It seems as if he were really made up of two men.

Dr. Wood's Norway Pine Syrup seems to be a special providence to little folks. Pleasant to take, perfectly harmless, absolutely sure to give instant relief in all cases of cold or lung trouble.

Flossie's Dilemma. Flossie is six years old. "Mamma," she called one day, "if I get married will I have to have a husband like pa?"

"Yes," replied the mother with an amused smile. "And if I don't get married will I have to be an old maid like Aunt Kate?"

"Mamma"—after a pause—"it's a tough world for us women, ain't it?"—Mercury.

The superlative egotist is the individual who finds fault with everything except himself.

A False Diagnosis. La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former.

AN ARGUMENT.

The Almost Came to Blows—The Trouble Soon Discovered and Everything Now All Right.

It was a quarrel amongst the organs of a man's body.

The man was sick, and his doctors didn't know what ailed him or how to cure him.

The Liver and Lungs, the Spleen, the Stomach and the Heart all "pitched into" the kidneys.

"It's your fault," said the Liver. "You have certain work to do and you don't do it. It's your place to filter all the poisons and impurities out of the body, and you are not doing it."

"As a consequence," said the Stomach, "we are all being clogged, poisoned and irritated. I am irritable and only half digest the food they are forcing into me. Here's the Liver all clogged and torpid, the Lungs are all choked up, we don't get half enough oxygen, the Head is aching, the Nerves tingling, the Back is aching, and the poor Heart is laboring like a sledge-hammer."

"Even the Joints and Muscles cry out with Rheumatic pains!"

"But we can't help it," said the Kidneys. "We can't do impossibilities. We are sick and weak ourselves and cannot do our work. Of course, these poisons collect in the blood and irritate and disease you. The moment we stop work you feel it. Your health always did and always will depend on our activity."

And just then an ordinary, every-day, common-sense doctor who knew his business was called in and prescribed Dr. Kidd's Spargus Kidney Pills.

The Kidneys promptly responded and set cheerfully to work with renewed strength and vigor; the Uric Acid, the waste products of decay and of fever, the acids of digestion and all the poisons and impurities in the blood were cast out.

"Well, that's something like it," said the Lung, "I'll pitch in and do my work now," said the Stomach.

"What a relief," said the Liver and the Heart, and the Joints and Muscles joined the chorus.

The quarrel was over. It was a happy family, working harmoniously once more.

This sounds like a fairy story, but it isn't. Its cold, hard, solid facts and common sense.

And you can prove it to your satisfaction for 50 cents.

"John!" "What?" "Wake up!"

"What do you want me to wake up for?" "Hush! Are you awake or asleep?" "Asleep! And how can I hush when I am asleep?"

"Well, wake up, then, and stop arguing. There's a burglar in the house!" "Well, ask him to leave."

"Leave what?" "Everything."

"But he won't do it. He's probably a selfish, disagreeable man. Now if he were a woman burglar, such as we'll have when women get their rights there might be some sense in appealing to her generosity. But not with this one. You might get up and scare him."

"How can I scare him?" "Why you are a man. You must get up and put on your trousers and go downstairs, making an awful noise, and he'll go away."

"Well, my dear, you just get up and put on your bicycle knickerbockers and skate down the front stairs on your wheel. If that doesn't scare him there's no use in my trying!"—Truth

Terry's Silverware. Among the many discoveries of the present age, none rank higher than the new metal silverware, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silverware is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want everyone to have a chance to compare silverware with silver, so for the next sixty days we are going to give away one half dozen Silverware Tea Spoons Free, to every person who will send for one of our Silverware sets containing six Tea Spoons, one Sugar Shell, one Butter Knife, if at any time the Silverware goods do not prove satisfactory, return them, and your money will be refunded. WITCH HAZEL OIL

**Look up the Nose and You Can See the Catarrh Irritation.**

The part of the nasal passages affected by Catarrh is always the membrane of the nose, and in a common cold this can be seen to be reddened and frequently covered with mucus. This diseased surface can be so readily seen, that any inexperienced observer, in a good light, can see the diseased membrane in the nose. Later on the disease can be seen in the throat, after it has passed through the nasal passages and back down the throat to the tonsils, which are enlarged, and surrounding membrane is reddened and filled with little pale white elevations. This is yet an uncomplicated, simple catarrh, which can be readily and surely relieved by the application of Pretzingers' Catarrh Balm. If this Balm be applied to the membrane of the nose in such a quantity that it can be drawn back into the head, the whole of the diseased surface above described will be bathed with this healing ointment, and such an application repeated twice a day, will speedily effect a cure, even of chronic catarrh as above described. The length of time required for the treatment of simple, uncomplicated catarrh, will vary with the stage at which the treatment is begun. A simple cold in the head, where the disease is confined to the nasal passages, will yield to treatment over night, but after the disease has extended beyond the nasal passages and into the throat, it may require from ten days to two weeks of treatment to thoroughly relieve the condition. This Balm costs but fifty cents, and can be had at any drug store, or Pretzingers Bros., chemists, Dayton, Ohio, who manufacture this remedy, will send same on receipt of price, or a small sample for a 2c stamp.

**NO MORE RICE-TROWING.**

**Confetti (Silver, Gold and Colored Ones) Substituted.**

Most of us who have had anything to do with weddings have had experiences of the dreiful effects of the showers of rice which mark the departure of the bride and groom, says the London Queen. There are not few young couples who have not entered upon their honeymoon with actual physical pain, thanks to the stone grains which have stung their eyes and ears and have found their way into their clothes and down their necks. Worse disasters even than this have followed the use of rice as a sign of the good-will of their friends, and serious accidents have not infrequently occurred in consequence of the reckless showering of these grains. The horses have been scared, and this, in some cases, has led to the overthrowing of the carriage and the severe injury of its occupants. Attempts have occasionally been made to mend this state of affairs, but until lately nothing has taken the place of rice. Rose petals and small flowers have been tried, but they have many disadvantages, notably that of becoming crushed to pulp and leaving unsightly stains on the carpets of the house. Shreds of colored paper have occasionally been used, but in these there is something too suggestive of the schoolboy's "hare and hounds" to excite much interest. At a recent fashionable double wedding at the west end considerable admiration was caused among the guests by the distribution of confetti as a substitute for the offending rice. They were such as are used at Eastbourne and the Riviera for the battle of flowers and on similar occasions. For the benefit of such readers as are unacquainted with confetti I may describe them as tiny paper wafers, principally gold and silver, with a few colored ones intermixed by way of adding to the effect. The progress of each bride down the staircase to the carriage on this particular occasion was made in a shower of gold and silver—surely as good an omen for her future prosperity as could possibly be afforded by the presage grains of "rice. The effect of the myriads of sparkling confetti was absolutely charming and fairly like as they fluttered to the ground the sun catching them as they fell. Certainly they clung about the dresses of the newly married couples, but they did no harm, and were soon shaken off. In the house, as they fell on the floral decorations and sparkled among the roses and ferns, they produced a result that is well worthy of notice by those whose business it is to provide novelties for functions of this sort. As for the horses, they were sublimely unconscious of the tiny and silver pieces with which their backs had been sprinkled by the time they started.

Huge Watch Presented to a Massive Man in the Ice Smoky. John Bevans, the big Smoky Hollow man, is 6 feet 4 inches in height and weighs 290 pounds. There does not appear to be an ounce of superfluous flesh upon his massive frame. His shoes are seventeen inches long and nine inches across the broadest part of the sole. All the rest of John's clothing is built in proportion. A number of his friends the other day in looking around for a suitable birthday present, came across a huge watch hanging in the display window of a pawnshop. Inquiry revealed the fact that the watch was once the property of Wang, known all over the civilized world as Barnum's Chinese giant. It was a hunting case, silver affair, and it was made especially for the giant of the orient, it must have

**RAILWAY DELIRIUM.**

**The Mad Speculation in English Road Projects Some Fifty Years Ago.**

The most absurd project that ever emanated from a madman's brain would, during this memorable year (1828) have found credulous English investors. It is difficult, in fact, to believe that some of the promoters were not insane. In Durham, for instance, three railways, all running in parallel lines, not far apart, were projected. At Greenwich speculators were eager to tunnel the park, and lest the vandalism should arouse indignation, proposed to erect marble arches adorned with marble busts. One inventor, confident that wind was a better motive power than steam, endeavored to propel his engine by means of sails. Another was certain that by the aid of rockets he could drive his locomotive at the rate of 100 miles an hour. Even more delirious was the rush for fortune in 1845-48. The number of projects was enormous. The number of lines, on paper, duplicated everywhere, or carried into the remotest localities. One was advocated because it passed through a country "celebrated for its genial climate" another because it ran across ground that had been invaded by the Danes, and the London and Exeter was actually thrust upon the market on the plea that it ran along the road used by the Romans. It is estimated that £100,000,000 per week were spent in railway advertisements alone.

**LOVING TOO LATE.**

A Common Enough Story Portrays a Pathetic Moral.

Not long ago I met a young lady in poverty whom I had previously known in wealth, and this was, in substance, the story she told me: "Father died suddenly in Washington, and the professional skill through which he had coined money for us died with him. I am not weeping because we are poor. I am broken-hearted because none of us saw that he was dying. It was not pitiful that he should think it best to tell any of us that he was sick? And I, his petted daughter, though I knew he was taking opium to soothe his great pain, was so absorbed by my lovers, my gowns and my dresses, that I just hoped it would all come right. If I could only remember that even once I had pitied his suffering or felt anxious about his life, I might bear his loss better!"

The story is common enough. Many a father, year after year, goes in and out of his home carrying the burden and doing the labor of life, while those whom he tenderly loves hold with but careless hands all of honor and gold he wins by toil and pain. Then some day his head and hands can work no more! And the hearts that have not learned the lesson of selfishness love white love was their teacher must now begin their sad duty when love has left them alone forever.

Put an end to misery. Doan's Ointment will cure the worst case of Itching Piles there ever was, and do it almost instantly. Years of suffering relieved in a single night. Get Doan's Ointment from your dealer.

**BEEES AT ASCOT.**

They Made Things Exceedingly Lively at the Race-track for Awhile. A curious incident occurred at Ascot. While a large number of pleasant luncheon parties were enjoying the delights of an open-air repast in the gardens behind the grandstand a great swarm of bees settled down on the guests around a table in a corner. They buzzed and buzzed everywhere. Ladies had bees in their bonnets and gentlemen found their hats turned into striking likenesses of "Catch-em-alive-oh's." Some of the swarm settled on the cold salmon and other members of it tumbled into the champagne cup. In fact, the bees created the greatest commotion among the ladies and gentlemen in that quarter of the grounds. They were gradually drawn off the luncheon party by a gentleman, to whom occurred the happy idea of treating them to a little music on the taping tray under a tree. After the musical tinkling on the article had continued for two or three moments the queen bee settled on the branches above to listen to it, and was at once followed by all the swarm. It was an extraordinary sight to see hundreds of the insects hanging like a great black and gold cluster on the tree while the luncheon continued. It ceased with the tinkling, and the bees did no more harm. In the early part of the performance a lady was pretty severely stung.

**Florence Nightingale's Message.**

Florence Nightingale recently sent the following message to the girls of Great Britain. It will apply to American girls as well: "My message" to girls would be: 1. Train yourselves to your work, to your life. The last twenty-five or thirty years has recognized beyond everything this necessity of training. 2. Have a higher object than the mere undertaking in all you undertake. When we fail or are disappointed, we lose heart and perhaps "strike work." But if we have recognized ourselves as (I will not say only) a wheel or a tool in the hands of that Almighty highest and truest and best, we have that blessing of being a part of the whole, and that whatever our own failure, are never cast down. 3. As one of the best women workers of our days says, "The talk now is of rights, not rights." Let that not be our case. I am myself always a prisoner for illness and overwork, but all the more I wish you God speed."

**Cancer Of the Breast.**

Mr. A. H. Crausby is one of the best known and most highly respected citizens of Memphis, and resides at 153 Kern street in that city.

Some years ago his wife noticed a small lump in her breast. She thought nothing of it, but it increased in size rapidly, and soon broke through the skin and commenced to discharge. She was at once put under treatment of the best physicians, but they very soon found that they could do her no good, and simply prescribed antiseptics to keep the place clean. Both her grandmother and aunt, by the way, had died with cancer, and when apprised of this fact the doctors said that they would not attempt to save her; that she was incurable. Although the cancer had by this time become deep-seated and her health very low, one of the most noted specialists of New York then treated her. After treating her awhile, this doctor admitted that the

MRS. A. H. CRAUSBY.

case was hopeless and further treatment useless. "It is difficult to imagine how despondent we all became," said Mr. Crausby, "knowing that she must die and unable to give her any relief. I had spent over five hundred dollars with the best medical skill to be had, and felt that there was no further hope."

"One day I happened to read an advertisement of S. S. S., recommending that remedy for cancer, and in view of the failure of the most eminent physicians in the country, I confess I had little faith left in any human agency. However, I purchased a bottle of S. S. S., and to my delight it seemed to benefit her. After she had taken a couple of bottles the cancer began to heal, and astonishing as it may seem, a few bottles more cured her entirely. You can probably better understand how remarkable this cure was when I explain that the cancer had eaten two holes in the breast two inches deep. These healed up entirely, and although ten years have elapsed, not a sign of the disease has ever returned, and we are assured of the permanence of the cure, which we at first doubted.

"As my wife inherited the cancer, I certainly regard S. S. S. as the most wonderful remedy in the world, and it is truly a Godsend to those afflicted with this terrible disease. You may be sure that I shall always be grateful to that remedy, for without it my home would now be desolate and my children motherless."

The above is but one of many remarkable cures being daily made by S. S. S. Cancer is becoming alarmingly prevalent, and manifests itself in such a variety of forms, that any lump, sore or scab, it matters not how small, which does not readily heal up and disappear may well be regarded with suspicion. We will gladly send to any address, full accounts of several of our cures, fully as remarkable as this one. For real blood troubles, S. S. S. has no equal. It wipes out completely the most obstinate cases of blood diseases, which other remedies do not seem to touch. S. S. S. gets at the root of the disease, and forces it out permanently. S. S. S. is guaranteed purely vegetable, and is a positive and permanent cure for Scrofula, Eczema, Cancer, Rheumatism and all traces of bad blood. Our valuable books will be mailed free to any address. **Mortgage Sale.**

Default having been made in the conditions of a certain mortgage made by Elizabeth Brokaw to the Ann Arbor Savings Bank dated the 12th day of April 1893, and recorded in the office of the Register of Deeds for Washtenaw County, Michigan, in Liber 79 of Mortgages, on page 624 on the 12th day of April 1893, on which mortgage there is claimed to be due at the date of this notice the sum of two thousand, three hundred and sixty-two dollars, and twenty cents (2,362.20). (The said Ann Arbor Savings Bank electing to consider the whole amount of the debt secured by said mortgage as now due as provided for in said mortgage on account of the non-payment of the interest and installments of principal) and no proceedings in law or equity having been instituted to recover the money secured by said mortgage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage and the statute in such case made and provided notice is hereby given that on Saturday the 11th day of January at 11 o'clock a. m. at the east front door of the Court House in the City of Ann Arbor, Michigan, (that being the place for holding the Circuit Court for said County of Washtenaw) there will be sold the premises described in said mortgage or so much thereof as may be necessary to pay the amount due on said mortgage with interest from the date of this notice together with the costs of this foreclosure including an attorney fee of thirty dollars provided for in said mortgage. The premises described in said mortgage to be sold as aforesaid are the following to-wit:

The west half of the south-west quarter of section twenty-four in the Township of Northfield, Washtenaw Co. Michigan.

Dated, October 3rd, 1895. THE ANN ARBOR SAVINGS BANK, Mortgagee.

**The Incomparable Chicago & Alton**

In these United States of America at least, and it is highly probable that throughout the entire world, the official record for the safety and welfare of its passengers made and maintained by the Chicago & Alton Railroad cannot be surpassed if indeed it can be equaled. Over its coast between Chicago and Kansas City, Chicago and St. Louis and St. Louis and Kansas City, eighteen magnificently appointed express trains are run on uniformly fast time every day. But in spite of this heavy passenger traffic the official records show that from December 4, 1879 to December 4, 1890, eleven years, there was no passenger, who was in place as a passenger, killed on Chicago & Alton trains. Moreover there was not a passenger seriously injured, to the extent of losing a limb, an eye or a member of any kind during that time.

During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four-fold, and special excursion trains were very many, there was not an accident of any kind—a most remarkable record.

Besides being America's most popular railroad, the Chicago & Alton is the Pioneer Dining Car Line, the Pioneer Pullman Sleeping Car Line and the Pioneer Palace Reclining Chair Car Line. Be sure that your ticket reads over the Chicago & Alton Railroad, when its matchless and direct lines can form the whole, or even a part of your journey.

FIDO'S WHISKY BATH.

Workmen Made It Serve for Other Cleansing Purposes. Half a dozen workmen were painting and paperhanging an old widow's house.

"Yes," said the old lady, "but I think they would look much better if the frames were cleaned up a bit, but it would cost me too much to get that done, I'm afraid."

"Oh," said the man, "it wouldn't cost you much. I think about a quart of whisky would do the job."

"Well, how do you like them?" asked one of the men. "Oh, delightful," said the old dame, "you have, indeed, made a splendid job of them."
