VOL. XXIV. NO. 47.

ANN ARBOR, MICHIGAN, THURSDAY, NOVEMBER 24, 1898.

WHOLE NO. 1248,

A PRISON WARDEN.

MICHIGA N LAWS REQUIRE FIRST-CLASS MEN.

When it Gets Them They Cannot be Removed Except for Cause-What the Law Requires-Will be Difficult to Oust Chamberlain-He is a Noted Authority on Penological Questions -Would be a Disgrace to the State to Throw Him Out and Substitute a Man Like Judson.

The fact that Governor Pangree may attempt to supplant Warden Chamberlain who is at the head of the state prison at Jackson, by such a man as Sheriff Judson has created a great deal of comment and adverse criticism. The fact that Pingree's majority in this county shrank from eleven hundred two years ago to only about one hundred this fall is almost entirely due to Pingree's support of Julson. In order to maintain his representative in power in this county, the Governor has given him more patronage to dispense than has been given any other county of its size in Michigan. Notwithstanding all this, Pingree's majority of 1100 two years ago was almost entirely wiped out. Had the same ratio of loss prevailed over the state Pingree would not be our next governor. In view of this condition of affairs, will the governor continue to band out the best offices in the state to the man who has brought about such a state of affairs? The majority of people seem to believe he will, if he can. The important question is, Can Gov. Pingree accomplish his purpose? The law approved May 26, 1893 relative to prison control states very explicitly just what the qualifications of a prison warden shall be, as well as the scope of his duties and the steps necessary to displace a person in such position. Each prison shall be under the control of a board of three members appointed by the governor, one to be appointed every two years. The Governor, by virtue of his official position, is also a member of each of these boards. The present board of control for the Jackson prison consists of one Judson man, H. S. Holmes of Chelsea, who with Gov. Pirgree, gives Judson two supporters and two anti-Judson men, one of the latter of whom goes out next February. If the Governor continues to favor Judson, he will appoint some one friendly to him. If he does, can he then accomplish bis purpose and oust the present warden? Section 6 of the law referred to above says: "The said board of control shall appoint, for the prison under their control, a warden who shall hold office during the pleasure of the board. He shall from practical experience, possess the ability and qualifications necessary to success fully carry on the industries of the prison and be one who has the executive ability essential to the proper management of the officers and em-

Continued on page four. MIGHT HAVE BEEN FATAL.

ployees under his jurisdiction, and to

Quite a serious accident befell Aaron Sanford at his home near the York church Saturday. Early in the morning he arose and went to the barn as usual to do the chores, as he entered the barn yard with a bundle of stalks for some young cattle that were there, a young bull attacked him. The animal had been de-horned hence could not gore. Sanford fought hard for a time, but soon was overcome and knocked down in a puddle of mud near a high fence, here the animal jumped upon him and rammed him around in the mnd with his head until he was worked upon the head of the animal when he was thrown high in the air for a new breath, a second throw landed him on the opposite side. He made desperate cries for help, but no one heard him, and with several ribs and bones broken and in his mangled and bleeding condition he crawled to the house and Dr-McLachlan was summoned.-Saline Observer,

IS HE DROWNED!

Strange Case at Joslyn Lake Near Bridgewater.

ing is fast becoming a mystery. Last

Thursday at dusk Lewis Bischoff, Albert Westphal, Wm. Sanders and George Glotts who had been hunting during the day started to cross the lake in a boat against a brisk wind. The load was all the little skiff could carry and it dipped water more or less. Bischoff, who bears none too good a reputation, and was said to be the worse for liquor, sat in the middle of the boat. A few rods from the shore Bischoff became restless in his sitting state of affairs: posture and rose to his feet, thus rockdown, but he would not, finally one of attorneys will map out their program all the water you want" and stepped sizing it, and sprang into the lake. It was a cold windy night and the men were heavily dressed and with rubber boots, were in a poor swimming condition They scattered, but soon after with the exception of Bischoff all swam and drifted to a sand-bar a few rods distant. The boat was righted up and they pursued their journey to the shore where they summoned assistance and with lanterns searched the banks, but with no rescue or trace of the missing companion. The lake has since been dragged and covered with men and tackle hopeful of getting some trace, but as yet only the three guns, Bischoff's hat and one mitten have been found. News was sent to his father who lives in New York, and the surprising answer came back that "Is he the Pingree candidate?" "You bet he is." there was not enough water in the lake to drown the son. Many look upon the affair as a most peculiar one, and with some there is a lingering thought whether the man is in the lake or not, and if pot had he any purpose in view when he tipped the boat .- Saline Observer.

MAY HAVE A NEW FACTORY

Effort to Organize a Company to Re-Open the Ferguson Factory on Detroit Street-In a Fair Way to Succeed

Since Mr. A. P Ferguson consolitated his cart and carriage business with a St. Louis firm some three years ago, mony was performed at the residence the factory buildings on Detroit street of Dr. V. E. Lawrence, 410 Maple have been vacant. Mr. Ferguson has street, last evening at which time Mr. recently returned to Ann Arbor and is Henry Phillips and Miss Emilie G. making an effort to organize a company Eldridge were united in marriage. with a capital of \$25,000 to open up the Mr. Phillips is a native and resident of business again in Ann Arbor. It is Long Island, N. Y., and Miss Eldridge stated that outside people have sub- is Miss Lawrence's only sister. Hubbard, of the Evening News was in the city last Saturday night. He was here looking up the situation as to possible candidates for the spring election. Here is how he wrote up the

"Regent H. S. Dean will fight to a ing the boat causing it to dip still more. The men spoke to him to sit about three weeks and Col. Dean's

them with an oar struck him across the rump whereupon he said "I'll give you judge. Dean will be a candidate for all the water you want" and stepped regent in the coming convention. upon the edge of the boat thus cap- Kinne will be a candidate for the supreme bench. Local politicians on both sides admit that Washtenaw cannot secure two nominations from the same state convention. Kinne is a Pingreeite, while Dean is an anti and they will fight for the county delega-

Just at present it is a game of bluff. Dean declines to talk, but his h ief lieutenant said:

"We sent word to Kinne that there could not be two candidates from Washtenaw and that Dean would be

one sure. After some talk Kinne said he would not be a candidate."

Sheriff Judson is, of course, the power behind Kinne's political throne. He said last night: "You can just bet every cent that you've got that Kinne is going to have every delegate from this going to have every delegate from this going to have every delegate from this county. I don't know anything about Dean, but Kinne is going to have this

"How about Maynard?"
"Oh, I don't know, but I'm not for Maynard, and I don't believe the Gov-

ernor is, er, er—I don't know though."

Regent Dean will go into the fight with a large amount of Pingree support in spite of the sheriff's opposition, for Washtenaw people do not like to see the board of regents so largely made up of Detroit men and feel that Ann Arbor ought to have at least one regent for her pet institution.

cannot continuary pump impure blood into every organ of the body without making those organs sick. Pump impure blood into the brain and there is soon a sick brain. It will show in headaches, dizziness, drowsiness, dull eyes, frightful dreams and loss of sleep. Pump bad blood into the lungs and the result is consumption, bronchitis, asthma, weak lungs, spitting of blood or throat or nasal troubles. Peed the nerves and brain cells upon the poisons of an impure blood and the consequence is nervous exhaustion and nervous prostration. Dr. Pierce's Golden Medical Discovery cures these diseases and cures the conditions that cause them. It restores the appetite, makes digestion and assimilation perfect, the liver active, the blood pure and the nerves steady. It is the great blood-maker and flesh-builder. It cures 98 per cent. of all cases of consumption. It is the best remedy for blood and skin diseases. Druggists sell it.

Win. Smothers, Esq., of Millston, Jackson Co., Wis., writes: "I wish to say that Dr. Pierce's Golden Medical Discovery is the best medicine for the Grip that I have ever tried. I was cured twice with it when I could not get any other relief."

"A stitch in time saves nine." Doctor Pierce's Common Sense Medical Adviser tells the mother how to take one little tens the mother how to take one little home stitch that saves nine costly visits from the doctor. For a paper-covered copy send 21 one-cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y. Cloth binding, 10 cents additional.

THE BEST AND CHEAPEST.

The New York Independent, the leading weekly newspaper of the world, and one whose pages exercise the widest influence, is entering upon its fiftieth year of publication. The Independent emphasizes its fiftieth year by changing its form to that of a magazine, and by reducing its annual sub-scription price from \$3.00 to \$2.00; single copies from 10 to 5 cents. The Independent in its new form will print 3,640 pages of reading matter per year while the prominent magazines, which sell for \$4.00 a year, print only about 2,000 pages. The subscriber to The Independent gets \$2 per cent. more of equally good reading matter at one-half the cost! It is not only the leading family weekly newspaper but by far the cheapest and best. A free specimen copy may be had by address-ing The Independent, 130 Fulton

GRAPE-LEAF HOPPER.

Several Distinct Varieties of the Pests Tha Infest the Vineyard.

There are several distinct kinds of leaf-hoppers that work upon grape leaves. All are minute, narrow, yellowish insects about one-eighth inch long, and some have their wings vineyardists, these insects are known as thrips; properly, however, this name belongs to an entirely different group of insects. The grape leaf-hoppers pass the winter in the adult state hibernating under dead leaves or other rubbish, the survivors becoming active in spring, when they insert their eggs in punctures in the leaves of the vine. The yellow nymphs are hatched from these eggs during the month of June, and they resemble their parents except in size, and in having no wings. During their growth, they shed their skins (which are nearly white) several times, and although exceedingly delicate and gossamer-like, the empty skins remain for some time attached to the leaves in a very lifelike atti-

The nymphs feed together on the under sides of the leaves, and are very quick in their movements, hopping briskly about by means of their hind legs, which are especially fitted for this purpose. They have a peculiar habit of running sideways, and when they see that they are observed upon one side of a leaf, they will often dodge quickly around to the other. Each is furnished with a sharp beak or proboscis, with which it punctures the skin of the leaf, and then sucks out the sap; this produces yellowish or of piles. brownish spots on the upper surface At first, these spots are small, and de not attract attention; but as the insects increase in size, the spots often involve the whole leaf, which appears as though scorched, and it often drops from the vine. Occasionally, vines become so far defoliated that the fruit fails to ripen.

With the full growth of its wings, the insect acquires such powers of flight that it readily flies from vine to vine, and thus spreads in all direc-It continues its mischievous work until site in the season, when it seeks shelter for the winter.

The Clinton, Delaware, and other thin-leafed varieties suffer more from the attacks of these leaf-hoppers than do the thick-leafed sorts like the Concord. The insects are sometimes quite abundant in a vineyard one year, and comparatively scarce the next. Their preservation, doubtless, depends much on favorable hibernating conditions. One should not wait until late in the season, when the leaf-hoppers are fullgrown and can fly, before beginning active warfare against them. When young, they can only hop about, and are, also, more susceptible to insecticides. As they suck their food from the interior of the leaves, the poisons can have no effect upon them. Kerosene emulsion or whale-oil soap (one pound dissolved in six to ten gallons of water) thoroughly applied, and aimed at the insects on the under sides of the leaves about July 1, will check these leaf-hoppers. It will require much more than ordinary care in spraying to hit these insects. The nozzle should be arranged on the end of a short tube bent at right angles so as to form what is known as an "under-spray nozzle." One or two thorough and intelligent sprayings about July 1 will surely hold the pest in check.

In New Jersey, where the insects are often very serious pests, and especially where the vines are trained on wires, some of the vineyardists report excellent results from the following procedure: Very large palm-leaf fans are covered on both sides with gas tar, and these are then swung about near the vines as one walks along between the rows, and another person walks along on the other side and jars the vines, thus disturbing the insects, and causing them to jump or fly off for a moment. The result is that thousands of the leaf-hoppers are caught on the sticky fans. One authority states that, by repeating this operation two or three times a week for two weeks, practical exemption for the rest of the season can be secured. Much of the success of this method will depend upon how thoroughly the insects are disturbed and made to leave the vines, also upon how actively the fans are operated. In fact, the success of any operation against insects depends largely upon the intelligence and thoroughness one puts into it. There is altogether too much haphazard, guesswork kind of insect warfare carried on

Fruit for Food.

The use of fruit for food has recently secured very strong advocacy from some of our leading physicians. It is now said that there is no more speedy and ready cure for liver difficulties than to make our breakfasts entirely of apples; or for a few days to eat nothing else. The effect is equally good in curing cases of constipation and other intestinal troubles. certain that we have so far overlooked the extraordinary value of fruits as

Japan Plums.

The Japan plums are remarkably well-flavored when cooked, and much better than Bradshaw and Lombard. Washington is a part of the paradise of the plum, and the Japan varieties do remarkably well there. As to their sale in the local markets in comparison with the European type of plums, nothing but experience will The Japan plums ship better than almost any others, either native A GREAT REMEDY

I or Sufferers Fr. m Piles.

Dr. Redmond, a spe i list in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tred in one respect; and that was the instant relief crossed by blood-red bands. Among experienced in all cases, no matter how severe, from the moment the remedy was appled. This was the more surprising to him because he had carefully analysed the prepara ion and no trace of opium, cocaine or similar poison could be detected.

Physicans look with great favor upon the Pyramid Pile Cure, because it is rapidly taking place of surgical operations and because it is so simple, so easily applied and contains no miner: 1

various forms of piles, but never fails application, no matter how severe the pain or discomfort may be.

for years are often astonished at the instant relief experienced from the advantage is the fact that anyone can session of those islands as security use the remedy without detention from business or interference with daily oc-cupation. Sold dy druggists at 50 cents

A BFAUTIFUL COMPLEXION.

Within the Reach of Every One Who Will Exercise Ordinary Care.

There is nothing to which so little attention is given as the care of our skin, and yet there is nothing that so delights the eye as a beautiful, clear complexion. Any healthy person can have a clear complexion who gives it ordinary care, and avoids the cheap or highly scented and colored soaps, which are skiu irratants. The old prejudice against washing the face with soap has entirely disappeared, and with good reason, for certainly when the atmosphere is full of cust, smoke and cinders, the skin cannot be kept clean without the use of soap—which should be composed of pure ingredients.

Kellar's Tar Soap—made from the best pipe tar, pure oils and glycoring.

best pine tar, pure oils and glycerine-is a matural food for the skin, and will remove blackheads, pimples, and other facial blemishes, making the skin smooth and soft. It gives a nice, soft lather, and does not cause that feeling of irritation in the skin which follows the use of inferior soaps. Kellar, a Tar Soap possesses great antiseptic properties, is recognized by leading practitioneres of the medical profession—many of whom use it in their homes and recommend it in their practise—renews the skin and makes it soft, white and healthy in the only netwest. white and healthy in the only natural

and perfect way.

Ask your dealer for Kellar's Tar
Soap. Take no substitute. If he does
not keep it, write to the Kellar Soap company, Williamsport, Pa., who will send it postpaid to any address at the regular price, 15 cents per cake. Be-ware of imitations of Kellar's Tar Soap.

Considerable excitement was stirred up in California township, Branch ounty, by the sudden death of Mrs. Fay Graham, aged 22, but recently married. She had been in good health and soon after dinner went to her

The C. & W. M. depot and mammoth grain elevator, containing 4,000 bushels of wheat, were burned at Watervliet. The fire originated from a passing engine. The water supply from the big paper mill was a failure, and only the heroic work of a bucket brigade saved the village. The damage is from \$10,000 to \$15,000.

Fire was discovered at 2 a.m. in C shaft of the Atlantic mine at Houghton. The alarm was promptly given and the 200 miners at work escaped on the skip cars, but it was a narrow escape. As soon as the work of rescue was completed, the mouths of the shafts were sealed to smother the flames. About 500 men are thrown out of work.

What Shall Be Done

FOR THE DELICATE GIRL

You have tried iron and other tonics. But she keeps pale and thin. Her sallow complexion worries you. Perhaps she has a little hacking cough also. Her head aches; and she cannot study. Give her

Scott's Emulsion

The oil will feed her wasting body; the glycerine will soothe her cough, and the hypophosphites will give new power and vigor to her nerves and brain.

Never say you "cannot take cod-liver oil" until you have tried Scott's Emulsion. You will be obliged to change your opinion at once. Children especially become very fond of it; and infants do not know when it is added to their food.

50c. and \$1.00; all druggists. SCOTT & BOWNE, Chemists, New York.

HE OPPOSES COLONIES

Supreme Court Justice Brewer Says We Should Not Add to Our Domain.

Justice David J. Brewer of the United States Supreme Court, has given out the following interview declaring against the annexation of the Philippines, Porto Rico and Cuba, and against territorial expansion or an Anglo-American alliance:

"I think we may have to take possession of Cuba, Porto Rico and the Philippines as a war measure and for the purpose of getting indemnity. I should look upon all save Cuba simply in the same light as if I held a mortgage upon a man's farm. I would foreclose that mortgage, not because I wanted to take the farm, but for the reason that I wanted the farm to sell in order to raise the money. I do not see how Spain will ever be able to pay or other poisons so commonly used in us an indemnity, and so I would take cures. Dr. Esterbrook reports that the ent with our policy, and it is certain-Pyramid Pile Cure not only cures the ly necessary that we should keep Cuba for awhile and have an army there in to give immediate relief on the first order to maintain good order. There are more than a quarter of a million people on the island, and it will take some time to get a stable government, People who have suffered from piles and until they do, I think, as a matter of humanity, that we should keep a force of troops there to preserve orfirst application. Another important der. When we have demanded posfor the payment of indemnity, and have kept Cuba for the sake of order, I think we should then let them go.

"I do not believe in colonial expansion at all. I think Hawaii stands in different circumstances. My objection to colonial expansion is twofold. You take the Philippines with from 6,000, 000 to 10,000,000 of people, and Cuba with more than 250,000 and Porto Rico I do not remember the number, but there is but one way to manage those people and that is by force, just as England manages Egypt, South Africa and India to a great extent. Their Government over these colonies is arbitrary, despotic, you may call it, but they appreciate the necessity of good government and govern wisely, but for all that it is not a government of the people. I do not see how we could initiate that kind of colonial government without changing our theories of government. Of course we could govern them; that would not be a physical impossibility, but in order to do so we must change our theories of gov-

"In the territory we have hitherto taken into our government we have introduced a territorial system of government, a territorial legislature, or a Government of the people. I do not think that that can be done with those people, and I think it will be introducing a new system of government in this country. Again, I think it would compel an unnecessary increase in our army. I do not know but that some increase is needed. We would be bound to have a large increase in our navy and I do not like the idea of this country considering herself a military power. I think if we had a large army and a large navy we would be getting into trouble with other nations. It is human nature for an army officer and a navy officer to want promotion, and if it does not come rapidly enough he wants a war to bring it about.

"In so far as the Philippines are concerned, especially it seems to me that it would be a black eye to the Monroe doctrine. When we said that room, where she was found dead on the | tinent it was a sort of implied declara tion that we would not take any possessions in their continent. If we would reach out into Asiatic countries and take the islands there it would look as though we could not say anything if European nations reached over here and take possession of terri-

"There is another thing in this connection I want to talk about. I have seen in a good many religious papers and heard in a few sermons, that because we have the best civilization in the world it was our destiny and our Christian duty to reach out and make other nations accept our civilization. It seems to me that the best way we could make our civilization of value to others is by example and not by force. We could make it valuable to the world a great deal better by example than by appropriating territory.

"If it had been proposed in Congress the 1st of January to appropriate the Philippine Islands, Porto Rico and Cuba, I believe it would have been voted down four to one. Yet the war has developed such conditions that a great many men in Congress as well as out of it are beginning to think that colonial expansion is before us. There is a very different seatiment in Congress than there was at that time."

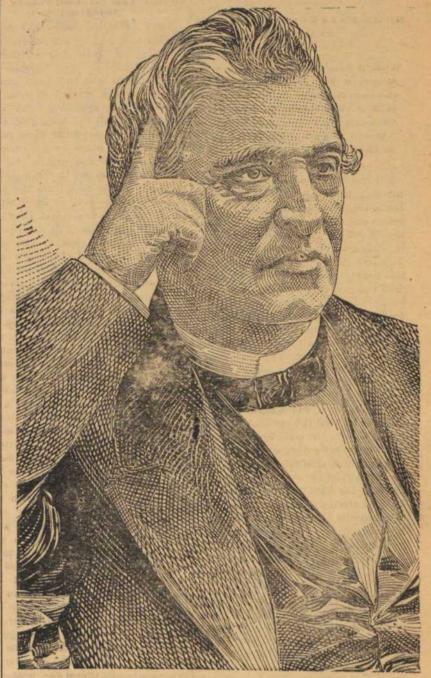

"What is your idea about the proposed Anglo-Saxon alliance as mentioned by Chamberlain in his speech some time ago and talked of in this country?" was asked.

"I do not believe in a formal alliance. I think George Washington's advice is as sound to-day as it was when it was given, to avoid all alliances. At the same time, I believe in an arbitrating tribunal to settle all disputes between the two nations, and also believe in the closest kind of intercourse between them. I think a formal alliance would expose us to the possibilities of controversies with other nations."

First Bale of Cotton of the Season. The first bale of cotton of the season of 1898 was sold under the hammer in front of the Cotton Exchange, and brought \$1 a pound. The United States Hospital will be \$500 better off as a result of the sale. Under ordinary circumstances such a bale would be worth about \$30. Patriotism was the factor controlling prices.

bor to Lodi Plains, Lodi Plains to Saline Village, Salin : Village to Ypsi lanti and from Ypsilanti to Ann Arbor and is known among students and go south and south-west on what is turns north about two miles and a half known as the gravel road until you strike Lodi Plains, then cross Lodi Plains on the main road south and south-east until you come to Saline Village. The route from Saline Village to Ypsilanti runs north-east on what is known as the Ypsilanti and Saline gravel road. From Ypsilanti to Ann Arbor the bicycle riders usually take what is known as the south road or the electric line road. The roads far as relates to the exportation of on this triangle are for the most part well graveled and good bicycle and carriage roads. From Ann Arbor to Lodi Plains it is somewhat hilly, exports aside from the manufactures enough so to make it interesting travel-The rest of the distance for the most of the articles exported, though in passes through a very fine and productive farming section and is bordered by good farm buildings and well culti-

the cemetery on Loli Piains on the right hand going south, you will notice a fine, large farm house and large barns with a farm connected consisting of several hundred acres. This farm used to belong to John Lowry, and he was a noted abolitionist and underground railroad man before the war. He was considered by many to be at least a very eccentric character, but as | year, being \$154,454,074, against \$137,history has shown since it was the 138,084 last year. entire American nation that was more eccentric than good, old John Lowry. Mr. Lowry's house was one of the stations to the underground railroad and he assisted a great many slaves on their way to Canada. I have been told ceding year except that of 1892 which by one of the old settlers, who used to amounted to 225,665,812 bushels. The live in that neighborhood, that he had value of the wheat and flour exported a large sign hung up in the trees in during the year amounted to \$212,891. front of his house with a figure of a 639, a sum only surpassed in 1880 and stalwart negro painted on each end, and on the sign was written "Refuge of the oppressed. Let the slave go 416. free." Mr. Sellick Wood, lately deceased of our city,, told me that when he was a young man he drove a number of loads of fleeing negro slaves from Mr. Lowry's home to the Detroit river \$75,260,067. The largest exportation and saw that they were safely carried of corn in any preceding year was 178, across to Canada. It is also narrated 817,417 bushels in 1897, valued at \$54,that Mr. Lowry went down to Wash- 989, 213, while in no year prior to 1897 ington to see President Polk during his administration and warned him that the nation was in danger if the slaves were not freed. President Polk treated him kindly, smiled at his good advise and undoubtedly perpetratel a ed being about double that of the pregood many jokes at the expense of the ceding year. The value of the exports rabid Michigan abolitionist when it of oats and oat meal in the fiscal year would have been much wiser to have 1898 was \$22,339,752 against \$9,827,547 paid some heed to the predictions that in the previous year. The value of rye came true in '61.

Just south of the cemetery on this route and across the street, being on the left as you are going towards Salire is located the school building of the somewhat noted preparatory school of Dr. Rufus Nutting. Only a part of the old school building and the dwelling the established forest policy of the house of Dr. Nutting remains. This state of Pennsylvania was taken by school was established by Dr. Nutting in the '40s to prepare students for the pointed the Forest Reservation Com-

Woman's ******* Severest Trial.

Until recent years woman's severest trial has been the bringing of children

into the world.

Today nearly all the sickness, pain, discomfort and dread are avoided by those expectant mothers who use Mother's Friend, that wonderful liniment made famous by the great good it has done. It is used externally. That is the only sensible and safe way to relieve morning sickness, headache, tightness, swollen, hard or rising breast. The bearing of children need no longer be dreaded. Mother's Friend has been called a Godsend by mothers all over this land. Sold at drug stores for \$1 a bettle and been lead to be the sold by the store of the

bottle, and by The Bradfield Regulator Co., Atlanta, Ga. school there were in attendance from

fifty to one hundred and fifty students DESKIPTION OF PLEASANT WALKS each year, and the students boarded in the farm houses on the roads branching out from these four corners of Lodi Plains. Dr. Nutting was a fine Latin and Greek scholar, a good mathematican, and such scholars were not very numerous in the West at that time. left hand road where it branches near His school acquired a reputation for the city limits, about two miles until thoroughness in sch larship and disciyou reach the small lake or pond on pline and made it very prominent as a the left, then turn to the right on the preparatory school in those days. If a person does not wish to go as far as Ypsilanti, any of the roads going north fron the Saline and Ypsilanti bicycle riders as the Triangle. You start from Ann Arbor on Main street, known as the State street road, and from Saline. This drive is about twenty-tive miles.

FEEDING THE WORLD.

America's Remarkable Food Exportation

as Shown by Recent Official Reports.

The record of the most remarkable year in our export trade has been completed by the bureau of statistics so wheat, corn and other breadstuff's, pork, beef and other provisions, cotton, and mineral oils. These articles form a large percentage of the total

The figures show in most cases a ing for those using a bicycle or carriage. large increase in quantity and value part is comparatively level. This road some cases, notably mineral oils and cotton, the export price per unit has averaged less during the year than in the preceding year.

The cotton exported during the year increased from 3,103,754,949 pounds to There are some interesting places on 3,341,332,800 pounds, while the total this route. Just before you come to value last year was \$230,890,971 and for the year just ended 239,907,472.

The exportation of mineral oil increased from 973,514,946 gallon, to 1,-022,210,379 gallons, yet the total value in the year just ended was only \$55, 171,000 against \$62,635,037 in the preceding year.

In provisions, including beet, pork and dairy products the value of the exportations was greater than last

In wheat, corn, oats and rye the increase in both quantities and values of wheat for the year (flour included), amounted to 215,171,961 bushels, which exceeded the exportation of any pre-1892, the total in 1880 being \$225,879,-502, and that of 1892 being \$236,761,-

In corn the exports for the year exceeded both in quantity and value those of any preceding year, the number of bushels (including corn meal) being 209,859,102 bushels, valued at did the quantity of corn exported ever reach half of the year just end-

In oats, oat meal and rye, the exportation also greatly increased, the total in each case for the year just endexported was \$8,795,820, against \$3, 667,505 in the previous year.

Total value of breadstuffs exported \$324,706,060, against \$197,857,219 in the previous fiscal year.

Pennsylvania's Forest Policy.

Another important step forward in the Governor when he recently upmission under the Act of 1897. He named as members of this commission Prof. J. T. Rothrock, the State Forestry Commissioner; Major I. B. Brown, Deputy Secretary of Internal Affairs; Dr. George G. Groff, President of the State Board of Health. and Albert Lewis, of Bear Creek, Luzerne county. Another member is yet to be chosen under the act. He must be a lawyer and conveyancer, and it is understood the Governor has selected

a man for the place. The commission will fix and report 40,000 acres, each at the headwaters of the three chief waters, the Delaware, Susquehanna and Ohlo. The act provides that the land selected shall have no agricultural or mineral value. and the condemnation proceedings will be similar to those pursued in securing

Valley Forge Park. The reservations must have some woodland, and be at least 800 feet above sea level.

DISH CLOTHS.

The Reverend Thomas K. Beecher said there was only one thing about with liabilities of \$5,675. The comhousekeeping that troubled him, and pany has \$310,000 of insurance in force. that was, what to do with the dish cloth. I think there are some women who have not altogether solved that problem. Indeed it needs some ergineering to have a clean, dry sink, table, stove, dishpan, etc., and a clean dish cloth, too. But it can be done. A part of the puzzle is made easier by the orderly assorting and scraping of the dishes before washing them. Very much of the grease can be kept from was strongly marked. The exportation the dish cloth, by wiping it off out dead, from dishes, pots and pans, with bits of cloth or paper and burning them after-

Fifteen Cents per year additional to

THURSDAY, NOVEMBER 24,1893.

GEO. S. WHEELER will vote for the re-election of U. S. Senator Burrows. This rather astonishes the Judson people who worked so hard for Mr. Wheeler and who did so thinking he would servilly follow orders when in the legislature. If there are many such men as Mr. Wheeler among those elected to the legislature this fall, there may be more truth than poetry in the claims made by the Burrows people that the senator will be re-elected on the first ballot.

LAST week's Dexter Leader contained two editorials which do not harmonize very well. Here they are:

The result of the recent county election has demonstrated that as "political party purifier" the Ann Ar bor Register is a howling success.

The republican party in Washtenaw county owes its humiliating position today to the effect of "boss rule" and should learn practical wisdom there-To paraphrase an old saw, "Two many bosses spoiled its broth.'

The former was evidently written in Ann Arbor while the latter sounds Thompsonian. We would advise Bro Thompson to compare notes hereafter when politicians hand in editorials for him to father. We expect the Leader to deny this next week as it is not pleasant to acknowledge that one has been "worked."

THE Chelsea Standard says that Canfield's suit against Allmendinger is the third damage suit resulting from the anti-Judson fight. This is only the second so far as the Register is aware We would like to know what the other And Arbor Register. May be Th Standard has given The Register credit for doing more damage than it really had, but its recollection is that there have been three damage cases institut ed, all of which are directly tracable to the outcome of the republican love feast at Ann Arbor last February .-Chelsea Standard.

If The Standard will point out just where THE REGISTER has done any "damage" it will give its readers som news. THE REGISTER has done what it could to aid the Republican party to rid itself of an unscrupulous boss. Is this what you refer to as "damage," Bro. Hoover?

EDITOR Lisemer, of The Times, is just now in an excellent position to appreciate Democratic gratitude. He. through his paper, turned heaven and earth to elect Ward to the state legisla ture. It is not at all unlikely that The Times influenced enough votes to give Ward the small majority by which he was enabled to pull through. And then before the ink on the official report is fairly dry Ward becomes one of a firm to start a new Democratic Daily that must necessarily result in Lisemer's losing thousands of dollars worth of business and profits. That is gratitude with a vengence. Its about the same sort of gratitude that was shown last February when a lot of hustling young Republicans had, after devoting a large amount of hard work and a considerable cash expense, organized a Republican Club. A score of the silk stocking ilk saw that if the club went on they might not continue to be the 'whole hog" and so they decided that the organization must be "smashed" and they proceeded to smash it and succeeded by means of a little damnable treachery. Their action was one of the factors that helped to bring about a Democratic victory this fall. The Democrats doubtless are 'grateful" to the Republican gang who started the ball rolling.

W. C. T. U.

The regular meeting of the W. C. T. U. will occur on Friday. Nov. 25, at 3 o'clock in rooms over postoffice. All are cordially invited to come and hearreport of the county concention.

NEWSY GENERALITIES IN OUR GREAT STATE.

ITEMS GATHERED FROM ALL THE HAPPENINGS IN MICHIGAN DIRECTIONS.

American-Canadian Commissioners Find it is Hard Work to Make a Treaty-Convicts and Guards Have a Deadly Battle in the Ohlo Penitentiary.

Reciprocity and Fisheries.

Members of the Anglo-American commission - Canadians and Americans-now in session at Washington, express the hope that the commission will complete its labors before the holidays, but they are not yet willing to state that a treaty will be framed covering the many subjects of difference between the United States and Canada. The questions of border immigration, mining rights, lake fisheries and the Alaskan-Canadian boundaries have been found less difficult of solution than was expected, and a basis of agreement on these subjects is in sight if not actually determined upon. Reciprocity and the Atlantic fisheries continue to be the stubborn questions before the commission. On reciprocity the commissioners do not express themselves in sanguine terms. While the abrogation of the British preferential tariff - which gives Great Britain a preference of 25 per cent on all tariff duties - is considered by some of the American commissioners as a sine qua non to any reciprocity agreement, it is said this view has not been submitted in the form of an ultimatum and that the issue on that point is yet to come. The Canadian government is favorable to granting enlarged rights to American fisherman in Canadian waters of the north Atlantic, if in return Canadian fish are admitted free of duty to American markets.

Deadly Battle in Ohio Penitentiary.

Has Spain a Secret Ally.

An order has been issued by the war lepartment directing at least 10 regiments of the regular army now stationed in northwestern forts to hold themselves in readiness for immediate service in tropical climates. These regiments will be recuited to their full strength. It is believed that the U. S. government desires to be in readiness to resume hostilities if Spain refuses to accept the peace terms. In this con-European powers.

orders to be prepared for a renewal of hostilities and the forts in the Canary islands are being rapidly manned.

Eleven Men Ground Under the Wheels. While a gang of 20 track hands were at work upon the Pennsylvania railway's line over the Hackensack, near Jersey City, they were run down by a ocal passenger train. Eleven of the workmen were killed outright and six were seriously injured. Only three escaped unhurt. There was a heavy fog which prevented the man seeing their danger, the train was running at a high rate of speed and the noise of a train which had just passed on the other track drowned the approach of the train which did the terrible execution.

Troops Go to Havana Within 10 Days. The movement of United States troops to Havana province will begin within 10 days. The exact date of their arrival will be determined by the reports of Maj.-Gen. Greene, Col. Frank J. Hecker, of Detroit, and others now in that province. The occupation of Cienfuegos is also receiving attention. Gen. Snyder will command the first brigade which land in that province.

Uncle Sam Offers Spain \$20,000,000 for

the Philippines. - The Crisis at Hand. The reply of the American peace commissioners to the Spaniards' declaration, that the commission had no right to discuss or question Spain's sovercignity in the Philippines, was much in the nature of an ultimatum, and, although it was clothed in choice diplomatic language, it was a practical lost in useless quibbling. The Americans came directly to the point and declared that the United States must have the entire Philippine archipelago, and for a treaty cession of the islands, the Americans tendered to Spain \$20 .-000,000. They declared that it is the purpose of the United States to maintain the Philippine islands as an "open door" to the world's commerce. On the terms named, the United States proposes a mutual relinquishment of all claims for indemnity, national or personal subsequent to the outbreak of

November 28th is fixed as the date on which the United States commissioners desire a definite response to in issue.

It is also declared that the United States desires to treat on the religious freedom of the Caroline island, as agreed upon between the United States and Spain in 1886, and also in the acquisition of one of the Caroline islands for an American naval station, and of cable-landing rights at other places in the Philippines. Spanish jurisdiction, and the revival of certain Spanish American treaties as in force.

The Americans also refuse to arbirate article 3 of the peace protocol, bearing upon the future disposition and control of the Philppine islands.

The London papers concede the generosity of the offers of the United States peace commissioners and express the opinion that Spain would be foolish to reject them. They express universal gratification at the announcement of an "open door" policy in the Philippines. The Daily Mail calls the offer of \$20,000,000 indemnity "a surprising act of generosity.

Cuban Commissioners Arrive.

Gen. Calixto Garcia and the other Cuban commissioners appointed by the military assembly at Santa Cruz del Sur, have arrived at Washington for the purpose of laying before President Gump opened fire on the two prisoners McLean who died at Stearns and was McKinley a resolution recently adopted by the assembly as to the future of the sland of Cuba. The commission consists of Gen. Calixto Garcia, chairman; Gonzalo Lanuza, Manuel Sanguily, Gen. Jose M. Gomez and Jose Ramon Villalor.

Gen. Garcia says: "The Cubans have no other feelings for the Americans than those of friendship and gratitude. As for myself, I believe in American occupation of Cuba until order has been restored, but not forever. I am for free Cuba, and so are all other Cubans. There is no sentiton county, W. G. Van Slyck; Manning, ment on the island for annexation. All Cubans have faith in Mr. McKiney." Gen. Garcia also said that at the assembly at Santa Cruz del Sur there was the greatest spirit of unity shown.

Wm. Menose, of Ellis Junction, Wis., was told as a joke that his wife, from whom he had separated, was about to wed another man. He broke into her home and after shooting the woman killed himself.

The fighting between the striking union miners and the imported Negro laborers and the absolute lawlessness of the latter have completely terrified the citizens of Pana, Ill., and Gov. Tanner has sent more troops to the scene and declared the town under martial law.

The largest warship in the world, the ram battleship Formidable, of the British navy, has been launched at the Portsmouth navy yard. She is 400 feet long, 75 feet beam, and draws 26 feet, 9 inches of water. She cost over \$5,000,000 and is estimated to steam 18 knots an hour.

E. V. Chilson, for eight years city editor of the State Republican, Lansing, has resigned, having been se lected as under-sheriff and chief deputy to Sheriff-elect W. H. Porter. Mr Chilson will probably act as assistant secretary of the senate during the legislative session.

Nearly \$7,000,000 were added to the market price of copper stocks in the upper peninsula within a week. The boom is without precedent and a score of respectable fortunes have been made by local speculators. The boom is in shares and is accompanied by an equal boom in reopening old mines and developing new ones. Some 5,000 extra miners will be set at work next season.

Gov. Pingree has appointed Lient. O. Fountain, Co. K, 35th Michigan, captain of that company to succeed the late Richard S. Lockton, of Marshall. Capt. Fountain is a resident of Marshall township, Calhoun county.

CAMPUS.

The third edition of Cooley's Constitutional Law, edited by Andrew C. McLaughlin, professor of American history at the University of Michigan has just appeared from the press of Little, Brown & Co., Boston.

There were in Michigan this year nine candidates on the different state tickets who were graduates of the U. warning that no more time would be of M. Also five congressional candidates, one candidate on a judicial ticket, six senatorial candidates, twentyfour candidates for representative, and thirty-five candidates for various county offices.

The enrollment of the University of Michigan Summer Schools for 1898 was 240, or 15 more than for 1897. The enrollment in the literary department was 207 as against 185 for the previous year, and in the law department 33 as against 40. The falling off in the law department is supposed to have been due largely to the war.

the propositions and all other subjects & Co., New York. The author is Professor Dean C. Worcester, of the University of Michigan. The work embodies observations made during two visits to the islands, one in 1837 and the other in 1890, and is illustrated with many original photographs. An appendix deals with the resources of

The dance to be given for the benefit of the Athletic Association at the close of the football season will probably have its date on December 9th. It will be given in the Gynasium and the Varsity band will furnish the music The affair is to be strictly informal and every student in college is invited and urged to be present to help make this, the first of its kind, a great success. Tickets will sell at \$1 per couple.

A considerable portion of the work on Public Debts by Professor Henry C. Adams, of the University of Michigan. has recently been translated into Japanese. The translator is Dr. Y. Ono, who took a doctor's degree at the University in 1889. He is now an official of the Bank of Japan and an authority upon Japanese finance. The manuscript of the translation was revised by Itsua Tokbnaga, formerly a student of Doshisha College, Tokio, but now a member of a graduate school of the University of Michigan.

The libraries of the University of Michigan contained on June 30, 1898, 122,962 volumes, 18,461 pamplets and 1,299 maps. They were distributed among the several libraries as follows: General library, 98,222 volumes, 16,952 pamphlets and all the maps, law library, 14,609 volumes; medical library, 8,630 volumes, 1,499 pamplets: homoeopathic library, 665 volumes, 10 pamplets; and dental library, 836 volumes. The two medical libraries are shelved with the general library, the law library occupies a large, wellarranged room in the new law-building. and the dental library is in a room in the dental building.

Through the generosity of the Honorable Dexter M. Ferry, of Detroit, a noteworthy addition has just holds the world's record of 1:59 1/4, was been made to the Library of the the effect that during the delay in the peace negotiations, Spain has been able peace negotiations, Spain has been able as startled, at intercepting a big stick Cleveland, for \$15,000.

University of Michigan. It consists of a very full set of the originals of Mathematical Cleveland, for \$15,000. thew Arnold's works, including the extremely rare volumes of 1849 (The Strayed Reveller) and of 1852 (Empedo The latter of these cles on Aetna). was withdrawn from circulation by the author before fifty copies had been sold, and was reprinted only at the solicitation of Robert Browning lifteen years later. Among other rarities are the Poems, 2v., 1853 55, with the scarce Prefaces; On Translating Homer, 2v., 1861 62; Now Prefaces; On Translating Homer, 2v., 1861-62; New Poems, 1867; Culture and Anarchy, 1869. The cost of the entire set of nineteen volumes was one hurdred dollars.

REGAINED HEALTH.

Gratifying Letters to Mrs. Pinkham From Happy Women.

"I Owe You My Life."

Mrs. E. WOOLHISER, Mills, Neb., writes:

"DEAR MRS. PINKHAM:-I owe my life to your Vegetable Compound. The doctors said I had consumption and nothing could be done for me. menstruation had stopped and they said my blood was turning to water.] had several doctors. They all said I could not live. I began the use of Lydia E. Pinkham's Vegetable Compound, and it helped me right away; menses returned and I have gained in weight. I have better health than I have had for years. It is wonderful what your Compound has done for me."

"I Feel Like a New Person."

Mrs. GEO. LEACH, 1609 Belle St., Alton, Ill., writes:

"Before I began to take your Vegetable Compound I was a great sufferer from womb trouble. Menses would appear two and three times in a month, causing me to be so weak I could not stand. I could neither sleep nor eat, and looked so badly my friends hardly knew me.

'I took doctor's medicine but did not derive much benefit from it. My druggist gave me one of your little books, and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I feel like a new person. I would not give your Compound for all the doctors' medicine in the world. I can not praise it enough."

tarrh, is a common experience. However heroic the fight catarrh generally wins. Under some name or other it gets the best

of us. Frank E.

Ingalls, Waco,

Tex., and thou-

sands of others have been permanently cured of catarrh by Dr. Hartman's successful remedy Pe-ru-na. Here is Mr. Ingalls' letter:

香用

Dr. S. B. Hartman, Columbus, O. DEAR SIR:-" Pe-ru-na and Man-a-lin have cured me of one of the worst cases of catarrh any one ever had. My case was so severe that I was compelled to The Philippine Islands is the title of a large work just issued by Macmillan discontinue my business, that of conductor on a railroad; but I am now entirely well."

Ordinary treatment of catarrh is for local relief. Cures are not expected. Dr. Hartman's method eradicates catarrh absolutely. Get his latest book and learn how to combat this insidious disease. The Pe-ru-na Medicine Co., Columbus, O., will mail Dr. Hartman's books free on application.

H. A. Scott, Burt, Tenn., writes:

"I feel very thankful to my Maker and your great medicine that I am cured. I would not be without Peru-na in the house.

Pe-ru-na has been curing catarrh for forty years. It plucks out the roots of catarrh and builds people up. All druggists sell it.

A PRISON WARDEN.

[Continued form page one].

enforce and maintain proper discipline in every department and shall have power to remove him for cause after opportunity shall be given him to be heard upon written harges. No warden shall be removed except for eause."

With the warden proteted by such a provision in the law and with a man like Mr. Chamberlain, the present warden, who has made a national reputation as an abie penalogist, it seems the height of fully to think of replacing him with a man who has, on the other hand, made such a sorry failure in the management of our little county

Mr. Chamberlain is a man of unusual ability and has made a thorough study of prison management in all its varied phases, and is looked upon as an authority on this subject all over the country.

On the other hand we do not believe any right thinking man who knows Mr. Judson ever suspected him of possessing a single qualification for such a position. Whether the appointment of a new member upon the board of control will lead to some trumped up charges against the present warden remains to be seen. Even if it does it will be no easy task to substantiate them sufficiently to make a change

A case where an attempt was made to get rid of a warden was that of E. Parsell appointed by Gov. Winans as warden of the house of correction at Ionia. It was generally conceded that Parsell was incompetent. The following charges were made against him: (1) Incompetency, (2) Lack of economy in management of the prison, (a) employed too many keepers, (b) guards not properly graded, (c) convicts ate at officer's table thus increasing expense, d) employed his wife and son's wife, (e) employed J. H. Parsell who did no work, (f) paid his relatives salaries largely in excess of their value, (g) that he paid exhorbitant prices for beef used in the prison, etc. (4) Paid arge amounts to convicts for so called overtime work, (5) That he had not been in constant attendance at the prison. Notwithstanding all these charges almost all of which were substantiated, yet it took a year to carry the matter through the courts and secure a judgement that made it possible to get rid of Parsell and install Otis Fuller the present incumbent. While it is unfortunate that it should take so long to get rid of an incompetent official, the law has its compensating features in that it will be equally difficult, and, it may be, impossible, under this same aw, to oust a perfectly competent official and substitute a man totally unfitted for the place.

Dr. Bull's Cough Syrup Should be kebt in every household. It is the best remedy for cough or cold, and is especially recommended for that grippe cough. Price 25 cts.

Coughing

Constant coughing is very annoying, and the continuous hacking and irri-tation will soon attack and injure the delicate lining of the throat and air passages. Take advice and use Dr. Bull's Cough Syrup in time. This wonderful remedy will cure you.

A Great Live Stock Journal.

THE PRAIRIE FARMER-a weekly Agricultural and Live Stock Journal—one dollar a year. It is admittedly the leader of the agritultural and live stock papers of the United states. It covers the entire field of agriculture, dairying, live stock breeding and live stock feeding. It is edited for western farmers and stockmen who carry on diversified work; in fact, it is the farmers' newspaper. The regular subscription price is one dollar a year; but in order that every one of our readers may get it next year, we will send it a fu'l year with our own paper for only \$1.50. This low price may be withdrawn any time; we request our readers to act promptly. Hand in your order or send it to us.

A rather severe joke was played upon a couple of co-eds one day recently. Somebody sent them an invitation to be present at a reception to be given at the home of Pres. and Mrs. Angell by the Woman's Auxiliary. At the time set the young ladies presented themselves at the door of the executive mansion prepared to enjoy a nice evening's party. The explanations that followed did not tend to increase their appreciativeness of practical jokes .-Times.

About Catarrh.

It is caused by cold or succession of colds combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hoods Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tissue and relieves all the disagreeable seasa-

George S. Wheeler was the first candidate to file a statement with the county clerk giving the amount of his Campaign expenses. He says he spent

Albert C. DeLong, a student in the SINGLE ADMISSION engeneering department had an \$18 case of drawing instruments stolen from his desk in the drawing room one .50 day last week.

.50 W. M. Sturgeon has purchased the interest of J. F. Rinsey in the Extract Works located at 208 E. Huron st. The business will be continued under the name of Bress & Sturgeon.

1.00 Mrs. Ross Granger circulated a subscription paper last week to raise a fund to give the boys of Co. "A" a Thanks giving dinner. She raised nearly \$100 and the boys will have a feast today.

> F. Warren, the popular N. Univ. ave. barber resents the report that there are any cases of "barber's itch" in Ann Arbor, and writes a communication to the Times scoring those who started

The Courier office cut the price on the University printing down just onenext two years. They must have made a snug sum out of former contracts. As the University printing amounts to several thousand dollars per year.

The marriage of Marshall O. Waggoner, aged 72, of Toledo, O., and Mrs. Victoria A. Brown, aged 48 of Ann Arbor a few weeks ago does not seem to have been a happy one. The other evening Mrs. Waggoner called in the police to protect her from her husband.

The public library situated at No. 713 E. Huron street, will be closed as usual, on Thursday and Friday of this week on account of the Thanksgiving vacation. Beginning with Monday, Nov. 21, the llbrary will be open from a. m. to 5 p. m. continuously, on every school day.

A Puritan evening at the Y. W. C. A. rooms on Thanksgiving evening. A program will begin at 8 o'clock. A march by 16 young ladies in puritan costume with inttrumental music. songs, etc., a solo by Miss Bessie Carson. A social evening after program. Admission 5c.

The Argus is authority for the statement that Dorsey Hoppe, who is a student in the law department, was not aware that he was a candidate for surlate in the afternoon of election day to his home in Sharon and vote.

Mrs. John Miller who lives on South Main street just beyond the toll gate attempted to polish up her stoves with a mixture of stove-blacking and gasoline one day last week. She supposed the fire had all gone out in the kitchen stove but in this she was mistaken and an explosion followed. Mrs. Miller was quite badly burned about the arms and neck. The results might have been much worse had not a passing farmer rushed to her assistance and extinguished the fire.

The attorneys for the plaintiff in the \$10,000 libel suit of William Judson vs. Selby A. Moran, today noticed the case for trial at the next term of the circuit court, which begins its sessions Dec. 5. This case, when it comes up, will draw a crowded house and there is no danger of a settlement between the parties. As is well known, the suit is based upon statements in the REGISTER that the sheriff had boasted of illegal practices on election day. The action is one of criminal libel and if a judgment is obtained against the defendant he will either have to pay it, or be put in jail, if the plaintiff elects to pay his board there. The interests at stake are so great that the case will undoubtedly be a hard fought one .-- Argus.

Norton Ladue who paid too big a price for peaches here this fall for shipment found himself \$4000 in the half and secured the contract for the hole. He is offering to settle with his creditors for 10c on the dollar.

> The Times published under "scare" headlines last Saturday an article announcing that the Michigan Central railroad company was about to begin proceedings to stop the operations of the electric line because the former's allowed to run parallel to it within five verge of consumption. miles. No verification of this report can be obtained.

Smith Botsford, of Ann Arbor town, Dixboro creamery, belonging to the Edgewood Jersey Milk Co. of Detroit. The farmers of the vicinity of Dixboro have all assigned their claims to Mr. Botsford, and the total amount foots up to about \$500. The farmers have been shipping in their milk to the Edgewood people and take this means of getting

There was one pas enger on the D. Y. & A. A. railway this morning that came through without paying any fare. Somewhere between Ypsilanti and this city a lot of chickens got on the track. The moter didn't stop for any obstruction like that. All succeeded in getting out of the road except one old hen who was not as young as in the spring-time veyor on the Democratic ticket until of herlife. She flew up in a startled sort of a manner, lighted on the cowand then it was too late for him to go catcher and rode in a dignified manner into Ann Arbor none the worse for her perilous journey .- Times.

Speaking of Miss Emma Bower, who was called to Monroe last week as a witness in the German murder trial, the Detroit Journal has this to say:

"Miss Emma Bower, of Ann Arbor, great record keeper of the L. O. T. M. was next called. Her silver hair was overtopped by a black plumed hat and her black skirt was trimmed heavily with fur to match her neat-fitting velvet jacket. Her stylish attire and dignified bearing make a striking contrast when seen among the rustic spectators who crowded the court room. Miss Bower was introduced to prove that Mrs. Geierman was insured in the L. O. T. M., and that the endowment of \$1,000 had been paid."

The U. of M. Homeopathic Hospital Guild has elected the following officers President, Mrs. Harrison Soule; vice president, Mrs. W. B. Hinsdale; secretary, Mrs. Emmett Coon; treasurer. Mrs. H. Ball: assistant treasurer, Mrs. Joseph Ball; corresponding secretary. Mrs. F. J. Avery. To become a member of the guild a pledge of not less than 5 cents a month is necessary, During the past year \$1,044.95 have been received from members and friends Three children, from Ann Arbor, Mt. Pleasant and Algonac and one adult from Charlotte have received great bepefit from the care and treatment given at the hospital through the guild.

Dr. Miles' Heart Cure

B. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my busimess. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this rem edy to everyone." Dr. Miles' Remedies

are sold by all drug-Miles gists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and eases of the heart and

put a stop to the suffering that comes from Poor Blood, disordered Nerves, Kidneys or Liver. Being "out of sorts" may come to mean complete loss of health.

a remedy that has made the most notable CURES of any medicine ever devised by physicians; and if from which no benefit is derived you can get your money back.

"THE KIND THAT CURES."

oroduces the above results in 30 days. It acts powerfully and quickly. Cures when all others fail. Young men will regain their lost manhood, and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores Netvousness, Lost Power, Failing Memory, Wasting Diseases, and all effects of self-abuse or excess and indiscretion, which unfits one for study, business or marriage. It not only cures by starting at the seat of disease, but is a great nerve tonic and blood builder, bringing back the pink glow to pale checks and restoring the fire of youth. It wards off Insanity and Consumption. Insist on having REVIVO, no other. It can be carried in vest pocket. By mail \$1.00 per package, or six for \$5.00, with a positive written guarantee to cure or refund the money. Circular free. Address.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; t forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him

for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed nitiable.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific,

C For

reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

DEXTER LEADER

L. L. James has closed his clothing store here and removed the stock to Ann Arbor.

The electric road project is at a standstill for the present and it is probable that nothing more will be done until spring.

The Congregational people have decided to hold their holiday fair Dec. 16 and 17, in the Warner store, recently occupied by L L. James.

Last Thursday night John Hall's residence in Dexter Township had a narrow escape from being consumed by fire from a defective chimney. The family were nearly suffocated with smoke before they awoke.

Can Seep Like a Babe.

How many persons over thirty years of age in Ann Arbor can truthfully make the above statement? Many persons would pay \$50.00 for a few nights of restful strength giving sleep. but you can get this bliss right here in Ann Arbor for only 50 cents at A. E Ann Arbor for only 50 cents at A. E. Mummey's drug store, if you will take Mrs. Mary Smith's advise who lives at 1511 Cooper St., Jackson, Mich. Mrs. Smith says: "No one knows how much I have suffered for the past three years. At times my back would pain me so badly that I almost cried. I did not rest wall at night on account of the rest well at night on account of the severe pain across my kidneys and from nervousness. My feet and limbs were swollen like one with dropsy. I was subject to spells of dizziness and come on me. It is needless for me to say that I was nnable to do any heavy busehold work that would acquire me to bend or lift any. In the early stage of my trouble I was informed that my kidneys were diseased, so I commenced to take kidney pills and other kidney remedies, but none of them gave me relief. My troubles multiplied and I had about given up all hope of ever being well again. I read about Morrow's Kid-ne-oids and procured a box, and took them according to directions. In three days time I was greatly re-lieved. ONE BOX COMPLETELY CURED ME. Not the least symptoms of backache remain, my nerves are steady and all right; no more spells of dizziness and the swelling has all dis-appeared in my feet and limbs. I can sleep like a babe. I have a splendid appetite, can do any kind of housework and in fact never felt better in my life. Morrow's Kid-ne-oids are surely a send to suffering humanity. I feel so good that I want everyone to know about this cure, and desire my state-ment published that all who read may know what to take when afflicted as

Mrs. Smith has lived in Jackson all her life and is a most estimable lady, and will gladly give you any further details if you will write her enclosing

stamp for reply.

Morrow's Kid-ne-oids are yellow tablets (not pills) and cure kidney all-ments and nervousness. Taey are for sale by all first class druggists or will be mailed by the manufacturers on receipt of price. John Morrow & Co., Chemists, Springfield, Ohio.

Men of Weakened Power, Exhausted Vigor.

Weak men suffering from nervious debility, weakened power and exhausted vigor, can now take new hope. Dr. Greene, 148 State Street, Chicago, Ill. who is without doubt the most successful specialist in curing this class of diseases, offers to give free consultation by mail to all weakened, vigorless and nerve-exhausted men. You have the privilege of consulting Dr. Greene by letter describing your complaint, and he will, after carefully considering your condition send you a free letter fully explaining all your symtoms, telling you everything about your complaint so plainly that you will understand exactly what alls you. Write to him at once and get back your strength and

Body of Free-Milling Ore Eight Miles Wide is Found in Montana.

KLONDIKE CONDITIONS.

Output of Gold on the Yukon Said to be Much Less Than Was Estimated.

Twenty Returning Miners Bring Out \$750 000 However and Other Successful Parties Are Reported-Much of the Alaskan Field Has Not Been Properly Worked and There is Much Gold There-Warning for Those Securing Transportation.

A dispatch from Butte, Montana, says: A ledge of free-milling gold ore has been discovered on the south fork of the Flathead river, thirty-five miles from Kalispel and twenty-two miles from Coram. The ore is found in a great blanket ledge eight miles wide. A shaft has been sunk twenty-four feet without finding the foot wall. The discovery was made by E. H. Seeley. Last fall placer gold was discovered near Burned Cabin, Acting on the theory that the gold came down the river, Mr. Seeley started up stream to find the mother lead. He was rewarded when he found this tremendous ledge of quartz cement, carrying both gold and silver. At the point of discovery the river cuts the lead so that the vein shows on either side of the river. The ore is hematite. The shaft has been sunk near the edge of the river to a depth of twenty-four feet. Average samples of the last six feet proved to be very rich, showing \$500 in gold and \$1.68 in silver to the ton. The ore is free milling. The river cuts this ledge for eight miles, and ore is shown up on both sides of the river. Forty-four claims have been located, all on the same ledge. At Mr. Seeley's solicitations a number of Duluth, Chicago, and New York men will arrive to examine the ledge with a view to organizing a company. The neighborhood has been organized into a new mining district which is styled the Gold Reed mining

Leasers are taking out some good looking copper ore from the Clinton

A party of Butte capitalists have secured control of the Williams coal mine, near Livingston, which was abandoned some years ago. A force of men is now at work on the property. The lead shows up well, and the property may become an important gold producer.

A pretty vein of ore was laid bare in the Bonanza mine, Zosel district, last week. An assay gave a total value of \$44.30 a ton, yielding a high percentage in lead and silver, with a little gold. The vein is about a foot wide.

The south drift of the 500 foot crosscut tunnel of the Keystone mine in the Yahk district, is in nearly 100 feet on the lead and shows the best ore to be found anywhere in the mine. The development work now in progress promises that this will become one of the big mining propositions of the state. The ore is of superior quality. In about ten days the drift will be crosscut to the hanging wall, when the width of the vein in the lower level

The success attending the explorations at the Liverpool mine in Lump Gulch has stimulated the reopening of some other mines in that locality. The Little Nell will resume at once. was closed down at the time of the miners' strike two years ago, the owners preferring to shut down rather than submit to the wages asked. Since then parts of the mine have been worked on lease, and the leasers are said to have discovered new bodies of

A letter from Dawson City, under date of June 25, says the output of the mines of the Yukon region this year, while it has reached between \$10,000. 000 and \$15,000,000, has disappointed even the more conservative estimates made last fall, based on the prospects then existing. Three things have contributed to shorten this spring's cleanup-the Canadian royalty, the lack of men and the lack of strengthening

The steamship Cottage City, which touched on her way to Seattle from Alaska, had on board twenty miners from Dawson City with about threequarters of a million dollars in gold dust and drafts, mostly drafts. They came up the Yukon in a steamer to White Horse Rapids, where they transferred to a lake steamer.

The passenger traffic between the Western Pacific States is not so heavy as it was before the war began, but it is still great enough to make timely and interesting the warning published by the State Department from a recent report by United States Consul Dudley, at Vancouver. Colonel Dudley

Care should be taken by those who contemplate going to the gold fields in entering into transportation contracts. It appears that certain companies have obtained a considerable sum of money (generally \$500 for each person) upon very ingeniously worded contracts that the person paying should be transported to the gold fields in the north, with all necessary outfit furnished and expenses paid. In three cases in which men have paid their money they have been brought, at slight expense, to this and other ports, and then abandoned.

A SERVICEABLE METHOD.

For the Shipment of Fruit and Vegetables to Market.

In the accompanying illustration is shown one of the most serviceable and deservedly popular packages in the market for the shipment of fruits and vegetables. So much depends upon the condition of fruits and vegetables when exposed for sale that much thought has been devoted to constructing a carrier which should not only protect its contents from injury in transit, but should be in a form facilitate their handling by the retailer. This carrier seems to have solved the problem admirably.

It is simply a light, open case, made of thin stuff, but tolerably strong, and holding six small baskets a little larger than the common five-pound grape baskets. Occasionally some are seen holding eight tills or baskets, and sometimes one holding four, but the popular size holds six in two tiers. The one shown is filled with tomatoes, the end baskets showing them as they

come wrapped in p. pers, the one in the center having the papers removed to show the fruit. A larger part of the Southern tomatoes come in these carriers, as well as the peaches, plums and grapes, and they are largely used for shipping Northern grapes, and for many other products. The construction affords good ventilation, the baskets serve to carry the contents in good shape, and are of a size that pleases re-The cost ought not to be great, either.

Potatoes in a Dry Climate. A great many failures are made in farming from not understanding how to meet the peculiar conditions exist-ing. We have here in Oklahoma the richest soil that I have ever been acquainted with, and a favoring climate, except in the one particular of lack of rainfall at some season of the year.

Many fail in raising a full supply of potatoes, or if they raise a good supply, then in keeping them during the long warm autumn until they can go into winter storage.

This section has been settled six years, and though formerly accustomed to a wet Northern climate, I have raised five fair crops of potatoes out of the six planted, and have not lost any more by rotting than in former locations. In four out of the six years mulching was better than cultivation, and in the other two equally as good. Last year I had them grown under four methods. The best and earliest were from volunteer stock coming up finding the burning vessel. from those left in the soil at digging-They had been grown under

mulch, and the mulch protected them from freezing during the winter, and as the ground was not plowed at digging-time all that was done to them for of this practice, as plowing is certainly needed, especially where perennial weeds infest the ground.

As I understand it now I would recommend very early and deep planting, say any time during February, and at least eight inches deep, of such varieties as Early Ohio and Bliss or Red Triumph, which have proved to be well adapted to a dry climate, and then mulch just as they are coming through the ground. No cultivation is given, and except that it should be a wet autumn, to start second growth they should be allowed to remain in the ground and used as needed. Ours were not all dug until February and they were in fine condition for eating.

Late Potatoes for Seed.

I believe that a late crop of potatoes makes better seed than an early one. Many growers do all their planting in April and May, having found comparatively early planting the safest; but such growers should try the plan of raising a late patch for the next year's seed. The second-crop seed of the South keeps well and makes heavy sprouts in the spring, because it is not fully mature when dug late in the fall. A late Northern crop is also slow in sprouting, going through the winter in better shape than one ripened the last diphtheria and croup, 55. of August. Even where June planting is not very successful in making good yields, it should be given a trial to an Corunna electric railway, granting the extent sufficient to furnish seed one year, and a test of this seed with that from an earlier crop will probably convince the grower that the late has the most vitality. In the latter part of June try a late patch for this purpose. Plant in a deep trench, and cover light-

Weeds.

In fighting weeds a stroke in time saves ninety-nine. Destroy them while in the seed-leaf, if possible. In the field a harrow covering sixteen feet at a sweep will do it. In the garden a twenty-inch rake or a light wheel-cultivator will do the business rapidly and easily. When a weed gets two or three inches high it must be cut out or pulled out, and its roots left bare to kill it. While in the seed-leaf a touch almost destroys it. Kill it then or before it shows itself.

A Guardsman's Trouble.

From the Detroit (Mich.) Journal. The promptness with which the National Guard of the different states responded to President McKinley's call for troops at the beginning of the war with Spain made the whole country proud of its citizen soldiers.

In Detroit there are few guardsmen more popular and efficient than Max R. Davies, first sergeant of Co. B.

first sergeant of Co. B.

He has been a resident of Detroit for the past six years, and his home is at 416 Third Avenue. For four years he was connected with the well known wholesale drug house of Farrand, Williams & Clark, in the capacity of bookkeeper.

"I have charged up many thousand orders for Dr. Williams' Pink Pills for Pale People," said Mr. Davies, "but never knew their worth until I used them for the cure of chronic dyspepsia. For two years I suffered and doctored for that aggravating trouble but could only be helped temporarily.

"I think dyspepsia is one of the most stubborn of ailments, and there is scarcely a clerk or office man but what is more or less a victim. Some days I could eat anything, while at other times I would be starving. Those distressed pains would force me to quit work.

"I tried the hot-water treatment thorough."

ing. Those distressed price of quit work.

"I tried the hot-water treatment thoroughly, but it did not affect any case. I have tried many advertised remedies but they would help only for a time. A friend of mine recommended Dr. Williams' Pink Pills for Pale People, but I did not think much of them.

"I finally was induced to try the pills and ommenced using them. After to ring a few loses I found such relief. I do not remember how many boxes of the pills I used, but used them said the old troub stopped.

AN AFFAIR OF THE NATION

It has been said of Americans that they are "a nation of dyspeptics" and it is true that few are entirely free from disorders of the digestive tract, Indigestion, Dyspepsia, & Stomach and Bowel trouble, Catarrh of the Stomach, or Constipation. The treatment of these diseases with Cathartic medicines too often aggravates the trouble.

THE LOGICAL ® **® TREATMENT**

is the use of a remedy that will build up the system, thereby enabling the various

organs to act as Nature intended they should. Such a remedy is found in

SOROSIS

THE NEW SHOE FOR WOMEN ...

Many women have no idea how cruel shoes can be made

They cover the feet to be sure, but what else do they do? Are all the pedal discomforts and dis-tortions natural to the feet? In every instance they are caused by poorly constructed and ill fitting shoes.

Why do women wear 3s and 4s at twenty, and 5s or 6s at thirty?

Because the feet have been improperly trained. The shoes have pinched and bruised the joints causing permanent enlargement and in many instances allowed the instep to drop and the foot to lose that arch, which is so attractive.

SOROSIS shoes are are so constructed, that the arch of the instep is always supported and the weight properly distributed. Those who wear SOROSIS are noticed for their easy, graceful carriage in walk-

JACKET OFFERINGS

With which to finish November selling,

It is now floodtide in wrap selling. The best styles, the most striking values, the most desirable bargains are for those who buy duiring the next two weeks. After that sizes are broken, the most popular things sold, and the lament comes from the tardy buyer, "I wish I badn't waited so long, all the garments I fancied are sold." "Buy now" is good advice to follow.

Specially Desirable. GOOD BOUCLE JACKETS made in latest style. GOOD KERSEY JACKETS

well made and lined.

Splendid Value.

FINE KERSEY JACKETS

Natty new disign, Full Satin lined, Strap trimmed, Velvet Collar.
