

"ITS STILL RAINING."

AT LEAST THAT'S WHAT A PROMINENT DEMOCRATIC OFFICIAL SAID

The Democrats were finding out as the returns of the election came in last Monday evening—only one Democratic Supervisor in the City—Council Straight Republican—Even the Rock-ribbed Second Ward Turns Over a New Leaf—The Treasurer's Salary Question in Doubt.

The election Monday had several surprises in it even for the most astute politicians. No one doubted for an instant that the sixth ward would give the Republicans a good majority. Everybody was equally certain that the Second ward, for years the Democratic strong-hold of the city, would give even a larger majority for the Democratic candidates. Right here was where everybody was mistaken. People have not yet recovered from their surprise over the vote in that ward which resulted in the Democrats getting the constant only. Out of the fourteen aldermen in the city and the president of the council, the Republicans will have ten and the Democrats five, with a possibility of there being one less on the Democratic side and one more on the Republican side. This is due to a tie in the Fifth ward which must be settled by lot. At any rate the Republicans will have a two-thirds majority upon the council even if this chance goes against them. On the vote for supervisor, only one Democrat in the city, Mr. Boyle, of the 5th ward having been able to pull through. The vote upon the question of raising the salary of the Treasurer was very light. Of the votes cast for and against the measure, the result showed a majority of 50 in favor of the increase. It is contended by some however, that in order to carry, the measure must have a majority of all the votes cast at the election. If such is the case then the treasurer will not get his increase. There is a nice legal question here to be decided by somebody. The vote in the various wards for supervisors and aldermen stood as follows:

First Ward.	
Republican—	Supervisor, John R. Miner.....168
	Alderman, Geo. L. Moore.....145
Democratic—	
	Supervisor,.....
	Alderman, L. C. Weinmann.....117

	Supervisor, F. H. Belsor.....51
	Alderman, L. J. Leisemer.....47

In the county the Board of Supervisors is democratic by one majority instead of three as it was last year. In Sylvan the contest was a hot one. This was due to the endeavor of the Republicans to defeat Supervisor Lighthall for re-election and thus weaken his chances for sheriff this fall. The result was a fight to the finish and resulted in a victory for Mr. Lighthall. In Lima Mr. Wedemeyer, the Republican candidate for supervisor, was defeated by only one majority.

In the county the supervisors, stand as follows:

Ann Arbor Town—C. J. Tuomey, D
Augusta—S. S. Bibbins, R.

Dates For County Fair Settled.

At a meeting held last week by the board of managers of the Washtenaw County Agricultural and Horticultural Society, the dates for the fair were decided. Sept. 22, 23, 24 25 were the dates selected. The following committees were appointed: By-laws and Rules—J. F. Spafford, Geo. E. Sperry, John Keppler. Transportation—B. F. Watts. Business—T. D. Kearney and Wm. Campbell. Printing and Advertising—Eugene Helber, Moses Seabolt, J. D. Ryan. Pedigrees—H. P. Finley B. D. Kelly, W. E. Boyden, J. F. Lawrence. Auditing—T. D. Kearney, B. F. Watts, J. W. Nanry. Premiums—H. P. Finley, W. P. Boyden, A. Wood. Police—Nathan Sutton, Chas. Rose.

Arrangements were also made to raise a special fund with which the track can be put in proper shape. The society made a new departure by deciding that no intoxicating liquors should be sold on the grounds during the fair.

STATE OF MICHIGAN.

Arbor Day Proclamation.

In accordance with the resolution of the State-Legislature and with the long established custom of our State, Friday, May 1, 1896, is hereby designated as "Arbor Day." The people are earnestly requested to observe the day by setting out trees, shrubs and vines about their homes and upon our highways and public places.

The exercises in our public schools upon that day should be of a character that will impress upon the minds of our youth the material benefits derived from its observance. By precept and example our teachers should lead in a work that will not only bring its reward to them, but remain as an incentive for future generations to beautify and adorn our fair State.

Our rapidly diminishing forests and the increased demand for shade and ornamental trees has caused the organization of "Forestry Associations" whose purpose is to preserve the forests and educate the people in the science of forestry. These organizations deserve encouragement and it is to be hoped that their numbers will multiply. This occasion is taken to urge the preservation of the shade trees which now stand along our country roads. They may damage the growing crop slightly but in beauty, shade, and protection from the winds, they repay the damage they do many times over.

BOSS UP AGAIN.

The Homeopathic Trouble to be Discussed at the National Homeopoe Convention to be Held in Detroit This Spring—What One of the Detroit Daily Says About the Matter.

The opposition of the university regents and President Angell to the removal of the homeopathic department of the university from Ann Arbor to Detroit is one of the special subjects that will come up before the annual session of the national homeopathic institute in Detroit next June. One of the best known homeopathic physicians in the state intimated today that plans are in contemplation which will give the homeopaths a college in Detroit in spite of the refusal of the regents to obey the act of the legislature.

Several weeks ago the homeopathic committee of the regents offered to compromise with the state homeopathic association, which wants the school transferred to Detroit, the terms proposed by the committee being that homeopathic students of the university would study two years at Ann Arbor, and take the final two years' course at Detroit, where they could have the advantages of the superior clinical facilities. Drs. Morley and MacLachlan and nearly all others, prominent in the councils of the association, decided that the terms ought not to be accepted. They agree that the best results could be attained only by having the students in Detroit during the entire four years.

The projects, the officers of the association say, for the school succeeding in Detroit were never better than at present. With or without state aid it would open with at least 80 student and in two or three years the number would be at least 200. Dr. Morley says the clinical material at Grace hospital is increasing greatly. During the past week, for the first time in its history every bed in the hospital was occupied.

Detroit, Dr. Morley said further, has more and better hospital accommodations than all the states south of Mason and Dixon's line, and for this reason alone medical schools of either class have opportunities for success here not surpassed in any city.

Death of Mrs. Wm. P. Brown.

Died, at her home in the township of Ann Arbor, April 5th, Mrs. Wm. P. Brown, aged 68 years, 5 months and 16 days. Mrs. Brown was born Oct. 20th, 1827, at Fishington, Lincolnshire, Old England. She crossed the ocean with her parents in the fall of 1846, being six weeks at sea before landing in New York. Thus she spent her nineteenth birthday on the Atlantic Ocean. She was married April 2nd, 1849, to Wm. P. Brown, and has been a faithful and loving wife until suddenly called to her eternal rest. She was a member of the M. E. church for many years and was ever an example of Christian virtues that could be safely imitated.

She was a kind and loving wife and mother, and leaves four children, two sons, and two daughters, to mourn her loss.

Funeral services were held Tuesday at 10:30 a. m. at the home, Rev. C. M. Cobern officiating. Burial was in Forest Hill cemetery.

"Released from care, and grief and pain, Grant Lord, that we may meet again, Forgiven by our Lord."

THE MAKER.

of Devil'd Crabs asks a Question.

The following correspondence between Mr. McMenamin, the well known producer of hermetically sealed sea food, of Hampton, Va., and the Postum Cereal Co., may interest some, as it touches a point upon which there have been some queries:

"Hampton, Va.—Postum Cereal Co., Battle Creek, Mich.—Gentlemen: Replying to your letter I beg to say that your healthy coffee has a flavor, so far as I can remember, of the best coffee, and this coffee flavor was so pronounced that I suspected that coffee was mixed with other grains. I served it to some of my guest without telling them what it was, and they pronounced it very excellent coffee. One of them was a coffee drinker who had to have it three times a day. I would like to 'know if there is any coffee in it. Very truly yours, James McMenamin.'

"Battle Creek, Mich.—Mr. McMenamin, Hampton, Va. Dear Sir: We have your esteemed favor of the 28th, and in reply to inquiry as to the ingredients, will say that we are willing to stake every penny we can get together that Postum not only does not contain coffee, but that it is composed strictly and entirely of pure cereals of the field, the greater portion being the various parts of wheat. It took us nearly a year of experimenting to produce Postum the health coffee. It is an easy matter to make a weak sort of drink from browned rye, wheat or malt but to produce a liquid from the cereals that has the color, taste and nourishing properties of our present product, taxed our best energies and that of one of the most expert analytical chemists in America.

We felt a desire to demonstrate the principal that man's drink at meals should be made from grains, without any sort of adulteration or chemical preparation, aside from simple cooking. It may be further explained, that in order to produce Postum the cereals are cooked in different ways and the final mixing of the proper proportions is what gives us the desired result.

There is no possible argument that can be brought forward that will raise the question for a moment regarding the fixed fact of the healthful, nourishing and fattening properties of the cereals furnished by the all wise creator for man's natural use. We thank you for your kind letter. Yours respectfully, Postum Cereal Co., Lim."

There is but one genuine original Postum Cereal coffee, with a multitude of imitations offered as "just as good."

COL. JOSEPH L. FOLLETT.

One of Sheridan's Commanders Saved by Paine's Celery Compound.

Col. Joseph L. Follett, of New York, has a national reputation.

At the age of 21, Col. Follett enlisted in Battery G, First Missouri Light Artillery, and soon rose to its command. At Lookout Mountain, his was the only Battery that reached the summit.

Since the war he has devoted himself to mechanical engineering, and has invented several important improvements on the sewing machine, and a bicycle that promises to be one of the surprises next season.

The tension on the nervous system of an inventor, kept up for months and months, seriously weakened the health of a busy brain worker like Col. Follett, and his constitution, which even the hardships of war did not weaken, threaten to succumb to nervous exhaustion.

What Col. Follett has to say in regard to his restoration to health, cannot fail to carry great weight. In a letter to Wells & Richardson Co., of Burlington, Vt., he writes:

"When suffering from mental exhaustion and a generally disorganized system, and overwork, I used Paine's celery compound.

"The compound acted like a charm on my bowels and kept them in fine condition, and I experienced great relief from my brain troubles.

"I have not used Paine's celery com-

pound for six months, but I shall in need of a tonic and general regular of the system. I have recommended it to a great many, and every one who tried it got relief.

"It is the best general remedy I ever used or knew anything about."

When the nervous system has become weakened from any cause, Paine's celery compound builds it up as nothing else can. It makes people well.

People in every walk of life have reason to be grateful to Prof. Phelps, of Dartmouth, the eminent scientist who discovered Paine's celery compound. He understood the peculiar needs of the nervous system; he knew that the back-ache, headache, sleeplessness, loss of appetite, and disordered blood all mean that the nerves are weakened and inadequate to the demands upon them. The experienced of thousands has proven all over this broad country that only Paine's celery compound will give health to the nerves, and through them to the entire body.

Colleges conferred upon Dr. Phelps their highest honors for his invaluable investigations in medicine, but all this seems insignificant in comparison with the chorus of gratitude that has gone up all over the world from men, women and children, who have outgrown weakness and the lack of health by the use of Paine's celery compound, the most wonderful nerve and blood restoration.

CUBA'S PROSPECTS BRIGHTEN

Insurgents Win a Big Victory—Action of Congress Gives Encouragement.

The New York World has a cipher dispatch from Carlos Garcia, son of Gen. Calixto Garcia, the leader of the Bermuda expedition to Cuba, which says the men and the heavy artillery were landed from the Bermuda in a bay about 50 miles west of Havana. There were 18 boatloads of rifles, cartridges and swords. The force made a march of 40 miles inland, where they were met by Gen. Maceo. It was decided that an attack should be made upon Pinar del Rio, the largest inland town and a Spanish stronghold. Maceo and Garcia, with 9,000 men, swept down upon Pinar del Rio early in the morning and it was a complete surprise. The Spanish troops numbered 6,000 and they were thrown into a state of panic by the onslaught. The use of the artillery which Garcia had brought added to their terror. We captured two pieces of heavy artillery, 1,700 Mauser rifles, 1,200,000 cartridges, 2,500 swords, and 1,000 burned 600 houses, sparing the weak. The Spanish lost 850 killed and 200 wounded. The Cuban loss was 150 killed and wounded.

Gen. Garcia has gone to the eastern end of the island, because that is his old home, to organize an army of picked men. He expects to have an organized army of volunteers which will number 35,000 men, and a regular force of 10,000 men.

The news of the U. S. congress in passing resolutions recommending the recognition of the insurgents as belligerents was received with great joy by the provisional Cuban legation at Washington and by the Cuban junta at New York. The Cubans say they have men, horses, small arms and ammunition enough to maintain their control of all of the island that can be held by cavalry and infantry. But now they need modern artillery to free the remainder of the island controlled by fortified towns and camps, and also to hold seaport towns after they acquire them. Such needed artillery and ammunition would cost hundreds of thousands, if not millions, of dollars and recognition of them as belligerents would enable them to sell \$20,000,000 worth of Cuban bonds. While the passage of the resolution is but little more than a recommendation it renders more probable action by the President and lends moral support to the Cuban cause and increases their credit.

OUR LAWMAKERS AT WORK.

SENATE—Ninety-first day—Ocean mail subsidies brought on an animated discussion during the consideration of the postoffice appropriation bill. The subsidy item was reserved for a separate vote and the balance of the bill was considered. Mr. Cannon introduced a resolution of a radical character concerning Cuba, proposing the immediate use of a United States navy force to protect Americans in Cuba from atrocities and for humane reasons in general. The resolution went over under the rules. Mr. George of Massachusetts introduced a resolution in opposition to the claims of Mr. Ducey to a seat in the Senate. The House practically considered the consideration of the sundry civil bill. In the course of the debate on an amendment to appropriate \$75,000 for commencing the erection of a new military post at Spokane, Wash., Mr. Cannon, the chairman of the appropriations committee, made an appeal for economy on the ground that the condition of the treasury was such that a new project should be entered upon by this congress. He was supported in his appeal by Mr. Grosvenor, of Ohio, who, in some plain-spoken words, insisted that the necessities of the situation must govern. He called attention to the fact that during the first 10 months of the operation of the present law the receipts had been exceeded by the expenditures \$76,000. Some minor business was transacted at the opening of the session. A bill was passed to authorize the light-house board to proceed with the construction of a lighthouse and fog signal on North Manitowish Island, Lake Michigan.

SENATE—Ninety-second day.—The postoffice appropriation bill served to bring out some sharp discussion on the propriety of abolishing country postoffices and absorbing them into branches of city offices. Mr. Gorman opposed the plan as undemocratic. He stated that the Baltimore postoffice territory included two congressional districts, and this postoffice power was exerted toward influencing the selection of men for congress. After a speech by Mr. Elkins, advocating the retention of the means of extending American commerce on the seas, the postoffice bill went over. Mr. Pettibone reported the inland appropriation bill, which authorized the light-house board to proceed with the building of the lighthouse on North Manitowish Island, Lake Michigan, passed. The bill authorizing the light-house board to proceed with the building of the lighthouse on North Manitowish Island, Lake Michigan, passed. The bill authorizing the light-house board to proceed with the building of the lighthouse on North Manitowish Island, Lake Michigan, passed.

HOUSE.—The agitation of the question of Cuban belligerents and the government's attitude with the conference report on the Cuban resolutions. It was not expected that there would be much debate, but Mr. Boutelle, by his vigorous opposition, prevented action. The chairman of the foreign affairs committee, in presenting the conference report, made a very temperate statement, in which he recognized the greatest confidence that the President, although the resolutions being concurrent, and had no binding on the executive, would not be reluctant to his duty as to regard the express wish of congress. He, in fact, refused to entertain the suggestion that Mr. Cleveland might resign his duty as president of the United States as a result of the adoption of the resolutions.

HOUSE.—The day and night sessions were occupied by speeches on the Cuban resolutions.

SENATE—Ninety-third day.—The conference report on the postoffice appropriation bill, but did not complete it. The bill served to bring out some sharp criticisms by Senator Gorman on the administration of the postoffice department, and by Senator Allen on alleged irregularities resulting from the civil service system. The conference report on the Cuban resolutions was adopted by a vote of 24 to 27 and the river and harbor bill passed under suspension of the rules after a lively debate of 40 minutes by vote of 216 to 170. The river and harbor bill carries in actual appropriations \$10,331,593 and authorizes contracts for 32 new projects with a limit of cost between \$21,210. By adopting the conference report on Cuba the House agreed to the Senate resolutions and disposes of the Cuban question for the present. Those resolutions were as follows: 'Resolved, that in the opinion of Congress, a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers according to such all the rights of belligerents in the ports and territory of the United States, and further, that the friendly offices of the United States should be offered by the President to the Spanish government for the recognition of the independence of Cuba. Concurrent resolutions do not usually have to be sent to the President, but these do, as they express the opinion that he should tender the office of the United States to Spain for the recognition of Cuban independence, and are therefore a direction to him in so far as congress can direct the President in such a proceeding.

THURSDAY, APRIL 9, 1896.

Republican District Convention.

Monroe, Mich., March 16, 1896. To the Republican Electors of the Second District of the State of Michigan. The District Convention of the Republicans is hereby called to meet at the city of Ann Arbor on Thursday, April 30th, at 12 o'clock noon, at the Court House, for the purpose of electing two delegates and two alternate delegates to the Republican National Convention to be held at St. Louis, Mo., June 16th 1896, and the transaction of such other business as may properly come before the convention.

The counties to be entitled to delegates as follows: Jackson County 21, Lenawee 23, Washtenaw 19, Monroe 14. That part of Wayne County in the 2d District 11. Harry A. Conant, chairman. John F. Lawrence, Secretary. H. D. Shull, J. M. Collier, Albert Stiles.

Second Congressional District Committee.

Republican County Convention. The Republicans of Washtenaw County will meet at the Court House, in the City of Ann Arbor, on MONDAY, APRIL 29th, 1896, at 11 o'clock a. m. for the purpose of electing 19 delegates to the state convention, to be held in Detroit, on the 6th day of May, 1896, and to elect 19 delegates to a district convention to be held in Ann Arbor on the 30 day of April, 1896, and to transact such other business as may properly come before the convention.

Republican Ward Caucuses.

The Republican Ward caucuses for the City of Ann Arbor will be held on Monday evening, April 13, 1896, at 7:30 o'clock p. m., (local time) for the purpose of electing delegates to the County Convention to be held in Ann Arbor, on April 20th, and transacting such other business as may come before the meeting, at the following places: 1st ward—O. M. Martin's store. 2nd ward—John Heinzemann's store. 3rd ward—Court House basement. 4th ward—Fireman's Hall. 5th ward—Engine House. 6th ward—Engine House. 7th ward—Glen V. Mills' residence, No. 26 Madison-st.

Each ward will be entitled to the following number of delegates: First ward 8, Second ward 8, Third ward 9, Fourth ward 8, Fifth ward 3, Sixth ward 5, Seventh ward 4. E. F. JOHNSON, Chairman City Com. GEO. H. POND, Secretary.

THE Republicans now have full control of the council with a sufficient number of votes to carry any measure over the mayor's veto if they so desire. As a result the party will be held responsible for all the acts of the council, good or bad.

SOME people, who are nothing if they are not rabid partisans, are making great brags that the recent municipal elections in Michigan indicate a great change in political sentiment.

As THE REGISTER has already said,

the Republican party in this county could not make a wiser move than to nominate Mr. John F. Lawrence for the office of Judge of Probate. Although there are other men in the party who would be glad to accept the nomination and who would make excellent officials, there is certainly no one who is as well qualified in every sense of the word to fill the office so acceptably as is Mr. Lawrence.

An Interesting Comparison.

The Editor of THE REGISTER. I hear so many complaints about the hard times and low prices that I thought I would compare the present prices with prices received for farm produce, etc., along about 1852, by the farmers of northern Illinois.

1852, Oct. 8th, to 7 loads of hay at \$3.00, \$21.00; 15 lbs. of turkey at 7c, \$1.05; 22 chickens 1 shilling each, \$2.75; 100 bu. of oats, 25c, \$25.00; 8 bu. of potatoes 36c, \$2.88; 10 lbs. of butter 12c, \$1.20; 14 lbs. cheese 13c, \$1.82; 12 doz. eggs 12c, \$1.44; 6 bu. of wheat 70c, \$4.20.

Have A Drink. This is, practically, what hundreds of coeds are daily asking their fellow students. The question does not, however, have the usual significance as it is not an invitation to step up to the bar of some saloon and take a glass of beer. What it means is that Mr. E. E. Calkins, who is putting in a fine soda fountain in his State street pharmacy, has offered a good sized bonus to the ladies' gymnasium fund for each thousand glasses of soda water sold by the ladies' committees working in the interests of the coed annex.

The scheme seems quite popular with the young ladies already and will doubtless become more so as the weather becomes warmer. Mr. Calkins evidently intends to make his place of business headquarters for the University ladies—or the fellows—who cannot resist the ladies' appeals for the purchase of a ticket for a glass of soda water.

The New Light Infantry Armory Has Its Formal Opening. The A. A. L. I. formally opened their elegant new armory last night with a brilliant reception and ball. An informal reception was held at 8 p. m. given to Gov. Rich and his staff. Following this was a full inspection and dress parade in which the infants conducted themselves in a most commendable manner. Following this came the first annual presentation of medals. The following members of the company were presented by Gov. Rich with bronze medals for proficiency in drill and regular attendance: Lieut. W. F. Armstrong; Serge: W. C. Cooper, A. C. Pack, F. C. Rent-schler; Corps. Noble Monroe, K. C. Kern, J. Haarer, C. Petrie, F. Huntoon; Privates, R. Gauss, Leo. Gruner, G. W. Kyer, V. Kauffman, G. M. McFarland, S. Stodd, F. Tice, P. Meyer and A. Wilson. The silver medal was awarded to Capt. Ross Granger.

Following was one of the most brilliant balls ever given in this city. The new armory certainly has had a very auspicious opening and the boys may well feel proud of their success in this great undertaking.

Although there are other men in the party who would be glad to accept the nomination and who would make excellent officials, there is certainly no one who is as well qualified in every sense of the word to fill the office so acceptably as is Mr. Lawrence. He is thoroughly competent, considering the matter from a legal standpoint, as he stands in the very front rank of his profession in the county. He is also equally well qualified in respect to his judicial ability. He is dealing with legal matters as any man in the county. Then too, his reputation for sound judgement and fairness is such as to inspire confidence in his opinion, and thus save many a person from carrying into the higher courts matters which he would be called upon to decide should be elected Judge of Probate. This, of itself, is, we believe, a very strong argument in favor of Mr. Lawrence. It is to be hoped that the convention will decide unanimously in favor of Mr. Lawrence. If he is nominated he will be elected by a rousing majority.

THE new men who will take their places as members of the common council this spring are all good men. In the 2nd Ward Mr. Grossman is a keen and careful business man. It goes without saying that he will add strength to that organization. In the 3rd Ward, Dr. Jesse Dell will be the new member. He needs no introduction to Ann Arbor people. The voters in his ward made no mistake when they selected the doctor to represent that portion of the city in the council for the next two years. In the 4th Ward Mr. H. Krapf the Republican nominee, led by but two votes. Mr. Krapf has lived in Ann Arbor all his life and is highly esteemed by those who know him best. He will make an able and efficient official. In the 6th, Major Soule, treas. of the University, received the majority of the votes. It is not necessary to say that he will add weight to the city government by his experience and good judgement. In the 7th Mr. Danforth, who has not resided here as long as some of the others, is, however, thoroughly conversant with the needs of the city and is well able to render the very best of service as a member of the council. Although some excellent men retire from the city's service, the board will be quite as able as its predecessor. We believe that it will make a record of which it will have every reason to be proud.

From the reports in the daily papers it is evident that both parties are making this claim. The fact is that in the large majority of cases, party politics played a far less important part than did matters of local interest.

THE REGISTER has already said, the Republican party in this county could not make a wiser move than to nominate Mr. John F. Lawrence for the office of Judge of Probate. Although there are other men in the party who would be glad to accept the nomination and who would make excellent officials, there is certainly no one who is as well qualified in every sense of the word to fill the office so acceptably as is Mr. Lawrence. He is thoroughly competent, considering the matter from a legal standpoint, as he stands in the very front rank of his profession in the county. He is also equally well qualified in respect to his judicial ability. He is dealing with legal matters as any man in the county. Then too, his reputation for sound judgement and fairness is such as to inspire confidence in his opinion, and thus save many a person from carrying into the higher courts matters which he would be called upon to decide should be elected Judge of Probate. This, of itself, is, we believe, a very strong argument in favor of Mr. Lawrence. It is to be hoped that the convention will decide unanimously in favor of Mr. Lawrence. If he is nominated he will be elected by a rousing majority.

THE new men who will take their places as members of the common council this spring are all good men. In the 2nd Ward Mr. Grossman is a keen and careful business man. It goes without saying that he will add strength to that organization. In the 3rd Ward, Dr. Jesse Dell will be the new member. He needs no introduction to Ann Arbor people. The voters in his ward made no mistake when they selected the doctor to represent that portion of the city in the council for the next two years. In the 4th Ward Mr. H. Krapf the Republican nominee, led by but two votes. Mr. Krapf has lived in Ann Arbor all his life and is highly esteemed by those who know him best. He will make an able and efficient official. In the 6th, Major Soule, treas. of the University, received the majority of the votes. It is not necessary to say that he will add weight to the city government by his experience and good judgement. In the 7th Mr. Danforth, who has not resided here as long as some of the others, is, however, thoroughly conversant with the needs of the city and is well able to render the very best of service as a member of the council. Although some excellent men retire from the city's service, the board will be quite as able as its predecessor. We believe that it will make a record of which it will have every reason to be proud.

An excellent model of the Temple will be shown, also various articles from the Holy Land. It is expected that music appropriate to the subject will be given.

Mrs. J. W. Crippen has been engaged as General Secretary for the remainder of the year.

THE Republicans now have full control of the council with a sufficient number of votes to carry any measure over the mayor's veto if they so desire. As a result the party will be held responsible for all the acts of the council, good or bad.

A regular meeting of the Woman's Christian Temperance Union will be held this afternoon at three o'clock, in the Y. W. C. A. rooms in the P. O. block.

Eleven new members were received at the annual meeting of the W. C. T. U. Each member takes the total abstinence pledge and pays an annual fee of one dollar.

The time of the Loyal Temperance Legion has been changed. Hereafter the meetings will be at three o'clock—instead of two—in the hall over Calkins' drug store on State street. It is hoped every member will be present next Saturday as business of importance will be completed.

Miss Williard lectured March 30, in Buffalo, to immense audiences, receiving most flattering notices in the secular press. She spent Easter Sabbath in New York City, and after a trip to Washington and the Virginias, will sail for England April 22nd, returning in September with Lady Henry Somerset in time for the national convention.

SECOND DISTRICT W. C. T. U. CONVENTION.

The twentieth annual convention of the Woman's Christian Temperance Union of the Second district will be held in this city April 14-16, in the Baptist church. All of the meetings are open to the public. The day sessions of the convention will be principally devoted to business, discussions, brief addresses and reports. Wednesday, April 15, at 4 p. m. will be "Children's Hour," and all of the children of the city are urged to be present. Supt. W. S. Perry will deliver the address.

The first evening will be given to addresses of welcome and responses, and presentation of the six general divisions of the W. C. T. U. Miss Emma Bower will speak upon the Social and Legal departments. The music for the first evening will be in charge of Miss Cole.

The second evening will be "An Evening with Young People." Prof. Kempf, assisted by a quartette, will furnish the music. The following Ann Arbor young people will give five minute addresses:

Mr. B. B. Johnson, General Secretary of Y. M. C. A.; Miss Hattie Crippen, President of Y. W. C. A.; Prof. D. W. Springer, President of Epworth League; Miss Rose Wood-Allen, Sec. W. C. T. U.; "White Shield"; Miss Marian Otis, President of U. of M. Y. W. C. T. U.; Mr. J. Lathers, President U. of M. Prohibition Club; Miss Annah Soule, Political Equality Club; Mr. L. Hubbard, "White Cross"; Miss Anna L. Richards, Leader of L. T. L.; Mr. W. C. Hull, General Secretary of S. C. A. of U. of M.; Miss J. W. White, Woman's League of U. of M.

The last evening of the convention Miss Jessie Ackerman, one of the W. C. T. U. Round the World Missionaries and the foremost woman traveller in the world today, will lecture. Miss Ackerman's adventures have been many and varied, and her description of them is a marvel of word-painting. She has travelled twice around the world in seven years and her remarkable courage and powers of endurance have occasioned her to be described in the fact that on one occasion off the Asiatic pearl coast, she donned a diving suit and went to the bottom of the sea, that she might learn the conditions under which the fishing was performed.

Miss Ackermann will lecture Friday, April 17th at three p. m. in the Baptist church to the women of the city, on the condition of women in different countries.

LIQUID BREAD.

Dr. J. G. Holland said: "I remember once seeing over a public house door in Liverpool: 'Good ale is liquid bread.' I went into the house and said: 'Get me a quart of liquid bread.'" The land lord said: "Ah, first-rate sign, isn't it?"

"Yes," said I, "if its true."

"Oh, it's true enough, my beer is all right."

"Well give me a bottle to take home." He gave me a bottle of this liquid bread. I took it to Dr. Samuelson, an analytical chemist, and I said to him: "I want you to tell me how much bread there is in this bottle." "He smelled it and said: 'It's beer.'"

"No, no," I said, "its liquid bread."

"Well," he said, "if you come again in a week, I'll tell you all about it." He charged me three guineas. In a

week's time I went to know all about the liquid bread. The first thing about it was that there was 93 per. cent of water.

It's liquid, anyhow, "I said, "well pass that. Now let's get on to the bread."

"Alcohol, five per cent."

"What's the alcohol?" I said.

"There's a dictionary, you can hunt it up for yourself." I hunted it up and found alcohol described as a "powerful narcotic poison." "Well," I thought, "this is the queerest description of bread I ever read in my life." Then he gave me a number of small percentages of curious things, which he had carefully, put down on each corner of a piece of white paper, and which amounted to about a quarter of a thimbleful of dirty-looking powder. That was the bread—two per cent.

It is the business of the brewer to get the bread out of it, not to put bread into it. This is the simple scientific truth with regard to beer, and the case is stronger with regard to wine and spirits. There is practically no nourishment in them at all.

The Case Dropped.

There was a great deal of excitement in the circuit court room yesterday, afternoon, when Attorneys T. E. Barkworth and A. J. Sawyer entered in a verbal combat. Mr. Sawyer certainly found his match yesterday and suffered an amazing defeat, which, however, was not his fault, but rather his misfortune in being attorney for the client he was fighting for. The case was T. E. Barkworth and Michael Brenner vs. Samuel Seney et al., foreclosure.

The fact of the case were these: The defendant had mortgaged his farm in Lima to a Mr. Morrison, for \$9,000. The mortgage died about two years ago and the mortgage was sold to T. E. Barkworth and M. Brenner, the plaintiffs, who brought suit for foreclosure. The case came up in court about a week ago and a receipt of \$3,000 signed by the original mortgagee was produced, and which the plaintiffs knew nothing about. The case was then postponed until yesterday.

During the time intervening between a week ago and yesterday, Frank Morrison, the son of the original mortgagee, came to Mr. Barkworth's office at Jackson and said he had something on his mind which he would like to disclose. Mr. Barkworth told him to bring Harvey Seney, who he claimed was implicated, and the matter would be straightened out. Mr. Sawyer accused Mr. Barkworth yesterday of extorting information from the defendant by threats and bluff work. This kindled the wrath of Mr. Barkworth and he proceeded to comb down the defendant's attorney and asked to be sworn and relate his story of how he became aware of the information he had. Mr. Sawyer objected but the court allowed him to be sworn and he related the story substantially as above stated. Also that Frank Morrison told him that the receipt of \$3,000 was a fraud and that he had made it at Harvey Seney's suggestion. The blank receipt he found with his father's signature and he made out the rest of it.

It was admitted in open court that the receipt was a fraud and that the witness had committed perjury. The case was dropped and the deed of the farm was given to the plaintiff.—Times.

The things that people see are inside of them and outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and grandeur that there is in it. Another one will look out at the same scene and see nothing. One will find enjoyment in a brilliant company, in music, in dancing, in an exquisitely prepared dinner. Another will enjoy these things half as much—another not at all. The things that people see are inside them. What one enjoys depends upon the capacity for enjoyment—depends upon the health and the vitality. The sick man has pain or discomfort so impressed upon him that he has no time to think of much else. A weak man has all he can do to struggle for mere existence. He has no strength to use in procuring pleasure. His performances are limited by his strength. He can do only a few things so he can enjoy only a few things. The man who is perfectly well and vigorous enjoys life to the full. The bed-ridden invalid enjoys it not at all. The man who is half sick and half well gets out of life about half what he ought to. Dr. Pierce's Golden Medical Discovery makes people well. It doesn't do it in a miraculous way. It is the most natural thing in the world. It simply puts the digestive organs, food, and thereby makes the blood pure and rich. It doesn't have to do anything else. Nature does all the rest. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it. That's the discovery. Dr. Pierce's Golden Medical Discovery makes pure, rich blood—makes men and women strong and healthy; brings good appetite, good digestion and builds up solid, healthy flesh.

Export of horses increasing.
The export of horses from this country to Europe has increased largely in the last two or three years. During the first eight months of last year 222,755 horses, valued at \$2,947,000, were shipped to British ports, as against 15,614 in the same period of 1894, and 10,177 in 1893. The shipments to continental ports show a large increase, too. The variety of horses in demand are different in almost every country in Europe. Despite the astonishing fall in the value of range horses in the west, horse breeders in the south and east think the future is very promising.

Nervous

People often wonder why their nerves are so weak; why they get tired so easily; why they start at every slight but sudden sound; why they do not sleep naturally; why they have frequent headaches, indigestion and nervous

Dyspepsia

The explanation is simple. It is found in that impure blood which is continually feeding the nerves upon refuse instead of the elements of strength and vigor. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich, red blood; gives natural sleep, perfect digestion; is the true remedy for all nervous troubles.

Appropriations for Rivers and Harbors

In addition to the \$500,000 appropriated by congress in the sundry civil appropriation bill, for the 20-foot channel through the Great Lakes and connections, a large portion of which sum will be spent in Michigan, the river and harbor bill, as presented to the house, appropriates a total of \$3,450 to be spent in the state, the amount being divided as follows: Grand river, \$50,000; Charlevoix, \$20,000; Frankfort, \$15,000; Grand Haven, \$20,000; Grand Marais, \$24,000; Manistee, \$12,000; Holland and Black Lake, \$8,000; Monroe, \$5,000; Muskegon, \$30,000; Ontonagon, \$10,000; Pentwater, \$5,000; Sand Beach, \$18,000; Portage Lake, \$25,000; Benton Harbor and St. Joseph, \$30,000; South Haven, \$15,000; with a survey for a 10-foot project; White Lake, \$5,000; Marquette, \$24,000; for harbor of refuge at Presque Isle near Marquette, \$20,000; Ludington, \$2,000; Petoskey, \$8,000; Saugatuck, \$10,000; Menominee, \$7,150; Cheboygan, \$12,000; Alpena, \$25,000; Sebawaing, \$5,000; Belle river, \$5,000.

Big Shortage in Alpena County's Cash.

Expert Accountant Dresser, of Detroit, who has been examining the county books at Alpena reports a shortage of \$8,682.60 in the accounts of ex-County Treasurer Fred Perkins. Some errors and irregularities were also found in the accounts of Treasurer Rayburn and Clerk Simmons, but these were due to bungling bookkeeping. The books are in bad shape, and an entire change is recommended. The debt of Alpena county to the state is \$30,000.

Mystery at Port Huron.

City Controller Hiram A. Waite, of Port Huron, drew \$580 from the bank to make out the pay roll of the various city officials, but suddenly and mysteriously disappeared. An investigation shows his books to be all right and the prevailing opinion is that he has been killed and his body thrown into the river which is supported by the fact that he did not purchase a ticket at any of the railroad offices, and that he had not been seen at any of the depots, ferries or livery barns.

Three business buildings, occupied by Freeland, dry goods; Gust, saloon, and Rice & Co., drugs, and the Commercial hotel barns burned at Oxford with a total loss of nearly \$10,000.

The sixth annual meeting of the Michigan conference association of the Woman's Foreign Missionary society of the M. E. church was held at Jackson with 200 delegates in attendance. Rev. E. C. Tullar represented the six M. E. churches of the city in extending a cordial welcome and Mrs. A. J. Munro welcomed the delegates for the missionary societies. The response was made by Mrs. F. C. Thompson, of Lansing. The receipts of the whole conference were \$8,368.

Carrie Deruiter, a domestic in the home of F. G. Austin, of Kalamazoo, fell down stairs with a lighted lamp in her hands and was fatally burned.

ATTENTION, CANVASSERS!

Do you want an agency for the best selling and BIGGEST LITTLE THING on the market today. Something new that isn't a humbug. A mullage and cement combined. No bottle brush or corkscrew. Not a luxury but a POSITIVE NECESSITY in every household, business office, student or traveling man's pocket. Adapts itself to all classes—the cheapest and strongest—sells on its own merits—takes but a moment to convince any one that it will do the work. No spilling, no mess, no evaporating or drying down, no freezing. All liquid cement soon becomes worthless after being exposed to the air. This is just as good in ten years. Can be carried in the vest pocket. Pays a handsome profit. Agents wanted every where. Send at once for circulars and price list and state what territory you wish to work. Address:

NEWS FROM THE QUARTERS

BRITISH BY R. LAYTON.

England Joins Spain Against U.S. in Order to Control the Mediterranean—Ex-President Harrison Welcomed to His Late Wife's Niece at N. W. York.

England Allied with Spain.

A dispatch from London says: "The positive statement comes from a leading financier that England has concluded a treaty of alliance with Spain and within ten days Europe will be started by the official announcement of this fact. This statement is now given with the reserve which its international importance warrants, pointing out only that the sensitive money interests are often better informed on such matters than is any other part of the community except the highest official authority. Such a treaty would have a vastly important bearing upon the continental situation. It would have a commensurately important bearing upon the Cuban question in the United States. The Salisbury ministry is disposed to do anything it can with safety and in reason to check the pretensions of the American government to interfere in either West Indian or South American affairs.

The treaty will include giving to Great Britain the right to harbor and refit her fleets in the Mediterranean ports of Spain. The Soudan expedition in behalf of Italy and England's open sympathy with the triple alliance having won the hostility of France and Russia, the importance of such an alliance to Great Britain is readily seen. Neither Gibraltar nor Malta—England's only two ports on the Mediterranean—is capable of either harboring or refitting a fleet, but with both the Italian and Spanish ports thrown open to the British navy, the French fleet at Toulon would be at England's mercy and Russia could hardly make a junction from the Black sea with the ships of her French ally. Such are the apparent reasons why Great Britain should wish to make such an alliance as above indicated. It would, moreover, leave her in possession of Gibraltar.

Ex-President Harrison Married.

The marriage of Mrs. Mary Lord Dimmick to Gen. Benjamin Harrison was solemnized at St. Thomas church, New York City. Dr. Wesley Brown, preacher, officiated at the ceremony. The marriage, which took place in the presence of 20 relatives and select friends of the bride and groom, was a very private affair. After a brief but pretty ceremony and a light dinner at the house of Mr. and Mrs. Pinchot the couple took a private car for Indianapolis.

Mrs. Dimmick's wedding gown, was of pearl gros grain and silk. The skirt was plain, with a short train falling from the waist in full, soft folds. A Louis XVI. coat, opening in front over a full vest of white chiffon, with broad revers, draped with rare old Honiton lace, half a yard in width, extending down each side of the front and draped over the hips, forming a coat effect. The sleeves were long and full, tapering to the arm below the elbow and ending in a fall of lace at the wrist. Around the neck there was a plush collar of palest blue velvet, over which was entwined a robe of magnificent pearls fastened with a diamond clasp, the gift of the bridegroom. She carried a large bouquet of lilies of the valley. The bonnet worn by the bride was composed of lace and blue velvet, with a white aigrette held in place by jewel pins.

The groom wore a well-made Prince Albert coat, closely buttoned, with trousers of dark gray. White gloves and a white silk four-buttoned the completion of the bridegroom's attire. He wore a boutonniere of lilies of the valley. Mrs. Harrison, who is a small but very graceful woman, rather dark complexion and of a very bright and attractive appearance, is related to Gen. Harrison through his late wife who was her aunt. She was born in Pennsylvania, a wealthy Pennsylvania family, who died within a few months after their marriage. She spent considerable time at the White House during Gen. Harrison's administration and was a great favorite with her aunt, the late Mrs. Harrison.

Over a Score Drowned by Floods.

A cloudburst laid waste a strip of country about five miles wide along Little Sexton creek, Buffalo river, and the south fork in the Kentucky river in Owsley and Clay counties, Ky. The residence of Wade Marders, on Little Sexton creek, was washed down and his wife and little girl drowned.

Later—the cloudburst on Little Sexton and Buffalo creeks was very disastrous, doing more damage than at first reported. There were probably 14 drowned. The scene was a terrible one; the swollen and angry streams bore upon their turbulent bosoms wreckage of all kinds. Occasionally a struggling form would be seen for an instant, when, with waving arms it would be caught and whirled beneath the current in ditches, barns, fences, stock and logs, all went madly down, tumbling over and grinding against each other as they were dashed about by the angry waters.

Charlie Holt and child and John Jenkins and two children were drowned in a swollen stream in Russell county, Va. Easter and Allie Anderson and their three children, together with two horses, were drowned by the freshet in Powell's river, near Middlesboro, Ky., and there was great loss of property and stock. The rains have swollen all the mountain streams in the neighborhood of Williamsburg, Ky., and \$100,000 worth of property was swept away.

Ten Persons Burned to Death.

Ten persons lost their lives in a fire at 35 Union street, Brooklyn. The building was a four-story tenement house, occupied by Italians. All met their death by suffocation. The bodies of some of them were badly burned. The cause of the fire, which originated in the hallway of the first floor, is unknown. The pecuniary loss is about \$4,000.

Edward Fielding, brigadier-general in command of the northwest division of the Salvation Army, and with the exception of Commissioner Booth-Pucker, the most prominent officer in the forces in America, has resigned his commission and will join the ranks of Ballington Booth's American Volunteers. The majority of his staff officers go with him and the blow is conceded to be the most severe which has been suffered by the Salvation Army since the dismissal of Commander and Mrs. Ballington Booth.

Dispatches from Massowah say that the British have checked and gun a force of the Italian at Kasseh.

POOR INDEED!

There are degrees and kinds of poverty, just as there are differences of opinion among those who compute and measure poverty and riches by different standards. Some men deem themselves poor because they are less rich than others, again there are comparatively poor people who are satisfied with a competence. There is a kind of poverty for which no amount of wealth can compensate, namely, a poverty of bodily stamina, evinced by nervousness and a derangement of the functions of digestion, biliousness and the bowels. To restore vigor upon a permanent basis there is one remedy that fully covers the requirements, "fills the bill," and this is Hostetter's Stomach Bitters. By restoring the action, giving a health impulse to the action of the bowels and liver and tranquilizing the nerves, it fulfills the condition necessary to a resumption of strength by the system. It also overcomes malaria and rheumatism.

IT DID NOT WORK.

A rich farmer in Michigan is down on the national administration, and he has let a large flock of his sheep perish from exposure and want of food to prove it. He was arrested by agents of the Society for Prevention of Cruelty to Animals, and pleaded in his own defense "the Democratic administration has so depreciated the value of wool and sheep that it is cheaper to let the animals die than to provide for them." The court would not listen to the political side of the case and fined the farmer \$50.

MARVELOUS CURES.

In a Portland hotel the other evening the conversation turned to the subject of faith cures, magnetic healing and the laying on of hands. One gentleman related his experience at the famous shrine of St. Anne de Beupre, near Quebec. He vividly pictured the great army of crutches, splints, bandages and the like that were cast aside by the afflicted after experiencing the marvelous cures. "Why, gentlemen," said the narrator, "the blind were made to see, the halt were healed, and the paralytic threw away his wooden support." "I don't doubt it," said a gentleman present. "I was in Canada a few years ago and witnessed the cures made by a magnetic and faith physician there. Why, the main hall of this place was filled with humps that he prayed off the backs of hunchbacks. Each hump was labeled with the owner's residence and date."—Portland Advertiser.

Lost Grandeur of the East.

A comparison between the annual revenues of the Byzantine empire in the beginning of the thirteenth century and the present revenues of the empire of the Ottoman Turks brings before the mind's eye a picture of the lost grandeur and wealth of provinces over which now broods the silence of desolation. At the period mentioned the dominions of the Greek emperors at Constantinople had been impoverished by the invasion of the Frank Crusaders, and the chief part of Asia Minor, with its flourishing cities, had been wrested from the Byzantine monarchs by conquering Islam; yet the annual income of the successors of Constantinople amounted to \$650,000,000. The revenues of the Sultan's empire have shrunk to \$90,000,000 per year. Such is the blight which Turkish misrule has brought upon some of the fairest regions of the earth.—Philadelphia Record.

No Chinese in Leadville.

There are no Chinese in Leadville the atmosphere is too rare for them, and in other days when a Celestial would stray into the camp something or some one soon told him to get out again, and he quickly obeyed the still, small voice. Some years since a resident of the camp brought in a Chinese cook. Within an hour the cook and his employer were waited upon by a committee of public-spirited citizens full of information as to railroad time tables and the hour for the departure of the next train. The employer was careless as to train time, and so announced. "Very well," replied the committee; "we will leave the time-table with you and will be at the station to see your friend off, to speed the parting guest, so to speak. If he is not there on time it will probably be necessary to hang him in the rope you will have no one to blame but yourself." And then the committeemen went placidly away to their respective gold and silver propositions.

At 3 p. m. the Chinaman and the afternoon train departed from the camp in each other's company. That was quite a good while ago, but never a Chinaman has since been here.—Louisville Courier-Journal.

Tunnels Are Cheaper.

There has been a very marked decrease in the cost of tunneling of late years. The Railway Review, commenting on this fact, ascribes it to the great improvement that has been made in rock-excavating tools and in general mechanical methods. According to the same journal the Hoosac tunnel cost \$279 per foot, the Mont Cenis, the next in date, \$356 per foot, the St. Gothard \$229 per foot and the Arlberg \$154 per foot. The tunnel on the line of the Northern Pacific railroad through the Cascade mountains, 8,950 feet long, was bored at the rate of 413 feet a month at a cost for the complete tunnel of \$118 per foot.

WARDROBE OF A BALLET GIRL.

Its Cost Is Small, but When the Beauty of It Is Considered It Is Cheap.

A ballet girl's outfit at the Metropolitan opera house costs an even \$11, says the New York World. Of this \$8 goes for a pair of silk tights, \$2 for a pair of ballet slippers, and \$1 for enough tulle to make a practice skirt. At rehearsals she may wear any old bodice that suits her, and such costumes as are required for a performance are furnished by the management.

The ballet slippers may be had of either of two local manufacturers or may be imported. A fairly good pair will last about three months. The soles will hold out that long, but the uppers are covered and recovered a number of times. The covering is always of white or pink satin. By the time the soles are worn out the slippers have been covered probably six or seven times.

These slippers can be bought in London for about 50 cents a pair. Most English girls who come here to dance bring a supply with them. One enterprising miss now dancing has her slippers sent to her by mail, wrapped up in a bundle of newspapers.

The tights found by the girls are pink or flesh-color. If the opera call for any other color the management furnishes them.

The practice skirts are used only at the daily rehearsals.

In construction they are simple. A piece of from twelve to fifteen yards of tartan is made into two skirts, one over the other. They are simply gathered in a yoke and scalloped at the edge. There is nothing showy about them. They are meant for hard work and are very business-like looking affairs. A practice skirt will last about four months.

It is said that a large majority of traveling men are addicted to the use of profanity, the cause of which is largely attributed to missing trains, and consequent loss of time. The Rand-McNolly Railway Guide is recommended as a sure cure.

Business Like.

The beggars of Paris are an enterprising body and treat their occupation, if so it may be called, with amusing seriousness. They have a regular directory of benefactors in two editions—a large and small one. These books give the names of persons known to be benevolent, also their religion and political faith; also the hour at which they may be found at home, etc. The "religious racket" is very remunerative, it seems. An old ragpicker at Clichy lately confessed that last winter her child was baptized twelve times in protestant churches and ten times in Catholic ones; each time the mother received one franc and a new dress. When epidemics are raging the beggar asks for contributions on the plea that his or her offspring is down with diphtheria, croup, etc., and many people quickly respond in order to get rid of what they believe to be a very dangerous class of people.

Will the only remedy in the world that will at once stop itchy skin of the skin in any part of the body, that is absolutely safe and never failing, is Doan's Ointment. Get it from your dealer.

A WONDERFUL ESCAPE.

Related by a Keeper of the Michigan State Prison at Jackson

(From the Jackson Citizen.)

Mr. A. E. Wing resides at 612 N. Jackson Street, Jackson, Mich. He is a keeper in the Michigan State Prison, a man of sterling integrity, and whose word is beyond dispute. He tells the following story of a wonderful escape, and the incidents connected with the dangerous position in which he was placed. He says, some months ago my attention was attracted by a swelling of my groin, which began to increase in size to such an extent that I was alarmed. It spread down my legs to my feet, and I was bloated from my waist down, so badly that I could not pull my pants, over my legs, and I had to open my shoes fully two inches before I could get them on. Even my face became puffed up; and my whole system seemed affected. I could hardly drag myself upstairs to unlock my men. I consulted a physician, one of the best in the city. He said the swelling was caused by an irritation of the kidneys, and I commenced treatment with him. But I seemed to be getting worse. I was strongly urged by a friend to try Doan's Kidney Pills, and I finally consented. After the first week I commenced to see a change, and felt much better. This was encouraging, and I continued their use. I took five boxes in all, with the happy result that I was completely cured. I have never heard of any medicine which had such a pronounced and radical effect, and yet not affect the system generally and leave it in such a good condition. I feel better now than I ever did. After the effect was once established the swelling gradually disappeared until it was entirely gone. I regard Doan's Kidney Pills as a most wonderful agent in the curing of any form of kidney disorder.

New and Mineral.

The news has reached this city of a peculiar kind of mineral called apyrite. It is about 93 per cent silica and is consequently very hard to work. It is being worked, however, in Bavaria. It is said that when mixed with water it forms a plastic, sticky mass, which, when dried, becomes firm and resisting, while its volume does not change when exposed to the air; further, melted metals and scoria do not cling to it, and so apyrite has been found useful for lining furnaces. In the neighborhood of the mines apyrite tempered with water is used instead of lime water and also for plastering. It has in some places superseded fire-brick lining, as in the case of various furnaces. The cupola of a large foundry can be thus lined in a day by two men and it is said that such a lining lasts longer than one of the same material made up into bricks. The substance has been proved useful for repairs to the firework lining of furnaces.—Pittsburg Dispatch.

Spring Requires

That the impurities which have accumulated in your blood during the winter shall be promptly and thoroughly expelled if good health is expected. When the warmer weather comes these impurities are liable to manifest themselves in various ways and often lead to serious illness. Unless the blood is rich and pure that tired feeling will afflict you, your appetite will fail and you will find yourself "all run down." Hood's Sarsaparilla tones and strengthens the system, drives out all impurities and makes pure, rich, healthy blood. Hood's Sarsaparilla is the one true blood purifier and the best spring medicine. Be sure to get Hood's.

Where Tea Is Not Popular.

If you call for tea at a restaurant in Caracas, the proprietor will send to the nearest drug store for it, and express a regret that you are ill. The native Venezuelan regards tea as a most unpleasant beverage, and to be used only medicinally. It is not kept in any of the hotels and when it is especially ordered the quality is simply abominable—for it the world like a dose of senna.

Result: Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations had failed.

THE NERVE SYSTEM

Is the most delicate and important structure in the human body.

Its seat of our intellects. Strengthens and restores the nerves and disease has lost its most powerful and pernicious ally.

Mayon's Spinal, Blood and Nerve Remedy is prepared especially for the Nerves.

Instantly relieves and permanently cures torturing pains in the head, body or limbs, SLEEPLESSNESS, NERVOUSNESS, LOSS OF NERVE POWER, DIZZINESS, CONFUSION OF THE MIND, etc. Delay is dangerous. Send for valuable treatise.

Mrs. M. Quilman, No. 2329 W. Walnut Street, Louisville, Ky., writes: I think God must have sent your remedy to me. I was bed-ridden with a complication of diseases which finally resulted in complete nerve exhaustion and severe sinking spells, when I first commenced using it. I began improving at once, have used 10 bottles and am now assisting in the care of my home, something I have not done for years. It certainly has helped me when everything else failed.

Our agent at Ing'le's, Ind. says: A young man who had been down for three winter last fall that he made his bed in a wagon and brought him to me. He was not able to raise up. After using 3 bottles of your Remedy he is all right again and says, he feels as if he had never been bothered with Rheumatism as he had.

DRESSMAKERS TO THE WORLD.

There are 65,000 of them in the French Capital.

Paris is the city where the dress-making trade flourishes as it does in no other spot in the world. In 1850 the number of couturiers, as given in the "Annuaire du Commerce," the commercial directory of those days, was only 158. There were besides sixty-seven shops for the sale of ready made feminine apparel, but there were none, as there are to-day, which sold lingerie or certain articles exclusively. In the "Bottin" (as the Paris directory is familiarly known) of 1895 there are 1,636 couturieres and 296 commercial houses for the sale of ready-made garments, besides many establishments which manufacture and sell "jupons de dessous" or under petticoats alone. The number of working dressmakers in Paris is estimated at 65,000. In all France, according to M. Georges Michel, the industry of manufacturing the various articles of woman's dress is in the hands of 81,400 male and 143,648 female owners of shops or factories. These furnish employment to 700,801 persons, of whom over 500,000 are women. In addition to these there are 925,855 persons who make their living from industries which are tributary to that of the manufacture of feminine apparel. The total value of the product of this labor from so many hands is estimated at \$50,000,000.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free - sold by Druggists, 75c.

Peter the Great.

Peter the Great of Russia had the typical face of a Russian peasant. A short, thick nose, with large nostrils, heavy brows, full, sensual lips, wide mouth, and high cheek bones were among his most prominent features. His head was almost round.

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat sometimes producing inveterate bronchitis, which has been the exciting cause of pulmonary diseases. The brilliant results by its use for years will properly designate E.Y.'s Cream Balm as by far the best and only cure.

The friends of any gentleman who cherishes an honorable ambition to be the republican nominee for the presidency next year cannot possibly do him a greater disservice than to get his name mixed up in the public mind this winter with a programme of tariff agitation sure to be futile and sure to hurt business.—Hartford Courant.

Baritone and Tenor.

Recent experiments on the continent of Europe have demonstrated the possibility of a baritone becoming a tenor, by the simple action of inhalations upon the vocal chords. In the case reported the baritone went through a course of inhalations, beginning with benzoin, going to caffeine and chloroform, and ending with curacao. On the other hand, it is said, the voice is deepened by inhalations of volatilized Norwegian tar.

MERITED REWARD.

SALES OF LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Unequaled in the History of Medicine. Honesty, Excellence, Faithfulness Filly Rewarded.

[SPECIAL TO OUR LADY READERS.]

From Maine to California, from the Gulf to the St. Lawrence, come the glad tidings of woman's suffering relieved by it; and thousands upon thousands of letters are pouring in from grateful women, saying that it WILL and does positively cure those painful

Ailments of Women.

It will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Backache.

It has cured more cases of leucorrhoea by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and breaks up tumors of the uterus in an early stage of development, and checks any tendency to cancerous humors.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache. Mrs. Pinkham's Sanative Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All druggists sell the Pinkham's remedies. The Vegetable Compound in three forms, — Liquid, Pills, and Lozenges.

Some hopeful speculators who have been counting unatched chickens are about to start a poultry ranch near San Francisco which is to be the largest in the world. It is to reach its full capacity in three years, when it is to put on the market annually two million eggs and ninety thousand chickens for broiling. The plant will include two incubators, with a capacity of 2,000 eggs each, and no end of houses and pens, which will be contained in a forty-acre ranch. There will be nine hundred hens laying for the incubators and ten thousand laying for the market.

Oh, my poor head, sighs many a weary mother, many a tired husband, many an overworked child,—and relief seems far away. The severity and frequency of headache in many instances leads the sufferer to despair of ever obtaining freedom from the painful affliction. Remedy after remedy is tried in vain, for still the malady "sticketh closer than a brother." There is, however, a specific for her "ache and neuralgia." It is Gessler's Magic Headache Wafers. Chronic headaches yield to them. Sold by A. E. Mummary.

Market Prices in Alaska.

Gold may be plentiful in the Alaskan fields, but it takes a good deal of it to buy what in most places are considered common luxuries if not necessities. Whisky costs 50 cents a drink, measured out by the vendor, too, in Circle City, and a gallon of it costs \$20 or more. Beer hot from the vat costs 25 cents a drink and is scarce at that. Usually it is to be had only on festive occasions, at dances and the like. Then brewing kettles are kept going on the cook stoves, the beer is set aside a few moments to cool a little and then it is passed steaming over the bar at 25 cents a drink. A brewery is now being built at Circle City.—Exchange.

Physicians recommend Dr. Wood's Norway Pine Syrup because of its prompt, positive action in all cases of lung trouble. It is a positively reliable cure for coughs and colds.

The Pyromaniac's case.

Fire Marshal Whitcomb has been pretty busy taking testimony in regard to fires lately, and while speaking about examining witnesses the other day he mentioned several curious things he had noticed. He says that in every case where he has discovered a pyromaniac he has had his suspicions of the person's guilt aroused by a peculiar smile which plays around the mouth of the guilty one when under examination. It is hardly a smile, rather a peculiar puckering of the corners of the mouth, an expression almost indefinable, but it seems to mean, "Well, I'm too smart for you to catch me, anyhow." The marshal says he can recall a dozen cases where he noticed this smile and at the time had no other cause to suspect a witness, yet by following these smiling ones he has obtained the most convincing testimony of their guilt and almost invariably confession from the guilty ones themselves.—Boston Transcript.

MOORE'S CHECKED HAT.

Reverberated through the City Hall Until Rung In.

Assistant Dispensary Physician Newcomb's trousers are no longer an issue. They have been utterly overtopped, extinguished, rendered de trop and set aside, considered in the light of a freak, by Dr. R. L. Moore's hat. Dr. Moore was a former vaccine physician to the health department until he got a better job feeding pills to the men at the government works. Every time he comes to town he calls in to see his old friends at the city hall. They have not recovered from a recent visit. He wore his new dude hat and it made itself heard all over the building. The noise of the Newcomb trousers was reduced to a gentle murmur, even as the sounds of a percussion cap might be overwhelmed by the discharge of a twenty-four-pounder.

There has never been anything like that hat seen hereabouts. It is shaped like a derby, something, the crown being constructed of a wire frame, covered with cloth. The cloth part is what caused all the trouble. It was of a large-check pattern—red, black and gray. Boys followed the hat around town in unrestrained admiration, horse men took fright and even a bicycle bucked at it. Dr. Jordan is an old friend of Dr. Moore's and for his own good he took it on himself to talk seriously to him. The owner of the hat was amenable to reason and he told Jordan he could do what he pleased with the hat. Dr. Jordan saw where it could be made really useful, as well as ornamental, to say nothing of its preservation as a curio. He stripped off the cloth and had it mounted for use as a checker board.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving woman-kind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Doctor Pierce's Common Sense Medical Advisor, which contains plain, clear information about all of the organs of the human body and their functions.

Gov. Morrill on Prohibition.

Governor Morrill of Kansas says he has come to the conclusion that prohibition is not the best system for making people temperate, and he does not think that prohibition ever will prohibit. But he is not opposed to prohibition. He says it has done a great work for temperance in Kansas, but it doesn't prohibit. He thinks State control of the liquor traffic would settle the problem and abolish the saloon. So long as people want liquor they will get it in some way, he says, and he believes the temperance people could accomplish more by moral suasion and co-operation with the State than through prohibition.

Catarrh of Long Standing.

will be cured by the use of Mayers' Catarrh Cure.

Catarrh may be well called a great scourge in this country, rarely every person has it in a greater or less degree. Mayers' Magnetic Catarrh Cure, if used promptly will cure this terrible disease. No cure no pay.

For a cold in the head accompanied by frontal headache, can be cured by one or two applications. Remember one bottle lasts 3 months and is guaranteed to cure or money refunded by agents.

Read what a one time sufferer from catarrh has to say of our marvelous cure:

Oakland, Md., March 24, 1893.

The Mayers Drug Co., Oakland, Md., Gentlemen:—I have been a sufferer from catarrh for years and was recommended to use a bottle of Mayers' Magnetic Catarrh Cure and in less than six weeks I was completely cured, and deem it one of the best medicines on the market and recommend its method of treatment to any sufferer from the awful melody.

Respectfully,
Percy H. Veitch.
Attorney at Law.

A SPRING MEDICINE.

A Sure Restorative for Blood and Nerve—Dr. Hartman's Private Prescription.

Of course you will have to take something for your blood this spring. It is a foolish risk to do otherwise. Maybe you are subject to chronic catarrh during the winter, which has run you down. Perhaps you have had a gripped from which you have never fully recovered. Your blood may be out of order, or possibly you are bilious or constipated, nervous or dull, sleepless or languid, restless or tired. At any rate, whatever may be your condition, you ought to, and probably will, take some spring medicine; something to invigorate, something to cleanse, something to strengthen.

Mrs. Lena L. Stoll, Adrain, Mich., writes as follows: "It affords me much pleasure to testify to the merits of your Pe-ru-na. I can speak in the highest terms of it, having used it for five years as a spring medicine, with great benefit to myself; and I recommend it to my friends with like results."

Any who wish may get a spring book free of charge by writing to The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio; also a book on chronic catarrhal diseases.

VIOLA CREAM

A lovely complexion only Nature can give. She gives a new, clear and soft one to those who use Dr. Hebra's Viola Cream. It is not a paint or powder to cover defects. It gets rid of them, by Nature's own process of renewing the vitality of the skin; banishing all roughness, redness, freckles, moles, pimples, blackheads, sunburn and tan. It does this surely and harmlessly, because naturally. Its use means both skin-beauty and skin-health. Viola Skin-Soap hastens the process, because it is a pure and delicate soap. It should be used in connection with the Cream. It should be used in the morning, too. Ordinary soaps are not fit for a lady's skin. Viola Cream, 50 cents. Viola Skin-Soap, 25 cents.  Tom Hannum Stood on Ceremony and Was "Not at Home."
 The death of Tom Hannum, one time a well-known habitue of the press galleries on both sides of the capitol, was sincerely deplored among old-time members yesterday and some amusing anecdotes were told of the popular newspaper man by his friends in the course of the day, says the Washington post. One of the best is worth repeating.
 Hannum was in the habit of taking a late breakfast at the Press Club every morning. On one occasion, while he was vigorously discussing a hearty repast of ham and eggs, a bill collector suddenly walked up to Hannum's side and laid his account before him. Hannum looked at the bill and then at the collector and in a deliberate tone began:
 "You blamed fool, can't you observe the amenities of ordinary civilized society? Don't you know that a man's club is like his home and that you are in danger of being summarily ejected for coming in here without being introduced? The rules of this club require that if you have business with a member to wait in the lobby outside until a waiter takes in your card and ascertains whether the gentleman with whom you have business is present. Now, you go into the lobby—take this bill with you—and comply with the rules of this club."

The collector apologized for the infraction of the rules of the Press Club, which, to tell the truth, were never enforced on anything, and waited until the steward came to ascertain his wishes.
 "Please announce me to Mr. Hannum," said the collector.
 The steward told him to wait and he carried the man's card to Hannum, who looked at it carefully, then handed it back to the steward and said: "Not at home."

Some Owosso factories in Trouble.
 When the Ann Arbor road was built Owosso gave the company several acres of valuable land, some of which was used as sites for shops and the remainder was released by the company to various institutions, one condition of the lease being that the firms should do a certain amount of shipping over the Ann Arbor line each month. The conditions in some of these contracts have not been fulfilled, and the consequence the Owosso Electric Co., the Owosso Lumber & Fuel Co., and the general produce firm of Aiken & Whelan have all been notified to vacate at once. The Owosso Electric Co. have an expensive plant.

The Natural Highway.
 The Grand Trunk Railroad with its numerous lines and connections via Port Huron and Detroit; its through vestibuled trains to New York and intermediate points including Toronto, Montreal and Dominion of Canada; also its lines to Boston both via Niagara Falls and Montreal; its noted fishing, hunting and pleasure resorts at Muskoka lakes and Georgian bay; its St. Lawrence river, Montreal, Quebec and eastern sea-coast tours—make it the most convenient and popular line for those wishing to visit these several points on business, or make up an elegant tour for the coming summer. For any particulars apply to D. S. Wagstaff, District Passenger Agent, Detroit, Mich., or to N. J. Power, General Passenger Agent, Montreal, P. Q.

If strength is what you want, you should study what causes your weakness.
 It is practically lack of food.
 But you eat three meals a day, and all you can eat at a time.
 Yes, but do you digest it?
 Food undigested, is not food. It is not nourishment.
 It doesn't create strength.
 To digest your food take Shaker Digestive Cordial at meals. After a while you will digest your food without it. Then you will get well, and strong and healthy.
 Shaker Digestive Cordial cures indigestion and all its symptoms, such as nausea, headache, eructations, pain in the stomach, giddiness, loss of appetite, etc. It makes you food nourish you, and you strong and fat and hearty.
 Druggists sell it. Trial bottle 10 cts.

Defiance of Law.
 We, in the north, are horrified at the lynching in the south in defiance of law, but it is time we were horrified at the defiance of law by the liquor traffic all over the land.—Rev. J. W. Conley, Baptist, St. Paul, Minn.

Ponder Over It.
 A prominent building owner, with years of experience, gave the following instructions to his architects: "I have had my experience with kalsomines and other goods claimed to be just as good as Alabastine. I want you to specify Alabastine on all my walls; do not put on any other manufacturers' dope, if they furnish it for nothing. Alabastine is right, and when I cease to use it I shall cease to have confidence in myself or my own judgment."

Paderewski and the Banjo.
 The other day, when Paderewski was dining at a hotel, a fine nickel plated banjo was sent in by a banjo player, with the request that the great piano player should write a short musical sentiment on the sheepskin head. Paderewski complied with the request, and this is the sentiment to which he attached his signature: "I have not the pleasure of being a performer on this beautiful instrument; am only a piano player." Now the banjo player is asking his friends if the virtuoso was "jolly-ing" him.

The Marriageable Age.
 In many ways the girls of 18 are more fit to marry than they were in our grandmother's time, and yet observation tells us without question that the age at which girls marry now is advanced by several years beyond that of one hundred years ago.
 The early marriages of the past have been of no benefit to the present race, and we are showing wisdom in our generation in setting the clock of time back a few years.

For one thing only are early marriages desirable, and even this result does not always accrue by any means. We mean the possibility of the couple growing more closely together in tastes and fancies if these are matured after marriage.
 It is not considered desirable that the woman should be the elder of the parties to the contract. But even this objection is being lessened as years go by, for the woman of 40 is no older than the woman of 25 was 50 years ago. Nevertheless it is well that there should be the advantage of age on the husband's side. If a man does not marry until after he is 35 it is better that there should be a decided disparity of age between them, as he will be so set in his ways that the wife will be obliged to yield deference to his wishes at every point. A woman who is also set in her ways will not be likely to do this. When there is a very great disparity in the ages, as is seen quite frequently, the wonder is that the young girls can be party to such contracts, though it is very wise for the man when he at 60 marries a girl of 20. A woman of suitable age wouldn't put up with his almost certain crankiness.—Philadelphia Call.

Did a Misspelled Word Cause War?
 An ingenious explanation of the action of Dr. Jameson is given by the London correspondent of the Birmingham Gazette. According to this Jameson with his men, were waiting for some word from Johannesburg. It came in a telegram worded thus: "Revolution carried, in compliance with your desire." That was the telegram received. The telegram actually sent from the Johannesburg committee was: "Resolution carried in compliance with your desire." That "v" instead of "s" made all the difference. Jameson made his plunge into the enemy's country, expecting to find the settlers in arms waiting for his coming. Instead he found only great masses of armed Boers barring his way. The Boers were fully prepared and expected his coming. This raises the curious suggestion, had they anything to do with altering the telegram? Was it a trap for the English raiders to draw them on in order to justify the quaint vulgarism of Kruger that when the tortoise put out its head they would cut it off.

FIGHTS HIS RESCUER.
 After Being Shut Up for Five Days a Cat Becomes Ferocious and is Killed.
 The family of Jacob Draudt, a grocer at Jackson and Madison streets, has been in a state of mind because of strange sounds, like the wall of a catamount, which have been issuing from their cellar for the last two or three days, says the Courier-Journal. The family was considerably inconvenienced, as well as intimidated. The case was laid before a police officer, who listened attentively to the sounds that came from within the cellar. They came from a part of the cellar which could only be reached through a narrow opening in the sidewalk; the man who went after him took his life in his hands. Officer Prather considered it his duty as a duly sworn officer to keep the public peace to go in after the disturber; so, armed with a hatchet, he began to grop his way through the narrow, dark opening. He had been gone but a few seconds when a wild scream came out of the pavement. Following this was a yell of pain from the scene. The crowd attracted to the opening was thrown into spasms. Some were for sending for a rescuing party, but all appeared to be more disposed to stand by and listen. Then a yell of triumph from the dark recesses reassured the group and two or three tried bravely to crowd into the opening. Following this appeared the form of a black cat, spitting and clawing, but clutched firmly in a bleeding hand belonging to Officer Prather, whose smutty and scratched face was not long in showing out of the darkness. The black cat was the property of Mr. Draudt. It had been in the cellar for five days without food or water and was furious. When the officer dropped the cat to the ground it flew at him fiercely and buried its deep claws in his uniform over his breast. He struck the crazed animal one blow with the hatchet and put out what was left of its nine lives.

A Spring Trip South.
 On April 7 and 21, and May 5, tickets will be sold from principal cities, towns and villages of the north, to all points on the Louisville and Nashville Railroad in Tennessee, Alabama, Mississippi, Florida and a portion of Kentucky, at one single fare for the round trip. Tickets will be good to return within twenty-one days, on payment of \$1 to agent at destination, and will allow stop-over at any point on the south bound trip. Ask your ticket agent about it, and if he cannot sell you excursion tickets write to C. P. Atmore, General Passenger Agent, Louisville, Ky., or Jackson Smith, D. P. A., Cincinnati, Ohio.

Garters of Ribbon and Lace.
 Garters are marvelous creations this year. Unhygienic persons who persist in wearing the circular ones have regular "confections" from which to choose. Some are made of bands of elastic almost covered by tiny ruffles of narrow ribbon and butter-colored lace. An inch wide piece of elastic will permit about four outstanding frills of each. The bow in the middle is made of the lace and ribbon.
 Somewhat less befrilled are bands of elastic edged with narrow ribbon ruffles and fastened with a bow and buckle. The buckle may be of any sort—gold, silver, or studded with mock jewels. The monogram of the owner is usually engraved on the buckle. Some of the garters are of elastic incased in a puffing of pompadour silk, and these are particularly effective.

Rheumatism
 Is a blood disease and only a blood remedy can cure it. So many people make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. Mr. Asa Smith, Greencastle, Indiana, says: "For years I have suffered with Sciatic Rheumatism, which the best physicians were unable to relieve. I took many patent medicines but they did not seem to reach my trouble. I gradually grew worse until I was unable to take my food or handle myself in any way; I was absolutely helpless. Three bottles of S.S.S. relieved me so that I was soon able to move my right arm; before long I could walk across the room, and when I had finished one dozen bottles was cured completely and am as well as ever. I now weigh 170."

A Real Blood Remedy.
 S.S.S. cures Scrofula, Cancer, Eczema, and any form of blood troubles. If you have a blood disease, take a blood medicine—S.S.S. (guaranteed purely vegetable) is exclusively for the blood and it forces out the poison matter permanently. We will send to anyone our valuable books. Address Swift Specific Co., Atlanta, Ga.
 Was 125 Years Old.
 A man who claimed to have seen Washington, and really believed that he had, no matter how other folks treated his assertion, died last week in Baker County, Ga. He was a negro known as Jim Hall, and reputed to be 125 years old. There is no doubt he was an exceedingly old man. He used to declare he had driven his master to the polls for General Washington on the occasion of his first election as president. He was in every way honest, and worked, supporting himself, up to the time of his death.

To the Delicate and Malarious.
 The most ineredulous are convinced of the virtues of Aunt Rachael's Malarial Peruvian Bark Bitters upon a trial of them. They are all that can be desired by the most feeble victims of Malaria. Physicians prescribe them.

Free Attendant Service, Grand Central Station, New York.
 The system of uniformed attendants, established by the New York Central, at Grand Central Station, New York City, last spring, has grown so popular with the traveling public as the Empire State Express. It supplies a long felt want, and is especially appreciated by strangers and ladies traveling alone. The corps of red-capped attendants has recently been greatly increased, and they are now found in every part of Grand Central Station; at the entrances to the Waiting Rooms, ready to assist you from your carriage, and show you to the train; and at the platforms of all arriving trains, prepared to carry your luggage, summon a carriage, or direct you to the elevated or surface lines of railway that radiate from Grand Central Station to all parts of the city. This service is absolutely free. No tips are necessary. The attendants are active and intelligent; polite and well posted; they speak several languages, and are walking encyclopedias.

 Probate Order.
 At a session of the Probate Court for the county of Washtenaw, holden at the Probate Office in the city of Ann Arbor, on Tuesday the 17th day of March in the year one thousand eight hundred and ninety-six.
 Present, J. WILLARD BABBITT, Judge of Probate.
 In the matter of the estate of William Geer, deceased.
 On reading and filing the petition, duly verified, of Benjamin D. Geer, praying that a certain instrument now on file in this Court, purporting to be the last will and testament of said deceased may be admitted to probate and that administration of said estate may be granted to him self, the executor in said will named, or to some other suitable person.
 Thereupon it is ordered, that Friday, the 10th day of April next, at 10 o'clock in the forenoon be assigned for the hearing of said petition, and that the devisees, legatees and heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the city of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER a newspaper printed and circulated in said County, three successive weeks previous to said day of hearing.

Adams—were born in the year 1767 and two—Grant and Hayes—in 1822. Jackson succeeded Adams and Hayes followed Grant.
