Results Decidedly Mixed Many Split Tickets.

The election passed off quietly Tubsday. A fairly large vote was cast. The number of split tickets was probably larger than ever before. As a result the count was slow and the returns late in coming in. The county has gone Demo eratic on the local ticket all the way from about 75 for Mann to 1000 for Kirk. On the legislative ticket Wheeler, Republican, in the 1st Rep. district is elected and Waters the Republican nominee in the 2nd Rep. district is defeated. Sharp, the Republican candidate for Senator is defeated by a small majority. Smith, the Republican nominee for Congress carried every county in the district except Monroe which he lost by less than 20 votes. His majority will be between 2500 and 3000, nearly twice that received by General Spalding two years ago. Pingree, who carried the county two years ago by eleven hundred majority was cut badly by both Republicans and Democrats who voted for him two years ago. As a result his majority in the county this year will be less than dark place and then sprung up and at-200.. Precinct after precinct which two years ago gave Pingree a good majority tacked women who happened to pass this year gave a majority for Whiting. There were a number of surprises on the vote in the county both on state and county ticket. Webster, for example, one win Ave., another on Forest and a of the banner Republican towns in the county gave Whiting a majority of ten. Two years ago it rolled up a majority of 49 for Pingree. The 7thWard in this city two years ago gave the Governor 104 majority. This year it cut it down to 33. Ann Arbor town changed a majority of 26 for Pingree to 8 against him. Ypsilanti Town which two years ago gave Pingree 99 majority this year gave a majority of nearly one hundred against his candidate for the legislature. The first ward changed its vote on governor from 206 two years ago to 60 this year. Pittsfield gave him 64 two years ago, this year it was reduced to four. Kirk's majority of two years ago was nearly doubled this year. Cook's majority of over 500 hundred was this year reduced to about 125 he being the only man on the Republican ticket who pulled through Braun would very likely have been elected treasurer had not the vote in his own town of Freedom been unusually large against him. Gillen carried Saline which is usually Republican by a large majority while Waters and Kingsley both received a splendid endorsement in their own town. Wheeler carried Salem by an un-mischief. usually large majority while Mann rolled up a large vote iu Lodi. It was this and the small vote of Braun in Freedom that saved Mann.

The vote for Smith for Congress was a splendid endorsement of the McKinley administration by the people of this district. The better element of the district was in favor of the course President McKinley, has pursued in our relatson with Spain and were determined so far as lay in their power, to sustain him by electing a congress in sympathony with his policy. This they have done nobly, having given Mr. Smith a majority of between 2500 and 3000, nearly twice that given Gen. Spalding two years ago.

THE REGISTER next week will give a complete tabulated statement of the entire vote in this county. Inability to secure perfectly accurate returns from all parts of the county at this time makes the delay necessary.

Lately there have been a number of complaints that a medium sized man, either a negro or some one with his face blackened to imitate a colored man, has been assaulting ladies in the extreme southeastern part of the city. Several specific complaints have been made. The fellow has in each instance secreted himself by the roadside in a alone. One instance occured on Baldthird on Hill street. In one instance the lady carried her purse. As the scoundrel was unable to carry his victim into the woods near by, he grabbed her pocket book, containing about five dollars and dissappeared. From the description in each case it is the same offender who has been guilty of every assault so far attempted. A number of the people living in the neighborhood are on the lookout for the fellow and if he is caught it will go hard with him. It is believed that it is some fellow from Detroit who is doing all the

AN INTERESTING DISCUSSION.

Mr. G. F. Allmendinger and Prof. F. M. Taylor discussed the subject "Is speculation morally wrong? If so where shall we draw the line?" before a good sized class of ladies and gentlemen in the Congregational church Sunday after the close of the morning service. CONCERNING BEAUTY.]

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervous nestable character, one is remeded of the reply which an Irish girt once made. Very good-tooking herself, she was talking to a young man who was anything but that. He, thinking to take her down a peg, said: "But you know that beauty is only skin deep." She fixed him with a glittering eye, and replied with her sweetest smile. 'Yes, I know beauty is only skin-deep, but ugliness

woman covets the possession of a fair, transparent skip.

Some people have such a skin, and wonderfully recuperative, and no mat-ter how long it has been neglected or even abused, is in almost every case quick to respond to commonsense treat

ment, if it is given half a chance. What, then, is it necessaary to do? This is propably the despaning question that suggests itse f to thousands who realize the value of physical beaut have striven hard to attain it, and have

The asswer is short: Keep clean. But it is not as easy to "k op clean" as some apper to tounk, and normal lies the secret of the difficulty. To illustrate: You get some filth on your hand; beyou do something that removes that filth, it does not follow that your hand is clean. Benzine will quickly remove a blotch of paint from the skin, yet it doesn't CLEAN your hand. After the painter has taken off the paint with the benzine, he washes his hands.

Now, a great many soaps do exactly what the benzine does -they "take off" some very visible dirt, but they don't cleanse the skin.

If you have blackheads, a greasy or disreputable-looking skin, or any kind of a skin except one that is clear and transparent, you may be sure that the soap you use acts more or less like ben it removes the dirt, but it doesn't

Suppose you try a new kind of soap, one that cleanses. You can buy a cake for 15 cents, and you will notice a gratifying change before you have used all of it. This new soap is Kellar's Tar Soap. It is made from pure vegetable oils, glycerine and southern pine tar, and is for the bath, face and hands Druggists sellit; ask for it, and don't take a substitute; also, dont pay more than 15 cents for a cake. If your druggist hasn't got it, and won't get it for you, send 16 cents in postage stamps to the Kellar Soap Company, Williamsport, Pa., and you will promptly receive a cake by mail, postpaid.

Kellar's Tar Soap cleances, soothes and heals. It does not irritate. If you use it you will not be troubled with rough or shapped skin, blackheads; pimples, etc. You will have a clear, healthy, transparent skin.

Beauty is valuable; many people have offered thousands of dol ars for 0; don't you think a trial inves ment of locents is judicious?

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Sometimes it seems to weary woman

beauty is only skin-deep, but ugliness goes to the bone."

And while in one sense beauty is only skin-deep in another sense it goes deeper—goes to the bone, just as does ugliness. But it cannot manifest it—file out the hollows in cheeks and neck file out the hollows in the same hours of the contract o

uginess. But it cannot manifest itself except on or through the skin. The outer envelope of the homan form, from head to foot, must be clean and transparent if beauty is to beam forth.

This is true of the man as well as of the woman, and is one of the several great reasons why every man and every woman counts the procession of a fair.

The smaller magazines of the Vizcaya were exploding with magnificent cloud effects. The boats were coming alongside in a steady string, and willing hands were helping the lacerated Spanish officers and sailors onto the Iowa's quarterdeck. A few figureheads, as well as anchors and rams, found in the ruins of the locks at Athens serve to give a notion of the dimensions of ancient Grecian warships. Of the few figureheads preserved at our Naval Academy that of the Delaware, which was launched at Norfolk in 1820, attracts most attention. This image, called by some Tecumseh, by others Powhatan, or even King Philip, is not believed to be a portrait, but rather to represent a great sachem or a powhatan, a title having among the Indians a significance quite like that of Pharaoh among the Egyptians. At any rate, here he is, with his tomahawk, his arrows and his stern brow, as much a part of the scheme as the cadets themselves.

CONFIDE IN A WOMAN.

Women may write about their troubles to Mrs. Pinkham and avoid the questions of a male physician.

> The questions asked of a woman by a male physician are embarrassing and frequently revolting to a sensitive nature. In consequence the whole truth is not told! This makes it difficult for female troubles to be successfully treated, and is the reason so many women grow worse rather than better.

Mrs. Lucy A. Loughery of New Lebanon, Ind., describes how wretched she was until she received Mrs. Pink- 6 ham's help:

DEAR MRS. PINEHAM:-I propped myself in a chair and wrote to you, and as soon as I commenced to take your Vegetable Compound I began to improve. I had suffered with severe pains in my hips, back and head. The doctor said I had bladder trouble and falling of the womb. I had spells when, if I did not sit down, I would fall. I was sleepy all the time. I was also troubled with leucorrhoea and itching piles. People thought that my end was near. Had it not been for Lydia E. Pinkham's Vegetable Compound and advice, I would have been dead and buried long ago. I hope that this letter may be the means of helping all women who suffer as I did.

Women understand women better than men can. The whole truth is freely told to Mrs. Pinkham, and women only see the letters received by her at Lynn, Mass. Her advice is freely offered.

Here is a convincing letter from a woman in Bethlehem, Pa.:

DEAR MRS. PINKHAM: - Words cannot express my gratitude for the good that your Vegetable Compound has done me. I have taken five bottles, and feel better in every respect. Menses heretofore lasted too long and were very profuse, and made me very weak. Your Compound is a miracle. Before writing to you I had tried doctor's medicine, but of no avail. I would not give up your Compound for female com-plaints for all the doctor's medicine in the world. My friends want to know what makes me look so

well. I do not hesitate one minute in telling them what has brought about this wonderful change.

I cannot sing its praises enough. I hope every one who suffers as I have will give Lydia E. Pinkham's Compound a trial; and I know that, if taken according to directions, it will ours — Mrs. Enwis Fung. 412 Church directions, it will cure.-Mrs. EDWIN EHRIO, 413 Church Street, Bethlehem, Pa.

All women who suffer should secure Mrs. Pinkham's counsel. Female troubles are real troubles, and must be treated understandingly. For a quarter of a century Mrs. Pinkham's advice and Lydia E Pinkham's Vegetable Compound have been helping women to be strong and well, more than a million women have been benefited by it.

There's nothing that's worth all the labor put on it. There's nothing that's lasting but trouble and dirt."

When in the kitchen of some immaculate housekeeper I see the spotless pine table, I am impressed with its cleanliness, but I do not necessarily call to mind the great amount of care Club will meet at the home of Mr. and and strength that has been put forth to Mrs. Ellsworth Fletcher on Thursday, protect it from needless blemishes, cr to remove those inevitable traces of housework which the most careful forethe death of Loa Durand, daughter of sight cannot prevent. But when, after Mrs. F. H. Paine, of San Francisco, the departure of one Bridget, I decend into lower regions to look after "the wrecks of time" which her reign may have spared, and to prepare for the incoming of another Bridget; when I see the pine table far from spotless, but reminding me rather of Jacob's cattle, 'ring streaked and spotted" and grimy with careless washing, I feel as I lay my own hands to the task of removing potblack and grease, by aid of soap and sand and brush, or even knife, THERE'S to much of scrubbing goes to a kitchen

Then I call to mind the thousand of kitchens in which this scrubbing is going on every day, and I feel a strong desire to lighten in some way this burden of overtasked housekeepers. Therefore, the other day when I stood in the kitchen of one of New York State's tidy housewives, I exciaimed with joy, "Eureka! I have found it, and will proclaim it to the world, and one and all, cash premiums won by the school exhi- the women will cry out, 'Why did we never think of that before?"

> Before me stood an ordinary kitchen table, upon which the housewife placed her pots and kettles and greasy pans a wet cloth sufficed to remove all stains, because the table was covered with zinc. "I have used it five years and it is as good as new, and saves me such a world of labor." Such was the testimony of the mistress, and I believed her.

The zinc was just the length of the table, but the sides were turned over Mrs. Margaret Gillen who went to and nailed fast to the under side of the the hospital at Ann Arbor four weeks table. It occurs to me that those who ago to have a cataract removed from for any reason, cannot cover the whole her eye, returned home the first of the table with zinc might have two or week only to feel that the sight of the three small boards, zinc-covered, to stand on the table, on which to place was performed when the eye was in- pots and pans, in the exigencies of

I have a large Saratoga trunk for which I could find no place in my house, except in the kitchen, and even there it was a nuisance, as it took up the space where my table ought to be. After some thought, I determined to convert it into a table. I therefore had man of this village find their services a carpenter procure two boards as long as the trunk is wide. One edge of these he hollowed cut to fit across the top of the trunk from front to back: Upon the other edge, which was left straight -he nailed boards, and lo! I had a table which could be placed on the trunk when needed, and removed if wished to open the trunk. This table, covered with zinc is water-tight, and although not particularly ornamental, is very practical. If the Tim-s thinks that the above named sum will begin to cover what it has cost Juds in to maintain his grispin this county, they have lots to learn yet as to what the political methods and the cost of such methods have been to the ex-boss until he lost his grip on the sheriff's office.

THE result of the election Tuesday, while locally not what good Republicans would like to have seen, is, upon the whole, one that is eminently satisfying to the party. A congress in sympathy with the president has been elected, several United States senators have been guined, while the Croker gang in New York has been defeated and the brilliant young statesman and soldier, Rosevelt, has been elected governor by a good majority. Considering that it is an off year, when the party in power usually suffers great losses, the Republicans have every reason to congratulate themselves that the McKinley administration has been such as to enable the party to hold its own. This is shown even right here in Washtenaw county in the majority given Hon. Henry C. Smith for congress.

The defeat of the local ticket was not wholly unexpected. The party affairs in this county had, during the past four years, been conducted in such a way as to cause hundreds of Republicans to feel that the best thing to do was to defeat the whole ticket and let the party start in new again. This will account for a great many straight Democratic votes. The people who east these straight Democratic votes would have preferred that at least a part of the Republican ticket should have been elected had they not eusired to place the party in a position where it could start in new again so that the people, and not a ring, might run it. As soon as this is done those who are in reality in sympathy with Republican principles will return to the ranks and it will again step into power. Then we may expect that at least some of the men who were on the Shiawasi ticket this year and who were defeated, through no fault of their own, will be honored with a renomination and will be elected by a good majority. There can be no question that Washtenaw is today really a Republicen county and the only reason the entire ticket was not elected Tuesday is because of the condition of things mentioned above.

A splendid railroad exhibit, consis of Trade of Santa Clara county, California will be in Ann Aroor on the Ann Arbor track on Tuesday Wednes day and Thursday Nov. 15. 16. and 17. Pingree, of Detroit, to be the chosen chief executive of the commonwealth of Michigan. From the size of the majority the tones cannot be mistaken. Notwithstanding the strong opposition in his own party in some sections of the state the governor is returned to Lansing by such strong majority that the record of "off

years" is broken. Election day opened bright and clear throughout the state and the candidates were such as to bring out a large vote In nearly all counses during the noon.

A decided change which brought a chilly rain occurred early in the afternoon and prevented expectations from being realized. However, the vote was comparagood roads and the interest aroused in

The campaign, though brief, had been hot enough to suit even the most enthuslastic politicians, and in some countles and districts local controversies entered argely into the contest. This was parand districts local country, where the largely into the contest. This was particularly true in Kent county, where the anti-Pirstree faction was strengthened by some of Senator Burrows' most able workers. The fight which Gov. Pingree had put up against the election of state legislators ferorable to the re-election of United States Senator burrows was one of the principal features of the campaign and apparently had much to do with the vote. In counting the ballots the election officials found the largest proportion of split tickets probably ever recorded since the Australian ballot came into use in the state.

With complete unofficial returns from 60 of the 83 countles Gov. Pingree's majority rose above 66,000. Two years ago his majority was \$3,400, and the failing off may be justly attributed to the lighter vote cast.

ried the rest of the State ticket through to victory.
So far as the legislature is concerned, the voters of Michigan have again determined to leave the United States senatorship and the law-making power entirely in the hands of the Republicans. Returns up to date indicate that the number of Democrats in the body that will most at Lansing next January will be much less than even two years ago, and that all the fighting over the United States senatorship will be confined to the Republican caucus. For one of their very few victories—that of George F. Monaghan in the third district—the Democrats have to thank Gov. Pingree's opposition to John

the third district—the Democrats have to thank Gov. Pingree's opposition to John A. Matthews, the regular Republican nominee for the senate.

Some of the representative districts are very 'cose and it may be necessary to wait for official count before a final decision can be made. As it stands now the senate will have: Republicans, 27; Democrats, 5. House, Republicans, 23; Democrats, 7.

important question now in relation The important question now in relation to the legislature is whether Gov. Pingree can control enough votes to accomplish his desire to down U. S. Senator Burrows and send Albert Pack to Washington in his stead. Both sides are making strong claims and it will undoubtedly be an open question until a Republican legislative caucus is held or until the formal vote is taken in joint session. It may be that a third candidate will be brought forward by the time the legislature meets.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. John Williams, Englishtown,

N. J., writes: "DEAR MRS. PINKHAM:-I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder. piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and onehalf bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. Joseph Peterson, 513 East St., Warren, Pa., writes:

"DEAR MRS. PINKHAM:- I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do anything.

YOU CANNOT CURE PILES.

By Internal Remedies.

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made Mrs. James Kelley is entertaining and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the round about way of the stomach nor by the harsh, barbarous methods of various surgical operations and so called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co. of Marshall, Mich., and sold by all druggists at one dollar per package.

The Famous Rough Riders Wins

The Election in the Various States Was Rather Exciting for an "Off" Year -Democrat Think the Official Count Will Give Them Control of the House

For an "off year" there was probably more interest displayed in the political campaign this year than for a decade before. Of the 16 states all but three-Maine, Vermont and Oregon—voted on Nov. 8 for United States congressmen, and 23 states elected legislatures t tich will name United States senators. Twenty-two states elected governors and other state officials, and nine others chose auditor, treasurer and other minor state officials.

Reials.

New York.

Probably the greatest general interest centered in the contest in New York state, where Hon. Theodore Roosevelt, who led the heroic Rough Riders in the fighting at Santiago, headed the Republican ticket against Augustus Van Wyck, wnose only claim to recognition was that he was a brother of Mayor Van Wyck, of Greater New York, and sthe sen candidate of the great Tammany hall gang.

Greater New York, and sthese sen candidate of the great Tammany hall gang.

The question of endorsing the national administration's conduct of the war and treatment of Spain's colonial possessions in the peace negotiations entered largely into the New York campaign, as it did in nearly all of the states. And yet the Tammany crowd was able to put up such a fight that the final outcome of the campaign in the empire state was almost in doubt until the ballots were counted, both sides making big claims. When the first returns began to come in, however, it was soon seen that Roosevelt had won Later counts did not uphold the early Republican claims, however, and it is probable that the official figures will give Roosevelt a majority in the neighborhood of 20,000.

The result on congressmen in New York seems to have surprised even the Democrats hemsel on Nington of the antidates were elected, the Republicans getting but 15. In the present house the New York delegation stands 27 Republicans to six Democrats. In the Greater New York all the Democratic candidates were elected.

After the gubernatorial contest as much

New York delegation stands 27 Republicans to six Democrats. In the Greater New York all the Democratic candidates were elected.

After the gubernatorial contest as much interest was taken in the state legislature as in anything else. The state senate will be Republican by four and the assembly by 20. Political interest from now centers about the senatorship, and already discussion as to the probable aspirants has begun. So far there is no announced candidate and the Republican organization has not declared itself.

The total Republican vote in New York shows a falling off, as compared with that for Gov. Black in 1896 of about 14 per cent. In the municipality of New York the old-time Democratic majority was approximated, Van Wyck's vote being about 89,000 greater than that of 'Republican candidate. This latter result was helped in some measure by the result in the borough of Brooklyn (Kings county), which in 1896 gave Black, Rep., a plurality of 23,682, but to-day gave a Democratic plurality of about 16,830. Brooklyn is the home of Van Wyck. The soldier vote will not be counted until December 1, but it is not likely that the ballots from the camps will materially alter the result. There would seem to be the greater probability that the majority for Roosevelt will be increased. The Republicans had in the last legislature a majority of 23 on Joint ballot, and leaders of the party profess confidence that there will be no material diminution of that majority. A Republican legislature will mean the election of a Republican to the United States Senate in place of Senator Murphy.

Incomplete returns indicate that the

tion of a Republican to the United States Senate in place of Senator Murphy.

Ohio.

Incomplete returns indicate that the Republican plurality on the Dhio state ticket will exceed the plurality of \$1,109 for McKimley for president in 1866 and probably double the plurality of 28,105 for Bushnell for governor last year. The Republicans elect 15 of the 21 congressmen and four districts are carried by the Democrats Two districts, the third and twelfth are in doubt. The present delegation in congress is 15 to 6.

Later returns give the Ohio state ticket a plurality of over 60,000. The congressional delegation stands 15 Republicans and 5 Democrats, as follows: First, Shattuc (Rep.); second, Bromwell (Rep.); third, Brenner (Dem.); fourth, Gordon (Dem.); fifth, Meekison (Dem.); sixth, Brown (Rep.); seventh, Weaver (Rep.); eighth, Lybrand (Rep.); ninth, Southard (Rep.); tenth, Morgan (Rep.); eleventh, Grosvehor (Rep.); twelfth, Lentz (Dem.); thirteenth, Norton (Dem.); fourteenth, Kerr (Rep.); fifteenth, Van Voorhis (Rep.); tixteenth, Danfort (Rep.); seventeenth, Anderson (Dem.); eighteenth, Taylor (Rep.); inneteenth, Dick (Rep.); twentieth, Phillips (Rep.); twenty-first, Burton (Rep.).

Indiana,

Indiana.

The Republicans have carried Indiana by a majority between 15,000 and 20,000. The legislature will be Republican and in the senate the Republicans will have 28 and the Democrats 22; in the lower house, the Republicans will have 56 and the Democrats 44. This will give the Republicans a majority of 18 on joint ballot and means the election of a Republican to the United States senate to succeed Mr. Turpie, Dem. The congressional delegation consists of nine Republicans and four Democrats. Indiana,

Illinois. The entire Republican state ticket is elected in Illinois by about 30,000 plurality. In cook county the vote has been very close, the Republicans carrying the county and the Democrats the city of Chicago. Five and probably six congressmen have been gained in Illinois by the Democrats and the next congressional delegation from this state is likely to be evenly divided, il Democrats and il Republicans. It is possible for the Republicans to have 12 of the 22 congressmen.

Lova.

C. T. Hancock, chairman of the Iowa Republican state central committee, says:
"We expect to carry the state by about 50,000 and elect the entire congressional delegation."

Hancock's estimates proved correct.

Pennsylvania.

The Republican state ticket was victorious with a plurality of over 150,000. The Republicans claim 131 votes on joint ballot, which insures the election of U. S. Senator Quay to succeed himself. Republicans also elect 23 of 30 congressmen.

In Other States.

California-Gage, Rep., has a plurality of about 20,000 over Maguire, Dem., for governor.

Idaho-Fusionists elect governor, congressman and state legislators by fair pluralities over Republicans.

Kansas-Republicans elect Stanley governor by 13,000 plurality, also control state legislature and elect seven of eight congressmen.

legislature and elect seven of eight congressmen,
Massachusetts—The total vote for governor was: Wolcott, Rep., 190,246; Bruce, Dem., 106,898; Republican majority, 83,348.
Minnesota—John Lind, candidate of silver Republicans. Democrats and Populitats, defeated Eucils, Rep., for governor by about 19,000 parality, but the Republicans elect the rest of their ticket and all of the seven congressmen, besides retaining control of the legislature and insuring the re-election of U. S. Senator Davis.

suring the re-election of U. S. Senator Davis,
Nebraska—Returns were very slow, but the Republicans maintained enough of the gain shown by first reports to elect Hayward governor, and to control the legislature, thereby securing a Republican successor to U. S. Senator Allen, Populist.
New Jersey—The returns, with a few districts missing, show a plurnlity for Voorhees, Rep., of 5.002. The legislature will stand, on joint hallot: Republicans will have 31 votes; Democrats, 30; therefore a Kepublican will succeed Smith, Dem., present United States senator.
Novada—Silver carried the day as to governor and congressman—Mr. Newlands being re-elected—but the legislature is mixed and there is a fighting chance of U. S. Senator Stewart being defeated for re-election.
North Dakota—A Republican successor to U. S. Senator Poach, Dem., will be elected, the legislature standing 75 Republicans, 13 Democrats

outh Dakota—Almost complete return Phillips, Rep., for governer, a ma-y of 1,200. The legislature will have

give Phillips. Rep., for governor, a majority of 1,200. The legislature will have a Republican majority.

Wisconsin—Gov. Schofield. Rep., relected governor by over 40,000 plurality U. S. Senator Mitchell, Dem., will be succeeded by a Republican, the latter party having Si majority in the state legislature on joint ballot.

Colorado—The fusion state ticket, headed by Charles S. Thomas, Dem., for governor, is elected by a 141-jority approximating about 30,000. This is by far the largest majority ever given a candidate for governor in Colorado, but is less that half of Bryan's majority for president.

Missouri—Everything received points to the election of the entire Democratic state ticket by at least 30,000 majority and the selection of a majority of members of the legislature, er su. ing the re-election of U. S. Senator Cockrell, Dem. Three Republican congressmen in St. Louis have beer re-elected and it is probable that all the twelve congressional districts outside the city will be represented by Democrats. Washington—The Republicans have overcome the fusion majority of 12,000 two years ago and elected both congressmen The legislature, which will elect a U. S. senator, will be Republican on joint ballot by at least 40 majority out of a membership of 112.

Michigan Regiments Go to Cuba-

The administration has decided to send the First, Second and Seventh army corps to Cuba, the movement to begin at once. The First corps will be the first large body of troops to take up headquarters in the island, and Col. Gardener's 31st Michigan volunteers will be located at Cienfuegos. The Second and Seventh corps will have their headquarters near Havana, which means that the 35th Michigan will be stationed for the winter near that city. The first troops to land in the island will probably not arrive before Thanksgiving day, and the entire movement will hardly be completed before January 1.

"About two years ago, I nursed a lady who was suffering (and finally died) from blood poisoning. I must have contracted the disease from her; for shortly after her death, I had four large sores or ulcers, break out on my person. I doctored for a long time, both by external application and with various blood medicine specific that I could do, the sores would not heal. They were obstinate, very painful, annoying, and only getting worse all the time. At last, I purchased six bottles of Dr. Ayer's Sarsaparilla, thinking I would give it a thorough trial. Before the first bottle was taken, I noticed a decided improvement in my general health; my appetite was quickened, and I felt better and stronger than I had for some time. While using the second bottle, I noticed that the sores had begun to look healthier.

diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes:

"I could see no improvement whatever, though I was constantly remedy."

SPAIN IS EVER CRUEL

HER PLEASURE IN INFLICTING TOR-TURE ON THE HELPLESS.

Atrocious Treatment of War Prisoners Has Alway Been a Natural Characteristic-Deeds as Horrible as Any Savages Ever Thought Of.

"Aside from anything that a wilful partisan or a romantically inclined historian may have written, one can say, without fear of contradiction, that of all the civilized nations on earth, none ever has waged war in a more cruel and fraudulent manner than the Spanish," says a recent writer. "It is with horror only that the Germans think of the times of Alva, who devastated their fatherland by his atrocious actions, and transformed the industrial cities and provinces of the Netherlands into a desert.

"No better than this bloody executioner of King Philip were other Spanish leaders in the war waged for the independence of the Netherlands. The city of Maastricht, for instance, was plundered for three days, after having been besieged for four months by the Spanish General, Alexander Farnese, Duke of Parma. Eight thousand inhabitants were murdered, among them 1,260 women, who, after having been subjected to unspeakable outrages and tortures, were positively butchered.

"The cruelties of the civil war be-

Carlos III can hardly be described, and they are only surpassed by the brutalitles committed during the long war of the Spaniards against the French (1808-1814). When Napoleon had put his brother Joseph on the Spanish throne, and had taken possession of the country with his army the people became furious, and the fanaticism of the bigoted masses showed up in a revolting manner, as they feared for their religion from the enlightened French; the clergy, and especially the monks, preached that the French were inimical to the Catholic faith, and that Napoleon was 'anti-Christ in person.' They armed the peasants and started a bloody guerrilla war, and in this sort of warfare the diabolic character of these much-praised chivalrous Castilllans revealed itself with full force. The Spaniards murdered their enemies whenever and wherever they could lay their hands on them and invariably committed horrible atrocities against the wounded and prisoners, cutting off their noses and ears, or they sawed them in pieces, or crucified or slowly burned them. The Spanish women, those noble souls, whose virtues have been sung by exalted romances, committed acts of brutality herstofore almost unknown to man. In the Sierra Morrena, for instance, the transports of prisoners were attacked by them and they dug out the eyes of these unfortunate people with pins and scissors, and to enhance the misery of those who were wounded they cut open the soles of their feet and then compelled them to march. In 1808, when the French general, Dupont, and his 25,000 men surrendered at Baylen, a great many of the prisoners were tortured and killed in the above described manner.

"In the island of Malorca, where thousands of prisoners had been forwarded, the mob stormed the barracks and killed most of them on the spot.

"An English reporter, who was with

Wellington's army, tells of a peasant Frenchmen for hours, and begged the English escort most imploringly to give him one of the wounded enemies. When the English soldier asked him what he intended to do with the wounded man, the brute coolly replied, 'Why, torture him.' In the second volume of his memoirs, the famous French General, Marbot, tells of a dreadful ride performed by him while captain of the Chasseurs a Cheval in 1808. He started from Indela, in the Ebro Valley, with important dispatches from Marshal Lannes for Emperor Napoleon, who was stationed at Aranda, a village on the road leading from Burgos to Madrid. Marbot had to ride through a lonesome and mountainous region, where many bands of guerillas moved. He took two hussars with him as escort as soon as he reached Tazra, as he was told from there on his ride would be a most perilous one. It was moonlight when the three Frenchmen reached the mountains. Suddenly they heard the well known whizzing of bullets, but were unable to discover the enemy. As they had not been hurt they moved on and soon found scores of dead soldiers belonging to Ney's corps. They had been plundered, robbed of their clothing, and left naked by the roadside. Shortly after this they came to a lonely barn, where they met with a horrible sight. A young officer belonging to the chasseurs was nailed hands and feet to the barn door with his head downward, and, to increase the tortures of the miserable man, the barbarians had kindled a fire under his head. The poor fellow was beyond suffering, but it could not have been a long while, for the blood was still trickling from his wounds. The three riders were shocked, and when again bullets began to whistle from ambush the hussars answered with their rifles. They promptly killed two of their aggressors and then rushed at the others with sabres in hand. In an instant they jerked two of the offenders from their horses, of whom one proved to be He used Ely's Cream Balm and the a Capuchin monk, who had mounted the horse of the crucified officer, while the other was a peasant who carried two uniforms of murdered French mus-

SHOOTING ROCKS.

Cheap and Simple Way of Ridding the Farm

of Them.

This especial line of economics did not take place on my farm, says a writer in a farm journal, for I have been fortunate enough to have the rocks removed by former generations; but a neighbor was not so fortunate, and hearing the reports of his "shootings," I went over to see him. I found him about to begin operations on an ugly-looking rock that showed about six inches above the surface, and which was a botheration every time the field was plowed, cultivated or cut. With an iron bar, he sounded around it until he found the straightest side, then with the bar, a hole was made about two feet deep, slanting enough so that the end of it would be under the rock. A stick of dynamite (one-half pound) was crumbled in the hands, let run in the hole, and pressed lightly down with a broom handle; then a piece of fuse two feet long was put in, having a cap on the end, and another "stick" was crumbled on top of the first. This was so that the cap would explode in the dynamite. Then earth was filled in the hole and tamped lightly with the broom handle, a match applied, and we all set out on a brisk walking match until we got out of reach. There was a report and a hole in the ground and pieces of broken tween the followers of Philip V and of rock scattered about the field were all that was left of the troublesome rock. The dynamite cost for the one pound 71/2 cents, the fuse and the cap about

a cent, so the cash cutlay was about 9

cents, and the time of making the explosion was about 15 minutes. There

was the broken stone to be hauled off,

but in this case, he sold the stone for

50 cents a perch, so that what he got

for the stone more than repaid him for

Often a small rock, say three or four feet in diameter, will be turned out of the hole but not broken, then a stick or two is laid on the top of the rock, and a bucket of mud (with all the small stones carefully taken from it) is placed on the dynamite, the charge fired as before, and a broken stone is the result. The thing wherein most failures by beginners are made, is by not putting enough dynamite under the rock. One blast I saw was a case in point; after the blast, the stone was in almost the same position as before, but we saw by the impression on the soft earth that the stone had rolled to the top of the hole, and almost rolled out, and then for want of a half stick more, had rolled back again. Put enough under to do the work, or you lose all that you do put under. Another caution is to get as far away from the rock as the fuse will let you, or else get behind some tree and close up to the trunk. I saw a shutter of a house broken by a blast that was fired fully 100 yards away. This was, of course, an exceptional case, but one does not want to get hit, even by an exceptional

Chemicals for Weeds.

Prof. L. R. Jones, of the Vermont Experiment Station, has investigated the matter of destroying weeds on roads and gravel walks by means of chemicals, considerably, and says that the following chemicals seem most useful: Salt, sulphate of copper, sulphuric acid, carbolic acid, kerosene, and arsenic. Salt is most commonly used on walks to keep down weeds, and if liberally applied, will destroy most of them. Prof. Shutt, of the Experiment Farms at Ottawa, Canada, recommends the following: One pound of white arsenic, two pounds of washing soda, three gallons of water; boil and dilute with three times the volume of water; apply while warm, in fine weather. A thorough application at the beginning of the season will be sufficient to keep a path clean throughout the Summer. A simpler and very effective formula is as follows: Two pounds of sulphate of copper or blue vitriol; six gallons of hot water; dissolve and apply as a spray, or through an ordinary sprinkling pot. Any one having considerable trouble with weeds and grass growing on roads and paths, will do well to try these mixtures during the coming season.

How Food Induences Flavor.

There is no doubt that the flavor of milk is largely influenced by the food that the cow eats. Ensilage, corn meal, beets, clover, turnips, onions, cabbage, grass, all exert an influence upon the flavor of the milk, varying in intensity under various conditions. The flavor of some of these foods is always disliked, the flavor of others is always liked, while a few, and among them ensilage, impart flavors that are sometimes objected to and sometimes not. This objection may or may not be due to an unreasoning prejudice; it is an important commercial factor. If a man dislikes a thing, he will not buy it, even though its intrinsic value is unimpaired. I do not know that milk strongly tainted with garlic is not just as good for food as that most delicately flavored with the finest grasses, but it is unsalable, and the same holds with ensilage to those to whom it is objectionable,

It is not probable that the ensilage flavor is absorbed by the milk after it is drawn, if the latter is removed from the stable while still warm; but it is possible that the odor inhaled through the lungs of the animal may be diffused through the body, and so reach the milk. If the ensilage is of good quality; if the barn is kept reasonably free of the odor, and if the cows are fed immediately after milking, the amount of ensilage flavor imparted to the milk ought not to be objectionable to any reasonable consumer. That there are unreasonable consumers is undoubted, but let us hope that they will either discover reason or have to pay a good round premium for their

Ensilage of Whole Stalks.

The stalks were laid in courses, the butts all one way, and the different courses lapping like shingles on a roof. This ensilage was never entirely satisfac-The whole stalks admitted too much air, and there is too much decay. The best ensilage is, evidently, prepared by cutting into about threefouth-inch pieces.

Effect of Too Much Clover Hay. Too much clover hay or too much green clover may produce milk fever in cows. It is sometimes thought that heavy feeding of grain alone is re-sponsible for this trouble; but clover hay in large quantities may be dangerous for a cow kept in the stall just before calving.

SOROSIS

THE NEW SHOE FOR WOMEN ...

0

Many women have no idea how cruel shoes can be made.

They cover the feet to be sure, but what else do they do? Are all the pedal discomforts and dis-tortions natural to the feet? In every instance they are caused by poorly constructed and ill fitting shoes.

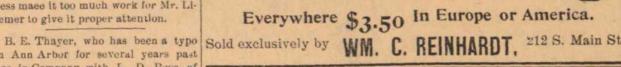

> Why do women wear 3s and 4s at twenty, and 5s or 6s at thirty?

Because the feet have been improperly trained.

The shoes have pinched and bruised the joints causing permanent enlargement and in many instances allowed the instep to drop and the foot to lose that arch, which is so attractive.

SOROSIS shoes are are so constructed, that the arch of the instep is always supported and the weight properly distributed. Those who wear SOROSIS are noticed for their easy, graceful carriage in walk-
