

## VERY SUCCESSFUL.

### THE WASHTEAW COUNTY FAIR WAS UNUSALLY GOOD.

Fourteen Thousand Persons Attended—Exhibits were Very Good—Some of the Attractions—Albert Menzel Wins the Register Prize.

The annual fair has come and gone. Fourteen thousand men, women and children entered the grounds, admired the exhibits and sports and visited with friends from all over the county.

On Tuesday exhibits were placed on the ground and all things were made ready for the real beginning Wednesday morning. Wednesday's attendance was about three thousand. On Thursday eight thousand were present and on Friday the number dropped again to about three thousand.

As one entered the fair ground he saw on the right hand the "Ocean Wave," a sort of merry go round with an up and down wave motion added. A crowd was always on hand and some amusing scenes were witnessed. On the left was a large tent opened to all and provided with several hundred seats. Here the Ann Arbor Music Co. gave free concerts: here Salvation Army meetings were held and addresses were delivered. Here persons tired of walking about the grounds could find a place to sit down and rest and the tent was always thronged.

In the main hall and floral hall one saw exhibits of every thing from potatoes and squashes to fancy embroidery. Here was produce brought from farms all over the county, displays of work by school children, paintings and fancy work. Here too were booths of merchants where articles were displayed to advertise business and to gratify lovers of different lines of goods.

Here also were special displays simply for the pleasure of those who desired to see something novel and interesting. Among these was the exhibit of war relics. Around this booth a crowd could always be found. Old weapons, including muskets, rifles, pistols, swords mingled with canteens, flags musical instruments and tattered blue suits which our citizens wore in the Rebellion. Three muskets were stacked near the front of the booth. One had the caplock of the civil war while the other two were old flat backed relics of earlier days. A placard announced that they belonged to the Pingree family. One had been carried in the Rebellion by our present Governor. One his father had used in the war 1812 while his grand father had used the other in '76 to help win American Independence.

Another curiosity that attracted much attention was the live rattlesnake exhibited at the REGISTER booth. This was captured in a swamp south of

Rev. S. A. Ort, D. D., president of Wittenberg college, "Ideals." Dr. R. S. Copeland, of the U. of M., "Roman Walls and Feudal Halls."

### Interesting Law Suits.

Four important and sensational suits were filed Thursday morning in common pleas court at Toledo by Charles S. Ashley, executor of the last will of the late Gov. James M. Ashley. One is against Wellington R. Burt of Saginaw, who was appointed receiver of the Ann Arbor R'y it was supposed by the Ashley interests, which asks for a judgment of \$35,000 on account of certain land which is claimed was deeded to Burt, but never paid for. Another suit is against Mr. Burt and the Ann Arbor road, in which it is charged that they converted to their own uses \$32,000 of township bonds belonging to Gov. Ashley. The third is against George W. Quinard and others of N. Y., who composed the reorganization committee of the Ann Arbor road, and is to recover the value of 182 shares of the preferred stock of the new company. The fourth suit is for the value of two locomotives, claimed to have been the property of the late J. M. Ashley, but now held by the railroad company.

## THE QUEEN WAS MAD.

### HAWAIIAN STUDENTS ROASTED QUEEN LIL ON THE TRAIN.

She Would Not Recognize Annexationists, So They Sang "Yankee Doodle," and "She May Have Seen Better Days."

The Inter Ocean tells the following story of Liliuokalani, the deposed queen of the Hawaiian Islands. On her way from San Francisco to Chicago she fell in with a party of Hawaiian students who belong to the annexation party, and hence were unfriendly to the dusky queen. A prominent U. of M. student was among the number.

When the train bearing the one time ruler and her party, left San Francisco, it also had on board a party of Hawaiian youths and maidens, who are on their way to enter various universities in the east. They were: A. L. C. Atkinson, going to Ann Arbor; Arthur A. Wilder, who will take post graduate work in law at Yale; Misses Ivy and Mattie Richardson and Miss Alice Jones, who will study at Bryn Mawr.

It happened that both parties had engaged sections in the same sleeper, the royal section being in the front of the car and the merry youngsters in the rear. As the students entered the car their former ruler was discovered and their patriotic blood tingled with joy at the thought that they were free from her domination and that the prospects were bright for their adopted home being united with their mother country.

They passed the royal crowd and bowed, out of respect for the past position of the former Queen.

Although they are all of the best families of Honolulu and well known to Liliuokalani, she refused, as seems to be her custom, to recognize them because they were annexationists.

Going to their sections, the would-be followers of the stars and stripes planned to resent the snub. They were all of a musical turn of mind, and "Yankee Doodle" and "America" were soon resounding through the car, which caused some nervousness among the native Hawaiians.

Then, growing bolder, "She May Have Seen Better Days" was sung, followed by "You're Not the Only Pebble on the Beach."

At this point the former Queen arose and glared at her annoyers and then sent her secretary back to stop the merry-makers, but they only laughed at him.

They, however, refrained for a few hours, and Queen Lil thought her persecution had ceased, but it was only preparing to break out in a more violent form. Each was composing a song, relating directly to the downfall of the unfortunate monarch.

On the evening of the first day's journey the songs were sprung. The effect on Liliuokalani was very noticeable, she turning, if possible, a trifle lighter, from rage.

Enduring two of them, when the third was started she suddenly arose and made a break for the car ahead. She was followed by her secretary and maid, but could not be induced to return, insisting that quarters be engaged in the forward car. The baggage was moved ahead and the indignant lady was not again molested.

## DODGE THE FEES.

### FOREIGN STUDENTS WORK VARIOUS SCHEMES TO AVOID EXTRA EXPENSE.

Say They Come From Michigan—Some Queer Cases That are Hard to Decide—Some Students Untruthful.

A Michigan student pays in fees to the University during his first year \$25 less than a student from out of the State and as a result numerous persons pretend to be from Michigan when they have little or no claims to such a residence. Some come into the State and stay a few months. Others give Ann Arbor as their address and say they have no other home while a few deliberately falsify.

In talking to THE REGISTER Secretary Wade said: "It is surprising to see the number of students who give their residences as Michigan and have no right to do so. Every day we refuse to enter twenty or thirty as Michigan students who claim to be such. Most of them are honest in their belief that they have a residence in this state while a few deliberately lie. I can almost always tell if a student is trying to deceive. One man when he came to entering his residence hesitated and finally wrote Alpena. I began to question him. He said he had been there six months as a sawmill hand. He could not tell in whose mill he had worked and could not name any business men there. At last he said: 'Oh, I've told you enough lies.' 'I know that,' I replied. 'Now take a new blank and register from Canada where you belong.' And he did so.

"There are some very difficult cases to decide. For instance, a student says he has no residence. We usually show that he has no home in Michigan and that settles it. Then the son of an army officer will come in and say he does not know where his home is, as his father goes everywhere ordered. This is a very difficult case to decide.

"One man gave his home address as an Indiana town, but said he was a Michigan student. He said his parents got their mail in Indiana, but that they lived just across the line in Michigan. I found his story true and let him in as a Michigan man.

"Many cases cannot be decided at once and we have to let them in as Michigan students, and after investigation call them up and make them pay the extra fees."

### FIRE IN WEBSTER.

#### The Pratt Home Burned Saturday Afternoon.

On Saturday afternoon the house owned by Mrs. Henry Warren, of Webster township, was burned to the ground. Mr. Pratt had rented the farm and his two young children were alone in the house when it caught fire. The older one succeeded in saving the younger and alarmed the neighbors, who managed to save part of the furniture. The house and contents were insured for two thousand dollars.

### High School Notes.

The new orchestra made its first appearance at chapel yesterday.

The election of the junior class resulted as follows: Pres., Walter McNeil; Vice Pres., Luella Swift; Sec., Lucy Cooley; Treas., Gerald Brown.

Prof. Perry particularly emphasized, yesterday, how important it was for all new students to register.

The work in the H. S. Gym. is now almost completed. Next week it will be in running order. The classes for girls will be in charge of Miss Whedon and Miss Ladd; those of the boys in charge of Mr. Joslyn and Mr. Springer. Tickets for the entire year can be procured of Mr. Springer, for \$1.

The S. C. A. will meet, as usual, Friday.

Clara Barton, President of the Red Cross Society Indorses Dr. Greene's Nervura.

The Indorsement by the Red Cross Society of Dr. Greene's Nervura Means Everything to those Who Need Medicine, for the Whole Aim and Object of the Society Is to Relieve Suffering.

Clara Barton Head of the Most Benevolent Order on Earth, and Best Known Woman in the Whole World, Thus Gives the Encouragement of Her Own Word to Every Sufferer that Dr. Greene's Nervura will Give Back Lost Health and Strength. One Has Only to Use It to be Well and Strong.

Why will people continue to suffer and drag out an unhappy and miserable existence of sickness, pain, weakness and debility when there is a remedy sure to cure? Dr. Greene's Nervura blood and nerve remedy is pronounced on every hand and by all classes of people to be the most wonderful cure for disease ever known. It cures where all others fail.

Physicians declare Dr. Greene's Nervura to be beyond doubt the greatest medical discovery of this century and recommend and prescribe it as the surest of all remedies to restore health and strength, to make the sick well and to relieve the weakness, debility, pain, anguish and suffering of disease.

What higher commendation can this medicine have, what more convincing proof, what more positive assurance that Dr. Greene's Nervura blood and nerve remedy will surely cure, than the recommendation and indorsement of the Red Cross Society through its President, the world wide known and universally loved and honored, Clara Barton, who has brought relief to thousands of the world's

suffering, whose crowning act of benevolent charity in carrying to stricken Armenia ships laden with the tender mercies of charity is a matter of history known to all the world. Such is the world famous Clara Barton, President of the Red Cross Society, and her words in praise and recommendation of the wonderful curer of disease, Dr. Greene's Nervura blood and nerve remedy, will be the kindling of new hope to thousands upon thousands of those who are sick, out of health, weak, nervous, or who suffer from headaches, rheumatism, neuralgia or other painful and distressing disease, nervous affections or poor and civilized blood.

No suffering person certainly can hesitate for an instant to immediately secure and use this greatest of medicines, Dr. Greene's Nervura, when the President of the greatest benevolent order on earth gives personal assurance of the great value and wonderful health-giving powers possessed by Dr. Greene's Nervura blood and nerve remedy.

Clara Barton says: "We have tried Dr. Greene's Nervura blood and nerve remedy and although the remedy

has been in our hands but a short time, we judge that the remedy has all the merits which are claimed for it. We shall still continue its use, with the expectation that we shall be able to indorse it still more highly.

CLARA BARTON, President of the American National Red Cross, Washington, D. C. Dr. Greene's Nervura blood and nerve remedy is indorsed and recommended by more people whom it has cured, more physicians, more hospitals and more charitable societies than any other remedy in the world, and if you wish to be made well and strong again, if you wish health to take the place of disease, if you wish to know what it is to be without pain, weakness, nervousness, humors or indeed any kind of nervous and physical suffering, take Dr. Greene's Nervura blood and nerve remedy.

### MRS. CLEVELAND'S WORDS.

The Wife of Conductor Cleveland and Her Experience.

A REMARKABLE RESULT—FACTS OF MUCH INTEREST.

How the Mortality Rate May be Lessened.

With scores of people suffering from rheumatism, neuralgia, and kindred diseases, it is evident that the following letter, which was once before published in The Register, did not have their reading.

It certainly is convincing, and if its advice were followed by more, the mortality rate would be materially lessened. Since this letter was printed, a Register correspondent has investigated the facts thoroughly and finds that they are vouched for by Mrs. Cleveland's neighbors and friends. Her husband is Conductor Cleveland, who has been with the Central Vermont R. R. for twenty years.

The letter is published in full as received, and strikingly verifies the saying, "Truth is stranger than fiction."

To the Editor of The Register: I have a marvelous communication to make, and one that I feel it my duty to send to you for publication, much as I dislike seeing my name in print.

For three years I have been able to walk but very little, and it was seldom that I could sit up over half a day at a time. None of the physicians seemed to understand my case, some calling it neuralgia or rheumatism, while others said that my sufferings were caused by ulcers. Any way, none of them helped me, and after spending hundreds of dollars, I became utterly discouraged.

I finally went to New York, where for two months I was under the care of one of the most eminent physicians of that city. But my sickness and helplessness were not bettered. My husband was talking to a friend, M. W. H. Greene, station agent at Burlington, Vt., about my unfortunate condition, and Mr. Green strongly urged him to have me try Paine's celery compound. I used three bottles, and with so much benefit that I continued its use. Today I walked down town, half a mile or more, did some shopping, called upon a friend, and then walked home again. I am doing all my household work, something I have not done before in years.

My restoration to health is solely due to Paine's celery compound. It is this medicine which has changed me from a suffering, helpless woman to my present condition of health and strength. I hope you will publish this letter and spread as widely as possible the knowledge of a means that will bring health and happiness to homes where sickness and suffering make life a burden.

Respectfully yours,  
MRS. C. E. CLEVELAND,  
Rutland, Vt.

Prison Buildings Burn at Toronto and a Panic Ensues Among the Convicts —Spain Has a New Liberal Cabinet —60 Towns Destroyed by Floods.

Hot \$150,000 Blaze in a Prison. The broom and twine factories at the Central prison at Toronto, Ont., were almost totally destroyed by fire, the loss being estimated at \$150,000. About 90 convicts were working in the broom factory when the fire started and it spread so rapidly that many of them had to spring from the windows into the yard to save their lives. There they were formed in line and marched to their cells in the prison proper. Inside of the prison pandemonium reigned. The thick smoke rolling through, mingled with the shouts of the firemen and roar of the flames struck terror to the hearts of the unfortunates standing white-faced behind their barred doors and a great cry for mercy and release went up from hundreds of hoarse throats. They were assured of their safety by the cool headed guards and the uproar subsided as they saw the uniformed men quietly standing in their usual places. The government carries no insurance, so its loss is complete.

Greek Cabinet Forced to Resign. Athens: The Greek cabinet has resigned. The boule (legislative assembly) met to consider the peace treaty with Turkey and the political situation in general. M. Ralli, the premier, took strong exception to its terms attributing to Germany all that had been done against Greece. He invited the chamber to vote confidence in the government. Amid great excitement the chamber defeated the resolution by a vote of 93 to 30. This defeat precipitated a crisis. Later—it is announced that a new Greek cabinet has been constituted with M. Zaimis, as premier and minister of foreign affairs. M. Delyannis has issued a manifesto disavowing Zaimis, who was formerly a Delyannist.

Gen. Neal Dow is Dead. Gen. Neal Dow, the famous temperance leader of America, died at his home at Portland, Me., at the age of 93 years. Neal Dow was the author of the Maine prohibition law, which was the first enactment of the kind ever placed on the statute book of any state or nation. He recruited a regiment at the outbreak of the war, and was in the Mississippi campaign with Gen. Butler when the latter ran the forts and took New Orleans. He was commissioned a general by President Lincoln, but was soon afterward captured and sent to Libby prison. Since the war Gen. Dow had been almost constantly engaged in temperance work, and in 1888 was nominated for the presidency by the Prohibitionists.

Spain's New Cabinet. Madrid: The new ministry is constituted as follows: Senor Sagasta, president of the council of ministers. Senor Gullon, minister for foreign affairs. Senor Groisard, minister of justice. Gen. Correa, minister of war. Admiral Bermejo, minister of marine. Senor Puigcerver, minister of finance. Senor Capdepon, minister of the interior. Count Xiguena, minister of public works. Senor Moret, minister for the colonies. The cabinet is regarded as fairly strong, although some disappointment is felt because two or three more prominent men would not accept. Senor Maura, who was the author of the first Cuban home rule bill, felt that he could not act satisfactorily with Senor Moret.

\$400,000 Fire at Ironton, O. Ironton, O., was threatened with destruction by a fire which started at the sawmill of Newman & Spencer. Before the fire department reached the scene the flames had extended to the lumber yards. The long drouth had made everything so combustible the flames spread to the Penn lumber yards and beyond, and about 20 families were soon rendered homeless. The fire also enveloped two business blocks and the heart of the city seemed destined to be destroyed, but help arrived from Ashland and Catlettsburg, Ky., and had the fire practically under control in a short time. The loss is estimated at \$400,000, with insurance at about half that amount. There were no casualties.

90,000 People Drowned by Floods. News has been received by way of Tacoma, Wash., of the most disastrous floods that have visited China for many years. Sixty villages near Tung Chou containing over 80,000 inhabitants, have been destroyed. There is no means of finding out how many thousands have been drowned, but the number is estimated by Chinese authorities at 15,000 to 20,000. The flooded district is within 12 miles of Peking, the capital of China, survivors from the villages nearest Peking have been allowed such shelter as they can find in the city walls, but thousands are without protection against the rain, which continues to fall. The unusual rains began July 23.

Emperor William and the Sultan as Allies. Cable dispatches report that the sultan is negotiating with Emperor William for a special defensive alliance and that Turkey is on the point of joining the dreibund. While the reports are denied at the German foreign office, it is said in diplomatic circles that approaches to that effect have repeatedly been made by Turkey during the past three months. It is said there is a variance of opinion between the kaiser and the imperial chancellor on the question, the latter emphatically rejecting all such overtures.

SAGASTA IS PREMIER. Spanish Liberal Leader to Form a Cabinet—Promises Autonomy for Cuba. Senor Sagasta, the Spanish liberal leader, has been intrusted by the queen regent with the task of forming a new cabinet.

The financial question is demanding the greatest attention, and the liberals, at the outset of the coming session of parliament, will expose frankly the position of the Spanish treasury. Senor Sagasta in an interview said that "the liberals would not assent to mediation by the United States with a view to hastening the pacification of Cuba and inducing the rebels in arms and exile to accept autonomy. No Spanish party, certainly not the liberals, could assent to foreign interference in our domestic affairs or with our colonies. No government could hope to induce the nation to accept such interference. We shall reverse completely the policy of the last two years in Cuba, beginning, naturally, with the recall of Weyler, and are prepared to grant to Cuba all possible self-government, a broad tariff and every concession compatible with inflexible defense of Spanish rule and sovereignty in the West Indies. We believe this will satisfy the majority of the Cubans, and we will act thus spontaneously."

Feeling of Relief at Washington. Washington: The news from Madrid to the effect that the queen regent had invited Sagasta to form a cabinet was hailed with a feeling of relief in official circles here. In the view of the administration, the United States and Cuba have all to gain and nothing to lose in the liberal accession to power. Even if the party is not willing to go as far as the extreme Cuban sympathizers in the United States wish, it is felt that there will certainly be a most liberal offering of concessions to secure peace in Cuba. Another result that is expected is the withdrawal, either by resignation or recall, of Gen. Weyler.

Cubans Will Not Accept Autonomy. Gen. Julio Sanguilly, who was arrested in Cuba, tried, convicted, pardoned and released at the request of the United States, says: "I do not believe the formation by Sagasta of a liberal cabinet will have any effect on the Cuban insurgents. The Cubans have gone too far to accept autonomy. They are in a better condition now to fight to the end for absolute freedom than ever before. Why accept autonomy when freedom is at hand? The people of Spain have lost all patience with the government's conduct of affairs in Cuba and I am given to believe that they will not be sorry at all if the war should end, even should Cuba secure her independence."

Interviews with other prominent Cubans in New York, including T. Estrada Palma, representative of the Cuban provisional government, and all declare that the patriots will not accept autonomy, that it is out of the question, but most of them are in favor of paying Spain a reasonable indemnity providing she evacuates the island at once.

Awful Devastation by Prairie Fires. Owing to long continued drought all vegetation about Winnipeg, Man., became parched to tinder and a small prairie fire was fanned into a widespread conflagration by high winds causing awful devastation and death. Farm houses, implements, crops and live stock were everywhere consumed and many farmers lost their all. A most lamentable story comes from Beausejour, 40 miles east of Winnipeg, where two women and five children named Moreski were burned to death. There were many narrow escapes. Carcasses of horses, cattle and sheep are lying over the district and a number of families of foreigners are homeless and utterly destitute. At Bagot, 70 miles west, the Canadian Pacific railway station and seven cars, the Dominion Grain Co.'s elevator with 20,000 bushels of wheat, Lawrie's store, Higginbotham's, Link's and Buchanan's stables, a cold storage warehouse and many farm buildings and the crops were totally destroyed. The little town was practically wiped out of existence. Several other points report heavy loss and in some districts not a farmer escaped loss by the fiery wave.

PLUNDER. Treasure-Hunting in Arizona for Booty Buried by Stage-Robbers. The finding of a revolver marked "Blood for Blood" has revived an old story of buried treasure at Phoenix, Ariz., and a number of men are digging in the vicinity of the place where the weapon was found. In June, 1876, five men held up a stage coach on the Black Canyon road, near Arastia Hill. One passenger was killed and the booty consisted of a big roll of new \$100 greenbacks and a bar of gold worth \$32,000. A year or so later it was reported in Phoenix, and indeed throughout the extreme Southwest, that the product of the stage robbery had been buried at Phoenix. Two of the robbers made partial confessions when mortally wounded, but their explanations were cut off by death. It seems that the robbers had feared to make use of the greenbacks because those notes were rare in that part of the country and would arouse suspicion. They therefore buried the bills and cut the gold bar in two with an axe and buried half together with the pistol of the murdered passenger, which was a peculiar one, bearing the words "Blood for Blood." The whole was inclosed in an iron coffee pot. Almost every year since the story of the treasure became known one or more searchers have appeared at Phoenix, each claiming to have a tip received at some "bad man's" death-bed or in some equally sensational way. Some years ago a priest from Magdalena Sonora, who had been given the location by a man who had died of a wound received in a fight, spent a long time in searching for it without success. It is probable that the treasure, if ever buried at all, has been removed by some searcher who thought it well to conceal his success.

Pennsylvania Town Burned Out. Fire broke out in Weed's livery barn at Austin, Pa., and in five hours' time every building in town but five was burned to the ground, and probably 500 people were made homeless. The fire was started by a load of hay being run into a gas jet. In all about 100 buildings were burned, mostly residences, among the larger losses being the M. E. and Presbyterian churches and the opera house. The loss is placed by insurance experts at about \$200,000.

NEWSY CONDENSATIONS. The Ohio Tube works at Warren have granted a 5 per cent raise to its employes and the strike is ended.

President McKinley was greeted with an ovation on his trip to North Adams, Mass., being greeted by 20,000 people. He participated in a cornerstone laying for a G. A. R. memorial library.

The Democratic city convention of Greater New York nominated a cut and dried Tammany ticket, with Robt. A. Van Wyck for mayor. No mention was made of free silver or Bryan. This led to a convention of the "Democratic alliance" which nominated Henry George, the great single taxer, for mayor. Tammanyites were all called traitors and the Chicago free silver platform was indorsed. New York Knights of Labor have also indorsed Henry George.

It is said that Grover Cleveland is to try for the United States senatorship from New Jersey.

THE REGISTER,

PUBLISHED WEEKLY BY SELBY A. MORAN,

OFFICE: 216 E. Huron Street. ANN ARBOR, MICH.

TERMS:

One Dollar per Year in Advance. \$1.50 if not paid until after one year.

Fifteen Cents per year additional to subscribers outside of Washtenaw County. Fifty Cents addition to Foreign Countries. Entered at the Ann Arbor Post-Office as Second-Class Matter.

THURSDAY, OCTOBER 7, 1897.

ANN ARBOR will be specially favored this year in the way of good entertainments. Complaint has been made in the past that lecturers on the S. L. A. course have been chosen because they were great in their respective fields and without any regard to any ability to lecture. The result has been that some men of world wide reputation have given very poor satisfaction.

This year the S. L. A. board determined to do away with this cause of complaint and it has been the policy of the board to select only such men as are able to hold their audiences.

A good deal of money has been expended on this year's course. Nansen alone costs \$2000. Sousa's band is also very expensive and the other numbers on the course are by no means cheap. Such an effort to secure good men regardless of cost, deserves and will meet success.

The Choral Union course has not yet been announced as all details are not complete. The Unity Club offers an excellent course this year and so does the Y. M. C. A. Both are high class courses at a low price.

SECRETARY Wilson, of the Department of Agriculture, is confident that the result of this year's experiments with sugar beets will add 300 per cent. to the beet sugar factories of the country.

"I know of people who stand ready," said he, in speaking on this subject, "to establish twenty beet-sugar factories in this country next year. We have only half a dozen factories now.

"Our experiments this year have been very successful.

"Our analyses have not progressed sufficiently yet to show very definitely what each section has done or is doing but there is no doubt in my mind of the entire feasibility and practicability of the production of all our sugar in this country. The interest which the farmers of the country have developed in beet raising, the results of such analyses as have already been made of the beets produced this year and what we know as to the results in former years and as to this year's crop in the sections where beet growing has already been developed, show beyond question that it is entirely practicable for the people of this country to produce their own sugar."

"That means the retention in the United States of a good deal of money which now goes abroad?"

"Yes. A hundred millions is a good deal of money, and especially when it goes out of the country. If we can distribute among our farmers the hundred million dollars which we now send abroad for our sugar, it will be a very important thing to them and to the country in general. It will be especially so to labor. People talk about labor and about doing things for labor, and for the cause of the workingman. What can be done more to the advantage of the workingman than to put into his pockets a hundred million dollars which we send out of the country every year for a single article. Then add to that the amount which we send to other parts of the world for other classes of farm products which might be kept at home, and the total is something enormous. The value of the products of agriculture which are brought into the United States and which we might produce at home if we were to make the proper effort, is, in round numbers, \$380,000,000 per year. Why not give that to our farmers?"

"What is being done, Mr. Secretary, in the way of learning the result of this year's experiments with the beet-sugar seed which you sent out last spring?"

"We are gathering the beets produced from the seeds, by sections and States into our experiment stations, and testing and analyzing them. These analyses are going on constantly, and

will continue for some weeks or perhaps months. It is a comparatively slow process, but one which will give us a thorough practical and scientific knowledge of the capabilities of the various sections of the country for this kind of work, and while the analyses have not yet progressed very far, enough has been done to satisfy me that the results of this year's experiments with sugar beets are going to be very satisfactory and encouraging. I am confident that before the end of another year we shall have twenty-five great beet-sugar establishments in operation in the United States, scattered all the way from New York State to the Pacific Coast, and producing large quantities of beet sugar and opening the way to the production by our farmers of at least a large proportion of the sugar for which we now send our money abroad."

BAD BLAZE.

Fire Originates in the Detroit Opera House and Causes \$750,000 Loss.

A fire broke out in the Detroit Opera House at 12:50 this morning and swept several places of business, causing a loss of about \$750,000. The opera house was gutted. Henry R. Leonard's ten story building on Gratiot Avenue was totally destroyed.

The Parisian Laundry, the Mitchell Table Supply Company, Warner's Crockery establishment and other big business establishments were completely destroyed.

How the conflagration started is not known. But it proved by far the biggest Detroit has ever had.

Marriage Licenses.

MICHIGAN CENTRAL EXCURSION.

\$5.00 To Chicago and Return.

The Michigan Central railroad will give one of the lowest excursion rates of the season tomorrow, Saturday, starting from Ypsilanti. A five dollar rate is made from that point and the same from Ann Arbor for the round trip. For other points west and this side of Jackson the round trip is \$4.75. Children between the ages of 5 and 12, one-half fare. This special rate is good on all trains going west tomorrow, except the North Shore Limited. Tickets good to return on or before Oct. 12, '97. No stop-overs will be allowed on tickets sold at this rate. Tickets for sale at Michigan Central depot.

H. W. HAYES, Agent M. C. R. R.

VERY SUCCESSFUL.

(Continued from page one.)

town by Mr. Oscar Wheeler who coaxed it into his coat sleeve and brought it to Ann Arbor. Different persons thought differently of the snake. One woman said, "Oh you dear little thing, I'd like to pet you if it wasn't for that horrid glass." Others would give a little scream and say, "Ugh the horrid thing."

Another feature was a chaise formerly used by Gov. Cass in territorial days, when he was governor of Michigan. It belongs to ex-Sheriff E. W. Wallace, who bought it early in 1890, when Gen. Cass was still alive, to authenticate the history of the chaise. It is said to be 75 year old, but it is in daily use and looks substantial enough to last 50 years more. The attendant says nothing on it has been renewed but axle grease, the tires, the paint and some leather fittings.

In the way of amusements the fair association had a good series provided. Fancy rifle and pistol shooting took place every day; the races, tight rope walking and skate dancing were good. On Thursday came the greatest attraction of all when Otis E. Killenbeck and Nellie M. Ferguson were married. The wedding took place in front of the grand stand. The stand was packed and crowds filled the track below. A large platform drawn on wheels was driven up and after pushing, tugging, hauling and almost fighting the crowd was pushed back enough to let the platform take a place in front of the grand stand where the wedding took place. Rev. Mr. Arnold, of Ypsilanti, officiating.

One of Friday's chief attractions resulted in a comedy. A race was scheduled in which George Benedict was to run five miles against five men each running one mile. Among the five were three University amateur runners. They were dressed for the race and had stepped up on the track when some one remarked that Benedict was a professional. The boys had not thought of this but they knew that one such race would bar them from amateur contests forever; they walked away and the race was not run.

Several pupils from the public schools contested for the REGISTER special prize for the best map of Washtenaw county. The best one was made by Albert Menzel, of Emery; a special feature of this map is that it shows the location of every schoolhouse in the county. Great industry is shown in the lists of words sent for Prof. Kempf's special premium, Miss Cora M. Allen, of Pittsfield, who won, had over 2,000 words which were made of the letters in the words "A trick and Zeidler." Several schools gave good exhibits, and District No. 4, Superior, taught by Miss Root won first prize. On the whole, the fair was a great success and the officers of the association are to be warmly congratulated.

In The New Gym.

The work in the woman's gymnasium will begin on Tuesday, Oct. 5, at 4 p. m. The month of October will be devoted to registration, corrective work, and lectures by Dr. Mosher and Miss Snyder on Physical Education. These lectures are open to all women who have matriculated in the University. Miss Snyder will be in her office at the gymnasium from 8 to 12, and from 2 to 4 daily to make appointments, prescribe work, etc. Games of newcomb will be played Wednesdays and Fridays 4 to 4 p. m.

Back From China.

Dr. Mary A. Holbrook, '80, has returned from a long residence in Japan where she was located as a missionary at the head of the Scientific Department of Kobe College, Tokio. From 1881 to 1887 the doctor had charge of the Woman's Hospital and Dispensary at Tungehou, China. Dr. Holbrook will remain here two years to take lectures in the Medical Department after which she will return to her work in China.

SPECIAL MARKET LETTER

The following market letter is furnished us by McLAIR BROS. & Co., Commission Merchants, Rialto Building, Chicago:

The bank clearings for last week reflect fully the unfavorable aspect of affairs at the south, and the unsettled state of the stock market, which has been irregular and uncertain. The continued drain on the New York deposits necessitates a curtailment of loans in order to protect the reserves, and unless the gold imports, which have now begun, assume proportions large enough to offset the decreasing deposits interest rates will naturally advance, and act as a retarding influence in the upward movement of securities.

Higher rates will tend to curtail purchases by Americans of their securities abroad, and render it necessary for foreigners to meet their debit balances with gold. The efforts on the one hand to secure large importations of the precious metal, and on the other to prevent it, will be watched with interest by all who are interested in our foreign trade, and especially by speculators, whose success depends upon the anticipation of the result. Apparently the only way that foreigners can retain their gold is to materially decrease their purchases of American merchandise and agricultural products; and their supplies of the latter are so manifestly insufficient to meet present and future requirements that it will require rigid economy to confine their purchases to quantities that will materially curtail the gold movement. That they fully realize the situation is evidenced by their willingness to return our stocks at prices which are affording paying dividends, and by the tardiness with which the United Kingdom is supplying its food deficiencies.

This feature of the situation is doubtless partially responsible for the pause in the foreign wheat demand, and for the tendency to decline which our market has shown despite the strengthening influence of the protracted drought, which has already decreased the prospective area of the next crop. Continental Europe, having bought freely when the deficiency in its crops was ascertained, is now receiving wheat in volume sufficient to more than meet present requirements, and is therefore in position to await developments; but the United Kingdom has small stocks, and has made but little provision for the future, evidently preferring to wait until compelled by necessity to buy, or until exporting countries offer their surplus at lower prices. While it may defer purchases for a time, and thereby assist in depressing prices, it cannot be indefinitely postponed, and if too long delayed will find the continent again on the market as an active competitor.

The premiums commanded by spot wheat over futures tends to increase available supplies more rapidly than the magnitude of the world's crops would warrant under normal conditions, and apparently controverts the short supply theories. Although increasing stocks may for some time render foreign buyers indifferent, and encourage short selling, they will not add a bushel to the total supply and can only delay the inevitable demand.

For the present advancing markets must depend on weather conditions in America and in southern hemisphere countries, for, with stocks at Russian ports large enough to afford liberal exports from there until navigation closes, and the present volume of northwest receipts, the market will have but little support from immediate scarcity. Weather conditions, however, may outweigh all other influences, and will be the chief bull reliance. There have been complaints of drought and frost from Argentina, and of drought from the winter wheat sections of our country. Early and abundant rains will still permit the seeding of a large area, but if the drought continues many weeks longer the situation will become acute.

The corn market has also felt the effects of the drought, but its influence has been to check a decline rather than to excite an advance. The drying up of pastures and the consequent liberal feeding from the new crop, is as effectually curtailing supplies from it as if most had destroyed it, and will in time more noticeably affect prices; but at present, while stocks are large and the eastern consumptive and export demands are lighter, the unusual consumption will not be so pronouncedly felt. There is, however, a large speculative interest in the market and should the drought advance wheat it will be quickly reflected in the renewed buying of corn on a large scale. There have been no important changes in crop estimates, but the early feeding is inducing country dealers to ship less freely.

The visible supply of grain in the United States and Canada shows the following changes for the past week: Wheat increased 1,561,000 bu, corn increased 1,451,000 bu and oats decreased 131,000 bu.

KIDNEY TROUBLES

Cured by Lydia E. Pinkham's Vegetable Compound.

"I have been a great sufferer from Kidney trouble; pains in muscles, joints, back and shoulders; feet would swell. I also had womb troubles and leucorrhoea. After using Lydia E. Pinkham's Vegetable Compound Blood Purifier and Liver Pills, I felt like a new woman. My kidneys are now in perfect condition."—Mrs. MAGGIE POTTS, 324 Kauffman St., Philadelphia, Pa.

"My system was entirely run down, and I suffered with terrible backache in the small of my back, and could hardly stand upright. I had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound, I have gained fifteen pounds, and I look better than I ever looked before."—Mrs. E. F. MORRON, 1043 Hopkins St., Cincinnati, Ohio.

LILLIAN CRIPPEN, Box 77, St. Andrew's Bay, Fla., says:—"Before taking Lydia E. Pinkham's Vegetable Compound, I had suffered many years with kidney trouble. The pains in my back and shoulders were terrible. My menstruation became irregular, and I was troubled very weak. I began the use of Mrs. Pinkham's medicine, and the first bottle relieved the pain in my back and regulated the menses. It relieved the pain quickly and cured the disease."

REVIEW OF TRADE

Speculation in wheat and cotton has been set back by bright crop prospects. The wheat estimates of \$90,000,000, but about 200,000,000 bu more than would be required for food and seed, leaving the smallest stocks for six years without replenishment, was followed by decrease in foreign buying and caused weakness. Yet western receipts for four weeks were but \$7,325,554 bu, against \$4,000,000 for the same weeks last year, and corn exports continue over 70 per cent more than last year. All industries are pushed to increase working force, with occasional rise in rate of wages, by the growing demand. This is largely for replenishment of stocks, but dispatches show that retail trade at most northern points continues to expand.

London Underground Railway.

The omnibus and cabs are the chief means of transportation to be observed in London, but the most important factor in the intramural traffic is the underground railway, with lines running through tunnels under the buildings and streets of the city, radiating from its important suburbs. The immense traffic which flows through the conveniently located stations below the street level is for the most part concealed from view. The figures tell the story, however, for the number of passengers carried in a year amounts to a little more than 100,000,000, and their fares average less than 5 cents each. To enter one of the dimly lighted underground stations and then be whirled along in the darkened subways, through a continuous cloud of smoke, is an experience which requires frequent repetition before one's patience and forbearance, not to say physical condition, are able to submit to the ordeal with grace.

In America, outside of St. Louis, there are few railroad tunnels which, in proportion to length, can be held responsible for so much of ill-humor and physical discomfort. Still, the underground lines of London have much of facility, and an economic importance sufficient withal to offset their disadvantages.—The Chautauquan.

Posing Sitters Before the Camera.

"As to the actual work under a skylight, only a few general hints may be given, as here each must 'work out her own salvation,'" writes Frances Benjamin Johnston in an article, "What a Woman Can Do With a Camera," in the Ladies' Home Journal. "Do not attempt to pose people, or to strain your sitters into uncomfortable or awkward positions, in order to obtain picturesque effects. Watch them, and help them into poses that are natural and graceful. Study their individuality, striving to keep the likeness, and yet endeavoring to show them at their best. Avoid emphasizing the peculiarities of a face either by lighting or pose; look for curves rather than angles or straight lines, and try to make the interest in the picture center upon what is most effective in your sitter. The one rule of lighting is never to have more than a single source of light. Many portraits, otherwise good, are rendered very inartistic by being lighted from several different directions."

WHERE DIAMONDS COME FROM

Brazil and South Africa furnish the bulk of the product.

For centuries the only source of diamonds was India, the chief of which was the region of Golconda. The phrase "diamonds of Golconda" refers not to the mines but to the town where they were taken for sale. It is now little more than an abandoned fort, the Indian mines being largely worked out. In 1734 diamonds were found in Brazil and for 120 years diamonds were brought from that source. After various attempts to work these diamond mines by individuals, about a century ago the firm of Hope & Co of Amsterdam undertook the work and for the privilege assumed the government debt of Brazil. Amsterdam thus continued to hold her position as the center of the diamond cutting industry, employing, directly or indirectly, from 30,000 to 40,000 people. Of late Antwerp, Paris and London have been overtaking Amsterdam in this industry, Antwerp cutting one-quarter of the world's yield today. Within the last thirty years the product of the Brazil mines has declined to the extent of \$150,000 annually. The introduction of new machinery must again render these mines important, but they are now undersold by the African diamond field. The African discoveries began in 1856 and have had several distinct stages of development. Probably had it not been for the diamonds the African gold mines would not have risen to their present importance. The first diamonds were found on the Gong Gong river in the neighborhood of the Orange river, and the method followed there is the same as that in Brazil, two or three men forming a company and working on their account. These mines, known as the "river diggings," are now of limited importance.

FORGOT HIS VERSE. Henry Clay Made a Decided Hit With Another One. In the early '20s of this century Henry Clay was appointed by the legislature of Kentucky a commissioner to Virginia to ask of that state that a commission be appointed to make a definite line of demarcation between the two states. Upon his arrival in Richmond he was received with great courtesy by its most distinguished citizens. He said that his profession, politics and affairs of government had occupied his time so extensively that he was aware of knowing little of polite literature or the favorite publications of the day. This prompted him to ask an old friend whom he knew to be a literary man to select some lines to introduce when addressing the legislature, as a quotation expressive of his feelings toward the state of Virginia as his birthplace. His friend suggested a stanza from the "Lays of the Last Minstrel," which he highly approved and memorized. The day appointed for his address found the galleries, halls and every available space crowded with eager, expectant auditors and many beautiful women in bright attire gave brilliancy to the scene. Clay held the attention of his audience with entire success until he came to the part where he meant to introduce the quotation. Then his memory failed him. The shock was appalling for a moment. He stood rigid and pale before a thousand watchful eyes, and his mind only a blank, before him a turbulent sea of upturned faces. With a characteristic gesture threw up his hands to his forehead and in his most sonorous tones he recited the following words: Breathes there the man with soul so dead, Who never to himself hath said, This is my own, my native land. He concluded his speech amid deafening applause. Everyone present had supposed that he was overcome by emotion, and none but the friend who had selected the quotation for him perceived the cause of his momentary panic.—Florida Citizen.

LEGAL NOTICES.

The undersigned having been appointed by the Probate Court for said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of Barbara Alimindinger, late of said county deceased, hereby give notice that six months from date are allowed, by order of said Probate Court, for creditors to present their claims against the estate of said deceased, and that they will meet at the office of George W. Mills, City Clerk, in said Ann Arbor, No. 113 E. Fourth St., in said City, on the 4th day of April, 1898, at ten o'clock a. m. of each of said days, to receive, examine and adjust said claims.

Notice to Creditors. STATE OF MICHIGAN, ss. Notice is hereby given, that by an order of the Probate Court for the County of Washtenaw, made on the 17th day of September, A. D. 1897, six months from that date were allowed for creditors to present their claims against the estate of John M. Wagner, late of said County, deceased, and that all creditors of said deceased are required to present their claims to said Probate Court, at the Probate Office in the City of Ann Arbor, for examination and allowance, on or before the 28th day of March, next, and that such claims will be heard before said Court, on the 28th day of March, next, at ten o'clock in the forenoon of each of said days.

Notice to Property Owners in Lateral Sewer District No. 7. MEETING OF THE BOARD OF REVIEW. Notice is hereby given that the city assessor has duly certified to the Common Council of this city the assessment roll of all the owners and occupants of the land contained within the Special Assessment District No. 7, and of all the lands situate therein well and sufficiently described, together with his estimate and determination of the value of each parcel thereof, as required by the ordinance of the City of Ann Arbor. Therefore, it is ordered by the said Common Council that the fourth day of October, A. D. 1897, at 9 o'clock a. m. of said day be fixed and appointed as the time, and the council chamber of the City of Ann Arbor as the place, where the said Common Council of the City of Ann Arbor will sit as a Board of Review, to review the said assessment roll.

Interchangeable Mileage Tickets. A new form of Thousand-Mile Ticket, the result of careful consideration and discussion between the railroads and their principal patrons, will be placed on sale September 1st, at all important Michigan Central offices. The ticket is purchased for \$30.00, with a rebate to the purchaser of \$10.00, when used up in compliance with its conditions, and is accepted on all the lines in the Central Passenger association, forty-five in number and covering a vast extent of country. No mileage book has yet been devised so acceptable to all parties concerned and so advantageous to the traveler. Every one who is likely to travel a thousand miles in a year should avail themselves of it, and should consult the nearest Michigan Central ticket agent.

particular channel. In the voyage of life there are many perilous places where we need the help of a pilot who has a thorough knowledge of the special difficulties and dangers to be avoided. In those delicate physical weaknesses and diseases peculiar to women a general practitioner or ordinary doctor has no opportunity to become thoroughly proficient. Still less to be trusted is the advice of any mere nurse or unscientific person. Only a specialist who has given a life of study to this particular field of practice, is competent to treat the diseases of woman's intricate and complicated organism. Any woman suffering from these delicate troubles may obtain the most eminent professional advice free of charge by writing to Dr. K. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. During nearly 30 years at the head of his splendid staff of specialists, he has successfully treated many thousands of cases of obstinate feminine complaints. His "Favorite Prescription" was devised for the sole purpose of curing the diseases and weaknesses of the feminine organs. No other medicine has been so marvellously successful in this particular field of practice. No other medicine so completely overcomes all the dangers and nearly all the pains of motherhood.

It is with pleasure I recommend Dr. Pierce's Favorite Prescription to suffering ladies," writes Mrs. J. Ferguson, Box 29, Douglas Station, Selkirk Co., Manitoba. "After suffering untold tortures I thank God I found relief and cure in Dr. Pierce's Prescription."

The greatest book for women ever published is Dr. Pierce's thousand-page illustrated "Common Sense Medical Adviser," sent free in paper covers for cost of mailing only, 21 one-cent stamps; cloth-bound 31 stamps. Address Dr. Pierce as above.

Probate Order. STATE OF MICHIGAN, COUNTY OF WASHTENAW, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Saturday, the 11th day of September, in the year one thousand eight hundred and ninety-seven. Present, H. Wirt Newkirk, Judge of Probate. In the Matter of the Estate of Caroline D. Foster, deceased. On reading and filing the petition, duly verified, of Edwin S. Sherrill praying that certain instrument now on file in this Court, purporting to be the last will and testament of said deceased, may be admitted to Probate, and that administration of said estate may be granted to Elisha H. More Medicinal value than in a bottle of Hood's Sarsaparilla than in any other preparation. More skill is required, more care taken, more expense incurred in its manufacture. It costs the proprietor and the dealer but it costs the consumer less, as he gets more doses for his money. More cure power is secured by its peculiar combination; proportion and process, which make it peculiar to itself. More people are employed and more space occupied in its Laboratory than any other, wonderful cures effected and more testimonials received than by any other, sales and more increase year by year are reported by druggists. More people are taking Hood's Sarsaparilla today than any other, and more are taking it today than ever before, and still more reasons might be given why you should take Hood's Sarsaparilla. **A Never-die.**

The "life-time" of Dr. Bull's Cough Syrup will never draw to a close. When a mother once uses it, she continues its use right along; because, she found, for curing cough, cold, croup and whooping-cough Dr. Bull's Cough Syrup unequalled by any other similar medicine. "I have used Dr. Bull's Cough Syrup, for ten or fifteen years in the family, for coughs and throat troubles caused by colds, and have found no superior article." Mrs. D. T. Clarke, 163 Congress St., Cleveland, O. Dr. Bull's Cough Syrup can be had everywhere for 25 cents. Dealers will say they have something else "just as good or better," because they want to make more profit. Don't be "taken in." Dr. Bull's Cough Syrup is the best.

**Forest and Field Devoured by Fires Resulting from the Dry Weather—A Big New Hotel Building, Near Charlevoix, Suddenly Collapsed.**

**Dry Weather Causes Heavy Loss.**

Thousands of dollars' worth of cedar have been destroyed by the burning of the muck land a few miles east of Metamora known as the cedar swamp.

Originally the fire started in the section visited by the late cyclone, where much timber had fallen and is supposed to be the work of incendiaries. The extended dry weather has made everything in the vicinity highly inflammable. Those who claim to know say it will burn underground until flooded this winter. All of the property owners in the swamp fought the fire for several days and nights. The loss is rated at from \$100 to \$200 per acre, as it stands, but much has been cut and piled and will be a total loss.

Some 800 acres have been burned over and the muck also destroyed. The exact loss will never be known.

A big conflagration was caused by the spreading of a large fire in Beattie's woods two miles north of Utica.

The flames rapidly destroyed the fine forest and required constant fighting in order to keep them from spreading to neighboring farms. The loss is heavy. It is thought the fire was started by tramps roasting green corn.

Everything is very dry and a rain is longed for.

Fire is sweeping over hundreds of acres of pasture and meadows about Benton Harbor, and causing hundreds of dollars worth of damage. Farmers are fighting the flames to protect their homes. The railroads are compelled to keep men fighting fire along their tracks as the grass is so dry that a spark from an engine ignites it.

The present drought is the most protracted that the southern counties has experienced in at least 20 years. There has not been a drop of rain since Sept. 16, and only one-tenth of an inch has fallen since Sept. 1. Field fires on lands skirted railroads are of daily occurrence, and much alarm is felt.

Forest fires are raging around Wilmet, and high winds cause intense excitement. Citizens are fighting hard to protect property.

**THE BIG HOTEL COLLAPSED.**

**Immense New Building at Charlevoix—Two Killed, a Score Injured.**

With a terrific crash the immense new hotel in course of construction at Lindsay Park, at Charlevoix, collapsed into a heap of broken timbers and splintered boards. Forty men were at work on the structure at the time, and half this number were killed or injured, two being instantly killed.

The hotel was four stories high and 440 feet long, being the largest structure of the kind in Northwestern Michigan summer resort section. In order to finish it before winter, the contractors were allowed to plaster the upper two stories before the lower floors were properly placed, and this, it is supposed, was the cause of the collapse, the weight at the top weakening the whole building so that when a sharp gale struck the side-wall of the

structure, it gave way with a crash that was heard a mile.

The dead are: Pierce Kendall, of Charlevoix, and Guy Hamilton, of Grand Rapids. The injured are: R. C. Hamilton, probably fatally; William Phelps, badly injured internally; F. A. Smith, badly injured in one leg and one arm, and head seriously cut; S. Cain, head crushed and hurt internally, will probably die; Willis Silsby, ribs broken and body badly bruised; James Gillett, three ribs broken, internally injured, John Curtis, side crushed and otherwise hurt; Wm. Wood, one eye torn out; Charles Heintzelman, A. M. Hall and Charles Gabriel. Several others were less seriously injured.

The money loss from the accident is well up into the thousands, but the structure will in all probability be rebuilt.

**Arrested for Arson.**

Ex-Congressman D. D. Aitken swore out a warrant at Flint for the arrest of John H. Gotshall, charging him with the burning of the large grain barn of Lee & Aitken, in Burton township, Genesee county, thus leveling to the ground \$3,000 worth of property. Gotshall was arrested in 1890 on a charge of arson, but was acquitted; and in 1895, soon after he had resigned as secretary of the Genesee County Farmers' Mutual Fire Insurance Co., Gotshall's own farm buildings burned, entailing a loss of \$2,600. The insurance company refused to settle, claiming that he fired his own buildings.

**Mother and Child Burned to Death.**

A mysterious and terrible affair was the fatal burning of the wife and three-months-old babe of Louis Heythaler, a sailor, at St. Clair. The screams of Mrs. Heythaler caused the discovery of the fire by neighbors and Mrs. A. D. Cope, who was the first to arrive, says she found Mrs. Heythaler near the sink beside the washtub in the kitchen, her clothes all ablaze, and she put out the flames which enveloped the woman with a wet sheet from the wash tub, but Mrs. Heythaler was already terribly burned. Mrs. Cope then went into the bedroom and found the bedding on fire and the baby in the middle of the bed burned to a crisp.

Near the bed stood an oil can half full, while in one corner of the room as well as in the parlor and in the pantry the woodwork was ablaze. Neighbors extinguished the flames and cared for Mrs. Heythaler, but she died in four hours. It is the general opinion that while temporarily insane the woman stated the fires to kill herself and babe and burn the house. Heythaler sails on the steamer City of New York and the sad news was telegraphed to him at Sault Ste. Marie.

**Catarrh and Malaria.**  
 People who are or have been affected by catarrh are most subject to chronic malaria. The explanation is this: Malaria is a germ disease. Germs find their way into the blood through the mucous membranes. If the mucous membranes are healthy the germs can not enter the blood. This is why some people do not get malaria. But if the membranes are affected by catarrh even slightly, the malaria germs find easy access into the blood.  
 Pe-ru-na is the remedy. It not only destroys malaria germs, but so restores the mucous membranes to health, that, no more germs can find entrance. Pe-ru-na is the most reliable remedy for chronic malaria. It cures by eradicating the germs from the system.

**How to Cure Catarrh.**

Every sufferer from Catarrh should know that it is impossible to cure the disease with sprays, washes, inhalations, etc., which are universally used. In fact, the experience of growing worse all the while is proof that the treatment is all wrong. Many who have been under treatment for years and met with disappointment instead of benefit are willing to doubt that there is any cure for Catarrh.  
 The trouble is that all of the treatment they have received has been misdirected, and has not touched their trouble. Catarrh is a stubborn deep-seated blood disease, and everybody should know that to simply treat the surface, that is, the local irritation, does not reach the disease. A blood remedy is needed, but it must be a good one; a remedy which goes down to the very bottom of the trouble and forces it out. S.S.S. (Swift's Specific) is the only one which can have the slightest effect upon Catarrh, for it is the only one which goes to the seat of the disease, and permanently gets rid of it. This is the only reasonable way to treat Catarrh.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes: "I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaling remedies—in fact, I could feel that each winter I was worse than the year previous.  
 "Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and the results were gratifying, for after a few bottles were used, I noticed a perceptible improvement. Continuing to take the remedy, the disease was forced out of my system, and a complete and permanent cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S.S.S. (Swift's Specific), a remedy which can reach the disease and cure it."  
 To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific never fails to cure even the most aggravated cases. It is a real blood remedy, and cures Catarrh, Rheumatism, Contagious Blood Poison, Eczema, Cancer, Scrofula, and all other blood diseases. S. S. S. is guaranteed

A. L. Davis, president of the National League of Republican clubs, arrived in this city last week and is now hard at work planning new features for the club work.

Judge Duffy has been one of the assistant football coaches this week. He was captain of the "Varsity" team in '88 and proves a valuable addition to the "Varsity" coaching force.

The fifteenth annual complimentary dancing party of Granger's school for dancing will be held at the academy next Saturday evening. Students and friends are cordially invited.

The board of review met Monday morning. The valuation of property in sewer district No. 7 was raised \$3200 making it \$37300. The taxation in this district will be \$50.60 per thousand.

Ex-Justice A. E. Gibson was accidentally locked in the jail after consulting with one of his clients and was left there for an hour or more before being discovered. Then there was a laugh.

The funeral of Edward A. Cadieux was held at the St. Thomas Church Thursday morning. The Modern Woodmen, the Elks, the Lyra Singers and the barbers of the city all attended in bodies.

Rev. J. T. Sunderland will speak next Sunday morning at the Unitarian Church on "Some world-Aspects of the Temperance Question," embodying observations made in England, France, Germany, and India.

A young man came to town from near Ypsilanti Tuesday and claimed that three negroes had attacked him and tried to get his watch while he was driving to town. A black eye and bruised face corroborated his story.

A most disgraceful scene occurred on the streets one night last week when Mary Schneider and Laura Keebler, both married women, engaged in a hot fight. Both were arrested by officer O'Mera and given ten days for disorderly conduct.

Ross Granger, the teacher of dancing cordially invites all students of the University to take part in the fifteenth annual complimentary opening of the school for dancing Saturday evening, Oct. 9th. Dancing 8 to 11:45 p. m. at Granger's Academy.

Talk about quick work. George Brown, of Brower street, took out his fire insurance policy in the Hartford company on Sept. 23. Fire broke out and ruined a greater share of his furniture Sept. 26. Sept. 29, the adjuster was here and determined his loss to be \$872.52 and gave him a check for that amount.—Times, Ypsilanti.

The first football game was played Saturday, the "Varsity" team beating Normal eleven 24 to 0.

Theodore Thomas' Chicago orchestra will give the first concert of the Choral Union series, Nov. 18.

Andrew Slavin, formerly of this city, died in Jackson, Monday, and his remains were brought here for burial.

The City Treasurer's report shows that the street fund is overdrawn \$2765. 15 and the bridge, culvert and crosswalk fund is short \$422.30.

Irving Jones, a negro, was arrested Tuesday for secreting part of the goods stolen from the Spathelf meat market. He was tried by jury and acquitted.

The Woman's Auxillary of the Y. M. C. A. will hold their regular monthly business meeting Monday, Oct. 11, at 3 p. m. in the rooms of the association.

Next Sunday Captain and Mrs. Sprake, of the Salvation Army, will say farewell to Ann Arbor as they leave Wednesday for a new appointment.

The infant child of Mr. and Mrs. Arthur Poland, of the Northside, is at death's door. Dr. Boylan was up all last night with her. He can give but little hope.

Richard Flynn has resigned as general secretary of the Y. M. C. A. to enter the University. Edward B. Caldwell has been appointed to take his place. Mr. Caldwell will assume his duties Monday morning.

Schahrer & Millen have a new ad. on page 8 that should interest our numerous lady readers. Just bear in mind that a cold winter will give you a fine chance to display one of this firm's elegant new cloaks. Go and see them.

Prof. I. C. Russell has returned from Washington where he spent the summer in the employ of the U. S. Geological survey. Professor Russell's work consisted mainly in an exploration of the eastern slope of the Cascade Mountains.

Edson Wetherbee sues the Michigan Central for damages caused by the bad condition of the Detroit street bridge. The railroad company says the City is to blame and that the Company has no responsibility in the matter.

The Students' Lecture Association course is now complete. There will be ten lectures and entertainments. Tickets for the course cost \$2 with 50 cents extra for reserved seats. The first entertainment of the year will be given Oct. 15.

During the last two weeks extensive changes have been going on at the Electric Light Plant. At a cost of \$800 a large new steam boiler has been put in, in place of an old one of much less power. Superintendent Stevens says they now have steam power of 600 horse power.

Students Lecture Association tickets may be found at the State Savings Bank, Beal's Shoe Store, Haller's Jewelry Store, The Sugar Bowl, W. W. Wetmore's and Palmer's Pharmacy. Callahan & Co. tried to sell books in this city but were notified that they would have to pay ten dollars per day for a license. This ordinance was passed some years ago to prevent foreign book sellers from coming in and reaping a harvest at the first of each semester.

Dr. Martin, Col. Dean and others asked for an injunction to restrain A. H. Holmes from building a livery barn on Liberty st. The case was argued before Judge Kinne Saturday, and the injunction refused. Dr. Martin and the rest then asked the city council to adopt an ordinance to prevent the building of any livery barn within 100 feet of a dwelling house. The matter was referred to the ordinance committee.

Never has Michigan entered upon a school year with better prospects in track athletics. All the members of last year's team are back, with the exception of Chubb and Vernor. Captain Thomas announces that several new men, phenomenal in the sprints, have entered and rumor says two or three of the best western athletes have gone east. All these circumstances point to success for Michigan in the Western track events.

The mission Sunday Schools of St. Andrew's parish at Geddes and Foster's will be reopened next Sunday. Mr. H. C. Robinson will take charge of the work at Foster's, and Mr. C. W. Whitney of that at Geddes. At the latter place there will be, next Sunday, the usual evening service with an address by the Rev. Mr. Tallock.

The local camp of the Modern Woodmen of America will give a social dance at their hall Thursday evening of this week. This is the first of a series of entertainments which will continue through out the winter, one being given each month. Admission to this one as to all following entertainments, will be by invitation. Fifty cents a couple will be charged to defray expenses.

# A GRAND TRIUMPH.

Baffled Many Times but Success Comes at Last.

(From the Grand Rapids Press.)

The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts in detail: Mr. J. H. White of No. 25 Halfway Place, has been an instructor in penmanship in different business colleges for the past fourteen years. He says: "Last October I was suddenly taken ill. I consulted a physician, who said I consisted of 'gravel' stones; gradually grew worse; the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed, as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to relieve my agony, everything was used, mustard plasters, turpentine, hot cloths and all such things. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 20 minutes. After about two hours I had a passage of urine, and passed blood and some 'gravel' stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel to-day entirely well. Mine has been a wonderful case. I feel that I cannot say anything strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to mankind.

# WOMAN AND THE CAMERA.

Photography as a Profession Should Appeal to the Fair Sex.

Miss Frances Benjamin Johnston, the photographic artist, writes, in the Ladies' Home Journal, on "What a Woman Can Do With a Camera," telling the requisites for artistic and financial success in the pursuit of photography as a profession. "It is a profession," she contends, "that should strongly appeal particularly to women, and in it there are great opportunities for a good-paying business—but only under very well-defined conditions. The prime requisites—as summed up in my mind after long experience and thought are these: The woman who makes photography profitable must have, as to personal qualities, good common sense, unlimited patience to carry her through endless failures, equally unlimited tact, good taste, a quick eye, a talent for detail, and a genius for hard work. In addition, she needs training, experience, some capital, and a field to exploit. This may seem, at first glance, an appalling list, but it is incomplete rather than exaggerated; although to an energetic, ambitious woman, with even ordinary opportunities, success is always possible, and hard, intelligent and conscientious work seldom fails to develop small beginnings into large results.

"Good work should command good prices and the wise woman will place a paying value upon her best efforts. It is a mistaken business policy to try and build up trade by doing something badly cheaper than some body else. As to your personal attitude, be business-like in all your methods; cultivate tact, an affable manner, and an unflinching courtesy. It costs nothing but a little self-control and determination to be a patient and good-natured under most circumstances. A pleasant, obliging and business-like bearing will often prove the most important part of a clever woman's capital."

# Fabrics and Trimmings for Winter Gowns.

The popular fabrics for winter costumes will be satin, serges, chevys, floss, Scotch homespun and tweeds. Fancy designs or plaids are not as popular as they were. Velvet and velveteen will be more worn than ever before, while for visiting and dinner dresses black satin maintains its vogue, though satin shades, either in one color or in soft shades that harmonize, are also counted good form. The colors favored are dark navy blue, gray, a very deep emerald-brown, a darker green than golden-brown, a pretty dark red and royal purple.

Buttons are profusely used, but they are chiefly the large fancy shapes in horn, gutta percha or mother-of-pearl. The various braids and the narrow satin ribbons, especially in black, are used to produce original effects on skirts and bodices, a decoration fancied being a contrast obtained by means of an outlining with white braid. For street wear the suit—that is, the costume in one color—continues to obtain. The jaquette blouse is the new bodice of the season.—Isabel A. Mallon in Ladies' Home Journal.

Physicians recommend Dr. Wood's Norway Pine Syrup because of its prompt, positive action in all cases of lung trouble. It is a positively reliable cure for coughs and colds.

# Delicious Boston Brown Bread.

In her cooking lesson in the Ladies' Home Journal Mrs. S. T. Rorer writes of "Breads and Bread-Making," and gives this, her favorite, formula for making Boston brown bread: "Mix two cups of Yankee rye meal, one cup of granulated yellow Indian meal, and one cup of whole wheat flour. Add a teaspoonful of salt and sift. Dissolve a level teaspoonful of soda in about two tablespoonfuls of warm water; add to it to one and a half pints of thick sour milk, or buttermilk. Then add to this one cup of molasses. When thoroughly blended pour it over the dry ingredients and mix thoroughly. Pour into a greased two-quart brown bread mould, put on the lid tightly and steam continuously for five hours. Lift the lid, allowing the bread to cool, and at serving time bake for thirty minutes."

# Is Catarrh Your Life's Cloud?

Eminent nose and throat specialists in daily practice highly recommend Dr. Agnew's Catarrhal Powder, as safe, sure, permanent, painless and harmless in all cases of Catarrh of the Head, Throat, Larynx, and Ear, and for the relief of the disease like magic. # "Away With Melancholy."

And bid dull care avunt," sounds very well in verse, but "if you have a case of the blues" caused by indigestion, with biliousness added on as an extra horror, you cannot say hey presto! and thus insure the departure of those abominable twins. The "proper esop" when thus troubled, is to seek the aid of Hostetter's Stomach Bitters. Thereafter you will speedily digest with ease and eat with appetite, and your liver will reassert its right to regularity. Not only this, you can retire with a horrible dread that the Washington monument will—in dreams—impose itself upon the pit of your stomach. If you feel promontory symptoms of chills and fever, kidney trouble, or rheumatism, summon the Bitters to the rescue without delay, "lest a worse thing befall you." A feeble condition of the system is more speedily changed to a vigorous one by this fine tonic than by any other medicinal agent in existence. A wine-glassful three times a day.

# Noosing a Sea-Lion.

A correspondent of Ram's Horn narrates a pulling match between a sea lion and a farmer: Near Tillamook, Ore., an old German farmer chanced to be driving along the beach, when his watchful gaze was greeted by the sight of a large sea lion some distance out on the sand, fast asleep. It was the work of a moment for Jacob to make a lasso of a stout rope he had in his wagon, fasten the end of it to the hind axle, and adjust the noose over the sea lion's head. Then Jacob jumped into the wagon and started homeward with his prize. The sea lion did the same, and as his team was the stronger of the two, Jacob started seaward at a good pace, and only saved himself and his "outfit" by springing quickly to the ground, grasping his jack knife and cutting the rope.

# Troubled For Three Years.

"Having been troubled more or less for the past three years with kidney difficulties, Hood's Sarsaparilla was recommended to me. I began taking it and after using three bottles I was completely cured. I gladly recommend Hood's Sarsaparilla to anyone." Alex. M. Agens, Ludington, Michigan.
