ANN ARBOR, MICHIGAN, THURSDAY, JANUARY 19, 1899.

WHOLE NO. 1256

JUDGE KINNE WITHDRAWS.

DECIDES NOT TO BE A CANDIDATE

Says He Will Not Oppose His Friend Judge Grant—This Leaves a Clear Field to Regent H. S. Dean in Washtenaw County.

Hon. E. D. Kinne, of the Circuit Court, handed the following letter to THE REGISTER last Thursday. This simplifies matters very much in this county and will give Col. Dean a chance to secure a solid delegation to the Regency nomination. Judge Kinne's letter is as follows:

Editor THE REGISTER:

Although I have not been an avowed candidate for judge of the supreme court at the coming spring election, my name has been mentioned with kindness and some prominence by the press of the state. The time has arrived when I think it is due to my friends and other candidates that I should disclose my position. Hitherto I have been in some doubt, but the situation is now pretty well defined. I am confronted with the following obstacles:

Regent Dean, of Ann Arbor, is a candidate for renomination. He insists that Washtenaw county cannot have two candidates for a state office in the same convention; that according to the usages of the party he is entitled to a renomination, and should have precedence. While I may think that the regency, being an office without salary and comparatively unimportant, ought not to stand in the way of my possible advancement to an office whose salary is seven thousand dollars and whose term is ten years, and while I may have no anxiety as regards the Washtenaw delegation, I can appreciate the feelings of Regent Dean, and I am very reluctant to engage in any contest at home which may embarrass any of my friends.

Again, in 1868, when I came to Ann Arbor, Judge Grant was then a resident of this city. From that day to the present time we have been intimate personal friends. We may have differed on some questions of state policy, or jurisprudence, or in our affiliations, but there has been no abatement or interruption in our friendship. He is now a candidate for renomination to the supreme bench. By the usages of the party he is entitled to such honor. I cannot allow my friends to do aught for me that might be prejudicial to his success. He is my friend and such I must be to him. None can question his bravery, his purity or his ability, and I am in favor of his renomination.

Therefore, unless these complications change before the next state convention, I shall not be a candidate therein. It is possible that I am hereby surrendering the one opportunity in my life to become a member of the supreme bench, and while my course may not be that of the successful politician, to my mind it is the path of duty and honor.

E. D. KINNE.
Ann Arbor, January 12th, 1899.

Prof. Cooley Will Return.

Professor M. E. Cooley, of the engineering department of the University of Michigan, who has been chief engineer on the United States auxiliary steamer Yosemite since the outbreak of the Spanish-American war, will return to the University in time to begin work with the second semester. He was detached from the Yosemite December 23, since which date he has been doing temporary work at the League Island navy yard. He expects to be relieved from duty by the first of next month.

Attendance in the Law Department.

The total enrollment in the law department of the University of Michigan is larger this year than ever before. The total number, including those taking the combined literary and law course, enrolled up to noon of January 11 was 72, or five more than the total enrollment for last year. The number enrolled only as law students is 742 as against 733 for Jan. 15, 1898. The number taking the combined course of six years literary and law work is 30 the present year as against 22 last year. The largest number enrolled in the department in any one year when the law course required but two years instead of three as at present, was 670. Dean H. B. Hutchins, from present indications estimates that before the close of the collegiate year the total enrollment of the department will be not less than 780, which will be 15 more than last year's total.

DEBS IN ANN ARBOR.

CANNOT SPEAK IN UNIVERSITY HALL.

Will Be Here Jan. 31—Comes Under Auspices of Good Government Club—Authorities Refuse Him University Hall.

Some time ago the Good Government Club entered into negotiations with Eugene V. Debs to lecture here upon the subject of "The Laboring Man's Interest in Good Government." But it turns out that President Angell and Secretary Wade refused to allow Debs to speak in University hall and the club will have to seek other accommodations for him. The reason given for the refusal is that Mr. Debs' speech may border upon politics and the University hall is not to be besmirched with discussions upon such topics, according to a meeting by the board of regents. Eugene V. Debs' conduct in the Chicago strikes is probably the greatest objection to him. But an effort will be made next Tuesday, when the board of regents meets, to secure University hall, notwithstanding on a previous meeting it supported the decision of Pres. Angell and Secretary Wade.

In this connection the following editorial from today's U. of M. Daily is copied in order to show that the feeling among the students is by no means in conformity with that of the University officials upon the subject:

There are times when it almost seems that the rule laid down by the regents a few years ago that nothing bordering on a political speech should be delivered in University Hall is unfortunate. To draw the line between topics bordering on politics and those purely academic is wellnigh impossible. Why, for instance, should not the great colonial problem now all-important be discussed before the students in University Hall and yet it certainly comes or will soon come within the field of politics. To deny Eugene Debs the privilege of speaking in University Hall on the question "The Laboring Man's Interest in Good Government" is, we think, drawing the line pretty narrow. We are not upholding any political views Mr. Debs may entertain, but we believe he should be given a hearing on a par with other speakers who discuss topics of those perhaps more by the liking of those in authority but still far nearer the field of politics than "The Laboring Men's Interest in Good Government."

A letter has been received from Mr. Debs' manager stating that he will be here Jan. 31, which is the date agreed upon.—Times.

SUES FOR \$20,000.00.

GEORGE WARREN FILES A BILL AGAINST THE M. C. R. R.

For Damages on Account of Death of His Daughter Agnes, Who was Killed a Year Ago Last Summer—Was a Student at the U. of M.

George Warren, administrator of the estate of Agnes M. Warren, has commenced suit by A. J. Sawyer, his attorney, against the Michigan Central railroad, claiming \$20,000 damages.

The declaration sets forth that the Michigan Central was on Aug. 20, 1897, in possession of a strip of land lying between its tracks and the Huron river, immediately above a dam across the river known as Swift's or Sinclair's dam, in the city of Ann Arbor. That the said dam caused the waters of the river to flow back a distance of two miles, forming a lake desirable for boating, fishing, and excursion parties during the summer and skating parties during the winter. That for ten years prior to Aug. 20, 1897, the Michigan Central had been in the practice of leasing certain portions of the strip of land above the dam to various persons to make the lands and river a public resort, and they built boat houses and kept boats for rent, from which boat houses pleasure parties in great numbers made excursions upon the Huron river above the dam. That the Michigan Central knew that in order to reach these boat houses it was necessary for the public to cross its tracks and its right of way. The declaration then recites the ordinance passed by the city which limits the speed of its locomotives and cars to six miles an hour while the same are within 500 feet of any grade crossing of any street or alley in the city, and the bell of the locomotive must be rung constantly while the cars are in motion in the city limits. The declaration then charges that the Michigan Central, by its own acts, constituted the place where the public go to the boat houses as a public highway or grade crossing.

On Aug. 20, 1897, Agnes M. Warren had been boating and attempted to cross the tracks at the above point. By reason of the sharp curve (known as Dead Man's Curve) it was impossible for her to discover the approach of a train which was coming around the curve at the rate of 45 miles an hour. The train struck her and she died from the effects of the injuries in an hour's time.

The declaration contains three counts. First, a violation of the city ordinance as well as negligence, and charges that she received injuries which resulted in her death. Second, it includes charges the same as in the first count, and besides holds that it was the duty of the company to put a flagman at this point. Third, it charges all the other sources of negligence and sets up instant death.

ANN ARBOR P. O. GROWING.

If It Keeps Up the Ann Arbor Office Will Soon Be in the First Class Grade.

The gradual increase in business at the postoffice is noted by the fact that the net receipts for December, 1898, exceed the net receipts for December, 1897, by \$546.65. The net receipts for the quarter ending Dec. 31st is \$109,57, ahead of the same quarter last year notwithstanding the expenses of the office have increased at the rate of \$275 for the quarter. The total amount of stamps, envelopes and cards sold during December was \$3,020,26, other receipts \$122.55, making a total of receipts for December of \$4,142.81, and for the quarter ending December 3rd \$10,822.74.

The money order business of the office is also increasing, as the figures for December, as compared with December, 1897, indicate. During the past month there have been 1,150 domestic orders issued, amounting to \$5,593.53, and 59 international orders issued amounting to \$529.29. During the same time there have been paid 3,484 domestic orders, amounting to \$21,132.33, and 36 international, amounting to \$329.83.

For the month of December, 1897, there were 1,094 domestic orders, issued, amounting to \$5,509.36. 61 international orders, amounting to \$735; 2,243 domestic orders paid, amounting to \$16,789.32, and 28 international orders paid, amounting to \$481.18.

One Currie, a Detroit fellow sent to state prison for killing a man named Boyd, but lately pardoned by Gov. Pingree, has filed with the governor a cock and bull story about the brutal punishments that men get at Jackson. It seems that he was flogged once for heading a riot in the shirt factory, and he tells how others have been "hung up by the thumbs," etc. Trouble with Currie is he didn't get halfenough. If he don't like the discipline at the prison, let him keep out of it. No one insists on his going there if he behaves himself. The officers deny most of his statements.—Adrian Press.

A Church Fire at Chelsea.

About 10:15 o'clock Sunday night S. C. Stimson discovered that the M. E. church was on fire, and sent in an alarm, and soon the fire whistle was in full running order. The fire was discovered in the furnace room, and had made great headway. It was sometime before the firemen were able to do anything toward quenching the flames on account of the first hydrant tried being frozen, and it took some little time to connect with another. But soon after the water was turned loose the fire was gotten under control. Great praise is due the firemen for the efficient manner in which they handled the fire, as it seemed almost impossible at one time for them to get it under control.

The interior of the building is a total wreck, the basement being in ruins, and the floor of the auditorium being burned through in many places.

The fire undoubtedly started from an overheated furnace. The building and contents were insured for \$6,500.

In our local items last week we spoke of the question among the Methodists being whether to repair or build. The question is now settled.—Chelsea Standard.

COMMON SENSE CURE.

PYRAMID PILE CURE CURES PILES PERMANENTLY BY CURING THE CAUSE.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition.

Here are some voluntary and unsolicited testimonials we have lately received:

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years.

Major Dean of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure.

RECREATIONS.

These are the long evenings that permit social gatherings, and the young people are planning their amusements. I like to see the young folks happy, to hear their merry laughter and to know that there are in the world hearts free from care and full of innocent glee. I would not dampen their ardor for an instant, but I would like to suggest that they make sure that all their amusements are recreations. If we spell that with a hyphen, re-creations, we shall have a better understanding of the word. All amusements should be re-creations, but many are not; dancing for example. Now I see the look of dismay in many of your faces as you hear this, and you exclaim, "Do you think dancing immoral?"

I was not thinking of dancing as a moral question at all. I was leaving that phase of the subject entirely out of consideration. I was thinking of dancing from the health point of view merely.

But you ask, "Is not dancing good exercise?" Well, that depends. Walking is good exercise, but no one would dress up in his best once in a while and walk all night for exercise, and between times do no walking at all. The idea is ludicrous. Any exertion to be of value as an exercise must come under certain regulations. It must be suited to the needs of the individual. His strength, his weakness and his defects must be taken into account. Hence he should have a physical examination and be put under the care of a competent director who decides the kind and amount of exercise, and watches its effects. The exercise should be taken at regular intervals; in an appropriate dress; out of doors or in a well-ventilated building; at suitable hours; in not excessive amount; and accompanied by regulations as to bathing, diet, sleep, etc.; all highly seasoned rich, or indigestible articles of food are forbidden; early retiring is required; in short the whole life is regulated, if the individual expects to get the most good from his exercise and make it recreative.

If a man already well-developed muscularly intends to run a mile race, he will train two or three months to prepare for the six minutes' dash. He will train four months for a foot-ball contest that will last an hour, and if he is not well-developed, he may train two or three years before he enters the contest. He begins exercise very moderately and day by day increases the amount until he is in complete readiness. Not only this, but he gives up tea, coffee, tobacco in all forms, alcohol in all forms, pie, cake, candy, warm bread or fresh bread, pickles, fried foods, etc., etc.—and he goes to bed early and gets up early. He restricts his appetites, controls his desires, and works hard in order to be able to enter the contest in good trim.

Do those who advocate dancing as an exercise insist upon these requirements? Dancing is engaged in by the weak and the strong alike; at irregular intervals; in a dress that in women restricts the breathing, displaces the internal organs, interferes with the heart's action, and often exposes the person to danger from draughts and seriously threatens health or even life itself. As one dressmaker prosaically remarked, "Pneumonia has taken off some of our most beautiful necks this winter."

Dancing is indulged in in an atmosphere vitiated by the breath of many people, deprived of its oxygen by lamps, and filled with dust raised by the feet of the dancers; it not only fills the hours of the evening, but encroaches on the next day, and therefore is excessive in amount, even for those who are in good muscular trim. For girls whose muscles are weak it is suicidal. It is accompanied by irregular eating of unwholesome food and drinks, by sudden cooling of the body when overheated, and by an excitation of the nervous system most fascinating, but most dangerous.

On the whole dancing, as generally conducted, has little to be said in its favor. It is not a re-creation, but a dissipation, a destruction. Remember I am speaking from the point of view of the physician. The morality of dancing is another question.

THURSDAY, JANUARY 19, 1899.

It is reported that Mr. E. F. Johnson was, on the quiet, a strong Burrows supporter, and roundly scored our good, gray, governor, because he opposed the reelection of the senator. This is ungrateful, and unusual, for a man who is obliged to make the pledges necessary to secure a job under Pingree...

A unique feature of the shipping bill introduced just before the holidays is that it gives adequate aid to American ships in the foreign trade in competition with aided foreign ships on condition the owners of such American ships as receive the bounty shall agree to build 25 per cent. as much new tonnage in the United States...

In another column in this issue we publish a communication from Judge Kinne. In this letter the Judge withdraws his name as a candidate for the nomination for the Judge of the Supreme Court. The reasons which have led him to refuse an honor which was undoubtedly within his reach are such as should and certainly will increase the great esteem in which Judge Kinne is held by all who know him...

What Cures Itching Piles? Stekete's Worm Destroyer.

It is not itching piles that all you or your child. It is the troublesome pin worm, and no salve or doctor can cure you. Stekete's worm destroyer is the only sure cure. BEFORE the year 1900 the full effects of the Dingley Tariff will be witnessed. It will then be seen that it is an adequate revenue-producer, but above all things its successful working will demonstrate that the only proper method for a country of great resources, such as the United States, to pursue is to adopt a policy which encourages home industries—San Francisco "Chronicle."

THE framers of the Constitution had in mind that the management of the University of Michigan should be as free from political influences as is possible in a democratic form of government, by providing that the governing body should be chosen at the spring election when Judges of the Supreme Court are elected and partisanship is supposed to enter the least into election affairs. That this was a wise provision, no one will deny who is conversant with the history of educational institutions in states where political management has been allowed to dominate.

DYSPEPSIA. For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life. DAVID H. MURPHY, Newark, O.

WASHINGTON CONQUERED.

GRIP TAKES THE CITY IN ITS IRON GRASP.

Government Machinery Almost at a Standstill—Enormous Percentage of Employees Stricken with LaGrippe—Capitol at the Mercy of the Plague.

The Grip epidemic is raging in the Capitol City, and fully one-third of the government employes are sick or suffering from the dread disease. Violent headaches, fever and chills, sneezing and running at the eyes and nose together with the bone-racking aches and pains and a general exhaustion are the rule rather than the exception.

"When the Grip left me I was a broken down wreck, both mental and physical. My nerves were completely unstrung, my appetite failed, could not sleep and became so despondent that I despaired of ever getting well. I began to improve with the first bottle of Dr. Miles' Nervine and when I had taken seven bottles I was completely cured. Have been strong and well ever since and weigh more than I ever did before."

Samuel L. Pilson, Staunton, Va. All druggists are authorized to sell Dr. Miles' Nervine on a guarantee that first bottle benefits or money refunded.

Additional Local News. The State Millers' convention convened in this city Wednesday.

The infant son of Mr. and Mrs. Monroe Kendall, of Fosters, died Monday.

Mrs. John T. Fuller, who was stricken with paralysis a short time ago, is slowly recovering.

Mr. Eli Sutton did not appear at the meeting of the Board of Regents Tuesday to demand his seat as was expected.

John Sedina, aged 10 years, broke through the ice in the river Sunday, and but for timely assistance would have drowned.

Rambert Jones has been appointed assistant mailing clerk at the postoffice at a salary of \$400 per year. It is a new position in the postoffice.

The new flowing well at the farm of Dr. Steere, south of the city, has just been covered with a building. The water coming from it is the purest in this part of the state.

Judge E. D. Kinne went to Detroit yesterday to hold court for a few days to help relieve the pressure in two or three of the courts there which are crowded with business.

It is stated that if City Assessor O'Hearn declines to run for re-election on the ground of failing health, that Capt. Charles R. Manly will be nominated by the Democrats this spring.

Ex-Postmaster Beakes received his last remittance from the Government Monday night. It was the balance due him on the money order account, and amounted to the munificent sum of one cent.

Attorney A. J. Sawyer has filed a plea and notice in the case of John George Richert against John G. Feldkamp and others for \$20,000 damages for the alienation of his wife's affections.

City Atty Butterfield proposed three amendments to the city charter last Monday night, and asked for permission to have them introduced in the legislature. The permission was granted.

The next number in the Unity Club Lecture will be given by John R. Effinger, Ph. D., instructor in French in the University of Michigan. His subject will be "The French Academy," and the lecture will be given Monday evening, Jan. 23rd, a week later than originally announced.

How many young men and young women are cut off just as the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

The council held a very short meeting last Monday night.

Prof. C. H. Cooley will discuss the question, "Is the Concentration of vast wealth in the hands of Individuals and Corporations a menace to our liberties," Sunday, Jan. 22, immediately following the morning service at the Congregational church. Students of the U. of M. especially invited.

The attendance at the Sunday afternoon meetings at the Y. M. C. A. continues excellent. Next Sunday one of the city pastors will speak. As special musical features Mr. Eugene Sanders will play a violin solo and Sidney Martin a vocal solo. All men in the city are invited to attend these meetings.

Mrs. Angell returned Sunday from Annapolis, where she was the guest of her brother, Mr. Caswell, who is pay inspector of the navy. Mrs. Angell was accompanied by her niece, Mrs. Hood, wife of Lieut. Hood, one of the survivors of the ill-fated Maine, who is at present in the West Indies. Mrs. Hood will be in the city for some time, the guest of Mrs. Angell.

Robert Mantell will present his drama at the Athens Theatre tomorrow night. The play is entitled "A Secret Warrant" and written by "W. A. Tremayne of Montreal. The story is laid at the Court of the Regent Duc d'Orleans in 1720 and replete with the intrigue of the Bourbon monarchy. The Stella role is Louis de Beaumont, Captain of Kings Guards and a typical soldier of fortune.

Co. A's armory is now abandoned. The military board met a few evenings ago and decided to see what could be done with the fixtures, and practically decided to give up the lease of the building, inasmuch as the state authorities will no longer assume any responsibility for the rentals. Monday the fixtures were moved out and stored in the court house. The indebtedness of the company is a little over \$20, and this will be assumed by the military board. The rink will probably be used now for dancing parties and events of that character.

Prof. M. E. Cooley, who has been called to Detroit as an expert witness in the Journal explosion case, which occurs this week, spent Sunday with his family in this city. Prof. Cooley has for this purpose a week's leave of absence from the navy yard at Philadelphia, where he is stationed, and at the end of this time he will resume his duties there, where he expects to remain until about the middle of February, when he will return to Ann Arbor and take charge of his work in the University.

Henry D. Estabrook, the noted orator and speaker, is to appear in University hall next Saturday under the auspices of the Oratorical Association. The affair is to be in the nature of a reception, similar to that accorded Joseph Jefferson last year. His subject will be the "Mission of America." Mr. Estabrook is one of the most gifted orators before the American public and is thoroughly in touch with colleges and college men. He should be greeted by a large house.

Spain's Sunken Ships Floated. Perhaps the greatest mechanical feat of the century has been the raising of some of the Spanish warships which were apparently shot to pieces at Santiago. It seemed utterly impossible to float them because of the terrible damage inflicted by our guns, but the task has been accomplished. Diseases of the blood, stomach and liver frequently wreck the health so that there appears to be no chance of recovery. But when Hostetter's Stomach Bitters is taken the disordered system is speedily restored to its old-time vigor and tone. The Bitters will regulate the liver, bowels and digestive functions and purify the blood. You can buy this remedy in any drug store and under no circumstances should you accept anything said to be "just as good."

BRONCHITIS. Bronchitis generally begins with a common cold; if not cured it becomes dangerous and thousands die from bronchitis annually. Dr. John W. Bull's Cough Syrup, the best remedy for this disease, cures it in a few days. Dr. Bull's COUGH SYRUP Will promptly cure Bronchitis. Doses are small and pleasant to take. Doctors recommend it. Price 25 cts. At all druggists.

DOMESTIC AND FOREIGN NEWS

Commissary-General Eagan Modifies the Language in His Report and Resubmits it—Cuban Soldiers Must Have Their Pay—Miners in Trouble.

Commissary-General Eagan Apologizes. Commissary-General Eagan has greatly modified his statement from the original one made in response to Gen. Miles' charges, wherein the objectionable language was contained. The statement, however, is withheld from the public by the commission and only the letter which accompanied it is given to the press, which in substance contradicts the charges relative to his furnishing the soldiers with "embalmed beef."

A dispatch says: Brig-Gen. Chas. P. Eagan, commissary-general of subsistence, will be court-martialed without delay, but before his trial he will be relieved from duty and placed under arrest.

Cubans Ask Uncle Sam for \$40,000,000. According to Brig-Gen. Jose Miguel Gomez, a member of the Cuban commission now in Washington, the Cuban army is sure to receive the three years' pay to which it is entitled, \$40,000,000 being advanced by the United States, with the custom houses of Cuba as security for its repayment. Brig-Gen. Gomez is grateful for the way the commission has been received. The negotiations, it is expected, will be completed by the end of this month, when the commission will return to Cuba.

A Battle Expected. A battle royal between the coal operators and the United Mine workers over the interstate agreement is expected. It is understood that the operators will generally oppose an advance in the price of mining and will fight to the end any agreement looking toward an increase in the present wages. Some of the miners' delegates say they will insist both upon an advance in wages and the 8-hour day.

Passenger Train Derailed. Passenger Train No. 4 on the Baltimore & Ohio Southwestern was derailed east of Clay City, Ill., by a broken rail. It was discovered afterwards that the rail had a flaw and was defective. The rail was broken by the engine passing over it, and derailed the combination car, coach and sleeper. There were three men, one woman and two children injured.

Buried Alive. The report that Mrs. Wilfound was buried alive, at West Superior, Wis., caused Coroner Downs to secure a permit to exhume the body and have a post-mortem made. When he reached the cemetery and commenced to open the grave a mob of 150 Jews, opposed to the disinterment, compelled him to stop. He will make a new attempt when he secures reinforcements.

Cubans on a Strike. The laborers on some of the sugar estates in the Guantanamo district have gone on a strike and the trouble is likely to spread. The cause assigned by the strikers is that the storekeepers charge a discount on Spanish gold. The men say they receive the same amount now as under the old regime, but are compelled to pay 9 per cent on their purchases.

Pneumonia's Ravages. Dr. H. M. Mangum, a prominent citizen of Metropolis, Ill., died on Dec. 26 of pneumonia. Twenty-four hours later his daughter died; three days later his wife died, and the youngest child, a son, was buried the following day, and now the only remaining member of the family, the grandmother, is dead. All died of the same disease.

Probate Order.

STATE OF MICHIGAN, COUNTY OF WASHTENAW. ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate office in the City of Ann Arbor, on Wednesday, the 18th day of January, in the year one thousand eight hundred and ninety-nine. Present, H. Wirt Newkirk, Judge of Probate. In the Matter of the Estate of Sophia E. Garland, incompetent. On reading and filing the petition, duly verified, of Lottie Thompson nee Garland, praying that she may be licensed to sell the real estate of said incompetent. Thereupon it is ordered, that Wednesday, the 26th day of February next, at 10 o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said incompetent, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Ann Arbor, and show cause, if any there be, why the payer of the petitioner should not be granted: And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this Order to be published in THE ANN ARBOR REGISTER, a newspaper printed and circulating in said county three successive weeks previous to said day of hearing. Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was indeed pitiable. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health. Mrs. S. S. MARY, 260 Elm St., Macon, Ga.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific, S.S.S. For The Blood reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free to any address by Swift Specific Co., Atlanta, Ga.

AMONG OUR NEIGHBORS.

DEXTER LEADER.
A recently organized male quartette has become a prominent feature in the musical part of the services at the Baptist church. They have already received much complimentary encouragement.

It wasn't the tail end of a Dakota blizzard that struck this section last Saturday. It was a genuine, able-bodied article and it made the natives cringe and shiver in a way that they haven't in many a long day.

YPSILANTIAN.
Fremont Pattison last week became violently insane and Friday was taken to the Retreat at Dearborn.

The Ypsilanti friends of James M. Swift of Fall River, Mass., will be interested to learn of his appointment as assistant district attorney in the southern district of Massachusetts, including four large counties. He is also giving a course of lectures on Commercial Law to a class of fifty in a Fall River Business College.

Miss Emma Sootney died Jan. 8, of pulmonary tuberculosis, at the Harper Hospital in Detroit. She was brought to her home in this city for burial.

Major Kirk has sent in his resignation to take effect Jan. 18.

YPSILANTI SENTINEL.
R. D. Gifford, of the Cleary College, has purchased a third interest in the Livingston Herald, at Howell.

"Dick" Marsh, one of the old soldiers discharged by Auditor General Dix, has been given a position in the office of the Secretary of State.

The Alumni Association of the Normal have decided to undertake the publication of Dr. Daniel Putnam's History of the Normal, when it is ready for the press.

On Wednesday last Mrs. Emma Hurd, formerly of this city, died at her home in New Boston. Mrs. Hurd was the mother of Mrs. Seevy and Mrs. Penny of this city. The burial was held at New Boston.

MANCHESTER ENTERPRISE.
There are a good many cases of sickness called the grip, about the village and country.

There has been a larger amount of stock shipped from this station the past year than heretofore. Farmers have come here who formerly went to other towns, higher prices being the inducement.

Monday afternoon as a train was switching, Sam'l Palmer was returning home. At the Jackson street crossing his horse acted badly, but finally thinking he could get over ahead of the train he drove ahead, but was not quick enough. The coach struck his carriage and overturned it, throwing him out. The horse ran on home with carriage minus the top. Sam was badly frightened and shaken up, but not seriously injured.

CHELSEA STANDARD.
The residents of Orchard street surprised Mr. and Mrs. H. Lighthall, Wednesday evening by gathering at their new home and proceeding to have an enjoyable time.

Married, on Wednesday, January 4, 1899, at the home of the bride's mother, Miss Jennie Gorman to Mr. William Martin. Rev. W. P. Considine performing the ceremony.

Word was received here Monday that John E. Hall of Dexter township who went to California a short time ago for his health, had died. He leaves a widow and nine children.

At a meeting of the Rural Telephone Co. of Waterloo held in our village last week, such a favorable showing was made of the business done during the last quarter, that it was decided to extend their lines to Gregory, Munith, Grass Lake and Trist. After paying expenses, deducting \$3.00 for the quarterly rent of each shareholder's phone, there yet remained six per cent. net on the capital stock.

MILAN LEADER.
Lester L. McMullen, a young man only 21 years old, died at the home of his father, John McMullen, three miles west of this place, last week Thursday, of typhoid fever. The funeral occurred Saturday at the house, Rev. F. O. Jones officiating. The interment took place in the Rice cemetery.
A. E. Putnam received an order for 200 of his cloth charts from Glasgow, Scotland, Wednesday.

Herman Calhoun, who lived three miles north of this village, died last week Tuesday of la grippe. He had reached the ripe old age of 81 years. The funeral occurred Thursday of last week at the house, Rev. Barry, of Saline, preaching the sermon. The remains were deposited in the York cemetery.

A pretty slick swindler is taking in the farming community about Milan. He goes on foot and carries a gallon jug, filled with a medicine, which he claims is a "cure all." He is very particular to only go to those houses where

some one is suffering from a chronic ailment. He sells this "concoction" for \$5 a jug and one day last week sold three jugs. Pretty slick, but as someone once said "a sucker is born every minute."

SALINE OBSERVER.
A slight scare of fire originated at the home of John Gates Wednesday morning. The fire started around the chimney and burned a hole up through the roof.

The fire boys who have rented the opera house for a term of years took possession January first and the management of the hall was turned over to J. A. Aiber who will look well to its interest and contract with you should you care to use it.

Quite a company of the neighbors and relatives of Preston Rouse gave him a surprise Monday night it being his fortieth birthday. The evening with chicken pie supper was spent most pleasantly and livened by several selections from the Male quartet boys.

Mrs. Emeline Humphrey has purchased the E. A. Hauser & Co. stock of general merchandise and fixtures, and all book accounts. She assumes all bills against the retiring firm, and the business will be continued under the new firm name of Humphrey & Co. who ask a continuance of the trade of patrons of the retiring firm.

YPSILANTI COMMERCIAL.
The marriage of Miss Eleanor Woodruff, of Benton Harbor, is announced to take place next Wednesday. Miss Woodruff is the daughter of Rev. Woodruff, formerly pastor of the Episcopal church here.

M. T. Woodruff, of the Sentinel, informs us that he will leave for Manistee on the 19th, to take charge of the Journal. Mr. Woodruff has leased the Journal plant, and will endeavor to run both the Sentinel and the Journal, with the aid of George M. Townsend at this end. We wish Mr. Woodruff success in his new enterprise.

The attempted murder case, in which Calvin Bird attempted to send his wife out of this world, ends by a happy reunion of the young couple, with the emphasis on the happy.

Will Freeman, of the "Roosevelt Rough Riders" fame, did not get enough of army life while with Teddy, so went to Knoxville and hired out to drive an army wagon. Last week he was thrown from the wagon and badly bruised, necessitating his taking a rest in the hospital.

Deputy Register of Deeds Frank Creech, who is also secretary of the Republican county committee, would take the postoffice. The list of aspirants is thus lengthened a little, but the more the merrier. Who next?

FATAL AS WAR.

More Lives Are Lost Through Common Colds than Are Taken in Battle—How to Prevent and Cure Them.

People need to be often reminded of the great danger that lurks in the common cold. In this climate the sudden changes of temperature and moisture in the air make it easy to "catch cold." The symptoms of a cold are well known. Its results include half the diseases that afflict mankind. If a cold settles on the outer covering of the lungs it becomes pneumonia, inflammation of the lungs, or lung fever, and in many cases carries off the strongest man to his grave within a week. If a cold falls upon the inner covering of the lungs it is pleurisy with its knife-like pains. If a cold settles on the lungs and is not quickly cured the dreaded consumption will have another victim. A cold will so often and so quickly bring on a fatal malady that there never was "a slight cold." Every cold is a menace against your health and life and should have immediate care. The very best remedy made to cure colds is Dr. King's New Discovery for Consumption, Coughs, and Colds. If this grand medicine were always kept in every home it would save tens of thousands of lives yearly. It cures obstinate Coughs, Bronchitis, Pleurisy, Pneumonia, Hemorrhage, La Grippe, Lung Fever, Asthma, Hay Fever, Croup, Whooping Cough, and other bronchial troubles. Read how it saved the life of Mr. A. C. Thomas, a farmer of Marysville, Texas. He was very low with hemorrhage of the lungs and had lost much blood. He had tried many remedies, but kept getting worse until he thought he had but a short time to live. He then began to use Dr. King's New Discovery, and five bottles wholly cured him. As this supreme throat and lung cure has no equal never take a substitute. Price 50 cents and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

THE CASTOR COMPANY, 27 MURRAY STREET, NEW YORK CITY.

ARE YOU THE MAN?

Always tired. Don't sleep well. Weak, nervous and irritable. Seem to have lost all ambition. Very poor appetite and nothing tastes good. The lightest work is a task, and pleasure seeking wears you. You go about in a listless fashion, half wondering what is wrong with you anyhow.

Dear Sir:—There is everything the matter with you. A man of your age in the perfect health God intended, is an altogether different being from you in your present condition. Your sexual organs are not right, your digestion is impaired, your blood is in an unhealthy condition, your nerve system deranged. What is worse, you are not going to feel better as the days and weeks and months glide by unless some radical measure is taken to check the drain. A ball rolling down hill will not stop of its own accord, half way down, and return to the top. It is going to the bottom unless something stops it. Did you ever think that something must stop you or you will go to the bottom?

DR. EMIL CONSTAN'S TREATMENT
will restore your lost energy, aid your digestion, sharpen your appetite, and promote healthy, refreshing sleep. It will stop those distressing emissions and restore strength, health and vigor to the sexual organs. With the blood increased and purified, the process of digestion aided, your sleep made calm and peaceful and the nervous symptoms dispelled, nature rapidly becomes restored to a healthy and vigorous condition, and an entirely new feeling of hopefulness and energy is imparted to the weakened and enervated system.
Life will once more be a pleasure, the world will appear brighter and better, and you will feel the noble ambition and the desire to accomplish something worthy of sturdy manhood.

DR. EMIL CONSTAN'S WONDERFUL REMEDY
STRENGTHENS THE NERVES.
In small doses—for overwork, brain fatigue, laziness, lack of energy, weak memory, dizziness.
In medium doses—for nervous prostration, nervous debility, loss of desire or excessive use of tobacco, opium or liquor.
In large doses—as a positive cure for night emissions, lost vitality, underdeveloped organs, and impotency IN EITHER SEX.

Physicians, the country over, prescribe it in small doses as a tonic to those suffering from the effects of overwork or hard study.
In cases of impotency and lost vigor Dr. CONSTAN'S REMEDY is a prompt, absolute and permanent specific, producing results without a parallel in the history of medicine. Nor does it act with less directness, force and thoroughness in promptly checking unnatural losses and antidoting all the evil symptoms of both brain and nerves that result from drains of this nature.
Dr. CONSTAN'S REMEDY is a Brain, Blood and Nerve Food. It replaces the essentials of life that are exhausted by indigestion, high living, overwork, worry, excesses and abuse. It makes the blood pure and rich, clears the brain, makes digestion perfect and creates solid flesh, muscle and strength. The generative organs are helped to gain their normal powers, the nerves are recharged with their native electric energy and the sufferer is made conscious of direct benefit.—A reinvigorated new person takes the place of the nerveless impotent old one.

What is Dr. Constan's Remedy?
An animal animal and vegetable tonic and nerve food, containing no poisonous substances, prepared in small sugar-coated tablets, pleasant to take, and readily carried in the pocket.
Dr. CONSTAN'S REMEDY is the result of over 20 years' experience in the treatment of disorders of the generative organs.
Price in plain wrapper, 50c per box or 6 boxes for \$2.00, by mail, postpaid.
Address **THE F. W. MEAD CO., Middletown City, New York.**

Hench of the department of Germanic languages of the University of Michigan, is a member of the committee of twelve appointed by the Modern Language Association of America, to consider the position of French and German in secondary schools, and to examine into and make recommendations upon methods of instruction and the training of teachers.

Can it be possible that it is not going to be a "milk trust" after all? Are the projectors of the new enterprise simply philanthropists and not bug-a-boo monopolists? The Argus says that it will benefit the farmers and the city and designates the concern as a "creamery and distributing" depot, and the Courier (the paper owned by the promoters) seconds the motion. Of course the endeavor to get all the milkmen to sign the contracts cannot be an attempt at anything else than to do the people good—and it is probable that they will do them good.—Times.

Refreshments were served and a very pleasant evening was spent.

Maj. E. O. Crittenton, of 2248 Monroe st., Chicago, a resident of Ann Arbor from 1844 to 1849, died at his home in Chicago a week ago last Saturday. Mr. Crittenton was a contractor and builder and was well known to our early settlers. Mr. Crittenton was an uncle of Mr. Charles N. Crittenton, the founder of the "Florence Crittenton Missions."

One result of the speech made at Manchester by A. J. Waters, president of the village, at the celebration of German Day last summer was his being retained by the plaintiff in the case of Elfring vs. Peters. Elfring had heard Waters' speech and had decided that if he ever had any law business to attend to Waters was the man he wanted, and Waters won the case for him.

The building formerly used for a laundry at the University hospital, Ann Arbor, is being turned into a ward for contagious diseases. When remodeled it will accommodate from six to eight patients. Although the hospital is not open to patients with contagious diseases, it sometimes happens that such diseases develop in the wards; hence the necessity for a separate building.

The Junior Endeavor Societies of the Congregational Church will give a "Magazine Entertainment" Friday evening, Jan. 13, at 7:30 o'clock, in the Church parlors, in behalf of the Children's Missionary Society of the same church. If you don't know what a Magazine Entertainment is, come and find out Admission 10c.
