

## TRAMPS ARE NUMEROUS.

FOURTEEN HUNDRED APPLIED FOR HELP LAST WINTER.

Poor Superintendent Gives Each A Night's Lodging—Some Travel Long Distances On County Money.

With the coming of cold weather the poor authorities find it necessary to make provision for tramps and other persons who have no place to stay over night. Last winter 1400 tramps applied to superintendent of the poor, E. P. Mason. The method followed is to give to each tramp one night's lodging. "If this were not done," said Mr. Mason, "they would be on the streets over night and would get into all kinds of trouble, which would cost the county far more than the 15 cents each, we pay for their lodging." "We don't give them any meal tickets," said he. "We tell them that they can earn meal tickets by sawing wood at the headquarters of the anti-tramp society at the fire department. Only a few go there however, as out of the 1400 whom we lodged last year, only about 80 applied for work. Most of the boarding houses give them food and they don't have to work."

"I tell the tramps that they must get out of town as soon as possible and they usually go. I don't want them to stay and be arrested for that will cost the city something like \$10. Sometimes they will beg me to send them to jail but I refuse and tell them to get out of town. When they are unable to walk to the next town, we furnish them railroad transportation as this is much cheaper than letting them stay here. Some of them take advantage of this to travel. For instance, a man, a woman, and a child came here from Virginia, a few days ago. They were destitute and we had them on our hands to take care of. They wanted to get to Cadillac and if I would help them to Howell, they would leave town, so I gave them tickets to that place. That was the cheapest way to get rid of them and cost much less than keeping them over winter. They will work the same thing at Howell and so on, getting free rides to each county seat. In this way they can travel long distances."

With the coming of cold weather two weeks ago, Mr. Mason began to give out lodging tickets. Since then about thirty tramps have asked help. As cold weather advances, this number will increase. Once last winter 30 applied in a single night. Most of them are polite and give no trouble. Some are well dressed and Mr. Mason says the majority read much and are remarkably well posted in news and politics.

## Christ And The Madonna In Art.

Next Sunday evening and the Sunday evening following Mrs. Eliza R. Sunderland will give two lectures at the Unitarian church on "Christ and the Madonna in Art." The subject of the first lecture will be, "The Madonna and Child as Represented by the Great Masters," and that of the second, "Christ as Represented by the Great Masters." The lectures will be illustrated with stereopticon views of famous pictures by Raphael, Correggio, Leonardo de Vinci, Murillo, Ploekherst and Hoffmann.

## Sellick Wood.

On Saturday last Ann Arbor and Washtenaw county lost by the death of Mr. Sellick Wood, one of their oldest and most respected citizens.

On Wednesday Mr. Wood was well and worked in his office; on Thursday he prepared to dine at the home of his son, Mr. Frank Wood, but bad weather prevented; on Friday at 1 o'clock he was taken ill and on the following day at 2:15 p. m., he died.

Mr. Wood was born in Connecticut, in 1824. When six years old he came to this county with his parents, who settled in Lodi township. He remained at home, working on the farm in summer, and attending school or teaching in winter, until twenty-one years of age, when he married Miss Ellen Bliss with whom he lived until his death and who survives him. Purchasing a farm in Lodi, the young couple prospered so that in a few years they were able to buy the homestead on which Mr. Wood's father had first settled. Thirty-two years ago they moved to Pittsfield and after living there for one year on a newly purchased farm, came to this city. Here Mr. Wood engaged in business, dealing at first in apples and wool and later in lumber, until he came to be known as one of the city's most honorable and prosperous business men. His only child, Mr. Frank Wood, has been his partner for years.

Mr. Wood has been a member of the Congregational church for nearly forty years and was always an active republican, being at one time alderman for the first ward. The funeral services were held at the home on Division street, Tuesday, Rev. Bradshaw officiating.

## Ann Arbor Girl Married.

The following from the Milton Eagle tells of the marriage of a former Ann Arbor lady.

Married, at Colfax, Washington, November 15, 1897, at the residence of Prof. F. A. Sikes, Mr. Oscar C. Pierce, of Pendleton, to Miss Daisy Earle, of Ann Arbor, Michigan.

The young people arrived in this city Tuesday and were given a reception Wednesday evening at the residence of the parents of the groom, Hon. and Mrs. Nathan Pierce, which was a very pleasant affair. A sumptuous lunch, which the hostess knows so well how to prepare, was served during the evening. The evening was spent in social conversation and music to the enjoyment of all present and while the guests were at lunch the Mascot Boys' Band discoursed music on the lawn.

## PLUCKING COLORED FELLOWS.

That Is, Dark Colored Beans.—Ten Young Ladies Spend Ten Hours Each Day at the Business.—New Industry In Ann Arbor.—Will Bring More Business Here.

Last evening a REGISTER reporter was invited by Mr. G. Frank Allmendinger to visit a new feature that he had recently added to the plant of the Central Mills. It happened to be after dark and ye reporter came near being completely lost among flour barrels and machinery in that busy establishment while attempting to follow Mr. Allmendinger to a room in the extreme rear, the only one which could be spared from the regular business of the mill. Here he found a room about 10x20 feet in size, brilliantly lighted with electricity, and occupied by ten young ladies each sitting beside a bean distributing machine. These machines distribute a thin layer of beans upon a narrow moving canvass. The pickers watch for damaged or discolored beans and remove all such so that only nice clean, white beans pass into the receiver below. If there happen to be more damaged or discolored kernels than the girl is able to remove, and a little experience enables one to pick with great rapidity, a slight move of the knee stops the machine until she catches up. There is a great demand for work of this kind. The value of beans is increased from five to ten cents per bushel by being hand-picked, while many lots are so filled with damaged kernels that they are practically unsalable unless they are first gone over in this way. Heretofore there has not been anything of the kind in this city. As a result, many thousands of bushels of beans, and with them large quantities of other produce, have been taken to other markets.

Now that the Central Mills is prepared to do work of this sort, farmers, as soon as they learn about it, will no doubt bring their beans here to market rather than haul them a long distance to some place where they may secure the increased price, which results from a careful picking by hand.

## HELD HIM UP.

Willie McLean Robbed By Lodi Chicken Thieves.

Glen Tower and Willie McLean, both High school students, went to Lodi last week, to spend the Thanksgiving recess with friends. One night McLean started to go to a neighbors house and in crossing a bridge, was surprised to find a grain sack which proved to be full of chickens. As he stooped over the sack, someone knocked his lantern away and two men seized him. They went through his pockets and stole what money he had. The work is supposed to be that of a gang of petty thieves who have caused much trouble in Lodi.

## SURROUNDED BY A STOCKADE.

Method Adopted by an Ann Arbor Liquor Dealer.—Mrs. Schneider Protects Her Club House With One.—Tight Board Fence Six Feet High.—Shuts Off All View.—Keys Cost \$1.00. These Make the Holders Members of the Club.

Yesterday the officers discovered a new club house protection in Ann Arbor. It consists in a tight board fence six feet high entirely shutting off all view from the passage way between Mrs. Schneider's saloon on Washington street and a club house recently erected in the rear of her residence adjoining. Marshal Sweet, in company with a REGISTER representative, inspected the place last evening. He is puzzled to understand why such care has been taken to screen the entrance leading to the club rooms from the saloon.

It may be that the members of the club feel so exclusive that they shrink from the gaze of the common herd of humanity. Or maybe they are modest and do not wish to astonish the public by letting the world know how very proper they are. However, Marshal Sweet is disposed to think that there should be some leveling done, either the fence should be leveled down so that people may see over, or leveled up so that they may see under. It might also be proper for the officers to investigate the capacity of the tank line leading to the club room from the saloon.

## MASONS BANQUET.

Ann Arbor Lodge Entertains Brethren from Howell and Ypsilanti.

Ann Arbor Masons entertained their brethren from Ypsilanti and Howell, Monday night. The number of Masons attending was very large and Haugsterfer's men had a big job of catering on their hands, but they did it so well that the hungry brethren will long remember the occasion.

W. W. Watts acted as toastmaster and many bright speeches were made. The Royal Arch degree was conferred on John T. Paig, Wm. Arnold, Jr., and John Hoelzle.

J. Rockwell; Webster, Henry Hallen; York, Mansfield Davenport; Ypsilanti, City, first district, Bernard Kirk; second district, V. B. Beardsly; Ypsilanti town, Cary Davis.

## A BAD MISTAKE.

ISELL AND COMPANY WERE WRONGLY ACCUSED.

Another Firm Swindled the Farmers In A Bean Deal Ascribed to the Isbell Company.

An article in last week's REGISTER told of a scheme by which farmers in Seio and Superior townships were swindled by a firm which sold seed beans, promising to buy back the crop raised, at a certain price and then refusing to live up to the contract. The article said S. M. Isbell & Co., of Jackson had made the deal. A few days later we received a letter from the Isbell Company which said: "Every word of the article is false from beginning to end. We never attempted to have beans grown on a contract for us either in Delhi or Superior, or any township adjoining these. We ask you to retract the whole of this article from beginning to end. Would like to know from whom you got this information."

The REGISTER at once began to investigate and found the farmers about Delhi raving over a swindle just like the one described, but by another firm, with which Isbell and Company had no connection. The REGISTER reporter who wrote the article had gained his information from a source which he supposed to be perfectly reliable but which proved not to be so.

The REGISTER regrets the injustice done to Messrs. Isbell and Company, for it believes, upon investigation, that the firm is honorable, upright, and strictly reliable in every way.

# Look Out For Cancer!

Few people are born entirely free from blood taint. This is often very slight or remote, and sometimes may not develop at all in one generation, but breaks out in a serious disease later.

Cancer, the most dreadful of all diseases, is often the result of some blood taint inherited from generations back. It often appears as a mere mole or insignificant pimple, which later develops into an alarming condition. No one knows but that he may be subject to an inherited impurity in the blood, nor can he tell whether or not this may some day crop out in the form of destructive cancer. It is, therefore, important that every little sore or scratch, which does not readily heal, be given prompt attention, or a serious condition may result.

Mr. Robert Smedley, of Ocala, Fla., was the victim of a malignant cancer, which first appeared in the manner above described. He writes:

"At first I paid no attention to the little blotches on my face, thinking they would soon pass away. Before long, however, they became sore, and soon began to enlarge. I applied ordinary local remedies, but they had no effect, and I then consulted a physician. When

he told me I had cancer, I became alarmed and hastened to obtain treatment for I knew how dangerous cancer was.

"I received the best medical attention, but the cancer continued to grow worse until the physicians finally said that I would have to have an operation performed, as that was the only hope for me. This I refused to submit to, as I knew cancer was a blood disease, and my common sense told me that it was folly to expect an operation to cure a blood disease.

"Knowing S. S. S. to be a good blood remedy I decided to try it, and the first bottle produced an improvement. I continued the medicine, and in four months the last scab dropped off. Ten years have elapsed, and not a sign of the disease has returned."

The alarming increase in the number of deaths which occur as the result of a surgical operation is attracting general attention, and a strong sentiment against such methods of treatment is fast developing among the most intelligent classes. It seems that in almost every case where the doctors' treatment is unsuccessful, the learned physicians decide at once that an operation must be performed, and the keen blade of the surgeon is recklessly resorted to.

The many caustic plasters which are applied to remove cancers are more painful than death, and the danger of a surgical operation is as great as the disease itself. No plaster or surgical operation can cure cancer, because it is a blood disease; the destructive cancer cells are in the blood, and cannot be cut out, or removed by local treatment. As the disease must be forced from the blood, it is only reasonable to rely upon a real blood remedy for a cure, one which goes direct to the cause of the trouble and removes it.

S. S. S. (Swift's Specific) is the only known cure for cancer and other obstinate and deep-seated blood diseases such as Scrofula, Eczema, Catarrh, Rheumatism and Contagious Blood Poison. It is **Purely Vegetable**, and is the only blood remedy guaranteed to contain not a particle of mercury, potash or other mineral, which means so much to all who know the disastrous effects of these drugs.

Books on Cancer and Blood Diseases will be mailed free to all who address Swift Specific Company, Atlanta, Ga.

**Climbing Old Ararat.**  
The recent freezing to death of a Russian professor while climbing Mt. Ararat with a party must have been due to exceptional circumstances. One of the most notable ascents of Ararat was made a few years ago by two American bicyclists, Allen and Sachtleben, who were on a wheeling tour around the world. They started early in July with two companions, and on the second night camped at an elevation of 10,000 feet. They reached the summit on the afternoon of July 3, and planted a small American flag on an ice pick in honor of the day. The path of the mountain is extremely dangerous, and few have overcome the difficulties of the upper rise of 6,000 feet.—St. Louis Globe-Democrat.

**A Flag of Warning.**  
Beware of the dry, tickling, hacking, morning cough, for it warns you that consumption lurks near. The famous Dr. Bull's Cough Syrup will cure it. "I had a very bad cough. One doctor pronounced it consumption. I used Dr. Bull's Cough Syrup and was completely cured; the cough left me and has never come back. Simon Smasal, 375 31st Street, Chicago, Ills." Dr. Bull's Cough Syrup costs but 25 cents. Ask for Bull's, take only Bull's.

## ITEMS OF NEWS.

### IMPORTANT AND INTERESTING MATTERS IN BRIEF.

**Germany Assumes a Threatening Attitude Toward Both China and Hayti—Explosion of 80 Quarts of Nitro-Glycerin Badly Damages Three Towns**

**Germany Acting Very Warlike.**  
Advices from Berlin state that Emperor William has ordered a large fleet to proceed to Chinese waters, where some active work and possible fighting is confidently expected. Great significance is attached to his recent remark that Germany must forestall England. It is also asserted that before seizing Kiaochau by the Germans, the czar of Russia was consulted and a tacit understanding was arrived at between the rulers regarding the course to be pursued by Germany. It has also been determined to send a warship to Hayti to enforce the demand for indemnity for the imprisonment of Lueders, the alleged German citizen. The Berlin papers express their gratification at the friendly attitude of the United States, stating that otherwise it would have been a serious affair for Germany.

**Hayti Appeals to Uncle Sam.**  
The attention of the department of state at Washington has been formally called to the friction between Germany and Hayti, as a result of the arrest by the officials of the latter country of a half-blood named Lueders, who claims to be a German citizen, but who is said to be the son of a German father and a Haytian mother and was born in Hayti. The state department has requested U. S. Ambassador White at Berlin, to ascertain exactly the intentions of Germany with respect to the claims of Herr Lueders. Mr. White has also been instructed if any schemes of annexation exist or if there is an intention to make an excessive demonstration with a view of unduly punishing Hayti, to intimate to the German government that the United States could not tolerate either of the courses before mentioned, though in principle having no objection to Germany obtaining satisfaction within justice.

**An Explosion Like an Earthquake.**  
Chesterfield, Ind., was almost wiped off the map at an early morning hour by the explosion of 80 quarts of nitro-glycerin which had been placed in an open field half a mile from the town. James Gold's house, 300 rods distant, was torn to pieces. The explosion tore a hole in the ground down to the water line, and a three-ton engine was torn to fragments. Marion Mansey and Sam Maguire were working at a gas well near by and Mansey was thrown 50 feet, but not fatally injured, while Maguire was thrown 100 feet in the air and badly injured, but will recover. The little town of Chesterfield is a mass of ruins, every house was moved from its foundation, windows shattered, doors smashed in, every light put out, and the plastering shaken from the walls. Several people were shaken out of bed. At Dalesville, two miles away, and at Yorktown, five miles distant, the damage was almost as great. Many people were injured, and it is a miracle that none were killed outright. The jar was felt for 15 miles in all directions. The gas in the well was blown out and a workman named Cooper lit it and caused another explosion in which he was fatally burned. The damage cannot be estimated.

**Capt. Lovering Severely Censured.**  
In the courtmartial of Capt. Lovering at Fort Sheridan, Chicago, Col. Hunter, acting as judge advocate, severely arraigned Lovering for his treatment of private Chas. Hammond. In summing up the case Col. Hunter said the testimony showed beyond a doubt that the officer kicked Hammond, prodded him with his sword and cursed him. The incident did not justify Lovering in making a mistake of judgment or losing his temper. If the fact be established that an officer may with impunity order any punishment he pleases to be inflicted upon the soldier it reduces enlisted men to the condition of slavery.

"That Hammond should have been produced in court I do not deny, but that his disobedience and stubbornness justified his being roped and dragged there, and in his prostrate helpless condition kicked and prodded with the sword, I do most emphatically deny, for the officer had about him in the guard soldiers who were able to lift Hammond and carry him to court."

**Canada Refuses to Stop Pelagic Sealing.**  
A reply has been prepared by the Dominion government and forwarded to Washington in respect to the negotiations which are now going on between the countries. The government will not say what the reply is until it reaches Mr. Foster at Washington, but it is understood that it is a refusal to stop pelagic sealing for a year as the United States requested. The whole question depended on this and therefore it would appear the negotiations are to fail in their object. However, there is a report that the Canadian government has proposed an alternative proposition for the consideration of the United States.

**Turkey Has Another War on Hand.**  
A dispatch from Belgrade, Servia, announces that 5,000 Albanians belonging to the districts of Ipek and Diakova are in full revolt against Turkey. A fight occurred between the Ottoman troops dispatched to Uskub from Salonica and Monastir, and the Albanians. The engagement took place near Diakova and both sides lost heavily.

**Constantinople.** In consequence of the revolt of the Albanians of the districts of Ipek and Diakova, northeast of Sentari, large bodies of Bulgarian and Servian troops have been ordered to proceed to the disaffected district.

In reply to numerous inquiries as to the standing of the Capital Life association of Washington and the Old Wayne of Elkhardt, Ind., Insurance Commissioner Campbell has issued a red hot notice in which he terms their graveyard concerns of the most fraudulent type and declares that these and other similar "gangs" (calling themselves companies) are worse than thieves, for they not only swindle those who pay but make human life a subject of barter between parties to whom it does not belong. None of these "companies" are authorized to do business in Michigan.

## BIG LOSS OF LIFE.

**England's Coast Swept by a Terrific Cyclone—Property Loss Immense.**

A tremendous gale, which swept the English coasts for over 24 hours attained the fury of a cyclone in many places and was accompanied by snow and hail. A long list of fatalities, wrecks and damage to property has already been received. All the coast towns have suffered and a score of bodies has been washed ashore. Falling walls and flying debris have added to the loss of life. Vessels are reported on shore on every part of the coast and many ships are known to have foundered with the probable loss of all hands. There is much wreckage about the Goodwin Sands. At Lowestoft, Yarmouth and elsewhere the sea has flooded the quays and neighborhoods, washing away the esplanades and doing other serious damage.

Immense damage has been done to the government property at the Sheerness dock yard and the Woolwich arsenal. Seven thousand troops were hurriedly ordered out to remove thousands of pounds worth of ammunition and stores from the wharves and sheds to places of safety. The tide continued to rise and invaded almost all the workshops, quenched the engine fires and stopped the electric lights. The workmen were obliged to wade home through water knee deep. Despite all the precautions damage to the amount of many thousands of pounds has been done. At Sheerness and Queensboro, two miles away, hundreds of acres were submerged, scores of cellars flooded and 200 yards of the Sheerness pier washed away. The mouth of the Thames suffered severely, several townships being partly submerged.

At Liverpool the sea blew off the roofs of several houses, threw down chimneys and tore up trees. The Mersey flooded its banks on the Chester side and deluged the shore district for miles. Similar disasters occurred at Holyhead, where a number of valuable yachts were sunk at their mooring. Scarcely a vestige remains in sight of the wreck of Lord Nelson's old flagship, the Poudroyant, long fast in the sands of Blackpool.

## REVOLUTION IN AUSTRIA.

**Disgraceful Scenes in Parliament—Premier Attacked—Serious Rioting.**

The anti-German feeling which has caused numerous uproarious scenes in reichsrath (parliament) of Austria-Hungary, at Vienna, during several weeks past has finally culminated in some most disgraceful scenes in the lower house and these spread to the streets where large crowds had gathered, and amidst a loud tumult there were many cries of for revolution and threats of the guillotine for Count Baden, the premier. An attempt was made to attack the premier's residence, but after repeated charges the police dispersed the rioters, and scores were arrested. The daily newspapers which published accounts of the troubles were confiscated by the authorities.

The disturbances in the reichsrath and the riots on the streets continued for several days and grew in violence each day until finally in utter despair of restoring order Count Baden, the premier, and the other members of the cabinet sent their resignations to Emperor Francis Joseph, who reluctantly received them. Baron Gautsch, who held the portfolio of public instruction of the retiring ministry, was at once intrusted with the task of forming a new cabinet. Baron Gautsch will form a neutral cabinet of governmental officials and endeavor to arrange an understanding between the German and Czech leaders on the questions which have caused the troubles. The street riots at once quieted down when the resignation of Baden became known.

## An Adventure with Bank Robbers.

Four robbers attempted to break into the vault of the North Amherst, O., savings bank. They had succeeded in opening the two outer doors of the vault with dynamite and working on the money safe when Henry Wesbecher, who rooms just above the bank, was awakened. A telephone in his room enabled him to send an alarm to Town Marshal Sanders and Vice-President Plato and Cashier Steel. A robber on guard outside heard the telephone and fired his revolver to alarm his companions, and young Wesbecher raised a front window and fired two loads of buckshot at the robbers as they retreated, bringing down one whom the others had to carry. Mr. Plato, in hurrying to the bank, captured a suspicious stranger at the point of a revolver and he was locked up as one of the robbers.

## Their Horse Carried Them to Death.

Mrs. Anna Scaman and her two daughters, Mary and Katie, were driving across a bridge which spans the Hydraulic, north of Middletown, O., when their horse became frightened and plunged over the side guard of the bridge into 15 feet of water. The ladies went down with the horse and wagon. The screams of the ladies brought help, but not in time to save the daughters. The mother was rescued with great difficulty and is still in a serious condition. The father of the young ladies is a prominent farmer, and he and his sons are almost prostrated over their terrible loss.

A New Year's Gift Heralded.  
The measureless popularity of Hostetter's Stomach Bitters has been the growth of more than a third of a century. As in the past, the coming year will be ushered in by the appearance of a fresh Almanac, clearly setting forth the nature, uses and operation of this medicine of world wide fame. It is well worth perusal. Absolute accuracy in the astronomical calculation and calendar will, as before, be valuable characteristics, while the reading matter will include statistics, humor and general information, accompanied by admirably executed illustrations. The Almanac is issued from the publishing department of The Hostetter Company at Pittsburg, and will be printed on their presses in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish. All druggists and county dealers furnish it without cost.

## PHYSICIANS ORDER IT!

A REMARKABLE COMPOUND THAT REALLY CURES.

**RHEUMATISM, NEURALGIA AND DISTRESSING NERVOUS DISEASES.**

**Ann Arbor Druggists Say That It Has A Steadily Increasing Sale.**

Physicians prescribe it! This is one of the several remarkable things about Paine's celery compound that distinguish it from other advertised remedies.

Another noteworthy point about this compound is that it was discovered by Prof. Phelps, LL. D., of Dartmouth College, one of the ablest physicians and surgeons of the country. Prof. Phelps was aided in his work by Col. M. K. Paine, the well-known compounding chemist, and Paine's celery compound took its name from the latter.

The result of their labors was a scientific, common sense remedy for those diseases and troubles that result from weakened nerves and over-strained mind. It is not a sarsaparilla, bitters, or mere stimulant, but a true food for the nerves and brain, and is rightly regarded by both the medical profession and the public as an unequalled system regulator.

But perhaps the most remarkable feature in connection with this compound is that its formula is freely furnished to reputable physicians, and for that reason, perhaps, they have special confidence in prescribing it, knowing it to be harmless, as well as useful.

Such men as Dr. J. H. Hanford, the well-known medical authority and investigator, Abm. Livezey, M. D., who is editor of several medical journals, and Dr. A. W. K. Newton, the skillful surgeon, endorse Paine's celery compound with words of most positive praise, and prescribe it for rheumatism neuralgia, and all diseases that result from a weakened and impoverished condition of the nerves and blood.

Inquires among the local drug trade elicit the information that this compound is meeting with an increasing sale and that those of their customers who have used it, are highly pleased with the results and invariably speak of it in the highest terms.

It is particularly pleasing at this time to know that there is a remedy that cures rheumatism, when the sufferer is within reach of human aid. In two or three instances, as the Register man learned from those who had used the compound, the results were almost miraculous, restoring to health men and women who had been confined to the house for months, and enabling them to walk without the aid of crutches.

## It Made Her Look Proud.

"Is Maud still thinking of joining a religious sisterhood?" "Gracious, no! Her father bought her a new bicycle." —St. Louis Globe-Democrat.

## BICYCLES.

Certainly one of the most widely known among the bicycle dealers in this country is THE BROWN-LEWIS CYCLE CO., of Chicago, and the stupendous business which this company has built up during the last few years is but another proof of the old adage that "Honesty is the best policy," and shows that fair dealing is bound to win out, even against unfair competition.

They took a long step in the lead of other manufacturers when they originated the plan of shipping bicycles anywhere on the continent, subject to full examination and approval before acceptance, trusting wholly to the public's appreciation of a good thing at the right price.

Their line is the most complete in America, embracing machines of all grades, at prices within the reach of everyone. Just now they are advertising some very remarkable winter bargains to sell out their stock on hand in order to make room for '98 models, which will soon be on the market. Satisfaction is guaranteed in all purchases, and any of our patrons who desire anything in their line will do well to correspond with them.

## A New Year's Gift Heralded.

The measureless popularity of Hostetter's Stomach Bitters has been the growth of more than a third of a century. As in the past, the coming year will be ushered in by the appearance of a fresh Almanac, clearly setting forth the nature, uses and operation of this medicine of world wide fame. It is well worth perusal. Absolute accuracy in the astronomical calculation and calendar will, as before, be valuable characteristics, while the reading matter will include statistics, humor and general information, accompanied by admirably executed illustrations. The Almanac is issued from the publishing department of The Hostetter Company at Pittsburg, and will be printed on their presses in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish. All druggists and county dealers furnish it without cost.

### INTERESTING LETTERS.

The following interesting letters were received by Dr. Hartman, Columbus, Ohio, from thankful women; Mrs. L. A. Adams, Beardon, Tenn., writes: "I can gladly recommend Dr. Hartman's wonderful remedies. They are all any housewife needs with the books sent free treating on the different ailments. I have used Pe-ru-na for four years and it never fails to give relief if taken in time. Whenever I feel done up it helps me wonderfully. In cases of colds, chills, la grippe, if taken in hot water, it acts like a charm. I can recommend it for pains in the back, cold hands and feet. You will save doctor bills by the use of Dr. Hartman's wonderful medicines."

Miss Linnie Wiggins, Berlin Heights, Ohio, writes: "I suffered with catarrh of the nose head and this for three years. I could get no relief until I began taking Pe-ru-na. I took three bottles. It has done wonders. Independent of curing my catarrh, it has greatly improved my general health. I cannot describe the change. Any one suffering from catarrh, and knowing that it can be cured would be very unwise not to take Dr. Hartman's advice. Follow directions, Pe-ru-na does the rest." Address The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio, for a free book entitled "Winter Catarrh." Ask your druggist for a free Pe-ru-na Almanac for 1898.

Maurice Quirk, aged 56, a traveling man of Flint, was struck by a Grand Trunk train and instantly killed, at Otterburn, six miles west of Flint. The train, a through flyer, was running at a high rate of speed and Quirk, being slightly deaf, drove upon the track as the train dashed through. He was thrown quite a distance and his neck was broken, the horse was ripped open and the buggy was smashed beyond repair.

The death of Thomas Knight, an old resident of Marshall, is very mysterious. He was apparently in the best of health, and retired as usual, but next morning he was found dead in bed. It was thought that the cause of death was rheumatism of the heart, but later developments show there was a hole two inches deep in the corner of his left eye at the back of the nose, presumably made with some blunt instrument, and causing instant death.

For two and a half days the steamer H. E. Rannels, of Port Huron, was ashore on the end of Point Abbaye, before the first news reached a place from which help could be summoned, when the mate and one sailor arrived at Pequaming. The Rannels struck on the Point in a heavy snow storm, about midnight. She was laden with coal for Lake Linden. A heavy sea was running and to prevent pounding on the rocks the captain ordered the ship scuttled. In spite of this, the hull received hard usage on the rocks and is very badly damaged and was released with much difficulty.

### SOME NEW PROBLEMS TO SOLVE.

Some of the problems the children bring home from school are too difficult for us to solve, but we have more difficult questions than these.

The doctors tell you to stop drinking coffee. If you persist, they will tell you of the awful consequences sure to follow.

"Why don't you stop?" "Can't," Why, yes you can." In "Golden Nectar" you have a beverage so much like coffee in taste, color and aroma, as to deceive almost anyone, but you must contrast the results in order to appreciate "Golden Nectar."

"Golden Nectar" is the immediate and natural product of American fields; bone and blood making cereals enter largely into its manufacture.

It is a pure food beverage, while satisfying every demand for coffee, does not destroy the stomach and liver as does coffee, but brings these organs into healthy action.

"Golden Nectar" enriches the blood, while coffee dries the blood up. Take your choice.

Boil "Golden Nectar" 20 minutes—add cream, and sugar to taste. For sale by all grocers.

The Free Press is responsible for the following. "A local paper prints a special story from Lansing to-night to the effect that Sky Olds has just finished a tour of the state in the interest of James O'Donnell, of Jackson, for governor. It is said that Olds made his tour in the interest of the railroads; that O'Donnell has promised to stand by the anti-Pingree candidate and that Olds hopes to own sufficient votes in the legislature to hold the balance of power, and possibly force his own election to succeed Senator Burrows. It is known that Olds was in this city last Saturday and made similar statements to local politicians, even to the extent of claiming that O'Donnell can beat Pingree to a standstill.

Attorney-General Maynard returned to-day from a hunting trip to the Upper Peninsula with State Game Warden Osborn, and will go to Lansing at once. He saw a number of the north country politicians while he was away and he believes that his chances for the supreme bench next spring are excellent. Regarding the candidacy for attorney general, it is possible that Deputy Attorney-General Chase may go into the fight, for he is being urged by local friends.

That is a fairly good example of the Democratic view of the Republican situation in Michigan.

If the average farmer did not enjoy his Thanksgiving turkey this year, it was probably because he was too busy with prosperity which this first year of the McKinley administration has brought him. The official figures continue to show such prosperity as the farmer has not known for many years. The November exportation of wheat has been nearly fifty per cent. larger than during last year, and the shipments of last week from the Atlantic ports are the largest recorded in any week for many years, if not at any time in the history of the country. The actual exports of wheat from all ports for the crop year thus far has been, in round numbers, a hundred million bushels. When the increase in prices is taken into consideration also, it will be seen that the farmers are getting a very large sum of money for their wheat product this year—far in excess of that in many preceding years. The exportations of corn are also increasing, those for the present month being nearly a million bushels in excess of November of last year.

And while the farmer has occasion to be thankful for his fortune in good crops and good prices, other citizens of the United States have occasion to be thankful to the farmer that his prosperity has brought prosperous conditions to others and to the country itself. The alarm which was felt at this season during those years in which gold was being drawn out of the country, and the Government compelled to sell bonds to replenish the gold in the Treasury, no longer troubles the financiers or business men of the great cities, nor the administration. The fact that the farmers of the country have many millions of bushels of wheat to send abroad, for which gold is paid by the gold standard nations purchasing it, obviates the danger of reduction of the quantity of gold in the country, or of raids upon the gold in the Treasury. Treasury officials say they are getting greater quantities of gold than they need or even than they desire, the gold reserve now reaching nearly \$160,000,000, while the official figures showing the amount of gold in the United States and in circulation continue to indicate an increase, due doubtless to the fact that our exports are now largely in excess of our imports, which have fallen materially since the enactment of the new tariff law.

### The Coming Of Congress.

CONGRESS, when it meets in its regular session next week, will have no occasion to regret its action in the special session by which it placed the Dingley tariff law upon the statute books. The doleful predictions made by the Democrats about the prospective operations of the Republican tariff measure which was enacted at the special session a few months ago are not being realized. On the contrary, the four months in which it has been tested have proven that the Republicans made no mistake in their action with reference to this measure. Its earnings in the four months in which it has been in operation are many millions in excess of those of the corresponding months in the history of the Wilson law and are sufficient to fully justify the belief of the Republicans that it will, when normal conditions are resumed, prove ample in its qualities as a revenue producer and in its effects upon our commerce. The receipts of the Treasury during the first four months of the operation of the law will amount in round numbers to \$90,000,000 while the Wilson law in its first four months earned about \$83,000,000. When it is considered that the Wilson law had the benefit of enormous importations which had been held back in order to get the advantage of the lower tariff rates which it gave, and that the Dingley law labored under the disadvantage of very small importations because of the heavy shipment into the country prior to its enactment, it will be seen that the operation of the new law indicates that it is to be much more successful as a revenue producer than was the Wilson law. The further fact that the receipts have steadily increased, and that those of November will be in round numbers, \$25,000,000, shows that with the return to normal business conditions, and the importations which will follow the absorption of the immense stock which was in hand when the new law went into effect, it is perfectly apparent that it will, within a very short time, be producing all the revenue that the Government requires to meet its current expenditures, and a surplus to put into the sinking fund, something which was not done in any period of the Wilson law.

### Exportations Increase Under the New Law.

ONE curious development since the new tariff law went into effect and one in which the members of Congress, when they come together for the regular session, will be interested, is the increase in exportations to those countries which offered protests against the Dingley tariff bill, and which, it was claimed, would exclude American products unless the tariff bill, should be shaped to suit their wishes. There were thirteen nations which offered formal protests against the tariff bill, probably a larger number than ever before. Curiously, an examination of the records of our commerce since the new law went into effect shows that in the face of nearly every country thus protesting our sales have increased under the Dingley law instead of decreasing, as was predicted by the opponents of that measure. Austria-Hungary, which was one of the first countries to offer protest against the new law, has bought from us nearly twice as much in the first two months of its operations as she did in the corresponding months of last year. Belgium, which also entered protest against the new law, bought over \$11,000,000 worth of products in August and September under the Dingley law, while she bought but a little over \$5,000,000, worth in August and September, 1896, under the Wilson law. France, which also protested against certain features of the bill, bought \$6,939,631, in value from us in September, 1896, under the Wilson law, and took \$14,250,000, worth from us in the same months of 1897 under the Dingley law. Germany, whose protest was much talked of when its attention was brought to the public, bought nearly \$20,000,000, worth of our goods in August and September of '97, under the Dingley law, while her purchases in August and September, 1896, were only a trifle over \$15,000,000. Italy increased her purchases from us nearly 50 per cent. in August and Sept. as compared with the corresponding months of 1896. Turkey, which also protested, followed that action by purchasing six times as much from us in the first two months of the new law as she did in the corresponding months of last year. Even Japan, which has made such violent protest against certain features of the new law, increased her purchases of American goods materially in August and September under its operation, as compared with August and September of 1896; while Great Britain, also one of the protesting countries, increased her purchases nearly \$6,000,000, in August and September, 1897, as compared with the corresponding months of 1896. Taking the thirteen countries which offered protests against the Dingley law, and comparing their purchases from the United States in the first two months of its operations with the corresponding months of the preceding year, it is found that the purchases from us under the new law were nearly \$25,000,000, greater than in the corresponding months of last year.

### BEAN RAISING.

#### Is Becoming a Profitable and Common Industry.

The wheat crop of Washtenaw county has been, until a very recent period, about one and one-half million bushels per year. In 1896 it was little more than 600,000 bushels. The decrease in the amount produced has brought great distress to the farmer, inasmuch as wheat has been his "money" crop. The decreased production has also brought distress to the flour mills of this section, which have been largely dependent on the grain raised locally. The shortage in grain made it seem advisable to the proprietors of the Central Mills to secure control of other buying stations, which they have done at Azalia, Monroe county; at Oak Grove, in Livingston county; and at Vernon, in Shiawassee county, each point being on the Ann Arbor railroad and in the center of a rich agricultural community.

This year the wheat crop of Washtenaw county has again advanced to something like 1,300,000 bushels and our mills are again getting large supplies at home. The firm above named has, therefore, become almost involuntarily a large shipper of grain of nearly all kinds. This year has seen a great amount of smutty wheat and some grown and wet wheat. In the Central Mills is a large dry kiln which has been used for drying the wet wheat. Markets have been found for all grades of grain, and farmers have found, in turn, a market for grain which would otherwise have been scarcely saleable.

About Oak Grove and Vernon, many beans are grown, and about Ann Arbor, too, there has been, in recent years, an acreage of beans, though much smaller than that about the other two points named. There having been practically no market here for this product, Messrs. Allmendinger & Schneider sometime ago determined that there should be a market. They commenced to buy and ship, following up the start by this year introducing cleaning machinery for beans at Ann Arbor, at Oak Grove, and at Vernon. After being cleaned, the beans are hand-picked, apparatus for the employment of 30 women being put in at the three points named. There is a "picker" driven by power, for each woman, which brings the beans constantly toward her on an endless belt. The little machines are under perfect control by the operator, and if stained beans come too rapidly, by a slight pressure of the knee the action of the machine is stopped for a longer or shorter time, as may be necessary, giving time to remove all "splints" and stained beans. When picked the beans are sewed into new grain bags and are then ready for shipment.

The REGISTER's representative visited the picking room on Tuesday and learned that on that day there had been received from wagons or were on track some 1700 bushels of beans, many of them not merchantable, in an "unpicked" condition, but which would become of the highest grade through the process of cleaning and picking. Some of these beans were drawn by wagon a distance of nearly or quite 20 miles because of the price paid here for the stock. It is needless to remark that the gain of any new industry of this kind makes Ann Arbor a better market point and that the expenditure here of money for beans and for labor is a distinct advantage for tradesmen in all other lines of business.

We learned that shipments of beans in carloads had either just been made or were to go at once to Evansville, Ind., to Chicago, Ill., and to Boston, Mass. If successful in the venture as at present carried on, we understand that Messrs. Allmendinger & Schneider will considerably increase the scope of the work.

### A PERFECT SUCCESS

Was the Michigan Telephone Company's Report of the Chicago Game.

The Michigan Telephone Company may well be proud of the success of its scheme to report the Thanksgiving game in this city. The School of Music was packed with people. Mr. H. G. Prettyman received the messages from the phone and announced them, showing on a chart the exact positions of the teams. Thus the crowd knew at any instant just how matters stood at the Coliseum.

At the side of the gridiron the telephone company had erected a platform on which two phones were placed. At one sat Mr. Mumford, a Cornell graduate football man and telephone expert. His phone was connected with another movable one carried by a man on the field, who followed the ball and described the minor points of the game to Mr. Mumford who in turn told them to the REGISTER man who sat at the other phone and talked to Mr. Prettyman in the School of Music.

### Sunday School Convention.

The Washtenaw County Sunday School Association will hold its annual convention at Ypsilanti, December 10 and 11. All schools in the county are urged to send as large a delegation as possible. Programs will be sent to all the schools as soon as they are ready.  
E. E. CALKINS, Sec'y.

There is no ambition nobler than that of the hardworking farmer. He toils early and late to secure for himself and his family that most lasting of fortunes, an allotment of land, clear of indebtedness. No other fortune is so secure and permanent. There are in England families of small farmers, living in assured comfort and contentment, upon the lands acquired by their forefathers 800 years ago.

The achievement of the farmer's ambition depends a great deal upon the good health of himself and his family. If they suffer from bilious attacks and indigestion and do not promptly resort to the right remedy, almost any known sickness may be the result. Dr. Pierce's Golden Medical Discovery is a speedy cure for biliousness, indigestion and the evils that follow them. It makes the liver active, the digestion perfect, the appetite keen and the blood pure, and builds healthy flesh and muscle. An honest druggist won't urge upon you a substitute.

"I send you my most sincere thanks for the benefit I have received from your medicine," writes Edward D. O'Neill, Esq., of No. 24 Swan St., Cleveland, Ohio. "I hope you will publish the same as it may benefit some other poor sufferer in England families of small farmers, laid up with lumbago or sciatic rheumatism. I could only walk with help of two sticks for nine weeks. I tried several remedies and doctored with some of our best physicians and was not getting relief. So I tried Dr. Pierce's Golden Medical Discovery. After using two bottles of it I was all right."

Dr. Pierce's Common Sense Medical Adviser teaches you all about the home-treatment of diseases. It contains 1,008 pages and 300 illustrations. It used to cost \$1.50; now it's FREE. For paper-cover, send 21 one-cent stamps, to cover mailing; cloth-cover, 10 cents extra. Address, Dr. R. V. Pierce, Buffalo, N. Y.

### The Cigarette and the Youth.

This is the title of a pamphlet written by E. A. King and issued by the Wood-Allen Publishing Company.

The use of cigarettes is becoming universal. During the fiscal year 1896, the number manufactured in the United States was 4,043,798,737. The greatest production was in October, during which month 458,929,090 were manufactured. A large part of the cigarettes are rolled by hand and a low slum element is employed to do the work. Many of those have loathsome diseases which may be contracted by the smoker.

A physician who further investigated the subject told Mr. King that there is opium, valerian, cannabis, indica, and other appetite kindling drugs are used to a large extent. This is easily noted in the increasing craving for the cigarette in the constitution of the smoker. He begins with one, then two, then three, and so on, to five or more boxes a day, until at last an internal gnawing desire takes complete possession of the victim. The cigarette smoker draws the smoke into the depths of his lungs, holds it there a moment, and then expels it. The poison is thus allowed to penetrate to every portion of the lung cavity, and, by absorption, is taken into the blood.

The parent whose blood and secretions are saturated with tobacco, and whose brain and nervous system are semi-narcotized by it, must transmit to his child elements of a distempered body and erratic mind; a deranged condition of organic atoms which elevate the animalism of the future being at the expense of the moral and intellectual nature.

While smokers may be apparently free from these evils themselves, yet children born to them may grow up weakly and nervous, tainted with other hereditary ailments, and quite frequently epileptic and imbecile.

### Daisies in the South.

A southern man says the daisy was never known in the south until after the war. Now every part of it that was visited by the Union army is covered with daisies. "Sherman brought them to us," he said, "and the march to the sea can be followed in the summer time by keeping where the daisy grows. The seed seems to have been transported in the hay that was brought along to feed the horses. This is the only explanation that has ever been made of it."

### MOTHERHOOD.

Mrs. Pinkham Declares No Woman Need Despair.

There are many curable causes for sterility in women. One of the most common is general debility, accompanied by a peculiar condition of the blood.

Write freely and fully to Mrs. Pinkham. Her address is Lynn, Mass. She will tell you, free of charge, the cause of your trouble and what course to take. Believe me, under right conditions, you have a fair chance to become the joyful mother of children. Mrs. LUCY LYTTLE, 255 Henderson St., Jersey City, N. J., certainly thinks so. She says:

"I am more than proud of Lydia E. Pinkham's Vegetable Compound, and cannot find words to express the good it has done me. I was troubled very badly with the leucorrhoea and severe womb pains. From the time I was married, in 1882, until last year, I was under the doctor's care. We had no children. I have had nearly every doctor in Jersey City, and have been to Belvin Hospital, but all to no avail. I saw Mrs. Pinkham's advertisement in the paper, and have used five bottles of her medicine. It has done more for me than all the doctors I ever had. It has stopped my pains, and has brought me a fine little girl. I have been well ever since my baby was born. I heartily recommend Mrs. Pinkham's medicine to all women suffering from sterility."

### At The Athens Theater.

Modjeska will play Marie Stuart at the Athens Theater to-night. The noted actress has been resting for some years. In her appearance at Toledo a few days ago, she was received with more than usual applause. In the early part of the drama she was finely assertive of her rights as England's lawful ruler, tolerant of the pretensions of the haughty Elizabeth and steadfastly devoted to the faith, with great care and excellent accomplishment did the actress read the lines, at the same time investing the picture with that delicacy and refinement necessary to proper achievement.

### "My Friend From India."

Those who love an evening of innocent laughter and fun unadulterated by coarseness will doubtless go and see the new comedy entitled "My Friend India," at the new Athens Theater Friday, Dec. 3d. EARLY ENGLISH WATCHMAKING

Mary Queen of Scots Had Two "Death's Head" Timepieces.

I am unable to trace any reliable evidence of English watches having been made until quite the end of the sixteenth century, although German and French productions were imported earlier, says Good Words. Derham in the second edition of his "Artificial Clockmaker," published in 1700, mentions an eight-day watch which he was told belonged to Henry VIII., but the context clearly shows a weight timepiece is referred to. Among the possessions of Edward VI. as quoted by Wood from a royal household book, is "one Jarum or watch of iron, the case being likewise iron gilt with two plummettes of led." The first words of this description may seem to indicate a watch with a mainspring, but such an assumption is at once dispelled by the mention of the "plummettes of led." That Elizabeth owned a large number of watches is certain. In 1571 the earl of Leicester gave to his royal mistress "one armet or shakell of golde, all over fallly garnished with rubyes and diamonds, having in the closing thereof a clocke." From this it will be seen that the modern custom of wearing the watch in a wristlet is out a revival of sixteenth century fashion. It is said that Mary Queen of Scots had two "death's head" or skull watches, which she presented, one to each of two favorite maids of honor. Among others which tradition has assigned to the Scottish queen Octavius Morgan mentioned two which he considered to be of the period claimed for them. One was a ghastly memento mori watch, in a case of crystal formed like a coffin, and the other an octagonal watch. The latter, it is asserted, was given by Mary to John Knox the reformer. The possession of many watches is ascribed to James I., but such as he did possess do not appear to have been utilized as timekeepers on every occasion, for in Savile's record of a stated journey to Theodald's in 1603 it is stated that the king stopped at the Bell at Edmon-ton, and, wishing to count the number of vehicles passing in a certain time, he "called for an hour glass."

The Wrong Thing.

To do the right thing at the wrong time is as bad as to do the wrong thing at any time. How often have we blundered just at this point! If we review the past we will see that in many cases we have brought trouble upon ourselves, not because we did a wrong thing, but because we did just the right thing to be done, but we did it at the wrong time. We need great caution and care. Guard well this point.

The War Loans of the Georges.

At the end of the eighteenth century, during the war between Great Britain and France, the government of the former, being in difficulty for money, raised it in a most reckless manner, thereby increasing the national debt by the year 1815 and the battle of Waterloo, on June 18th, that year, to \$900,000,000, by borrowing it at an extraordinarily high discount, which word, used in this sense, signifies the amount deducted from the sum borrowed at the commencement of the credit. Thus, the war loans negotiated under George II. and George III. amounted to £794,000,000 sterling, but produced in reality no more than \$555,000,000, or only 73 per cent of the £555 or nominal value. Between 1785 and 1816 the nominal amount borrowed was \$18,400,000,000 pounds; but the real sum raised was only \$433,000,000, and upon that there was an annual charge, at an actual interest of 5.40 per cent, of 23,387,000 pounds.

To Detect Changes of Speed.

Engines used in electric lighting are required to run with great regularity. An interesting device for detecting, with extreme accuracy, any change of speed in such an engine is employed in an Elizabethport factory. Two metal plates are pierced with corresponding slits and placed one in front of the other so that, when the slits are in line, the spokes of the fly-wheel of the engine can be seen passing them. One of the plates is caused to oscillate, by means of an electro-magnet, at such a rate that the two slits are in line every time a spoke is passing. If there are six spokes in the wheel, and the wheel turns 400 times in a minute, the movable slit must oscillate 2,400 times in a minute. If the speed of the engine is perfectly regular, a spoke will always be seen directly in line with the slit; if the speed varies the spoke will appear ahead or behind its proper place, according as the rate of the wheel's revolution is increased or diminished.

Familiarity Breeds Contempt.

The Buffalo Express says: "It is true in some quarters that the continual display of the American flag on schoolhouses and other public buildings has had an effect exactly the reverse of that hoped for. The intent was to make children love the flag more, to increase their patriotism. In certain school districts of Buffalo, where faded, tattered flags fly, the children appear to have less respect for their nation's emblem than ever before. Familiarity breeds contempt."

A SWELL AFFAIR.

FRENCH AND BRITISH FIGHT.

West Africa the Scene of the Conflict—French Capture a British Town.

Berlin: A dispatch to the Frankfort Zeitung from Rome reports that a sanguinary conflict has taken place between the French and British at Nikki, in the Lagos hinterland, West Africa.

London: A report has been received at the British colonial office to the effect that there had been a collision between the British and French forces at Nikki, which is said to have been captured by the French troops.

A conflict between the French and British forces in the Lagos hinterland has been anticipated for some time past. Both countries have been hurrying troops into the disputed territory. The trouble is of about 30 years' standing and several commissions have attempted to settle territorial disputes there. Within the last 100 years France has acquired about 800,000 square miles in West Africa, and French aggression has already won her nearly the whole of northwest Africa.

A Miner's Sufferings.

Exposure induced colds, and colds developed into that commonest but most offensive of maladies—Catarrh. Dr. Agnew's Catarrhal Powder cleared the way to the pure gold of good health. Fred Lawrie, of Trail Creek, B. C., writes: "I was a great sufferer from catarrh. I procured Dr. Agnew's Catarrhal Powder, 2 bottles cured me completely. I can highly recommend it."

Sold by H. J. Brown and J. J. Goodyear. ASTORIA. The little signature of Dr. H. H. H. is on every bottle.

REVIEW OF TRADE.

The heavy exports of wheat with the recent advance in price is the most interesting and important feature of the week's events. Since August, when the extent of the foreign deficiency became realized, exports have been larger than in corresponding weeks of any previous year. The cotton exports also have become very heavy and output of corn falls but little below last year's unprecedented record, while in exports of manufacturing products, especially machinery, all records of the season have been surpassed. Meanwhile imports are running behind last year's at New York nearly \$20,000,000 this month, so that another excess of exports over imports amounting to about \$60,000,000 for the month is probable. This makes an excess of about \$80,000,000 in the month.

Advertisement for DOCTORS DON'T DENY IT. "The frank testimony of a famous physician. When Dr. Ayer announced his Sarsaparilla to the world, he at once found the physicians of his time. Such a remedy was what they had looked for, and they were prompt to appreciate its merits and prescribe it. Perhaps no medicine known as a patent medicine is so generally administered and prescribed by physicians as Dr. Ayer's Sarsaparilla for blood diseases, and diseases of the skin that indicate a tainted condition of the blood. Experience has proved it to be a specific in such diseases, and sores of long standing, old ulcers, chronic rheumatism, and many other like forms of disease have yielded to the persevering use of Dr. Ayer's Sarsaparilla after other medicines had utterly failed. The testimonials received from physicians to the value of this remedy would fill a volume. Here is one I signed by Richard H. Lawrence, M. D., Baltimore, Md. 'It affords me pleasure to bear testimony to the success which your preparation of Sarsaparilla has had in the treatment of diseases that can mutilate mankind. Nothing has ever superceded it and nothing ever will until a medicine is made that can show a record of cures greater in number and equal in wonder to those wrought by Dr. Ayer's Sarsaparilla. Dr. Ayer's Sarsaparilla is a medicine that is cured, is sent free on request by the J. C. Ayer Company, Lowell, Mass. Write for it.

**Ingham County Man Shoots His Little Daughter and Commits Suicide—Miners Strike Through a Mistake—A Brutal Husband and Father.**

**Shot His Little Daughter and Himself.**  
Scott A. Bowdish, aged 50, a widower of Mason, shot his 9-year-old daughter, Ida, twice and then split his own heart with a bullet from a 32-caliber revolver. Neighbors found them both lying on the floor, the child still alive and the man stone dead with the weapon in his hand. Ida says that her father sat up until midnight writing letters, and about 12 o'clock he came to her bed and awoke her, took her in his arms and kissed her. Then he asked her where her heart was and when he had located it he placed the muzzle of the revolver at the spot and fired two shots. He then felt for his own heart and fired one shot which killed him instantly. On a stand was found two letters written by Bowdish, one to the sheriff of Ingham county, and the other to Myrtle Stevens, a married sister of the suicide in which he says his love for Mrs. Jennie Pemberthy and her throwing him over for E. Bennett caused him to commit the double crime. Mrs. Pemberthy lives with her husband and declares that she is innocent of any wrong action toward either Bowdish or Bennett. For five years she gave little Ida Bowdish a home. It is the general opinion that Bowdish was insane.

**Two Lives Lost in a Burning Steamer.**  
About midnight a fire broke out on steamer Nahant at Escanaba and before it could be controlled it spread to the ore docks, the largest in the world. Two of the docks were burned and others threatened with destruction. Two of the crew of the steamer, whose names were not learned, are known to be lost and several others are injured. The steamer was lying at the dock loading ore and was only partially loaded. From the steamer, the fire spread to dock No. 4, which was partly loaded with ore and lumber. The lumber was soon a mass of flames and from this it spread to the next dock. The loss will be fully \$300,000. The Nahant is owned by C. E. Benham, of Cleveland, and was built in 1873, at Detroit.

**Michigan's Oldest Militiaman.**  
Dennis Harrington, the oldest militiaman in point of service in Michigan, died at his home, 39 Charles street, Detroit, after a lingering illness. He enlisted in the Detroit National Guard, Co. B, Fourth regiment, M. N. G., June 2, 1870; was appointed a corporal in 1871, and advanced to sergeant in 1874. He was elected second lieutenant in 1881 and served for three years, when he resigned to accept the position of regimental color sergeant July 1, 1881. Harrington was looked upon as the ideal militiaman. He was an expert marksman and for years held the company medal as the best shot. Harrington was 49 years of age and had lived in Detroit all his life. He leaves a widow and nine children.

**6,000,000 Feet of Lumber Burned.**  
Fire broke out in the A. T. Bliss mill property at Carrolton, near Saginaw, and raged fiercely among the lumber piles, threatening the destruction of the entire property. Within an hour 1,500,000 feet of hardwood and pine lumber, valued at \$15 per thousand, had been destroyed. The fire broke from the control of the one steamer and fire tug that fought it for three hours and spread over the entire property. At least 6,000,000 feet of lumber, valued at \$75,000, burned. The town of Carrolton, directly north of the yard was in danger from the quantities of cinders blown upon it. The origin of the fire is unknown.

**A Drunken Joker's Mean Trick.**  
Miss Tracy Stuger, of Calumet, was very proud of her long hair. Jacob Smuk, while intoxicated, thought it would be a good joke to humble her pride by cutting off her pretty locks and at the same time get even for the cold manner in which she had often treated him. Both boarded at the same house and Jacob sneaked into the maiden's room and set fire to her tresses while she slept. Miss Stuger did not awaken until they were singed quite close to her head, and then she was mad. It cost Jacob about \$35 to settle at court.

**Strange Disappearance of a Farmer.**  
Wm. Klein, of Saline, drew \$2,700 from the bank at Saline and then disappeared. He told his wife that she would never see him again and then fled into the night. Klein is about 50 years old, and has been married two years. His wife says they never had a quarrel; that he had never shown signs of insanity, and that she cannot imagine a cause for his action.

The sewing school is badly in need of funds. It has seventy girls enrolled but will be obliged to disband unless help is received. Contributions should be sent to M. S. Brown, 527 Church-st.

Paul Carr, of this city, and Miss Nellie Loomis, of Ypsilanti, were married on Thanksgiving day.

Tomorrow night, Rev. Washington Gladden, of Columbus, Ohio, will lecture before the Students Christian Association on "Social Construction."

The Ann Arbor High school football team closed the season last Thursday by its game with Grand Rapids. Grand Rapids was defeated 14-0 and the Ann Arbor boys are champions of the state.

The University calendar issued as a souvenir by Miss Almira Lovell, is having a remarkable sale. The souvenir is very neatly arranged and contains many excellent views of the University and city.

A. E. Mummary will lead the Y. M. C. A. meeting, December 5 at 2:45. His subject will be, "The Relation of the Y. M. C. A. to the Church." Special music at this meeting. All men cordially invited.

An entertainment will be given in High school hall tonight, to raise money for the High School Athletic Association. The association is out of debt and now begins to raise money for the baseball season.

The Rt. Rev. William Croswell Doane, Bishop of Albany, who is to deliver the Slocum lectures under the auspices of the Hobart Guild this year, will preach in St. Andrew's church, Sunday morning at half-past ten.

John and Adam Bross were arrested Thursday night on a warrant sworn out by the Salvation Army. It is alleged that the boys began a scuffle with the lieutenant and that a plate glass window was broken in the row.

In the course of his remarks before the Y. M. C. A. Tuesday night, Mr. Sawyer said that, until people became willing to allow the law-makers all the time needed to consider a bill before its passage, poor laws might be expected.

School Commissioner Lister, has just received 164 copies of the Michigan manual. He will send one copy to each district school in the county. This will be the first time district schools in this county have received a copy of the manual.

The Michigan Alumni News is a bright sheet which will bring the absent graduates into touch with the University. Some difficulty is experienced in getting the addresses of alumni but the list is growing and large numbers are being located.

Dean Hinsdale, of the homeopathic medical school, was in Grand Rapids, last week on professional business. He will give an address before the Northwestern Medical Society at Toledo, next Tuesday on "Rest and Diet in the Treatment of Consumption."

Dr. Gale Crozier, who graduated with last year's medical class, is preaching for the Union church at Sylvan. Dr. Crozier reports the work prosperous and pleasant. He is one of the volunteers who will go at some future date as medical missionaries.

Wm. Secord, the crazy mechanic, who was going to place locks in the Huron river and thus make a canal, was turned over to Detroit authorities Tuesday. While in jail here he would not wear a thread of clothing and sometimes kept four men busy holding him.

The Y. M. C. A. boys and their friends gathered at the association rooms last Friday night and partook of the third annual banquet. The eatables would have done honor to a Thanksgiving dinner and the toasts which followed were short and sparkling.

Joe Jefferson, the actor, has agreed to come to Ann Arbor on the afternoon of Dec. 6 and deliver a short address on oratory and acting before the students in University hall. Prof. Trueblood met him in Chicago last week and made a proposal to him which he accepted yesterday.

"The Congregational Foundation of the University of Michigan" is the name of a new corporation. The organization will have for its object the advancement of religious work among University students and will be in the nature of a guild. Its plans are still immature.

David Edmonds came to this city a few days ago and began to take orders for enlarging pictures. Monday he was arrested and taken to Pontiac on the charge of having stolen his own personal property from a boarding house, where he had deposited it to secure payment of board.

Evert H. Scott has resigned the office of deputy game warden for Washtenaw county and Louis J. Lisemer, of Ann Arbor, will probably be appointed in Mr. Scott's place. Mr. Lisemer should get incorporated. He is manager of the Washtenaw Evening Times, the Hausfreund and Post, the new Athens theatre, the new State Telephone Co.'s exchange at Ann Arbor, and now he is reaching out and getting the county in his grasp. But for all his monopolistic tendencies, Bro. Lisemer is a good fellow, anyhow.—Chelsea Standard.

Joseph H. Peck has entered suit in the circuit court chancery division to set aside a judgment of \$450 rendered against him in this court in 1890, and to stop the sale of his property on execution. Joseph Peck is the man who allowed his name to be used as president of the company that sold the Red Line wheat and Bohemian oats.

A new passenger tariff has gone into effect on the Ann Arbor Railroad. Heretofore it has been customary to charge total amounts ending in 0 and 5 for fares. The rates hereafter will be three cents a mile for the number of miles traveled. For instance the distance to Whitmore Lake is 12 miles, fare 36 cents; to Hamburg Junction 17 miles, fare 51 cents; to Howell 29 miles, fare 87 cents; to Durand 51 miles, fare \$1.53; to Milan 14 miles, fare 42 cents; to Toledo 45 miles, fare \$1.35. The distance between Toledo and Frankfort now is 291.88 miles instead of 300 as heretofore the line having been shortened by straightening the road at various points.—Argus.

#### DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the partnership lately existing between Gottlob C. Stark and Edwin A. Gartee, of the city of Ann Arbor, Mich., under the firm or partnership name of Stark & Gartee, was dissolved on the 15th day of November, 1897. By mutual consent, all debts owing to said firm are to be received by said Edwin A. Gartee, and all demands on said partnership are to be presented to him for payment, as he is authorized to settle all debts due to, and by said firm, and he will be found at the place of business of said late firm, where he will continue the same business. Dated, Ann Arbor, Nov. 15th, 97. Gottlob C. Stark. Edwin A. Gartee.

As will be seen by the above, I will carry on the painting and decorating business in the same building, No. 212 E. Washington street, and would therefore respectfully ask the people of Ann Arbor and Washtenaw Co., to continue their kind patronage bestowed on the old firm, to me. I shall try my utmost to prove worthy of the confidence placed in me. Very respectfully, Edwin A. Gartee.

A HOT TIME.

SUCH WAS THE MICHIGAN CENTRAL EXCURSION TO CHICAGO.

Four Hundred Students Went.—Only One Song.—Fun at Niles.—The Whole Trip in Six and One Half Hours.

"There'll be a hot time in the old town tonight"—excepting the rumble of the train and the shriek of the engine, this was the last heard of the Michigan Central excursion to Chicago, Wednesday morning as the train pulled out of this city.

The train which carried the Ann Arbor crowd consisted of nine coaches. One of these was a dining and one a parlor car. Two were reserved for ladies and escorts, one for the team, one for the Psi U fraternity and three were for everybody and anybody.

As soon as the train had pulled out of Ann Arbor the good time began. Card games were played by many of the men. "A hot time" was sung, by a good sized glee club, extemporized for the occasion, which went from car to car and soothed the passengers with their music.

At Niles a ten minutes stop was made and the crowd of students rushed upon the lunch counters in a way to frighten the wits out of an ordinary lot of waiters. They lined up four or five deep around the counters and waiters saw extended from the mass, arms with no apparent heads or bodies and heard voices from invisible mouths yelling, "Give me some pie," "Here—quick—doughnuts," "I want a sandwich."

At Chicago Beach Hotel a large number of excursionists stopped and took rooms, more went on down town, and others scattered to stop with Chicago friends but everyone felt that the trip to that city was one of the most pleasant experiences of the week.

Merchant Ships and War Ships. Broadly speaking, the essential difference between merchant ships and war ships is that the former are designed to carry their loads or principal portions thereof low down in the hold, whereas warships have to carry their heavy burdens of armor and armament high up on their sides.

Puny Children

Who would prescribe only tonics and bitters for a weak, puny child? Its muscles and nerves are so thoroughly exhausted that they cannot be whipped into activity.

Scott's Emulsion

of Cod-Liver Oil is all of this, and you still have a tonic in the hypophosphites of lecithin and soda to act with the food. For thin and delicate children there is no remedy superior to it in the world.

WISCONSIN IS CHAMPION.

Chicago And Michigan Rank Second And Third In Foot Ball.

The foot ball season ended Thursday. In the west, Wisconsin holds the championship, Chicago is second and Michigan has to be contented with third place.

In team work Michigan was equal to her opponent but in the ability to kick she wasn't in it at all.

COLLEGE WOMEN.

Rev. W. M. Forrest Speaks of Their Advantages and Duties.

Last Sunday night Rev. W. M. Forrest, of the Church of Christ, gave the second of his series of sermons to college students.

The college woman ought to return thanks for the privileges she enjoys. Every woman has a right to an education, but it would be as well to say that every man in a desert has a right to quench his thirst.

At Niles a ten minutes stop was made and the crowd of students rushed upon the lunch counters in a way to frighten the wits out of an ordinary lot of waiters.

The world needs women doctors, lawyers, politicians, educators; women, not imitations of men. If woman comes bringing nothing that man has not brought, the world will be no better; but if she comes with a woman's heart, instincts and sympathies, then the world will be better.

"College woman, you have a mission before you. Take that which has been given to you and give it to your tolling sister. Without you who are cultured, she will never know what the beauties of life are.

## TOO MUCH WORK

For a Healthy Existence.—That's Why the Kidneys so often Fail.

Nature has provided a certain amount of work for every organ of the human body; overtax them and disease eventually follows. There is not one portion of our organism that is so overworked as the kidneys; on them is placed the important function of filtering the blood of the impurities which naturally form in the regular action of life and digestion. The kidneys are consequently termed the sewerage of the system; clog up this sewer, and the blood becomes tainted with poisonous uric acid, which brings on disease in many forms. The back is the first to show this stoppage. From there comes the warning note; it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following: Mr. Wm. Nelson is a well-known business man of Kalamazoo, he resides at 822 Portage Street, and his business is that of a grain buyer. He says: "For five years I have suffered from an inability to urinate, which resulted from what was said to be a stoppage of the bladder. During these years I have taken mineral and electric baths and used other means in expectancy of getting better, but they all proved unavailing. Some months ago I began using Doan's Kidney Pills, which I had heard highly recommended, and I can now say that the flattering reports were not greater than they deserved. I got better right along, and I am free from any trouble now. I feel better than I have done for three years past. If Doan's Kidney Pills were well known all over they would do an immense amount of good." Sold by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## AMONG OUR NEIGHBORS.

The Dexter Leader says that Judge Newkirk is in correspondence with the War Department at Washington for another cannon for that village. Is Dexter really in need of more defense? Wonder what foreign power contemplates attack upon it.

John Hanna speared two German carp in the Scio pond last Friday, one of which weighed 15 pounds and the other 12. He struck another which he thinks weighed 25 or 30 pounds, anyway it was so large that it broke the spear pole and got away.—Dexter Leader.

According to the Dexter Leader, Dexter will soon emerge from darkness into the glorious light of electricity. The power will be furnished by the Huron river.

The friends of Larkins, Jones and Lyons, who were recently acquitted at Ann Arbor of the murder of James Richards, are circulating a subscription paper among the people of Birmingham, where the boys live, and raising money to reimburse them for the cost of their trial.—Stockbridge Sun.

Miss Olive Mills, who teaches in Bridgewater, was crossing over a creek on a narrow foot bridge, while on her way to school last week, when she slipped and took a headlong plunge over her head into the icy water. The Manchester Enterprise says the mishap caused her to lose only one day from school.

According to the Stockbridge Sun, Judge Person, of Mason, who has been having numerous divorce cases come up before him, fabulously remarked the other day that it might be a good thing to divorce all the married people in the county. He said that then all who really desired to live together could do so and it would save the county lots of expense.

The plans for a new telephone exchange here are nearly completed, all that remains to perfect the deal is for the Lake Shore people to give Agent Bennett permission to place a phone in the depot. When this is done other stations will be established as follows: The creamery, the poultry farm, J. W. Hull's residence and D. Nisly's store.—Selma Observer.

Last Thursday afternoon, Wm. Lewick of this place, who has been working with the gang of men who are putting up new poles for the Western Union Telegraph Co., was brought home suffering from injuries caused by the breaking of a pole which he was using while assisting in the raising of a telegraph pole, throwing him in such a manner as to break some ribs and to badly bruise him otherwise—Chelsea Standard.

The old power house of the Fort Wayne & Belle Isle railway, at Detroit, which has been out of use since the consolidation of the street railway companies, has been purchased by the Detroit, Ypsilanti & Ann Arbor Suburban Railway Co. The property will be removed to Wayne.—Ypsilanti Sentinel.

A year ago Prof. C. H. Carrick, Republican, and A. E. Ames, Democrat, ran for commissioner of schools in Monroe county. Ames won the race by a nice little majority. This fall it is a little difficult to say just which is ahead. Prof. Carrick's boy was born a day ahead of Commissioner Ames' boy, but Ames' boy weighed a pound and a half the most. We think, however, that all our people will say that Prof. Carrick is ahead this time.—Milan Leader.

## A RELIC OF THE PAST.

Surgical Operations for the Cure of Piles and Rectal Diseases no Longer Necessary.

A Medical Discovery Which Will Change the Treatment of All Such Diseases.

It has long been thought not only by some physicians but by people in general that the common, painful and exceedingly annoying trouble, piles, was practically incurable by any other means than a surgical operation and this belief has been the cause of years of needless suffering, because of the natural dread of surgical operations.

There are many salves, ointments and similar remedies on the market which afford some relief in case of piles but the Pyramid Pile Cure is the only preparation so far introduced that can be reliably depended upon to cure and cause to stay cured, every form of itching, protruding or bleeding piles.

Mrs. M. C. Kinkley of 601 Mississippi St., Indianapolis, was told by her physicians that nothing but a surgical operation costing between seven and eight hundred dollars, could cure her as she had suffered fifteen years; yet even in such a case as hers the Pyramid Pile Cure accomplished a complete cure. She says: "I knew an operation would be death to me and tried the Pyramid with very little hope and it is not to be wondered at that I am so enthusiastic in its praise."

Mr. D. E. Reed, of South Lyons, Mich., says, I would not take \$500 and be placed back where I was before I used the Pyramid Pile Cure. I suffered for years and it is now eighteen months since I used it and not the slightest trace of the trouble has returned.

The Pyramid Pile Cure is sold by nearly all druggists at 50 cents and \$1 per package and as it contains no opium, cocaine or other poisonous drug can be used with perfect safety.

No one need suffer from piles in any form who will give this excellent remedy a trial. Send for book on cause and cure of piles sent free by addressing Pyramid Drug Co., Marshall, Mich. (formerly Albion, Mich.)

### A GOOD PRACTICE.

If You Want a Good Appetite and Perfect Digestion.

After each meal dissolve one or two of Stuart's Dyspepsia Tablets in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermented, half digested food.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting flesh-forming foods.

Stuart's Digestive Tablets is the only remedy designed especially for the cure of stomach trouble and nothing else.

One disease, one remedy, the successful physician of to-day is the specialist, the successful medicine is the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you, but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 50 cents for full sized package.

Send for free book on stomach diseases to Stuart Co., Marshall, Mich.

### Smothered Fires.

When smothered, fire will burn and smoulder a long time without giving signs of its existence. Considerably over a year ago the Masonic temple in Providence was burned to the ground. On a recent afternoon the workmen, while tearing down a portion of the wall which was left standing on one side, found quite a fire in progress. They first saw the smoke, and when they had pulled down the wall, the smoldering embers were fanned to life by the wind.

### BLADDER TROUBLES.

The bladder was created for one purpose, namely, a receptacle for the urine and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

**SAMPLE SENT FREE.**

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp Root fills every wish in quickly curing bladder and urinary troubles. It corrects frequent calls, inability to hold urine and scalding or stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Dr. Kilmer's Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists 50c and \$1.00. You may have a sample bottle and pamphlet, both sent free by mail. Mention Ann Arbor REGISTER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietor of this paper guarantees the genuineness of this offer.

# \$2,000.00 GIVEN AWAY

It is now the custom of advertisers to spend thousands of dollars each year on show cards, posters and signs on bill-boards. We propose to give this money to the people, and propose to give away, absolutely free and without consideration, TWO THOUSAND DOLLARS, in 39 Prizes, as follows:

### HERE ARE THE PRIZES.

1 Prize, a Missouri Farm.....	\$1,000 00
1 " Beautiful Rosewood Upright Piano.....	700 00
1 " Columbia Bicycle.....	100 00
3 Cash Gold Prizes of \$20.00 each.....	60 00
5 " " " 10.00 each.....	50 00
8 " " " 5.00 each.....	40 00
20 " " " 2.50 each.....	50 00
89 Total.....	\$2,000 00

We will give to the person forming the greatest number of words out of the letters in the word SENNARETS, the first prize, a Missouri Farm, valued at \$1,000.00, consisting of 80 acres of good land, free and clear of any encumbrance, and perfect title. To the person forming the next greatest number, we will give a beautiful Rosewood Upright Piano, valued at \$700.00, and to the person forming the next greatest number, a Columbia Bicycle, valued at \$100.00, and to the next 36 largest lists, we will give cash gold prizes, as noted above, making a total of 39 prizes, which will be given away, and you can get one of them if you will try.

Write to the THEBES-STIERLIN MUSIC COMPANY, 1118 Olive Street, St. Louis, Mo., for illustrated descriptive catalogue of the Piano to be given away, or have your city friend call on them for you.

### DIRECTIONS.

In making up your list use nothing but English words. Words spelled alike but having a different meaning can be used but once. Use any dictionary. Anything that is a legitimate word will be allowed. Work it out in this way, senna, an, set, sat, eat. Use these words in your list.

We offer these rewards in order to introduce SENNARETS, the best Candy Cathartic in the world, for the baby, child, boy, girl, mother, father, grandma and grandpa. They all like them, they are just like candy. Ask grandma what senna is, she can tell you, and will hail with delight the coming of SENNA in the form that it is now introduced.

Here is a chance for the school girl, the school boy, the teacher, the young and the old, to obtain a Farm, Piano, Bicycle and \$200.00 in Gold, absolutely FREE.

Get down your dictionary and go to work, it will be found pleasant and instructive, and every father and mother should encourage their boys and girls to enter this contest. There will be no favorites, the person sending in the largest correct list will receive the rewards no matter who they are or where they live.

Your list should be made up at once, as this offer may not be made again, and the contest will close November 25, 1897, and the names of the successful contestants will be published in the St. Louis Post-Dispatch, November 30th, 1897.

### CONDITIONS.

Ask your Druggist for a box of SENNARETS, 25 cent size. In the box you will find a SENNARET word building contest card. Send this card with your list of words. No list considered without it.

Box of SENNARETS with full particulars will be mailed you on receipt of 25 cents in Silver or Postage. If your Druggist does not keep them. Buy and Try a Box of SENNARETS, the best Candy Cathartic in the world, and get one of the Thirty-nine Prizes. You can do it if you will only try.

Address all letters to the COLUMBIA CHEMICAL COMPANY, 1201 and 1202 Chemical Building, St. Louis, Mo., U. S. A.

## CATARRH

One of the best equipped systems of railway in the United States is the Cincinnati, Hamilton & Dayton road, popularly known as the "C. H. & D." "This line seems to be enjoying the lion's share of Army and Navy travel. They have recently put on a through train between Washington and Chicago, their principal train leaving Washington at 11:45 a. m. and arriving in Chicago the following day at noon. They use the Baltimore & Ohio system from Washington to Cincinnati, where they connect with their own system to own system to Chicago. Some time ago they reduced their time of running trains between Chicago and Cincinnati to eight hours, which is one of the fastest trips made in this country. Their night express between Chicago and Cincinnati is equipped with compartment cars that are models of elegance and beauty. This road caters to Army patronage and always extends every accommodation possible to officers traveling over their line and it is no wonder that they get the service patronage. They offer to their patrons the best line between Washington and Chicago, via Cincinnati, and especially between the cities of Cincinnati and Louisville and Chicago, Toledo or Detroit. Mr. D. G. Edwards, passenger traffic manager of the road, at Cincinnati, Ohio, will be very glad to give any additional information concerning the "C. H. & D. Route" to all who will address him."—Army and Navy Register, Washington, D. C.

## WEAK, NERVOUS, DISEASED MEN

250,000 CURED IN 20 YEARS.

CURES GUARANTEED OR NO PAY!

\$1000 IN GOLD FOR A CASE WE CANNOT CURE OF SELF-ABUSE, EMISSIONS, VARICOCELE, CONCEALED DRAINS, STRICTURE GLEET, SYPHILIS, STUNTED PARTS, LOST MANHOOD, IMPOTENCY, NERVOUS DEBILITY, UNNATURAL DISCHARGES, ETC.

The New Method Treatment is the Greatest Discovery of the Age FOR CURING THESE DISEASES

Thousands of young and middle aged men are annually swept to a premature grave through EARLY INDISCRETIONS, EX-CESS, AND BLOOD DISEASES. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, stunted organs and premature decay, bone pains, hair loose, sore throat etc.

**YOU HAVE SEMINAL WEAKNESS!**

OUR NEW METHOD TREATMENT alone can cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the mental, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

**HAS YOUR BLOOD BEEN DISEASED?**

SYPHILIS is the most prevalent and most serious BLOOD disease. It saps the very life blood of the victim and unless entirely eradicated from the system will affect the offspring. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures it for ever.

**YOUNG OR MIDDLE-AGED MAN**—You've led a gay life, or indulged in the follies of youth. Self-abuse or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and sexually you are not the man you used to be or should be. Lustful practices reap rich harvests. Will you heed the danger signals?

Are you a victim? Have you lost hope? Are you contemplating marriage? **READER!** Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What has done for others it will do for you. Consultation Free. No matter who has treated you, write for a honest opinion Free of Charge. Charges reasonable. Books Free—"The Golden Monitor" (illustrated), on Diseases of Men. Inclose postage, 2 cents. Sealed. Book on "Diseases of Women" Free.

**62-NAMES USED WITHOUT WRITTEN CONSENT.** PRIVATE. No medicine sent C.O.D. No names on boxes or envelopes. Everything confidential. Question list and cost of Treatment, FREE.
