MEETS IN ANN ARBOR, JAN. 18

Michigan State Millers to Meet Here Wednesday, January 18-A Very Interesting Program-Banquet to be Held in Parlors of Congregational Church in the Evening - Several Eminent Men to be Present.

The State Millers' Association is to hold its annual meeting in Ann Arbor on Wednesday, January 18.

A splendid program, has been prepared for the occasion. It shows that a number of interesting subjects will be discussed by well-known Michigan men. The program in full is as follows:

BIRD JAILED.

Calvin Bird, of Ypsilanti, Tries to Judson Betrays a Friend-Carries Shoot His Wife-Now in Jail as a Result.

During the month of July, 1895, Calvin Bird and Mary Moore, two young swains, then about 17 years of age, stole away from their country homes to Ann Arbor and were married by Andrew E. Gibson, a justice of the peace. After a few short months jealroses. Matters culminated yesterday when the wife on account of what she considered unjust treatment, abandoned her spouse and returned to her mother, who is living on Chicago-ave., in Ypsilanti. bune will interest Ann Arbor people. Harrington, formerly of Ann Arbor, Mich., who charges that he is illegally confined in the state insane asylum, was somewhat exciting today. Attorney Frank Collier, of Chicago, is conducting the case for Dr. Harrington, and is subjecting the state's witnesses to the severest cross-examina-tion. Judge Bishop has several times been obliged to call for order in the court room. Today the testimony de-veloped the fact that Harrington has teen allowed a pension of \$12 a month after he was placed in the asylum, but had not been notified of the fact, and

TROUBLE IN CAMP.

For some time past Wm. E. Stocking, of Lima, has been making a lively canvas for the appointment as Sergeant at Arms at Lansing this winter. He ousy crept in, since which life's path- had been gaining support in all direcway has been anything but a bed of tions. He had secured the promise of the solid support of the Wayne Delegates and had assurances of support from many other quarters. His chances were unusually good. All at once a change took place. Judson, who had always received staunch support from Stocking does not see where Stocking could be of further use to him so he at once knocks Stocking's plans into a cocked hat. He is enabled to do this because Pingree swears by Judson and Pingree's men are such servile tools that so far as the appointment of Washtenaw men is concerned they do just what Judson tells the governor to have them do. Exit Stocking. Of course Judson must have some sort of an excuse for throwing down a man who has always stood faithfully by him. This is easily enough supplied. Here it is as it is reported Judson stated why he must down Stocking: "Why, Great Scott, he's the man that's been working for Sawyer!" That's excuse enough in the Judson-Pingree camp. Just let it only be said whether true or not that a man has mind enough of his own to once in a while think as he pleases and that man's fate is sealed, if the Judson-Pingree push can seal it. But too many people now-a-days have minds of their own, and for that very reason Pingree will not be able to control the egislature this winter. From the Pingree point of view one must be the most abject slave or be branded a traitor. Most thinking men prefer the latter alternative. Hence so much trouble in the Pingree camp, and the chances are that such trouble will continue to grow until Pingreeism will be a thing

The New Year's Reception at the Y. W. C. A. Rooms was well attended and a particularly fine program was given. Beginning at three p. m. the music continued at short intervals until nearly nine, and included solos, (voice, piano and violin), chorus and-quartette numbers and a few recitations.

The rooms were tastefully decorated and everything proved very enjoyable. The meeting of the Board of Directors was postponed one week and will then be held at the home of Mrs. Parker, corner of Ann-st. and Fifth-ave.

Prof. Coler's Bible study at 3:30 next Sunday will be of unusual interest.

Six Ionia Prisoners Escape.

Six prisoners escaped from the state house of correction by a bold and clever plan. They were convalescents confined in the hospital, and cut their way through a partition wall to the knitting shop, adjoining. Then with a long ladder from the shop they scaled the nofthwest corner of the outside wall. A blizzard prevailed and this aided the convicts in their escape. The howling wind deadened what little noise they made, and the drifting snow covered their tracks. There is no trace of the men. They are as follows: Frank Edison, sent from Eaton county, November, 1896, for five years for robbery; Frank Fisher, Macomb county, July, 1898, one year, breaking and entering in day time; Lewis Ferguson, Branch county, December, 1895, four years, burglary; Wm. If Morrow's Kidne-olds were not a worthy remedy or the remedy we claim them to be, it would be impossible to get people living in Eighart to praise them. George Towman, the barber, at Main and Franklin Sts., has much to say for them, and stronger language could not are many people living who have suffered worse with kidney complaint, and lived, than I have. My condition Veas day I will turn over had been gradually growing worse for years, notwithstanding the fact that I have used much "patent medicine" as well as being treated by physicians which has cost me lots of money. Only two months ago I paid a large doctor bill for which I had received not one particle of benefit. My condition has been so bad at times I have had to quit work for a week or more. The pain through the small of my back was so intense that it seemed to me as if I were dying by inches. This condition made me so nervous that by spells I was unable to hold a razor steady The kidney secretions were highly discolored and accompanied by a scalding pain in its passage. This showed an excessiveness of uric acid. No one could blame me for being completely discouraged. I had begun to believe that my condition was a hopeless one, until hope took the place of despair, through reading of the many cures effected by Morrow's Kid-ne-oids. I could no more than fail (which I had been doing right along although taking noctor buls) if I gave the Kid-ne-oids a trial I bought two boxes to start with; it seems almost increditable when I say that I began to feel better in 24 day closes up an old year. Perhaps it is because we think of first doses. When I had taken two January as the opener of a New Year bottles I felt better than I had before in of opportunity that we choose the first years, and continued to improve until day of that month as the best time for making good resolutions.

> New Year's day has come and past. No doubt you made many good resolutions on that day and perhaps you have already broken some of them and feel discouraged.

I have discovered why it is that we break our New Year's resolutions. It is because we do not go into training to keep them. If a man were going to run a race, he would not lie in bed until the Morrow's Kid ne-oids deserves the day set for the race and then try to soldiers and have attacked various run with any expectation of success, towns. But we say to ourselves .- "On New Years day I will turn over a new leaf. I will lay aside this bad habit. I will no longer give way to this evil temper;"-and then we inertly wait until New Year's day to begin while the temper or the habit is in daily training, and it is not to be wondered at that we are worsted in the contest.

What we should do, when we have determined that we will make a certain resolution, is at once to go into training to keep it. If you purpose on next New Year's day to overcome some evil temper, supposing you begin at once to train in that direction and through all the days and weeks intervening keep up your practice. Then, when the New Year arrives you will find yourself equal to the contest and win success.

> The Increasing of the Standing Army is Opposed by Part of the House Committee on Military Affairs-Clayton-

> The minority of the house committee on military affairs have filed their report in opposition to the Hull bill for the increase of the regular army to 100,000 men.

The minority claims that such a standing army would in time of peace be a menace to the liberty of citizens. and in time of war would not be sufficient to meet successfully the armies of the first class powers of the world; that a large standing army is not a necessity; that the Hull bill will cost the people annually the sum of \$150,-000,000 and as \$145,000,000 are being annually paid to the soldiers of the civil war and the war with Spain, a permanent charge of \$295,000,000 would be placed upon the people of the United States to maintain the military establishment alone, to say nothing of the navy; that the passage of this bill means the practical destruction of the national guard and the volunteer troops of the states; that it is well understood that the great corporate interests of the country are demanding this large standing army for most obvious reasons, and a President dominated by such interests would have, with such a standing army, the means at his hand to invade the liberties of the people, to suppress freedom of speech

The minority offer a substitute for the Hull bill which provides for a permanent standing army of 30,000 enlisted men-about the number in the army before the war with Spain. It also provides for 50,000 volunteers to be taken from the states and territories in proportion to population; these volunteers are to be mustered out within two years from date of the passage of the act, their organization to be the same as that of the regular army. Volunteer organizations now in service to be given preference as to re-enlistment. All volunteers now in the service of the United States to be mustered out within 60 days from the passage of this act.

THE speed attained by the Detroit electric cars as they come into the city on Packard street is often something frightful. People competent to estimate properly the speed of cars say that it is not an unusual thing for these cars to run at a rate of fully thirty miles an hour inside the city limits. If some terrible accident does not happen as a result of such fast running in the city it will be nothing more nor less than miraculous. It is not an uncommon thing for the cars to be going so rapidly that no attempt is made to stop when people signal a car at crossings. It is the duty of the council to take action and see that the cars are run more slowly inside the city limits both for the sake of safety and in order that citizens may be accommodated when they desire to patronize the road.

Of the 4,171,916 barrels of salt inspected in this state in 1898, at least 5 per cent was sold in other states, and the demand for Michigan salt is steadily increasing.

1898 Losses on the Lakes.

Marine losses during the season of 1898 were materially greater than durng any previous season on the lakes. In a list of 569 losses, the causes assigned were as follows: Ashore, 123; aground, in protected channels, 126; fire 40: collisions, 90: ice, 16: stormbeaten, 96; foundered, 8; miscellaneous causes, 116. Lake Michigan was the scene of the greatest number of serious losses, with Lake Superior as second. Lake Huron was remarkably free from disasters and Lake Erie did not contribute its usual quota. Lake Ontario produced a larger number of serious losses than Lake Erie, notwithstanding the limited traffic on the former. 11. Lansing, Dec. 16, 1898.

M. N. G.: Sir: You will please make for use in ity at the time of mustering to the U.S. volunteer service at Island Lake, giving name and residence of each.

Very respectfully, W. M. RICHARDSON, Asst. Adjutant-tieneral

I will also state that, while notice of discontinuance of armory rent may have been sent to some one in Ann Arbor, I have received no such notice (some captains here have). The rent money, by my direction, has been sent direct to Ann Ardor, and possibly the notice has gone the same way. Neither have I been notified that the rent has been paid up to June 30th, 1899, as is stated in another part of the paper. As the order above would indicate, I am still captain of Co. A, 1st Inf., M. N. G. Therefore the Michigan National Guard still exists. As I understand it, we are simply on a leave of absence. While many of us may not wish to continue as active members of the guard, after being mustered out of the volunteer seivice, there are those that do, and the armory should be held for them.

Very respectfully,

ROSS GRANGER. P. S .- If the National Guard of Michigan has been disbanded, the officers here bave no official notice of it.

DOCTORS DON'T DENY IT.

The frank testimony of a famous physician.

When Dr. Ayer announced his Sarsaparilla to the world, he at once found the physicians his friends. Such a remedy was what they had looked for, and they were prompt to appreciate its merits and prescribe it. Perhaps no medicine—known as a patent medicine—is so generally administered and prescribed by physicians as Dr. Ayer's Sarsaparilla for blood diseases, and diseases of the skin that indicate a tainted condition of the blood. Experience has proved it to be a specific in such diseases, and sores of long standing, old ulcers, chronic rheumatism, and many other like forms of disease have yielded to the persevering use of Dr. Ayer's Sarsaparilla of the diseases, and sores of long standing, old ulcers, chronic rheumatism, and many other like forms of disease have yielded to the persevering use of Dr. Ayer's Sarsaparilla. It is without exception, the best blood purifier with which I am acquainted."

There is no other similar medicine can show a similar record. Others have imitted the remedy. They can't imitate the record. Dr. Ayer's Sarsaparilla has the friendship of the physician and the favor of the family, because it cures. It fulfills all promises made for it. It has healed

the persevering use of Dr. Ayer's Sarsaparilla after other medicines had utterly failed. The testimonials received from physicians to the value of this remedy would fill a volume. Here is one leaf signed by Rich'd H. Lawrence, M. D., Baltimore, Md.

"It affords me pleasure to bear testimony to the success which your preparation of Sarsaparilla has had in the treatment of cutaneous and other diseases arising from a vitiated condition of the blood. Were it necessary, I might give you the names of at least fifty individuals who have been cured of long-standing complaints simply by the administration of Dr. Ayer's Sarsaparilla. One very remarkable instance was that of a quite old woman who had lived at Catonsville, near this city. She had been

He enlisted at Island Lake last April with Co. A, 33d Michigan, and served with credit in Cuba. He caught yellow fever at Siboney and came home on the death ship Concho While at home he recovered his health apparently, but latter became sick again and being unable to obtain re munerative employment drifted from place to place and finally lost hope anu ended all with poison. His mother is left in proverty.

31st Michigan to be Mustered Out.

The decision of President McKinley' cabinet to muster out 50,000 volunteer will probably result in the discharge of all the members of the 31st Michi gan, now at Knoxville, Tenn., that may desire to leave the service. Those who wish to remain will be permitted join the 35th Michigan, unless it is de eided to muster out that regiment, also It is not believed, however, that both regiments will be let go until congress anthorizes the increase in the regular army asked for by Secretary Alger.

Disastrous Fire at Manistee.

Fire was discovered in the East Shore furniture factory at Manistee and before the flames could be checked the building was totally destroyed, together with its contents. The loss is estimated at \$20,000, and covered by insurance. The property was originally built at a cost of \$50,000, but had been idle for some time on account of the depression in the furniture trade.

YOUNG AT SIXTY.

Serene comfort and happiness in advanced years are realized by comparatively few women.

Their hard lives, their liability to serious troubles on account of their peculiar organism and their profound ignorance concerning themselves, all combine to shorten the period of usefulness and fill their later years with suffering.

Mrs. Pinkham has done much to make women strong. She has given advice to many that has shown them how to guard against disease and retain vigorous health in old age. From every corner of the earth there is constantly coming the most convincing statements from women, showing the efficacy of Lydia E. Pinkham's Vegetable Compound in overcoming female ills. Here is a letter from Mrs. J. C. Orms, of 220 Horner St., Johnstown, Pa., which is earnest and straight to the point:

"DEAR MRS. PINKHAM:-I feel it my duty to tell all suffering women that I think your remedies are wonderful. I had trouble with my head, dizzy spells and hot flashes. Feet and hands were cold, was very nervous, could not sleep well, had kidney trouble, pain in ovaries and congestion of the womb. Since taking your remedies I am better every way My head trouble is all gone, have no pain in ovaries, and am cured of womb trouble. I can eat and sleep well and am gaining in flesh. I consider your medicine the best to be had for female troubles.

The present Mrs. Pinkham's experience in treating female ills is unparallelled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

the Western Hemisphere Has Forever Disappeared-Surrender of the Island of Cuba to the Americans.

Gen. Brooke soon after taking command of the American troops in Cuba issued an order that the Cuban insurgent army would in no way be recognized during the evacuation of Havana.

The Cubans became greatly excited. They stood on every corner discussing the situation in a half frenzied manner. The Cuban peace commission after a stormy interview with Gen. Brooke telegraphed Gen. Gomez not to come to Havana, as he intended, as no courtesy could be shown him. They said; "We have not fought for a change of masters. We have fought for liberty and not a new ownership. Our army is still in the field. They shall not lay down their arms until we find out whether we are to be slaves or free."

It was reported that Gen. Mariano Menocal and his Cuban forces at La Paya have been asked to take the oath of allegiance to the United States and have refused. The news that Cuban soldiers had refused to take the oath of allegiance was cheered by the crowd. The United States flag was town down from many houses in the lower districts of the city. The Cuban leaders are doing everything possible to prevent any outburst, but say that if Gen. Brooke's arbitary command is carried out they will be helpless.

Judge Advocate Charles Gould of the McKinley that there is intense uneasiness in the situation and advising that the Cubans be permitted to participate in the evacuation ceremonies.

Later-After carefully considering the situation the Cuban officers agreed to postpone any attempt at a demonstration and convinced the populace that the Americans would fully recognize them in due time.

Passing of the Spanish in the New World. The stars and stripes were raised over Havana at noon Jan. 1, 1899, and the vellow and red banner was hauled down, ending forever Spanish sovereignty in Cuba.

The form of the transfer was simple, consisting only of an exchange of speeches by Capt.-Gen. Castellanos and Maj.-Gen. Brooke in the salon of the palace, the hauling down of the Spanish flag and the raising in its stead of the flag of the United States on the flagstaff on the palace roof. Salutes were fired from the heavy guns of the forts and the warships before and after the exchange of flags. The raising of the stars and stripes was greeted with cheers by the people, who covered the roofs of the buildings around the palace and the plaza. No crowd was permitted to gather in the streets in the vicinity of the palace to witness the

Father's Testimony Against His Son. In the examination of Jeff Mason at Paw Paw on the charge of killing Stephen Sprague, Mason's father testified that his son had confessed to him that he did the deed. Young Mason pushed Sprague off the ruilroad bridge over Deerlick creek, expecting the fall would kill him. It did not, and he then went down into the ravine and shot his victim twice with a revolver. Then he rified the pockets and took the body some distance from the bridge and sunk it in the water, where it was found later by Sprague's friends. The reason Jeff gives for the murder was found later by Sprague's friends. The reason Jeff gives for the murder was that Sprage had got the best of him in a woman deal.
