PROLONGED CONVENTION,

PACKED COURT HOUSE WITH DELEGATES AND OBSERVERS

FROM 7:30 TO 11:00 P. M.

The Republican caucuses were held in the different wards last Thursday night. On the surface the principal contest was for delegates for clerk. This caused spirited efforts in all the wards. In the first Mills' men were elected. In the second most of the delegates were for Harkins with a few Mills men sprinkled in. In the fourth SOME MORE DEMOCRATS DECLINE and fifth Harkins had pretty nearly a solid delegation. In the sixth and seventh Kitson secured all but a few who were Mills men. The real fight of the evening was in the third ward. Here was a three cornered fight between Wm. J. Clark, Mills and Harkins. There were a hundred and twenty eight Republicans and Democrats at the caucus. They were about equally divided between the three men, each of list of the twenty-one delegates they wished to be elected. A motion was made that when the vote was cast those receiving the largest number of votes should be considered elected. It so happened that the Clark ticket and the Mills ticket had a number of the same men on both of them. In this respect the two tickets were in reality one ticket. Three men received an actual majority of just thirty of all the votes that were cast. They however, were not allowed seats in the convention, although one of them, Dr. J. A. Dell, stated his case before the convention. The doctor, and the others who were in the same boat with him, were gently dropped; over-(Continued on page four.)

ed Suicide-Simply Took Too Big a party men: Dose of Medicine.

Charles Rettich was seen Monday, and he stated that the recent dispatch sent to the Free Press from Galveston, Texas, about his son Carl attempting to commit suicide, was all a mistake.

Carl was suffering from a breech and an operation had been performed. The surgeon had left him a sleeping potion and either it was too strong for him or he had accidently taken an over dose. At least when the nurse came to awaken him the next morning she was unable to do so, and noticing on the bureau the bottle of carbolic acid, which was used to dress his wound, supposed that he had taken it with suicidal intent. She gave the alarm, an ambulance appear ed on the scene, Carl was hurried to the hospital and did not revive until the next morning.

"People must be crazy" writes the young man, "to think that I would do such a thing when I have no reason for it."

NOMINATIONS,

This Time it is Hariman and Bogle-Have not Heard That Luick Will

The Democrats seem to be having hard luck this year in finding candidate who will accept their nominations. First Cavanaugh pulled off the Jedicial ticket, but was induced to allow his name to remain on the ticket merely whom had blanket tickets with entire to prevent a blank. Then Lindenschmidt of the First ward refused to stand for alderman, now Hariman in the sixth sends in a biting letter refusing a similar honor inhis ward and Prof. Hempl will not run for supervisor in the seventh and Prof. Bogle will not stand for President of the Council. Luick's diclination may be loked for next.

To the Chairman of the Democratic City Committee:

Dear Sir-I have been running now ustily for the prst two days as candidate for alderman of the Sixth ward, and am already very "tired." Really, I am too old to go "coon" hunting. Such fun a half century ago would have been greatly enjoyed-not now. Besides, I am afraid that the caucus which nominated me in my absence was laboring under a misapprehension as to my character. I am a free trade Republican, a gold Democrat, and expect | to do some work. The Council Holds Special Meeting to live and die an imperialist. VALUABLE MARL LAND.

WASHTENAW HAS SEVERAL EX-TENSIVE TRACES.

Marl Used For Cement-Owners of the Land in Luck-Land Heretofore Cousidered Useless Now Known to be Very Valuable.

There are numerous ssmall lakes swamps and marshes in Washtenaw little value, but may turn out to be more than the best wheat land.

Professor I. C. Russell, of the geological department of the University of Michigan, has recently made an examination of the marl lands in the southern part of the state, and found remarkably favorable conditions. The marl, mixed with ordinary clay, is used in the manufacture of Portland cement and Michigan will evidently take a leading place in this industry. The marl occurs as a highly calcerous or limy mud or ooze in the bottom of lakes and in marshes. It usually contains shells and appears light colored or nearly white on drying, but is sometimes darkened by organic matter. The swamp lands, where the marl occurs are usually considered of little value, but they are really worth more per acre than the best of agricultural ands, and at the present time are in

The following from the Dexter Leader shows that the marl lands about Four Mile Lake have been purchased by a Detroit syndicate which will soon erect a large factory at that place:

It now seems to be a certainity that a large cement factory will be established at Four Mile Lake, by Detroit capitalists, as the deal is said to be practically completed for the purchase of the marl lands.

Surveyor M. J. Noyes has been engaged to stake out the lands and the Michigan Central has already laid out the side track, which will commence at the old gravel bed, 1½ miles west of Dexter, and will go thence northeast along the west bank of the Four Mile

Lake ditch. The factory is to be in operation within a year and will give employment to a large number of men, many of whom would live in Dexter provid-ing the projected electric road is built from Jackson. HUMANE DAY.

Last Friday was "Humane Day" in the Philip Bach school, and the exercises practically amounted to a dedcation of the school.

Of the Humane society there were present Wm. N. Brown, Mrs. Bach, Miss Bower and J. J. Goodyear, each of whom made short addresses, and Rev. Wm. Jauch also made a speech

The children gave a fine program, which was very interesting to the large number of visitors present. Mrs. Bach presented the school with an elegant picture of Philip Bach, after whom the school was named.

The pupils and teachers expressed their regrets on the absence of Prof. TenBrooke, who has attended every meeting on similar occasions for the past four years.

CALL FOR SPECIAL SESSION. ANN ARBOR, March 17, 1899.

Glen V. Mills, City Clerk: Call a special session of the Council today at 2:30 o'clock p. m., to take action relative to the death of Dr. W. B. Smith and make arrangements to attend the funeral.

CHARLES E. HISCOCK, Mayor. Alderman Dieterle moved that a committee of three be appointed to frame proper resolutions and that the council attend the funeral in a body.

Adopted as follows: Yeas—Ald. Hamilton, Richards, Koch, Dieterle, Vandawarker, Brown, Coon, Stevens, Pres. Luick.—8. Nays-None.

By Ald Dieterle Whereas the Common Council of the City of Ann Arbor has learned with profound sorrow of the death of our honored fellow-townsmen, Doctor Wil-

lard B. Smith, Therefor Be it resolved, that in his death our City has lost one of its most faithful public servants,

Be it resolved that we extend to the

bereaved family our heartfelt sympathy in their deep affliction, and that we at-tend the funeral as a body, Be it further resolved, that these resolutions be spread upon the records, and that the City Clerk be hereby instructed to present to the family an

engrossed copy of the same.

Which was unanimously adopted.
On motion the Council adjourned.

GLEN V. MILLS,

City Clerk.

Ann Arbor, March 20th, 1899. Regular session. Called to order by Pres. Luick. Roll called. Quorum present. Absent—Ald. Sweet, Exinger,

COMMUNICATION FROM THE MAYOR. To the Honorable the Common Council of the City of Ann Arbor: Gentleman:

I hereby disaprove that part of your proceedings of March 6th, wherein a report of the Street Committe is adopted authorizing the purchase of four acres of land of Sterling Bullock for \$2,500.

Being somewhat acquainted with the cost and present value of this property I feel the city is paying an unreasonthat the present supply of gravel is limited and that the quality was tested north 14 feet of lot 7 will give the the past year and not approved.

The amount expended for gravel last year was \$252 which was unusually large and the annual cost has been about \$150 and will probably grow less as more streets are paved and as a reasonable interest on the amount stated will pay for all the gravel needed. I object to the city becoming a large purchaser of real estate.

Very respectfully,

CHAS. E. HISCOCK,

Mayor.

Filed March 8, 1899. GLEN V. MILLS, City Clerk. Ald. Coon moved that action on the

veto of the Mayor be deferred until next session. Adopted as follows:

THE whole Republican ticket should be elected next Monday and will be if all Republicaus will support the ticket.

THE election of a Judge should be entirely outside of petty politics. The question of men, of ability, of special fitness for the peculiar duties of the office should alone enter into the question when the voter goes into the booth to prepare his; ballot. If this is done there can be no question of the re-election of Hon. E. D. Kinne by an overwhelming majority. The only danger lies in the fact that too many people believe that Judge Kinne is absolutely sure of election and will remain at home on election day. Let every friend of the Judge go to the polls and vote next Monday.

MR. LEHMAN, when he nominated Mr. Ball last Friday night said "my candidate was raised in Webster, the banner Republican township in Washtenaw county." IF there is one thing more than another that people should look for and COURT HOUSE WAS ON FIRE MONinsist upon having in a judge, it is that he should have experience both as an attorney and special fitness for the peculiar duties of a judge. Mr. Kinne had twenty years of very successsul legal practice. With this he has had twelve years of experience as a judge. In consequence no man in the district is better fitted for the position. Then, too, his conduct of the duties of the office has been the most economical possible. Never is a case allowed to drag. No Judge in the state works longer hours or keeps a cleaner docket and at so small an expense to the taxpayers. This fact was fully appreciated by the Republican party which tendered the renomination to Judge Kinne re-elect Mr. Kinne and THE REGISTER ing. believes it will do so by a big majority.

REASONS THAT ARE NOT REASONS

In the circular which Mr. Cavanaugh is sending to the voters of this district, upon the firm's letterheads, he asks votes for the dignified office of circuit judge on the ground that he would so 'expedite the business of the court as to diminish the cost of running it," etc. The scheme will hardly work, for the people very well know that since Judge Kinne has occupied the bench the business of this circuit court has been attended to promptly, and there has been a clean docket at every term; furthermore a circuit court cannot be run like a justice court. No man can go upon this bench and reduce the cost from what it is now, dispatching the same amount of business, and at the same time give to each and every one who comes before him equal and exact justice - unless he agrees to take less salary, and there seems to be no such proposition from Mr. Cavanaugh. Another "argument" is that Judge

Kinne has been upon the bench for two

Is this office, then, a political football, to be grabbed for by every politician that comes along, regardless of experience, or ability, or qualification? Is twelve years of experience as a just and upright judge a reason for defeating

Because Judge Kinne has been tried and found to be a man thoroughly fitted for the place, must be step down and out simply because some one else wants to draw the salary?

The people are too wise to be deceived by such appeals. They know too well the danger of experiments in giving an outried man a chance to prove himself a failure or a success.

Another thing, Judge Kinne has never sought the office. When first nominated it was against his wishes. He had an income from his private practice that was better than the salary as judge. It was a sacrifice on his part from a pecuniary point of view. But he was elected, and has filled the position so well that since then he has been asked to remain because of his eminent fitness for the place.

Here in free America everybody has the right to aspire to any office within the gift of the people, but the people should decide between opponents on the ground of fitness for the position

DECLINED THE HONOR.

Harriman Refuses to Run for Mayor. Municipal Club Now Has No Ticket in the Field.

Monday night was the last opportunity, according to law, that conventions could be held to nominate candidates for city offices, and consequently W. D. I decline this nomination for mayor tendered me last night. While I approve of the objects of the club. I think that a partial ticker epresenting the club to be voted for at this time is a mistake. I shall write to the papers tomorrow.

Yours respectfully, W. D. HARRIMAN.

Mar. 28, '99.

This means that the Municipal club cannot have a candidate or ticket in the field this year. It is now too late, and Ann Arbor will have only a contest between Republicans and Democrats.

When the convention met Friday night the court house was packed. Every foot of standing room far out into the entry was jammed. When the delegates and visitors went to the court room they found on every seat the following announcement from the Municipal Club:

The Municipal Club will take pleasure in endorsing any one of the following names for the positions indicated if they are nominated by the Republican party:

FOR MAYOR.

C. H. Cady. F. M. Hamilton. E. F. Mills. Maj. Wm. C. Stevens. Wm. N. Brown. Capt. H. C. Danforth. Robert Campbell G. F. Allmendinger. L. D. Wines.

PRESIDENT OF COUNCIL. H. G. Prettyman. H. C. Danforth. Geo. L. Moore. Wm. Shadford. Henry B. Dodsley. JUSTICE OF THE PEACE.

John Q. A. Sessions. Harris Ball. H. H. Herbst. A. J. Sawyer, Jr.

Select your candidates from this list. This created quite a little talk but evidently did not arouse much fear for the convention proceeded to ignore the manifesto in the most approved style. The fact that two of the men on the Municipal Club manifesto landed on the ticket was not by any virtue in the aforesaid manifesto, but because the fates had preordained that these two devised. It cures datarrh whereever men should be nominated. There was no slate, but it was simply in the air that these two men should be so

Mr. Elias Findlay Johnson, the man with four salaries, closed his office as ehairman of the city committee by calling the convention to order and inviting Mayor Hiscock to act as temporary chairman. The usual committees were then appointed and a ten minute recess was taken. After the recess the only evidence that all was not perfectly serene was a slight scrap over the third ward credentials. The committee was in favor of seating the delegates accredited. Dr. Dell acted as explained above. D. W. Springer moved, in substance, that as many delegates as appeared on both the Mills and Clark tickets, and therefore had a majority of the votes, in the third ward be allowed seats and that an equal number of the accredited delegates be stricken off the latter end of the proper list. Of course this could not be done. In this case, too the facts were 'agin" the idea of the Professor who thinks that there is any mixing characteristics between religion and third ward politics. Naturally the professor's otion was voted down hard. He wil in the future know better than to kick against the pricks.

This matter settled, the convention proceeded to the nomination for mayor. Mr. Newkirk made an able nominating speech in favor of Wm. C. Reinhardt a well known and highly respected Ann Arbor business man. Mr. E. F. Mills mustered up courage, when the seventh ward was called, and placed in nomination for mayor, C. H. Cady, one of the options of the Municipal Club fellows. It took but a single ballot to show that the elegant speech of Mr. Newkirk in praise of Mr. Reinhardt had won a majority of the delegates and he received 68 votes to 42 for Mr. Cady and one for R. Campbell. The result was received with vigorous applause. Many were disappointed that the successful nominee was not presented to the convention. For President of the Council there was no opposition to Mr. A. A. Pearson who was so fortunate as to be the choice both of the Republican party and of the Municipal Club. He received the unanimous nomination of the convention.

Following this came what approached most nearly to a scrap, the nomination of a candidate for City Clerk. Three men were in the field and all were confident but the Republican party could nominate but one and the choice of the Republicans of the city was James E. Two of the three persons who were Harkins. It, however, required seven successful in the civil service examina- ballots for the convention to find out tion recently held at Washington for what it should, and as many supposed the position of civil engineer of the it did, know all the time. When the heart beats irregularly; when there are pains in the head, ringing in the ears, cough, indigestion, loss of appetite and lack of energy—some or all of these symptoms—the body is on the brink of danger and is crying "halt!"

No man need be carried over the fatal brink of disease if he will heed Nature's warning and accept her help. This help in its most concentrated and perfect form is contained in Dr. Pierce's Golden Medical Discovery. This great alterative extract completely modifies every abnormal condition of the disordered digestive or alimentary functions. It makes the stomach strong, the blood rich and healthy, builds up the nerve centers and so regulates the functions of all the vital organs, that they co-operate perfectly for the health of the entire system. HOW CREAM TARTAR IS MADE.

Cream of Tartar-which enters so largely into the manufacture of Dr Price's Cream Baking Powder-is obtained from the tart Wines of France, Germany, Austria, etc. The Crude Tartar, called Argolis, is deposited on the sides of the wine casks during the fermentation of the wine. After the wine is drawn off, this crystal deposit is removed, dried and exported to America where the elaborate process of refining takes place, producing the snow-white crystals of Cream of Tartar.

In singling out Dr. Price's Cream Baking Powder from all its competitors and bestowing upon it a special Gold Medal, the California Midwinter Fair concurred in the verdict given by the World's Fair jury, which awarded both medal and diploma to Dr. Price's Cream Baking Powder, declaring it superior to every other brand.

The victories won by it at all the great fairs, and its wonderful growth in popular favor, due to its purity, uniformity, wholesomeness, keeping qualities and excellence, have confirmed and emphasized it as

RED HOT MEETING.

MUNICIPAL CLUB LISTENS TO SOME HOT TALK

Prettyman. Wills, Springer, Stevens, Brooks, Biggs, Calkins and Others Have Their Say-Winds Up By The Club Nominating Harriman for

One of the liveliest meetings ever held

by the Municipal Club occurred Monday night. The question as to whether it was advisable to put up a third ticket came up. This precipitated a hot discussion. Prettyman and Mills vigor ously opposed the idea. The former sasd that it was possible for the members of the club to constitute themselves nto a body of organized asses if they put a ticket into the field, at this late day: that the time to do work was at the primaries. Mr. Mills told the Municipal Club fellows that every man on the Republican ticket was alright and should be elected. G. F. Allmendinger thought it unwise to nominate a third ticket. A strong opposition to this was made by Dr. Brooks, Prof. Springer, Wm. Biggs, Prof. Stevens and others. The position taken by those in favor of another ticket was that Judson had put up the Republican ticket and would dominate the course of those on the ticket should they be elected, and that the proper thing to do was to show the club's disapproval of such tactics and give the party warning that it will not submit to such manipulations. The matter finally came to a vote which stood 14 to 9 in favor of the club putting up a candidate for mayor. The club then proceeded to nominate Judge W. D. Harriman for that office. The club then discussed the matter of holding frequent and regular meetings. It was finally decided to meet at least once every three months. They then adjourned, and a few shrewd Republican politicians proceeded to Judge Harriman's house and after arousing him from his peaceful slumbers proved to him the folly of allowing his name to go on the ticket. This will account for the letter from Judge Harriman which appears in another column, and leavesthe Municipal Club fellows out of the race.

TO ANN ARBOR.

COLLEGE OF MINES MAY BE BROUGHT HERE.

The Great Expense of Maintaining the School at Houghton Has Induced Legislators to Think Favorably of the Move.-Would Establish a Normal at Houghten in its Place.

The announcement comes from Laning that the Michigan College of Mines, now located at Houghton, may be removed to Ann Arbor and the buildings thus vacated utilized for an upper peninsula normal school.

This solution of the problem, which s very much more than a mere possibility, is the outgrowth of a rapidly increasing sentiment among the legislalators, especially the senators, against appropriating any more money for the maintenance of the College of Mines in its present location. A total of \$494,000 has thus far been appropriated for this institution since it was founded, and it is asking this legislature for \$170,00 more. Very many of the legislators who made the junketing trip through the upper peninsula last month have expressed the opinion that the state has paid altogether too dear for this whistle, and the conviction that Houghton and Marquette counties have combined to capture all the good things that are apportioned to the upper peninsula from time to time. In 'Nearer My God to Thee." Everyone the present instance it is believed that if the representatives of these two courties had not entered into a combination, the normal school would have gone to Menominee.

The legislators who favor the removal of the College of Mines to Ann Arbor and making it an adjunct of the University, show conclusively that a well conducted Normal school can be maintained at Houghton in the present building for about \$10,000 a year. The location is an ideal one.

Attention is called to the fact that this little college, with only about 100 students, is asking for \$170,000, whereas all the University realizes from the posal is \$186,000 a year. The University is now asking for a science hall, and mining engineering of the University with but little additional cost. It is cited that one of the best mining colleges in the world is conducted in connection with Columbia college, and that the cost of living in Anu Arbor is much less than at Houghton.

Commercial travelers are obliged to pay a tax of \$48.33 in Natal under penalty of heavy fine and imprisonment and in Cape Town \$121.66.

Succession to German Thrones. Advices from Berlin says: Threre is a strongly growing sentiment in favor of excluding foreign born princes from succession to German thrones. The death of the hereditary prince of Saxe-Coburg and Goths and the question of the throne of Saxe-Coburg and Gotha have started a discussion which has taken a violent form in some of the papers. A member of the bundesrath has often discussed the matter during the past month, and that while nobody thinks of excluding the present heir to the throne of Coburg, some new legislation on the subject will shortly be proposed in the bundesrath jointly by the German governments, and that later it will be sent to the reichstag.

Another Explosion in Paris.

The series of explosions in government ammunition depots which commenced with the terrible disaster at La Goubran, near Toulon, followed with explosions at Bourges and Marseilles. The latest explosion occurred in a laboratory of explosives attached to the war department, where experiments were being made with a new kind of gunpowder. Chief Engineer Veil, Assistant Engineer D'Ouville, and a third official were injured. All the windows in the neighborhood were smashed and considerable other damage was done. Although it is not believed that the explosion was the result of foul play, great excitement followed.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye. gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway."

Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place.

S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company. Atlanta Georgia.

WAR NOTES,

The fighting in the Philippines is still going on with a terrible loss of life. A report says Americans lost 45 killed and 145 wounded in one day, which was much lighter than the previous day. The insurgent loss is not estimated, but is said to be very heavy. The latest advices is to the effect that the rebels fired Malabon and Polo and retreated to Malolos, where, it is believed, they will make their last stand. Our troops are in pursuit, capturing trench after trench.

In an answer to a letter from the postmaster-general of the army, requesting a decision as to the class of enlisted men of the regular army entitled to the benefits of extra pay on discharge from the army, Solicitor Tracewell of the treasury has decided that the men who enlisted for the war only and are entitled to extra pay are those who went in after the act of April 26, 1898, which authorized the increase of the regular army.

Spanish officers acquainted with the Philippine islands continue to predict the failure of Maj.-Gen. Otis' campaign, notwithstanding the American success. O The Kind You Have Ahways Bought

THEY RIDICULE IT.

Many People Ridicute the Idea of an Absolute ture for Byspepsia and Stomach Troubles.

Ridicule, Hawever, is not trgumen and Facts are Stubborn Things.

Stomach troubles are so common, and in most case so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permenant care for dyspepsis and indigestion. Many such pride themselves on their acuteness id never being humbugged, especially in medicines.

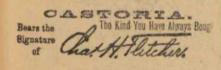

This fear of being humbugged can be carried too far, so far, in fact that many people suffer for years with weadigestion rather than risk a little time and money in faithfully testing the claims made of a preparation so-reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary meaicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analyst shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrasts and nux. They are no cathartic, neither do they act power fully on any organ, but they cure indigestion on the common sense plan of digesting the food carea to . a. before it has time to ferment, sour arc cause the mischief. This is the on a secret of their success.

Cathartic pills never have and never can cure indigestion and stomac troubles because they act entirely or the bowels, whereas the whole trouble is really in the stomach.

Stua 's Dyspepsia l'ablets le after meals digest the food. That is a there is to it. Food not digested o half digested is poison as it creates gas acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are ofte called by some other name.

They are sold by druggists every where at 50 cents per package. An dress E. a. Stuart Co., Marshall, Mich. for little book on stomach diseases annt from.

Morrow's Kid-ne-olds Produce Natural Sleep.

Many persons write us that they cosleep like a babe since completerst of the nerves has been restored to them by the use of Kid-ne-oids.

Natural sleep gives new life and Mor row's Kid-ne-olds produce natural sleep by acting directly on the kidneys and nerves by giving them natural action. Morrow's Kid-ne-olds are not nerve dullers but nerve strengtheners and produce natural results. We give you home evidence for all we say. Have you noticed what your city people have to say in the city papers about the good Morrow's Kid-ne-oids are doing here in the city papers. Ann Arbor? We ask you to read the South Main St., who says: "I have suf fered a great deal for two years with a disordered condition of the kidneys Some of the worst symptoms were a severe backache, nervousness and sleep lessness. I was induced some time age to try Morrw's Kid-ne-olds and procur ed the preparation at E. A. Mummery' drug store.

I was more than pleased to find de-cided relief in side of twe days' time, and the bachache is now gone, my ner vous system is much strenghtened and can sleep splendidly.

Appreciating the great relief afforded me by Morrow's Kid-ne-oids, I most sheerfully commend this preparation to all afflicted as I was."

To confirm the statement of Mrs. Rogers we want you to ask her about Morrow's Kid-ne-oids. She is a grateful woman and will be glad to tell you personally how much she was benefited by their use. Morrow's Kid-ne-oids are ellow tablets (not pills) and cure all kinds of kidney disorders, backache, nervousness, etc. They are for sale by all first class druggists at 50 cents a box John Morrow & Co., Springfield, Owio.

Many women are languid, peevish, sallow, no appetite, full of aches and pains, and generally out of sorts. This condition prevails because the blood has become impure. No one is better able to speak of this fact than Miss Hazel Snider, a charming young woman of Arlington, Ind. To-day she has rosy cheeks, sparkling eyes and a plump form, which prove that she is in good health. A year ago Miss Snider did not look so. She was very thin, her cheeks were pale, her eyes sunken and dull. She was troubled with nervousness and general debility.

"I had been sick some during my life," she said, "but not any more than the average girl, and was considered strong and healthy. I had prepared to teach school, but became so run down that I did not feel like teaching, and gave it up. I disliked to do this, but my mother and physician urged it. I began to grow pale, weak, lost several pounds of flesh, was stupid, and had no ambition. My appetite failed. My blood was in a bad condition, having become thin and watery. "One day I read an item in a paper of the wonderful curative qualities of Dr. Williams' Pink Pills for Pale People. Shortly afterwards a neighbor came in and told me about her experience, and how they cured her. I finally tried the medicine, and when nearly through with the second box noticed a change for the better. After I had taken eight boxes I was cured, and have had no occasion to take any kind of medicine since. A movement is on foot to hold here on May 1, the anniversary of Dewey's great victory in Manila bay, exercises in commemoration of that event. The plans have not matured to any great extent, but in their embryo state bepeak a great parade in which the students who took active part in the late war will ocupy prominent positions. An effort will probably be made to secure University hall and have men of prominence in college as well as in the war address the student body upon subjects befiting the occasion. Perhaps, too, a great bonfire, such as witnessed the celebration of the great athletic victory last fall, will form a closing scene in this celebration of the rection's victory.

WHAT SHALL WE DO?

A serious and dangerous disease prevails in this country, dangerous because so deceptive. It comes on so slowly yet surely that it is often firmly

seated before we are aware of it.

The name of this disease which may be divided into three distinct stages is, First, Kidney trouble, indicated by pain in the back, rheumatism, lumbago, frequent desire to urinate, often with a burning sensation, the flow of urine being copious or scant with strong odor.

If allowed to advance, this reaches the Second stage, or Bladder trouble, with heavy pain in the abdomen low down between the navel and the water passage, increasing desire to urinate, with scalding sensation in passing, small quantities being passed with difficulty, sometimes necessary to draw it with instruments. If uric acid or gravel has formed, it will prove dangerous if neglected.

The Third stage is Bright's Disease. There is comfort in knowing that Dr. Kilmer, the great kidney and bladder specialist, has discovered a Remedy famous for its marvelous cures of the most distressing cases and known as Dr. Kilmer's Swamp-Root.

It is sold by all druggists.
As a proof of the wonderful virtues of this great discovery, Swamp-Root, a sample bottle and book of valuable information will be sent absolutely free by mall on application to Dr. Kimer & Co., Binghamton, N. Y. When writing kindly mention that you read this liberal offer in The Register.

CAPTURED FOR BRIEF READING.

The 343 Churches in the State has a Membership of 32,163-Marl Beds as Good as Gold Mines-A Bad Axe Man Thinks he is the Apostle Paul.

Killed His Wife With a Flatiron. John Dean, aged 26, a bricklayer of Detroit, while in a fit of jealousy killed his pretty, young wife with a flatiron while she was leaning over the kitchen sink with her back towards him. The couple had been married five years and had one child, Harold, who is 2 years old, but the parents had lived apart for some little time Mrs. Dean supported herself and child by doing domestic work and sewing. Since Dean's return from Mexico, some months ago, the couple had quarreled at almost every meeting. It is said he often accused his wife of infidelity during their quarrels which provoked her into living away from him. There was no eyewitnesses to the terrible tragedy, but after Dean's arrest he admitted the crime.

32,163 Church Members in Michigan. Rev. John P. Sanderson, registrar of of the Congregational churches of Michigan, has completed his report for the last calendar year, and reports a like result with that of the Presbyterian and Methodist churches-a slight numerical decrease in the membership of the state. The Methodists reported a decrease of 500; Presbyterians, 171; Congregationalists, 300. The Baptist churches shows the smallest increase for a period of 10 years-174. The statistical items for the year are: Churches, 343; membership, 32,163; Sabbath school members, 40,988; Y. P. S. C. E. members, 14,026; benevolent contributions, \$60,948; for home expenditures, \$265,368. One church in Saginaw had the phenomenal growth of 175 members during the year.

Peculiar Explosion at Bay City. Three men, Robt. Ridler, Jr., Fred Seekell and Chas. Trombley were badly ourned as a result of an explosion in the forge room of Smalley Bros. & Co.'s machine works in Bay City. Seekell and Trombley were trying to unloosen a nut on the end of a piston head of a steam saw feed, used in saw mills. For this purpose they placed it in a forge in order to burn away the rust, when suddenly the piston head exploded, throwing the fire from the forge to all parts of the room, burning three men and setting fire to the building. The fire was quickly extinguished by other men in the building. The injured men will recover.

Almost as Good as Gold Mines.

It is reported that a firm known as the Michigan Portland Cement Co. has contracted for about 4,000 acres around Portage lake, and will establish a branch factory at that place. The company will also build a private railroad from Grass Lake to Munith. Many farmers are disposing of their farms at fabulous prices. Thos. Ready has sold his portion of the lake and his farm for \$15,000. It is estimated that there is \$75,000 worth of marl under it.

Thinks He has 261 Wives.

An eccentric character lives in Bad Axe in the person of Karl Giffe, a German tailor. Although perfectly sane about his work he believes himself to be the Apostle Paul, wears his hair and beard long and declares that when the clouds roll by he will be king of the world, great beyond description. He thinks he is the husband of 261 wives and the father of children "numberless as the sands of the seashore.

Railroad Company Censured.

The coroner's jury, which investi-gated the death of Charles Scheiman, of Port Huron, returned a verdict censuring the railroad company for negligence, holding the company partly responsible for his death. He was killed while at work in a snow drift by an engine. The testimony conflicted in regard to whether the bell was rung

Minister Taken Violently Insane.

Rev. Chas. A. Carter, pastor of the First A. M. E. church at Benton Harbor, who suffered a slight stroke of momentary insanity a few days ago while walking upon the street, has went violently insane. For safety of his family he was locked up. He was acknowledged to be one of the ablest colored men in southwestern Michigan.

Big New Cement Plant.

Messrs. Hutzel & Mann, of Ann Arbor, who own 175 acres of land just north of Zukey lake, will, in the near future, erect a cement factory there. It is said that the land comprises some of the best marl in the country. The stratum is 24 feet deep and a chemical analysis shows that 90 per cent of it is available for cement.

WAR NOTES,

Another hard fought battle has taken place between Gen. Wheaton's forces and the insurgents at Taguig. about 1% miles south of Pasig. The post held the enemy in check, while the fire of the reinforceing companies repulsed them, driving them across to an sland formed by the estuary. They were thus in front of the 22d regulars. On discovering that they were entrapped the rebels fought desperately. aided materially by the jungle and the darkness, but they were finally com-

hours fighting. The Americans had 2 killed and 20 wounded. Thomas Carroll Boone, the telegraph operator in the war balloon in the operations before Santiago, died recently at the Massachusettes general hospital, as the result of an operation on a wound received in the fall of the balloon after it had been shot to pieces by Spaniards during the battle of San Juan hill. Boone and two government officers performed heroic work in the great airship at Santiago. Calamity has now overtaken all three of the men who were in the ill-fated balloon. One of the officers died as the result of

his injuries, while the other is an in-

Regarding the attack to destroy Manila in January, a member of the 14th infantry writes home how the rebels planned the work: "The insurgents tried to take the city by making an attack in the front, and have the citizens make an attack in the rear, so in order to do this it was necessary for them to get arms into the city. We noticed they were having a large number of funerals from a church in Paco. One day there were 73 coffins taken in When some of our boys were detailed to inspect they found that these coffins contained guns, and in this way we captured 1,200 of their weapons.'

Gen, Corbin has been making arrangements for the return of the dead soldiers in Cuba and Porto, Rico, with a view of providing for their interment at such places as the relatives and friends of the deceased may desire. In order to do this it is necessary that the relatives or friends of the dead should furnish the department with the name of their deceased relative and where they want the body sent for in-

During Wheaton's engagement with the Filipinos at Pasig heavy fighting was encountered at all times, yet he succeeded in whipping 2,000 rebels, captured and now occupies the towns of Pateros and Pasig and holds 500 insurgents as prisoners. The American loss is small.

An order has been issued by the war department increasing the age limit for enlistment from 30 to 35 years. The youngest age at which a man can be enlisted is 18 years. The results so far for enlistment of troops is very encouraging.

After four hours of hard fighting our soldiers finally captured Cainti, a welldefended village of 700 inhabitants, but not until 100 rebels had been killed. The American loss was two killed and 13 wounded.

The American army and gunboats now command the lake, and Gen. Otis estimates that \$500,000 worth of property belonging to the insurgents has been destroyed.

Japan as a Modern Nation.

Extensive changes in the relations between the United States and Japan will be brought about July 17, when the new treaty between the two nations goes into effect. It was negotiated some years ago, but actual operation was deferred to give time for adjusting affairs to changed conditions. Similar treaties have been made by Japan with most of the other first-class powers. Their essential feature is to give Japan a status as a modern nation.

'What!" ejaculated General Waring. leaping involuntarily to his feet. For a moment the two men stood staring at each other, but that one monosyllable conveyed a world of meaning to Basil Sandbrook's reddening ears.

"I beg your pardon," said General Waring, recovering himself somewhat after a moment, "I was a little surprised; the report was so positive, but I daresay I was misinformed. Gossip often gets hold of the wrong end of the stick. I think I saw Miss Maud Durand, too a sweet young creature—congratulate you all the same, I'm sure." From the Horse Guards Major Sandbrook walked to his club with his eyes on the pavement. So Waring had been at Sheldon, Waring admired Ella, that was piain enough; and a woman whom Waring would admire must be -but he hastily turned from that. Did this account for his dismissal? Like enough! So much for the loyalty of women. But she might at least have been honest enough to tell him so. An absent Major could not hope to compete with a General-on the spot, too, forcing a laugh. And he had wasted seven years of his life for her!

Ah, well, the best of the laugh was on his side after all. He had Maud's adoring love, and Maud's young beauty; and in the smoking-room, behind a screen of newspapers, he hastily drew out the photograph. But for a second it was not the pictured face that he saw, but one full of the dig-nity of thought and experience, cultured, spiritual, refined; then it van-ished, and the fair young face smiled its innocent smile at him again.

A NEW DECORATION.

The Rabbies Came High, Costing Her \$75 Instead of \$50.

Mr. Smith got his wife's dressmaking bill yesterday, which only hap-pened because Mrs. Smith's velvet coat was charged at \$75, when the esti-mated cost had been \$50. Mrs. Smith, being astounded at the item amid the trimmings of "clergyman's rabbles, \$25," immediately sought an explanation from her husband.

"Maybe they are something like the sneezes you used to wear," he suggested.

"I never wore sneezes."
"Well, fichus, then; if that is not a sneeze I don't know what it is; but where the 'clergyman's rabbles' can be in that coat I have no notion of; there are 750 of them anyhow that you

must pay for." The young woman who brought the coat was called up and interrogated, when it came to light that an inch-wide band of minute buttons garnishing the coat all around was composed of what are known in commerce as "clergyman's rabbles," such as are used on black silk vestments. They are little molds of wood covered with silk and command a high price because they can not be reproduced in inferior quality and must be set on by hand; hence they are highly esteemed for the garnishing

of costly garments. The rather remarkable name of this new garniture is derived from the manufacturer who devised them first for sacredotal robes. Finding that they were adopted by fashion he set aside the income derived from their sale for a little son called Rab (Robert), labeling the small buttons "Rabbies." To his eldest daughter he gave the proceeds of the most expensive button made in his establishment for her wedding dower. But in three years of sales the "clergyman's rabbies" netted more money than the dollar-apiece buttons did in ten years.

Musicians Felt Insulted.

Some time ago a ball was given in London by one of the best-known hostesses of the day, who possessed one of the finest houses in the west end. The hostess had bargained with the proprietor of the band for the services of his orchestra at the lowest price, one item of the contract being that the lady would not be expected to supply the musicians with supper. The men resented this conduct, and, when the ballroom was filled with the gay company, and in the very middle of a brilliant valse, the musicians with one accord ceased playing, and, packing up their instruments, left the house,

MAJOR RUMSEY.

It was the proud boast of Mrs. Malt-worth, widow of the late Captain Robert Maltworth of the -th Cavalry, proprietress of the Esmeralda Hotel, Seabreeze, that in each of the twelve years during which she had successfully brought two young people into relations with one another that had resulted in matrimony. To tell the truth, Mrs. Maltworth was a born matchmaker, as many a young lieutenant could have witnessed.

Mrs. Maltworth was one of those rare individuals who can sink their own discomforts and smile on the pleasures of others. It was largely due to this fact that the Esmeralda had prospered, and during the season its rooms were flooded with young people bubbling over with holiday spirits, who joked and laughed together as if the office and the counter were nothing more than mere imaginings which would not reappear at the expiration of a brief fortnight.

But Mrs. Maltworth and her two daughters were growing despondent. The season was rapidly growing to a close, and as yet no two young people had been attracted to each other. To be sure, there had been one or two mild flirtations which had excited considerable expectation, but they had not "developed" and had expired be-fore the participants left Seabreeze.

"Here's a letter from a Major Rumsey, my dears," said the widow one "He wants to come next Monday with his son and daughter to stay-why, he doesn't say how long hwill stay.'

"Who is he?" inquired the elder of the Misses Maltworth, a prim young lady of 23, whose living interest was centered and circumferenced in the cutting down of expenses at the Es-

The widow passed the letter to her. "He writes from Shoreham, you see, and that is very select. We shall have to put him and the son in the second floor front and his girl in the room opposite ours."

The younger daughter nodded ap-She was a pretty girl, who had all her mother's amiability and tenderness, mixed with her father's soldierly pride.

Major Rumsey duly arrived with his son and daughter. He was a middle-aged gentleman whose hair was generously sprinkled with gray, labeled military from head to foot, and possessed of a bluff, hearty voice that instantly won the widow's heart. "I always feel thoroughly at home

with army gentlemen," she confessed to him ere he had been in the house half a dozen hours. "You see, I'm a soldier's daughter and married a man who carried a commission."

"Madam." replied the Major, "you surprise and honor me."

"Yes, my poor husband, Captain Maltworth of the —th Cavalry—" "What!" roared the Major, spring-ing from his chair. "Your husbandold Bob Maltworth of the -th?" "The same, sir."

"My dear Mrs. Maltworth, this is indeed a pleasure. I and old Bob-er-Captain Maltworth, were mates together before-have you never heard him speak of his old friend Rumsey's

"Bless my soul, my dear lady," continued the excited Major, walking to the window. "Fancy coming across the widow of my old friend. world is, after all, quite a little place; now, isn't it?"

The opening of the door and the entrance of Mabel caused him to turn

"Mabel, my dear, this Major Rumsey -and-and he is an old friend of your

The Major bowed to the fair young girl before him, while she blushed and murmured, "How d'y' do" in so pretty a manner that the Major was on the instant charmed and captivated.

That evening there was a merry party in the widow's little drawingroom, which excited considerable curiosity among the other boarders. There was much laughter and just a few tears on the part of the hostess, and that night young Harold Rumsey dreamed of a blushing blue-eyed girl who had called him "Mr. Rumsey" no end of times, although he would have given anything to have been called Harold.

The visit of Major Rumsey, Mr. Harold Rumsey, and Miss Eleanor Rumsey (to quote the Seabreeze News) was decidedly a time of unqualified enjoyment. The happiness of the three suffused through the whole of Esmeralda Hotel, and the proprietress was heard to remark that never in all her life had she seen so jolly a company as her boarders at this period. The visit lengthened from a fortnight to three weeks, then to a month, and still the happy trio said nothing of leaving.

"It does my heart good to see these young people living so happily," said Mrs. Maltworth. "It makes me feel young myself, I confess."

The Major was standing at the casement, looking away over the sea. Outside the promenade was almost de serted, for the days were growing cold and sunless, but at the end of the thin line of beach, where it was cut off by the cliff that jutted out, he could see a woman and a man seated. Her

hand was clasped in both of his, and as the old soldier watched he saw

her head droop lower-lower. "Mrs. Maltworth," he said, scarcely above a whisper, "come here. You see those two young peope away there? They are our young people."

Together they watched the two, who, all unconscious that they were observed, were telling one another the sweetest story in the world.

The widow was the first to speak. "I felt sure it would come," she cried. "Fancy this is the thirteenth year without a break!"

"The thirteenth year!" thundered the Major. "Do you mean to tell me that the girl has for thirteen years—" "Major Rumsey!" interrupted the little woman. And then she explained, and explained so well, that her listener became as enthusiastic as herself, and swore with a characteristic military oath that he could have desired no better mate for his lad.

Suddenly the widow started up. "O, dear!" she cried in dismay. mustn't be. I was forgetting it's the 13th, and that would be unlucky. It was on the 13th that my poor Rob-

"Nonsense, my dear madam," growled her listener. "Surely you don't believe in that old woman's tale!"

"But Robert-on the 13th-"- Robert," the Major thundered, and immediately apologized. "I forgot myself. What I wanted to say is this: Why should we risk the happiness of our boy and girl?"

"Why, indeed?" murmured the lady. "Suppose, for instance, two other people found they could join forces with advantage and advance on the enemy's line better together than sing-Suppose, I say-Mrs. Maltworth-Helen-what do you say to taking me?"-and here the Major flopped down on his knees in most unmilitary style-"me-an old halfpay officer without a friend in the world? Now, what shall we say?"

And like the soldier's daughter and the soldier's widow that she was, the blushing proprietress of the Esmeral-da answered "Yes" with precision.

This is how it is that Esmeralda is "under entirely new management," and the young people who congregate there in the summer speak regretfully of the old days-the days that are no more.-Buffalo News.

STORY OF SMART BEES.

Those in Texas Know How to Succeed

"The busy bee has long nad a reputation for industry, but I always considered him rather conservative until I ran across the up-to-date variety that does business in the Fort Davis region of west Texas." So spoke a former journalist, now a railroad man. "They have some of the finest honey in the world out there, and its delicate flavor is due to the blossom of a shrub that grows profusely on the mountain sides. The trou e is, however, that the flowering season of the bush is brief, at a given altitude, and the bees have to follow their favorite food higher and higher as the season advances. Now, you know, the bee makes a 'bee line' for the hive as soon as he has soaked his feet in the liquid sugar of the flow-Well, the west Texas bee evidently found it very inconvenient to climb all the way down to the valley with each load of honey, and some smart bee struck upon a plan as simple as it was unique. It is generally known that the self-same shrub that gives honey to the bees produces a succulent root, upon which as big and rocky look ing a lizard as you ever saw feeds and fattens. This creature, called a 'yollo' by the Indians, is 14 inches long and too lazy to get out of its own way. The yollo's back bristles with points, and he is terrible to behold, yet to the bee he is only a godsend, and without the least fear a swarm will proceed to establish its comb between the points of the yollo's pachydermatous back, and without ado fill in the honey. The beast, of course, following the food plant, will keep the hive always within easy walking distance, and in the fall, when the season is over, the bees swarm back into the lower level, while their diminutive pack mules wind down the mountain paths to the valley, where the honey is quickly transferred to its winter quarters in the bees trees or the ranchman's hive."-Washington Star.
