## SENSATIONAL DIVORCE CASE.

### MRS. ELIZA E. BROGAN SUES FOR DIVORCE.

No One Knew She was Married—Has been Known as Mrs. Cousins—Was Apparently Grief-stricken.

A good sized sensation was caused Monday when it became known that Eliza E. Brogan had filed suit for divorce against Thomas B. Brogan. The sensation was due to the fact that nobody had the faintest idea that the parties were married and Mrs. Brogan has continued to go by the name of her former husband and has been known as Eliza E. Cousins. Some years ago William Cousins, of the firm, "Cousins & Hall," florists, died. His widow was grief-stricken and has continued to act as if broken hearted, wearing mourning and visiting her husband's grave with great regularity. In this way she has succeeded in making people believe that nothing was farther from her mind than a second marriage. Consequently when she files suit for divorce from Mr. Brogan and makes known the fact that she has been married to him for two years, society is astounded.

The ground for asking a divorce is that of cruelty. Mr. Brogan says the trouble is a complete surprise to him and that he had no intimation that anything of the kind would happen. He was an employee on the green house and says if Mrs. Brogan sues a divorce he will sue for two years' wages. It is alleged that Mr. Brogan has been angry because he has not had a hand in the business but has continued in the old capacity of employee and that on this account the trouble between himself and wife has arisen.

Mr. Brogan charged the cruelty with which he is charged consisted in not speaking to his wife for several days in succession. He says he has always had spells of mental depression and despondency during which he has said almost nothing to those around him, but that Mrs. Cousins knew all about these before she married him; that before, she had been sympathetic at such times but after the marriage they always made her very angry. He says the marriage was kept secret at Mrs. Brogan's request and that if she wants a divorce he will make no opposition.

### GETS EIGHT YEARS.

Z. T. Lewis, the notorious forger of bonds, pleaded guilty when arraigned at Urbana, Ohio, Monday, and was sentenced to eight years in the penitentiary. About two years ago it became known that Lewis, then a banker and broker, in Urbana, O., had forged bonds to a very large amount. He fled and was chased by the officers all over the United States, into Mexico and back into the States again, finally being captured last April in Ypsilanti. When captured, Lewis, who was worn and haggard, said he wished he had given himself up in the first place. He comes from a highly respected family and has a wife and two children who are known and honored in this city.

### ON THE WAR PATH.

#### City Clerk Mills Gets Mad—Kills a Dog—Owner Wants to Prosecute.

Glen V. Mills is having trouble. Monday, he killed a dog belonging to a Mrs. Woodbridge, who lives on Packard-st., and on Thursday the attorneys of that lady were studying all kinds of horrible measures by which to get Glen V.'s scalp.

About a week ago the dog bit a young daughter of Mr. Mills, tearing her face badly and causing a very painful wound.

The police were informed but Mrs. Woodbridge threw them off the track, saying she had sent the dog to Detroit to save his life. Yesterday, however, it was accidentally discovered that the animal had not been sent to Detroit at all but was concealed at the home of a farmer just out of town. The police brought the dog to the city and turned it over to the dog catcher. Here came a delay, for the police, having gone outside the city limits for the dog, were not sure of their authority. Delay did not suit Mr. Mills, and when the bleeding dog of his little girl rose before him he muttered something like "authority be hanged." Then he put on war paint, got a gun and went forth on the war path. He broke into the dog pen and shot the canine dead.

Mrs. Woodbridge thought it was just horrid of Glen V. to kill the dear, sweet creature and put the matter into the hands of her attorneys with instructions to prosecute Mr. Mills to the extent of the law.

## What They Say About Taxing Subscription Lists.

THE ANN ARBOR REGISTER is the victim of a new departure of the board of review of that city, who have decided that the subscription list of a newspaper is taxable property, and proceeded to place the lists of some (not all) of the newspapers of that city upon the tax roll. The case should be contested, as the subscription list is to a great extent a record of debt against the publisher, as every subscriber who pays in advance is a creditor and the publisher a debtor. It is the first time we have ever seen a case of a man being taxed upon his debts. It is evident all fools are not dead in Ann Arbor.—Livingston Herald.

The Ann Arbor Board of Review has entered into a new line of taxation. They have placed the newspaper subscription lists upon the assessment rolls! The reason given is that when a plant is sold, the list is sold and because of that is taxable property. But no effort is made to tax a lawyer's practice or a doctor's ride, although sales of such good-will are often made at high figures. Then, again, while a list is property, it not infrequently is a liability, for if advance-paid, it is nothing but the representative of the publisher's debt.

The Ann Arbor assessors have made a weak case, and it is to be hoped that papers will fight against paying taxes on such "property."—Ypsilanti Sentinel.

The Ann Arbor Board of Review, during its recent session, got after the newspapers, and in some cases taxed their subscription lists. A subscription list represents money spent, and money not received, and is not legally taxable. It would be just as reasonable to tax a laborer's wages already received and paid out, as to tax subscriptions previously paid. It would be as reasonable to tax unearned wages as subscriptions not received. If an editor has unspent wealth, it can be taxed directly in the usual way. To tax unpaid subscriptions, is to tax what a person has not and may not get. The members of the Board of Review have been standing on their heads. They are heads that need soaking.—Adrian Press.

### Holmes on the Prison Board.

Harmon S. Holmes, of Chelsea, was last week appointed to succeed Albert Stiles on the prison board. A legal question is involved; Governor Pingree claiming that Stiles' term has expired while friends of the latter claim it has not. Mr. Stiles will not contest however.

The appointment is pleasing to the Republicans of this county. Mr. Holmes and Sheriff Judson are good friends and the chance of the latter to secure the wardenship seems increased.

### CHURCH SCHEDULE.

The churches of this city have united to hold union services on Sunday evenings during the summer as follows:

Baptist church, July 18, Rev. B. L. McElroy.

Congregational church, July 25, Rev. T. W. Young.

First Methodist church, Aug. 1, Rev. W. L. Tedrow.

Baptist church, Aug. 8, Rev. J. W. Bradshaw.

Presbyterian church, Aug. 15.

Congregational church, Aug. 22, Rev. J. M. Gelston.

First Methodist church, Aug. 29, Rev. T. W. Young.

Baptist church, Sept. 5, Rev. B. L. McElroy.

Presbyterian church, Sept. 12, Rev. W. M. Forrest.

### Sun Strokes.

The intense heat that prevailed here last week was the cause of great distress, and a number of sun strokes resulted. One strange thing about the sun strokes was that the victims would collapse after very slight exposure, when simply walking about and without having undergone any great exertion.

One physician, who has practiced here many years, says that such a hot wave has never been known here before.

Among the victims are: Fred. Schrieler, Ann Arbor, dead; Fred. Podewell, Northfield, dead; Mrs. Anna Green, Superior; Will Kearns, Ann Arbor; Claud Randall, Ann Arbor; Robert McCarthy, Ann Arbor; August Lutz, Ann Arbor; Dr. Marten, Ann Arbor; Miss Emma Feiner, Ann Arbor. Henry Schrieler, Ann Arbor.

### Plants.

Call at Walnut Hill, Geddes Ave., for Cabbage, Tomato, and Flowering plants, Astera, Pansies, Nasturtiums, etc., 25 cents a dozen. Direct postal orders to Mrs. M. P. A. Crozier, Box 1233, Ann Arbor, Mich. (701f)

## MUST TAKE STOCK

### IN CHELSEA WATERWORKS.

#### Chelsea Laborers Say They Must Invest or Lose Their Jobs.—End of An Old Feud.—Big Law Suit Probable.

At the last session of the circuit court Judge Kinne rendered a decision which made void a contract between the village council of Chelsea and Mr. F. P. Glazier, by which the latter agreed to furnish water for a certain number of hydrants by means of a private system of waterworks. The lawsuit was the last feature of an old feud, which for more than two years has divided Chelsea into factions and raised up enmity between the citizens that will probably never be peacefully overcome. On one side are Mr. George P. Glazier, the banker, and his son Frank P. Glazier, manufacturer of oil stoves. On the other is David Taylor, attorney, H. S. Holmes, member of the state prison board, and others. The trouble began about two years ago when the village voted in favor of electric lights. The contract was let to Frank P. Glazier, who by combining his large oil stove factory and the electric lighting plant, considerably cheapened the cost of the latter. Some people objected to the extra tax and a rather strong sentiment was raised against the electric light scheme.

Then came a village election and the Glazier party got a majority of the council members and going on to further improvements contracted with F. P. Glazier to supply the village with water. When the people became aware of this move they objected and presented a remonstrance with about 100 signers asking the council to submit the question of water works to a vote of the people. This the August body refused to do and the people at once charged that the council was owned by F. P. Glazier whose father was a member. Both sides were now angry in dead earnest. Threats were made and the fur began to fly. The matter was taken into court and the charge was made that the fathers of the village had exceeded their authority, but before the case was tried another village election was held and after some political hustling that would do honor to a presidential contest the Glazier faction was beaten and a majority of the council favored the breaking of the contract which was gone at the last session of court. The matter is not settled yet as it is thought Mr. Glazier will appeal and carry the fight to the supreme court.

The latest and, perhaps, most interesting development of all is the organization of a stock company by Mr. F. P. Glazier to control the water works. The men say they have been asked to take one share each at \$100 and if they do not do so are threatened with dismissal. Ten per cent. of each man's salary is to be held back every week to apply on the stock till the full \$100 has been made up. Moreover, each share will be assessed five dollars at once to pay the expenses of the law suit just ended and the one about to begin.

Some of the men say they will give up their positions. The majority, however, will take the stock in order to hold their positions. As more than 100 men are employed the undertaking assumes rather large proportions and the outcome can not fail to awaken great interest.

### New Literary Society.

Saturday evening several students of the University Summer School, together with other students, met and organized a literary society. After the adoption of a constitution the following officers were elected: L. O. Davis, Pres.; Charles Adams, Vice-Pres.; B. B. Johnson, Secy.; Wm. Sanger, Treas.; Romanzo Adams, Marshal. The society has arranged for three meetings each week, to be held to the following schedule.

On Tuesday and Thursday at five o'clock in Alpha Nu Hall and on Saturday, at 8 p. m., in Adelphi Hall. The first two meetings will be informal, but at the third a regular program will be rendered.

All persons interested in literary work are cordially invited to be present.

### The Knock-Out Blow.

The famous veriscope pictures of the Corbett and Fitzsimmons contest, which comes to the Grand Opera House, Ypsilanti, Thursday evening, July 15th, shows conclusively that Fitzsimmons did strike Corbett a foul blow. It was not the blow which knocked him out, but was delivered after the one in the solar plexus, after Corbett had fallen to one knee and one hand. The veriscope cannot lie, it could only record upon its films exactly what took place, and the picture shows the foul very plainly.

### Dr. Sophia Volland Dead.

Mrs. Dr. Sophia Volland died at her home on Thompson street Saturday July 10, and was buried in Forest Hill Cemetery on Monday. Mrs. Volland was born at Sandy Hill, Washington county, New York, in 1827 but at an early age went with her parents, William Henry and Mary Weeks Dean, to Macedon Center, N. Y. After graduation from the Macedon Academy she was married in October, 1847, to Jacob Volland with whom she lived in this city nearly fifty years. An ambition of early life was realized in latter days when, in 1877, she was graduated from the college of Medicine and Surgery of the University of Michigan. She had been a sufferer from hay-fever for forty-five years, which with, La Grippe brought on her final sickness and death.

### Kicks Hard.

One of our merchants complained bitterly to THE REGISTER recently, because he said, several University professors had repeatedly insisted that their pupils should purchase all supplies for certain courses from dealers designated by the aforesaid professors. The merchant declared that he had offered the same line of supplies made of a better grade of stock and offered them at a lower rate, but he could not sell a dollar's worth. Hence he kicks and kicks hard and declares that he will keep it up until somebody gets hurt or else such a thing is stopped.

# Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Mr. Frank B. Martin, a prominent jeweler at 926 Pennsylvania Ave., Wash-

ington, D.C., says: I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars. My mouth was filled with eating sores; my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly, and I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had finished eighteen bottles, I was cured sound and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. saved me from a life of misery. S.S.S. (guaranteed purely vegetable) will cure any case of blood poison. Books on the disease and its treatment, mailed free by Swift Specific Co., Atlanta, Ga.

"I have been quite ill with a cold, and last Sunday we sent for a doctor. He lives seven miles from here, and has to drive through the woods three miles. As he was coming down he saw a mover's emigrant's wagon camped in the woods at one side. As he got near a woman motioned him to stop, and he said he never saw such a sad face as she had. She had a baby in her arms, and she wanted the doctor to come and see her husband and little girl, seven years old, both very sick in that wagon, lying on the bottom with only two old blankets under them.

"The man had typhoid fever and the little girl pneumonia. The doctor said he never saw such a pitiful sight, and he cried as he tried to tell it to me. The poor woman was nearly starved to death, and it was cold—no shelter but the timber. She had just fifty cents left, which she offered to the doctor for medicine. He would not take it, of course.

"After he told me I called Emma and the minister, who boards with us. One went one way, and one another, and gathered supplies. Everybody responded. The minister got an express wagon and had it loaded with bed-clothes, wearing clothes and things to eat—sack of potatoes, sack of apples, fresh meat, coffee, tea, sugar, canned fruit, and lots of other things—a heaping 'cargo.'

"When the doctor went back, he stopped and hitched his team to the sick family's wagon and moved them on to Randolph, where he lives. In the same spirit as that of the good Samaritan, he hired two furnished rooms for a month. He got some men to help him, and they lifted the sick man from the old wagon to a comfortable bed, and laid the little girl in a cot by herself.

"The people up there would not be outdone by our people in giving, and the doctor said he thought they had enough to last them all winter, and that he believed the man would get well. He declared he never saw people so grateful as that man and his wife were. The next day, or that night—in the night—it turned cold and stormy, but the doctor had, as I have said, the family all sheltered, and as comfortable as any one could be."

A monument on the Public Garden in Boston perpetuates the memory of one of the good Samaritans of science; the histories and deeds of the good Samaritans of humble life are rarely written; but an observer—like the writer of the above interesting letter—can find them in every town and village of the land.

## SPECIAL MARKET LETTER

The following market letter is furnished us by McLAIN BROS. & Co., Commission Merchants, Rialto Building, Chicago:

Although there has been no serious decline in the stock and bond list during the past week, there have arisen several disturbing factors which may ere long precipitate more than a mere reactionary break, and which promise to emphasize the existing uncertainty as to the probable state of commerce and finance in the near future.

The miners' strike, which from the fact that it came unheralded and was preceded by few premonitory signs, although but recently inaugurated, is already causing inconvenience and is responsible for the involuntary closing of a number of factories in localities where fresh supplies of coal are unobtainable; and unless soon ended will become a disturbing element of no mean proportions, and with the engineers' strike in the United Kingdom, which promises to become the greatest labor and capital contest of this century, may soon create apprehensive fears for the stability of railway and industrial stocks.

The freight war trace, from which operators anticipated a satisfactory adjustment of discordant difficulties, seems to have been ineffectual, and a renewal of hostilities, because of the refusal of the most aggressive road to submit the dispute to arbitrators, is imminent.

The wiley Turk has once more become an object of anxious interest and adds something to the disquieting uncertainties. The willingness of the public to engage in speculation is evidenced by the alacrity with which it responded to the recent moderate advance in wheat and corn, even though the upturn was caused more by the possibilities of crop damage than by any injury yet sustained. The interest manifested in corn was significant and augurs well for the future of the market for that cereal whenever anything occurs upon which to predicate a bull movement.

Although the weather has been about all that could be desired for the growing crop, the fact that it was being damaged by hot winds over a limited area in Kansas was sufficient to revive speculative interest and to at once broaden the market—a significance fraught with promises if anything occurs to seriously curtail this season's yield.

The advance brought somewhat freer offerings from country points, and receipts in consequence will probably be more liberal. The export movement has again become large, and will, if it continues, prevent larger receipts from becoming burdensome. It is claimed that the low price has proved so attractive to foreigners that they have accumulated excessive stocks, and that some of them are getting out of condition.

The government report, issued on the 10th inst., places the average condition of the crop on July 1st at 82.9, 9 points lower than for the corresponding date last year, on an acreage 1.2 per cent less. The condition of wheat, winter and spring combined, is placed at 84.8. Winter is 81.2, or 2.7 points higher than one month ago, and spring 11.2, or 1.6 points higher. The percentage of crop remaining on hand is estimated at 5.4.

The wheat market has been influenced by the action of corn and has at times ruled quite active; the July option has been erratic and its course has naturally affected the deferred futures. Offerings of new wheat to arrive during this month are daily becoming more liberal. Harvest is progressing rapidly and favorably and the consensus of opinion seems to be that the quality is fine and the yield in excess of anticipations. The reports of damage to French, Russian and Danubian crops have become a part of the regular daily news, accompanied by statements that foreigners have been large buyers of American wheat, but as European markets still show signs of weakness, the trade receives the reports with incredulity. That some damage has been sustained is doubtless true, but that it is serious seems improbable; with present low prices, however, even moderate curtailment of foreign crops would prevent any marked decline, and with depleted stocks would furnish the basis for a higher range of values. The world's visible supply as compiled by Beebeholm and Bradstreet's on July 1 was 70,243,000 bu, as compared with 105,240,000 bu one year ago, the smallest supply reported since August, 1890.

The paucity of stocks will assure an excellent demand for wheat of such quality as we now have assured, and only unfavorable trade conditions can prevent a recovery in prices whenever they are unduly depressed.

The visible supply of grain in the United States and Canada shows the following changes for the week: Wheat decreased 974,000 bu, corn 572,000 bu and oats 1,269,000 bu.

# AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper.

This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

TARIFF reform being now practically  
out of the way, the administration will  
next give its attention to currency re-  
form, and will probably ask Congress  
to authorize the appointment of a cur-  
rency commission to consider the en-  
tire question and recommend a plan of  
action.

CHAIRMAN Bynum of the gold Demo-  
cracy announces that his party is pre-  
paring to make a fight against the free-  
silver issue wherever it appears in the  
coming campaigns this fall, and that  
the mere fact that a dangerous doctrine  
is claimed as a part of Democratic prin-  
ciples will not prevent organized oppo-  
sition from Democrats who favor sound  
money.

COMPLAINTS reach our office that  
ladies on their wheels at night persist-  
ently take the left side of the road, and  
so incur great risk of collision. Keep to  
the right, ladies, especially in the  
evening, and watch the crossings. Where  
10 wheels pass every minute as hap-  
pens often, the danger is very great  
and extra caution necessary.—Ypsilan-  
tian.

AMERICAN dairymen are already be-  
ginning to feel the effects of Secretary  
Wilson's efforts in their behalf. A  
London firm has just placed an order  
for the entire butter product of the  
Iowa State Agricultural College, which  
amounts to about 800 pounds per day,  
and there is reason to believe that this  
will be followed by a general foreign  
demand for the dairy products of this  
country.

RUNNING a newspaper is sometimes  
a mountain of an undertaking. If you  
print some things you get the devil for  
it, and then, if you don't, you get the  
devil; for you know what suits one  
reader rouses the ire of another to the  
fighting point. When we were younger  
in the business we tried to please every-  
body, but now that we are of age we  
don't care a continental, and just print  
everything—if we believe it is for the  
best interests of the whole people.—  
Manchester Enterprise.

MANY people in this city are not  
aware of the pleasantest manner of  
passing these hot evenings. If they  
will go to the river and obtain a boat  
they can have a quiet row over a long  
stretch of water, and the cool evening  
breeze will be a welcome relief after  
the heated houses. There is only one  
drawback and that is the presence of  
men bathing in the river. This is  
against the ordinances and surely our  
valiant marshal ought to be able to se-  
cure for the citizens almost the only  
relief they have against this terri-  
ble heat.—Times.

LAST week THE REGISTER published  
an interesting news article concern-  
ing some recent occurrences in the med-  
ical department. Because we did so a  
number of people have taken it upon  
themselves to accuse us of ill-will to-  
wards the University. Such accusa-  
tions are the veriest nonsense. It is tire-  
some to hear everybody dubbed an  
enemy to the University who will not  
demonstrate attendance when the leader of a  
certain coterie crooks his little finger.  
THE REGISTER always endeavors to  
keep strictly within the limit of facts.  
We believe we did so in this instance.  
If we were mislead as to the facts,  
we will thank anyone who will show  
us where we were in error.

We are well aware that there may  
be circumstances in which publishing  
facts would work an injury even to in-  
nocent people without any compensa-  
ting good. THE REGISTER has al-  
ways made it a rule, in such cases, to  
maintain a perfect silence. But where  
privileges are being abused, and the in-  
dications are that such a state of affairs  
is likely to continue, we have no  
hesitation in making the facts public  
especially when, by so doing, abuses  
may be checked. We feel the less hesi-  
tation in such cases when publicity  
will reflect mainly upon those who de-  
serve censure.

THE anxiety of the Republicans to  
get the tariff bill upon the statute books  
is the explanation of the fact that the  
anti-trust amendment was not inserted  
in that measure. They saw that the  
discussion of it would occupy much  
time, and for that reason decided to  
push it as a separate measure and not  
delay the tariff bill by complicating it  
with this proposition.

WITH a year's supply of foreign wool  
and several months supply of other for-  
eign goods in the warehouses, it is not  
expected that the new tariff law will  
meet the running expenses of the Gov-  
ernment in the first few months of its  
existence. Chairman Dingley and  
other members of Congress, however,  
express the belief that the bill will  
readily produce sufficient revenue to  
meet the current expenses after the  
present stock of foreign goods has been  
absorbed.

THE average farmer who recognizes  
the great possibilities of beet-sugar  
production in this country, which sends  
a hundred millions a year abroad for  
sugar, will not relish the action of the  
Democratic party in the Senate with  
reference to the proposed bounty of a  
quarter of a cent a pound on beet sugar.  
The Republican Senators offered an  
amendment to the tariff bill proposing  
to pay a quarter of a cent a pound  
bounty on American beet sugar pro-  
duced during the five years following  
the enactment of the law, and would  
have promptly passed it but for the  
threat of Chairman Jones of the Democ-  
ratic National Committee and his col-  
leagues in the Senate that the proposi-  
tion would be bitterly fought and action  
upon the tariff bill indefinitely delayed  
on account of this proposition.

NOT a little comment has been caused  
by the act of Glen V. Mills in killing  
the cur that attacked his little child.  
Some people have pretended that Mr.  
Mills laid himself liable to criminal  
prosecution, while the owner of the  
dog even attempted to have such pro-  
ceedings started against him for the act.  
It is no doubt unlawful to wantonly de-  
stroy a person's property, even to the  
killing of a peaceable dog, but to con-  
tend that killing a vicious cur that was  
unquestionably disposed to attack and  
mangle helpless babes, and which had  
actually done so in more than one in-  
stance, was a criminal act, is absurd.  
He would indeed be a heartless parent  
who would allow anything to interfere  
with his efforts to dispose of so danger-  
ous an animal. There may be, here  
and there, a person who thinks it is  
right to keep a vicious dog and to allow  
it to run at liberty, but they must not  
be surprised if such animals are shot as  
a protection to the public safety. In-  
deed people who harbor such dogs  
may consider themselves lucky that  
damage suits are not begun against  
them for harboring such creatures that  
are a menace to everybody who hap-  
pens to come in contact with them.

THE new tariff will restore the duties  
on Canadian and other foreign coal to  
practically those of the McKinley law.  
As soon as the Wilson law was enacted,  
coal from Nova Scotia invaded the  
eastern market, driving out the Vir-  
ginia and West Virginia product,  
which had to this time supplied eastern  
cities and compelled the mines of that  
section to find a market elsewhere.  
The result was that their coal went  
west instead of east as it formerly had  
done and with reduced railroad rates  
was laid down in the markets of Cin-  
cinnati, Chicago and other western  
cities at such low rates that a coal war  
followed by a railroad rate war was pre-  
cipitated. The natural result of this  
and the reductions in prices which fol-  
lowed was a reduction in the wages of  
coal miners, all of which is thus clearly  
traceable to the Wilson law and its re-  
duction in duties on coal. The coal  
miners' strike has brought to the pub-  
lic attention these and other interest-  
ing and important facts as to the effect  
of the Wilson tariff law upon this in-  
dustry and upon the miners themselves.  
The Wilson law reduced the rates of  
duty on coal from 75 cents per ton to 40  
cents per ton. This is just about the  
amount of reduction in miners wages  
of which complaint is now being made  
and emphasized by the strike announc-  
ed for July 4th. President Ratchford  
of the United Mine Workers' Associa-  
tion, in a communication to the New  
York Herald, indicates that the wages  
of miners have been reduced since 1893  
an average of 30 cents per ton, which  
is just about the amount of the reduc-  
tion in duties made by the Wilson law.  
Curiously this reduction in wages is  
thus coincident as to time and amount  
with the reduction in tariff. That the  
reduction in wages was a direct result

of the low tariff is thus accurately  
shown. It is believed, however, that  
with the increase of duty under the  
Dingley law the previous conditions  
will be restored and that the coal  
miners, as well as all other workmen,  
will feel the effects of a new  
prosperity.

Apples are estimated to yield less  
than one-half and peaches less than  
one-fourth of an average crop.

The second edition of the July Alu-  
mus is out. It is the commencement  
annual number and gives most of the  
addresses of commencement week.

A gang of tramps was discovered  
near the railroad who had with them a  
lad of twelve years who begged and  
made himself generally useful. The  
boy was locked up and will be taken  
before Justice Pond today.

The class of '96 ordered casts of the  
figures on the famous "Arch of Trajan,"  
at Benevento, Italy, to be made and  
sent to the U. of M. as a class memorial.  
The casts have been expected for some  
time but did not arrive until last night.  
They are very valuable and the Univer-  
sity is fortunate in securing them. It  
is not yet decided where they will be  
placed.

### Crop Report for July.

The average yield of wheat per acre  
in the state, as estimated July 1st, is  
12.26 bushels, in the southern counties  
13.27 bushels, in the central 10.30 bush-  
els, and in the northern 12.40 bushels.  
These estimates are based on nearly  
1,100 reports, nearly 700 of which are  
from the southern counties, and 300 are  
from the central counties. The esti-  
mate for the state is 8-100 of a bushel  
less, and for the southern counties 2.03  
bushels more than the estimate of the  
1896 crop made July 1st of that year.

The Hessian fly is reported from  
various points, but it does not seem prob-  
able that material damage will be done  
to the crop.

The supervisors returns of farm sta-  
tistics, so far as footed, indicate practi-  
cally the same acreage as harvested in  
1896.

Harvest will not be general even in  
the southern counties before the 15th.  
This is more than two weeks later than  
last year, when harvesting was begun  
in the extreme southern part of the  
State as early as June 16th, and the cut-  
ting was about completed throughout  
the southern counties by July 4th.

The number of bushels of wheat re-  
ported marketed in June is 490,278, as  
compared with 349,863 reported market-  
ed in June, 1896, and the amount  
marketed in the eleven months, Aug-  
ust-June is 9,465,582 bushels, as com-  
pared with 8,609,482 bushels in the same  
months last year.

The area planted to corn is estimated  
at 4 per cent less in the state and 5 per  
cent less in the southern counties than  
in average years. In condition the  
crop averages in the state, southern  
and northern counties 75, and in the  
central 76.

The average condition of oats is 88.  
The estimated area planted to beans  
is 72 per cent of area in average years.  
The estimate one year ago was, for the  
state, 94.

The average planted to potatoes is  
estimated at 18 per cent less than in  
average years in the southern counties  
and the state, 19 less in the central and  
16 in the northern counties. The aver-  
age condition of the crop is now 88.

The average condition of the mea-  
dows and pastures and of clover sowed  
this year is 99. The hay crop now be-  
ing secured is one of the best in aver-  
age per acre ever harvested in the  
state.

INTERESTING AND IMPORTANT  
NEWS MATTERS.

Coal Miners in Five States Strike for  
Wages Enough to Keep from Starv-  
ing—Torrid Heat Causes Much Dis-  
tress and Many Deaths.

### The Strikers Gaining.

The Pittsburg district was generally  
conceded to be principal battleground  
for the coal miners' strike. The oper-  
ators had hopes of keeping several  
thousand men at work there, but they  
have been deeply disappointed. Only  
one company the New York and Cleve-  
land Gas Coal Co. was able to continue  
operations with about 1,500 men and  
the strike officers are preparing a plan  
to bring them out.

The situation in Cleveland over the  
coal strike is becoming desperate.  
The railroads are growing bolder in  
confiscating coal, and those who de-  
pend upon a regular supply are be-  
coming anxious. The schooner B. W.  
Parker, of Detroit, has been delayed  
in Cleveland over a week owing to the  
action of the Erie railway in taking  
away over 30 cars of coal which the  
vessel was about to load. Several fuel-  
ing firms have nearly exhausted their  
supply and the Pennsylvania & Ohio  
Fueling Co. has suspended business al-  
together in Cleveland. There is con-  
siderable fuel in the upper lakes, and  
some of it may have to be brought  
down. It is generally admitted now  
that the coal dealers and mine operators  
were very poorly prepared for a strike.  
The great plant of the Cleveland Steel  
Co. has closed owing to the lack of  
fuel. A number of other plants are  
preparing to shut down.

The strikers won a great victory in  
the Wheeling & Lake Erie district.  
Col. Myron T. Herrick, the receiver for  
the W. & L. E. railway, has been in-  
formed that only one man went to  
work at Dillonvale, where the railroad  
people had decided to make a test, and  
where they had secured a force of U. S.  
marshals to protect the miners who  
would go to work. The full force of  
this intelligence can be appreciated  
when it is stated that Cleveland man-  
ufacturers and shippers expected that if  
matters came to the very worst the  
district covered by the W. & L. E.  
would supply whatever coal was  
needed. This means to Cleveland now  
a practical tie-up.

### Notes on the Miners' Big Strike.

The receivers of the W. & L. E. rail-  
road have secured an order from Judge  
Taft of the U. S. circuit court at Cin-  
cinnati, directing the U. S. marshal to  
protect miners in the company's em-  
ploy while at work and to prevent un-  
lawful interference with their railway  
operations on the part of strikers.  
The marshal and his deputies are  
directed to arrest and detain any per-  
sons destroying property or threaten-  
ing or doing violence to any persons  
in the employ of the receivers, for the  
purpose of preventing them from con-  
tinuing in their employ.

President Ratchford, of the Mine  
Workers' association, is greatly pleased  
with the success of the present strike  
thus far and regards the outlook as  
exceedingly bright. He says it is the  
first time the regulation of miners'  
wages has given any concern to na-  
tional legislators, and that now the  
press, pulpit and the people are with  
the miners. Much encouragement has  
been received from labor organizations  
all over the country.

Of the 21,000 miners in the Pittsburg  
district 18,000 are out and the others  
are expected to follow soon. The  
West Virginia miners are not organ-  
ized and are slow in coming out.

A. Brenholz, who manages the home  
office for the General Hocking Coal Co.,  
at Columbus, says there is at least  
150,000 tons of coal in storage in the  
northwest. He estimates that this  
will supply all demands for at least  
four months, no matter how general  
the miners' strike becomes.

President Ratchford, of the Mine  
Workers' association, has received  
strong telegrams of sympathy and  
promise of support at the proper time  
from President Samuel Gompers, of  
the American Federation of Labor, and  
President Garland, of the Amalgamated  
Association of Iron and Steel workers.  
Mr. Ratchford intimates that a sym-  
thetic strike of nearly 1,000,000 work-  
men in all lines may occur. At any  
rate the boycott will be used and  
strongly pushed against all consumers  
of non-union coal.

A cyclone which swept over Pope  
county, Minn., devastated a wide  
stretch of territory and wiped the town  
of Lowry off the map. At least 10  
persons lost their lives.

While the central and eastern states  
have been melting and evaporating  
under the torrid sun, over an inch of  
snow fell at Leadville, Gunnison,  
Creede and other Colorado points.

Hugh Joeson and his wife and four  
children, who lived 15 miles north of  
Pineville, Ky., were burned to death,  
being unable to escape from their  
home, which was destroyed by fire.  
The remains of all six were found in  
the debris. The fire was undoubtedly  
of incendiary origin.

The central labor union of A. F. of  
L. at Cincinnati demands that Presi-  
dent Gompers call a meeting of the  
executive board to take steps to levy  
an assessment of 10 cents a week on all  
members of the body in support of the  
striking miners. This would aggre-  
gate \$60,000 a week.

The U. S. cruisers San Francisco and  
Raleigh have been sent to Tangier to  
support the protest of U. S. Consul-  
General Burke against the discrimina-  
tion of the authorities of Morocco  
against Americans, in refusing to per-  
mit them to employ native help, a privi-  
lege which is granted Europeans.

How often do we hear, that the avenue to an early grave was opened by neglecting a slight cough and cold. Profit by this truth, and provide yourself with Dr. Bull's Cough Syrup, which instantly cures all throat and lung affections. Mr. W. H. Mahoney, Lowell, Mass., writes: "I was taken sick with a bad cold. The doctors did not seem to help me, and everybody said I was getting consumption, when a relative recommended Dr. Bull's Cough Syrup. I got a bottle and it helped me, and after taking two bottles I was cured, to the surprise of everybody. I shall always recommend it to my friends, as I know it to be a sure cure." Dr. Bull's Cough Syrup is sold everywhere for 25 cents. Don't accept a substitute.

This great Health Beverage, prepared by the Battle Creek Sanitarium Health Food Company, has been demonstrated to be the only scientifically prepared substitute for Coffee, by receiving the **FIRST AWARD** at the **GREAT ATLANTA EXPOSITION.** An eminent Washington attorney wrote the manufacturers: "I find Caramel-Cereal nourishing as well as refreshing, and always take a cup when I return home at night after a hard day's work." Caramel-Cereal possesses the advantage, that while palatable and refreshing, it is free from deleterious properties, and hence may be freely taken by children and invalids. It ought to displace Tea and Coffee everywhere, and in doing so would save an enormous amount of sickness and suffering. Persons suffering from Sick Headache are generally cured by substituting Caramel-Cereal for Tea or Coffee.

The apportionment of the \$400,000 made by congress to provide arms and equipment for the militia of the various states makes Michigan's share a little over \$12,000.

Milton Batterson, aged 19, was drowned by bathing in Kenyon lake, near Sherwood. His 15-year-old companion was so frightened that he did not call for help.

Hon. George Van Ness Lothrop, one of the most prominent lawyers of the city and state, and ex-U. S. minister to Russia, died at his home at Detroit, at the age of 79 years.

Mrs. Margaret Guy, colored, nearly 100 years of age, of Ionia, mistook a cup of diluted carbolic acid for drinking water and drank it, death resulting within five minutes.

A can of arsenic was mistaken for baking powder by Mrs. Franklin, cook at a Londo lumber camp, and the whole crew was made very sick, but all are out of danger now.

Four buildings of the old Batchelor mill plant, including the boarding house of the Melbourne Salt Co., six miles down the river from Saginaw, were destroyed by fire. Loss \$6,000.

A brick arch in the boiler-room of the West Michigan furniture factory at Holland, collapsed suddenly, probably fatally crushing Henry Strovenyaans, aged 17, and Frank Oosting, married.

Robert Gamble, aged 9, was run over by an electric car on Genesee avenue, Saginaw. Both legs were so badly crushed that amputation was necessary, but he could not survive the operation.

Charles Tolles, janitor in the high school building at Ludington, suicided by shooting himself in the right temple. A reduction of salary from \$40 to \$10 a month for the summer was the cause.

The Richard & Bechtold woodenware factory at Bellaire was destroyed by fire. Loss \$15,000, partially insured. Seventy men are thrown out of employment, but the plant will be rebuilt at once.

Roy McDonald, a sailor of Port Huron, was killed by a Grand Trunk train in Sarnia. Several years ago he jumped from a ferry boat and saved a woman, receiving a medal from President Cleveland.

The Anti-Saloon league at Crosswell had seven saloon men arrested on a charge of selling liquor without legal bondsmen. One of the signers of the warrants has since lost a new office building by fire.

J. L. Berkheimer, who was a clerk in the auditor-general's office at Lansing, disappeared and is badly wanted, it having been returned that he cashed at least two worthless drafts on which he raised \$145. Deputy Auditor-General Wilkinson is out \$95 and H. E. Turney, a grocer, is \$50 poorer.

Avery & Co.'s planing mill at Saginaw was gutted by fire which started on the roof from an unknown cause and spread rapidly to the upper floors of the building, a three-story brick. A portion of the upper walls fell out on both sides. The loss will reach \$25,000, with an insurance of \$13,500.

*From the New Era, Greensburg, Ind.*

Miss Sarah Cones who lives about three miles northwest of Aurora, Ind., is well and popularly known. Miss Cones is a school teacher, having charge of a country school about two miles from her home. She drives to and from her school each day.

She is stout and robust, and in the best of health, as the ruddy glow on her plump cheeks testifies.

The reporter happened to meet this young lady's mother in Aurora a few days ago and learned that although her daughter is now in the best of health, last winter she was suffering untold agony, from troubles arising from exposure.

Mrs. Cones said: "Sarah has been teaching for four years, beginning when in her sixteenth year. She has always taught at the same school and got along well until last December, when the weather was unusually changeable, and she took a severe cold which developed into the 'grip.' She was confined to the house about two weeks, when she got out and went to her school again. She had a relapse, and this time was confined to the house several weeks, having to give up her school."

"She was troubled with rheumatism and nervousness, and suffered great agony, her nerves being almost completely shattered. She could scarcely eat, and in fact could not retain solid food on her stomach at all."

"We tried five different physicians but with little avail."

"One day our druggist advised us to try Dr. Williams' Pink Pills for Pale People as they seemed to benefit many persons about Aurora."

"Sarah used one box of the pills with satisfactory results, and by the time two boxes were taken she was able to go about the house. Seven boxes were used, the last one in July. She was entirely relieved of all pains or signs of rheumatism, and nervousness, and has since felt as well as she ever did and has not missed a day of her school this winter."

Miss Sarah, who entered at this time verified all her mother had said, as did also the druggists of Aurora. The drug firms of A. J. Marshall & Co., J. A. Riddell & Co. and John M. Ulrich, said the medicine was a constant seller with them, and gave universal satisfaction. "People who buy once come and buy again," they said.

*From the Tribune, Kokomo, Ind.*

Mr. John Leahy, a well-known school-teacher of Kokomo, Indiana, makes the following well written statement regarding his illness from rheumatism and a complication of diseases, and subsequent cure.

"Three years ago, when I was 35 years old, I was attacked with rheumatism accompanied with marked and increasing disturbances of the nervous system, pains in the head, and most serious of all, symptoms of organic heart trouble soon appeared."

"The cardiac inflammation increased as the rheumatism progressed, and it was not a great while before the heart trouble assumed the chronic form. My brain was much disturbed and my physician was alarmed, fearing meningitis, as the articular inflammation diminished while the cerebral disturbance increased. But I was spared this additional

affliction, I am [thankful to say, for again the joints began to swell, and the pain in the head to subside, though it settled into a dull rheumatic headache, which no skill of the physician could relieve.

"Of course, during the early stages of the disease I was confined to bed. Then I got up and tried to move around a little, and really I think I got used to the pain, more than that there was any improvement in my condition."

"It was in the spring of 1893, when I was first afflicted, and for three years the disease continued, during which time I was attended by the best physicians in the state, some of whom are considered at the head of their profession in the west. These gentlemen, though zealous, and splendid diagnosticians, could not help me. They could all describe my disease, and tell me better how I felt than I could myself, but their remedies had no effect on me whatever. I was a fearful sufferer from insomnia, and the nostrums which I took to superinduce sleep were legion. In addition to other troubles, my stomach gave out altogether. I think probably from the preparation of salicylic acid, with which I had been abundantly dosed, I could not assimilate food, and lost flesh until I became almost a skeleton. My condition of nerves at this time cannot be described. Terrors by night and terrors by day were indeed mine, and though generally utterly unreal, they were just as tormenting as though they had the most material existence."

"So matters continued until the spring of this year (March, 1896). I was still failing and becoming more of a wreck every day, when a friend of mine, a druggist in Logansport, Indiana, recommended me to try Dr. Williams' Pink Pills for Pale People, saying that they had recently cured a customer of his who had been similarly afflicted, and in as bad plight as I was."

"I did not at once act on my friend's recommendation, but after two or three days did so and bought a supply."

"Now there is no exaggeration in what I am about to write, for it is the honest truth. I had not taken Pink Pills two days when I began to get relief. First of all my nervousness and that dull, wicked headache showed signs of abating, then my sore and painful joints grew easier, my stomach and kidneys began to do their work once more, my tongue became clean, all foulness disappearing, and better than all my heart became normal in its action."

"Before I had taken four boxes of Pink Pills I was a well and hearty man, and I now eat, drink, sleep and work, as well as anyone, and after three years of suffering such as mine, it may be imagined that I am more than tolerably happy and contented with life."

"I have recommended Dr. Williams' Pink Pills to many, among others my sister, Mrs. Ellen Patton, of Chicago, Ill., who is a rheumatic sufferer, but I have not heard as yet what they have done for her."

(Signed) **JOHN LEAHY.**  
Witness: **JAMES LEAHY.**

Dr. Williams' Pink Pills for Pale People are now given to the public as an unfailing blood purifier and nerve restorer, curing all forms of weakness arising from a watery condition of the blood or shattered nerves. The pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box or six boxes for \$2.50. They are never sold in bulk or by the 100, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

**A FAMOUS MONEY LENDER.**

Story of a Man Who Won Unequivocal Fame in California.

In the passing of Asa Fisk drops out from California life, an individuality so marked that it was proverbial in the community, says the San Francisco Chronicle. Asa Fisk gave a name to methods in finance as Machiavelli gave a name to methods in politics. The common remark of those who knew him only by repute is "Cent per Cent, Cent per Cent, the money lender is dead." Zealous for his farthing Asa Fisk may have been, and in a grasping posture he was photographed in the opinion of his fellows generally, but in this lender's nature was a kindly, even a generous phase, and there are tears that he is dead. For Asa Fisk was a loving man to his own, a liberal parent and husband, and, in stealth, he made charitable gifts that might astonish those who were called upon to pay to the last dollar the debts they incurred when in stress. Indeed, in such contradiction were the aspects of this man that one cannot bring them into harmony unless he applies one lens to his business life and another to his domestic life. Asa Fisk was one man to his debtors and another man to his family. His character is to be read from his ancestry and the struggles of his early life. He was a farmer's boy in New England, born on Christmas day, 1818, at the town of Holliston, Mass., and until 14 years of age he lived and worked on his father's farm. Then he made his way to Boston, and for a wage of \$3 a week worked in a grocery store. With thrift that showed higher development in his later years, Fisk bought board and lodging and clothing from his meager compensation. Seeking advancement, he sought and obtained employment with the firm of Daniel Kimball & Co., dealers in tailors' goods and supplies. His income at first was \$100 a year. His industry and intelligence caused his salary to be advanced and his responsibilities to be increased. He moved steadily forward and before he was 30 years of age was a partner. Subsequently Fisk became the sole owner of the business. His fortune developing he turned to railroads and politics, building the East Boston & Suffolk

railroad and serving a term in the state senate of Massachusetts. In 1863 he came to California for his health. That visit determined the location of his residence. Returning to Boston he sold out his business interests, and with a pile of ready money, amounting to about \$75,000, he came, in 1869, to San Francisco to live. He started in business as a money lender, by his methods gained the notoriety that gave an unpleasant attachment to his name. He announced the rate of interest upon which he would lend money 3 per cent a month, or 3 per cent a week, according to the applicant or Fisk's judgment of him, but always compounded. The applicant might take the money or leave it, as he chose, but usually he took it, for few went to Asa Fisk's dingy office on Montgomery street except in dire need. As a creditor he was relentless. He rigorously fulfilled every engagement he made, and he expected every other man to do likewise. If a debt of \$150 grew to \$15,000 by the increment of compound interest he used every means known to the law to collect the last cent. Withal he loaned money to distressed applicants when none others would listen to their requests. A clerical coat on a borrower was always deemed sufficient security for a loan—of course, at the usual rate of interest—and several young lawyers might have gone hungry if Asa Fisk had not regarded their pride as collateral for an advance. Asa Fisk gained a large fortune, amounting probably to about \$500,000. Most of his money was carefully invested in productive real estate and all or nearly all of this real estate he transferred to his wife by deed. In the probate court the estate of Asa Fisk, deceased, will appear of small measure.

COUNCIL PROCEEDINGS. (Continued from preceding page.)

RECAPITULATION. Contingent fund \$1329 78 Sewer Fund, general 84 10

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—13.

Chairman Cady presented an ordinance entitled "An Ordinance Relative to the Pavement of Streets" which was given its third reading by sections and placed upon its passage.

Ald. Brown moved the following substitute for Section III.

The City Engineer upon the passage of the resolution establishing a local assessment district, as provided in Section II, shall forthwith proceed to ascertain the quantities of the work and material requisite to the improvement so ordered, and estimate and apportion the expense of the construction thereof per front foot, and of inspecting the work during its progress, and shall make a report of the same to the Common Council.

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Dell, Sweet, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Koch, Brown—2.

Ald. Brown moved the following substitute for Section IV.

The report of the City Engineer shall be referred to a committee of the Common Council which shall make due inquiry relating thereto, and after hearing all persons interested therein, appearing and desiring to be heard, shall make a report thereon to the Common Council; and the Common Council shall, if the construction of any such pavement shall be still deemed expedient, order and direct the Board of Public Works to cause any such pavement to be constructed, and shall fix and determine the district to be assessed and charged with the costs and expense of the construction of the same per front foot, excepting street intersections and crossings, and excepting also one-fifth of the balance of the entire cost of the construction of any such pavement, which together with the said street crossings and intersections shall be paid by the City, and which shall be a charge on and against the general street fund, and which resolution of the Common Council shall be certified by the City Clerk to the Board of Public Works and the City Assessor, respectively.

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Dell, Sweet, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Koch, Brown—2.

Ald. Brown moved the following substitute for Section V.

That after the certification of any such resolution to the City Assessor, the City Assessor shall without delay proceed to make, fill out and complete a special assessment roll, wherein and whereon he shall set down, alphabetically arranged, the names of all the owners or occupants of the land contained within such special assessment district, and of all the land situated therein, well and sufficiently described, and estimate and determine the number of feet frontage of each parcel thereof. That after the completion of any such special assessment roll the said City Assessor shall attach his certificate thereto and certify the said assessment roll to the Common Council, whereupon the Common Council shall fix and appoint a time, when sitting as a Board of Review the said assessment roll shall be reviewed, and the said Common Council shall give at least seven days notice thereof by publication in the official newspaper of the City. The Common Council on the day and at the time mentioned in such notice shall meet at the Council Chamber, sitting as a Board of Review, and shall proceed without adjournment to review any such special assessment roll. The Common Council sitting as such Board of Review shall have power and authority to change any description of land contained therein, and the foot frontage thereof and to add thereto lands omitted therefrom, and to do and perform any other act or thing whatever in and about any such special assessment roll, to the end that every such special assessment roll shall be made just, true and fair; that any person interested therein may be heard in person, by his agent or attorney, and all matters of complaint shall be duly considered, and after any such special assessment roll shall have been duly considered, the Board of Review shall approve or reject the same, and shall certify their determination to the Common Council, and the Common Council at that meeting or the next meeting, shall confirm any such special assessment roll so approved by the Board of Review, and shall order the sum or sums of money fixed and determined upon as the estimated cost of such street pavement, street crossings and intersections excepted, and one-fifth of the balance of the cost also excepted, to be assessed and spread upon any such special assessment roll and on and upon each and every of the regular annual assessment rolls in said City for the year in and during which any such special assessment shall or may be payable, and levy the assessment against the owners or occupants of the lands set down therein, and shall levy and assess the said sum or sums of money on, upon and against the lands set down in and valued upon any such special assessment roll as per front foot as aforesaid and shall certify the said special assessment roll and order and resolution of assessment to the City Assessor.

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Dell, Sweet, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Koch, Brown—2.

Nays—Ald. Koch, Sweet, Brown—3.

TO THE COMMON COUNCIL.

Your Committee on Sewers to whom was referred the report of the City Engineer relative to the construction of a lateral sewer on and along W. Liberty street would report that they have examined the same and are of the opinion that a sewer on W. Liberty street west from the main sewer is a necessary public improvement, and the same ought to be constructed along W. Liberty street from the main sewer westerly to Seventh street as delineated on the map, of District No. 7.

Your Committee would recommend that the Board of Public Works be directed to secure proposals for the construction of such lateral sewer.

Respectfully submitted, Horace P. Danforth, John Koch, Harrison Soule, Geo. Spathelf, Jr., Geo. W. Sweet, Geo. L. Moore, Committee on Sewers.

Adopted as follows: Yeas—Ald. Moore, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Hamilton, Grossman—2.

STREETS

TO THE COMMON COUNCIL:

The Committee on Streets would most earnestly protest against the salary of the City Engineer being taken from the Street Fund. A great portion of the time of this official is given to sewers, culverts, bridges, crosswalks and miscellaneous work, and your committee are of the opinion that his salary should come from the Contingent Fund.

Respectfully submitted, Geo. L. Moore, M. Grossman, J. A. Dell, Arthur Brown, C. C. Rhodes, C. H. Cady, Harrison Soule, Committee on Streets.

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—13.

Nays—None.

Ald. Koch moved that at the expiration of the 30 days that the city build the walk along the east side of S. 1st if not built by the property owners before.

Adopted as follows: Yeas—Ald. Grossman, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Moore, Hamilton—2.

BONDS

Your Committee on Bonds would recommend the approval of the bond of the New State Telephone Co. with Wm L. Holmes and Frank A. Vernon as sureties.

Respectfully submitted, M. H. Cady, C. Grossman, Committee on Bonds.

Ald. Brown moved to substitute the words "Board of Public Works" in place of the words "Common Council" in lines 1, 8 and 12 of Sec. 10.

Adopted as follows: Yeas—Ald. Moore, Hamilton, Grossman, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—13.

Nays—None.

Ald. Hamilton moved that Section 15 be amended by substituting the word "thirty" in place of "ten" in line 12.

TO THE COMMON COUNCIL.

Your Committee on Sewers to whom was referred the report of the City Engineer relative to the construction of a lateral sewer on and along W. Liberty street would report that they have examined the same and are of the opinion that a sewer on W. Liberty street west from the main sewer is a necessary public improvement, and the same ought to be constructed along W. Liberty street from the main sewer westerly to Seventh street as delineated on the map, of District No. 7.

Your Committee would recommend that the Board of Public Works be directed to secure proposals for the construction of such lateral sewer.

Respectfully submitted, Horace P. Danforth, John Koch, Harrison Soule, Geo. Spathelf, Jr., Geo. W. Sweet, Geo. L. Moore, Committee on Sewers.

Adopted as follows: Yeas—Ald. Moore, Koch, Dell, Sweet, Brown, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—11.

Nays—Ald. Hamilton, Grossman—2.

TO THE COMMON COUNCIL:

The Committee on Streets would most earnestly protest against the salary of the City Engineer being taken from the Street Fund. A great portion of the time of this official is given to sewers, culverts, bridges, crosswalks and miscellaneous work, and your committee are of the opinion that his salary should come from the Contingent Fund.

Respectfully submitted, Geo. L. Moore, M. Grossman, J. A. Dell, Arthur Brown, C. C. Rhodes, C. H. Cady, Harrison Soule, Committee on Streets.

TO THE COMMON COUNCIL OF THE CITY OF ANN ARBOR:

Gentlemen:—Below find report of Ordinance cases brought before me during quarter ending June 30, 1897, and disposition made of same:

NO. DATE PARTIES.

THE CITY.

Mayor Hiscock has approved the street paving ordinance.

Professor Montgomery and family have gone to Tennessee for a summer outing.

The New State Telephone Company now has its instruments working in Ypsilanti.

Cel a Hoag began proceedings against John Hagen, Monday, for slander. She sues for \$1000.

The pulp mill at Geddes has shut down and laid off all its men. It may not be opened again.

Workmen on the sewers now labor from 6 to 11 and from 2 to 7 thus escaping the hottest hours.

The Ypsilanti board of public works has discovered that four aldermen have been using the city water illegally.

A number of University students are attending the Convention of the League of College Republican Clubs at Detroit this week.

The board of health made an inspection of the water works last Friday and report everything clean and in the best possible condition.

Professor Perry and wife are spending the summer on Les Cheneaux Islands. They occupy the cottage built by Prof. De Pont last summer.

Jackson Press: J. C. Bader, who went to Ann Arbor Wednesday and underwent an operation for cancer in the throat, is reported as in excellent condition.

On Monday night Professor Bradley M. Thompson opened the Summer School lecture course by an able address on the "Judicial System of the Jews."

The Times is getting along gloriously with its bicycle path between Ypsilanti and Ann Arbor. Over \$325 has been raised and the path is now a sure thing.

Roy Chester, a fourteen year old colored boy, was taken to the Reform School at Lansing last week. He has been out on suspended sentence for some time.

The firm of Lepper & Wilcox which has had charge of the Cook House, in Ann Arbor, and the Hawkins House in Ypsilanti, has dissolved. Mr. Lepper will now manage both hotels.

Joseph E. Gage began suit against the township of Pittsfield, Monday, for \$5000 damages. Mr. Gage claims to have received a severe injury owing to the bad condition of the roads.

Martin Clark reports that the mercury stood at 101 in the shade at his residence, 62 E. Washington-st., last Friday at 3 p. m. It reached the same point on Sunday July 4, at 4 p. m.

One or two dogs showed signs of hydrophobia last week and were promptly killed by the police. The prompt action of mayor and police in the matter is to be highly commended.

Ypsilanti is to have an exhibition of the famous veriscope pictures of the Corbett and Fitzsimmons contest. The date is Thursday evening, July 15th, and the place is the Grand Opera House.

Hugh Brown, of this city, has been elected Superintendent of the Pontiac schools for next year. J. A. LeRoy gives up the principalship of the same school and expects to go into journalism.

The A. A. L. L. held the first shoot of the year on Friday. Most of the men were new but good shooting was done. Fred Campbell did the best work, scoring eighteen out of a possible twenty-five.

Frank Seabolt, of Ann Arbor, a practical electrician, has entered the Mechanical Electrical & Mechanical works under Mr. Fidemian. Mr. Seabolt enters the works to become a master of his profession.

Harry Coleman, of the Oakland Co. Post was in town Saturday and Sunday. Brother Coleman seems to be prosperous and happy and makes his visits to Ann Arbor about once a week with remarkable regularity since vacation began.

Mr. Stofflet's report of the race meet July 3 shows the total receipts \$67.87, and the total expenditures \$90.55, making a deficit of \$22.68. This deficit Mr. Stofflet very generously made up himself by donating one of the prizes, a \$35 bicycle.

As the result of an old quarrel among University doctors, Dr. Campbell is out of a job. He was not turned out, but the chair was kicked out from under his person—i. e. abolished. It is intimated by the Democrat that the head of Dr. Vaughan, the inventor of tyro-intoxication—if that is the word—sits none too securely on his shoulders. Perhaps he could take a hint from Buckingham in the days of Richard III: "O, let me think on Hastings, and be gone to Brecknock, while my fearful head is on."—Adrian Press.

Mrs. Fannie White has begun suit for divorce against John F. White, of this city, on the grounds of non-support and desertion.

The law department of the summer school is increasing in attendance. Forty students are now enrolled and a few more may enter.

Edward Harris Waples, of the Washenaw Home Visitor, will go north next Monday to spend a few days at some resort on Lake Huron.

William Wood, of Chelsea, was sun-struck last week and is still very sick in consequence. Hopes of his recovery are entertained however.

The only marriage license taken out so far this week is that of Conrad M. Schanz, age 22, of Lima, and Nellie Grand, age 18, of Chelsea.

Charles Carner, a young man living near Chelsea fell dead during the hot weather last week from sun stroke. The victim was 19 years old.

George B. Harrison who was well known in this city as reporter for the Free Press and one of the leading U. of M. Daily men, is now in Topeka, Kansas.

The building occupied by F. J. Schieede's book store and bindery on State street has been torn down and a new one will be erected in the same place.

The Ann Arbor Democrat is no longer published at the Inland Press office but has moved to the office of the Times from which it will be issued from now on.

The botanical garden which was started as a sort of experiment last spring, is now an assured success and adds much to the comfort and beauty of the campus.

Riotaro Kodama, of the University, is from Japan. He is doing post-graduate work in economics and expects to return to Japan later to engage in newspaper work at Tokio.

W. F. Dains, of Shaftsbury, Mich., has moved to this city and opened a restaurant and boarding house at No. 19 Broadway. Mr. Dains expects to enter the law department this fall.

Patrolman Armbruster arrested two drunks Monday night and locked them up until morning. One of them talked shoot but changed his mind shortly after the big policeman got hold of him.

About forty prominent wheelmen will ride to Detroit Saturday morning to see the matched bicycle race between Cooper, Bald, and Kiser. Among the party will be Mr. Stofflet, Paul Myers and Earl Butler.

The Ladies' Library Association will give a moonlight party with music on Mrs. Beal's lawn Friday evening July 16th. Ice cream, ices, cake and lemonade will be served. Everyone will be cordially welcomed.

Secretary Wade is still here and is perhaps working as hard as any body in the city. He will remain here all summer hard at work and will find his duties greatly increased next year by the advent of a new dean and a new president.

Professor Knowlton will deliver the second lecture of the summer school course, tonight. His subject is "The Criminal Jurisprudence of the Hebrews." This lecture is preliminary to one on "The Trial of Jesus From a Lawyer's Standpoint."

Willie Burleson, of Elizabeth street, the 16 year old boy who disappeared June 4, has not been heard from since. He went away his on wheel and as he had only a few cents in money his continued absence is surprising. The boy started on a similar expedition last summer but came home after an absence of two days.

What threatens to end in a Chinese civil war began the other day on Ann street. Lee Hing and Wang Ching went into partnership in the laundry business but instead of turning over his dues to Lee like any good Chinaman ought to do Wang blew it all in on opium and other forms of booze. Lee Hing is mad.

The Huron River sensation rather flattened out at the end. On Saturday the Geddes dam was opened and the water fell three feet in a very short time. Patrolman Armbruster then made a thorough search but found nothing save the decayed remains of some animal and a piece of carpet. Mr. Kranich still believes he saw a woman's body in the pond.

The Detroit Tribune in its account of the meeting of the League of College Republican clubs of America says: The Michigan boys claim their candidate has a sure thing. They have canvassed the field thoroughly and claim a plurality of votes sufficient to win the day. A. L. Davis is a South Dakota man in the law department of the University. His competitors in the race are P. P. Christianson, of Cornell; T. B. Whitney, of Williams, and W. S. Harris, the present acting secretary from Princeton.

Work on the University lighting plant was begun Monday.

The annual meeting of sheriffs and marshalls will be held at Port Huron July 27 and 28. Marshall Sweet will attend.

Doctor Angell and wife left over the Michigan Central last night for New York. On Saturday they will sail for Havre, France, and from there will go to Paris for a few days' stop. What route will then be taken from that point is uncertain but they will probably go by the Mediterranean to Constantinople. No interpreter or private secretary goes along, the only attendant being Mrs. Angell's maid.

The following officers were elected and installed in Washtenaw Lodge, No. 9, I. O. O. F.: Noble Grand, W. Banfield; vice grand, E. F. Winders, secretary, J. D. Vance; permanent secretary, H. P. Danforth; treasurer, Herman Krapf; warden, W. Lau; right reporter, L. Curtis; chaplain, George Scott; inside guardian, E. Williams; R. S., A. T. Cook; L. Q., H. P. Schlemmer; conductor, C. S. Elmer.

An eight year old lad named McCarthy, living in Augusta, met with a bad accident Thursday, which at least will result in a stiff hand for life. He had hold of the hay fork rope and was hauled up into the pulleys, being too scared to let go of the rope. All the muscles and tendons of the inside of his hand were torn out, making it very painful. Dr. Hueston is caring for the lad.—Times.

The Times is authority for stating that Father Kennedy, of Ypsilanti, is a first class fighter. Saturday night a man called the good father down and showed him a revolver and a knife with which he was going to commit suicide. Then Father Kennedy went into the man and after a fight that would have done honor to a professional scrapper succeeded in disarming the would be suicide and turning him over to the police.

A report has gained some currency about the University that several students are planning to establish a co-operative society in Ann Arbor next fall. The idea is to make it rather comprehensive in its organization so that any student who joins the society may order at cost anything he wants even including his board, clothing, books of all sorts, and in fact any article a student uses. Such a plan might work for awhile but could not do so many months.

A good deal of misunderstanding exists among deer hunters regarding the new game law and for their benefit THE REGISTER publishes the following summary. No person shall kill deer or elk in the island of Bois Blanc, in Lake Huron, until the tenth day of November, 1899, or in the counties of Alcona, Lapeer, Huren, Sanilac, Tuscola, Macomb, Allegan, Ottawa and St. Clair, until the first day of January, 1903. No person shall kill more than five deer each year. The open deer season shall be between November 8 and November 30. No one shall kill deer by means of trap, or pitfall, nor hunt them with dogs or artificial light.

AMONG OUR NEIGHBORS.

CHELSEA STANDARD.

Mrs. Austin Blair, widow of the war governor of Michigan, died at her home in Jackson Saturday evening.

MILAN LEADER.

Job Burnap died at his residence in the eastern part of this village Tuesday afternoon at 5 o'clock, aged 80 years 8 months. The funeral was held at the house at 8 o'clock yesterday morning, and his remains were taken to Martinsville for burial. Rev. F. L. Baker conducted the funeral services.

THE YPSILANTIAN.

It is thought that Roy Wilkinson, the boy who was injured by the powder explosion, will fully recover his eyesight.

Some children were "playing burglar" last evening, and in the realistic carrying out of the play, the little son of Arthur Hewitt was shot, the bullet inflicting a flesh wound on the side of the head.

YPSILANTI SENTINEL.

The Ypsilantian and Commercial woke up to scare heads and special information last week, the former announcing the conferring of the LL. D. degree upon Prof. Putnam, and the latter informing its readers that the new telephone exchange was opened.

Anna, wife of Clarence Harrington, died at the residence of her mother, Mrs. Shuda, Wednesday last, of consumption, aged 24 years.

SALINE OBSERVER.

Another Saline boy has become the head of a family. It is Walter N. Isbell who was married Tuesday to Mable Hildebrand Brown at Jackson. This was held at home at Gaines, state after September 15.

Ida, the little twenty-two months old daughter of Mr. and Mrs. Clyde Cole, died Wednesday forenoon. This morning a postmortem was held which revealed the cause of death to be a large fatted floating kidney.

YPSILANTI COMMERCIAL.

William Dickinson, who is said to have been the oldest conductor on the Michigan Central, and who was a former resident of this city, was stricken with paralysis Tuesday evening, and died at his home in Detroit at 8:20 that night.

Corra Tanner, the domestic of George Gaudy, was quite badly burned Sunday evening. She was filling a gasoline stove and supposed that the burner was turned off. In filling the stove some gasoline was slopped over and ignited, burning her about the hands and face.

CHELSEA HERALD.

Last Sunday, Frank Brant, who has been working for John Wenk, of Lima, took a watch, shirt and a new pair of shoes belonging to his employer and started off towards Ann Arbor. Mr. Wenk came to Chelsea and notified deputy sheriff Staffan who started in pursuit and succeeded in arresting him a few miles this side of Ann Arbor. He denied all knowledge of the watch at first, but finally confessed and told Mr. Staffan where to find it. He was taken before Justice B. B. Turnbull Tuesday morning, pled guilty, and was sentenced to 60 days in the county jail.

DEXTER LEADER.

Last Thursday Postmaster Costello turned over the affairs of Uncle Sam here to his successor, Charles H. Stannard and stepped down out of the office that he has filled so acceptably during the past four years. His able assistant Miss Cora Warren, whom the public have ever found prompt and obliging, will remain with the new administration for a short time until Mr. Stannard gets "onto his job," as the slang goes. J. L. Newkirk entered on a ministerial career, but soon saw that he was unfit to wield weapons on the head push of the power of darkness without some practice on a lesser devil, and he bo't the Flat Rock News. He has now sold it and goes forth once more against the man guy of sin strengthened in every way.

MANCHESTER ENTERPRISE.

Jay Fox, a former Manchester boy, who of late years has been living with relatives in Bridgewater, graduated from the Ann Arbor High School last month. Jay's Manchester friends have not seen much of him for some time, but will be pleased to learn that he has pluckily worked his way through the school and that he was president of the class, who presented him with a fine Webster's dictionary and \$10 in gold. He will enter the University in the fall. Three or four men in a more or less intoxicated condition, were seen hanging around the depot grounds Sunday evening. One of them tried to get into Mr. Haschley's bar but was driven off by the old gentleman, who sent for the marshal and had two of the tramps locked up.

Catarrh Cannot be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free. F. J. Cheney & Co., Props., Toledo, O. Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when ever breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very usual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

The Forest Reserves.

There has been a long contest between the two houses of congress over an amendment which the senate added to the sundry civil appropriation bill to abrogate President Cleveland's orders of Feb. 22, establishing thirteen new forest reserves. The two reservations in California were excluded from the operation of the senate amendment, but as to the other eleven the amendment would have restored them all to the public domain for sale and settlement. The house would not agree to this, and a compromise was reached, under which the orders were suspended until March 1, 1898. After that date such lands as are not disposed of are to come under the orders, or such modifications of them as the President may make.

There is no other remedy on earth so simple, so effectual, so natural, in the cure of summer complaint in all its forms, as Dr. Fowler's Ext. of Wild Strawberry.

Umbrella Chatter.

"May I borrow your umbrella for five minutes?" "Why don't you use the one you borrowed last week?" "I'm keeping that to loan to you." "Well, I'll be over in five minutes and get it." "Then you won't let me take yours?" "Yes, take it along. I'm still two ahead of you." — Cleveland Plain Dealer.

Morocco's Street Hawkers.

In Morocco the street hawker recommends his wares by pledging the credit of a saint: "In the name of our Lord Mohammed Al Hadji! Popcorn! Popcorn!" "In the name of Sidna All-bokhala! Melons! Nice, sweet melons!" "God is gracious! Cool water!" These and the like are heard at every turn. Even the auctioneer who is calling out the price of a slave girl or the bids for a carpet is careful to interlard his professional talk with illusions to his Maker and the plithoric roll of Moorish saints.

HOW TO FIND OUT

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To Do

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. For a simple bottle and pamphlet, both sent free by mail. Mention THE REGISTER and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y.

Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration. Rev. J. P. Kester, M. D., Pastor U. B. church, London Mills, Ill., himself a physician, writes Feb. 26, 1895: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have heart disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nerve and derived the greatest possible benefit. I have just closed revival work of 10 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' Heart Cure on hand."

There are 2 Class of People Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called Grain-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1 cent much. Children may drink it with benefit. 15c and 25c. per package. Try it. Ask for Grain-O.

Advice to Thin Women. If not a lover of water, the thin woman must cultivate a taste for it. She must drink water upon rising and as often during the day and between meals as possible. Cocoa, milk, and a moderate amount of coffee are all right. A light luncheon should be eaten before retiring. Early to bed is all right, but the same rule does not apply to rising unless madame feels herself thoroughly refreshed by a good sleep. Meat should occupy a secondary place in the daily diet, but vegetables may be freely indulged in. Sweets are decided fatteners. Warm baths and sun baths will help along the work in great style.

Try Grain-O! Try Grain-O! Ask your Grocer today to show you a package of Grain-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. Grain-O has that rich smell of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. It is the price of coffee. 15c and 25c. per package. Sold by all grocers.

KEEPING WARM.

"It may seem a far-fetched caution to tell my patients to be sure and keep warm when the thermometer is ranging around in the seventies and eighties, but that is just what I find it needful to do," said one of the most successful practitioners of the present day.

"And just here I want to say that hot-water bags and hot-water cans, if kept handy by, and used whenever there was any reasonable excuse for it, would save many a sick spell and more doctors' bills than those who never use hot water can imagine. I have a patient who is and has for many years been almost an invalid. Only the most painstaking care has kept her on her feet. She is subject to neuralgias and chills and a low state of vitality generally, and finds it impossible to keep warm in a quite comfortable temperature. Some years ago she had several cans made for holding hot water. They held about one gallon each, and had screw taps to close them. They were filled with hot water and kept at her feet at night or in her easy chair during the day. Whenever she has one of the chilly spells from which she suffers so much, she wraps herself up warmly, places one can at her feet and another at her side or back and curls herself up for a cozy nap. In almost every instance she awakens up refreshed and bright, and able to go on with whatever she has in hand. Before she adopted the hot-water theory she used to try in vain to get sleep or rest. She tossed and writhed and ached with weariness and exhaustion. Now the cheering warmth rests and restores her, and almost immediately she falls into a sound and refreshing sleep, from which she awakens really benefited in mind and body. The heat draws the blood from the brain, equalizes the circulation and increases the vitality.

"It is one of the most difficult things imaginable to make people understand the value of heat in almost all minor disorders. Whenever the system becomes what is popularly spoken of as 'run down,' there is a feeling of chilliness, which is not only exceedingly uncomfortable, but may be the forerunner of illness. If the temperature can be kept up to the normal one may assist nature to shake off disease. We are very far from knowing just what the effect of medicine is on the human system. We know that it helps to remove obstructions and restores lost conditions, but precisely how it does this is not yet given to us to comprehend.

"There are certain things that we know will produce certain results, and many of these are exceedingly simple, and within the reach of every one. To keep the feet dry and warm, the body protected from chills, and the digestive organs moderately well supplied with nourishing food is to go a long way on the road of good health. It is not generally understood that a hot-water bag applied to the stomach is a better aid to digestion than all the dinner pills and powders ever compounded and put upon the market. It seems quite as little known that a glass of cold water at the end of a meal has been the first cause of more dyspepsia than doctors have ever cured. A little hot drink at meals, and a great deal of hot water in bags and cans would save untold suffering, and keep many a person in the enjoyment of excellent health."

Too Mathematical a Mind.

An English paper says that there was once in one of the great universities a mathematical tutor who boasted that he neither knew nor cared to know anything about poetry. It was all, he said, "a lot of unpractical rot." He had a friend, a brother-tutor in literature, who was very anxious to convert him to a liking for poetry. This friend thought he would begin with a poem which everybody must like, and gave the mathematician Tennyson's "Charge of the Light Brigade" to read.

The mathematician took it up and read thus: Half a league, half a league, half a league onward. Then he banged the book down on the table.

"Bah!" he snorted. "If the fool meant a league and a half, why on earth didn't he say so?" The man of letters gave up the attempt to convert his friend to a liking for poetry.

A GRAND TRIUMPH.

Battled Many Times but Success Comes at Last.

(From the Grand Rapids Press.)

The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts in detail: Mr. J. H. White of No. 25 Halfway Place, has been an instructor in penmanship in different business colleges for the past fourteen years. He says: "Last October I was suddenly taken ill. I consulted a physician, who said the pain was from 'gravel' stones; gradually grew worse; the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed, as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to relieve my agony, everything was used, mustard plasters, turpentine, hot cloths and all such things. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 20 minutes. After about two hours I had a passage of urine, and passed blood and some 'gravel' stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel to-day entirely well. Mine has been a wonderful case. I feel that I cannot say anything strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to mankind.

A Queen's Visit.

To be old and poor and bedridden is generally to be debarred from the greater privileges of life, but there was one old man in Scotland who found his disadvantages had procured him a privilege that the strong and more active members of his family were seeking in vain. It was on an occasion when Queen Victoria was at Balmoral, and, as she often did, she went one day, unaccompanied, to visit the cottages. In one of these she found an old man, bedridden and quite alone, and she sat down to talk to him. "And how is it you are alone?" she asked. "Have you no one to keep you company?" "No," replied the old man, innocently, "my folks be all away seeing the queen; they thought they might get a glimpse of her."

His visitor made no reply, but she sat with the old man, pleasantly filling the gap made by the absence of "his folks," and then found time to read to him from the Bible she herself treasured. On leaving she gave a further proof of her sympathy in the shape of a five-pound note, accompanying it with the words: "When your people come back, tell them that while they have been to see the queen, the queen has been to see you."

Turkey Ready to Fight Again.

The porte has given the Greece-Turkish war situation a new and interesting phase by deciding not to consider any frontier line in Thessaly north of the River Peneios, which it regards as the natural boundary. The sultan is convinced that the powers will not resort to coercion, and has decided to test the alleged concert of Europe to the utmost. At an extraordinary sitting of the council of ministers a report was drawn up in favor of resuming hostilities, if peace should not be concluded within a week. The sultan complained that the war had been forced upon him and that, when he was victorious, Europe refused him either territory or indemnity. Therefore he intended to resist to the utmost. He said: "We have nothing to fear. The six powers failed to coerce Vassos and his 2,000 adventurers in Crete. What can they do against 800,000 victorious troops in Roumelia? I have information from all the capitals of Europe indicative of the indecision of the powers. Edhem Pasha was a fool not to have surrounded the Greek army and to have advanced to Athens, but he may be there yet. If no concessions are made within a few days I shall give the order to advance. We can dictate our own terms from the Acropolis. Everything is ready for immediate action."

PISO'S CURE FOR CONSUMPTION

### Two Armies—The Regular and Irregular!

To which would you prefer to belong? The regular, undoubtedly. The irregulars are, admittedly, the most numerous, but they are in a very undesirable state of discipline. Hostetter's Stomach Bitters will soon remedy this want in a disordered liver or bowels. Biliousness manifests itself in yellowness of the skin and eyeballs, sour breath, furred tongue, morning nausea, discomfort in the vicinity of the liver, vertigo and sick headache. Hosts of people suffer thus. These signs of insubordination to the governance of health, together with an irregular condition of the bowels, are soon regulated by the Bitters, which also overcomes malaria, dyspepsia, rheumatism, neuralgia, nervousness and kidney trouble. As a means of checking premature decay, hastening convalescence, and mitigating infirmities of age, the great tonic is without a parallel.

### AGREEABLY DISAPPOINTED.

He Thought She Was Begging but She Merely Wanted the Mustard.

One of the richest men living, whose immense wealth makes him a target for poor people, has recently been in Paris and the way in which he repelled one of the applicants for his generosity is related like this, says the Pittsburg Dispatch: On the opposite side of the hotel table sat a woman who had once been rich.

"Monsieur, you Englishmen are so chivalrous—so ready to assist those in distress."

"Yes," said the man of wealth, hesitating. He had heard that before and thought he knew what was coming next.

"Would you, with your usual generosity, do me a favor and a great kindness?"

"Yes, madam—that is, it depends somewhat—"

"Think well, monsieur, before you promise, for it is a great kindness."

It was the same old plea that he had heard many times before from people who wanted a loan.

"I am afraid, madam, that I shall have to—but what it is you wish?"

"Only that you would be kind enough, monsieur, to pass me the mustard. You have everything on your side of the table."

It helps the stomach digest its food, and digested food is the strength-maker.

Strong muscles, strong body, strong brain, all come from properly digested food.

A sick stomach can be cured and digestion made easy by Shaker Digestive Cordial.

It cures the nausea, loss of appetite, pain in the stomach, headache, giddiness, weakness and all other symptoms of indigestion, certainly and permanently.

Sold by druggists. Trial bottle 10 cents.

### SALARY OF ROYALTY.

In round numbers the government of Great Britain pays \$3,000,000 annually to the royal family. Of this sum the queen receives nearly \$2,000,000, besides her revenues from the duchy of Lancaster, which amounts to a quarter of a million.

The lord lieutenant of Ireland receives \$100,000 a year for his salary and expenses. The Prince of Wales gets only \$200,000 a year.

The president of France receives \$240,000 each year for salary and expenses—an enormous sum when it is considered that France has the stupendous national debt of \$6,000,000,000, the largest ever incurred by any nation of the world.

Italy pays her king \$2,600,000 each year. The civil list of the German emperor is about \$4,000,000 a year, besides large private revenues from personal estates. The czar of Russia owns in fee simple 1,000,000 square miles of cultivated land and has an income of \$12,000,000.

When little Alfonso of Spain comes of age he will be one of the richest monarchs of Europe, as the state allows him \$1,400,000 annually, with an additional \$600,000 for family expenses.

### THE CHANGE OF LIFE.

Intelligent Women Prepare for the Trying Ordeal.

A Time When Women Are Susceptible to Many Dread Diseases.

The anxiety felt by women as the "change of life" draws near, is not without reason.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, it is at this period likely to become active

and with a host of nervous irritations, make life a burden.

Cancer often shows itself, and does its destructive work.

Such warning symptoms as sense of suffocation, headache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and incontinence, dizziness, etc., are promptly heeded by intelligent women who are approaching the period in life where woman's great change may be expected.

Thousands at this critical time consult Mrs. Pinkham, and conduct their habits according to her advice.

and with the Vegetable Compound go through that distressing time with perfect safety and comfort. Mrs. W. L. Day, of Bettsville, Ohio, says:—

"When all else failed, Lydia E. Pinkham's Vegetable Compound saved my life. It carried me through the change of life all right, and I am now in good health. It also cured my husband of kidney trouble."

Cascarets stimulate liver, kidneys and bowels. Never sickens, weakens, or gripes.

A Forestry Policy.

In the selection of these lands for forest reserves, President Cleveland was guided by the recommendations of a committee appointed for the purpose by the National Academy of Sciences at the request of the secretary of the interior. This committee has recently made a detailed report, which the President has transmitted to congress, looking to the adoption of a definite forestry policy. The committee recommends the establishment of a permanent bureau of public forests, and the appointment of a board to determine what lands shall be set apart as forest reservations. It suggests that all public lands which are more valuable for timber than for agriculture or mining should be withdrawn from sale and settlement; and it recommends that regular troops be detailed to protect the public forests until a permanent bureau is established.

Eternal Vigilance

Is the price of perfect health. Watch carefully the first symptoms of impure blood. Cure boils, pimples, humors and scrofula by taking Hood's Sarsaparilla. Drive away the pains and aches of rheumatism, malria and stomach troubles, steady your nerves and overcome that tired feeling by taking the same great medicine.

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

Turk and Armenian.

It must be admitted that the Armenians are not an easy people to get on with. They are distinguished by an energy, a busy-ness and a fondness for acquisition that are almost super-occidental. They are selfish, personally unattractive and strikingly lacking in traits of nobility and self-respect. The average Armenian is unquestionably of sharp intelligence so far as small things go. The saying is that it takes ten Jews to outwit one Greek and ten Greeks to outwit one Armenian. He is unquestionably extremely irritating to the quietistic, resigned, fatalistic Turk. The two have little in common. The Armenian is clearly a pestilent fellow, and the Turk has decided to get rid of him. The Armenian is a persistent source of unrest. He is a "kicker." What men do with "kickers" is in the occidental scheme of things, is to vote them down. The Turk knows no other way than to club them down, cut their heads off, or sink them in the sea of Marmora. He is applying the trine recipe with patient zeal as Cassarets owners.—Atlantic.

Burdock Blood Bitters never fails to cure all impurities of the blood, from a common pimple to worst scrofula sore.

### OVER 20,000 ENDEAVORERS.

The International Convention of the Y. P. S. C. E. at San Francisco.

A Christian army of over 35,000 young people invaded San Francisco, the metropolis of the Pacific coast, under the banners of the purple and gold of the Young People's Society of Christian Endeavor and took possession of the city in the name of "Christ and the Church."

There were men, maidens and matrons from every quarter of the globe, nearly every nation being represented. Two of the largest buildings in the city, Mechanics' and Woodward's pavilions were utilized for the convention meetings, but were not nearly large enough. The formal opening was by Rev. F. E. Clarke, founder and president of the great Christian Endeavor movement.

The first two days were devoted to praise services, reading and discussing of papers on interesting and important topics and listening to addresses by prominent Endeavorers.

The state rallies, which are always a feature of the C. E. conventions, were of great interest and pleasure. Never before has the California climate received so effective an advertisement, for, as though ordered for convention week, the weather was perfect every day. The first business transacted was to select Nashville as the place of meeting in 1898 and London in 1900. It is the ambition of President Clark and his millions of followers to show the old world something of the strength of their organization and this will be the opportunity.

With the end of the convention the thousands of visitors, delegates and others took advantage of the opportunity and the cheap rates to visit the many places of interest throughout the state. Arrangements were made for excursions to Los Angeles, Monterey, Mt. Hamilton, Yosemite, Santa Clara mountains, Stanford university and other interesting places, even taking in the southern country as part of their journey.

A Typical Widow.

"And how long," he asked, "have you been a widow?" "Oh," she replied, with a blush, "the year was up yesterday. But, indeed, I didn't suppose you were so anxious, dearest. You must give me at least a month to get ready." When he got outside again he murmured to himself: "Now I know what old Weller meant."—Cleveland Leader.

CASTORIA.

is on every wrapper.

A Chestnut Crown.

Tailor—"Say, when is that rich uncle of yours going to die and leave you enough so that you can settle up?" Chawley—"Oh, he's on his last legs." Tailor—"So he has been for six years. Say, that blooming uncle of yours must be a centipede."

Thousands Celebrate

With thankfulness their restoration to health by the use of Hood's Sarsaparilla.

Think of the vast army who have been cured by this medicine—

Men, women and children, who have suffered the consequences of impure blood, who have been the victims of scrofula sores, eruptions, dyspepsia, nervousness, sleeplessness.

They have tried other medicines and have failed to obtain relief. They tried Hood's Sarsaparilla and it did them good. They persevered in its use and it accomplished permanent cures. Do you wonder that they praise and recommend it to you?

A Grocery Order.

The following is a bona fide story of a letter received by a Western grocer not long ago:

"Dear sir please send me 4 pounds of coffee and some tea. My wife had a boy last night also 10 pounds of cheese and a rat trap, he weighed 7 1/2 pounds and a hatchet and nails. Respt

"JACK SMITH."

A Household Necessity.

Please buy and try a box of C. C. C. to day; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

The Bike as an Animal.

No one knew till a few days ago that the bicycle is classed in the animal kingdom, but the following copy of a notice posted all along the Lehigh canal gave the information: "Notice—Bicycles, horses or any other animals not allowed in towpath."

The Facts in the Case.

A careful perusal of the map of Wisconsin will convince you that the Wisconsin Central Lines running from Chicago and Milwaukee to St. Paul, Minneapolis, Ashland, Hurley, Ironwood, Bessemer, and Duluth, touch a greater number of important cities than any line running through Wisconsin. Elegantly equipped trains, leaving at convenient hours, make these cities easy of access. Any ticket agent, can give you full information and ticket you through. Jas. C. Pond, Gen. Pass. # Scott's Emulsion

is made up of the most essential elements that go to nourish the body. Where the appetite is varying or lacking, it increases it, and where digestion is weak, it aids it to perform its function in a more vigorous way. It enriches the blood, makes healthy flesh and cures chronic coughs and colds by making it possible for the body to resist disease. Our friends tell us "IT WORKS WONDERS" but we never like to overstate the merits of our remedy even when it has been tested and tried for over twenty-five years.

If you will ask for it, we will send you a book telling you more about the subject than we can put in a few words.

Go to your druggist for Scott's Emulsion. Two sizes, 50 cts. and \$1.00.

### Teddie's Advice

The Blakes have a summer home in Willoughby, to which they have just returned, after a residence of six months in the city. One of the first callers after the family had got settled was the minister. While the good man was inquiring after the health of each member of the family, expressing his pleasure at their return and explaining how the affairs of the church were going, little Teddie, who celebrated his thirteenth birthday, and who, during their stay in the city, must have met somebody who was addicted to the use of slang, stood open-mouthed and apparently drinking in every word that was said. Having finished a general review of affairs concerning his church the minister started to tell about a book that he had just finished, when Teddie suddenly interrupted him by gravely saying:

"Oh, go hire a hall!"

It is understood that even now the worthy minister is sometimes possessed of troublesome doubts concerning the Blakes.—Cleveland Leader.

Wanted to Be Secure.

Bookkeeper—What's all this fuss about, anyway? Do you suppose the old man suspects me of any crooked work? Chief Clerk—Oh, no. He isn't to blame for it. Count Skeesiks has made arrangements to marry Miss Araminta and is having experts to go through the books to see that there have been no misrepresentations regarding her father's wealth. That's all.—Cleveland Leader.
