**THE ANNUAL BANQUET.**

**Sustaining Members of the Y. M. C. A. Have an Enjoyable Time**

The Ladies Auxiliary of the Y. M. C. A. instituted a year ago a very pleasant custom of giving a banquet each year to the sustaining members of the Y. M. C. A., that is, those of our citizens who give each year five dollars or more for keeping up the work of the Y. M. C. A. in this city. Last Friday night the members of the ladies auxiliary gave their second annual banquet. To say that the ladies were successful is to put it very mildly. The Y. M. C. A. rooms were tastily decorated and four long tables were set, upon which was an abundant supply of all the good things which the ladies of the auxiliary know how to prepare. A few minutes past eight fully one hundred and sixty sat down to enjoy a feast for both mind and body. Until nine o'clock the ladies of the auxiliary served the visitors with palatable dishes. The guests were then called to order with Mr. H. G. Van Tuyl, of Detroit, as toastmaster. Mr. Van Tuyl proved a success in the position which he was called upon to fill. His manner of introducing the different ones who responded to toasts was a happy one. The following program with the exception of the cornet solo was then carried out.

**PROGRAM.**

- Toastmaster, H. G. Van Tuyl, Detroit.
- Local Condition, E. F. Mills, Ann Arbor.
- The Church and the Association, Rev. J. M. Gelston, Ann Arbor.
- The Community and the Association, Leonard Laurence, Detroit.
- A World Wide View, Prof. F. S. Goodrich, Albion.
- Cornet Solo, Raymond P. Warren, Ann Arbor.
- Requirements for Successful Work, F. D. Taylor, Detroit.
- The Guests of the Evening, Chas. W. Wagner, Ann Arbor.
- Vocal Solo, Mrs. Roy McClure, Ann Arbor.
- Our Entertainers, Nathaniel Stanger, Ann Arbor.
- The Conclusion of the Whole Matter, H. M. Clark, Detroit.

The toasts all had the merit of being short, so that what seemed a long program was not in the least wearisome. The various speakers, as their subjects indicate, dealt with the different lines of work of the Y. M. C. A. showing very clearly that the work of the Y. M. C. A. is one of vast importance and deserving of the hearty sympathy and liberal support of every person. The good that has been accomplished by the local Y. M. C. A., shows that there is a field for such an organization in Ann Arbor and those who have given liberally of their time and money to maintain it may be assured that their efforts have not been in vain.

**Death of Charles Woodruff.**

Charles Woodruff, of Ypsilanti, one of the oldest newspaper men in Michigan, died at his home last Wednesday afternoon after a long and painful illness. Mr. Woodruff was born in Seneca county, N. Y., in 1816. He was therefore, 80 years old. He came to Washtenaw county with his parents in 1836, and settled in Pittsfield. Having learned the trade of tailoring Mr. Woodruff saved enough from his earnings to enable him to attend and graduate from the college at Meadville, Pa., in 1842. Two years later he came to Ypsilanti and bought the Sentinel which had been established about a year before. This paper he has conducted continuously ever since, making a period of 52 consecutive years that he was in charge of the same paper. This is a record for which it would be difficult to find a parallel in the country. The deceased was always a firm supporter of education and did as much as any other man in building up the schools of Ypsilanti. He also had a great deal to do in forming the school system of the state. Mr. Woodruff was a public spirited man and always ready to perform whatever duty was placed upon him. For many years he was a member of the city council and took an active interest in local affairs. As a writer he has more than a local reputation as he has from time to time contributed to the leading newspapers and magazines. Funeral services were held Friday afternoon at St. Luke's church and was largely attended. The floral offerings were very elaborate, a bunch of five dozen beautiful white roses being sent by the Press Club of Ann Arbor, a number of the members of which attended the funeral.

**One Would Satisfy Us.**

The Ann Arbor Savings Bank was brought face to face with a check last week that would have staggered most banks in a city of this size, and there would have been rumors of the bank suspending. The check was for \$81,939.70 and was drawn by the county treasurer in favor of the state treasurer, that amount being Washtenaw's portion of the state levy. The bank paid the check as promptly as though it was an every day affair.

**FORGED A CHECK.**

**Bert LaRoche Secures \$20 That Way.**

Bert LaRoche, table waiter at the Arlington house, was arrested last Wednesday evening on the charge of forgery. Late in the afternoon he entered the saloon adjacent to the Arlington house, called for drinks and cigars, offering in payment a check on the First National Bank, signed Clark C. Hawes, the amount being \$20. Silas Saxton, the barkeeper, supposed it was all right, knowing LaRoche to be employed at the hotel where Mr. Hawes is clerk and paid LaRoche \$15. After receiving the money LaRoche visited other saloons and liberally treated his friends to the drinks at each place.

He was accompanied in his rounds by Ernest B. Helmer and the two ordered a carriage and prepared to go to Detroit on the 5 o'clock train. Meanwhile, however, Saxton had become suspicious and had taken the check over to the hotel for inspection. It was a rough forgery. Mr. Hawes does not carry a banking account with the First National, and the signature was totally unlike his own. Officer Peterson was notified at once and arrested LaRoche and his companion, Helmer. After being lodged in jail LaRoche broke down and confessed the crime. He claimed that he has given \$10 of the money to Helmer, but this the latter strenuously denied and the money could not be found. LaRoche is about 27 years old, and a married man, although his wife does not live with him. He has been a table waiter at the Arlington house for about six months, but this is the first crime charged against him. Helmer was released last night and in all probability no complaint will be made against him.

**Death of Robert Shannon.**

Everybody who has ever had any printing done in Ann Arbor knew Robert Shannon, and knew him to be the best informed and best read compositor in this city. Mr. Shannon came to Ann Arbor in 1868 and has worked steadily at his profession in some one of the printing offices ever since until compelled to give up manual labor several months ago by the disease of dropsy. For many weeks he has been a great sufferer, until last Friday night when he passed away. Mr. Shannon was comparatively a young man, being only 54 years of age. He leaves a wife and five children to mourn his death. Mr. Shannon was an active fraternity man, being a member of Fraternity Lodge, F. & A. M., Arbor Tent No. 206 K. O. T. M., and the Ann Arbor Typographical Union No. 154. All of these orders attended the funeral in a body. The masonic order conducted the exercises. Funeral services were held at 3 p. m. Sunday.

**Shorter Summer Vacations for Schools.**

To the Editor of THE REGISTER: Before it is too late let all parents unite in requesting the school board to shorten the summer vacation and have the fall term begin not later than Monday, Aug. 31 so as to give longer recesses at other times, so that in case of sickness of pupils from m. r. a. l. e. s. e. t. c., they can make up and not drop back a grade. It may be pleasant for teachers to have long summer vacations, but it is bad for the little folks.

Respectfully submitted, C. H. Manly, Treasurer. To the Honorable Common Council of the City of Ann Arbor: Gentlemen:—Below find report of Ordinance cases brought before me during quarter ending March 31, 1896, and disposition made of same:

Table with columns: No. on Docket, Date of Complaint, Name of Party, Offense, Fine, Costs, To jail until paid not exceeding.

Adopted as follows: Yeas—Ald. Moore, Allmendinger, Koch, Snyder, Laubengayer, Brown, Taylor, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—13. Nays—None. To the Common Council: Your joint committees on Fire Department and Water to whom was referred the petition asking for a fire hydrant at the corner of Willard and Forest avenue would recommend that the petition be denied.

Respectfully submitted, Geo. L. Moore, John Koch, Jacob Laubengayer, W. M. Shadford, O. E. Butterfield, Committees on Fire Department and Water. Adopted as follows: Yeas—Ald. Moore, Allmendinger, Koch, Snyder, Laubengayer, Brown, Taylor, Shadford, Prettyman, Butterfield, Cady, Pres. Hiscock—12. Nays—Coon 1.

REPORT OF SPECIAL COMMITTEES. To the Common Council: Your special committee appointed for the purpose of locating suitable building sites in the First and Second Wards, which sites were voted upon at the special election of April 1895, would report that they have considered all the suitable locations for such building sites, and are of the opinion that the most advantageous that can be secured are the following which they recommend that the City of Ann Arbor purchase at the price agreed upon.

The property of Christian Gauss on South Ashley St., near Liberty in the Second Ward for \$500.00. The property of the Morgan estate in the First Ward, consisting of 44 ft. front on Huron St., and 132 on South Fifth Ave., the price agreed upon being \$4,500. Your committee therefore recommend that the City Attorney

be instructed to secure a deed for the above property, and that a warrant be ordered drawn from the special building sites fund payable to Christian Gauss for \$500.00, in payment for the site in the Second Ward. And to the Morgan estate for \$4,500 in payment for the site in the First Ward.

Respectfully submitted, Chas. E. Hiscock, John Koch, H. J. Brown, Special Committee.

Adopted as follows: Yeas—Ald. Moore, Allmendinger, Koch, Snyder, Laubengayer, Brown, Taylor, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—13. Nays—None.

ATTENTION, CANVASSERS! Do you want an agency for the best selling and BIGGEST LITTLE THING on the market today. Something new that isn't a humbug. A mullage and cement combined. No bottle brush or corkscrew. Not luxury but a POSITIVE NECESSITY.

In every household, business office, student or traveling man's pocket. Adapts itself to all classes—the cheapest and strongest—sells on its own merits—takes but a moment to convince any one that it will do the work. No spilling, no muss, no evaporating or drying down, no freezing. All liquid cement soon becomes worthless after being exposed to the air. This is just as good in ten years. Can be carried in the vest pocket. Pays a handsome profit. Agents wanted every where. Send at once for circulars and price list and state what territory you wish to work. # comes to stay

There is more than one food which will cause the body to increase in weight. A free supply of sugar will do this; so will the starchy foods; cream, and some other fats. But to become fleshy, and yet remain in poor health, is not what you want. Cod-liver oil increases the weight because it is a fat-producing food. But it does far more than this. It alters, or changes, the processes of nutrition, restoring the normal functions of the various organs and tissues.

## Scott's Emulsion

of Cod-liver Oil with hypophosphites, is pure cod liver in a digested condition. So that when a person gains in weight from taking Scott's Emulsion, it is because of two things: First, the oil has acted as a fat-producing food; and, second, it has restored to the body a healthy condition. Such an improvement is permanent; it comes to stay.

## Don't Know What He Wants.

Had to give him up, is the way they refer in most Furniture Stores, to a man or lady who walks out without buying.

They are wrong; they know what they want—that's the trouble. People who are hard to please in Furniture Stores are generally good judges of Furniture. They have a gift of spotting bad goods, bad styles and poor work; they know how Furniture should be made.

We complain of such people. Why should we? They are our best and most appreciative customers.

# GREAT REMOVAL SALE!

We sold four Pianos last week to parties who thought of buying sometime, but who found on learning our phenomenally low prices that the time to buy was now. Buyers of Pianos, do not fail to take advantage of the exceptional opportunity now offered to buy a Piano or an Organ at the Lowest Figure ever known in Ann Arbor.

## 7 UPRIGHT PIANO BARGAINS

The following seven pianos have been used, some six months, some a year, but none over eighteen months. They will be put in perfect condition at our factory, and will be closed out at \$25 down and \$10 per month. We offer these as special bargains, and when we use this term, we mean it in its fullest sense.

### HERE THEY ARE:

1 Petit Bijou Piano, small size, former price.....	\$225
Removal Sale Price.....	85
1 Allmendinger, black case, good condition, former price	250
Removal Sale Price.....	135
1 Boardman & Gray, Ebony, former price.....	265
Removal Sale Price.....	145
1 Erie Piano, Ebony, but little used, former price.....	275
Removal Sale Price.....	168
1 Erie Piano, Walnut, as good as new, former price....	300
Removal Sale Price.....	175
1 Guild Piano sold two years ago for.....	340
Removal Sale Price.....	170
1 Pease Piano, in very fancy case, in first-class condition, former price.....	300
Removal Sale Price.....	180

We have sold three of the six pianos we offered in fancy cases for spot cash for \$189 each. These pianos are such a rare bargain that if you miss the opportunity of buying one, it is your own fault. Some wise buyers have seen the economy of borrowing money to buy at these prices.

## BUYING A PIANO!

You have been thinking of buying a Piano for a long time. If you keep putting it off, you will never get it. Now is the time to buy, for now is the time you can save money. If your grocer offered granulated sugar 3c a lb., when you are paying 6c, you would buy a quantity. You know that is cheap, for you buy it every day. If he offered you Queen Anne Soap at 3c a cake, you would buy it for the same reason, because you are saving money. If you could buy Royal Baking Powder for 25c a pound, when you have to pay 50c, you would buy Royal, because you know it is good, and could be bought at the price of the poorest. We want you to realize that we are offering just as big bargains on Pianos and Musical Instruments today as granulated sugar would be at 3c a pound.

We are obliged to move, and the store we hope to secure will have to undergo extensive repairs, which will consume two or three months before it is fit for occupancy. We are overstocked with Pianos, our present warerooms are crowded, and we have about 60 rented Pianos coming in the middle of June.

Think of this seriously, and come in and see us. A dollar saved is a dollar earned, and you can save a good many dollars by buying your Musical Instruments now.

## BICYCLES.

We sold nine Bicycles last week. This shows our prices appeal to careful buyers. Our Dayton Bicycle is unexcelled by any, no matter how famous or by whom made. The Ben Hur at \$85 and \$100 we believe to be the best value for the money ever offered in Ann Arbor. We also sell the Clipper and Wellington Bicycles at \$75 and \$65, and we have a few good wheels as low as \$50.

### Here Are a Few Removal Sale Bargains:

1 \$85 BEN HUR (used).....	\$55
1 \$100 RALPH TEMPLE.....	60
1 \$100 MONARCH.....	65
1 \$85 GENTS' BEN HUR, '95 MODEL	70
1 \$85 LADIES' BEN HUR, '95 Model..	70
1 \$85 CLIPPER, GENTS', '96 Model..	75

## ORGANS.

Those Organs we mentioned as slightly shop-worn, are in first-class condition otherwise, and it will pay you to examine them and get prices. Forty-five to Sixty Dollars will now buy an Organ that formerly sold a from Seventy-five to Ninety.

Those Accordions at \$1.25, \$1.45 and \$1.80, and those \$6.50 Mandolins at \$3.95 will not last long. There is excellent value in them, and in some Violins and Banjos we have listed at equally low prices. Now's the time to buy if you ever intend buying.

### THE REGISTER.

PUBLISHED WEEKLY BY  
**SELBY A. MORAN,**  
OFFICE: 39 E. Huron street.  
ANN ARBOR, MICH.

TERMS:  
One Dollar per Year in Advance.  
1.50 if not paid until after one year

Fifteen Cents per Year additional to Subscribers outside of Washtenaw County.  
Fifty Cents additional to Foreign countries.  
Entered at Ann Arbor Postoffice as Second-Class Matter.

THURSDAY, APRIL 16, 1896.

The Washtenaw Times is now under a new management, Mr. L. J. Leisemer, editor of the Hausfreund and Post and F. H. Belsler, of the Farmers' and Mechanics Bank, each having purchased a quarter interest in the business. Mr. Leisemer, who has had sixteen years' experience as a newspaper man will have the management of the paper. Mr. Leisemer will also continue the Hausfreund and Post. In managing both these papers Mr. Leisemer will necessarily be a busy man, but will undoubtedly prove himself equal to the task. THE REGISTER wishes the new management the best of success.

In an article in the Youth's Companion entitled "Cities of the future," Dr. Felix L. Oswald mentions a number of improvements that the near future will certainly bring forth, whereby life in large cities will be made healthier, cleaner and more comfortable.

After writing of a number of things, he says, concerning the present senseless waste of heat:

Our methods of burning coal are, however, more wasteful still. In a common chimney fire, with an open grate, waste—now stop to guess what percentage of the heat. One-half? Three-fourths? No; try again. Give it up? Well, eighty-five to eighty-eight per cent. In other words nine-tenths nearly of the warmth generated in and open fire-place escapes through the flue and benefits nobody but the sparrows that have sense enough to gather around the chimney pots in blizzard weather. Stoves are a little more economical, but still admit of manifold improvements. The traveller Bisehoff, in his account of a trip to the interior of Iceland, speaks of a lava bank that retained its warmth more than a year, and the North Holland farmers have brick stoves that resemble a brick factory and keep warm all night after having been once heated with few pennies' worth of dried turf. A mixture of sand and chalk retains heat six times as long as iron. The cities of the twentieth century will abound with contrivances for heating a room for half a dime a day.

PROPERTY owners on the south side of the business portion of the city are attempting to create a sentiment against the site which the council has selected at the corner of Huron and Fifth ave. It is urged that a larger lot on the corner of Liberty and Fourth ave could be obtained at as low a price. It may be that it can. But there is one thing which the council took into

consideration in making the elections it did which should have considerable weight. It was that the fire department could be connected with the city building for heating purposes and thus save a large per cent. of the actual cost of heating the two buildings and at the same time dispense with the services of a janitor. What would thus be saved to the city on fuel and the cost of employing a janitor would be equivalent to the interest upon \$5000, or more than the actual cost of either of the sites proposed. This is a feature of the question of location that should be given great weight. Our taxes are high enough already without placing the city building in a location where it will take as extra expense to take care of the building an amount equivalent to the income upon at least \$5000. THE REGISTER believes that if the matter is looked at in a proper light, the proposition to have the council reconsider the matter will be dropped.

#### From the Adrain Press.

The leading lady milliner of Monroe is a Mann.

The Milan Leader has provender in the house, evidently. Eighty-nine receipts for subscriptions were written during March. This kept the editor pretty busy, but he was able to work off a lot of extra receipts Sunday, and is still ready for the rush.

There will be a Sunday school rally at Milan, Thursday April 16th, and among the speakers announced is Rev. Dan Shier, well known in this county. He will not disappoint them, unless the fishing happens to be exceptionally good.

Over in Springport, Jackson county, the members of the Farmer's Club, pledged themselves not to vote for a supervisor who would not go in for applying the principles of subtraction to salaries of county officers. They desire the gold standard to touch salaries as well as crops. Very "kerect."

The editor of the Ann Arbor Courier has been presented by the King's daughters of Northville, with their cook book. He spent four hours looking for a receipt for making tea from T rail, and for the kind of ax used in preparing lamb chops, and got in a stew, because he failed to find anything, so he threw the book one side and roasted the Press.

C. A. Fisher, of Bridgewater, aged 99, a German teacher of long service in Washtenaw county, has emigrated back to "deutchland" to spend the balance of his days. He has always voted the democratic ticket, but when

he sees what a mess Cleveland and Carlisle have made of it, he follows the U. S. bonds, and leaves the country where he is ashamed to die.

John Bachman, a Sharon farmer, will plant five acres of celery the coming season. He has muck ground that heretofore wasn't worth anything, and now he sells more of celery than the whole town does of wool. If we could only have an underground railroad to his garden we would show him how we "raise good celery."

Try a can of Hopkins' Steamed Hominy (Hulled Corn). It is delicious. Full quart, 10c.

#### Probate Order.

At a session of the Probate Court for the county of Washtenaw, holden at the Probate Office in the city of Ann Arbor, on Friday the 10th day of April in the year one thousand eight hundred and ninety-six.

Present, J. WILLARD BABBITT, Judge of Probate.

In the matter of the estate of Mary Brown, deceased.

On reading and filing the petition, duly verified, of Foster Brown, praying that a certain instrument now on file in this Court, purporting to be the last will and testament and codicil thereto of said deceased may be admitted to probate and that administration of said estate may be granted to himself, and William P. Brown the executors in said will named, or to some other suitable person.

Thereupon it is ordered, that Friday, the 8th day of May next, at 10 o'clock in the forenoon be assigned for the hearing of said petition, and that the devisees, legatees and heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the city of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the ANN ARBOR REGISTER a newspaper printed and circulated in said County, three successive weeks previous to said day of hearing.

J. WILLARD BABBITT, Judge of Probate.

For Alderman, Horace P. Danforth, Louis J. Liesemer, Alonzo S. Berry. For Constable, Claude F. Gage, John H. Frey, William H. Sperry. For establishing the salary of the City Treasurer at \$100 per annum.

Majority against, 5. Ald. Prettyman moved that the poll book of the third ward be changed to correspond with the tally sheet from such ward.

Adopted. Ald. Butterfield moved that the Clerk be directed to write the word "Elected" on a sheet of paper and the words "not elected" on a like sheet and that the envelopes be deposited in a box and that the candidates be directed to draw lots.

Which drawing resulted as follows: Thomas Godkin "Not elected." Gilbert C. Rhodes "Elected." Ald. Prettyman moved that the Board of Canvassers adjourn.

Adopted. By Ald. Prettyman. Resolved, that the Common Council of the City of Ann Arbor at a regular session, at the Council Chamber in said city on the ninth day of April, A. D. 1896, do declare and hereby certify that at the municipal election held in and for the said city of Ann Arbor on the sixth day of April A. D. 1896, the following elected persons were duly and lawfully elected to the following ward offices, viz:

- For Supervisor, 1st ward—John R. Miner. 2nd ward—John M. Fisher. 3rd ward—John J. Fisher. 4th ward—Herman Krapf. 5th ward—James Boyle. 6th ward—Arthur J. Kitson. 7th ward—Ernest E. Eberbach. For Alderman, 1st ward—George L. Moore. 2nd ward—Michael Grossman. 3rd ward—Jessie A. Dell. 4th ward—For one year, Herbert J. Burke. For two years, Arthur Brown. 5th ward—Gilbert C. Gregory. 7th ward—Claude F. Gage.

Resolved, that the Common Council of the City of Ann Arbor, at a regular session, at the Council Chamber of said city on the ninth day of April, A. D. 1896, do declare and hereby certify, that at a special election held in and for the City of Ann Arbor on the sixth day of April, A. D. 1896, to determine for and against the proposition of establishing the City Treasurer's salary at six hundred dollars per annum, that the whole number of votes cast for the said proposition was: One thousand, two hundred and ninety, of which six hundred and twenty-eight contained the words: "For establishing the salary of the City Treasurer at \$600 per annum." Six hundred and sixty-two contained the words: "For establishing the salary of the City Treasurer at \$600 per annum."

Wherefore, Resolved, that as a result of said election, the Common Council of the City of Ann Arbor do declare that the said proposition was lost.

Adopted as follows: Yeas—Ald. Moore, Allmendinger, Koch, Snyder, Laubengayer, Brown, Taylor, Shadford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—13. Nays—None. On motion the Council adjourned, sine die.

GLEN V. MILLS, City Clerk.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Just the same as she suffers for the same reasons, nine cases in ten, however, her headaches come from disorders peculiar to her sex. Possibly the apparent cause of the headache will be nervousness or indigestion, while the cause of these is not thought of. The organs distinctly feminine are more vital than any other organs in a woman's body. Any trouble of those affects the whole body. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, the men have been treated for the disorders thought to be indicated by these symptoms, when the real trouble was much deeper and more serious. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of the ills and pains very commonly considered the uncomfortable inheritance of her sex. It cures where really good physicians have failed. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success. The afflicted woman will find immediate relief and ultimate cure in the "Favorite Prescription." There is no doubt about it—there is no question about it. The woman who hesitates is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser. This celebrated work contains full information about Dr. Pierce's medicines, with the reproduced photographs of hundreds of people who have been cured by these world-famed remedies, also giving their names and addresses, besides plain, clear information about all of the organs of the human body and their functions. It has reached the unprecedented sale of 68,000 copies at \$1.50 a copy. Thus the expense of preparation has been defrayed, and now 500,000 copies will be absolutely given away. Remember that this book is not a mere advertising pamphlet, but a genuine standard work of 1008 large pages, over 300 illustrations, some of them in color. Address, World's Dispensary Medical Collection, Buffalo, N.Y.

W. C. T. U. For God, and Home and Native Land. Edited by Mrs. A. E. Van Valkenburg, Press Superintendent. The Second district W. C. T. U. convention of Michigan now in session in this city opened on Tuesday, with a full delegation present and Mrs. Jennie H. Lockwood, district president, in the chair. After the roll call, appointment of committees and some miscellaneous business the reports of superintendents of departments was commenced. There are forty different departments of work carried on by the Woman's Christian Temperance Union, each of which has been or will be reported and discussed. These forty departments are grouped under six general heads, namely Organization, Preventive, Educational, Evangelistic, Social and Legal. The evangelistic department, Mrs. Addie Johnson of Monroe county, Mrs. Martha J. Warner of Washtenaw county, and Mrs. Caroline Humphrey of Lenawee county spoke upon the first four of these divisions, and Miss Emma Bower presented the last two in a most logical manner. Greetings in behalf of the local union were given by the president, Mrs. Jennie Voorhies, in behalf of the Local Temperance Legion, by the leader, Miss Anna Richards, and by Miss Marian Otis from the University Y. W. C. T. U. These were responded to by Mrs. Celestra Curson of Erie. Miss Cole assisted by the quartette and organist of the Presbyterian choir, gave several charming selections the first evening of the convention. The children of the Legion were also present in gala day attire carrying their new banner for the first time, and received many compliments for their singing and other exercises.

Yesterday the regular routine of business was carried on until four o'clock in the afternoon when everything gave way to the children who came flocking in from all parts of the city to enjoy the "Children's Hour." Supt. Perry and others spoke to the little people, who in turn contributed much to the pleasure of the hour by their songs and hearty appreciation of the attention shown them. It is now generally conceded by white-ribboners everywhere that there is no department in their work which yields richer or more lasting results than the work among the children.

The "Evening with the Young People" was a very pleasant feature of the convention. Eleven of the young people of Ann Arbor who are leading officers in as many different societies, which have for their object the uplifting, purifying and christianizing of the young of this city, gave short addresses of much interest. Prof. Kempf, assisted by Misses Liebig and Taylor, Messrs. Claferton and Taylor, rendered several fine selections of music which were greatly appreciated; and Master Gerald Brown sang a solo commanding the audience by the sweetness and purity of his voice.

Tonight will be the closing session of the convention. The W. C. T. U. "Round the World" missionaries will lecture upon her travels and experiences in foreign lands. Miss Ackermann is a young woman of commanding presence and a charm of manner that is irresistible. She first attracts, then fascinates the attention of her audience. Her experiences in strange lands have probably never been equaled by any person of her sex now living, and she stands today the greatest woman traveler in the world.

Tomorrow, at three o'clock, Miss Ackermann will speak, in the Baptist church, to the women of the city, on the condition of women in the various countries in which she has travelled.

## Paine's Celery Compound Gave Mrs. Porter Back Her Strength.

These sharp, raw, capricious days of February are blamed for much sickness that is simply the direct result of nervous weakness.

Perfect health will keep one above any depressing influence from the weather.

Pure, richer blood and better fed nervous tissues will make people feel well even in February.

During his many years of hard and wonderful work, Prof. Edward E. Phelps, Dartmouth's great professor, had in mind the thousands who were weak and run down. His study of the many cases of nervous prostration, neuralgia, rheumatism, dyspepsia, and debility led him to that most marvelous discovery of the century, Paine's celery compound.

In every city, as well as the smaller villages scattered through this country are men and women who for years have relied upon Paine's celery compound whenever they found themselves weak

and out of health. Hundreds of letters like the following from Mrs. Porter of New York City, tell how this great medicine has kept them well and strong.

New York, Jan. 3, 1896.

MESSRS. WELLS & RICHARDSON CO.,  
Dear Sirs:—For several years I have used your Paine's celery compound whenever I found myself running down in health. During that time I have recommended it frequently to my friends and I know of many persons who have been much benefited by it. I am never without a bottle of it in the house, and take great pleasure in expressing to you my belief that it does a great work for humanity.

Mrs. M. PORTER, 282 Eighth Ave.

Mrs. Porter's experience is like thousands of others. Paine's celery compound made her well, because it fed the starved nerves and blood and regulated their functions. Try it and be convinced of its remarkable power to cure disease.

NEWSY NOTES OF PEOPLE AND THINGS OF MICHIGAN.

**Pentwater Man Shoots a Wealthy Fellow Townsman, Then Kills His Own Wife and Three Children and Suicides—An Unaccountable Tragedy.**

Wm. B. O. Sands, of Sands & Maxwell, was nearing his home at Pentwater at 9 o'clock in evening when an unknown person fired five shots at him. Two produced flesh wounds, and one shattered the bone of his right arm above the elbow. Amputation was resorted to, and Mr. Sands died within a few hours. Suspicion was turned to S. B. Minshall, an attorney and insurance agent, who recently had a quarrel with Sands, he alleging that Sands had broken faith with him in refusing to give him the full amount of the firm's insurance business. When a call was made at Minshall's home soon after the tragedy the house was locked, and getting no response, the door was forced open. Minshall, his wife and three children were found dead. They had been shot by the husband and father, who afterward killed himself. No motive could be found for the terrible crimes until a letter, signed by Minshall, was discovered, which said that he was unable to provide for his family in the manner they deserved, owing to Sands withholding one-third of the money due him, and he thought them better off if they were dead.

The weapon with which Mr. Sands was shot was a 38-calibre rifle, borrowed of S. W. Fincher, druggist; but Minshall killed himself and family with a revolver.

Minshall was a lay reader in the Episcopal church and was regarded as a devout man, but was often quarrelsome. He was 45 years old. His wife, a pure, sweet woman, was 40; the oldest child, Ruby, aged 16, was a loveable girl and a splendid musician; the two boys were aged 4 and 3 years. Wm. B. O. Sands, aged 58, was principal owner of the Sands & Maxwell Lumber Co., the leading industry of Pentwater.

## Warm Rains Needed for Crops.

The Michigan crop report for April says that wheat in the fall made small growth, but the winter was more favorable, and it suffered little injury previous to about March 20. From that date to the end of the month there was no covering of snow, and the freezing and thawing, usual in March, caused the fields to look brown and did some considerable damage. Correspondents, however, about April 1, were hopeful that warm rains would give the plants a start and show them to be not greatly damaged. But the warm rains do not come. Since the first of April the weather has been continuously dry, with cold winds from the north and northwest. Such weather cannot continue much longer without serious consequences. The condition of wheat now is more critical than at any previous time since sowing.

## Presbyterian W. F. M. S.

The Women's Presbyterian Foreign Missionary society, of Michigan, in convention at Alma, elected the following officers: President, Mrs. McEwan, of Bay City; recording secretary, Mrs. Doughty, of Mt. Pleasant; corresponding secretary, Mr. Abbey, of Saginaw; treasurer, Mrs. Smalley, of Bay City; secretary young people's work, Mrs. Stone, of Saginaw. Officers of the Home Mission society: President, Mrs. Geo. Baker, of Saginaw; vice president, Mrs. C. J. Smith, of West Bay City; corresponding secretary, Mrs. Green, of Saginaw; recording secretary, Mrs. Blackmar, of Saginaw; treasurer, Mrs. Romer, of Bay City. Just \$568.40 raised for home missions, \$1,280.47 for foreign missions during the year. The next meeting will be held at Bay City.

## Rockford Suffers Heavily from Fire.

Fire broke out in the basement of a store in the east end of town at Rockford and before it was brought under control eight business houses on both sides of Main street and a dwelling house were destroyed. Help was asked for from Grand Rapids and a steamer and hose cart promptly arrived. It was too late, however. The total loss is estimated at about \$50,000, with an insurance of \$30,000. By the hardest kind of work by the bucket brigade the depot and two grain elevators were saved. The cause of the fire is unknown. The new water works system was not quite completed or the fire would not have gained such headway.

A bursting emery wheel broke the cheek and jaw of James A. Lanney, a farmer near Ewart, and he may die.

A three-year-old child of John Southworth, living in Brookfield township, Eaton county, was kicked to death by a horse.

Horace Heath, near Marine City, lost two children from scarlet fever. He believed in faith cure and would not call a doctor.

Rev. W. Wellington Carson, D. D., pastor of the Jefferson Avenue Presbyterian church, died of typhoid fever after a week's illness.

Lewis Aiken, 73 years old, residing near Kingsland, was arrested, charged with assaulting his 10-year-old granddaughter, Eliza Wood.

GLIMPSES OF THE DOING OF THE BUSY WORLD.

**The British Find That Their March Upon Dongola is Not a "Soudan Picnic"—Turkey's Attitude Toward Missionaries Causes Much Indignation.**

## British Backing Down.

A dispatch from Cairo says: It cannot be denied that there exists in Cairo a strong apprehension that disaster will soon overtake the head of the British-Egyptian Dongola expedition. The news of the movement southward of the troops has spread with that wonderful rapidity which has frequently been noticed as one of the features of campaigning in the Soudan and as a consequence the Khalifa is calling upon his warriors to muster to the standard, and that the holy war which he recently proclaimed is to be pushed with the desperate energy of the dervish leaders. He expects to muster an army of 50,000 men, composed of the best fighting men of the Soudan, at Omdurman, by September. There is also a report that the emperor Menelik, Italy's late successful antagonist, at Adowa, has sent a delegate to negotiate with the dervishes. An alliance between the Abyssinians and the dervishes would upset many calculations.

The British troops, which will take part in the advance on Dongola, will, it is expected, number about 5,000 men, and in addition, there will be about 15,000 Egyptian troops, led by British officers. The preliminary skirmishing so far has given some confidence to the Egyptian troops. The policy of the Soudanese is evidently to draw the invading army as far from its base this summer as possible so that when the main assault is delayed retreat for it will mean slaughter. The dervish forces, under command of Osman Digma, continue to hover in the neighborhood of Suakin, watching their opportunity to do mischief. It is now stated that he has a force numbering 3,000 troops. It is well known that large numbers of Arabs who have been accounted friendly to the British are deserting to the enemy.

Later reports from Cairo say: From indications it is thought that the plan of pushing the Anglo-Egyptian army to Dongola has been suddenly abandoned. The purchase of camels and horses has been stopped. It has been found, it is thought, that the force up the Nile is too weak to cope with the hordes of dervishes now in the field, and gathering to the Khalifa's flag between Akasheh and Dongola. It is not probable now that any attempt will be made to advance beyond the former point at present.

## Bullington Booth Tells Why He Quit.

Bullington Booth has issued a statement giving his reasons for withdrawing from the Salvation Army. He says that during his recent visit to his father—the commander-in-chief—objected to anything American in the army, flag, eagle or buttons, and because he (the son) made explanations and argued for the propriety of the use of the emblems the general took particular pains to wound him and when orders came to surrender the command of the army in the United States and take either position the son could not acquiesce and resigned rather than do so.

Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

## Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. Kincheloe, Conway, Ark.

## Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. Ancher, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

### OUR LAWMAKERS AT WORK.

**SENATE**—Ninety-seventh day—Most of the day was given to the Indian appropriation bill, which was not completed. Mr. Turpie's speech on Cuba was the most vehement utterance heard on that subject. While arguing for radical action on Cuba, even to the extent of sending a fleet to Cuban waters, much of Mr. Turpie's speech was given to sarcasm and ridicule of the course of Mr. Sherman and Mr. Lodge in managing the Cuban resolutions. Mr. Allen introduced a bill providing for the restoration of the names of widows of soldiers to the pension rolls after the death of the soldier's bands. **HOUSE**—The bill to adopt the metric system of weights and measures was sent back to the committee on coinage, weights and measures for further reconsideration. The remainder of the day was devoted to debate on the bill to exempt sailing vessels engaged in the coastwise trade from compulsory pilotage laws. The conference report on the agricultural appropriation bill was adopted.

**SENATE**—Ninety-eighth day—After being in retirement for some weeks the tariff-silver bill was brought forward as a text for a speech by Mr. Mantel, of Montana, one of the five Republican Senators who voted against considering the tariff bill. A sharp tariff colloquy followed between Senators Mills, Hoar, Hawley and Mitchell, as to the effect of the Wilson bill on wool. Some progress was made on the Indian appropriation bill, but the sectarian school question went over. The calendar was cleared of all pending bills. Mr. Kellogg, of New Hampshire, introduced a bill for the creation of a United States commission to treat with commissions from other Christian nations "for the correction of the interior, to be held so long as the interior is still continuing in the Ottoman empire." **HOUSE**—The bill to abolish compulsory pilotage on sailing vessels engaged in the coastwise trade was defeated. The district of Columbia appropriation bill, which was recommended early in March after a protracted fight against appropriations for private and sectarian charitable institutions, was again reported with the specific appropriations stricken out and containing in lieu thereof an appropriation of a lump sum for charities, to be expended under the direction of the district commissioners, with the proviso that no part of the appropriation should go to the institutions in ecclesiastical or sectarian control. The feature of the debate was a vigorous attack on the A. P. A. by Mr. Fitzgerald, of Massachusetts. Mr. Bull reported the joint resolution to elevate the grade of lieutenant-general of the army for the purpose of conferring that grade upon Maj.-Gen. Miles.

**SENATE**—Ninety-ninth day—The Senate took up the question of sectarian Indian schools, but did not complete it. The debate was very temperate. A bill was passed providing for a trans-Mississippi and international exposition at Omaha in 1898. **HOUSE**—The House spent the entire day in general debate on the Elsie cheese bill. The principal objection seems to be raised to the tax features of the bill, \$400 on the manufacturer and \$40 on the retailer, while there appears general unanimity in favor of a bill to compel the branding of filled cheese. At the night session an attack was made on the pension committee for recommending larger pensions than the law allowed to the widows of officers.

One hundredth day—No session of the Senate. **HOUSE**—After two days' debate, the House, by a vote of 169 to 100, passed to open publication of the patent office Gazette to general competition. The rest of the day was given to the Dupont case, Messrs. Burrows and Johnson supporting Mr. Dupont.

**HOUSE**—The day was spent transacting business relating to the district of Columbia.

**Spain Expects to Fight Us.**  
 Madrid: Admiral Sanchez Ocaña reports that he has completed preparations for sending to sea a Spanish squadron of 14 vessels, carrying crews numbering nearly 6,000 men. This fleet will cruise along the northwest coast of Spain, ready to start for Havana just as soon as the cabinet considers that circumstances require its presence in American waters. Six trans-Atlantic steamships have been turned into 20-gun fast cruisers. They will be ready for service by the end of April.

The Madrid press plainly says the movement of the fleet will depend upon the course of President Cleveland after the vote of congress on the belligerency resolutions and that Spain must be prepared for all the consequences of the vindication of the Spanish right to repel any interference in the struggle between the mother country and the Cuban insurgents. Between the lines it is easy to see that the newspapers are ready for another outbreak of popular excitement.

All the papers hotly condemn the American congress for the belligerency resolutions, which they consider an act of hostility and insult to the Spanish people which must be met by resolute, active preparations for resisting all kinds of intervention. Affairs look so serious again that American tourists are hurrying away. The feeling is prevalent that a crisis is near and that trouble might break out at any time.

**South African Troubles.**  
 A dispatch from Bulawayo says that the Matabeles have murdered 100 whites and that 250 are still missing. The telegraph lines have been restored and Hon. Cecil Rhodes, as to whose whereabouts and safety some uneasiness has been felt, telegraphs from Salisbury that Gwelo is safe and the road is now open.

There is much alarm at Mafeking on the Transvaal border and farmers living near that place are taking their families into the town for protection. It is reported that natives in the district threaten to rise against the authorities in consequence of the slaughter of their cattle, to prevent the spread of the rinderpest.

**Race War in Louisiana.**  
 The political outlook in northern Louisiana discloses an alarming condition of affairs and serious trouble, with a strong probability of much bloodshed at the approaching election, which occurs April 21, is predicted. Should the negroes take the advice of their leaders and go the polls armed to protect themselves, there will certainly be trouble on election day, which, if once started, is bound to result in great bloodshed.

Jas. W. McDonough, of Chicago, has perfected a process by which natural colors are photographed from the ordinary camera.

Frank McGinley was killed by a train at Elizabeth, N. J., before the eyes of his bride within an hour after their marriage.

The whole business portion of Lyons, O., on the north side of Main street, 10 buildings in all, were burned. The cause of the fire was probably incendiary. Loss, \$25,000.

Hon. W. J. Harry, chairman of the national Democratic executive committee, announces his support of ex-Gov. Robt. E. Pattison, of Pennsylvania, as Democratic candidate for the presidency.

Much comment has been created in European centers by the visit of the imperial German chancellor, Prince Hohenlohe, to Paris, and it is believed that the international complications during the past year concerning Germany, Great Britain, France, Russia, and the African colonies has led Germany to seek closer relations with France and Russia and that this visit is of great diplomatic importance.

### REVIEW OF TRADE.

The volume of business has not on the whole increased, nor have prices appreciably advanced since April 1, when the range for all commodities was the lowest ever known in this country. Breadstuffs and iron products have risen slightly, but some other articles have declined, and the root of the matter is that demand for consumption is still below expectations. The winter has not favored the active distribution of spring goods and uncertainty as to continued employment affects the purchases by hands in a large number of establishments. The injury done to winter wheat by storms and frosts at the west would appear from reports of state officers to have been considerable. Remarkably low estimates of conditions are published by some state authorities, and while this may be the customary exaggeration, there has evidently been much actual loss which tends at present to lessen purchases of farmers and the dealers in farming districts. The bill of pool and other combinations have raised prices of pig iron and steel, but as yet finished products have gained scarcely anything, nor has demand for them increased. Wool is weaker with sales for the week, only 2,322,000 pounds at the three chief markets, the smallest for many years. Prices tend lower and manufacturers are rapidly reducing production. Failures in the U. S. were 29 the past week against 37 the same week last year.

The Cripple Creek district has been visited by the severest and most destructive blizzard ever known there. An immense amount of damage was done, and in all probability some lives have been lost in the hills. A score or more of buildings in Cripple Creek were blown down.

John Brooks killed his daughter, Mollie and her sweetheart, A. C. Worrels, at Millican, Tex., because they wanted to marry. Then, taking a stick of dynamite, he sat down upon it and pulled a match and was blown to not enough fragments being left to fill a cigar box.

**GUILTY OR NOT GUILTY**  
**DISEASED MEN CURED**  
 THOUSANDS of young men, middle aged men and old men can look back at their boyhood days or early manhood with a sigh of remorse. The ignorance of early youth, or later on a mispent life as "one of the boys" has sown the seeds for future suffering. SELF ABUSE is a terrible sin against nature and will bring a rich harvest. Blood and Private Diseases sap the very life and vitality of the victim. Our NEW METHOD TREATMENT will positively cure all the following diseases:  
**VARICOCELE, EMISSIONS, NERVOUS DEBILITY, SYPHILIS, STRICTURE, GLEET, SEMINAL WEAKNESS, PIMPLES, LOST MANHOOD, UNNATURAL DISCHARGES, KIDNEY AND BLADDER DISEASES.**  
**ARE YOU? NERVOUS and despondent; weak or debilitated; tired mornings; no ambition—lifeless; memory poor; easily fatigued; excitable and irritable; eyes sunken, red and blurred; pimples on face; dreams and night losses; restlessness; lagging looking; weak back; bone pains; hair losses; ulcers; sore throat; varicocele; deposit in urine and drains at stool; distrustful; want confidence; lack of energy and strength—WE CAN CURE YOU OR ASK NO PAY.**  
**CURES GUARANTEED OR NO PAY—CONFIDENTIAL**  
**SNATCHED FROM THE GRAVE.** A Warning from the Living. "At the doctors and nerve tonic by the score without benefit, emissions and drains increased. I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so and in two months was positively cured. This was eight years ago. I am now married and have two healthy children."—C. W. LEWIS, Saginaw.  
**VARICOCELE CURED.** "Varicocele made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, no ambition. The 'Golden Monitor' opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks."—L. L. PETERSON, Ionia.  
**EMISSIONS CURED.** A farm. At school I learned an early habit, which weakened me physically, sexually and mentally. Family doctors said I was going into 'decline' (consumption). Finally 'The Golden Monitor', edited by Drs. Kennedy & Kergan, fell into my hands. I learned the TRUTH and the CAUSE. Self-abuse had sapped my vitality. I took the New Method Treatment and was cured. My friends think I was cured of consumption. I have sent them many patients, all of whom were cured. Their New Method Treatment supplies vigor, vitality and manhood.  
**SYPHILIS CURED.** "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of Gleet and Stricture by Drs. Kennedy and Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years."—W. P. M., Jackson.  
**17 YEARS IN DETROIT, 200,000 CURED. NO RISK.**  
**READER!** Are you a victim? Have you lost hope? Are you contemplating marriage? Has your blood been diseased? Have you any weaknesses? Our New Method Treatment will cure you. The case is for \$100 damages claimed by O'Neal from Dr. Lynds for running over the former while the doctor was returning from Whitmore Lake last fall.

The Ann Arbor Organ Co. makes an announcement on our fourth page in this issue regarding a removal sale. The store they have occupied for several years has been sold to Martin Haller, who will probably occupy it for his furniture business. This makes it necessary for the Organ Co. to move, and though they have several new stores in view, they have not yet decided on one. The increasing business of the Company is such that they require a larger store, and one especially suited to their business. It is therefore not easy for them to get just the store they want in a suitable location. They have an unusually large stock just at this time, and this sale should offer extra inducements to close buyers.

**A Doctor's Spring Medicine.**  
In Good Council There IS Safety—A Medical Book Free.

John H. Hall, of Newton, Ga. writes: "I was bedridden for fourteen months. Nothing gave me relief until I tried Pe-ru-na. All medicines failed; all doctors failed. The Pe-ru-na cured me. I am now 68 years old and am in good health; Pe-ru-na did it. It is a wonderful medicine. Each bottle is worth its weight in gold. I recommend it to all sufferers."

While the multitude of sarsaparillas are vying with each other as to which is "the sarsaparilla," the people go right along and use Pe-ru-na as the ideal spring remedy. If the digestion is good, nerves strong, and sleep normal, all is well. Pe-ru-na will secure all these. What more can any or all medicines do? Medicine can not take the place of food, rest or exercise. Another thing which makes Pe-ru-na such a popular remedy is the fact that it is the regular prescription of an eminent physician and surgeon. Dr. Hartman is too well known to fail to inspire confidence to all who take Pe-ru-na.

Dr. Hartman's spring book sent free. Address The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

**Poor Indeed!**

There are degrees and kinds of poverty, just as there are differences of opinions among those who compute and measure poverty and riches by different standards. Some men deem themselves poor because they are less rich than others, again there are comparatively poor people who are satisfied with a competence. There is a kind of poverty for which no amount of wealth can compensate, namely, a poverty of bodily stamina, evinced by nervousness and a derangement of the functions of digestion, bilious secretion and the bowels. To restore vigor upon a permanent basis there is one remedy that fully covers the requirements, "fills the bill," and this is Hostetter's Stomach Bitters. By restoring digestion, giving a health-impulse to the action of the bowels and liver and tranquilizing the nerves, it fulfills the condition necessary to a resumption of strength by the system. It also overcomes malaria and rheumatism.

French "paste," from which artificial diamonds are made, is composed of a mixture of glass and oxide of lead. Rubies, pearls and sapphires are also successfully imitated by the Parisians.

**If the Baby is Cutting Teeth.**

Be sure and use that old and well-tried remedy, MRS. WINDSLOW'S SOOTHING SYRUP for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

**Business Like.**

The beggars of Paris are an enterprising body and treat their occupation, if so it may be called, with amusing seriousness. They have a regular directory of benefactors in two editions—a large and small one. These books give the names of persons known to be benevolent, also their religion and political faith; also the hour at which they may be found at home, etc. The "religious racket" is very remunerative, it seems. An old ragpicker at Clichy lately confessed that last winter her child was baptized twelve times in Protestant churches and ten times in Catholic ones; each time the mother received one franc and a new dress. When epidemics are raging the beggar asks for contributions on the plea that his or her offspring is down with diphtheria, croup, etc., and many people quickly respond in order to get rid of what they believe to be a very dangerous class of people.

Thousands have tested the great building-up power of Hood's Sarsaparilla and have found renewed strength, vigor and vitality in its use.

**Epilepsy 20 Years.**

Cured by Dr. Miles' Nervine.

A few years ago, Mr. L. W. Gallaher, was an extensive, successful expert manufacturer of lumber products. Attacked with epilepsy, he was obliged to give up his business. The attacks came upon him most inopportunistically. One time falling from a carriage, at another down stairs, and often in the street. Once he fell down a shaft in the mill, his injuries nearly proving fatal. Mr. Gallaher writes from Milwaukee, Feb. 19, '96.

"There are none more miserable than epileptics. For 20 years I suffered with epileptic fits, having as high as five in one night. I tried any number of physicians, paying to one alone, a fee of \$500.00 and have done little for years but search for something to help me, and have taken all the leading remedies, but received no benefit. A year ago my son, Chas. S. Gallaher, druggist at 191 Reed St., Milwaukee, gave me Dr. Miles' Restorative Nervine, and I tried it with gratifying results. Have had but two fits since I began taking it. I am better now in every way than I have been in 20 years."

Dr. Miles' Remedies are sold by druggists on a positive guarantee that the first bottle will benefit or price refunded. Book on the Heart and Nerves, free. Address, Dr. Miles Medical Co., Elkhart, Ind.

**Potato Yields in England and Wales.**

In England and Wales the average yield of potatoes per acre is estimated at about 6 1/4 tons; the average yield in Scotland is rather less than 6 tons per acre, but in Ireland the estimates show an average yield per acre of less than 4 tons, against more than 6 tons in Great Britain.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dining table. Neither gets the out of doors exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by adding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion; disorders of the stomach, liver, kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

**Armenia.**

Armenia, which is now playing so important a part in the politics of the world, is an indefinite extent of country—its boundaries being variously estimated to contain all the way from 50,000 to 150,000 square miles. Part of it is in Asiatic Turkey and part in Russia and Persia.

Things of the past with many happy mortals are the tortures of Headaches and Neuralgia which in some instances have been endured since childhood. Their better state, their rescue from affliction is due entirely to the curative powers of Gessler's Magic Headache Wafers. The record of this great remedy is unsurpassed. They are a specific for all headaches and neuralgia. The wisest physicians use and prescribe them. The remedy is backed up by guarantees as to its wholesomeness and its positive healing efficiency. They are guaranteed by A. E. Mummy.

**A DEFINITE REBUKE.**

No Palliation of the Offense that It Had Not Been Committed.

"I feel impressed to warn you, my dear young lady, against the danger you are courting," began the good man of the Cleveland Plain Dealer, severely. "It is bound to prove the dethronement of respectability."

"Sir! What do you mean?"

"Oh, it is no use to add impudence to your offending. I expect you to be ashamed of it. It is a curse. It unwomans woman. It creates a race of feminine tomboys—"

"But, sir, I—"

"Never mind! N-e-v-e-r mind! You can't explain it away. I must speak of it. You ought to be ashamed of it—indeed you ought—"

"Do you mean to insult me, sir?"

"Insult you, my dear young girl? Nay, verily! My heart bleeds for you. It is my duty to teach you ways of rectitude and social and spiritual worth and uprightness. And to think the example of our noble mothers must be thus parodied, burlesqued, shamed—"

"But hear me—"

"Hear you! Would you dare profane reason and common decency by attempting a defense?"

"But will you listen—"

"Listen? No! Duty listens not to attempted palliation. You are flying deathward at a terrible pace, and in what a garb, too! Try and break off from them before it is too late—"

"From what?" (Screaming.)

"From those miserable, horrid, sinful, unsightly, disgusting, baggy bloomers—"

"Why, I never had them on! Never saw a pair—"

"Humph! Ahem! Yes—well, it would be just as bad if you had!"

(And the lecturer gathered his frown together and started for the next house.)

**WOMAN EDITOR OF THE FUTURE**

Very Much Concerned Over the Evils of Rum.

"Helen!" The managing editor of the future spoke sharply. She was evidently angry about something, says an exchange.

"Yes, ma'am," replied the private secretary, quickly responding to the summons.

"Write a note to Miss Doolittle telling her that we will dispense with her services in the local room in the future."

"Yes, ma'am."

"She is drinking too much," explained the managing editor. "I am sorry for her poor father, who is a widower and has to depend on her for support, but I can't help it. She will have to go."

"I'll do it at once, ma'am."

"This liquor evil is becoming a very serious matter," continued the managing editor, musingly. "I don't much blame those poor men out in Kansas who have been holding prayer-meetings in the street in an attempt to break up the saloon business. They are taking long chances of insult, though. It's no place for men. I don't see what their wives are thinking of to let them do it. We'll have to have a good special on the subject before long."

"Meanwhile," continued the managing editor, coming down to business—again, "tell Mrs. Slasher that I want a good, stiff editorial on the women who persist in going out between the acts to see a girl or get a clove. It's an insult to the gentlemen they take to the theater."

"I have that, ma'am," said Helen, looking up from her note-book. "What else?"

"Leave a note for Mr. Prettyman about his society. Twice recently he has made the mistake of referring to Mr. and Mrs. Jones instead of Mrs. and Mr. Jones, as every one knows it ought to be. It's inexcusable."

"Yes, ma'am."

"Then tell the city editor that I want a good interview with Mrs. Margin, the president of the board of trade, on the slump in wheat. There ought to be a good story in that. I understand that the firm of Mesdames Coupon & Bond was badly squeezed and that Jennie Plunger made so much that she blew in \$200 or \$300 celebrating with the girls on the board of trade and squared herself by buying her husband a diamond ring and a sealskin coat."

With a wave of the hand the editor of the future dismissed her private secretary and gave her attention to an editorial on "The Absurd Claims of the New Man."

**Horse with a Memory.**

Eleven years ago a horse was purchased for the fire engine Portland No. 2, on the Munjoy hill. This horse was called old Tom and it helped draw the engine for six years and was then disposed of. It has been drawing an ash cart of late years and the other day went by the engine house. Engineer Loring, who knew the horse well, since they came to that engine house in the same year and were there together for six years, fell into conversation with the driver and told him that he hadn't a doubt that if the old horse was put in his old stall and the gong was sounded he would rush for his place in front of the engine just as he used to do. The driver doubted this and they agreed to try it. The old horse, now fifteen years old, was put in his old stall, where he hadn't been for five years. At the first sound of the gong he started for his old place under the harness in front of the engine. He tried to go quickly, but made a sorry exhibition of nimbleness compared to his former habit. This seems to be pretty good evidence of a horse's memory.—Portland Press.

**TOO MUCH WORK**

For a Healthy Existence.—That's Why the Kidneys so often Fail.

Nature has provided a certain amount of work for every organ of the human body; overtax them and disease eventually follows. There is not one portion of our organism that is so overworked as the kidneys; on them is placed the important function of filtering the blood of the impurities which naturally form in the regular action of life and digestion. The kidneys are consequently termed the sewerage of the system; clog up this sewer, and the blood becomes tainted with poisonous uric acid, which brings on disease in many forms. The back is the first to show this stoppage. From there comes the warning note; it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following warning note; it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following warning note; it should be heeded, and the kidneys receive prompt attention.

Mr. Wm. Nelson is a well-known business man of Kalamazoo, he resides at 822 Portage Street, and his business is that of a grain buyer. He says:

"For five years I have suffered from an inability to urinate, which resulted from what was said to be a stoppage of the bladder. During these years I have taken mineral and electric baths and used other means in expectancy of getting better, but they all proved unavailing. Some months ago I began using Doan's Kidney Pills, which I had heard highly recommended, and I can now say that the flattering reports were not greater than they deserved. I got better right along, and I am free from any trouble now. I feel better than I have done for three years past. If Doan's Kidney Pills were well known all over they would do an immense amount of good."

Sold by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

**New Jersey Grape Juice sent to Europe.**

Mr. Speer, of New Jersey, has a reputation extending over the world as being a reliable producer of Oporto Grape Juice and Port Wine. His Oporto Juice and Port Wine are ordered by families in Dresden, London and Paris for their superior medicinal virtues, and blood making quality, owing to the iron contained in the soil in which the vines grow.

**Horseless Carriages in England.**

Sir David Salomons has all the indefatigability of the enthusiast in his crusade in support of the evolution of the motor carriage. He has now been successful in forming a powerful association for the purpose of bringing parliamentary influence to bear on the government with the object of removing the legal disabilities under which this class of conveyance now labors in this country. Sir David Salomons is of the opinion, however, that sweeping improvements are required in the existing types of self-propelling vehicles before they can be regarded as fitted for general public use. It is satisfactory to note that the new president of the association has a sufficient and even superabundant faith in the ability of native mechanics and expresses the belief in this department of vehicular transport we shall take our place well in advance as soon as the time comes.—Exchange.

**A False Diagnosis.**

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

**Australian Salt Bush.**

An attempt is being made to grow the Australian salt bush in the alkali regions of Arizona. It is similar to alfalfa and makes an equally good food for stock. If the experiment is successful it will result in the reclamation of vast tracts of low land now worthless.

"I was troubled with that dreadful disease called dropsy; swollen from head to foot. Burdock Blood Bitters has completely cured me. It is a most wonderful medicine." Joseph Herick, Linwood, Ont.

**THE NERVE SYSTEM**

Is the most delicate and important structure in the human body. It is the seat of our intellects. Strengthen and restore the nerves and disease has lost its most powerful and pernicious ally.

Mayon's Spinal, Blood and Nerve Remedy is prepared especially for the Nerves.

Instantly relieves and permanently cures torturing pains in the head, body or limbs, SLEEPLESSNESS, NERVOUSNESS, LOSS OF NERVE POWER, DIZZINESS, CONFUSION OF THE MIND, etc. Delay is dangerous. Send for valuable treatise.

Mrs. M. Quinlan, No. 2220 W. Walnut Street, Louisville, Ky. writes: I think God must have sent your remedy to me. I was bed-ridden with a complication of diseases which finally resulted in complete nerve exhaustion and severe sinking spells, when I first commenced using it. I began improving at once, have used 10 bottles and am now assisting in the care of my home, something I have not done for years. It certainly has helped me when everything else failed.

Our agent at Ingleside, Ind. says: A young man who had been down for three winter on a stretch with Rheumatism got so bad last fall that they made his bed in a wagon and brought him to me. He was not able to raise up. After using 3 bottles of your Remedy he is all right again and says, he feels as if he had never been bothered with Rheumatism.

DOG BROUGHT THE PARDON. A Convict Who Won the Governor's Confidence Through His Dog. It was a dog that brought liberty to a convict in the Kentucky penitentiary recently, says the Cincinnati Enquirer.

For some time Garden has been employed as a "trustee" at the executive mansion, doing chores and running errands. The dog, a fine specimen of the shepherd breed, is a family pet and is unusually intelligent.

When the pardon was made out it was suggested that the dog be permitted to carry the welcome freedom to his devoted friend. The paper was enclosed in a stout envelope and given to the animal, which was told to go to the penitentiary.

Garden was in the yard patiently awaiting the arrival of the governor's messenger, never dreaming that the dog had been selected. Catching sight of the well-known face, the dog ran up to the convict and laid the envelope at his feet.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

This is Diplomacy. For grave speeches of importance delivered with weight Bismarck was, of course, most celebrated. When annoyed he nearly always adopted a jesting tone, which must have sounded to his frightened friends much as if the tiger in the menagerie had greeted them with a cordial handshake before leavering.

My Tender Conscience. That measures five feet three, Whose slight reproach is worth whole tomes Of old divinity;

Who leads me by "a still, small voice," And, with a loving glance, Reminds me while the lamp holds out This sinner has a chance;

Whose form is ever by my side, And at the door of sin Thrusts out a white and rounded arm And bars the way within.

No man can ever go astray Who pauses to reflect That he must meet those modest eyes And keep his self-respect.

So with a firm, unshaken front I bid old Satan flee, For I've a tender conscience That measures five feet three. —Ladies' Home Journal.

HEROIC WOMEN. Their Struggle Against a Common and Merciless Enemy.

Woman's heroism is not evinced by fearlessness or enterprising time of danger, but her courage and fortitude are unquestionable in time of suffering.

Think of the woman who smiles and tries to make those around her cheerful, while she is racked with the excruciating tortures of womb trouble.

Think of one who, day by day, begs her physician to help her, while the torture of tortures could not add to her misery.

Does she yield? No! She endures her agonies, and meets her friends with cheerfulness.

This is woman's heroism, and few men realize how prevalent they are. Physicians rarely render relief in such cases.

New Indian for Massachusetts. F. W. Putnam, Peabody professor of American archaeology and ethnology at Harvard university, has presented to Secretary of State Olin a description of an Indian which he thinks should take the place of the present one on the Massachusetts coat of arms.

The present Indian is agreed by all who know anything about it to be but a poor representative of the type which was here in Massachusetts in the days of the early settlers and Secretary Olin has for a long time been anxious to remedy this defect.

In his report Prof. Putnam gives a description of the accoutrements and wearing apparel of the figure and gives his authority for the use of each article and also for their positions on the figure.

QUEER STORY OF REAL LIFE. A Young Girl Arose from the Grave to Live Many Happy Years.

One night in 1801 a little girl about one year old was deposited on the steps of the founding hospital at Brest. She was dressed with much finery and a note attached to her skirts told that her name was Solange and that she would be reclaimed by her father, says an exchange.

Everyone Has Catarrh in Some Form. A Startling Fact.

Dr. Strathmore is the authority for this statement and it is not unreasonable when we consider that the climate of this country is peculiarly adapted to catarrhal diseases. Twenty years ago the physicians openly announced that they were unable to cure catarrh, now 50 cts. invested in a jar of Pretzinger's Catarrh Balm will give the most complete relief to every form of this annoying and often dangerous disease.

**SOME SPRING FABRICS.**

What Women Will Wear and How It  
Will Be Made.

It actually gives one cold chills to go into a shop all muffled up to the eyes in furs and flannels and see the counters heaped up with sheerest organdies, mulls and cobweb lawns, and yet here they are, says an exchange. The winter season, only just fairly getting the pace, and the new not worn off our imported gowns, and now we must hustle to get the pick of the newest shades and patterns for our summer frocks!

Have you seen any of these new fabrics? Positively, it is as good as any display in an art studio. No water-color ever showed daintier handling than that exhibited in the flower sprays and wreaths on the lacelike fabrics that are designated organdies, and no Gobelins tapestries were ever more cunningly devised than the Persian effects that come in soft silks and lawns for summer wear. It seems that stripes will be the rage. A delicate ground of lilac, or blush, or canary, with long, graceful flower strands in continuous chain, separated by a quarter-inch stripe of black, or a much darker shade of the same color as the ground, is the style you see most of now. The stripes are three or more inches wide. This presages the advent of tall, sylph-like figures again, or else that skirts are to be full and flowing, with wider effects than ever.

Modistes do not talk much yet, but one who studies those things must conclude that long, straight breadths in skirts will prevail, for to cut those stripes in gores would present a most bizarre appearance, and a waist that was cut in side forms and seams down the back would make one look positively grotesque. The blouse waist will be here in all its force, and with new charms, early in the spring, of that you may be sure.

Other lawns have a shimmering kind of a lightning-struck stripe in dark color on light ground that makes you think that crepe weaves have invaded the domain of the cotton. Some of the exquisite-colored organdies have great bunches of bright blossoms scattered over them, and others have the flowers printed in just as they are on the taffetas, with that shimmering, elusive effect that is perfectly bewitching.

Then there are the sheer-white organdies and lawns, that look as though they would melt away in thin air if you breathed heavily upon them. Of course, all this thin stuff presages colored linings. India silks will be used for slips to wear under these flower gardens, and you can have no idea how very pretty the effect is. If the color to go under is wisely and artistically chosen, it heightens the effect of the flower coloring, adding brilliancy and charm to the material.

Thousands of the victims of consumption owe their death to the simple neglect of a cold. Dr. Wood's Norway Pine Syrup cures coughs and colds, bronchitis and all throat and lung troubles.

**Export of Horses Increasing.**

The export of horses from this country to Europe has increased largely in the last two or three years. During the first eight months of last year 222,755 horses, valued at \$2,947,000, were shipped to British ports, as against 15,614 in the same period of 1894, and 19,177 in 1893. The shipments to continental ports show a large increase, too. The variety of horses in demand are different in almost every country in Europe. Despite the astonishing fall in the value of range horses in the west, horse breeders in the south and east think the future is very promising.

**The Natural Highway.**

The Grand Trunk Railroad with its numerous lines and connections via Port Huron and Detroit; its through vestibuled trains to New York and intermediate points including Toronto, Montreal and Dominion of Canada; also its lines to Boston both via Niagara Falls and Montreal; its noted fishing, hunting and pleasure resorts at Muskoka lakes and Georgian bay; its St. Lawrence river, Montreal, Quebec and eastern sea-coast, tours,—make it the most convenient and popular line, for those wishing to visit these several points on business, or make up an elegant tour for the coming summer. For any particulars apply to D. S. Wagstaff, District Passenger Agent, Detroit, Mich., or to N. J. Power, General Passenger Agent Montreal, P. Q.

**The Undergraduate, Oxford.**

As for the modern undergraduate, as a rule he is the most quiet and peaceable of mortals and has long since given up such violent delights as wrenching off door-knockers, assaulting policemen or squaring up to barges. Not that he is the least deficient in spirit or courage, as those who have watched the football matches in the parks will readily testify, but, except at such licensed saturnalia as a college "rag" or a bump supper, he keeps his voice and temper under perfect control and cultivates a dignified repose of manner which would do credit to a member of White's or Arthur's. Anything like loudness or ostentation is vetoed as bad taste and it may be added that his dress is as quiet as his deportment.

**Tunnels Are Cheap.**

There has been a very marked decrease in the cost of tunneling of late years. The Railway Review, commenting on this fact, ascribes it to the great improvement that has been made in rock-excavating tools and in general mechanical methods. According to the same journal the Hoosac tunnel cost \$379 per foot, the Mont Cenis, the next in date, \$356 per foot, the St. Gothard \$229 per foot and the Arlberg \$154 per foot. The tunnel on the line of the Northern Pacific railroad through the Cascade mountains, 8,950 feet long, was bored at the rate of 413 feet a month at a cost for the complete tunnel of \$118 per foot.

**A COZY PAGODA.**

An Old Friend Making Itself Known  
in Chicago

In one of the great retail grocery stores in Chicago, a special pagoda or booth stands about the middle of the great room which covers some acres in extent.

This picturesque little affair is built with a counter and upper deck, the whole structure being decorated with a soft white material gracefully draped and trimmed with navy blue cloth.

An array of delicate imported cups and saucers covers the front counter and the dainty after dinner coffee spoons and a good natured steaming coffee pot seem to indicate free coffee for the asking, but the familiar round red disk containing the words, "It makes red blood" announces to all newspaper readers that Postum, the grain beverage which looks so much like coffee, is being served by an attractive young lady. The exhibitions of Postum continue by the year in the large stores in Chicago and the celebrated food-drink is used by many of Chicago's best families, in the place of coffee.

Postum has established a position for itself by pure merit, and is known as a distinct beverage, with its own pungent flavor and nourishing properties. Tea is a beverage, Chocolate is a beverage, Coffee is a beverage, and Postum is a beverage, all being dissimilar and all having their own peculiar merits. The last named is made of pure grains and is easy to digest and has a tendency to fatten when used by thin people, after discarding coffee.

Will grocers sometimes work in cheap imitations of Postum Cereal coffee the customer will stand it.

**KEPT HIS VOW.**

An Aged Miner Dies in California After  
a Romantic Career.

Another strange romance has come to light in the mining camps of California in the discovery of the fact that an old miner, known as "George Barnes, the hermit," who died at Jacksonville a few months ago, left a fortune of \$100,000, which will go to his brothers in New Jersey, says the San Francisco Chronicle. One is James Barnes, a well-known citizen of Paterson, and the other is William, of Franklin, in the same state.

The story of how their brother, George, lived and died, leaving them his fortune, is a romance. In their youth the three brothers lived with their parents on the heights of Pover-shun, N. J., simple farmer boys. George the most ambitious son, fretted under the restraints of farm life and determined to marry before he reached his majority and come west. He fell deeply in love with a young woman and spent much of his time in her company, but his father strongly objected to the attachment and forbade the marriage. The result was a bitterness between father and son and George was severely reprimanded. The trouble culminated in George's determination to leave home, and one morning forty-three years ago, he bade his family farewell. "I am going west," he said, at parting, "and I shall never return. If I cannot marry the girl I love I shall lead a hermit's life. I shall never speak to a woman again." Long years the family waited for word from the wandering son, but none came. The parents died, the brothers separated, and George was given up for dead. Only recently it was discovered that the old hermit of Jacksonville, who was found dead in front of his cabin a few months ago, the strange man who shunned men and never spoke to women, was the same romantic young man who left home in 1852 with the oath of his strange life fulfilled. Barnes worked a claim of his own and when he died papers found in his hut showed him to be worth over \$100,000. The names, whereabouts and relationship of his relatives were found also among his papers.

**It Did Not Work.**

A rich farmer in Michigan is down on the national administration, and he has let a large flock of his sheep perish from exposure and want of food to prove it. He was arrested by agents of the Society for Prevention of Cruelty to Animals, and pleaded in his own defense "the Democratic administration has so depreciated the value of wool and sheep that it is cheaper to let the animals die than to provide for them." The court would not listen to the political side of the case and fined the farmer \$50.

**WOMEN NOW WEAR TIGHTS.**

Greater Object-Lesson in Dress Reform  
Than Bloomers.

"There has been an unprecedented sale in tights this year," says the New York World. "This does not mean that ballet girls are in the increase, but that the bicycle habit is growing enormously among New York women." The head of the big hosiery department of a big New York dry goods store said this, and she illustrated it by showing the variety of styles, colors and qualities in equestrienne and pedestrian tights.

"You mustn't think that women wear tights only on the stage and for outings. They are worn instead of the union undergarments by the best-dressed society women. Thin women may wear them, but fleshy women must. You see, with excellent quality of wool and silk you can get more warmth with less material than in any other style of garment. There is an especially fleshy woman patron of ours for whom we have tights made especially, of extra thickness and warmth. She is thereby enabled to dispense with underskirts, and besides gaining more freedom from hampering petticoats, she avoids adding more bulk to her hips, and her chamois-lined skirts hang beautifully. All the best dressmakers advise tights for fleshy women."

"Why tights for bicycling?" "Well, we sell the equestrian tights for riding, bicycling, skating and all outdoor sports, chiefly on account of warmth, and with short skirts and bloomers because they are better than long hose, which are likely to wrinkle or crease or get unfastened and look loose and untidy and feel uncomfortable, even under leggings. Tights, if they are of good quality, always fit and take away the necessity for those abominations, garters.

"We always have a good sale of equestrians as the skating season comes on. There is such freedom of motion in them. You may laugh, but I think the ballet has been more of an object lesson in dress reform than the 'new woman.' You wouldn't think it, but the silk ones are warmer than the wool. Oh, yes! Much more expensive. The cotton and wool tights come as low as \$1, but \$5 to \$15, according to quality, is the average for the silk garments. Black we sell mostly. Yes, some women have them to match their gowns, but it is mostly among stage women that we sell the colored goods. The cashmere goods are very fine and we sell the most of them, though the silk is more durable, and it costs more.

"I can almost tell a woman who wears tights by the way her skirts hang and by her walk. The dressmakers say that tights belong to the era of fine art in dressmaking, for the graceful drapery they make possible—  
"Yes, ma'am; \$4.50 a pair; warranted fast black." And the fat-and-40 customer took four pairs.

**Dressing is an Art.**

Clever dressing is an art. The sooner women acquire it the happier they will be. If you have an angular form do not intensify it by wearing a gown cut to fit you like a glove, but allow the lines to flow gracefully, and have a full, pouchy waist, softly banded about the waist. A pretty frock of this sort is made up of dull heliotrope cloth with a satin smooth surface. The skirt flows about the limbs in numberless godets, utterly devoid of decoration. The bodice has a body of pearly colored crepe de chine gathered full at the shoulders and brought into the waist by a lot of tiny gathers. Under-arm pieces of heliotrope velvet fit the form so as to prevent a bulky look and come below the waist in full, square tabs. A soft, crushed belt of crepe encircles the waist. Over the gigot sleeves of heliotrope cloth set out smartly revers of crepe, overlaid with an open work of thin lace. A deep stock collar of heliotrope velvet finishes the throat, with a huge bow at the back.

**Itching,  
Burning,  
Eczema**

Is the external indication of a condition of the blood which produces a fiery irritation almost unbearable. It is a mistake to think that this local irritation is the disease itself—it is simply an evidence of a disordered condition of the blood. The seat of the disease is in the blood, and this is why the various salves and ointments usually applied have no effect whatever. They cannot possibly reach the origin of the trouble; only a blood remedy can do that. S. S. S. is without an equal for blood diseases, and promptly and permanently cures Eczema and removes all taint.

Much torture could be avoided if the first itching symptoms were heeded and a course of S. S. S. taken promptly, as apparently insignificant skin irritations usually develop into the worst form of Eczema unless properly treated.

It matters not what other treatment has been tried in vain, S. S. S. always gets at the seat of the disease, and forces it out.

Mr. William Armstrong, an old resident and highly respected citizen of De Pere, Wis., writes on April 1st, 1896.

MR. WILLIAM ARMSTRONG.

"I have been a sufferer for eight years with that horrible disease, Eczema, at times all over my body, and no person can describe the burning and itching I had to endure.

"The extent of my sufferings can be appreciated when I state that my condition was such that I could not take my bed, and for three months I never laid down, but was compelled to sit in my chair when not moving around. I was treated by the best of physicians with no success, and tried all the patent medicines recommended for Eczema, without any good results. I then went to the Indiana Mud baths, with the same results, and then to Mt. Clemens, the celebrated medical resort, where the treatment partially helped me, but the disease shortly returned. I went to Florida, thinking that a change of climate and water and the citron fruit might cure me, but found no cure.

"I then tried S. S. S. and after three days the burning and itching subsided, and I continued to improve steadily until I was well—entirely cured. After commencing S. S. S. I never put an external application to my limbs or any part of my body. You may refer to me any person suffering from Eczema. I will always keep the S. S. S. in my house, for I consider it the best blood medicine of the present age. I am seventy years of age and am now in perfect health."

For real blood diseases relief can only be obtained by using a real blood remedy. So many people who are sufferers from an obstinate or deep-seated blood disease make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. It is in just such cases which other so-called blood remedies cannot reach that S. S. S. has made some of the most wonderful cures.

S. S. S. cures permanently Cancer, Catarrh, Rheumatism, Eczema, Tetter, Contagious Blood Poison, Scrofula, and all other diseases having their origin in the blood. It is a

**A Real Blood Remedy.**

and gets at the seat of disease and forces it out promptly even after other so-called blood remedies have failed. S. S. S. is guaranteed purely vegetable.

**CATARRH COLD IN HEAD**  
The other day, when Paderewski was dining at a hotel, a fine nickel plated banjo was sent in by a banjo player, with the request that the great piano player should write a short musical sentiment on the sheepskin head. Paderewski complied with the request, and this is the sentiment to which he attached his signature: "I have not the pleasure of being a performer on this beautiful instrument; am only a piano player." Now the banjo player is asking his friends if the virtuoso was "jolly-ing" him.

**NEW AFRICAN LAKE.**  
French Occupation of Timbuctoo Adds to Geographical Knowledge.  
Although the occupation of Timbuctoo by the French has not yet added materially to the volume of France's colonial trade, it has unquestionably added very greatly to our knowledge of the geography of that part of Africa, says the Edinburgh Scotsman, and in particular has resulted in a discovery of singular interest and importance.  
Timbuctoo, as all the world knows, stands on the boundary line between the Sahara and the western Soudan—a little to the north of the great Niger bend—but what was not known was the existence in the immediate neighborhood of the city, and lying somewhat to the west of a series of lakes and marshes covering a large area of country. These great sheets of water were first seen by the Joffre column, and have since been explored by French officers stationed in the neighborhood, who have laid down their general outlines with some approach to accuracy. The most important of these lakes is called Lake Faguibure, and runs in a direction, roughly, east and west, its total length being some sixty or seventy miles. A couple of smaller sheets of water connect with the Niger, and there are other lakes in the neighborhood. As might be supposed these lakes are the center of a rich agricultural and pastoral district. Crops of various kinds are grown in abundance, and the natives have large flocks and herds. Perhaps the most curious feature of the discovery is the fact that neither Barth nor Dr. Laz appears to have heard of this fertile region, and it is to be presumed that the guides deliberately led them away from the direction of the lakes. The news of this discovery will no doubt revive the interest in the occupation of Timbuctoo in France, where, after the first enthusiasm was over, there was a marked tendency to criticize Col. Bonnier's act as rash and premature—a tendency rather strengthened than weakened by the recent trouble with the Tauregs. The results of observations on the climate of that part of Africa establish, it is said, the perfect feasibility of Europeans living there the whole year round, with certain precautions. The months of April and May are said to be the most trying, not only for Europeans, but for natives, but December and January are so cool that a great coat is sometimes welcome, and the natives report that one year ice formed—at least this is the deduction drawn from the native statement that "the marsh became etene."

**NEVER HURT ANYBODY.**  
Only Wanted the Opinion of an Expert on His Purchase.  
He was going west on a Madison avenue car. He had a bundle on his knees and from the way he hitched around and looked at the men on either side of him it was evident that he wanted to talk to some one, says the Detroit Free Press. He finally selected the man on his right, who was a dapper little fellow with eye-glasses and a gold-headed cane.  
"Ever bothered with rheumatics?" suddenly inquired the man with the bundle.  
The dapper man never moved an eyelid.  
"I'm having it considerable this winter," said the other. "Strikes me in the right shoulder and I can't wash the back of my neck more'n half the time. You look as if you might be subject to it."  
The dapper man was now flushing up across the car and the only movement betraying life was a jerky motion to one toe.  
"Bin a-buyin' a flannel shirt," persisted the man with a bundle. "Some advised me to get medicated flannel and some said the common red flannel would do. Which sort do you think is best?"  
The dapper man was now flushing up and his eyes turned to the door, but he gave no other sign.  
"I paid \$1 for this," continued the bundle man as he untied the string, "and he warranted it not to shrink. I'd like to ask your opinion of the goods. Have I paid too much?"  
He unwrapped the paper and held the shirt up to view. It was a red flannel shirt, which appeared to be nine feet long and at first sight the dapper little man turned whiter than flour, got up, fell over his cane and got up again, shot outdoors and dropped off. Everybody else laughed heartily and after looking around in a surprised way the old man began doing up his bundle and observed:  
"He needn't have bin a-sart of me. Lands save me, I never hurt nobody in my life."—Detroit Free Press.
