GONE A GLIMMERING.

THE LARGE AMOUNT SPENT IN THE RICHARD'S MURDER TRIAL.

COST THE COUNTY $4000.

To Try the Richards Suspects.—Some Figures Which Will Interest Tax Payers.—Not Likely They Will Want A Similar Dose.—At Least When There is no Hope of Conviction.

The tax payers of Washtenaw county, who must foot the bills, will be interested in knowing what the Richard's trial cost this county, and what were the items of expense which went to make up the whole. The REGISTER has gone to considerable trouble during the past week to ascertain, as far as possible, what was the total cost of this trial and what were the real items which go to make up the expense of such a proceeding. It does not pretend that it has been able in every case to secure the exact figures. In each case, however, where it has been impossible to obtain exact figures, we have included what was actually expended. In many cases we believe that a more systematic and thorough investigation than we were able to make would reveal additional expenses that were incurred in the prosecution of this case. However the sum total, as we have it would appear to be sufficiently large to satisfy the tax payers of this county.

Here are the items of expense as nearly as the REGISTER was able to obtain them:

Expense of looking up evidence for hearing in Justice court and in Circuit court	$443.98
Subpoenaing witnesses for Justice court	50.53
Witness fees in Justice court	56.30
Stenographer's fee in Justice court	40.00
Justice fee	9.20
Subpoenaing witnesses for Circuit court trial	251.10
Jail expenses of the three prisoners, including board, washing, and taking prisoners to and from jail during trial	439.50
Witness fees and mileage in Circuit court trial	513.95
Mileage and fees of trial jurors during trial	548.00
Fees of officers while attending trial jury	84.00
Board of jury and attendants during trial	203.00
Fees of all other jurors during time of trial	588.00
Fees of sheriff and deputies for attendance at court during time of trial	135.00
Fees of officers in striking and summoning two extra panels of jurors	63.00
Fees of Justices in striking two extra panels of jurors	6.00
Expense of livery for jury to visit Richard's farm	10.00
Livery bills of officers from time of arrest to close of trial and not included in deputies fees	51.75
Bill for photographs	25.00
Board of Mrs. Larkins while retained as witness	22.00
Fee of A. J. Sawyer	500.00
Total	$4037.31

Although this would seem amply large, it is quite probable that there were many other expenses connected with the case about which it has been impossible for us to learn in the brief time we have had to investigate this matter. It would be a conservative estimate to state that the trial of the Richard's suspects cost Washtenaw county not less than $4,500, or about $400 per day for the time taken in trying the case.

ANN ARBOR WON.

High School Football Team Wins From Detroit.

The football game played Friday between the Detroit and Ann Arbor High school football teams ended in a row but the decision favored the home team. Ann Arbor made a touch down in the first half and a goal was kicked.

In the second half Detroit made a touch down which was not allowed because Detroit was over the Ann Arbor line when the kick off was made. This angered the Detroit men who left the field.

The line-up was:

Ann Arbor		Detroit
Brown	l. e.	Richardson
Burg	l. t.	Patterson
Simms (capt)	l. g.	Reibling
Callahghan	c.	Moore
Tucker	r. g.	Craig
Farrington	r. t.	Dickinson
White	r. e.	Barrows
Orm	q.	Vaughn
Kent	l. h.	Downing (capt)

ALUMNAE MEET.

One Hundred Women Visited the City Saturday.

Last Saturday morning about 100 women came in from Detroit to take part in the meeting of Collegiate Alumnae. For two days the association had been in session at Detroit. The delegates represented nearly every American college of any importance, and their primary object in visiting Ann Arbor was to see the University of Michigan.

They were met at the train and escorted to Tappan hall where the morning session was held. Pres. Harry B. Hutchins gave the address of welcome. He spoke of woman as the equal of man in the intellectual field. His class rejoiced, he said, because they graduated before women were admitted to the University, but they have regretted it ever since.

After an address by Dr. Mosher Miss Klaghorn read a paper in which she said women all expect to teach when they graduate. There are only about a dozen pupils to each teacher; hence the profession is over crowded and poorly paid. There are many other professions open to women and they should enter them. They should venture more and not be so conservative.

After this the Alumnae adjourned to the gymnasium where lunch was served and a reception was given by the Woman's League.

High School Notes.

Prof. Perry's health does not seem to improve.

The program to be rendered at the Arena, Friday evening, is as follows:

Roll call G. Washington.
Regular debate. Affirmative, Fuller. Negative, Lake.
Question: Has the United States the right to interfere in the war between Spain and Cuba?
General debate.
Recitation. Hemsley.
Critic's report.

The attendance at chapel this year seems to be much greater than for many years past, probably on account of the new rules.

Miss Cornwell's drawing class has about twenty-five in it.

On account of the dispute that arose, last Friday, between Ann Arbor High school and the Detroit High school, the football game will be played again. This time it will take place in Detroit.

The geometry classes have not so many in them this year as last.

The bulletin boards of the debating societies are a great attraction.

Millen is able to be around again.

S. C. A. social Saturday evening. Everybody come for a good time.

WAS A SURPRISE.

'VARSITY MEN EXPECTED TO WIN SATURDAY'S GAME.

But the Old Graduates Were Too Much for Them—The 'Varsity Will Learn from the Defeat.

Nearly three hundred old graduates came in from various surrounding cities Saturday to attend the foot ball game between the 'Varsity team and the old players who are now Alumni. The crowd came largely from Detroit, Chicago, Grand Rapids and Toledo and represented a number of classes. One name on the Alumni register having '56 after it.

A short meeting was held by the visitors and others in the old chapel hall and some rousing speeches were made. One man said "I have attended every Chicago game since '80 and I'm going to see Michigan win this fall though she will have to work hard to do it for Chicago has a fine team."

The game was a surprise to all concerned. The 'Varsity team was looked upon as a winner but was not in it with the old men who have won honor for the U. of M. in former years. The old men were too fast for the 'Varsity and put more snap and vim into the game than did the latter. When the game ended the score stood 15 to 0 in favor of the old graduates.

Just what the effect of the game upon the team will be is as yet hard to tell. Most of the foot ball authorities say it must be good as it will give them a lot more knowledge of the game. Each 'Varsity player came up against a star in his own particular position and had a chance to see his own defects. In this way they learned a great deal and this week's coaching has been largely devoted to perfecting this knowledge. Then, too, the defeat will take out of the players any tendancy they may have had to be over confident and will make them see the necessity for hard work in order to win from Chicago.

LET ALL GIVE THANKS.

President McKinley has Issued the Usual Proclamation.

President McKinley's thanksgiting proclamation, issued October 30, is as follows:

In remembrance of God's goodness to us during the past year, which has been so abundant, "let us offer unto Him our thanksgiving and pay our vows unto the Most High." Under His watchful providence industry has prospered, the conditions of labor have improved, the rewards of the husbandman have been increased and the comforts of our homes greatly multiplied. His mighty hand has preserved peace and protected the nation. Respect for law and order has been strengthened, love of free institutions cherished, and all sections of our beloved country brought into closer bonds of fraternal regard and generous co-operation.

For these great benefits it is our duty to praise the Lord in a spirit of humility and gratitude, and to offer up to Him our most earnest supplications. That we may acknowledge our obligation as a people to Him who has so graciously granted us the blessings of free government and material prosperity, I, William McKinley, president of the United States, do hereby designate and set apart Thursday, the 25th day of November, for national thanksgiving and prayer, which all the people are invited to observe with appropriate religious services in their respective places of worship.

On this day of rejoicing and domestic reunion, let our prayers ascend to the giver of every good and perfect gift or the continuance of his love and favor to us, that our hearts may be filled with charity and good-will, and that we may be ever worthy of his beneficent concern.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this 29th day of October, in the year of our Lord one thousand eight hundred and ninety-seven, and of the independence of the United States the one hundred and twenty-second.

WILLIAM MCKINLEY.

By the president.

COUNCIL CHAMBER,
Ann Arbor, November 1st, 1897.
Regular session.
Called to order by Pres. Luick.
Roll called. Quorum present.
Absent Ald. Sweet, Coon.

PETITIONS AND COMMUNICATIONS.

A petition signed by D. F. Allmendinger and six others asking for a brick crosswalk across First st. on the south side of Washington was read and referred to the Sidewalk Committee.

The bids of S. A. Kean and Ann Arbor Savings Bank for bonds in Sewer District No. 7 were read and referred to the Finance Committee.

New York, October 16, 1897.
To the Mayor and Common Council:

At the first National Convention of Mayors and Councilmen, held at Columbus, Ohio, September 28 to October 1, there were present 418 delegates, representing 101 cities in 23 different states. At this convention a permanent organization was formed to be known as the League of American Municipalities, and a copy of the constitution adopted is sent herewith. You will observe from the constitution that the object of the organization is to improve the administration of municipal work in all departments by the following means:

First—The perpetuation of the organization as an agency for the co-operation of American municipalities in the practical study of all questions pertaining to municipal administration.

Second—The holding of annual conventions for the discussion of contemporaneous municipal affairs.

Third—The establishment and maintenance of a central Bureau of Information for the collection, compilation and dissemination of statistics, reports and all kinds of information relative to municipal government.

The Bureau of Information, which will be started at once, will furnish a service of incalculable value to municipalities holding membership. To this Bureau each municipality will furnish all published public reports, and thus a complete and reliable library of municipal reports will be established, from which the secretary is required to furnish all information requested by members. The Bureau will also gather, compile and disseminate special information pertaining to all lines of municipal work, such as street lighting, paving, water supply and rates, water filtration, street cleaning and garbage disposal, fire and police departments, salaries and wages of municipal officials and employes, taxes and special assessments, municipal finance, sewerage, and, in fact, everything of interest and value to city officials in the discharge of their duties. In this connection the Bureau will undertake to promptly supply municipalities holding membership special reports on any and all subjects upon which information is requested. The establishment of this Bureau will bring to the service of the municipalities of America a reliable, economical, methodical and rapid medium for the interchange of statistics, experience and knowledge pertaining to all branches of municipal work.

At the annual conventions of the League, to which every city is entitled to send its mayor and as many members of its councilmanic board as it desires, all the important questions involved in municipal work will be discussed by experts and officials of experience. These discussions cannot fail to aid city officials in the work of giving and securing better municipal service.

The means furnished by this League, through its Bureau of Information and its annual conventions, for the careful study of the great and growing question of municipal ownership of public service industries, cannot be lightly estimated.

The unanimous sentiment of the Columbus convention, which was a representative body and which planned and formed the permanent organization, was that the League of American Municipalities would be promptly and cordially supported by the patriotic officials of American mvnicipalities as a movement for the betterment of municipal conditions, with the inevitable results of facilitating departmental work, securing improved public services and lessening the burden of the taxpayers.

As to the membership the constitution of the League says:

"Any municipality in the United States or Canada may become a member of this organization.

"Each and every municipality becoming a member of this organization shall pay an annual membership fee, on or before December 1, as follows: Cities under 25,000 population, $20; between 25,000 and 50,000, $30; between 50,000 and 100,000, $40; between 100,000 and 200,000, $50; over 200,000, $60."

The Executive Committee invites your city to become a member of the League of American Municipalities and assures you that the benefits to be derived from membership will be worth many times the amount of the annual dues. The committee submits herewith a resolution for the consideration of your councilmanic body and prays for its adoption, or the passage of any other form, suitable to local conditions, for the same purpose.

Respectfully yours,
JOHN MACVICAR, Mayor,

Nays—None.

ORDINANCE.

Chairman Cady presented an ordinance entitled "An Ordinance Relative to Livery, Feed and other Barns," which was given its third reading by sections and placed on its passage.

To the Honorable the Common Council: Gentlemen:—

Your ordinance committee has asked me for an opinion regarding the validity of an ordinance now before them entitled, "An Ordinance Relative to Livery, Feed and other Barns."

Under the charter the city has power to regulate and abate nuisances. If it can be shown that a livery stable, or any other building is maintained in such a manner so as to be injurious to the public health, the city through its board of health may order it cleaned, or they may file a bill in chancery to abate the nuisance as was done in the Foundry Water Pond case.

The weight of authority in this country holds that a livery stable is not a nuisance per se, or in itself, though it may become a nuisance if not conducted, kept and used in a proper manner.

In the case of Phillips vs the city of Denver, 41st American State Reports, at page 230, where its charter provisions relative to nuisances are broader than those contained in our own, the court says: "The power conferred is not sufficiently specific or definite to warrant such unrestrained municipal legislation affecting private property. The grant of power to regulate lawful occupations and business places is certainly not an express grant of power to locate or prescribe the limits of carrying on lawful occupations upon private premises. The grant of power to regulate and prevent the carrying on of business dangerous or detrimental to public health, and to declare, prevent, or abate nuisances, is not to be construed as vesting the city council with authority to prohibit, at their discretion, the existance of well-constructed, well-regulated, and well-conducted livery stables."

'Ordinances of the kind in question, though not strictly criminal, are highly penal, and cannot, unless free from legal and constitutional objection, be permitted to predudice the rights and privilges of the citizen in respect to the use and enjoyment of his private property."

The city certainly cannot enforce the ordinance now under consideration for the reason that it prohibits the erection and maintenance of livery stables in certain blocks and discriminates and for that reason is clearly void.

Very respectfully,
THOS. D. KEARNEY,
City Att'y.

Whereupon the question was, "Shall this ordinance pass?"

Lost as follows:

Nays—Ald. Moore, Hamilton, Dell, Brown, Vandawarker, Rhodes, Spathelf, Danforth, Cady, Pres. Luick—10.

Chairman Cady presented an ordinance entitled "An Ordinance Relative to Bicycles", which was given its first reading by title.

Ald. Moore moved that the ordinance be placed on its second reading.

Adopted.

Whereupon the ordinance was given its second reading by sections.

Ald Koch moved to amend section one by inserting "six" in place of twelve in line three.

Yeas-Ald Koch, Soule, Pres. Luick—3.

Nays—Ald. Moore, Hamilton, Grossman, Dell, Sweet, Brown, Vandawarker, Rhodes, Spathelf, Danforth, Cady—11.

LIGHTING.

To the Common Council:

Your Committee on Lighting would recommend that an electric light be ordered placed at the corner of Hill and Lincoln ave, also at the corner of Tappan and Oakland ave and also on Washtenaw ave midway between South University ave and Hill.

And further your Committee would recommend that the pole light at the corner of Willard and Forest ave be swung across the street, and that the light at the corner of Main and Kingsley streets be moved two feet south, the work to be done at the expense of the New State Telephone Co.

Respectfully submitted,
Harrison Soule,
G. C. Rhodes,
Geo. W. Sweet,
Committee on Lighting.

Yeas—Ald. Moore, Hamilton, Grossman, Koch, Dell, Sweet, Brown, Vandawarker, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick—14.

Nays—None.

To the Common Council.

Your Committee on Lighting have made a thorough inspection of the system of street lighting in our city and would report that they have found the same in an extremely poor condition.

The capacity of the plant is far from being sufficient to supply power for the number of lights used. None of the lights have been up to the standard as required by the contract for months past.

There are 106 arc street lamps many of which are on poles 60 feet high. One man is supplied by the Ann Arbor Electric Co to lower the lights or climb the poles and clean and trim the same besides driving from one light to the other, less than six minutes to each lamp. The actual workings of the lights and common sense proves this impossible.

Your Committee would recommend that the Ann Arbor Electric Co. be ordered, within ten days to raise the standard of their lamps to the requirements of the contract, that is "not less than 9.6 amperes of current and from 46 to 50 volts between the carbons".

Your Committee would recommend that an expert be employed to examine the lights from time to time and see that the same conform to the contract.

And further that a certified copy of this resolutions be served on the Ann Arbor Electric Co.

And further that no bill be allowed the Ann Arbor Electric Co. until the lights are up to the standard.

Respectfully submitted,
Harrison Soule,
G. C. Rhodes,
Geo. W. Sweet.
Committee on Lighting.

Ald. Dell moved that the bills be allowed pro rata.

Lost as follows:

Yeas—Ald. Hamilton, Dell.—2.

Nays—Ald. Moore, Grossman, Koch, Sweet, Brown, Vandawarker, Rhodes, Spathelf, Soule, Danforth, Cady, Pres. Luick.—12.

Whereupon the report was adopted as follows:

Nays—Ald. Hamilton.—1.

SORE THROAT.

In a letter to Dr. Hartman, dated Dec. 27th, 1896, George A. Blanchard, of Washington, Ga., writes: "My throat had been in the habit of getting sore every year for the last twenty years, and if any medical skill did me any good it was so little I did not know it. Two years ago my wife was taken down sick for two months, tried two doctors, but the case was a stubborn one of female trouble. I found in Pe-ru-na not only a good, safe remedy for sore throat, but one for weakness and nervous prostration. I quit the doctors and purchased a bottle of Pe-ru-na, and three days my wife got up and she has been going ever since, and I have not been bothered with that bad sore throat. It used to last at least fifteen or twenty days. Since we have used your medicine my wife has not lost a single day, and she has gained over fifty pounds."

In a later letter, July 22nd, 1897, Mr. Blanchard writes: "All of the sickness we have in our family is when we cannot get Pe-ru-na. We people in the South think Pe-ru-na is a God-sent blessing. I recommended Pe-ru-na to friends of mine that had asthma and one bottle cured them. Whenever Pe-ru-na is used it speaks loudly for itself."

Dr. Hartman, the original compounder of Pe-ru-na, has a recent book on chronic catarrh which will be sent free by The Pe-ru-na Drug M'f'g Co., Columbus, O.

A WONDERFUL TREE.

A Maple One Hundred Years Old Resembles a House.

On the left bank of the River Oder, at Ratibor, in Silesia, there grows a maple tree which is one of the most remarkable works of nature in existence, since it has been so trained and twisted until it has become more like a house than a tree. The maple is 100 years old, and through the greater part of this period the work of training and twisting it has been in progress. The trunk rises from the ground much like that of any other maple, but a flight of steps leads to the first level, where the branches have been gradually woven together until a firm floor has been made. Above this is a second floor, smaller in diameter and formed in the same way. Around each floor the branches have been woven into solid walls, making two circular rooms. Each of these rooms is lighted by eight windows, which are cut through the walls of branches and foliage. Below the floor at the level of the second room, and at the top of the tree, the branches have been allowed to grow out naturally, while the intermediate walls and the edges of the window openings have been kept closely trimmed. These tree-rooms are occasionally slept in during the summer. The old tree is in a healthy condition, and forms one of the curiosities of the district in which it grows.

DO YOU SUFFER?

WHAT A PHYSICIAN HAS TO SAY ABOUT THIS SEASON.

AUTHORITIES SAY RHEUMATISM IS UNUSUALLY DANGEROUS.

Significance of Its Alarming Increase During this Fall.

There has been so much discussion recently about the alarming increase of rheumatism in this section, that a REGISTER man was instructed to investigate.

A member of the board of health said: "Do not quote me as saying that rheumatism is necessarily a mortal disease. It isn't But there are often times when it leads to heart complication or disturbances of the brain, and results in death.

"And, whether dangerous or not, the suffering is always intense. Anxiety and care, mental shock, and injuries lead to rheumatism, but the prevalence of the disease at this time in Ann Arbor and vicinity is undoubtedly owing to the damp, cold weather of the fall months,

The usual treatment of rheumatism is uncertain, inefficient, and disappointing, as is acknowledged by many physicians. Henry C. Robe, who resides at No. 1 Sycamore St., Buffalo, and who is a prominent G. A. R. man, recently created considerable stir by going before Jas. W. Chatman, a notary public, and swearing to the truth of the following statement:

"Early last fall, I had a severe attack of rheumatism, accompanied with great weakness, exhaustion, and indigestion. I was incapable of anything like work, but my health was fully restored by the use of that vegetable medicine, Paine's celery compound. It has brought joy to our household, and the physician who discovered it may truly be called the Good Samaritan."

Inquiry among our druggists shows that this compound has been used by quite a number in Ann Arbor, and no case of rheumatism or neuralgia has failed to yield to its curative powers.

Dr. Wessley, of Detroit, in the employ of Drs. Goldberg & Co., specialists, was arrested at Alpena, on a charge of embezzlement. Wessley was manager of the Alpena office and has been rolling high.

John Adley, Elmer Espey and John Wright, who live near Benzonia, began to throw kernels of corn at each other when Adley became angry and whipping out a knife seriously stabbed both of his companions.

John Carrier, driver of a coal wagon at Detroit, turned off of one street car track to allow a car behind him to pass, but carelessly drove upon the other track directly in front of a car approaching from the other direction. A terrific collision resulted, smashing the front end of the car and probably fatally injuring Carrier and Motorman Robt. Longmate. The horse was pulled out of the wreck apparently half dead, but he jumped up suddenly and dashed away for his barn.

Grand Rapids' "carnival of fun" was such a success that it will be repeated next year. One of concluding events, which was given before an exclusive audience of 200 men, was a "Seeley dinner" where 10 "carnival maids" did the muscle dance in the altogether. The police interrupted the affair. A Holland clergyman said the carnival was as "hot as h——," but he hoped God would forgive the mayor and common council of Holland for being present as representatives of that town.

The agitation at Three Rivers and Sturgis for the removal of the St. Joseph county buildings away from Centerville, has stirred up the citizens of Nottawa township, and an election will shortly be held to vote on the question of spreading an additional $10,000 on the tax rolls, for the purpose of erecting a town hall in Centerville. Should this program go through St. Joseph county people will be asked to contribute $25,000 to build a court house complete at Centerville to include a town hall.

A large number of distinguished citizens of the state visited the state capitol and witnessed the presentation to the state of Percy Ives' portrait of ex-Gov. Rich. The presentation was made by Theron F. Giddings, of Kalamazoo, chairman of the committee who contributed to the portrait fund. The picture was accepted by Secretary of State Gardner. Brief addresses were also be made by ex-Senator Patton, Chief Justice Long, of the supreme court, and others. Gov. Rich entertained the visitors at dinner.

All the stock and $234,000 worth of bonds of the Lowell Water and Light Co., the Peninsular Light, Power and Heat Co. and the West Michigan Electrical Co., were sold at auction by the Michigan Trust Co., at Grand Rapids, to James Barnett, trustee for creditors, for $30,150. No plans have yet been formulated for the management of the property, but a syndicate may develop its possibilities. The three companies were virtually one concern, their purpose being to develop the water power of Flat river at Lowell and to transmit electricity to Grand Rapids for commercial purposes.

Fire broke out in the Central mine, at Houghton, but the miners were warned in time to escape without much danger. It was shortly discovered, however, that Frank Stanton, agent of mine company, with his father, John Stanton of New York, secretary of the company, and Wm. A. Payne, of Boston, were still in the mine, at the bottom of the shaft and below the fire. A relief party heroically descended into the mine and by almost superhuman efforts rescued the imprisoned men, who were nearly exhausted and had almost given up hope. The mine was then sealed to smother the fire.

When the old U. S. cruiser Yantic ran down a Canadian steamer near Montreal, while on her way to Detroit, the Michigan Naval Reserves were charry about accepting the boat until Uncle Sam had assumed all responsibility and had repaired the damage to the Yantic. Assistant Secretary of the Navy Roosevelt promptly notified Gov. Pingree that unless Michigan accepted the boat as she was she would be turned over to another state which wanted her. The governor at once replied that Michigan would accept the Yantic as soon as the navy department was ready to turn her over.

Gen. A. S. Wiesert, of Milwaukee, and Gen. Paul Vandervoort, of Omaha, each an ex-commander-in-chief of the Grand Army of the Republic, and Gen. R. N. Adams, of Minneapolis, have secured 22,000 acres of land in the coast region of Texas, and will locate thereupon veterans of the late war, 800 families of whom are said to be en route for settlement on the land. The location selected is an ideal one in Matagorda county.

There is trouble brewing between Germany and Hayti. The German minister has hauled down his flag and German warships are expected at Port au Prince to back up the ultimatum of the minister to Hayti, demanding an indemnity for the alleged illegal arrest and imprisonment of one of the subjects of the kaiser. Much excitement was caused among the native population and some of the people have threatened to kill the German minister and all the Germans at Port au Prince and vicinity.

The conference between commissioners of Russia, Japan and the United States now proceeding at Washington in reference to killing seal in Bering sea and the North Pacific has reached an important stage and a proposition has been made which, if accepted, will bring about a complete change in the sealing question. It is understood that the proposition has a far-reaching scope and provides for the material limitation or entire suspension of pelagic sealing or sealing on the high seas. The plan is acceptable to the United States and Russia, and it is believed Japan will also join in it.

BIG STEAL KNOCKED OUT.

Uncle Sam Puts a Stop to the Attempt to Grab the Union Pacific Railroad.

It may have been the strong influence of the press of the country which has prevented certain eastern and foreign capitalists, known as the Union Pacific recognization committee, from swindling the United States government out of about $20,000,000 by forcing a sale of Uncle Sam's interests in the Union Pacific railroad at the swindlers' own price. At any rate Attorney-General McKenna was led to see the advisability of postponing the sale until other capital could be organized to bid against the grabbers. This brought the latter to time and now they offer to increase their original bid of $50,000,000 to a sum sufficient to cover the full amount of the government's claim against the Union Pacific road proper, which on Oct. 1 aggregated $58,067,898. As to the Kansas Pacific, which they proposed to gobble at a loss to the United States of nearly $13,000,000, the committee withdraws its guarantee and consents to a postponement of the sale to any date to suit the convenience of the government.

The net result of the new arrangement so far as concerns the Union Pacific is regarded by the officials as highly advantageous to the government, as it secures all that it has ever claimed to be due it, and renders it practically certain that a very large share of the debt of the Kansas Pacific will be realized whenever it may decide to consent to its sale.

British Defeat Tribesmen.

The British forces under Gen. Sir William Lockhart captured the Sempagha pass on the Afghanistan border of India. Gen. Gaselee, in command of the Second brigade, led the advance upon the tribesmen's position, which was very strong and the approaches to it were greatly exposed. The pass was found to be a series of steep rises affording much dead ground to an attacking party. The troops, under cover of a mountain battery, captured hight after hight and finally the fourth Gurkhas and the West Surreymen arrived at the summit together. The enemy now opened a well-directed fire at the troop on the summit, but were effectually cleared from the surrounding hights in about three hours. The total casualties did not exceed 20.

THURSDAY, NOVEMBER 4, 1897.

Tuesday's election was characterized by the usual falling off in the Republican vote in the first contest succeeding a presidential campaign. As a result Detroit remains in the control of the Democracy and Ohio came very near being lost. Tammany also secured an unusually large majority in Greater New York. It is a well known fact that Democrats vote at every opportunity while many Republicans vote only when especially important questions are at issue.

THE Times takes exception to an editorial note in last week's REGISTER referring to the Richard's murder trial. It says that we struck a man when he was down. Did we? The Times would not have made such a statement had it reflected for a moment before making it. The note in question was written an hour after the last witness was examined and before a single one of the four pleas was made. The paper was printed and mailed twenty-four hours before the jury rendered a verdict. We had no means of *knowing* which side would win. We simply ventured an opinion on the conduct of the case up to the time when the testimony was all in. The fact that the jury acquitted the defendants with reasonable promptitude indicates that our position at least pointed in the right direction.

IN another column we print a statement of the expenses of the Richards murder trial. Some of the items may be a little below what they should be but in the main they are exact. A number of items which we have been unable to obtain will probably increase the total some three hundred dollars. The large majority of people will be greatly surprised at the size of the total amount shown. Murder trials are indeed expensive affairs. The people should not, however, hesitate about meeting such expenditures when by so doing criminals may be brought to justice, and criminally disposed people may be restrained from wronging law abiding citizens. Society must be protected at any cost. That is the prime purpose of all government. The great necessity of such protection does not, however, give unlimited authority to a public prosecutor. He should not prosecute a person unless he has the very best of reasons for believing that he can convict the person or persons whom he accuses. The mere fact that he may be satisfied in his own mind that a certain person is guilty of some specific crime, or that one or all in the community may feel perfectly satisfied that a suspected person is guilty does not warrant the expenditure of such large sums of money. The only question that should be taken into consideration is whether or not there is ample *evidence* to convict those suspected. It is a sheer and an inexcusable waste of the people's money to attempt to convict a person suspected of a crime unless there is at least some show of success. We cannot comprehend how the Prosecuting Attorney could have thought for a moment that he could convict the suspects in the Richards case upon the evidence he presented. We believe that at least half the jury would have voted for acquittal had the defense declined to present a witness or make a plea. We do not wish to be understood, however, that we believe the defendants are either guilty or innocent. We do not pretend to know. What we desire to state is that the evidence was insufficient to convict. Either the Prosecuting Attorney was willing to try a case in which he had no hope of success and thus wantonly waste the people's money or else he showed very poor judgment as to what evidence was necessary to convince a jury, beyond a reasonable doubt. The belief that a great many people held that the prosecutor placed more hope of conviction in Mr. Sawyer's plea than he did in the *evidence* he was able to present scarcely seems possible. To believe that he would be willing to send three people to prison for life through the influence of an eloquent plea rather than upon the evidence would accuse him of inhumanity which certainly is unjust. The whole difficulty in our opinion lies in the prosecutor's poor judgment,

It is unfortunate that such a state of affairs should be possible. It should not be allowed to continue a day longer than is absolutely necessary. We believe that when the people of this county come to elect another prosecutor and remember the great waste of money in this case, a change will be made. Such an affair as the Richard's murder trial is too expensive a luxury when better judgment would have precluded all hope of conviction and saved the tax payers thousands of dollars that have been wasted.

FRANCIS L. YORK

Receives an Important Position.

The Detroit Journal has the following to say regarding the success of a former Ann Arbor man:

Francis L. York, of this city, has been chosen organist and choirmaster of Christ church, to succeed Felix Lamond, called to fill the distinguished position of organist and choirmaster of Trinity church, New York city—said to be the richest church corporation in the world.

For several years Mr. York has been organist at the Cass Avenue M. E. church. At the former church he conducted a boy choir, an unusual feature for a Methodist church. The music committee of Christ church heard Mr. York and his boy choir, and were so well pleased that they at once made him an offer.

Uncle Tom's Cabin.

The next attraction at the Athens Theaire will be De Wolff's "Uncle Tom's Cabin" company. Miss Kate Partington, unquestionably the best "Topsy" known to the American stage, is with the De Wolff company. Two brass bands, white and colored, and a troupe of jubilee singers are special features. The transformation scene of 15 minutes duration comprises "Eva in Heaven!" commencing with "The Bower of Roses," The Bower of Butterflies," "Recording Angel," "The Cobweb Grotto," "The Silver Lined Cloud Drop," "The Bower Elysium. "Three performances will be given, Friday evening, Saturday afternoon and evening.

A KENTUCKY MULE.

Cornecracker Cavalier Tells of a Wild Animal of His Native State.

The well-to-do farmer of republican proclivities was in Washington looking for pie for the next three years and a half, not so much for dessert as for a steady diet during that period, and while he was looking around he found time now and again to talk a bit on other subjects, says the Washington Star. One evening it was mules. "I'll be doggoned," he said, "if I haven't got a mule out home that ought to have the championship belt for kicking. Why, by zucks, one morning I tried to make that dern mule haul a cartload of rocks from a creek about half a mile to the stable and he just wouldn't stir a leg. All he would do when I tried to make him go forward was to move the other way, so to beat Mr. Mule at his little game I took him out of the shafts and turned him head on to the cart and started him up. Then he wouldn't move either way, but just stood still and began to kick. Not a one-legged kick, either, but the real thing with both feet, and, gee whillikens, how he did launch them out into the atmosphere. I was sure I never would get him now, for I couldn't get near him; but all of a sudden I noticed that every time he kicked he kicked so hard that he couldn't hold on to the ground with his fore feet, and so dragged himself about a foot or two, according to the ground he was on. That gave me an idea, and I just stood by and when he showed a disposition to quit I nagged him a little and he went to kicking again; and I'll be blamed if he didn't get that cartload of rocks to the place I wanted it at mighty near as soon as if he had just hauled it there in the frst place and made no fuss about it." One or two men coughed a short cough, but when the Kentuckian looked around they seemed to have recovered from their pulmonary attack.

"Isn't that scar on your forehead where he kicked you once?" inquired one of them.

"Not exactlly."

"I understood some one to say so," said the party with the cough.

"Somebody's mistaken, that's all. How it happened was that one day I was coming into the front gate and the mule was about 100 yards away, up at the other end of the big yard in front on the house. My hound made a break for him, and as the mule whirled to run away he let one leg fly at the dog, and the force of the kick, missing the dog, was such that the shoe flew off and whizzing through the air took me a clip over the eye as I stood at the gate watching the two animals, and came mighty near settling my earthly accounts right then and there. You see, a mule's shoe is hardly as light as a lady's slipper and when it is hurled 100 yards through the air it is just the kind of a thing you ought to stand aside for and let it have as much room as it wants."

ITEMS OF NEWS.

IMPORTANT AND INTERESTING MATTERS IN BRIEF.

Fire in a Coal Mine Ends Seven Lives—National W. C. T. U. at Buffalo—Uncle Sam Lets Spain Take a Rest—France and England Quarrel.

Miss Frances E. Willard opened the sessions of the 24th convention of the national W. C. T. U. at Buffalo, and delivered her annual address, dwelling upon salient points of work for the organization. The report of the secretary, Mrs. Katherine L. Stevenson, of Massachusetts, summarized the work done and showed that the membership was over 200,000. Mrs. Helen M. Barker, of Illinois, treasurer, reported total receipts at $31,516.33; balance on hand $1,829.77. The reports of organizers were submitted. Mrs. Ellen A. Dayton Blair, of Michigan, reported for the Loyal Temperance legion, telling of her visitations to 11 states, addressing in all 25,000 children. Mrs. E. Norine Law and Mrs. G. E. Calkins, both of Michigan, presented stirring reports. A protest was sent to the Metropolitan Museum of Art, of New York City, against the acceptance of the statue of Bacchante. A telegram was also sent to Mrs. Grover Cleveland, congratulating her upon the birth of her son.

Mrs. Lucy Thurman, of Jackson, Mich., superintendent of the work among colored people, submitted a lengthy report showing satisfactory results of organization among women of the race in the southern states.

A splendid welcome was accorded Miss Dow, daughter of the late Gen. Neal Dow, the great temperance and prohibition worker who died recently in Maine. The effort to save the Woman's Temple in Chicago was given a strong uplift, both financially and in promise of support by Miss Willard and other leaders.

Seven Miners Killed.

The river slope of the Delaware & Hudson Co.'s Van Storch mine at Scranton, Pa., was gutted by fire and at least seven men are known to have been suffocated by smoke and possibly one other, a Polander, is numbered among the dead. The slope extends down through three veins. The missing men were at work 100 feet below the surface. Eighteen men were in the mine when Pump Runner Simpkins detected smoke in the slope and ran back in the workings to give the alarm. Only 10 of this number were hoisted through the air shaft. It is thought the fire started from a miner's lamp worn by one of a party of 10 miners who walked up the slope to the surface 40 minutes before the smoke was discovered.

English and French May Fight in Africa

Paris: The Journal says that news has been received to the effect that complications are imminent at Nikki and elsewhere in Borgu, West Africa. The Niger company (British) is sending officers there to incite rebellion and distribute arms to the natives. In view of this situation French troops have been dispatched to that district from Senegal as a preventive measure.

London: The British colonial office officials declare that "there does not seem to be any reasonable fear of complications at Nikki, provided the French government behaves reasonably." But, it is added, Great Britain has taken the determination to more effectually police her territory, and "if the French persist in trespassing complications will naturally ensue."

Cuban Affairs to Rest a While.

From unofficial, though reliable, information as to the nature of Spain's reply to U. S. Minister Woodford's recent note it is evident that in neither language nor subject matter is the communication likely to be taken as offensive by our government. It may be regarded as insufficient to meet the issue presented by Mr. Woodford in his note but officials of the state department say that in view of what has already been accomplished by the new Spanish cabinet in reforming abuses in Cuba, removing Weyler and in projecting what appears to be a liberal measure of autonomy, our government will certainly rest, at least until congress assembles, and afford the new Spanish government a reasonable time to carry out its plans.

A Black Death Taking Off Klondykers.

Miners from Dawson City who came back on the steamer Farrallon from Dyea report that before they left, Hansen, one of the managers of the Alaska Commercial Co., arrived at Dawson City in a canoe and told of the abandonment of efforts to get food up the river. Fully 400 miners at once made preparations to start back over the trails, but the citizens' committee refused to allow them sufficient provisions for the journey. Chas. Fries, of Tacoma, says that besides the famine, a mysterious disease has broken out and is carrying off an average of five men daily. Twenty-four hours after the victim is attacked he turns black from the waist to the throat and two days later, in a majority of cases, is dead.

A Boy Born to Grover.

A son was born to ex-President and Mrs. Grover Cleveland at their home at Princeton, N. J., being their fourth child. The others are girls—Ruth, Esther and Marion, aged 7, 5 and 3 years, respectively. The Princeton students have already named the little fellow Grover, Jr., and have booked him for their class of 1916, and made him "center rush on the championship teams of '16, '17, '18 and '19."

HATS OF GREAT MEN.

Something About the Size of Their Heads.

At a recent meeting of the Kildare Archaeological Society a hat worn by Daniel O'Connell was exhibited. There was no mistake about the article, for OConnell, mindful of the company he occasionally frequented, had written his name inside. That seems to have been a superogatory precaution, for the hat was so large it would have been useful to but few of O'Connell's contemporaries. The chairman putting it on partially disappeared from view of the alarmed audience, the rim of the hat coming down to his chin. It is stated that "the width of the hat was eight and a half inches; its longer diameter ten inches."

I have garnered some particulars of the sizes of the heads of eminent men, but have come upon nothing so big as this, writes H. W. Luey, in the Strand Magazine. Mr. Gladstone requires a hat of the size of 7⅜, exactly Lord Macaulay's measurement. Lord Beaconsfield wore a hat of 7 inches, an undesigned but characteristically courtly imitation of the Prince of Wales, whose hat is of the same size. Charles Dickens, the late Lord Selborne and Mr. John Bright wore hats 7⅛ size. The late Earl Russell wanted an eighth more. Charles Dickens' hat would have been too small for Thackeray by half an inch. Louis Phillippe and, strange conjunction, M. Julien, wore hats of 7¾. An illustrious man of recent times who took the smallest hat on my list was Dean Stanley, for whom 6¾ sufficed. For his friend Dr. Thompson, Archbishop of York, a hat of full eight inches diameter was necessary.

ABOUT IRREGULARITY.

A Chat With Miss Marie Johnson.

The balance wheel of a woman's life is menstruation.

Irregularity lays the foundation of many diseases, and is in itself a symptom of disease. It is of the greatest importance that regularity be accomplished as soon as possible after the flow is an established fact.

Lydia E. Pinkham's Vegetable Compound is the greatest regulator known to medicine.

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back and head. I was also troubled with irregularity of menses, and lost so much flesh that my friends became alarmed.

"My mother, who from experience is a firm believer in the Pinkham remedies, thought perhaps they might benefit me. I followed the advice Mrs. Pinkham gave me, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills and am now as well as I ever was."—MISS MARIE F. JOHNSON, Centralia, Pa.

You Work Hard...

To make money, yet how thoughtlessly you probably spend it, especially in the item of Clothes. You can buy two Suits, or a Suit and an Overcoat for the price which your tailor will charge you for either, and have the identical style, tailoring and, in nine cases out of ten, a better fit than he will give; that is, if you buy clothes bearing the labels of

HAMMERSLOUGH BROS.
and
THE STEIN-BLOCH CO.

How is it possible? These people are wholesale tailors; where your tailor makes one suit, they make one thousand; where your tailor has but two or three months' work each season, their big tailor shops are busy the year around.

These Clothes are so Good that we cheerfully say—MONEY BACK THE MINUTE YOU WANT IT.

Where the Flowers Would Go.

A certain young widow of Indianapolis, who has just changed her weeds for brighter hues, gave a dinner party not long ago, says the Indianapolis Sentinel. The rooms were decorated with a great profusion of flowers. Roses in masses were on the mantels, and the dinner table fairly blossomed—in fact, the abundance of flowers was unusual. One of the guests could restrain her curiosity no longer, and when the dessert was brought in said: "Well, Mrs. Blank, you're rather spreading on the flowers tonight." "Yes," replied the fair widow, brightly, "but tomorrow I am going to take them out to Crow Hill and put them on poor Tom's grave." A regular "13" shiver went round the table.

President McKinley came to his Canton home to vote and was accorded his usual hearty and enthusiastic welcome. Sunday spent in Cincinnati was also intruded upon by callers except during the hour the President attended service at the Walnut Hill Methodist church. The President and Mrs. McKinley were the guests of J. G. Schmidlapp while in Cincinnati. The President was also tendered a banquet by the Cincinnati Commercial club while Mrs. McKinley was welcomed by a musicale at the Kirscheim mansion on Walnut Hills.

OBITUARIES.

Mrs. S. D. Hawkins died at her home in Ypsilanti Nov. 2, aged 58 years.

Mathew Roser died at his home, Ypsilanti, October 30. The deceased was 73 years old. He leaves a wife and seven children.

The infant son of George and Fannie Brown, of 108 N. Fifth Ave., died last Friday. Funeral was held Saturday at St. Thomas church.

Mrs. E. Helmrich, died at her home in Chelsea, Oct. 27. She had been ill for some time and the immediate cause of her death was gastritis. Her husband and one son survive her.

Helen M., wife of James G. Resh, of Ann Arbor town, died last Sunday of acute hernia. Deceased was within a few months of 60 years of age. The funeral was held Tuesday at 2 p. m. at the house. Interment was in the Botsford cemetery.

More

More Medicinal value in a bottle of Hood's Sarsaparilla than in any other preparation.
More skill is required, more care taken, more expense incurred in its manufacture. It costs the proprietor and the dealer
More but it costs the consumer *less*, as he gets more doses for his money.
More curative power is secured by its peculiar combination, proportion and process, which make it peculiar to itself.
More people are employed and more space occupied in its Laboratory than any other.
More wonderful cures effected and more testimonials received than by any other.
More sales and more increase year by year are reported by druggists.
More people are taking Hood's Sarsaparilla today than any other, and more are taking it today than ever before.
More and STILL MORE reasons might be given why you should take

Hood's
Sarsaparilla

The One True Blood Purifier. $1 per bottle.

Charles Younghans met with an accident Tuesday night which has confined him to his bed. He arose during the night and in attempting to go down stairs missed his footing and fell to the bottom injuring his left side. He was able to return to his bed and said that he was all right but his wife soon discovered that he was unconscious and sent for Dr. Iddings who failed to find any broken bones but said that he might be injured internally.—Manchester Enterprise.

The Grass Lake News says B. F. Alger, was driving with his wife and children Saturday evening when some one ran into them. Considerable damage was done and the News concludes. "The young men who were racing and were responsible for this fool business were A. Redner, who works for Steven Ray, and George Seid, employed on Palmer Ray's farm. How anybody above the capacity of an idiot would drive into a town where teams are constantly passing and recklessly race along the highway as was done in this case, is past comprehension."

A happy mother is the happiest being in this world. To hold in her arms the dear little life—a part of her very own life—nestling, trusting and dependent on her protecting love, is the sweetest, most sacred responsibility of a woman's existance.

But many a woman approaching the time of motherhood feels most deeply its duties and trials. She is burdened with a sense of anxiety and unreasonable foreboding. This state of mind is unfavorable both to the mother and the child.

A prospective mother may insure herself against the slightest fear of danger or excessive pain by the use of Dr. Pierce's Favorite Prescription, during the period of expectancy. This "Prescription" makes the coming of baby absolutely safe and comparatively painless.

It gives elastic endurance to the organism specially concerned in motherhood, and healthy vitality to the nerve-centres. It makes the mother strong and cheerful. It gives her recuperative power. It promotes abundant nourishment and provides constitutional health and energy for the child.

It is the only positive specific for all diseases of the feminine organism, devised by an educated and skilled specialist in this particular field of practice. Its sale exceeds the combined sale of all other medicines for women.

"I am very thankful for what Dr. Pierce's Favorite Prescription has done for me," writes Mrs. Etta E. Smith, of Grenola, Elk Co., Kansas. "About a month before I was confined I had such pains I could stand up only a little while at a time. I could not rest at night at all, nor at any other time. I could scarcely eat anything at all. I began taking Dr. Pierce's Favorite Prescription and after the second dose I felt better. From then until I was sick, I carried nearly all the water that was used, up a long hill, and worked in the garden every day, besides my other work, and did not feel at all bad. When the baby was born the doctor and the women who were with me said I had an easier time than any one they ever saw for the first time. The baby is very healthy and growing right along. I have been up ever since she was five days old."

Domestic Joy.

The charm of domestic joy will be preserved, if those parents, who fear the early death of one of their loved ones when attacked with a serious throat or lung trouble, resort at once to Dr. Bull's Cough Syrup, a never-failing remedy. "I used Dr. Bull's Cough Syrup for my son, who was eight years old. He has been troubled with a bronchial cough since he was two and a half years of age, and I have tried everything, but found Dr. Bull's Cough Syrup does him the most good." Mrs. A. Geib, 317 Demott St., West Hoboken, N.J. Dr. Bull's Cough Syrup costs only 25 cents, and is cheaper than the dealer's big profit making substitute, because Dr. Bull's Cough Syrup always cures while the substitute does not.

STONY CREEK.

Mrs. Anna Uhl spent last week with her sister at Hudson.

Miss Hay, of Ypsilanti, spent Friday and Saturday with Miss Mabel Redner.

Mrs. A. Davis and daughter, who have been spending the summer here, started Friday for her home in Tennessee.

Mr. and Mrs. Zina Buck, of Ypsilanti, spent Friday with their mother.

Mrs. Doss is still sick.

Born, to Mr. and Mrs. Lee R. Salisbury, Oct. 28, a girl.

Mr. and Mrs. Watling, of Ypsilanti, spent Wednesday with S. Davis and family.

Mr. H. P. Thompson and Mr. and Mrs. Alfred Davis started Friday for a visit with friends in New York.

A faggot social will be held at Mr. Norman Redner's, Nov. 12. All are invited to come and wear the oldest articles of dress they can procure. They are also requested to give a history of said articles in the most comic manner possible. Refreshments will be served.

Married at the M. E. parsonage Oct. 28, Mr. Frank Seagle and Miss Daisy Colby, both of Stony Creek.

The calico social at Mrs. Pearson's Friday evening was a pleasant affair. The rooms were crowded but everyone kept good natured, and the committee should be praised for their good program, their good work and fine supper.

CHEAPEST

AS WELL AS BEST.

TWO POUNDS OF CREAM OF WHEAT

At the proportion of three-quarters of a cup of CREAM OF WHEAT to one quart of water (which is the recipe for Breakfast Porridge shown on our package)

MAKES ELEVEN QUARTS COOKED FOOD.

You need not take our word for it, but can figure it out for yourself. As against this,

TWO POUNDS OF OATMEAL

At the invariable recipe which is shown on all oatmeal packages,

MAKES SIX QUARTS COOKED FOOD.

As practically the only criticism on CREAM OF WHEAT has been that it was too expensive, it will pay you to figure

WHICH IS THE CHEAPER.

Which is the BEST we will leave our customers to judge. But

DO NOT BE LED ASTRAY BY

The specious argument that because oatmeal sells for less money per package it is the cheapest.

SPECIOUS ARGUMENTS

Have had their day. The proof of the matter is in the cooking of the food. We are not saying a word against oatmeal as a food, but simply answering the principal objection urged by the oatmeal people against CREAM OF WHEAT.

MERE MENTION OF MICHIGAN MATTERS.

Grand Rapids Painted a Beautiful Red—Father Kidnapped His Own Child—Portrait of ex-Gov. Rich Presented to the State—Some New Postmasters

A Hot Time in a Hot Town.

Grand Rapids' common council raised the mayor's salary to $25,000 a year and voted to give street laborers $3 per day and board. The schedule of licenses were fixed as follows: Saloons, 50 cents a year; water sellers, $500; book agents, $5 a second; side shows, free. It was also voted to rig up the waterworks settling basin as a bathing school, and to connect the city water pump with a brewery. It may be that the opening jambouree of the "carnival of fun," which was inaugurated by the Knights of Khorassan, had something to do with it. Anyhow it seemed that everything was on the rise and rush in the second city when her street fair carnival was opened with the booming of cannon, the ringing of bells, the blowing of whistles and the blare of bazoos, by a multitude of masked and unmasked who had been given the keys of the city. Gov. Pingree, ex-Govs. Rich and Luce and other celebraties were present and for four days and nights the air was kept luried by the superfluous heat of the "hot time in the old town."

Prosperity in Michigan.

Labor Commissioner Cox recently made written inquiry of the village clerks of the incorporated villages of the state as to the average wages paid to laborers and mechanics, whether work is plentiful, if many men are idle and if any new enterprises have been started. Reports were received from 216 villages which indicate that in the smaller towns of the state business is reviving and but few men are idle. The average wages paid for unskilled labor is reported in four towns at 75 cents per day, in one town at 90 cents, in 90 towns at $1.00, in 97 towns at $1.25 and in 17 at $1.50 or upwards. In the 216 towns, 63 new enterprises are reported, including sawmills, brick and tile factories, stave mills, cheese factories, planing mills, shingle mills, banks, stove factories, grist mills and business houses of all kinds.

Noted Crook Escapes From Jackson.

Jack Cannon, who was sent to Jackson prison from Detroit two years ago for having burglar's tools on his person, has escaped. He left the tailor shop where was at work, went into the chapel and escaped from the tower block by climbing from the window. He is short, stocky, has a gray beard and large eyes. He is 61 years old and is one of the most noted hotel and sneak thieves in the country.

Later.—Cannon was captured by Deputy Sheriff Wm. H. Smalley, near Grass Lake. The deputy saw a man in his yard who bore a striking resemblance to the fugitive and accosted him. Cannon gave himself up without a protest, and was retured to prison. He said he had had nothing to eat for 36 hours and was about used up.

A Sensational Kidnapping.

W. R. Clendenin and wife, of Jones, Cass county, separated last June, and Mrs. C. started divorce proceedings. She alleges that he has threatened her life and that on Oct. 9 he whipped her. His latest cruelty was the kidnapping of their 3-year-old girl. Clendenin and a stranger drove up to the house and the husband walked in and snatched up the child. The mother quickly locked the door, but the stranger broke it down and the father escaped with the child to the buggy. The mother, determined to save her little one, climbed into the buggy, but was knocked out by the stranger, and the two men then drove away. Clendenin has since been arrested at Sarnia, Ont., where he was known as Chas. Belden. He will be extradited.

Killed by a Sewer Cave-in.

Henry Nau, a sewer inspector at Detroit, met a horrible death from suffocation. He was overseeing the construction of a sewer in an alley when the sides caved in, burving him alive. His lifeless body was recovered about an hour later. Julius Hoeft, foreman of the job, was caught in the falling sand and would have been killed but the for timely assistance of two of the workmen.

Aged Farmer Committed a Murder.

John C. Williams, an aged farmer, living ten miles northwest of Howard City, shot and instantly killed his nearest neighbor, R. Baldwin, as the result of a pretty quarrel. Williams has lived in the township for upwards of a quarter of a century, has held numerous offices and is well respected. He has been in feeble health for some time and is thought to be insame.

A HORRIBLE LEGACY.

To be left without money is a hard piece of fortune. To be bereft of friends is not a pleasant anticipation: but fancy the misfortune of being left a legacy of disease, and yet we are luring disease and decay as our forefathers did before us, unmindful of the awful consequences to ourselves and to posterity. Coffee is responsible for a goodly share of this trouble. Coffee undermines the system. Coffee shatters the nerves, dries up the blood and stunts the growth. Coffee causes the heart to imperfectly perform its functions. Look about you for results of coffee drinking.

You, who are slaves to coffee, can still drink coffee, but it must be made from the healthful grains of the fields. Such a coffee is "Golden Nectar," a beverage which delights the taste, as does coffee. A beverage which looks like coffee, and has the oder of coffee; but what a difierence in its action upon the system.

GOLDEN NECTAR makes bone and sinew, assists drooping nature to cast off disease, enriches the blood, puts fire in the eye and gives the heart a strong, healthy action.

Drink GOLDEN NECTAR and give posterity a legacy of health.

Blizzard in the West.

A very severe snowstorm with the characteristics of a wild western blizzard swept over Colorado, Nebraska and the Dakotas. Tremendous damage was done to telegraph and telephone wires and traffic on street cars and railroads was greatly interfered with. At Colorado Springs the snow and sleet were blown so furiously that it was impossible to see across the street. The storm came so suddenly that ranchmen did not have an opportunity to shelter their stock. Rain had been steadily falling for 15 hours in South Dakota when it suddenly turned to snow, accompanied by a severe northwest wind, and will cause heavy losses of range cattle.

Paralysis From Smoking.

W. H. Griffin, one of the Staff of the Cleveland "Plain Dealer," Minutely Describes the Effects of Tobacco on Him and the Means Used to Counteract it.

A CASE THAT HAS GREATLY INTERESTED THE MEDICAL PROFESSION.

From the Plain Dealer, Cleveland, Ohio.

The following was recently told by Mr. W. H. Griffin, one of the staff of the *Plain Dealer*, of Cleveland, Ohio. As it is a strange story we publish it in full:

"My case was a strange one from beginning to end. It puzzled the best physicians that could be secured in the vicinity in which I lived. Indeed it was such a remarkable case, such an unusual one that a description of it was published in the best medical journals throughout the country, and many were the letters received by our family physician regarding it from eminent New York doctors, and doctors from the cities.

"I was always of a nervous disposition, and am now. In September, 1892, I entered Buchtel College, Akron, Ohio. The second week after beginning my college career I went home to spend Sunday with my parents. I was not feeling very well at the time. After dinner one Sunday I lay down on the couch to take a nap. About ten minutes after I felt sharp pains shooting across my body in every direction. These pains lasted for an hour, and then I became unconscious. When I came to my senses again I found that I was too weak to move. Soon, however, I felt as well as usual, and although I did not know what the trouble was, still I did not worry about it until the next day, when the same thing occurred again, and at about the same hour as on the preceding day. Our family physician was called in, and after examining me, rendered a verdict of stomach trouble, giving me medicine for the same. The next day the same thing recurred, only the unconscious spell lasted longer than before. Then it was decided that I was not able to go back to college that term.

"These spells came to be a daily occurrence, but without the sharp pains. When I felt them coming on I would go home and lie down on the couch. Soon I would commence to get drowsy. Then I would become unconscious, the spell lasting from a quarter to half an hour. When it passed away I would be left weak and unable to move for a few moments, but I was soon able to be up and about again. I continued to take medicine for stomach trouble, but as the spells continued and instead of one a day grew to the number of two and ofttimes three a day, the doctor suggested a slight change in treatment and that when I felt them coming on, instead of lying down I should go and take a walk. So the next day when I felt the drowsiness creeping over me, I started out to walk it off, accompanied by a friend. We walked some distance when all at once and without a moment's warning, over I went, and would have fallen on my face had not my friend caught me and held me. Although fast losing my senses, a good shaking aroused me, and I was able to get back home when I soon relapsed into unconsciousness, the spell lasting over an hour. The doctor was called in again, and after studying over my case, decided that it was not disease of stomach that ailed me after all, but nervous trouble. He gave me medicine accordingly which I took without the desired result. Another physician, one who had studied for years in both France and Germany, and made nervous troubles a specialty, was called in. He was telephoned for when I was in one of my spells, and arriving, proceeded to handle me most roughly. With a needle he pricked my body in several places sometimes drawing blood, but it had no effect upon me. I lay there as one dead, utterly unconscious of any pain or of what was transpiring about me. This spell lasted over an hour, and when I came to, I was told that some of my nerves were paralyzed. The doctor said that he had seen a few cases like mine in France, and that he thought he could cure me. This information was gratefully received, for I was becoming greatly alarmed over my condition. But the spells continued to come on me regularly every day in spite of the medicine I was given, and soon I was a nervous wreck. Many prominent physicians were called in, and as the new physician had published my case in some of the medical journals, he began to receive letters from many world renowned doctors regarding it. Advice was received from everywhere, and consultations were held, but nothing could be found to better my condition.

"I was able to get about a little with the aid of a cane, and one day while I was in a drug store I saw in the case several boxes of Pink Pills for Pale People. With no purpose whatever I read the label, and seeing that the medicine was for nervousness, I purchased a box. I took the medicine home with me and unknown to anyone began to take the pills. Before half the box was gone I felt stronger, and the unconscious spells began to diminish in number and in length and I stopped taking the medicine left me by the physician. When that box of Pink Pills was gone I purchased another, and before half of that one was gone, I began to feel so much better that I told the attending physician what I was taking. At first he laughed at the idea, but when I told him that I was not taking any of his medicine he began to wonder, and at last told me to continue taking Pink Pills. I did so and inside of six weeks I felt as well as ever. The unconscious spells left me, my appetite returned and it was soon decided to send me back to college when the January term opened. In January I went back to school, but inside of a week I was back home again with the same nervous trouble. I at once began to take Pink Pills again, but this time my condition was so much worse than before, that I had to take seven boxes of them. They cured me though, and inside of two months I was my old self again.

"And now comes the strange part of my case. I was always a heavy smoker, although I knew that an extremely nervous person like myself should not smoke at all. The habit grew on me until I found myself smoking all the time. There was scarcely a moment during the day that I was without a cigar, cigarette or a pipe in my mouth. If I became the least bit nervous about anything I would smoke, and the more I smoked the more nervous I would get, and then I would have to smoke again. I came to be a "smoke fiend," and the habit grew on me day by day. One night in the summer of 1894, I started out to make a call on a friend. I had been feeling badly all day. I stepped into the doctor's office on my way and told him how I felt. He examined me and told me to go home and to bed. But I laughed at his earnestness and saying that I would feel all right again in a little while, I went and made my call. I had felt nervous all day and had smoked unusually hard. I reached my friend's house and was taken into the parlor where I sat down on the couch. I was engaged in telling those present of the peculiar feeling I had experienced all day and of the doctor's anxiety concerning me, when, without a moment's warning I pitched head foremost on the floor. This happened about eight o'clock in the evening. When I regained consciousness it was nearly three o'clock in the morning. I was still lying on the floor and the doctor and a trained nurse who was in the house, were working over me, while all about me stood my friends. I did not know what had happened, could not remember a thing concerning the evening's escapade, but as soon as I opened my eyes the doctor told me to get up and walk around and see if I would not feel better. This I tried to do and was astonished and alarmed to find that I could not move even my arms. I could move my head, but that was all. A grave look passed over the doctor's face when I told him this, but he and the nurse succeeded in getting me back on the couch, then they drew the couch into a bedroom where the doctor put me to bed. I slept a little, but in the morning I was no better. I could not even lift a finger, and all of my limbs felt numb. They gave me my breakfast, and later on the doctor and another man came with a closed carriage into which they lifted me, and I was carried home and placed in bed. For almost six weeks I lay on my back unable to move, while one could stick a pin into me without my feeling it. I was utterly powerless to move hand or foot. Some one had to feed me and to turn me over when I wanted to change my position. I remained in this state for about four weeks when I sent for another supply of Pink Pills. These I began to take regularly, and within two weeks I was not only able to use my arms, but to walk around a little with the aid of crutches. For two weeks longer my legs refused to perform their allotted duty, but at the end of that period I was able to discard the crutches and walk about without their aid. I continued to take Pink Pills, however, and inside of three months after I was taken ill, I felt all right again. Pink Pills for Pale People cured me, as I can prove to the satisfaction of any person who wishes to know.

"I am married now, and am well, happy and healthy. I have never had a recurrence of nervous trouble in any way since I recovered from my temporary paralysis, and I owe my marvelous cure and present good health to Pink Pills. I will always speak a kind word for them, and recommend them for nervous trouble, for if they can cure a person in the condition that I was in, twice in my life, they can cure any nervous trouble that exists. I am positive of this and I want you to say so if you publish this testimonial. I am glad of this opportunity to say a good word for Pink Pills."

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50c. per box, or six boxes for $2.50.

AN ENGLISH GALLANT.

He Was Very Gorgeous in the Elizabethan Days.

Glancing across the surface of everyday life in the Elizabethan days of robust manhood, it is interesting to notice the lively childlike simplicity of manners, the love of showy, brilliant colors worn by both sexes, and to compare these charming characteristics with the sober habiliments and reserved manners of the present day, says the Nineteenth Century. Here is an example of the man of fashion, the beau-ideal of the metropolis, as he sallies forth into the city to parade himself in the favorite mart of fashionable loungers, St. Paul's churchyard. His beard, if he have one, is on the wane, but his mustaches are cultivated and curled at the points, and himself redolent with choicest perfumes. Costly jewels decorate his ears; a gold brooch of rarest workmanship fastens his bright scarlet cloak, which is thrown carelessly over his left shoulder, for he is most anxious to exhibit to the utmost advantage the rich hatchings of his silver-hilted rapier and dagger, the exquisite cut of his doublet (shorn of its skirts) and trunk hose. His hair, cropped close from the top of the head down the back, hangs in long, love-locks on the sides. His hat, which was then really new in the country, having supplanted the woolen cap or hood, is thrown jauntily on one side; it is high and tapering toward the crown and has a band around it, richly adorned with precious stones, or by goldsmith's work, and this gives support to one of the finest of plumes.

A Life Saved.

Marvelous cures of throat and lung affections are made daily by Dr. Bull's Cough Syrup. Miss Annie Swan, Petersburg, Va., writes: "My brother was attacked by a bad cough and cold, and it was thought he had consumption. Dr. Bull's Cough Syrup was used, and to our great surprise it made him well and hearty. There is no better cure in the world than this Syrup." Dr. Bull's Cough Syrup is sold everywhere for 25 cents.

HENRY GEORGE DEAD.

Dies in the Midst of a Hot Fight for the Mayoralty of Greater New York.

Henry George, the famous single tax advocate and anti-Tammany Democratic candidate for mayor of Greater New York, died very suddenly of apoplexy, at 5 a. m. at the Union Square hotel.

Mr. George had been making a very vigorous canvass and his following was growing stronger every day so that he had become a great factor in the mayoralty contest. The night preceding Mr. George's death he had made several campaign speeches and returned to the hotel about 11 o'clock. After a light lunch he went to bed, but about 3:30 he awoke and complained of a severe pain. He at once became unconscious, from which condition he did not recover.

The Thomas Jefferson democracy (anti-Tammany) promptly substituted the name of Henry George, Jr., for the name of his father, Henry George, as candidate for mayor of Greater New York. The election law of New York provides explictly for the filling of vacancies on tickets.

An incipient mutiny was aroused at Santander, Spain, by some soldiers who had been ordered to embark for the island of Cuba refusing to go on board the transports. Although the men were eventually compelled to obey orders, the occurrence has aroused considerable misgiving as to the possible behavior of future detachments of Spanish troops ordered to the Cuban war.

Capt. Charles Kronbert and seven sailors reached Chicago on the schooner Sheboygan after a terrible experience on Lake Michigan. They comprised the crew of the fine schooner F. W. Gifford, which sailed from Escanaba, iron-laden, for Fruitport, but which went down at night in a gale. The crew took to the boat and were picked up after several hours, by the Sheboygan.

Chief of Police Kipley, of Chicago, has issued an order discharging from the force 434 policemen and appointing in their place a like number of the "star league" Democratic expolicemen, who had been discharged under the previous Republican administration. One notable feature of the order is that the four detectives who did the most conspicuous work on the Luetgert case are discharged.

Policeman Frederick Smith was shot and killed in the church of the Holy Redeemer, Third street, between Avenues A and B, New York City, by a burglar who was caught robbing the poor box. The excited populace were about to lynch the murderer to a tree when several policemen arrived and summoned a riot squad of 15 officers who had all they could do to tear the villain from them and lock him up.

It is believed at Washington that, in view of the great prominence Alaska has achieved, owing to recent gold discoveries, and the importance of definitely fixing the boundary line between our territory and that of the Dominion of Canada, that the senate, when it assembles in December, will take early action upon the treaty pending between Great Britain and the United States for the survey and marking of the one hundred and forty-first meridian. This treaty was sent to the senate almost two years ago.

Japan will apply the gold standard to the currency of Formosa once.

Inherited Blood Taint.

Here is a case of inherited blood taint which resulted in what threatened to be a complete wreck of an innocent young life. The most serious feature of being afflicted with a blood disease is the fact that innocent posterity must suffer. The man or woman with the slightest taint in the blood forces the undesirable legacy of impurity upon their children whose veins flow with the impure inheritance which handicaps them in the race of life.

No child who has a trace of bad blood can be healthy or strong, and those predisposed to Scrofula are liable to a great deal of sickness, because their constitutions are weak and cannot withstand the many dangers which beset the path of childhood. Medical statistics show that a majority of lung troubles result directly from Scrofula, so that a child afflicted with this disease is likely to fall a victim to dreaded consumption.

Mr. W. A. Clayton, of Addie, N. C., believes S.S.S. is the only blood remedy which can have any effect whatever upon obstinate cases. He says:

"My three-year-old boy had the worst case of Scrofula I ever heard of. He

MR. W. A. CLAYTON.

was given many blood remedies without relief, and treated by the best doctors. He seemed to get worse all the while, however, and the disease finally resulted in curvature of the spine, making him utterly helpless.

"The bad sores on his neck increased in size, and were a source of constant pain. He was in this pitiful condition for two years, when some one recommended S.S.S., stating that it had cured some of the worst cases of blood diseases. As soon as his system was under the effect of the medicine, the sores began to get better, and in eight days were completely healed. Before long he could walk on crutches, and was improving every day. In three months he threw aside his crutches, for he had no further use for them; the dreadful disease had been eliminated entirely from his system, and he was restored to perfect health. The cure was a permanent one, as no sign of the disease has returned for ten years."

S.S.S. is a real blood remedy, and promptly reaches all deep-seated and obstinate blood diseases, it matters not what other treatment has failed. It is the only remedy which acts on the correct principle of forcing the disease from the system and getting rid of it permanently.

S. S. S. is a sure cure for Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Tetter, and all other blood diseases. It is

Purely Vegetable

and is the only remedy guaranteed to contain no potash, mercury or other harmful mineral.

Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

Blanco Arrives—Weyler Leaves.

The Spanish cruiser Alfonso XIII, with Marshal Blanco, the new governor-general of Cuba on board, arrived at Havana, and Lieut.-Gen. Weyler, the Marquis Ahumada, Admiral Navarro and other high military and naval officers steamed out in a special steamer to meet him. Weyler and Blanco exchanged farewells on board the Alfonso XIII, and Weyler then went aboard the steamer Montserrat and sailed for Spain. She was escorted outside the harbor by numerous tugs laden with the friends of the departing general and officers of his staff. An immense crowd witnessed the departure from the wharves. Gen. Weyler's escort on the Montserrat consists of 600 sick soldiers.

Consumption

Will SCOTT'S EMULSION cure consumption? Yes and no. Will it cure every case? No. What cases will it cure then? Those in their earlier stages, especially in young people. We make no exaggerated claims, but we have positive evidence that the early use of

Scott's Emulsion

of Cod-liver oil with Hypophosphites of Lime and Soda in these cases results in a positive cure to a large number. In advanced cases, however, where a cure is impossible, this well-known remedy should be relied upon to prolong life surprisingly.

About 250 alumni, whose years of graduation range from '56 down to '97, came to town Soturday to attend the alumni game. After a short meeting in the Alumni rooms they went to the Athletic field and cheered on the old graduates who took the conceit clear out of the 'varsity boys, defeating them 15 to 0.

It now looks as though the much talked of debating league, composing Michigan, Chicago, Northwestern and Wisconsin universities, is a thing of the past. The latter has become offended as she usually does and has dropped out. It seems probable that Michigan will have to arrange a couple of special debates or do nothing in that line.

John Pilbeam, of Milan township, came to Dundee Wednesday morning, driving a four-year-old colt hitched to a cart. His colt became frightened on Tecumseh street, and while endeavoring to hold him by the bits and pacify him Mr. Pilbeam fell under the feet of the colt and received a severe cut near the eye and brusies upon the body.—Dundee Reporter.

Mr. Traver will arrive in New York on the Kaiser Wilhelm II November 8, and expects to visit his mother here during the holidays.

No end of excitement in High school room Tuesday afternoon. One young lady fell unconscious in the hall from an attack of palpitation of the heart. Fans and cups of water soon resuscitated her, but the dripping hair and white face when she entered the room so shattered the nerves of another damsel that she, too, fell to the floor with a dull, heavy thud and for sometime thereafter knew not where she was at. Prompt action, however, soon restored the equilibrium and then an awful calm prevailed.—Milan Leader.

The Prisoner of Zenda.

A theatrical event of much importance will be the coming in about two weeks of Daniel Froman's special "Prisoner of Zenda" company. Mr. Frohman writes us from his New York headquarters that he has taken great pains in the selection of the actors comprising this company, and that the performance will in every way be equal to the demands of Anthony Hope's splendid story "The Prisoner of Zenda" which they present with all the scenery, costumes and accessories necessary for a first-class production. We publish this announcement because the New York Lyceum manager has always kept his promises. This is regarded as the greatest of all the famous Lyceum Theatre successes.

THE REGISTER.

THURSDAY, NOVEMBER 4, 1897.

Campus.

Newberry Hall is open every Friday evening for a pleasant time. Some excellent music furnished the entertainment last week and this week an old fashioned spell-down will occur. The arrangements are not yet completed but all students may be sure of a hearty welcome and a good time.

A letter from Dr. Angell to his daughter, Mrs. A. C. McLauchlin, announces that Dr. and Mrs. Angell are no longer at the "Summer Palace Hotel" but that they are now in the city of Constantinople. Dr. Angell has been received by the Sultan and is now attending to the routine duties of his office.

Last Thursday, Friday, and Saturday there was an unexpected reunion of old U. of M. students at Ishpeming, at the Teachers' Institute for the Upper Peninsula, Some of those present were C. H. Cooper, '97, Sara S. Browne, '97, Dick Ewing, '95, Herman Krogmann, '94, Mabel Bosworth, '97, Nellie Walters, '97,and Georgien Mogford, '96.—Bulletin.

On Friday and Saturday afternoon and evening of this week, there will be given in the Methodist church, an entertainment for the benefit of the church music. This entertainment will consist of an art exhibition and oyster supper combined. The choir guild has been fortunate in securing a large collection of valuable pictures which will not only be placed on exhibition, but also offered for sale.

A student in Northwestern writes the STUDENTS REGISTER as follows: "The following members of the '98 medical class are attending the Northwestern Medical College: Davis, John, Hull, Fuller, and Rogers. Of the '99 class: Grey, Jennings, Tidyman, Worden, Mason, Schultz, Bennet, Church, and Jackson. We are all pleased with the work as given here, and we will all be out to yell for Ann Arbor vs. Chicago."

OBERLIN'S CHARGES.

OBERLIN'S protest against the treatment given them by Michigan has been received by the board of control. The following clipping from the Ohio Journal gives a good idea of nature of the charges.

"From all accounts that have been received the treatment accorded the Oberlin eleven at Ann Arbor last Saturday was of the kind that might be expected from a tribe of cannibals or other uncivilized people. A letter from an Oberlin student to a friend in this city conveys the information that the Michigan crowd on the side lines acted more like rowdies than like students at the largest college in the West. The bucket of water which an Oberlin substitute was carrying along the side lines to be ready for use in case of an accident to players was taken from him by the Michigan crowd, the coats and hats of Oberlin rooters were torn and besides keeping up a continual hissing and jeering, the Michigan students even went so far as to throw stones at the visiting team's sympathizers.

Oberlin has the reputation of always treating visiting students and players kindly and the management makes it a point to give them the best the town affords, but such treatment as was received at Ann Arbor should not be tolerated. The Oberlin men insist that Michigan could not defeat them fairly and when they saw the Ohio players were too much for them the Michigan crowd resorted to the dirtiest kind of tricks and actions. As will be noticed in another column, resolutions were drawn up by the Oberlin students and the advisory board of the U. of M. will be asked to thoroughly investigate the matter.

It is almost useless to say that there is no truth in these charges for all who saw the game know that no such treatment was given the visiting team. Oberlin is simply giving way to a little baby play. They tried every means to delay the game until dark, lying down and taking time after each mix-up under pretense of being hurt. When this ruse failed they growled because they had to play in the dark. They expected to win and failing felt like saying something mean. Now they have said it, let us hope they will have a good cry and feel better.

MANY THINK!

when the Creator said to woman, "In sorrow shalt thou bring forth children," that a curse was pronounced against the human race, but the joy felt by every Mother when she first presses to her heart her babe, proves the contrary.

Danger and suffering lurk in the pathway of the Expectant Mother, and should be avoided, that she may reach the hour when the hope of her heart is to be realized, in full vigor and strength.

MOTHER'S FRIEND

so relaxes the system and assists Nature, that the necessary change takes place without Nausea, Headache, Nervous or Gloomy Foreboding of danger, and the trying hour is robbed of its pain and suffering, as so many happy mothers have experienced. CITIZEN'S RESPONSIBILITY.

PRES. HUTCHINS SPEAKS BEFORE THE GOOD GOVERNMENT CLUB.

First Meeting of the Year. Prospects Good. Pres. Hutchins' Address.

The Good Government Club met Thursday night for the first time this year. A good audience was present and students are showing an enthusiasm in the work of the club which promises well for the future.

After a brief address by President Byam, Dean Hudson and acting President Hutchins spoke. The latter urged the necessity for students and others to realize their political responsibility. This government is emphatically one of the people. Each citizen is liable to be thrust into public life. The great responsibility resting on the men in their use of the elective franchise is not understood. The stability of our government is assured by reason of the fact that it is based on the general education of the masses. General education from the common schools to the university is justified because the citizenship is improved thereby.

President Hutchins urged on all young men the duty to take part in public affairs in return for the education which the state has furnished them. The solution of the great municipal questions will be solved by light thrown on them by students going out of our universities. Young men should take advantage of every opportunity to learn of practical public affairs.

In summing up the advantages of the Good Government club President Hutchins said that the very existence of such a club is a significant fact and its influence can not fail to result in good. It furnishes a much needed chance for students to study public affairs and it exerts a wholesome influence on university politics.

THE PARIS SALON.

Last Thursday night the Art Club, or the Art League, as it is properly called, held its second meeting of the year at the home of Miss Douglas on Huron street. James Wm. Pattison of the Art School gave a very interesting lecture on "The Paris Salon." As Mr. Pattison has been numbered among those fortunate enough to have pictures on exhibition in the salon, he knows 'whereof he speaks.'

After describing the salons, the court with its beautiful statuary, and other interesting points, Mr. Pattison told how the salon is furnished with pictures. Any artist aspiring for fame sends his picture or pictures to the salon. After these are all received, possibly 1800 or more, the president with a jury of forty men, passes before the pictures and "sorts out the rubbish." The word of the president decides but if one of the jury objects it is re-considered. Next day the pictures are again carefully examined and graded according to their respective values. The grade decides where the picture is to be hung in the salon. Those of the highest grade are placed in a position of honor, which is in a conspicious place and those of the lowest grade are "skyed."

Members of the Art League not only derive much benefit from these lectures which will be held every fortnight, but are also given the use of the studio one day in each week.

GIANTS, INDEED.

The Old Circus Man's Recollections of the Two Biggest Men He Ever Knew.

"Giants?" said the old circus man. "Oh, yes, we've had some big men in the show at one time and another. One of the biggest we ever had used to comb his hair with a section of a picket fence. That was part of the street show when we made the parade in a town. Usually we had an arrangement in advance with the owner of the fence, and had a panel loosened so that the giant wouldn't wreck too much of the fence in picking up the part he wanted to use. When the show came along to this spot the giant would step up to the fence, take off his hat, and pick up the piece of fence—it always looked as if he had tremendous strength, too—and raise it up and comb his hair with it. And then he would put the big comb down again and put on his hat and move on. This always tickled the people immensely. And he certainly was a big man, sure; but we had a bigger man once. I wouldn't dare tell you how big this other man was, because you wouldn't believe it."—New York Sun.

IN THE GOOD OLD DAYS

PROF. TENBROOK'S HISTORY OF THE UNIVERSITY BEGINS.

TELLS AMUSING INCIDENTS

And Treats Philosophically of Michigan's Development.

Prof. Andrew TenBrook has revised his history of the University and made extensive additions to it producing a very valuable work which he now has ready for publication. He treats the University as the result of a gradual evolutionary process and no one is better able to tell of this evolution than he, for coming here as professor of moral and mental philosophy in the year when the college was established, he has had an opportunity to watch the great institution from its earliest infancy.

The early history is often amusing. Every act of conduct was governed by rules, such as the one requiring all students to be in by half-past nine every night. Once three students were called before the faculty, given a long trial and finally expelled from the University for stealing a few grapes from a member of the faculty. Another stole a big turkey which a professor was saving for thanksgiving and another faculty sceance followed.

Practical jokes on faculty members were then common. Prof. Williams was specially selected as the object of these jokes because he was always good natured and because he generally got even by his brilliant repartee. Once he went to hear a class of freshmen recite. He saw they were expecting something and when he opened his desk, a frog hopped out. "Oh! Another freshman," said the professor. Another time a donkey was placed in his room. When the professor arrived his students stood outside the door. He looked in and then said aloud to himself, "There's only one of them here."

Passing, on the history takes up the organization of the professional departments. The medical department had a specially hard time at first. It was difficult to procure subjects for dissection as no law had then been passed by which the state would furnish them. One demonstrator of anatomy had by hook and crook secured a good lot of bodies but being called to another medical school he decided to take them along. So with a few assistants he entered the anatomical building, bound and gagged the janitor and stole the bodies which were sent away. When the board of regents talked of a suit he threatened to tell how and where the subjects were procured.

The book traces the University from this early and chaotic period down to the present and can not fail to be of the highest interest.

Pineapple Sirup.

The Jacksonville Combine says: On the tables of hotels this winter a new luxury will advertise Florida and suggest the fragrant breezes of the flowery peninsula to those condemned by the weather elsewhere to live within doors and dream of the sunshine and the ozone of the open air. For the fashionable fad will be pineapple sirup and it will add poetry to breakfast and glory to the buckwheat. And we can furnish enough for everybody, since an acre will give 1,200 gallons, and the supply can be made to fit the demand.

A God-Sent Blessing.

Mr. B. F. Wood, of Easton, Pa., was a great sufferer from Organic Heart Disease. He never expected to be well again, but Dr. Agnew's Cure for the Heart was his good angel, and he lives today to tell it to others, hear him! "I was for fifteen years a great sufferer from heart disease, had smothering spells, palpitation, pain in left side, and swelled ankles. Twenty physicians treated me, but I got no relief. I used Dr. Agnew's Cure for the Heart. One dose relieved me inside of thirty minutes. Seven bottles cured me." 21

Innocence Itself.

Two venerable clergymen who were traveling in an elevated train in Chicago the other day noticed a beautiful boy, with the typical angelic face seated opposite them with his mother. "Ah, me!" exclaimed one of them, "will we ever be as pure and innocent in the next world as that dear little boy opposite?" His companion was just going to make a suitable reply, when the dear little boy broke out as follows, in a voice that could be heard all through the car: "Mamma, if I had a pistol, I'd shoot those two old crows across the aisle."

Dr. Miles' Nervine

A REMEDY FOR THE

Effects of Tobacco.

THE excessive use of tobacco, especially by young men is always injurious and undoubtedly shortens life materially. Mr. Ed. C. Ebsen, compositor on the Contra-Costa *News*, Martinez, Cal., writes; "I have used Dr. Miles' Restorative Nervine and received much benefit from it. I was troubled with nervousness, dizzy spells and sleeplessness, caused by the use of tobacco and stimulants. I took Dr. Miles' Nervine with marvelously good results, allaying the dizziness, quieting the nerves, and enabling me to sleep and rest, proving in my case a very beneficial remedy." Dr. Miles' Restorative Nervine is especially adapted to restoring the nervous system to its normal condition under such circumstances. It soothes, heals and strengthens.

Badly Played.

Mr. W. H. Preece, the well-known electrician, tells an amusing story about the early days of the telephone. That the queen might test the new invention, he put Osborne, Portsmouth and London in communication, and arranged that a band should play while Her Majesty was at the other end of the instrument.

The queen was detained, and before she arrived the band had been sent away. But a happy thought struck Mr. Preece. Why not himself act as the band? He stepped to the instrument and hummed into it "God save the Queen," and asked if Her Majesty recognized the tune.

"Yes," she said, "it was the national anthem—but very badly played!"

Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich, seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. ¼ the price of coffee. 15c and 25c per package. Sold by all grocers. 95

Where Mustaches Are Barred.

Time was in England when the employes of banks might not wear beards or mustaches. This restriction has in almost every instance long been removed. One exception still remains. The historic house of Coutts, where royalty keeps its private accounts, declines to alter the rule of a by-gone age, and visitors to its ancient walls will note that its employes present a remarkably trim and smart appearance. The younger clerks yearning for those hirsute adornments so dear to budding adolescence have recently memorialized the partners on this subject, but, alas! without success.

What Do the Children Drink?

Do not give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about ¼ as much. All grocers sell it. 15c and 25c. 95

WE WANT TO TELL YOU

Why Your Back is Lame—Why it Aches and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment won't do it; for, while it may give temporary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore you must correct their action if you would be cured. Read the following from D. D. Cook, whose address is No. 18 Michigan Street, Grand Rapids. He says:—

"I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Doan's Kidney Pills and wondered if they could make an almost lame man well. I got some, and soon after taking them began to feel their good effects. I used them for some time, my lameness all left me and I have not felt it since. Doan's Kidney Pills have done me an inestimable amount of good."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

Rode Backwards for Miles.

Pedestrians, cable car passengers and wheelmen along Independence boulevard and later on Fifteenth street were surprised about 10:30 last night to see two young men seated on the handle bars of their bicycles riding backwards. Ordinarily, this is not considered much of a feat, as trick riders of fair ability ride in this fashion wth comparative ease. But these young men, John and Joseph Rutan, had ridden the entire distance from Independence to Kansas City, over ten miles, in this way, and are now claiming the Kansas City championship for long distance backward riding. The younger Rutan, Jaseph, rode all the way without a stop, while his brother was compelled to dismount at Fifteenth and Olive streets for fear of colliding with some people alighting from a street car at that point. The young men rode to Fourteenth and Holmes street, where it was agreed their journey should end. Neither showed the slightest fatigue on account of his novel journey.—Kansas City Star.

A stomachful of undigested food is about as unhealthy a mass as one can well imagine.

What can be done with it?

There it stays. It won't digest. It churns up, ferments and decays: becomes poisonous (as all putrid matter does) and causes great pain and deep-seated disorders.

In order to change all this, take Shaker Digestive Cordial.

It stops fermentation and decay at once so that no more poisons are created.

It clears the stomach of poisons already there. It helps it to turn the food that remains, into healthful nourishment. It strengthens the stomach for the next meal.

Here is the whole philosophy and cure of indigestion in a few words. And what's more, *it's all true*. Try it.

Shaker's Digestive Cordial is for sale by druggists, price 10 cents to $1.00 a bottle.

NUGGETS IN THEIR GIZZARDS

Even the Chickens of the Northwest Seem to Have Developed Klondicitis.

Late developments indicate that even the chickens throughout this region have taken the Klondike fever, and are gobbling up all the gold they can find. On Saturday last Henry Everding sold a coop of chickens to George Giustin, who keeps a market. One of Giustin's employes, in dressing some of these chickens, found in the gizzard of one of them six pieces of gold, which a jeweler told him were worth $3. The chickens came from Rowland, eight miles south of Brownsville. Tuesday Mr. Everding sold another coop of chickens to Giustin, and in the "innards" of one of these a piece of gold was found the size and shape of a pea bean, and quite smooth, the value being $1 or more. The "nugget" was taken down to Mr. Everding's store and was on exhibition there yesterday. Mr. Giustin confirms the statement of the finding of the gold by his employe, and is of the opinion that under the planks in the back yard of his market, where chickens are dressed for sale, there could be found many pieces of gold. The gizzards of chickens are generally opened by the seller or purchaser, who, even if not aware of the medicinal virtues of "gizzard peelin's," utilizes the muscular part of this digestive organ; but the craws of the fowls are seldom examined, and it is to be feared that millions of dollars have been lost on this account. Persons buying fowls hereafter should insist on them being delivered undrawn, and a careful examination should be made. The last coop of chickens in which gold was found came from G. T. Catton, Lebanon, which is not so far away from Rowland, but nearly in the same direction. It would not be practicable to use chickens to pick up the gold in Klondike, because the lumps are too large, but a herd of ostriches might do good service there after they were acclimated.—Morning Oregonian.

THE PRIVATE PIG.

He Is a Part of Every Yorkshire Household.

The number of pigs kept by the colliers and artisans of the north of England fluctuates with the price of coal and yarn, says the Spectator. In good times every collier keeps a live animal of some sort, and though dogs, guinea pigs, cage birds and homing pigeons are attractive, his "fancy animal" is usually a pig. He admires this on Sunday afternoons, and groups of friends go round to smoke their pipes and compare pigs and bet on their ultimate weight. They have private pig shows, with subscription prizes. Each animal is judged in its own sty, and it is interesting to know that the evolution of an almost perfect pig was due to the innate sagacity of the Yorkshire pit hand. The sties in which these animals live are very rough affairs, often made of a few boards nailed over railway sleepers, but it is interesting to learn that when the author was acting as a peripatetic judge at the colliers' show he foung young pigs as blooming and healthy as possible, and that, small though the collier's back yard is, he always contrives that his pigsty shall be thoroughly ventilated and look toward the south. Architects of costly home farms often house the unhappy pigs under north walls and condemn them to rheumatism, cold and sunlessness. Yorkshire produces not only the best pork, but has long been famous for the best cured hams in the world.

Is Your Ailment Catarrh?

"I had Catarrh for 1 year." "I had Catarrh for 2 years." "I had Catarrh for 5 years." "I had Catarrh for 20 years." "I had Catarrh for 50 years," and Dr. Agnew's Catarrhal Powder cured me. These are sentences from the volumes and volumes of testimony for this great catarrh cure—not mythical patients, but words from men and women all over the continent who have been cured. It relieves in 10 minutes.

Bismarck's Retort.

Bismarck, who had worn himself out in the service of Germany and of his emperor, rarely referred to his labors for the Fatherland. One morning he and the Emperor William were riding together in the park. They had not gone far when Bismarck complained of fatigue. The emperor, who was quite fresh, said somewhat testily: "How is it that, though I am an older man than yourself, prince, I can always outride you?" Bismarck's reply was as reproachful as it was epigrammatic. "Ah, sire," he said, "the rider always outlasts the horse."

The Facts in the Case.

A careful perusal of the map of Wisconsin will convince you that the Wisconsin Central Lines running from Chicago and Milwaukee to St. Paul, Minneapolis, Ashland, Hurley, Ironwood, Bessemer, and Duluth, touch a greater number of important cities that any line running through Wisconsin. Elegantly eqnipped trains, leaving at convenient hours, make these cities easy of access. Any ticket agent, can give you full information and ticket you through. Jas. C. Pond, Gen. Pass. ANIMALS WITHOUT FEAR.

Some That Seem Not to Know What It Is to Be Afraid.

Here is something from our animal friends that you may read in connection with Mr. Aaron's article on the same subject: In contrast with the animals that show great fear of man and that distrust all unfamiliar sights and sounds we find others that seem not to know what it is to be afraid. You have probably noticed that some animals will make friends fearlessly the moment they meet you, just as some children are never shy, because they take it for granted that everyone is their friend. There is a difference, however, between fearlessness and courage. Let us give you an example of what we mean. If in walking across a field you flush a partridge and she pretends to be lame, fluttering at your feet, doing all she can to attract your attention, it is not because she feels no fear. On the contrary, she is in an agony of terror. Her nest is close by, her children cannot save themselves, and she is offering you her life for theirs. This is not fearlessness; it is courage, and courage of the highest kind. The brave mother bird that is ready to die for her little ones fears more for them than you can understand. True fearlessness, on the other hand, is perfectly ignorant, and touches our hearts in a different way. A naturalist whom we know tells a pretty story of meeting a little mouse one day in the middle of a mountain lake. The tiny creature was swimming vigorously for the shore, but when the man in the boat stretched out a friendly oar to meet him the little mouse ran up it at once and into the palm of the strangers' hand, where "he sat for some time and arranged his fur and warmed himself. He did not," the naturalist tells us, "show the slightest fear." It was probably the first time he had shaken hands with a human being and he liked it. "He was what we call a meadow mouse, but he had doubtless lived all his life in the woods, and was strangely unsophisticated. How his little round eyes did shine, and how he sniffed me to find out if I were more dangerous than I appeared to his sight."

The Search For Health

It is not human nature to be contented with our lot in life. We are all striving to gain something we lack, but the hardest, and seemingly most hopeless quest is the search for health by those who are either weak constitutionally or have become run-down. The ordinary practitioner doesn't seem to solve the problem of a run-down physical condition. If the patient is wealthy he sends him on a voyage for his health; if poor, he gives him a "tonic," but the great well-spring of health remains untouched, and small benefit result.

There are remedies for such troubles—remedies potent, safe and permanent. Dr. Greene, famous as the discoverer of Nervura, has found remedies for all diseases of the nerves, blood and body. Consultation and advice of the most skilled physician can be had absolutely free of cost at the office of Dr. Greene's remedies, 148 State-st, Chicago, Ill. Whether you call or write, consultation is free. This certainly is a great privilege to those who have searched everywhere for health, and have about given up hope. Dr. Greene's peerless success in discovering remedies for the ills of mankind have given him an enviable place in the hearts of our people. If you are ill, call or write at once.

The British commission sent to Germany to discover the cause of England's industrial decadence found a state of affairs not at all flattering to British pretensions of industrial supremacy. One of the commission said that English workers are half savages when compared with the intelligent artisans of Germany.

Thirteen seamen, comprising the entire crew of the steamer Casper, excepting Capt. Anfindsen and Seaman Chris Larsen, were drowned by the wreck of the vessel on the rocky shore near Point Arena, Cal.

This Tells Where Health May Be Found,

And that is more important than making money. If your blood is impure Hood's Sarsaparilla is the medicine for you. It cures scrofula salt rheum, rheumatism, catarrh and all other diseases originating in or promoted by impure blood and low state of the system.

Hood's Pills are easy to take, easy to operate. Cure indigestion, headache.

Inconsistent

"There is one thing that I must object to about that lady," said the rather timid young man. "The one who insists on being a 'new woman?'" "Yes. She is inconsistent. We were discussing the question of what constitutes real greatness. She expressed the opinion that there never was but one great man, and that was Joan of Arc."—Washington Star.

GUILTY OR NOT GUILTY

DISEASED MEN CURED

THOUSANDS of young men, middle aged men and old men can look back at their boyhood days or early manhood with a sigh of remorse. The ignorance of early youth, or later on a misspent life as "one of the boys" has sown the seeds for future suffering. SELF ABUSE is a terrible sin against nature and will bring a rich harvest. Blood and Private Diseases sap the very life and vitality of the victim. Our NEW METHOD TREATMENT will positively cure all the following diseases:

VARICOCELE, EMISSIONS, NERVOUS DEBILITY, SYPHILIS, STRICTURE, GLEET, SEMINAL WEAKNESS, PIMPLES, LOST MANHOOD, UNNATURAL DISCHARGES, KIDNEY AND BLADDER DISEASES.

ARE YOU? NERVOUS and despondent; weak or debilitated; tired mornings; no ambition—listless; memory poor; easily fatigued; excitable and irritable; eyes sunken, red and blurred; pimples on face; dreams and night losses; restless; haggard looking; weak back, bone pains; hair loose; ulcers; sore throat; varicocele; depo-it in urine and drains at stool; distrustful; want of energy and strength—*WE CAN CURE YOU OR ASK NO PAY.*

CURES GUARANTEED OR NO PAY—CONFIDENTIAL

SNATCHED FROM THE GRAVE. A Warning from the Living. "At 15 I learned a bad habit. Tried four doctors and nerve tonics by the score without benefit; emissions and drains increased. I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so and in two months was positively cured. This was eight years ago. I am now married and have two healthy children."—C. W. LEWIS, Bay City.

VARICOCELE CURED. "Varicocele made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, no ambition. The 'Golden Monitor' opened my eyes. The New Method Treatment of Drs. Kennedy and Kergan cured me in a few weeks.—I. L. PETERSON, Ionia.

EMISSIONS CURED. J. P. EMERSON relates his experience. "I lived on a farm. At school I learned an early habit, which weakened me physically, sexually and mentally. Family doctors said I was going into 'decline' (consumption.) Finally 'The Golden Monitor,' edited by Drs. Kennedy & Kergan, fell into my hands. I learned the TRUTH and the CAUSE. Self-abuse had sapped my vitality. I took the New Method Treatment and was cured. My friends think I was cured of consumption. I have sent them many patients, all of whom were cured. Their New Method Treatment supplies vigor, vitality and manhood."

SYPHILIS CURED. "This terrible blood disease was in my system for eight years. I took mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of Gleet and Stricture by Drs. Kennedy and Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years."—W. P. M., Jackson.
