A GREAT PRODUCTION.

PROF. STANLEY'S SYMPHONY RENDERED TOMORROW AFTERNOON.

Those Who Have Heard it Cannot Praise it Teo Highly-It is Sure to Greatly Increase the Professor's Reputation as a Composer-The Symphony is Dedicated to Pres. Angell.

While this symphony is not strictly speaking program music its title "The sents the gradual awakening of a soul standing for the Spring-time of lifethe second Lovelife-the third Joyfulcharacter resulting from the experiences of the soul depicted in the premovement which represent simple rechestra, without unusual instruments. the wind instruments stand for influences or suggestions from outside acting upon a soul (the strings) which as yet has learned nothing of the true meaning of life, nor awakened to a realization of its own power. This irresolute attitude of the soul is indicated by the abrupt changes of mode key. The soul seems to respond several times, but sinks back again into its former irresolute state, until at the end of this part and leading into the first movement, it arouses and looks guestioningly about. The first naive impressions are indicated in the first movement which is in strict (although very simple) Sonata Form. This movement. F. The Second Movement B. Flat (4-4) time; Adagio Con Molto espressione represents the soul under the influence of strong emotions-love-grief-despair. The principal subject is given out by the first violins and canonically imitated by the violincellos in the seventh below. It is strictly developed during the first exposition of the subject and leads through a short connecting passage for the brass (also in imitation) to a short espisode in which the imitation is in the second. A short solo for horn accompanied by tremolo in the violin and violin solo, develops into an imitation subject which after for full orchestra-after which following more elaborate figurations for different instruments, the principal theme is given out by the woodwind accompanied by a characteristic violin figure. By Ald, Coon.

Resolved, That the construction of sidewalks here in after mentioned is deemed and declared a necessary pub-lic improvement, therefore it is hereby ordered that plank side walks be graded, built and constructed on and along the following streets by the fol-lowing property in the City of Ann Arbor, viz:

On the east side of Maynard from Liberty along the property of Miss Irene W. Steward, on the south side of Michigan Ave., from the east line of east University Ave., to the east line of the property of Arthur Brown, to the property of John R. Miner, on the north side of Geddes Ave. From the gate of the Forest Hill Cemetery, along the property of the Forest Hill cemetery Association. The same to be constructed on the grade to be hereafter established by the City Engineer. Also on the north side of Geddes Ave., from the east line of Walter H. Nichols, extending east to the east City limits. And further it is hereby ordered that the following side walks be relaid and repaired. On and along the following streets, and in front of the following property in the City of Ann Arbor, viz: On the east side of 14th street along the property of the University of Michigan, known as the grounds of the Detroit Observatory. Also the south side of east Ann street, along the same property. On the east side of Maynard street in front of Nos. 5 and 7, the property of Mrs. Hardy, R. A. Beal, Est. On the north side of east Liberty street, in front of 29, 31, 31 1-2, the property of the James estate and Siegfried Rosenthaler.

Ald. Cady moved as an amendment to the report of the committee that the Forest Hill Cemetery Association be allowed to build a cinder walk in place of plank.

Ald. Maynard moved as a substitute that that portion of the report be stricken out and laid on the table until next session. Adopted.

ORDINANCE AND SIDEWALKS.

To the Common Council:

Your joint Committees on Ordinance and Side walks, to whom was referred the petition of Michael Brenner, asking for the privilege of erecting a portico in front of his property at the corner of Huron and Ashley streets, would recommend that the prayer of the petitioner be granted. Provided, the petitioner construct the same in the manner, and of the material stated by your committees.

Gibson is chargeable of any wrongful intent in retaining said money in his hands and are inclined to accept his testi-

mony in that regard as a full explana-

tion of his conduct. Your Committee also met with the Police Committee at the Council room in the City of Ann Arbor on Friday the 8th day of May last and examined the reports of the City Marshal and compared said reports with the dockets and official records of Justices Pond and Gibson and found that all moneys paid to M. C. Peterson as said Marshal by said Justices or by any other persons and all other moneys received by him from any other source that belonged to said City have been paid to the City Treasurer by said Marshal and that said report and rumors referred to in the above resolution, so far as the Marshal is concerned, were entirely without foundation and that no investigation of his official conducts was called for, and that said rumors and reports so far as your Committee have been able to learn are wholly false.

The people who have been so strongly urging Governor McKinley to tell the world just what kind of platform he desires know very well the truth of what General Gros-venor says. Their whole effort has been to embarrass McKinley and his friends and they have not succeeded.

The convention that nominates the andidate will also make the platform. t will be a Republican platform and McKinley will stand squarely upon it Republicans know that McKinley has had a great deal to do with writing the national Republican platforms in the past, and they have been in such ac-cord with him that there is little doubt but what the delegates will make a platform that will please him. Of one thing assurance is doubly sure, and that is that the enemies of the nominee will not be allowed to dictate the plat-

METHODIST CONFERENCE STILL BALLOTING.

C. C. McCabe Continues in the Lead as Choice for Bishop-Earl Cranston and H. A. Battz Close Behind Him-Bowen's Vote Drops to 17.

presided at this morning's session of he Methodist conference. As soon as the reading of the journal was completed a motion was made to take the ninth ballot for bishop. Dr. Buckley at once opposed this on the ground that many of the ministers who went out of the city to preach Sunday had not returned. and the voting was made a special order for 10 o'clock.

The time until 10 o'clock was fully occupied in a discussion of the report of the committee on itinerancy and at that hour the ninth ballot was taken. Nearly an hour was consumed in counting the vote, but immediately after the recess the tellers entered the room. The whole number of votes cast was 500, making 334 necessary to a choice. The result on the leaders was as follows: C. C. McCabe, 238; Earl Cranston, 236; H. A. Buttz, 218; J. W. Hamilton, 159; T. B. Neely, 57; J. W. E. Bowen, 17.

The result of the ballot proved a great surprise. The loss for McCabe was 32. Cranston 27, Buttz 62 and Bowen20, while the gain for Hamflton was 59 and for Neely 40. This bore out the rumor of a break to Neely and Hamilton, and the result of the tenth ballot was awaited with intense interest. The vote was ordered taken, when Dr. Teter, of Iowa, moved to defer all further balloting for bishop until the next general conference in 1900. No second was secured. The report of the committee on revisals was then read. It showed no changes other than that minor matters of routine were recommended.

SEVEN KILLED BY CYCLONE.

Only Five Houses Left Standing at Reserve, Kan.

Kansas City, Mo., May 19 .- News of the loss of life and destruction of property by Sunday's cyclone in Kansas is slow in coming in, caused by the crippled condition of telegraph wires. What has been received makes it plain that previous estimates of the damage done were none too high, and, in fact, may be added to when communication is completely reopened. Fully half a dozen towns were struck by the "twister" and the known dead is seven. The injured number fully thirty , many of whom, it is feared, are fatally hurt. Reserve, a village on the Missouri Pasific, in Brown Courty, seems to have felt the brunt of the storm. But five houses are said to have Could Not Weaken Such Testimony been left standing there.

Schooner Mary D. Ayer Founders Off

Grosse Point. Chicago, May 19.—The schooner Mary D. Ayer collided with the steamer Onoko of Grosse Point about 12:30 o'clock Sunday morning. Eleven hours later, while the sleamer Duluth was trying to tow it ashore near Racine, the schooner sank, and Capt. Williams and four of the crew were drowned and the remaining two were saved and brought to Chicago by the City of Du-Cleveland, May 19.-Bishop Newman luth. The Mary D. Ayer was owned by Ed. E. Ayer, the big cedar merchant, and used by him for carrying cedar and lumber from Alpena to his Chicago yards. She was of 336 gross tons burden, measuring 144 feet in length, 29 feet beam, and 11 feet deep. She was built in Saginaw, Mich., in 1854, was rated B1, and valued at \$5,000.

Tariff Cause to Be Heard.

Detroit, Mich., May 19 .- It develops that the attendance at the national non-partisan commercial tariff convention, which meets in this city June 2, will be considerably larger than its projectors at first anticipated. From letters received, the sentiment favoring holding annual non-partisan tariff conventions is almost unanimous. The convention committee, consisting of presidents of boards of trade, commercial bodies, and labor and farming organizations representing various sections of the country, will meet June 1, and arrange the final details and choose temporary officers.

Important Supreme Court Decision.

Washington, May 19 .- Justice White handed down the opinion of the supreme court in the case of the Singer Sewing machine trade mark. The judgment of the court below, the circuit court for the northern district of Illinois, which was against Singer, was reversed. The Supreme court held, however, that others using the name "Singer" as a trade-mark should show the source of manufacture.

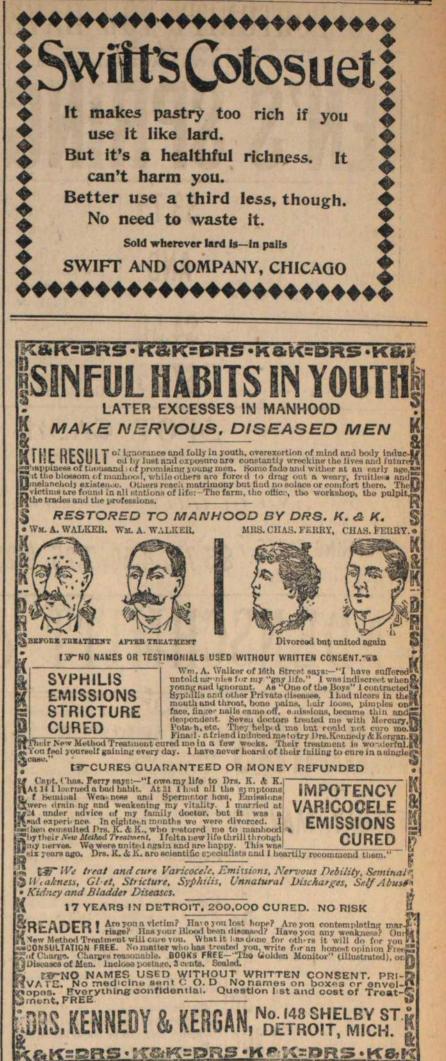

As This.

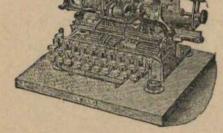

(From the Kalamazoo Telegraph.)

The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken

down by our representative: "My name is John A. Wallace. I am a member of the firm of J. A. Wallace & ment, sometimes the urine was scanty and then again the amount would be excessive, condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am con-tinuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. I have unbounded confidence in Doan's Kidney Pills as a remedy for all kidney ailments; have good reason to be, as they have done so much for me." Can you ask any more than this? Doan's have done so much for me." Can you ask any more than this? Doan's Kidney Pills are relieving more backs of the burdens they have been forced to bear through the kidneys than all other means derised, and, better still, they are doing this right here in Michigan. Ask any one who has ever taken them and see what they who has ever taken them and see what they will say.

Advice to Canadian Catholic Voters. Montreal, Quebec, May 19.-In all the Roman Catholic churches in Quebec province, a mandate, signed by the archbishops and bishops, was read last night dealing with the duties of the faithful in the approaching general election. The mandate concludes as follows: "Therefore, all Catholics should only and solemnly engage themselves to vote in parliament in favor of the legislation giving to the Catholics of Manitoba the school laws which were Manitoba the school laws which were recognized as due to them by the privy council of England." er's, price, 50 cents. Murderers May Be Lynched. San Antonio, Texas, May 19.-Two

weeks ago Benito Ortiz and Yidefonso Garza, two well-known and highly-respectable citizens of that county, were shot and killed from ambush in Duval county, south of here. Circumstances pointed to Valentine Colonzo as the murderer. He has been arrested and has made full confession of his guilt. The murdered men had numerous friends and they are making strong threats of lynching Colonzo. The latter is in jail.

Illinois Sons of Veterans. Chicago, May 19.-The divisional council of the Sons of Veterans will meet at headquarters, 84 La Salle street, at 3 o'clock to-morrow afternoon. The fourteenth annual encampment of the division will convene Wednesday morning at 9. Wednesday evening a reception and ball will be given in honor of the officers of the division, delegates, L. A. Funeral of Pretoria Suicide.

Pretoria, May 19.-There was a great demonstration today upon the occasion of the funeral of F. L. Grey, the reform committeeman who committed suicide by cutting his throat while in jail, while laboring under melancholia induced by his prosecution. The streets were packed with people. Many wreaths were sent by Grey's fellowprisoners.

COUNCIL PROCEEDINGS.

OFFICIAL.

(Continued from last week.) REPORT OF THE CITY ENGINEER. To the Board of Public Works:

I herewith submit to you a report showing the condition of the engineering department at the close of year 1895.

Almost all the data has been collected during my term of office which commenced about the middle of May 1892. During this time besides the ordinary work of preparing street and sidewalk grades, there has been laid out and constructed a Main Sewer of about 21 miles in length, also there has been laid out and constructed lateral sewers in Lateral Sewer Districts Nos. 1, 2, 3 and 4, with the exception that in District No. 3, at this date the sewer is not

quite finished. There has also been prepared maps of Lateral Sewer Districts 5 and 6 with

the profiles of the streets, the work of making estimates for these will be carried on as soon as circumstances will permit. /

Not a small portion of the work of this department consists in laying out sidewalks and setting grades for same and in work which necessarily shows no visible returns for the expense incurred.

The work of setting street and gutter grades also comes under this head. The value of this work can only be appreciated by a just and fair consideration of the practical utility of the re-No. 41. Northeast quarter, section 29, sults accruing. The expenses of this department are

Maps, Profiles, Grades, etc., have been collected, prepared and placed on file in the Engineer's or City Clerk's office under the present Engineer's direction and superintendance. These records have been indexed and properly filed, the work of doing this has been no small task and now represents a very valuable property and convenient reference.

The accompanying schedule or tabulation will serve to show the extent of the records and a basis for forming a somewhat correct idea of the necessarily large amount of careful and accurate labor that has been accomplished in bringing this department to its present necessary and valuable position relative to the municipal affairs of the city, In conclusion it may perhaps be in order to note a few impressions that have been made as a result of observation and as a result of judgment based tice.

MOBS STONE STREET CARS.

Policemen and Men in Charge of Cars Stoned Before Crowds Are Dispersed. Milwaukee, Wis., May 16 .- Two large mobs of strike sympathizers demolished street cars on the South side Thursday, night.

At Eighth avenue and Mitchell street a mob of 4,000 chased the conductor and motorman and special officers from a car and smashed the car into kindling wood, the members of the mob carrying away the pieces for trophies.

At Muskego and Eighteenth avenues a mob of 2,000 derailed a car and stoned the police and the men in charge of the car. Large forces of police were sent to the scenes and dispersed the crowds without much difficulty. Two arrests were made.

A committee representing the business men of the city, composed of Capt. Fred Pabst, William Allis, John Johnson, Benjamin Skidmore, Louis Gimbel and Bernard Goldsmith, met the directors of the street railway company and a committee from the strikers and made an ineffectual attempt to settle the strike. The company would not agree to take all of its men back in a body.

A Chicago, Milwaukee and St. Paul switch engine ran into a Cambridge avenue car at Florida and Reed streets and demolished it. Under ordinary circumstances this would have been a serious accident, but owing to the stringent boycott there was no one on the car but the conductor, the motorman and a policeman. These jumped in time to escape injury. The motorman could not stop the car.

The Coming of Baby.

When a baby comes to the house rea When a baby comes to the house rea happiness comes. The care and anxiety count for nothing against the clinging touch of the little hands and the sound of the little voice. The highest func-tion given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr Pierce, now chief consulting physician to the Invalid's Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of prac-tice is embodied in Dr. Pierce's Favor-ite Prescription. It strengthens, puriite Prescription. It strengthens, purifies and makes healthy the organs dis-tinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of these children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies. invigorates.

Kenting Elected President.

Danville, Ill., May 16 .- The Ancient Order of Hibernians closed its eighteenth state convention Thursday evening with a grand ball. The following officers were elected: President, J. T. Keating, Chicago; vice-president, E. J. Kelly, Ottawa; treasurer, James Costello. The next convention will be heid at Peoria. The Illinois delegates to the national convention at Detroit were instructed if possible to secure the election of P. B. Flannaghan of Chicago as national secretary.

THE TURN OF LIFE. WOMAN'S CRITICAL PERIOD

Contemplated with Less Fear than of Old.

[SPECIAL TO OUR LADY READERS.]

Tre is no period in woman's earthly carees which she approaches with so much anxiety as the "change of life." Yet during the past twenty years women have learned much from a woman.

It is safe to say that women who pre-pare themselves for the eventful period pass through it much easier than in the

THE NEZ PERCES RESERVATION

It Is a Desirable Land for Farmer Emigrants and Offers Big Inducements.

That portion of the famous Nez Perces reservation which was thrown open to settlement on Nov. 18 lies chiefly in Nez Perces county, in the western part of northern Idaho, says the Northwest Magazine. It comprises 1,170 square miles, or 542,074 acresenough to give 3,380 families 160 acres each. Truly speaking, it is one of the most favored regions in the northwest. The surface is traversed by the Clearwater and Lapwai rivers and their numerous tributaries, and the land, which is a rich, black loam and easily tilled, needs no irrigating. Very little effort will be required in order to proluce abundant crops in these sheltered and fertile valleys. The reservation is also crossed by the Craig's mountain range, which is really nothing but table land that is well adapted to farming, grazing and lumbering. In the immediate vicinity are the well-known Palouse and Potlatch sections, which are both famed for the magnificent quality of their fruit and cereal prodacts and the lands of which are worth 330 to \$100 and \$300 per acre. The

reservation lands are simply a continution of those favored regions. Climate and soil are adapted to the cultivation of all the cereals, and of grapes, pears, peaches, apricots, plums, prunes, beries meions, etc. Transportation failities are already provided in the construction of the Spokane & Palouse railroad, a branch of the extensive Northern Pacific railroad system, which will soon be extended to points to which no other lines can afford to penetrate. In fact, surveys have been made and plans adopted which are certain to result in the rapid and perfect development of the new country.

With all these facts in view, the tatement that this virgin empire is eing rapidly occupied by enterprising ettlers will occasion no surprise. All conditions are favorable. There is elenty of timber and the country is ich in minerals. It is probable that at least two good towns will grow up, one on the Lapwai or Clearwater and another beyond Craig's mountain in what is known as the Cold Springs country. Other towns will, of course, follow in time. But markets for the immediate future are already provided. since the entire territory is contiguous to Lewiston and other important commercial centers.

It is understood that agricultural ands on the reservation can only be taken under the homestead act, but in addition thereto the settler must pay \$3.75 per acre, one-half of which must e paid within three years from date of entry and the remaining half at date of final proof. In all other respects the homestead act governs.

The Biggest Fool At Large

Is the individual who persistently neg lects his health, and the means of pre serving and restoring it. Many person who are not constitutional idiots do this They are genuine objects of compassion as well as consure. A failure of appe-tite, loss of sleep and flesh, impaired di gestion, an uncertain state of the bowel and symptoms of billiousness are s many warnings of the approach of disease. To disregard them is objec folly, which offended nature in due timounishes severely, if not fatally. That genial and thoroughly reliable preven tive of bodily mischief in the shape o chronic disease, Hostetter's Stomaci Bitters, will, if restored to in time, overt those disorders, to the removal o which it is also fully adequate. Amony these are chronic indigestion, liver com plaint, kidney troubles, constipation nervousness, rheumatism and malaria

HE FLIES LIKE A BIRD.

Professor Langley Perfects a Steam Flying Machine.

Washington, D. C., May 14 .- The first public statement regarding the flying machine experiments conducted by Professor Samuel P. Langley, the secretary of the Smithsonian Institution, for some months past were made Tuesday with the authority of Professor Langley.

Professor Alexander Graham Bell, the inventor, reports on Professor Langley's machine as follows: "On last Wednesday, May 6, I wit-

nessed a very remarkable experiment with Professor Langley's aerodrome on the Potomac river. "The aerodrome, or 'flying machine,'

in question was of steel, driven by a steam engine. It resembled an enormous bird, soaring in the air with extreme regularity in large curves, sweeping steadily upward in a spiral path, the spirals with a diameter of perhaps 100 yards, until it reached a height of about 100 feet in the air at the end of a course of about half a mile, when the steam gave out, the propellers which had moved it stopped, and then, to my further surprise, the whole, instead of tumbling down, settled as slowly and gracefully as it is possible for any bird to do, touched the water without any damage, and was picked out immediately and ready to be tried again.

"A second trial was like the first, except that the machine went in a different direction, moving in one continuous gentle ascent as it swung around in circles like a great soaring bird." Prof. Langley says:

"The aerodrome, or flying machine, has no gas to lift it as in the case of a balloon, but on the contrary is about 1,000 times heavier, bulk for bulk, than the air on which it is made to run and which sustains it somewhat in the way in which thin ice supports a swlft skater.

"The power is derived from a steam engine through the means of propellers, but owing to the scale on which the actual aerodrome is built, there has been no condensing apparatus to use the water over and over.

"Enough can be carried for only a very brief flight, a difficulty which does not belong to larger machines than the present examples in which the supportng surfaces are but about fourteen feet from tip to tip.

"The distance flown each time was about one-half mile. The rate of speed tepends (as is the case of any vehicle mind. m land) on whether it is going on a level or up hill."

Read What Dr. Hartman Proposes To Do For You.

Dr. Hartman, President of the Surgical Hotel, Columbus, Ohio, has arranged to answer all letters that are sent to him from women troubled with any form of female weakness, free of charge, giving them the benefit of knowledge which has cost him forty years to accumulate. The medicines he prescribes are within the reach of every woman, and she can get them at any drug store. All she is required to do is to send her name and address, together with her symptoms, duration of sickness and age. This offer holds good only during the summer months. Thousands of women are taking his treatment to-day and are rapidly regaining their health. Dr. Hartman's favorite presciption for female complaints is Pe-ru-na. Mrs. Maggie Turner, of Holly Springs, Miss., writes:

"Last September Pe-ru-na was recommended me by a friend and I began to take it. I had no faith in anything any more, as I was not able to sit up and was a mere skeleton. After I had taken one bottle of Pe-ru-na I began to improve. I kept on taking it, and I beieve myself permanently cured. I have discharged all my help. am doing my housework alone, and weigh 155 pounds. Although I am 41 years old I feel as well as I did at 16. I can not express my gratitude to you. HEROIC EQUESTRIAN STATUE OF HANCOCK IS UNVEILED.

Address by Senator John M. Palmer-Witnessed by Immense Gathering, Insluding the President, Vice-President and Other Notabilities.

Washington, D. C., May 13 .- With imposing ceremonies the heroic equestrian statue of Maj.-Gen. Winfield Scott Hancock was unveiled here Tuesday before an immense gathering, which included President Cleveland, Vice-President Stevenson and 'representatives of the supreme court, the diplomatic corps, both bodies of congress and army veterans and colleagues of the late general.

The unveiling was preceded by a military demonstration. Four companies of artillery marching as infantry, four companies of marines, with the Marine band, light battery C, 3d artillery, a squadron from the 6th cavalry, the full district militia and numerous military organizations, including the 2d army corps, at the head of which Gen. Hancock achieved his greatest victories, participated in the parade. Brig.-Gen Brooke, commanding the department of the Dakotas, U. S. A., was the grand marshal of the day.

The exercises opened with a praver by the Rt.-Rev. James Y. Satterlee, bishop of Washington. The principal address was delivered by Senator John address was delivered by Senator John I Palmer of Illinois, major-general of the United States volunteers during the mailed free to war. A salute was fired as the unveil-any address, Swift Specific ing of the statue took place. Eleven jundred invited friends gathered at the scene, including many relatives and friends of the deceased general.

The statue stands in the heart of the

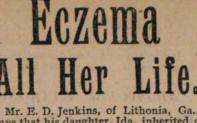

business district of Washington. It is the work of Henry J. Ellicott, the noted sculptor, and its total height is 33 feet 8 inches. The distance from the plinth to the top of the hat is 14 feet 6 inches and the height of the pedestal from the ground to the plinth is 19 feet 2 inches. The proportions of the rider are such that if standing erect he would measure ten feet in height.

Senator Palmer in his address said in part:

"The military qualities of Gen. Hancock are well known to the country. The story of his brilliant services has been told in detail, by biographers, but estate situated in the townships of Lima Gen. Grant has condensed his real and Scio County of Washtenaw and character and reputation into a few State of Michigan, to-wit: All those sentences:

"'Hancock stands, the most conspicuous figure of all the general officerr who did not exercise a separate com-mand. He commanded a corps longer west one-half of the south-west onethan any other one, and his name was never mentioned as having committed in battle a blunder for which he was responsible. He was a man of very conspicuous personal appearance. His genial disposition made him friends and his personal courage and his presence with his command in the thickest of the fight wan for him the confidence of the troops serving under him.'"

BOLD BANK ROBBERY.

THE OUTLAWS ESCAPE ON BI-CYCLES.

Cashier of the Bank at Buffalo, Fifteen Miles from Springfield, Iil., Bound and Gagged - All the Money Taken from the Vault.

Springfield, Ill., May 16 .- A bold bank robbery was perpetrated at noon Thursday at Buffalo, fifteen miles east Two men rode into the town of here. on bicycles and stopped at the bank. Entering, they drew their revolvers and, seizing the cashier, Carl Kloppen burg, bound and gagged him and looted th bank, taking all the cash, amounting to about \$11,000. The men mounted their wheels and made their escape from the village before the other employes of the bank, who were at dinner, returned.

The time chosen for the robbery was most opportune, as most of the people in the village were at dinner and Kloppenburg was entirely alone. Kloppen burg was at the safe and had his back turned toward the door when he was suddenly seized from behind and a revolver placed against his head. He could not turn his head to see the men and they first placed a blindfold over his eyes. While they were doing this he made a struggle and his hand came in contact with the face of one of the robbers, and he found that it was beardless.

It was half an hour before his companions found him helpless under a table. The only clew to the identity of the robbers is furnished by the fact that just after the time that Kloppenburg says the attack on him was made two men were seen riding away from the vicinity of the bank on bicycles, both being smooth-faced and one having red hair. A day or two ago a redhaired man answering the description of one of the wheelmen was seen loitering about the village in a suspicious manner.

A number of citizens headed by Λ . A. Pickrell, the president of the bank, immediately organized for the pursuit of the fleeing robbers, but no very definite clew as to their direction could be gained.

The police in this city are watching closely all new arrivals and arrested one man this afternoon on suspicion but could not find evidence on which to hold him. During the last year five banks located in villages near Springfield have been robbed, and it is believed that it is the work of local crooks.

The men are believed to have gone nto hiding in the Sangamon river botoms, and it is expected that when the excitement dies out they will sneak back into this city, where their headquarters is located.

l'Intransigeant alone, as always in the Paris press on this question, raises an eloquent voice in behalf of the Cubans, asserting that the men who embark to fight for the independence of Cuba are no more filibusters than were Garibaldi and the thousand when they started from Genoa on two steamers for the deliverance of Sicily and the Kingdom of Naples.

Mrs. Maybrick Stays in Prison. London, May 14.-In the house of commons Tuesday Dr. G. B. Clark, liberal member for Calthnesshire, asked the home secretary, Sir Matthew White Ridley, if the lard chief justice, Baron Russell of Kilowen, had intimated to him that Mrs. Florence Maybrick ought to be released, and, if so, whether he would appoint a commission of inquiry. The home secretary replied that he had received such an intimation from the lord chief justice, but, after careful consideration of the matter, he was convinced that the right course had been adopted, and, therefore, he would not appoint a commission of inquiry.
