ANN ARBOR, MICHIGAN, THURSDAY, AUGUST 5, 1897.

WHOLE NO. 1180.

GRAB AT A STRAW.

DEMOCRATS FIND IT HARD TO SURRENDER THE PLUMS.

We Now Have a School Commissioner and a Pretended Commissioner- able to get along without it. The Same Condition Exists in Regard to School Examiner - The Whole Thing is Probably a Rig Bluff-All This Trouble Might Be Saved by Pensioning the Democrats.

A peculiar condition of things precommissioner and school examiner.

On May 1st, W. W. Wedem eyer was commissioner of schools for this county. M. J. Cavanaugh and Herbert A. Dancer were school examiners. On May and M. J. Cavanaugh, by the help of a whether railroad or city ought to keep 4, Mr. Wedemeyer resigned his office Republican, who, as will appear later, had sold out to the Democrats, was elected to fill out the vacancy, although it has always been the custom to choose to fill out a vacancy of this sort the man who had already been elected to in his possession several packs of cards, the school commisssonership and who a fine pen with which he had made was to take the office a few weeks later. | marks on several of the cards and a lot By the vote of Mr. C. M. Fuller, a Republican, however, Mr. Lister, the graduate of the U. of M. commissioner-elect was turned down and Mr. Cavanaugh was, on May 4, remaining of Mr. Wedemeyer's term. When Mr. Lister assumed the duties that Mr. Cavanaugh by virtue of his having accepted the office of commissioner, had vacated his office as exam iner. To be sure of his position in twelve cents each but looked like gold it is simply a whim of the old janitor, Goods in our possession. Makthis matter, Mr. Lister had a letter written to Mr. Maynard, Michigan's Attorney-General, who responded that there was undoubtedly a vacancy on the board of examiners caused by Mr. Cavanaugh's having accepted the office of commissioner to fid out Mr. Wedemeyer's unexpired term. Mr. Lister then proceeded to call together the other school examiner and the Judge of Probate, who, with himself constitute by law a board to fill a vacancy in the board of examiners when a vacancy occurs. They met last Monday and elected Prof. D. W. Springer to be a member of this board, all three of the members being in attendance at the election held in Judge Newkirk's

more than the ordinary Democrat can stand, if it can possibly be avoided. To obviate this serious difficulty Mr. Cavanaugh has discovered that Mr. Lister did not qualify for the office within ten days after the eleccomplied with the law, as he underanaugh therefore declares that Mr. Lister is not legally commishimself is still in that office in that he the capacity of commissioner of schools and the first thing he does is to ac-In the contention that there was a va- a certainty, cancy on the board of school examiners, and calls a meeting of the other examiner, Mr. Dancer, who is a Democrat, and Mr. Newkirk for the purpose of electing a successor to himself as a member of the board of examiners. In tion; this act Mr. Cavanaugh necessarily admits that there was such a vacancy as Mr. Lister had contended. This to be held at 2 p. m. yesterday and time. But it seems that Messrs. Cavanaugh and Dancer were in a great before the hour set in the notification sent to Mr. Newkirk and went through the form of electing another examiner.

Here is where payment was made to Mr. Fuller, of York, for his vote which to Ann Arbo. . In one instance the son on May 4, gave the election as com- and daughter of an old man, who wer missioner to Mr. Cavanagh, Mr. Fuller yesterday being elected to the pretended office of school examiner.

As the matter now stands, the question shared the fate of the others. is, did Mr. Lister forfeit his office by not qualifying within ten days after elecis the case since Mr. Lister was not officially notified of his election, as the law requires, and hence it could not be possible for him to legally qualify. if the strict technicalities of the law House was \$3,007.81 .- Ypsilanti Senare to be followed out to the very let- tinel. ter. In very few instances, if ever a all, is every technicality observed in such matters, and it is absurd to suppose that by following what has been the custom, for a quarter of a century past, one may therefore be thrown out of office because what is practically an

unimportant detail is not strictly observed. The fact is the entire action of Messrs. Cavanaugh and Dancer is and can be nothing more than a bold bluff. -The one thing that is necessary to avoid such complications in the future is to pension all Democrats who have had a taste of the public fodder and who seem thereafter utterly un-

Big Bridge Closed.

On Monday the board of public words ordered that the bridge over the Michigan Central be closed until repairs should be made by the railroad company. This brought up the old vails in the affairs of county school fight as to whether city or railroad should do the work, the company claiming that it was only bound to do work on the abutments, but finally decided to make the repairs on condition that such action should not interfere in the final solution of the question as to the bridge in repair.

Card Sharp Crught.

Tuesday's Tribune said: J. O. McIlwain was arrested in Kalamazoo, Sunday, as a gambler. He had

of cheap rings. He claimed to be a

McIlwain graduated in the law department in '96 and was known by his elected to fill out the few weeks still intimate acquaintances as a card sharp. The outfit described in the Tribune before. Many people who see the old was his exactly. He used a fine pen of his office on July 1, and came to and some special kind of ink for mark- ture wonder why it is necessary for examine the law in the case, he found ing his cards, and used to operate in the medics to have such a summons Ypsilanti and Detroit.

When he left here he said he was goand would bring a good price.

Institute Begins Monday.

The County Teachers' Institute will be held at Cleary's Business College, Ypsilanti, commencing Monday, August 9, at 9 a. m. Three of the best instructors in the state have been secured for the occasion. These are Superintendent E. C. Thompson, of Bay City; Webster Cook, Detroit, and Margaret Wise, of the State Normal. Attendance at the institute is entirely free and can not fail to of inestimable value to the teacher, who will gain inspiration and knowledge for future work.

In the fall examination five per cent. will be added the average grade of each one who attends the full institute. But such a proceeding would leave Noteacher can afford to miss this ina Democrat out of office and that is stitute and the County board urges that all attend.

New Buildings for California.

OLD JANITOR MUST GO.

DOC" NAGELE, A QUEER OLD CHARACTER.

Is Getting Childish - His Strange Whims-Has Been Here 47 Years-Walked From Buffalo.

Gregor Nagele, the old janitor of the medical building, whom the boys familiarly and affectionately call "Doc" seems in a fair way to lose his place. The reason is that the old man cannot reconcile himself to modern ways of doing things and makes a good deal of trouble for Superintendent Reeves by his refusing to obey orders.

His favorite expression is "That's the history of way Ford and I used to do," referring to Dr. Ford, of whom he was a great admirer. About two years ago another janitor was appointed to take charge of part of the medical building and sent to Nagele for the keys, but the old man said, "I've had these keys for 45 years. Do you think I'm going to able goods shall go out of The give them up now?" Then Superintendent Reeves called and made the same request but "Doc" was firm and said: "I don't give these keys up, not give an much," and he didn't.

Part of his work in early times was to ring a bell summoning students to lecture. The need for such a bell passed and when "Doc" was told not to ring it any longer he said "That's the way Ford and I did," and went on as man out ringing his bell for every lecwhen other students go by the University clock. The mystery will be exand that the authorities have permiting ted it just to please him.

Such whims are becoming monotonous to Mr. Reeves and others and they say Negele will have to go.

The special work of the old man has been to take care of the cadavers and many amusing stories are told of his adventures and experiences.

Many years ago he was called into court as a witness against a student for Summer Wear, come Satcharged with grave robbing. A ques- urday this week or any of the tion was asked him but "Doe" paid no following six days of trade. attention. When asked again he said he understood too little English to comprehend the question. The question was then asked in German and he said his long absence from Germany had caused him to forget his native tongue,

Many strange stories are told of how he shielded student grave robbers and of the familiarity with which he handles bodies. He is said to taste the brine in which they are pickled to see

tion as the law requires. Here was a college buildings on the globe, and medical graduate since 1850 knows ghost of a chance for him to get back these brilliant schemes are to be put him. He came from Germany in 1849 at Mr. Lister because the latter had into effect at once. Inside of a year and waiked from Buffalo to Ann Arbor without a cent in his pocket.

The Athens Theatre.

A little army of artisans is at work in the opera house putting it in readiness for the next theatrical season, which opens in September. Stabler & Co. are doing the painting, and Kenny & Quinlan and Schneider Bros. the plumbing, while Charles Saur and Wm. Niethammer are the workers in wood. The manager feared he would be obliged to go out of the city for a curtain, but this will not be necessary, as he has found a scenic artist in the person The defendent was H. D. Wetherell, of Mr. W. E. Pew, who promises a first-class production. So all of the work on the building will be done by Ann Arbor men.

The manager also has the pleasure of announcing to Ann Arbor theatre- Mrs. Service being awarded six dollars goers that he has succeeded in engaging the Ann Arbor Orchestra for the coming season. The orchestra comprises fourteen or more artists, among whom may be mentioned; Prof. H. R. Kempf, director; Frank C. Smith, first violin; J. Fred. Schaeberle, violin; Mr. Schaeberle, Jr., viola; Louis Elfdel, piano; Daniel Zimmerman, Jr., basso; Fred T. McOmber, flute; Frank Wightman, clarionet; Harry G. Schock, cornet; Louis Otto, trombone; Frank Minnis, traps.

The manager has decided to re-christen the opera house, which will hereafter be known as the Athens Theatre. Ann Arbor is known everywhere as the Athens of the West. The new name of the opera house will therefore will Athens-The Athens Orchestra.

Ann Arbor concert goers must confess that the work of the Athens Or-The cost of maintaining the County chestra is in itself a rich treat and will greatly aid in amusing and entertaining lovers of art, music and the drama.

To The Asylum.

Last Thursday Mrs. Frances Coombs. of Augusta township, was brought to this city, violently insane, and lodged unty jai

She had been insane for some time and when brought here was suffering terribly and was only held in the carriage by great exertion on the part of four men. When lodged in jail she at first refused to eat but finally consented to take ice cream and lived on that delicacy until Sunday when she was removed to the Traverse City asylum. Mrs. Coombs is thirty years old and has two children.

Must Not Leave Rooms.

The second case of Mrs. Mary Service against students who left rooms in her house before the end of the year came up before Justice Pond Thursday. of Manchester, a law student.

The case had been postponed and Witherell failing to get any notice of the time at which the suit would come off, was not present and lost the case

The first case was against Romanzo Adams but was withdrawn when Adams paid fifty cents for a broken cuspidor. Mrs. Service also sues four other students who left their rooms at the same time and at least one of them will make a hot contest.

COUNCIL PROCEEDINGS.

Ann Arbor, August 2nd, 1897. Regular session. Called to order by Pres. Luick.

Roll called. Quorum present. Absent Ald. Grossman, Sweet, Brown, Coon. COMMUNICATION FROM THE MAYOR. To the Honorable the Common Council

To the Honorable the Common Council of the City of Ann Arbor:
Gentlemen,—I am compelled to disapprove your action in adopting the report of the Sidewalk Committee rescinding permission heretofore given Mack & Company to extend their front on S. Main st. into the sidewalk. I understand that Mack & Company do not intend to take advantage of said permission and the Ordinance Committee complain that they were not notified of a meeting, and in fact no joint meeting of the committees aforejoint meeting of the committees afore-said and City Attorney was had to con-sider the matter so referred, as con-templated in the resolution referring

My only reason for this veto is to correct the irregularity in the proceedings of the Council. This matter was referred to the Sidewalk and Ordinance Committees and City Attorney, and the report comes not from the joint committees and City Attorney, but simply from the Sidewalk Committee.

Respectfully,
CHAS. E. HISCOCK,
Mayor,
Filed July 21st, 1897, at 4:10.p. m.
Glen V. Mills,
City Clerk.
The resolution failed to pass the My only reason for this veto is to cor-

PETITIONS AND COMMUNICATIONS.

To the Common Council: The Board of Public Works respect fully present to your honorable body the bid of Clarence B. Dixon for im-proving Packard st. between the Junction and city limits at 48 cents per load of 1½ yds., for drawing gravel; and 1½ cents per ft. for grading gutter, the same being the lowest bid for do-

ing such work.

Respectfully submitted,
Glen V. Mills,
Clerk of the Board of Public Works.
Ald. Danforth moved that the recommendation be concurred in by this Council.

Adopted as follows:
Yeas—Ald. Moore, Dell, Vandawarker, Rhodes, Spathelf, Soule, Danforth, Cady—8.
Nays—Ald. Hamilton, Koch, Pres.

Luick—3.
To the Common Council:
The Board of Public Works would respectfully represent to your honorable body that pursuant to your orders they advertised for bids for building a lateral sewer in Lateral Sewer District No. 7. And that after due consideration they find that Hutzel & Co. are the lowest bidder, and would recommend that the contract be awarded to said Hutzel & Co., according to the prices named in their proposal.

Respectfully submitted,

Respectfully submitted,
Glen V. Mills,
Clerk of the Board of Public Works. Ald. Cady moved that the recom-mendation of the Board be concurred in and the Board ordered to enter into a contract with Hutzel & Co.

work in Sewer District No. 6, which they recommend for your approval.

In Bad Taste.

"If the exceptional conduct of either widows or widowers when they become anxious to marry is to be regarded as delusion our lunatic asylum might have to be very much enlarged," said the court many years ago in a Tennessee case. But the court admits that "much of her conduct on the subject of courtship and beaux, such as showing the love letters of one suitor to another and boasting about her conquests and the like, was in very bad taste."-Case and Comment.

Too Much Uncertainty. He was not a man who was willing

to take chances. "Bill," said he, "I've made up my mind not to go to the theater again." "Why?" asked Bill. "In the first place I can't afford it, and if I could I would probably find all the seats taken for the play I wanted to see, and if I got a seat most likely it would be behind a girl with a big hat, so I couldn't see the show, and if I did see the show I might not like it anyhow." "I wouldn't go," said Bill.

SPECIAL MARKET LETTER

The following market letter is furnished us by McLain Bros. & Co., Commission Merchants, Rialto Build-

The miners' strike, which continues with unabated vigor, is still the chief disquieting factor in the business world, and although it has as yet but moderately disturbed commercial and industrial affairs, its indefinite continuance will disturb the supply and demand relations of so many of the products of industry that a sympathetic influence will be manifest along all the streams of commercial life. The fact that the great railway lines have sufficient coal supplies to enable them to licient coal supplies to enable them to continue uninterrupted traffic for some time to come has doubtless prevented a manifestation of the strike influence in the stock market, and has enabled the bull party to fairly well maintain

The market, however, shows a halting tendency and is subject to other unfavorable influences, which, unless they are arrested, will become potent as bear arguments. The most important of these is the inability of managers to maintain tariff rates, notwithstanding their strengens efforts in that direction; another is the sudden revival of gold exports on a liberal scale, the outward movement last week aggregating \$3,700,000.

While the interest in stocks is waning wheat is becoming an ebiect of

While the interest in stocks is waning wheat is becoming an object of universal attention, because of supply and demand relations, and its inherent speculative possibilities. From all sections of North America come reports of gratifying yields or encouraging prospects, save on limited areas in the northwest, where the rainfall has been too abundant for the welfare of low-land wheat, while from all portions of Europe complaints of crop failure, or damage to some extent, are heard, assuring an excellent demand for American wheat, and an active and interestican wheat, and an active and interest-

while the estimates of foreign damage may be exaggerated, there is evidently substantial grounds for belief in an under-average crop, and that, with the absence of India and Argentina as competitors until their new crop is ready for market next spring, and the possibility that they may then have no surplus to sell, presents a situation fraught with great possibilities in the future,

Beerbohm estimates the European deficiency at 222,800,000 bu, divided as follows, viz: France, 56,000,000 bu; Bulgaria, Servia and Turkey, 52,000,000 bu; Russia, 48,000,000 bu; Italy, 32,000,000 bu; Austria-Hungary, 36,000,000 bu; Germany, 4.000,000 bu; United Kingdom, 2,000,000 bu; all other countries, 1,600,000 bu.

The uneventful termination of the July wheat deal has freed our market from the corner bogie and left it once more to the operation of natural condi-tions; there is an attempt being made to arouse fears of a September deal, which, however, is accorded but indifferent consideration by local traders; having falled to secure an advance in July of but little if any greater than natural causes would warrant, when conditions were more favorable for a squeeze than they possibly can become again in the near future, it is not like-ly that the same people would essay a September corner in our market and thereby invite the unloading on them of all the No. 2 apring wheat that could be possibly shipped here before October ist and then find themselves possessed of a lot of irregular wheat for which there is never more than a moderate export and milling demand whenever the more desirable grades are obtain-able.

tingent may at times exert great influence in the market, but any attempt to force it far beyond its natural confines would be fraught with too much danger. When the wheat raised is all eady for market, and the milling and export demand have the crop to draw upon f satisfactory prices are offered, the market will become broad enough the market will become broad enough to render the operations of any one man or coterie of men inconsequential, except perhaps as they may affect momentary fluctuations. Conditions are such that operators for a rise or fall will have frequent opportunities for exercising their judgment without considering the attitude of any one else.

Our market still keeps pretty well evened up; there are apparently no large lines of short wheat out, and the moderate traders are wary of big

moderate traders are wary of big losses. The "country" has not loaded up on the advance, hence there is but little wheat pressing for sale on the breaks. Thus far the buying has been breaks. Thus far the buying has been chiefly by strong bull operators and by toreigners. Under such conditions any material decline must come through the pressure of cash offerings, or by more aggressive short selling than the market has yet been subjected to. A noticeable change has recently taken place in the attitude of foreigners; for some time Liverpool led the advance while Continental markets lagged, now the latter lead while the former lags.

Corn continues to absorb the quiet interest of many traders, who are

interest of many traders, who are watching crop prospects and the weather carefully, realizing that anything that may occur to blast the hopes of an abundant yield would be the signal for a runaway market. As the chief elements of danger are insuffi-cient moisture and hot winds, prices

REVIEW OF TRADE.

Dispatches from almost every northern city of importance report without exception improvement in business from Detroit to Seattle and Portland, with splendid crop prospects. The task of adjusting the business and industries of the country to conditions created by a new tariff law has progressed with gratifying rapidity and ease. Even the increasing strength of striking coal miners probably forwards the adoption of the uniformity plan, which promises to remove most of the causes of such struggles. Some confusion is caused by events seemingly contradictory; by closing of large cotton mills when many other works are starting and by decline in some prices when others are advancing, but the balance is unmistakably on the right side. The most important event since the passage of the tariff bill is the advance in the price of wheat.

DRINKING IN MANY AGES. An Interesting Lecture on the History

A lecturer who was speaking on "The History of Alcohol" began by explaining the universal prevalence of stimulants or narcotic drugs as showing the universal craving of mankind for something to hide the trials and troubles of life. He spoke briefly about the early beverages of the ancient Hindoos and Chinese, and then illustrated the drinking habit of the ancient Egyptians with a curious collection of lantern slides. The habits and customs of ancient Greece came next, and the worship of the great god Dionysus, or Bacchus, was illustrated by some splendid photographs of vases, statues and bas-reliefs. Their wine was drunk diluted, never stronger than half water and frequently with two, four and even fifteen parts of the milder fluid. Mention was made of the curious nature of their wines, the admixture of honey and spices, of resin and turpentine, even salt water, and the question of fermented and unfermented wines among them and the ancient Hebrews. The use of wine among the more hardy and less civilized Macedonians was less refined and the exploits of Philip and his son Alexander rivaled the tales told by the most ardent prohibitionists. At the feast given by Alexander at the tomb of Cyrus a prize was offered for the boldest drinker and the victor, Promachus, credited with fourteen quarts of wine, died in three days' time from the effects of his debauch, along with some fifty of his competitors. Early Rome was described as painfully temperate, especially for the fair sex, who were sentenced to death for touching wine, It was sad to hear that kissing on the mouth was invented by the Roman husband to test his wife's abstinence from the wine cask. Later, however, after Greece and the east were conquered, wine flowed freely and the earhis. New England came in for a touch by the lecturer. It was somewhat surprising to hear that, in the first call for supplies sent home by the Plymouth bay colonists, the famous appeal

will doubtless recover from all temporary breaks until the former is supplied and the crop is beyond the destructive influence of the latter.

The visible supply of grain in the United States and Canada shows the following changes for the week: Wheat increased 1,782,000 bu, corn decreased 502,000 bu, oats decreased 123,000 bu. headed by "ministers," there were, along with the requests for barley, rye Zurich in Switzerland. In later years Mr. Higginson, was duly sent in 1628, and his ship was furnished with "forty-United States. The excursions are gotten up by the University Association of Pavia.

The excursions are five tuns beere, two tuns canarie, twenty gallons aqua vitae" and only six tons of water. The lecture closed with a short description of the last How Shocking. century, characterized by the growth and development of the temperance century, characterized by the growth

Fifteen Cents per year additional to Subscribers outside of Washtenaw County. Fifty Cents addition to Foreign Countries Entered at the Ann Arbor Post-Office as Second-Class Matter.

THURSDAY, AUGUST 5, 1897.

How many highway overseers in this county have failed to enforce the following law from Howell's Annotated Statutes: "Every overseer shall cause the noxious weeds within the limits of the highways in his district to be cut down twice in each year, once before the first day in July and again before the first day in September, and the requisite labor shall be considered highshall refuse or neglect to perform these duties required by this section, shall be liable to a penalty of \$25.—Dexter

A good deal of furor has been created pioneers in bicycle manufacturing, suddenly lowering the price of its '97 model wheels to \$75. This tumble in the price of the so called "best" wheel in immense amount of conjecture. The factory which manufactures these this reduction at this time are a mystery. To clear-sighted people it has for some time been plain that unless something occurred soon, the enormous year would result in a glut on the marrecord breaker in the way of a demand year as last. It was but a sample of what occurred everywhere. The sudinto a panic, causing them to lower the prices of their wheels \$25 .- Monroe

THE new Tariff is not expected to give adequate revenues during the first few months of its life. The recent heavy inflow of goods under the old Democratic Tariff rates will to some extent prevent immediate revenue-producing importations. Some American industries will find the market clogged by cheap foreign goods which were rushed in under the Free-Trade Tariff. This is the last penalty which the American people must pay for the unprosperity will dispel that cloud very quickly. But it will not soon be forgotten. The American people have paid dearly for that experiment. The result was the same as with all previous experiments of like character in the history of the American people. Want, woe and misery came with the influx of goods from abroad which should have been produced in this country. It was found to be no encouragement to the American workingman out of a job, and without money in his pocket, to tell him that shiploads of cheaper goods country. He wanted employment before he could buy. That he will soon get employment under the new order

THE quick work done by Congress on the Dingley Tariff is hardly appreciated as it should be. Congress was called together in extraordinary session on March 15. In four months and nine days the bill had passed both the United States Senate and the House of Representatives, was acted upon in confer-one fare plus \$2.00. Ample limits and ence, finally passed by the Senate, and stop overs allowed in either direction was signed by the President. This south of the Ohio river. covered a period of 131 days. In 1890 covered a period of 131 days. In 1890 information regarding land furnished the McKinley bill, reported on April free on application to the Alabama was delayed in the Sanate till Septem- Mobile, Ala. ber, and again still further delayed in conference, not being signed by the President till October 1. 1890. It was street, Detroit, Mich. in all 163 days before Congress.

When the Democratic party was in control, the Mills biil dragged along in 1888 and 1889 for nearly 300 days, and the Ways and Means Committee on Senate on February 20, 1894. It did quainted with. not become law till August 28, 1894, and was then such a "ragbag production" Democratic President refused to sign

The difference between the Republicans and Democrats in enacting Tariff The Republicans passed the McKinley bil in 168 days, and the Dingley bill in 131 days, each bill receiving the signa. ture of the Republican President.

The Demosrats, on the other hand, wasted some 300 days over the Mills bill, which never became a law, and they wasted 252 days over the Gorman-Wilson bill, which proved to be such an abortion that even President Cleveland refused to sign it.

THE action of the Council Monday way work. * * Any overseer who night withdrawing its order that the Ann Arbor railroad should construct sidewalk along its property on First street was a surprise to the people of the Second Ward at which they are of the inland lakes in this state with justly indignant. That the council should rescind its order to the railroad lately in wheeling circles by one of the and at the same time continue in force the order that the holders of property adjacent to the depot grounds should construct sidewalks along their lots is decidedly unfair. As it now stands a the world, in the middle of the riding number of citizens must build walks, season, has been the cause of an which will be utterly useless, because of the gap the railroad is permitted to leave. The way things are now situatwheels is one of the largest in the ed on and along First street between world, the firm is one of the strongest Liberty and Jefferson streets, it is, as a financially, and the causes which led to number of the councilmen claim, a useless; expense to build a walk along the east line of that thoroughfare between the two streets named. But the question naturally arises: Why should it so number of wheels manufactured each happen that for nearly two whole blocks along one side of a street right ket, producing, it was to be hoped, in the heart of the city it does not seem lower prices. This season has proved a advisable to construct a sidewalk? The answer is: The railroad company defor wheels, but while the demand was sires to continue to make use of the brisker it did not last so long. Right public street upon which to do business here in Monroe every dealer sold from in order that it may be enabled to rent two to four times as many wheels this out part of its grounds to private citizens and derive a profit therefrom. The railroad company owns ample den stoppage of this demand has seemed grounds upon which to build a dock to to have thrown the big manufacturers abundantly accommodate its patrons without infringing upon the city's streets. That it should be allowed to frequently practically blockade First-st. in conducting its business so that it may save a few dollars expense in moving its docks back upon its own land from which it is now deriving an income in rentals, is an outrage. The Ann Arbor road is noted for playing the hog upon every possible opportunity. It is high time that a halt be called. Compel the railroad company to do its docking upon its own grounds and open up First treet as it should be and it will soon be found that a sidewalk will be as much of a necessity there as upon almost any happy experiment in Free-Trade. But other street in the city. THE REGISit will be short-lived. The return of TER does not propose to let up on this matter until that whole question is settled right.

Begged Her Pardon.

A traveling man stopping at the Hawkins House in Ypsilanti called for a towel Saturday morning and when a girl answered his call, seized her and threw her on the bed. The girl screamed, frightening the man so that he left the house and tried to escape.

The girl complained at once to Mr. Lepper, the proprietor of the hotel, who started in pursuit and overtook him that shiploads of cheaper goods the man in a down-town store. The were coming into the markets of this rascal wanted to bribe Mr. Lepper into silence but found he had tackled the wrong man for Mr. Lepper refused his money and under threat of a thrashing money and under threat of a thrashing spiring crowds of humanity everywhere compelled the man to go back to the about one. Different in altitude—you of things is the confident expectation of all friends of the cause of Protection and the hope even of its honest oppothat the man's name was not given to again invigorated.

We are indebted to Mrs. Prof. Kel sey for some handsomely decorated dishes. This adds to the growing need of a dish cupboard. The book shelves which have so far been used are inadequate and we hope that some of our friends will supply us with a suitable cupboard.

Fish Laws.

A good deal of confusion exists regarding the new laws to regulate fishing. The most important of these laws \$3,000, insurance \$900. Tramps.

"It shall not be lawful for any person to take, catch, or kill, or attempt to take, catch, or kill, any fish in any any kind of spear or grab hook, or by the use of jacks or artificial light of any kind, or by the use of set lines or night lines, or any kind of firearms or explosives, or other device except the hook and line.

In all prosecutions under this act it shall be prima facle evidence, on the part of the people, of the violation of the provisions of this act, to show that the defendant was found upon the waters of said lakes with spear, net, trap net, set lines, jack or artificial light of any kind, or with dynamite, giant powder, or any other explosive substance or combination of substances."

The penalty attached for violation si a fine not to exceed \$25 and costs of prosecution, or imprisonment in the county jail not to exceed thirty days, or by both, in the discretion of the

The new law regulating the spearing of fish is as follows:

"It shall hereafter be lawful in the months of December, January, February, and March in each year to take, catch, or kill through the ice by the use of a spear, any or all kinds of fish, except brook trout, in any or all of the inland lakes and streams of this state, including lake St. Clair and St. Clair

The penalty provided for violations of the act is a fine of not less than \$25 nor more than \$50, and in default of payment thereof confinement in the county jail until such fine and costs of prosecution are paid, but not exceeding ninety days.

More British Land Grabbing.

The steamer Miowera from Sydney Australia, brings details of the recen annexation of the Solomon islands b her majesty's ship Wallaroo. The firs island made a colony was Bellona where the union jack was hoisted with the usual ceremonies. The natives were shy at first and much frightened by the salute, but they became reassured Runnel island was placed under Brit ish protection the same day. The Wallaroo called at Maru sound and proceeded to the Stewart islands, annexing them. The natives are of a high type and very friendly.

Something Different.

The average trip to the sea shore or northern resorts is much like all other summer trips in many particulars, but a trip to the South in the heated season in search of a cool place is something different altogether. Different in its lack of hot noon-days [they don't have sun strokes in the South]. Different in that it is comparatively inexpensive. Different in the absence of per-

A youthful eigarette fiend caused the destruction by fire of the barn and granary of Curtis Powell, near Cassopolis, with over 1,000 bushels of wheat, other grain and vehicles. Loss, \$2,000; io insurance.

While Mrs. Geo. Rohrbach and family were driving near Chesaning the horses became frightened at their umbrella, ran away and threw them all out, injuring Mrs. Rohrbach so badly that she died.

Hezekiah Callan, of Muskegon, took carbolic acid and was found dead in bed, with his son Arlie sleeping quietly beside him. Callan leaves a widow and five children. Ill health and poverty induced the suicide.

Bears are said to be unusually common about Seney. Geo Taylor was attacked by a large black bear while returning home from the mill, but bruin retreated after receiving several thumps on the head with an iron bar.

Atty.-Gen. Maynard has rendered an opinion to the state auditors to the effect that the state bank examiners must be allowed reasonable compensation for their work, notwithstanding the fact that the law makes no provis-

The wife of Wallace J. Scoby dropped a lighted lamp at Grand Rapids. The oil caught fire and Mrs. Scoby was probably fatally burned. A young son was suffocated, while two other children escaped. Scoby is in New Orleans.

Martha Minor, who was shot at the home of Charles Gadd, near Clinton. last week, has died from the effects of her injuries. She never really regained consciousness, so that the reason for the double tragedy will probably always remain a mystery.

A gasoline stove exploded in the home of S. A. Lockwood at Lapeer, very severely burning Mrs. Lockwood and Rena Brown, a domestic. The girl's presence of mind saved Mrs. Lockwood's life as she smothered the flames on her with a rug.

Mrs. Frank Bush, of Kalamazoe, sent the nurse out with the baby at South Haven, where she was visiting. The girl got to talking to fishermen on the docks and the carriage rolled off into the lake, baby and all. Two men rescued the baby, but the carriage went to the bottom.

Plans are being prepared for a new brown stone building for the Finnish college and theological seminary in West Hancock. The college opened last September with less than 30 students, but will begin its second year next month with an enrollment double that.

At Negaunce Joyce & Mowick's dry goods store burned; loss \$12,000.

A bicycle frightened Mrs. Nathanie King's horse at Metamora and she was thrown out and fatally injured.

The Third and Fourth regiments of Uniformed Rank Knights of Pythias of Ohio camped on St. Clair near Port

James Christiansen, a member of the B. J. Goodsell Hardware Co., at Ludington, suicided by blowing his brains out with a revolver.

Lou John, agen 40, an Indian living south of Burgess, was gored to death by a bull. John was a farmer and leaves a large family.

The Tilden mine at Bessemer has closed down, throwing 250 men out of employment. Poor demand for that grade of ore is the cause.

Silas Huested, of Muir, a pensioner in moderate circumstances, took carbalic acid and died in terrible agony He was very intemperate.

Ex-County Treasurer B. W. Wright. of Ishpeming, has been appointed reciver for the Ropes gold mine in Marquette county, whose liabilities are es-Amated at \$100,000. The machinery, buildings, etc., are valued at \$70,000, but won't bring half 'that at receiver's sale. An attempt will be made to reorganize.

Morgan Florance, a farmer near Ridgeway, stopped the team attached to his reaper and was fixing the knives when the horses suddenly started, and before he could get out of the way one limb was completely severed and he was otherwise severely bruised. Florance is about 70, and there is little hope of his recovery.

The fifth annual meeting of the United States League of Building and Loan associations was held at Detroit, and the sessions were full of interest. Lake W. Sanborn, of Illinois, was elected president; H. F. Cellarius, of Cincinnati, secretary, and W. C. Sheppard, of Grand Rapids, treasurer They will meet at Omaha in 1898.

Photographer McSherry, of Hubbardston, recently took a family group. There was only one child in it and she stood beside her mother. When the plate was developed a second child was revealed standing with a hand on the living child's shoulder. It can be explained in only one way, that it was a spirit of a sister of the living child.

Four prisoners escaped from the county jail at St. Joseph. They are Alex. McDonald, awaiting trial for attempt at murder; Louis Ake, bicycle thief; Frank Roby and Otis Bentley, burglars. They sawed the bars from their cells and the windows in the rear of the jail, gaining the ground below with the aid of blankets. Saws were probably smuggled into the jail by a woman.

The deputy game warden of Presque Isle county complains to the state officials that the board of supervisors have fixed his compensation at one cent per day. The board flatly informed him that they did not want those laws enforced in that county and the prosecuting attorney told him the same thing. As a result all the fish and game laws are being flagrantly and openly violated.

Frank A. Covey, of Kalamazoo, is at work-on a huge airship in which he intends to go to the Klondike regions, carrying, besides provisions, two companions. He expects to make the first stop at Winnipeg, where additional supplies will be procured. In a 261 for "fish frozen or packed in ice. week from that time he says he will land in the heart of the gold regions if | The Republics of Central America Unite. the wind is favorable, securing such claims as he may find, and returning inside of six weeks.

Chief Simon Pokagon, of the Pottawatomie tribe in Allegan county, is very ill and says he expects to shortly leave for the happy hunting grounds. He is almost 80 years old and has done republic is vested in a council of the a great deal for his people in obtaining chief of states who is elected from each justice from the government. He | Alliances of defense and preservation has since written a book bringing out for all the states are provided and the the white man selfishness and rapacity expenses of the government and of war in dealing with Indian tribes.

sonn Ryan was elected drain commissioner of Scioto township, Shiawassee county, last spring and notwithstanding the fact that the last legislature abolished that office John has been doing business just the same. He experienced no particular difficulty until the laborers who had been constructing a costly drain demanded their pay and the township treasurer refused to cash the commissioner's orders and informed the men that they must look to Mr. Ryan for their pay, about \$500.

Mrs. Charles Bishop, who lives with her husband and little child at Mason, has conducted a very prosperous matrimonial business with herself as one of the principals. It is alleged that she advertised in matrimonial papers that she wanted to marry and when promising replies were received "bled the suckers" for wedding trousseaus and for money to pay her fare to the point where the would-be groom resided. The U.S. postal authorities are now after Mrs. Bishop, but she has skipped.

Assistant Secretary of the Navy Roosevelt has finished his inspection of the naval militia of the various states and highly praises the Michigan contingent, declaring them to be unexcelled by those of any other state. He was especially struck by the fact that the Detroit battalion was evidently recruited from the very best class of young men in the state, their conduct indicating an enthusiasm and serious purpose on their part which was not only creditable to them, but most promising for the efficiency of this arm of the nation's defense.

About \$50 in money and \$1,500 worth of diamonds and jewelry disappeared from the jewelry store of Albough & Son, at Hillsdale, at the same time that F. W. Vergein, who had been sleeping in the store nights for some time, quietly left town. Verglen was finely educated, speaking several languages, and he had made many friends during the few months he was in Hillsdale, but it is now learned that he was an ex-convict, having been sent from Adrian to Jackson prison to serve one

year for false pretenses. Geo. Martell, who lives near the farm of Curtis Wright, near Gladwin, who was recently shot and killed by unknown chicken thieves, has been arrested on suspicion of having been the principal in the crime. Roy Nunn, a neighbor's boy, who was arrested, but released because of insufficient evilence, has been induced to make an alleged confession, which implicates Martell. He says that, accompanied by Martell, he went to Wright's farm to steal chickens. Nunn says he went inside of the hen house while Martell watched outside with a gun. Nunn charges that Martell fired the fatal shot

Fish Schedule of Tariff Bill Explained. The treasury department has re-

ceived a large number of inquiries from fishermen on the Great Lakes as to the proper interpretation of the new tariff law which is decidedly complicated in regards to fish. The customs division has finally decided that fresh water fish imported in bulk and not frozen or packed in ice caught in the Great Lakes by others than citizens of the United States, are dutiable at 14 of cent per pound. If caught by Amercan citizens they are free of duty. The department also holds that ice may be used upon fish in bulk without subjecting them to the duty of % of 1 cent per pound provided by paragraph

A treaty has been completed and signed and goes into effect Sept. 15 for the formation of the Republics of Central America to be composed of the states or republics of Guatemala, Costa Rica, Nicaragua, Honduras and San Salvador. The government of the new are to be assessed by the council.

PERPETUAL EARTHQUAKE.

There Is a Place in California Which Is Shunned by Indians.

"There is a place in California where earthquakes may be said to be kept on tap," said a Fresno fruit grower The spot is at the headquarters of the Keweah, at the border of Fresno, Tulare, and Inyo counties. You can't hire an Indian or a Mexican to go near that locality. They say it is the home of the evil spirits. The country is rugged and rocky-mountains with deep valleys and precipitous cliffs. Snakes, scorpions, tarantulas, centipeds, and all sorts of hideous reptiles and insects seem to have made that neighborhood their paradise, for they are there in very palpable abundance. But, in addition to these attractions, the regions may be said to be in a state of per petual earthquake. The ground trembles and quakes continually and the rocks themselves seem to be grinding and grating against one another constantly as if subject to some great in ternal force. These phenomena are said to be more emphatic at night than in the daytime. Frequent booming discharges, apparently deep in the earth, are heard and men who have heard both say they are exactly like the muttering of distant artillery. I have never heard any one advance any theory to satisfactorily explain this uneasy and perpetually disturbed condition of nature up among the far Ke wean rocks and hills, but it is there If you ever happen to be in that vicinity, ask the first Indian you meet to guide you to the spot and see how quickly he will shy away and disap-

FOR THE SLUGGARD.

pear."

Sir John Lubbock makes the remarkable statement that ants rank next to man in intelligence. He says when we consider "their social organizations, large communities, elaborate habitations, roadways, possession of domestic animals and even of slaves, it must be admitted that they have a fair claim to rank next to man in the scale of intelligence."

There are over 1,000 varieties of ants, all differing in their habits. Their industry is appalling. An aunt was put watched. From 6 o'clock in the morning she worked until 10 at night, and carried 187 of the larvae to her nest. The small red ants, so abundant in India, are so small that it takes from eight to twelve of them to carry off a grain of wheat not half so large as an English grain, yet they will carry one of these grains a thousand yards to their nest. They travel in a straight line, going over obstructions instead of around.

Some ants keep slaves and would die if left to themselves. The slaves clean and feed them. The modes of fighting among ants are varied. Some attack in serried masses, never sending out detachments, while single ants never make attacks. Sometimes three or four together seize an enemy, pulling different ways so the captive cannot reach any of his foes. Then one ant jumps on the captive's head and saws off his head. The American ant has a method of combat peculiar to herself. She has powerful and pointed jaws and when attacked she catches hold of her enemy's head between her jaws and if the enemy does not loose her hold the Amazon closes her jaws, the sharp points of the mandibles pierce the brain and the enemy dies in convulsions.

[A true copy.] June P. J. LEHMAN, Probate Register. Mortgage Sale. Default having been made in the conditions of a certain mortgage made by Blair Hinkley and Henrietta Hinkley,

his wife, to Joseph T. Shaw, dated the lst day of April, 1893, and recorded in the Register's office, of Washtenaw County, Michigan, on the 1st day of April, 1893, at 5 o'clock and twentytive minutes p.m., which mortgage was duly assigned by said Joseph T. Shaw to Adah Z. Treadwell by deeds of assignment dated the 5th day of April, 1893, which said assignment is recorded in Liber II, assignments of mortgages on page 368, in the Register's office of Washtenaw County on which mortgage there is claimed to be due at the date of this notice the sum of Thirteen Hundred Forty-Six Dollars and Nine Cents (\$1346,-09) principal and interest (the undersigned electing to consider the whole amount of the principal of said mortgage as due for the non-payment of interest and installments of principal as provided therein) and no proceedings in law or equity having been instituted to recover the amount of said mortgage

or any portion thereof:
Now therefore, by virtue of the power
of sale contained in said mortgage and the statute in such case made and provided notice is hereby given, that on Saturday, the 14th day of August, 1897, at 10 o'clock in the forenoon of that day at the east front door of the Court House, in the City of Ann Arbor, Michigan, that being the building in which Circuit Court of said county is held, there will be sold at public auc-tion to the highest bidder the premises described in said mortgage or so much thereof as may be necessary to satisfy the amount due on said mortgage and the expenses of this foreclosure. premises to be sold are described as follows: The east eighty and thirtythree one-hundredth acres off from the east side of the south-east quarters of Section fourteen in the Township of Scio, Washtenaw County, Michigan.

UPRISING AGAINST BRITISH.

UPRISING AGAINST BRITISH.

Serious Revolt in India With Considerable Hot Fighting.

In consequence of the rapid spread of the revolt against British authority in India, from 12,000 to 15,000 natives now being under arms, the government has ordered the reserve brigade to assemble under the command of Col. Wodehouse. Fort Chakdara was attacked by the natives about 2 p. m. and continued until 8 o'clock the next day. The English lost five wounded. The native loss is not known, but it is believed to have been heavy. Fort Chakdara is strong enough to resist any attack and it has a good supply of ammunition. The only fear is that the garrison may become exhausted by constant fighting. The tribesmen are sending forth fresh relays continually. British reinforcements with abundant supplies of ammunition have arrived at Dargai. The march was forced and very rapid, and 19 Sikhs

died from sunstroke on the way.

Insurgents Attack Havana's Suburbs. A Havana dispatch says: The story of an attack by insurgents on the suburbs of Havana is confirmed by Senor Calbajer, a wealthy Spaniard, who with his wife and daughter have fled from Havana. The attack was made on the village of Marnanao about 10 miles west of Havana. Senor Calbajer was an eye witness of the raid. He says that the attack was led by insurgents under Baldomeroa Coasta, Juan Delgado and Hernandez. They were well armed with dynamite rapid-fire guns and met with slight resistance. The engagement was short and desperate, and 49 Spaniards were killed and 120 wounded; two Cubans were killed and 40 wounded. The inhabitants of the town fled for their lives, eaving the insurgents in co possession. They sacked the place and secured \$40,000 in gold besides a large quantity of supplies. Senor Calbajer says that the wildest terror reigns in Havana and that the well-todo inhabitants are leaving as fast as the local laws permit.

The Grecian Situation Again Alarming. It is rumored that the possible abdication of the king of Greece has inspired the following dispatch from Athens: "It is stated on good authority that in the event of a proposal looking to the establishment of foreign control of Grecian finances being adopted by the powers the king will make a declaration of exceptional gravity. Russia and Germany having counseled Greece to submit to the conditions imposed by the powers, M. Ralli, the premier, replied that Greece would never accept the idea of financial control proposed, and that she would help herself."

The foreign admirals at the Island of

Crete held a conference and decided to

oppose by force the landing of any ad-

ditional Turkish troops. In reply to their notification to that effect Ismail

Bey said he could not accept such a

decision. It is believed that fresh

trouble is brewing. Spain to War With U. S. to Save Herself A Spanish diplomatist who is in close touch with Senor Canovas del Castillo, the Spanish premier, says that it is useless longer to attempt to disguise the fact that the Spanish ministry is in a very tight place, and that in order to retire gracefully from Cuba and at the same time save the monarchy Spain may have to go to war with the United States. He admits that Spain cannot raise money to carry on the war in Cuba much longer. The premier will court war the moment the United States becomes imperative in its demands for the independence of Cuba. The wave of great emotion and patriotism, such as war would call out in Spain, would naturally sink all threatening domestic questions and disturbances, and save the present dynasty.

THE TELEGRAPH,

INTERESTING AND IMPORTANT NEWS MATTERS.

Striking Miners Lay Siege to Working Mines and Decrease Their Forces by Inducing Men to Come Out-A

Miners' Strike News.

The officers of the striking coal miners are centering their influence and efforts upon the men still working in the West Virginia fields and the mines of the New York and Cleveland Gas Coal Co., of which P. H. DeArmit is president, in the Pittsburg district. Strikers to the number of 6,000 to 8,000 assembled near the Turtle Creek and Plum Creek mines for the purpose of inducing the workers there to come out. DeArmitt urged Sheriff Lowry, of Allegheny county, to post notices demanding that the strikers disband and return to their homes under the threat of legal proceedings being taken against them. This only produced a more determined feeling among the strikers and the sheriff, fearing that a crisis was approaching, telegraphed Gov. Hastings news of the situation with a view of having him prepare for an emergency. The strikers continued to gather and held big mass meetings at McCrea's school house and other points about the DeArmit mines, and they established camps at various places.

The strikers are slowly winning points about the De Armit mines. They have already practically closed the Sandy creek and Oak Hill mines, and the Plum creek men are coming out in small bodies. The marchers claim they have succeeded in inducing those of the miners who live at Coalport, where the Plum creek tipple is located, in joining the ranks. This reduces the number of men in the mine by 50. The success of the campers in bringing out the Coalport miners brightened the spirits of the men and made them more positive of victory.

The men were pleasantly surprised when a dozen women, with their children, walked into camp. They are the wives of miners, and when they said they had come to stay as long as their husbands and brothers were there, and would cook, they were given three cheers.

Peace and order seem to be the watchword of the strikers. They realize that they have the sympathy of the public, and if they lose it their cause will get a black eye. At the head-quarters of the miners' officials in Pittsburg there are daily many proffers of aid, and the majority did not wish the public to know of their sympathy.

Uncle Sam to Prevent a Coup by the Japs A Washington dispatch says: The navy department issued an order for the battleship Oregon, the fastest and most powerful in the navy, to proceed at once to Honolulu. The Baltimore, now at Mare Island navy yard, will also be ordered to Hawaii as soon as she is out of dock, and orders were sent to rush work on her. These orders are taken here as an indication that the government is not entirely satisfied with the polite attitude of Japan and does not propose to be caught napping by any coup that may be meditated by the astute Japs.

While it has been the policy of the high officials of the administration to treat all talk of trouble with Japan with scorn, there is a strong feeling in the war and navy departments and among the officers of both branches of the service that affairs are really growing serious.

Information has just been received from Honolulu by the steamer Belgic that upon the arrival of the steamship Mouna at Honolulu from San Francisco U. S. minister Sewell will carry out the instructions received in the last mail said to be to this effect: If the Mouna brings word that congress failed to pass the annexation treaty, Minister Sewell is to declare a protectorate and raise the American flag. In view of the attitude of Japan Secretary Sherman believed a protectorate of the United States is the only way to prevent possible hostility on the part of the Japanese while awaiting congressional action on the annexation treaty.

Senator Morgan, of Alabama, the leading Democratic member of the Senate foreign relations committee, will leave Sept. 1 for Hawaii as a rep resentative of the committee, to make a report on the condition of affairs on the island. He will return before the convening of congress in December. It is safe to say that Morgan's report will be a strong appeal for annexation. Senator Morgan's two daughters will accompany their father.

Senator M. S. Quay, of Pennsylvania, has announced his intentions of making an early trip to the Hawaiian islands to make a careful study of the country.

The secretary of war has appointed the special board provided for in the sundry civil appropriation bill to make a survey and examination (including estimates of cost) of deep waterways between the Great lakes and the Atlantic tide water, as follows: Maj. Chas. W. Raymond, corps of engineers, Alfred Noble, of Chicago, and Geo. Y. Wisner, of Detroit.

Bluejackets from the U. S. ships Yorktown and Boston have been several times attacked by coolies in Kobe, Japan, even the policemen taking part against the Americans. James Mullen, a bluejacket from the Boston, was tied by the legs and dragged around the stoned.

A cyclone struck the farm of A. C. McDowell, near San Jose, Ill., and his house and barn were entirely destroyed. Seven people were killed

Thompson's Indolence. James Thomson, the author of the 'Seasons" and the "Castle of Indolence," paid homage in the latter admirable poem to the master passion or habit of his own easy nature. Thomson was so excessively lazy that he is recorded to have been seen standing at a peach tree, with both his hands in his pockets, eating the fruit as it grew. Another time, being found in bed at a very late hour of the day, when he was asked why he did not get up, his answer was, "Troth, man, I see nae motive for rising!"

MACHINES FOR BREATHING.

But few sightseers at the national capital find the patent office the most interesting point to visit, yet there is probably no public building in Washington about which have centered so many high hopes, so much ambition, keen research and hard study. The patent office, indeed, is a sort of Mecca for the inventive genius of the United States.

At the time this is written 562,458 patents are here recorded, and an examination of the models of them, preserved in the cases, would occupy the student for at least a year. Among the oddest of recent patented devices are two "breathing machines," one by a man in Buffalo, and the other by a Brooklyn physician.

A machine for breathing may at first thought appear to be superfluous, and even ridiculous, yet both of these contrivances are of benign intent. They are designed to preserve life, or to resuscitate suspended animation, as in cases of drowning, choking, or a sudden failure of the heart's action.

Physicians, as is well known, often attempt to produce artificial respiration by extending the unforunate person on the ground or on the floor, and alternately raising or lowering the arms. At best this method is unpromising, and it is to render such artificial respiration more effectual that the two inventions above-mentioned have been

the external air. By means of an air-pump, connected with the chamber and worked rapidly by a rotary shaft and

Washington indicates the Great Brit- a bellows and tube accurately applied over the nostrils and mouth of the person. Alternate inspiration and exhaustion of air in the lungs are thus brought about. The air-tube before entering the nostrils passes through a small heating apparatus. This raises the air to the temperature which it would reach naturally in the air-passages of a healthy person.

Eli Moore, Pres. Bd. H. B. Dødsley, Health Inspector, John Kapp, Health Officer. Ann Arbor, Mich., Dec. 31st, 1896.

To the Honorable the Common Coun-

Gentlemen-At the last meeting of the Council an estimate of the cost of extending the sewer in district No. 6, made by the City Engineer, in streets not included in the plans, specifications and contract, and to add the same to said district and include it in said contract, was referred to the Sewer Com-

I nave no doubt that if you did this the assessment for the entire district would be null and void.

The Council by resolution declared it expedient to order the construction of sewer on certain streets and directed the City Engineer to cause all needful surveys and measurements to be made and report to the Council, among other things, the starting point, direction and place of connection with the main sewer, a full, complete and detailed estimate of the cost, a map of the route and the land or lots fronting on or adjacent to the same. The Engineer reported as directed and the same was re-ferred to the Sewer Committee. Said committee reported in due time to the Council and the Council directed the Board of Public works to cause said sewer to be constructed.

In accordance with the direction of the Council the Board advertised for proposals for the construction of the same and let the contract to the lowest bidder. The contract was confirmed by the Council and the contractor Whereupon the original motion was has not only begun work on the con-

bidder. It has been held by supreme court that the purpose of this provision in our charter is to secure competition among contractors for pub-lic work and supplies and to give the taxpayer the benefit thereof.

In the case of Ely et al. vs. the City of Grand Rapids, reported in the 48th of Michigan at page 336, the Council requested the Board of Public Works to establish a grade line and furnish the Council with an estimate of the cost of grading granuling and principles. cost of grading, graveling and paving the gutters of Curtis street. The Board reported to the Council and the contract was let to the lowest bidder There was no item for 'paving gutters either in the estimate, specifications of contract, and after the work had progressed somewhat it was discovered that, while the improvement provided for in the original resolution contemp lated and required the gutters to be paved, no provision was made therefor in the contract and specifications an nexed thereto. Upon making this dis covery the Board instructed the En gineer to see the contractor, and ob tain from him a proposition to pave the gutters. He offered to do it at the the gatters. He offered to do it at the same price per yard for which he had contracted to do the other paving. The engineer reported this to the board with his estimate of the number of yards of paving, which was approved by the Board and certified to the Coun cil. The Council rescinded its former recolution and adopted a new resolu tion and order for assessment, thereby increasing the assessment. This was a new contract and was not open to competitive bids. The court says further, "It is true that the paving of the gutters was within the scope of the improvement, but this did not confer upon the defendent the right to dispense with the charter results." with the charter requirement for com-petitive bids. It is of no consequence that a part of the public improvement is omitted from the estimate and con-tract by mistake. This work of pav-ing the gutters was entirely outside the contract. The private contract for the performance of the same was without authority and void,"

I would suggest that the Sewer Committee report adversely to the proposed extension.

Respectfully submitted, THOMAS D. KEARNEY,

RESOLUTIONS.

Ald. Cady moved to rescind the action of the Council ordering a sidewalk on the east side of S. 1st street along the property of the A. A. R. R. Lost as follows:

Resolved, That the City Marshai be lirected to circulate a petition for pavng Main St., among the property owners of said street.

Adopted. Ald. Danforth moved that the Counil reconsider the action relative to the idewalk along the Ann Arbor R. R.

GLEN V. MILLS,

Grecco-Trukish Muddle Again Stirred U1 When it looked as though the arrangements for peace between Turkey and Greece were all settled the sultan steps up with a new game to secure delay, by requesting that several amendments be made to the proposed plan of settlement. The powers promptly instructed their ambassadors to maintain the plan as arranged, word for word, and intimated that another ultimatum

would be sent to the sultan. According to a dispatch from Constantinople, a division of the Turkish fleet has been ordered to sail for Canea, Island of Crete, with a detachment of Turkish troops. This will surely cause fresh trouble in the settlement of the Graceo - Turkish peace preliminaries. It has been reported for some time that the Turkish government was contemplating landing additional troops in Crete and the admirals in command of the foreign fleets in Cretan waters held a conference and decided to oppose such a move by force. Thus a collision cannot well be avoided.

The association has rooms over the Post Office and is doing a great amount of good in other lines than study. Meetings are held at 3:30 p. m. on Sunday's and the association rooms are open every afternoon. Members are entitled to the use of the piano, gasstove, sewing machine and library. Those not members or who are strangers in the city are also cordially invited to the rooms.

Gamblers Fined.

Last Saturday night Marshal Sweet became convinced that a gambling house was in full blast in a room back

of Vogel's meat market on Detroit-st. The place was watched by officers until about three o'clock; then guards were stationed at the doors and Patrolman O'Mara surprised the crowd by suddenly tumbling through a window. A break was made for the doors but Marshal Sweet and his men were there and collaring the gamblers took them

to jail. The names of those arrested are: Edward Miller, William Flynn, Jacob some time ago stole a watch from Miss Beck. John Gifford and George Mc-Looney. They were brought before near Albion and was brought to this Judge Duffy Monday morning, pleaded guilty and were fined one dollar each and costs.

at moderate prices.

WHO OWNS THE TOWN?

For several years past a dispute has een going on between the city authorities and the Ann Arbor Railroad, C. F. Kerr to J. Sturm, Ann Arrelative to building a walk on the east side of First-st., just west of the depot John W. Gates and wife to D. F. grounds. The property owners in the neighborhood, almost without exception are anxious that the walk should be built, but the road has, on account of one excuse and another, put the matter off. Some four weeks ago the council passed a resolution ordering the railroad company as well as other property owners adjoining, to build a walk to fill up the gap between Liberty and the terminus of the walk on the east side of the street just south of the railroad property. The railroad officials at once began to raise objection, The question was discussed pro and con. the council went in a body to look over the situation and the matter was again brought up in council, this time at the meeting Monday night. By this time the question had become so confused in the minds of several councilmen that they did not know which way they were voting. Finally, after numerous resolutions to rescind, to reconsider, to adjourn, etc., had been made and put, some of them being put wrong and some right, and after almost all the aldermen had talked on all sides of the question, it was settled by allowing the railroad company an exemption while the resolution in regard to all the other property holders was allowed to stand. This is alpably unjust and is causing a great deal of unfavorable comment by people in the second ward. The matter is almost certain to come up again when the railroad company will either be ordered to build a walk along the line of their road or the other property holders will also be exempted. Upon interviewing a large number of citizens who live beyond the depot and who have occasion to use First-st. a great deal. THE REGISTER found considerable bitter feeling against the council for its action in this matter. Alderman Koch, of the Second Ward, became so disgusted at the course affairs were taking that he left the council chamber, declaring that he was ashamed to be seen with such people.

MARTHA MINOR DEAD.

Second Victim of the Bridgewater Tragedy - James Shot First - Miss Minor Committed Suicide.

Miss Martha Minor who was shot at the home of Charles Gadd in Bridewater last week died Friday evening. Miss Minor, it will be remembered

was found on her bed in the home of Mr. Gadd lying fatally wounded across the dead body of her lover, Niles N. ity will hold their annual basket pic- James. For four days the girl lingernic dinner at S. C. Wheeler's, one-half ed between life and death finally dying mile west of Salem on Saturday. All before she could give any account of old soldiersof Salem and vicinity are the fearful tragedy. A good deal of

Two things now seem almost certain James was in the house all night and he was shot before Miss Minor. More will probably never be known. Mr. Gadd said, "I was afraid of James. He did not like me and told Mrs. Nace, of Clinton, that some day he would give old Gadd a surprise. I had bolts put on every door when he began coming Needle-work-Three courses. Plain here and I locked them every night. Monday night I locked the stair door after Martha went up to bed and when I called her next morning the door was still locked so James must have been up there all night."

Another fact that at first escaped no-Crippen. These include "The Life of tice is that when Mr. Gadd entered the room, bloody finger-marks were on the wall and wash bowl, while prints of bare feet, also in blood, appeared on the floor. Mr. C. L. Gadd noticed these things and said: "No one but the girl could have made the bloody foot prints for she was barefooted while James had on shoes. She did not do this after she was shot for then the blood flowing from her wound would have left stains on the floor. So James must have been shot first and Miss Minor must have made the tracks and finger marks in Office and Residence, 11 S. State St. his blood"

> This leads to the belief that James killled himself some time in the night and that Miss Minor committed suicide on Tuesday morning.

What led to the tragedy can never be known but James seemed to be deeply in love with the girl and no doubt killed himself because he had one wife and could not marry Miss Minor and she probably followed him because of sorrow at his death and shame at the disgrace which must follow the finding of a dead body in her room.

Death of Mrs. Mary B. Allmendinger

Mrs. Mary B. Allmendinger died Tuesday morning, at the home of her daughter, Mrs. Wm. Guenther, on Jackson-ave. Cause of death was heart disease. Deceased came to this country from Germany in 1834. She was 72 years of age at the time of her death. She leaves two sons, Henry and George, and two daughters, Mrs. Wesley Sey-Bicycles repaired promptly and bold and Mrs. Wm. Guenther. Fener-

AMONG OUR NEIGHBORS.

DEXTER LEADER.

Floyd Page had a narrow escape from a serious injury last Friday. A hay fork fell while being used and one of the times ran through the fleshy part of his left leg above the knee, making a wound about three inches long.

O. C. Bostwick has received from the south another collection of curios for his museum. It consists of a Mexican cavalry saber, Columbian guard sword, Japanese sword, a pair of navy hand-irons and several pieces of grape and

GRASS LAKE NEWS.

One of our aldermen drove into the lake a few days ago and when he was out from shore where he could not help himself, his unprincipled nag got cunning and cu tup didoes. Charley was emptied out into the water and soaked to the bone when he got ashore. It is singular that he escaped drowning.

Geo. Klumpp, of Sharon, a few days ago got into a friendly scuffle with an acquaintance while in a wagon trotting along the road. George soon received a twister that caused him to turn a half summersault out of the wagon upon the ground. After the wheel had ran over him he got up and found him-seif all there except a patch of skin from his head and that was left in the

A couple of citizens while at Wolf Lake camping two or three days ago, observed a peculiarly shaped cloud which went scurrying along at a great rate. One of the twain saw its true nature, but waggishly declared it was an air ship. His triend took it to be such and was confident he could dis-cern three men aboard. He also saw sails and other details of an aerial craft and was filled with curiosity and awe His impressions he afterwards reeled off to his wife in phrases of wonder and astonishment. Still, it was only a

MILAN LEADER.

The old chestnut, Railroad Jack, was in town Tuesday afternoon and addressed a crowd in the evening. We don't think his sentiments healthy for young boys to hear or his example good for them to imitate.

A Sunday school excursion to Toledo is being talked up by the Sunday schools of Saline, Ann Arbor, Dundee, Azalia, and Milan. A rate has been made by the popular Ann Arbor road that makes it expensive to stay at home on that day. It is expected that definite plans and specifications may be stated next week.

Died, Monday forenoon at 10 o'clock, at the residence of his grand daughter, Mrs. Israel Hale, Daniel T. Lewis, aged 89 years and 10 months. The funeral was held at the residence of his son, Alfred Lewis, Wednesday after-noon at 2 o'clock, sermon by Rev. R. N. Bouck. The remains were buried in the Macon cemetery.

MANCHESTER ENTERPRISE.

Adrian merchants are kicking be cause competing lines of railway make cheap excursions to Detroit, and people who patronize them do more or less trading out of town. Yes, but you buy your soft coal so much cheaper, you

Someone in the village evidently "has it in" for the bicyclists in great shape, for a quantity of powdered glass was found strewn in the road at the corner of Beautord and Duncan streets, turning around N. Stringham's lot, where many wheels pass. We have not heard of a tire being punctured, but whoever is mean and cowardly age, are much seen this summer. There but whoever is mean and cowardly enough to do such an act ought to be detected and munished are also capotes of straw, either open work or beaded, embroidered or spangled. Roses detected and punished.

A Sharon lad with a load of milk fo the cheese factory, attempted to get ahead of another boy with a similar load, in front of the electric light station Monday morning, and when his wagon wheels bumped against the bridge he went up into the air like a frog. The front wheel of his wagon struck an electric light pole with force enough to dislocate the lamp, the wheel was smashed and the cans of milk went rolling down the embankment. When the expense account is reckoned the lad will find that the experiment was : costly one, and it didn't work either.

THER There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"-she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it. so assists nature

CHELSEA STANDARD.

H. M. Crill, of Pontiac, formerly of Waterloo, backed by several Pontiac and Detroit capitalists, will leave soon for the Alaska gold region. He has had more than 30 years' experience at min-ing having worked in California, Peru, Nicaragua and other countries. He will have a salary and work on shares.

Will have a salary and work on shares.

The new telephone line between Waterloo and Stockbridge, has been named by its owners the Rural Telephone Line of Waterloo, and the officers of the same are Delancey Cooper, president; Lynn L. Gorton, secretary; Orville Gorton, treasurer. There are four different lines terminating at the store of Henry Gorton & Son, in the village, conducted by a switchboard. These lines not only connect Waterloo with Stockbridge and Chelsea, but with the following farmers along the with the following farmers along the route, who have telephones in their houses: Sidney A. Collins, Horace Leek, William E. Wessels, Geo. Gorton, Henry Gorton, Celia Dean, Orson Beeman, Orville Gorton, Hugh McCall, Geo. Runeman and John W. Howlett. The office at the Stockbridge end of the line will be in the Brownell store under the charge of Brownell store under the charge of Chas Brooks, the undertaker.

Happy Jack.

It was the question of the soul of a certain sailer lad, and the good man who had charge of the mission was doing his best to show the owner whither certain habits in which he took great pleasure, if not pride, would inevitably

lead him.
"And that lake," said the good man, continuing his discourse-"that lake is of burning fire."

"Humph!" returned Jack carelessly. "Then it'll soon burn out, and that's

"It will never burn out," said the good man, "and, moreover, my friend, you are so made that you will be able to endure it."

"Then I'll soon get used to it," said Jack cheerfully, "and that's all right." -Boston Budget.

In Europe, Asia, Africa, Australia and America, the five great continents, Shaker medicines are being used by suffering humanity for the cure of sickness and disease.

Healthy, happy children make better men and women of us all. A little care and a little planning before birth often more important than anything that can be done after. On the mother's health and strength depend "Don't question anything you hear the life and the future of the children. A weak and sickly woman cannot bear strong and healthy children. Most of the weakness of women is utterly inex-cusable. Proper care and proper medcine will cure almost any disorder the feminine organism. Dr. Pierce's Favorite Prescription has been tested in thirty years of practice. It is healing, soothing, strengthening. It is perfeetly natural in its operation and effect. By its use, thousands of weak women have been made strong and healthy—have been made the mothers of strong and healthy children. Taken during gestation it makes childbirth easy and almost painless, and insures the well being of both mother and child. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser" profusely illustrated.

Early Plowing For Wheat.

Wheat needs compact ground, but not hard or rough ground. The soil ought to be made fine, so that the small roots can get their plant food, and this fine soil needs to be close about them. In commenting on the foregoing J. M. Rice, Oklahoma, explains in Farm, Field and Fireside that in heavy or clay soils this compacting will come naturally and quickly by gravitation and the action of rainfall. In the farther west the soil is light and loose and the rainfall limited. He says:

To get the natural compacting of soil, plowing, as a rule, must be done early. If it is practicable to do so, the plows should be started as soon as the standing grain is cut. Where a header is used this may be the same day, and even where a binder is used a portion of the ground can be plowed among the shocks at once. Of course with the ordinary force of the farm this is not always practicable, but it would be best if it could be so arranged, for the ground dries out rapidly after the standing grain is removed and is likely to be too dry for plowing. With the usual light rainfall the compacting is a slow process, so the longest possible time should be had between plowing and seeding. There are artificial means of compacting, in the use of the roller and press drill. We used both of these in the wheat ground of the present harvest, but early plowing was better than all else.

"I always recommend Dr. Fowler's Ext. of Wild Strawberry in cases of summer complaints and have never known it to fail. You may use my name." C. A. West, Druggist, Rainsborough, O.

A Brainy Boy.

A small boy cyclist was riding with out a light and was stopped by a park officer, who asked him in gruff tones where his light was.

"Why, it's here," exclaimed the rider in surpriss. "Yes, but it's out," solemnly assert-

ed the patrolman. "Well, it was lighted at that last turn." "Senny, it's cold; couldn't have been

lighted this evening," triumphantly announced the officer. "Huh! That thin metal cools in a minute. I'll light that lamp and wait

until it gets redhot, put it out, then ride to the next corner and back, and when I return it'll be cold."

acute policeman.

until it grew redhot, turned it out and started, and that kid is going yet .-Philadelphia Press.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored two much, is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pair disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordi-nary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. may have a sample bottle and pamphlet both sent free by mail. Mention THE REGISTER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee Polly the genuineness of this offer.

A CLEAR CASE.

"Don't question anything you hear about the administration of justice in the early days of the west," advised the man who had dug and prospected over a large part of it in search of a fortune. "I've seen men out there acting as magistrates that could neither read, write nor talk with an approach to correctness

in any language.
"I recall one instance up near the head of Bitter creek. While a miner was down at the saloon one night enjoying himself after the manner of such men some one stole into his tent and dug up the bags of dust he had buried there. Upon discovery of the theft there was a great hue and cry raised, a sheriff's posse was called in and a young fellow from the east, little better than a tenderfoot, was arrested for the crime. He didn't look guilty or act guilty and there was a good deal of sympathy for him among the boys. Otherwise the regular formula of justice might not have been observed.

"When the trial came on, the young man had a lawyer that he had sent for and who made it interesting for the prosecutor, who relied largely upon lung power and sledgehammer blows. Inside of two hours it was proved by evidence that could not be questioned that the accused had spent the entire night with a friend at his shanty three miles from camp. Outside of what the friend swore to a number had seen the prisoner going out in the evening and returning in the morning. Even the prosecution was gracious enough to admit at last that a perfect alibi had been

" 'Thar's no mistake about it,' roared the court in order to emphasize his indignation, 'it has been proved that this aneakin, slick tongued hypercrit has committed a alerbi. I sentence him to six months' hard labor.'

"And it took half a day to get the sentence annulled." - Detroit Free

It is not a remedy put up by any Tom, Dick or Harry; it is compounded by ex-pert pharmacists. Ely Bros., offer a 10 cent trial size. Ask your druggist. Full size Cream Balm 50 cents. We

HARVESTING SUGAR BEETS.

Information Given by H. W. Wiley In a Farmers' Bulletin.

The time for harvesting varies in different localities. In southern California the beets planted in February are ready for harvesting in August. In general it may be said that beets planted the first week in May will be ready for harvesting about the 1st of October. Harvesting should be postponed to as late a date as possible, provided the beets are in no danger of a second growth and are not exposed to a freezing temperature. The leaves of the ripened beet change from a rich to a yellowish green, become drooping and applied closely to the earth, and many of them die. The harvesting is easily accomplished by first loosening the beets in the soil and then removing them by hand. For loosening the beets there is rows are quite straight and the beets of

a uniform size. Having lifted the beets, the next operation is removing the necks. This is done by a large knife and the top of the beet or neck is cut off so as to remove, with the top, that portion of the beet to which the stems of the leaves have been attached. The object of removing this portion of the beet is to prevent the mineral salts, which have accumulated in large quantities therein, from entering the factory. These mineral salts exercise a deleterious influence on the crystallization of the sugar. They are well fitted for feed or for fertilizing purposes and are of more value when left upon the soil than when removed to the factory. The neck is also much less rich in sugar than the other

parts of the root. The removal of the tops of the beets is a tedious process which, in Europe, is performed by women and children. In this country the process of topping the beets will prove much more expensive than in Europe. It is probable that some mechanical device will be invented by which the beets can be topped. So far as known at the present time, however, this process has not been successfully accomplished by machinery and the topping must still be done by hand.

When the beets are topped, they are thrown into piles, and the tops thrown over them as a protection from the sun or frost until they can be delivered to the factory. The beets are best delivered to the factory in dump carts, which permit of their quick unloading.

THE WONDERS OF SCIENCE.

Lung Troubles and Consumption Can Be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer To Our Henders.

The distinguished chemist, T. A. slocum, of New York City, demonstrating his discovery of a reliable cure for Consumption (Pulmonary Tuberculosis) cronchial, lung and chest troubles, tubborn coughs, catarrhal affections, neral decline and weaknese, loss of esh, and all conditions of wasting away ill send three free bottles (all different) of his New Discoveries to any af-lieted reader of this paper writing for

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial of his infallible cure. Science daily develops new wonders, and this great chemist, patiently ex-perimenting for years, has produced re-sults as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and con-sumption are curable in any climate is proven by "héartfelt letters of grati-tude," filed in his American and European laboratories in thousands from hose cured in all parts of the world.

The dread Consumption, uninter-upted, means speedy and certain

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving post-office and express address, and the free medicine will be promptly sent direct from his laboratory.

Sufferers should take instant advanage of his generous proposition.

Best Grain Shock.

Nipe bundles of grain make a better 'shock" than the old fashioned dozen, writes a contributor to The Farm Journal. He says: Get up four in a cross, then four more, one in each of the spaces between two of the first four, and cap with the ninth, well broken, and the tops toward the prevailing wind. If well set—that is, each sheaf standing on its own bottom and thoroughly closed in at the top-such a shock will stand a stiff windstorm and a three days' rain without harm.

Could Not Weaken Such Testimony As This.

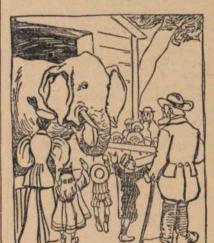

(From the Kalamazoo Telegraph.) The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken

down by our representative:
"My name is John A. Wallace. I am
a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 106 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months I have been having attacks of kidney com-plaint, the pain in my back over my hips was very severe at times; my urinary sys-cm was also in a bad state of derange-ment, sometimes the urine was scanty and then again the amount would be excessive, and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I m now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am continuing the use of Doan's Kidney Pills ith positive feeling that they will effect on me a permanent and speedy cure. idney Pills as a remedy for all kidney ilments; have good reason to be, as they have done so much for me."

Can you ask any more than this? Doan's didney Pills are relieving more backs of the burdens they have been forced to bear brough the kidneys than all other means erised, and, better still, they are doing has ever taken them and see what they

boat and crew for your pleasure."
"Oh, say, cap'n," remonstrated the enemy, with a silly grin, 'don't you

know me?" "You bet I do," replied the captain fervently. "You're the idiot that rocks the boat, and you shall not come on board mine."—Alex Ricketts in New York Truth.

Skin and blood diseases, causing all sorts of dire disasters to human happiness are easily and quickly cured by Burdock Blood Bitters.

Man's Speech to Brutek

The story of the farmer in the "Arabian Knights" who could understand the language of the animals and fowls in his barn-yard probably had its origin in the ancient myth which asserted that in primitive times men and beasts were able to converse together. In truth, as everybody knows, there are certain sounds, or words, which horses, dogs and other animals can be taught to understand; and, on the other hand, some of the sounds uttered by domestic animals have a meaning which man can understand. Of course all this is quite a different thing from language, and yet it has a certain scientific interest. Recently Dr. H. C. Bolton has discussed "the language used in talking to domestic animals." He shows how we unconsciously attempt to lower our language by abbreviations, etc., to the comprehension of brutes, very South Dakota. much as when we talk to young children. A curious fact is that the peculiar "click" and "chirp" used to start are employed in very widely separated cents a pound on cocoons produced in parts of the world, but sometimes in a the state. reversed sense. In India, for instance, these sounds are used to stop instead

Your Vitality?

Every breathyou breathe, every heart beat, every motion of your hand, takes force. The measure of force we call vitality. If this is lacking, there is loss of flesh, lack of resistive power, a tendency to catch disease easily, especially a tendency to Consumption. For low vitality nothing is better than Scott's Emulsion. It supplies force by furnishing the nourishing, strengthening elements of food in an easily digested form; enriches the blood, and builds up the system. When ordinary food is of no avail, Scott's Emulsion will supply the body with all the vital elements of life.
