

A GOOD RECORD.

ANNUAL REPORT OF THE WASH- TENAW FIRE INSURANCE CO.

A Gain in Membership—Also in Capital Stock—Very Cheap Fire Insurance—Company Well Managed—Annual Meeting Held Yesterday—New Directors Elected.

The annual meeting of the Wash- tenaw Mutual Fire Ins. Co. was held in the court house yesterday. Secretary Child's annual report contained some interesting items. The net increase in membership during 1895 was 95. The total membership today is 2394. During the year 125 members have with- drawn from the society while 220 new names have been added. The new risks added during the past year amount to \$296,475.00. The number of risks cancelled, withdrawn, a termina- ted amount to \$288,735.00. This shows a net increase in the capital stock of \$7,740.00. The net capital stock of the company at the present time is \$5,- 284,620.00. There are also due, and which should be added to the above as resources, cash on hand \$160.00 and as- sessments due from last year \$247.40. During the year the society has collect- ed on assessments levied, \$11,893.98. The total expense of the society for the year, including all losses, interest on borrowed money, debts paid, salary of officers, and incidentals amount to \$21,- 693.22. The directors of the company for the past year have been Wm. K. Childs, E. E. Leland, Wm. Campbell, John F. Spafford, Wm. E. Stocking and Edwin Ball. The auditors were R. C. Reeve, J. M. Wing and F. B. Braun. In examining the report of the secre- tary one cannot but note the very small expense which it costs this soci- ety to carry on its business. For all clerical work, inspection of offered risks by the directors and the expense of the board of auditors, including all incidental expenses such as office rent, postage, printing and stationary, etc., amounts to only \$1411.09. There may be other insurance companies that can make a better showing. If so, we have never heard of them. The company makes but one assessment each year. This is estimated by the losses of pre- ceding years.

Last year the rate of the assessment was \$2.30 per \$1000. The company is very careful about placing a risk upon property. In each case where there is an application for a policy, one of the directors of the company is assigned to look it over, and in no case is a policy given for more than two-thirds of the value as reported by the direction as- signed to investigate. The annual meetings of this society are usually well attended, and great care and good judgment is exercised in the selection of officials. As a result the affairs of the company have always been well managed, the expenses have been kept low, the large bulk of the assessments going directly to pay actual losses of members of the society.

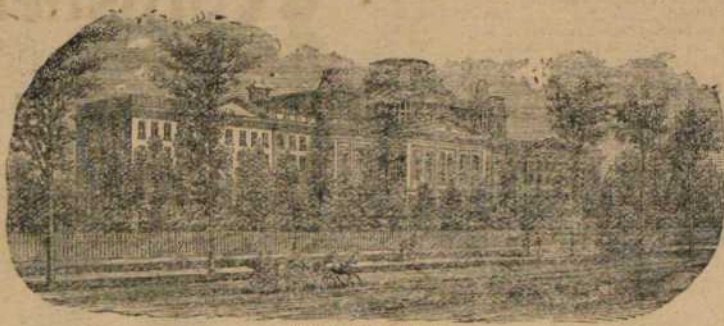

The Men's Auxiliary.

The Y. M. C. A. found there were some things which they needed to have done for them and the Ladies Auxiliary was the result. The Y. W. C. A. occa- sionally finds need for their brothers and have not called in vain for assis- tance, as is testified by sundry con- veniences in their rooms. Out of this need has grown a Men's Auxiliary which now numbers a half a dozen or more. Would it not be well for many to join this? The Y. W. C. A. hand book gives details as to this member- ship, which is confined very carefully to such as can be most unhesitatingly vouched for by those who have the best interests of the Association at heart. The Board intends to be so careful in this matter that it shall be in itself, a badge of uprightness to be a member of the Men's Auxiliary. Refer to Mem- bership Committee, Miss Sterret, Miss Hale, and Miss Russel.

Death of Rev. George Wood.

Died at 61 Washtenaw ave. at 7:30 this morning, Rev. George Wood, aged 81 years. The remains will be taken to Toledo for burial. A short service will be held at his late residence tomorrow at 3:30 p. m. Personal friends are in- vited to attend.

Mr. Wood was born in Lincolnshire, England, and came to Toledo, Ohio, in 1835, when it was only a village of a few houses. In 1837 he married Miss Sarah Seeley and they settled in what was then Lucas county, Ohio, where they experienced all the vicissitudes and hardships of pioneer life. In 1840 they removed to the village of Tadmor (now Delta, Ohio), and here was born to the young couple their daughter Mary. About 1871 they removed to Toledo where, in 1880, Mrs. Wood died. In 1885 Mr. Wood married Miss Amelia Fulweller who died in 1890, since which time Mr. Wood's home has been with his daughter, Dr. Mary Wood-Allen. In 1894 he accompanied her to this city, where he died this morning, full of years and greatly respected.—Times.

UNIVERSITY HALL AS IT NOW APPEARS

Regent Hackley Resigns.

Quite a surprise was created in Uni- versity circles last Friday by the re- port of the resignation of Charles H. Hackley as a member of the Board of Regents. Mr. Hackley, who is a very wealthy man, and who has shown that he is a man of great liberality in the line of educational institutions, was elected a member of the Board of Re- gents last spring. He succeeded Re- gent Hebard and was elected for the full term. On January 1st, he wrote Governor Rich as follows:

Hon. John T. Rich, Governor.
Dear Sir—With great regret I submit my resignation as regent of the University. I am deeply sensible of the obligation I am under the people of this state for electing me to the re- sponsible office, and that no trivial reason ought to prevail me in laying down, at this time, the trust committed to me. Since my election, however, unforeseen and unavoidable duties of a personal character have fallen upon me which place it out of my power to meet and discharge the duties of regent with such liberality as in my judgement is due to the people, to my associates, and to the University. No other course is open to me, therefore, than to place my re- signation in your hands at the earliest possible moment, to the end that the vacancy may be filled as your discre- tion may direct. With the sincere wishes for the increasing prosperity and usefulness of the University.

I remain very truly yours,

CHARLES H. HACKLEY.

At the same time Mr. Hackley sent the following brief note to President Angell:

"I have this day forwarded to Hon. John T. Rich my resignation as regent of the University, a copy of which I hand you herewith."

This action on the part of Mr. Hack- ley has caused much regret on the part of all friends of the University. It was generally believed that when Mr. Hackley became familiar with the workings of the University and the many needs it has which must go un- supplied for lack of funds, he would make some liberal bequest. It cannot be denied that not a few of the friends of the institution who were familiar with what Mr. Hackley has done for the cause of education at Muskegon, his home, believed that Mr. Hackley, by his liberality, would do much toward influencing other wealthy men of the state to make liberal bequests to the University. Mr. Hackley evidently in- tended, to fulfill his duties as Regent should he be elected. Some have been ready to hint that Mr. Hackley's friends in Muskegon have used every in- fluence possible to induce Mr. Hack- ley to resign fearing that if he should become interested in the larger field represented by University he would do less in the future for Muskegon.

An Old Resident Gone.

Mrs. Christina K. Schaeberle, of 32 W. Second-st., wife of the late Anton Schaeberle died at her home last Sat- urday afternoon of heart failure. De- ceased was 77 years of age. She came to Ann Arbor from Germany in 1854 and has resided here ever since. Three children, two sons and a daughter sur- vive her. They are Prof. M. Schaeberle, of Liek Observatory, California, Prof. Fred Schaeberle, of Santa Anna, California, and Miss Mary Schaeberle, who has made her home with her mother. Funeral services will not be held until the two sons of the deceased ar- rive from California.

Loses Its Pastor.

The First M. E. Church of this city has sustained a great loss in the de- cision of Rev. C. M. Cobern to accept the call to become the pastor of the First M. E. Church, of Denver, Colora- do. Dr. Cobern has proven himself a man of far more than usual ability and has done a vast amount of work since first coming to Ann Arbor some six years ago. While the people in Ann Arbor, including others as well as his own parishioners, regret the loss of his services here, they wish him a hearty godspeed in new and larger field of work.

Unity Club Monday Evening.

Mrs. Louise Hall Walker will lecture in the Unity Club next Monday evening giving an account of her journey from Cairo to Damascus across the Holy- Land. Her lecture will be illustrated by young ladies dressed in the costumes of the east. This new and interesting feature is likely to make it one of the most profitable and attractive entertain- ments of the course. Single admission 15 cents.

A BUSY OFFICIAL.

HUNDREDS OF CASES TO BE EXAMINED EACH YEAR.

The Prosecuting Attorney Earns His Salary—Four Hundred and Twenty-three Cases in 1895—A Pretty Big Batch for One Year's Work—This Does Not Represent All the Work of the Prosecutor—Scores of Complaints Made That Are Groundless—But They Must All be Looked Into—Some Interesting Statistics.

Prosecuting Attorney, Sath C. Ran- dall, has just made out his semi-annual report. It contains some interesting statistics and shows that the Prosecut- ing Attorney has his hands full. If he were to receive as much as the average lawyer does for each case which he must take charge of, he would be an ex- pensive officer to the county. As it is he receives but \$1500 for his services. During the last six months Mr. Randall has prosecuted 236 cases. The number of convictions were 164. Total number acquitted, 3. There also 52 cases which were dismissed upon the accused paying costs. There were also 3 cases Nolle Prossed. There were 11 cases dis- charged upon examination. The total number settled 3.

Of these 236 cases there were 3 for arson, one of which resulted in conviction and two dismissed. For assault and battery there were 42 cases. Of these 27 were convicted and 12 dis- missed upon payment of costs.

Seven people had been arrested for trying to board trains while in motion. Six of these were convicted and one dismissed. There were 68 cases of com- mon drunk of which there were 62 con- victions. The other six owned up and effected a settlement by paying up and promising not to drink so much next time. Eight were called upon to answer for breaking game laws. Seven of these were convicted and eighth settled by paying costs. There were 44 cases of simple larceny. Thirty-three con- victions resulted, 3 cases Nolle Prossed and 8 owned up, paid up the costs and were told to go and sin no more. In the liquor line there were an even dozen cases. The result was six convictions, 2 settled by owning that they had ille- gally handled budge and paid costs and 4 were discharged. Mr. Randall also had cases under the head of adultery, cruelty to animals, breaking into freight cars, disturbing religious services, breaking the peace, prostitution, for- gery, false pretenses, gambling houses, indecent exposure of person, trespass, selling chattel-mortgaged property, obstruction of trains, and one case for malicious destruction of shade trees.

The latter was a case from Ypsilanti where one neighbor wanted another's shade tree removed because it obstructed his view. He therefore proceeded to employ a boy to cut it down, but it got him into trouble. To look after 223 such cases in one year means a pretty lively year's work even if the prosecutor had had nothing else to do. This, how- ever, does not by any means represent all the cases that must be looked into by the Prosecuting Attorney. People are constantly making complaints to him against other people. All such complaints must be carefully investi- gated and suit instituted or the person making the complaint must be told that there is nothing in their accusations. To do all the work that is required of such an official is by no means the surest that some people may think it is. The board of supervisors may be assured that for the work of this office the county gets value received for every cent it pays for services.

The Y. W. C. A.

The Young Women's Christian Assoc- iation will, during the coming month open their rooms every afternoon, from three to six. At the meeting of the Board of Managers Monday night, it was decided to employ Miss Julia Roys as General Secretary during January with the hope that the finances of the Association will admit of her being en- gaged permanently.

To do this it is necessary to secure more sustaining members, and that the membership both of the Association and the Men's Auxiliary be increased. The ladies society extends an invita- tion to all ladies of the city to call at the rooms, and become acquainted with the work, both what has been done, and what the society aims to do. The society says to every girl who is a stranger in Ann Arbor, or who wishes to find friends, that she will find a welcome at their rooms.

COUNCIL PROCEEDINGS.

[OFFICIAL.]

COUNCIL CHAMBER, Ann Arbor, January 6th, 1896. Regular session. Called to order by President Hiscok. Roll called. Quorum present. Absent Ald. Snyder, Brown, Ferguson, Taylor.

The journal of December 16th was upon motion approved.

COMMUNICATIONS FROM THE MAYOR. To the Honorable Common Council of the City of Ann Arbor: Gentlemen:—In my opinion the action taken by your honorable body at the session of December 16th, on the ordinance relative to and speed of railroad trains, railroad crossings was not in keeping with the best interests of a large part of our citizens, who live in the vicinity of the railroads.

And no locomotive whistle shall be sounded within the limits of the City which I hereby disapprove. Also the amendment to the above ordinance, adding the words "except signals for the operation of trains and in cases of emergency." I also disapprove. Now gentlemen of the Council, fully appreciate the value of the railroads to Ann Arbor, and have for them but the kindest of feeling and would rather help than to impede their management.

But let us not in our desire to help the railroads forget our duty toward our citizens, their rights should be first considered. I have no desire to do anything that will work hardship on the railroads, but I do insist that if the stopping of the extreme and unnecessary whistling of the locomotive within the City limits is a hardship and it becomes necessary to choose between the railroad and our citizens as to which shall suffer, then it is our duty, as the representatives of the people to see that it is not them.

Ann Arbor has been very lenient with the railroads, and they have grossly abused the kindness. Their engines go screeching through our City at a high and dangerous rate of speed, blowing their whistles at every crossing loud enough to be heard ten miles when the crossing is scarcely that many rods away, awaking (if in the night), our citizens for several blocks on each side of the track.

Now may it please your honorable body if they were to slacken their speed, and come within, or anywhere near the requirements of the ordinance, the bell would give ample warning of approaching trains, and the whistle nuisance could be done away with.

The railroad authorities here have been complained to of this nuisance but could not be persuaded to give it any attention and it now develops upon you, gentlemen of the Council, to defend your citizens. It is your duty to apply such restrictions as will secure our people in their homes from this unnecessary noise.

The proposition to allow the use of the whistle to give such signals as is necessary in the operation of trains and in cases of emergencies will not help the matter in the least. It would be a poor railroad man who could not do all the whistling he choose and find plenty of protection in the emergency clause.

Warren E. Walker, Mayor. Upon which that portion of the ordinance failed to be passed over the veto of the Mayor as follows: Yeas—Ald. Coon, Butterfield, Cady—3. Nays—Ald. Moore, Maynard, Allmendinger, Koch, Laubengayer, Shadford, Prettyman, Pres. Hiscok—8.

Ald. Snyder entered. Ann Arbor, Mich., December 20th, '95. To the Honorable Common Council of the City of Ann Arbor: Gentlemen:—At your meeting of December 16th the following resolution was presented and passed.

Resolved—That the Board of Public Works be and is hereby ordered to purchase fourteen (14) flush-tank syphons to complete the Hill street sewer, at a cost not to exceed three hundred dollars (\$300.) dollars. The same to be paid for, at present, out of the general sewer fund. As I do not believe the time has yet arrived when it becomes the duty of the City to step in and complete the sewer or purchase material therefor, and beginning apprehensive that to do so at this time might lead to complications which it is our duty to avoid.

I am placed in the very unpleasant position of disapproving the above resolution and thus apparently delaying the completion of the sewer contract. The completion of the sewer, as soon as possible, is greatly desired by all but by none more than myself. There is nothing to show in the record of the Council proceedings that Mr. Collins is not carrying out the provisions of his contract, nor that he has delegated to your honorable body the right to purchase, for him, the material mentioned in the above resolution.

It is stipulated in the contract that in the event of default or abandonment of the contract, on the part of Mr. Collins, it shall be lawful for the city to advertise for tenders, for the construction of the unfinished portion of such

sewer and to re-let the work covered by his contract, or any unfinished portion thereof, or by its employes to take possession of and complete the same, all at the expense of the contractor. The record does not disclose that Mr. Collins is in default or that he has abandoned the work, and therefore, in my opinion, until he does so the City cannot interfere, and therefore I disapprove of the resolution to purchase the material.

Warren E. Walker, Mayor. Ald. Prettyman moved that the resolution vetoed by the Mayor be laid on the table temporarily.

Adopted as follows: Yeas—Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscok—11. Nays—Ald. Koch—1.

COMMUNICATIONS AND PETITIONS. To the President and Honorable Common Council of the City of Ann Arbor: Gentlemen:—Whereas, in the present condition of the sewers in Hill street district No. 3, it is impossible for this Board to make estimate on completed work, and whereas, there is a balance of about \$400.00 of the last estimate still in the hands of the City, now therefore, we recommend that your honorable body order a warrant drawn in favor of Henry Collins for the sum of \$280.00 for the purpose of paying for the flush-tank fixtures necessary to complete the work to the end that we may make a final estimate.

Board of Public Works, Glen V. Mills, Clerk. Ald. Cady moved that the recommendation of the Board of Public Works be concurred in by this Council. Adopted as follows: Yeas—Ald. Moore, Maynard, Koch, Snyder, Shadford, Prettyman, Coon, Cady, Pres. Hiscok—9. Nays—Ald. Allmendinger, Laubengayer, Butterfield—3.

To the Common Council: The Board are in receipt of but one bid for building the fence around the pump on Broadway and that for the sum of \$37.75 not including the setting. As this sum exceeds the appropriation for the purpose the Board refers the matter back to your honorable body for further instructions.

Board of Public Works, Glen V. Mills, Clerk. Received and placed on file. To the Common Council: Gentlemen:—According to the instruction of your honorable body the Board of Public Works has asked for bids for 3000 yds. of stone for the crusher, and after a full consideration of such bids they recommend that your honorable body establish the price at 60 cents per yard for such stone delivered at the City yards.

Board of Public Works, Glen V. Mills, Clerk. Received and placed on file. Ann Arbor, Jan. 2, 1896. D. F. Allmendinger, Chairman of Lighting Committee.

Dear Sir:—As an experiment we have placed in the clock tower four Welsbach lights and we think the result is so satisfactory that we desire to make you the following propositions for lighting the same. These lights are hung on an anti-vibrating fixture so that all breakage of mantles will be reduced to a minimum and I can see no reason why the mantles in these lamps should not last fully as long as in other positions.

We would make you three propositions as follows:— First: We will furnish and light four Welsbach lights such as are now in use to be lighted by the automatic attachment of the clock from dusk until 3 A. M. taking all care of same and furnishing all repairs, for the sum of seventy-five dollars per year, or we will light the same until 1 A. M. for the sum of sixty-five dollars per annum.

Second: We will furnish the fixtures now in place for the sum of seven dollars charging you the regular price for gas and repairs for the same with five dollars per year for regular inspection and care of same. These four lights will consume thirteen feet of gas per hour when lighted and one foot per hour when by passed.

Third: We will furnish complete lamps and attachment for lighting lamps by electric spark controlled by switch down stairs to be lighted by the second proposition for the sum of thirty-five dollars. Six thousand feet of gas per annum would be saved by the use of this attachment.

Trusting that the present illumination is satisfactory and that you will give one of these propositions your favorable consideration, Respectfully, Ann Arbor Gas Co., By—Henry Douglas, Supt.

If lighting be continued until daylight, ten (\$10.00) dollars per year added to first proposition. Referred to Lighting Committee. To the Honorable Common Council of the City of Ann Arbor:

I most respectfully request your body to permit me the use of heat from the city building boilers for room No. 16 N. Fourth Ave. size 29x15. It will not necessitate the use of any more fuel or service than now required. Rate \$5.00 per month. The same to be paid for or deducted from the

rent of the city offices at the expiration of each month that heat is used Jan'y. 6th, 1896. Clay A. Greene.

Referred to the Finance Committee. A petition signed by John Christensen and 4 others asking for the removal of certain trees on Beakes street was read and referred to the Street Committee.

A petition signed by George Johnson and 9 others asking for an electric light at the corner of Brooks and Hiscok was read and referred to the Lighting Committee.

A petition signed by Phenias A. Wilson asking for damages for injuries received by a defective sidewalk was read and referred to the Finance Committee.

REPORTS OF STANDING COMMITTEES. FINANCE. To the Common Council: Your Committee on Finance would respectfully report that they have had the following bills under their consideration and would recommend their allowance and that warrants be ordered drawn from the same.

Respectfully submitted, H. J. Brown, C. H. Cady, Emmett Coon, Committee on Finance.

THE Owen Electric Belts AND APPLIANCES

INSURE TO THE SICK these great points of advantage over all imitators.

THE ELECTRIC CURRENT can be immediately felt, although soothing to the most sensitive. The strength of the current is under the complete control of the wearer, so much so that a child may be treated and cured by the same power of Belt necessary for the strongest man. It can be changed from positive to negative current in a moment.

They have and are curing thousands of cases of

RHEUMATISM, CHRONIC DISEASES AND NERVOUS AILMENTS in man and woman (from any cause) where long continued medical treatment failed to cure.

NO MEDICINES ARE NECESSARY. Avoid all cheap (so-called) Electric Belts and fraudulent imitations of our Electric Belts and Appliances, as these are an imposition upon the suffering. **THE OWEN ELECTRIC TRUSS** is the most retentive and curative Truss made for the radical cure of Rupture.

Inclose six cents and send for our **LARGE ILLUSTRATED CATALOGUE** in English, German, Swedish and Norwegian languages; containing medical facts, sworn statements of cures made and descriptions of Belts and Appliances. Address

THE OWEN ELECTRIC BELT AND APPLIANCE CO.,
205 TO 211 STATE STREET, CHICAGO.

W. J. BRODIE.

1057 W. Polk St., Chicago, Oct. 27, 1893.

THE OWEN ELECTRIC BELT AND APPLIANCE CO. Gentlemen—Solely in the interest of those who are, or may become similarly affected with myself, I venture to offer my experience with the use of the **Owen Electric Belt**, and that I am actuated entirely by that motive, must be apparent from the fact that until you see my name and address recorded on this letter you had no knowledge of either. I had long been a sufferer from chronic dyspepsia and nervous prostration, contracted or aggravated by many years residence in the East Indies. About three years ago I purchased one of your Belts in the hope that its use might afford me some relief and wore it continuously as directed for about four hours every afternoon for a month or so, and the result was perfect; marvelous. My indigestion with all its attendant miseries, nervousness, depression, irritability and insomnia, from which latter I was a great sufferer, have disappeared. I then discontinued the use of the Belt (the existence of which I had indeed forgotten), until about six weeks ago, when a recurrence of my old trouble very forcibly reminded me of it. I again put it into wear (after ceasing its use for over one and one-half years), and with the same extraordinary results, being again restored to health, strength and vigor, after wearing it for only ten days. Under these circumstances I can most emphatically recommend to others suffering from the ailments which I have endeavored to describe, the adoption of the use of the **Owen Electric Belt**. I had long been aware of the curative powers of electricity from what I had read on the subject, and on my return to England I purchased from Fulvermacher of Regent Street, London, the combined chain bands, of which he is the patentee, for which I paid three guineas, and although I must admit that I derived some benefit from their use, I am bound to say the general result did not approach the benefit derived from the use of the **Owen Belt**, besides which its utility is so great an improvement in comfort and convenience; Fulvermacher's being cumbersome and complicated in adjusting to the body, besides causing from being uncovered, blisters and sores, and above all not being able to regulate the current as is the case in the **Owen Electric Belt**. You are at perfect liberty to make what use you think fit of this letter, and I shall be glad to answer either verbally or by letter any inquiry made from me on this subject. I am, gentlemen, Yours respectfully,

W. J. BRODIE.

Whereupon the "Ordinance Relative to Nuisance" was given its reading by sections.

Chairman Prettyman presented the ordinance entitled "An Ordinance Relative to the paying over of money received for the city by Public Officers" which was given its third reading by sections.

Upon which the question was "Shall this Ordinance pass?"

Adopted as follows:

Yeas—Ald. Moore, Maynard, Allmendinger, Koch, Snyder, Laubengayer, Shadford, Prettyman, Coon, Cady, Pres. Hiscock—11.

Nays—None.

Ald. Butterfield being absent.

Chairman Prettyman introduced an ordinance which was given its first reading by title, entitled "An Ordinance for the Protection of Fire Hydrants and keeping the same in good order."

REPORT OF CITY OFFICERS.

The monthly report of the City Clerk, City Treasurer, City Marshal, Chief of the Fire Department and the report Justice of the Peace Pond were read and ordered placed on file.

Ald. Prettyman moved that the report of Justice Pond be spread on the record.

Adopted.

STATE OF MICHIGAN, ss. COUNTY OF WASHTENAW.

On this seventh day of October A. D. 1895 personally appeared before me Elihu B. Pond, who being duly sworn says that the foregoing report is true and covers all the prosecutions of ordinance cases for the period named therein. And that the fines collected have been paid to the City Treasurer and the costs to the proper officials credited to receive same.

Subscribed and sworn before me this 7th day of October A. D. 1895.

John Q. A. Sessions,
Notary Public.

To the Common Council of the City of Ann Arbor.

Gentlemen:—Below find statement of ordinance cases brought before me during quarter ending December 31, 1895, and disposition made of same.

No.	Date	Name	Offense	Fine	Costs
190	Oct. 23	John Loney	Using indecent language	\$2.00	\$4.00
192	Nov. 1	John A. Natley	Disorderly person	5.00	4.30
202	Nov. 30	Blair Hinkley	Drunk in Street	5.00	4.70

I further certify that the fines were paid and by me paid into the City Treasurer, and the costs were also paid and by me paid to the proper officers, and that there is no fines or costs now in my hands.

Elihu B. Pond,
Justice of the Peace.

Subscribed and sworn to before me this 6th day of January A. D. 1896.

Died at Ann Arbor, Jan. 4, Edward W. Clark, son of George Clark, of Amsterdam, N. Y., in his 38th year. Mr. Clark was a graduate of the University of Michigan of the class of 1885, after having completed a course in pharmacy in New York city. In June, 1886, he married Miss Elizabeth A. Stearns, of this city. Three little children and his invalid wife are left to survive him.—Times.

The Camp of Modern Woodmen No. 2796, of Ann Arbor, had their installation of officers last Thursday night. The following were installed: V. C. E. Seers, W. A., T. J. Cunningham; Banker, W. Shadford; Clerk, Geo. Stanch; E. A.; St. Clair; W. G. Clark; S. W. Olney; Phys., Dr. Clark; Mgrs. Maltke, Esslinger and Barrows. In connection with the installation a fine program was rendered.

Wm. W. White, the owner of the Opera House and of the land known as the White addition to this city, died at his home in Utica, N. Y. last Thursday night. From what the Utica papers say, Mr. White was a man of much ability, and an estimable citizen in every respect. Funeral services were held last Sunday and were attended by Mr. A. J. Sawyer who is Mr. White's representative in this city.

According to the Detroit Tribune the Y. M. C. A. of this city has introduced a radical innovation and stepped right to the front in recognition of the new woman. It says that the Y. M. C. A. has appointed as general secretary Miss Julia Roys. If it had said the Y. W. C. A. instead of the Y. M. C. A. the statement would not have been so startling and would also have harmonized with the facts in the case.

Another Ann Arborite was caught last week for trying to save two cents, at the expense of the government, by sending a written message wrapped up in a newspaper upon which he did not pay letter postage. The scheme was discovered by the postmaster at the office to which the paper was sent. The man who sent it paid a fine of ten dollars when the postoffice inspector, who was sent here, called upon him. Its risky business attempting to beat the government in this way, yet five people here have tried it within the past year.

The Ann Arbor Organ Co. wish to extend a cordial invitation to the press, the stockholders, with their wives, and all who may be interested in the development of Ann Arbor industries to visit and inspect their new factory, corner First & Washington Sts. on Thursday evening, Jan. 16th, at 7:30. This finely equipped factory is now wholly completed, and will be in full operation, giving all an opportunity of seeing its workings in detail. They earnestly request those interested to be present and examine one of the most thriving industries of our city. The Chequamegon Orchestra will give a musicale in the reception room.

Miss Genevieve Allen gave a very pleasant eighth-day party New Year's evening at her home on the Whitmore Lake road. The merry party gathered at Mrs. Dr. Cleever's No. 44 Washington-st. at 5:30 p. m. and were driven out to Mr. Allen's. The chaperons were Mr. and Mrs. T. W. Mingay, Mrs. M. G. Stark, Mrs. A. C. Miller. Games, music, dancing and Newport flies furnished amusements. Presents were showered in profusion from home as well as distant friends. Bountiful and elaborate refreshments were served in the dining room, prettily decorated with evergreens. At 11 o'clock the party wished Miss Genevieve many happy returns of the day. They returned to the city well phased with the bright and happy ending of New Year's day.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co.  Mr. Lewis H. Clement,
 Mgr. Ann Arbor Organ Co.,
 Ann Arbor, Mich.

Dear Sir:—
 Will you permit me to express to you my thanks for your kindness in having loaned the Mehlun Grand Piano for the concert at University Hall on Saturday evening December 14th. It gave me much pleasure to have the opportunity of becoming acquainted with the merits of that excellent instrument. Its even action and fine resonant tone afforded me the greatest satisfaction. Again tendering my sincerest thanks for your courtesy, I remain,
 Yours respectfully,
 Rudolf von Scarpa.

Have Respect FOR YOUR Stomach.

DO not give it food that will irritate it, or retard it in the performance of its natural functions, or it will retaliate in a way decidedly unpleasant.

Have you a headache, a distress in your stomach, a pain in the side, or an irritation of the skin? These are the symptoms of disordered digestion resulting from unwholesome food.

Alum baking powders are responsible for a large part of this unwholesome food, for it is a fact, recognized by all physicians, that alum renders food with which it is mixed partially indigestible.

The danger to the public is not trifling, for alum baking powders are numerous. How are they to be avoided?

Baking powders sold, either wholesale or retail, at a lower price than "Royal," are almost invariably made from alum, and therefore of inferior quality and dangerous to health.

ROYAL BAKING POWDER is made of cream of tartar, a pure, wholesome fruit acid derived from grapes. It adds positively anti-dyspeptic qualities to the food. It makes finer, lighter, sweeter food, and is more economical in use, because of its greater strength.

What

You want of a medicine is that it shall do you good—purify and enrich your blood, throw off that tired feeling, and give you health, strength, courage and ambition.

Hood's

Sarsaparilla is the only true blood purifier prominently in the public eye today, and it meets these requirements perfectly. This is proved by the testimony of thousands of people. Hood's

Sarsaparilla

Builds up the nerves by feeding them on pure blood, creates an appetite by toning the digestive organs, overcomes that Tired Feeling by giving vitality to the blood, and gives sweet refreshing sleep. You may realize that Hood's Sarsaparilla

Does

this by giving it a fair trial. Insist upon Hood's and only Hood's. \$1; six for \$5. Hood's Pills not harmoniously with Hood's Sarsaparilla. 20c.

WHAT OF THE NEW YEAR.

There is a fascination in untried possibilities. What pleasurable excitement in the contemplation of a new step, especially if it be of our own planning. We are always going to be better, happier, more successful.

There is intense interest in beginnings. The launching of the ship arouses enthusiasm; the corner-stone scarcely finds a rival in the cap-stone. The little stranger just beginning life is very frequently the object of greater interest and attention than at any subsequent period of his pilgrimage. We take uncommon interest in a wedding, the beginning of a new era, whose after course becomes a matter of comparative indifference. Does not the eye fill and the heart swell when we see the young convert come to the altar?

It is well that life's journey can be diversified with landmarks, milestones, fresh starting points. If the past has been full of failures the idea of beginning over again is a peg to hang our hopes on.

Few, indeed, are there whose thought do not turn with something of new purpose to the fair unwritten page of the new year. A year fuller than ever of works for humanity is the ideal of every earnest temperance woman. It will be, so if we are mindful of the little opportunities of each passing day.

It is becoming evident that one of the surest ways to accomplish any lasting good in the temperance cause is to thoroughly instruct the little children. The Loyal Temperance Legion which has recently been organized in this city under the auspices of the W. C. T. U. and which holds meetings every Saturday at 2 o'clock in the hall over Calkins' drugstore on State-st., is only one out of over a thousand legions which have been organized in this country within the last six months.

TEMPERANCE CHARTERS FROM VARIOUS QUARTERS.

Miss Alice Slack, World's W. C. T. U. secretary, has been on an organizing and lecturing tour in Ireland.

New South Wales has now fifty-two unions with over two thousand members.

The third National W. C. T. U. convention, of India, will be held at Poona next April.

Grimby, England, recently welcomed the annual conference of the United Kingdom Loyal Temperance Legion, which has over two and one-half million members.

Dean Farrar addressing six hundred soldiers on the eve of their departure for India, strongly urged them first of all to abstain from alcoholic drinks.

A letter from the president of Iceland W. C. T. U. states that she rode on horseback two days in the darkness organizing W. C. T. U. Unions, and that she has now a L. T. L. of eighty members.

Lady Henry Somerset in a recent telegram to Miss Willard says: "We join prayers and influences to yours to avert a great calamity possible to the world, a war between nations in whose history is involved the highest hopes of humanity. God grant we may stand united to fight opposition everywhere."

Miss Willard is taking a three month lecturing and organizing trip through the southern states. Her letters are full of interest and hopeful news from that section. In the last she says: "We found in Louisville the great evangelist, B. Fay Willard holding a series of meetings and trying hard to reach friendless women with the gospel. I addressed the public on the subject of 'A White Life for Two,' and we organized a new W. C. T. U. of over two hundred members, in addition to several already in Louisville, naming it the Mills W. C. T. U. in honor of the brotherly evangelist who has done so much to help in the fight for purity and temperance."

A Splendid Entertainment.

On next Saturday evening at the Church of Christ, on S. University-Ave., occurs the second entertainment in the Inland League Series. It will consist of a concert under the direction of Prof. F. H. Pease, Director of the Normal Conservatory, Ypsilanti. Mr. Pease will be assisted by the Conservatory Ladies Quartette, by Miss Maria Dickinson, Pianist, Miss Abba Owen, Violinist, and Misses Stella White and Maria Garlissen, Vocalists.

For many years Mr. Pease has been foremost in the development of musical appreciation in Washtenaw County. He has always evinced great interest in the musical doings in our city. The fact that this concert is under his direction assures a most pleasant evening.

The Conservatory Ladies Quartette was heard at the Congregational Church a few weeks since, when their singing was much enjoyed. Mr. Pease is deserving of a good audience, not only that our citizens may show their appreciation of his good work in the past, but because the concert will be well worth attending. Admission is only 25c.

Wishing to reduce our stock before inventory, we will sell all furniture, Carpets and Draperies at greatly reduced prices. Halls Furniture Store.

Cubans' American Allies Take a Fort.

A special from Kingston, Jamaica, says: Advice received by carrier pigeons from the camp of American allies of the Cuban insurgents under Gen. Wilson, located near Las Purlales, province of Manzanilla, Cuba, give an account of a fight between the insurgents and Spaniards at that place. The insurgents under Gen. Wilson, 300 strong, attacked the fort at Las Purlales which was defended by about 200 Spaniards. After three hours of fighting the Spaniards surrendered with a loss of 42 killed and 23 wounded, while the insurgent loss was 29 killed and 14 wounded. A large amount of ammunition, together with 500 rifles and a supply of provisions, were secured. After everything of value had been taken from the fort it was wrecked by dynamite.

Glad Tidings

The grand specific for the prevailing malady of the age, Dyspepsia, Liver Complaint, Rheumatism, Costiveness, General Debility, etc., is Bacon's Celery Tonic stimulates the digestive organs, regulates the Liver, and restores the system to vigorous health and energies. Samples free. Large packages 50c at 25c. Sold only by John Moore.

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. When a piano is badly out of tune, the notes that come from it are certainly not musical. They are not beautiful. If it is only a little bit out of tune, you can play some few things on it. You can create a semblance of music, but you cannot make really beautiful, satisfying, soul-stirring music, unless every string is tense and firm, unless every piece of the whole instrument is in perfect tune, in perfect condition, in perfect harmony with every other piece.

It is the same with a human being. If his body is all out of order and run-down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right" he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. To really live, and to take his part in the work and pleasure of the world, his body must be in perfect condition. If this condition doesn't exist, something is wrong and something ought to be done. That something in nine cases in ten means the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the whole body. It makes the appetite good, the digestion perfect and nutrition rapid and easy. It supplies rich, red blood to all the tissues and builds up solid, healthful flesh. It brings perfect health and restores vigorous, spring vitality. It makes every function in life a pleasure instead of a drag. It is an invigorating tonic as well as the greatest blood-purifier of the age. You can get it at any drug store. If you care to know more about it, and about your own physical make-up, send 21 one-cent stamps to cover cost of mailing only and receive absolutely free a copy of Dr. Pierce's celebrated "The Common Sense Medical Adviser"—1028 pages, profusely illustrated. An Ordinance Relative To The Paying Over Of Money Received For The City By Public Officers.

The Common Council of the City of Ann Arbor Ordains:

Section 1. That all money collected or received for said city from fines, fees, penalties, or from other sources, by any officer thereof except Justices of the Peace, under the authority of any statute of the state of Michigan or ordinance of said city shall be paid by such officer into the city treasury, on or before the last day of the calendar month in which the said money was received or collected. The City Treasurer shall issue a receipt in duplicate for any such money, to the officer paying in the same, who shall file one of said receipts with the city clerk.

Section 2. That the duty of all officers of this city, entitled to receive money for said city under the authority of any statute of the state of Michigan or any ordinance of this city, to file an itemized statement in the office of the city clerk upon the last day of each calendar month of all money received by them for said city in and during said month: provided that nothing contained in this section shall be construed to apply to Justices of the Peace.

This ordinance shall take effect and be in force on and after publication.

Passed in Common Council this 6th day of January A. D. 1896.

Glen V. Mills, City Clerk.

Approved this 7th day of January 1896.

AMONG OUR NEIGHBORS.

YPSILANTI SENTINEL. Miss Ella Spencer has accepted a position in the St. Louis schools. D. C. Griffen spent Monday in Chicago, where he was called upon legal business. L. Smith, formerly owner of the White Laundry, has gone into business in Detroit. Mr. and Mrs. C. S. Wortley expect soon to go to Florida to remain the rest of the winter. Senator Barnard and Miss Adelaide Mosher, the latter a committee clerk, were married last week at Grand Rapids. At the close of the session it was rumored that our own handsome representative had matrimonial intentions, but nothing more unlikely appears now.

DEXTER LEADER. Mr. and Mrs. W. C. Clark entertained a party of friends very pleasantly at their home last Friday evening. The "Jolly Two Dozen" held a reunion at the home of Misses Jessie and Anna Doane Friday evening of last week. Mrs. Frank Murdock and daughter, Agnes, of Fort Wayne, Ind., and Mrs. E. C. Thompson, of Saginaw, are visiting at Mrs. Mary Murdock's.

On Wednesday afternoon, January 1, 1896, a pretty but quiet home wedding took place at the residence of E. A. Butler, uncle of the bride, when Geo. W. Hopkins, of Unadilla, and Miss Bertha Gulick, of Dexter, were united in marriage, Rev. H. A. McConnell officiating. About twenty-five of their relatives and most intimate friends were guests. After the ceremony and congratulations, all partook of a dinner which would do justice to the best of caterers. The happy couple will spend their honeymoon in Detroit. The best wishes of their many friends will follow them as they journey over the sea of life.

MANCHESTER ENTERPRISE. C. F. Kapp and A. J. Waters went to Ann Arbor yesterday. We learn that Elwin English and Miss Francis Logan were married Tuesday evening.

Mrs. Emma Lapham came down from Brooklyn to attend the Kishpaugh-Case wedding. The marriage of Albert F. Kishpaugh of Clinton, and Miss Adah Case, of this village, was solemnized at the Episcopal church in Clinton on New Year's evening.

Rev. Blanchford, of Tecumseh, tied the knot in the presence of a large number of friends of the bride and groom. Mr. and Mrs. Kishpaugh entertained their relatives at their cosy rooms over the postoffice in Clinton after the ceremony. Mr. Kishpaugh is one of Clinton's young and popular business men and is also postmaster. Miss Case is the daughter of S. M. Case, of this village. The Enterprise joins with their many friends here in extending heartiest congratulations.

SALINE OBSERVER. Mr. and Mrs. H. T. Nichols entertained the pedro club Friday night. Gottlieb Mann near Bridgewater last week moved into his new house. Mrs. Pauline Rogers returned this afternoon, from a visit at Brooklyn.

Misses Ada Liesner and Wing, of Ann Arbor, spent New Years with Mrs. Maher. Mr. and Mrs. E. E. Russell are the proud parents of a little daughter, born Tuesday.

CHELSEA HERALD. Miss Blanche Cushman, of Dexter, spent several days of last week with Chelsea friends.

Mr. and Mrs. Samuel Roberts and daughter, Kate, of Pinckney, visited friends in Chelsea last Monday.

Miss Mabel Gillam, of Detroit, is the guest of her brother, W. W. Gillam, and family, of the Chelsea House.

Wednesday, Dec. 25th, being the 20th anniversary of Mr. and Mrs. Frank Brooks' wedding, about fifty of their relatives and friends tendered them a surprise party and also help them eat their Christmas turkey. Before leaving they presented them with two handsome upholstered chairs and a set of silver spoons.

CHELSEA STANDARD. Miss Kate Hirth, of Toledo, is the guest of Mr. and Mrs. C. H. Kempf.

Mrs. J. H. Osborne, of Kenil, is the guest of her parents, Mr. and Mrs. M. J. Noyes.

Miss Alice Bird, of Detroit, is the guest of Mr. and Mrs. N. F. Prudden this week.

A number of young people gathered at the home of Mr. and Mrs. L. Tichenor Monday evening and enjoyed a very pleasant social time.

If the Baby is Cutting Teeth. Be sure and use that old and well-tried remedy, MRS. WINDSLOW'S SOOTHING SYRUP for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

A Forebode Whirlwind. On one of the calmest treacherous of last week two Peak's Island, Me., fishermen were started by the sudden descent upon them, while in White Head passage, of a whirlwind of sufficient force to lift the bow of their boat fairly out of the water. It lasted hardly half a minute.

Mrs. Anna Gage, wife of Ex-Deputy U. S. Marshal, Columbus, Kan., says:

"I was delivered of TWINS in less than 20 minutes and with scarcely any pain after using only two bottles of 'MOTHERS' FRIEND' DID NOT SUFFER AFTERWARD. CURES REPORTED.

CATARH PATIENTS LATELY CURED BY DR. HARTMAN.

Thousands of people who know of Pe-ru-na as a catarrh cure get it and begin treatment. Some of these people write Dr. Hartman. Hundreds of letters are received by the doctor every day. These letters are all promptly answered free. The cures are numerous. These testimonials are not solicited and never published except by the wish of the ones writing them. Here are a few of them:

G. W. Shields, Box 26, McKinney Texas, had catarrh for five years; cured by Pe-ru-na twelve months ago. Mrs. L. Keene, Four Oaks, N. C. catarrh, consumption; permanently cured. Master Howard, Black Jack Grove, Texas, cured of weak lungs; can't "speak too highly of Pe-ru-na." Mrs. Pauline Aulterman, Box 411, Taftville, Conn. catarrh, twelve years; entirely cured Mrs. S. E. Robbins, White Wright, Texas, catarrh of liver five years; perfectly cured. Mrs. Jessie R. Barnes, Knoxville, Tenn., catarrh neuralgia; "would gladly have welcomed death as a relief from my suffering." Now permanently cured by Pe-ru-na. W. O. Slessor, Reinbeck, Ia., used other catarrh remedies with no benefit: "Pe-ru-na is more than you claim for it." Martha E. Lefler, Francisco, Ind.: "I am cured of chronic catarrh with seven bottles of Pe-ru-na." Mrs. J. N. Kirchner Herndon, Kas., had catarrh sixteen years: "ten bottles of Pe-ru-na cured me." C. R. Harden, Evansville, Wis: "Pe-ru-na cured my wife of catarrh of twenty-eight years' standing." August Tryloff, Mt. Clemens, Mich., had catarrh cured, following la grippe: "Pe-ru-na cured me." A book of 64 pages, inst. u tively illustrated with cuts of the organs affected by chronic catarrh, sent free of charge by The Pe-ru-na Drug Manufacturing Company of Columbus, Ohio.

Highest Trees in the World.

In the Victorian State Forest, on the slopes of the mountains dividing Gipps Land from the rest of the Australian colony of Victoria, grow the highest trees in the world, the noble gum trees of the genus eucalyptus. These trees range from 350 feet to 500 feet in height. One of the huge trees that had fallen was found, by actual measurement with a tape, to be 433 feet from the roots to where the trunk had been broken off by the fall, and at that point the tree was 3 feet in diameter. A cedar tree recently felled near Ocosta, Wash., measured 467 feet in height and 70 feet in circumference. Dr. James gives some interesting particulars of these gum trees. The eucalyptus globulus grows 40 feet high in four years, in Florida, with a stem of a foot in diameter. Trees of the same species in Guatemala grow 120 feet in twelve years and had a stem diameter of 9 feet. Other species also attain enormous size—eucalyptus diversicolor is known to grow 400 feet high, and trees have been measured 300 feet long without a branch. Boards 12 feet wide can frequently be obtained. In 1880 a monster petrified tree was found in Baker county, Ore. It was just 666 feet long, and at its butt was quite 60 feet in diameter. Amber-like beads of petrified gum adhered to the sides of the trunk for a distance of 100 feet or more.

Lively as a Cricket.

Although in the first instant as sluggish as a tortoise, the kidneys become as lively as a cricket when a healthful impulse is given to them with Hostetter's Stomach Bitters, a promoter of activity in these organs which counteracts a tendency to their lethargy and disease. Inaction of the kidneys, it should be remembered, is the first stage of those dangerous renal maladies against which the resources of medical science are too often exhausted in vain. Peril is forestalled by the Bitters, which averts Bright's disease, diabetes, dropsy, gravel and the troubles arising from weak bladder. Equally efficacious is it in checking and eradicating malarial, bilious and nervous ailments, dyspepsia, constipation and rheumatism. Appetite and sleep are improved and convalescence hastened by its beneficial action. Either when health is slightly or seriously impaired, the value of this restorative and preventive medicine is speedily made manifest.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware. Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted. We want everyone to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silvereen Tea Spoons Free, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only. Price Silvereen set \$2.00.

A MOTHER'S DUTY

TOWARDS HER DAUGHTERS.

Suggestions Which Bear Repeating, as Their Importance is Immeasurable.

Only a few years ago even the medical profession scouted the idea that young girls could suffer from the misery of uterine troubles. That form of disease, it was claimed, came only to married women.

When Lydia E. Pinkham first sent out the news of her great discovery, there was no lack of harsh speech from those whose practice and opinions she set at defiance. But when young girls by the hundreds were absolutely cured by Lydia E. Pinkham's Vegetable Compound, then the tongues of the traducers were stilled, and faith was allowed to live in the hearts of the people. Young girls are subject to this trouble. It robs them of the buoyancy of youth. It makes all effort distasteful. It causes retention and suppression of menses, leucorrhoea, severe headache, waxy complexion, depression, weakness, loss of appetite and interest. Certainly mothers ought to know that these are all symptoms of the one cause of nearly all the suffering that comes to women; and to save their daughters ought to begin treatment at once. Lydia E. Pinkham's Vegetable Compound is the surest and most natural remedy for women ever compounded. It will accomplish its work with certainty.

ONCE AN ILLINOIS SENATOR.

Street-Car Conductor in Washington Has Had a Remarkable Career.

Washington Star: I learned by accident that one of the street car conductors in Washington was formerly known to me as a member of the state senate of Illinois. I hunted until I found him and he begged so hard not to have the matter made known, as it would injure him in his old home, that I promised, and then he told me his experiences, which could be made into a column or more of very interesting reading. He came to Washington soon after the inauguration of President Cleveland in 1893. Supplied with strong letters of indorsement, he first applied for a consulate, believing that he would enjoy foreign travel. Possessed of a little money and a sanguine temperament, he stopped at a first-class hotel and made himself popular, as he believed, with everyone supposed to have political influence. It took several months for him to realize that he was not going to obtain a consulate, and then he concluded to accept a position in one of the departments. The only one obtainable was that of messenger. But too many of his old friends visited the department, and he resigned, obtaining a position as street car conductor. It took several months to learn how to save anything out of his small wages, but now he has nearly enough to buy a suit of clothes and return to Illinois, when he will resign his conductorship and open a law office at his old home, trying to tell no more to his friends than that he has had a position in Washington without going into particulars.

In cases of burns, sprains, scalds, or any of the other accidental pains likely to come to the human body, Dr. Thomas' Eucalypti Oil gives almost instant relief.

Touching for King's Evil.

"The duke of Monmouth was passing through Hinton park, the seat of Earl Poulett, when one Elizabeth Parrot made a rush at the duke and touched his hand. She suffered from the king's evil, had received no benefit from physicians, nor even from a seventh son, to reach whom she had traveled ten miles. After touching the duke all the wounds were healed in two days! A handbill in folio was circulated, setting forth the marvelous cure, and a document signed by Henry Clarke, minister of Crewkerne, two captains, a clergyman and four others lay for some time at the Amsterdam coffee house, Bartholomews lane, London. The few that doubted Monmouth's legitimacy doubted no more.

"It is a curious episode, as the power was always supposed to lie with an anointed sovereign since the days of the confessor. Charles II in twenty-two years touched 92,107 persons. Wiseman, the sergeant surgeon, says Cromwell tried but it failed in his hand."—Mythes, Scenes and Worthies of Somerset.

Mr. Wm. Williams, Vicksburg, Mich. says: "I verily believe 'Adironda' Wheeler's Heart and Nerve Cure to be the most reliable remedy for heart irregularities that has ever been given to the public. Sold by all druggists."

Sung Her Life Song.

"Didn't you think that the soprano sung 'The Mistakes of My Life Have Been Many' with a good deal of feeling this morning?" "There is no reason why she shouldn't; she's been married three times."—Truth.

"I burned my fingers very badly. The pain was intense. Dr. Thomas' Electric Oil brought relief in three minutes. It was almost magical. I never saw anything like it." Amelia Swards, Saundersville, O.

STUDY OF THE MOON.

Peculiarities Noted in Its Appearance at Different Times.

To the casual observer the motions of the moon appear to be exceedingly whimsical and irregular: if its place in the sky is watched it will be found that it is first north and then south of the sun's path and that it is sometimes east and sometimes west of that luminary. The last two motions are steady and regular from east to west, carrying the moon in its endless swing around the heavens, starting at new moon near the sun and progressing until at full moon the whole visible portion of the sky separates the two bodies. After this there are two weeks in which the moon the whole visible portion of the approaching the sun from the other side, then, again apparently all of a sudden, it passes the sun and we behold a "new moon." The north and south motions of the moon are entirely different. While performing its endless journey from west to east there are two special periods in which it either moves far northward or takes up its position low down in the south. In spring the first motion is north, but afterward the general motion is reversed. In December you will note that the full moon occurs at the most northerly point in her course and in June at the most southerly. This is why we have most light from the full moon of winter and least from that of summer. Observations on these various movements indicate to us the path which the moon moves about the earth and also show us that that body in different parts of its orbit is at varying distances from the earth. This indicates that the moon's path is not a circle, but an ellipse, having the earth in one of its foci. The moon being governed directly and held in position by the attraction of the earth, holds its primary movements in a path around our globe, but the attraction energy of the sun and of the giant planets, perhaps in a lesser degree, produces motions in the moon which may be summarized briefly as a combination of the six following movements: (1) Its revolution about the earth, (2) its revolution with the earth about the sun, (3) the vibrating eccentricity of its orbit, (4) the slow, direct rotation in the "line of apsides," (5) the retrograde rotation in the line of nodes and (6) its rotation on its axis.—St. Louis Republic

For Singers, an Effective Cure for Colds.

Old Aunt Rachael, the well-known nurse of Holland decent, has gotten up for some New York physicians, according to their prescribed formula, a combination of Horehound, Eucalyptus, Grape Juice and Rock Candy, that is doing wonders in the cure of coughs, colds and sore throat. Trouble.

Trouble is the outcome of sin or the breaking in some way of some of God's eternal laws, which were here before the world was, and he who attempts to break them or disobey God's commands will inevitably suffer. Trouble cannot come from that soul that knows God's laws and keeps and respects them, and can only come upon those who dare to put their wills against God's and scorn his teachings and despise His precepts. The only cure for trouble is Christ, and He alone can wash our souls of their bloodstains and save us from trouble.—Rev. D. D. Phillips.

Eloquence.

"Eloquence is speaking out... out of the abundance of the heart," says the author of "Guesses at Truth." An incident related by Dr. Barnardo, the English philanthropist who cares for friendless children, illustrates this characteristic of eloquence. "I was standing," he said, "at my front door one bitter day in winter, when a little ragged chap came up to me and asked me for an order of admission. To test him I pretended to be rather rough with him. 'How do I know if what you tell me is true? Have you any friends to speak for you?' 'Friends!' he shouted. 'No, I ain't got no friends, but if these 'ere raggs'—and he waved his arm about as he spoke—'won't speak for me nothin' else will.'"

TOO MUCH WORK

For a Healthy Existence.—That's Why the Kidneys so often Fail.

Nature has provided a certain amount of work for every organ of the human body; overtax them and disease eventually follows. There is not one portion of our organism that is so overworked as the kidneys; on them is placed the important function of filtering the blood of the impurities which naturally form in the regular action of life and digestion. The kidneys are consequently termed the sewerage of the system; clog up this sewer, and the blood becomes tainted with poisonous uric acid, which brings on disease in many forms. The back is the first to show this stoppage. From there comes the warning note; it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following:

Mr. Wm. Nelson is a well-known business man of Kalamazoo, he resides at 823 Portage Street, and his business is that of a grain buyer. He says: "For five years I have suffered from an inability to urinate, which resulted from what was said to be a stoppage of the bladder. During these years I have taken mineral and electric baths and used other means in expectancy of getting better, but they all proved unavailing. Some months ago I began using Doan's Kidney Pills, which I had heard highly recommended, and I can now say that the flattering reports were not greater than they deserved. I got better right along, and I am free from any trouble now. I feel better than I have done for three years past. If Doan's Kidney Pills were well known all over they would do an immense amount of good." Sold by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. is the most delicate and important structure in the human body.
It is the seat of our intellect, strength and most powerful and precious ally.
It has lost its most powerful and precious ally.
Mayon's Sinal, Blood and Nerve Remedy is prepared especially for the Nerves.
Instantly relieves and permanently cures torturing pains in the head, body or limbs, SLEEPLESSNESS, NERVOUSNESS, LOSS OF NERVE POWER, DIZZINESS, CONFUSION OF THE MIND, etc. Send for valuable literature.
Mrs. M. Quinlan, No. 2329 W. Walnut Street, Louisville, Ky., writes: "I think God must have sent your remedy to me. I was bed-ridden with a complication of diseases which finally resulted in complete nervous exhaustion and severe sinking spells, when I first commenced using it. I began improving at once, have used 10 bottles and am now assisting in the care of my home, something I have not done for 7 yrs. It certainly has helped me when everything else failed."
Our agent at Indianapolis, Ind., says: "A young man who had been down for three weeks on a stretcher with his arms and legs so bad that they made his bed in a wagon and brought him to me. He was not able to raise up. After using 5 bottles of your Remedy he is a different man and says, he feels as if he had never been bothered with Rheumatism."

MISTAKEN IDENTITY.

There Was a Vast Difference in the Two Cases.

The other day at Montezuma, while two citizens were conversing at a depot, a negro approached and addressed one of them as follows:
"Kurnel, I h'ar yo' want to git a man out on de plantashun."
"Yes, I want a man out there," replied the colonel as he looked the negro over. "Seems to me I've seen you before."
"Reckon not, sah. I'ze new roon here."
"But I'm sure I've seen you somewhere. Let's see, I was over at Perry the other day."
"Yes, sah, yo' was ober to Perry."
"And while there I called at de jail."
"Yes, sah, yo' called at de jail. Dey has got a powerful nice jail ober at Perry."
"And while at de jail I saw a colored man who was serving a sentence for stealing a hog."
"No doubt of it, kurnel. Yes, yo' dun saw a cull'd pusson right in dat jail at Perry."
"And you are the man," said the colonel as he laid his hand on the negro's shoulder.
"Jes' so, kurnel—jes' so. I was right in dat jail at Perry, an' I dun 'members of seein' yo' pass along. Curious what a mem'ry some white folks has in their heads!"
"But you don't suppose I want a man who has been in jail for stealing, do you?" exclaimed the colonel.
"No, sah—no, sah. Of co'se yo' don't. Dat's what I'ze here to displain about. Yo' got it all wrong 'bout dat hog, kurnel. De pusson who dun stole de hog was asleep when yo' called. I wasn't in dat jail for stealin' no hog. I'ze no such man as dat."
"Then what were you in for?"
"Why, dey said dem two bags er cotton seed meal what dey found in my cart was taken from de depo'."
"Oh, I see. Well, what's the difference?"
"What's the difference? Heaps o' difference, sah. On de one hand, I'ze leadin' up a bar'l o' salt arter dark, an' dem bags jes' tumbled into my cart while my back wuz turned. On de other hand, a pusson goes out by daylight and runs a hog aroun' de woods for ober two hours before he catches a hind leg. 'Scuse me, kurnel, I did reckon I'd like to work on yo' plantashun, but if yo' am de sort o' man who can't see de difference between a pusson restin in jail to oblige de jury an' bein' sent to jail for stealin' a hog I couldn't trust my reputashun in yo' hands. Good mawnin', kurnel, good mawnin'!"—Ex.

One Woman's Power.
As a matter of fact English sovereigns have rarely taken any active part in politics since George III's time but they still could do some very astonishing things if they chose. The queen could dismiss every Tommy Atkins in the army, from the commander-in-chief to the youngest drummer boy. She could disband the navy in the same way and sell all the ships, stores and arsenals to the first customer that came along. Acting entirely on her own responsibility, she could declare war against any foreign country or make a present to any foreign power of any part of the empire. She could make every man, woman and child in England, Scotland and Ireland a peer of the realm, with the right, in the case of the males who are of age, to a seat in the house of lords. With a single word she could dismiss any government that happened to be in power and could, it is believed, pardon and liberate all the criminals in our jails. These are a few of the things the queen could do if she liked; but it is not necessary to say that her majesty never acts in matters of state except on the advice of the government for the time being.—New York Recorder.

A True Account.
She was having her picture taken, and her chum and the photographer were having a hard time. The photographer had patiently posed her a score of times, and the chum had told her that each one was better than the last and she looked perfectly lovely that way, until she was too weary to do more than smile in a perfunctory manner. And still the other girl fussed and hesitated and wouldn't be taken. At last the chum noticed she kept glancing toward her feet, and she had a bright idea, a perfect inspiration.
"Why don't you try a standing position?" she suggested, ignoring the fact that this had been done several times, and the other girl jumped at the idea.
"I believe I will," she said, rising quickly, and the chum caught her dress in a seemingly accidental fashion so that the tiny foot, with its pointed toe, was disclosed. Then the other girl smiled in a satisfied manner and consented to be taken, and the chum looked as pleasant as though she didn't know she would hear that "Mamie pulled my dress a little by accident, and the photographer liked the picture so well that he would finish them that way."

"Burdock Blood Bitters entirely cured me of dizziness breaking out all over my body. It is a wonderful medicine." Miss Julia Elbridge, Box 35, West Cornwall, Conn.

Malay Camphor.
(Dryobalanops Camphora.)

This species of camphor is produced from a tree growing in Sumatra, Borneo and the Malay Peninsula, and is known as Malay Camphor. It is secreted naturally in crystalline masses and lodged in cavities in the wood. It is whitish, translucent, somewhat unctuous to the touch, very volatile, and its odor strong and fragrant. One of the strongest properties of the Malay Camphor, as well as that of all other camphors, is their strong sedative power, and they are all of great power in allaying irritation and relieving pain. The ordinary liquid camphor purchased at the drug store, if applied to a tender surface, will cause a smart, but this is due, not to the camphor, but to the alcohol in which it is held in solution. The wonderful success that has followed the introduction of Pretzinger's Catarrh Balm has been due to the fact that in it are carried not only the well-known camphor of commerce, but the Malay Camphor and the camphor obtained from the Australian Blue Gum Tree, as well as the Japanese Camphor, better known as Menthol, obtained from Japan, and other camphors, and all these in combination have a wonderful heating effect, and their power to subdue the irritated membranes of the air passages of the nose and throat is skin to the marvelous. Any reader of his article who has any difficulty whatever with the air passages of the head should obtain Pretzinger's Catarrh Balm and see if the statements in this article are not facts. The many thousands who have used this invaluable remedy will give it their unqualified endorsement.
Pretzinger Bros., Chemists, Dayton Ohio, will send a sample on receipt of a two-cent stamp.

WHAT BECOMES OF THE PIN

Problem Solved at Last—Resolved Into Their Elements.
An old gentleman in the making of a series of interesting experiments with a view to finding a solution to the question often asked: "What becomes of the countless myriads of pins, etc. that are annually lost?" As he expected, he finds that it is the disintegrating effects of the air which resolves even these intractable little instruments into their elements, says an exchange. He put some hundreds of brass and steel pins, needles, hairpins, etc., in a quiet corner of his garden, where they would be subject to all the destructive agencies of dampness, earth, wind, etc., although securing from the predatory hands and disturbing feet of inquisitive intruders. The results are curious. Ordinary hairpins were the first (taking 154 days on an average) to oxidize into a brownish dust—ferrous oxide—which was scattered to the wind as it was formed, and not a trace of a single one could be detected at the end of seven months. Common bright pins took as long as eighteen months before their combustion was complete, but brass ones had been entirely turned into green verdigris long before that. At the end of fifteen months an ordinary penholder had had its nib entirely rusted away, but the wooden stick was almost unaltered. It is probable that the point on it had somewhat of a preservative effect. Some used wax vextas were almost gone, with the exception of the cotton wick, in less than eighty days from the time they were deposited and the sulphur heads of some unit ones were perfect as ever. Polished-steel needles of a small size lasted a very long time (over two years and a half), but a black-lead pencil proved itself to be practically indestructible, both cedar and plumbago being almost as good as when new, even though harder things had quite rotted.

Warnings to Be Revived.
It is rumored that the use of earrings is to be revived, and as these ornaments have frequently been given as wedding presents in fashionable circles lately, I am afraid it is likely to be true. I noticed that the Duke and Duchess of York presented a brooch and earrings to Lady Eva Greville. I do sincerely hope that the women of to-day will not often be found willing to revert to a fashion which is but a remnant of barbarism, and that they will not spoil the natural beauty of their ears for the sake of sticking jewels in them. If once the fashion of earrings should become general again it will only be a matter of time before the reintroduction of those hideously vulgar-looking, long appendages, which distorted so many pretty ears in the past. Before any reader has her ears pierced I hope she will consider that the fashion may be very temporary, and that even if the rings are not worn the mark very seldom disappears; moreover, any weight attached to the lobe of the ear is likely to drag it down and spoil its proper shape.—Home Notes.

Nervous women will find relief in Hood's Sarsaparilla, because it enriches the blood and thus strengthens the nervous system.

ABOUT APPENDICITIS.

The Necessity of Recourse to an Operation Questioned.
It is many a long year since so much scientific and unnecessary butchery has been indulged in as is recorded in the treatment of appendicitis in the last few years, says the New York Ledger. Severe pain and certain symptoms that might be attributed to a dozen other causes are charged to appendicitis and a continuation of them suggests experiments to the minds of the doctors and the operating table looms up in the immediate future as the only hope for life. There are yet many physicians who insist that operations of this sort are absolutely necessary, but it is a hopeful sign of the times that some of the more conservative and experienced doctors declare that only in exceptional cases is surgery positively necessary. As a simple home treatment several patients have been immediately relieved by drinking large quantities of pure salad oil. This appears to have a beneficial effect upon the entire lining membrane of the alimentary canal; the oil seemed to spread over the surface, allaying irritation and softening whatever food products may have lodged in the appendix sac. The nonsensical theory put forth by one member of the medical profession that no infant was properly equipped for life until by surgical means it had been deprived of the vermiform appendix and thus fortified against future danger is too silly to deserve a moment's consideration. Millions of people have lived and died without ever knowing that such a thing, and the proportion of deaths that can by any possible means be attributed to this cause is extremely small. Some day doctors and patients will realize that a thorough washing out and cleansing of the interior of the body is quite as beneficial as the same process applied to the exterior. It is asserted by those who have had sufficient experience to entitle their statements to consideration that the thorough washing out of the digestive apparatus by means of tepid water properly purified would prevent at least half of the diseases from which humanity suffers.

Sciatic Rheumatism

For real blood diseases a real blood can only be obtained by using a real blood remedy. So many people who are sufferers from an obstinate or deep-seated blood disease make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. It is in just such cases which other so-called blood remedies cannot reach that S.S.S. has made some of the most wonderful cures. Rheumatism is one of the most obstinate diseases of the blood, and there are few remedies which have any effect whatever upon it.
Mr. Asa Smith, who resides at Greencastle, Indiana, where he is well known, writes:
"For many years I have suffered from that terrible disease known as Sciatic Rheumatism, which the treatment of many physicians failed to relieve. I have also used nearly every known blood remedy, but they did me no good, as they did not seem to reach my case at all. Possibly my condition and the extent of my sufferings

can be better appreciated when I state that the disease reached a point where it was a matter of utter impossibility for me to take my food, or handle myself in any way, and for several months the nurses were compelled to turn me in bed by use of the sheets.
"This was my condition when S.S.S. was recommended to me, and I must confess that I had little hopes of any medicine benefiting me. I was soon encouraged, however, when after taking three bottles I was able to move my right arm. I continued to take the medicine and before long was able to walk across the room, and when I had finished one dozen bottles was able to get about as of old.
"I have been hale and hearty now for two years, without any sign of a return of the disease. I will never cease to praise S.S.S., which I regard as the most wonderful blood remedy on earth; it brought me out of a condition of utter helplessness to one of robust health, with a weight of 170 pounds."
S. S. S. cures Scrofula, Cancer, Eczema, and any form of blood troubles. It is guaranteed purely vegetable and forces out the poison permanently. If you have a blood disease take a blood medicine—S. S. S. is exclusively for the blood and is recommended for nothing else. It has made some truly wonderful cures of Cancer, where death seemed the only relief, and we will take pleasure in sending to anyone full particulars of these cures, and also our valuable books. WHY "No. 9" ARE WHEELER & WILSON'S SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best of other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

CHANGED HER MIND.

THEN CHANGED HER BODY.

"Some people fail to arrive at correct conclusions because they are too hasty and I have to watch myself on that very point," said a lady. "I said to a friend the other day, that I didn't fancy the grain coffee, Postum, although nearly all my friends use it. We tried it once but it didn't taste as good as I had been told it would, so we didn't serve it any more." My friend asked pleasantly, whether we ever had trouble with our coffee or tea and was told that now and then the coffee was 'sloppy' or burned and occasionally the tea was unfit to drink, but then you know, I said, we know coffee and tea can be made good, so it is some failure with the cook if they come to the table unfit." "Ah, there's the point," my friend exclaimed. "Now we have been using Postum steadily for about a year and we know its magnificent qualities as a nourishing beverage but mind you, I have seen it served at my table once or twice almost unfit to drink, and we got one package last summer that was over cooked at the factory and was not good but which the grocer replaced; these incidents do not change, the fact that Postum is a delicious healthy and nourishing beverage, as proven day by day in our family. You should not hastily condemn a new thing upon one imperfect trial as you deprive yourself of benefits which a fair test would make yours." "These comments made an impression and acting on her advice I hunted up the package of Postum, brewed some myself for breakfast the next morning, and it really was as delicious to my taste as a high grade coffee. I noticed, that morning, that the heavy, disagreeable feeling (usual after breakfast with coffee) was absent. This set me thinking and wondering if it was true, after all, that coffee did slightly poison my liver and stomach and made me feel so. I concluded to try coffee and tea a while, anyhow and quit Postum, and am glad to say that for that, or some other reason, I never felt better in my life than I have since the change."

THAT FEMALE TYRANT.

She Flouts Her Husband's Opinions and Allows Him No Freedom.

She contradicts him at the head of his own table; interrupts his anecdote to set him right on an utterly unimportant little detail—say, the date of a transaction, which he makes the 7th of September, and she asserts was the 8th, says the National Review. She interferes in all his arrangements and questions his authority in the stables, the fields, the church, the consulting-room she apportions his food and regulates the amount of wine he may take; should she dislike the smell of tobacco she will not allow him the most transient whiff of the most refined cigarette, and like her brother with his victim, she teaches the children to despise their father by the frank contempt with which she treats him and the way in which she flouts his opinion and denies his authority. If she be more affectionate than aggressive, she renders him ridiculous by her effusiveness. Like the "Sammy, love" which reared Dean Alford's reprobation, she loads him with silly epithets of endearment before folk, oppresses him with personal attentions and treats him generally as a sick child next door to an idiot. All out of love and its unreasoning tyranny she takes him into custody—in public as in private life—and allows him no kind of freedom. Robust and vigorous as he is, she worries ever his health as though he were a confirmed invalid; in the heyday of his maturity coddling him as if he were an octogenarian bordering on second childhood. She continually uses the expression, "I shall not allow my husband to do so and so," or, "I will make my husband do this and that." Never by any chance does she confess his right to free action, bound as he is in the chains of her tyrannous affection. In the end she makes him what she has so long fancied him to be—a backboneless valetudinarian, whom the sun scorches to fever and the east wind chills to pneumonia—one who has lost the fruit by "fadding" about the flower.

The Magpie and His Parrot.

A Magpie who was Chattering Away at a Lively rate was Approached by a Parrot, who Sneeringly said: "What an Awful, awful Row! Are you trying to Scare all the Children to Death?" "You are a nice Specimen to Sneer at my Music!" replied the indignant Magpie. "If I had your Voice I'd go hang myself!" "And if I had yours I'd Sing to a Pole Cat."

"This little Matter can be Easily Settled," observed the Parrot, after a moment's Thought. "Let us go into the Garden of the Musician and Sing for him and leave it for him to Decide."

It being so Agreed, the two Birds perched themselves on a Limb near the Musician's window and began their Songs. Each was trying his Best to Excel the other when the Alarmed and Enraged Referee rushed out with a Club and exclaimed: "Great General Scott! but if you don't Clear Out of this I'll have your Lives! It's Worse than a Horse Fiddle!"

The Papers.

"Oh, you make me sick," exclaimed Humanity, petulantly. The Microbe sneered. "You must believe everything you see about me in the papers," it rejoined.—Detroit Tribune.

Children Cry for Pitcher's Castoria.

NOT ABOUT HIS LOOKS.

The numbers have been changed since College Place has become part of West Broadway, and persons who know only the old numbers have difficulty in finding places under the new. A seeker for information on this point made inquiries the other day of a postman who was in the act of opening a letter box. The postman, in place of answering shoved the inquirer aside. When the inquiry was repeated the postman put his finger on his lips and gave another shove.

The inquirer thought the postman deaf and dumb, if not crazy, but the postman after closing the letter box, in which he had made changes in the movable numerals giving the hours of collection, said:

"We are not allowed to speak when the box is open. I would be discharged if I were seen to speak then. What is it you want?"

He then gave the desired information.—New York Sun.

Here is a diamond, here a piece of charcoal. Both carbon; yet between them stands the mightiest of magicians—Nature. The food on your table, and your own body; elementally the same; yet between the two stands the digestion, the arbiter of growth or decline, life or death.

We cannot make a diamond; we cannot make flesh, blood and bone. No. But by means of the Shaker Digestive Cordial we can enable the stomach to digest food which would otherwise ferment and poison the system. In all forms of dyspepsia and incipient consumption, with weakness, loss of flesh, thin blood, nervous prostration the Cordial is the successful remedy. Taken with food it relieves at once. It nourishes, and assists nature to nourish. A trial bottle—enough to show its merit—10 cents.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

He Bit at the Bait.

It certainly was an unfair advantage to take of a man; but business is business. He was expecting a dun, and he instructed his office boy to say, in case anybody called, that Mr. Pilgarlic was out to lunch. Presently there was a caller. He was stopped in the outside room by the youthful Cerberus, who delivered himself of the formula, according to instructions.

"Oh, he's gone out to lunch, eh?" said the visitor; "I'm sorry for that. I wanted him to take dinner with me."

Pilgarlic came out of the inner room with Italian precipitancy, and with a face glowing with anticipated pleasure. But the visitor caused the blood to recede and to make Pilgarlic try to follow its example; for the visitor was a dun and knew his business. "If you can make it convenient," he said, "to pay that little bill."

But why dwell upon the agonies of the situation?—Boston Transcript.
