## TWO BALL

### U. OF M. STUDENTS DANCE IN TWO STATES.

Both Affairs A Brilliant Success Socially—One Hundred and Fifty Couples Go To Toledo—One Hundred Couples at the Gymnasium—Now the Fellows Have a Year to Settle Their Differences—The Regents Rescind Their Former Action—Now Any University Organization May Rent the Gym.

The outcome of the fraternity war was reached last Friday night when the annual ball was held in two sections, one in Toledo, Ohio, and one in the Waterman Gymnasium. From a social standpoint both affairs were successful. Fully one hundred and fifty couples boarded the special at eight o'clock last Friday night and sped away to Memorial Hall, at Toledo, to hold the Twentieth Annual Ball. It was a gay party and all were determined to ignore the inconveniences of a hundred mile railroad ride in full dress in order to maintain their exclusiveness and not mingle with things common or unclean. The party had as chaperons only two faculty ladies, Mrs. J. C. Knowlton and Mrs. G. W. Patterson. These were assisted by a number of other society ladies of Michigan and Ohio. The party returned to Ann Arbor at about 6 o'clock Saturday morning. The hall in Toledo was beautifully decorated with the college colors. Catering was looked after by Mr. E. V. Hangsterfer, of this city. Music was furnished by Schremers band of twenty pieces and Orchestra of the same number, for the 30 dances and the extras. Everything went off without a hitch and all parties concerned are enthusiastic about the success of the affair. The only drawback that one hears about is the expense. This has been estimated to reach anywhere from \$25 to \$50 each for each of the members of the eight fraternities participating in the Toledo affair. Just what it may actually figure up will probably never be known by the public.

The First Annual Promenade, as the stay-at-home affair was denominated, though arranged for on short notice was also a brilliant success. Fully one hundred couples were in attendance. The Gym was tastefully decorated. Music was furnished by the 19th Infantry U. S. A. band from Ft. Wayne, Detroit. Stabler had charge of the decorations here as well as at Toledo and made the Gym a veritable tower of beauty. The refreshments were served by Hangsterfer. The patronesses were with one exception. Faculty ladies, as follows:

Mesdames J. B. Angell, M. L. D'Ooge, A. A. Stanley, C. B. Nancrede, V. C. Vaughan, G. Doek, H. B. Hutchins, F. R. Mechem, H. S. Dean.

If the Toledo party felt that it was particularly exclusive those who attended the First Annual Promenade could scarcely see wherein they gained anything by their so called exclusiveness judging from the personnel of the participants at the Gym. If one party was "way up" socially the other was equally so. Now that the fight has calmed in each faction holding its own ball, and it will be a year before the matter will come up again, the two parties will have time to consider the matter and a combination will probably be formed by which all may take part at home and thus avoid the necessity of a trip out of the state to hold a dance.

One of the results of the controversy was the publication by one side or the other, it is not known which, of a disgraceful poster which was distributed all over the city last Thursday night. It was issued apparently to cast discredit upon the home affair by denouncing it a cheap social to be given by the notorious X. Y. Z. club, to which an admission fee of 25c would be charged to gentlemen and that ladies would be admitted free. It also attempted to ridicule Mrs. Pres. Angell by referring to her in slang terms and stating that she would chaperone this affair. The felling seems to generally prevail that the instigators of this insulting circular should be discharged from the University if they can be found out.

### The Ostrom Meetings.

The revival meetings in the Methodist church continue to grow in interest and value. Mr. Ostrom has not only won golden opinions from all classes of persons but he has been able to get many to take a decided stand for Christ. Scores of young men and older men and women have expressed their fixed determination to live a Christian life. In the after meetings numerous conversions have occurred. Next Thursday evening there will be a special sermon to young women though men and women of all ages are invited. The closing day of this series of revival meetings will be next Sunday. Mr. Ostrom will preach on that day four times and great mass meetings will be held at 10:30 a.m. 3:00 p.m. and 7:30 p.m.

## NEW TELEPHONE COMPANY.

### One Organized This Week in Ann Arbor.

The ordinance committee presented to the council on Monday evening an ordinance granting a franchise to a new telephone company. This ordinance, which passed to its second reading, is in favor of a new company just organized to establish a telephone exchange in this city. This company consists of Mr. A. Kent Hale, John R. Miner, William W. Watts and Dr. D. A. Wright. Dr. Hale is the president of the new company, W. W. Watts is vice president, Dr. Wright is secretary and John R. Miner is treasurer. The new company proposes to put in a first class telephone system and render the best possible service at the lowest possible rate. They are offering a rate of \$15 per year for residence telephones and \$24 per year for phones for office use. In conversation with one of the promoters of the new company THE REGISTER was given to understand that the new company must have at least 200 subscribers in order to go ahead, but that a large proportion of that number had already been pledged. Whether or not the pledges which the new company claims to have include many of the subscribers of the Michigan Bell Telephone Company, THE REGISTER was unable to ascertain. One thing is certain, if the new company can give good residence service for fifteen dollars per year per phone it can easily find 200 people who now do not use a telephone at all who will rent phones from them at that rate. This would give the new company a field sufficiently large to warrant its going ahead and at the same time not cripple the business, or in fact, materially interfere with the business, of the present company.

Whether or not the old company will stand quietly by and allow its business prospects to be jeopardized by the establishment of a new company offering service at a lower rate without in some way attempting to prevent it remains to be seen. It seems to be the general opinion that the establishment of a new telephone exchange will at once precipitate a lively telephone rate war. The people will watch with interest the outcome of the possible contest between the old and the proposed new telephone exchanges.

## THE NORTH POLE.

### Interesting Account of An Arctic Trip.

The recent report that Captain Nansen had reached the North Pole and was returning, after a three year's voyage, has aroused new interest in Arctic expeditions. The lecture before the Inland League tomorrow night by S. P. Orth, who was Botanist for the Cook Arctic Expedition in 1894 will throw a vast amount of light upon this little known region. Mr. Orth will deliver his very interesting lecture, which is profusely illustrated with stereopticon views taken during this exciting voyage and saved from the wreck of their ironclad vessel, the first and only ship of the sort that ever sailed the Arctic Seas, for the first time in this city, at the Church of Christ tomorrow night at 8 o'clock.

The Cleveland News and Herald in its issue of Dec. 5th says:

No adventure is so thrilling as that in the regions sealed to human conquest by ice and snow; and in recent years no Arctic expedition has endured more hardships, nor passed through more thrilling scenes, than did the Cook Arctic Expedition. The history of the expedition is the story of ship-wrecks, privations, and adventures. Mr. Orth is an energetic scientist and "possesses rare ability as a lecturer."

The Cleveland Leader of the same date says:

At the Woodland Avenue Presbyterian church, Wednesday evening, a large audience were highly entertained by Botanist Orth of the Cook Arctic Expedition of 1894. Mr. Orth showed marked ability as a lecturer. His large collection of views is a very fine one, and his mastery of his subject, gained from his personal investigations made the lecture as instructive as it was entertaining.

We might give many other very flattering testimonials of Mr. Orth's ability as an intensely interesting lecturer. We have no hesitation in saying that all who go to hear this lecture will be greatly pleased. Remember the date, Friday, Feb. 21, at the Church of Christ at 8 p.m. Admission 25 cents.

### The Motor Line in Trouble.

The original bondholders of the motor line property have begun foreclosure proceedings and have secured the appointment of a receiver by petition to Judge Kinne. Wm. F. Parker has been appointed as such receiver by the court. It is claimed that the property has been allowed to depreciate. The first bonds and accrued interest foot up to \$46,000.

## CAPT. GRANGER HONORED.

### Given a Fine Sword by the A. A. L. I.

The largest crowd that has yet attended the Midwinter Circus was present last Friday night. The seating capacity was enlarged to 850 and at 8 o'clock there was no standing room. The sale of tickets at the box office was stopped and a large crowd of people turned away. The spinning jenny did a lively business as usual.

The performance was one which will long be remembered by Capt. Ross Granger and the members of his company. At the proper time in the performance just as Capt. Granger was leaving the ring, Capt. John P. Kirk, of Co. G. Ypsilanti, stepped into the ring and called his brother officer to return. In a brief and touching presentation speech in which Capt. Granger was highly commended, Capt. Kirk congratulated the Light Infantry for the wisdom shown in electing for their captain one who could successfully promote so massive an undertaking as the Midwinter Circus. On behalf of the A. A. L. I. Capt. Kirk then presented Capt. Ross Granger with a beautiful sword. The worthy captain of the Infants was overpowered with surprise and appreciation. The words he uttered were few but expressive—"I thank you, I can only say, I thank you."

The sword is gold mounted, of the best steel and the handle is of pearl. On the blade is stamped, "Presented to Capt. Ross Granger by the A. A. L. I." and on the handle is engraved "Co. A., 1st Infy., Mich., Feb. 14, '96."—Times.

### A. A. L. I. Notes.

The bareback riding at the Mid-Winter Circus was as fine as any ever seen in this city.

All bills against the Light Infantry should be presented at once and they will be promptly paid.

The very liberal patronage given the Mid-Winter Circus shows how well our citizens appreciated the efforts of the boys.

The A. A. L. I. boys have orders to turn out Saturday afternoon at 3:30 o'clock for a parade in honor of Washington's birthday.

Whatever amount the A. A. L. I. came out ahead in their Mid-Winter Circus venture was thoroughly earned by those who worked so faithfully to make the undertaking a success.

The Mid-Winter Circus gave its last entertainment Saturday night and proved a great success. It is thought that after all bills are paid the company will net at least \$150 to \$200 and possibly more.

In behalf of the Ann Arbor Light Infantry, I sincerely thank the citizens of the city for the hearty support given the company's entertainments. We are especially indebted to the non-members of the company who so heartily donated their services and worked with so much interest to make the undertaking a success. As to the members of the company of whom we at present have 62, with several applicants for membership, I don't think there is an organization in the city that can turn out in proportion more hard workers than did we last week. I thank you all.

ROSS GRANGER, Capt.

### Adrian Press Clippings.

Rev. Mr. Gallup, of Ypsilanti, is conducting revival meeting at the Baptist church in Belleville. He has many sinners on the center there already.

Prof. C. F. R. Bellows, of Ypsilanti, is said to be a candidate for superintendent of public instruction, on the republican ticket. If so, the Washtenaw county republican papers can afford to blow their own Bellows.

Some Normal school students, and students of the Cleary business college had a big "rush" lately, at the Farmer's Institute in Ypsilanti. The fighting was general all along the line. Officer Ross attempted to make some arrests, when they turned in and licked him to the queen's taste, and smashed his hat. The next day they declared it was a good natured frolic, and bought the officer a new hat, as proof that they forgave him.

### Resolutions of Respect.

WHEREAS, It has pleased an all wise Providence to remove from our midst our beloved sister Mrs. J. C. Watts.

WHEREAS, She has for so many years been a faithful and interested member of the Woman's Christian Temperance Union. Although by illness unable to attend the meetings.

WHEREAS, That in the death of Mrs. Watts this Union laments the loss of one who was ever ready to proffer the hand of aid and the voice of sympathy to the needy and distressed, a friend and sister whose Christian character is worthy of imitation.

Therefore, Be it Resolved, That these resolutions be spread upon the minutes and a copy sent the family and the papers of our city.

Committee,  
Mrs. F. L. Parker,  
Mrs. W. W. Wetmore.

"In the interest of the masses, for whom these reports are compiled, the United States Health Reports have examined and investigated many preparations having for their object the cure of the tobacco habit, but among them all we have no hesitancy in giving the editorial and official endorsement of these Reports to the remedy known as **"Uncle Sam's Tobacco Cure,"** manufactured by the Keystone Remedy Company, at 218 La Salle Street, Chicago. We have demonstrated by personal tests that this antidote positively destroys the taste and desire for tobacco in ten days, leaving the system in a perfectly healthy condition, and the person using the same forever free from the habit.

"In the light of our examinations and tests of **UNCLE SAM'S TOBACCO CURE,"** we are but performing a duty we owe the public when we endorse the same, and stamp it as the crowning achievement of the nineteenth century, in the way of destroying a habit as disgusting as it is common, (FOR ONLY \$1.00.)

Queen Victoria's Address to Parliament and Speeches of Prominent Political Leaders Show that J. Bull Has Come Down from His War Horse.

The queen's address at the opening of the parliament of Great Britain was listened to by a full assemblage of both houses. The most important parts of the message were those in which the Venezuelan and the Armenian questions were presented. In regard to the former the queen said:

The government of the United States has expressed a wish to co-operate in terminating the differences which have existed for many years between my government and the republic of Venezuela upon the boundary of that country and my colony of British Guiana. I have expressed my sympathy with the desire to come to an equitable arrangement, and I trust that further negotiations will lead to a satisfactory settlement.

As to the Armenian troubles: The sultan of Turkey has sanctioned the principal reforms in the government of the Armenian provinces of which in conjunction with the emperor of Russia and the president of the French republic, I feel it my duty to press. I deeply regret that a fatal outbreak upon the part of a section of the Turkish population has resulted in a series of massacres in those provinces which have caused the deepest indignation in the country.

Jameson's raid into the Transvaal is spoken of as a deplorable affair, and the moderation and wisdom of President Kruger is spoken of with appreciation. The death of Prince Henry of Reuss is regarded as the sad feature of the "bloodless victory over the Ashantees." The extension of the navy is urged and various internal matters commented upon.

The speeches which followed the reading of the address are of particular interest. In the house of commons Sir William Vernon Harcourt described Lord Salisbury's recent speech on the subject of Armenia as "an unparalleled confession of diplomatic insolvency and national impotence." He said he was rejoiced at the paragraph in the queen's speech with regard to Venezuela, as it held out the hope that the question could be settled at an early date. Continuing Sir Wm. said:

I am in entire agreement with Lord Salisbury when he says the United States have a perfect right to increase in any controversy by which their own interests are affected, and they are entitled to judge whether their interests are affected, and in what measure they are affected. That is a general doctrine upon which all states act, and the only practical question remaining is whether the doctrine has been applied in settling the boundary which has been stated that the appointment of the commission by the United States was an offense to the government of Great Britain. Happily, the government does not take that view. How can the United States co-operate with us unless they have the information which will enable them to co-operate in settling the boundary? What the country demands, without distinction of party, is that the dispute should be brought to an honorable solution promptly.

Hon. A. J. Balfour said:

The American commissioners for the Venezuelan boundary have applied to us to aid them with any information we have on the Venezuelan question, and we have promised to give them all the information we are able to give. I should rejoice if out of this should spring some general system of arbitration.

As to Armenia Mr. Balfour said:

There is nothing in the Berlin or the Cyprus treaties requiring the powers of England singly to go to war to compel the victors to out their pledges and individual action on the part of Great Britain would be impossible. Short of bringing upon ourselves the prospect of a possible European conflagration, we could have done no more in the direction of helping these unhappy people than we have done.

In the house of lords Lord Roseberry said the Venezuelan difficulty was no new one, and they had all tried their hands at it. But now the intervention of the United States offered a guarantee of the permanence of any settlement that might be effected. Turning to the subject of Armenia he said that Lord Salisbury's brave words toward the sultan had not been followed by brave deeds. The noble marquis had been forced to abandon the cause of the Armenians.

The marquis of Salisbury said: "No sympathy with the Armenians would justify us in facing calamities compared with which the Crimean war would sink into insignificance." Referring to Venezuela he concurred in Lord Roseberry's views that America's mixture in the dispute had conducted to satisfactory results more rapidly than if the United States had not interfered.

Trouble for Japan in Korea.

London: The Times has a dispatch from Kobe, Japan, which says that news from Seoul, Korea, proves that 200 Russian marines, with a field gun, were landed at Chemulpo and marched to Seoul. The king secretly left the palace for the Russian legation, whence he proclaimed his ministers guilty of treason. Two of the ministers were arrested and executed and the others fled. The Tai-Won-Kun, the father of the king, is a prisoner at the legation. An anti-Japanese ministry was then formed. A bitter feeling has been aroused. A cabinet council was held, attended by the military officials.

Russia Encouraging Revolt in Korea.

A dispatch from Tokio, Japan, says: There is great activity among all the naval forces. The Japanese government is confident that Russia is encouraging the revolt in Korea with a view of establishing a Russian protectorate over the kingdom. The seal of the Korean government is now in the Russian legation at Seoul, where the king remains guarded. It is believed that the king of Korea authorized the outbreak in revenge for the murder of the queen. The emperor of Japan suspended the sitting of parliament in the midst of the opposition attacks on Premier Ito's ministry.

Washington: Secretary Herbert has received a cablegram from Capt. McNair, commanding the Asiatic station, confirming the newspapers of the renewed disturbances in Korea.

Silver Committee Issues an Appeal.

J. J. Mott, chairman of the national committee of the silver party, has issued an address to the people which he terms:

"An appeal to the rank and file of both parties to lay aside party feelings, ignore party obligations on the money question, disregard party appeals, forget the exasperations of party contention and spurn the offer of peace and enmity. . . . and ask for the election of a president pledged, unconditionally and unreservedly, to the free and unlimited coinage of silver and gold, the same as from the foundation of the government until 1833, and also unconditionally pledged in favor of national currency without the intervention of banks or issue and against the issue of interest-bearing bonds in time of peace for any purpose whatever."

Now about 50 families in the township have it. The schools are closed, churches suspended, and the district is under quarantine until the danger passes.

The Masonic Home association met at Grand Rapids to discuss the future of that institution in view of the refusal of the grand lodge to take it under its wing. It was decided to keep the home open as long as possible without running into debt. The association has between \$500 and \$1,000 on hand and has received assurances from different lodges and individuals of assistance during the coming year.

Harry, the 11-year-old son of William A. Woodruff, was killed by a switch engine at Port Huron. The young lad had boarded a freight train at the tunnel depot, and was riding to Thirty-second street, where his home was. A switch engine was following the freight train on another track, and when the boy jumped off from the train he landed right in front of the switch engine, which struck him in the head.

On May 1 Grand Rapids water bonds to the amount of \$196,000 will fall due and there's but \$60,000 in cash now in sight. The city treasurer failed to provide for them in his annual budget.

Costly and Serious Fire at Grand Rapids.

The old Houseman block, at Pearl and Ottawa streets, Grand Rapids, was wrecked by fire and many of the people on the upper floors had narrow escapes.

The fire started from an exploding lamp in a third-story room. Occupants of the block escaped in their night clothes, and several were rescued, nearly suffocated by smoke...

Four Miners Killed.

The most distressing mine accident in Marquette county since the collapse of No. 1 shaft at the Republic five years ago, occurred at the same mine as the night gang was exchanging places with the night shift.

By some means unknown at the present time, the car was derailed at a point about 1,200 feet below the surface and toppled over in such a manner as to imprison the men beneath it.

Beat His Daughter to Death.

S. C. Clayton, of Houghton, has been arrested charged with beating his 7-year-old daughter, Daisy, to death. The child was found dead by Mrs. Clayton, and marks on the body and throat given unmistakable evidence that the little one had been severely beaten.

Mrs. Clayton says Clayton has a divorced wife in Baltimore, who is the mother of Daisy, and that Clayton kidnaped the child to spite his first wife, for whom he has an intense hatred.

Farmers' Institute of the "Round Up"

The "round up" of the 60 odd farmers' county institutes was held at Grand Rapids with such a large attendance that the hall engaged would not accommodate them.

REVIEW OF TRADE.

The general business situation throughout the country does not meet anticipations, and except at a few cities remains dull for the season. In most instances disappointingly so.

An investigation of the coroner's office at New York City revealed the shocking fact that last year over 100 persons were found dead in that city, and were buried in the potter's field unidentified, and in few of the cases, if in any, was any attempt made to clear up the mystery of their death.

COUNCIL PROCEEDINGS.

[OFFICIAL] COUNCIL CHAMBER, Ann Arbor, February 17th, 1896. Regular session. Called to order by President Hisecock. Roll called. Quorum present.

PETITIONS AND COMMUNICATIONS.

To the Honorable Common Council of the City of Ann Arbor: Gentlemen:—The undersigned petitioner, a corporation duly organized under the laws of the State of Michigan, respectfully asks that your Honorable body pass an ordinance granting your petitioner permission to erect and maintain poles and wires etc. in the streets and alleys of the City of Ann Arbor for the purpose of maintaining and operating a telephone system in said City.

REPORTS OF STANDING COMMITTEES.

ORDINANCE.

An Ordinance entitled "An Ordinance Relative to Porters, Hack-Drivers and Runners and to Regulate the use of Drays and Hackney Carriages" was given its first reading by title.

An ordinance entitled "An Ordinance to Repeal certain Ordinances and give effect to the Revised Ordinances of 1896" was given its first reading by title.

An ordinance entitled "An Ordinance authorizing the Construction, Maintenance and Operation of an Electric Telephone Exchange" was given its first reading by title.

An ordinance entitled "An Ordinance Relative to Railroad Crossing and to Regulate the Speed of Railroad Trains" was given its second reading by sections.

An ordinance entitled "An Ordinance to Amend an Ordinance relative to Sidewalks" was given its third reading by sections.

Ald. Brown moved to amend Section 4 by striking out the words "The walk shall be constructed so as to consist of blocks as nearly 2 1/2 feet square as circumstances will permit, to facilitate repairs and reconstruction" as presented by the Ordinance Committee.

Ald. Koch moved to amend section 4 by inserting the words "with a wooden float" after the words "with a granular surface" as presented by the Ordinance Committee.

Whereupon the question was "Shall this Ordinance pass?" Adopted as follows: Yeas—Ald. Moore, Maynard, Allmendinger, Koch, Snyder, Laubengayer, Brown, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hisecock—13. Nays—None.

An ordinance entitled "An Ordinance Relative to Paving the Streets of the City of Ann Arbor and to provide for the assessing and levying of a tax to pay for the same" was given its first reading by title.

An ordinance entitled "An Ordinance Relative to Curb Stones and to regulate the use of the same" was given its first reading by title.

Ald. Butterfield moved that the ordinance entitled "An Ordinance Authorizing the Construction, Maintenance, and Operation of an Electric Telephone Exchange" be placed upon its second reading.

Adopted. Whereupon the Ordinance was given its second reading by sections.

REPORT OF SPECIAL COMMITTEES. Your Committee to whom was referred the matter of securing a suitable place for storage of stone for the crusher beg leave to report that they have had the matter under consideration and recommend that the City of Ann Arbor secure a lease of the premises located on the east side of Main street, south of the Michigan Table Co. owned by the F. L. Parker estate, at a rental of sixty dollars (60.00) from February 11th, 1896, to July 1st 1897.

Respectfully submitted, H. G. Prettyman, C. A. Maynard, C. J. Snyder, Special Committee.

Adopted as follows: Yeas—Ald. Moore, Maynard, Allmendinger, Koch, Snyder, Laubengayer, Brown, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hisecock—13. Nays—None.

RESOLUTIONS. Resolved, That the City Clerk is hereby requested to ask for bids to renovate the Court House clock dials, and to replace the figures on them.

Adopted. Ald. Prettyman moved to reconsider the vote on the majority report relative to printing the Report of the Board of Public Works which failed of passage at the session of the Council February 10th, 1896.

Whereupon the report of the Committee was adopted as follows: Yeas—Ald. Moore, Maynard, Brown, Shadford, Prettyman, Coon, Cady, Pres. Hisecock—8. Nays—Ald. Allmendinger, Koch, Snyder, Laubengayer, Butterfield—5. On motion the Council adjourned.

Probate Order. STATE OF MICHIGAN. COUNTY OF WASHTENAW.

At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor on Tuesday, the 18th day of February in the year one thousand eight hundred and ninety-six. Present, J. Willard Babbitt, Judge of Probate.

In the matter of the estate of Emma Loeffler, minor. Catherine Loeffler, the guardian of said ward, comes into court and represents that she is now prepared to render her final account as such guardian. Thereupon it is ordered that Friday, the 6th day of March next, at ten o'clock in the forenoon, be assigned for examining and allowing such account, and that the next of kin of said ward and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Ann Arbor, in said County, and show cause, if any there be, why the said account should not be allowed: And it is further ordered, that said guardian give notice to the persons interested in said estate, of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER, a newspaper printed and circulating in said County, two successive weeks previous to said day of hearing. (A true copy.) J. WILLARD BABBITT, Judge of Probate. WM. G. DOTY, Probate Register.

THE VOICE OF THE TEACHERS.

Among other things the cigarette evil was discussed at the Saturday meeting of the Teachers' Club. None know more truly than the teachers of the public schools how prevalent the cigarette vice is among the children—for lads of 6 and under are among its victims—and none more fully comprehend its baneful effect.

Not less than 500,000,000 cigarettes are made and sold yearly in the United States; it is probable that nearly half of them are consumed by youths of less than 21 years. The deleterious effect of tobacco upon youth is so well understood that its use is prohibited to the pupils of the military and naval academies of this and of most other countries. In France it is prohibited to the pupils of all schools. In this city we have an ordinance prohibiting its sale to minors, and for the week or two immediately succeeding its passage it was pretty thoroughly enforced.

One of the speakers at the club demanded a return to enforcement of the law. It will be enforced when public opinion insists upon its enforcement. The teachers are to be thanked for their efforts to arouse public opinion. But, after all, as was well said, it is upon moral suasion and upon intellectual development that the teachers have to rely mainly in their fight against the evils of pernicious literature and of the infantile use of narcotics. Parents can aid the teachers; the press certainly strives to aid them; the pulpit is not silent on their behalf. The good fight that they wage will be won by them or by their successors. "The increasing purpose" that "through all ages runs" is with them.

Finally, the proceedings of the Teachers' Club should warm the hearts of the pupils toward the teachers. It is evident that they do not serve "as a hireling serves his day," content merely to give so much work for so much wages; but that they regard themselves as intrusted with the sacred task of moulding the characters of their pupils, and that they "watch for their souls as they that must give an account."

The second district W. C. T. U. convention meets in Ann Arbor, Apr. 14, 15 and 16. Michigan has ten districts, each holding an annual convention. Mrs. A. S. Benjamin, our state president, says of the next state convention:—"Marquette is to be our trying place. Geographically we shall be higher up than ever before, both as individuals and as an organization?"

Of the 370,635 emigrants who entered the United States last, about thirty-five thousand only were skilled laborers. The rest according to the "Golden Rule," went largely to the sweat shops, the slums and the prisons. The W. C. T. U. department of "Work among Foreigners" is laboring diligently and spending large sums of money each year to better the condition of emigrants.

A banquet recently given by an association of book-keepers in Philadelphia was notable for the total absence of any kind of "bottled stuff" to drink. Water was the only beverage served besides tea and coffee. These men nowadays hold their positions of trust as the custodians of big financial secrets, on condition of the utmost sobriety of habit.

Jan. 26, the regular Sunday morning and evening sermons in nearly one hundred pulpits in Cincinnati, O. gave way to talks on the Haskell bill and arguments toward closing the saloons of the city. The bill and its local option features were explained, and each speaker was supplied with a ballot poster which was used as an object lesson in instructing how to vote if the bill becomes a law.

A Brooklyn man was thrown from his bicycle a few days ago while riding through Prospect Park in that city. The verdict of the doctors is that he is suffering from alcoholism. The bicycle is a good friend, but a most dangerous enemy; a first rate servant, but a relentless master, and if any body wants to be "done to death" in short order, all that he requires is to mount the steed of steel when alcoholic liquors are mounting his brain.

J. R. Dunlap, editor and proprietor of the Dispatch, a Chicago daily paper, has just been convicted in the U. S. District Court of sending obscene matter through the mails. Months ago copies of these papers were sent to Anthony Comstock and P. O. Inspector McAfee by W. C. T. U. women and others, begging that something might be done to relieve society of this vile flood of immorality and to punish the proprietor of this obnoxious sheet. His fine of two thousand dollars and two years' imprisonment in the penitentiary is a great victory.

THE WRECK OF A SOUL BY ALCOHOL. Dr. Joseph Cook, in a lecture in Boston some time ago, depicted the wreck of a soul by alcohol, and closed with this impassioned peroration: Then came a sigh of the storm, a groaning of waves, a booming of blackness, and a red crooked thunderbolt shot wrathfully into the suck of the sea where the ship went down.

And I asked the names of those rocks and was told; God's stem and immutable laws. And I asked the name of that ship, and they said; Immortal Soul. And I asked why its crew brought it there, and they said; Their Captain Conscience and Helmsman Reason were dead. And I asked how they died, and they said; By one shot from the Pirate Alcohol; by one charmed ball of Moderate Drinking! On this topic, over which we sleep, we shall some day cease to dream."

A dispatch to the Detroit Tribune relative to the Ball last Friday night contained the following: At least one couple in this city had a narrow escape last night from a serious accident. The driver of one of the cabs let his horses stand while he went to a house to ring the bell. One couple was already in the cab. With-out being noticed by the driver, the horses started off, and, becoming frightened, began to run. The inside couple were securely locked in, and strangely enough did not notice the danger they were in. A man saw the runaway, and at an opportune moment managed to scramble to the seat and stop the horses. The driver came up almost immediately and took the reins. He said nothing to the couple in the cab, and they are still ignorant of the close call they had.

INGENIOUS NO NAME FOR IT. How an Artful Dodger Got His Trunk Out of a Boarding House.

"While there is neither wealth nor fame in my occupation," said a young man who lives by his wits to a New York World reporter, "I don't know of any calling which demands so much ingenuity. I am not boastful when I say I am rather fertile in expedients, and some of my tricks have seemed so clever to me that I'm ashamed to admit I'm somewhat stuck on myself. "Let me tell you how I once got out of a pretty tight place. I was living in a boarding house in West Twelfth street, the landlady of which was a widow. Through many good graces, and when things didn't run my way I was able to 'hang her up.' At the time of which I'm speaking I'd had a long run of hard luck which left me in her debt considerably over a hundred. A friend of mine offered me half of his room until my luck changed, and as the widow had grown less attentive to my wants in direct proportion to the size of my bill, I determined to accept his offer. Somehow or other the widow surmised my little plan and accused me of intending to elope with my trunk at the first favorable opportunity.

"I assure you, madam," said I, "that you are mistaken. On the contrary, I have obtained for you another boarder, a friend of mine, who will share my room with me. I expect his trunk here any moment."

"This smoothed matters over for the time, and that same afternoon, when the servants were out, and there was no one home but the widow and myself, and she was entertaining a friend in the second floor front, I sprung my little scheme. Hastily packing up my worldly possessions I put my trunk on my back and proceeded as noiselessly as I could down the stairs. I walked down backward, not because that was easier, but because I was ingenious, as I have told you. It was good that I did so, for on the second landing I unfortunately made a noise that brought the landlady to the door. I immediately began to walk upstairs again, and, as I turned the right way, she never tumbled to the game.

"Oh, that's your friend's trunk you're bringing in," she said. "Those expressmen are so disobedient. I'm sorry none of the girls is at home to help you."

"I waited until she went back to her friend and then I started down once more. As I safely passed the door I heard the landlady say to her friend: "It was all right, my dear. I thought he was trying to sneak out with his things. But it was just as he had said about his friend's trunk. He was carrying it upstairs."

Philadelphia Oil Shipments. Shipments of oil from Philadelphia this year will exceed the exports in 1894 by probably 6,000,000 gallons. During the financial depression last spring, when the price of oil advanced rapidly, the foreign shipments fell off largely, and it seemed likely that the business of the year would show a decline. But with the revival of trade the decline in the price of oil and the depletion of stocks abroad the foreign trade has revived, and shipments have been heavy in the last six months. Up to the end of last week the exports for the year amounted to 319,182,795 gallons, and for last week the shipments were 7353,461 gallons. There is likely to be a still further increase before the end of the year, as a large fleet of vessels is in Philadelphia under contract to load oil.

QUALITY COUNTS. Representatives, Senators and Statesmen Speak. THE BEST AND SAFEST ADVISORS OF THE PEOPLE. Agree Unanimously On This One Point. FOR THE PEOPLE'S GOOD, NO DIFFERENCE OF OPINION.

Important Decision Arrived At On All Sides. Senator Victor I. Spear, of Braintree, Vt., who has filled every high position in the gift of his State, says:—"My wife was troubled with nervous debility bordering on nervous prostration, and at the same time a trouble on her hands like eczema. The use of Doctor Greene's Nervura blood and nerve remedy produced very satisfactory results, healing the eczema and greatly improving the nervousness."

Senator Frank Plumley, of Northfield, Vt., who was Vermont's delegate to the Republican National Convention and who is a man of national reputation, says:—"In the fall of 1892, I came out of the presidential campaign with my nervous system almost broken. Some of my personal friends advised me to take a course of Dr. Greene's medicines, which I did, with entire success. I use Dr. Greene's Nervura and find it an excellent remedy for that exhaustion caused by long continued mental work, and think well of it."

A Wonderful Institution. There is an institution in this country whose history of remarkable growth must be of interest to those acquainted with it. Within a few short years it has grown from a very small beginning to one of the first institutions of the land. Selling goods as it does direct from the manufacturer to the consumer on an economic, one small profit plan, its business has enlarged until it now occupies one of the largest business blocks in Chicago and employs between 400 and 500 people. Its entire establishment is devoted to out-of-town mail order trade. Its wonderful growth is evidence of its sterling integrity, extraordinary ability and unquestioned financial standing. In fact, we are in receipt of a letter from the National Bank of Illinois, of Chicago, one of the largest and most reliable financial institutions in Chicago, a concern with a capital of \$2,000,000.00; also a letter from the National Bank of the Republic, one of the soundest financial institutions in Illinois, with a capital of \$1,000,000.00, wherein they say they are personally acquainted with the stockholders, that the institution is reputable and thoroughly responsible, and that through confidence can be had in any representations it makes. In fact we are in receipt of indisputable evidence as to the reliability of this institution and we feel safe in saying that our readers can place implicit confidence in this house, and that they will receive the same prompt, careful and courteous treatment the members would like to receive were they in your place.

The wonderful facilities of this institution for supplying merchandise at manufacturers' prices is certainly of great interest to all economic buyers. The firm to which this article refers issues a long list of advertising matter, including a mammoth catalogue and many special catalogues, all of which they mail to anyone. In fact, they are so thoroughly organized that they make it very easy to do trading with them by mail. The concern to which this article refers is authorized and incorporated under the laws of the state of Illinois, with a cash capital of \$150,000,000, paid in full, and is Sears, Roebuck & Co., 173 and 175 West Adams street, Chicago, Ill.

Mrs. Siddons. By the thrilling touch of genius the Queen of Tragedy held sway. She charmed, entranced, dominated. But so do other women, a few on the stage, millions in the home. The latter possess the domestic charm of cookery, obtaining it by using Dr. Price's Cream Baking Powder. They have always had the freshest, sweetest, lightest food, only when they have used Dr. Price's. As a result they use it continually.

Bread & Pastry baked with CALUMET BAKING POWDER. Do not contain Rochelle Salts, Alum, Ammonia, Lime or any injurious substance. ALUMET BAKING POWDER.

## You are Anxious for the Health of your Family.

EACH attempted imposition of an alum baking powder upon you is a covert attack upon the health of your family. Of course, no grocer would knowingly sell injurious food to his customers; but he has himself been deceived as to the true character of alum powders by their manufacturers, who must be held responsible for the damages.

Forewarned, and solicitous for the health of her family, the housewife will be influenced to a constant watchfulness and a stubborn resistance against the danger.

Baking Powders sold at a lower price than Royal, either wholesale or retail, are almost invariably made from alum, and therefore inferior and dangerous to health.

Royal Baking Powder is free from alum, lime, or ammonia, and absolutely pure. Its use is a safeguard to health, for it actually aids digestion, and relieves from all anxiety as to the wholesomeness of the food.

### SUBLETTING THAT PAYS.

Lawyers Make Money Allowing Corporations to Use Their Offices.

"Well, that's the worst I ever saw," remarked a man in a small New Jersey town, as he stood in front of a lawyer's office. What he saw was enough to stagger anyone who was initiated into the mysteries of modern business methods, says the New York World. The ground-glass door was fairly covered with the names of high-sounding corporations, many of which were favorably known in New York business circles.

"Can't make it out, eh?" said the janitor of the building, who had noticed the surprised look on the man's face. "Well, all these names belong to manufacturing firms doing business in New York. As they are all stock companies they have to be incorporated. Now, according to the laws of New York state, every corporation is pretty well hampered with red tape, besides being compelled to pay heavy taxes.

"New Jersey, taking advantage of her proximity to New York, has adopted very liberal laws in order to induce manufacturing concerns to settle within her jurisdiction. As a natural result these laws are taken advantage of by many firms who do business in New York and have their plants located in various parts of the country. All the direct letter of the law requires of them after they have become incorporated is to have an office within the state.

"A struggling lawyer is only too glad to let them put their names on his door and give them the use of his office for about ten minutes—once a year when the annual meeting of the officers is held. For this service the corporation generally pays the lawyer \$10 a month, which sum is entered in the company's books as office rent. So you see that if a young lawyer is fortunate enough to get several names on his door he takes in a nice little sum every year for doing nothing."

A man's health carries him through the world. He depends on it for enjoyment, for happiness, for success, for the achievement of anything he has in hand. Americans take big chances. They risk everything in business. They have confidence in their brains and their ability. The American business man is active, flexible, elastic. Knock him down with failure and he is up again in a minute. As long as he keeps his health, failure doesn't mean anything to him. He has lost a little time, but that is all. If he can keep his health, he will go on to success. He feels sure of that, and yet his health is the very thing he neglects more than anything else. His health is the rope by which he climbs to success. It behooves him to keep the rope in good condition, and not to neglect broken strands. When the rope of health breaks even a little bit, it should be mended at once. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. He is on a down grade. The strands of his rope are parting rapidly.

Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Every man who cares to keep his health should have Dr. Pierce's "Common Sense Medical Advice"—a finely illustrated book of 1003 pages. Sent to any address on receipt of 21 one-cent stamps to cover cost of mailing only.

Recently the woodmen on Earl Cowper's estate at West Park, Silsoe, Bedfordshire, were cutting up one of the large oaks which fell during the storm last Lady Day, when they came across a toad imbedded in the heart of the trunk, about eighteen feet from the root. The imprisoned creature, which must have subsisted for some years on the sap, was about half the size of a fully developed toad, and readily swallowed the worms, earwigs and beetles which were given to it.

TEACHERS—Teach your little ones to sing.

Teachers are requested to read the paper of Mrs. Emma Thomas teacher of music in Detroit Public Schools headed, "Music as an Aid to School Government," found elsewhere in this issue and show same to school officers—also write for booklet by Miss Lucy Cole, teacher of music in Ann Arbor Schools, entitled, "How We Teach the Little Ones to Sing."—(FREE.)

We believe music and singing should be taught in every school. That it can be successfully done, and is beneficial to the scholars, is proven by its having been made a feature in the schools of Germany and England for years.

We have in the past and shall in the future offer valuable prizes to those teachers and schools which show sufficient interest in this work to take it up.—Teachers, investigate this subject. You will be surprised at the eagerness and delight manifested by the pupils and more than compensated by the increased interest and zest shown by scholars in their other work.

This is no new idea. The study of music is a recognized feature in all city schools. Why need our district schools be behind in this most beautiful branch of education?

Information as to proper books, methods, etc., gladly furnished on request

**20 PROBABLY BURNED.**  
**Awful Fire in a Factory Occupied by 300 Girls and Women.**

A small boy carelessly throwing a match into a pile of oily waste, a mass of flames, 300 girls and women frenzied with fright fighting for life as the hot flames chased them with hungry tongues, was the beginning of a fire that consumed thousands of dollars worth of property and caused the destruction of many lives at Troy, N. Y.

It was just 30 minutes before closing hours in Stethheimers & Co.'s shirt factory and the 300 girls and women were working rapidly to finish up. In the cutting room on the fifth floor the 150 girls were closing up their day's assignments and preparing to leave when the whistle blew. Lillie Kreiger, who was working near a machine, called to a small boy to light the gas over her work. The boy struck a match and threw the burning stub to the floor. It struck a pile of oily rags and in an instant the girl was enveloped in flames. With her clothes and hair burning she rushed to the window and in an instant the room became a struggling, shrieking mass of humanity, filling the windows, the fire escapes and the only stairway. The alarm spread to the other floors and soon every window was filled with struggling women fighting with desperation to reach safety. Following them was a mass of smoke with flashes of flame in lurid streaks. Then the mass of frenzied humanity, finding the egresses too small for escape, began climbing over the sides of the escapes and jumping to the ground. Within 20 minutes after the fire started there were three dead women laid upon the floor of an adjoining store, and at least a dozen burned and maimed girls taken to the hospital or their homes. The firemen and police worked like heroes and to their energy was due a great saving of life. Yet at least 20 were burned to death and the list may be increased.

The flame ate down through three floors so quickly that the Western Union Telegraph Co., Jessup & Gooper Crocker Co. and Vanzandt & Jacobs' collar manufactory had no time to save anything. The total loss by the fire is from \$50,000 to \$300,000, with about \$100,000 insurance. At least 500 people are thrown out of employment.

Many persons take a variety of remedies and try many novel procedures to reduce their weight. We do not refer to these. If you have been in fair health, with a normal amount of flesh, and yet have been losing weight of late, there is something wrong. **WAKED THE WRONG MAN.**  
**How John Was Robbed to Pay Timothy McCarthy.**

Two men named McCarthy died about the same time at Bellevue hospital recently, says the New York Recorder. One had been baptized Timothy and the other John. Timothy was an unfortunate without home or friends, while John was described by his countrymen as a "decent man," with plenty of "decent friends." He lived with his honest wife and family at 546 West Forty-sixth street before he was carried off to the hospital in the hope of saving his life. There was grief among the respectable well-wishers of John McCarthy when it was learned one morning that he had died at the hospital from the effects of a necessary operation, and the feelings of those good people were expressed loudly enough to leave no doubt as to the general esteem in which John McCarthy was held. Poor Timothy McCarthy, who died almost at the same moment, had nobody to mourn for him. It was on a Sunday afternoon that the friends and neighbors of John McCarthy assembled at his house to do honor to the dead. The corpse was laid out in a fine casket and many willing hands were lent to the preparations for the wake that began at 6 o'clock on this particular Sunday evening. No wake in that neighborhood was ever better attended. The house was thronged all that Sunday night and all the next day and all Monday evening until midnight with worthy people, who discussed nothing save the virtues of John McCarthy, and had only one lamentation in the world, and that was on account of John McCarthy's death. It was strange how people would go to the casket containing the mortal remains of McCarthy again and again. It was strange, also, how surprised they looked each time. If one was caught wearing a look of sorrow, rather than one of becoming sorrow, that one was quick to cloak his thoughts, lest the good family should feel troubled. It would be the height of ill manners to say that the body in the casket didn't look a bit like it did when life was in it. At a wake it is better to speak only good of the dead. Along about midnight on Monday, however, two young men left the wake, and when they got outside they agreed that the corpse didn't look any more like John McCarthy than it did like the mikado of Japan. Further, they declared they didn't believe it was John McCarthy at all. Thereupon they repaired to Bellevue and found John McCarthy's body still on the ice. John was a big, husky fellow. The body of Timothy McCarthy had been shipped to John's home by mistake. Timothy was little and weakened. An exchange of bodies promptly followed. Friendless Timothy had been waked thirty-six hours. There was only six hours left in which to wake John, for the funeral was to take place on the following day.

**Waller was GUILTY, but France Frees Him.**

Ambassador Estis has been instructed to accept the offer of the French government to release ex-United States Consul Waller (who was stationed at Tamatave, Madagascar, during the Hovas rebellion and was arrested for giving information to the rebels) from further imprisonment and pardon his offense on condition that the affairs be thereby terminated as between France and the United States and that the latter make no claim in behalf of the prisoner based upon his arrest, conviction or imprisonment. Waller may, however, sue in the French courts for damages for ill-treatment. Secretary Olney says there is no doubt of Waller's guilt, that "the evidence fully sustains the charge," and no court could have hesitated to condemn him.

A freight and passenger train on the Illinois Central railway collided at Dongola, Ill. Five men were killed. The collision happened on a sharp curve. The damage in railroad property was great, as the force of the collision drove both engines and cars together in a mass. Considering the force of the collision the entire escape of the passengers is remarkable.

The British consul at Archangel, capital of the Russian government of that name, telegraphs confirming the report that Dr. Nansen is safe and returning from the north pole. The news created intense interest in London and throughout Europe. It is regarded as convincingly showing the Norwegian explorer is homeward bound, even if he has not discovered the pole.

The house of Robert Laughlin was found in ruin at Augusta, Ky., and the remains of his wife and 13-year-old niece were found in the ruins and Laughlin was considerably bruised and scratched. He said that masked robbers killed his wife and niece, assaulted him and fired the house, but the popular belief is that Laughlin assaulted his niece and was caught by his wife when a struggle ensued, resulting in Laughlin killing his wife and 13-year-old niece and then burning his house to hide the crime. Later Laughlin confessed. He will probably be lynched.

**Light on a Dark Mystery.**

There is an organization in Boston known as the Society of Psychical Research. The other evening at one of the meetings a certain person, said to possess remarkable occult powers, volunteered to give an exhibition, which offer was gladly accepted by the society. The "professor" was a woman, slightly built, with pallid cheeks and dark raven hair.

One of the members, while not particularly skeptical, thought he would try a little experiment on his own account, so before going to the meeting he provided himself with some pieces of phosphorescent paper that in the dark lit up like a glow worm. This he tore into small pieces and fast before the lights were extinguished contrived to place three or four bits of the paper on the "professor's" head. Then he sat down and waited.

When the room was dark the "professor's" cranium emitted a pale light, visible to every one in the room but the "professor" herself. In a few minutes the phenomena began, but, strange to relate, when a tambourine in one corner of the room began to sound, the illuminated head was there also, and the moving about of the operator could be easily traced. The suppressed mirth told the "professor" something was wrong, and when the light was turned on and the paper discovered the remarks made were far from spiritual. There were no more manifestations that night.—Boston Post.

**ASTONISHING A SALMON.**

**How an Impatient Fisherman Lost His Keys.**

It is a good maxim to have patience with a weeded fish; indeed, this virtue often stands the angler in good stead, says the Blackwood's Magazine. I once knew a friend of mine put to serious inconvenience for want of it. He had hooked a heavy salmon, and this fish lay down and sulked, as salmon will do once in half a dozen seasons, though not nearly so often, if properly handled, as some people suppose. My friend was a good fisher and allowed his fish to take no liberties; nevertheless this salmon lay down in a deep, black pool. Every known expedient was tried to stir him; stones were thrown in—the only result was that the fish took leisurely turns and returned to his stronghold. The angler got below him, above him, alongside of him and pulled on him to the limit of the strength of his tackle—all to no purpose. A fine afternoon was ebbing away and fish in the river were on the job. What was to be done? A bright thought occurred to the sportsman. He had a bunch of keys in his pocket—the keys of all his most sacred repositories. They were on a ring that opened like a hinge. Fitting this around the butt of his rod, without having the patience to remove the keys, he ran it down over the point, and the whole bunch went rattling down the line and lodged on the salmon's nose. It had a splendid effect. away went the fish like a dog with a tin kettle at its tail; twenty, thirty yards of line whizzed from the reel, and then—there came disaster. The point of the rod flew up; the fish was gone; back came the flies, but back did not come the keys. Thirty seconds would have sufficed to remove the keys before using the ring; fish and ring might indeed have been lost, but the keys would have been safe.

**LINCOLN AND MATRIMONY.**

**Apprehensive That the Pathway Was Not One of Flowers.**

Letters from Lincoln to his closest friend, Joshua Fry Speed, subsequent to the latter's marriage, betray an anxious and impatient desire to learn if marriage is a pathway of flowers and sunlight, and not of darkness and pain the two had morbidly feared it to be. John Gilmer Speed presents these hitherto unpublished letters bearing upon "Lincoln's Hesitancy to Marry," in the Ladies' Home Journal. In one Lincoln says:

"It cannot be told how it now thrills me with joy to hear you say you are 'far happier than you ever expected to be.' That much I know is enough. I know you too well to suppose your expectations were not, at least sometimes, extravagant, and if the reality exceeds them all, I say, enough, dear Lord. I am not going beyond the truth when I tell you that the short space it took me to read your last letter gave me more pleasure than the sum total of all I have enjoyed since the fatal first of January, 1841. Since then, it seems to me, I should have been entirely happy but for the never-absent idea that there is one (referring to Miss Mary Todd) who is still unhappy, whom I have contributed to make so. That still kills my soul. I cannot but reproach myself for even wishing to be happy while she is otherwise. She accompanied a large party in the railroad cars to Jacksonville last Monday, and on her return spoke so that I heard of it, of having enjoyed the trip exceedingly. God be praised for that. One thing I can tell you which I know you will be glad to hear, and that is that I have seen Mary and scrutinized her feelings as well as I could, and am fully convinced she is far happier now than she has been for the last fifteen months past."

Eight months after Speed had married Mr. Lincoln wrote him:

"But I want to ask a close question. 'Are you now in a feeling as well as judgment glad that you are married as you are?' From anybody but me this would be an imprudent question not to be tolerated; but I know you will pardon it in me. Please answer it quickly, as I am impatient to know."

Mr. Lincoln's object in asking this "close question" is manifest. Mr. Speed gave the answer quickly and satisfactorily, and on the fourth of November (1842), one month exactly after the question had been submitted, Mr. Lincoln was married.

**JONATHAN AND PREACHERS.**

**We Had an Experience and Knew When They Hit the Nail.**

It isn't in the traditions of the Ozark country that old Jonathan Magness was ever converted, but stories are told to show that he had a certain kind of respect for religion. The Magness family came from Kentucky. On one occasion, it is said, the Rev. John Milligan stopped at Jonathan's house for the night. The arrival was unexpected. Mrs. Magness had made no unusual preparations for supper. As the family and the guest sat down old Jonathan surveyed the simple fare for a few moments and then said abruptly: "Help yourself, Mr. Milligan."

Breakfast brought an altogether different looking array of dishes. Old Jonathan looked it over.

"Well, old lady," he said, addressing Mrs. Magness, "it looks as if you had something for breakfast worth thanking God for."

Turning to the preacher old Jonathan said: "Give us a touch, Brother Milligan." And Brother Milligan promptly asked a blessing.

Three young Methodist preachers on the way to conference stopped at the Magness house for the night. After supper old Jonathan produced a Bible and a hymn book. He handed them to one of the young preachers, asking: "Sir, will you pray in my family?"

The young preacher read and sang and prayed. As soon as they arose from their knees old Jonathan handed the books to another, asking: "Sir, will you pray in my family?"

The second preacher conducted service, and then the old man called on the third. This young man took the books and went at it in earnest. He read and sang and prayed. He opened with a general appeal for all mankind, and generally narrowed down his intercessions until he got down to "poor old Father Magness, whose locks have grown gray in sin, and who is now stalking on the brink of hell." He begged the Lord "to soften this old sin-hardened heart and turn the face of Father Magness Zionward."

Old Jonathan asked for no more prayers. The next morning the preachers asked what they owed. Mr. Magness said to the first: "Your bill is \$1." To the second he said: "Your bill is \$1." To the third he said: "Your bill is nothing. I'll be—if you didn't pray well for me."

**OUR LAWMAKERS AT WORK.**

**SENATE—Fifty-third day.**—Mr. Quay's resolution to recommit the silver-tariff bill again went over. The long-pending resolution which has brought out much criticism of the secretary of agriculture was passed without a division. The measure was amended so as to provide that the purchase and distribution of seeds shall be continued. Mr. Blainhard (Iowa, La., then read a speech on the Monroe doctrine. Wheel... tion of allowing the secretary of the U... to employ 25 expert money counters came up. Mr. Allen, Pop., Nebraska, a motion to read the civil service and interstate commerce commissions as the two biggest frauds of the public service. Mr. Walcott, Rep. Cal., said the real menace to the country was the power of patronage lodged with the executive, and which had never before been used to such an extreme as under the present administration. He said that a free coinage bill would have passed the last House had not the power of patronage been brought to bear by the administration, especially the patronage controlled by the secretary of the treasury. Colorado was today flooded with appointments, many of them unit ones, made by the secretary of the treasury for congressmen who had "raided" on the Monroe bill. Mr. Lodge, Rep. Mass., made issue against the system rather than against any administration, and said patronage and favoritism were un-American. A system which compelled Senators and representatives to go "huckstering" for messengers and telegraphers and to "huckster" for congressmen who had "raided" on the Monroe bill. Mr. Lodge, Rep. Mass., made issue against the system rather than against any administration, and said patronage and favoritism were un-American. A system which compelled Senators and representatives to go "huckstering" for messengers and telegraphers and to "huckster" for congressmen who had "raided" on the Monroe bill.

**SENATE—Fifty-fourth day.**—Mr. Peffer, Pop., Kas., presented a lengthy resolution proposing a Senate investigation of the circumstances of all recent bond issues. Mr. Morrill presented a report on the federal courts in the Indian territory brought out by the Monroe bill. Mr. Lodge, Rep. Mass., made issue against the system rather than against any administration, and said patronage and favoritism were un-American. A system which compelled Senators and representatives to go "huckstering" for messengers and telegraphers and to "huckster" for congressmen who had "raided" on the Monroe bill.

**SENATE—Fifty-fifth day.**—The friends of the tariff bill met an unexpected repulse when, by a vote of 21 yeas to 39 nays, the senate defeated the motion of Mr. Morrill, chairman of the finance committee, to take up the tariff bill. The negative vote which defeated the motion was given by Democrats, Populists and four Republicans seceders. The affirmative vote was entirely Republican, but its total of 21 is less than half of the aggregate Republican strength. The result of the vote left the Cuban resolution as unfinished business, but it yielded temporarily to the military academy and other appropriation bills. The urgent deficiency bill was passed, it carries about \$4,000,000, a considerable increase over the amount in the House. A resolution was adopted directing the Pacific railroad committee to make full inquiry into the status of the various railroads. On motion of Mr. Quay a resolution was adopted directing the finance committee to investigate the alleged invasion of our markets by the products of oriental India and to report on the causes and remedies.

**SENATE—Fifty-sixth day.**—No session of the Senate. **HOUSE—**The formal vote of the House on the Senate free silver substitute resulted in its rejection by a vote of 215 to 90. The evening session was devoted to private pensions.

**SENATE—Fifty-seventh day.**—No session of the Senate. **HOUSE—**The attack on Secretary of Agriculture Morton for his refusal to expend the appropriation for seed was transferred from the Senate to the House and Morton was severely rebuked. Several bills of minor importance were passed and a resolution was adopted directing the judiciary committee to inquire into the right of an executive officer to refuse to execute a law on the ground of its unconstitutionality, and to report by bill or otherwise. This investigation grows out of Comptroller Bowler's decision in the sugar bounty cases.

**SENATE—Fifty-eighth day.**—The speech of Mr. Davis, of Minnesota, supporting the doctrine of which he is author, enunciating the policy of the United States on the Monroe doctrine, was the event of the day. The public interest in the subject was evidenced by crowded galleries. Mr. Davis spoke for two hours and was accorded close attention throughout. The language was temperate and comely and was not the radical utterance some anticipated. Mr. Davis spoke with gratification of the reports coming from across the Atlantic that a settlement of the Venezuela trouble was likely to be effected, yet the Senator declared with emphasis that the American people would never indorse a settlement based on concession of any feature of the Monroe doctrine. While minimizing the possibilities of war, he said that a firm and explicit announcement of our policy to resist European encroachments would give the surest guarantee of peace. Mr. Mitchell, of Oregon, chairman of the committee on privileges and elections, presented the views of the majority of that committee, favoring the seating of Mr. Dupont as Senator from Delaware. The rest of the day was devoted to the military academy appropriation bill. The proposition of an amendment to increase the cadet appointments by two from each state, an aggregate of 90, brought out much debate. The prevailing sentiment being favorable to the increase.

**SENATE—Fifty-ninth day.**—The agricultural appropriation bill occupied the attention of the House. A great deal of criticism of Secretary Morton was indulged in on both sides of the political aisle, but no one arose to his defense. An amendment appropriating \$2,300 for a new edition of the "Horse Book" was adopted. Before the bill was taken up the "senate amendments to the urgent deficiency bill" were non-concurred in. Mr. Value, from the committee on ways and means, reported a resolution of inquiry, calling on the secretary of the treasury for an exhaustive report relative to the sale of bonds under the resumption act between the two periods between 1879 and March 1, 1883, and between the latter date and Jan. 1, 1893. A bill was reported for the appointment of non-partisan commissions to collect information and recommend legislation to meet the problems presented by labor, agriculture and capital.

**Fire at Sunfield** destroyed the hotel and five of the finest two-story brick buildings in the town. The loss is \$10,000 and includes the Sun office.

**Joe Merrifield, aged 12,** shot and killed his little brother Frank, aged 7, and then shot himself, at Henderson, Ia., because their father deserted them. Their mother is dead.

**Bartholomew Shea** died in the electrical chair at Dannemora, N. Y., paying the penalty for the murder of Robert Ross during an election riot at Troy in March, 1894.

The coroner's jury at Newport, Ky., found that Scott Jackson and Alonzo Walling murdered Pearl Bryan, that they first used cocaine and then beheaded the girl. The grand jury promptly indicted them for willful murder.

A concerted effort will be made by the people of Minnesota and the northwest to prevent the passage through congress of the bill authorizing certain railway companies to construct a bridge across the Detroit river, at Detroit. Considerable opposition is being aroused at Detroit also, this taking the form of a project to construct a tunnel instead of the bridge.

Harriman, will speak on the life and character of the poet.

### This is Certainly a Chance Which Should Not Be Lost.

We are aware that our people who suffer from nervous, chronic or long-standing complaints do not have the same opportunity to be cured as do the residents of the great cities where the most eminent physicians and specialists reside. In other words our people are debarred from seeking a cure by the great and skilled physicians owing to the cost of travel to the large city and the high fees charged by such physicians.

Here, therefore, is a chance for the sick of our community which should not be lost. Dr. Greene, of 35 West 14th Street, New York City, who has the largest practice in the world and who is without doubt the most successful specialist in curing all forms of nervous and chronic diseases, offers to give free consultation by mail to all sufferers whom their local physician has failed to cure. You have the privilege of consulting Dr. Greene by letter, describing your complaints, and he will, after carefully considering your condition, send you a letter fully explaining all your symptoms, telling you everything about your complaint so plainly that you will understand exactly what ails you. He will also give you his advice, based upon his vast experience and wonderful success in treating such cases, as to just what to do to get cured. All this will cost you nothing and you thus have consultation with the best-known physician and acknowledged most successful specialist in the world, without leaving home and at no expense whatever. The Doctor is the discoverer of that greatest of all known medicines, Dr. Greene's Nervura blood and nerve remedy and he has discovered many other most valuable remedies. Write to him now, for this is a chance to get cured which you may never have again.

Catarrh Cannot be Cured with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by all druggists, price 75c.

Here is the serious manner in which a big London daily and a sedate London magistrate treated an old-time American joke: "A strange society was brought to light during the hearing of a case before the Thames magistrate. Several men were charged with stealing a watch from a sailor and were all discharged except Alexander Fullerton, on whom were found a post-office savings bank book for £49 and a card of membership with a curious title. It bore the following inscription: 'National Liars' Association. Having been a member of the above association, and finding you a bigger liar than myself, I must congratulate you on relieving me of this card.' It must be gratifying to the East end community, as well as a tribute to Fullerton's own abilities, that he found no one worthy of relieving him of the card. The magistrate remanded him for inquiries."

Instant relief experienced and a permanent cure by the most speedy and greatest remedy in the world—Otto's Cure for Lung and Throat Diseases. Why will you continue to irritate your throat and lungs with that terrible hacking cough when John Moore's agent will furnish you a free sample bottle of this great guaranteed remedy? Its success is simply wonderful, as your druggist will tell you. Otto's Cure is now sold in every town and village on this continent. Sample free. Large bottles 50c and 25c.

More than half the schooners that composed the San Francisco sealing fleet last season have already gone out of the business, and it seems generally agreed among the sealers there that the sealing business is dead so far as San Francisco is concerned. Last January thirteen vessels left San Francisco to hunt seals. Only four will leave this year, and several of the schooners which went sealing last year are now fitting out to cruise after otters—a more precarious, but, if successful, a much more remunerative business than catching seals.

If asked the question "Have you got a stomach?" it would be safe on general principles, to answer "Yes." But, if you are sure of it; that is if you ever feel any distress after eating or any pains of whatever description in the region of the stomach, you have got something more than an ordinary stomach; in other words, you have got a diseased stomach. The stomach is a powerful muscle, and the proper remedy for a tired muscle is rest. Try the Shaker Digestive Cordial, for this product not only contains digested food, which will nourish the system without any work on the part of the diseased organs, but it aids the digestion of other foods as well. You can test its value in your case for the trifling sum of 10 cents. Sample bottles at this price are carried by all druggists.

Wear the Victoria Cross. The number of general officers on the active list of the British army who are decorated with the Victoria cross "for valor" is nine.

Speer's Wines and Brandy. The excellence of Speer's wines and Brandy is attested by Physicians throughout America and Europe who have used them. They received the endorsement of various Boards of Health.

At the Hub. Boston is a great musical as well as intellectual center. One of its papers says of a sermon last Sunday: "The spiritual lesson it bore was pointed and enforced by an eloquently rendered soprano solo just at its close."

Things of the past with many happy mortals are the tortures of Headaches and Neuralgia which in some instances have been endured since childhood. Their better state, their rescue from affliction is due entirely to the curative powers of Gessler's Magic Headache Wafers. The record of this great remedy is unsurpassed. They are a specific for all headaches and neuralgia. The wisest physicians use and prescribe them. The remedy is backed up by guarantees as to its wholesomeness and its positive healing efficiency. They are guaranteed by A. E. Mummary.

Hit by a Partridge. H. L. James of Rockville, Conn., had an experience recently that he will not soon forget. He was driving to Mansfield, when a partridge that had been shot by a hunter flew into his covered carriage, striking him full in the face. It stunned him for the moment and his face was slightly cut. The bird was dead when found by Mr. James after recovering from the shock.

FROM PLEASANT PEOPLE

Come Kind Words That Smooth the Pathway.

In a letter from Mrs. Chas. Kinckerbocker, of Jackson, Mich., whose connection with the celebrated cook book entitled "Gleanings from Home and Field" is well known, she was kind enough to say: "I have finally found a substitute for coffee in your 'Postum Cereal.'" You have a good thing that thousands of people have been needing and wishing for, a drink to take the place of coffee, which to them is poison, though so delicious and so hard to give up. I speak from experience."

Mrs. Glass, of Spencer, Iowa, writes: "Our grocer has ordered the Postum Cereal from Des Moines and we like it well, and many are trying it."

It is meat and drink to our bodies and satisfaction to our souls and conscience, because we realize it is not only harmless but is nourishing."

WHAT WOMEN DRESS FOR.

One of Them Says It Is Because They Wish to Please Men.

A group of young women sat around a dainty tea table discussing dress and their wafers almost in the same breath. "I am only beginning to take an interest in my gowns," said a sun-browned maid who had just returned from a summer resort where there were twenty-six girls to three men. "Although my summer costumes were perfectly lovely, I did not thrill over them once, for what was the use of donning the most becoming frock when there were no men to be overpowered by the effect. I argue that we dress to please the men, therefore I state in all candor that I don't care a button what sort of gowns I have unless I know that men are going to see them."

"But a woman knows more about their value and their style," put in a brown-eyed creature who always looks well.

"That's all very true," argued number one, "but the influence that men exercise upon women's dress is certainly underestimated. The taste of the husband, the taste of the lover, of the intimate friend, and even of the brother, has always to be deferred and submitted to, and in each and every case is acknowledged to be superior to that possessed by his fair subject. The secret of this is, perhaps, in a measure, due to the fact that the masculine eye sees and judges from the effect produced, and a verdict is passed accordingly, whereas the feminine mind is often distracted by the choice of color, material, trimming and style offered; and when and where natural good taste does exist it is frequently dominated by the will of another actuated by self-interest, and thus good judgment is for the moment overpowered. Again, the desire to confine expense within a certain limit is another fertile source of sacrifice on the altar of good taste. Still, allowing all this and more, the fact remains incontrovertible that a man intuitively knows what suits a woman better than she does herself."

With a convincing air the speaker set her cup down, gave herself a furtive glance in the mirror, and departed to be seen soon after on Walnut street looking perfectly radiant as she walked along quite conscious that the man by her side regarded her get-up as eminently fetching.

LIFE NOT WORTH TEN CENTS.

Small Value Put Upon It by a Man Who Was Saved from Drowning.

From the San Francisco Post: A fat man carrying a gun and leading a dog made a dash down Market street for the Oakland ferryboat. He could have caught it if he had walked quietly along, but he became excited, and old Time commenced having fun with him. The dog would run on the wrong side of the telegraph poles and hydrants and tangle up his chain in the legs of pedestrians. By the time spent in apologizing and untangling the dog he was delayed until the little gate closed in his face. Then he ran around to the big gate, dodged around a mail wagon, and made a run for the boat. The deck hands raised the apron and the boat moved slowly out, but he was determined to catch it, and, gripping his gun and dog chain a little tighter, made a run and sprang into the air. The boat was only six feet away, but the dog balked the apron. The hunter stopped in the middle of his leap, his feet flew out toward the steamer, and he dropped into the bay like a load of hay. A small boy who was fishing from the wharf dropped his pole, splashed into the water and towed the fat man to a pile, where he clung till a boatman pulled him out. "My boy, you saved my life," he exclaimed enthusiastically, as he kicked the dog and tried to wring the water out of his shotgun. "Let me reward you."

He thrust his hand into his clammy pocket, and fished out a wet 10-cent piece. "There, my boy, take that; but don't spend it foolishly."

"No, sir; I can't take it, sir," the boy pushed the generous hand aside. "I didn't earn it."

"Why, you saved my life, boy."

"Yes, I know it, sir, but it ain't worth 10 cents."

COLORADO'S GOLD FEVER.

Three Mining Exchanges—Fortunes Made and Lost in a Day.

Colorado is astray over a great speculative wave, the result of the discovery of gold in Cripple Creek. Colorado Springs already boasts of three mining exchanges, and excitement is at fever heat, says the New York Herald. All three exchanges are so busy with actual orders that one cannot cross the threshold without fighting for position. Several thousand persons engage in nothing else from morning to night. A hundred or two hundred thousand shares are not uncommon for one broker to hurl at another, while for the day the aggregate of business frequently soars to 2,000,000 shares.

The miner who relied on signs for the presence of ore around Cripple Creek invariably "got left," while the farmer and cowboy, with only a stock of confidence and blind luck, stumbled on the bonanzas that have become famous throughout the world. W. S. Stratton, a carpenter, three years ago working for \$2 a day, is now the central figure of the west with his independence, that pays him at the rate of \$150,000 a month, without referring to the adjoining properties that are neglected until the time when the owner finds some way of spending the wealth that has been lavished upon him. Then there are James Doyle and James F. Burns of the Portland, who are reaping the fruits of industry in possession of a mine that has been appraised at \$6,000,000. Two years ago both men were operating drills and shovels for \$3 a day. These are the notable men in the district who inspire others with hope of rivaling their glories from the same source. Such careers cast a halo of romance around the occupation of an ordinary miner and the incentive is so great that the denizens of the Colorado city are just beginning to realize the possibilities of the new field for speculation.

"TRILBY" WAKES UP JOHN BULL

He Has Just Discovered That Jonathan's Literary Judgment Was Correct.

Our British cousins did not take very strongly to "Trilby" when that novel was first put upon the market, says the New York World. The English critics, who are a very clever and high-salaried lot of gentlemen, instantly announced with a suddenness of perception peculiar to the British isle that there was really nothing in the book, and the British public, which has been waiting with strained ears to catch the manifesto of the critics, at once came to the same conclusion. Shortly afterward the work became extremely popular in America, and when they heard this the British critics and the British public threw their hats up in the air and exclaimed aloud in a frenzy of joy and self-congratulation:

"Did not we say long ago that there was nothing in 'Trilby'?" And "Is it not now proved that we were right? The great American public has approved of 'Trilby.' The great American public never approves of anything that is worthy of approval; therefore, oh, it is so plain, 'Trilby' is trashy."

But now two years have passed and the sad news is flashed over the cable that the discerning British public and critics have succumbed. They now acknowledge "Trilby" as their queen.

They have the "Trilby" craze. They wear Trilby shoes. They give Trilby teas. The women buy Trilby garters. The concert halls are all giving Trilby burlesques. In fact, "the Trilby infection" (so reads the cable dispatch) "has worked in the slower English blood a fever no less violent than that from which America recovered months ago. The craze has invaded everything and become almost insufferable to the Americans in London. More than 100,000 copies of the book have now been published here, and the demand is unsatisfied."

If the British public keep up this hustling there is every possibility that they will adopt the sleeping car in time.

Do These Questions Apply to You?

They are sure to interest hundreds of readers of this paper. Nine out of every ten people are troubled with these symptoms, and really don't know what's the matter with them. Here are the questions:

- Are you nervous?
Have you a cough?

STOP IT NOW!

Stop It Quickly, Just the Same as Did Mr. Charles H. Hoffman, of 132 Ten Eyck Street, Jackson.

If you have a pain in your back, stop it! A lame back, stop it! An aching back, stop it! Do you want to know how? Let us tell you! In the first place, never try to rid yourself of pain without knowing the cause. If pain or ache exist there is reason for it. Find out this reason and get after it. Strike cause a stiff blow with the right weapon, and its allies, pain and ache, will flee like chaff before the wind. To get right down to it, backache is indicative of kidney disorders, a spy placed there by nature; listen to his warnings and take up the weapon, strike before disease is reinforced with allies that can not be routed by hand of man, such as Bright's disease. Let us introduce to you this weapon! Let us prove its superiority to all others! Here is a blow it struck:

Mr. Charles H. Hoffman is a fireman on the M. C. R. R., and resides at 132 Ten Eyck Street, Jackson, Mich. He says: "I have suffered for a long time from a kidney and bladder disorder which has at times rendered me incapable of work; have been at the hospital for my complaint and discharged from there as cured, but the old complaint has invariably come back again. Some time ago I heard of Doan's Kidney Pills, and I began taking them, with most gratifying results. Urinary complaints which bothered me greatly are very much improved, and the pain I suffered in my back has entirely left me, my general condition is much improved. I would not like to be without Doan's Kidney Pills, I think others should know what a valuable remedy it is."

**NO WASTE OF WATER.**  
Simple Process of Extracting Gold from Ore Which Saves Millions.  
From the Boston Journal of Commerce: It is not generally known, even in California, that millions of dollars are annually taken from rude heaps of base-looking quartz by the flowing of water over huge piles of broken rocks that contain the precious metal. The process of robbing the earth of its gold has now been reduced to such a fine point that a gentle flow of water over the ore gleams it of its golden treasures, and this works well in cases where the old chloride and other methods are not so useful.

The water used by miners in bringing gold from piles of mineral-bearing quartz is charged with a simple chemical, which has the potency to dissolve gold and hold it in solution. The sparkling liquid, which flows over hundreds of tons of quartz, trickles through the mines and seeks its level, laden with gold, is charged with a deadly poison, cyanide of potassium, a drug which ferretes out the minutest particles of the yellowish metal and dissolves them and brings the precious burden to the vats for conversion into refined gold again. The cyanide process is as noiseless and unerring as the laws of gravitation. The method is based on the fact that even a very weak solution of cyanide of potassium dissolves gold or silver, forming respectively auro-potassic cyanide and argento-potassic cyanide. The solution is separated from the solid material and the gold and silver are precipitated in metallic form. During the last five years the process has been introduced into almost every gold field in California and elsewhere, and more than \$20,000,000 has been recovered by the gentle flow of the waters charged with the magical chemical.

Precipitation is effected by the use of fine pieces of zinc, so arranged that when the rich waters flow over them the fine gold clusters in rich deposits over the zinc, for which it has an affinity. The gold deposits itself in the form of fine dust on the plates of zinc.

**Pursued by a Demon.**  
How many suicides, think you, reader, have been committed by persons driven distraught and hunted to their doom by the demon of chronic ill health? Countless. For instance, we know, do we not, that hypochondriasis is a monomania—a sort of minor madness produced by chronic dyspepsia? Again insomnia, or sleeplessness, often a result of the same cause, culminates in a derangement of the reasoning faculties. It is, therefore, of momentous consequence to prevent the arrival of disease at its chronic phase, when it daily and nightly scourges the sufferer to a dangerously uncertain goal. No medicine know to science, as a means of arresting the maladies to which it is adapted, exists equal to Hostetter's Stomach Bitters. Among these complaints are chronic indigestion and insomnia, kidney and rheumatic ailments, constipation and liver trouble. Appetite is improved by the Bitters, the blood fertilized, and bodily substance and vigor increased by it.

**An Island for the Chocolate-Maker.**  
The purchase of the island of Anticosti by Henry Menier, the head of the chocolate firm, is a huge transaction, although the price is only \$200,000. The island lies in the broad estuary of the St. Lawrence. It is 130 miles long and forty miles broad. Mariners bound up or down the St. Lawrence river dread its coasts, which have been strewn with the wreckage of many trading vessels and even hunters dread its climate. Mr. Menier's purchase will make him one of the largest individual land-owners in the world. Anticosti belongs to the province of Quebec. The interior is wooded and mountainous and the population sparse. The island has long been in the market.

**Grapes With Horehound Cures Coughs.**  
Old Aunt Rachael, an old and successful nurse, 90 years old, 70 years experience as a nurse and much sought after by hundreds of families, has for years made a Cordial most effective for coughs and colds by the use of Grapes with Elecampane Root and the Herb Horehound. Public speakers and singers use it. It is performing wonders. Sold by druggists.

**Imitate the Boys.**  
The young women students at Lawrence university, Appleton, Wis., have decided to wear a uniform dress. They were stirred to the decision, it is said, by the smart appearance of the young men in the military school connected with the university, who recently donned new uniforms of gray and black. The girls first proposed to wear a uniform of the same color as that worn by the boys, but finally decided on navy blue. They are to wear blue blouses laced up in front with black and skirts of blue trimmed with black. In the gymnasium blue blouses will be substituted for the skirts.

**An Honest Man's Story.**  
Greenville, Pa., Jan. 23, '96.  
Dear Sir:—Thank God there is a medicine that will cure catarrh. Mr. Pretzinger I used your sample box of catarrh which you sent me. The first night I used it, it helped me. May God bless you for your kindness. I used the little box you sent me and about half of a 50 cent jar. They keep it in Chambersburg. I have told a great many people about your medicine. Hon. Squire Britton, brother-in-law to me, is using it; he says it is helping him very much; he has catarrh very bad. Mrs. G. D. Ludwig, daughter of me, is using your medicine. I use it in the evening before retiring to bed and am feeling better now than I have for the last five years. My head is clear and I have more energy for work and business. Before I used your medicine I felt many a time that I did not care whether I was living or dead; I had no energy; I did not care for anything. I had catarrh for over sixty-seven years; mother had catarrh and it turned into consumption; she died in her sixty-fourth year. I have a farm up at Strasburg, seven miles from Greenville. On nice days I drive up to the farm and work. Mr. Pretzinger I think it would pay you to have it put in all the Franklin County papers as I am a reliable, honest man, so the people say, middle-aged well acquainted over the County.  
Yours truly,  
Geo. K. Zollinger.

**So Messages Through the Tunnel.**  
Experts report that it is impossible to send a telegraph dispatch through the Hoosac tunnel, four and one-half miles from North Adams, Mass. It has been tried with all kinds of wire, and with a cable such as is used under the ocean, but in vain. Telegraph wires in consequence of this curious condition, have been carried over the surrounding mountains. A careful exploration of the tunnel has been made, but no magnetic or other ore has been found to interfere with the transmission of a message.

## THE BLUES.

**Why do Women have the Blues more than Men?**

[SPECIAL TO OUR LADY READERS.]  
Are not women naturally as light-hearted, brave, and hopeful as men? Yes; but woman's organism is different from man's.

Women in perfect or good health are rarely victims of this symptom. Women nearly monopolize the blues, because their peculiar ailments promote them. When the female organs fail to perform their functions properly, when the dreaded female complaints appear, there is shown nervousness, sleeplessness, faintness, backache, headache, bearing-down pains, etc., causing the dreaded "let-me-alone" and "all-gone" feelings.

When the woman does not understand what the matter is, and her doctor can not or will not tell her, she grows morose and melancholy; that's the blues. Mrs. Newton Cobb, of Manchester, O., says: "Lydia E. Pinkham's Vegetable Compound will correct all this trouble. I cannot praise it enough. I am pleased to tell every one that it cured me; and if it will cure me, why not others? I am sure my case was severe enough." It will. Get it of your druggist at once.

**Saw His First Train.**  
A country boy who was brought up in a remote region of Scotland had occasion to accompany his father to a village near which a branch line of railway passes. The morning after his arrival, when sauntering in the garden behind the house in which they were staying, he beheld with wondering eyes a train go by. For a moment he stood staring at it with astonishment and then, running into the house, he said: "Father, father, come out! There's a smiddy ran off wi' a row o' houses, an' its awa' doon by the back o' the town."

**If the Baby is Cutting Teeth.**  
Be sure and use that old and well-tried remedy, MRS. WINDSLOW'S SCOTHING SYRUP for children teething. It softens the child, softens the gums, says all pain cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

**Aeriferous Sand in His Claw.**  
People are now digging for gold in Franklin county. Several days ago Charles McCune found some specks of gold in the claw of a turkey which he had won at a raffle. He sent the gold to Prof. Orton, the state geologist, who pronounced it gold, but said that some of the sand from which the gold came should have been sent along in order that some conclusion might be formed as to the presence of more of the metal in the same bed. The rest of the contents of the claw, however, had been thrown away and the sand could not be furnished. The gobbler did his feeding along two small streams which unite at the Canal Winchester road.—Cincinnati Tribune.

"After suffering from dyspepsia for three years, I decided to try Burdock Blood Bitters. Two bottles cured me entirely." Mrs. G. C. White, Taberg, Oneida County, New York.

## CHECK PAYABLE TO CUSTER.

**Drawn the Day of the Massacre and Found at Bismarck, N. D.**  
A recent dispatch to the Chicago Record from Bismarck, N. D., gives the following information: "The tragic death of Gen. Custer and his gallant men at the hands of the Sioux Indians in the massacre of the Little Big Horn, was recalled here this week by the forwarding to Mrs. Custer of a check for \$1,500 drawn to the order of Gen. George A. Custer in 1876. The check is dated June 25, and signed by B. L. Smith, at that time assistant paymaster of the army. It was on June 25, 1876, that the massacre took place. The check is still unpaid, and soiled and tattered though it be, constitutes a valid claim against the government for the amount represented upon its face, which was no doubt intended as part payment of Gen. Custer's salary as an officer of the United States army. Where the check has been all these years no one knows, least of all Michael Francis, who found it in the street here last February, and who has retained it in his possession until now. When Francis picked up the bit of paper it was almost as legible as when it was drawn, but three heavy creases in it showed that it had been carried in a pocketbook until it had been worn through. The parts were joined together by narrow strips of paper pasted on the back, and the edges were somewhat soiled, as though the paper had at one time been dropped in the mud. No indorsement appears upon the back of the check, and the face shows the mark of no cancellation stamp, demonstrating that the check has never been presented for payment. The check was no doubt forwarded to the northwest before the news of the Custer massacre had reached Washington. Had reached those in charge of the d. d. soldier's effects it would have been sent back at once in order that one payable to the heirs could have been sent on in its place. It has evidently been under shelter somewhere, and the chances are that it was mislaid last February and swept out into the street, where it was found by Mr. Francis."

A man's health is the rope by which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—despepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Send 21 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address, World's Dispensary Medical Association, Buffalo, N. Y.

**Elected by a Sow.**  
The mayors of Leicester, in the early days of England, were elected by a sow. The ambitious candidates seated themselves in a semi-circle each with a hatful of beans in his lap. The man from whose hat the sow ate first was proclaimed the mayor.

Consumption in its advanced stages is beyond the power of man to cure. It can be prevented, though, by the timely use of Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.

**Telegraphs of the World.**  
One of the leading publications devoted to the news of the electrical world has been at pains to gather statistics from official sources regarding the extent of the telegraph system of the world, the figures being brought up to December 1. The total length of telegraph lines in the world is 904,701 miles, and the total miles of wire used on the same 2,682,583, or enough to go around the globe at the equator over 107 times. The total miles of line in the United States January 1, 1895, was 190,303, with total miles of wire 790,792.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement. "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

It is the medicine above all others for catarrh, and is worth its weight in gold. I can use Ely's Cream Balm with safety and it does all that is claimed for it.—B. W. Sperry, Hartford, Conn.

**Plenty Game There.**  
Hunters returning from the Okfenokee swamp in Georgia, where comparatively few hunters go, say it abounds with game of all sorts—deer, bears, alligators, turkeys, wild fowl and fish.

**Unfermented Communion Wine.**  
Alfred Spear, of New Jersey, the celebrated grower of foreign grapes, preserves the unfermented juice of the grape for sacramental use. It has been adopted and its use sanctioned by the prominent divines of this country. It is also used for invalids with remarkable effect for blood-making. For sale by druggists.

## Dr. Miles' Heart Cure,

Cures Heart Disease.

Mr. Geo. L. Smith, of the Geo. L. Smith Mantel Co., Louisville, Ky., writes Feb. 26, 1894: "For about a year I was a terrible sufferer from heart trouble, which got so bad I was obliged to sit up in bed to get my breath. I had to abandon business and could hardly crawl around. My friend, Mr. Julius C. Voght, one of our leading pharmacists, asked me to try Dr. Miles' Heart Cure. I had used little more than a bottle when the pain ceased and palpitations entirely disappeared. I have not had the slightest trouble since, and today I am attending to business as regularly as ever."

## THE NERVE SYSTEM

Is the most delicate and important structure in the human body.

Is the seat of our intellect.

Strengthens and restores the nerves and disease has lost its most powerful and pernicious ally.

Mrs. M. Quinn, No. 222 W. Walnut Street, Louisville, Ky., writes: "I think God must have sent your remedy to me. I was bed-ridden with a complication of diseases which finally resulted in complete nerve exhaustion and severe sinking spells, when I first commenced using it. I began improving at once, have used 10 bottles and am now assisting in the care of my home, something I have not done for years. It certainly has helped me when everything else failed."

Our agent at Inglesfield, Ind., says: "A young man who had been down for three winter on a stretch with Rheumatism got so bad that I had to take him to my home and brought him to me. He was not able to raise up. After using 5 bottles of your Remedy he is a right again and says, he feels as if he had never been bothered with Rheumatism."

CURE GUARANTEED. Send for circular.

## HISTORY OF KISSING.

Variety of Means of Salutation as Practiced by Different People.

"'Tis certain," said Dick Steele of kissing, "nature was its author and that it began with the first courtship." But this is incorrect. 'Tis certain that to many human tribes kissing is unknown. Instead of saying "kiss me," they say "smell me," and this, doubtless, represents an earlier form of salutation. The kiss is much later than the dance. It is still unknown among many races and may be called conventional. Some nations smell and rub noses, like horses, in salutation, and where two Frenchmen will run and kiss each other, two central Africans will deliberately spit by way of friendly greeting, according to the Spectator. Dr. Taylor says: "The idea of the kiss being an instinctive gesture is negated by its being unknown over half the world, where the prevailing salute is that by smelling or sniffing, which belongs to Polynesians, Malays, Burmese and other Indo-Chinese, Mongols, etc., extending thence to the Eskimo and westward to Lapland, where Linnaeus saw relatives salute by putting their noses together." The kiss has to be taught to children. Preyer, in his excellent book, "The Mind of the Child," states that at first they are averse to, and even fearful of the performance. However this may be, it is certain that Europeans speedily take to it as though to the manner born. Osculations were far more common in the good old times than at present. The custom which most delighted Erasmus when in England was that the girls all kissed him. When ceasing to be performed some of these ceremonies leave their trace in language. Thus both Austrians and Spaniards say: "I kiss your hands," as a polite term for returning thanks. John Bunyan was a very different man from Erasmus, and in his "Grace Abounding" he says: "The common salutation of women I abhor; it is odious to me in whomsoever I see it." And to those who defended it as the holy kiss, he pertinently asked: "Why do they salute the most handsome and let the ill-favored go?"

Old enemies, and new ones, in the guise of headache and neuralgia can surely and speedily be overcome with the assistance of Gessler's Magic Headache Wafers. There is no element of doubt in this matter of cure. It has gone far beyond the experimental stage. The positive facts that Gessler's Magic Headache Wafers cure every kind of headache and neuralgia. They are used by many physicians in their families and daily practice, and they are sold on positive guarantee as to their efficiency or your money refunded by A. E. Mummery.

## BROTHER AGAINST BROTHER.

Remarkable Contest for the Governorship of Tennessee Between the Taylors.

From the Washington Post: One of the most remarkable political contests of modern days was that between Bob and Alf Taylor over the governorship of Tennessee some years ago. The brothers are both violinists—in Tennessee they are known as fiddlers. Alf is the superior performer. Bob plays left-handed. Neither one is a finished master of the instrument, but they both play the mountain melodies to the queen's taste. During their unique race for governor Bob and Alf did not actually carry their fiddles with them, but in almost every town the people would hunt up a couple of violins and insist on hearing them play. When the election was over and Bob was occupying the highest office in the gift of Tennesseeans a convict of the penitentiary one day sent him a fiddle. It was a home-made instrument, the convict being its author and finisher. He had made it while serving out his sentence in the "pen," and designed touching a tender chord in the governor's heart by the presentation. The story is best told in Governor Bob's own way: "One day just before Christmas a state official entered my office and said: 'I have been implored by a poor, miserable wretch in the penitentiary to bring you this rude fiddle. It was made by his own hands with a penknife during the hours allotted to him for rest. It is absolutely valueless, it is true, but it is his petition for mercy. He begged me to say that he has neither attorney nor influential friends to plead for him; he is poor, and all that he asks is, when the governor shall sit at his own fireside on Christmas eve with his own happy children around him, he will play one tune on this rough fiddle and think of a cabin far away in the mountains in which is a family of poor, ragged children crying for bread and listening for the returning footsteps of their convict father.' Who would not have been touched by such an appeal? When Christmas eve came the governor sat at his own happy fireside, surrounded by his own happy family, and sitting there he played one tune on the rough fiddle. Far up in the mountains there was another hearthstone bright and warm, the pardoned convict was there with his children on his knees and his heart re-echoing the strains which the governor played on the home-made fiddle."

## THE PROMISED LAND.

Why the Tourist, Traveler and Student should visit Utah.

There are two reasons, either one of which ought to be conclusive with every American citizen.

First—The trip from Denver to Utah via Rio Grande Western, "Great Salt Lake Route," is the grandest to be found anywhere on the continent. No European trip of equal length can compare with it in variety and grandeur of scenery and wealth of novel interest.

Second—You should go because, when you have made this wonderful trip, you will find Utah at the end of it—Utah, one of the world's famous spots and a land of gold, silver, copper, iron and coal; of lofty mountains and fertile valleys; of vineyards, fruits and flowers. Salt Lake City, the capital, is of great interest on account of its historical and religious associations. Here are Hot Thermal Springs, Warm Springs, Sulphur Springs, Saniarium, Parks Drives Canyons and the most beautiful climate on earth. Great Salt Lake with the new and beautiful Saltair Beach Resort, of Moorish design, has no equal in America. Write to F. A. Wadleigh, Salt Lake City, for copies of pamphlets, etc. (7)

## Popular Low-Price California Excursions.

The Santa Fe Route personally conducted weekly excursions to California are deservedly popular with travelers who seek a wide economy in cost of railroad and sleeper tickets without sacrifice of any essential comfort. About one-third saved, as compared with first-class passage.

The Pullmans occupied by these parties are of latest pattern and afford every necessary convenience. A porter goes with each car, and an experienced agent of the company is in charge. Ladies, invalids, elderly people, etc., will appreciate this personal care.

The Santa Fe's California line passes south of the region of severe snow storms and is remarkably picturesque. The daily service is same as above, except as regards agent in charge.

## DR. RHODES SAYS.

### That Chronic Catarrh of Long Striding Can be Cured.

J. D. Rhodes, M. D., of Hodges, Miss., in writing D. Hartman recently, says: "I can recommend your remedies to be as you claim and more, too. I feel no hesitancy in saying that I am compelled to use them in my practice, and that they do good for those who are troubled and suffering with rheumatic pains, chronic or nasal catarrh, kidney, liver or lung diseases of long standing. Would say further that they are the best proprietary medicines I have ever seen and I have practiced in different States."

A dose of Pe-ru-na before each meal during the cold season is a safeguard of priceless value, especially to those who are in the least subject to frequent coughs and colds or other effects of wintery climate. Catarrh cannot be cured by local treatment. A thorough course of internal treatment with Pe-ru-na affords the only reasonable prospect of cure. Sprays, douches, inhalants and gargles sometimes relieve, but never cure. Pe-ru-na cures by removing the cause. It gradually eradicates the catarrh from the system, wherever its location.

An illustrated treatise of 64 pages by Dr. Hartman on catarrh will be sent to any address by The Pe-ru-na Drug Manufacturing Company of Columbus, Ohio.

### Rooster Goose Adapted.

The poet of the West Baden Journal sings thus: "Sing a song of penitence, a fellow full of rye, four and twenty serpents dancing before his eyes. When his eye was opened he shouted for his life, wasn't he a pretty chump to go before his wife? His hat was in the parlor, underneath a chair, his boots were in the hall, his coat was on the stairs. His trousers in the kitchen, his cap on the shelf, but he hadn't any notion where he was at himself."

A stimulant is often needed to nourish and strengthen the roots and to keep the hair a natural color. Hall's Hair Renewer is the best tonic for the hair.

### Bird Sellers Fined.

Some time ago the prefecture of police in Paris arrested and heavily fined 200 bird sellers, while all the birds in their possession were impounded and set at liberty in the Bois de Vincennes.

Thousands are suffering excruciating misery from that plague of the night, Itching Piles, and say nothing about it through a sense of delicacy. All such will find an instant relief in the use of Doan's Ointment. It never fails.

### Market Prices in Alaska.

Gold may be plentiful in Alaska fields, but it takes a good deal of it to buy what in most places are considered common luxuries if not necessities. Whisky costs 50 cents a drink, measured out by the vendor, too, in Circle City, and a gallon of it costs \$20 or more. Beer hot from the vat costs 25 cents a drink and is scarce at that. Usually it is to be had only on festive occasions, at dances and the like. Then brewing kettles are kept going on the cook stoves, the beer is set aside a few moments to cool a little and then it is pressed steaming over the bar at 25 cents a drink. A brewery is now being built at Circle City.—Exchange.

## TALENTS OF THE JEW.

Famous in Finance, Philosophy, Medicine and Music.

From the Jacksonville Metropolis: Someone has been at the pains recently to make an analysis of the characteristics of more than 30,000 prominent men of modern times with special reference to the Jewish race. The results are curious and interesting. They bear testimony also to the remarkable versatility and adaptability of the Jewish people and their tenacity of purpose, even under the most adverse conditions.

Although Moses, the greatest of lawgivers, and Joshua, one of the most brilliant and successful, were of the Jewish race, in modern times the Jews are less distinguished than men of other creeds generally as statesmen and soldiers. They have no distinction whatever as agriculturists, engravers, sailors and explorers. Their great service to the world has been accomplished in the capacity of actors, doctors, financiers, metaphysicians, musicians, poets and philosophers. In all these lines of human thought and endeavor they have contributed many illustrious, immortal names. Astronomical science has no brighter name upon its roll than Herschel, the Jew, and mathematics boasts no greater service than that which it received at the hands of Jacob Bernoulli. In biology also the once despised Hebrew has made his mark. Bernstein, Remak, Rosenthal and Valentine have done large service as physiologists; Cohnheim, Hirsch, Liebreich, Lombroso and Troube as pathologists will, perhaps, be recognized, while F. Cohn is, perhaps, the third greatest botanist in Germany today. But it is in the realm of music that the genius of the Jew has had its largest development and accomplished the most brilliant and original results. One has only to think of the wonderful achievements of such masters of the art as Mendelssohn, Meyerbeer and Rubinstein, to say nothing of Moscheles and Haley, to realize how poor the world would be had not these men of the Jewish race lived and wrought as they did. Surely the mantle of David, the poet king of Israel and the great master of sacred song, has fallen on not one, but many, of his descendants in these later days.

## Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Mr. Frank B. Martin, a prominent jeweler at 926 Pennsylvania Ave., Washington, D. C., says:

I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars. My mouth was filled with eating sores; my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly, and I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had finished eighteen bottles, I was cured—sound and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. saved me from a life of misery. S.S.S. (guaranteed purely vegetable) will cure any case of blood poison. ## CURED BY THE KNIFE.

Dr. Rouif Takes a Reef in a Murderous Elk's Disposition.

From the Post-Dispatch: The vicious old elk in Forest park that gored to death Keeper Nelson last week, will have a kinder disposition in future. That is what Dr. Anatole Rouif, the veterinarian, says. After the unfortunate accident it was decided first to kill the old fellow and sell his carcass to some restaurateur, but Dr. Rouif suggested that he could take a reef in the elk's temperament by performing a surgical operation. So it was finally agreed to give the forest monarch a longer lease of life, and the operation was successfully accomplished. Since then the elk has been doing nicely and giving no trouble. Dr. Rouif, Park Commissioner Ridgely and eight assistants, armed with clubs, pitchforks and rope enough to hang anyone, started for the inclosure wherein dwelt the murderous elk. After some tedious maneuvering the old fellow was lassoed. Then he was securely fastened on each side and his head pulled down to the ground. But this didn't put him in readiness for the operation; only half of the work was accomplished. He fought desperately with his fore and hind legs and no one would venture within their reach. One by one the legs were encircled by the rope and then all four were securely fastened together. Then the operation was easy. This is the first operation of the kind ever performed on an elk, deer or any similar animal, either in Europe or America, says Dr. Rouif. In speaking of the affair the doctor said: "Of course this elk was a bad fellow, and had killed one man before, in Chicago, but what made him so extremely vicious was his constant jealousy and his quarrels with the other bucks. He will now be kept by himself and can have no chance for a fight in future." The doctor performed laparotomy on one of the bull buffaloes last week. Two of the bulls quarreled and one was badly gored in the right side. Through the incision made by the horns, part of the entrails protruded. When the doctor went to replace them he noticed one was badly lacerated. This was quickly stitched up and the entrails replaced. After that the wound in the side was sewed and dressed and the buffalo is now well.

## Probate Order.

STATE OF MICHIGAN, ss.

COUNTY OF WASHTENAW, ss.

At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Thursday, the 13th day of February, in the year one thousand eight hundred and ninety-six.

Present, J. Willard Babbitt, Judge of Probate.

In the matter of the estate of Edward Treadwell, deceased.

David Rinsy executor of the last will and testament of said deceased, comes into court and represents that he is now prepared to render his annual account as such executor.

Thereupon it is ordered, that Tuesday, the 10th day of March next at ten o'clock in the forenoon, be assigned for examining and allowing such account, and that the devisees, legatees heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the said account should not be allowed. And it is further ordered, that said executor give notice to the persons interested in said estate, of the pendency of said account, and of the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

J. WILLARD BABBITT, Judge of Probate. A true copy. W. G. DOTY, Probate Register. 69

### "TOBACCO HEART"

HOW IT COMES AND WHAT IT IS. HOW A MAN CAN USE TOBACCO SAFELY.

Any man who smokes to excess knows what a "tobacco heart" is. It is weak, nervous action of that organ, alternated with occasional palpitation, cold hands and feet (especially the latter), dimness of vision, specks before the eyes, dullness of the brain, shortness of breath, dyspepsia, bad taste in the mouth mornings, and disordered bowels.

These are a few of the symptoms, and they are all due to the poisons of tobacco. Every man who uses tobacco has, every now and then, days when a cigar or a pipe "doesn't taste good," and is thrown away in disgust. "My stomach is out of order" or "I must be bilious," is the usual thought. It is neither. Your system is surcharged with the poison.

Your kidneys find themselves unable to throw off the Nicotine in the Urine. Consequently every organ and tissue in the body is clogged and poisoned.

Anything that will set your kidneys to acting promptly and thoroughly will quickly relieve you.

Dr. Hobb's Sparagus Kidney Pills will do this and do it naturally and harmlessly. And they will do more than that. The poison of tobacco, even when not used to excess renders the kidneys sluggish, any every organ in the body feels the result.

Other poisons that should be thrown out are not thrown out.

Hence the stomach, brain, heart, eye and other symptoms.

By using Dr. Hobb's Sparagus Kidney Pills not only Nicotine but every poison will be rapidly and regularly carried out of the body. You can then use tobacco and feel its effects. A cigar can never then be said to "not taste good."

And your general health will be perfect.

Dr. Hobb's Sparagus Kidney Pills are endorsed by the best physicians and sold by druggists at 50 cents. A valuable book mailed free. Address Hobb's Medicine Co., Chicago or San Francisco.

### BOBBY'S PRAYER CUT SHORT.

Published for Not Including the Wants of His Sister.

From the Washington Star: Bobby is a small man of 5 years, living out Mount Pleasant way. Though lisping in speech and four summers the junior of his sister Frances, he yet fully feels the importance of having been born into the broad estate of man, looking pitifully indeed upon his sister, whom fate unkindly sent into the narrow and cramped sphere of woman, and condescendingly referring to her in general conversation as "a little girl."

The other evening Frances, her nightly "now I lay me" properly said, was already tucked up in her little brass bed, when Bobby, still kneeling by his own couch, deemed it wise, in view of the approach of Christmas, to supplement the regular prayer with a petition for a few items which he considers the necessities of life, so he began afresh: "And, oh, Dad, I fink it's doin' to be told, send me a sled, please—and 'spress tart—and—a wockin' horse—" (and then, as his views on the subject of transportation grew and enlarged), "and a bicittle—and—"

At this point Frances became interested and put in: "Pray for me, too. Pray for me, I need a lot of things."

"And a pony," continued Bobby, still petitioning in his own behalf.

"Pray for me. Pray for me," Frances piped in accompaniment.

"Wif a ha'ness and waddoa," quoth the small suppliant.

"Pray for me. Pray for me," still chorused Frances.

"And, oh, Dad," concluded Bobby, after a short pause, in which he evidently entertained for a moment, but finally dismissed as unworthy the consideration of a man, the idea of praying for dolls and such foolish feminine fancies, "and, oh, Dad, fordive Fwances' sins. Amen."

That prayer meeting broke up that very instant, and in a row, for though Frances may be only "a little girl," she is at the same time an incipient new woman, and the new woman, as everybody knows, will not endure patronage from anything bearing the semblance of a man.

And thus it came that there were shrieks of pain from the petitioner, mingled with loud and energetic views on the woman question from the petitioner, which sounds of warfare died away in silence only after mamma, excusing herself from her card party, had read the combatants to sleep.

### THE PRINCESS AT THE PLAY.

Trying to Set the Fashion to Wear High-Neck Gowns.

The princess of Wales is wonderful! On the first night of the play she came upon everybody as something like a revelation, after an absence of a few months from our midst, says the Lady's Pictorial. We forgot how young, how beautiful she was. We had often said she did not look a day older than her daughters. But now we began to think that she looked even younger. With her fair hair arranged to perfection and dressed in very becoming lace and black velvet, bediamonded to the throat, she called to my mind the description given of her by Dean Stanley, "the prettiest princess ever stepped out of a fairy tale." And she was radiant with smiles, chatting now with the prince, now with Prince Nicholas of Greece or the Duchess of Fife. Both prince and princess of Wales were delighted with the play and congratulated the star in the kindest manner possible. When the curtain had fallen they desired to have the leading hands presented to them, and shaking hands very cordially, said such pretty and gracious things to her that she (a very young and ingenuous girl) fairly beamed with delight all the rest of the evening. I imagine that the princess is desirous of setting the continental fashion here of adopting demi-toilet at the theater. For the last year or two she has persistently worn a smart high bodice with sleeves almost to the wrist whenever she has been seen in the royal box. Of course, abroad, at the theater as well as at casinos, full dress is unknown. Well, there is a reasonableness in the fashion. Once inside the theater a woman is in public, and there are those who think it inconceivable, I suppose, that she should wear a low dress as in her own drawing-room. Granted. But in London always dress for dinner, some more, some less, and we hop into our broughams or hansoms straight from our coffee and liqueur. For my part, although I can see the foreigners' point of view, I love the gay look of a theater with all the women in full toilet. And, strange to say, I find that what foreigners most admire when they come to London is that very gay and festive aspect of our stalls and boxes.

### Pay of Russian Ambassadors.

Russian ambassadors are paid about twice as much as ours. The ambassadors to Berlin, Vienna, Constantinople, London and Paris receive 50,000 rubles, or \$37,500; the ambassador to Rome, 40,000 rubles, those at Washington, Tokio, Madrid and Pekin 30,000, at Teheran 25,000, at Athens, Brussels, The Hague, Copenhagen, Mexico, Munich and Stockholm 20,000. The ministers at Bucharest, Belgrade, Rio de Janeiro, Lisbon and Stuttgart get 18,000 rubles, the envoy to the vatican 12,000, those to Dresden and Cettinje 10,000, and to Welmar and Darmstadt 8,000.

### IN THE BANKS OF THE NILE

Stands the Oldest Obelisk, Constructed Thousands of Years Ago.

From the Pall Mall Gazette: The oldest of all the obelisks is the beautiful one of rosy granite which stands alone among the green fields on the banks of the Nile not far from Cairo. It is the gravestone of a great city which has vanished and only left this relic behind. That city was Bethshemes of the scripture, the famous On, which is memorable to all Bible readers as the residence of the priest of On, Potipherah, whose daughter Asenath Joseph married. The Greeks call it Heliopolis, the city of the sun, because there the worship of the sun had its chief center and its most sacred shrine. It was the seat of the most ancient university of the world, to which youthful students came from all parts of the world to learn the occult wisdom which the priests of On alone could teach. Thales, Solon, Eudoxus, Pythagoras and Plato all studied there; perhaps Moses, too. It was also the birthplace of the sacred literature of Egypt, where were written on papyrus leaves the original chapter of the oldest book in the world, generally known as "The Book of the Dead," giving a most striking account of the conflicts and triumphs of the life after death, a whole copy or fragment of which every Egyptian, rich or poor, wished to have buried with him in his coffin, and portions of which are found inscribed on every mummy case and on the walls of every tomb. In front of one of the principal temples of the sun, in this magnificent city, stood, along with a companion, long since destroyed, the solitary obelisk which we now behold on the spot. It alone has survived the wreck of all the glory of the place. It was constructed by Useratesen I, who is supposed to have reigned 2800 B. C., and has outlived all the dynastic changes of the land, and still stands where it originally stood nearly forty-seven centuries ago. What appears of its shaft above ground is sixty-eight feet in height, but its base is buried in the mud of the Nile, and year after year the inundation of the river deposits its film of soil around its foot and buries it still deeper in its sacred grave.
