A COMPLETE SUCCESS.

ONLY ONE STATE INSTITUTE AHEAD OF WASHTEAW'S.

Good Instructors in Charge—Large Attendance of Teachers—Everything Working Successfully—One Hundred and Thirty Enrolled—Over One Hundred Young Ladies—Young Men Not in It.

THE REGISTER paid a visit last Friday morning to the State Teachers' Institute for this county which closes an exceptionally successful term tomorrow.

Prof. Lister, the county School Commissioner, is in charge. The interest he has worked up in favor of a four weeks' session, in place of the former plan of having but one week, showed itself in the large attendance enrolled. At the time we visited the institute last Friday morning there were enrolled one hundred and thirty young ladies and gentlemen—mostly ladies, there being but fifteen young men in attendance. Every township in the county but two is represented in the institute which shows how general is the interest in the work over the county. Mr. Lister reports that so far only one other county in the state, Hillsdale, has a larger attendance than is enrolled here.

The work is under the direct supervision of Prof. Lister who has associated with him Prof. Wm. J. McKone, of Mason, Prof. W. H. Hawkes, of the Ann Arbor High School and Miss Harriet Plunkett, of the State Normal School. For the past four weeks these teachers have been carefully going over with those who are aspiring to be teachers in our country schools, as well as with a number who have already had experience, all of those branches in which an examination is had for first and second grade certificates. The work has been done so thoroughly and the ground covered so completely that it must result in great improvement to all who have attended the institute. If there is a single one who has attended all the classes and then fails to pass a creditable examination on the 18th and 19th of this month it will be due to lack of attention during the institute or to a lack of former training. It could not be otherwise after having put in nine hours of solid work each day for four weeks along the special lines in which examinations are given. So far only twenty counties in the state have made sufficient advancement in this line of work to undertake a four weeks' institute. Now that it has been tried here it will never be given up. Prof. Lister is to be congratulated upon his success in working up a sufficient interest in institute work to make this his first attempt such a complete success.

One of the most interesting features of the work which has been done at the institute is that of Miss Plunkett, of the State Normal. She has had a class of about a dozen little tots of four or five years of age come to the institute each day, and with these little folks, not one of whom had ever before been in school for a single day, she has shown the would be teachers just how to manage classes of little people who have never before been under a teacher's care. How to deal successfully with this class of pupils is one of the most difficult problems for the young teacher to solve. There is not one of the one hundred and thirty who attended the institute just closing but who has a large fund of new and valuable ideas on this part of school work and who will not find it the bugbear that has been the torment of many a teacher.

PICKED UP A RATTLE SNAKE.

Alfred Daniels, of Saline, Has a Terrible Experience—Mistakes a Snake for a Strap—Picks It Up and Gets Bit

Last Saturday evening as Alfred Daniels, who lives a mile north of Saline, was returning home he noticed something lying in the road which appeared very much like a leather strap. The daylight was so dim that he could not distinguish the object plainly and without taking a second look Mr. Daniels stooped and took hold of the supposed strap. He instantly discovered his mistake, finding that he had taken hold of a live snake. Before he could drop the reptile it had stung him. To his horror he discovered that he had been bitten by a rattle snake. Medical assistance was called and everything possible done to alleviate Mr. Daniels' terrible suffering. Several times during Saturday night it was thought he would succumb to the effects of the poison. Sunday, however, Mr. Daniels began to improve and he is now believed to be entirely out of danger. Mr. Daniels will, after this, look several times before he picks up an object that looks the least particle like a strap or snake.

A NARROW ESCAPE.

Last Thursday afternoon Will Holmes hitohed his team before the carriage to attend Jesse Sherwood's funeral. His 11-year-old son was to drive around in front of the house, but the horses became frightened, tipped the carriage over, throwing the lad out and in some way his foot became tangled in the lines and he was dragged over half a mile. At times the team did not go very fast. The cries of the little fellow for help brought people to their doors, but too late to be of assistance. Mr. Robinson's promptness saved his life. His clothes were almost worn off of him, and his tender flesh was badly bruised and wounded, but no bones were broken. Dr. Kapp, who was attending Wm. Amspoker, was summoned and dressed the wounds.—Manchester Enterprise.

PUT A SENATOR OFF THE CAR.

Saturday evening Senator Campbell and wife boarded a car east of Ypsilanti and intended to go to their home, five miles west of here. When the conductor asked for his pay he told him his destination and said that seven miles should be torn out. This the conductor would not do and they had a hot argument.

According to the contract in the mileage book the company says it will charge one cent per mile but no one fare should be less than five cents. The conductors, however, have other orders. They are to tear out five cents and multiples of five, and in this case it would have been ten cents. The senator and wife were carried to this city, two miles, and were put off. They stopped over until the next car came and went home.

President Hawks, of the railway company, was at the Hawkins house and the senator immediately went there and filed his kick, but the matter was amicably settled and it is not likely that a suit will follow.—Times.

SOME COMING EVENTS.

The bookings for the coming season at the Athens Theatre are better than ever before and the theatre-loving public are assured of some fine attractions. Among the bookings are "Shore Acres," "Chattanooga," "Boy Wanted," "Digby Bell," "A Hired Girl," "Electrician," "El Captain," "Miss Frances of Yale," "The Girl I Left Behind Me," "David Belasco in 'The Heart of Maryland,'" "The Prisoner of Zenda," "Puddinhead Wilson," "The Sunshine of Paradise Alley," "Wilbur Opera Company, Sol Smith Russell, 'Under the Red Robe,'" "Vanity Fair," "Under the Dome," "What Happened to Jones," "1492," "Primrose & Docketter's Minstrels," "Sowing the Wind," "Roland Reed, Richard Mansfield, etc.—Times.

EMANCIPATION DAY.

(Crowded out last week.)

Monday was a gala day for the colored people of this city and vicinity. It was Emancipation Day and they were assembled to celebrate it. Delegations from Jackson, Toledo, Detroit and Ypsilanti were here. The Toledo delegation was accompanied by the Toledo colored band. The Washtenaw Times band was on hand and the two bands mixed and together headed the procession which left at 10:30 for Relief Park.

At Relief Park Mayor Hiscock welcomed the visitors in a fitting address. He was followed by Rev. D. D. Miner, pastor of the Second Baptist church of this city. Rev. Miner made a forcible speech on the subject of the "Emancipation Proclamation." He reviewed the history of the struggle for human rights and paid an eloquent tribute to

TERRIBLE RAILROAD ACCIDENT.

Michigan Central Train Ran Them Down—Greenman Instantly Killed—Finnegan Loses a Leg and Has an Arm Broken—He Died a Few Hours Later.

A fatal railroad accident occurred on the Michigan Central last evening. It happened almost directly under the Ann Arbor railroad bridge near the Kyer mill. David S. Greenman of Summit street, who was in the employ of the Michigan Central, was out lighting the switch lamps just as the mail going east was due. As he was passing under the Ann Arbor railroad bridge, a train was crossing over his head which doubtless caused such a noise that he did not hear the sound of the mail train approaching from behind and which was concealed by the curve. The mail train, which was late, and running faster than usual, struck Mr. Greenman and young Finnegan, a boy about 14 years of age, son of Wm. Finnegan, who was with him. Greenman was instantly killed while Finnegan sustained the loss of a leg and had an arm broken. He was so badly shocked that the doctor could not tell at first just how serious his injuries were. He died few hours later. Greenman was 29 years old. He had been married since last February and has been in the employ of the Michigan Central for the past three years. On the 20th of last August, scarcely a year ago, Miss Agnes Warren, a University student, was instantly killed at almost exactly the same spot.

VISITS MACKINAC ISLAND.

Our Manchester Correspondent Writes Interestingly of That Wonderful Place.

Just across an arm of the Straits of Mackinac is Mackinac Island, nearly 9 miles in circumference and at its highest point over 300 feet above the waves. The whole region abounds in historic and legendary associations. Here occurred many wild and thrilling incidents in the lives of Marquette, Hennepin and La Salle; and over at Point St. Ignatius, in plain view from the island, Marquette was escorted to his burial place by one hundred canoes of painted warriors in 1677. Here Schoolcraft wrote the "History of North American Indians" and "The Legend of Hiawatha" which Longfellow, who visited him, here afterward expanded into his famous poem. It may be interesting to know that three flags have waved over this domain—the Fleur-de-Lis, the Cross of St. George and the Stars and Stripes.

Arriving at the island one beautiful morning, we took a carriage to see the sights. Leaving the business portion of the town, we view on the edge of a perpendicular precipice of white limestone, 155 feet high. Just back of the town, the old Fort Mackinac, which in its picturesque location, has no rival among the fortresses of the United States. Following the drive through thickets of arbor-vitae, dotted and bordered with beautiful daises, we come to the wildest and most wonderful of nature's handiwork in sculpturing. Arch Rock, a formation of limestone, the summit of the arch being 149 feet above the water. This arch ranks with the Natural Bridge and Natural Tunnel of Virginia. Reluctantly we turn our gaze from this fascinating spot. Next we come to a large rock of limestone 90 feet high which is called, because of its odd shape, Sugar Loaf. Rifle Range, where the 19th Regiment of Mackinac soldiers practiced daily in rifle shooting was another pretty spot, and also the block house which was built by the French in 1780. Then we approach another weird spot bearing such a weird and ghostly name as to cause our eyes to open in wonder before we hear the history of this cave as told by our guide. During the terrible massacre of whites by the Indians on the other shore, a certain Henry of England made his escape and finding this cave, secreted himself in it. Here he found many skulls and bones, and in the history he gave to the public after the war, he called it "Skulls Cave." Slowly driving along the ever bending road, we pass the Catholic cemetery on our left and the Soldiers' and Protestant cemeteries to our right. Then up a gradual incline we go until we are at Pontiac's Point Lookout, 298 feet high. Here we obtained a pretty view of Sugar Loaf, Rifle Range, and Les Cheneaux Islands.

Turning eastward, we arrive in a few minutes at Fort Holmes whose steep embankment was thrown up in a single night by the British in 1812. Its deep rifle pits are now filled with butter-

HOW A WOUND HEALS.

When the Blood is Pure a Wound Heals Quickly. The Fact Demonstrated in the Case of a Baptist Clergyman of Ashley, Ohio.

From the Times, Ashley, Ohio.

Elder A. S. Shoemaker has been a lifelong resident of Ashley, Ohio, and is favorably known by a wide circle of friends in this part of the state. For many years he was a prominent Baptist minister. He has been Mayor of Ashley for three successive terms, filling the position with dignity and honor, and has held other offices of trust.

He is sixty-six years of age, hale and hearty, and attributes his present healthful condition entirely to the use of Dr. Williams' Pink Pills for Pale People.

"For about twenty-five years," he says, "I was afflicted with rheumatism and was constantly in pain. I could not remain in one position for but a few moments at a time and could sleep but little at night. I was dragging out a miserable existence. Especially in damp, lowery weather I would be very miserable. I frequently remarked that I was a traveling barometer, as I could always tell when a change in the weather was coming. I tried a great many remedies that were recommended, but they did not help me."

"One day while at work and complaining of my pain in the presence of Mr. Elias Bishop, a neighbor, he asked me if I had ever tried Dr. Williams' Pink Pills for Pale People; I told him no. I had never heard of them. He advised me to try them, saying they had benefited him and might help me." I replied, that I had no faith in any medicine as I had tried so many different remedies without receiving any benefit that I did not think it worth while to throw away more money.

"Time passed on for nearly a year until one night I was suffering intense pain and I

thought of Dr. Williams' Pink Pills for Pale People and concluded to try them. In the morning I went to the drug store and purchased a box of the pills and commenced using them according to directions.

"It was the wisest thing I ever did. On the third night after commencing their use I went to bed and slept all night without a particle of pain. I continued taking the pills until I used five boxes and have not felt any symptoms of my old trouble since that time, now two years ago."

"Just after I stopped the use of the pills I met with an accident. In chopping wood I cut my foot very badly, the axe going clear through the instep of my foot. It was thought the wound would be very hard to heal for a man of my age, but to the surprise of everybody it healed quickly without any difficulty. I attribute this also to the good condition of my blood through the use of the pills."

In rheumatism the blood has an acid impurity which irritates the sensitive tissues that unite the joints and cover the muscles, thus causing those indescribable tortures which rheumatic sufferers endure. Rheumatism is always dangerous as it is liable to attack the heart.

Years ago those afflicted, were bled; as if taking away some of the impure blood could remedy the balance. This folly has been abandoned, and today physicians prescribe and druggists recommend the use of Dr. Williams' Pink Pills for Pale People, as these marvelous vegetable pills go directly to the seat of the trouble exerting a powerful influence in purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces, thus making a potent remedy for curing this disease.

CONCISE AND INTERESTING.

Michigan Loses Many of Her Soldier-Boys by Fevers in Cuba—Michigan Naval Reserves Will Remain on the Yosemite Until the War Closes.

More Michigan Boys Die at Santiago.

The list of deaths among the Michigan troops at Santiago is added to almost every day. The following are among the latest victims of fevers:

Max H. Pauser, Co. C, 33d Michigan, died of yellow fever; Edward Benjamin, Co. A, 33d, dysentery; Corporal Charles E. Wrangle, Co. E, 33d, fever; Ward More, Benton Harbor, Co. I, 33d, typhoid fever; Rinaldo K. Speed, Co. H, 34th, dysentery; W. J. Dolan, Co. D, 34th, malarial fever; Musician Geo. R. Holderness, of Chicago, 34th, fever; D. G. Lebo, 34th, fever; Moore Stewart, 34th, fever; F. J. Vivian, Co. D, 34th, malarial fever; John A. McDonald, Co. D, 34th, malarial fever; J. Kosling, Co. H, 33d, yellow fever.

Later additions to Michigan's death list are: Sergt. John Oliver, Iron Mountain, Co. E, 34th Michigan, consumption; Albert J. Chapman, Big Rapids, Co. A, 34th, malarial fever and gastritis; Arthur Fesetter, Saginaw, Co. C, 33d, yellow fever.

Henry Koester, jr., Negaunee, Co. L, 34th Michigan, malarial; Peter P. Haaan, Calumet, Co. D, 34th, malarial; Joseph Greiner, Calumet, Co. D, 34th, malarial; Geo. Martin, Escanaba, Co. L, 34th, malarial; Peter L. Vanderpoen, Co. L, 34th, malarial; Patrick Nealy, Co. F, 34th, yellow fever; Owen Thornton, Co. B, 34th, yellow fever; Corp. M. C. Nottingham, Co. M, 33d, acute meningitis; Thos. V. Jilbert, Co. D, 34th, malarial; Dallas Tannay, Co. K, 34th, malarial; A. J. Grills, Co. H, 34th, typhoid; Frank J. Mueck, Co. D, 34th, typhoid and gastric fever.

Tried to Steal Other's Glory.

Three young men who represented themselves to be brave members of Uncle Sam's fighting force—Edward A. Fladung, and Edward E. Van Dyke from Bay City, and members of Co. G, 33d Michigan volunteers, and William E. Locke, Co. A, 33d regiment, from Flint—took Detroit by storm, being at once surrounded by admiring crowds, to whom they told their experiences in Cuba. One had a scratch on his left eye which he said was made by a Spanish bullet. All wore the uniforms of U. S. volunteers and had handkerchiefs, brass medals and cigarette buttons all over their coats. They told about the fight at Aguadores, how bravely they had acquitted themselves; complained of the lack of surgeons and the poor medical facilities; cursed the Cubans for poor, thieving, know-nothings; but did not know who Gen. Dufiled was, and were somewhat at a loss when questioned closely as to the reasons for getting three months' furloughs at this time. Investigation showed that their names were not in the official roster of the 33d regiment. Dispatches say they were recently discharged from the hospital at Camp Alger, where they have been since the remainder of the regiment left for Cuba.

Michigan Crop Report.

The monthly Michigan crop report says that the average yield of wheat per acre, is estimated for the entire state, 17.96 bu.; southern counties, 18.16; central counties, 17.93; northern counties, 15.57. The figures point to a crop of about 30,700,000 bu. and the crop has been secured in fine condition, and is of excellent quality. The average condition of corn in the state is 82. The condition in the southern counties is substantially the same as one year ago, but in the central and northern counties it is lower. Oats are estimated to yield 29 bu. per acre. Potatoes promise three-fourths, beans eight-tenths, and hay nine-tenths of average crops. Apples now promise in the state about two-thirds of an average crop. Peaches are estimated at about seven-tenths of an average crop.

Daring Bank Robbery.

One of the most daring and successful robberies ever perpetrated in Michigan was carried out when the Union bank at Richland was entered and the safe blown open with nitroglycerin, three distinct explosions being heard by a number of people, but the gang escaped with its booty. According to witnesses the gang was composed of six men, who came to town on a hand-car. Four were placed on guard outside the bank, which is a small wooden building. The bank is owned by N. S. Whitney and P. H. Gilkey. They say the loss is between \$6,000 and \$7,000, mostly farmer's deposits. The loss will not affect the stability of the institution, as its owners are rich men.

It appears from the latest reports of the stockholders of the bank that the robbers were about a month late to make a great haul, as the amount on deposit was \$70,000 at that time.

The little building was badly wrecked by the three explosions of dynamite.

Richland is a village of 300 inhabitants situated near Gull lake, Kalamazoo county.

The remains of John Hiland, Co. D, 34th Michigan, who was overcome by heat at Camp Alger, were sent to Calumet for interment.

The wife of Lieut.-Col. Vans, 32d Michigan, has sued at Grand Rapids for a separate maintenance and has also commenced suit against Rose Vandersluis for \$10,000 damage for alleged alienation of affections. Miss Vandersluis is a prominent church member and well known in society.

Spanish in Porto Rico Losing Heart.

P. C. Hanna, U. S. consul at San Juan, who is with Gen. Miles, has received a dispatch from a Spanish official in the northern part of the island stating: "Resistance is impossible. The volunteers have refused to march, and we have no ammunition." Mr. Hanna declined to give the name of his informant, but it is known that he has excellent sources of information. He has all along insisted that the native Porto Ricans were eager for a change from Spanish to American rule and that the only danger in the island was from the Spanish regulars under the direct command of the captain-general. Mr. Hanna is busy assisting to adjust local conditions at Ponce to the new state of affairs. He is endeavoring to open U. S. postoffices in all the important centers of the occupied territory, and he has frequent interviews with merchants and bankers on the question of the money premium—an awkward question that is giving the American and local financiers much trouble. The merchants proposed to Mr. Hanna to agree to pay a premium of 100 on U. S. gold provided import duties on goods from the United States are removed. They also offered to buy everything from the United States.

15 Regiments More for Porto Rico.

The war department has ordered Maj.-Gen. Wade, who was placed in command at Camp Thomas after the departure of Gen. Brooke, to proceed to Porto Rico with 15 more regiments of volunteers, which are to form a provisional division, the regiments being selected from various brigades. The following regiments have been selected: First Rhode Island, First North Carolina, First New Hampshire, First New Jersey, Second Texas, First Maine, Fourth Missouri, First Alabama, First Vermont, First West Virginia, First Kentucky, Third Tennessee, 22d New York, First Arkansas, 52d Iowa, Third Virginia, First Delaware and First Maryland.

Maj.-Gen. J. C. Breckinridge has assumed command of the army at Camp Thomas, succeeding Gen. Wade.

Washington: The First Ohio cavalry, now at Tampa, will form part of the next expedition to be sent to the assistance of Gen. Miles in Porto Rico.

Gen. Coppinger, of the Fourth army corps, with headquarters at Tampa received orders to go to Porto Rico at once. This order was something of a surprise to Gen. Coppinger as he expected to go to Ferdinandina with a part of his corps which has been moved there.

The battleship Texas has arrived at the Brooklyn navy yard for repair of injuries received in the campaign off Santiago. Her fighting ability was not in the least impaired, however. The warship and her crew were given a wildly enthusiastic reception as she steamed up New York harbor.

The Havana correspondent of the London Times says that half the reconcentrados have died since the war began and the death rate is growing higher. The volunteers at Havana, on learning that the stories told them of big Spanish victories over Americans were lies, have become riotous and looted stores and attacked Cuban women. Serious outbreaks are feared.

The 16th annual meeting of the Michigan State Pharmaceutical association convened at Port Huron with a large attendance. Mayor Stevens extended a cordial welcome and the address was responded to by D. E. Prall, of Saginaw. The annual address delivered by President Arthur H. Webber, of Cadillac, was quite lengthy and dealt in matters of interest to the trade. Other members of the association presented papers on kindred subjects. Games, boat rides, trolley party, dancing and a banquet were a part of the programme for the entertainment of the delegates.

Does Baby Thrive?

If your baby is delicate and sickly and its food does not nourish it, put fifteen or twenty drops of Scott's Emulsion in its bottle three or four times a day and you will see a marked change.

We have had abundant proof that they will thrive on this emulsion when other food fails to nourish them.

It is the same with larger children that are delicate. Scott's Emulsion seems to be the element lacking in their food. Do not fail to try it if your children do not thrive. It is as useful for them in summer as in winter.

Ask your doctor if this is not true. SCOTT & BOWNE, Chemists, New York

THE PORTO RICO CAMPAIGN.

American Troops Steadily Moving Toward San Juan. ARE WELCOMED EVERYWHERE.

Almost the Whole Southern Half of the Island Under Control of Gen. Miles—Navy Ready to Bombard San Juan's Fortifications at Any Time.

Gen. Miles reports from Ponce: "Volunteers are surrendering themselves with arms and ammunition. Four-fifths of the people are overjoyed at the arrival of the army. Two thousand from one place have volunteered to serve with us. They are bringing in transportation, beef cattle and other needed supplies. The custom house has already yielded \$14,000. As to the government and military occupation I have given instructions based upon those issued by the President in the case of the Philippine islands and similar to those issued at Santiago."

Col. Halings, with 10 companies of the Sixteenth Pennsylvania, has occupied Juan Diaz, about eight miles northeast of Ponce, on the road to San Juan. The American flag was raised and greeted with great enthusiasm by the populace. The American troops have also reached Coamo, about 16 miles northeast of Ponce, on the road to San Juan. Thus far they have met with no resistance. The first real resistance is expected when our troops reach Aibonito, 35 miles northeast of Ponce. Aibonito has a thousand feet elevation. The military road to San Juan is broad and well beaten and will offer no such difficulties to the passage of artillery and supply trains as did the soggy and almost unbroken trails of Cuba to the advance of Gen. Shafter.

Capt. Goodrich, commander of the auxiliary cruiser St. Louis, seized the ports and harbors of Arroyo and Guayama, 40 and 45 miles, respectively, east of Ponce, and hoisted the Stars and Stripes over both places. They will probably be used as a base of operations for the second division of the American army, the advance of which under Maj.-Gen. Brooke was landed at Arroyo by the St. Louis. Gen. Brooke at once marched north and took the town of Cayey, on the military road which runs from Ponce to San Juan, and directly east of Aibonito. Thus Gen. Brooke will be able either to disregard the Spanish force at the latter point and to push on to San Juan or to close in upon it from the rear. The natural strength of the Spanish stronghold at Aibonito and the character of the defensive works erected there necessitated a flank movement and this is what Gen. Brooke accomplished.

Gen. Miles, having received information that the fine military road from Ponce to San Juan had been mined by the Spaniards between Juan Diaz and Aibonito formed a new plan, in accordance with which Gen. Stone, with some Wisconsin troops, pressed rapidly toward Arceibo, on the northern coast of the island and Gen. Brooke will advance toward San Juan from Arroyo. Gen. Stone, after occupying Adjuntas, to the north of Ponce, took Co. C, Second Wisconsin, as far north as Utuado, 15 miles beyond Adjuntas. The road is impracticable for the transportation of artillery and wagons, but the cavalry and infantry will have no trouble in advancing by this route to Arceibo, from which point a railroad and a good dirt road extend to San Juan. The artillery and wagons will sent by transports to Arceibo.

While San Juan is thus being threatened from the west by the advance of Gen. Stone's troops, those under Gen. Brooke will have seized the Ponce military road beyond the danger points and from which place the Americans can advance rapidly. The Spanish forces which prepared to resist the Americans at Aibonito are likely to find themselves beset by Americans on both sides, as the forces from Ponce are steadily pushing forward and their outposts are now 20 miles beyond Ponce.

The American navy has occupied as a harbor and base of supplies for the San Juan operations a large bay within the line of islands and reefs at San Juan point, 25 miles from Morro castle. This splendid anchorage was unsuspected. The outside seems to be made up of small islands. The entrance to the channel is tortuous. Fourteen of our ships are there and others are coming and when the American army appears before San Juan. The fleet will bombard the fortifications and make other diversions to keep the enemy busy at every point, while the army attacks the city from the land side.

C. G. Campbell's grain elevator and general store at Atlanta was totally destroyed by fire. Loss about \$2,500; partially insured.

The first detachment of the Third brigade, First army corps, in command of Brig.-Gen. Fred D. Grant, consisting of six companies of the First Kentucky, embarked on the transport Hudson at Newport News for Porto Rico. The remainder of regiment and the Third Kentucky and 160th Indiana, with two batteries of Pennsylvania artillery, are to follow as soon transports arrive.

Santiago dispatches state that civil government has almost been restored to normal conditions there. Many of the Spanish officials have refused to take the oath according to the supreme court of the United States, and have sent in their resignations. They are being replaced by Cubans. Large quantities of supplies have been landed by the American ships—including the Red Cross steamer Texas—and Spanish prisoners and refugees are being fed. Many of the refugees are seeking employment and commerce is being resumed. Strict sanitary measures are being enforced.

A woman need not go to a fortune teller to learn the story of her fate. She need only look in the mirror. A woman who suffers from weakness and disease of her womanly self will soon show the lines of suffering in her face. She will become weak, sickly, nervous, fretful and dependent. Her duties as a wife, mother and house-keeper will become an unbearable burden. Tens of thousands of women suffer in this way in silence. The average obscure physician will attribute their suffering to stomach, liver, lung or heart trouble. If they are fortunate enough to consult a physician who gives them a correct diagnosis, the chances are that he will insist upon the embarrassing examinations and local treatment so disgusting to a sensitive woman. Dr. E. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., is probably the most eminent and skillful specialist in woman's diseases in the world. With the assistance of a staff of able physicians he has prescribed for many thousands of ailing women. He has discovered a medicine that does away with the necessity for local examinations and local treatment in these cases. It is known as Dr. Pierce's Favorite Prescription. It acts directly upon the delicate and important feminine organs concerned and makes the system and healthy. It allays inflammation, heals ulceration, soothes pain and tones the nerves. Thousands of women have testified to its marvelous merits. All good druggists sell it.

"For a number of years I suffered with a complication of female troubles," writes Mrs. Rosie Neese, of 136 1/2 St. Louisville, Ky. "I tried various remedies, but nothing seemed to do me any good. About a year ago I had an attack of nervous prostration. Words fail to express what I endured at that time. Only those who have passed through a similar experience can imagine the distressing symptoms. Accompanying this disease, everything I ate would sour on my stomach. Could do more of my housework. I heard of Dr. Pierce's Favorite Prescription, and began to take it. After I had taken one bottle I felt like a new woman. I took eight bottles in all, and I feel as well as I ever did."

A LETTER TO WOMEN.

A few words from Mrs. Smith, of Philadelphia, will certainly corroborate the claim that Lydia E. Pinkham's Vegetable Compound is woman's ever reliable friend.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. For nine weeks I was in bed suffering with inflammation and congestion of the ovaries. I had a discharge all the time. When lying down all the time, I felt quite comfortable; but as soon as I would put my feet on the floor, the pains would come back.

"Every one thought it was impossible for me to get well. I was paying \$1 per day for doctor's visits and 75 cents a day for medicine. I made up my mind to try Mrs. Pinkham's Vegetable Compound. It has effected a complete cure for me, and I have all the faith in the world in it. What a blessing to woman it is!"—Mrs. JENNIE L. SMITH, No. 324 Kaufman St., Philadelphia, Pa.

Best Papers the Best Mediums.

There is much good solid sense for every advertiser in the following paragraph from a thoughtful eastern advertiser: "The daily paper is by far the safest and most certain method of reaching the public. It should not be difficult for any intelligent man who has lived for any time in a community to know just what papers will serve him as advertising mediums. It isn't at all necessary to examine the books in the newspaper's counting room or to get their affidavits of circulation. A paper that you read yourself and that your neighbors read and respect and that you know to be widely read and respected, you can safely rely on as a satisfactory medium for reaching people of your own kind."

Did You Ever Notice?

The best business houses in Detroit use THE DETROIT JOURNAL largely more than any other paper. Nearly every successful general advertiser uses THE DETROIT JOURNAL. Some advertisers are not allowed in THE DETROIT JOURNAL.

Michigan Navy Reserves Mustered Out.

Upon order of the secretary of the navy the Michigan Naval Reserves on board the Yosemite have been mustered out and sent to their homes, and the stanch cruiser in which they have seen service will be turned over to the Massachusetts and Rhode Island reserves. For several days, since peace negotiation began, Secretary Long has been busy arranging to reduce the auxiliary naval force and dispose of the cruisers acquired expressly for the war with Spain. He had about decided that the Naval Reserves on the Yosemite would not be given any further active service when he received a request from Gov. Pingree, backed up by communications from several members of the Michigan delegation in congress, to discharge the Michigan Reserves as soon as the department was satisfied that their services would no longer be needed. Secretary Long appreciated the fact that no class of men who went to the war sacrificed so much in the way of important private interests as the Michigan boys should be excused from further duty and sent home. At the time he was not quite ready to put the Yosemite out of commission, but as the Massachusetts and Rhode Island reserves have been drilling hard all summer and were very anxious to go to sea for a short period at least, the secretary saw his opportunity to kill two birds with one stone, and he therefore issued the order mustering out the Michigan Reserves and sending the New England boys aboard the cruiser.

Michigan Boys Stay on the Yosemite.

When the members of the Michigan Naval Reserves on board the U. S. cruiser Yosemite learned of the action of their friends at home in securing an order for them to be mustered out before peace was declared they were much worked up over it. The sailor lads kept the wires hot until the navy department countermanded the order. A petition the Michigan boys sent to the secretary of the navy stated that they had gone into the regular service as common seamen, not for any especial love or aptitude for scrubbing decks or coaling ship, but because their country needed them. Having taken their ship into action and proven themselves competent to handle and fight her, they desired to remain in the naval service of the United States just so long as there was any need for an auxiliary armament. In other words, having entered the fox chase, they propose to stay in and share the final honors at the taking of the brush. Consequently the order for their discharge has been revoked and they will now, it seems, take their ship to Manila to serve under Admiral Dewey.

NO FALSE RETURNS

Here are Plain Facts Endorsed by an Ann Arbor Citizen who Resides on Second Street.

Few people will admit failure while there is a chance for argument. Many people claim success when no one rises to dispute it. What we want to do is to place our claims where doubt is out of the question. We are doing this every day and Ann Arbor people are beginning to appreciate it. Now, to get right down to the point, everybody knows that there is many an aching back, many a lame and painful one, the suffering from which makes life a burden, but having tried so many remedies, the sufferer not finding success, looks upon all the skeptics of a skeptic; and yet one more struggle with the right ally and the back is free. Others have done it right here in Ann Arbor, why not you? Read what...

Mrs. Jos. Baehler, of No. 314 Second Street, says, "From the result of a severe fall I had in autumn, 1897, I have been troubled ever since with pains through my back and kidneys. I could not lie or rest comfortably in bed and in the mornings felt unrefreshed and tired. The kidney secretions became affected, unnatural and distressing. I doctored a great deal but met with little or no success. When I saw Doan's Kidney Pills so highly recommended I thought they would help me. I went to Eberbach & Son's drug store, procured a box and began to use them. Before I had taken many doses I began to feel better; in a short time I was entirely rid of my trouble and felt as well as ever. I certainly recommend Doan's Kidney Pills very highly to anyone needing such a remedy."

To Banish Cooking Odors.

The odor of food is always to be dreaded in upper rooms of a home, where sometimes there seems no preventing the penetration, no matter how far removed the kitchen, of certain highly scented dishes. In the sick-room this is peculiarly to be feared, as is the lingering odor of medicines and of food carried there, which often distresses the invalid. In such cases it is well to have laid aside, for the purpose, a number of sheets of brown wrapping paper, which have been soaked in salt-peter water and allowed to dry. On one of these pieces a handful of dried flour of lavender—to be bought of any druggist—should be placed, and then the whole laid in a fireproof utensil, as a coal scuttle, should be set blazing. The refreshing scent will completely destroy any rival, and will not prove a remedy worse than the disease.

Bats as Hair Restorers.

Tsin Ching Hung, a Chinese gentleman who was a Yale student a few years ago, has undertaken the defense of the rat as an article of diet. He says: "What the carrot is to a horse's coat a rat is to the human hair. Neither fact can be explained, but every horseman knows that a regimen of carrots will make his stud as smooth and lustrous as velvet, and the Chinese, especially the women, know that rats used as food stop the falling out of the hair and make the locks soft, silky and beautiful. I have seen it tried many times and every time it succeeded."

ICE CREAM CENTURIES AGO.

The Delicious Summer Confection First Manufactured in Italy. Early June days generally see the ice cream and soda parlors doing a steadily increasing business. Ice cream is a much older sweetmeat than many persons suppose. In the beginning of the seventeenth century goblets made of ice and also iced fruit—that is, fruit frozen over—were first brought to table. The limonadiers, or lemonade sellers, of Paris, endeavored to increase the popularity of their wares by icing them, and one, more enterprising than the rest, an Italian named Procope Coueque, in the year 1660, conceived the idea of converting such beverages entirely into ice, and about twenty years later iced liquors—that is, liquors changed into ice—were the principal things sold by the limonadiers. By the end of that century iced liquors were quite common in Paris. Ice cream, or iced "butter," as it was first called, for its supposed resemblance to that substance, soon followed. It was first known in Paris in 1774. The Duc de Chartres often went at that time to the Paris coffee-houses to drink a glass of iced liquor, and the landlord having one day presented him with his "arms" formed in edible ice, this kind of sweetmeat became the fashion. German cooks at once took up the new art. It was not long in reaching England, for in 1776 a French cook resident in London, named Clermont, wrote "The Modern Cook," in which sweet ices were first described for the instruction of English cooks. Of the ice cream of these days is an enormously elaborated sweetmeat compared with that of the middle ages.

CENSUS OF THE WORLD.

Big Undertaking the Result of Which is to Be Published in 1901.

From the London Mail: The enormous difficulty of the taking of a census of the world's inhabitants, which it is proposed to publish at Borneo in 1901, becomes apparent when one considers that at least two-thirds and perhaps three-quarters of the inhabitants of our planet dwell in lands none of which have yet been fully civilized and many of which still remain in a condition of savagery. Yet the purpose is, as far as possible, to include in the enumeration every human being on whom the sun rises on a particular day in the year 1900. Explorers and census takers are to be sent to every attainable point on the globe for the purpose. Such is the scheme. It looks impracticable. An attempt has recently been made to take a complete census of Russia and this will aid the new undertaking immensely. During his tour in Europe Li Hung Chang became interested in the proposed census of the world and, it is asserted, promised his co-operation and assistance in the work. China forms the greatest factor of uncertainty in estimating the population of the globe. Estimates of the number of inhabitants in China vary sometimes by one or two hundred millions, and even the population of the chief cities can only be guessed at. So, too, Africa presents an enormous field of mysteries and difficulties. Estimates of its population are constantly varying, because explorers frequently come upon knots and centers of population the real extent of which is unknown. The most careful statisticians admit that their estimates of the population of Africa may be as much as 50,000,000 out of a West of India are the vast lands that Alexander overran in his conquest—Afghanistan, Persia and Turkey in Asia. How many scores of millions or even hundreds of millions may they not contain? Many of the uplands of Persia are practically unknown to the civilized world, but they can support a great population. No one knows how many people Arabia contains. No one knows how many Eskimo there are dwelling in the lands of eternal ice that encircle the north pole; many of the islands of the vast Pacific swarm with inhabitants living on the open bounty of nature, whose free and careless life has captivated the imagination of highly educated men like Robert Louis Stevenson, and when the census is completed, if it proves practicable, what will it probably show the total population of the globe to be?

SURE CURE FOR RHEUMATISM.

The statement that there is a cure for Rheumatism will be regarded with incredulity by the majority of people. However, it is a fact which we can prove. Rheumatism is a disease of the blood, and until that is thoroughly cleansed no one can be cured with the disease can hope for relief. The remedy we offer is not a new discovery, but it has never been placed on the market in medicinal form. We know from personal experience that it has effected a permanent cure whenever tried, and this is what has caused the idea of offering it to suffer from rheumatism. The Sure Cure Rheumatism Tablets are a purely vegetable compound. They are warranted to cure the worst cases of rheumatism. Price, 50 cents a box. For sale by druggists or sent by mail on receipt of price. Send for free sample.

REPUBLICAN STATE TICKET.

For Warden State Prison BOSS WM. MCKINLEY JUDSON. (Candidate at large—No opposition.)

REPUBLICAN COUNTY TICKET.

For Sheriff LESTER CANFIELD—Jail Ward. For Prosecuting Attorney FRANK A. STIVERS—Ann Arbor. For Clerk JAMES A. GILBERT—Sylvan. For Treasurer JACOB BRAUN—Freedom. For Register of Deeds GEORGE A. COOK—Ypsilanti.

Coroners, Circuit Court Commissioners and Surveyor to be nominated later by the opposition.

[The Boss has promulgated an edict that this ticket is to go through at the county convention to be called so those who are ready to begin work right away for the ticket need not hesitate longer.]

LEGISLATIVE TICKET.

For Senator, Tenth District GEORGE S. WHEELER—Salem. For Representative, First District FRANK P. GLAZIER—Sylvan. For Representative, Second District A. J. WATERS—Manchester.

THE Times quotes in full the editorial in last week's REGISTER upon the necessity of the Republican party getting together and putting up an independent ticket, one not dictated by any clique or ring. The Times heads the article with the question "Does the Register Hedge?" Well, scarcely. The whole fight which has been carried on to down bossism and rings, and the proposition made last week was that it was absolutely necessary that we put up a ticket free from bosses and rings. We do not believe that savors very much of "hedging." The Times better guess again.

The Republican county committee met last Thursday night and elected a chairman and secretary. The Judsonites, of course, had control of the majority of the committee since its members were chosen at the June convention which Judson controlled by questionable methods. These people expect to control the next county convention to be called to nominate a county ticket. From present indications the opposition will make no serious endeavor to prevent it, seeming to prefer that the ring be given ample opportunity to run the full length of its rope and hang itself. It would seem that if the Judson men hoped to elect the candidates whom they intend to nominate, they would have been shrewd enough to have selected officers of the county committee, the ones who take charge of the campaign, who were not allied to either faction. Such men could have worked to advantage with both factions and could have done much towards closing the breach which exists in the party today. But Judson was still in complete control of the committee, if he had no control of anything else, and he exhibited the same total lack of political shrewdness he showed in the congressional convention, when Washtenaw county prospects were buried for a generation, and elected officers of the county committee who are radical Judson men. Instead of helping to bring harmony, such a course will antagonize hundreds of voters everyone of whose votes is needed this fall. Such a course was right in line with the rule or ruin plan which has been pursued by the Judson men from the beginning. It is done in the interests of the Democracy, and will certainly accomplish its object. THE REGISTER proposed that the nomination of candidates for county officers at the next county convention be left to the independent action of the Republican party. The ring knows very well that such a plan would end its existence. It has selected the county committee from among its members and it proposes to choose the candidates for county officers from the same place. Their policy seems to be, "if we cannot have everything in sight, nobody else shall have anything." This is Judson Republicanism—the kind he is cramming down the throats of his servile followers. It is not the sort of Republicanism that can hold a majority of the voters of Washtenaw county.

If the majority of delegates in this senatorial district desire the renomination of Senator Andrew Campbell, the Republicans should see to it that he is elected.

GOVERNOR FINGREE will find that his majority in Washtenaw this fall will be considerably reduced, and it will be due, mainly to the fact that he is to retain ex-Boss Judson as his lieutenant in this community.

ONE might think, if he were to read last Thursday's Times, that at the meeting of the Republican county committee last week the anti-Boss people were put to route. That is news, indeed. The majority of the committee were elected by delegates chosen at caucuses run by Judson methods. The opposition was not even allowed to know that the meeting was held. We do not see where the rout came in Judson simply boosed the job without opposition.

If the Republican county committee really desires that farmers have all the opportunity possible to hold their caucuses at the time most convenient to themselves, the date for the county convention will be named at once, even if the convention is not to occur before the middle of September. This will give people in the country an opportunity to call their caucuses at a time most convenient to themselves between now and the date of the convention. Can anybody say that this is not fair?

THE LOYAL SOUTH.

This Splendid Truth Was Not Needed to Proclaim It.

From the Milwaukee Journal: A veteran salesman was in Detroit last week and did a little talking that it might be well for all the people to hear. "If there's one thing that makes me wearier than another it is this constant talk about the loyalty of the South. It creates the impression that you people up here are surprised, and that we were under suspicion. Of course we're loyal and loyal to the backbone. Let any one who has lingering doubts on the subject, go down there and insult the old flag once. He'd be mighty lucky if he got off with a month or two in the hospital. I know what I'm talking about because I served on the other side. Ask any of your boys whether we put up a fight or not. We learned to respect each other then, and I was no better friend now than one of the brave fellows that helped whip us back into line. I wish every American citizen could have seen what I saw in Baltimore the other day. I saw the historic Sixth Massachusetts pass through on its way to Falls Church, Va. I delayed starting out on my route on purpose to tell the Bay state fellows what we think of them. I was there in April, 1861, when the Sixth was headed for the front by way of our city. Their reception was that of hated invaders. We mobbed them with bullets, bricks, clubs and the worst verbal abuse we could put our tongues to. Had it been within our power we would have exterminated them. But this time it was different and shows us one people with stronger ties of brotherhood than ever before. We had a reception committee composed of our very best citizens. They were given all the money and help they wanted. The city looked like a great big flower garden decorated with flags and bunting. In '61 women drew their skirts aside from a Yankee soldier to avoid contamination. The other day hundreds of our prettiest women, and there are none more beautiful, were out to smile on the boys and help entertain them. Each one received a lunch box, an American flag and a button bearing the state coat of arms and the words 'Baltimore Greets Massachusetts.' On streamers attached to floral pieces were the words, 'With flowers, not bullets,' and 'A united country honors the men who are rallying to her defense. May the memory of '61 be effaced by the welcome of '98.' We had our bands out, the crowds cheered themselves hoarse and old bald-headed fellows like me yelled till we couldn't swallow. I was run over and trampled, elbowed and jostled, but I kept right on cheering and had a scene at home because I talked about enlisting. I'll go yet if they want me and meantime I'm ready to do business with these people who keep talking about the loyalty of the South as though it was something unexpected."

PEACE NEGOTIATIONS.

Reports That Spain Had Accepted Our Terms Proved Immature.

Washington: Unofficially the President was informed that the Spanish ministry had accepted the terms of the United States for a cessation of the war. While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the President is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations were in progress. In event of Spain's acceptance of the terms proposed by this country, the first step will probably be toward an agreement to close active hostilities, pending the drafting of a treaty of peace along the lines of the accepted terms.

Later.—An appointment was made by M. Cambon, the French ambassador, acting for Spain, for a conference with President McKinley and Secretary of State Day to consider a communication from Madrid on the peace question. After a conference lasting just an hour Secretary Day emerged from the White House and announced that the conference was inconclusive; wherefore the parties to it had agreed to say nothing publicly as to what had occurred. From this it is gathered that the expected answer of the Spanish government to the President's note upon being received had turned out to be either a counter proposition or a request for a fuller statement in detail upon some of the heads of the President's note. Meantime in consonance with the declared purpose of the President at the beginning of the overture, this conference is not operating to restrain military operations in any degree.

The government is now waiting to hear again from Spain, and this time it is expected the answer will be final. Firmly, but courteously, the President has declined the earnest appeal of the French ambassador to modify the United States' demands, except in slight and comparatively unimportant respects. One of these was that the commission to be appointed to settle the terms of peace shall meet outside of the United States, and preferably in France. The President sees no material objection to granting this request, and it is said to be practically settled that the conferences will be held in Paris.

The Madrid government, through M. Cambon, propounded a number of questions as to the time when Spain would be expected to evacuate Cuba and the territory to be ceded the United States, and as to what provision would be made by the United States to protect the interests of Spanish subject in these islands, while the evacuation was in progress. There is one point, however, which the Spanish authorities, apparently, fail fully to comprehend, and Secretary Day made a special call upon the ambassador for the purpose principally of making perfectly clear this one point. The point was that the evacuation of Cuba, Porto Rico and one of the Ladrone islands, to be selected by the United States, and their permanent session to this government, was made a question precedent to all peace negotiations, and not until these terms had been fully complied with, will this government consent to entertain any peace propositions whatever.

Madrid: Consultations held between Premier Sagasta, the presidents of the chambers and other prominent persons, are of a national character, with a view of ascertaining the opinions of all parties. The cabinet will follow the advice of the party leaders and will leave to the crown the liberty of choosing advisers. All the leaders consulted have observed the strictest reserve, with the exception of Senor Romero y Robledo, leader of the Weylerite party, who declares himself for continuing the war. Owing, in a great measure, to the patriotic efforts of Gen. Poaivieja, a tacit truce seems now established between all factors of internal disorder in Spain, until the peace treaty is signed. The feeling of all classes is that the humiliation resulting from this disastrous war falls not upon the Spanish nation, but upon the dynasty and government. The moment peace is signed the government will be made a scapegoat, and the people will then turn savagely against the dynasty and make it answerable for the consequences.

NOTES ON THE WAR SITUATION

July war expenditures were \$30,000,000. So far the war has cost Uncle Sam \$90,000,000.

Madrid dispatches say that it is certain that Don Carlos is to make an early attempt to seize the Spanish throne. Over 60,000 armed followers in the Pyrenees region are waiting his call and the army is honey-combed with Carlism.

Owing to the defiant attitude of the Philippine insurgents about Manila Gen. Merritt has asked that his force of 20,000 American troops be increased to 50,000 as soon as possible to place him in a position to meet any emergency which may arise.

The wreckers at work on the remains of Admiral Cervera's fleet have succeeded in floating the Spanish cruiser Maria Teresa and have notified the navy department that she will soon start for Norfolk under her own steam.

The talk of an extra session of congress being called to ratify the treaty of peace and formulate laws for the government of our newly acquired territory is somewhat premature. It is said that even with the terms of peace agreed to it would require two or three months to complete the formal treaty and as congress meets in regular session in December an extra session is unnecessary. As to the government of new territory, that will necessarily be under military rule for some time.

The doctor may be a good old man, but even so, medical examinations and the "local-application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

the part the negro played in the struggle. A recess was then taken for dinner.

At 1:30 Rev. Simmons, the master of ceremonies, introduced Milton W. Guy. Rev. Simmons took occasion to pay an elegant compliment to the success Mr. Guy has achieved in the line of oratory in the Ann Arbor high school.

Mr. Guy drew a contrast between the present and the past condition of the Negro race and clearly outlined the part the black man has played in every struggle on this continent.

The struggle maintained by Toussaint L. Overture and his followers against the French at San Domingo came in for its share of attention as well as the battles participated in by the 200,000 black soldiers of the civil war.

The progress of the race in education, morality, religion and business enterprise was shown by a grand array of facts and figures. From an ignorant, despised and poverty-stricken race they now pay taxes on \$100,000,000, sustain over thirty institutions of learning and own a number of self-sustaining publishing houses.

The race would hold its own if colored boys and girls were sent to school and kept there and drilled to be honest, thrifty, enterprising and responsible.

The negroes should have race pride. If God had not a special mission for the black man, He would not have created him of different color and temperament from other races.

He spoke of the black man's devotion to American institutions, of the four regiments with General Shafter before Santiago. The negro is American in instinct and by tradition; by the part he has played in American history. Some men tell us to go back to Africa and thereby solve the race problem.

Change of location never solves any problem whether individual or racial. Again, America is good enough for us. (laughter). We are here to stay. We will not go back until there has been returned to us the wealth heaped up by years of unrequited toil.

When we go back, we must have not only the wealth created by our fathers, but we must have the tears of our mothers, the blood of our brothers and the bones of our dead. (Applause). He closed with an appeal to the race to do its duty.

The crowd was very orderly and all seemed to enjoy themselves. At night a swell dance was held at the Armory but the usual cake walk was omitted to the delight of the more cultured colored people.

Rev. Miller and daughter of Jackson, Mr. Gough and family of Adrian, Mrs. Peak of Montreal, Miss Hicks of Richmond, Ind., and other prominent people were visitors on the occasion. Everybody said the colored band was all right.

When Hood's Sarsaparilla Gives Strength and Vigor

Backache and That Tired Feeling Promptly Cured.

"I was feeling very miserable. I was tired all the time, had no appetite and felt sore all over my body. I had backache so that when I stooped down it was hard to raise myself up. I was hardly able to work and was just making up my mind to give up my work when I read an advertisement of Hood's Sarsaparilla. I determined to try this medicine. When I had finished one bottle I felt a great deal better. I did not stop my work, and after I had taken the third bottle I felt as well and strong as I ever did in my life. Since then I have taken Hood's Sarsaparilla when my blood was impure and I recommend it to everyone who does not feel well."

STATUES GO BEGINING.

Bronze Counterparts of W. H. English Stand Idle at Grand Crossing.

From the Chicago Chronicle: Suburban passengers on the Illinois Central who go flying past the yards of a big bronze factory near Seventy-third street every day have noticed for a long time the statue of a very fine looking man peering over the high board fence. The magnificent bronze head is thrown back, the bronze coat is thrown wide open and the bronze thumbs are inserted in the bronze armpoles of the bronze vest. Sleet nor snow nor wind nor storm has daunted the statesmanlike gentleman or driven him from his post beside the fence.

For lo! these many months, even in the foulest weather, he has maintained his east front and kept his thumbs nonchalantly in the armpoles of his vest. Even when swift express trains shot past his face he did not bat so much as the lash of an eye. And scores of passengers have wondered who the distinguished-looking man is and why he remains staring over the back fence of a bronze factory at suburban trains. It is the statue of the late William H. English, one of the most prominent financiers and statesmen of Indiana. Mr. English was probably the richest man in the Hoosier state. He died two or three years ago and left \$3,000,000 or \$4,000,000 to his two children, a son and daughter. A short time before his death Mr. English completed a history of Indiana, which is said to be one of the best that has ever been compiled. The millionaire some years ago erected in Indianapolis a magnificent block, which contains a hotel and one of the finest theaters in the United States. It was his wish that a statue of himself should adorn the lobby of the hotel. He had Sculptor H. Mahoney, of Indianapolis, make the statue, and from the plaster two bronze statues were cast at the bronze works. They are absolutely perfect likenesses of Mr. English, and Manager Bechem of the works says they are two of the finest he has ever seen. Mr. English paid \$2,500 for the casting of the two statues, which are exactly alike. Although the statues were paid for long since they still remain in the yards of the bronze company. It is said that Will E. English, the son and heir of William H. English, was communicated with some time ago, but that he has as yet manifested no intention of claiming the statues, one of which would doubtless be acceptable as an ornament for one of the parks of Indianapolis or the grounds of the state house. It is supposed that the senior English intended one of the statues for the town of English, Ind., which was named after him.

WAYS OF KEEPING A HUSBAND A Wife's Home-Making Ability Will Often Save the Married Love.

"It has been said that the first year of married life is the first year of the happiness or the misery of the coming years, because it is the trial-time of two whose tastes, habits, ideas and peculiarities are brought to the test of harmony," writes Mary R. Baldwin of "The Possibilities of a Home Woman" in the Woman's Home Companion. "But no woman ought to surrender her individuality often to make peace in a family. And she will not be obliged to do so if she has love and tact and patience. Many a husband has been led like a little child, and has never known that he was bowing his wife in the least, simply because his wife knew how to influence him. And just here let it be said that influencing is the word for that something which makes it possible for a wife to become a comfort, power and blessing to the husband. The woman who cannot influence her husband, must be lacking in essential qualities for a good wife, or else she must deal with a hopeless case. Above all things in a woman's purpose should stand the desire to hold love from loss and from spilling influences. We sometimes hear of two who have passed years of married life without once exchanging an angry or even unpleasant word. This may be possible for those whose natures are such that reason and emotion are very elastic; but it could not be said of the majority of wedded people. An angry woman is not the thing to be most dreaded, but that gradual growth of indifference that leads to atrophy of conjugal love. There are ways of keeping a true husband in a loverlike spirit always, but the wife must preserve those feelings and their expression that marked those charmed hours when she was the sweetheart. Loving thought for the comfort and happiness of the lover found expression naturally in words and in acts. It must be the same to the affection that would hold the husband's wife. Then those little words that are prompted by love and received in its spirit have a world of significance; these should not be left behind after the home life together is begun."

YOUR FORTUNE TOLD, "SOLAR BIOLOGY," THE ONLY TRUE SCIENCE BY WHICH YOUR FUTURE CAN TRULY AND ACCURATELY BE FORETOLD.

The resignation of Adj. Fred I. Abel, of the 31st Michigan, at Chickamauga, has been accepted by the secretary of war. Mr. Abel does not like the routine work of the adjutant's office, and prefers a commission in the line. Lieut. Homer D. Nash, of Co. J (Jackson), has been appointed adjutant, and Lieut. I. J. Collins, Co. I (Jackson), will succeed as regimental commissary.

The state military board has decided to raise one regiment of state troops for home guard duty for emergency use. In order to make room for it, eight companies of state troops now at the front must resign their places in the National Guard and it is said that two companies from Detroit and one each from Calumet, Monroe and Ann Arbor have already decided to do so, and that home companies have been organized in their towns. Three others will be formed and the regiment will be organized at once.

"I am afraid you will not be before the country as politician very if you continue your present course."

"I should hope not," rejoined Senator Sorghum. "I hope to be a financier and have senators of my own one of these days."—Washington Star.

The Michigan department headquarters train for the national G. A. R. encampment at Cincinnati will leave Detroit, Monday, Sept. 5, via the Lake Shore railroad to Toledo from which point the route will be over the Toledo & Ohio Central and Big Four routes. Tickets will be on sale in Michigan Sept. 3, 4, 5 and 6, good for a continuous passage commencing the day of sale, and good to return not later than Sept. 13. Commandeur Patrick invites all veterans and their friends to accompany him on the headquarters train.

Michigan Republican editors will meet at Alma, Sept. 1 and 2.

Your Liver needs coaxing, not crowding. Dr. Ayer's Pills stand without a rival as a reliable medicine for liver complaint. They cure constipation, and they cure its consequences, piles, biliousness, indigestion, sick headache, nausea, coated tongue, foul breath, bad taste, palpitation, nervousness, irritability, and many other maladies that have their root in constipation. They are a specific for all diseases of the stomach and bowels, and keep the body in a condition of sound health.

"I have used Ayer's Pills for the past thirty years and consider them an invaluable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt cure for dyspepsia."—JAMES QUINN, 90 Middle Street, Hartford, Conn.

Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, **DR. MILES MEDICAL CO., Elkhart, Ind.**

AMONG OUR NEIGHBORS.

YPSILANTI SENTINEL.

The American Express Company's horse ran away last Thursday, and safely passed a lot of vehicles on Huron and Congress streets. The tie weight, which he dragged, caught about a hitching post in front of the Harris grocery, turning him full tilt into a showcase of fine crockery belonging to the bazaar next door, which was overturned, causing some damage.

MILAN LEADER.

Will Bessan, formerly of this village, is a member of Co. K, 1st Colo. Vol., and is now on his way to Manila.

John A. Warner returned Wednesday noon from Montrose, accompanied by his father, who is still suffering from a paralytic stroke.

Misses May and Maud Bell went to Detroit Monday afternoon where they expect to combine business and pleasure for four or five weeks.

SALINE OBSERVER.

Threshers are finding plenty of grain to shuck out, and the farmers are finding little difficulty in securing their services.

Tip, Crittenden's team took fright at a bike Saturday and ran away, a broken harness and scattering of milk cans was the result.

Henry Karrick, twenty-seven years ago the owner of the farm now owned by Alfred Acton, was in town Tuesday. Mr. R. is alone in this broad land, his wife and children are all dead.

CHELSEA HERALD.

Lightning killed two cows for Thomas Morse and one for J. Daucer during the storm last week.

C. Steinbach has invented a machine for punching holes in the strap used in the manufacture of fly nets, that works to perfection.

Miss Edith Coagdon, who has been cashier for W. P. Schenk & Co., for several years, is taking a special course in Ann Arbor this summer.

The "old land marks" in Chelsea are fast disappearing and new brick buildings going up. The old residents are nearly all gone, and some have died over four score and ten.

YPSILANTI COMMERCIAL.

The large bank barns of Isaac Bumpus, who lives near Rawsonville were struck by lightning last Thursday morning and burned to the ground. They were full to the roof with grain and hay but no animals and few farm implements were lost. Mr. Bumpus will lose nearly \$3,000 by the conflagration.

Those who went to Detroit Saturday on the trolley party reported a most enjoyable time. They rode over the principal lines of the city, took boat to Belle Isle where they ate their lunch, visited the city water works, and did many other things not permissible for a reported to describe. They arrived home about 11 o'clock.

YPSILANTI.

Will Freeman of Roosevelt's Rough Riders, who was injured before Santiago, has been granted a month's furlough, which he will spend at his home in Ypsilanti.

Mr. Henry Bennett was pleasantly surprised on the evening of July 23d, at his home in Ypsilanti, it being his 48th birthday. A company of about thirty friends and relatives met at his home with tokens of love and best wishes.

Dr. and Mrs. J. W. Nelson have been spending the month of July in Norway, and will soon reach Stockholm, Sweden, where they will stay for some time, as the doctor wishes to study in the hospitals there. Mrs. Nelson is remembered as Miss Maud Oakley.

Ernest P. Goodrich has accepted a fine position as surveyor and draughtsman in the department of Public Buildings and Grounds of the War Department at Washington, D. C., and has already gone to assume his new duties. The position came to him unexpectedly, and on the recommendation of Dean Green of the U. of M. Department of Engineering.

DEXTER LEADER.

The Michigan Central station house at Scio has been sold to a farmer who will move it away. The agency has been discontinued and it is thought the station will be dropped.

The Wiser Way.

"How fresh and rosy you look, Nora," exclaimed Isabel, who had just returned from the beach, and was greeting her friend.

"Yes, Dear," replied Nora, "I am feeling splendidly, and mamma says I have an alarming appetite."

"Where in the world have you been since I saw you?"
"I have remained at home," replied Nora, "and have worked hard every day. But I have been taking that wonderful medicine, Hood's Sarsaparilla, and it has done me, oh, so much good. You see I always like to feel well when I go away, and I leave for the mountains next week."

Jas. Walsh of Dexter township has the credit of catching the largest black bass ever caught in this vicinity. Last Thursday, while fishing with rod and line in Rabbit's lake, he landed one that weighed six pounds.

The insurance policy held by the late Mrs. M. S. Cook in the Ladies of the Maccabees was paid by that order on Thursday, July 28. Mrs. Cook died July 5. Thus it took but 23 days for the order to settle the claim, which is an unusually prompt showing.

There is one man in town who is done throwing stones at dogs and that man is Dr. J. W. Lee. Last Thursday he shied a dornick at a couple of curs that were making a disturbance on Main street. The stone missed the dogs, of course, struck the ground and caromed beautifully through one of the plate glass in the front of Mrs. H. C. Higgins' store. What the doctor said we will not publish but what he did was to order a new window.

Change of Location.

H. C. Esinger, of the Fair, announces that he has placed a complete line of his bazar goods at No. 117 E. Ann St. pending the erection of an addition to his store and the remodeling of his main building at his old stand. People in need of any kind of bazar goods can find everything in this line at the old stand and also at 117 E. Ann St. Mr. Esinger finds it expensive business to move goods so he will dispose of every article possible at practically cost price to save moving. Now is the time to save money. You should take advantage of it. After August 15 his entire stock will be moved to Ann street until his building is finished. Don't wait until it is too late to get a bargain, while everything in The Fair may be had at bedrock prices. 31st.

THE FORCE OF WAR.

UNCLE SAM SHOWS A MIGHTY POWER IN CONFLICT WITH SPAIN.

In this war with Spain the United States shows a power and energy that surprises the old world. The weapons employed are the best made. The fight has been pushed from the start.

In the future every man will be used to subdue and overcome all attacking forces. If people fought the great deadly plague of mankind—consumption—in this way, it would not destroy a great host yearly. Dr. King's New Discovery is the right weapon with which to attack this monster. When we say this grand remedy can and does cure consumption we are supported by the testimonials of many thankful people whom it has cured. It has been doing this good work for twenty-five years. If the disease has not run too long this supreme medicine will cure it. If the case is one of long standing it will relieve the pain and misery and prolong the life. Many sufferers have been very low, have had the hacking cough, the night sweats, the wasting away of flesh, the daily weakening.

Doctors said they had consumption and could not live long. They believed them and hopelessly waited for the end. These took Dr. King's New Discovery and were wholly cured. The germ that fastens on weak lungs and destroys them is the consumption germ.

The lungs are made easy for it to attack by coughs, colds, la grippe and similar troubles. They can't be stopped too soon. A teaspoonful of this royal remedy will often stop a cold and save a life. It quickly allays chest pains, cures weak lungs, obstinate lingering coughs, bleeding from the lungs and other bronchial troubles which leads up to consumption. A disordered liver may cause troubles much like consumption. Doctors have mistaken liver troubles for it, therefore it is best to use Dr. King's New Life Pills and Discovery together. Elmer Wright at Lockville, O. was saved from death by Dr. King's New Discovery. Nine experienced physicians had told him his consumption could not be cured and that he had not long to live. Four \$1.00 bottles of this marvelous medicine wholly cured him. If suffering get it at once. Money back if no benefit. Sold at 50c and \$1.00. A trial bottle free.

Wisdom From the Other Side.

"Washington," said Jefferson, at Charon's Fourth of July celebration, "what do you think of the question of Hawaii and the Philippines?"

"Jefferson," replied the father of his country, "when a man dies and leaves his business with his son, he expects that son to keep the business in the front rank of all his competitors." —Philadelphia North American.

The next teachers' examination for Washtenaw county will be held at Ann Arbor on the 18th and 19th of August.

John Buss, who gave his age as ninety was arrested last Friday for being drunk on the street. He was sent to jail for five days.

The Michigan Central railroad company has paid \$298,000 tax, the amount specified by the Merriman law. No protest was made.

Prof. Dewey has sold his house and lot, corner Forest and S. University avenues to Mr. Geo. Blaich, the South University ave. grocer.

Mr. and Mrs. Fred Radke lost their infant son last Saturday. Cause of death was summer complaint. Funeral services were held Monday.

Several of the draymen have signed a petition to the common council asking that draymen be again permitted to use the Fourth ave. stand.

The soul of the small boy is filled with delight as he gazes at the flaming bill boards and thinks of the delights in store for him on August 27.

The caps on the catch basins on Main street have the names of the street cast in them. It is better than no name at all, but people usually look higher.

President James B. Angell made a farewell call upon the Sultan of Turkey last Friday. He will leave Constantinople next Saturday on his homeward journey.

The latest divorce case to be started is by James W. Doane. He is a barber and accuses his wife of enough crimes to warrant a man in asking for a dozen divorces.

It is announced that Mr. W. W. Wedemeyer will not be a candidate for the Republican nomination as representative in the first Washtenaw district this fall.

The date of the Y. M. C. A. excursion has been set for August 16. The excursion will be to Detroit with a boat trip to Lake Erie. The round trip will be one dollar.

Dr. Vaughan, who was quarantined near Key West because of his having yellow fever, was released last week. He with other convalescents left at once for the north.

The crop report shows that the average wheat yield in Michigan this year is nearly 18 bushels to the acre. The acreage was large. This means prosperous times for the farmers.

Numerous complaints are heard that thieves are stealing flowers from the graves in Forest Hill cemetery. It is a mighty mean spirit that will prompt one to do such a thing.

The gun carried by Don Stark, the barrel of which was bent out of shape by the Spanish shell which also carried away Mr. Stark's right arm, is on exhibition at Goodspeed's store.

Mrs. Briggs, of Coldwater, is visiting her parents, Mr. and Mrs. A. H. Holmes, of E. Liberty st. Last Saturday night some thief stole her bicycle from Mr. Holmes' livery stable.

The Times is authority for the statement that Major Kirk will be in the field for renomination as Prosecuting Attorney this fall, that he already has all the military service he wants.

Paul Abbott has been given the position of special delivery boy in the post-office to succeed Frank Whitlock. Frank was not known to take sides with either faction in the Republican ranks, either.

Edward Gross, a clerk for B. St. James, was married last Thursday night to Miss Emma Kurtz. The ceremony took place at the home of the bride, corner of Second and Williams streets.

The farmers' picnic at Whitmore and the coming of Ringling Bros' great circus are announced for the same date. The former will be likely to suffer unless the date is changed in order to avoid a conflict.

There will be no services at the Church of Christ next Sunday morning on account of the absence of the pastor, Rev. W. M. Forest. Sunday school and Y. P. S. C. E. meeting at the usual hours.

Fred Maser, the father in the family living in Ann Arbor town which has had such a terrible siege with typhoid fever, died last Saturday. This makes the third death in that family all from the same disease.

A slight blaze in the section house east of the Michigan Central station caused the fire department to be called out last Friday morning. But little damage was done. The cause of the fire is not known.

Secretary of State, Gardner, recently decided that he had more clerks than he needed and notified seven of them that they would not be needed after Sept. 1. Among those named is Miss Jennie L. Buel, of Ann Arbor.

Recently Mrs. Rowena Chapman began suit for divorce from her husband, Frank Chapman, for non-support. The latter was in town a few days ago and declares that there is nothing at all in the charge. He will fight the case.

The business of the Hurd-Holmes Co., of Detroit street, has grown to such an extent that it has been found necessary to considerably increase their warehouse capacity. They have just completed an addition to the north of the old one.

E. S. Edwards, who represents the Columbia chainless bicycle, was in the city last Thursday. He has ridden his wheel 100 miles per day without a hitch since January 1, 1898, making 21,000 miles at that date. That ought to give the wheel a thorough test.

Dr. J. A. Boylan rather surprised his numerous friends last Thursday by slipping off to Lansing and being united in marriage to Miss Ida M. Lawless, of Ionia. THE REGISTER congratulates the young people and wishes them a long life of joy and happiness.

The annual picnic of the farmers of Washtenaw, Oakland and Livingston counties will be held at Whitmore Lake, August 27. The program has not yet been completed. It will be published as soon as ready. It is announced that a number of good speakers have already been secured.

The Courier, which is generally understood to be ex-Boss Judson's mouth-piece, rather surprised the natives last week by coming out squarely for the renomination of Senator Campbell. Evidently there has been a radical change of heart at which all good citizens will rejoice. In fact such changes have taken place rapidly since the conventions of June 16 and July 21.

Mrs. Anna Evans, of No. 621 Forest ave., celebrated her 94th birthday yesterday. Mrs. Evans, aside from her failing eyesight, is apparently healthy physically and mentally. Her daughter and son, Mrs. G. Williams, of Midland Co., Mich., and Dr. A. H. Evans, of Lockport, N. Y., are paying her a visit. She is the grandmother of Dr. Salsbury, the Huron st. druggist.—Times.

While in Detroit yesterday Dr. Nancrede, surgeon-major of the Thirty-fourth, told the governor that he had fully recovered from the yellow fever and the latter prevailed upon him not to resign his position. Gov. Pingree then telegraphed to the secretary of war asking that Dr. Nancrede be transferred to one of the hospitals on Long Island, and word was quickly received that the request had been granted.

City Physician Cowie has charge of Dr. Dock's work at the hospitals during the latter's absence on his vacation.

A prominent Democrat came to town last Saturday and subscribed for THE REGISTER. Incidentally he remarked that a representative of The Democrat had recently approached him soliciting him to subscribe for some stock in a stock company which was being organized to run that paper. Stock was offered him at 50 cents on the dollar. The gentleman preferred THE REGISTER at one hundred cents on the dollar.

A rather peculiar suit has been begun in the circuit court by Jacob A. Polhemus. He sues Messrs. Rehfus and Wallace for the value of a horse. Polhemus purchased a team of the defendants for \$200. He claims that the horses were warranted to be sound. In a few days after the purchase one of the animals became crazy and had to be shot. Now Polhemus wants back the value of the animal.

At the last meeting of the council a resolution was adopted making the market place back of the jail the "official" place for draymen to wait for jobs. G. E. Darrow did not like the idea and so rented office room with Mr. Goodale who runs a wood and coal office next to the fire department building, and hitched his dray in front. He was at once arrested, but tried it again and was rearrested. He claims he has perfect right to have his team in front of his office and he will fight the matter.

Recently Mr. George Peavey bought the old Washtenaw hotel property on Broadway. At the time part of the house was occupied by a colored man by the name of Washington. Peavey gave Washington notice to vacate as he desired to remodel the building at once. Washington refused to vacate. Peavey at once began to tear up other parts of the big house. Washington now sues for \$1,000 damages claiming that the workmen caused a perfect rain of dirt and plaster to come down in his rooms.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
