BY A RABBIT HUNTER.

CHRISTIAN APPILL IS ACCIDENT-ALLY FILLED WITH SHOT.

He is Now in the Hospital With Shot In Arms, Chest, and Abdoment Still He Will Probably Recover.

Christian Aprill, who lives about two miles south of this city, on State streat, was shot and seriously inujred Monday while hunting rabbits. He was hunting in company with Christian Staeb and Charley Staeb, the latter a 17 year old boy.

Locating a rabbit in a series of holes in a fence corner, the two older men set to work to drive it out. When cidentally hitting Aprill in the chest. His right arm was badly torn, and a number of shot lodged in his chest and the shot were removed but most are still in the man's body.

Charley Staeb, who did the shooting. is an intelligent young German and seems in no way to blame. He said: "We had been hunting rabbits and had killed two or three when we tracked one into a hole in a fence corner. There were two or three openings to the hole; my father watched one, Mr. Aprill put the ferrit into another and I stood by with the gun. There was a lot of brush between me and Mr. Aprill and I could not see him. He moved several feet and I did not know it, so when the rabbit startel I supposed I was safe in shooting at it, lut Mr. Aprill hud got right in range and I shot him. He just said 'I'm shot, and didn't make any fuss about it. Then he walked home without any trouble

At last accounts Mr. Aprill is improving and seems likely to recover without any serious Illness.

BLACK WEDS WHITE.

L. D. Bates, a Colored Man, Marries A Fair Port Huron Girl.

About two weeks ago L. D. Bates, a colored man who works at the "Deke" house, appeared at the County Clerk's such high Novelties in connecoffice and asked if there is any law to prevent a colored man from marrying a white woman. He seemed rather nervous and County Clerk Schuh was not surprised Tuesday night when he was called out at ten o'clock to issue a icense for Mr. Bates and his pale face fiancee, who proved to be Miss Lena Mayhew, of Port Huron. Miss Mayhew is a full-blooded white girl, nineteen years old and quite pretty. Mr. Bates is twenty two and as black as the proverbial ace of spades,

From the court house they went to Justice Duffey's office and in the presence of Marshal Sweet and one or two special friends, were married. The happy couple will remain in this city.

> SCHMID. Ann Arbor, Mich.

Mr. Jones spoke harshly on our system of punishment by fines, When two men are convicted of the same offense, one has plenty of money and pays his fine without noticing it. The other suffers the disgrace of going to jail. If a man ought to go to prison he should not be let off on a fine. He says his men, treated in accordance with the golden rule, are grateful and render the best of service.

In his candidacy for mayor, Mr. Jones was bitterly opposed by the saloon elsment of Toledo, and on being elected, wired a friend. "I am elected in spite of 600 saloons, the street railway company and the devil.'

NEEDLE WORK GUILD.

It Will Not Unite With the Charitable Union.

The annual meeting of the Needle Work Guild was held in the lecture room of the Presbyterian church, last Thursday afternoon, December 2.

The matter of consolidating the Guild with the Charitable Union was discussed and it was clearly shown that the Needle Work Guild had its own work to do, to collect new garments for the poor, and that to remain a Guild, it could not consolidate with any other organization. It was decided that the Guild should continue another year. The old officers were then re-elected and the meeting adjourned. About 100 garments and \$30 in money were collected this year. Influenced by the controversy which arose over consolidating the two sociaties, some officers and members of the Guild solicited money this year while others did no work at all. The consequence was that hundreds of people in the city did not have an opportunity to give garments. Next year the Guild intends to bring its contributions up to the former numbers. In the meantime the Charitable Union will gogtinue in its work of charity every day in the year, while the efforts of the two will, it is hoped, reach every needy case in the city.

The REGISTER refers all its readers to the numerous Christmas bargains announced in our advertising columns.

A Court Decision Starts Talk In This Direction.

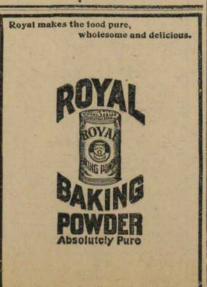

The decision of Judge Carpenter of the Wayne county court, in the matter of the Michigan Central railroad bridge, is causing a good deal of unfavorable comment.

Edson Wetherbee sued the road for injuries received while crossing the bridge, and the decision in question, places the responsibility upon this city leaving the road free. If the higher court upholds the decision, the railway company may sue the city for \$1,400 already expended in repairs. It is probable also that Wetherbee's damage suit will be transferred and directed against the city.

City Attorney Kearney states his determination to have State street opened through to the north side, thus making it unnecessary to use the Detroit street bridge in going from the North to the South sides. This will increase the and will make it necessary for the railthe new crossing.

CAN'T BE FOUND.

J. H. Fraser, the Cigar Maker, Has Disappeared.

Considerable mystery surrounds the disappearance of J. II. Fraser, the Ann street eigar maker. About a week ago he was suddenly missed and Dr. H. J. Burke, who owns the store, says he has no idea where the man has gone. In September Fraser's wife was found in the mill race drowned, and her husband was apparently broken hearted. The police have letters from a man in the east who claims to be Fraser's son, who hints at developments in the case which may prove sensational. and Etchings... man, and this fact makes his disappearance seem more strange.

Free From Rheumatism

If the people generally knew the true cause of Rheumatism, there would be no such thing as liniments and lotions for this painful and disabling disease. The fact is, Rheumatism is a disordered thete of the block it can be reached state of the blood—it can be reached, therefore, only through the blood. But all blood remedies cannot cure Rheumaall blood remedies cannot cure Rheuma-tism, for it is an obstinate disease, one which requires a *real blood remedy*— something more than a mere tonic. Swift's Specific is the only real blood remedy and promptly goes to the very bottom of even the most obstinate case. Like all other blood diseases, the doctors are totally unable to cure Rheu-matism. In fact, the only remedies which they prescribe are potash and

which they prescribe are potash and mercury, and though temporary relief may result, these remedies produce a stiffness of joints and only intensify the disease. Those who have had experience with Rheumatism know that it becomes more severe each year.

The case of Mrs. James Kell, of 6rr Ninth Street, S. E., Washington, D. C., should convince everyone that it is useless to expect doctors to cure Rheu-matism. Under recent date she writes: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that my ner-yous system was prostrated, and I was for a long time perfectly helpless. The attack was an unusually severe one, and my condition was regarded as being very dangerous.

(Swift's Spe-cific) recommended for Rheumatism, I decided, almost in despair, to give it a trial. After taking a few bot-tles I was able to hobble around on crutches, and very soon had no need at all for them, for S.S.S. cured me at all for them, for S.S.S. cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health." S.S.S. never disppoints, for it is made

European Hotel Porters.

It is said that hotel porters in Europe keep each other posted as to the tipping habits of travelers by the way they paste labels on their bags. A label pasted on the right-hand lower corner of a bag indicates that the owner is "mean," that he is no tipper; when pasted in the upper left-hand corner, it signifies that he is liberal in his tips, and when in the center of the bag that he will tip generously, but insists upon being well served.

This modern malady has become dreaded not more for its direct fatality than for the weakness of body and mind it leaves behind it. Prolonged debility, permanent prostration, melancholy and suicide fol-low La Grippe. For this disease there is no remedy superior to Ayer's Cherry Pectoral.

"The best remedy for la grippe that I know of is Ayer's Cherry Pectoral."

REV. JOHN K. CHASE, South Hampton, N. H.

"My wife and five children were taken down with la grippe, while the disease was so widely prevalent. I dosed them with Ayer's Cherry Pectoral, and before using quite two bottles my family was restored to health. I know of several obstinate cases of the same complaint which were also cured by this remedy." J. PARMINTER, Paulette, Miss.

been subject to nervous dyspepsia. I would have spells of quivering in my stomach, with smothering feelings. My nerves were terribly debilitated. I was suffering from what is called nervous prostration My stomach felt bloated, and I was constantly weak and trembling. I consulted several physicians who treated me without doing any good. I had almost given up in despair when I heard of Pe-ru-na. It was about six years ago that I first took Pe-ru-na. I found it an immediate relief to all my disagreeable symptoms. It is the only medicine that has ever been of any use to three years I suffered with catarrhal dyspepsia. I wrote to you for advice and you told me to take your medicines. Elec ric Light and the Eyes.

In the French navy it has been found that the electric search light employed on men of war injuriously affects the eves of seamen who have to work about the light, and dark blue spectacles are supplied to them for protection. Brown eyes are less affected than gray or blue ones, the reason suggested being that the former are more heavily charged with pigment.

THE people of Kansas have evidently seen the fallacy of the political arguments upon which they have been fed during the past few years, and as a result have placed the State again in the Republican column, giving that party a majority this year of over 9,000 votes against a Democratic majority of 13,000 last year.

PRESIDENT McKinley has occasion for gratification in the fact that the first year of his administration is signalized by the exportation to Europe of American tin-plate, whose mannfacture in the United States was brought about by the high protection given to that industry by the law bearing his name and framed under his management.

THE 13 foreign nations whose representatives made protests against certain features of the Dingley bill during its consideration by Congress have purchased from us 25 per cent. more since the enactment of the Dingley law than in the corresponding months of last year, while there has been a reduction of 25 per cent. in our importation from those countries meantime.

THERE seems to be some hope for the editor of The Democrat since from his comment it is clearly evident that he reads THE REGISTER editorials regularly. We even hope that he will in the distant future be able to offer more profound argument than merely to use such epithets as "fancy lying", "dense ignorance", "17 lies to the square inch" etc. Keep right on reading THE REG ISTER, Charlie, and in time all the scales may fall from your eyes.

THE holiday season will be one of much greater happiness than those of the past few years. The earning of employees in the manufacturing sections have already been increased in many instances, and recent dispatches from Pennsylvania, Michigan, and Ohio shows that a number of the great iron mines of Pennsylvania and Michigan are to increase the wages of their employees 10 per cent. on January 1st, and that limestone operators of the Mahoning Valley, in Ohio, have increased the wages of their employees 20 per cent. House and Senate Listen to the Reading of the President's Message-Forecast of Legislative Action That Will Probably Be Taken.

Washington, Dec. 6 .- At noon today the first regular session of the fiftyfifth congress was launched upon the unknown seas of legislation. Simultaneously Speaker Reed in the house and Vice President Hobart in the senate rapped their gavels and called to order the respective bodies over which they preside. The weather was propitious. The sun shone brilliantly from a cloudless sky, making a glorious bright December day, with a tinge of frost in the air to invigorate the lungs and a breeze just strong enough to keep the stars and stripes snapping from the flagstaffs. At the capitol the crowd swarmed into the corridors at an early hour and choked the marble steps as they ascended to the galleries from which they were to view the show. As is usual on such occasions, the reserved galleries were carefully guarded on both the house and senate sides, admission being only by card, and the public had great diffi-

culty in wedging itself into the limited space set aside for it. The hall of representatives present-

ed an animated appearance long before the hour of noon arrived. The surrounding corridors were filled with jostling, moving crowds, and before 11 o'clock the encircling galleries which overlooked the floor were black with people. The hall buzzed with the subdued hum of conversation as the members exchanged greetings and chatted in groups. The leaders who were so eagerly pointed out from the galleries were as usual slow in putting in their appearance. Statesmen, like ordinary mortals, have an eye for dramatic effects. Chairman Hitt of the

foreign affairs committee and Chairman Walker of the banking and currency committee, whose positions will probably bring them much into the public eye during the session, were early on the floor, mingling with their colleagues.

The floral tributes for the members were numerous and in some instances imposing. The representation of a

huge gavel in red and white carnations stood upon the speaker's table. Among others who were remembered with floral offerings were General Wheeler of Alabama, Mr. Dovener of West Virginia, Mr. Dalzell of Pennsylvania, C. W. Stone of Pennsylvania, Mr. Henderson of Iowa, Mr. Lacey of Iowa and Mr. Dayton of West Virginia.

At fifteen minutes before noon the floor was cleared of all persons except members and officers. Soon afterward Mr. Bailey of Texas, the leader of the minority, and "Silver Dollar" Band of Missouri, entered the hall together. Mr. Dingley, the floor leader of the house, smiling and affable as ever, came in just before the speaker ap-

> All morning long the hotel corridors re crowded with gossiping statesn, politicians and lobbyists. There much hand shaking and jovial tering alike between friends and n who in the arena of national politics are the bitterest enemies. Some discussed one topic, some another, but the probable doings of congress was the keynote of every conversation.

Cuba made an interesting morsel for discussion elsewhere. A straw vote of

the lawmakers, which indicates that no radical steps toward interfering with Spain's policy will be taken, cre-

ated considerable interest. According to this straw vote, 42 senators are against action, 24 favor but do not expect action, 9 favor immediate action, and the policy of 14 is unknown. Among the representatives 178 arc against action, 159 for and 18 unpledged. This, together with the general trend of gossip among those who are supposed to be best posted, indicates that Spain's new scheme of Cuban autonomy will be given a chance before Uncle Sam is heard from.

Along with the talk of annexation for Hawaii the representatives from California bring the news that Claus Spreckels is opposing such a plan tooth and nail. In Washington a close fight is looked for on this question of annexation, as the senatorial majority in favor of it is admitted to be a very narrow one.

The first big discussion that is looked for is one on matters financial. This will be precipitated at an early date by the report of Secretary Gage

and the president's reserve plan. An assault on greenbacks, either through the president's plan for impounding this section of the currency in the eserve or through Secretary Gage's measure, is sure to stir up all sorts of trouble in the house, and it is the impression that no measure that contemplates the retirement of greenbacks can be put through.

Senator Mason is ready with the postal savings bank bill and will introduce the measure into the senate as soon as the roll call is called, while Congressman Lorimer will do the same thing in the house. Postmaster Gary is an enthusiastic supporter of the bill.

The harbor and river committee of the house will be presented at an early date with a project for a survey of the Sangamon river from its mouth to the forks, for which an appropriation of \$5,000 is asked. Considerable interest among western people is expected to center in this committee, owing to the avowed intention of representatives from Chicago of pressing their claim for an appropriation to widen and deepen the Chicago river. A strong delegation is looked for to back up the congressman.

MRS. M'KINLEY STILL LIVING.

President's Mother Expected to Expire at Any Time.

Canton, O., Dec. 7 .- Mrs. McKinley, survived the night, and the spark of life still burns this morning, although dimly. She is resting quietly, but is much weaker than at any previous time. During nearly the entire night the family remained in the sick room, expecting every moment to be the last.

Japan Says Keep Hands Off of Hawail. Toru Hoshi, envoy extraordinary and minister plenipotentiary from Japan to the United States, has just returned from Japan to Washington, carrying important instructions in reference to the Ilawaiian treaty of annexation,

AMERICAN securities formerly held abroad are being returned to the United States in large quantities, thus reducing the actual imports of money which would otherwise occur as a result of our large exportations. This fact is especially interesting, because it shows that the people of the United States are rapidly becoming independent of the financiers of the old world, and that ed to him by J. C. As the hands of the clock pointed to 12 Speaker Reed, attired in a black cutaway coat and wearing a red tie, pushed through the green baize doors from the lobby and ascended the rostrum. One crack of the gavel subdued the din on the floor and the conversation in the overhanging galleries. The gavel with which the speaker called the house to order was presentin the name of the "stalwart Republicans of East Tennessee." It was formally presented to the speaker through H. Clay Evans, the commissioner of pensions. The gavel is made of apple tree wood, which grew beside the loghouse in which Farragut was born.

This house stood at Lowe's Ferry in the Tennessee river, six miles below Knoxville.

In the deep silence which followed the calling of the assemblage to order the prayer of the eminent divine, Rev. Charles A. Berry of Weaverhampton, was solemn and impressive.

The speaker then immediately directed the clerk to call the roll, and this consumed a half hour.

Statesmen Discuss the Probable Action of Congress.

At an early hour the president was advised that his mother was still living, although considerably weaker than she had been. He was also informed that she was resting easily and gradually passing away without any suffering. The doctor called early and at 8 o'clock he announced that while the patient was much weaker than at any previous visit, she was resting so quietly then that she might survive for some little time. It was the opinion of the doctor that his aged patient may survive the day. Immediately after the examination Mr. Abner McKinley hastened to a long distance telephone near by and talked with the president, telling him of the result of the latest examination. She has been resting well all morning and without the least trace of pain.

Situation at Dawson City.

Tacoma, Wash., Dec. 7 .- Henry Ferguson, the partner of Alex. McDonald, speaking of affairs on the Klondike, said he believed there would be no actual starvation in Dawson City this winter, the danger being materially lessened by the sending of hundreds of the inhabitants to Fort Yukon. The food shortage, however, he said, would seriously affect the winter's gold production. Not more than 2,000 men can work this winter, while if food were plentiful 8,000 could be profitably employed.

May Lose Pine Lake Grounds. Laporte, Ind., Dec. 7 .- Proceedings were brought in the circuit court this

morning to foreclose a mortgage held on the property of the Pine Lake Baptist association. J. T. Polk of Greenwood and W. T. Stott, president of Franklin college, are mentioned as defendants. The claim is \$8,000, and the foreclosure will mean the loss of the assembly grounds, together with the buildings of the association.

Several months ago he hurriedly left Washington for Japan, just after the publication of his correspondence with Secretary of State Sherman with reference to the Hawaiian question, and it was said that he was angry with Mr. Sherman and the administration for their advocacy of annexation.

He now says: "I desire to say positively that Japan is opposed to the annexation of Hawaii by the United States. The recent reports that Japan had withdrawn her opposition are untrue. Japan has certain interests in the Sandwich islands which the United States should respect. There may be serious trouble if the United States annexes the islands without regard to our interests there. But I do not believe the United States will act unfairly. Japan is very friendly with this country and there is certainly a way by which the annexation question can be settled

One Short Puff Clears The Head.

Does your head ache? Have you pains over your eyes? Is there a constant dropping in the throat? Is the breath offensive. These are certain symptons of Catarrh. Dr. Agnew's Catarrhal Powder will cure most stubborn cases in a marvellously short time. If you've had Catarrh a week it's a sure cure. If it's of fifty years standing it's just as effect-

Honesty and Virtue.

There is more honesty and virtue contained in a bottle of Salvation Oil, than in any other liniment known. "Mrs. A. Fiedler, 2864 Palethorp St., Philadelphia, Pa., confirms this truth: She found Salvation Oil to be an excellent remedy for rheumatism, stiff joints, bruises, etc., and thinks it should always be kept in the house." Mrs. John Tansey, of 130 Baker Street, Detroit, Michigan, is one of those women who always know just what to do in all trouble and sickness. One that is a mother to those in distress. To a reporter she said:
"I am the mother of ten children and have raised eight of them. Several years ago we had a serious time with my clughter, which began when she was about sixteen years old. She did not have any serious illness but seemed to gradually waite away. Having never had any consumption in our families, as we come of good old I rish and Scotch descent, we did not think it was that disease. Neither did she have a hacking cough, yet she grew thinner and paler each day. Our doctor called the disease by an odd name which, as I afterward learned.

BRIEF MENTION OF EVENTS OF INTEREST.

The Insurgent Forces in Cuba Win in Several Battles With the Spanish Troops - Famous Spanish General,

Paudo, Among the Slain.

Madrid: The queen regent presided at the cabinet council when Senor Sagasta, the premier, reviewed the general situation. He said that the military operations in the province of Pinar del Rio, Cuba, showed it to be an important center of rebellion, al-

was placed in charged of military operations in Cuba by Capt.-Gen. Blanco, has been killed in an engagement with insurgents in Santa Clara province has caused the most intense excitement in the palace and official circles. A battle occurred near Matanzas, in which the Spanish forces were routed and driven from the field. This engagement was bitterly fought, and it is asserted that the losses of the Spaniards were very heavy.

The fiercest battle fought in the province of Pinar del Rio since the death of Gen. Maceo is just reported from Havana. The Spanish columns under Gens. Bernal and Velasco combined to dislodge the 3,500 insurgents "For years I have been taking med- encamped in the hills of Romero, Madines for liver complaint, rheumatism, ama and Los Palados, under Gen. The next day Ducasi took it again and the three Spanish battalions gave up the fight at close of the second day, having lost over 300 men.

Hayti Talks Back at Germany,

Hayti has sent a reply to Germany's demands of indemnity for the imprisonment of Herr Lueders, which is somewhat remarkable for its firmness in view of the difference in size between the two powers. Hayti says she is ready to discuss the merits of the controversy, but does not desire to have Germany pass judgment in the Do not give them tea or coffee. Martin Thorn Found Gullty.

Martin Thorn was convicted in New York City of murder in the first degree in killing Wm. Guldensuppe, his predecessor in the affections of Mrs. Augusta Nack, at Woodside, L. L., on June 25. This was Thorn's second trial, the first having been abandoned after it had been on three days owing to the illness of one of the jurors. At the first trial Mrs. Nack made a con-fession that Thors had killed Guldensuppe, but that she had helped plan the deed and to dispose of the body. At the second trial Thorn made a direct charge against Mrs. Nack and insisted that her alleged confession was a lie and that she herself was the instigator and perpetrator of the murder, Thorn being ignorant of the killing until after Guldensuppe had been shot. This story evidently had but little weight with the jury as it required but three hours for them to find him guilty as charged.

Thorn Now Admits His Guilt.

When Martin Thorn had been led back to his cell after the conviction, he admitted that the verdict was just and that he and not Mrs. Nack killed Guldensuppe. He said: "I am glad it is over and the verdict given. I am convicted and I am contented. It was I who killed Guldensuppe, and I cut up his body. Every word that Mrs. Nack said upon the stand was substantially correct. I lied when telling the story as I did, but I lied to clear myself, It is no use carrying it any further. I am guilty and am convicted. It is what I

expected and what I suppose people think I deserve, and perhaps I do." Just what will become of Mrs. Nack has not been made known by the Queens county authorities, but it is generally thought that the prosecution will accept a plea from her which will not call for capital punishment.

MONEY TO BURN.

Athletic Aisociation Made \$3,800 on One Game.

For the first time in its history the U. of M. Athletic Association will begin the base ball season with money in the treasury. The Coliseum game was a bonanza and Michigan's share of the proceeds was just \$3,819.39, which will enable the association to pay its debts and have a respectable bank account.

A base ball cage will probably be arranged in Waterman gymnasium by stretching nets from one side to the other, by means of pulleys, and leaving them from 9 a. m. till 3 p. m. each day. The need of such a cage has been felt before and its establishment will be a good thing.

Regular class work in the gymnasium will begin as soon as electric lights are placed in that building, but as yet none has been done. As a result some of the special exercises have been much used. Hand ball is becoming very popular and more boxing has been done than ever before.

The only man who seems to be suffering from foot ball injuries is Manager Thomas of the track team, who dislocated his left shoulder and has not yet recovered.

THE JUNIOR HOP

WIII Re field February Eighteenth. The Junior Hop committee held its first meeting Wednesday night and preparations have begun for the great ball which will be held February 18. The trouble which arose in former years between the nine fraternities who gave the hop and the others who wanted a hand in the management, has all disappeared and the general chairmanship and other positions rotate from one fraternity to the other in order of their establishment.

Wednesday's meeting passed off quietly. A motion was made to assign booths to the fraternities according to the order of their establishment but this was tabled. Muir G. Snow, of Detroit, is general chairman.

WILL APPEAR IN UNIVERSITY HALL, TOMORROW NIGHT.

THE HENSCHELS WILL SING.

What the Musical World Says of Them.

Choral Union concert tomorrow night will bring to Ann Arbor two singers of world-wide reputation. Mr. and Mrs. Georg Henschel are known, not only in London where they reside, but all over England and America as among the finest recital singers now before the public. Mr. Henschel is one of the most distinguished musicians of England, being known as a composer, conductor, singer, pianist, and teacher. Mrs. Henschel is scarcely less popular than her famous husband. She is an American woman and before her marriage to Mr. Henschel, was one of the most popular singers of Boston. The

Musical World tells of them as follows: "It is not, we trust, impertiment to say that Mr. and Mrs. Henschel form in many ways an uniquely ideal couple. A husband is here seen distinguished highly in every branch of the musical art as conductor, composer, singer, and pianist, wedded to a lady than whom there are few more charming and refined singers. The concerts given by Mr. and Mrs. Henschel are undeniably counted as amongst the most interesting events of the musical season; and the announcement that they are soon to be resumed, coupled with the fact that Mr. Henschel's Orchestral Concerts have already commenced, justifies us in believing that the portraits of the accomplished pair will be received

with peculiar interest. Georg Henschel was born at Breslau, February 18, 1850. He visited America in 1880, and in the following year mar ried Miss Lillian Bailey. The same year was signalized by the invitation

made to him to become the Conductor of the Boston Symphony Orchestra, which post he accepted and held for three years, Returning to Europe in 1884, he traveled for some time, giving concerts with his wife in all the principal cities. In 1885 Mr. Henschel finally settled in London, "where he has since resided, and where, in 1886, he established the London Symphony Concerts.

Mrs. Henschel (Lillian Bailey) was born in Columbus, Ohio, in 1860. In her childhood, having displayed unmistakable musical ability, she was provided with such instruction as was available, and in 1874 was taken to

I had run down in fiesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually sened, and finally ceased. The Romocopathic Hospital Guild is Organized.

"The Hompeopathic Hospital Guild," the name suggests its line of work. It is well known that appropriations for hospitals fall far short of their needs. The state provides the best medical skill and trained nurses but no provision is made for free beds for needy ones who would like to enter. This, private charity must provide. The King's Daughters have done a most commendable work in providing for needy patients in one hospital. This Guild hopes to assist the needy who desire treatment in the other.

The Preamble reads-Remembering the example of our Savior in alleviating human need and suffering, believing there is room for and need of another charity while entertaining the kindest feeling and good will toward all organizations of a like or similar nature, the ladies of the homoeopathic department of the University of Michigan, with their friends, do hereby establish and organize the "Homocopathic Hospital Guild."

IN THE HANDS OF THE ENEMY.

"You are if you drink coffee," and you will find it hard to get away from this enemy, such a subtle hold does it get upon you.

Strange that the human race, as a ule, will for a few short moments of bliss, forfeit years of healthful pleasure It takes steam to drive this human engine-steam.

Coffee never made a pound of steam for this human engine, but you can drink "Golden Nectar," which tastes like the best coffee, looks like coffee, but every cup you drink of it makes steam for the system-turns into blood, makes the human engine respond to every touch of the throttle.

You know coffee wrecks the system. Change to "Golden Nectar" now, and instead of being the victim of a narcotc, grow fat and healthy on "Golden Nectar."

All unreserved course tickets were taken up Friday night and each had written on it the name of the seller. GOT THE BACKACHE?

Yourself of the Weariness and Pain Attending It.

Some people suffer with headaches nany people are worn out and weary all the time, many more people have lame back and backache. Few people under-stand the real cause of their aches, and fewer yet know how easily they can find a cure. Just a word of explanation before a cure. Just a word of explanation before we prove that what we say is true. The back is the key-note of the kidneys. It aches; that's a sign that the kidneys are not working properly; it is lame; another sign, the kidneys are out of order. The kid-neys, you know, are the filters of the blood, but filters sometimes get clogged up. This means in their case that the blood courses through the entire system impreg-nated with poisonous uric acid, bringing nated with poisonous uric acid, bringing on many a disorder which, if neglected means disease perhaps incurable. And now about the cure :-- Don't take our word

for it; read what others say : Mr. David C. Oaks is proprietor of the well known hardware and paint shop at 220 East Main Street, Kalamazoo. Mr. Oaks has suffered a great deal from kidney ailments; he described his condition and cure as follows: "I had a bad, lame back, which I suppose was caused by my kid-neys ; was confined to my bed during bad attacks. I might say, from time to time, I have been in that condition for years. The urinary organism was affected, urine being scanty, highly colored, and difficult in passage. I was in a bad shape when I got a box of Doan's Kidney Pills, about which I had heard. I have used now two boxes of them, and the pills have removed all the pain and trouble. There was a marked improvement right from the first, and it has continued right along. Doan's Kidney Pills are the right

One of the best equipped systems of railway in the United States is the Cincinnati, Hamilton & Dayton road, popularly known as the "C. H. & D." "This line seems to be enjoying the lion's share of Army and Navy travel. They have recently put on a through train between Washington and Chicago, their principal train leaving Washington at 11.45 a. m. and arriving in Chicago the following day at noon. They use the Baltimore & Ohio system from Washington to Cincinnati, where they connect with their own system to own system to Chicago. Some time
