# **OUEER CASE OF SIX**

Reported that County and City Officers Capture a Half Dozen Boys--Are All Locked in Jail Then All Are Set Free

## FOR A VALUABLE MONEY CONSIDERATION

No Justice Courts Show Records of Trial--Boys Claim They Were Told They Must Pay a Certain Amount or Stay in Jail Thirty Days--Too Much Beer Cause Boys to Break the Law--Too Much Avarice Cause Officials to Do the Same.

Tuesday THE REGISTER investigated a peculiar case of spree on the part of some six young men, some of whom were students, the others being boys resid- that one who is such a total stranger ing here in the city. It seems that on Friday night last the six young fellows went on a lark on the North Side somewhere in the neighborhood of the brewery in that part of the city. They were evidently out for and did make a night property will come into the possession of it. About six o'clock Saturday morning, so the report goes, somebody notifellows, some of whom were sons of prominent citizens in Ann Arbor. The receive \$1200 per year till her death and Lively Week in fied the officers and four county and city officers arrested all six of the donor, who is eighty-five years old, will boys were lodged in the county jail and kept there until ten o'clock in the fore- and the university will have the renoon. Then, so we are creditably informed, they were all discharged. From mainder of the income, about \$7,000 the statements of those who are in a position to know all the circumstance; in the case, there was some very strange conduct on the part of the officials in this matter. In the first place, the officers had no business, whatever, to arrest these fellows unless they were guilty of some breach of the peace, or else the officers had good reasons for suspecting that they were guilty. In either case the officers had but one course to pursue if they had the least regard for their oath of office. But the fellows had money, and a regular law proceeding would not pay the officers as well as some other disposal of the case. The boys were anxious to avoid a public trial, just as anybody is who has violated the law, and gift, though that gentleman is too were willing to consider an offer to settle. It is asserted on good authority that the officers proposed that each of the boys pay over a certain sum or else go to jail for thirty days! The boys, or at least all but possibly one or two, paid, and then they were all discharged! While we have not a particle of sympathy for the young men for the conduct of which they were guilty, it is but natural that such fellows would gladly pay liberally to bribe an officer rather than submit to the disgrace of a trial. This, however, does not in the least, palliate the conduct of the officers. They had a duty to perform. They had taken their oath that they would perform that duty-but they ignored their oath and allowed guilty people to escape and did it for a money consideration! And they did it, too, so we are creditably informed, by threatening to assume judicial functions St. Louis was celebrated at 10 o'clock and impose a penalty upon the prisoners whom they had in charge. This is this morning at the Holy Angels' indeed a shameful state of affairs.

For several weeks past the report has been persistently circulated in all parts of Washtenaw that THE REGISTER is being used by certain politicians to overthrow Sheriff Judson's influence in the county in order that said politicians may have better opportunities for preferment. Attempts along this line shave gone so far that Boss Judson has made affidavit that certain articles which have appeared in THE REGISTER were the joint productions of the editor of The Register and certain attorneys who were using this paper as a tool to injure him.

These statements, while absolutely false in every respect, are being so generally circulated by Boss Judson's tools and sworn to by the Boss himself, that it seems proper to declare that there is not a word of truth in them. THE but now on leave of absence for diplo-REGISTER desires it to be distinctly undersood that its own editorial force is entirely competent to prepare its own matter for publication and that it does not find and never has found it necessary to employ or to make use of legal talent to prepare its news items or editorials. Every word of the matter that has appeared in THE REGISTER in reference to Boss Judson has been prepared by the editor of this paper or those regularly employed by him to do newspaper an obstacle in the way, however, in work. We are aware that Boss Judson may actually believe what he has sworn to about the motives of the editor of THE REGISTER. He is so supremely selfish and so very mortal that he cannot conceive that anybody can be governed by any but selfish motives. THE REGISTER has no political ambition to foster and no personal feeling towards Boss Judson. We have made the attacks upon him because we consider him an enemy not only to the Republican party the interest of which we have at heart, but also, and the more important reason, because we believe him to be an enemy to the taxpayers of this county and a menace to law and order. These are reasons sufficient to warrant every word, we have said. Judson and his henchmen may do what they can to divert public attention from the actual facts, but they will remain facts, nevertheless, and the editor of THE REGISTER will continue in the future as he has in the past to edit his own paper without any assistance from outside parties.

The gallant young pedagogue rushed to the scene of disaster, heedless of the barn yard mud that threatened to ruin his patent leathers. He seized a pitch fork and worked frantically. The perspiration ran down his face, spoiled his collar and shirt front but he did not care. He grew tired and was ready to drop but there was no stopping till that precious cow should be saved.

After an hour they came to the wreck of the cow shed and the farmer began to probe underneath it with his fork. Then his helpers saw him jump down and run behind the barn. His wife followed. The teacher heard her exclaim, "Why David." Then without a word of thanks both the farmer and his wife stole away to the house and the teacher stepping behind the barn saw, not twenty feet from the wrecked straw stack, peacefully chewing her cud, that priceless cow.

Dr. Elizabeth H. Bates, a New York Lady, the Doner. Banker D. H. Smith, of Illinoes, Brought the Good News.

The University authorities had a most pleasant and unexpected surprise last Monday. A fine looking old gentleman came up the walk to the main hall and asked for Mr. Wade. Upon being taken to the president's office Le introduced himself as D. H. Smith, a banker from Princeton, Ill., and executor of the estate of Dr. Elizabeth H. Bates, of Port Chester, New York. He announced that Miss Bates, who recently died, left property to the amount of \$142,000 to the University for use in the medical department and for the establishment of a chair of the diseases of women and children.

Miss Bates is not an alumnus of the University, and it is a great surprise should give the University the largest bequest it has ever received. The of the University soon. An aunt of the per year.

Mr. Wade and President Hutchins were interested to know why a stranger should make such a bequest but could not learn definitely. They think Mr. Smith, the executor, who for years has been Dr. Bate's banker and financial manager had something to do with the modest to make any such claims.

# An Old Man's Last Hope.

Made helpless as a baby by a dreadful nervous disease he read of a case like his own, and had enough faith to follow the example it set him. Now he is himself an example to others who are suffering from disorders of the nervous system.

Sawing wood, working in his garden, walking three times a day to and from his place of business—these form part of the daily routine of Edwin R. Tripp, Postmaster of Middlefield Centre, N. Y. He is past his seventieth birthday.

Nearly fifty years a blacksmith; thirty-two years lostice of the Peace; three years

two years Justice of the Peace; three years town clerk, then postmaster; forty-six years a resident of the town he now lives in these are the bare outlines of a useful life.

Mr. Tripp's career is a type. His story will be read with heartfelt sympathy by thousands. His hearty endorsement of Dr. Williams' Pink Pills for Pale People will be echoed by tens of thousands. Me said:
"In March, 1892, I was attacked by what I afterwards learned was locomotor

what I afterwards learned was locomotor ataxia.

"Two skillful doctors did everything they could for me. I steadily became wose. Was unable to dress myself.

"Later I could not move even about the room, but was carried in my chair.

"I gave up hope. The doctors gave me no encouragement. I did not expect to live very long. I was more helpless than a baby. I sank lower and lower.

"In June the tide turned! From the lowest ebb, it began to set toward health and vigor.

"It told how a man, who suffered as I had suffered, had been cured by Dr. Williams' Pink Pills for Pale People.

"It gave me faith and hope. I took two boxes of the pills; then four more boxes.

"My gain was steady; my return to health was a source of daily gratification.

"In all I took eighteen boxes of the pills before I was entirely well. At first I paid 50 cents a box, but afterwards I saved money by getting six boxes at a time, paying \$2.50.

"I owe my cure entirely to Dr. Williams'

Pink Pills for Pale People."

To clinch his remarkable story and add to its helpfulness to others, Mr. Tripp made affidavit to its truthfulness before Homer

Hanna, a local Notary Public.

From helplessness, suffering and despair
Mr. Tripp was restored to the healthful,
useful activity suggested at the beginning
of this sketch. His experience is like others.

Chelsea is in for it, to the tune of \$43,000. She voted to bond herself for 23,000 to buy a water works plant and \$20,000 to buy an electric light plant. These are expensive plants, for the municipal garden, and by the time they are paid for, possibly some of the tax payers will feel as does Mr. Armstrong, who when he learned that the people had voted to issue these bonds, promptly resigned as alderman, because he would not sanction the expenditure or the plan of municipal ownership. # A Young Man Who Mis-

takenly Believed He Had Heart Disease.

He Simply Scared Himself to Death, for His Heart Was Sound.-What a Pity He Did Not Take Proper Advice!

A dramatic story is told of a young man in Chicago who believed he had heart disease. He abstained from exercise and he avoided excitement. He dosed himself persistently and imagined that only by leading an invalid's life could he hope to keep death at arm's length. One day he suddenly met a woman who had been associated with a discreditable chapter in his history.

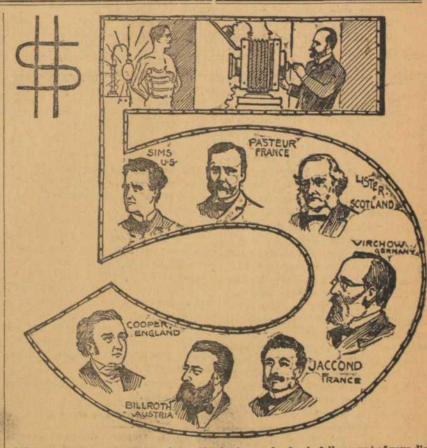

"My God! my heart!" cried the young man, and he fell at her feet stone dead.
An autopsy showed that his heart was absolutely sound. It was the opinion of the physicians that he might have lived to a ripe old age if he had taken the precaution to consult a competent specialist.

The time when a physician was laughed at for devoting himself to one branch of his profession is past. So broad is the field of medical knowledge that no one man can hope to cultivate it all. The seven great men whose portraits accompany this article have earned the undying gratitude of the world by their work as specialists.

Notice that the frame of the pictures is a "5" preceded by a dollar mark. Five dollars is a great or a small sum, according to circumstances. One thing is certain: a five-dollar bill never looks quite so small as when it is considered as the price of a complete diagnosis and full treatment by medical specialists of the highest rank.

Do you think the thing is impossible?

The Warner Nazaro Medicine Co., of New York City, has made't possible. At the head of the company is Mr. H. H. Warner, who made himself famous several years ago by the perfection of a remedy for diseases of the

kidneys. He has enlarged the sphere of his usefulness by organizing a staff of specialists, whose services are placed within the reach of a vast public who otherwise would have no means of getting the best special treatment America affords. This superb body of physicians includes authorities on diseases of the blood and the nerves; of the heart, liver and kidneys; of the stomach and bowels. There are specialists in those dreadful maladies that make women wretched, as well as in the obscure and obstinate allments of men. MAYOR HISCOCK appointed Mr. O. E. Butterfield city attorney Monday. When this appointment came up before the council for confirmation Monday night the question was raised as to whether or not it would be good policy to have a city attorney who is in the employ of the Michigan Central railroad. As a result the matter was laid over until the next regular meeting of the council which occurs May 16. The fact that the city is almost certain to have more or less litigation with the Michigan Central railroad company caused the question to arise. Mr. Butterfield states he had assured the Mayor that in all such cases he will employ other counsel and that the city would be at no additional expense thereto. Some of the aldermen seem to think that such an arrangement would be entirely satisfactory, while others fear that it would be a remedy only in appearance. This feeling on the part of certain aldermen and the fact that the Democrats are determined to have a Democratic city attorney, if possible, may result in defeating Mr. Butterfield's confirmation.

In another part of this issue of THE REGISTER may be found the official proceedings of the meeting of the common council Monday night. This report does not by any sort of means show all that took place at that meeting. When the City Clerk read the names sent in by Mayor Hiscock for the various city offices for the coming year, and the question of confirming the appointments came up Alderman Brown took advantage of the occasion to fire off a fusilade about Mayor Hiscock. The alderman claimed that the Mayor had pledged certain offices to the Democrats if they would endorse his nomination. That as a man he had failed to keep a pledge made in good faith. Just what that had to do with the members of the present council was more than any one present could very well see. If the Democratic members wished to retaliate by attempting to prevent the confirmation of a Republican, there was, of course, nothing to prevent them from doing so, but to bore the council with a long story of the failure of a Democratic deal to hold water was enthe same matter will be brought up Pass and writes his sister as follows: again at the next meeting in a further Mr. Butterfield's appointment.

This selection by Mayor Hiscock is not meeting with the approval from the side of the mountain and that it was supposed it would receive. Mr. Butterfield is an attorney for the Michigan Central Railroad Company. He states that he will not give up this work. The fact that during the coming year the greater part of the city's torney in all city cases in which the dig it out. Michigan Central Railroad Company is a party does not mend matters much. The attorney he would employ would be directly under obligations to Mr. Butterfield and would be dependent the other hand the city would have but an indirect control over its legal representative, and that, too, in what are likely to be cases of vital importance. have the city go into an important legal fight with a great and wealthy corporation, the city's end of the fight being in

the hands of a man in the employ of BOSS the wealthy corporation's attorney! We do not believe that a single member of our common council without regard to party can afford to cast his vote to confirm an appointment which would result in placing the city in such an extremely awkward and humiliating position. THE REGISTER believes that it would be a great mistake to thus prejudice the city's interests and it does not believe that the council is at all likely to permit such a thing.

WHY ARE WE AT WAR?

IT is reported that when the gunners on the Cincinnatti were ordered to fire upon the Spanish batteries at Matanzas, with every shot they fired they muttered the words, "Take that for the Maine." Is this the incentive with which we wage our war with Spain? Michigan Club will hereafter entitle Have not the American people risen above thoughts of vengence?

America has based upon the charges of cruelty, barbarism and inability to rightly govarn a civilized colony, the justness of war for "humanity's sake." She drew with startling vividness the inhuman butcherles and outrages practiced, and meted out with telling effect the hundreds who daily perished through Spanish violence. And if ever war be justifiable at all, it would seem the knowledge of such shocking and unbearable atrocities would demand even at the cost of force the cessation of practices which destroy hundreds of thousands of people by means more awful than the most dreadful plagues. With such feelings as these the American mind, through official action, was rapidly bringing Spain to realize that these conditions could not be long endured. It was the establishment of a grand principle to take such a stand. it was humanity internationalized, the inevitable evolution of justice. There was no haste to make it erroneous, no anger to make unreasonable, no selfishness to bring corruption. Engaging war upon such grounds would have clothed those who fought beneath its banners with the respect of every nation on the globe,

But the Maine disaster operated like the blow of a criminal upon the face of an officer, who, hitherto guided by law and reason, is now overcame by this last exasperating act, and tries to strike him dead upon the spot. The provocation may be great but the weakness is

not thereby exhonorated. That the war has in it this element of vengence is unfortunate. If an American gunner serving his country upon an American battle-ship, must meet the Spaniards in bloody strife, rather than have him struggle while animated by a sparit of vengeance, let him be guided by a motto which speaks in the spirit which the great Nelson spoke at Trafalgar when he said "England expects every man to do his duty. JUDSON'S RECORD.

BRIEF SUMMARY OF REGISTER CHARGES.

What Will Governor Pingree Say To It!-If He Will Look Into the Matter He Will Pitch Such an Unsernpulous Boss Overboard-Here is What The Register Shows.

1st. It shows how he plotted to overthrow one of the strongest Republican organizations in the state of Michigan and succeeded by the aid of base treachery on the part of his henchmen.

2nd. It shows how he owned the City Marshal and used said officer to regularly rob the city of fees which belong to it as appeared in our report of arrests for last December.

3rd. It shows that in the Stockwell case he practically "held up" a farmer boy and helped to bleed him to the extent of hundreds of dollars.

4th. It shows how through his attorney he worked enough members of for-

8th. It shows that the pretended offer of \$1,000 by the Boss as an evidence of his honesty was a ridiculous bluff.

9th. It shows how Judson controlled Marshal Sweet in the matter of fees for taking prisoners to the Detroit House of Correction.

10th. It shows that the Sheriff intentionally violated the law in the course ne took in his suit for libel against the ditor of THE REGISTER. 11th. It shows how he worked the

county in the matter of fees for taking people to asylum at Pontiac. 12th. It shows how he managed to

have the county help pay his campaign expenses in the fall of 1896. 13th. It shows how for several days.

the Sheriff drew pay for attending court in Washtenaw county while doing political work in Lansing.

14th. It shows how in the month of anuary the Marshal was his tool in the matter of fees, the same as in the month of December, as shown in the ease cited above.

15th. It shows how, by his overthrow of a Republican organization the Republicans failed to secure a majority of the board of supervisors, which otherwise they would certainly have done.

some Youngsters Celebrated with A Keg of Beer and Saw Spaniards.

Half a dozen kids from around town got a keg of beer Thursday night and naking a camp on the north side proceeded to celebrate the bombardment of Matanzas. They fought two other kids whom they mistook for Spaniards but they don't remember who got the best of it. Late in the morning some became so hilarious and others so painfully sick that they were disturbing the slumbers of north side residents. The latter 'phoned the police who arrived A. D. 1898. to find some of them showing symptoms of a terrible sea-sickness. One clasped his hands over his stomach and howled with pain, imagining that the Spaniards had captured him and that he was to be blown up from the inside. on Friday and two on Saturday.

The youths were crestfallen when they came to their senses in the county jail and were more crestfallen still when they had to face their papa's who arrived in time to put up the fines and save further publicity.

At the meeting of the Woman's Christian Temperance Union last Thursday the subject of non-alcoholic medication was taken up. Miss Seymour had developed an original idea in order to bring out practical information. Questions on slips of paper were handed out and as these were read by the ladies Mrs. Voorhees read the direct answer from Miss Seymour's paper, the latter having been detained from the meeting. Among the questions were such as, "How does alcohol affect digestion?", "What can you substitute when beer is prescribed for loss of appetite?", etc. It was decided to repeat this part of the program at a

Mrs. Wrentmore read selected paragraphs from a leaflet on non-alcoholic medication, and added to it by giving quotations on the use of alcohol from the leading physiologies. In Mercy Hospital, Chicago, where alcohol is not used, the death rate for pneumonia was twelve percent, while in Pennsylvania Hospital 1t was thirty-four percent, in Cook County Hospital thirty-six percent and in Cincinnati Hospital ter Angell that Turkey will maintain thirty-three percent. In the last three strict neutrality in the war between alcohol was used. Among visitors at camp last week rom Ann Arbor were, Messers Burkhart, Walker, Nowland, Herbert, Boyle, Kauffman and Gwinner, and Mrs. Duncan and daughter.

The boys of Company A are all looking and feeling well and enjoying themselves as much as possible.

On Saturday the company, under command of Serg. Cooper, took an eight mile march and Mr. Cooper showed his ability as a marksman by killing a duck on the lake at a distance of over 700 yds. Wm. Gates was appointed Corp. to succeed Frank Hess.

On Friday night a number of Co. A under command of Serg. Cooper, went through the entire camp giving the U. of M. yell and singing college sungs.

Quarter master Campbell and Willis Johnson have proven themselves experts with the hook and line. Sheldon Granger, Noble Monroe and other members of tent 11, furnished the boys with a chicken supper on Tuesday night.

Sunday was the biggest day ever witnessed by members of the Michigan National Guard. Early in the morning visitors began to throng the grounds and by noon all trains were in and the boys in blue were walking by their sweethearts side or entertaining their friends in their quarters. Co. A boys were especially remembered and there is enough lunch and etc. in each tent to keep them busy for a week. By seven clock the camp was quiet again, the visitors were gone and the camp seemed deserted. Co: A on dress parade did credit to themselves and to their

# ASTHMA'S PROGRESS.

From Cold to Cure. No relief in other remedies.

There are many medicines that palliate asthma. There are few that do more than relieve for a time the oppressed breathing of the sufferer. There are few diseases more troublesome and more irritating than asthma. It interferes alike with business and with pleasure. It prevents enjoyment of the day and makes the night a terror. A remedy for asthma would be hailed by thousands as the greatest possible boon that could be offered them. There is a remedy for asthma. Dr. J. C. Ayer's Cherry Pectoral has cured hundreds of cases of this disease, and testimonials to its efficacy from those who have tried the remedy are multiplying with every year. The cases presented in the testimonials that follow, may be taken as exemplifying the quick and radical action of this great.

The cases presented in the testimonials that follow, may be taken as exemplifying the quick and radical action of this great remedy.

"About a year ago, I caught a bad cold which resulted in asthma so severe that I was threatened with suffocation whenever I attempted to lie down on my bed. A friend recommending Ayer's Cherry Pectoral, I began to take it, and soon obtained relief, and, finally, was completely cured. Since then, I have used this medicine in my family with great success for coids, coughs, and eroup."—S. HUTTER, Editor "Rolink" (Polish), Stevens Point, Wis.

Uncle Sam Wins a Most Decisive Battle in the Philipinnes.

MANILA WAS ALSO CAPTURED.

At Least Four of the Best Spanish Vessels Destroyed While the Americans are Reported to Have Suffered but Little in Comparison.

The Asiatic squadron of the United States, Commodore Dewey commanding, engaged and completely defeated the Asiatic squadron of Spain in the harbor of Manila in the Philippine islands.

All the news of the great naval battle thus far received is from Spanish Manila has not yet been taken by the American forces and that the cable

lines are still under control of Spain. From the fact that even the advices received from Madrid show that the American warships fared the best, there is hardly any doubt that when be learned that it was a crushing defeat for Spain.

During the two engagements that took place, Commodore Montejo, commanding the Spanish fleet, lost three miral Sampson in supreme command. of his large ships. His flagship, the armored cruiser Maria Reina Christina, and the armored cruiser Castilla were burned, and the cruiser Don Juan de Austria was blown out of the water. Capt. Cardase, commanding the Maria Christina, was killed. The blowing up of the Don Juan de Austria was attended by a great loss of life among the crew, her commander also being

Commodore Dewey's squadron left Sudie Bay, a few miles from Manila, about 4 a. m. proceeded toward Manila. Under the cover of darkness he entered the harbor of Manila, the batteries located there announcing his arrival. Both fleets lined up for battle at daybreak, about 5 o'clock. The guns of the American ships began firing on the fortress on Cavite and the arsenal of Manila. The Spanish warships opened fire under the protection of guns of the forts. After about two hours' fighting, the American squadron drew off to the west of the bay and took refuge behind some foreign vessels. The ships had evidently suffered considerable damage. After they made some hasty repairs' they returned to the conflict. During this engagment the guns at Cavite maintained a steadier and stronger fire upon Commodore Dewey's ship than in the first encounter, but the American guns were being used with telling effect. As the smoke lifted it was seen that the flagship Maria Reina Christina was on fire. The vessel was completely burned. In the interval between the two engagements Commodore Montejo moved his flag from the Cristina to the smaller cruiser Isla de Cuba. To the fact that he had made this change he doubtless owes his life. The cruiser Castilla, next to the flagship the largest and most powerful of the Spanish squadron, was also burned. The cruiser Don Antonia de Ulloa and the Mindanao were also badly damaged in the encounter, and at least two vessels were sunk by the Spanish to prevent them falling into the hands of the Americans. That the American squadron received

severe damage by the engagement cannot be doubted. Early reports had it that five of Commodore Dewey's ships had been sunk. Later advices from Madrid put the number at two, but it is highly significant that the latest advices from Madrid and Lisbon make no mention of any American ships being destroyed. There were undoubtedly heavy losses in men on both sides.

Trustworthy details of the American loss of life will hardly be obtainable until Commodore Dewey has taken Manila or has sent a vessel with dispatches to Hong Kong. After the battle Commodore Dewey

landed a force and opened a hospital for his wounded which makes it certain that the land forces of the Spaniards had no heart to continue the conflict after witnessing the naval engagement.

The Spaniards still hold the city of Manila, it is thought, and probably will continue to do so until Dewey and the insurgents combine and drive them out. Gen. Aguinaldo, the insurgent the Philippines, was taken to the islargely upon insurgent support to to maintain his footing on the islands.

Dewey Takes Manila.

Commodore Dewey, according a later dispatch from Madrid, gave Capt.-Gen. Augusti 24 hours to comply with an ultimatum which demanded all warlike stores and the entire stock of coal in charge of the government officials. The ultimatum asserted that no money levy would be made upon Manila. The dispatch says it is believed in Madrid that the government at once cabled Capt.-Gen. Augusti authority to comply with the demand, no other course being open. It is said that Commodore Dewey has demanded the surrender of all the Spanish vessels in the Philippine archipelago, threatening to bom-bard the forts if he is refused.

It is reported that after destroying the Spanish fleet Commodore Dewey attacked the fortifications at Cavite, east of Manila, and destroyed them and were landed from the American vessels were also reduced by the fleet.

WHAT IS YOUR THADE!

Each Trade or Occupation Has its Special Disease.

It is well known among medical men that certain diseases are more readily developed in certain occupations than in others. That each occupation has its attendant physical weakness. Engineers, railroad men and similar occupations suffer mostly from theumatism, while clerks and professional men, in fact, the army of people whose business keeps them indoors, are oftentimes great sufferers from piles and constipation. In this connection the following cupation will not allow sufficient outdoor exercise.

Mr. A. F. Calhoun, notary public and jeweler and watchmaker of Circleville, W. Va., writes as follows:

Never was there a greater demand for spring medicines-something to cleanse the blood, strengthen the nerves, or regulate the digestion. Is there any medicine so good for these purposes as Pe-ru-na? Thousands of doctors, druggists and tens of thousands of people of all classes and vocations have long ago decided this question-that Pe-ru-na has no equal in

these cases. Poor shrunken dyspeptics become strong, vigorous and hearty after a few bottles of it. People who are blotched, pimpled and sallow and sluggish

never fail to find a course of Pe-ru-na to clear the skin. invigorate the system and enrich the blood. Chronic catarrh in all phases and stages, cases that have defied the best of treatment for many years, take a few bottles of Pe-ru-na to their entire relief. Nervousness, debility, weaknesses of both sexes, sleeplessness, irritability, despondency, hypochondria all these disappear when Pe-ru-na is used according to directions.

One of the most instructive books on chronic catarrh ever furnished free is being sent by the Pe ru-na Drug Manufacturing Company, Columbus, Ohio. This book is very instructively illustrated with expensive drawings, and will be sent free to any address.

STATE OFMICHIGAN, COUNTY OF WASHTENAW SS. In the matter of the estate of Ira Aldrich, deceased.

Care has been taken to make the expense as low as possible.

During the year several cases have applied for treatment whose condition was such as to require the advantages of a hospital. As there was no money provided by the city for the care of such cases at the hospitals, the professors at the heads of the respective departments to which they were assigned and friends subscribed sufficient to keep such patients until they could be cared for outside.

As a city, we are much in need of a place where we can send our worthy sick poor who need hospital care, and steps should be taken to supply one.

#### A Hundred Reasons

Can be given why Stuart's Dyspepsia Tablets are the best and most effectual cure for every form of indigestion.

They are in tablet form which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to taste.

After each meal dissolve one or two of them in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensative stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisionous products of fermented, half digested food.

year ago, expressed its sympathy for the Cuban patriots in their struggle for independence; and Whereas, War still continues on the Island of Cuba, presenting the most horrible, pitlable and revolting conditions, and calling forth expressions of sympathy from all mankind;

Resolved (the senate concurring). That our sympathy for these afflicted people is hereby again renewed and our hope reaffirmed that war, desolation and death will speedily end on that unfortunate island and the boon of independence be again an established fact;

Resolved, further, That we express our highest appreciation of the policy pursued by President McKinley; assert our confidence in his calm, prudent, patriotic leadership; congratulate congress of the United States on the unanimity of their courageous action taken on the emergency war measure, and hereby assure the national administration that should war come, Michigan will quickly respond as in "Sixty-one" and furnish her quota of brave and loyal sons to keep step to the music of the Union.

Resolved, That a copy of these resoutions be forwarded by the secretary of state to President McKinley and the president of the national senate and the speaker of the house for communication to those respective bodies.

1897 at the expense of the National Guard fund;

Resolved, by the House (the Senate concurring). That the Board of State Auditors be and is hereby authorized and directed to investigate and examine into the expense of such work, and determine as to what amount of the same should rightfully be paid from the general fund for the years 1897 and 1898. And if upon examination of the facts, it is found that the National Guard or other Military funds of the State ought to be credited with an allowance for such work, the Board of State Auditors is authorized, empowered and directed to draw their warrant for such sum upon the general fund, the amount of the same to be placed to the credit of the proper Military fund.

VNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: 'Dr. Miles' Restorative Nervine has done a The People of the State of Michigan great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully, I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of mysat-

### MICHIGAN WINS DEBATE

CHICAGO MEN ARE PLAINLY OUT-CLASSED IN THE THIRD DERATE.

OUR SECOND VICTORY.

Berkebile, Whitman and Dillon Were Almost Equally Good.

The third debate in the series be- talks. tween Michigan and Chicago was held Friday Light and Michigan scored her to tell which of her three men did the plainly outclassed.

team was its careful preparation. The vised the boys to keep cool and study a field had been carefully surveyed; the little for a change. arguments skillfully classified, and divided among the three debaters. The when he said he could take two regidelivery, too, was forceful and convinc- ments from the University, drill them ing and each man summed up the argu- for three months and whip twice as ments brought forth by his colleagues many Spaniards with them. He adin such a manner as to keep them fresh vised the boys not to expect to go to in the minds of the judges. This had war at once but to drill and be ready the effect of making it seem a solid when occasion may demand. Prof. mass and the crushing force with Thompson and others followed and told which it swept aside the objections of the boys to be ready but to wait till the the Chicago men made one think of call comes. the American shells and the resistance offered by the old brick walls of students met on the campus to drill

were mainly directed to rebutting the men met in the main hall of the Uniarguments of the affirmative and in versity and drilled under shelter. No manner, they did not give the impres. sion of being forceful debaters.

The question was, "Resolved that the action of the United States in rejecting the proposed arbitration treaty with Great Britian was wise." Michigan upheld the affirmative and was represented by Thomas A. Berkabile, L. C. Whitman, and D. F. Dillon. The Chicago men were A. A. Ebersole, Edward M. Baker, and J. E. Hagey.

The judges were Oliver F. Emerson Cleveland; Hon. Edward R. O'Malley, Buffalo; and Judge J. A. Barber, Toledo. They decided unanimously in favor of the affirmative.

Mr. Berkabile opened the debate for Michigan. The treaty provided for three courts of arbitration, each to consist of two American, two British, and one other judge. They were to have jurisdiction over different kinds of cases and there was to be no appeal. Mr. Berkabile and his colleagues argued that arbitration is the right method of settling disputes but said a treaty would be unconstitutional as it would cut off the right of congress to make treaties on many subjects later. It also gave the final decision in many important matters to a court, a majority of whose members are not Americans. When we wish to arbitrate we can do so by special agreement and when we do not wish to do so it is not to our interest to have arbitration forced upon us. Arbitration is all right when special rules govern each case but here we would have to depend on the general rules of international law which are imperfect. They would forbid our laws and intervention in Cuba. They would not recognize the Monroe doc trine and the very measure we counted to bring peace would lead to war. We will have to break the Clayton Bulwer treaty and under the proposed arbitra tion treaty England could compel us to pay heavy damages for so doing. The Chicago men replied that arbitration would prevent war and that the treaty did not set aside the right of Congress to make treaties but simply limited the right temporarily. They said it would not interfere with our Cuban, or any other policy, as it deals only with rights and not with a nation's policies.

DR. NOVY ON YELLOW FEVER.

Only Contracted by Swallowing the Germs,-If Food Is Sterilized the Soldiers Will Be Free from the Disease.

Dr. Novy is experimenting with yel low fever germs. He said: "Prof. Sanaralli, of Montevidio, says yellow fever is contracted by breathing the germs, and that it may be prevented by innoculating a horse with the germs and then using the blood of that horse to vaccinate persons to be exposed.

"I had a horse innoculated. It be came ill, recovered and was in condition for use. Its blood was used to innoculate guinea pigs and after they had been thoroughly vaccinated, fever germs were injected into them and they died. Sanaralli's recent experiments have also failed. I am sure that the disease is not due to breathing germs. They must be taken into the stomach. I'm sure the fever can be prevented in the army by attaching to every regiment a sanitary corps whose duty shall include the preparation of food. The water can be sterilized by filtering or by boiling. The food can also be sterilized. It will be some trouble but it is entirely possible and is worth the trouble for the fever germs will be more dangerous than Spanish arms and unless some such plan is present tariff policy, our immigration adopted our soldiers will die like swine."

HAVE SEEN WAR.

Well Known Men About the Campus Who Have Been Fighters.

Several members of the faculty served in the civil war. Prof. B. M. Thompson was with Custer, Prof. Demmon enlisted while a student in Indianapolis. Professors Walter and Green were also in active service. Dr's Prescott, Dorrance, Breakey, and Nancrede were assistant surgeons. Major Soule, treasurer of the University, was through the war and at one time commanded the tortifications at Mobile

Robert Howard, the well-known janitor of the engineering building, was in the regular army for five years and served against the Indians in New Mexico. He has two brothers who are wealthy and distinguished men but he preferred the adventure of army life to more peaceful and lucrative pursuits.
