ELECTRIC ROAD ANSWERS.

THINKS INJUNCTION SHOULD NOT ISSUE.

Says City Has Allowed Cars to Run Rapidly So Long That it is Now Too Late to Stop Them.

In the suit of the city of Ann Arbor vs. the Detroit, Ypsilanti & Ann Arbor Railway the issue has been joined. The city brings suit to compel the street railway to limit its rate of speed to eight miles an hour, according to the ordinance of the city.

The bill of complaint sets forth particularly that the cars are operated on Packard st. frequently and almost without exception at a rate of speed often exceeding fifteen miles an hour. The answer to the bill of complaint says that when the Ann Arbor & Ypsilanti Electric Railway Company and the Ann Arbor Street Railway Company (the predecessors to the present company, which absorbed all their rights) were the owners of rights and privileges along the streets and while each was operating its railway in Ann Arbor, the provision in the ordinance limiting the speed to eight miles an hour was continuously disregarded for more than ten years, but, nevertheless, neither the city nor any resident there, of ever took any steps to enforce the provision in any manner. Therefore, for a period of ten years, the city has permitted the railway and its predecessors to run cars at a speed exceeding eight miles an hour, so that by such conduct the city is estopped from enforcing said provision, and the provision is now obsolete and of no binding force. Further, that it is not possible to give a first-class service such as the citizens of Ann Arbor require unless the cars are operated at a greater speed than eight miles an hour.

RUNNING AWAY FROM ZOOLOGY.

That is What Life Thinks Prof Worcester is Doing.

There is one man on President McKinley's Philippine Commission who knows the work that is cut out for him, and that is Professor Dean C. Worcester. He has published a book of five hundred pages on "The Philippine Islands and Their People" (Macmillan), and it is not compiled, but is a record of "Personal Observation and Experience." There must be something attractive about the islands, or a man of Professor Worcester's advantages would not be tempted to go back to them for an indefinite stay. Moreover, he must have considerable faith, either in the good temper of the insurgents or in the long arm of Admiral Dewey, to risk his life among them. Perhaps, however, any intelligent man would take a lively chance of death rather than stay at home and teach zoology—and that seems to be what Professor Worcester is running away from.—Life.

FIVE YEAR CONTRACT.

Editor Beal Has Secured One For the Postoffice Building—Must Make Several Changes.

For the past few years there has been considerable talk on and off of Ann Arbor getting a government postoffice building, but such a thing is not to come off for the next five years at least.

A couple of weeks ago Junius E. Beal, whose lease from the government for the present postoffice is about to expire, went to Washington to secure a renewal and upon his agreement to make certain changes a new lease was made out for five years from March 1, at a rental of \$1,500 per year, which is a raise of \$300 over what he has been getting.

AN OLD SCHEME.

IT WAS THE "NO CURE, NO PAY" PLAN.

Worked on a Salem Farmer and His Wife—Justice Court Jury Says They Need not Pay.

There is no advice given as often and no advice which is so frequently disregarded as "Be careful what papers you sign."

The case in Justice Duffy's court last Friday in regard to a travelling doctor brings this very forcibly to the surface again and, no matter whether the healer in the case in question is a genuine and authorized physician or whether he is a man who could make the blind see and the lame walk, it is for the good of the public that THE REGISTER

REMOVAL.

Please note that THE REGISTER office has been removed from 216 East Huron to 125 North Main st., Opera House Block, where it has quarters with The Evening Times and where for the future it will be pleased to meet its friends and do business with them. In a few days we shall be entirely settled and our job department greatly improved. We ask our friends and patrons to bear in mind our change of location and give us a fair share of their advertising and job work.

The changes which are contemplated in the interior arrangement of the postoffice will make it much more convenient for handling the delivery at the carriers' windows and will make it handier for persons having business at the money order, stamp, registered letter or general delivery windows.

In the first place Mr. Beal will put in a large fire proof and burglar proof safety vault, the use of which is obvious.

Then the entire arrangement of the office is to be changed. The twelve carrier windows will be arranged along the west side extending the entire length except room for an employee's entrance at the north east corner of the building. Along the south end will be arranged at the extreme east the postmaster's private office. Just west of this in a cage with two windows will be the money order and registered letter department. Still further west and near the south west corner will be the box delivery and general delivery window. The vault will be on the east side just back of the postmasters private office.

These changes will not be commenced until after college closed next June, as it is practically impossible to do them before and make no serious delay in conducting the regular postoffice business.

warns people to beware of strangers, and more especially strangers who ask you to sign any kind of a paper.

WILL APPEAL THE CASE.

Wm. Mulholland Does Not Take Kindly to a \$50.00 Fine or Ninety Days in Jail—Will Appeal to the Circuit Court.

The Mulholland assault and battery case came up for trial in Justice Duffy's court last Thursday afternoon. The complainant was Mrs. Wm. Mulholland, who swore out a warrant for her husband for an alleged assault committed last Christmas day. Mrs. Mulholland told a story of great abuse that she had suffered, and displayed to the court a spot on her head where some hair had been torn out by the roots. She said her husband knocked her down and was the aggressor in their troubles. Mr. Mulholland went on the stand and told an entirely different story. He said that he was the abused party and that the hair was torn out while he was pushing her away from him. Mrs. Mulholland shed copious tears throughout the trial. It was very evident that the couple are not, nor have they been, enjoying an enviable married life. Justice Duffy evidently believed the story of the complaining witness, as he found the defendant guilty.

He said that the extreme penalty was \$200 fine or one year in jail, but that he thought there might be some mitigating circumstances. "I have no use for a man who will raise his hand to strike a woman," said Justice Duffy, "no matter what the provocation is, and the sentence is that you pay a fine of \$50 and costs or 90 days in jail."

Mulholland gave notice of appeal to the circuit court.

NEED BETTER CONSULAR SERVICE

Pres. Angell Expresses His Views in the February Alumnus.

President James B. Angell, ex-minister to China and Turkey, contributes an article on "Consular and administrative reform," in the February number of the Michigan Alumnus. He touches upon the expansion of territory, the military and naval prestige gained by the late war and sees with satisfaction a tendency among business men and manufacturers in the United States, who expect to expand trade in the Orient, to demand better consular service and better interpreters. He says at present there is no incentive on the part of bright young men to learn foreign languages with a view to entering the consular service, as the appointment is not permanent. A few years ago congress made an appropriation for the purpose of educating a corps of young men, but the next congress failed to make any appropriation and so the experiment was dropped. Frequently the government is robbed by foreign interpreters, and President Angell believes that many young men would go abroad at their own expense and learn to be interpreters, provided they could be assured of good salaries later, and ultimately of entering the United States consular service. The same is true of Porto Rico and Cuba, where the interests of the United States must be protected by men appointed permanently or during their good behavior. Administrative offices in these new possessions, he says, should, like the consular service, be divorced from politics altogether.

The Price of Health

is eternal watchfulness of the food we eat.

Baking powders made from burnt alum are very prevalent in the market. Sometimes they are sold as phosphatic, sometimes as cream of tartar powders, but never under their true character. They are generally offered upon the ground that they are low priced. In appearance they resemble a pure powder, and there is no way except by analysis to detect them until their continued use has impaired the digestion and injured the health.

The common sense and practical way of protecting our bread and cake from alum is by the use of the Royal Baking Powder in making them. The Royal is certified by the Government and State Chemists free from alum and absolutely pure, and its high quality and healthfulness are altogether above question. Consumers may use the Royal with full assurance not only that it makes the best food, but that it is the most economical.

ROYAL BAKING POWDER CO., NEW YORK.

MAY FESTIVAL, THURSDAY, FRIDAY AND SATURDAY, MAY 11, 12 and 13, 1899.

The following information respecting the Festival will doubtless be of great interest to the readers of THE REGISTER. It was not thought desirable to give the "Tannhauser," inasmuch as it was absolutely impossible to secure a tenor who could do justice to the principal part. The opera season in London this year, contrary to the usual custom is to be opened with a series of performances of German opera and, as a consequence, the greatest artists in that special field are not available. And the same difficulty arose in regard to the performance of "Aida." For this reason it was thought advisable not to attempt the performance of either of these works this year but to defer it until another season. Of all the works available "Samson and Delilah," Saint Saens, appeared to be the proper choice. It must be born in mind that in nearly every instance where the "Samson and Delilah," has been performed one season it has been repeated the next. It may be accepted as an axiom that a week which is not worth giving twice should not be given at all. No one can hope to get all that there is in a great work at its first hearing and, as is almost invariably the case with a great work, the second performance proves even more inspiring than the first. The enthusiasm with which the Manzoni Requiem was received last year was due largely to the fact that it was somewhat familiar.

The choral work to be performed the first evening of the Festival will be the "German Requiem" by Johannes Brahms, one of the truly inspired works of this century. Of special interest will be the performance on Friday evening of the last work of Verdi the "Sabbat Mater," written this last year. This is a most superb composition for chorus and orchestra and its performance will be one of the first in this century.

When the entire program is presented, it will be seen that in many ways the Festival of 1899 will present a stronger combination of works and artists than any of the former Festivals. Among the orchestral selections are many standard works which have never been performed in Ann Arbor, and several absolute novelties, while the majority of the soloists are also new to our audience. Foremost among the soloists must be named Sembrich, who is, all things considered, the greatest exponent of true vocal art now living. The enthusiasm with which she has been received wherever she has been heard this year in America is so well known to our readers that the mere statement of the engagement of this distinguished artist is sufficient. Sembrich is so well known as an operatic artist and vocalist that few people are aware of her accomplishments as a musician in other directions? She is quite a remarkable pianist and a most excellent violinist and her greatness as a singer rests not alone upon her vocal mastery but upon a solid basis of musicianly attainment. She will be heard at the Friday evening concert in a broad range of selections, including not only some of the great arias in which she stands prominent, but also in German songs.

At the Worcester Festival among the many singers advertised was Miss Sara Anderson, an unknown soprano, who although entirely unheralded, won the great artistic triumph of the Festival. Her performances since that time have justified the enthusiastic commendation of those critics who at that time pronounced her the coming soprano of America. Miss Anderson will sing the Soprano solos in the Requiem and will also be heard at the Symphony concert.

In addition to the names which have already been given to the public in formal announcements, are several others whose names are reserved until a complete announcement of the details of the Festival can be made, which will probably be in the course of a week or ten days. All the negotiations have not been entirely completed and it has been thought best to reserve information respecting the others until arrangements are made in order that there may not be so unfortunate a misunderstanding as happened last year regarding Campanari.

As announced, the sale of reserved seats will begin Saturday morning, February 4, at 9 o'clock at Frieze Memorial Hall, under the conditions which have been advertised.

Owing to the fact that many festival associations have withdrawn from the field this year, and the complication respecting the operatic artists, already mentioned, it was extremely difficult to make satisfactory arrangements for the Festival, but we are confident that taken as a whole, the Festival of 1899 may be considered equal, if not superior to any of its predecessors. It may not be known that there are but very few festivals in the country which in the last few years have been self-supporting. Ann Arbor has been one of them, but the problem of presenting such programs and such artists as we are obliged to on account of the wonderful development of musical taste in the community is becoming very difficult and nothing but the most cordial and absolute support of the community can make such Festivals possible.

PETTING MOTHER.

Boys, do you ever think about petting mother? Has it ever occurred to you that she cares to have you show your love for her? It may be that you always treat her with respect, that you do not disobey her, that you do not speak to her with unkindness; but do you ever tell her that she is dear to you—that you admire her and are proud of her? Mothers like to know that their sons are proud of them. Boys are ready enough to criticize their mothers; to say, "Mamma, that dress is not pretty. I don't like that bonnet." But how seldom do they say what perhaps they are really thinking, "mamma, how nice you look?" "How soft and pretty your hair is?" Boys, it would do your own selves good to say it heartily, and how it would cheer her heart, which often in night and silence mourns over your coldness or neglect.

There are boys who always treat their fathers with respect, and promptly obey their commands, because they stand in fear of them, knowing well that any act of disobedience or disrespect would be immediately punished; but when the father's eye is not on them they will speak with cruel unkindness to the patient mother, and treat her requests with scornful contempt, because, they say to themselves, "She can't whip me. She isn't strong enough." Such conduct is cowardly. A boy who slights his mother's wishes, and shows her disrespect, because she cannot punish him with the whip, is lacking in manliness, is at heart a bully, and a bully is always a coward. The smallest wish of your mother should have more power over you than any fear of personal chastisement. There is no earthly friend so near to you as your mother. She has cared for you through unnumbered weary days and nights. You remember when you were sick how good she was, and how dear she seemed to you. No one could do like mother, and yet you often reward her fondest efforts to please you with peevish words. No one could wait on you but mother, and no one was so often scolded and found fault with. And is it not so every day of your life? Weary, and perhaps sad, she works for you, and when you put on the garment she has toiled to make, your thanks are a frown on the brow, an irritated shake of the shoulders, and such words as "These sleeves are altogether too long;" "Nobody wears a coat as long as this;" "What made you make the collar like that?" and the garment is taken off and thrown sullenly down, and you go away without a word of thanks for the hours of toil. If you had only said with a kiss, "Mother, it is real nice. You are good to spend so much time for me;" then you might have mentioned the length of sleeves or set of collar; and with a happy heart she would have spent double time in remodeling it to suit you, and would have felt it no hardship; the burden of extra labor would have been borne away on the wings of the kiss and the gentle words.

If father is helping you at any task you have undertaken, how deferentially you suggest to him to hold this or tie that; but if mother is helping you, you give your orders often with a pettish and domineering way because "she is a woman." Ah! my boy, there is nothing on earth so worthy of your reverence as a true woman, and your mother above all others. Go to her, put your arms around her, and say, "Mother, I love you," and kiss her, and be assured you will sleep the more peacefully, and so will she. When at the table you see that something has been forgotten, don't speak of it with a lordly air, but jump and get it, to save mother's steps. Take the pail out of her hand and bring the water, or better still, don't let it get empty; keep the wood-box and coal scuttle full; when you have a chance peel the potatoes or wipe the dishes for her. You can have many a pleasant chat with her while so doing.

And if by any reason you cannot do any of these little tasks to relieve her, you can always find time for the tender caress and loving word, that will thrill her heart with such joy that she will forget her very weariness. "Mother," said a little child, "no one can make me believe that you are not the most beautiful woman in the world." To him she was, and she ought to have been, the most beautiful woman in the world. And those earnest words of praise, absurd as they may have been, were ample compensation for many weary hours that she had spent in toil for him, her heart's darling.

LIFE WAS A BURDEN TO ME.

So Weak and Nervous I Was a Complete Physical Wreck.

I Could Eat Nothing, Sleep Was Impossible, I Expected to Die.

Dr. Greene's Nervura Is the Wonderful Remedy That Made Me Well.

Mrs. Minnie Miller, 5 Guthrie Street, Fort Wayne, Ind., says: "For many years I was troubled with indigestion and constipation. I became so weak and nervous that I was a complete physical wreck. I had dizzy spells, palpitation of the heart and numbness of my hands and feet. My life was a burden to me and a trouble and worry to all my friends. I expected to die. At times I thought I should lose my mind. My stomach was in such a condition that I could eat nothing but a very little of the lightest kind of food. Sleep was impossible. Every little noise would startle me and I would feel faint. No one can imagine the agony I suffered but those who are afflicted with nervousness. I cannot describe the feeling in half its

horrors. At last I saw Dr. Greene's Nervura blood and nerve remedy advertised, and I thought I would try it. Wonderful to relate the first bottle helped me so much that I had faith in it. I took two more bottles, and oh! I feel so much better. I can sleep soundly and the nervous feeling has almost left me. I can eat with a good appetite and have gained seven pounds. I am only too glad to recommend Dr. Greene's Nervura, and I hope this testimonial will be the means of inducing many to use this marvelous remedy."

Another great advantage in using Dr. Greene's Nervura is the fact that you can consult about your case without charge with the famous Dr. Greene, 148 State St., Chicago, Ill., either by calling at the office or writing to him,

O. Ye of Little Faith.

But when an honest man 65 years of age and who has lived in our city for thirty years and owns his own property, speaks we must give an ear to his words and have faith in what he recommends. For that reason we publish for the benefit of Ann Arbor people the statement of A. H. West 211 North St. Saginaw, Mich., as follows: "I have suffered very much from kidney complaint for five years past. My back was very lame; was quite nervous at times and my general health was seriously impaired. Some time ago I was induced to try Morrow's Kid-ne-olds of which I had heard a great deal, and I procured the remedy. I had not much faith in it, as I had previously tried a large number of kidney pills and kidney remedies without any particular benefit, but I want to say that I got simply wonderful relief within two days after commencing the use of Kid-ne-olds, and that I am now entirely cured.

I regard my case as a severe test of the medicine, as so many others had failed to help me. My advice to kidney sufferers is, to give Morrow's Kid-ne-olds a thorough trial and find relief as I did." Mr. West had no faith at first, but the assurance of his friends induced him to try once more. The result is given above. Let Mr. West be your friend and if you suffer with backache, sleeplessness, nervousness, etc., take his advice and use Morrow's Kid-ne-olds and get cured. Mr. West is a grateful man and will be glad to write you personally how much he was benefited by their use, if you will endorse a stamp for reply. Do not confound Morrow's Kid-ne-olds with any kind of kidney pills; they are not pills at all but yellow tablets which are put up in wooden boxes and sell for fifty cents. Morrow's Liver-lax are very small red pellets and cure constipation; they sell at 25 cents a box. Both of these remedies are for sale by all first class druggists and at A. E. Mummy's drug store, or will be mailed by the manufacturers on receipt of price. John Morrow & Co., Chemists, Springfield, Ohio.

Death of Arthur A. Crozier. Although not unexpected, the death of Mr. Arthur A. Crozier last Saturday night caused a shock to his many friends. Mr. Crozier was the son of Mr. and Mrs. O. R. L. Crozier, of Geddes ave. He has been suffering for about three years from a disease which was undoubtedly contracted during his work at the Michigan Experiment Station at the Agricultural College.

While there he had charge of the publication of a number of important bulletins issued from the Experiment Station. Among the valuable works in his special line which Mr. Crozier published, were: "The Calliflower," "Popular Errors" and a "Dictionary of Botanical Terms," issued by Henry Holt and Co. Upon this he spent a great amount of money and hard labor.

Since his death, Mr. Crozier's family has received letters of sympathy from men prominent in the scientific world. Mr. Crozier was loved so well. Among them is one from the president and faculty of the Agricultural College which speaks in the most glowing terms of Mr. Crozier as a man and a scientist.

EDITOR HELBER favors Judge Van Zile, of Detroit, for the Supreme Court in place of Grant. What assurance can the Neue Washtenaw Post give that Judge Van Zile would not do just as Judge Grant has done, that is render his decisions in accordance with the law? Better oppose the unjust law Brother Helber rather than the Judges who are compelled to obey it.

THERE is no other city in the State of Michigan, not even excepting Detroit, that has during the course of a year, more conventions and public gatherings than Ann Arbor. It is important that on such occasions this city should be properly represented. It can not be done unless we have a man in the mayor's office who is especially fitted to represent the city on such important occasions. Either ex-Mayor Darling, ex-Alderman H. G. Prettyman or E. F. Mills would do honor to the city at such times.

EDITOR Helber says that Judge Grant has decided some cases in favor of corporations and therefore he should be defeated at the coming state convention. The recent cold snap has been decidedly in favor of the coal trust, the average July weather is certainly in favor of the ice trust, the recent prevalence of la grippe has been in favor of the patent medicine trust. Brother Helber should attack an indulgent providence for its assistance to these heartless monopolies that are crushing the poor individuals.

THE very latest trust is one that should make the heart of Pingree glad. This time it is a trust composed of all the principal car building companies in the country. It is capitalized at sixty millions and proposes to control the output of freight and passenger cars and boost the prices. The promoters of the new combine claim that the trust will be able to realize a net profit of seven millions per year. It certainly cannot be asserted that this gigantic trust will grind the poor to any great extent. It rather portends a battle of the giants at which the poor man may look on and feel that he is not to be the one who is to suffer from the conflict.

EDITOR HELBER came out last week in a bitter tirade against Judge Grant who will be a candidate before the next Republican state convention for re-nomination for the supreme bench. He declares that Judge Grant has as a member of the Supreme Court frequently rendered decisions in favor of trusts and monopolies. Mr. Helber does not explain that in all such cases the law has been in favor of the so-called trusts and corporations and Judge Grant could as a conscientious judge do nothing else but render a decision in accordance with the law in such cases. Mr. Helber will do far more good if he will suggest some feasible plan by which such of his fellow creatures as form trusts and corporations may be brought under reasonable control of the law than by herating a Judge who renders decisions in accordance with the laws enacted by the people's representatives.

THE people of Washtenaw county are fully alive to the importance of the result of the Republican caucuses to be held in this county between now and the county convention next week. Detroit already has three members on the board of Regents. With one more it would control the board every time any member from out of Detroit was absent from a board meeting. Then the Homeopathic department would go to Detroit in a hurry. The next move would be the old school medical department, then some other. It would then not be long before Washtenaw county would have no University of Michigan, and the millions spent here would then go to Detroit. The possibility of such a thing can be prevented by the nomination of Col. H. S. Dean at the state convention. Washtenaw should and will do her share to secure Col. Dean's nomination. It would be very short-sighted for this county not to send a solid delegation for its own candidate, yet it is a fact that a few Washtenaw people think there is no danger to the U. of M. Fortunately, however, there are but few such people. Let every friend of Washtenaw's interests and of the University be at the caucuses and see to it that delegates in favor of Col. Dean are sent to the county convention next week. That will be the only safe way.

RICHARD WEBB CASE AGAIN.

The Recent Expressive Trial Does Not Keep the Case out of Court.

When the jury refused to break the celebrated Richard Webb will in favor of Anna Stevenson, a daughter who was practically cut off from all inheritance to the \$17,000 estate, the matter was by no means ended.

Some time ago Janet Webb, the widow, filed a bill for admeasurement of her dower interests against Walter Webb and the remainder of the heirs. Richard Webb, when he died, owned over 500 acres of land and her dower interests would amount to considerable. According to the will which he left she was to receive all the household goods and furniture, \$150, and a life estate in 190 acres in lieu of her dower interests. But the widow rejected this and elected to be endowed of her dower interest. In her bill she says the lands comprise three farms, one of which is rented to George M. Webb whose term has not yet expired while the other two have been depleted of fences and that the only farm that would be fit for a tenant for life is the farm that George occupies, which, if set off to her, would require the adjustment of the court as to her portion of rent. Further that inasmuch as the lands are situated in two counties to recover her dower on an action of ejectment would necessitate a multiplicity of suits and therefore comes into chancery for an admeasurement of her dower interest.

Seven of the ten defendants have entered a demurrer to the bill on the ground that she has relief at law and in the probate court wherein the issues involved should be determined, and further that the defendants have not joint or common interests in the matters complained of and that the bill is multifarious.

WANTS A DIVORCE.

Mrs. Marshall O. Waggoner Wants One After a Few Months Married Experience.

Our readers will remember that last November we published an account of the domestic troubles of Mr. and Mrs. Marshall O. Waggoner, of Toledo, but who had been married in this city but a few days before. The groom was hustling the century mark in a matter of some forty years, while the bride was a resident of this city, she being better known as Victoria Brown. When the sensational account of her domestic troubles was read everybody thought that a divorce proceeding would be commenced, but the matter did not get into the department of justice until last Thursday. She has filed a bill for divorce in Toledo on the grounds of extreme cruelty, and asks the court to give her \$5,000 damages.

The action is based upon the trouble which occurred last November, when the elderly bridegroom, who is 85 years of age and old enough to know better, drove his wife out of his house at the point of a revolver and she was compelled to seek the protection of the police. She then went to a hotel and refused to live with her husband. It is averred that recently he sought to fix the mattress up, but his wife would not take any more chances of a repetition of the exciting honeymoon.

Mr. Waggoner was formerly a lawyer and became noted for being a disciple of Bob Ingersoll, but his actions tended to convince his wife that there must be a place of punishment in the hereafter. Recently Mr. Waggoner professed religion and has been preaching. He is said to be quite wealthy. The present Mrs. Waggoner is his third experience in married life.

AN OLD SCHEME.

(Continued from first page.)

L. Martin and Dora Martin, his wife. They claimed to have been innocent purchasers of a note against them.

According to the testimony introduced a man, who gave his name as James Marshall, came to the farm of Mr. and Mrs. John Martin in Salem in 1895 and said that he had heard that Mrs. Martin was suffering from rheumatism. Mr. Martin said he was, and the traveling doctor told him that he was a practicing physician in Ann Arbor and that he would cure him for \$100. Mr. Martin then told him that he did not have the money. The stranger said he would take a note and make his cure a condition as to the payment.

NO CURE - NO PAY

St. Anthony bank in value received with interest at rate of six per cent. per annum. ONE HUNDRED DOLLARS. ADAM FAKIR. months from date. County, State of Michigan, 1899.

tion as to the payment. Mr. and Mrs. Marshall both swore that Marshall took a bottle of "his own ink" out of his pocket and wrote out the \$100 note payable in six months, "no cure, no pay." He then left some colored water and went away.

They both swore that the words "no cure, no pay" were printed on the left-hand corner of the note which they signed, while the paper introduced in evidence against them did not have any hint of any such condition thereon.

The jury was out but a minute and only took one ballot, when they returned a verdict that the note should not be collected against the Martins, evidently accepting the theory that a fraud had been committed upon them.

Deputy Sheriff Kelsey said that "traveling doctors" hornswoogle susceptible people. He drew up a sketch similar to that printed in connection with this article and said:

"Now I do not know that it was done in this case, but I do know that in certain cases these fake healers have worked the people by this kind of a fraud. They will go to them and profess to be doctors who are able to cure anything, and will talk the 'no cure, no pay' racket from the start. Then they will show their printed forms of notes with the words 'no cure, no pay' in big black letters on one side of the paper. Next they will say that six months or a year ought to be long enough for the person whom they are treating to determine whether they are cured or not, and that there would be no harm in signing a paper with this kind of a condition in it. As soon as the 'sucker' signs the document and the 'doctor' gets away, he takes a pair of scissors and cuts off the words 'no cure, no pay' along the dotted line indicated in the sketch, but which is not shown in the original, and this leaves it an ordinary note that looks perfectly good. He then sells it to an innocent person and the sucker is stuck. You will notice that both Mr. and Mrs. Martin swore upon the stand that the paper they signed was larger in size than the one offered in evidence. Well, I don't know that it was done in this case but if the words 'no cure, no pay' were printed on the original document and they were cut off, then the original document would have been larger than the one offered in evidence, wouldn't it?"

Can Cubans Govern Themselves?

One of the best known diplomatists recently declared that the Cubans are incapable of governing themselves, and that the United States must maintain its present control indefinitely, or else annex the island. There will be those who will dispute this, but there are none who will dispute the well established fact that Hostetter's Stomach Bitters is capable of controlling the common diseases of the stomach. It is a remedy that is backed by fifty years of success. It is an ideal medicine for constipation; a strength builder for those who are predisposed to lung troubles, and for nervousness it is of wonderful benefit. As an appetizer it is incomparable. Those whose stomachs are out of order should not fail to try a bottle.

In last night's Detroit Journal Edward Asher, who is awaiting a second trial on the charge of murdering Valmore Nichols, gave his own opinion of his late profession—spiritualism. Said he: "In the first place," all so-called Spiritualists mediums are "fakes," pure and simple. Not one of them in this wide, wide world ever received a communication from the other world. Some of them who are sincere in the belief, and who are not out after the coin, may imagine that they hear spirit voices, all that sort of thing, their brain has become diseased from constant thinking on this subject.

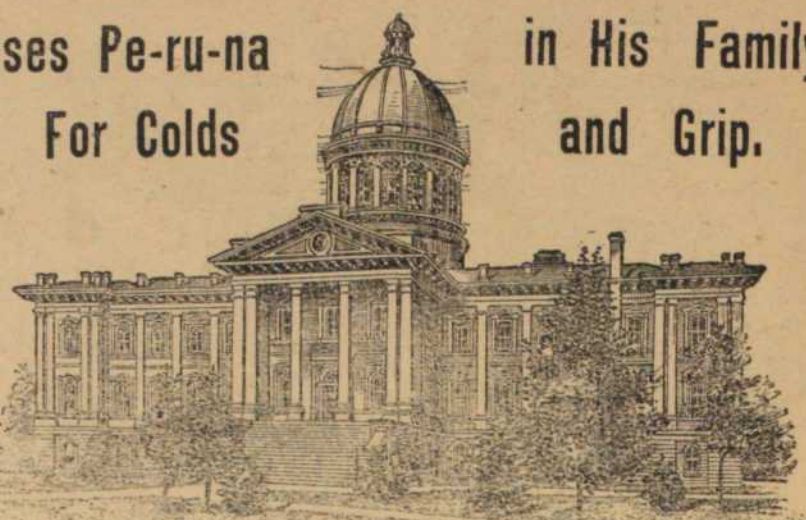

With the exception of Capt. McKeand, the members of Co G are all with their regiment, Sergeant Webb, the last one, having left last Friday morning. Before going Sgt. Webb said: "No, I don't expect to be back very soon. I think that it will be at least a year and perhaps more than that before we see Unit-d States soil again after we have once left it. Yes, there is a good chance that the boys will be sick. Of course there is no telling how many will be taken ill or whether they will pull through but there is a good chance for all of them. It will probably take me about 3 or 4 weeks to reach the company. You see the regiment will not be kept together, but one company will be placed here and another there, just as the situation demands."

GOVERNOR OF OREGON

Uses Pe-ru-na For Colds in His Family and Grip.

CAPITOL BUILDING, SALEM, OREGON.

A Letter From the Executive Office of Oregon.

Pe-ru-na is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Pe-ru-na as a catarrh remedy are pouring in from every state in the union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Pe-ru-na is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well nigh universal; almost omnipresent. Pe-ru-na is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Pe-ru-na not only cures catarrh, but prevents. Every household should be supplied with this great remedy for coughs, colds, and so forth.

The Governor of Oregon is an ardent admirer of Pe-ru-na. He keeps it continually in the house. In a recent letter to Dr. Hartman he says:

STATE OF OREGON, EXECUTIVE DEPARTMENT, SALEM, May 9, 1898.

The Pe-ru-na Med. Co., Columbus, [O. Dear Sirs—I have had occasion to use your Pe-ru-na medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly, W. M. Lord.

It will be noticed that the Governor says he has not had occasion to use Pe-ru-na for other ailments. The reason for this is, most other ailments begin with a cold. Using Pe-ru-na to promptly cure colds, he protects his family against other ailments. This is exactly what every other family in the United States should do. Keep Pe-ru-na in the house. Use it for coughs, colds, la grippe, and other climatic affections of winter, and there will be no other ailments in the house. Such families should provide themselves with a copy of Dr. Hartman's free book, entitled "Winter Catarrh." Address Dr. Hartman, Columbus, Ohio.

ELECTRIC ROAD ANSWERS.

(Continued from first page.)

The bill of complaint says that the operation of the cars at a speed greater than eight miles an hour in a menace to lives, limbs and property, and constitutes a public nuisance. This the answer denies and says that instead of being a public nuisance it constitutes a benefit to the citizens in affording rapid transportation, and that a rate of speed up to twenty miles an hour is not dangerous and no injury can result unless by the carelessness and negligence of the persons suffering the injury. Further, that when the cars are being operated fast, citizens exercise more care and consequently there is no more danger than if the cars were run at eight miles an hour. Further, that the large cars running on Packard st. are provided with air brakes and are more in control than other cars running at eight miles an hour. The answer then recites the fact that in Detroit, which has a population twenty times the population of Ann Arbor, the cars are operated at 20 miles an hour and more frequently than in Ann Arbor and is not considered a public nuisance but a public benefit, and cars run in Ann Arbor at that rate are less dangerous than in Detroit. The railroad company also thinks that the great body of citizens do not wish the limit of its maximum speed put at eight miles an hour.

The bill of complaint says that there is no remedy at law, and that unless the company is restrained by injunction the railroad company through its employees will inflict serious and irreparable injury or death upon some of the citizens of Ann Arbor. The answer to the bill says that the city has an adequate remedy at law for whatever grievance it may have, and the contingencies mentioned in the bill are wholly spectacular, remote and unlikely to occur.

Then the answer sums it all up by saying that the city has no right to an injunction for the reason that for ten years it has given its silent assent to running the cars at a greater speed than eight miles an hour; that no injury to citizens is likely to occur unless through their own negligence; that no injuries have yet occurred through running the cars faster than the ordinance prescribes, and are consequently not likely to occur; that rapid transit is a benefit and a thing to be desired by the citizens of Ann Arbor, because in forcing the company to make slower time it will give poorer service and thus diminish its business and will cause greater injury to the railroad company than benefits to the city; because there is an adequate remedy by common law and statutes; because the city is estopped by its conduct and non-action.

NEWS FOR MICHIGANDERS.
A Whole Regiment of Affectations From Michigan Towns CAPTURED FOR BRIEF READING.

The Present County Jail System is Condemned—A \$100,000 Fire at Detroit in Which One Man was Killed—Miners get an Advance in Wages.

County Jail System Condemned. The state board of corrections and charities will recommend legislation designed to radically change the system of managing county jails in Michigan. The board condemns the practice of using county jails as city lock-ups. It makes them filthy and unhealthy. Frequently persons arrested on some trivial charge carry tools or weapons into the jail to aid in the escape of pals. The board says it is expensive and useless to put drunks and disorderlies into the jails, yet they constitute more than half of those confined. It is recommended that the law permitting this be repealed, at least so far as it applies to counties having more than 20,000 population. They recommend that penalties be imposed instead of locking up common drunks.

28,689 Deaths in Michigan in '98. The number of deaths in Michigan during the calendar year 1898, according to the reports of township and city clerks received by the secretary of state, was 28,689, the average death rate being 12.5 to each 1,000 population. The number of deaths from consumption was 2,455; typhoid fever, 541; diphtheria and croup, 431; scarlet fever, 89; measles, 112; whooping cough, 272; pneumonia, 2,465; diarrhoeal diseases of children, 1,753; cerebro-spinal meningitis, 405. The number of infants under one year of age, who died in '98 was 5,199, and the number from one to five years was 2,064, making a total of 7,263, or more than 25 per cent of the total number of deaths.

Big Fire at Detroit. The big piano and organ plant of Clough & Warren, of Detroit, was partially destroyed by fire, entailing a loss of between \$80,000 and \$100,000. While trying to escape from the burning building Robt. Ferguson, an employee, fell from the fifth floor to the stone sidewalk, sustaining injuries from which he died a few hours later upon the operating table at Harper hospital. The unfortunate was 35 years of age and leaves a wife and one little daughter 2 1/2 years old. Ferguson had been in the employ of Clough & Warren for 12 years and was well liked.

Lost His Own Life Saving His Family. Fire destroyed the home of Thomas Lowden, seven miles north of Sears, Oscoda county. Mr. Lowden rescued his wife and four children from the burning building, and returned to rescue his 5-year-old boy, who slept upstairs. He became overcome and both perished in the flames. Mrs. Lowden left three of her children in the barn; took the baby in her arms and went to the nearest neighbor, half a mile away, barefooted and clad only in her night robes, badly freezing both feet.

Will Receive Higher Wages. In consequence of the recent advance in the price of iron ore for the coming season's delivery the mine managers of Ishpeming decided to give all employees an increase of 10 per cent in wages commencing March 1. Had the companies withholding this advance it is likely that a demand would soon have been made by the mine workers. The average pay of miners has been \$1.80 per day and no laborer received less than \$1.35.

Another Boiler Explosion. A boiler explosion occurred at the home of Charles Varney, four miles north of Manistee, which resulted in instantly killing Merle, his 5-year-old daughter, breaking his wife's arm and blowing the house to atoms. The west side of the building was blown completely out, together with the inmates, and the mother was buried under the ruins. It requires considerable time to extricate her from the debris. Loss, \$3,000.

Button in His Body Since '61. Ed. Owen, of West Bay City, has recovered a button which he carried in his body since the war of '61. The button in question was on the front of his shirt and during an engagement a rebel bullet drove it into his body. At times he has suffered intense pain from it, but today he is exhibiting it to his friends.

Mrs. Susanna Sheldon. Susanna Edmunds was born in the town of Sennett, Cayuga County, N. Y. on the 27th day of October, 1812, was married to the late Newton Sheldon on the 27th day of October, 1831, and died at the home of her daughter, Mrs. Nathan I-bell, near Saline, Mich., January 1st, 1899, aged 86 years, 2 months, and 25 days.

The death of Mrs. Sheldon takes from us one of our oldest pioneers. Being born and spending the first twenty years of her life in what was then a frontier settlement in that state of New York, and coming to this state and this county a bride in 1832, and settling on a farm in Lodi, Mr. Sheldon was well versed in all the self-denial and hardships of pioneer life. Her residence since coming to this state has always been in this county (the last twenty-nine years in this city), and she has performed and endured her full share of the labor and suffering by means of which the wilderness and the solitary place have been changed to the fertile farms and flourishing cities that we see and enjoy to day.

Notwithstanding the surrounding forest and the wild beasts that dwell there, a delightful home was founded and six noble children were reared to manhood and womanhood in that frontier cabin, unimpeachable testimony to the noble character and faithful service of the mother who presided there. The delights of that happy home were rudely disturbed in 1866, when the youngest daughter, at the untimely age of nineteen years, was torn from their loving embraces by the ruthless hand of death, just at the time when life's hopes are brightest, and life's prospects are most glowing and promising. The remaining five-one son and four daughters while they mourn the loss of one of the noblest and best of mothers, still live to perpetuate the virtues and excellences that were so conspicuous in her unselfish and faithful life.

In early life Mrs. Sheldon professed faith in Christ as her Saviour, which profession she faithfully and steadfastly adorned to the end, her hopes brightened and her faith strengthening to the last. For the past twenty-nine years she has been a worthy member of the Congregational Church of this city, enjoying to the fullest extent all of its services, particularly the Bible Class and greatly regretted the infirmities of age that at last debarred her from the privilege.

On Monday, Jan. 23rd, funeral services were held at the home of her son-in-law A. H. Holmes 509 East Liberty street, at which her Pastor, Rev. J. W. Bradshaw, D. D. officiated; and her remains were deposited in Ann Arbor beautiful Forest Hill cemetery, by the side of those of her husband and daughter. "Blessed are the dead that die in the Lord from henceforth; yea said the Spirit, that they may rest from their labors, and their works do follow them."

What Did Shakespeare Mean? Shakespeare never wrote truer words than, "Life on our pleasant vices doth make whips to scourge us." This can only mean that to our misuse of the pleasures of life we owe most of the ill of poor health. Doubtly do the words apply to men who, through ignorance, folly and indiscretion, have used up their strength, energy and vitality, and left themselves almost wrecks of manhood. Their condition would indeed be pitiable were it not for the fact that a scientific physician, a specialist in the cure of this class of diseases of men has come to their relief and made it easily possible for weak and vigorless men to regain their lost vitality and vigor. We refer to Dr. Greene of 14 State Street, Chicago, Ill. discoverer of the world famous Dr. Greene's Nervur, as well as other marvelous, strengthening, vitalizing and invigorating remedies, who, notwithstanding his enormous practice and excessive demand upon his time offers to consult with any sufferer from nervous and physical debility absolutely free and advise and counsel him in regard to his case without charge. This is an opportunity for weak, enervated and exhausted men, of which immediate advantage should be taken. If you cannot call write to Dr. Greene about your case. Your disease is certainly curable and his wonderful strengthening, vitalizing and invigorating remedies, and you can be cured at home. At least write to his advice and counsel.

ARE YOU THE MAN?
Always tired. Don't sleep well. Weak, nervous and irritable. Seem to have lost all ambition. Very poor appetite and nothing tastes good. The lightest work is a task, and pleasure seeking worries you. You go about in a listless fashion, half wondering what is wrong with you anyhow.
Dear Sir:—There is everything the matter with you. A man of your age in perfect health God intended, is an altogether different being from you in your present condition. Your sexual organs are not right, your digestion is impaired, your blood is in an unhealthy condition, your nerve system deranged. What is worse, you are not going to feel better as the days and weeks and months glide by unless some radical measure is taken to check the drain. A rolling down hill will not stop of its own accord, half way down, and return to the top. It is going to the bottom unless something stops it. Did you ever think that something must stop you or you will go to the bottom?
DR. EMIL CONSTAN'S TREATMENT

will restore your lost energy, aid your digestion, sharpen your appetite, and promote healthy, refreshing sleep. It will stop those distressing emissions and restore strength, health and vigor to the sexual organs. With the blood increased and purified, the process of digestion aided, your sleep made calm and peaceful and the nervous symptoms dispelled, nature rapidly becomes restored to a healthy and vigorous condition, and an entirely new feeling of hopefulness and energy is imparted to the weakened and enervated system.
Life will once more be a pleasure, the world will appear brighter and better, and you will feel the noble ambition and the desire to accomplish something worthy of sturdy manhood.

DR. EMIL CONSTAN'S WONDERFUL REMEDY STRENGTHENS THE NERVES.
In small doses—for overwork, brain fatigue, laziness, lack of energy, weak memory, dizziness.
In medium doses—for nervous prostration, nervous debility, loss of desire or excessive use of tobacco, opium or liquor.
In large doses—as a positive cure for night emissions, lost vitality, underdeveloped organs, and impotency IN EITHER SEX.
Physicians, the country over, prescribe it in small doses as a tonic to those suffering from the effects of overwork or hard study.
In cases of impotency and lost vigor DR. CONSTAN'S REMEDY is a prompt, absolute and permanent specific, producing results without a parallel in the history of medicine. No dose is act with less directness, force and thoroughness in promptly checking unnatural losses and antidoting all the evil symptoms of both brain and nerves that result from drains of this nature.
Dr. CONSTAN'S REMEDY is a Brain, Blood and Nerve Food. It replaces the essentials of life that are exhausted by indigestion, high living, overwork, worry, excesses and abuse. It makes the blood pure and rich, clears the brain, makes digestion perfect and creates solid flesh, muscle and strength. The enervated organs are helped to gain their normal powers, the nerves are recharged with their native electric energy and the sufferer is made conscious of direct benefit. A reinvigorated new person takes the place of the nerveless and spent old one.

What is Dr. Constan's Remedy?
An animal animal and vegetable food and nerve food, containing no poisonous substances, prepared in small sugar-coated tablets, pleasant to take, and readily carried in the pocket.
Dr. CONSTAN'S REMEDY is the result of over 20 years experience in the treatment of disorders of the generative organs.
Price in plain wrapper, 50¢ per box or 6 boxes for \$2.00, by mail, postpaid.

Ed. Potter while in an intoxicated condition last Saturday evening, started to his boarding place, he reached the school yard and while crossing it fell and there lay in a stupor or asleep until toward morning when he aroused up and attempted to pursue his journey which he found difficult. His feet were frozen badly and his hands and one ear more or less frosted. He was taken to Henry Fulmers where Dr. Sheeder did what he could for him until Wednesday when he was taken to the County house.

YPSILANTI SENTINEL.

Dr. F. K. Owen has returned to his duties in the army, accompanied by his son, Frank, who intends to go on a hunting expedition.

About thirty Ypsilantians went to A. A. last Friday evening to give Mr. and Mrs. Henry Owen, of South State street, a surprise party. They did it, and had an excellent time after the surprise.

Another phase of the Jacob Forthofer case has developed. His bride of two weeks now sues for divorce on the ground of cruelty. This will open the way for a settlement as Forthofer can now marry the young Rachel girl and save a trip to Jackson.

William Corey, an old gentleman living on Normal street, became insane last week, and on Friday morning escaped from his home, clad in summer clothing and wearing a straw hat. He started out to find Marshal Hixson, who he intended to kill with a revolver he carried in his hand. About 7:30 the marshal and Constable Flower, captured the old gentleman and took him home.

The number of cases of gripe in this locality is without precedent. However, but a few of them have proven fatal, although a great many people have been very ill indeed.

HOW TO COMBAT.

The Evidence of Our Senses. What Ann Arbor People Say is Good Proof for Ann Arbor.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends endorse it. No better evidence can be had. It's not what people say in Maine. Or distant matters from California. No deceiving echoes here.

Ann Arbor talk of Ann Arbor people. Public opinion publishes for the public good.

There is no proof like home proof. Home testimony is at the back of every box of Doan's Kidney Pills.

Can you believe your neighbors? Read this statement made by a citizen: Mrs. Geo. Carpenter of No. 1133 Forest ave. says: "For four or five years past I have suffered from kidney trouble. The pains across my loins were at times so severe that I could hardly straighten up or bend over."

The twinges often extended up and down my shoulder blades and down through my thighs. I also suffered a good deal from severe cramping of the muscles of my limbs. Headaches and dizziness were of frequent occurrence. I could not rest comfortably at night and often got up in the morning feeling worse than when I went to bed. The kidney secretions became highly colored, scanty and deposited a heavy, reddish sediment. I used a number of different medicines but they did not do me any good. I saw Doan's Kidney Pills highly recommended for troubles like mine that I went to Eberbach & Son's drug store and procured a box. I soon began to feel better and improved steadily. Since using this remedy I have felt splendid and I can recommend it to others very highly.

DOINGS OF CONGRESS.

The bill to recognize and increase the standing army of about 100,000 men, but giving the president authority to reduce the size of infantry companies and cavalry troops to 60 men each, thus fixing a minimum of about 50,000 enlisted men, passed the house by a vote of 168 to 125. Among the important amendments adopted before the vote was taken was one to exclude the appointment of civilians to positions in the engineer corps, one to abolish canteens and the sale of liquor in camps and one to strike out the provision for additional pay for commands serving in the West Indies, the Philippines and Alaska.

The amendment of Mr. Cummings, of New York, to prohibit the use of troops in several states to suppress riots, etc., except upon the application of the states, was defeated by a large majority.

A bill has been passed by the senate granting extra pay to the officers and men of the temporary force of the navy—two months' extra pay to those who served beyond the limits of the United States and one month's pay to those who served within the United States. The provisions of the bill are to apply to all such temporary forces, whether discharged yet or not.

The army appropriation bill which will be taken up shortly will be framed on the basis of 100,000 men, and Mr. Hull estimates that it will carry about \$90,000,000. The war department submitted to congress at the opening of the session an estimate based on an army of 150,000 men at a cost of \$144,000,000, but since then the forces have been largely reduced.

The river and harbor bill, carrying slightly more than \$30,000,000, passed the house by a vote of 160 to 7. This is the largest majority any river and harbor bill has ever obtained in the house. The bill attracted little opposition and every effort to amend it in important particulars failed.

The senate has ratified the peace treaty, negotiated at Paris between the commissioners of the United States and Spain some time ago, by a close vote of 57 to 27, or one vote more than the necessary two-thirds majority to secure a senatorial concurrence in a treaty document.

The attorney-general holds that this government is not liable for damages by the cutting of the British Eastern Extension, Australasia & China Telegraph company's cable at Manila during the war with Spain. The indemnity asked was \$36,000.

The house has passed the bill to pay the heirs of John Smith \$1,000 in satisfaction of a judgment against Gen. John R. Brooke for trespass and false imprisonment while he was lieutenant-colonel of the 3d infantry in 1860.

The American Newspaper Publishers' association have appealed to congress for a revocation of the present duty on paper and pulp.

The senate is busy with the expansion and peace treaty questions just now.

The military academy bill, carrying about \$600,000, has passed the house.

"Maine Day," Feb. 15, at Havana, will be known as "Maine Day," when a small flag and a laurel wreath of flowers will be placed upon each of the 147 graves of the victims of the battleship Maine. In addition to this, numerous wreaths of flowers will be placed upon the graves.

THE SCOURGE OF GRIP.

A Most Dangerous Disease if Allowed to Run, but Wholly Curable by Proper Treatment in Time.

The widespread epidemic of Grip, that has ravaged the country lately, has caused many deaths and much distress. This scourge poisons the air with its dangerous germs, so that no home is safe from its subtle attacks. But multitudes have found a sure protection against this malignant malady in Dr. King's New Discovery. When attacked you may at first think you have only a hard cold; later you know by the intensity and virulence of the trouble that you have something more than a cold. The disease may manifest itself by chills and fever, catarrhal discharges, a soreness in the bones and muscles, pain in the back of the head, sore throat and a most stubborn cough. When such symptoms are felt do not delay a moment in getting a bottle of Dr. King's New Discovery. By prompt use you will avoid Pneumonia and Consumption—This marvelous medicine has a wonderful power over the Grip. That distressing, stubborn cough, that inflames your throat, robs you of sleep, weakens your system and paves the way for consumption is quickly stopped by the matchless cure, which kills the disease germs, heals the lungs and prevents the dreaded after effects. Mrs. Mary A. Wheeler, of Rockford, Ill. writes: "I had a very severe attack of the Grip" which left me with one lung affected, and a constant, distressing cough which my physician was unable to cure. I decided to try Dr. King's New Discovery and was entirely cured by one bottle. I have advised many to use it and it has cured every case." A druggist's verdict is given by J. A. Kumber, of Baltimore, O. who writes: "Dr. King's New Discovery is the best medicine I ever sold for the Grip. I sell more of that cough medicine than all the others together." Price 50c and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

A Woman's Face. PLEASANT FEATURES ADD TO HER ATTRACTIONS

This is Something all Women Can Have or Easily Acquire—Some Simple Rules to Observe.

From the Herald, New Hampton, Mo.

The look in a woman's face is expressive of what she is. One can easily tell whether she is healthy, wealthy, happy or sickly. Nothing adds more to a woman's attractions than a pleasant face and this is something all can have or easily acquire. It is simply obtained by cleanliness, air, light, diet, exercise.

Many a woman is continually dying, moreover, weak, nervous, ailing; made so by the exertions of household cares, or the conditions incident to her sex. But back of this and the cause of all the trouble, will be found that the system is out of order; the blood needs toning up. When this is done there follows buoyancy of feeling, and a merry household.

The preservation of a woman's graces and charms requires care and common sense, but no more than is bestowed upon her fine lines, brio-bras, etc. The good wife keeps the silver from tarnish, but neglects herself. Every woman desires to be a "picture of health" and she can be, for it is only a matter of health, rather than regular features or perfect proportions, for without the vitality of good spirits which good health denotes, no woman is charming.

Many a woman is regretfully watching the growing pallor of her cheeks, the coming wrinkles, the thinness that becomes more distressing every day. The best way to overcome this and acquire the pleasant look in a woman's face is expressed in the following story told by Mrs. A. Fox, an esteemed resident of New Hampton, Mo.

"Three years ago last April," she says, "I had stomach trouble and afterwards female troubles set in. I had very little appetite,

could not eat meats of any kind, and but few vegetables. I had severe backaches and was greatly debilitated. Having no strength my nervous system became so affected that I had nervous prostration. My kidneys did not act right and, in fact, my system was out of order and I became seriously ill.

I tried two or three doctors without receiving any benefit. At last I went to Dr. R. D. King, of Bethany, Mo., and he gave me three boxes of Dr. Williams' Pink Pills for Pale People. I took two boxes of the pills and immediately began to grow in strength, the stomach trouble became much better, the color came to my cheeks, and in every respect I was considerably better. In three months I could eat anything I wanted, and had good appetite.

I would say that Dr. Williams' Pink Pills for Pale People are the best remedy for women to take during the time of life to keep them in health and to pass that age in safety. When woman is passing beyond that age it is a crisis in her life. Then, if ever, proper attention to hygiene should be exercised. The attendant sufferings will disappear and buoyant health will follow, if Dr. Williams' Pink Pills for Pale People are used.

These pills exert a powerful influence in restoring the system to its proper condition. They contain in a condensed form all the elements necessary to give new life and richness to the blood. Consequently many kinds of diseases are cured, as nearly all, are the result of an impoverished condition of the blood. Druggists consider these pills to be the most effective and best selling ones on the market.

The total amount of fees paid to the University of Michigan by a medical student during the four years' course is for a Michigan student about \$240; for others, about \$295.

During the month of January there were 17 deaths in the city. Five of these occurred at the hospitals and two others were non residents. This leaves deaths of only 10 actual residents of Ann Arbor.

Members of the elocution classes of the high school will give a recital in High School Hall to-morrow evening. The programme will consist of selections from Eugene Field and the clever farce "Evening Dress" by W. D. Howells.

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patient medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

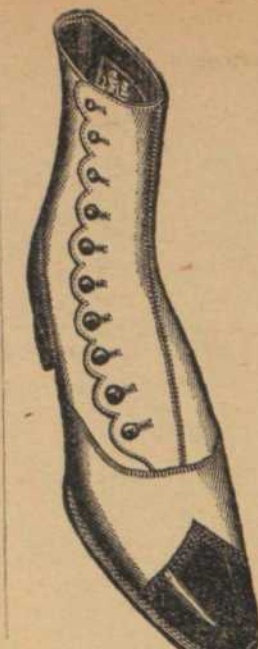

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral. Books mailed free by Swift Specific Company, Atlanta, Georgia.

ROYAL Baking Powder Absolutely Pure

At the state photographers' convention, recently held in Grand Rapids, Prof. Griffith, in his lecture on art, chose the picture of Miss Elsie Kempf, executed by Rentschler, of this city, as the best on exhibition, he pronouncing it perfect in every detail. He dwelled very critically upon the subject of photography and occupied considerable time in describing the merits of Mr. Rentschler's superior work.

A. C. Studer physical director of the Detroit Young Men's Christian Association will deliver an address at the men's meeting in the local association rooms next Sunday afternoon at 2:45 o'clock. Mr. Studer is a Y. M. C. A. hustler and all those who have heard him before should not fail to be present next Sunday. He should be greeted with a hall full of men. Special music will be furnished by the Epworth League Orchestra and a lady vocalist.

The third concert of the Choral Union series was given in University hall last Friday evening. A much larger number was in attendance than at the previous concerts. The violinist, Mr. Willy Burmester, played with such depth of feeling and in sympathy with his music. His rendering of the "Air," by Bach, was extremely fine and gave the audience great pleasure. The accompanist Miss Jeannette Durno, was gifted in an especial manner, and was just what an artist would demand. Altogether it was a most delightful concert.
