LOST THEIR CASE.

REGENTS LOSE IN THE LEWIS SUPE.

Judge Kinne Becides That the Regents daye No Claim to the Disputed Pictures The Judge Files His Opinion in Which Me Goes Into The Case At Length-Closes By Bismissing The Complainant's Bill.

The case of the Board of Regents against the estate of E. R. Root, of Coldwater, to recover possession of certsin pictures which it was claimed belonged to the Lewis collection and was, therefore, part of the Lewis gift to the University., was tried here in the Circuit Court during the March term. The case was strongly contested on both sides. The pictures in question were certain ones that were not in Mr. Lewis' Art Gallery proper, which was in a special art building, but were in Mr. Lewis' residence, and were, in fact, covered by a bill of sale which Mr. Lewis had given his wife a short time before he died. In the close of his decision, Judge Kinne sums up the case as follows:

"It may perhaps be well to remember that this gift of the contents of his Art Gallery by Mr. Lewis to the University in point of intrinsic value, is unprecedented in the history of the institution, and that especially in view of his somewhat moderate estate, it was a princely and munificent bequest. Under such circumstances to enforce or resolve a doubt against the heirs of and one copy printed. This he pasted Mr. Le vis would seem to infringe upon the wise, generous and catholic policy which has so conspicuously distinguish- He then boldly went to the examination ed the University during the last quarter of a century. I think the Bill of Complaint should be dismissed."

Students in Trouble.

Three students in the law school have been in trouble during the past week. On May 21 W. S. McClusky, a first

year law student from Towa had about \$50 worth of law books and a lot of clothing stolen. Last Monday after considerable private detective work, he made complaint against E. T. Hawley, another first year law, from Idaho. Hawley was arrested and his examination set for Wednesday at 2 p. m. This was adjourned to 2 p. m next Monday.

Later the same afternoon another student case came up. A. W. Rinehart, a senior law student from Oregon, swore out warrants against Duane C. Salsburg, a second year law, and F. C-Anspach, a first year law, both resibeing receivers of stolen goods. Their examination was set for next Monday also. It is charged that Hawley took Anspach to be disposed of by them, they knowing the goods to be stolen.

To Aid The Sufferers.

A public meeting of the citizens of this city is hereby called for Friday evening June 5th at 8 o'clock at the Court House to take steps in aiding the sufferers by recent cyclones.

This call is issued in response to Gov. Rich's request who says in his address Buchanan, Cowgell, Clark, Hinsdale, published this morning-"my second visit to the cyclone districts yesterday dall, Walker, Bond, Cheever, Walter convinced me that the loss as given by Arnold, Orla Freeman, Walter Hailer. the local committees was much below the real loss and that the amount at Olive Wines. first estimated as needed for relief, was considerably less than will be actually found necessary."

It is earnestly hoped the people of Ann Arbor will respond to this appeal and do what they can to aid those in large number of really fine pieces of art

How He Pulled Through.

Recently there was a student in the literery Department of the University who, while a fair student in some pranches, did not have the least bit of bility in a certain branch. There was one study in his course in this subject which was required to be taken before a diploma would be given. The fellow elected the course and made a heroic effort, but it was of no use. Graduation day was approaching and he was painfully aware that in this particula course he would flunk. The professor in charge had several times hinted to aim that he must "brace up", but that was out of the question. Already he has been putting more time upon this branch than all his other studies combined. He was in desperate straits He had about decided that it was all up with hin when, about a week before inal exams began, a way of escape suggested itself to him. It was a course in anguage and the professor announced week in advance that he would require is a final exam., the correct translation of at least fifteen idioms selected at random from something like a hundred and fifty idiomatic expressions that has been studied as a part of that particular course during the semester.

He wanted to graduate, and he could not acquire a knowledge of that language. He solved the problem by copying off every one of the hundred and fifty idiomatical expressions, with the precise translations, went to one of the Ann Arbor Printing offices and had she whole list set up in nonpariel type upon the under side of the upper manilla cover of an examination pad. and took a seat right under the professor's nose, the latter showing very plainly his surprise that the said student should think of passing in that course. Laying his examination pac upon the writing board on the seat and opening it he proceeded with his examination. The professor has not yet reased wondering how that dull fellow passed the most brilliant examination in that subject of any student he ever had. He was afterwards heard to remark that the fellow was not so duli after all. The student has pasted that pony on the back of his diploma as he says it is entitled to part of the honor of an A. B. from the U. of M.

A Fine Exhibit.

The exhibit now being given in the studio of the Ann Arbor Art Club in the St. James block far surpasses any of the former attempts of this kind by dents of this city, charging them with the club. There are on exhibition over three hundred pieces, many of which show a high degree of talent. The display is large in water colors, charcertain books, etc., from Salsburg and coals, oils, and pen and ink work. Mrs. Spencer, of Ypstlanti, also has a fine display of decorated China. The catalogue shows that the following persons have one or more pieces on exhibition:

The Misses Bender, Chauncey, Chapin, Hutzel, Douglas, Dorance Gilbert, Gorden, Goodell, Haller, Hill, Hutchinson, Matchett, Miller, Neuman, Orcutt, Porter, Rhead, Wright, Wet more, Wheeler, Wagner., Mrs. Bennett. Hoff, Hoyt, King, Perry, Riggs, Ran-Clinton Miller, Margaret Taylor, and

The exhibition is worthy a large attendance and should receive the liberal patronage that an enterprise of this sort deserves. Many of our citizens would be pleasantly surprised at the being shown by those belonging to the art club. The exhibition will be open each afternoon this week.

PETITIONS AND COMMUNICATIONS. A petition signed by A. G. Schmidt and 21 others asking for the removal of the willow trees on Beakes Street was read and referred to the Street Committee.

A petition signed by J. A. Shetterly and 19 others asking for a crosswalk across Spring Street and repairs on sidewalks on Miller Avenue was read and referred to the Sidewalk Committee.

A petition signed by Fred C. Weinberg and 9 others asking for a crosswalk across Packard Street at Mary Street was read and referred to the Sidewalk Committee.

To the Common Council .-

The Beard of Public Works would mend that your Honorable Body take action relative to making arrangements with the Ann Arbor Savings Bank, the custodian of the City's money. whereby the labor bills properly certified to by the Street Commissioner and President of the Board of Public Works will be paid at the end of each week by such Bank at par the same as warrants.

The Board are of the opinion that an injustice has been done to the laboring men during the past in this matter, that they have been required to pay an enormous discount for the purpose of getting their money once a week as they would if they worked for a private firm or corporation. We have been informed that the rate of interest has run from one to ten percent a month and in somo cases as high as that for the use of money for one week.

In case this recommendation meets the approval of your Honorable Body, the City will be the looser of only three and one tenth per cent per year over that which they have already paid, and would save any number of times this sum to the deserving leberer.

Board of Public Works, Glen V. Mills, Clerk.

Ald. Koch move that the communication be received and placed on file. Adopted.

To the Common Council .-

The Board of Public Works to whom was referred the petition of Mrs, Olivia B. ST. LOUIS CITIZENS TO CON-SIDER THE MATTER.

Mass Meeting Will Be Held This Afternoon-Thunder Storm Causes the People to Fear Another Tornado-Disturbance Lasts Nearly an Hour.

St. Louis, Mo., June 2 .- A mass-meeting of citizens has been called for Puesday afternoon to consider the advisability of appealing for outside aid for the relief of storm sufferers. The call is signed by a number of promitent Germans, South Broadway merchants and citizens of the devastated ortions of South St. Louis. It states hat the loss of property is greater han was at first supposed, being estimated at \$20,000,000. For this reason the call continues, assistance is sorely needed, and the generous offers of numerous cities of this and foreign countries should not be declined.

At an early hour this morning the two stricken cities, St. Louis and East St. Louis, received a thorough scare A storm came up from the southwest, accompanied by low, rumbling thunder, and almost continuous flashes of lightning. Then a few minutes later big black clouds appeared on the northern horizon and rolled up until they covereed the city. There was a strong wind, though nothing at all approaching a hurricane or tornado. The disturbances lasted for nearly an hour, and then became a slow, drizzling rain. No damage resulted.

The list of persons missing since the terrible tornado of last Wednesday is appalling. At preseent the police have about 120 names.

Last week it was thought that forty or fifty patients were in the ruins of the city hospital, which was demolished by the tornado. To-day every man, woman or child who was in the institution, either as help, nurse, doctor or patient, has been accounted for. Michael Dunn was the only patient killed outright by the storm. Some of the patients have died since, but only a few from actual injuries received.

At St. John's Hospital, on Twentythird street, the patients are all doing fairly well except Anton Gregory, of Second and Victor streets, who has not yet recovered consciousness. At the Alexian Brothers' Hospital two patients have died and three have been discharged. The doctors at the different institutions expect very few additional deaths now among their patients.

This morning there were eleven bodies of tornado victims. They were: Cora and Ethel Claypool, Mrs. Cahill, Mary Talbott, William Anderson, Charles Alcornero, an unknown white man, supposed to be Adolph Gutman, William Plank and three children, from the Bethesda Home.

Of this number three were removed by relatives later in the day. They were the Claypools and Mrs. Cabill who were killed at Jefferson and Papin streets. Unless there are some claimants for the remains of the unknown man, William Plank, and the three Bethesda Home victims, they will be interred in the potter's field.

DEATH IN THE FLOOD.

Wife of a Minister at Seneca, Mo.

Seneca, Mo., June 2.-The Rev. Harry White, whose wife was drowned in the awful flood disaster of Saturday evening, had a narrow escape from death. They lived in rooms in the Dispatch building. The Rev and Mrs. White were asleep when the torrent struck the Lui ding and carried it away. Just before the building went to pieces they crawled out of a window and plunged into the stream. Mr. White is a powerful swimmer and managed to support his wife until a floating log struck him on the head and rendered him momentarily unconscious. Just as he regained consciousness he heard the shrieks of his wife as she went down in the torrent for the last time. The flood swept him on through the darkness but he finally managed to reach shore and groped his way back to the town.

News from the Transva-L Pretoria, June 2.—Barney Barnato has guaranteed the payment of the fines of the reform prisoners released Saturday, Gov. Sir Hercules Robinson has telegraphed his congratulations to President Kruger upon his clemency, which he says will go far to restore good feeling and promote the peace and welfare of South Africa, especially if the remaining prisoners are dealt with in the same liberal spirit. President Kruger, upon leaving the government house, was vociferously cheered. He looked five years younger. Stocks have advanced 50 per cent.

Quay Gives Up the Fight.

Washington, June 2.- Senator Quay concedes the nomination of McKinley on the first ballot in the St. Louis convention and gave out figures last night to back up his opinion. This is the first time the Pennsylvania leader has publicly admitted the certainty of the nomination of Major McKinley. According to Mr. Quay's list McKinley will receive 479 votes on the first ballot, or nineteen more than are necessary to assure his nomination.

Escaping Murderer Is Seen.

Piatt, Ill., June 2 .- A man answering perfectly the description of George Taylor, Missouri's escaped murderer, passed here going east last night walking on the railroad track. The man was uneasy and in a great hurry. He was identified from his picture by five prominent citizens.

Memphis, Tenn., June 2.- This morning the bodies of a woman and child

DISASTER AT MOSCOW

RUSSIAN PEASANTS TRAMPLED TO DEATH.

Cause of the Accident-No English or itv. Americans Hurt.

Moscow, June 2 .- The disaster on the Khodijinskoje plain Saturday is constantly gaining in proportion as the investigations by the authorities coninue. These are made under difficulties, as the recovery of the victims was conducted by hundreds of volunteers, and many were carried away before they were enumerated. Many additional deaths of the injured who were carried away are occurring, which are only added to the enumeration after some

It is now said that the fatalities will amount to between two and three thousand, but it is impossible yet to ascertain accurately the extent of the disaster. An official statement issued places the number of dead recovered at ,336 and the seriously or fatally in-ured at 286. But in contrast with this fficial statement there are 1,282 corpses lying at the cemetery, besides the many dead and dying that are known to have been removed from the ill-fated field by friends.

Various versions as to the origin of the stampede and crush are current, but the account to which the most credence is attached is that the wagons laden with the 500,000 souvenirs which were to be distributed among the people were proceeding to the Khodijnskoje plain, followed by a multitude of eager peasants, when the atendants, with a view to pleasing the people, threw a number of the souvenirs into the crowd. There was a wild scramble toward the point where they fell, and the news spread like wild fire up and down the throngs of expectant peasants that the distribution had commenced. This resulted in a headlong, pell-mell rush for the booths, where the distribution of souvenirs was to have been made later. The arrangements which it was intended to make to keep the crowds in order during the distribution had not been completed at that early hour, and the force on hand was powerless to stem the tide of the crush of humanity

What added greatly to the gravity of the disaster was the circumstance that these booths were surrounded by ditches, and the people following speedily trampled them to death. Others stumbled over their bodies and met the same fate. And so the herror grew. The pressure was so great upon the sides of the booths from the struggles of the mass of mad humanity that they gave way, and hundreds of people were forced into them through the broken walls. One mounted gendarme near the booths was literally crushed to death, together with his rearing and plunging herse.

There were no English people nor few of the victims, it is announced, be long to the well-to-do classes. Nearly all are moujiks or peasants, and a large proportion of the dead are women and children. A judicial inquiry has been opened into the causes of the disaster; and an effort will be made to fix the responsibility.

All day the full force of police and firemen worked among the dead, pull ing bodies from heaps of the killed and injured and ranging them on the ground, which was covered for hun dreds of yards with groups of ten and twenty begrimed and blooodstained corpses, among which the agonize friends of the missing wandered in painful effort to identify them. The injured who were mixed with the dead suffered terribly with thirst and the fever of their unattended injuries. The work of carrying the bodies to the ceme tery where it is intended to inter those who fail of identification continued all

In the morning the forces at work on the plain discovered the mouth of a disused well in the middle of the field, the plank covering of which had given away in the mad rush. In th well there were thirty dead bodies, and wedged in among them and held down by their weight were found two men, alive and comparatively uninjured physically, but the terror and the hideous surroundings of the night, had proved too great a strain on their minds, and they were raving maniacs.

The streets present some saddening contrasts in the coronation decorations, very few of which have yet been removed, and the gayly dressed populace, who, having escaped with their friends, continue their holiday merriment, while every few yards men are carrying coffins on their shoulders o across their knees in droskies. Th police and a force of soldiers with fixed bayonets kept order all day at the cemetery. All day there were most af fecting scenes, relatives and priests oraying here and there beside the dead anged upon the ground, surrounded by still larger number of the unidenti-

Sugar Bounty Law Holds Good.

Washington, May 26.-The United States Supreme court has announced its decision in the sugar-bounty cases of the United States versus Gay and the Realty company. The cases were gay with badges. Honor was done to the ruling of Comptroller Bowling, denying bounty to the sugar planters under the law of the last congress. The opinion of the court was handed down by Justice Peckham and affirmed the opinion of the court below holding the sugar-bounty law valid, and everruling the comptroller. The opinion was a

It is in this country that Melquizo's men have been raiding through roads and lanes, riding over farms and plantations, occasionally skirmishing with the enemy, more often shooting down peasants in the fields. The country is a hotbed of rebellion. It is the very heart of the insurgent territory. The Spanish hold the villages with adobe forts and fortified churches. They command the railroad stations with barricades, which shelter small squads of soldiers, under command of subalterns. But the farming country is free land, open to the raids of both rebel and loyal bands. Through it they ride at will, sometimes meeting with a resulting skirmish. Revenue for May Very Small. Washington, June 2.—The Wilson tariff law produced a smaller revenue during the month of May, 1896, than was ever produced in a single month in a decade of the country's history with one exception; that exception is included in the history of the Wilson law, The total revenues under the law were \$24,643,717 for May, as compared with \$25,272,078 for May, 1896. This is a discouraging showing for those who predicted that revenues would gradually increase under the law till they would supply the needs of the government. The customs receipts alone for May, 1896, are nearly \$2,000,000 less than for the same month last year.

ADDRESS TO SILVER MEN.

National Silver Party Urges Friends of the White Metal to Organize.

Washington, June 2.- The national silver party, through its chairman, J. lom spoke at considerable length in the J. Mott, has issued from its headquar- senate this morning against the pendters in this city an address to the ing bill to prohibit the issue of bonds. friends of silver. This address recites | He said in part: that since the founding of the national silver party on Jan. 22 last the work issue of interest-bearing obligations by of organization has been steadily but this government in time of peace more quietly pursued and the country aroused than I do. But does any senator imato a pitch of excitement unknown since gine that the cause which made the the civil war. It declares that the convention of the party to be held in St. may require further issues, can be re-Louis on July 22 will undoubtedly be moved by simply passing a bill prohibone of the most important conventions | iting it? In my opinconvention to be held at the same place | ion, it would be the undoing of all and time depends, the address declares, that has been accomplished since the "the vital question as to whether we can have a just settlement of this would mean the repudiation of our obmoney issue in our generation." The address concludes as follows:

"The republican party is committed to the gold standard through the platforms of 80 per cent of the state conventions, and any straddle that may be made in its national platform will deceive no one. The democratic party must not expect the country to accept any candidate it may name who is acquiesced in by the gold wing of that party. The question of vital importance is for silver men to name a candidate for president whose nomination will be readily acquiesced in by all believers in monetary reform. Friends of silver, look to your interests and organize now while the fruit is ripe for plucking. Do not wait on the problematical action of any party."

HERMANS IS IN IDAHO.

Officers of the Law Go in Search of the Salt Lake Pastoe.

Salt Lake City, Utah, June 2.-The Rev. Franics Hermans, the Salt Lake minister charged with the murder and cremation of Henrietta Clausen, is supposed to be hiding in the mountain fastnesses of Idaho. Officers have left here for some point off the Oregon Short Line to effect his capture. stained pick was found Sunday in the course of a search of the Scandinavian Methodist church premises. It was hidden under the back porch of the church and had apparently been there for months. Adhering to the rusted and stained sides of the pick was human hair of the same color as that of the Clausen girl. This discovery conflicts with the previous theory that Hermans poisoned the girl, leading to the supposition that he murdered her by a blow with the pick. The stains will be examined to ascertain if they were really made by blood.

Another Visitation in Iowa.

Albia, Iowa, June 2.- A disastrous cyclone passed north of this place Saturday night, doing great damage among the farmers. Flagman Koontz raised the cyclone flag about 6 o'clock, and the large crowd of people attending memorial exercises commenced scampering homeward, and by dark there was not a visitor in the city. The cyclone struck in the extreme northern part of this county, near the Marion and Mahaska lines. The path of the storm was about one mile wide, and many barns and farm houses were badly damaged by the wind. No lives are reported lost.

In Fear of Federal Judges.

Indianapolis, June 2.- A conference of the various railway brotherhoods, including the conductors, engineers, firemen, brakemen and switchmen, was held here Sunday, and resolutions were passed indorsing the bill now pending in congress looking to curtailing the powers and jurisdiction of federal Of Interest to Ladies Special Sale of court judges in contempt cases, the bill having its inciting cause in the punishment inflicted upon Debs and other American Railway Union officers by Judge Woods at Chicago. The speedy passage of the bill was demanded.

Iowa Silver Men to Organize.

Waterloo, Iowa, June 2.-It has been learned from one on the inside that the free-silver forces in Iowa, regardless of party lines, are arranging for a nonpartisan meeting, to be held in Des Moines July 14, for the purpose of organizing a bimetallic association. It is understood that the association will be strictly non-partisan, and organized solely for the purpose of consoldidating and combining the free-silver forces of the state with relation to the restoration of the free coinage of silver.

Murdered by a Jealous Lover.

Chelsea, Mich., June 2.-Emma Morefiance, Fred Hydloff, who was in a not succeeding in fatally wounding himself, he tried to batter his brains publicans who believe it would have out, but was finally controlled and taken into custody.

To Buzzard's Bay This Week. Washington, June 2.-Mrs. Cleveland and the children will leave here ver mass-meeting here next Friday early this week for Buzzard's Bay, and night. will be accompanied on the greater part of the journey by Mrs. Olney, who has arranged to spend the summer at Falmouth, Mass. The president will join Mrs. Cleveland at Gray Gabbles as seen as congress has adjourned.

Piatt Visits Washington. Washington, June 2 .- T. C. Platt arrived in the city Saturday night, but left again at an early hour Sunday morning for New York. Among those whom he saw while here was Senator Quay, of Pennsylvania, but the latter declined to say anything about his conference with the ex-senator.

CULLOM UPHOLDS BONDS. Declares That Their Prohibition Would Mean Repudiation.

Washington, June 2.- Senator Cul-

"No one on this floor deplores the issue of bonds necessary, and which in this country. Upon the wisdom of law, to my mind are so far-reaching passage of the resumption act. It ligations. Its tendency would be to place this country at once upon a silver basis. It would seriously endanger every business concern in the country which has weathered thus far the terrible financial storm of the last three years. It would throw out of employment hundreds of thousands of laboring men and women who had begun to hope that the dawn of brighter days was at hand. It is wholly wanting in common honesty and would forever be a blot upon the page of American his-

Mr. Cullom declared that the United States alone could not restore silver as money, and added: "What the nations need is an international conference and ratio agreement, and every day makes it clearer to me that such a conference is sure to come, and I believe very soon. I am in favor of using all the silver as coin we can, and we may be able to use even more than we are now using, but the question of the standard should be settled. We should not depart from the gold standard until we can have the co-operation of other great commercial nations. For such a settlement of the financial question I hope and look."

Politics in North Dakota.

Fargo, N. D., June 2.-The state democratic convention will meet to select delegates to the national convention at Jamestown Thursday, and it is probable that there will be a very interesting battle between the opponents and the friends of sound money. It is conceded by the latter that the silver men will be in the majority, and it is probable that they will be able to dictate the platform and the selection of the six delegates. The "sound money" men do not propose to let things go by default and will compel the silverites to bring forth some arguments for silver. There is some talk of fusion with the populists by the freesilver democrats, but there is virtually no populist party in the state now, and it will not poll half its vote of two years ago.

Four Killed at Jefferson City.

The alarming reports of death from Jefferson City have been found to be erroneous. Only four persons were actually killed, Mrs. Margaret Correll and son Charles and Charles King, the two latter aged 17 years. The others reported dead were only injured, except Ropert Foster, who lived half a mile away, who was killed at the same time as Mrs. Correll and the two boys. It is thought that nearly seventy-five buildings are totally demolished in the county. Fruit trees, wheat and corn are ruined in many places and the total loss in Jefferson county is much larger than at first thought and is estimated at nearly \$50,000.

SILVER WAVE IN INDIANA.

Fifty-One Countles that Have Chosen Delegates Are for White Metal.

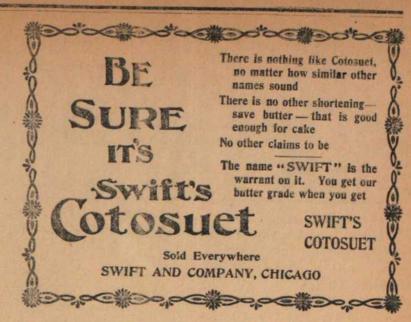

Indianapolis, Ind., June 2.- The democrats in several counties have elected delegates to the state convention, June 24, and in every instance the men selected were instructed to support a free-silver platform, and vote for delegates to the Chicago convention who will support an independent coinage platform. The party has now elected delegates in fifty-one counties, and no kel was shot and killed Sunday by her county has stood for the gold standard. The unanimity with which the party jealous rage because the young woman is declaring for the free-silver move had been escorted home by another ment, and the 'ground swell" is giving man. The prohibition state convention will meet this week to decide what course the party in this state will pursue. Thirty-five of the forty-three delegates to the national convention joined the new national party. The bolters include J. S. Dunlap, of Franklin, the state chairman, and J. S. Kingsbury, the nominee for governor. It will be proposed that the nominees for state office be voted for without any reference to platform.

PROHIBITION NATIONAL CON-VENTION BEGINS.

Struggle Over the Financial Plank Promises to Make the tiatbering at Pittsburg a Lively One-Thousands of Visitors Present.

rittsburg, Pa. Vo' t.-There was no fered prayer. lagging on the part of the delegates to the national prohibition convention today. They were all astir bright and early, and long before the hour for calling the convention to order had come the delegates had all assembled in Music hall at the Exposition building, and there were thousands of pronibitionists from all parts of the country who had come to watch the proceed-

Never before has the party had a question to settle which caused so much contention as developed here the last few days over the money plank of the platform. A part of the delegates were strongly in favor of adopting a plank in the party platform declaring in favor of the free coinage of silver at a ratio of 16 to 1. The opposing faction believes that the prohibition party should confine its declarations to the one issue of prohibition. The single-issue or go.dstandard faction, as It is called, elected A. A. Stevens of this state to act as temporary chairman of the convention. It was tong after 10 o'clock when Samuel Dickie, chairman of the national central committeee, stepped upon he platform and called the convention to order. H. L. Castle of this city made an address, welcoming the delegates to the city. Chairman Dickie made a brief reply.

When he had finished response to the address he said he had the honor to introduce the gentleman chosen to ac; s temporary chairman by the national ommittee, Mr. A. A. Stevens of Pennylvania. Chauncey M. Dunn of Caliornia arose and said he had a minority eport to offer. He would present the name of E. J. Wheeler and moved it be substituted for that of Mr. Stevens. He was told to sit down by Mr. Dickie, but refused. An uproar followed. Finally for harmony's sake Mr. Wheeler withdrew his name after the police had been called to eject unruly delegates. It was the first clash between the free-silver and gold-standard delegates on the convention floor and the single-issue crowd won.

Mr. Stevens, the temporary chairman, finally succeeded in restoring order and then proceeded to address the convention. In conclusion, he said the republicans would at their convention der are for tariff reform, the democrats for sound money and the populists for free silver. Each has a dominant issue to advocate. The prohibition party should now come forward with its dominant issue. It should have prohibition and none other.

After the roll call by states for the announcement of committees and mens bers, a recess was taken until 3 o'clock to give the committee opportunity to

ROOFS BLOWN OFF.

Terrific Windstorm in Central Kansas and Southern Missouri-

Kansas City, Mo., May 28.-Severe storms which at some points almost assumed the proportions of a cyclone, prevailed in central Kansas and southern Missouri Monday night and Tuesday morning, doing more or less damage. No reports of casualties are reported Heavy rains were experienced at Sterling, Great Bend and Wichita, Kan, In-Missouri they were more severe, and at Golden City, Warrensburg and Springfield considerable damage was wrought, several houses being damaged. At Springfield a terrific wind precailed. The First Baptist Church, Metropolitan Hotel, Arlington Hotel and Springfield Furniture Company's factory had their roofs party blown off and fruit trees in that neighborhod were stripped.

VICTORY FOR SILVER MEN.

"Broad G uge" Faction Obtains Recog-

nition in Pittsburg Convention Pittsburg, Pa., May 29.—It was 9:20 o'clock before the second day's session of the Prohibition national convention was called to order. The attendance at that hour was light, as many of the delegates had been laboring in committees until an early morning hour. When comparative quiet had been obtained the Rev. Gideon P. Macklen of Ohio of-

A resolution was then presented expressing sympathy for the sufferers of the St. Louis cyclone and it was adopted by a standing vote.

The committee on platform presented swo reports to the convention. The majority or "narrow gauge" report declares its agreement with the United States Supreme court that statistics of every state shows more crime and misery result from use of ardent liquor dealers corrupt legislation and make good government impossible; that the party is unalterably opposed to the drink traffic and declares for its total suppression for beverage purposes, rejecting ail compromise measures, whether license, local option, taxation or public control. Wage earners' attention is called to the enormous waste caused by the liquor traffic at the cost of production and that the success of the Prohibition party will remove this great burden from industry; that they stand for good government, honestly and economically administered; that there is no greater peril to the nation than the competition of political parties for the liquor vote and calls upon voters to enforce the declaration of the churches against the liquor traffic

The minority report, which was presented by the broad gaugers, has the following declaration on the money question:

"That all money should be issued by the government only and without the intervention of any banking association. It should be based upon the wealth, stability and integrity of the nation, should be a full legal tender for all debts, public and private, and should be of sufficient volume to meet the demands of the legitimate business interests of the country, and for the purpose of honestly liquidating all our outstanding coin obligations we demand the free and unlimited coinage of silver and gold, at a ratio of 16 to 1, without consulting any other nation.

Ex-Gov. St. John read the minority report, and every sentence was applauded. When he came to the freesilver plank the broad-gaugers broke loose with cheers and prolonged applause. After finishing its reading Mr. St. John moved that the report be incorporated as a part of the majority report. A motion to lay on the table was then made, but it was defeated, the vote standing 310 yeas to 492 nays -a big victory for the broad-gaugers.

A great commotion was created when the vote was announced. Mr. St. John then spoke in advocacy of the report. The motion to make the minority report a part of the majority report was carried. The motion to take up the report section by section was carried with a cheer, and the 'broads" were confident of carrying everything, including free silver, with

GOMPERS AT MILWAUKEE.

Talk of a Sympathetic Strike of Trade Unionists There.

Milwaukee, May 29.-Gompers reached here shortly before noon to-day, and the talk of a general sympathetic strike involving all the trades unionists of Milwaukee has assumed large proportions. Gompers will say nothing as to the possibility of a universal strike. It is significant that within 15 minutes after he had left the train he was waited upon by members of the executive committee of the Milwaukee Trades council. They held a secret conference with him. This body was in session nearly all last night and the subject of its deliberations was the advisability of a general sympathetic strike. Mahon, president of the Amalgamated Association of Street Railway Employes of the United States, and general manager of this, is not in favor of a general strike; he thinks it will inflict such hardship on the community as to alienate public sympathy from the street railway employes. If Gompers follows Mahon's advice, he will go slow. Mahon is es-sentially conservavtive. As predicted the men at their meeting last night unaquivocally turned down the company's proposition to take back 300 employes at once and the other 750 in relays at its own convenience.

day had an added significance today fident that any person in any locality when the bodies of a large number of those who were killed in Wednesday's hurricane were burried. It is known that 175 men, women and children had their lives crushed out Wednesday afternoon or have since died from injuries received. Adding to this number the 120 dead in East St. Louis and the 100 reported missing in both cities, who are supposed to be buried beneath the ruins or floating down the Mississippi river, the aggregate of the hurricane's victims amounts to nearly 400.

It is estimated that in St. Louis at least 7,500 houses and in East St. Louis ing him to the ground. Then the crowd 500 houses are more or less damaged ty the storm, and the estimates property losses range from \$20,000,000 to \$50,000,000 for both places

Friday was a day of great activity displayed by the street-car and railway, electric light, telephone and telegraph companies, who put several thousand men at work endeavoring to bring order out of the tangle caused by the hurricane. The street-car service is improving every hour. The railroads are attending to business, as usual, so far as handling passengers is concerned, but freight traffic is somewhat embarrassed. The telephone system will not be restored to the normal condition for some time, and the Western Union lines, which were badly crippled, are gradually assuming a working con-

At present, however, the city officials and business men are thinking more of relief for the suffering living than of death and damage. Over \$25,000 has been contributed already to the relief fund, and several thousand more has been offered if needed. Among the contributions made is one of \$1,000 from Sir Henry Irving. Olga Nethersole wires offering to give a benefit performance in London for the relief fund. The relief committee, however, has not vet decided whether or not it will accept outside contributions.

Many benefit entertainments of various kinds, such as ball games, theatrical performances and school picnics have been planned to raise money for the fund.

The destitution, misery and want have touched the hearts of the people in all parts of the country, and as a result, ever since the storm of Wednesday offers of help and contributions have been pouring in to Secretary George H. Morgan of the Merchants' exchange. Up to a late hour \$45,000 was the total amount of donations received.

A few of the appended messages show that the purses as well as the sympathy of the people of the United States are at the disposal of the helpless unfortunates of St. Louis. St. Louis is always ready to give, but never begs unless it should become necessary by abject want. The mayor of the Mound city, well knowing her civic pride, has uniformly returned thanks to the senders of telegrams and answered that St. Louis can care for her own, and, while the kind offers of financial assistance are appreciated, no outside aid will be

Estimates of the loss in St. Louis vary from \$20,000,000 to \$50,000,000. It has been impossible thus far to procure a comprehensive view or report of the losses. Friday several estimates were made, and the more conservative placed the amount at nearer \$20,000,-000 than \$50,000,000. In the territory along the levee and Main, 2d 3d and Washington streets the property will be an absolute loss and the damage will easily reach \$1,000,000. From Main to 8th street and from O'Fallon south to Franklin street the loss is fully \$700,000. In this district live a class of industrious working people, the majority of them Germans, and their loss is particularly pathetic, as the clothes upon their backs is all many of them were left by the gale. In the manufacturing and business district near Chouteau and Market streets, the loss will scarcely be covered by \$1,500,000. Extending to the south along Broadway to the vicinity of Lafayette park, including mostly manufacturing plants and business houses, the loss will be upward of \$750,000. South from Lafayette park the storm ruined almost everything in sight. Here the damage to many of the buildriver to the city limits the hurricane wreaked awful vengeance upon the many fine and magnificent residences. careful assessment of the value debt commission. of the property was made by a local architect and a conservative estimate places the loss there at \$1,000,000. Another \$1,000,000 damage was done in the fine residence district extending to the north and as far east as the city hospital, which is a mass of demption. The proposition has been of one, or one box absolutely free. cinity of the hospital and northeast ditional loss of \$3,000,000 is entailed. > (From the Battle Creek Moon.) Among the moulders at the works of Michigan foundry company can be found Mr. Amos Maynard; he has lived in Battle Creek for over ten years, is nonored and respected by all who know him; such is the man who makes this statement, he says: "I have had kidney trouble for years, and it has made my life miserable. The heavy lifting, necesary in my business, made me worse, ave been compelled to lie in bed in a helpess condition for as long as nine days at a ime; the greatest pain was from my back which sometimes felt as though a bayonet was being run through me in the region of my kidneys; many citizens of Battle reek knew how bad I was. I could not nove without the greatest caution, for is soon as I attempted to stoop over, bend o one side, or even turn in bed, the pain vas simply unbearable. I wore porous oblisters constantly for the little temporary relief they brought me. Whentraight to my kidneys and made me worse. I was advised to try Doan's Kid-ey Pills, and got some. I have taken in all four boxes of them, and I now feel as I was advised to try Doan's Kidactive as ever. Duluth, June 1 .- Winnibijou, the new and favorite fishing resort on the Brule, is to be honored this season with the presence of President Cleveland and party. The party will be the guests of Senator Vilas, and will be quartered in the senator's rustic cabin on the great fishing stream. The date of their arrival has not been definitely fixed, but it is expected that August 15 will find them angling for the wily trout. They will remain three weeks, and as the deer seasons opens September 1, they will have an opportunity to inulge for a week in the exhilarating sport of hunting the light-poted monarch of the Wisconsin prairies.

ELECT A CHAIRMAN.

Silver Men in Control of the Prohibitios

Pittsburg, Pa., May 29.-The chief proceedings of the first day's session of the National Prohibition convention were a fight between the broad gauge or free silver faction and the single issue or gold standard delegates from the east. The free allver faction carried the day, however, and at 6 o'clock in the evening elected C. W. Stewart, of Illinois, permanent chairman over A. A. Stevens, of Pennsylvania, who was backed by the gold standard delegates.

At this point Mr. Dickie said he had neglected to name a temporary secretary in behalf of the national committee. The gentleman chosen was A. E. Wilson, of Illinois. There were no objections, and the chairman directed the secretary to call the roll by states for the announcement of committees and members, after which a recess was taken until 3 o'clock to give the committees opportunity to act.

After recess Mrs. Helen M. Gougar, chairman of the committee on permanent oragnization; reported recommending C. W. Stewart (silverite) of Illinois, for permanent chairman of the convention. Mr. Ferguson offered a minority narrow-gague report, recommending A. A. Stevens for permanent chairman.

After an hour of wild disorder A. A. Stevens withdrew his name, and O. W. Stewart, candidate of the silver faction, was unanimously elected, and the convention adjourned until to-day.
