### HAVE SETTLED ON BOGLE

TO RUN AGAINST JUDGE KINNE.

This is the Latest Report From Democratic Headquarters-Hogle Did Not Bolt Bryan-Is Very Popular With All Who Know Him-Would Undoudtedly Make the Strongest Run of Any Man the Dems Could Put Up.

For some time the Democrats have numbered over 100. been casting about for a candidate to Lehman and M. J. Cavanaugh and D. Cramer were talked of out their names did not provoke the support that seemed necessary to the Dems to give them any chance of winning. Ex-Prosecuting Attorney T. D. Kearney has also been considered, but his name likewise failed to arrouse the necessary enthuslasm. At last the name of Prof. Thomas A. Bogle of the law department was suggested and at once struck a popular chord in Democratic hearts. It can as a result be said with almost absolute certainty that Thomas A. Bogle, at one time a law partner of M. J. Cavanaugh and now a professor in the law department of the University, will be named by the Democrats as Judge Kinne's opponent.

Prof. Bogle was one of the few professors with Democratic learnings who did not bolt the Bryan ticket and vote for Palmer and Buckner. He will, in his report consequence, have the solid support of the nomination.

It looks as if the contest would be Kinne vs. Bogle.

Are Staunch Friends Of The U. of M. Will Doubtless Do Wells by the University.

The committee of the legislature, consisting of Messers. Chamberlain, Carton, Cheever, Potter, Brown and Geddings (Rep. Moore being the only one absent) arrived here last Thursday evening. They were entertained at the home of President and Mrs. James B. Angell during the evening, and met there the regents of the University. Matters pertaining to the University were talked over.

"Did they give any intimation as to what they would recommend?" was asked of Dr. Angell.

Favor Homocopathic Hospital. State Senator Giddings, of St. Louis, in speaking for the university committee last Friday expressed the opinion that the committee would be very liberal in its attitude towards appropriations which it would recommend for the university. "This is especially true," said the senator, as regards hospitals which, in the present crowded conditions of the wards, are a disgrace to the state of Michigan. I am in-clined to believe that if Ann Arbor will donate a site, the legislature will nake an appropriation for a suitable hospital building and equipment. Personally I am in favor of turning over the present homeopathic hospital to the regulars and building a new homeopathic building, thus putting an end to their constant quarreling.'

The Chinese Have No Regard for an American Oath, But Tremble Before the Frightful Oath of Their Own Land.

A Chinese witness in a San Francisco murder trial was giving evidence that

the prosecution knew was a lie until the attorney made him take the Chinese oath, with its horrible penalty for lying. Then there was a wonderful change. The witness showed the most abject fear, grew white, trembled like a leaf, and almost fainted. Our oath is simple, but Americans will tell absolute truth under it. We give the form of it in the oath of a woman whose life was saved by Dr. King's New Discovery for Consumption, Coughs and Colds: "State of Pennsylvania. Mrs. Mary A. Dailey, being duly sworn, says she has been terribly afflicted with Bronchitis and Asthma for over six years, during which time she was attended by two physicians without obtaining any relief. She constantly grew worse, so that for a long time her life was despaired of. She then got a bottle of Dr. King's New Discovery and found quick relief. She has used six bottles since and been cured, and has better health than she has had for many years." Signed Mary A. Dailey. Sworn catching fire. Miss Jacox caught up a J. P., of Funkhannock, Pa. Undoubtedly he has a discourse on chaps who take a newspaper, forget to pay for it and then when dunned, refase to take the paper from the office riday night did not seem to interfere and subscribe for some other paper. These are not only habitual, but perpetual criminals.

A monkey skin filled with aloes has been sent from Africa to the museum of the University, by a Baltimore firm. It looked so much like Pingree that Bill Judson and Wedemeyer had given a "hip bip hurrah" twice, and a tiger once before they got onto the facts.

Senator Ward of Ann Arbor, is a monopolist. He has introduced a long bill to provide that all the justice business of Ann Arbor must be before one justice of the peace. That makes a judicial trust. It is a monopoly, and it is about as dangerous a proposition as a man can well hatch out. The b ll is clearly unconstitutional through section 32 by which it is sought to delegate power. There being nothing to demand such a measure and nothing to be gained, except to create a monopoly, and it having a tendency to discommode and inconvenience those who have litigation to meet, the bill will be a most excellent one-to defeat. Some people are always of the opinion that they know a best or way of doing business than that in force, and this kind of reform in judicial procedure is in line with Pingree's reerm in taxation, by the way of kind of an Atkinson bill. Ward should haul his bill in out of the cold, and burn it.

# Consumption Reached

By Cne of Three Routes-A Timely Warning.

There are three roads hich lead from health o corsumption. Over one of these roads pass of that garat multitude of peop'e who die very year of confumpion. Each route begins with health and happiness she ends with u.s. case and death.

First rord:a slight old neglected-settles in the head or throat-chronic catarrh-extends n the lungs-(onsum) tion-deate. Second road: a slight

cold - neglected cough cough gradually grow-

ing worse-consumption-death. Third road: a cold-neglecteb-settles in the throat-horseness-short breath-consumption - death.

Thousands have just started on one of the roads, all of whom could be easily cured by Peru-be. Thousands more are half way to the fatal end of one of these oads who are still curable by a course of treatment by Peru-na. Yet other t ousands are near the end whos last days could be made bearable and hope of covery more probable by commencing Pe-ru-na without delay. Mrs. Eliza Heinzle, 106 East Main street, Columbus, Ohio, writes: "About a year ago I ntracted a violent cold which settled on my lungs, and for four months ran

down very rapidly, coughing up quantities of blood mucus, and frequently hemorrhages from the lungs. I was on the verge of the grave. My husband and my friends had given me up. Some one, however, wto had tried your Pe-ru na, advised me to use it. As a last hope I bought a bottle, and, finding immediate relief from its use, continued taking it. My cough left me, and I had no more hemorrhages, and I am now as well as I ever was in my life, I thankfully stoute my present good health, and, in fact, my living at all, to the good fect of Peru-ne."

He finally recovered his health, but still continued in a state bordering on insanity and at times expected. Every body invited. developing into it, It was the custom of the daughters to lock him in his room nights and to retain possession of the key until they were ready to give him their full attention in the morning. Monday morning, however, he managed to escape from the house a few moments after the daughters arose, and proceeded to turn the key on them. The eldest girl suspected trouble and, climbing out of the window, ran around the house, where she saw her father with an open razor in his hand. With cries for help she rushed uponthe wretched man and wrenched the razor from his grasp. With the strength of madness Correy pushed his daughter from him, picked up the razor and deliberately cut his throat from ear to ear. FRED. W. BUSS, 12 W. Liberty St. Ann Arbor STATE LEGISLATURE.

The following bills have been signed by the governor: Muskegon school board; vacating township of Wheatfield, Montmorency county, and incor porating it in Vienna township; vacat ing those four Crawford county town ships, over which there was so much trouble; relief of the treasurer of Home, Montcalm county; detaching certain territory from West Bay City and attaching it to Bangor, Bay county

Collingwood's bill for a state print ing office and for the use of the allied trades printing label on all state print ing has been reported out favorable in the senate and placed on the general order. Aside from this little business was transacted as the members wanted to attend the discussion of the Atkinson bill in the house.

The Atkinson bill got a body blow in the house by the adoption of a resolution to refer all taxation measures to three of the regular house committees, who in turn should bring in a compromise tax bill to cover all kinds of property. The committees to whom the bill goes are almost solidly against the present bill.

The house judiciary committee made constitution which would hold the salaries of Wayne circuit judges down to \$5,000. The bill got a unanimous vote on third reading and was given immediate effect. It then went to the

Legislative Gossip.

Rep. Nevins, of Allegan county, offered a measure in the house that proposes to license tipplers at the rate of \$5 per year. The licenses are not transferable on penalty of being sent to jail for 30 days, while the dealer who sells to any person not holding a license is liable to a fine of \$25 for each offense. The proceeds derived from such licenses are to go into the county poor fund.

The pawnbrokers of the state have been in the habit of charging 10 per cent interest on loans and an exorbitant storage rate, but when Sen. Flood gets his bill through they will not be allowed to charge over 5 per cent, possibly 3, with the proviso that all pledges must be kept one year before sold, and that no storage charges can be made.

The house committee of elections reported favorably on Colby's primary election bill for Wayne county. The bill was amended so as to exclude officers of villages and townships and officers of Wyandotte. It will also give one of the four best county offices to the townships.

The Y. W. C. A. sent a letter to the Wayne delegation asking them to support the Detroit school board bill proposing that all school inspectors shall be elected at large. It is said that not more than three of the twelve members from Wayne are in favor of such a

The governor ridicules the idea that he has offered to compromise with President Ledyard of the Michigan Central or with anybody else any smallest particle of the Atkinson bill, and in addition to the ridicule he emphatically denies the whole story.

Rep. Kingott tried to introduce a bill authorizing the commissioner of the land office to sell or dispose of the swamp lands on the St. Clair flats, but on account of the legal points involved, the bill was referred to the judiciary committee.

There is one representative in congress who approves of a poll tax, and he is going to try and get legislation that will require a man to pay such a tax or forfeit his electoral franchise. What do you think of that.

Both the house and senate are more than 200 bills behind the record of two years ago at this time, and the indications are that the total this year will approximate 500 less than the record of bills introduced in 1897.

### A THIN DISGUISE.

The cuttle fish has a tricky habit of covering his tracks by exuding an inky fluid which discolors the water and keeps him out of view. There's a good deal of the cuttle fish about some advertise-ments, notably those purporting to offer medical advice by a woman to women.

An examination of the advertisement Kalamazoo judicial circuits by themwill show that no offer of a doctor's advice is really made. And all the clamor is sufficiently large enough to warabout "writing to a woman" is merely rant it, raised to divert attention from the fact that a doctor's advice is not really offered and cannot be given. The real question is not of writing to a woman or a man but of writing to a doctor,

For the advice of an unqualified woman is just as dangerous as the advice of an unqualified man.

Every day adds to the number of women who take advantage of Dr. Pierce's genuine offer of a consultation by letter free of cost. As chief consulting physician of the Juvelidel Hotel and Consultation of the cian of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., Dr. R. V. Pierce has, in a practice of over thirty years, treated more than half-a-million women for female troubles with the re-markable record of ninety-eight per cent. of cures. Sick women are invited to consult Dr. Pierce by letter, without fear and without fee. Every letter is held as strictly private and sacredly confidential, and all answers are mailed scaled in plain envelopes without printing of any kind upon them.

Dr. Pierce's Favorite Prescription makes Weak Women Strong and Sick positively dangerous. Women Well.

G. A. R. Annual Report.

The annual report of Gen. C. V. R. Pond for the year ending Dec. 31, 1898, places the present membership of the G. A. R. in this state at 15,531, as against 15,831 at the close of the prece ling year, showing a net loss for the year of 300. As a matter of fact there was a loss of 348 by death during the year, and therefore there has really been a gain in membership of 48. There were received during the year by muster, 534; by transfer, 252; by reinstatement, 553. Four posts have been organized and three have surrendered their charters. > Cut His Throat in Spite of His Child. Wm. Cory, of Ypsilanti, committed suicide while tempororily insane, by severing his jugular with a razor. Cory had been suffering from ill-health for the past six months and at times had been demented. The day the tragady occurred he left the house, locking the front door after him. His oldest daughter, a mute, followed him and grappled with him in the front yard, taking from him a razor and throwing it as far as she could. With unwonted strength the demented man threw off his child, reached the keen blade before she could, and quickly drew it across his throat, severing both windpipe and jugular.

# ARE YOU THE MAN?

Always tired. Don't sleep well. Weak, nervous and irritable. Seem to have lost all ambition. Very poor appetite and nothing tastes good. The lightest work is a task, and pleasure seeking wearies you. You go about in a listless fushion, half woodering what is wrong with you anyhow.

Dear Sir:—There is everything the matter with you. A man of your age in the perfect health God intended, is an altogether different being from you in your present condition. Your sexual organs are not right, your digestion is impaired, your blood is in an unbealthy condition, your nerve system deranged. What is worse, you are not going to feel better as the days and weeks and months glide by unless some radical measure is taken to check the drain. A ball rolling down hill will not stop of its own accord, half way down, and return to the top. It is going to the bottom unless something stops it. Did you ever think that something must stop you or you will go to the bottom? think that something must stop you or you will go to the bottom?

will restore your lost energy, aid your digestion, sharpen your appetite, and promote healthy, refreshing sleep. It will stop those distressing emissions and restore strength, health and vigor to the sexual organs. With the blood increased and purified, the process of digestion aided, your sleep made calm and peaceful and the nervous symptoms dispelled, nature rapidly becomes restored to a healthy and vigorous condition, and an entirely new feeling of hopefumess and energy is imparted to the weakened and enervated system.

Life will once more be a pleasure, the world will appear brighter and better, and you will feel the noble ambition and the desire to accomplish something worthy of sturdy manhood.

When Rep. Corliss sprang his Pacific cable bill as an amendment to the sun-dry civil bill, a point of order was made by Chairman Cannon of the appropriations committee, that it was new legislation. The objection was supported by Rep. Bennett, of New York, who advocated the consideration of his bill to pay a subsidy to a Pacific cable company. Corliss contended that his bill was for the continuation of the cable route to Hawali, of which the naval appropriation bill of 1891 appropriated \$25,000 for the survey of the route was made. He then asked consent to withdraw the bill, but this

There was a pronounced movement in the senate looking to a compromise on the army reorganization bill. The movement originated with several Republican senators, who advanced the opinion that a compromise was preferable to an extra session of congress. The Cockrell bill was reported by them as the the first advance on the part of the Democrats toward an understanding, and many felt that they would go further in that direction in case Republicans should indicate a willingness to meet them half way.

A very sensational and unexpected thing happened in the house during the consideration of the the sundry civil bill. The paragraph carrying appropriation of \$20,000,000 for payment to Spain under the terms of the peace was stricken out upon a point of order made by Mr. Wheeler, a Kentucky Democrat, who declared that he opposed the appropriation on principle and would resort to any technicality to defeat it. The point of order was debated for hours and finally sustained by a vote of 149 to 56.

The military academy appropriation bill has been passed in the senate. After a spirited debate over the amendment providing for an appropriation to secure fast mail service between New York and Washington and Atlanta and New Orleans the amendment was retained in the bill. A house resolution to pay ccertain laborers and mechanics at U. S. navy and naval stations 50 per cent additional for work performed in excess of eight hours per day was adopted.

The house finally settled the fate of the Nicaragua canal bill in this congress by refusing to override the decision of the chair in committee of the whole, when the chair held that the canal bill offered as an amendment by Mr. Hepburn was out of order. The friends of the Nicaragua bill were very confident for two days that they would triumph, but after four hours of debate the chair was sustained, 127 to 100.

The senate committee on commerce has completed its considerations of the rivers and harbors bill. Aside from the provisions for the construction of the Nicaragua canal the committee increased the cash appropriations to the extent of about \$2,000,000 over the house appropriation, while the amount of continuing contracts is increased to the extent of about \$10,000,000.

The house has passed the sundry eivil appropriation bill, to which it had devoted over a week without making any important amendments. The speaker's ruling upon the motion to re-commit the bill with instructions to incorporate in it the Nicaragua canal amendment was sustained, 155 to 96.

Petitions from all sections of the country are being received by members of congress asking that the war revenue act be amended so as to compel the telegraph and express companies to pay the tax on telegrams and packages sent by express.

The senate committee on appropriations reported the postoffice appropriation bill increasing the total appropriation of the bill over the amount as it passed the house to the extent of \$333,238, and raised the total to \$105,-

The President has definitely decided to nominate Rep. Samuel J. Barrows, of Boston, Mass., for librarian of the congressional library, to succeed the late John Russell Young.

The exports from the U. S. for the month of January amounted to \$115,-815,954, as compared with \$108,426,674 in January, 1898. The imports was \$58,472,315 against \$50,897,714 in 1898, making an excess of exports over imports of \$57,043,639, and an excess of exports of \$57,598,050 over the same mouth in 1898.

# A Farmer's Fortune.

# The Remarkable Way in which Adam Salm Acquired Success and Happiness.

From the Vernon Times, Vernon, N. Y.

Every one in Vernon and for miles around knows honest, good natured Adam Salm, and not only in Vernon Center, N. Y., where he has resided for twenty-eight years and conducts his large and well-kept farm, but wherever he is known his word is respected.

His happiness, success in life and even life itself was due to a victory over disease.

"It was a wonderful victory" he says, "from the dreadful disease which threatened to vitiate my life and one that has made life miserable for thousands and filled innumerable premature graves. It is that form of disease known as rheumatism, and which held undisputed sway until its conquering enemy came in the form of Dr. Williams' Pink Pills for Pale People.

"For a long time I experienced untold sufferings from the ravages of this fearful ailment. All kinds of remedies were resorted to for relief, but it was the same experience that had come to countless victims of rheumatism—immunity from exeruciating pan for a time, but after temporary relief came suffering once more, as the insidious malady took a new grip on its distracted victim.

"I happened to learn of the wonderful power of Dr. Williams' Pink Pills for Pale People in conquering rheumatism, but long suffering had made me incredulous as I had spent many dollars for other remedies, without finding relief and this experience did not the many dollars for other remedies, without finding relief and this experience had embittered me against proprietary medicines. I finally concluded to try these pills and bought one box of them, and before they were all used I experienced a relief such as I had not enjoyed since my affliction began. With the depletion of the first box came another all used.

# FOOT IT UP ...

See if it pays to buy shoddy Shoes. Figure the discomfort, the wet feet, the coughs and colds, the doctors' bills, and then ask yourself if you wouldn't have been wiser had you bought your Shoes at Reinhardt's in the first place. They wouldn't have cost any more; they would have worn longer and you'd have had glad feet and a light heart.
