## THE GUN WAS LOADED.

### THE DISCHARGE INSTANTLY KILLED ROBERT GUTEKUNST.

**James A. Steere, Aged 17, Accidentally Fired the Gun—Accident Occurred on Prof. J. B. Steere's Farm in Pittsfield—Boy Did Not Know the Gun Was Loaded—The Unfortunate Affair Took Place Monday Afternoon**

An accidental shooting affair occurred Monday afternoon at the home of John Gutekunst, who lives on the farm owned by Prof. J. B. Steere four miles south of Ann Arbor, in the township of Pittsfield. It seems that James, the seventeen year old son of Prof. Steere, went to the Gutekunst home to get an old shot gun which the boys had been in the habit of using to shoot sparrows. Robert the son of John Gutekunst was in the basement at work. It seems that the gun was also kept in the same place. Young James Steere accordingly went there for it. Soon after a loud report was heard and a woman living near saw young Steere trying to lift the Gutekunst boy from the ground. Falling in this he ran and told the boy's step father what had happened. It seems that the boys were fooling with the weapon never suspecting that it was loaded, when it was discharged, the entire contents entering the Gutekunst boy's neck breaking the collar bone and passing downward, terribly mutilated his right lung. Death was almost instantaneous. The Steere boy was at first so overwhelmed with grief at what he had done that he was unable to tell in a connected way what had taken place. The Gutekunst boy was thirteen years old.

Coroner Ball held an inquest Wednesday morning at Dieterle's undertaking rooms. Upon examination young Steere admitted that he and the Gutekunst boy were fooling with the gun when it was accidentally discharged. The coroner's jury rendered a verdict in accordance with the above facts.

### The Personality of Professor Walter.

The following extract is from a tribute to the memory of the late Professor E. L. Walter, read by Professor I. N. Demmon at a meeting of the Senate of the University of Michigan, held October 10. The address will appear in full in the November number of the *Alumnus*:

"Mr. Walter was a man of singular justness of perception, not given to illusions, and ready always to look facts in the face. He hated all pretension and sham. The insincere man was his special aversion. He had positive convictions on a wide range of subjects and was ready to defend them when questioned; but at the same time his kindly nature made him tolerant of opposition and he harbored no resentments. . . . Perhaps the most characteristic thing about the man remains to be noted—a certain charm of personality, which attended him from his boyhood days, and which defies analysis or definition, but which all felt who came within the range of his influence. Perhaps it had its root in a happy blending of the joyous with the serious elements of our nature. Uniformly hopeful and cheerful, he was never shallow; and underneath a happy exterior one might often catch glimpses of great depths of thought and emotion. He encountered life's problems and uncertainties with a fearless breast, and we may be sure that in those last crucial moments neither his humanity nor his courage failed him."

### U. OF M. MEN KILLED IN THE WAR.

So far as known four University of Michigan men lost their lives in the late war. They were John A. Bobb, Charles A. F. Von Walthausen, W. J. O'Brien and Oliver B. Norton.

John Albert Bobb, M. D. '86, who was assistant surgeon of the Thirty-fourth Michigan infantry, died August 19, on the transport *Olivette* while enroute from Santiago de Cuba to Montauk Point. His final words were, "I die for my country; my only regret is that I have not a hundred lives to offer for her." He was buried at sea.

Charles August Fred Von Walthausen, P. C. '96, was a private in the thirty-first Michigan infantry. He died at Camp Thomas, Chickamauga, August 10, at the age of 23. His remains were taken home for burial.

William James O'Brien, with the literary class of '98 during the years 1894-97, and a sergeant in Torrey's Rough Riders, died at Jacksonville, Fla., September 13, of malarial fever.

In college he was a member of the University Mandolin Club. Oliver Burleigh Norton, of the medical class of 1901, was killed by a Mauer bullet July 1, while charging up the San Juan hill near Santiago with Roosevelt's Rough Riders to which body of troops he belonged. The bullet struck him in the head and he died within a few minutes in the arms of his brother, who also belonged to the Rough Riders. Norton's home was at Eastace, Florida. He was 26 years of age.

## ROAST ON THE TIMES.

**Supervisor G. Frank Allmandinger Writes One—Deals Some Hard Blows.**

The times took it upon itself to rather severely criticize the supervisors for cutting canfield's, or rather Judson's bill for going to Chicago to look after a girl who had disappeared from Kalamazoo. There was no warrant whatever for incurring any such bill and the supervisors properly cut it out. In answer to The Times criticism Mr. Allmandinger writes as follows to that paper:

### Important to Voters.

#### You Must Re-Register

It is not generally known and the chances are that a large percent of the citizens of Ann Arbor will forget that the law requires every voter in the city of Ann Arbor to re-register this fall. Voters should bear in mind that, in order to secure a vote this fall no difference if they have been regular voters for years and have not changed their place of residence, still they must register again. Ample notice is given in the legal notices published in this issue of THE REGISTER and in this article. However each one must remember to register on the right day or lose his vote.

### Editor Evening Times:

Allow me to express approval of the high moral ground taken in yesterday's Times regarding the protection of the young women of Washtenaw county, and at the same time to express regret that The Times had not gone further. If newspapers of this standing would, instead of concealing the scoundrels (like the one in the present case) publish their names and denounce them in a measure commensurate with the offense there would be fewer such offenses and womanhood would be correspondingly protected.

And if the public prosecutor and the sheriff, instead of shedding crocodile tears because of outraged womanhood, would use their offices, the one to direct the prosecution and the other to prosecute in the name of the people the man in the case and others like it, I for one would have far greater faith in the sincerity of their professions. And no agency would have so deterrent an effect on offenders of the class involved as to place a few of them behind the bars at Jackson.

In the present case, ample knowledge is in the possession of both of these men and they have had some 13 months for action. It is to be feared that their interests lie in the collection of the fees involved rather than in securing the punishment of the guilty and the protection of womanhood.

Mr. Judson had no business to send Canfield to Chicago. The latter's forte lies in illegally pulling poultry off from a poor man's hen roost in the dead of night rather than in detective work. He spent \$5 in Chicago for street car fares, which is the only item in the bill I will take space to mention. Five cents in Chicago will carry a man five miles and more. Canfield then for the outlay could have ridden some 500 miles. It is a fair inference that Canfield sought the young woman (who was in confinement at the time) on board the Chicago street cars. He must have had a real nice time riding street cars.

Respectfully yours,  
G. FRANK ALLMENDINGER.

The Washtenaw County Teachers' Association will hold its first meeting for this fall in Manchester next Saturday. The program shows a decided departure from the plan carried out at former meetings of this association. The program is divided into two parts the first consisting of two papers, one by Marie Kirchoffer on The National

### Geological Survey Work.

Professor Israel C. Russell, of the department of geology of the University of Michigan, spent the three months summer vacation conducting a geological survey for the United States government over the northern portion of the Cascade mountains. The greater part of the work was in Washington State and extended from the Northern Pacific railroad to the Canadian boundary, crossing the mountains several times. Among the places of interest visited was Glacier Peak, the height of which was verified.

### Has the Right Idea.

The manager of the Athens Theatre, who is also a newspaper man, should profit by the following from last week's issue of the Commercial Union: Manager Hartz of the Euclid Ave. Opera House, Cleveland, believes he has demonstrated the superiority of newspaper advertising over all other forms. Last week he decided to abandon all advertising by means of bill boards, posters, or window hangers and depend upon the newspapers entirely. The result of the experiment was gratifying. Last week Julia Marlowe began a week's engagement and the house was sold out before the performance began. Mr. Hartz has decided to put up no more posters.

### Student Volunteers Discharged.

At the request of President Angell, Secretary Alger has already granted discharges to the following students of the University of Michigan who were in military service: law department: Jerome B. Stocking, '99, Robt. E. Robinson '99, S. F. Nichols '98, John H. Notley '98, Algernon M. Green '00, Florian A. Carnal, '00, O. P. Cole, '99; literary department: Corporal R. L. Flynn, '01, Arthur R. Wistrand, '99, Corporal R. V. D. Magoffin, Earl A. Clemans, H. T. Danforth '01, H. Heitmann '99, W. B. Bach, C. S. Kennedy, '98, Clarence B. Hurley '99; medical department: A. L. Coyle, W. M. Warren '98; dental department: A. A. Baker; engineering department: Wm. L. Kimmel, Wm. P. Baker. All are members of Company A, 31st Michigan Volunteers, now in Camp Poland, Knoxville, Tenn. The name of Perry C. Church of the law department will probably be added to this list.

### Since above was put in type word

has been received that the following students have also received honorable discharges: Corp. Juttner, Corp. Hudson, Privates Church, Bastin, Kinney, Doyle, McKean and C. Miller.

ANSWER AND QUESTION.

What shall be done with the delicate man or woman, who keeps thin and pale, and who does not develop and keep healthy?

First thing to do is stop drinking coffee, and in its place drink "Golden Nectar." "And why?" In the first place "Golden Nectar" is now life for back-wear people. It creates a healthy action of stomach, of heart and of liver.

"Golden Nectar" is a food beverage, which takes the place of coffee. You prepare it as you would coffee, "boil 20 minutes," add cream and sugar. It tastes like good coffee, and looks like, and has the aroma of the purest coffee.

"Golden Nectar" is a pure healthy food product of American cereals, and nothing but health can result from its use. Every one knows that coffee eventually drags down the system. Change now for "Golden Nectar."

What Scrofula is.

Scrofula is a disease as old as antiquity. It has been handed down for generations and is the same today as in early times. It is emphatically a disease of the blood, and the only way to cure it is by purifying the blood. That is just what Hood's Sarsaparilla does in every case where it is given a faithful trial. It eradicates all impurities from the blood and cures the sores, boils, pimples and all forms of skin disease due to scrofula taints in the blood. Hood's Sarsaparilla has won the grateful praise of vast numbers of people by its grand and complete cures. Don't allow scrofula to develop in your blood. Cure it at once by taking Hood's Sarsaparilla.

SUFFERING WOMEN.

Women have a great many small complaints out of which large ones grow. In consequence of irregularities, excessive discharges, nerve complaints, they are ever on the rack, knowing little of comfort. Dr. Greene, 148 State Street, Chicago, Ill., the most successful physician in curing diseases in this country, and a specialist of the first standing, has made a special study of woman's diseases and discovered remedies for them which never fail to cure. Any suffering woman can consult Dr. Greene by letter, free of expense. Successful treatment effecting a cure is as sure and positive by private correspondence as by personal consultation. If you are troubled write to the Doctor. Write at once and be the sooner cured.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

Striking Coal Miners at Virden, Ill., Have a Bloody Battle With a Train Load of Imported Negro Laborers and Railroad Detectives.

14 Lives Lost in the Battle.

The strike of coal miners which has been on in the Fourth district of Illinois since last April has at last resulted in terrible bloodshed. Pana has been the scene of excitement all summer, but at the town of Virden everything had been quiet until about a month ago, when the Chicago-Virden Co., imported 100 Negro miners from Birmingham, Ala. The train was met by a large body of armed union miners who threatened to shoot the first Negro that stepped from the cars. These Negroes were finally induced to return to the south and the mines were not opened.

The mine operators strengthened the stockade about their property and made preparations to open their mines at all hazards. Gov. Tanner refused to send state troops to protect "imported convict labor against citizens of the state," and when the vigilant strikers learned that a special train on the Chicago & Alton railroad was coming with 200 Negroes they gathered in force at the depot and at the stockade, armed with Winchesters and revolvers. As soon as the train reached the town firing was begun by the miners and by a large force of railroad detectives on the train and continued all along the route to the stockade. The moment the train reached the stockade the miners opened a desperate fire with Winchesters, revolvers and firearms of all descriptions. The armed men on the train answered with a steady fire. The miners and the train were enveloped in a cloud of smoke and the shooting sounded like a continuous volley. Engineer Bart Tigar received a bullet in the arm and dropped from his seat. His fireman seized the throttle, pulled it open, and with a jerk the train was under speed, toward Springfield. The train stopped at the stockade but two minutes. Its departure did not cause the firing to cease. The tower of the stockade was filled with sharpshooters armed with Winchester, and they kept up a steady fire into the crowd of union miners. Eye witnesses say the dead miners were killed after the train had departed.

The list of the dead is as follows: Edward Welsh, miner, Springfield; Frank Bilyeu, miner, Springfield; Albert Smith, miner, Mt. Olive; Joe Kintler, miner, Mt. Olive; Ernest Ketter, miner, Mt. Olive; Ed Cree, miner, Mt. Olive; A. H. Breneman, miner, Girard; A. W. Morgan, guard inside stockade; Wm. W. Carman, "deputy sheriff" on the train; D. H. Kiley, Chicago & Alton detective. Six others on the train were wounded, one of whom, Wm. H. Clarkson, of Leavenworth, Kas., will die. J. F. Eyster, superintendent of the mine company's store, was fatally shot and beaten by the infuriated strikers because he attempted to take medical aid to the wounded inside the stockade, who number eight. There were 10 strikers wounded besides those killed.

After the battle Gov. Tanner ordered troops to Virden to disarm all armed persons and to prevent imported miners being taken into the stockade. The militia fired on a group of strikers who went too near the stockade and killed Tom Preston, a Chicago detective in the employ of the mine company. John M. Hunter, president of the Illinois district, United Mine Workers, was thrown from a moving train by a railroad deputy and was probably fatally injured.

The names of three other miners have been added to the death roll of the battle: Ernest Long, of Mt. Olive; Wm. Harmon, of Girard, and Ed Webb, of Springfield. The militia took full control of affairs on arriving at Virden and the commanding officers said they would prevent imported Negroes from entering the mines if they had to sacrifice every man under them. Warrants were sworn out by officers of the Miners' union charging the officers of the militia company with "conspiracy to murder," but on advice of the militia officers they were not served.

Later advices regarding the loss of the steamer Mohagan off the Lizard, off the coast of England, places the loss of life at 108. The Mohagan was fully seven miles north of her course, but no one is able to tell why. There was no fog and the gale was not strong enough to prevent her answering her helm.

MICHIGAN NEWS SUMMARY.

Doings of the Week Recorded in a Brief Style.

CONCISE AND INTERESTING.

Fine Statue of War Governor Blair Unveiled at Lansing—A Lake Steamer Sunk by a Collision—Muskegon Man Hanged at Chicago.

Statue of Gov. Blair Unveiled.

The state of Michigan did honor to her war governor, Austin Blair, by erecting a splendid monument to his memory in front of the capitol building at Lansing. A large number of distinguished persons were present, including Maj.-Gen. Shafter. Numerous Grand Army posts participated in the event to show their veneration for the man who so honestly and fearlessly looked after their interests during the nation's darkest hours.

A long and imposing parade of war veterans and civic societies, witnessed by 40,000 visitors and reviewed by Gov. Pingree, Gen. Shafter and Commander Patrick, of the Michigan G. A. R., preceded the formal unveiling of the statue. Gen. Alger, president of the Blair monument commission, who was to have presented the statue on behalf of the commission, could not be present and this duty was performed by Gen. W. H. Withington, of Jackson, also a member of the commission. Gov. Pingree accepted the statue in behalf of the state. Hon. Thomas W. Palmer, president of the day, made one of the characteristic speeches in which he paid high tribute to Gov. Blair.

The commission's report show that \$9,791.24 of the \$10,000 was expended. The sculptor was Edward Clark Potter, of Enfield, Mass. Donaldson & Meier, of Detroit, designed the pedestal, which was furnished by C. W. Hills, of Jackson.

Michigan Man Hanged for Murder.

George H. Jacks, formerly chief of police at Muskegon, and John Druggan, both convicted murderers, were hanged on the same scaffold in the county jail at Chicago.

Jacks was convicted of the murder of Andrew J. McGhee, an aged collector, and Wm. J. Willows is now serving 14 years for complicity in the crime. Jacks had a long criminal record. When chief of police of Muskegon he was also a deputy U. S. marshal and a member of the fire department. While holding these positions he committed a number of burglaries, but was finally caught at it and served four years' imprisonment. He then went to Chicago where he resumed his criminal career. Druggan was convicted of murdering a saloonkeeper whom he tried to rob.

Steamer Sibley Sunk in St. Clair River.

The steamers H. W. Sibley and Lansing were bound up coal laden when the steamer Northern King, bound down with grain, attempted to pass between them as they were side by side, at the foot of Stag Island, in St. Clair river, near Port Huron. The Sibley took a sheer and struck the King on the starboard quarter, doing her considerable damage. She caromed off and then struck the Lansing a blow, breaking the rail and covering board on the port side, and some of the planking. The bows of the Sibley were badly damaged, and her crew had barely time to get their boat into shallow water on the Canadian shore when she sank. The Lansing and Northern King were able to proceed on their journeys.

Strange Boy Murdered.

An unknown boy, aged about 16, was found three miles east of Wheeler, beside the railroad track with his face completely crushed in. The lad had passed through the town the day before on a bicycle, and said he was going to Saginaw. He was later seen, near the spot where the body was found, in company with Boyd Parrish, who was carrying a gun. Persons nearby say they heard several gunshots. Parrish was found at Merrill with the boy's wheel and as he could not explain satisfactorily how it came in his possession he was placed under arrest on suspicion of having murdered the boy.

Fatal Boiler Explosion at Ionia Asylum.

The boiler building of the Ionia prison for criminal insane was demolished by the explosion of the battery of boilers which furnished steam for the institution. Four persons working about the building were either killed or seriously injured. Henry Heilmann, a trusty of Saginaw, whose term of imprisonment would have ended the next day, was instantly killed, his head being blown off. Jack Corey, a brickmason who was putting in another boiler, died from his injuries, as did James Hand, a prisoner. Jack Hogan, a trusty, was badly injured.

Bank Robbers Big haul.

Professional bank robbers blew open the safe in the private bank of Jacob Den Herder, at Zealand, with nitroglycerin, and took \$5,000 in currency and gold. They left \$1,000 in silver, as it was too heavy to carry off. Valuable papers were also left untouched. The safe was completely shattered.

Della Medema, an 8-year-old Muskegon girl, died of lockjaw as a result of running a rusty nail into her foot.

The barn on the farm of Edmund Hall, near Weidman, burned, together with six horses and this season's crops. Loss \$2,000.

A fierce fight occurred between two factions of German Lutherans in Koochville, Saginaw county, at a saloon kept by one Wolters. Knives and clubs were used. Many received bad wounds, but none were killed. The walls of the saloon were spattered with blood.

KNIGHTS TEMPLAR.

The Triennial Conclave at Pittsburg a Very Brilliant Affair.

The grand parade was the finest ever seen in Pittsburg. Over 25,000 Knights Templar were in line, and their uniforms, the appearance of the men and the perfection of their evolutions won hearty applause from the 700,000 people who witnessed the spectacle. Detroit commandery, particularly, evoked loud and continued demonstrations by their precision of movement and fine appearance.

At the opening business session of the conclave reports were presented by the grand treasurer and grand recorder, showing receipts of \$26,791; disbursements \$9,737; net cash resources, \$42,154. The gains since the last conclave were 8,374; losses, 5,638. The net gain, 2,736.

Detroit commandery had everything its own way in the competitive drill of the Knights Templar conclave at Pittsburg. Louisville commandery and St. Bernard commandery of Chicago were the only ones to oppose the Michigan men and the latter carried the 20,000 spectators by storm by their splendid maneuvering.

Louisville captured the Knights Templar triennial conclave for 1901.

Does Spain Mean Treachery?

Madrid: The Spanish government announces its intention to maintain a strong force in Cuba until the treaty of peace with the United States is definitely signed.

Uncle Sam Calls the Bluff.

Washington: The officials of the war department, referring to the Madrid dispatch, said that there had been and would be no change in orders to the U. S. troops, and that the instructions given to the American military commission in Havana to take possession of the island on Dec. 1, irrespective of the presence or absence of the Spanish officials, would be rigorously adhered to. The commissioners, acting upon these instructions, have notified the Spaniards that all ports and customs receipts and the management of municipal affairs will pass into the hands of the American military commander in the island, and thus end Spanish rule in Cuba on that date. By Dec. 1 it is expected that enough U. S. troops will be there to control affairs.

Chicago's Big Peace Jubilee.

The national peace jubilee at Chicago was inaugurated with a union Thanksgiving service at the Auditorium. President McKinley and several members of his cabinet attended and listened to addresses by Dr. Hirsch, a Jewish rabbi, Rev. Thos. P. Hodnett, a Roman Catholic priest, Rev. Dr. John H. Barrows a Presbyterian clergyman and Booker T. Washington a noted colored orator. The applause for the President was terrific, and he was compelled to rise in his box and respond to the frantic cheering of the audience. Over 12,000 people were inside the great building and as many more were unable to secure admission.

The following day President McKinley was the guest of the University of Chicago, from which institution he received the degree of LL. D.

Schooner Churchill Went Down.

During a terrific northeast gale, with blinding snow, which swept over the lakes numerous vessels had narrow escapes from destruction. The steamer Majestic, towing the schooner Churchill, had a perilous time in Lake Michigan. The steamer came near foundering and had to cast off the schooner. Shortly afterward the Churchill went down, carrying Capt. Patrick Kane, of Detroit, and one sailor. The lost vessel was owned by J. J. Ward, of Chicago, and was valued at \$15,000.

The war investigation commission left Washington on a special train for an extended tour of the southern military camps which will be thoroughly investigated. The commissioners will make the train their home until they return to Washington.

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant Cancer, for which the doctors said an operation was the only hope. The operation was a severe one, as it was necessary to cut down to the jawbone and scrape it. Before a great while the Cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally, upon the advice of a friend, decided to try S. S. S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the Cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now seventeen years old, and has never had a sign of the dreadful disease to return. J. N. MURDOCH, 279 Snodgrass St., Dallas, Texas.

Absolutely the only hope for Cancer is Swift's Specific.

S.S.S. For the Blood

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books on Cancer will be mailed free to any address by the Swift Specific Co., Atlanta, Ga.

STARTLING FACTS!

Dangerous Enemies That In-vade the Household.

How Health and Happiness May Be Lost.

Dr. Greene's Nervura As The Best Guardian.

The faithful wife. The fond mother. The hope and inspiration of the human race. Such are the homebodies.

We may do homage to queens. We may applaud great artists and actresses. We may admire fighting amazons. But it is the home-makers whom we love.

We spare nothing to make the wife and mother happy. We cannot, however, shield her from anxiety, and most of us

are unable to relieve her of the burdens of domestic drudgery. In fact, the average woman insists upon personally carrying the cares of the household even if it costs her the hardest manual work. It is incessant work and worry that make so many homebodies thin and pale, tired, nervous, irritable and despondent.

The Guardian Angel of the household is Dr. Greene's Nervura for the blood and nerves. The nervous headaches to which the housewife is subject; the exhaustion which no amount of rest will overcome; the melancholy which love and gentleness cannot remove—all these things vanish under the magic influence of Dr. Greene's Nervura. Why suffer when relief is at hand?

You are welcome to consult with Dr. Greene freely, personally or by letter, at his office, 148 State Street, Chicago, Ill. Dr. Greene charges no fees for consultation and advice.

HON. JOHN C. SHARP, candidate for the state senate, has put an effectual quietus upon the report, being circulated by the Democrats, that he is a railroad man and that the railroads and other corporations have a collar upon his neck. In a brief talk at the Republican meeting at Ypsilanti last Friday night Mr. Sharpe proved by his record in the legislature ten years ago that he was practically the first man in the state legislature ever to make a vigorous fight against the encroachments of railroad corporations. He was so determined in his opposition, and made such a vigorous fight against what he believed was the encroachments of railroads upon the rights of others that he was dubbed the "Anti-Railroad Crank" by his colleagues in the legislature and by the people of Lansing. This was long before Gov. Pingree had ever made a move against railroad corporations. Mr. Sharpe is one of the most successful framers in Jackson county. He realizes what it is for farmers to suffer from the oppression of corporate power and he is willing to, and when in the legislature ten years ago, showed himself well able to maintain the rights of the people against corporate power. That the farmers of Jackson county fully appreciate this is proven by the fact that at the county convention which nominated delegates to the senatorial convention practically every farmer was an out and out Sharpe supporter. It is such a man, the friend of the farmer the conscientious and able opponent of corporate greed, that the people want in the state legislature. Against such a candidate, an inexperienced man, a man who is an unknown quantity, should and probably will not stand much show of election.

Dr. Bull's Cough Syrup prevents consumption. One fifth of the deaths in cities is from consumption, caused, by neglected colds. Dr. Bull's Cough Syrup always cures colds.

The efforts of Pierce and his paper to deceive the people about Smith's fight against the Lake Shore railroad company must fall flat. It is too easy for people to ascertain the facts for them to be deceived by such groundless stories as the Hudson Gazette is promulgating. Smith has made and is continuing to make a great fight against the Lake Shore company to compel it to obey the law and he is sure to win out in his suit and in his race for election.

EDITOR Helber has gone after Pierce, the Democratic candidate for congress, with a strong and sharp prod. Helber intimates and probably can prove that Pierce is depending wholly upon a "barrel" campaign, couched with lies and abuse of his opponent, Hon. Henry C. Smith, of Adrian. Editor Helber also refers to Pierce's total inability to make a public speech, an accomplishment always considered an essential to a successful member of congress. In proof of this he quotes in full Pierce's speech of acceptance when he was nominated at Jackson. Mr. Pierce said, "Gentlemen, you've nominated me now I'll expect you to help elect me. You've nominated me now I want you to stand by me." Most any mere kid could have done as well. Helber further says:

The convention was started when they saw the kind of a man they had nominated. A prominent Washtenaw Democrat and delegate to his convention expressed himself to the writer in a completely disgusted manner after returning from the convention. He said, "We have nominated a man with lots of money, a good hearted honest fellow, but he has't any brains and is utterly unfitted for the office for which he was nominated, therefore I think I shall vote for Smith."

Closing his reference to candidate Pierce editor Helber says:

In conclusion I will say that while this would be congressman lacks the ability to speak in public it is said he owns a newspaper, the "Hudson Gazette" in which recently appeared an article containing many falsehoods and which was evidently intended to rob Mr. Smith of the credit he is so justly entitled to for his efforts in behalf of the people as against the railroads in striving to compel the latter to comply with the law and sell mileage tickets at two cents per mile for the use of every member of a man's family. The article in Pierce's paper claimed that Mrs. Smith was given a pass in consideration of which Mr. Smith discontinued his suit, when the real facts are that Mr. Smith fought and won his case through the circuit court and the supreme court and will fight it in the United States supreme court to which court it has been carried on appeal by the railroad company. Mr. Smith was the first person to call upon the courts to enforce this law, and the fact that Mr. Smith has been asked by the state to follow the case through is sufficient evidence that he is regarded as a man of integrity and a high order of ability. The great State of Michigan became satisfied that he had the ability and the courage to compel the railroads to obey the laws of the land so they adopted his case and employed him to push it to an issue. He has it now in the court of last resort, the United States supreme court, and hopes next winter to go down to Washington and win out for the people.

In response to Mr. Allmendinger's communication to The Times which we print in another column, that paper editorially says:

"This paper does not believe that because a young girl has been led into wrong doing by some conscienceless villain her good name should be forever damaged, her future blasted and her family disgraced by publishing her name so that every scandal-monger may roll it under his tongue. We would gladly expose the smooth rascal who brought all this miserable matter about, but we cannot do so without holding up to scorn the sorrowing parents of this erring though repentant daughter."

That sounds nice. The fact is that The Times and every other Ann Arbor paper and all the dailies in Detroit and Chicago have published the young lady's name and caused her and her parents all the ignomy and shame that it is possible to heap upon them. Now Mr. Allmendinger asks why the "smooth rascal" as The Times calls him, is not made to suffer some of the shame.

The trouble with Judson's bill in this case is that this same "smooth rascal" could easily have been made to pay the bill of \$85.00, one-half of which the Supervisors finally agreed to pay had the proper effort been made, and he, of all others, is the one who should have been made to bear all the expense connected with this miserable affair. Not a few believe that this same "smooth rascal" was bled so much for certain other phases connected with this affair that the officers could not very well call upon him for more and so came onto the county for a bill not a cent of which the county should ever have been called upon to stand. Now since the Times has published in several issues the name of the unfortunate girl and has done its full share in heaping all the ignomy and shame and disgrace that it is possible to heap upon her and her sorrowing parents why not punish the "smooth rascal" who caused all this disgrace and suffering and misery and who, by his damnable conduct in addition to ruining the life of an innocent young girl, causing the taxpayers of this county to foot part of this bill's resulting from his acts. If the Times is unable to name the villain and really desires to do so, we will furnish his name.

WOMEN MARTYRS.

Lots of women suffer constantly, and seldom utter complaint. Our habits of life and dress tell sadly upon women's delicate organizations.

They ought to be told just where the danger lies, for their whole future may depend upon that knowledge and how to overcome the dangers that threaten them. There is no need of our describing the experiences of such women here—they are too well known by those who have suffered; but we will impress upon every one that these are the never-failing symptoms of serious womb trouble, and unless relieved at once a life will be forfeited.

Lydia E. Pinkham's Vegetable Compound never fails to relieve the distressing troubles above referred to; it has held the faith of the women of America for twenty years. It gives tone to the womb, strengthens the muscles, banishes backache and relieves all pains incident to women's diseases. All Druggists sell it and recommend it.

A HOME DEPARTMENT

DISCUSSING SUBJECTS OF INTEREST TO THE FAMILY OR THE INDIVIDUAL.

CURES FOR SLEEPLESSNESS.

The individual who should discover a panacea for insomnia would need no other revenue for himself and all of his possible heirs, but unfortunately there is no specific remedy for sleeplessness.

The causes may vary, therefore the cure must be suited to the conditions of the individual. This fact does not seem to be taken into account by those who write for the public. A prescription is given as if it had universal application, and while some who try it are helped, quite as many are not benefited, or perhaps find their trouble aggravated. For example, the papers have been publishing the statement that to sleep with the head lower than the feet will cure insomnia. It is true that the person with too little blood in the head may find this advantageous but the one whose brain is already surcharged with blood will find his sleeplessness increased. His remedy is more pillows instead of less. He will also find that a footbath before going to bed will act as a soporific while the former individual will be made more wakeful by the footbath and would instead be helped by wrapping his head in shawls to warm it.

Eating is often recommended as a remedy for abnormal wakefulness and accomplishes this result by drawing the blood from the brain to the digestive tract; but if there is already too little blood in the brain eating will not produce sleep. It is at all times a doubtful expedient.

Reading will make some people sleepy and others wakeful, so it cannot be indiscriminately advised. Music may soothe one sufferer and disturb another. One individual may find in pleasant chat during the evening the desired remedy, while another may have so little nerve power that even friendly conversation may be too exciting if indulged in just before retiring.

The person with strong nerves and good digestion may not sleep so well at night if he naps in the daytime, while the one with nerves that are like the aspen leaf, quivering with the slightest breath, will sleep better at night if the nerves have been quieted by a nap during the day.

Darkness is an almost universal aid to sleep. In cases where the individual is inclined to oversleep it is well to have light colored window shades so that he may be conscious of the first streak of daylight, but those whose morning nap comes after long wakeful hours and is their greatest tonic, dark shades to shut out the daylight are a necessity. Sometimes a guest chamber is flooded with the first rays of light because the shades will not darken the room. In this case as a temporary expedient a dark silk handkerchief laid over the eyes will produce the needed darkness.

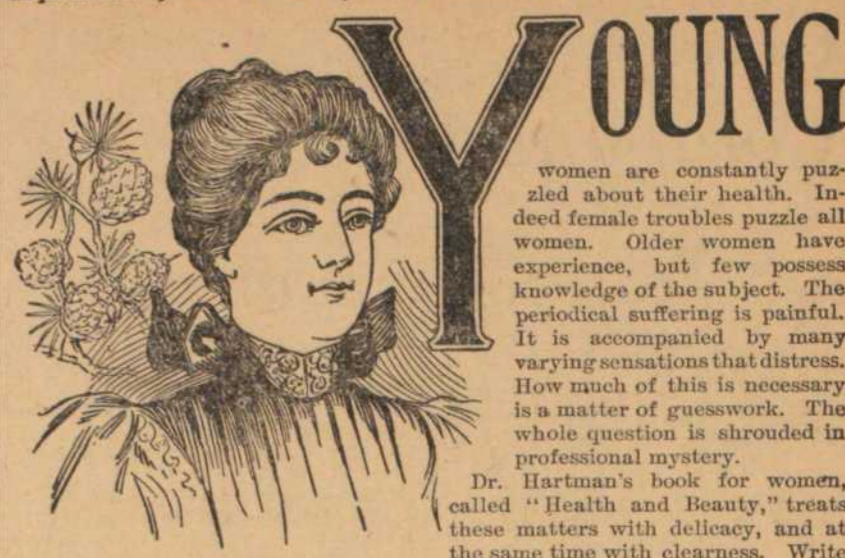

A good digestion is an exceedingly potent soporific and while a late supper may induce sleep, it will be heavy and unrefreshing, unrefreshing. The fear of having an empty stomach is altogether needless. The stomach being a muscle, needs rest, and its best rest is during sleep. The gnawing feeling so common in the morning is the complaint of a tired, and not a hungry, stomach.

Some forms of sleeplessness will be benefited by the application of heat to the spine. Fill a rubber bag with hot water, lay a folded wet towel on one side, wrap the whole in flannel and lay the towel side next the back. Apply it from the nape of the neck the whole length of the spine occupying fifteen or twenty minutes in so doing. Then rub the back with the hand dipped in cold water and rub dry. Where this treatment does not induce sleep the application of cold to the nape of the neck may be successful. Pounded ice in a rubber bag is the nearest method of application, but the end of a towel wrung out of cold water and folded to be about four inches long and two inches wide, leaving the dry end to protect the pillow is always obtainable and will practically answer all requirements.

The most potent disturber of sleep is anxiety or worry, therefore the best soporific is serenity and rest. In a serene frame of mind and fast one may even lie awake, but worry exhausts as well as makes wakeful. To produce sleep by drugs is always detrimental and ends by increasing sleeplessness.

Woman's Mysterious Ills.

Explanation of their nature by Dr. Hartman, who tells how to cure them.

women are constantly puzzled about their health. Indeed female troubles puzzle all women. Older women have experience, but few possess knowledge of the subject. The periodical suffering is painful. It is accompanied by many varying sensations that distress. How much of this is necessary is a matter of guesswork. The whole question is shrouded in professional mystery.

Dr. Hartman's book for women, called "Health and Beauty," treats these matters with delicacy, and at the same time with clearness. Write to the Pe-ru-na Medicine Company, Columbus, O., for it; it is mailed free. It is a practical printed talk to women. Dr. Hartman defines women's diseases as catarrh and tells how Pe-ru-na cures them. Mrs. C. C. Naeve, 386 Morrison St., Portland, Ore., writes as follows: Pe-ru-na Medicine Co., Columbus, O.

DEAR SIR:—"I began to take Pe-ru-na when I lived in Columbus, O., in 1887, and have used it and the Man-a-lin ever since whenever I needed medicine. I have never found an equal to Pe-ru-na for regulating the menses, and before I began to take it I was never regular and always had more or less pain. I had tried many different medicines before I saw Pe-ru-na but without success."

There is nothing mysterious about the action of Pe-ru-na. It is not a "cure-all," but it cures catarrh wherever located, and there may be catarrh in any organ of the body, as all are lined with mucous membrane.

Mrs. M. C. Mehl, 504 Walnut St., Columbia, Pa., says: "I have been troubled with catarrh and a soreness in my bowels for several years. I tried everything that was recommended. I tried Pe-ru-na and am happy to say that I am now entirely well."

Dr. Hartman's advice may be had without charge by any woman who will write for it. His book on Chronic Catarrh is also mailed free. It explains the danger of local treatment. All druggists sell Pe-ru-na.

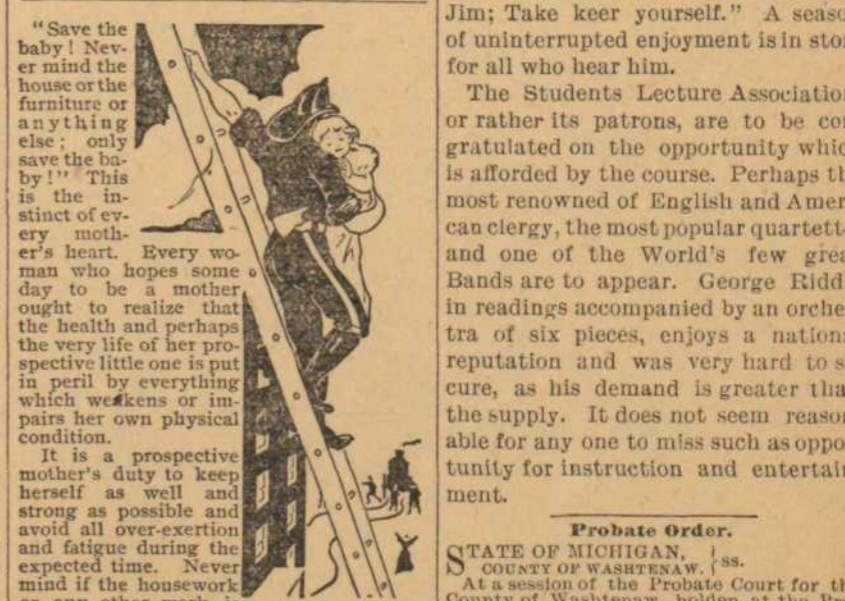

Ask any druggist for a free Pe-ru-na Almanac for the year 1898.

Counting endless flocks of sheep and similar devices may be effectual with some, with others it will only add to the trouble; but a serene mind and an absolute trust in the All-Father who "giveth His beloved sleep" is the most nearly a specific of any remedy that can be advised.

I heard a bright woman give her recipe to produce sleep. "I have found," said she, "that the best way to go to sleep is to go to sleep." There is a world of wisdom in the suggestion. Go to bed expecting to go to sleep. Never say, "I am afraid I will not sleep." Shut your eyes, turn them upward, and say, "I am sleepy, very sleepy. I am going to sleep", and if you hold your mind steadily, unwaveringly, to this thought you will make it a reality, and the next thing you will know you will have awakened to a new day to say, with a feeling of wonderful refreshing, "O I have had such a beautiful sleep."

Y. M. C. A. Classes. A complete course of educational work has been mapped out by the Young Men's Christian Association for the winter, consisting of instruction in physics, bookkeeping, penmanship, arithmetic, mechanical drawing and the Bible. These classes will be taught by competent teachers and placed within the reach of every member for a very small sum in addition to the regular membership fee. Persons not members of the Y. M. C. A. may join any class upon payment of twice the rates charged to members. Information as to the charge of this instruction can be had by applying to the general secretary. Each course will consist of at least one lesson a week for twenty weeks and will meet at such a time as will best suit the scholars and instructors. Opening reception Monday evening, Oct. 24, to which all young men in the city, especially those who have an idea that they would be interested in the night school, will be made welcome.

Save the baby! Never mind the house or the furniture or anything else only save the baby! This is the instinct of every mother's heart. Every woman who hopes some day to be a mother ought to realize that the health and perhaps the very life of her prospective little one is put in peril by everything which weakens or impairs her own physical condition. It is a prospective mother's duty to keep herself as well and strong as possible and avoid all over-exertion and fatigue during the expected time. Never mind if the housework or any other work is neglected: Save the baby! Every mother should obtain the strengthening, health-giving support of Dr. Pierce's Favorite Prescription. It gives elastic endurance to the special organs and nerve-centers involved in motherhood. It makes the coming of baby perfectly safe and comparatively painless. It fortifies the system against relapse, promotes abundant nourishment for the child and increases its natural constitutional vigor. It is the only medicine devised expressly by an educated, experienced physician to cure the weakness and diseases of the female organism. No other preparation accomplishes this purpose with such scientific thoroughness and permanence. A complete account of its extraordinary restorative effects in the most obstinate difficulties, is given in one chapter of Dr. Pierce's thousand-page illustrated book, "The People's Common Sense Medical Adviser," which will be sent free on receipt of 21 one-cent stamps, to pay the cost of mailing only. Address World's Dispensary Medical Association, Buffalo, N. Y. For a handsome cloth-bound copy, send 3 stamps. It is a complete medical library in one volume. It is written in plain English and is easily understood by the non-professional.

Literary Notes.

When Phil May draws his own portrait, he usually looks like a tall man instead of the short man that he really is. The same thing may be said of his portrait of William Nicholson, the artist, whose portrait is reproduced in the October Book Buoy from "Phil May's annual."

The frontispiece of the November Century will be a portrait of Dr. Weir Mitchell in the gown of a doctor of Laws of Edinburgh, drawn for the magazine by Miss Cecelia Beaux and printed in three colors. Miss Beaux has also made drawings from life for The Century of some of the most distinguished figures in the Spanish-American war.

Rear Admiral Wm. T. Sampson has written an introduction to the volume which the Doubleday & McClure Company have in press, "A gunner aboard the Yankee. From the Diary of 'Number Five' on the after-portion gun." In it he speaks most appreciatively of the way in which these civilians suddenly transformed themselves into efficient members of Uncle Sam's fighting force afloat, and of their excellent work in their various new positions.

Billiousness, dizziness, nausea, headache, are relieved by small doses of Carter's Little Liver Pills.

Advice to Consumptives

There are three great remedies that every person with weak lungs, or with consumption itself, should understand. These remedies will cure about every case in its first stages; and many of those more advanced. It is only the most advanced that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. Be afraid of draughts but not of fresh air. Eat nutritious food and drink plenty of milk. Do not forget that Scott's Emulsion is the oldest, the most thoroughly tested and the highest endorsed of all remedies for weak throats, weak lungs and consumption in all its stages.

ADVICE TO MINISTERS.

Given by a Minister.

Preachers who practise it will preach better.

No class of people is so liable to throat trouble as the great class who make up the Gospel ministry. The strain put upon the vocal organs by constant exercise; the sudden change from a heated building to the cool air when the vocal organs are in a state of complete relaxation; the fact that a minister feels impelled to use his voice when actors and lecturers would take the needed rest; these are among the reasons why "Clergymen's sore throat" is known as a special disease.

A Shattered Nervous System.

FINALLY HEART TROUBLE. Restored to Health by Dr. Miles' Nerve.

MR. EDWARD HARDY, the jolly manager of Shepard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until in 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. ONE VAST GOLD FIELD. GOVERNOR BRADY ON ALASKA.

He Says Without Doubt Wonderful New Discoveries Will Be Made on American Soil.

Governor Brady says reports of gold discoveries are coming in from all parts of the territory. He expects to see magnificent fortunes made in Alaska in the next few years. But few know the perils of the Klondike. Fearful cold and exposure make throat, chest and lung troubles common and dangerous. Consumption lurks behind a cough; pneumonia back of a cold. The agonies of bronchitis, the pangs of pleurisy, the pains of la grippe, the anguish of asthma and the distress of lung fever are common in this region of snow and rains, floods and fogs, and often they are swift and fatal. Every gold seeker should take with him a medicine that is quick and certain in its cure of these diseases. One has taken the lead in America, because for twenty-five years it has shown a wonderful power over these maladies. This supreme remedy is Dr. King's New Discovery. It's a life-saver wherever used. Thousands of deaths are yearly prevented because thousands of American families have always kept it in their homes. They would as soon be without flour or sugar in the house as without this medicine. It has cured people of consumption, bronchitis, pneumonia, la grippe and hemorrhage whom doctors had told must die. It stops the most obstinate coughs. It won't let a cold get a start. To prove how desperate a case it will cure we will show how it saved the life of Calvin Lockwood of Povierville, Mich. He says: "Two years ago I was attacked with a severe cold which brought on the worst form of bronchitis. So bad was it that I entirely lost my speech. I tried all the best physicians here and at Lansing, but without avail. They all pronounced my case incurable. As a last resort I took Dr. King's New Discovery and greatly to my surprise I began to get better, and after using two bottles I have 'cheated the grave' and am sound and well. It is surely a life-saver." Dealers sell it at 50c and \$1.00 per bottle, refund the money if it don't benefit and give a trial bottle free to any sufferer.

"BEFORE BABY IS BORN." A Valuable Little Book of Interest to All Women Sent Free.

Every woman looks forward with feelings of indescribable joy to the one momentous event in her life, compared with which all others pale into insignificance. How proud and happy she will be when her precious babe nestles on her breast—how sweet the name of "Mother!" And yet her happy anticipation of this event is clouded with misgivings of the pain and danger of the ordeal, so that it is impossible to avoid the feeling of constant dread which creeps over her. The danger and suffering attendant upon being a mother can be entirely prevented, so that the coming of the little stranger need not be looked forward to with fear and trembling, as is so often the case. Every woman who reads this paper can obtain absolutely free a valuable and attractive little book entitled "Before Baby is Born," by sending her name and address to the Bradford Regulator Co., Atlanta, Ga. This book contains priceless information to all women, and no one should fail to send for it.

Sleeplessness

ESPECIALLY FREQUENT IN HIGH ALTITUDES.

How it May be Overcome in Any Climate.

From the Chiefstain, Pueblo, Col.

While the Rocky Mountain region is justly famed for its salubrious climate, and is becoming more and more the mecca toward which pilgrims are traveling from all parts of the world that they may fill their weakened lungs with its life-giving air, yet there are ailments in that climate as in any other, one of the chief of which is sleeplessness.

The woman came to Pueblo thirty years ago, when the town was a frontier settlement, and Indians were by no means unusual visitors, bands of Utes often passing through on their way from the mountains down to the plains to hunt buffaloes.

She has had in good health, until a few years ago when at each recurring springtime she became debilitated, weak and languid. Her strength left her, she was listless and lifeless. This, too, in spite of the stimulating effects of the high altitude. The most serious difficulty, however, was sleeplessness, which she could not cure. The long weary watches of the night told on her health and she dreaded the approach of night.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in Dr. Williams' Pink Pills for Pale People. STATE GOSSIP.

The late Judge Cooley, of Ann Arbor, left no will. Every man in the 35th Michigan at Camp Meade is being vaccinated. Surveyors have begun operations at Utica on the proposed Detroit-Romeo electric railroad.

The fusionists of Ogemaw county nominated Mrs. Merrie Heaver Abbott, L. L. B., for prosecuting attorney. The surgeons say the health of the 31st Michigan, at Knoxville, is better now than it has been for months.

An extra freight collided with a local freight on the F. & P. M. at Ewart, demolishing eight cars, but injuring no one.

Edward Arnold, aged 27, had his arm completely torn off by getting caught in the shafting at the Passolt soap factory at Saginaw.

Three barns on the farm of Mrs. D. H. Strahle, east of Owosso, burned with all contents. Loss, \$10,000; insurance, \$3,000. Origin of fire unknown.

Twenty-one members of Co. A, Ann Arbor, 31st Michigan, who were students of the U. of M., united in a pull for their discharge, and were successful in the effort.

William Kulp, George Wagner and Joe Gregory, the alleged Richland bank robbers, were bound over to the Kalamazoo circuit court. Bail was fixed at \$10,000 each.

While at work in the third level of the North Tamarack mine, at Calumet, John Zolka was killed by the premature explosion of a blast. His head was entirely severed from his body.

The legislature will be asked to approve of a plan to connect the main buildings of the Michigan asylum and colony farm with an electric railway.

Two houses owned by B. F. Cotherin of Flint, were destroyed by fire. Loss \$2,500. The fire was undoubtedly of incendiary origin, and some villain struck a knife in the hose while the firemen were at work.

Farmers in the northern portion of Berrien and Cass counties are bothered by wolves. The prowlers have been devastating flocks of sheep, and pigs and poultry have been devoured. One farmer lost 11 sheep in one night.

Opinion of an Eminent Jurist. Ballot reform in New York was necessary, says an eminent jurist, because mere politicians by trade, who had no interest in government or politics except to enrich and aggrandize themselves sought perpetual control.

The township of Lincoln, Arenac county, has used the Star Woodenware Co., a firm which erected buildings at Standish four years ago and pledged themselves to operate a factory employing 125 men and to put \$15,000 into buildings and machinery.

Which is Better, Try an Experiment or Profit by an Ann Arbor Citizen's Experiment?

Something new is an experiment Must be proven to be as represented. Be successful at home or you doubt it. The statement of a manufacturer is Not convincing. Proof of merit but The endorsement of friends is. Now, Supposing you had a bad back. A Lame, weak or aching one. Would You experiment on it? You would Read Of many so called cures. But they Come from far away places. It's Different when the endorsement Comes from home. Easy to prove That is so. Home endorsement is The Proof that backs every box of Doan's Kidney Pills. Read this case:

Mrs. Wm. O. Warner, of Geddes Ave., says: "My kidneys troubled me for years. In the summer of 1897, I was very bad and all the medicine I took did not do me the least good. I had severe pains through my loins and kidneys, could not straighten up, and my friends often remarked about my going around in a stooped position. I could not rest comfortably and felt tired and worn out all the time. My head ached a great deal and I had frequent attacks of dizziness. The kidney secretions became badly affected and deposited large quantities of brickdust sediment, were highly colored and unnatural in appearance. Friends advised me to try Doan's Kidney Pills and gave me a few. These did me so much good that I got more at Eberbach & Son's drug store. I continued the treatment until the trouble was thoroughly removed and now I feel as bright and well as ever."

THE WAR REVENUE.

Congress to Reduce Taxation to a Peace Basis.

Washington, October 1.—Some of the congress meets steps will be taken to repeal certain portions of the war revenue act so as to reduce taxation to a peace basis. The understanding at present is that there will be a careful selection of the taxes to be removed, and not a general repeal. Leaders of both parties agreed when the act was passed that in case peace was effected in the meanwhile an immediate attempt should be made to reduce taxation.

It is believed that the first to go will be the special taxes paid by bankers, brokers and the owners of places of amusements, billiard tables and bowling alleys. These are annual taxes and cover the period to July 1, 1900, a year and a half after the conclusion of peace. An early repeal of the stamp taxes is also probable. This was distinctly a war measure, and the revenue derived is not considered sufficient to compensate for the annoyance of having to affix stamps. In case it is desired to retain some revenue of this description, it seems probable that the stamp taxes on checks, express receipts, telegrams and commercial instruments generally will be repealed, retaining those on proprietary medicines and bottled wines.

It is believed that the extra tax of \$1 per barrel on beer, the additional rates on tobacco and cigars, the special taxes on sleeping apartments and oil and sugar refiners with the general legacy tax may be retained for some time. The legacy tax, in particular, is to be a fixture with needed modifications. The tax on mixed flour, which is considered to be purely a police regulation and not a revenue producer, will be retained, but will need amendments to make it operative.

Dr. Bull's Cough Syrup is very efficient remedy. For coughs and colds it has no equal. It is good for adults and children. For croup and whooping cough it is invaluable.

On the 8th of October, 1886, THE REGISTER contained the following item: "On Tuesday the 5th of this month Mr. J. H. Allmand, living about a mile west of the city, brought in nearly a bushel of fine raspberries just picked from his vines, being the second crop of the season."

People then said that there had never been another season like it. They have been saying the same this fall, which is almost a duplicate of the fall of 1886.

Quite a bit of talk and not a little merriment has been caused by the action of "Prexy" Angell's private coachman since the return of the royal family to their home in this city. While in Turkey the darkey was decorated and festooned until he looked like a real Turk. Since his advent at Ann Arbor Prexy has either overlooked the matter of a new livery or his "royal coachlets" has yet a warm place in his heart for the Orient. He daily parades the streets in his sultanic garb, his closely-cropped and ebony-colored pate being covered and at the same time being ornamented with an immense fez. He gathers a crowd wherever he goes, and is indeed a rare novelty for freshmen, and a freak for upper classmen.—Detroit Tribune.
