GOV. PINGREE SAYS UNIVERSITY AND NORMAL SUFFER BECAUSE CORPORATIONS PAY NO TAX.

SPEAKS AT YPSILANTI

Before the Dairyman's Association—Senator Campbell Comes Back at Pingree.

Storms delayed trains in various parts of the state Tuesday and the fourteenth annual convention of the Michigan Dairyman's Association, at Ypsilanti, did not begin until Tuesday afternoon when about 200 enthusiastic delegates were called to order.

The first session was opened with prayer by the Rev. R. K. Wharton, pastor of the Presbyterian church, and Hon. E. P. Allen, on behalf of the city, welcomed the dairymen and spoke of the beneficent results obtained by associations of this character; they were the means of bringing members to a better understanding of business and detail, and had also been the means of benefiting the state by causing the passage of wise legislation.

H. A. Crosby, of Oakland, responded to the welcome. He was proud to be called on to respond to so hearty a welcome, and felt glad that so great an interest was manifested by those who were not members. Great good had been accomplished by the organization of associations. As a result not only was a better product obtained, but time and expense was saved the farmer.

E. A. Haven, dairy and food inspector, of Bloomingdale, told of the remarkably clean and efficient working of Michigan factories.

The rest of the afternoon was devoted to a discussion of the cheesemaking industry, Hon. Fred M. Wheeler, of Farmington, opening the debate.

In the evening Dr. Vaughan, of the University gave an address on bacteriology in relation to milk.

Wednesday forenoon there were three excellent papers. The first was by B. C. Stroud, of Hilliards, on "How a Creamery Can be Operated to Pay the Dairyman." The second was by Prof. C. D. Smith, of the Agricultural College on "The Farmers Side of the Creamery Question." This was followed by A. C. Jones, of Middleville, who gave a "History of the Cold Spring Creamery of Middleville."

In the afternoon the main interest centered in the address by Gov. Pingree on the topic, "Who Pays the Freight." In his talk to a packed house, the Governor made a vigorous attack upon corporations in general and railroads in particular. The Governor announced that he had just on the night before discovered a law passed by the legislature in 1891, declaring that no road

NO ONE BLAMED

By the Verdict in the Whitmore Lake Inquest.

The inquest over the men killed in the Whitmore Lake ice house disaster closed last Friday when the jury decided that the building fell because certain braces were removed. Nothing was said about who removed the braces and so no one is as yet officially blamed.

The company, it is said, had all its workmen insured against accident and is able to pay the injured for their time and trouble, without loss. In this way the trouble may be settled, though one or two persons still talk of bringing suit for damages. If no suits are brought the blame will probably never be fixed and the question will remain just where it is now; McBride and Turnbull laying it to John Todd, and Todd saying it is all the fault of McBride.

The ice house has been very nearly rebuilt. Todd, who was foreman of the laborers and who swore that McBride ordered him to remove the fatal braces has lost his place and now does ordinary work.

William Foltz is still in a serious condition but McBride and the rest are doing well.

DEXTER WANTS THE ROAD

And is Willing to Work Hard to Get It.

A Free Press dispatch says "a large and enthusiastic meeting of Dexter citizens was held in the opera house Tuesday night for the purpose of discussing the project of an electric road from here to Lansing. The entire board with the exception of Morris Topping, were present. This is the largest mass convention for consultation along the line. The board are enthusiastic over the interest manifested by all. They declare the road is assured and within a year it will be in full operation. A local committee was appointed to assist in pushing the enterprise. There are now about a hundred committeemen at work along the line uniting their efforts with the management in securing the much desired road. Dexter wants the road and she will have it.

Y. W. C. A.

A rare treat is in store for the association in the two parlor talks to be given at the rooms by Dr. Eliza Mosher the Tuesday evenings, February 8th and 15th. The subject, "One Day's Living," will give scope for much helpful suggestion along the line of dress, food, hygiene, social duties, etc. All young women invited whether members of the Y. W. C. A. or not.

Board meeting Monday evening 7:30. The quarterly business meeting of the association will be held Monday evening, February 14. This is an important occasion at which the entire membership should be present.

CHORAL UNION CONCERT.

ST. PAUL WILL BE GIVEN IN UNIVERSITY HALL TOMORROW NIGHT.

Chorus by the Choral Union.—Chas. B. Stevens, Lewis Campion, Miss Bailey and Mrs. Clements Sing Solos.—The Chicago Festival Orchestra Will Take Part.

The fourth concert in the Choral Union series tomorrow evening, will be a performance of "St. Paul," Mendelssohn's greatest choral work. It is hoped that this performance will rank with the memorable production of the "Elijah" two years ago, which was one of the finest choral concerts ever given in Ann Arbor.

The chorus is in condition to do most excellent work. The Chicago Festival Orchestra will furnish the orchestral music, while as soloists, Miss Alice G. Bailey, Mrs. Clements, Mr. Chas. B. Stevens and Mr. Lewis Campion, of Chicago, will appear.

The Chicago Festival Orchestra has made a reputation in the west and comes very highly endorsed. As Choral Union subscribers realize, the problem of an orchestra for the mid-winter concert is a serious one, and it is sincerely hoped that the Chicago Festival Orchestra may be a happy solution of the difficulty.

The soloists are admirably adapted for the work. The soprano solo will be sung by Miss Alice Bailey, of the School of Music, whose artistic work is well recognized in Boston and Detroit, where she has held prominent church positions. Her remarkable singing in the "Messiah" several years ago will be remembered.

Mrs. Clements is one of the leading contraltos in Detroit, who has sung the alto in the "St. Paul" very satisfactorily in Detroit.

Mr. Chas. B. Stevens has sung several times in Ann Arbor, and will be remembered as having given a very refined, artistic interpretation of the tenor solos and recitatives in the "Elijah."

The principal interest in this work, outside of the superb choruses (which, by the way, will be magnificently sung) centers in the baritone part. This will be taken by Mr. Lewis Campion, of Chicago, an Englishman, recently bass soloist of Durham Cathedral, and an oratorio singer of exceptional ability.

SEVENTY WANTED DIVORCES

In this County Last Year.—Thirty-two Decrees Were Granted—None Refused.

Deputy County Clerk Blum has just completed a tabulated statement showing the number of divorces asked in this county during the past year, their causes and the final decision of the court.

On January 1, 1897, there were 16 cases pending. Fifty-four more were filed during the year. Of these 32 were granted; six were withdrawn or otherwise settled; 32 are still pending. None were refused. In 51 cases the wife was the complainant and in only 19 was the husband the one to bring suit.

Extreme cruelty was the chief ground upon which the divorces were granted, about 40 separations being due to that cause. Desertion, non-support, and drunkenness came next in order. Adultery was alleged in only two cases.

FROM SOUTH AMERICA.

"MORT" SENTER HAS RETURNED FOR A VISIT AT ANN ARBOR.

HAS A COFFEE PLANTATION

And Says Prospects Are Good For Making A Fortune.

"Mort" Senter, who played tackle on the famous Michigan foot ball team that defeated Cornell in '94, has returned from South America for a short visit at the U. of M. Senter wears a full beard and looks as though the climate of Columbia agreed with him.

He has now been in the United States of Columbia two years and says prospects for the future are very bright indeed. When he arrived in that country, he bought 1500 acres of land 15 miles back from the Caribbean Sea. It is near the old Spanish town of Santa Marta, famous as a resort for pirates in the early days and for having undergone a bombardment at the hands of Sir Frances Drake. This town now has about 5000 inhabitants and the surrounding country is mainly forest, whose altitude ranges from the sea level to several thousand feet. Land may be purchased from the government for about five cents an acre. Mr. Senter chose to locate his own plantation on the plateau about 4,500 above the sea. He first proceeded to clear away the heavy growth of hard wood timber and now has 120 acres cleared and planted to coffee. About 1000 trees are planted on one acre. They bear in from two to four years and Senter expects to gather his first crop next year. He has about fifteen men working for him. These are negroes, Indians, and Spaniards and while the workmen are lazy and unreliable, he says they are not treacherous. As he is situated 15 miles from Santa Marta, Mr. Senter often finds his three years study of medicine of great value in taking care of his men.

There are fortunes to be made in coffee planting, he says. The crop is a pretty sure thing, the market good and labor very cheap. It is oost to get started though and he tells numerous students who come to him to ask about going to that country, that they should not do so unless they have at least \$10,000 to start on. If they have that they can easily make a fortune in a few years.

He says the climate is perfect and that the government is not nearly so bad as it is often represented. The aristocratic people are native Columbians, descended from early Spaniards and native Incas. There are negroes, and Indians, too.

A number of students think of going to Columbia and Mr. Senter thinks there is a possibility of having quite a Michigan settlement.

ANN ARBOR GIRL

Said to Have Caused a Man's Arrest for Improper Use of the Mail.

An Associated Press dispatch from Boston says:

Franklin B. Carson of Woodruff, Ill., was arrested here this forenoon on an indictment warrant, charging him with sending an obscene letter through the mail to a young woman in Ann Arbor, Mich.

Carson is apparently 23 years old. He was taken into custody at the English high school building while taking an examination for teacher. The prisoner was arraigned before United States Commissioner Fiske, and was held in \$1,000 bail for the United States court of Springfield, Ill.

The letter which Carson is alleged to have written was addressed to "Miss Blanche Lurton, Ann Arbor, Mich." When Miss Lurton received the letter she immediately entered a complaint with the United States authorities against the alleged author, with the result that Carson was indicated in October last.

WANT BIG MONEY.

Directors of the Lansing and Dexter Electric Railway Ask \$97,000 Bonus.

The board of directors of the Lansing and Dexter Electric road have submitted a proposition to the localities through which they propose to run the line. The route thus far determined upon is from Lansing to Holt, Alaledon, Mason, Dansville and White Oak. Beyond this point the line is unsettled. Lansing city and township is asked for \$30,000, Delhi, \$7,000; Alaledon, \$10,000; Mason, \$25,000; Dansville and Ingham, \$15,000; and White Oak, \$10,000. The committee appointed at the recent meeting in Lansing met Saturday eve, and considered the proposition. To say they were surprised is putting it mildly. Ninety-seven thousand dollars bonus for thirty miles means roadbed and iron and the free gift of it to the company. The committee met again Monday when the proposition was discussed.—Times.

To Denver in Less Than 28 Hours.—Only One Night En Route.—"The Colorado Special."

Beginning Sunday, Feb. 6th, a new train will be placed in service between Chicago and Denver via the Chicago Union Pacific & North-Western Line, which will make the fastest schedule ever maintained between Chicago and Colorado's Capital City.

This train will be known as "The Colorado Special" and will leave Chicago via the Chicago & North-Western R'y at 10:00 A. M. every day and reach Denver at 1:30 the following afternoon. Eastbound, this train will leave Denver daily at 3:30 P. M. and reach Chicago 8:45 the next evening, and as connections will be made in the Union Depot at Denver to and from trains of all the Colorado lines, passengers will be afforded the very best opportunities for quick transit between Chicago and all points in Colorado and the west.

Train will be vestibuled throughout, lighted with Pintex gas, and will consist of Drawing Room Sleeping Cars, Free Reclining Chair Cars, Buffet, Smoking and Library Cars, coaches and Dining Cars serving all meals on route. A feature in connecting with the service of this train, which will be appreciated by tourists, is that it will afford an opportunity for a daylight ride through the progressive and thickly settled portions of Illinois and Iowa, which has been impossible heretofore, as all trains for Denver have left Chicago in the evening.

Daily service to Denver via The Pacific Limited leaving Chicago 10:30 P. M. will be continued.

JUDGE ADJOURNED COURT.

Broke a Chair Over the Offender's Head Then Resumed His Place.

Judge Wilson Hammock, who died at Lebanon, Tenn., last February, was among the most gifted men the state ever produced, says the Glasgow (Ky.) News. Unfortunately he became involved in a quarrel during his early manhood and took the life of a fellow-man. Although exonerated by the jury, the intimate friends of the judge are inclined to the belief that his future life was, in a measure, controlled by his early misfortune. However, if a man ever lived who enjoyed a fight that man was Judge Hammock. He bore no malice and no marks when an affray was ended, but a fellow in search of trouble never went begging when the judge was in the community, and the same man never went in search the second time. During his term as circuit judge of the Hartsville district a wanton insult was given him by an attorney at the bar. In an orderly and quiet way Judge Hammock ordered the sheriff to adjourn court for two minutes. Then, walking outside the rostrum, he picked up a chair and shattered it to pieces over the offender's head. "Call the court to order," said he to the officer, and, resuming his place on the bench remarked: "Gentlemen, when any one cares to insult this court let nothing prevent."

Children's Exercises.

The amount of exercise in childhood and youth should be carefully regulated as in many instances ambitious children will far exceed their strength in the effort to avoid being outdone by older and more robust companions. In infancy the almost incessant movements of a baby's limbs show how imperative is the instinct of nature for muscular exercise. Hence it is important not to restrict too much the freedom of infants, and care should be taken to prevent their clothing being too tight to allow ample freedom to the limbs. Even the cry of a young child is often useful as a means of exercising the muscles of the chest, and in moderation must not be discouraged. The best muscular exercise for young children, says a well known writer, is the movement to which they are led by their natural playfulness. They, if left to themselves, will run, tumble and wrestle with each other like sportive kittens. Each limb and every muscle of their bodies will by turns rise and fall, swell, contract and perform all the actions of which they are capable. They are hardly at rest a moment, and each movement they make is of the freest and most graceful kind. Nothing can be more favorable for the first development of the muscular system, and, in fact, for vigorous growth and sound health, than the motions of a child in the free indulgence of its playful moods. During childhood and youth efforts should be made to exercise every important muscle of the body, each in its turn, so as to secure for all a complete and symmetrical development and consequently robust health.

Educate Railroad Men.

The Vienna training school for railroad employes, now in its sixtieth year, does not, like the Buda-Pesth institute, prepare men for appointments, but is designed to increase the special knowledge of railroad employes and fit them for promotion. The lower yearly course embraces bookkeeping, traffic geography, railroad technology; description of goods transported, etc., the higher comprising custom-house regulations, railroad law, political economy, traffic statistics and electro-technology. The students are divided into regular and extraordinary classes, and the small expenses of the school are defrayed by the railway companies, which give preference when making promotions to students whose examinations are most creditable.

New England's Early Currency.

The earliest money, or substitute for money, used in the colonies—except, perhaps, small quantities that were brought from England—was the Indian money, known as "wampum," or "wampumpeag," for brevity called "peag." This "peag" was for a long time used as money both among the Indians and the settlers; though it would appear that the Massachusetts colonists had some other kind of money in use, as in 1635 the court ordered that "brass farthings shall be discontinued and musket balls shall pass for farthings."—Exchange.

Perhaps.

Freddie's father had just been struggling with an old fashioned bureau and, retiring disheartened from an unsuccessful effort to open one of its compartments, he moved to the window and looking out upon the lowering sky he exclaimed: "It's mighty strange that the weather bureau can't give us a change of weather." "Maybe," shyly interposed Freddie, "they can't open the bureau drawers."—Boston Courier.

TRAINS FOR MISSIONS.

Medical Missionary and Training School for Men and Women.

The Chicago Medical Missionary Training school is an undenominational school of practical philanthropy just established by several philanthropic people, in the large building at 1925 Wabash avenue, Chicago (until recently occupied by the Home for the Friendless). Its purpose is to prepare Christian young men and women to labor in city missionary and rescue work, under the various missionary boards. It will co-operate with all denominations in helping humanity and responding to the cry of anguish that comes from society's downtrodden and outcast. Each course of study will last one year, and includes unsectarian Biblical instruction in Gospel principles, elementary physiology, medical nursing, hygiene, sanitation, emergency relief and practical philanthropy. The students spend part of each day in classes and part in practical work, such as friendly visiting and district nursing among the poor and destitute sick, as well as holding cottage gospel and health meetings. About one hundred of these meetings are now being held each week. There are at present one hundred and fifty students, but there is room for at least five hundred in the building. Consecrated young men and women are received as students without regard to their creed, provided they are prepared to devote their lives to gospel philanthropic work. Students are furnished with room and tuition free of charge and boarded on the European plan, costing from \$1 to \$1.25 per week for meals and incidentals. The building is steam heated and very comfortable. The instructors are physicians, trained medical nurses and philanthropic workers, all of whom give their services free. There is in the building a free medical dispensary, free bath, and laundry for women and children, day nursery, free kindergarten and kitchen, and also a home finding department for friendless men, women and children. It will furnish Christian families all through the country with children to adopt or men and women to work, as well as care for the homeless until placed in families. Sixty friendless young girls have been rescued and put in Christian homes in the past six months.

Where He Drew the Line.

One of our visitors from the country during Merchants' week became hungry and, going into a restaurant, ordered dinner, says a Boston paper. Being asked by one of the waiters what he would have, he replied: "Oh, bring me a good dinner." The head waiter was consulted, with the result that soup was first placed before the hungry man, also celery. He drank his soup and although he eyed the celery suspiciously, he ate that. Then came a dish of spaghetti, and the countryman revolted: "I have drunk your dishwasher, eaten your bunch of weeds, but I'll be good turned if I'm going to eat your worms."

Coyotes on the War Path.

Western Kansas is overrun this year with coyotes. It was thought that they had been almost exterminated by the warfare made by the settlers of the new country, but reports from that section indicate that they are multiplying instead of diminishing. They have killed thousands of sheep, and even go into the farmers' hen-houses and kill their chickens. Dogs are no protection against their invasions, for one coyote, if cornered, will whip three ordinary dogs.

Beware Of the Knife.

Mr. Lincoln Nelson, of Matshfield, Me., writes: "For six years I have been a sufferer from a scrofulous affection of the glands of my neck, and all efforts of physicians in Washington, D. C., Springfield, Ill., and St. Louis failed to reduce the enlargement. After six months' constant treatment here, my physician urged me to submit to a removal of the gland. At this critical moment a friend recommended S.S.S., and laying aside a deep-rooted prejudice against all patent medicines, I began its use. Before I had used one bottle the enlargement began to disappear, and now it is entirely gone, though I am not through with my second bottle yet. Had I only used your S.S.S. long ago, I would have escaped years of misery and saved over \$150."

A Real Blood Remedy.

S.S.S. (guaranteed purely vegetable) is a blood remedy for real blood troubles; it cures the most obstinate cases of Scrofula, Eczema, Cancer, Rheumatism, etc., which other so-called blood remedies fail to touch. S.S.S. gets at the root of the disease and forces it out permanently. Valuable books will be sent free to any address by the Swift Specific Co., Atlanta, Ga.

The Old Lady Was Falling.

The maiden aunt of a San Francisco official has gradually cultivated a fondness for sensationalism until a love of reading horrible descriptions in the newspapers and marvellous imaginings in books has gained a complete ascendancy over her. An old friend of the family inquired a few days ago of the nephew concerning the health of his aunt. "We are rather anxious about her," was the perfectly serious reply. "She is not exactly ailing, but her spirits seem depressed. She does not seem to be enjoying her murders and lynchings as much as usual!"

A

What does A stand for? When some friend suggests that your blood needs a sarsaparilla treatment, remember that A stands for AYER'S. The first letter in the alphabet stands for the first of sarsaparillas; first in origin, first in record, first in the favor of the family. For nearly half a century

Ayer's Sarsaparilla

has been curing all forms of blood diseases—scrofula, eczema, tetter, rheumatism, erysipelas, blood poisoning, etc. There's a book about these cures—"Ayer's Curebook, a story of cures told by the cured,"—which is sent free on request, by Dr. J. C. Ayer, Lowell, Mass. The book will interest you if you are sick or weak, because it tells not what it is claimed the remedy will do, but what your neighbors and fellows testify that it has done. Will it cure you? It has cured thousands like you. Why not you?

The Steamer City of Duluth Completely Wrecked Just Outside St. Joseph—Michigan Grand Lodge F. & A. M.—An Aged Gay Deceiver Caught.

Steamer Duluth Wrecked Off St. Joseph

The steamer City of Duluth, with a cargo of grain from South Chicago, struck the pier at the mouth of the harbor at St. Joseph, about 10 p. m. and a jagged hole let the water rush into the vessel's hold. She sank almost immediately and only the cabins and part of the bulwarks were out of water. The fireman and engineer scrambled out of the pit in a hurry and managed to reach the deck in the nick of time. The stranded steamer was soon in a helpless condition. The tags were unable to release her because the water is shallow on the bar and a terrible gale was blowing from the west. The life-saving crew worked hard to save her crew of 23 and 17 passengers. A life line was shot across the deck on the second attempt and after being made fast by the sailors the work of taking the passengers off in the breeches buoy was begun. August Kernwein, of St. Joseph, was the first one to be taken off. The basket dipped into the icy water several times as each one made the passage to the shore and they thought that their hours were numbered. The women's screams as they were drawn over the black abyss of waters added terror to the occasion. The crew stuck to their posts until the passengers had all taken the dangerous ride and then they took their turn. Capt. MacLane remained until the last. He had barely reached shore when the waves broke up the vessel. The passengers will all recover from their experience except Mrs. Wm. Tryon, of Royalton, who is said to be in a delicate condition. Exposure and fright will cause her death. The steamer was chartered by the Graham & Morton Transportation Co. for the winter service between St. Joseph and Chicago. She was owned by the Lake Michigan & Lake Superior Transportation Co., was of 1,400 tons burden and was valued at \$40,000. She carried a load of 30,000 bushels of corn and a deck cargo of miscellaneous freight.

Grand Lodge of Michigan Masons.

About 1,000 delegates attended the grand lodge of Masons at Grand Rapids. Secretary J. S. Conover reported 388 lodges in Michigan, with 39,688 members, an increase of 1,020 during a year. Michigan stands fifth in membership among the grand lodges of this country. Amendments to by-laws were adopted raising per capita dues from subordinate lodges to 10 cents, for the support of the Masonic home. This will give the home over \$4,000 a year. The grand lodge voted \$1,500 for this year. Officers elected: Grand master, James Bradley, of Port Huron; deputy, Frank T. Lodge, of Detroit; senior warden, Lucian E. Wood, of Pokagon; junior warden, Frank O. Gilbert, of Bay City; treasurer, Wm. Wente, of Manistee; secretary, J. S. Conover, of Coldwater; lecturer, Arthur M. Clark, of Lexington; chaplain, Rev. A. A. Knapp, of Manistee; senior deacon, Neal McMillan, of Rockford; junior deacon, E. W. Broughton, of Paw Paw; marshal, F. E. Terrell, of Bellaire; sentinel, J. F. McGregor, of Detroit.

It was decided to meet at Port Huron next year.

Peculiar Tax Roll Crookedness.

The supreme court has ordered the board of Au Sable township, Iosco county, to show cause why it should not elect, at once, a new supervisor and spread state and county taxes on the township rolls. It is charged that this assessment was willfully omitted by Supervisor Dudgeon, who is now in Idaho. The combined state and county tax apportioned to Au Sable township was \$6,043. It is said that the township board backed Dudgeon in refusing to spread this amount on the rolls, and the reason is not very hard to find when it is understood that every member of the township board is an employe of the big lumber firm of the H. M. Loud & Sons Co., and that 90 per cent of the taxable property in the township is owned by the Louds. The township treasurer refuses to allow the county supervisors or any taxpayer to inspect the rolls, which are kept in the Louds' office.

An Old Scoundrel Captured.

Wm. Sherman, the old scoundrel who makes a practice of marrying widows and deserting them after securing their property, has been captured at Pierson, Montcalm county, and will be prosecuted by Mrs. Mary Killam, of Kalamazoo. Sherman is said to have left a dozen broken-hearted "wives" in Michigan and Indiana.

Miss Rosa Boyer, of Lawton, took laudanum while visiting at Vicksburg, but was saved. Love affair.

Mitchell Bros.' snow plow uncovered the frozen body of a man four miles north of Lake City. He was identified as Andrew Anderson, a laborer.

While Michael Greenburg, a German farmer living one mile north of Coral, was cutting a tree it broke in two and fell upon him. His son Harmon had gone to the house with a load of wood and upon returning he found his father unconscious and he died in two hours.

Chas. Halliday, aged 34, adopted son of ex-Sheriff Halliday, committed suicide at Benton Harbor by slashing his throat on both sides, severing an artery in his wrist and then firing a rifle ball through his body. He was prominent and popular. Jealousy is surmised to be the cause.

Killed Four Bears in Half an Hour.

William Poat, who lives seven miles from Clare, has made a new bear-hunting record. He was examining a huge tree that had blown over with upturned roots, when a good-sized bear came out. Mr. Poat "plugged" him. No sooner had the echo of the shot died away, before another bear came from another side and a shot from the rifle soon silenced this one also. Mr. Poat thought he would get his game together and prepare to go home. As he attempted to extricate the first bear, another stuck his snout out. Mr. Poat grabbed his gun and with one shot laid No. 3 dead at his feet. He again began to pull one of the dead bears from the hole, when a gruff growl was heard and one of the largest she-bears ever seen there came out for a fight. The next moment she was dead. The whole butchery occupied less than 25 minutes and only four shots were fired.

Fine Residence Burned at Flint.

A disastrous fire at Flint reduced to ashes the home of Frank M. Howard, just outside the city limits. The fire caught in the upper story and when discovered by the family it had gained such headway that it was almost useless to attempt to quench the flames. The Flint fire department responded to a call, but there was no water to be had. The thermometer was below zero and the wind was sweeping a heavy gale from the northeast, blowing the fire and cinders toward the dairy house and stock barns. Good work upon the part of neighbors saved those buildings. The furniture of the lower rooms were partially saved, but the dwelling house was completely ruined. The building was erected by the late Judge Sumner Howard at an expense of \$25,000.

Snow Prevented a Greater Conflagration.

The most disastrous fire in the history of the village of Brooklyn commenced at 2:30 a. m. and eleven business places on the west side of the public square were wiped out of existence. The fire started in the bakery and grocery of George C. Ebert, and spread with great rapidity to the adjoining buildings, which burned like tinder, and it was soon evident the entire row of buildings must go. The heat was so intense it cracked the glass in all the store windows on the opposite side of the square, and if the buildings had not all been covered with snow there would not be a dozen buildings left in the village. There was much excitement and many narrow escapes but no one seriously injured. The total loss is \$25,000.

A Guilty Conscience.

Fifteen years ago Mike Krupchak, now of Bessemer, purchased a railway ticket from George Beatie, then ticket agent at Embarras, Wis. In paying for it he gave Mr. Beatie a \$5 gold piece for a penny. Krupchak has received a letter from Beatie as follows: "A long time ago you gave me, by mistake, when buying a ticket, a \$5 gold piece for a penny. I feel that I did wrong by taking it. The Bible tells us that we must return four for one wrongfully obtained. I therefore inclose you an express order for \$20." Mr. Krupchak returned \$15, saying: "I am just as honest as you are."

The Divorce Papers Were Unnecessary.

Under-Sheriff Shepherd served papers in a divorce suit on Ansel Witherrall, aged 75, a well-to-do Franklin township, Lenawee county farmer, while he was sick in bed. Mrs. Witherrall recites that he was always accusing her of stealing \$1,500 deposited in a savings bank; that he had refused to eat with her because he feared poison; that he struck her with a beer bottle and that he finally left her and broke all the windows in the house. Several hours after the papers were served, Witherrall died, and his wife was free.

Preferred Death to Hard Work.

Nellie Allman, aged 19, and a deserted wife, shot herself dead in the home of George Savage, at Grand Rapids, where she was employed as a domestic. Her husband disappeared last August and the young wife was much depressed by the fact that she was compelled to support herself by servant's work.

Secretaries of Associated Charities Say Dr. Greene's Nervura Cures.

The Associated Charities Thus Place Dr. Greene's Nervura Above All Other Remedies to Cure,—a Real Blessing to the Sick and Suffering—The Remedy Which Will Surely Make You Strong and Well.

No greater proof of the wonderful efficacy and great curative powers of Dr. Greene's Nervura blood and nerve remedy among the sick and suffering is possible than the enthusiastic and glowing reports of the Asso. Charities concerning this wonderful medicine and the marvelous cures it is everywhere effecting.

Mr. Geo. S. Wilson, General Sec. of Associated Charities of Washington and the district of Columbia, and the best known man in the country in the field of charitable work, reports:—

"In our work of the Associated Charities of Washington, we have dispensed Dr. Greene's Nervura blood and nerve remedy among the sick.

"It has been gladly received and with very gratifying results. In one case especially of nervous debility the report is very encouraging. She was also afflicted with dyspepsia.

"I am pleased to say that all reports that have come to my knowledge have been highly favorable.

GEO. S. WILSON, Gen'l Sec'y Associated Charities of the District of Columbia."

More enthusiastic still is the report of Miriam F. Witherspoon, General Sec'y of the Associated Charities of Worcester, Mass. (35 Pearl St.), regarding the

The officials of the proposed Lansing, Dexter & Ann Arbor Electric railroad made a trip over the line, and are greatly encouraged with the promises of aid which have been received. Meetings were held at Holt, Mason, Dansville, White Oak, Stockbridge, Plainfield, Gregory and Pinckney, and committees appointed to solicit subscriptions.

There is a row in the Saginaw beard of trade because the powers that be invited Mayor Maybury, of Detroit, to speak at the annual \$2-a-plate banquet Feb. 12. Gov. Pingree's friends claim that this is a direct snub and an insult to the governor, and they declare that they will not attend the banquet, but may have the governor speak in the Masonic temple to a public audience, with a free feed to follow.

The directors of the Lansing & Dexter electric road have submitted a proposition to the localities through which the road will run. Lansing city and township are asked for \$30,000; Delhi, \$7,000; Alaledon, \$10,000; Mason, \$25,000; Dansville and Ingham, \$15,000; White Oak, \$10,000. great value, as a medicine, for Dr. Greene's Nervura and its marvelous powers to cure disease and restore health to the people. She says:—

"In my work as General Secretary of Charities in Worcester, I have distributed Dr. Greene's Nervura blood and nerve remedy among the needy poor and sick, and it has been received with thankfulness and great joy. One poor woman said she had been trying to save money to buy a bottle, and when she found I was to give her one, her joy and gratitude were great.

"In all cases the results have been as we hoped for, building up the feeble, nervous, overworked and underfed people who have in general no helper. As far as my experience goes it has been a real blessing. M. F. Witherspoon, Gen'l Sec'y Associated Charities."

In these days when so many ordinary preparations are advertised, it is a real beneficence to the weak, weary, nervous, shattered, tired and worn out sick and suffering to know positively and to be shown beyond any doubt or question that this one grand remedy, Dr. Greene's Nervura, does surely and certainly cure the sick; that it is the best remedy possible to take, either if one is only a little out of order, nervous and run down, or if suffering from more serious affections like nervous prostration, low blood and vitality, rheumatism, paralysis, stomach troubles, liver and kidney complaint, female weakness or other weakening and debilitating disease. In these reports of the Associated Charities is abundant proof that Dr. Greene's Nervura does cure the people, that it makes those who use it strong and well, and that it will cure you if you will take it. Don't fail to try it now.

Remember that in all cases you can consult Dr. Greene, 148 State St., Chicago, Ill., the noted and successful physician, absolutely free of charge, personally or by letter.

The REGISTER has never once spoken of Brother Lisemer as an "Ocupus" and doesn't intend to do so.

PRESIDENT A. L. Davis, of the League of College Republican Clubs, has started on an active campaign to place the college clubs on a firm working basis and promises to have the league in better working order than it ever was before.

ALUMNI are asking, "What will the regents do with the Williams fund?" Seven months ago the Alumni Association voted to give the fund to the regents and ask them to use the interest in establishing a chair of ethnology with Prof. J. B. Stiere, as professor.

The Bryan-Mexican mountain has labored and brought forth a mouse. The first public utterances of the champion of the silver cause upon his observations in Mexico have been published, and are disappointing even to the most ardent friends and admirers of the late candidate.

THOSE pure patriots who have been uttering loud lamentations over the supposition that Secretary Gage and the President were not in accord on the silver question will be able to sleep nights, now that Mr. Gage has shown clearly that they were, as usual, mistaken.

Calumet Baking Powder. NONE SO GOOD.

ment with open mints to both silver and gold. In his efforts to inaugurate such methods, the President heartily supports the principles of his party's platform, and in his efforts he has the support of all the members of his official family, innuendoes and declarations from various sources to the contrary notwithstanding.

REPUBLICAN CLUB NOTES.

A great many Club Democrats have bought tickets and will attend the banquet on the 17th.

The Ladies' Relief Corps will have its ladies' full in preparing the supper for all who will attend the Club banquet.

The strong democratic township of Lodi has enrolled ten wide-awake members in the branch of the Club for that precinct.

The committee on music has arranged for several pieces of fine orchestral music and also a number of songs by an excellent male quartette.

There are a great many people who will be unable to attend the Club banquet because they will neglect to secure tickets on or before February 9.

Those who are holding off expecting to purchase gallery tickets may be disappointed, since the gallery in the Armory is very small. Better buy a banquet ticket for 75 cents, and buy it before it is too late.

The fact that both the Argus and Democrat are devoting a considerable portion of their editorial space to efforts to injure the Club is an eloquent admission that they have great fears of its work in the county.

There are forty-nine fellows hustling to make the first Club banquet a success. The prospects are, in fact it is now absolutely certain, that it is going to be a much greater affair than even the most sanguine had hoped.

From as accurate reports as it has been possible to obtain just before going to press, between two and three hundred banquet tickets have already been sold. From present appearances the Armory will be tested to its utmost capacity.

The earnest desire of the members of the Club to make the first annual banquet a success is shown by the way the fellows with tickets are hustling to insure a big crowd. One member came in twelve miles one day last week for some tickets to sell in his vicinity.

The Democrats were in great grief when they succeeded in selling Sberiff Judson a ticket to their banquet a few weeks ago. What will they say now that County Clerk Schuh has bought a ticket to the Republican Club banquet. The Schuh seems to be on the other foot now.

The excellent judgment of those who drafted the constitution and by-laws of the Club is shown by the fact that only one clause has aroused the least particle of adverse criticism. This is the section which limits the membership to ten in each branch. This limit will without doubt be removed at the annual meeting to be held on the 17th.

Some people are asking why the Club did not confine its banquet to its own members. The answer is simple. The object of the Club, first, last, and all the time, is for the promulgation of Republican principles. The speeches at the banquet will afford a splendid opportunity to do good work along this line, hence the wish of the Club to have just as many present as possible.

Ask your Republican friend if he is one of the blocks of ten who have been thought fit and proper men to be taken into the new Republican club.—Argus.

Then, Mr. Argus, you might also ask such Republicans if a single one of them has been refused admission into the Club. There are two sides to most questions. Maybe by another week The Argus will get around so as to see the other side of this one.

Victim of the Kansas Boom. The niece of an ex-governor of Indiana is running a saloon in Wichita. She was educated at one of the leading colleges of the country, and is a highly accomplished musician. She says the Kansas boom caused her downfall. Her husband lost all his money and died, leaving her penniless.

No Female Singers. There is not a single female voice in the choir at St. Peter's, in Rome, and yet the most difficult oratorios and sacred music written are rendered in such a manner as to make one think that Adeline Patti's high soprano is leading. The choir is composed of 60 boys.

DOINGS OF CONGRESS.

A Paragraphic Chronicle of the Acts of the Nation's Lawmakers.

The discussion on the Indian appropriation bill, which has passed the House, covered a wide range of subjects from silver to the Cuban question. Rep. Hartman (Silver Rep., Mont.) referred to denounce the conduct of the Republican party. He declared that the majority of the House were mere puppets of a tyrant. Mr. De Armond (Dem., Mo.) criticised the Cuban policy of the administration and with fine sarcasm, ridiculed the official explanation of the visit of the battleship Maine to Havana. Mr. Dolliver (Rep., Ia.) replied eloquently to both. He referred to the Cuban insurrection during the terms of President Grant and said that after seven years of responsibility, anxieties and worry, in a message to Congress Mr. Grant vindicated the policy of this administration and gave the country warning that any intervention in the affairs of Cuba would not only be unwise but injurious.

"For my part," said Mr. Dolliver, "I do not aspire to a larger patriotism than that which governed the official career of U. S. Grant." In reference to the attack on Speaker Reed he said: "There is no authority that constrains the Republican majority here except the policy of the Republican party and the administration of a Republican President. It is true we have a leadership in this House and I for one have often felt a sense of satisfaction that we have a leadership of brains and character that men may follow and follow without loss of self-respect."

Silver had an innings in the Senate. The Teller resolution, the debate upon which is considered as the preliminary lining up for the presidential battle of 1900, was passed after the discussion had continued for a week. It was at all times of an animated character and often assumed a strongly acrimonious phase. The resolution is a practical reaffirmation of that of Stanley Matthews in 1878 and is as follows: "That all the bonds of the United States, issued, or authorized to be issued under said acts of congress hereinafter recited, are payable, principal and interest, at the option of the government of the United States, in silver dollars of the coinage of the United States, containing 412 1/2 grains each of standard silver; and that to restore to its coinage such silver coins as a legal tender in payment of said bonds, principal and interest, is not in violation of the public faith nor in derogation of the rights of the public creditor." All efforts to amend the resolution were voted down by good majorities. The final vote was 47 to 32. Party lines were broken up on both sides, a number of Republicans who supported McKinley and the St. Louis platform in 1896 voted for the resolution, because, as Mr. Wolcott announced, they did not believe the resolution committed those who supported it to the free and unlimited coinage of silver.

The Teller resolution declaring bonds of the United States payable in silver, which had passed the Senate, was buried under an adverse majority of 50 votes in the House, the Republicans voting almost solidly against the proposition. The result was reached after five hours of debate under a special order. The majority, under the leadership of Mr. Dingley, who made a carefully prepared speech sounding the keynote of the opposition, assumed the position that in reality a disguised declaration for the free coinage of silver, while the assailing Democrats, under the direction of Mr. Bailey, maintained that the defeat of the resolution would be another step in the direction of the establishment of the gold standard, to which they alleged both the President and Secretary Gage had irrevocably committed the Republican party. There were no sensational incidents beyond the hissing of Mr. Rhea, of Kentucky, when he said that as the author of the "crime of '73" the hottest place in hades would be reserved for the present secretary of state. The vote on the resolution was: Ayes, 132; nays, 182.

At one day's session of the Senate two general appropriation bills—that for the army carrying \$23,743,492 and that for the legislative, judicial and executive departments carrying \$31,638,520—were passed.

John M. McLaurin has been sworn in as Senator from South Carolina to fill the unexpired term of the late Senator Earle, which ends March 4, 1903. Senator Gallinger, chairman of the pension committee of the Senate, reported adversely the bill introduced by Mr. Allen providing that all pensioners now receiving less than \$10 a month receive that amount after the bill's passage. Mr. Gallinger said that the whole number of pensioners affected by the proposed bill was 468,463 and the total annual increase in pensions would aggregate \$15,286,000. The bill was placed on the calendar.

Senator Pettigrew has introduced the following resolution: "That it is contrary to the interest, policy and tradition of the people of the United States to acquire any territory so situated as to require a navy to protect it." The resolution went over. It was aimed at Hawaii.

The news from Christiania that the committee appointed to draw up proposals for the better regulation of the relations between Norway and Sweden has been unable to reach an agreement, indicates that the tension between Sweden and Norway is fast approaching the snapping point and it is stated that on the frontier the arming of both parties is rapidly progressing, both sides preparing for war.

Peter and Fred Vanderberg and Ford Dake, of Grand Haven, will leave for the Copper river gold country in Alaska, together with eight Benton Harbor men. Each man puts up \$350.

LONDON SLUMS.

The Rent Collector and the Difficulties He Encounters There.

Slum property apparently has its drawbacks, though it is generally regarded as the most profitable, for most of the owners do not as a rule allow such trifles as repairs to reduce the amount of the rents, says Pearson's Weekly. "This work is breaking up my nervous system," said a man who has been collecting rents for years in some of the worst slums. "I am really beginning to feel that I shall meet my death at it. Much ill-feeling of which I am the victim is engendered between landlord and tenant over the question of repairs. It does not pay to be always repairing such broken-down property, though of course repairs are always being asked for, and some people have a decidedly unpleasant manner of trying to impress on me the necessity for such. They are continually alluring me into all sorts of undesirable traps. I nearly broke my neck once by walking up a dark staircase in which a few boards were broken and loose and the woman who had asked me to walk up told me to get my master to have it mended. If there is a dark, rickety staircase without a banister I am sure to be asked to walk up it, and on one occasion I was nearly frightened out of my wits by my head coming in contact with some hanging paper and plaster which had fallen from a passage ceiling and was suspended by a very meager support. In addition to all this the tenants, when they hear I am about, put pails of water and broom handles in the dark passages I may traverse, beside making other preparations for bestowing similar delicate attentions on me. Only recently a woman asked me to come and look at the awful state of repair of one of her rooms. She took me to a large cupboard and opened it and the corpse of a man tumbled into the room. It was only her poor, dead husband, she said, whom she had stowed there for convenience till the coffin arrived. Of course she had put him there only to give me a pleasant little surprise and she was so successful that a doctor advised me to lay up for a week. Sometimes a brick or two will be aimed at my head without my being able to discover whence it came, and I have just had an interview with a man who showed me a broken window through which he had shoved his wife's head backward and forward by way of chastisement, and he expressed what exquisite delight he would take in doing the same thing to me if the window was not soon mended. All this is quite apart from the trouble I have in obtaining money."

Americans in the Navy.

One notable and commendable feature about the torpedo fleet now in this harbor is the fact that the crews are made up of Americans. There is scarcely a foreign countenance to be seen, and good, expressive "United States" is the language of the fleet. The men are big, strong, healthy young fellows, with ruddy cheeks and clear eyes. They are the kind of men that a good judge would pick to dangerous work in defense of their country, and there is no doubt that these men—the "men behind the guns," upon whom depends the honor and effectiveness of the craft—would be found equal to the occasion should an emergency arise. It is to be hoped that it will not be long before Assistant Secretary Roosevelt will have the news of the greater ships of the navy "Americanized" up to the standard of the torpedo fleet.

Monetary Conference at Indianapolis.

Four hundred delegates were present at the Grand opera house at Indianapolis when Chairman Hanna, of the executive committee, called the monetary convention to order. This was an increase of 100 over the number of delegates that attended the first Indianapolis convention of a year ago. Gov. Mount, of Indiana, and Gov. Shaw, of Iowa, were among the prominent speakers, and both made earnest pleas for the maintenance of the gold standard.

It is rumored that the New York Central and the Lake Shore railroads are to be consolidated.

ADVICE TO WOMEN.

You cannot have nerve trouble and keep your health. In ninety-nine cases out of a hundred the womb, the ovaries and the bladder are affected. They are not vital organs, hence they give out soonest.

Mrs. Lydia E. Pinkham's Vegetable Compound, by building up the nerves and restoring woman's organism to its natural state, relieves all these troublesome uterine symptoms. In confirmation of this we, by permission, refer to the following women, all of whom speak from experience: Miss CELIA VAN HORN, 1913 Sharswood St., Philadelphia, Pa.; Miss GRACE COLBOLD, 1434 Eastern Ave., Cincinnati, O.; Mrs. NEWELL, 50 Kyerson St., Brooklyn, N. Y.; Mrs. ISABEL OBERG, 220 Chestnut St., Woburn, Mass.; Mrs. A. H. COLE, New Rochelle, N. Y., and many others.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. You can talk freely to a woman when it is revolting to relate your private ills to a man.

Scorching in Business.

The bicyclist is not the only man who scorches. There are business-scorchers, professional scorchers, farmer-scorchers, mechanic-scorchers and laborer-scorchers. The man who overworks, who scorches, no matter what his occupation, and at the same time neglects his health, will sooner or later pay a penalty in sickness and possibly premature death.

If a man will always watch his health and correct minor irregularities by a resort to the right remedy, he may do a reasonable amount of scorching without serious results. Nearly all serious maladies are the result of imperfect nutrition. Imperfect nutrition is just another name for starvation. A man may eat voraciously and still starve. He may put on an eighth of a ton of sickly flabby flesh and have a very corpulent stomach, and still be starving. He may scorch until he goes to the opposite extreme and gets thin as a rail, and he is still starving. The trouble lies in the fact that no matter how much food is taken it is not properly assimilated. The blood does not receive the life-giving elements of the food that build firm, healthy flesh, solid muscle and vibrant nerve fibers. Dr. Pierce's Golden Medical Discovery makes the assimilation perfect. It makes solid, healthy flesh, without raising the weight above Nature's normal. At all medicine stores.

E. M. Seavolt, of No. 427 Sandusky St., Mount Vernon, Knox Co., Ohio, writes: "I can heartily recommend your 'Golden Medical Discovery' to any one who is troubled with indigestion and torpid liver. It was that bad it was about chronic with me. All the other medicines could give me no relief; but at last, what came to my relief was that wonderful medicine the 'Golden Medical Discovery.' I could scarcely eat anything—it would put me in terrible distress in my stomach. I had a dull aching and grinding pain in my stomach with pain in my right side and back, and headache, bad taste in my mouth; at night I was feverish and the soles of my feet burned. I took four bottles of the 'Discovery' and two bottles of the 'Pellets.' I am well and hearty and can eat as well as any body can,—thanks to your 'Discovery.'"

Dr. Pierce's Pellets cure constipation.

A little girl from town was staying with some country cousins who lived on a farm. At breakfast the following morning she saw on the table a dish of honey, and regarded this an opportunity to show her country cousins that she knew something of country life after all. Looking at the dish of honey, she said carelessly: "Ah, I see you keep a bee."—Trained Motherhood.

President McKinley Addressed National Manufacturers — England Backing Down Before Russia in China—Ariel Railway Over the Chilcoot Pass.

President McKinley Made a Speech.

The fact that President McKinley was to be present and was to respond to a toast drew a large crowd to the banquet at the Waldorf-Astoria hotel, New York, which was the closing event of the big convention of the National Association of Manufacturers. The President first referred to the convention of the association at Cincinnati in 1895 when he, as the governor of Ohio, addressed them. He contrasted the conditions of the business world at that time and the present, and reminded them that their thoughts were full of gloom then and that their chief aim was to stop their constant losses, while today trade has regained much of the loss and now their ambition is to reach for more extensive fields. He then spoke of the relation of the government to business, saying that national policies can encourage industry and commerce, but the people must project and carry them on. In speaking of the financial question the President said: "There is another duty resting upon the national government—to coin money and to regulate the value thereof." This duty requires that our government shall regulate the value of its money by the highest standards of commercial honesty and national honor. The money of the United States is and must forever be unquestioned and unassailable."

British Backing Down in China.

The London Daily Mail says it learns from a source "hitherto accurate," that China is inclined to make the best possible bargains with Russia, whose diplomacy appears to have triumphed at Peking, England, having resolved not to force a conflict by further opposing Russia's claims at Port Arthur and in the Liao-Tung peninsula. Japan, says the Daily Mail's authority, "has been thrown into a state of consternation by the British backdown and has adopted a more friendly attitude toward Russia."

10,000 Russian Troops Bound for China

An Odessa correspondent says a volunteer fleet will convey in the quickest time practicable over 10,000 Russians to the far east. The first cruiser, with 2,000 men, will leave within a few days. Turkey has given Russia permission to send the Black sea fleet through the Dardanelles.

Over Chilcoot Pass in One Day.

Hugh C. Wallace, president of the Chilcoot Railroad & Transportation Co., announces the completion of the company's aerial railway over the Chilcoot pass to Lake Linden, Mich. This marks a new era for Klondike travel, as the time between tide water and the head waters of the Yukon river is shortened from a month to one day, besides removing the peril and hardships. The company has made a contract with the Canadian government at 15 cents per pound for transporting all its freight for the mounted police from Dyea to Lake Linden.

A CONGLOMERATE CHRONICLE

Pontiac's council has forbidden the circulation of indecent literature and pictures.

Sheriff John Clune, of Cheboygan, arrested Landlord Baker and his bartender, Chas. Wilson, of the hotel at Wolverine, for selling liquor illegally.

The whites are waging a war upon the Negroes in Lenoque county, Ark. Five colored men have been killed and scores are preparing to leave the county.

Both the senate and house committees of the Ohio legislature which are to investigate the bribery charges against Senator Hanna are said to have anti-Hanna majorities. The hearings are open to the public.

It is reported on apparently good authority that the proposed consolidation of the New York Central and Lake Shore railroads means the retirement of Chauncey M. Depew from the presidency of the Central, as he is persona non grata to J. Pierpont Morgan.

The Italian armored cruiser Marco Polo sailed for Chinese waters. King Humbert granted an audience to the captain of the Marco Polo with a view of expressing his wishes and defining the policy of Italy in the far east. His majesty intimated that Italy's interests lay in the direction of trade expansion and were, therefore akin to England's.

The board of general appraisers of customs at New York has sustained the decision of Attorney-General McKenna as to section 23 of the Dingley bill, imposing a discriminating duty of 10 per cent on goods imported in bond through contiguous territory to the United States. It has been held that this additional duty should not be imposed on such goods. The particular case decided by the board was appealed from the collector of customs at Sault Ste. Marie, Mich., who imposed the duty on a case of German china entered at New York and transported across Canada to the Michigan port.

Judge C. W. Dustin, of Dayton, in an opinion delivered at Urbana held the Smith anti-lynch law, which provided that relatives of persons injured by mobs could obtain damages from the county, to be unconstitutional, "for the reason that it is an encroachment of the legislative upon the judicial branch of government, and by its terms necessarily deprives the defendants of the right of trial of disputed facts by a jury and subjects them to the loss of property without due course of law." The case, which is an echo of the "Click" Mitchell lynching at Urbana, will be carried up.

EIGHT BURNED TO DEATH.

Big Conflagration at Spokane Destroys \$300,000 Worth of Property.

A fire in which the loss will run up to \$300,000 worth of property and at least eight lives were lost, took place at Spokane, Wash. The Great Eastern block six stories in height, and constructed of brick, caught fire about midnight and in three hours was totally demolished. All of the two upper floors and part of the third floor were used for lodging purposes and at least 150 people were asleep in the building when the fire started. While most of them escaped with only their clothes, it was feared that a large number perished. None of the remains have been recovered.

The Great Eastern block was built in 1890 at a cost of \$350,000 and was owned by Louis Leviniski, of San Francisco, who carried but \$50,000 worth of insurance.

Miners Get Their Demands.

The interstate joint convention of bituminous coal operators and miners at Chicago ended in a victory for the miners, who are jubilant over the results of their 10 days' session, for it means to nearly 200,000 soft coal miners an advance of 10 cents per ton and a uniform day of eight hours at uniform day wages.

The convention completed its work by naming a scale committee to tabulate the scale and perfect all the arrangements for putting it into effect on the date set. It was determined that hereafter the miners and operators will meet in January each year to fix a scale for the 12 months beginning April 1. Pittsburg was selected for the next annual joint convention, which will meet on the third Tuesday of January, 1899.

President M. D. Ratchford of the United Mine Workers expressed himself as highly satisfied with the work of the convention. He said he considered the establishment of an eight-hour day for the miners one of the greatest labor victories of the century.

President Dole Received at Washington

President Dole, of Hawaii, arrived at Washington, and on behalf of the government was welcomed to the national capital by Secretary Sherman and Assistant Secretary Adee, who greeted President and Mrs. Dole and their party on their train. There was a brief and informal exchange and then the party filed out to the waiting carriages. Mr. Sherman offered his arm to Mrs. Dole and escorted her to President McKinley's carriage and the party proceeded to the Arlington hotel, where the Hawaiian executive will be the nation's guest. President McKinley's call on Mr. Dole was entirely formal and did not last longer than 15 minutes. Mr. Dole returned the visit of President McKinley.

Deadly Wind at St. Louis.

A gale which blew 66 miles an hour and continued for several hours wrought considerable damage, besides causing three deaths, at St. Louis. August Weymeyer, aged 37, a carpenter, was blown from the roof of the Shields school, which is 100 feet high, and was killed. Thomas Peterson, 4 years old, was blown from the roof of a porch and killed. Mrs. Sarah Lorin, had her spine crushed and she may die. Several buildings were unroofed and store fronts blown in and a repetition of the big cyclone of May 27, 1896 was feared.

FREE TO MILLIONS.

A Valuable Little Book Sent Free for the Asking.

Medical books are not always interesting reading, especially to people enjoying good health, but as a matter of fact scarcely one person in ten is perfectly healthy, and even with such, sooner or later sickness must come.

It is also a well established truth that nine-tenths of all diseases originate with a breaking down of the digestion, a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold.

Nobody need fear consumption, kidney disease, liver trouble or a weak heart and nervous system as long as the digestion is good and the stomach able to assimilate plenty of wholesome food.

Stomach weakness shows itself in a score of ways and this little book describes the symptoms and causes and points the way to a cure so simple that anyone can understand and apply.

Thousands have some form of stomach trouble and do not know it. They ascribe the headaches, the languor, nervousness, insomnia, palpitation, constipation and similar symptoms to some other cause than the true one. Get your digestion on the right track, and the heart trouble, lung trouble, liver disease or nervous debility will rapidly disappear.

This little book treats entirely on the cause and removal of indigestion and its accompanying annoyances.

It describes the symptoms of Acid Dyspepsia, Nervous Dyspepsia, Slow Dyspepsia, Amylaceous Dyspepsia, Catarrh of Stomach and all affections of the digestive organs in plain language easily understood and the cause removed.

It gives valuable suggestions as to diet, and contains a table giving length of time required to digest various articles of food, something every person with weak digestion should know.

No price is asked, but simply send your name and address plainly written on postal card to the F. A. Stuart Co., Marshall, Mich., requesting a little book on Stomach Diseases and it will be sent promptly by return mail.

Prostrated.

Overcome with Heart Disease While on the Street—Mrs. Wamsley, Wife of Rev. C. E. Wamsley, Seriously Affected—Has Been in a Precarious Condition.

From the New Era, Greensburg, Ind.

Mrs. Wamsley, wife of Rev. C. E. Wamsley, who lives on West Sheridan Street, Greensburg, Ind., has recently been cured of a very serious case of neuralgia of the heart and nervous prostration. A New Era reporter recently called on Mrs. Wamsley to learn the facts regarding her experience. Mrs. Wamsley said:

"I am 45 years old, and have been quite well until about six years ago, which was the time my youngest son was born. I began to lose my health then, and until recently never entirely recovered from my sickness of that occasion. My heart became affected, and there was continually a gradual sharp pain, and frequently it was so severe that I would involuntarily give vent to my agony in screams. These pains kept getting worse and caused nervousness. For years afterward, for a considerable period at a time, I would be confined to the house, and often to my bed. I could not endure excitement as I would become painfully nervous, and this would seriously affect my heart. Sudden pains would come on at any time of the day or night. Sometimes these would come on suddenly, causing me to involuntarily scream and fall down. It made no matter where I was, at home or down town, I would become helpless when thus attacked. I could not sleep nights, and my appetite was very poor."

"I had different physicians, and my husband did everything he could for me. The doctors all said my trouble was neuralgia of the heart, resulting from nervous prostration, but none of them seemed to be able to do anything for it, except to afford temporary relief. I tried different proprietary medicines said to be good for this disease, but none of them benefited me. Finally I noticed an item in the New Era stating that Mrs. Evans, who lives in the West End, had been cured of a similar trouble by using Dr. Williams' Pink Pills for Pale People, so I decided to try them. My husband bought a box, and I began using them. This was not long. I felt considerable better after taking the first box, and kept on improving with the second. So we bought six more boxes, and I used them strictly according to directions, determined to give them a fair trial. I improved gradually as I continued taking the medicine. When I had finished seven boxes I felt perfectly well, but I kept on till I used nearly all of the eighth box, when I felt that it was useless to take them any longer as the doctor said I was cured. I used the last about three months ago, and am perfectly well and in as good health today as ever. I feel that Dr. Williams' Pink Pills for Pale People relieved me of a lifetime of sickness and sorrow, and I can cheerfully recommend them."

In confirmation of this story Mrs. Wamsley furnished the following affidavit: (Signed) MRS. C. E. WAMSLEY. Subscribed to and sworn before me, a Notary Public in and for the county of DeWitt, State of Indiana, this 14th day of July, 1897. JOHN F. RUSSELL, Notary Public.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in Dr. Williams' Pink Pills for Pale People. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Co., Schenectady, N. Y., for 60 cents a box, or six boxes for \$2.50.

LEGAL NOTICES.

Mortgage Sale. Whereas, default has been made in payment of the money secured by a mortgage executed by Henry Matthews and Maria Matthews, his wife, of the city of Ann Arbor, in the County of Washtenaw and State of Michigan, mortgagors to John Rose of the same place, mortgagee, dated the seventh day of July, in the year one thousand eight hundred and ninety-three, and recorded in the office of the Register of Deeds of the County of Washtenaw, in the State of Michigan, on the seventh day of July, A. D. 1893, in Liber Eighty-one of Mortgages, on page four hundred and twenty-two, and interest thereon amount claimed to be due and unpaid on said mortgage at the date of this notice is the sum of Twenty-four Dollars and Ninety Dollars of principal and interest, and the further sum of Forty-four Dollars and Eighty-eight cents paid by said mortgagee for taxes for the year 1897, and interest thereon, upon the lands described in said mortgage, and also the further sum of Nine Dollars and Fifty cents paid by said mortgagee for insurance for the year 1897, and interest thereon, upon the building situated upon said land described in said mortgage, by the failure of the mortgagors to pay the authority relative to taxes and insurance contained in said mortgage, and also the further sum of Thirty-five Dollars as an attorney's fee, as provided by law, and costs and proceedings at law having been instituted to recover the debt secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now, Therefore, notice is hereby given that by virtue of the said power of sale contained in said mortgage, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by the sale of the mortgaged premises, or so much thereof as shall be necessary, to satisfy the amount due on such mortgage, and legal costs and charges thereon, such as to wit: with the said sums paid for taxes and insurance, and interest thereon, and said attorney's fee, at public auction to be held at the Court House in the City of Ann Arbor, in said County of Washtenaw (said Court House being the place for holding the Circuit Court for the County of Washtenaw) on Saturday, the second day of April, A. D. 1898, at 10 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to wit:

All that certain piece or parcel of land situate and being in the City of Ann Arbor, in the County of Washtenaw, and State of Michigan, and described as follows, to wit: Commencing on the North line of Lot Number 18 in Block Number Three East at the East front door of the Court House in the City of Ann Arbor, in said County of Washtenaw (said Court House being the place for holding the Circuit Court for the County of Washtenaw) on Saturday, the second day of April, A. D. 1898, at 10 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to wit:

Dated the Fifth day of January, A. D. 1898. JOHN ROSE, Mortgagee. Z. P. KING, Attorney for Mortgagee.

Mortgage Sale. Default having been made in the condition of payment of an installment of interest due on a certain mortgage made on the first day of April, 1897, by John W. Eisele and Mary L. Eisele, his wife, to The Farmers and Mechanics Bank and such default having continued for more than thirty days, whereby the mortgagee hath power and authority to elect and declare an halt declared and elected to have the whole of the principal sum secured thereby to be paid due and payable, and such default having continued after such election and due notice thereof, whereby the power of sale in the said mortgage contained has become operative, which mortgage was recorded in the office of the Register of Deeds, for the County of Washtenaw, on the seventh day of December, A. D. 1897, in Liber 96 of mortgages at page 288, on which mortgage there is claimed to be now due at the date of this notice, for principal, interest, insurance, and taxes, the sum of two thousand three hundred and eighty-five dollars, and no proceedings at law or in equity having been instituted to collect the said sum of money or any part thereof.

Notice is therefore hereby given that on the 15th day of April, A. D. 1898, at ten o'clock in the forenoon of said day, at the Court House in the City of Ann Arbor, in the State of Michigan, the said mortgage will be foreclosed and the lands and tenements by the said mortgage conveyed will be sold at public auction, to the highest bidder, to satisfy the sum of money secured thereby, the costs and expenses of these proceedings including an attorney fee of thirty-five dollars as provided for therein.

The lands tenements and premises in the said mortgage mentioned and thereon then to be sold are described as follows: All that piece and parcel of land situate in the City of Ann Arbor, County of Washtenaw, State of Michigan, to wit:

The south one third part of lot number three (3) in block number two north of Huron street range five east, and thereon the plan of the village, now city, of Ann Arbor, State of Michigan, being twenty-two feet and one inch in width and fronting on Fourth Avenue, in said city, and thereon conveying and granting a right of way in, over and along the alley as now laid out and established in the year of the land and tenements hereby conveyed.

AFFECTS EVERY ORGAN.

Does That Most Dreadful of Diseases, Chronic Catarrh.

Over half of the people have catarrh in some form or another, and yet probably not a tenth of these people know that their disease is catarrh. One person says he has Bright's disease; another liver complaint; another consumption; another female complaint. These people would be very much surprised to hear that they were all suffering with chronic catarrh; but it is so, nevertheless. Each one of these troubles, and a great many more, are simply catarrh; that is, chronic inflammation of the mucous lining of whichever organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Dr. Hartman has recently compiled into book form several of his lectures on chronic catarrh, which he has delivered at different times at the Surgical Hotel. This book is called "Winter Catarrh," and will be sent free of charge on application to The Peruna Manufacturing Company, Columbus, Ohio.

Chancery Sale. In pursuance and by virtue of decree of the Circuit Court for the County of Washtenaw, State of Michigan, made and entered the seventeenth day of May, 1897, wherein Moses Taggart is complainant and Henry R. Diller is defendant. Notice is hereby given that I shall sell at public auction, at the east front door of the Court House in the City of Ann Arbor, in said County of Washtenaw (that being the building in which the Circuit Court for the said county is held) on Wednesday, the 10th day of February, 1898, at ten o'clock in the forenoon of said day the following described real estate: All that certain piece or parcel of land situated in the City of Ypsilanti, Washtenaw County, Michigan, and described as follows, to-wit: described as commencing on the north line of Forest Avenue at the southwest corner of land owned by Elizabeth Crooker; thence northerly along the west line of land owned by E. Crooker and Mrs. Back to the south line of land owned by William Crawford estate; thence west along the south line of said Crawford's land three hundred feet; thence southerly parallel with said east line to the north line of Ellis street; thence easterly along the north line of Ellis street and Forest Avenue to the place of beginning.

CORAL BORING IN THE PACIFIC

Results of the Expedition Sent Out from England.

From the Sydney Herald: The steamer Birkgate, which arrived on Saturday from the islands, brings further news from Fiji concerning the coral-boring expedition at Funafuti, in the Ellice group. News has been taken to Suva by H. M. S. Royalist of the progress made by the expedition after the departure of Professor David in the John Williams. When Professor David left Funafuti on Sept. 7 the bore was down 557 feet. On Sept. 16, when the Royalist left Funafuti, the bore was down 643 feet. The Royalist took to Suva a letter for Dr. Corney from G. Sweet, F. G. S., who is now the leader of the expedition, stating that the boring for the last ninety feet was chiefly in coral rock, and that no coral had yet been met with in the bore. When the Royalist arrived the expedition had consumed all their coal, but Commander Rason was enabled to supply sufficient coal to last them till the arrival of the steamer Archer, from which it was hoped an additional supply would be obtained. Professor David states that, the bore having already exceeded the depth for which Darwin stipulated in his classical work on coral reefs, and a good core having been obtained throughout, it may now be looked upon as a success. Information likely to be of considerable scientific value has been obtained, and he considers that the general evidence so far appears strongly to confirm Darwin's theory that most of the coral atolls of the Pacific have been formed on areas of the earth's crust which have been undergoing a prolonged subsidence. A detailed report of the results obtained by the expedition will probably be incorporated in the report of the Royal Society of London on the coral atoll of Funafuti, the earlier portion of which will be written by Professor Sollas, F. R. S., the leader of the Funafuti expedition last year. The bore at Funafuti is lined throughout with the best artesian tubes, four inches in outside diameter. Every foot of the bore had to be lined with these tubes to prevent fragments of coral rock and coral sand choking the bore. The work of boring has proved very difficult on account of the variable nature of the strata (quicksand alternating with coral rock), and also on account of the cavernous nature of the coral rock, which has caused such a jarring as to repeatedly break some of the strongest cast iron wheels in the machinery. The diameter of the core obtained from the bore is two and one-half inches.

Stair Treads Made of Lead. Sheet lead is often used for stair treads in place of rubber, where the traffic is very extensive, but unfortunately, while durable and nonslipping either wet or dry, it has a tendency to "flow," or grow thin at the points of greatest wear. In a new article of manufacture the lead is cast on a wire-wove core and is produced in thickness approximating that of eight-pound sheets. By adopting this method of manufacture all the advantages of a secure foothold are insured, and the tendency of the lead to "flow" or work thin is entirely overcome. The combination is described as being more durable and possessing an inherent strength and elasticity which neither the steel core nor the lead separately could possibly give. A still greater field for this article is for roofing purposes, lead floors for cold-storage rooms, magazines and decks of ships.

Shakespeare's Birth Place. At a meeting recently in London of the committee intrusted with the restoration of Stratford-on-Avon parish church—celebrated as the burial place of Shakespeare—it was decided to re-build the electric organ and to improve the heating apparatus of the nave. Other work contemplated is the relaying of the floor of the nave, the provision of new oak benches and repairs to columns supporting the arcading. The utmost care is being exercised in preserving all the ancient characteristics of the edifice. On the work of restoration £6,000 has already been expended, and an additional sum of £5,000 is required.—New York Advertiser.

Fruit Flavors From Leaves. Monsieur Jacquemin, a French pharmacist, has invented a process by which, he says, he can form, from the leaves of various fruit bearing trees and shrubs, the flowers that are characteristic of the fruits themselves. From apple tree leaves, crushed and fermented, he obtains a liquid possessing the fragrance and taste of apples, and from vine leaves a beverage resembling wine. His theory is that the peculiar flavor of apples, pears, grapes and berries is prepared in, and derived from, the leaves of the plant.

Long Fasts of Animals. Animals are often able to bear very protracted fasting. In the Italian earthquakes of 1795 two hogs were buried at Soriano in the ruins of a building. They were taken out alive forty-two days later, but very lean and weak. A dog at the same time and place was buried for twenty-three days and recovered.

A Collector of Book Plates.

An interesting collection of book plates is owned by Mr. Howard Sill, head draughtsman at the office of a firm of architects in this city. The collection consists of 2,500 specimens—American, English, French and Spanish, modern and antique—belonging to the various periods known as Jacobean, Chippendale, Wreath and Ribbon, etc. Mr. Sill has collected many examples of the work of Dorkins, Johnson, the Mavericks, father and son, famous colonial book-plate engravers; also some specimens of the rare and valuable work of Nathaniel Hurd, a New England engraver, born in 1720, a duplicate of one of whose book plates owned by Mr. Sill brought \$60 in New York a short time ago. Mr. Sill has also one of the six book plates engraved by Paul Revere, which is of great value and interest. Among the colonial plates are those of William Byrd of Westover, Bushrod Washington, John Randolph, William Smith, president of William and Mary college; Charles Carroll, Thomas Heyward and Samuel Chase, signers of the declaration of independence. There are also many examples of modern book-plate making, the work of French, Hopson, Spenceley and other well-known modern engravers.—Baltimore American.

Paid to Keep Cards Out. From the Washington Post: A bright little boy—one of the pages of the senate—sat at one of the senate entrances the other day, when a lady approached him with a visiting card in her hand. "Will you hand this to Senator Blank?" she said. "I cannot," replied the boy, "for all cards must be taken to the east lobby." The woman was inclined to be angry and went away muttering. Then a thought struck her, and taking out her pocket-book she found a 25-cent piece. With it in her hand she went back to the boy. "Here, my lad," she said, in a coaxing tone, "here is a quarter to take my card in." "Madam," said the boy, without a moment's hesitation, "I am paid a larger salary than that to keep cards out."

The Ruined California Grape Crop. The partial loss to the grape crop this year caused by the heavy rains is estimated to exceed \$1,000,000. Farmers and vineyards all over the northern part of the State have suffered, and shipments of the fruit to the East are proportionately small. At least one quarter of the crop is lost. While this is true, it is equally a fact that lost and falling strength may be restored to the weak and nervous by the persistent, systematic use of the great national tonic, Hostetter's Stomach Bitters, which renews the tone and harmonious activity of the stomach, liver and the bowels, counteracts a tendency to rheumatism and kidney complaint, and prevents malarial disorders. Convalescence, after exhausting diseases have run their course, is often tedious and tedious. Recovery is greatly accelerated by the use of the Bitters, which improves appetite and imparts renewed vigor to debilitated physique. A wineglassful before meals creates a hearty zest for food.
