A GREAT CELEBRATION.

GERMAN-AMERICANS CELEBRATE
IN A FITTING MANNER.

A Big Attendance—A General Good
Time—All Vote the Day a Success—
And That Manchester Knows How
to Entertain.

Last Thursday was the date set for the ninth annual celebration of German-American Day. Manchester had been chosen as the place in which to celebrate the day this year. Early in the day the crowds began to gather and the people kept coming until noon and after. A special train came down from Jackson with fully four hundred aboard. There was present a very large attendance, also, from all parts of Washtenaw, Monroe and Lenawee

THE OLD BOYS ENJOY THEMSELVES.

For several years past the old vets of Salem township have met at the home of some one of their number and enjoyed a pleasant reunion. These occasions to which all the old soldiers of the county have always been invited, have always been pleasant ones. This year the reunion was held last Saturday at the hospitable home of H. C. Packard, two miles south of the village of Salem. There were fully two hundred people present. Several of the old soldiers from this city attended. There were in all 43 old soldiers present. After a pleasant forenoon spent in visiting and talking over old times, dinner, and a most bountiful one it was, was served by the ladies. Following this an excellent program was gone through with.

OLDEST PIONEER GONE.

JOHN W. MAYNARD DIED TUESDAY MORNING.

Came to Ann Arbor in an Early Day—
Has Resided Here Seventy-Four
Years—Has Lived for Fifty-Four
Years in the House in Which He
Died.

John W. Maynard, one of Washtenaw's oldest pioneers, died at his home on N. Division street early Tuesday morning. Although Mr. Maynard has been in poor health for a long time and on account of his advanced age his death was expected at any time still the report that he had actually passed over the dark river came as a shock to his many friends. Mr. Maynard was born in Massachusetts 85 years ago. In 1824 he came with his father to the then wilderness of Michigan and settled in the township of Pittsfield. Shortly after this he came to Ann Arbor where he has resided ever since. For many years he was a prominent merchant in this city, and has continued in business up to the time of his death. In 1836 Mr. Maynard was married to Miss Mary J. Wilcox who survives him, they having lived together for nearly sixty-two years. Mr. and Mrs. Maynard have lived in the house in which he died, for fifty-four years in succession. Besides the aged widow three sons survive the father. They are Dr. Wm. Maynard, of Dansville, N. Y.; Fred A. Maynard, Attorney-General of Michigan; and John H. Maynard, of this city.

The funeral services were held at the old home yesterday at 4 p. m.

INCIDENTS

Occasioned by the hurried preparations for the reception of fall merchandise are of a nature to arouse the liveliest interest. Covering as they do every want of the individual or family.

Goods not of absolute necessity for fall trade—broken lots and ends are not considered in the light of their cost or usefulness to the purchaser, but as so much surplus—in the way, and to be gotten rid of. This is the explanation we offer for the many startling low prices that confront the shrewd shopper now-a-days at The Store.

Washtenaw County Man Murdered in Detroit.

Excitement has been at a high pitch in this county for the past week caused by the foul murder in Detroit of Valmore Casey Nichols, of Pittsfield township. Mr. Nichols was a well known and highly respected farmer living six miles southeast of Ypsilanti. He was fairly well-to-do, though somewhat worried over a mortgage he had given on the old homestead to raise money to buy out the other heirs. He had also become carried away with spiritualism and was endeavoring to find through this means a method by which he could at once become possessed of greater means and thus free himself from debt. To this end he had made numerous visits to mediums in Detroit. One of these persuaded Nichols to wear a belt heavily laden with gold as a talisman. With between five and six hundred dollars in gold on his person Nichols went to Detroit August 10th from whence all trace of him was lost for the time. The mystery of his disappearance was partially cleared up by the finding of his dead body last Thursday afternoon partially floating in the Detroit river it being weighted down with two heavy stones fastened to his feet with wire. Later it was found that he had gone to a boat house on the evening of August 10 with some unknown party and had gone out boating with him. When found his money was missing. It is a clear case of foul murder for the money which Nichols had been enticed to wear in a belt around his body. The would be spiritualist, Ascher, or Lang, who had persuaded him to carry the gold was seen with Nichols on the day he disappeared. There are a number of very incriminating circumstances that point to Lang as the murderer. His size and general appearance tallies with the man who went out in the boat with Nichols and with the description of the man who brought back the boat. Lang's having more money than he could account for, and his urging Nichols at different times to increase the amount carried in the belt all look suspicious. As a result, Lang has been locked up on suspicion and from all appearances, it looks very much as if the authorities have the right man in Lang, the pretended spiritual medium. It will very likely be difficult, however, to secure testimony in a case of this sort sufficient to convict.

counties. It was a big crowd but Manchester was fully equal to the occasion and handled its large number admirably.

It was nearly eleven o'clock when the parade was started. It made a good impression as it passed through the main street of the village. The procession was headed by the Chelsea K. O. T. M. band. This was followed by representations of Uncle Sam and Columbia, the Independent Military company, Jackson band, Chelsea Arbeiter Society, Milan band, Saline Arbeiter Society, and the Manchester Arbeiter Society. Following these were a number of attractive advertising floats by Manchester business men. At the park dinner was enjoyed by the people who spent the time until 2:30 p. m. in pleasant social intercourse. At half past two the speaking began. Mr. Stanger of this city, editor of the Hausfreund and Post, gave a short address in German. His subject was the "Contest between the Germanic and Latin Races, and the Influence of the Germans in the World's History." His talk showed a careful study of his subject and was highly enjoyed. Hon. A. J. Waters, president of the village, made a brief address of welcome. This was followed by a short address by H. Wirt Newkirk partly in English and partly in German. The closing speech was made by Fred M. Freeman, of Manchester, and was an excellent effort.

From every standpoint the celebration was a success and our German-American citizens may well feel proud of the manner in which every detail of the arrangements was carried out, and of the splendid crowd that gathered to help celebrate the day.

One of the most interesting parts was the excellent drill given by sixteen young ladies dressed in white decorated with the stars and stripes and each carrying a flag. They were led by Miss Edith Quackenbush who certainly deserves great credit for the success of the drill. Recitations were rendered by Miss Louise Rich and Miss Tena Packard. An organ was brought out upon the piazza and excellent music was rendered by a quartette led by Mr. Alvin Wilsey. In several patriotic songs the audience joined. Speeches were delivered by Hon. E. P. Allen and Rev. C. T. Allen.

LOVES ENGLISH GOLD

John Pilbeam, a farmer living about three miles south of Milan, an advocate of free silver, seems to have been suddenly converted into a lover of English gold. The following dispatch from Milan will explain the reason why:
MILAN, Mich., Aug. 20.—Special.—John Pilbeam, a prominent farmer three miles south of this village, was in town this morning, exhibiting twenty six English sovereigns and two half sovereigns which he had plowed up on his farm yesterday. The half sovereigns were dated 1817, under George III., and the sovereigns 1831, George IV. He believes there are many more where he found these, as he had not made a thorough search. Various theories are advanced as to how the coins came to be there. They were found in ground that has been repeatedly plowed, and he thinks he must have plowed deeper this time to have turned them up. When assured of their value, he said he would go directly home and see if he could mine some more. The value of those he showed was about \$135.

Have Issued the Following Defy—Will
Meet To-Night to Discuss Methods to
Insure Proper Recognition—Here is
What They Say.

We, the undersigned colored citizens of Ann Arbor, together with many others, are dissatisfied with the amount of recognition which has heretofore been accorded the colored vote by the party which they have always supported.

So little are we remembered in the distribution of appointments that in no county in the state do colored men have as few substantial appointments in proportion to the colored vote as do our citizens in this county.

We believe that this condition of things can only be corrected here as it has been done in other parts of the state: that is, by harmonious, honest, concerted action on our part.

To bring about such action, organization is necessary. If the party of our choice cannot appreciate loyalty and long-continued faithfulness, there are other parties that will.

That this matter may be properly considered and the necessary action taken, we earnestly request all the colored citizens of Ann Arbor to meet with us on Thursday, Aug., 25, at 7:30 p. m., in K. P. hall.

EDITOR REGISTER:

It is noticeable in the public press of late that my name is connected with the candidacy for state senator for this district; that my friends and acquaintances in a jocular way are dubbing me as "Senator," and the like. Many are also requesting that I declare myself respecting the situation; in fact, men of undoubted leadership in our party in Washtenaw and Jackson counties insist that I publicly express myself and wish me to make the run, and I observe in a recent issue of the "Courier" that my friend, George Rawson, of Bridgewater, mildly suggests that "modesty" is keeping me from urging a nomination, a grace I did not know I had, but anxious to possess, though I insist that I have done nothing personally to bring this to public attention.

LEGISLATIVE TICKET.

For Senator, Tenth District
HON. E. P. ALLEN—Ypsilanti.
For Representative, First District
GEORGE S. WHEELER—Salem.
For Representative, Second District
A. J. WATERS—Manchester.A FARMER of this state conceived a
labor-saving device last spring which
has proved instructive if not profitable.
Desiring to raise a 20-acre crop of pole
beans, and being also desirous that
nature should do her full share, he
planted a sunflower seed in each hill.
Owing, doubtless, to the prevailing
drouth the sunflowers have outstripped
the beans, pulling the latter up by the
root, and the field now presents an
illustration of the fact that new ideas
are not always correct ones.—Ex.The above item is going the rounds
of the press. It furnishes an interest-
ing item but is not true, nevertheless.
Vegetation grows from the top and no
part of a stalk rises higher from the
ground than when first formed. There-
fore the beans could not have been
pulled up by the sunflower stalks.The REGISTER has received a note
from Hon. Geo. S. Wheeler, of Salem,
announcing that he will be before the
convention as a candidate for the
nomination as representative in this
district. We gladly give the matter
publicity, even though it will not be
news to our readers. We would, at the
same time respectfully refer Mr.
Wheeler to the communication of Mr.
A. F. Freeman, which appears in an-
other column. Should Mr. Wheeler
secure the nomination THE REGISTER
will gladly give him its hearty support.
We are frank to say however, that
we have slight hope that our best sup-
port could possibly save from defeat
any Judson man who may seek office
in this county this fall.In another column we publish a long
letter from Mr. A. F. Freeman, of
Manchester, relative to the senatorial
nomination. Mr. Freeman says, in
substance, that no man can be elected
state senator who has taken sides with
either faction now existing in the ranks
of the Republican party. He also
states that he would accept the nom-
ination if it came to him unsought; in-
timating that he would have a chance
of success because he had kept out of
the present fight. Unfortunately,
however, for Mr. Freeman, there are a
great many Republicans in Washtenaw
county who are so bitterly opposed to
Judson methods that they will vote
against any man whom they suspect
as being in any degree under the con-
trol of the ex-Boss. The fact that Mr.
Freeman as these people honestly be-
lieve voted for three hundred and ninety-
three times at the congressional
convention as Mr. Judson dictated and,
as most people believe, contrary to his
own honest convictions, has convinced
these same people that Mr. Freeman
has taken a very decided stand with
one of the factions. We state this as a
fact because we know it to be a fact.
It may be grossly unjust to Mr. Free-
man that anybody should feel thus
toward him. However, we know that
such a feeling does exist and that it is
very strong. The existence of a feel-
ing that Freeman is a strong Judson
man would necessarily raise the same
objections against Mr. Freeman that
he has, in his letter, raised against Mr.
Campbell. In fact it would be stronger
against Mr. Freeman than against Mr.
Campbell for the reason that the
chances of election this fall, as between
the two factions, are much stronger in
favor of the anti-Judson than the Jud-
son candidates.

RAISED FALSE HOPES.

Since the seventeenth of last Febru-
ary, the date of the Republican Club
banquet, the printing that has come to
THE REGISTER from the probate office
has been growing less and less. In
fact for months past it has ceased en-
tirely. Last Saturday we were led for
a few moments to believe that the tide
had turned. It was all caused by our
receiving a letter enclosed in a probate
office envelope. We thought, could it
be that a much needed reform had
taken place and that an order had been
sent us. Hope, even false hope, springs
eternal etc., and our false hope lasted
until we opened the letter from the
probate office. Here is what we found:

Ann Arbor, Mich., Aug. 20, 1898.

EDITOR REGISTER,
Dear Sir: Your statement in your
last issue that I said Mr. Judson was
not doing anything to control the next
county convention, is not true in any
particular. I never made any such
statement and know no more what he is
doing than you do.

Yours etc.,

H. WIRT NEWKIRK.

This is in reply to a statement in last
week's REGISTER that the Judge of
Probate had said Judson was not mak-
ing any effort to control the next Re-
publican county convention. Our in-
formation that the Judge did make
such a statement came from sources
which we consider absolutely reliable.
We cannot blame the Judge for not
wanting it to be generally known that
he is "on the inside" in the manipula-
tions of ex-Boss Judson to rule or ruin
the Republican party in Washtenaw
county. We might be inclined to give
some weight to the Judge's statement
in the above letter had not past experi-
ences made us somewhat skeptical.
We refer to the course pursued by the
Judge of Probate at the time of the
Republican Club banquet last winter.
The Judge attended a (out of courtesy
we refrain from saying "secret") meet-
ing in his office in which it was
planned to smash the Republican Club
to smithereens. A day or two later he
in company with ex-Boss Judson went
to Ypsilanti to consult with E. P.
Allen to find out if it were not possi-
ble by some technical means to literally
kick S. A. Moran out of a club office.
The ex-Boss was afraid he could not
control the Club with Moran in it and
Newkirk was willing to help Judson
fire Moran. Then, immediately fol-
lowing these things, and on the very
morning of the day when the club was
to be smashed, if possible, the arrange-
ments for which Newkirk had helped to
make, he assured S. A. Moran that he
was opposed to anything that would
cause trouble in the club, that the only
thing about the organization with
which he did not agree was the clause
in reference to membership and that
he had no objections whatever to the
Club electing S. A. Moran to the office
to which he aspired. Later, when it
became known what the Judge had
actually done in the matter it became
clear that somebody had falsified. THE
REGISTER, therefore, is compelled to
discredit statements made by the Judge
even when he denies knowledge of
what ex-Boss Judson is doing, especial-
ly when we have the very best of
authority that the Judge is right in
the swim with the Judsonites. It is
unfortunate both for the future of the
party in Washtenaw and for the Judge's
political future in this county that
such a state of affairs should exist.THE editor of THE REGISTER recent-
ly received an invitation to read a
paper before the Republican State
Press Association which meets at Alma
next week. The subject suggested by
the President of the Association, Mr.
Robert Smith, of Lansing, strikes us as
a peculiar one. It is "The Thankless
Politician." Why Mr. Smith should
have used the word "Thankless" is
what puzzles us. We never suspected
before, that there were any other spe-
cies. It seemed very much like talking
about a "round" circle. Maybe there
are other sorts of politicians in Mr.
Smith's bailiwick. THE REGISTER has
failed to discover anything but the
common "thankless" sort among the
Republican office holders in the city of
Ann Arbor or in Washtenaw county.

Small Price.THE following from the pen of a
prominent young Republican has been
handed THE REGISTER. It is worthy
the consideration of every Republican
in the county and should be discussed
at our next county convention:It is often a question as to what a
modern political convention represents.
It does not represent the people be-
cause it is a party affair. It does not
represent the party because the repre-
sentation is not on a party basis. The
present system is unjust. It allows the
minority to control conventions. It
altogether shuts out a large portion of
the party from having any voice in
party affairs. Upon the present basis
men are not nominated because they
are the choice of the party. That is
impossible. The majority does not
control. The situation in Washtenaw
county is typical. Taking, as a basis,
the vote on Secretary of State in 1896,
the showing is as follows: One hun-
dred and ninety-one Republicans in
Ypsilanti town are represented by six
delegates; one hundred and nine in
Lodi are represented by six; one hun-
dred and ninety in Lodi and Freedom
have eleven delegates. Eighty-two
Republicans in Ypsilanti count for
nothing. Ypsilanti town and Salem
with three hundred and seventy Re-
publican votes have twelve delegates,
while three hundred and fifty-six, four-
teen less, in Lyndon, Dexter, Bridge-
water and Sharon have eighteen dele-
gates. Three hundred and eighty-
three Republicans in Ann Arbor 6th
ward and Pittsfield with eleven dele-
gates are met by eighteen delegates
from Northfield and York who repre-
sent three hundred and fifty-eight
partisans of the same persuasion. In
the minority by thirty in votes; in the
majority by seven in delegates. Ann
Arbor 1st and 7th wards contribute
four hundred and ninety-seven votes
and are allowed fifteen delegates.
Manchester and Ypsilanti 5th ward
with three hundred and sixty-five votes
have nineteen delegates, a majority of
one hundred and fifty-two out dele-
gated by four. In the county, the
fifteen voting precincts, which fur-
nished 3,168 Republican votes, are re-
presented in a convention by one hun-
dred and seven delegates. The
seventeen precincts which furnished
2,480 Republican votes are represented
by 117 delegates. Six hundred and
sixty-eight Republicans have no voice
in a county convention. They are not
represented. As a basis of party re-
presentation the present method of dis-
tributing delegates is a delusion and a
snare. There is not a shadow of justice
in it, hardly a respectable pretense. It
is entirely out of date. The Demo-
cratic situation is equally unrepresent-
ative. In this county, one hundred and
fifty-nine voters in two precincts have
twelve delegates, and four hundred and
three in two others have eleven. Give
the people a chance to make the nom-
inations. Have the candidates on the
county ticket chosen by a majority of
party. A fruitful source of defeat, party
discord, will then have one less reason
for existence. The apportionment of
delegates to a party convention should
be made upon the basis of the party
vote.It is being freely talked about, and
THE REGISTER gives the story for
what it is worth, that the appearance
in the field of Sweet and Eldert and
Doty and possibly other candidates for
sheriff in that they are simply out in
Canfield's interest, and that they will
when the ex-Boss so orders, throw their
strength to Canfield. This having so
many candidates in the field is done
with the idea that the more hooks one
has out the more fish there are likely
to be caught. The rather strange thing
about it is that Canfield should think for
an instant that there is any doubt that
ex-Boss Judson will have the next con-
vention in his pocket and be able to
deliver the nomination to Canfield on a
gold plate.THE Judson people, it is said, are
chuckling at the announcement that
Mr. A. F. Freeman has declared him-
self a candidate for the senatorial nom-
ination in this district. They argue
that people will feel that Manchester,
with a candidate for sheriff, senator and
representative, wants the whole earth
and that as a result there is likely to be
a reaction against all three thus espe-
cially crippling Kingsley who will be the
first of the three to pass the test of a
convention. Some say that such a state
of affairs is due to the fine Italian hand
of the shrewd and far seeing politician,
Canfield, Judson's candidate for sher-
iff.

A VISIT TO MANISTIQUE

Our Correspondent Writes of a Visit
There—Also of Her Trip Home.Students of Michigan history and
geography believe they are conversant
with the characteristics of our north-
ern peninsula, but how little we know
of it, until we visit its delightful nooks.After thoroughly enjoying our stay
at Mackinac Island, we took a Lake
Michigan steamer for other parts.
Our first stop was at St. Ignace, the
Gateway of the northern peninsula,
now a relic of former prosperous times.
Cruising out of the straits, we sighted
Mackinaw city, then pass St. Helena
Island, a fine fishing resort, and in the
late afternoon touched at the Beaver
Islands, where we were greeted with a
heavy hail storm.At midnight we arrived at our des-
tination, Manistique, a lively modern
city on the north shore of Lake Mich-
igan and connected with all the great
lake ports by rail and steamship lines.
We no longer felt tired but possessed
of an ambition and strength unnatural.
The longest tramp through the forest,
where the pines and balsams filled the
air with their exhilarating fragrance,
seemed no exertion. To roam along
the sandy beach and on the rock bound
coast, listening to the roaring of the
waters was a never ceasing delight.Schoolcraft county abounds in many
attractions, especially numerous pine
studded lakes, where the angler may
capture the speckled trout and enjoy
sweet solitude. One of the prettiest is
Indian Lake, a popular camping retreat
four miles from the city. Near the
camp grounds is the famous Seven
Year spring. The water bring clear as
crystal and rich in lithia.One of the most delightful excursions
taken was to the world famed Kitch-
i-ti-ki-pi Spring, 16 miles west of Man-
istique, which we reached by the M. &
N. W. Ry. The trip itself was worth
coming miles to enjoy. Passing swiftly
over sand plains, through thick forests
the tall pines standing like sentinels on
either side of the track, now along the
beach and about curves until we reach-
ed the most wonderful natural curiosity.
This spring is a small lake in size and
the water so transparent as to enable us
to see the white boiling sands at the
bottom, notwithstanding the spring is
60 ft. deep. The water contains a
small percent of sulphur, but gives its
surface all the hues of the rainbow as
the sun's rays fall upon it.The lumber settlements also hold
attractions for the tourist. The Presi-
dent of the Manistique & Northwestern
Ry. very kindly took us on a special
train, one day to Stueban, 25 miles from
the city. Here we visited the "pull-up"
where the logs are taken out of the
river on an endless chain, then rolled
over the skid-way into the cars waiting
below. The men who handle these logs
are strong and athletic, grasping a 3-
foot monster with as much ease as they
toss a 6 inch sapling.Returning from this interesting
place to the city we visited the mam-
moth mills of the Chicago Lumbering
Co. where we watched attentively the
transformation of the forest's giants
into one of the most needed products of
our times.Our vacation nears its end and too
soon and we reluctantly bade our
friends adieu and left the city of the
pines, but our trip down the lakes was
much enjoyed. As we neared the St.
Clair flats, a pretty view burst on our
sight. Every cottage seems to be built
on a small island and as a fellow tourist
remarked: "What a pleasure to live
there, every man is his own Robinson
Crusoe with a pretty island all to him-
self."Belle Isle in close relation with busi-
ling Detroit looked cool and inviting
with its lagoons and rustic bridges.We joined with the thousands in
praising the beauties of our state.
Where the cool lake breezes blow and
the air is pure and fragrant, there is
the ideal place for a summer outing.The Pill

THE FARMER'S STORY.

How a Newspaper Reporter Interviewed Him and Obtained an Interesting Article of News.

From the Press, Milroy, Ind.

Wealey Holmes, of Milroy, Ind., was in the depot waiting for his train, when a newspaper reporter addressed him. "O! you have come to inquire about that little experience of mine," said he, in a pleasant manner. "Well, I guess it was no little or insignificant thing after all. Yes, I'll tell you the complete story; but I did not suppose it would interest the public.

I have been a farmer all my life, and do nothing else now, although a few years ago I would have preferred an easier job.

"I had good health all along, until this pestilent grip came. In January of '92 I was attacked with it and had a serious time. At first I was merely confined to the house for four or five days, with a severe cold, but I ached all over, and my limbs pained me when I went about. None of them were severe—just dull aches, but I was not very comfortable. The doctor came, examined me and said I had the grip. He gave me some medicine which I used and in a few days I was able to be out.

"But a day or two after I was caught in a rain, and the next morning I felt the same as before, only the pains were worse. The doctor gave me more of the same medicine, and attended me for six weeks before I was a dismissed patient. This time my trouble took on a new form, there being a cold on my lungs. I was finally able to get outside the house, but became worse again, and could not do any more work the remainder of the winter, being confined to the house most of the time.

"When spring opened up and good weather came I was better, but I always afterward had those peculiar pains all over me, and the next winter I went through with almost the same experience. 'Having the grip again,' the doctor said, 'but the fact was I had never entirely recovered, and each winter I had a relapse just about as soon

as the bad weather commenced. I kept getting worse with each attack, and the spells would last longer. The third winter the trouble took on the more serious form of muscular rheumatism, together with the trouble with my lungs. I was not able to do any work from the 10th of December to the first of May, and half the time all summer I was indisposed from my labors. I tried another doctor, but he did me very little good, and when the bad weather began in November I was worse than ever.

"A neighbor who had suffered from the after effects of the grip as I had, advised me to try Dr. Williams' Pink Pills for Pale People. I did not feel that they would do me any good, but my wife urged me to try them, which I finally did. I remember I took the first dose on Christmas day, 1895. I kept taking the medicine until I had used two boxes. By this time I had noticed no change and would have quite discouraged had it not been for my wife. She bought more of the pills and I continued taking them. And I am glad today that I did for when I had finished the next box I was much better, and three more boxes cured me. I took six boxes, altogether, taking the last about the first of February '96. I never had to take any more medicine, and I am sure Dr. Williams' Pink Pills for Pale People cured me of my trouble, and I cheerfully recommend them to others.

"The power of Dr. Williams' Pink Pills for Pale People in the vast number of diseases due to impure or poisoned blood, has been demonstrated in thousands of instances as remarkable as the one related above. These pills build up the blood by supplying its life-giving elements which nourish the various organs, stimulating them to activity in the performance of their functions, and thus drive disease from the system. No one who is suffering can rightfully neglect this way to restore health.

WHEAT FIELDS OF THE FUTURE.

Siberia May Soon Be a Competitor in the World's Markets.

From the New York Commercial Advertiser: No doubt the opening of the wheat bearing regions of Siberia to settlement will compel revised estimates of our own contribution of this cereal to the markets of Europe, if not the amount grown for home use. The London Morning Post publishes an account of the progress of the trans-Siberian railroad, in which it is asserted that by the end of next month the road will be completed as far as Irkutsk, and that the Russian government will transport 200,000 peasants to fertile belts along the road for the purpose of cultivating wheat. At the same time railway communication with the northern seaport of Archangel is being made, with the object of adding cheap cultivation by cheap transportation to the European markets. The government will aid these peasant colonists with implements, and will require only a tithe of their produce as rent. The result of this experiment is practically certain to cause a change in existing wheat areas. Russia has been our chief competitor in the Liverpool wheat market hitherto, although Argentina and India have also been asserting themselves, but the new accession of wheat growing area will give Russia an advantage difficult to offset. Unless our agricultural interests are prepared to meet the threatened competition serious times are ahead for those farmers of the west and northwest whose chief source of wealth is their wheat fields.

The Age of Niagara.
The truth of the adage about constant dripping wearing away a stone is strikingly illustrated in the fact that the Niagara river has been 35,000 years cutting its channel 200 feet deep, 2,000 feet wide and seven miles long through solid rock. Evidence is conclusive that the falls were formerly at Queenstone, seven miles below the present situation. It has been proved that they have not receded more than one foot a year for the last half a century.

NEVER GIVES UP ITS DEAD.

Lake Superior Keeps Its Victims in the Depths of Its Waters.

From the Minneapolis Tribune: Lake Superior never gives up its dead. Whoever encounters terrible disaster—happily infrequent in the tourist season—and goes down in the angry, beautiful blue waters, never comes up again. From those earliest days when the daring French voyagers in their trim birch bark canoes skinned the picturesque shores of this noble but relentless lake down to this present moment, those who have met their deaths in mid-Superior still lie at the stone-paved bottom. It may be that, so very cold is the water, some of their bodies may have been preserved through the centuries. Sometimes, not far from shore, the bodies of people who have been rescued from fishing smacks or from pleasure boats overtaken by a cruel squall have been recovered, but only after the most heroic efforts with drag net or by the diver. Once on a trip down the lakes I met a clergyman who, as we passed a point of land some miles before entering the narrows of the lake at the Soo, pointed out the place where the ill-fated Algoma went down on the reef some eight years ago, and as he looked he said, slowly, "I was at the funeral of one man who went down with her, and the only reason his body is not at the bottom today with the other 38 that were lost is because it was caught in the timbers of the vessel and could not sink."

Dainty and Pretty Rose Bags.

Our grandmothers considered daintiness in every detail to be the great secret of a gentleman's life, says a writer in the Ladies' Home Journal. Their delicacy of taste was never shown more effectively nor more daintily than in their selection of perfumes. Every lady of the period was an adept in preparing her own favorite perfume, and from my own dear, old-fashioned grandmother I have learned how she gathered the petals of the blush rose which grows so plentifully in loosely meshed bags, sprinkled over them a few drops of some aromatic tincture to coax out their peculiar sweetness, and then scattered the dainty bags among her linen.

She did not confine herself to the blush rose, but gathered all varieties early in the morning, then shook them lightly in an airy room over newspapers spread upon the floor. Several times during the day she tossed them, lightly about to be sure that no moisture remained. The next morning she made flat bags of common mosquito netting, which she filled with rose leaves. The bags were then placed for a day on the paper, turned occasionally, and on the morning of the third day sprinkled liberally with violet water, and consigned to their places in the bureau drawers.

More expensive rose-bags may be made if desired. Threads may be drawn and two or three rows of baby ribbon darned in the spaces, a frill of lace may be put about the edges, and tiny bows of ribbon fastened at the four corners. Tulle or illusion may take the place of the netting as a receptacle for the delicate leaves.

Whenever the fragrance becomes too dull another application of the violet water is a stimulus to another outpouring of old-fashioned sweetness.

The Story of a Lost Bond.

The house of representatives has a reminder of the devastation wrought by the Johnstown, Pa., flood of May 31, 1893. It is a bill and favorable report to issue to the heirs of Neil McEneny a \$500 a year United States bond. Neil McEneny was an inhabitant and citizen of Johnstown when the flood swept down the Conemaugh Valley. He and his wife and seven children were drowned and his house with its contents destroyed. Some time after the disaster six coupons of a 4 per cent United States bond were found in the wash of the flood and turned over to the flood finance committee. The heirs of Neil McEneny advertised for the lost bond, but never received any answer. No coupons from it were ever presented to the United States treasurer. After nine years congress is asked to grant authority for issuing a duplicate bond when the proper indemnity is given to the government.—Boston Transcript.

Eskimo Lamps.

It is not generally known that the Eskimos have from earliest times been acquainted with a primitive form of lamp. Some authorities regard it as an independent invention. The rudest form consists of stones collected on the beach with natural cavities into which oil or fat can be poured, and the wick laid at the side. In other forms the cavities were artificially produced. At St. Lawrence Island pottery lamps prevail, and the size and shape bear so remarkable a relation to the isothermal lines that it is possible by comparison to assign its geographic position to any specimen. With one doubtful exception, no lamp of ancient form existed in America south of the Eskimos.

A Share in the Glory.

"Yes, sir," said Senator Dargham, "I think I can claim a good deal of credit for that grand achievement, the annexation of Hawaii." "But you were filibustering against it." "Of course, I was. And rather than listen to any more talk from me they put the thing through and stopped proceedings then and there."—Washington Star.

QUEER FIND IN THE PACIFIC.

Vessel Picks Up a Primitive Canoe in Which Are Live Fish.

From the Baltimore Sun: On board the Hawaiian bark Iolani there is a curiosity in a native canoe made by some of the Pacific islanders. While on the voyage from Honolulu last August for Hong Kong to load matting for Baltimore an object was seen in the water to leeward. Capt. McClure changed his course, and, running close to it, found it to be a mammoth canoe. He had the ship's carpenter put into the canoe, which was nearly filled with water. When once inside it was almost impossible to stand up on its slippery bottom. To make his position more exciting the carpenter was seen fighting with a large fish, which was making desperate efforts to escape from the boat. A sharp hook was thrown at the carpenter, and it was not until he had stabbed the fish several times that it was conquered. When the canoe was hoisted on board a number of small fish were found swimming about. The large fish weighed seven pounds, and ended in a chowder for a meal on board. The canoe is about twenty-five feet long, cut out of a solid log, with rearing ends, which would give the log it was hewn from a diameter of at least five feet. There is not a semblance of iron about it, but along the gunwales are holes in which lings of hide thongs are used to hold it and for serving the oars. Places are cut out for the thwarts, which were made of certain pieces of bamboo placed in the niches while wet and allowed to shrink. There is also a place in the bottom to step a mast. Capt. McClure links the canoe belonged to some of the natives of Ballintang island, in the Bashee group, from which the Iolani was about twenty miles when the curious vessel was picked up. The presence of the fish could not be accounted for.

Women and Flowers.

"No true gentleman is ever careless or wanton in her treatment of flowers," said a clever woman the other day. She was right. The woman who does not care for flowers, who regards them merely as decorative aids, who does not rejoice when the sweet spring-time comes again, when "the flowers appear upon the earth, and the time of the singing birds is come" is not a woman to love or to trust. She is no friend of mine. It is written of a man noted for his clever knack of character reading, that when asked how he arrived so swiftly at his accurate conclusions, he answered, "I invariably put a cross against the name of the man or the woman who shows no love for little children, animals and flowers. On the other hand, I find those people most worth cultivating with whom children fraternize readily, to whom a strange dog will come, sure of a welcome, a kind word and a caress. And last, though not least, those who handle flowers tenderly, and even reverently, seeing possibilities in them beyond mere personal or table adornment." Ah, flowers, sweet Shakespeare loved them, the daffodils—That comes before the swallow dares, and take
The winds of March with beauty.
The "nodding violet," the "azur'd harebell," the "perfumed tincture of the roses," the "lady Enochs, all silver white,"—he loved them all.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflammatory Rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the disease spread over my entire body, and from November to March I suffered agony. I tried many patent medicines, but none relieved me. Upon the advice of a friend I decided to try the remedy, which was a chemist, analyzed the remedy, and pronounced it free of poison or mercury. I felt so much better after taking two bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent, for I have never since had a touch of Rheumatism, though many times exposed to damp and cold weather.

SURE CURE FOR RHEUMATISM.

The statement that there is a cure for Rheumatism will be read with incredulity by the majority of people. However, it is a fact which we can prove. Rheumatism is a disease of the blood, and until that is thoroughly cleansed no one can expect relief. The remedy we offer is not a new discovery, but it has never been placed on the market in medicine form. We know from personal observation that it has effected a permanent cure whenever tried, and this is what suggested the idea of offering it to sufferers from rheumatism. The Sure Cure Rheumatic Tablets are a purely vegetable compound. They are warranted to cure the worst cases of rheumatism. Price 50 cents a box. For sale by druggists, or sent by mail on receipt of price. Send for free sample.

London. The foreign office, it is re-
ported, intends to demand that the
Chinese government dismiss Li Hung
Chang from power on the ground that
he is responsible for the recent anti-
British attitude of the Tsung-Li-Ya-
men. The foreign office, it is asserted,

Secret Treaty Between Russia and China

The Shanghai correspondent of the
Daily Mail, professes to divulge the
terms of a secret treaty between China
and Russia, and says: "It is nothing
less than an offensive alliance. China
undertakes to regard Russia as having
a preponderating influence in all ques-
tions of commercial and internal poli-
tics, while Russia will support China
against all 'open door' demands. Rus-
sia finances China, in internal develop-
ments, and China grants Russia prefer-
ential rates in certain areas, and rail-
ways built in the joint interests of the
two countries will be under Russia's
practical control. Russia will assist
China in developing her military and
naval forces; and China will co-operate
with Russia as an ally."

Russians have obtained control of
large tracts of land along the route of
the proposed New Chwang railway.

Shanghai: The China Gazette claims
that the Russian government holds Li
Hung Chang's promise, made during
his visit to St. Petersburg, that China
would place the imperial customs under
Russian control whatever the inter-
ests of the two countries demanded
the change. Li Hung Chang is said to
favor M. Pavloff, the Russian charge
d'affaires, superseding Sir Robert Hart
(British), as inspector-general of the
Chinese customs.

100,000 Volunteers to be Mustered Out.

The mustering out of the volunteer
army raised in defense of the Union
against the armies of Spain has been
begun at the war department and will
be continued until the army has been
placed on a basis consistent with our
present relations to the nations of the
earth. Orders were prepared for the
mustering out, first, of about 35,000 vol-
unteers, including nearly 35 regiments
of infantry and about eight troops of
cavalry and five or six batteries of ar-
tillery. Unless there is a decided
change in the present plans of the war
department, about 100,000 volunteers
will be mustered out within the next
30 days. A formal announcement of
the plans of the department on this
subject is being deferred pending the
receipt of certain desired information
from Maj.-Gen. Merritt, commanding
the military forces in the Philippines.
The proposed reduction of the army
to the extent of 100,000 men will still
leave a military force of about 100,000
men, regulars and volunteers, avail-
able for all military purposes. It is
believed to be the purpose of the ad-
ministration to maintain an army of
at least 100,000 men until all the pend-
ing complications with Spain are
finally disposed of.

It is denied at Washington that the
United States is to pay off the Cuban
insurgents. The Cuban junta has been
advised to disband their forces and
they will probably do so as soon as
possible.

Madrid dispatches say Spain is ab-
solutely quiet. Don Carlos has given his
partisans strict orders not to commit
acts of rebellion, while the divisions
among the republicans render that
party powerless to make trouble.

The instructions sent to Gen. Mer-
ritt have in view the expansion of our
possessions beyond the terms men-
tioned in the peace protocol, as they
distinctly state that this government is
in possession of Manila and that its
authority to preserve peace and order
will be exerted "within the territory
occupied by their military and naval
forces."

WHAD! MAH! LEARN!

Some Pertinent Questions That can
be Answered With One Reply.

Why is it that Ann Arbor with its
suburbs, with a combined population
of 12,000 there is only one medicinal
preparation which gives statements
from residents to back up its
representations. Why is it that
Doan's Kidney Pills do this in Ann
Arbor, as well as every other city
and town of any importance in the
Union? Why is it that there are
advertisements in every newspaper a
dozen remedies and only one can
supply local proof, local indorsement
of its claims? The solution of the
problem is simple. Only one remedy
has the curing and the staying power.
Other remedies make all kinds of
gigantic yet futile efforts to get local
proof, but the attempt ends in
producing a statement or two from
places that as far as Ann Arbor is
concerned might as well be in the
moon. Here in Ann Arbor proof
which backs up the merits of Doan's
Kidney Pills.

Mr. F. Walter, of 1103 Forest ave.,
carpenter, says: "Within the last two
years I began to have trouble with my
kidneys, and in spite of all I could do it
continued and gradually became worse.
It seemed to be more of a weakness of
the kidneys and a loss of control over
the secretions. At times when my
work necessitated my looking up or
working over my head, I was taken
with spells of dizziness. I tried dif-
ferent remedies but they did not give me
any relief. When a friend advised me
to use Doan's Kidney Pills, I got a box
at Eberbach & Son's drug store and be-
gan to use them. I felt better from
the start and they did me more good
than all the other medicine I ever took.
I have no hesitation in recommending
Doan's Kidney Pills for I consider them
to be a thoroughly reliable and honest
kidney remedy.

TOOK MANILA BY STORM.

City Surrendered After a Brilliant
Attack by Americans.

SPANISH COMMANDER FLED.

Admiral Dewey Bombarded the City and
the Troops Drove the Spanish from
Their Trenches—Germans Took Gen.
Augusti to Hong Kong.

Further particulars of the surrender
have been received via Hong Kong: The
bombardment was continued for two
hours, and then the American troops
stormed the trenches, sweeping all be-
fore them. The First Colorado volun-
teers led the storming of the outer
trenches and the Spaniards were soon
driven into the second line of defense.
Then the American troops swept on,
driving all the Spaniards into the in-
ner fortifications, where Gen. Jaunde-
mes, the Spanish officer to whom Gen.
Augusti gave the command of the city
when he fled, seeing that further re-
sistance was useless, surrendered.

The foreign fleets watched the bom-
bardment with acute interest. The
American warships engaged were the
Olympia, Boston, Charleston, Balti-
more, Monterey, Petrel, Raleigh and
McClough. Admiral Dewey and Gen.
Merritt had issued orders to spare all
except armed defenses of the city, and
consequently the town is understood to
have been but little damaged. Some
street fighting between the insurgents
and the Spaniards occurred on the out-
skirts, but order prevailed within the
walled section. Nothing could be more
humane than the Americans' capture
of the town. The Spanish officers
were allowed their freedom on parole.
The judiciary and the administrative
offices are to remain temporarily in the
hands of the Spaniards. The insur-
gents remain outside the town.

Surrendered the Philippine Islands.

The terms of surrender outlined by
Gen. Merritt and agreed to by the
Spanish general were as follows:

An agreement for the capitulation of
the Philippines.

A provision for disarming the men
who remain organized under the com-
mand of their officers, no parole being
exact.

Necessary supplies to be furnished
from captured treasury funds, any pos-
sible deficiency being made good by
the Americans.

The safety of life and property of
the Spanish soldiers and citizens to be
guaranteed as far as possible.

The question of transporting the
troops to Spain to be referred to the
decision of the Washington govern-
ment, and that of returning their arms
to the soldiers to be left to the discre-
tion of Gen. Merritt.

Washington: The administration is
without definite information as to
the extent of our present authority in
the Philippines. Under the peace pro-
tocol the United States was given the
occupation of Manila with the bay and
harbor, until a permanent disposition
of the Philippine question was reached.
But, according to press dispatches,
which are so circumstantial as to be
credited in most official quarters, Gen.
Merritt and Admiral Dewey received
the capitulation of the entire Philip-
pine archipelago. There is a disposi-
tion to await fuller official informa-
tion before laying down a policy as to
the extent of our jurisdiction in the
islands.

Instructions have been sent to Mer-
ritt as follows: "The President directs
that there must be no joint occupation
with the insurgents. The United
States, in the possession of Manila city,
Manila bay and harbor, must preserve
the peace and protect persons and
property within the territory occupied
by their military and naval forces.
The insurgents and all others must
recognize the military occupation and
authority of the United States and the
cessation of hostilities proclaimed by
the President. Use whatever means
in your judgment are necessary to this
end. All law-abiding people must be
treated alike."

The war department officials hope
there may be no trouble with the in-
surgent forces in the Philippines, al-
though the dispatches which have been
received and published in the press,
together with the demand of Aguinal-
do for joint occupation has indicated
a temper on the part of the insurgent
leaders which is not satisfactory. The
possibility of an attack on the city by
the insurgent forces has been consid-
ered, but it is not feared that they
would be very formidable against the
forces of Merritt and Dewey.

The cable line between Manila and
Hong Kong is again being operated.

Norman Bovee, a Michigan Central
engineer, suicided at Michigan City.

The American transports Peru and
Puebla, the last to carry troops to the
Philippines, for the present at least,
have arrived at Manila.

Capt. Gen. Blanco says he fears that
the volunteers will incite the Spanish
Cuban population to revolt against the
peace conditions at Havana.

Madrid announces that the evacu-
ation of Porto Rico will begin in Sep-
tember, but it is not expected that the
embarkation of the Spanish troops in
Cuba will be commenced before
December.

Spanish soldiers have committed foul
outrages on Porto Ricans within their
lines. At Calles 90 defenceless men
and women were butchered and many
young girls outraged. In revenge the
Porto Ricans burned a large amount of
Spanish property about Yauco and
Juan Diaz.

Aguinaldo, the Philippine insurgent
leader, has taken possession of the
water works at Manila and has cut off
the water supply. He threatens to
destroy the plant unless the Americans
permit the insurgents to have joint con-
trol of Manila and other conquered
territory.

When a female gymnast leaps blindfold through the air, the women spectators usually think it is a terribly risky thing to do, and wonder how she ever has the hardihood; yet the leaping takes with perfect confidence because she knows that strong and dextrous hands are ready to receive her. She would never take a chance at a handstand.

Women who would shudder at the risks of a gymnastic performance take vastly more dangerous chances by trusting their life and health to the advice of some incompetent, uneducated person, when they are suffering from weakness or disease.

Only a skilled, experienced physician is competent to prescribe remedies for the complicated ailments of the female organism. No mere nurse is fitted to deal with diseases which demand the utmost resources of medical science.

For nearly 30 years Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., has given special expert attention and study to the treatment of women's diseases. No physician in the United States has had more remarkable success in this particular field of practice.

His "Favorite Prescription" has cured more cases of obstinate female diseases than any other known remedy. No other medi-
cine in the world so completely restores organic health and strength to suffering women.

Mrs. Jacob Schaffner, of Freeburg, Northampton Co., Pa., writes: "It is with pleasure that I write to let you know the great good I have received from your medicine and the self-treatment at home. I was troubled with female weakness; had pains in my back all the time, sometimes so severe that I could not lie still in bed at night. I tried different doctors but they could not help me. Then my husband induced me to try Dr. Pierce's Favorite Prescription. After taking six bottles I feel like a new woman. Thanks for your advice."

SURE CURE FOR RHEUMATISM.

The statement that there is a cure for Rheumatism will be read with incredulity by the majority of people. However, it is a fact which we can prove. Rheumatism is a disease of the blood, and until that is thoroughly treated no one can be cured. The remedy we offer is not a new discovery, but it has never been placed on the market in medicinal form. We know from personal observation that it has effected a permanent cure whenever tried and this is what suggested the idea of offering it to sufferers from rheumatism. The Sure Cure Rheumatic Tablets are a purely vegetable compound. They are warranted to cure the worst cases of rheumatism. Price, 50 cents a box. For sale by druggists or sent by mail on receipt of price. Send for free sample. RHEUMATIC MEDICAL, Marshall, Mich.

Dandruff is Dangerous

When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cured at once. The most effective means for the cure is found in AYER'S HAIR VIGOR. It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

"For more than eight years I was greatly troubled with dandruff, and though a young man, my hair was fast turning gray and falling out. Baldness seemed inevitable until I began to use

The dandruff has been entirely removed and my hair is now soft, smooth and glossy and fast regaining its original color."
—L. T. VALLE, Allenton, Mo.

WHAT CAUSES DEGENERACY

This momentous question finds a ready answer in our manner of living, our habits, and strange to say, in what we drink.

The human race, unfortunately, are victims of narcotics taken in the shape of coffee.

Children early acquire the coffee habit, and before reaching maturity are afflicted with dyspepsia, biliousness, liver trouble and even heart failure in many cases directly traceable to coffee drinking.

Coffee drinking must stop if we would regain the sturdy health of our forefathers.

"What shall we drink if not coffee?" The answer will one day make "the nation glad."

The grains of the field—wholesome, strengthening, nourishing, have been turned into a

"GOLDEN NECTAR" exactly like coffee in taste, exactly like coffee in flavor, exactly like coffee in color, in fact, a perfect substitute for the purest coffee.

—Detroit's Latest Murder Mystery.

Murdered for His Money.

On August 10 Valmore C. Nichols, aged 45, a farmer of Pittsfield township, Washtenaw county, between Ann Arbor and Ypsilanti, visited Detroit to pay interest on a mortgage on his farm. For this purpose he had borrowed and drawn from bank something over \$400. He did not return home and after two days his family became alarmed at his absence and reported him to the Detroit police as missing. Detectives were unable to find any trace of Mr. Nichols, but learned that he was in the habit of visiting a clairvoyant medium, Robert Lang, every time he visited Detroit.

Members of the Detroit Boat club, on Belle Isle, Detroit, while rowing some distance from their club house, discovered the body of a man in the water. It was dragged ashore and two heavy stones were found attached to the legs with copper wire. There were bruises on the head, apparently made with a blunt instrument. The authorities were notified and the body was at once identified as Valmore C. Nichols, the missing farmer. The money was gone, but his watch and other valuables had not been taken.

The detectives learned that Robert Lang, the clairvoyant, had seen Nichols on the day he disappeared and they at once began to search for Lang, whom they traced to the spiritualist camp meeting at Island Lake. It was about 1 a. m. when the officers reached there, but they routed out Secretary Brown, who is in charge of the hotel, and who at first refused to allow the officers to go to Lang's room. Persuaders were brought forth which caused him to change his mind, and Lang was soon on his way back to Detroit between two detectives. As they left the hotel Brown called out to Lang to keep his mouth shut until he had secured counsel.

A Glorious Welcome Home.

With the knowledge that they had served their country well the 260 members of the Michigan Naval Reserves, who served on board the cruiser Yosemite through the war against Spain, left their gallant ship for Detroit. Their arrival home was the occasion of one of the most enthusiastic demonstrations that has occurred in the Michigan metropolis in years. From the time the gallant boys alighted from their good ship Yantic, after traversing a mile and a half of streets, they were treated to a continuous ovation from the tens of thousands of admirers who filled the streets until there was scarcely room for the boys to march along. And then when they reached the Yantic's landing place and met wives, mothers, sweethearts and bosom friends, what a glorious reunion there was. With cannon booming, whistles screeching, crowds cheering and flags waving the brave sailor boys felt amply repaid for all of their sacrifices and hardships.

Still this was not the end. A whole week of receptions and various functions had been arranged by the Reserves who had not been called to the front and by others organizations and they were fully surfeited with good things.

A cablegram was received at Port Huron from Capt. Joseph Walsh, Co. F, 33d Michigan, announcing the death of Charles Phillips, of Co. F.

Secretary Alger has appointed Dr. Dryden H. Lamb, of Owosso, a contract surgeon and assigned him to Fort Meyer, Va., opposite Washington.

Jackson had a big too last week, the annual reunion of the Tri-State Band association being held there. It was decided to visit Detroit next year.

Detroit will appropriately welcome home her soldiers and sailor boys, who bravely faced the deadly Mauser rifles and big navy guns of the Spanish in the recent war. Preliminary steps to this end were taken at a largely attended and enthusiastic citizens' meeting which was held in the mayor's office.

Big Price for a Broken Heart.

Not long since a Danville, Ill., jury ordered the male defendant in a breach of promise case to pay the decidedly competent sum of \$54,333.33 to the afflicted fair one. This was thought to be the largest amount ever awarded by a jury in a similar action. Though it is a pretty high estimate of blighted affection, there is another estimate which if not in dollars and cents exactly, yet in general consideration of ex-ecution reaches as lofty an altitude. That is the estimate of the people in their general verdict as to the efficacy of Hostetter's Stomach Bitters as a remedy for constipation. The action of this gentle, but effective, laxative is never accompanied by the griping and other abdominal disturbance which precedes or accompanies the operation of a gripping cathartic. Moreover, it is an incomparable remedy for and preventive of malarial, rheumatic and kidney complaints, a never failing means of invigorating the stomach and nervous system, and a promoter of appetite and sleep. Persistence in its use is strongly advisable.

The amount of money expended on any one of the more than one hundred dens, cages and tableaux exhibited by Ringling Brothers would pay for the construction of a handsome residence

Naval Heroes' Grand Ovation.

Hundreds of thousands of people along the banks of the Hudson and thousands on all styles of river craft blended their shouts in a royal welcome to the returning North Atlantic squadron, under command of Rear Admiral Sampson as the big warships passed in review through the harbor and up North river as far as Gen Grant's tomb and return. For almost three solid hours steam whistles of all sizes, steam sirens and small guns along the shores shrieked and boomed in the effort to display the heartiest enthusiasm for the home coming of the naval heroes with their battle scarred ships.

When the New York, Iowa, Indiana, Brooklyn, Massachusetts, Oregon and Texas, arrived in New York bay Admiral Sampson had no idea of the reception awaiting him until a tug from the navy yard carried him the news, and all the ships of the squadron were immediately put under preparation for dress review. The fleet made a splendid pageant and the reception they received must have shown the gallant sailors that they were regarded as heroes. The following day the warships were visited by nearly 150,000 people.

Cuban and Porto Rican Commissioners.

The President has appointed the two following commissions to adjust the evacuation of Cuba and Porto Rico: For Cuba: Maj.-Gen. James F. Wade, Rear-Admiral Wm. T. Sampson, Maj.-Gen. Matthew C. Butler.

For Porto Rico: Maj.-Gen. John R. Brooke, Rear-Admiral Winfield S. Schley, Brig.-Gen. Wm. W. Gordon.

Gen. William W. Gordon is a well-known citizen of Savannah. He is the senior colonel of the Georgia state militia, served in the ranks of the Confederate army, and belongs to one of the wealthiest families of the state.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

AMONG OUR NEIGHBORS.

CHELSEA HERALD.

Albert Eisel has purchased two lots of Frank Staffan, west of Mantz's, and will erect a dwelling thereon this fall.

Frank Burkhardt, of Lyndon, had the middle finger of his left hand badly bruised while working around a threshing machine last Tuesday.

DEXTER LEADER.

The machinery is all in place in the creamery and the work of buttermaking will commence in a few days.

The joint meeting of the Welster and Salem farmers' clubs, which was to have been held Saturday, Sept. 30, has been postponed until Saturday, Sept. 10th.

A letter from the west tells that Geo. Weston, a former well known Dexter boy, is candidate for Register of Deeds for Lamoure county, North Dakota. George has been deputy register for the past four years.

CHELSEA STANDARD.

It was just one year ago last night when George Beckwith so mysteriously lost his life.

There is some talk that the Detroit, Ypsilanti and Ann Arbor railroad will be extended to Jackson.

Nelson E. Freer, who enlisted with the Thirty-first Michigan as a musician, has been discharged on account of continued illness.

Frank Burkhardt, of North Lake, caught one of the fingers of his left hand in some gearing on a threshing machine Tuesday afternoon and it was nearly taken off, just hanging by a shred. The surgeons straightened up the finger and are trying to save it.

YPSILANTI SENTINEL.

Ex-Sheriff Wallace, of Saline, has a gig which Gen. Cass used to ride in. It is in good repair though it is 60 years old.—Argus. That is so, for we published the fact several years ago.

A message from Caro yesterday conveyed the news that Joseph Peck of this city, who is employed in the Johnson cold storage at that point, had sustained a compound fracture of the leg while unloading ice.

The first use of the new electric line for funeral purposes was made Sunday, when the funeral car of the Detroit railway brought from Wayne to this city the remains of the late Mathias Straight, accompanied by the mourners. Carriages met the car at River street and the procession went from there to Highland cemetery.

YPSILANTIAN.

Joseph Peck of this city was dangerously injured while working on an ice house at Caro.

Cards are out for the marriage Aug. 24 of Miss Lula J. Rappleye to Darius W. Smith.

Edward Cummings, who was killed by the cars at the M. C. yards in Detroit last week, was brought to this city for burial, funeral services being held at St. John's church Thursday. Mr. Cummings was only 16 years of age and was highly thought of.

Hon. John K. Campbell and daughter Anna reached home Saturday night after a delightful trip in England and Scotland. Mr. Campbell visited his early home, Ayre, and saw the old homestead and many landmarks, visiting the Burns monument, the river Doon and many other interesting places.

YPSILANTI COMMERCIAL.

A couple of young canoe travelers passed through here Thursday. They are making a trip from Dexter to Monroe and taking kodak views along the Huron.

Miss Gertrude E. Woodard, assistant librarian at the Normal, is delivering a series of lectures on library book-binding at the Cleveland summer school this week.

A very painful accident happened to Mrs. Richard Davis Thursday evening when she fell from a bicycle and broke her leg. Mrs. Davis was learning how to manage a wheel under the direction of Trainer White when the accident happened. Mr. White says that although he has been teaching beginners how to ride for years this is his first accident. Mrs. Davis will be confined to the house for several weeks.

SALINE OBSERVER.

Martin Gakle threshed 11 acres of wheat that gave a yield of better than 35 bushels per acre.

The Wiser Way.

"How fresh and rosy you look, Nora," exclaimed Isabel, who had just returned from the beach, and was greeting her friend.

"Yes, Dear," replied Nora, "I am feeling splendidly, and mamma says I have an alarming appetite."

"Where in the world have you been since I saw you?"

"I have remained at home," replied Nora, "and have worked hard every day. But I have been taking that wonderful medicine, Hood's Sarsaparilla, and it has done me, oh, so much good. You see I always like to feel well when I go away, and leave for the mountains next week."

The next meeting of the Saline Farmers' Club will be held at the home of Mr. and Mrs. Theo. Josephans, Friday, Aug. 26. Paper by C. R. Cobb, subject, "The Laws in regard to the Pests and Diseases of Fruit Trees and their enforcement." Solec reading by Mrs. A. G. Cobb.

When returning from Joslyn lake Thursday night George Schroen's horse became frightened and made things lively for a few minutes. Mr. and Mrs. Schroen and Alma were in the carriage and all were thrown out. Mrs. Schroen was bruised considerably and injured internally. George had his face scratched and one leg injured slightly while Alma escaped uninjured. The carriage was badly broken.

Fighting for a Sentiment.

The masses of the north will fight, and fight hard and long, as we of the south have had proved to us. Moreover, they will fight for a sentiment, as we also know by experience—they will fight better for a sentiment than for anything else. But for the sentiment of the north about "the old flag" and "the preservation of the union," South Carolina would now be a member of the Confederate States of America. That is a self-evident proposition. While that section utilized an enormous immigration to recruit its armies it would have defeated the south without much aid, because without it it was still far stronger than the south. Chickamauga, Gettysburg, Sharpsburg and Fredericksburg proved its fighting capacity. If we do not recognize that we can claim no credit for our own glorious fighting for four years, and we would have no excuse for our defeat.—Columbia (S. C.) State.

How Deserts Are Formed.

Doctor Lydekker, in Knowledge, points out the error of the widespread belief that deserts, like the Sahara, are the bottoms of ancient seas which have been lifted above their original elevation by geological forces. It is absolutely certain, he says, that the sands of all the great deserts of the world have been formed on the spot by the disintegration of the solid rocks on which they rest. "Desert sands correspond in all respects, so far as their mode of origin is concerned, to the dust and sand which accumulate on our highroads in summer." All deserts are situated where the winds from the ocean, before reaching them, are exhausted of their moisture by passing over mountains or across extensive tracts of land.

A SINGULAR SUICIDE.

MAN HOLDS HIS HEAD UNDER WATER TILL HE IS DROWNED.

Of all the strange suicides that of a man at Lexington, Mo., seems to be the most remarkable. He calmly waded into the river until he was in three feet of water and then leaned forward and held his head under the surface until drowned. It is hard to understand why people will resolutely destroy themselves and yet thousands are deliberately doing it, though not so openly as the man in Missouri. These thousands have heard that Dr. King's New Discovery for consumption, coughs and colds cures these troubles and all diseases of the chest, throat and lungs, yet, because they have found no benefit from some cheap, worthless remedy they may have tried, they have not used this wonderful cure. They let their colds run. They cough on until they have the night sweats, the daily weakening, the flushed cheeks and other proofs that consumption is bringing them to their graves. In all such cases not to try this peerless remedy may be deliberate suicide; for it has been proven, a thousand times over, that Dr. King's New Discovery does cure weak lungs, the most stubborn, lingering coughs, bronchitis, bleeding from the lungs, throat diseases, pneumonia, influenza, and other bronchial troubles, which, if neglected, induce consumption. We wish to urge such sufferers to strive to be well that life may be worth living. This royal cure stops the cough, soothes and strengthens the bronchial tubes, allays inflammation and cleansing them and the lungs of all impurities. It induces refreshing sleep that invigorates the body. For 21 years this grand medicine has been tested in every part of the country with amazing results. It is without doubt the most perfect, the most certain, the most desirable life-saving family medicine that ever was made. Two leading physicians of Burlington, Ia., had to Dr. King's New Discovery, of that city, his consumption was incurable. He coughed night and day and could scarcely walk across the street when he began to use Dr. King's New Discovery. A few bottles wholly cured him. Druggists sell large bottles for 50c and \$1.00, refunding money if no cure and give a free trial bottle to any sufferer.

Over forty veterans were in attendance.

Housekeeping.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world. But how different when every breath is pain every step torture! This state of health in nine cases out of ten comes from derangements of the delicate, feminine organs of generations. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Except in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures safely, permanently.

WOULD GO TO THE SENATE

Continued from page one.

In view of all which perhaps I ought to so declare; that it would be entirely proper to do so and that my "modesty" in so doing would not be disturbed. My averseness to seeking office I believe is fairly well known in this county, at least. That an office should come to one only when there is a public sentiment backing it is a fixed idea or principle with me; and neither should this sentiment be self-created or worked. I am frequently told, when thus expressing myself, that modern politics are such that I will never hold a public office maintaining these ideas. Then I am content to remain a private citizen, giving all there is in me to the fight to maintain the principles of our great and supreme political organization.

I will be frank however, and add that if this nomination could thus come to me, and without the unseemingly scramble so often manifest, it has a charm about it not easy to resist; otherwise not.

If, then, there is public sentiment toward me in this direction there are situations that should be re-viewed looking to this end; but it is not to my liking, however, to make war on old personal friends to have this sentiment carried out.

Manifestly the party in our county has gotten into that shape that to nominate from one or the other of the factions, said to exist within our ranks and now seeking to maintain political supremacy, defeat will come to us as a party. Perhaps there is no relief from this and that the feeling is so deeply rooted that neither will surrender for the benefit of the party. Manchester Republicans have attempted and successfully we believe, to keep from the entanglements with either faction; and it is upon this position that we shall urge the candidacy of Mr. Kingsley for sheriff. That a house divided against itself cannot stand is a saying old and full of truth, but unless understood and acted upon is of no worth to solve the problem. The consequent result however, is clear to the thinking mind; but if personal feeling is to be of more importance than party welfare then there is no doubt a wreckage will follow. The present senator from this district is one for whom, in the past, I have entertained high regard and because he may differ with me in some policies of state affairs is not of sufficient moment to enter a personal contest to keep him from a renomination, if seeking it. He is too clean a man to throw mud at, but if wrong in political policies or positions, then only is he open to attack. He doubtless, regards his views as sacred as I do mine; but if there is not a sentiment backing his renomination because of his political policies or disfavor, then it seems proper to otherwise consider; on the other hand, if there is this public sentiment for him, I predict that he will be renominated in spite of all; though the consequent result may be, respecting his election, as I have heretofore stated, and the inquiry then comes can the party afford to lose at the polls?

The central thought in state affairs, in the coming campaign, seems to be the fight for equal and just taxation to all the people and all classes of property and an economical administration conducted upon business plans without show or parade. The people and the masses demand this, and will have it, of our state government; and a governor can do but little along these lines without a legislature backs him in the undertaking. He who can best serve the people to this end should hold the public office. I firmly believe that he who opposes this must step aside or he who attempts to thwart these desires must go down in the struggle to give way to the more advanced ideas of political and public welfare. Notably in this connection, railroad corporations should be made to pay their just proportion of the public burdens on the basis of property holding whether their earnings on this investment pay or not. All others are held to this rule. There is no good reason or law that requires one to pay a tax on his entire property holding and one that would in its operation exempt a corporate railroad to any extent, if because of poor investment, poor management or otherwise, its earnings did not represent its whole corporate property for taxable purposes. Manipulations of stocks, earnings, etc., are now so well understood that it forms no safe basis for taxation; but the rule to equitably tax the whole property holding or investment is safe and free from guile and is just upon all others who pay on their entire property holding. Like reasoning and reforms looking to the welfare of the masses should be employed respecting all our state affairs, wherever looseness or inequality is manifest. The method to bring about these things is for the united wisdom of the party.

It is not at all an easy problem to carry out our best desires, but if we could bring home to our present party leaders in this county the truth, as certain as any fixed fact can be, that nothing will be accomplished in a personal warfare among ourselves, much would be effected to the desired end. Speaking more personally of persons who concern us in the matter, I might add that much as many of us have desired that the brilliant and brainy Sawyer, who has long assisted to win honors for the party should enter this have seen the walls of congress as a representative; or much as is also desired by many that the present hustling, hardworking sheriff, who has borne in the past many a burden for the party and gained the sobriquet of "Boss" may secure the coveted prize at Jackson; yet as patriots to our party, whatever the outcome we must willingly abide the commands of the majority and the party and call it good. Our party demands discordant elements to cease all war in our own family; and when results are reached it is the command of the majority. I have already used more words doubtless than I ought, to embrace the matter at hand, but with the above and between the lines, if you please, may be understood my ideas respecting the state senatorship and some other considerations.

If, then, the nomination could come to me without a scramble it would be accepted with deep gratitude; otherwise the flower has lost its sweetness. Very respectfully yours,
A. F. FREEMAN.

Ringling Bros.' Grandest Display ever Seen in America.

A thirty-section free street parade! This is the startling novelty which Ringling Brothers, the noted circus managers, offer the public this year as the latest evidence of their originality and munificent expenditure. The idea of dividing a circus procession into divisions is in itself a novelty, and the leading newspapers everywhere declare that Ringling Bros.' street parade is the most novel, the most unique, the most gorgeous and the most royally resplendent street display ever inaugurated by a circus management. And even this does not tell the whole story of its wonders. Each section represents some distinct national characteristics, either in this or other countries, or some noted historic era, while the costumes, the tableaux, ornamentation and variety of the huge dens and cars of state are so arranged as to blend in harmony or to create striking and effective contrasts to the artistic eye. Among the notable features in the thirty sections into which the parade is divided, are characteristic representations of all the most noted military organizations in the world, in their national uniform, properly accoutred and mounted on magnificent war horses; a military band, the most complete in the world, with its ponderous elephants, drawing great lumbering cannon and bearing East Indian sharpshooters in their oscillating howdahs, together with guides, native soldiers and all in the impendments of an Indo-British army on the march; a blood-quickenng reproduction of the Derby-day meet, with huge tally-hos, slender spiders, pretty T-carls blooded racing stock, London's society leaders, jockeys, touts and other characteristic features of English racing life; a brilliant picture of Roman and Grecian splendor, as pictured in the great spectacles of Rome and Athens, together with the Olympic games and chariot racing of the historic days of Augustus; a caravan crossing the desert; a complete children's parade, with pony chariots, tiny tableaux, miniature cages and other novel effects delightful to the childish sense; 10 bands of music, over a hundred dens, cages and tableaux cars, and many other unique representations, each presented complete in its individual section, and comprising in their entirety the most bewilderingly beautiful and effective street display ever conceived or successfully organized. It is this wonderful new and novel procession that will inaugurate a circus day in Ann Arbor next Saturday, Aug. 27, and those who fail to see it will miss the greatest, outside of the performance itself, that has been presented to the public during the present century. Reserved numbered seats and admissions show day without any advance in price at Wahr's book store.

A dull, throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with an occasional shooting pain, indicates inflammation. The region of pain shows some swelling. This is the first stage of ovaritis, inflammation of the ovary. If the roof of your house leaks, my sister, you have it fixed at once; why not pay the same respect to your own body?

Write to Mrs. Pinkham, Lynn, Mass., and tell her all your symptoms. Her experience in treating female ills is greater than any other living person. The following from Mrs. ANNIE CURTIS, Ticonderoga, N. Y., is proof of what we say: "For nine years I suffered with female weakness in its worst form. I was in bed nearly a year with congestion of the ovaries. I also suffered with falling of the womb, was very weak, tired all the time, had such headaches as to make me almost wild. Was also troubled with leucorrhoea, and was bloated so badly that some thought I had dropsy. I have taken several bottles of Lydia E. Pinkham's Vegetable Compound, and several of her Blood Purifier, and am completely cured. It is a wonder to all that I got well."

Judge Kinne on Tuesday handed down a decree in the case of Sarah L. Wallace vs. the Ann Arbor & Ypsilanti Electric Ry. The complainant, who lives just east of the Lake Shore crossing, filed a bill to enforce the electric line to recognize the family pass which was granted in consideration of the old company being allowed to use a portion of what she claimed to be her land. Judge Kinne found that the company is occupying a portion of her land; that the company must accept the passes of Sarah L. Wallace, William and Jacob Wallace, and that if it does not do so the company is to be enjoined from using the land. The case will undoubtedly be appealed.

The demonstration in Detroit Sunday in honor of the return of the Naval Reserve was a great affair. The boys were given a splendid opportunity to see how well they are appreciated.

The twenty-second Mich. Infantry will hold its annual reunion at St. Claire Aug. 31. There are three members of this regiment in Ann Arbor. They are Col. H. S. Dean, S. C. Randall and Roy Jenney.

Judge Hosmer, of Detroit, has ordered the new electric road to show cause today why a mandamus should not issue compelling the road to live up to its contract to plank its track entirely through the city.

Dr. V. C. Vaughan has been ordered to inspect the various camps for the purpose of making a study of their condition with a view to improve their sanitary condition especially in relation to the spread of typhoid fever.

A Detroit party was in the city last week offering 12 1/2 per cent for all the Granite State Providence Asso. stock he could find. Most holders of this stock were only too glad to get even that small amount for their holdings.

Prof. D. C. Worcester will contribute to the September Century an article on the "Malay Pirates of the Philippines." Mr. Worcester spent several years in the Philippines and is no doubt well prepared to write interestingly on this subject.

Arthur Covert, of Superior, is a firm believer in the old proverb which runs, "It never rains but that it pours." On Monday his most valuable horse died. On Tuesday another of his horses became frightened at a circus bill in the road and ran away. His wife was thrown out and her leg was broken. On Wednesday his best cow broke her leg. Truly, troubles never come singly.—Times.

The lecture given by Prof. Knowlton upon "Laws Among the Ancient Jews," which has proven interesting to many auditors, is severely criticised by Rabbi Hausmann, of Grand Rapids, who contends that it fairly abounds in misstatements. An instance is the charge that a father could sell his daughter to a man for his wife, the instance cited being the story of Jacob and Laban. The Rabbi claims that this incident occurred three centuries before the Israelites had an existence as a nation, and that Laban was a heathen.—Ypsilanti Sentinel.

Last Saturday night burglars entered the home of C. B. Davison at No. 307 N. Main st. and secured between \$25.00 and \$30.00 from Mr. Davison's pockets. They obtained entrance through the sitting room window which happened to be left unfastened. This is the third robbery in Ann Arbor within the past week.

The REGISTER has received several complaints at the constantly miserable condition of State street between Washington and Williams street. Bicyclists especially are frequently compelled to dismount and walk past this section, while carriages require a bath if compelled to pass over this part of the street. The Board of Public Works would please a lot of people if they could devise some method to abate this nuisance.

A Kalamazoo lady whose husband was a sailor on board the Maine at the time of the explosion, read the description of Mr. Laidlaw's floral Maine and wrote him asking for samples of the plants used in its construction. Mr. Laidlaw referred the request to headquarters and received instructions to pack up a box of the various plants used, and take it to the lady with the compliments of the Michigan Central company. Mr. Laidlaw went to Kalamazoo Tuesday to make the presentation.—Ypsilantian.

Knowing ones appear to think that Col. Judson "fell down" in giving O. E. Butterfield, the chairmanship of the Republican county committee. The Michigan Central railroad wants Senator Campbell re-elected, and Mr. Butterfield is attorney for the Michigan Central, and the county organization, the knowing ones think, may be delivered body and soul to the railroads. Col. Judson and Governor Pingree favor equal taxation, but do their chief lieutenants, among them Mr. Butterfield? Politics certainly makes queer bedfellows.—Times.

Removal.

JOS. W. KOLLAUF, the popular Merchant Tailor, has removed his place of business to the ground floor, No. 214 E. Washington street, which will afford him larger quarters. He will be pleased to see his former customers.

Gold-Bearing Ducks in Oregon.
There was a stampede yesterday from Ellensburg to a point about five miles north, where a rancher lives who has been selling ducks in town, nearly every one of which has had gold nuggets in its gizzard. Pannings of surface ground along the creek were made, but only small colors were found. Before leaving two of the party bought four ducks, all the rancher had left. On reaching town the ducks were killed, and nuggets to the value of \$5.20 were taken from their gizzards. Each duck had one or more nuggets, none of which was smaller than the end of a lead pencil, some being as thick as an ordinary knife blade. Arrangements are being made to secure an option on the land, which is owned by a Portland man. If it can be secured development work will be done at once.—Portland Oregonian.

Tantalizing.
He—"No gentleman will smoke a cigarette while walking on the street with a lady." She—"Of course not. He has no business to tantalize her so."—Indianapolis Journal.

"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly and quickly effected permanent cure." C. W. Lenhart, Bowling Green, O.

Where the Trees Weave Blankets.
Ecuador has trees which produce bed clothing, according to Frank Carpenter, the well-known correspondent. He says: "I slept at night in a blanket made of the bark of a tree which grows on the slopes of the Andes. The blanket is six feet long and five feet wide, and is as soft and pliable as though it was made of wool. It is of almost the thickness of good flannel blanket, and I can easily roll it up and put it in my shawl strap without hurting it. This blanket is merely a strip of bark, cut from a section of the trunk of the demajagua tree. The Indians make a cutting around the trunk to get it, and they then prepare it by soaking it in water until it is soft. Then they pound it so that the rough outside could be stripped off and the inside alone left. The inside is of fine fibers so joined together by nature that it makes a beautiful blanket, warm enough to be used as a cover and soft enough for a mattress."

\$100 REWARD \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Mortgage Sale.

Default having been made in the condition of a mortgage executed by Charles Powell and Harriette E. Powell, his wife, to Joseph J. Ellis now deceased, which mortgage bears date February 10th, A. D. 1883, and recorded in the office of the Register of Deeds for Washtenaw county, Michigan, February 12, A. D. 1883, in Liber 61 of Mortgages on page 117, by which default the power of sale contained in said mortgage became operative and no suit or proceeding in law or equity having been instituted to recover the debt secured by said mortgage or any part thereof and the sum of two hundred and twenty-three and seventy one hundredths dollars (\$237.70) being now claimed to be due on said mortgage, notice is, therefore, hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises therein described or some part thereof, to-wit:

All of the following described land situated in the city of Ann Arbor, Michigan, viz: Beginning on the east line of Pontiac street in Brown and Fuller's Addition to the village (now city) of Ann Arbor at a point four (4) rods southerly from the southwesterly corner of a piece of land heretofore conveyed by C. N. Ormsby and wife to Jarred Lettis; thence southerly on the east line of Pontiac street four (4) rods; thence easterly at right angles with Pontiac street sixteen (16) rods to Traver street; thence northerly along Traver street four (4) rods; thence westerly at right angles with the aforesaid Pontiac street sixteen (16) rods to the place of beginning, containing two-fifths of an acre of land more or less, at public vendue on Saturday, November 12th, 1898, at ten o'clock in the forenoon at the east front door of the court house in the city of Ann Arbor, in said county of Washtenaw, that being the place of holding the circuit court for said county.

Dated August 15th, A. D. 1898.
