VOL. XXV. NO. 23

ANN ARBOR, MICHIGAN, THURSDAY, JUNE 8, 1899.

WHOLE NO. 1276

## WHITMORE BECOMING POPULAR.

SHOULD BE CONNECTED WITH ANN ARBOR.

By an Electric Line—This Would Add to the Boom Already Begun—Many New Cottages Going Up—No Prettier Lake in Michigan.

It has always been a mystery to THE REGISTER why Whitmore Lake has not been a far more popular summer resort than it is. It certainly is one of prettiest little lakes in the state of Michigan and is near enough Ann Arbor to become a popular resort for residents of this city. We believe that all that is necessary to make this become a popular outing place is a little energy extended along the right line. This should be done in two ways. First there should be an electric line between this city and Whitmore Lake over which frequent trips would be made and for which there should be a low rate of fare. Second, there should be a reasonable amount of judicious advertising.

There can be no question that during the four summer months in the year the road would pay a good profit upon the entire investment.

If the right sort of service could be had, especially in the morning and evening, a large number of our business men could be induced to build cottages at the lake at which their families could spend a delightful summer. Those who could not leave their business could, at small expense, go to the lake on an evening motor and spend the long summer evenings with their families and come back to town in the morning feeling far more like doing a day's work than if they had not taken the trip and enjoyed the change as one would necessarily do.

From all appearances Whitmore Lake has already begun to boom. There are already in course of construction or will be built during the summer elegant cottages by Will F. Stimson, Geo. G. Stimson, Major W. C. Stevens and F. G. Schleicher, of this city, Bert Wheeler of Saline and a Mr. Burns of Howell. There are others also some of which will, no doubt, be built during the present season.

THE REGISTER would be glad to see those interested in booming Whitmore as a summer resort take hold of this matter with a vim and it would be glad whenever opportunity offers to push it along.

## Making Great Progress.

A gang of 20 men is hard at work stringing extra wires for the Bell Telephone Co. The men arrived in Ann Arbor last Thursday evening and continue their work on to Kalamazoo. Although this company has always given perfect satisfaction to its many subscribers in this city, nevertheless it continues to make improvements and avoid the difficulties which might arise. Under the able management of Thomas Keech prompt and pleasing service has always been given its patrons in Ann Arbor and when the company's new plan is completed there will be enough facilities to get practically instant connection with every city and town in the state.

The company now has 500 cities and villages connected, and this number will be increased to 1,500. Connecting at Detroit with the long distance lines of the American Telegraph & Telephone Co., service will be had over these wires to practically all the towns east of the Mississippi river, and also to as great many points in Missouri, Kansas, Iowa, Minnesota, the Dakotas, Arkansas and Texas. Lines connecting northern cities with New Orleans and all the important points in the South will be ready for service within a few weeks.

Nothing but the finest material is used, the best copper wire that can be had is purchased by tons for this work.

It is surprising to learn that it costs the company \$500 per mile for material etc. On the Detroit and Jackson line some of this wire weighs as much as 900 pounds to the mile to each circuit. The weight of the copper used in this line reaches the enormous total of 171,600 pounds, or very nearly 86 tons. The surface of this copper amounts to 62,000 square feet. Attention is called to the class of construction work done on this line. Nothing but heavy poles are used, and nothing but hard drawn copper wire is strung. Copper is a far better conductor than any other metal, and in spite of its great cost is used by the company in all of its long distance lines.

## BIG SALARY OFFERED.

TO INDUCE DEAN HUTCHINS TO GO TO IOWA.

It is Reported that Dean Hutchins, who a Week Ago Declined the Presidency of Iowa's State University, Has Been Offered \$8,000 to Take the Place.

Monday's Chicago Times-Herald contained the following interesting piece of news relative to the feeling of the Regents of the State University of Iowa towards Dean Hutchins of the Law Department:

DES MOINES, June 4.—The regents of the state university meet in Iowa City Tuesday, and will again consider the question of selecting a president, though it is not certain that an election will result this week. It is the regular meeting at commencement time, and the corner stone of the new college building will be laid.

The regents are still hoping that Dean Hutchins, of the University of Michigan, will accept, and they have offered him \$8,000 a year salary. If he does not accept, nothing is certain. Chancellor McLean, of the Nebraska State University law school, Dean Birge, of the University of Wisconsin, and Chancellor Emlin McClain, of the law department of the State University of Iowa, are being considered. The last named has been a possibility from the first. He is the author of numerous law books and is the annotator of the code of Iowa.

The regents are well satisfied with management of the university by Acting President Amos N. Carrier, and are in no hurry to elect a new president.

## BETTER THAN A CIRCUS.

Was The Game Last Saturday Between the Picket Nine and the U. of M. Faculty and That From the High School Faculty and Board of Education.

The annual comedy of errors between the faculties of the 'Varsity and the high school took place at Regents field yesterday afternoon, and the score last year—24 to 8—was nearly duplicated.

The 'Varsity played to the strict amateur rules, while the high school put in such ringers as Kent and A. J. Sawyer. L. D. Wines was scheduled to play, but he was represented by his attorney, A. J. Sawyer.

The features of the game were many. Nearly every man who reached first base stole second. There were 400 home runs made—by the spectators after the game had been foully murdered. The way Prof. E. F. Johnson took off everything; but his chest protector, when he tried to catch a foul fly, caught the crowd, and the yells that went up when he did capture on was enough to make him the hero of the day. A. J. Sawyer "filled" left field in at imposing manner. Junius F. Beal had on a Sanitary Milk Company uniform and occupied the box for the high school. He pitched the rules which allowed a twirler a flying start. The tunnel through Jack Sheehan's legs was accountable for many runs, and he dropped throw balls as if they were free silver dollars. Supt. Slauson played almost a perfect game, and the quality of good ball he put up came very nearly disgusting the spectators who had not come out to see that kind of an exhibition. Strauss broke the long distance throwing record every time he got a chance to put out a man at first, and the game was delayed in bringing the ball back into the diamond. The wap Scotty went after the high balls showed what he had in mind. He finally fell by the wayside, and John Travis was substitute. The latter acted as if he was putting the shot when he attempted to throw to first, and the graceful parabolas of the ball added beauty to the contest. Andy Mack seemed to be a favorite with the bleachers, and it looked as if everybody was taking history and was afraid of being conditioned. The following is a condensed report of the slaughter:

Score by Innings:  
Innings.....1 2 3 4 5—R  
University.....1 2 15 6 \*—24  
High School.....2 1 1 1 1—6

## SCHEMERHORN NOW SAFE.

THE MOLLIE BENNETT WILL CONTEST OVER.

A Long Fight Now Seems at an End—But there is to be a Fight Over the Administrator's Account.

Jerome Schemerhorn, the mulatto to whom a jury a year ago gave a verdict entitling him to the Mollie Bennett farm near Ypsilanti after one of the most sensational trials which ever occurred in the Washtenaw circuit, is now in full title of the lands and the relatives of Mollie Bennett, who were fighting the validity of the curious will which gave him the property, are without recourse.

Under the rules of this state, when a case is decided in the circuit court and the party who received the adverse decision wishes to appeal, he must sue out a writ of error from the supreme court within a year from the time the decision was rendered, or he will thereafter be debarred from appealing.

In the present case it has been supposed right along that Administrator Graves would appeal from the decision of the jury to the supreme court. The decision was rendered April 26, 1898. The year for appeal has in consequence passed by and no notice has been served on Schemerhorn's attorneys. Jerome can now take full possession of the farm which has been in litigation ever since Mollie Bennett's death.

But all litigation in the matter has not ended, and Jerome Schemerhorn is now in position to take the offensive. He has appealed from the decision of the probate court in allowing Administrator Graves' annual account, and does so for the following reasons:

1. That said account does not include a complete accounting of the assets of said estate as collected by said administrator.
2. That some of the items charged against said estate in said account have not been sufficiently proven, and are therefore not lawful claims against said estate.
3. That some of the items charged in said account against said estate are improper, unjust, extortionate and excessive, and therefore cannot properly or lawfully be charged against said estate.
4. That the compensation allowed to said administrator and the fees paid by said administrator to J. P. Kirk, E. P. Allen and J. Willard Babbitt are improper, excessive, unjust and extortionate and not proper charges against said estate.
5. That the amounts paid for witnesses by said administrator as charged against said estate in said account are excessive, improper and illegal.
6. That the entire account of said administrator is incomplete, imperfect, unjust and not sufficiently proven.

## Another Will Appears.

Much has been written in the papers about the John D. Allford estate in Montana, in which several Washtenaw county people are interested.

A short history is given. Allford went to Montana 25 years ago and engaged in the mining business. When he died recently his estate was valued at from \$300,000 to \$1,000,000. Mrs. Caroline Kelley of Denver, went to Montana and had herself appointed administratrix under a will which made her sole heir. But this will turned out to be a forgery and the case was dropped. This would leave the property to be distributed among Mrs. Mary Miller of Dexter, Mrs. Wm. Collier of Chicago, Mrs. Caroline Kelley of Denver, and DeVincey Allford, of Howell, Mich. These four people have many relatives here among them Mail Carrier Miller, and it was thought the matter was all settled.

But now, after sinking a lot of money in litigation, it is found that it will have to be gone over again. Some few days ago the heirs were offered \$80,000 for a quarter interest in the Minnie Healey mine, which belonged to the estate. Mrs. Miller, of Dexter, went out there with a power of attorney to close the deal.

Last week a dispatch came that another will has turned up. It is claimed that a notary public, who bears the reputation of being an all-around land shark, has just "remembered" that he drew up a will for Allford two years ago and has been keeping it in his safe ever since.

Now the heirs must proceed with the fight over again, and if the will proves genuine they will be out a big sum that was all but in their grasp.

Detroit is still after the Homeopathic department of the U. of M. The ways and means committee of the state legislature gave a hearing to interested Detroit parties on this subject last Wednesday night.

## HURRAH FOR U. OF M.

PINGREE SIGNS UNIVERSITY 1-4 MILL BILL.

Did the Act Late Yesterday Afternoon—Senate Almost Unanimously Votes Against Recalling the Bill—So Pingree Decides to Sign It—U. of M. People All Happy.

The news reached here late last evening, just as THE REGISTER was going to press, that Pingree had changed his mind and had signed the One-Fourth Mill Bill for the U. of M. The senate had voted almost unanimously not to recall the bill as the Governor had requested. This seems to have opened the eyes of the Governor and, with the other pressure brought to bear, he decided to sign the bill as already passed by the two houses. This will be a God-send to the U. of M. and all University people are correspondingly happy as a result. This will enable the Regents to go ahead with the buildings proposed and give the institution a liberal annual income thereafter.

## WASHTENAW GOOD ENOUGH.

Elmer Bates Tries Alaska—Had a Tough Experience—Now Will be Satisfied With Michigan.

Elmer Bates, who left for Alaska a year ago last February in company with Chas. Carpenter, returned home Saturday morning. Last September while going up the Alsac river the boat in which he was traveling was upset and when Mr. Bates was pulled from the water it was found that his left leg was broken. The men who were in the party set it as best they could and they then went into winter quarters. In March Mr. Bates started for Juneau to go into a hospital but when he reached that place, reports were so unfavorable that he went on to Seattle and when he arrived there he made up his mind to return home. He walks with the aid of crutches, and the bone will have to be broken again and reset before he can again have the use of the limb. He tells many thrilling tales of adventure in that far away country, but says that the stories about the wealth found there are many of them fairy tales and, that the railroad and steamboat lines are about the only ones who are making money. His trip was not a financial success, and he says that old Michigan will be good enough for him hereafter.

Dr. Edward L. Vale and Miss Maude Eggert were married at St. Andrews church Monday evening.

The proposed bicycle ordinance did not come up before the council on Monday evening as was expected.

Lightning struck the flag pole on the Pratt block Monday evening and tore it to pieces. No damage was done to the building.

Herman Ehnis, a member of Company A, and who returned with his comrades from Cuba, died at Emery Tuesday morning. Death was caused by typhoid fever, contracted while in the service.

The members of Co. A and all students who were members of other companies in the Spanish war are invited to attend services at the First M. E. church next Sunday evening. Special services are being arranged.

The ordinance committee of the common council decided not to report out an ordinance in favor of taxing the saloons with a special city license. Ald. Stevens was in favor of the tax while Aids. Exinger and Brown were opposed.

Ten years ago the Ann Arbor Water Company entered into a contract with the city to supply Fair View cemetery with water at \$20.00 a year, and then forgot even to send in a bill until last week. Now they are willing to discount the bill 25 per cent to get it.

The Times-Herald of Chicago on Tuesday contained the announcement that the Regents of the Iowa State University had not yet given up all hope of securing Prof. Hutchins. It was stated that an offer of \$8000 per year had been made to Mr. Hutchins.

**AMONG OUR NEIGHBORS.**  
 THE SALINE OBSERVER.  
 Saturday's thunder storm did quite a  
 little damage in various parts of the  
 county. In our immediate vicinity  
 lightning silvered several trees and  
 burned a barn for Mrs. Schill.  
 The Presbyterian society has called  
 Rev. Wallace to the pastorate.  
 Work along the Ypsilanti line is  
 moving along nicely, the grading is  
 nearly completed and the track is laid  
 several miles. The proprietors have  
 been delayed some on account of the  
 ties being slow to arrive.

**MILAN LEADER.**  
 One night last week when W. S.  
 Juckett was coming home from Detroit  
 on the Wabash train, he placed a crate  
 of strawberries and some bicycle re-  
 pairs in the smoking room of a chair  
 car. The room was occupied by two  
 young men of Belleville, and when  
 they got off at that point they took  
 strawberries and repairs. Deputy  
 Sheriff Luxton brought them to this  
 place Friday of last week and they  
 settled by paying \$9 to Justice Doyle.  
 They claimed they took the articles by  
 mistake and they got off cheap enough.  
 Home grown strawberries are now  
 offered for sale in our groceries.  
 William Henry, the colored man  
 who carries the mail between here and  
 Stony Creek, has been on the sick list  
 for the past ten days.

Ora DeDand, who has charge of the  
 creamery plant, tied his horse too near  
 the Ann Arbor track with a long rope  
 Saturday and the train came along and  
 frightened the horse so that he reared  
 and fell. One of his legs was hurt so  
 bad that he was killed. The animal  
 was worth \$100.

**THE YPSILANTIAN.**  
 The marriage of Miss Mary V.  
 Tuttle to Mr. Fletcher H. Campbell,  
 took place at the home of the bride's  
 father, N. B. Tuttle, in Ypsilanti town,  
 May 25, Rev. B. F. Aldrich performing  
 the ceremony.

Miss Mae Babbington, formerly head  
 trimmer with Mrs. N. T. Bacon, died  
 last week at her home in Coruna,  
 aged 24 years.

Frank J. Wint, employed at the  
 Peninsular mill, was caught in a re-  
 volving belt early Saturday morning  
 and whirled around several times  
 before the machinery could be stopped,  
 repeatedly striking his head and feet  
 against the floor. The scalp was  
 terribly cut, and partly loosened from  
 the skull, and his foot was seriously  
 injured. Fortunately no bones were  
 broken. The injured man was removed  
 to the Sanitarium hospital, where  
 he is doing finely.

Mrs. Maggie M. Barnes has been  
 granted a widow's pension of \$8 a  
 month.

Dr. Harriet Gerry, formerly of this  
 city, died at Detroit recently.

Mrs. Eva Gould has been granted a  
 divorce from D. Herbert Gould.

Miss Inez Leck was called to Lyndon  
 this morning by the death of a brother.

**THE YPSILANTI COMMERCIAL.**  
 Miss Bessie Root, postmistress of  
 Geer, was an Ypsilanti visitor yester-  
 day.  
 Wm. J. Canfield of Ypsilanti town is  
 visiting in Iowa.  
 When Mr. Arbaugh of the High  
 school returns to his home in Ohio he  
 will be greeted by his little daughter,  
 who arrived Saturday, May 27.  
 Little Goldie Thompson who has won  
 quite a reputation in our city as an  
 elocutionist, will participate in an en-  
 tertainment tomorrow evening, to be  
 given at Saline under the direction of  
 her teacher, Miss Clara MacMonagle,  
 Detroit. Saturday evening she takes  
 part in an entertainment at Bethel  
 church, Detroit.

Died at Detroit, May 19, Dr. Harriet  
 Gerry, formerly an Ypsilanti resident.  
 The remains were brought to this city  
 Sunday afternoon, via D. Y. and A. A  
 and interred in Highland cemetery.

**DEXTER LEADER.**  
 A special election has been called for  
 Thursday, June 18, in Dexter town-  
 ship, to vote for an appropriation of  
 \$500 for a new town hall. If the approp-  
 riation carries, the hall will be built  
 at the church corners, on land that has  
 been donated by Wm. D. Smith.  
 A party of seventeen of his former  
 parishioners from Brighton drove over  
 to Dexter last Thursday and pleasantly  
 surprised Rev. Henry Stonex.

John Trautwein of Ann Arbor has  
 enlisted in the United States army and  
 has been ordered to the Philippines.  
 E. Jedele has bought over 75,000  
 pounds of wool here this spring.  
 The cottage owners around Portage  
 Lake have organized an association.  
 Its purposes are for mutual benefit and  
 possible future incorporation for the  
 purchase of land. A telephone for the  
 general benefit of the cottagers is to  
 be established. W. H. Sweet, of Ypsilan-  
 ti, was elected president and P. W.  
 Carpenter of the same place secretary.

**CHELSEA HERALD.**  
 Elmer Kirby, of Jackson, who went  
 to Colorado some weeks ago with the  
 idea of locating, has returned home.  
 He says he is not stuck on the Colorado  
 way of doing business and that he will  
 probably stay in "Michigan, my Mich-  
 igan."

Mrs. Geo. P. Glazier accompanied by  
 her granddaughter, Miss Vera Glazier,  
 leave this evening for Boulder, Colo.,  
 where they will visit with friends for a  
 couple of months.

Earl F. Chaso, of Manchester, who  
 was regimental postmaster of the 31st  
 Michigan, has been offered a position  
 in the postoffice department in Cuba,  
 and may go back there.

The Chelsea Savings bank has paid  
 \$105,000 from its profits in dividend to  
 its stockholders since its organization.

On Sunday, June 11, at 3 o'clock p.  
 m., Chelsea Tent, No. 251, K. O. T. M.  
 will hold memorial services at the  
 town hall. They have been very for-  
 tunate in securing Past Great Com-  
 mander Rowland Conner, of Saginaw,  
 to deliver the address. Mr. Conner is  
 considered one of the best Maccabee  
 speakers in the state. It would be a  
 pleasure to the tent to have as many  
 of the citizens as possible turn out and  
 hear him. All are cordially invited.

Charles T. Tomlinson was taken to  
 the asylum for the insane at Pontiac  
 on Thursday last. In order to get him  
 admitted an inmate who was not in  
 such a bad state of mind as Tomlinson  
 is was taken from the asylum and is  
 now at the county house.

**CHELSEA STANDARD.**  
 Married in Grand Rapids, Mr. H.  
 Bert Peacock, of Grand Rapids, and  
 Miss Inez Cecelia Stocking, formerly of  
 this place.

The engagement of Mr. James Breit-  
 enbach, of Battle Creek, formerly of  
 Chelsea, and Miss Eva Wauckenhut, of  
 Chelsea, is announced. The ceremony  
 will be performed at St. Mary's church  
 on June 13th, 1899.

Miss Agnes Miller, of Chelsea, with  
 several other candidates, will receive  
 the white veil of the Dominican order  
 at St. Joseph's convent, Adrian, on  
 Tuesday, June 5, 1899.

The storm Sunday night blew down  
 many trees in the vicinity of Rogers  
 Corners.

Miss H. Dora Harrington has accept-  
 ed a position in one of the Detroit  
 schools as teacher.

Died, Tuesday, June 1, 1899, Mrs.  
 John Wallace, age 60 years.

J. D. Schnaitman and family will  
 move to Ann Arbor in the near future  
 where they will make their home.

Bert Rose and John Jones has been  
 in Ann Arbor the past two weeks, as  
 jurors.

They had scarlet fever in the Mc-  
 Mahon district, south of town, and the  
 school was closed. The school house  
 was fumigated but not aired, and when  
 Miss Ellenore Lehn, the teacher, went  
 to open school Monday the room smelt  
 like hades and she could not remain.  
 The terrific electrical and wind storm  
 on Sunday morning, did considerable  
 damage in the northern part of Free-  
 dom. The barn of Fred Lutz, at  
 Pleasant Lake, was struck by lightning  
 also the house, now vacant, formerly  
 occupied by Philo Hoheberger, shat-  
 tering the chimney and tearing up the  
 roof for some distance. No fire resulted  
 in either case.

Railroad Engineer Testifies to Benefits Received From Dr. Miles' Remedies.

THERE is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, bright eye and perfect self command, depend the safety of the train and the lives of its passengers.

Engineer F. W. McCoy, formerly of 1823 Broadway, Council Bluffs, but now residing at 3411 Humboldt St., Denver, writes that he "suffered for years from constipation, causing sick, nervous and bilious headaches and was fully restored to health by Dr. Miles' Nerve & Liver Pills. I heartily recommend Dr. Miles' Remedies."

STATE LEGISLATURE.

Bills Signed by the Governor. The following bills have been signed by the governor:

To amend an act to revise the charter of the city of Marquette; to authorize the city of Detroit through the common council to issue bonds to the amount of \$150,000 for the purpose of improving Belle Isle park; to enable the regents of the University of Michigan to receive any money or other property for the ultimate use of the University, and invest the same in the best manner possible; to authorize the board of supervisors of St. Joseph county to appoint from their number a building committee to superintend the construction of a court house; to provide for the furnishing of policy holders, copies of the application for insurance in the co-operative, mutual benefit and fraternal beneficiary companies or associations; to provide for the retirement of certain outstanding participatory bonds; authorizing the township of Palmyra, Lenawee county, to issue bonds to the amount of not more than \$7,500 for the payment for the construction of a bridge over the Raisin river; to amend an act to regulate the catching of fish in the waters of this state by the use of pound or trap nets, gill nets, seines or other apparatuses, to define the territory and boundaries of certain school districts in Huron county; for the relief of John Henry Bartrem, a member of Co. G, Third regiment, M. V. I.

Gov. Pingree has called a halt on the legislature and demands retrenchment in appropriations. He suggests that a cut of about \$170,000 be made. The two institutions that have thus far been attacked by the governor are the Jackson prison and the agricultural college. The total amount of bills introduced in the house and senate, calling for appropriations for the year 1899 and 1900, including the amount of the general purpose tax, is \$9,280,121.35. This is nearly \$5,000,000 in excess of the state tax for the years 1897 and 1898, levied to meet expenses provided by law and appropriations of the legislature of 1897, which state tax was \$4,538,677.90 for the two years. This is doubtless the cause of the governor taking the position he has.

Both branches of the legislature adjourned on May 31st out of respect to the memory of the late Albert Pack, after adopting warm resolutions of sympathy for his family. The house appointed a special committee of five to attend his funeral.

News From the Explorer.

According to a dispatch from Mandal, the most southern town of Norway, two boys, on May 14 last, found on the north coast of Iceland a small cork case, containing a slip of paper, dated July 11, 1897, signed "Andree, Strindberg and Fraenkel," and bearing the words, "All well. Thrown out about longitude 81, latitude unknown." Prof. Andree's brother thinks the case was probably one of the letter buoys with which the Andree expedition was provided.

Samoan Trouble Apparently Settled.

The following has been received from the Samoan Islands: Both native factions, the Malietoans and the Matafaans, are disarming. Mataafa has surrendered 1,800 guns.

A sharp earthquake shock was felt throughout northern and central California on the 1st.

A cloudburst at Sault Ste. Marie did several thousand dollars worth of damage at the water power canal, and farmers also suffered heavy damage.

Workmen while engaged in removing the old buildings on the river front at Newaygo, preparatory to the erection of the new cement works, found secreted in a garret the skeleton of a child. The village is wild with excitement.

Battle Creek schoolma'ams will have to be very careful about falling in love next year, as the school board has made those teachers who have been re-engaged sign iron-clad contracts binding them not to marry during the school year.

There is a great strife between the farmers of Central Lake township, Antrim county, to capture the prizes offered by the street fair committee for the best improvements on 40 acres of land, and also for the best crops raised this summer.

A special election is to be held at Cheboygan to vote on the question of bonding the city for \$50,000 for public improvements. The local improvement association will bear all the expense of the election, so the cost to the city will be nothing.

A fire which originated in the barns of the Lake Superior Ice Co., at Marquette, destroyed that structure, together with four horses. Two residences and another barn were also burned. The losses will aggregate \$14,000, partially covered by insurance.

Dr. Andrew D. White, United States ambassador to Germany and head of the American delegation to the recent peace conference at the Hague, was professor of history and English literature in the U. of M. during the years 1857-63 and professor of history, 1863-67.

It is announced as a sure thing that the F. & P. M. will build a branch from Clare to Barrytown, in Mecosta county. If this is done, it will be a great thing for the northeastern portion of Mecosta county. Barrytown's only railroad at present is a stub line of the D. G. R. & W.

A smooth individual has been canvassing Berrien county for the sale of spectacles, who got his livery hire cheap. He would hire a team for a week and after a few days the owner would receive notice that his team was in some other town, and the driver gone and a bill to pay.

For several months there has been much petty stealing going on at Caro, but no clue to the perpetrators could be found until last week, when it was discovered that two boys about 12 years of age were responsible for it all. The boys are now locked up and will probably get a term in the reform school.

All three places in the state where beet sugar factories are being erected the work on them is being delayed somewhat through lack of a sufficient number of bricklayers. The contractors who are building the factory at Caro want 50 more, but can't get them, and at Alma and Rochester a similar state of affairs exists.

Insurance Commissioner Campbell reports that during the past year 19 stock fire insurance companies were admitted to Michigan, while 5 withdrew from the state, leaving a total of 158 companies. During the year the risks written in Michigan aggregated \$334,950,682, premiums paid \$4,592,185, losses incurred \$2,643,284.

Wm. Vincent, of Tekonsha, nearly lost his life in a peculiar manner. He was assisting in hauling poles with a coil when the animal started suddenly, throwing a chain around Vincent's foot, the hook entering the cords and muscles. He was thrown to the ground and dragged by the heels several rods at the animal's heels, being lacerated in a painful manner.

The farmers seem to be in a fair way to get a good crop of oats this year. They are showing up nicely under the influence of the rains and favorable weather, and the grateful farmer, who was wont to sing, "In this wheat by and by," now gaily hums, "Oat to be saved," or something like that as he sits on the fence and hears them grow says the Dowagiac Republican.

A Polish woman and her son, of London township, Monroe county, interfered with the highway commissioner when the latter attempted to open a new highway across her farm. They beat him with a stick and chased him off the farm at the point of a revolver, but his turn came later when he had them arrested and bound over to the circuit court for the assault.

Reports to the state board of health show that rheumatism, neuralgia, bronchitis, tonsillitis and influenza, in the order named, caused the most sickness in Michigan, during the past week. Consumption was reported at 164 places, measles at 45, scarlet fever at 27, typhoid fever at 19, cerebrospinal meningitis at 14, whooping cough at 13 and diphtheria at 12.

Not within the memory of the oldest inhabitant has the wheat crop within a radius of 10 miles of Willow, Wayne county, appeared in such bad condition at this time of the year as it is at present. The farmers in that section will lose thousands of dollars through the failure of the crop, while their corn also will have to be replanted, the excessive rains having rotted the seed in the ground.

A peculiar insect, whose chief industry seems to be destroying books, has made its appearance in the courthouses at Kalamazoo and the county records are being carefully watched lest they be damaged. The pest is a small white worm which can bore its way through a good-sized book in a few moments and which, if not disturbed, will completely destroy the entire book in a short time.

Thos. McErsey, of Vernon, a farm laborer, has, by the death of an aunt in Chicago, fallen heir to a nice little fortune of \$15,000 in cash and a half interest in a valuable mine in Montana.

FOUR BOXES DID IT.

Remarkable Success of a New Pile Cure. People who have suffered for months or years from the pain and inconvenience of that common disorder, piles, will look with skepticism upon the claims of the makers of the new discovery for the cure of all forms of piles known as the Pyramid Pile Cure; nevertheless the extraordinary cures performed by this remedy are such as to warrant the investigation of any sufferer. As a case in point the following letter speaks for itself.

Mr. Henry Thomas of sub-station No. 3 Hosack Ave., Columbus, Ohio, writes as follows: "Gentlemen:—I want you to use my name if it will be of any use to you. I was so bad with the piles that I lost work on that account. Nothing did me any good. I read in Cincinnati of the many cures of piles by the Pyramid Pile Cure and I went to a drug store and asked for it. The druggist told me that he had something else that he thought was better, but I told him that I wanted to try the Pyramid first."

The first box helped me so much that I tried another and then to complete the cure used two more boxes, making four in all. I am now completely cured. Have not a trace of piles and I had suffered for years with the worst form of protruding piles.

I suffered death from piles, but I found the Pyramid Pile Cure just as represented. I have recommended it to several of my friends and am thankful to be able to write and tell you what good the remedy has done for me."

Physicians recommend the Pyramid Pile Cure because it contains no opium, cocaine, or mineral poison of any kind and because it is so safe and pleasant to use, being painless and applied at night. The patient is cured in a surprisingly short time with no inconvenience whatever.

Pyramid Pile Cure is sold by druggists at 50 cents per package, and if there is any constipation it is well to use the Pyramid Pills at the same time with the Pile Cure, as constipation is very often the cause of piles and the Pills effectually remove the costive condition. Price of pills is 25 cents per package.

Write to Pyramid Drug Co., Marshall Mich., for little book on cause and cure of piles; sent by mail free.

Crown Princess of Sweden.

The lot of the crown princess of Sweden is not a happy one. Her indifferent health compels her to spend half the year in the south of Europe, away from her husband, and her life is saddened by the thought that when he ascends the throne she will be of but little assistance to him in his task of keeping the kingdoms of Norway and Sweden together. Music is now her chief occupation. She used to paint and read a good deal, but her falling eyesight deprived her of those forms of amusement.

Italy's Crown Prince.

There is no more daring rider among European royalties than the heir to the throne of Italy, the Prince of Naples. He is a keen sportsman, and has very few equals in the hunting field.

A Slight Misunderstanding.

The Parson—"Do you take life seriously?" The Tough—"No. I'm no assassin. See?"

TOWERS OF SILENCE.

Strange Method of the Parsees in India of Disposing of Their Dead.

Near Bombay the Parsees have built huge structures called "Towers of Silence," in which the bodies of their dead are given over to the vultures. About these towers an awful, weird stillness always prevails. But the solemn silence of death is in all lands. Every year, in 100,000 American homes, the sorrow of a silence caused by that dread monster—Consumption—is known, but its frightful ravages would be almost wholly prevented and precious lives saved if Dr. King's New Discovery for Consumption were kept in every home. To show what wonderful cures this marvelous medicine will effect we will tell T. C. Faulkner, of Wickliffe, Ky., tell how it saved his life: "I was taken very ill with a severe pain in my right side. I was attended by two physicians, who told me I had consumption. The pain moved from my side to my breast. I coughed night and day and had frequent hemorrhages of the lungs. All believed I had but a few months to live. For nearly two years I had been unable to do any work. For eighteen months I had been unable to lie down in bed. All the sleep and rest I had was in a chair. No doctor or medicine did me any good, until a friend advised me to try Dr. King's New Discovery. I used thirteen bottles and am, to-day, as well and hearty as I ever was in my life. I am a carpenter and for the last eight months I have not lost one day from work on account of sickness." This grand remedy is also the quickest and surest cure on earth for Obsolete Coughs, Colds, Bronchitis, Pleurisy, La Grippe, Pneumonia, Asthma, Hay Fever, Croup, Whooping Cough, and all bronchial troubles. Price 50 cents and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

**THE REGISTER,**

PUBLISHED WEEKLY BY  
**SELBY A. MORAN,**

OFFICE: 121 N. Main Street,  
 ANN ARBOR, MICH.

TERMS:  
 One Dollar per Year in Advance.  
 \$1.50 if not paid until after one year.

Fifteen Cents per year additional to subscribers outside of Washtenaw County.  
 Fifty Cents additional to Foreign Countries.

Entered at the Ann Arbor Post-Office as second-Class Matter.

THURSDAY, JUNE 8, 1899.

THE REGISTER is of the opinion that it is a waste of money to gravel streets that are likely to be paved within a few years.

WHAT is the matter with the Whitmore Lake bicycle path? Whitmore Lake people would certainly find it to their interest to turn out and put it in shape.

UNFORTUNATELY the report that the cold winter had killed the potato bugs proves untrue. Although this pest does not seem as numerous as usual, it has the capacity to reproduce itself very rapidly.

THE steps taken by the Kyer Milling Company against the city for damages caused by the city turning the storm sewers into Allen's creek, raises a knotty question. The outcome will be watched with interest by taxpayers.

THE Attorney General has informed Gov. Pingree that the beet sugar bounty bill is unconstitutional. This ought to relieve the governor's anxiety about big appropriations as this item is one of the largest in the whole list of state expenditures proposed by the present legislature.

WITH the beet sugar bounty out of the way, and THE REGISTER does not believe that it will hold water if taken before the Supreme court, the Governor can have no kick about big appropriations, since this one item will reduce the total proposed expenditure to within reasonable bounds.

THE farmers in the vicinity of Ann Arbor could, we believe, raise more potatoes to advantage than they do. Every year potatoes are shipped here from other parts of the state. These might be raised here just as well as not. The profits per acre average, during any series of years much larger than wheat.

ALL the scare that has been stirred up about the Board of Regents deposing Pres. Angell will doubtless end in thin air. Pres. Angell has served the U. of M. too long and too faithfully, and his name adds too much to the honor and fame of the institution for such a step to be seriously considered for a moment.

It is admitted by everybody who has investigated the matter that Pingree's administration of state affairs has been the most extravagant and expensive in the history of Michigan. It comes with very poor grace, therefore for him to declare that appropriations for state institutions should be squeezed to the last notch that his extravagance may not cause taxes to be increased.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local remedies pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by J. F. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

The Earl Sisters are as ravishingly beautiful, as bewitching fair as they are eminent in aerialistics. There are two of them—Maud and Hazel. We shall not attempt to describe their wonderful aerial acrobaticism for the simple reason that cold type cannot portray its infinite charm—cannot, in fact, even begin to do it justice. Suffice to say that tremendous audiences in Europe, Mexico and Canada has testified to their surpassing excellence by such prolonged, tumultuous, wild and unbounded applause that report of their triumphs had spread literally unto the uttermost parts of the earth.

There is organizing in Australia at this writing a big syndicate which is formulated for the sole purpose of providing a guarantee of sufficient proportions to induce these petted favorites of fortune to visit that country. The trip cannot be made in less than twelve weeks, and the Misses Earl demand twenty-two thousand dollars and all expenses before they will undertake the journey.

Even at this enormous figure all Australia wants to see them—and are impatiently longing for their coming. They are with the Great Wallace Shows at Ann Arbor, Monday, June 19.

**THE TEST THAT TELLS.**

You can get all the Convincing Proof You Want by Reading Ann Arbor Papers.

When the reader wants any article of value he naturally prefers to deal with some one he can depend upon.

If mixed up in any law suit, a good, responsible lawyer is generally, the first necessity sought.

If lost on a prairie, directions from a settler could be relied upon; those from a stranger would be doubted.

The test that tells the tale of merit is the test of friends and neighbors.

Ann Arbor people endorse Doan's Kidney Pills.

Can you ask for better evidence? Read this case.

Mrs. Wm. O. Warner, of Geddes avenue says: "I had severe pain through my loins and kidneys, could not straighten up, and my friends often remarked about my going around in a stooped position. I could not rest comfortably and felt tired and worn out all the time. The kidney secretions became badly affected and deposited large quantities of brick dust sediment were highly colored and unnatural in appearance. Friends advised me to try Doan's Kidney Pills and gave me a few. These did me so much good that I got more at Eberbach & Son's drug store. I continued the treatment until the trouble was thoroughly removed."

Doan's Kidney Pills for sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

**M. C. Week End Excursion.**

The Michigan Central will run its popular Week-End Excursion to Detroit next Saturday, June 10. Round trip, Ann Arbor to Detroit, 80 cents. Leave Ann Arbor at 10:55 a. m. Arrive at Detroit at 12:10 p. m. Children between 5 and 12 one-half excursion rate. Tickets going good on above train and date only. Return on all regular trains up to and including train No. 3, leaving Detroit Monday, June 12, at 7:35 a. m.

A card on outside of office door says: "Gone to lunch. Be back in ten minutes." And, the man will be there on time. That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt miserable to move. The lump was probably two or three ten-minute lunches condensed.

The man who "bolts" his lunches will find Dr. Pierce's Pleasant Pellets the best friend he ever met.

There is no case of biliousness, constipation, indigestion, "heart-burn" or any of the rest of the night-mare breeding brood, that these little "Pellets" will not cure. They cure permanently. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

**Is the Steam Locomotive Doomed?**

Men who know say that in the next ten years steam locomotives will disappear and electric motors will supplant them. They also say that with the new motive power trains will rush along at a minimum speed of 100 miles an hour. This will prove a blessing to those who wish to go quickly from one point to another, but no more so than Hostetter's Stomach Bitters has proved a blessing to those who wish to go quickly from sickness to health. The Bitters act at once upon stubborn cases of dyspepsia, indigestion, biliousness and liver complaint. They improve the appetite, quiet the nerves and induce sound, refreshing sleep. The trial of a bottle will afford convincing proof. Sold at all drug stores.

The Y. M. C. A. meeting next Sunday afternoon at 2:45, will be in charge of the delegates who attended the international convention at Grand Rapids. Members of the association are especially urged to attend this meeting. Special music will be provided for.

The first part of an athlete's training relates to the care of the stomach. The nourishing quality of his food is considered. The quantity he eats is carefully weighed and measured. It is curious that this care of the stomach is looked upon as an extraordinary thing only to be practiced in special circumstances.

It should be every one's care. Life is a struggle for the prize of success. The man who wins must take care of his stomach. It is not lack of energy or exercise that has caused so many a break-down in the race. It is neglect of the stomach. Incessant dull headache aggravated by eating, flatulence, gnawing in the stomach, heartburn, acid eructations, coated tongue, bad taste in the mouth, nervousness, mental depression, sleeplessness; these are only a few of the symptoms of a weak stomach and an enfeebled condition of the digestive and nutritive functions. Not all these symptoms will be experienced at once, but any one of them means danger.

"It has made a new man of me," is the constant testimony of those who have used Dr. Pierce's Golden Medical Discovery. This remarkable remedy has such a perfect control of the stomach, digestive and assimilative organs and blood making glands that it speedily corrects the derangements which weaken them, re-establishes them in healthy working order, so that once more the whole body—blood, brain, nerves and muscles—is nourished, and built up into rugged health. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant. Its protracted use does not create a craving for stimulants.

The dealer after the dollar and the customer's after the cure. Its the dealer with his eye on the dollar who proposes substitution. Let the customer keep his eye on the cure and insist on "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

**Grian-O Brings Relief**

To the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. 15 and 25c per package.

Trouble for France's President.

President Loubet, of France, accompanied by the premier M. Dupuy, and the chief of military household, Gen. M. C. Bailloud, drove to the Auteuil races on the 4th closely followed by Madame Loubet in a second landau. As they drove along the avenue the crowd bowed respectfully, but on arriving at Auteuil they were met by a violent demonstration, evidently organized and directed against the president. There was a storm of yells and cries of "Panama," "A bas Loubet," and "Vive l'Armee." A few shouts of "Vive Loubet" were drowned in the clamor. A strong force of police kept order and arrested many of the disturbers, including a man who tried to force his way to the president's carriage. An officer and several of the disturbers were hurt during the attack.

Government may Build a Factory.

The refusal of the armor plate manufacturers of the United States, to bid on the 24,000 tons advertised by the navy department, proposals for which were to have been opened June 1st, has revived the talk about a government armor plant and several officials of the navy department are strongly disposed to favor that method of breaking up the combine which proposes to compel the government to pay exorbitant prices for armor produced at foundries which practically have been built out of the proceeds of the government contracts. In the discussion of a proposed government plant all eyes are turned toward the great iron ranges of the northwest where all the materials for the production of armor plate of the best quality can be had at very low cost for transportation.

WAR NOTES.

Two battalions of the Washington troops under Col. Whalley, on board cascos, were towed from Pasig to Morong on the 4th and landed under cover of a well directed fire from the "tin clad" army gunboats Napidan and Covadonga. The rebels who were entrenched in the outskirts of the town, renched their fire until the troops were ashore and in the open. The American artillery opened fire on the insurgents and drove them from their position, killing nine of them and wounding five. The Washington troops then took the town, the rebels fleeing to the hills. While the Americans were on their way to Morong the insurgents opened fire from a shore battery at Ancona, their first shot striking the Covadonga at a range of 3,500 yards. The Napidan was also fired at.

The cabinet at its meeting on the 2d decided that there was no present necessity for the enlistment of volunteers. Gen. Otis is to be given the 30,000 men for whom he has asked. The additional 5,000 or 6,000 troops to make up the 30,000 are to be taken from the regulars now serving in Porto Rico, Cuba and this country. A letter from Gen. Leonard Wood, governor of Santiago province, was read at the cabinet meeting, which was considered eminently satisfactory. Gen. Wood reported that he had completed a tour of the province and had found things in an admirable condition. There were no appeals from any source for food; there were no complaints of banditti; all was quiet and orderly, and the people were everywhere returning to their peaceful vocations.

Memorial day was celebrated at Battery Knoll, where Scott's guns were planted against the Filipino trenches in the first day's fighting at Manila. Nearly 300 soldiers lie buried there on a bleak mound surrounded by rice fields, which are ranged in five unbroken rows. Beyond there are Spanish blockhouses and bamboo hedges, which were mown by shells from the American guns. The few soldiers who could be spared from the trenches went to Battery Knoll, dusty and bronzed, bearing flowers with which to strew their comrades' graves. A silk flag was also placed over each mound.

Details regarding the capture by Filipinos of two officers of the hospital ship Relief, May 30, have been obtained. The Relief was lying in the harbor. Third officer Fred Heppy and Assistant Engineer Charles Blandford rigged a sail on one of the ship's boats and went sailing along the shore, on the south, opposite the insurgent lines. The boat became becalmed near the shore and some native canoes with Filipinos on board put out and captured the two men, who were unarmed, and also took possession of the boat. All efforts to free the men by a landing party from the Monadnock proved fruitless.

Gen. Lawton has been given command of the defenses of the city and troops forming the line around Manila, which will be his division. Gen. MacArthur commands the out-lying garrisons and the troops holding the railroad and river.

The U. S. Troops were engaged in two battles in one day on the 3d when two of the most gallant charges of the war were made. Several Americans were killed and wounded, while the Filipino loss is reported to be very heavy.

The President may call for 10,000 volunteers, unless the additional 5,000 or 6,000 men asked for by Gen. Otis are taken from the regulars.

Ohio Republican Ticket.

The Republicans in convention on the 2d put up the following state ticket: For governor, George K. Nash, of Columbus; lieutenant governor, John A. Caldwell, ex-congressman; attorney-general, James M. Sheels, of Ottawa; auditor of state, W. D. Gullbert, of Caldwell; state treasurer, Isaac D. Cameron, of Lisbon; supreme court judge, John P. Bradburn; member board of public works, Frank Huffman.

A farmer of Volinia township who last year raised 2,000 bushels of wheat on 90 acres of land, sowed the same ground for this year, but does not expect to harvest over 400 bushels at the most. The same farmer is of the opinion that the township, which is generally considered one of the best in Cass county for wheat, will yield scarcely enough this year for the farmers' family consumption and next year's seedling.

The village council at Wayne has passed a dog ordinance that may yet cause more howling and growling than is even laid down in the dog category. The ordinance takes effect July 1 and compels the attachment of a dollar license tag to each animal; pays 25 cents premium to the small boy for each untagged dog handed in at the village pound, and prohibits any person from harboring a "loud or habitual barking canine." If this works well the village dads will amend the latter portion of the ordinance so as to include cats.

PLANTS TIRE OF MONOTONY.

Fame Awaits the Man Who Can Fathom the Reason.

Of late years much has been learned; but the amount of secrets which nature has carefully locked up is vast in proportion greater than the little scraps of knowledge we have been able to secure, says Meehan's Monthly. But variation in one of those mysteries yet unsolved. It is not an uncommon thing to find a plant or tree, which for years has borne flowers or fruit according to rule, as one might say, all of a sudden send out branches of a character often widely different from that of those which have preceded them. It is more remarkable, as a fact, that when these different branches are cut from the parent tree and rooted as cuttings or preserved by grafting, this wandering from the original form continues hereditarily, and can be reproduced innumerable, just as the parent plant can. Many new roses have been raised in this way. Some of them have been of the most distinct character. In fact, those who watch for these variations, or, as they are technically called, sports, can secure as many new varieties as those who look for new variations from seedlings. Fruit trees are especially subject to these variations. Sometimes a pear tree will have a branch with fruit which looks as if they might be apples, and again apple trees have been known to produce pear-like fruit. Not only is this difference in form, but also in color. Plum trees that for years will bear nothing but the normal purple-fruited plums, will send out branches occasionally with yellow-colored plums instead of egg-shaped, purple ones. One of the most striking instances of this is in the case of the nectarine. A well-informed biologist simply says he does not know what causes these wild wanderings from normal forms—his merely tells the student there is a chance for him here in original investigation which may bring you fame if you work out the cause.

YEARLY CROPS.

Gathered by Gold Diggers in Some Mining Districts.

There are several localities where gold may be said to grow every year, or, in other words, where fresh deposits of the precious metal are to be found annually. One such district is in the Edmonton country, in the Canadian Northwest, where, after the spring floods, from the same banks and "benches" of the Saskatchewan river there are taken every year considerable quantities of gold by a few diggers, who make their living out of the business. But the most conspicuous and interesting case of this sort is to be seen near Ichang, in the province of Hupeh, in China. For many centuries past each year gold has been washed from the banks of coarse gravel on both sides of the River Han, and in the midst of the auriferous district there is an ancient town called Li-ku-tien, which means "Gold Diggers' Inn." Its inhabitants subdivide the gold-bearing ground among themselves annually, staking out their claims with partitions. They pay no royalty, and appear to earn no more than a bare subsistence; but this may be doubted, as John Chinaman is an adept at "layin' low and sayin' nuffin." The annual river floods bring down millions of tons of mud and sand from the mountains, and this mud and sand, which is charged with gold, both "fine" and in flakes, is deposited to a depth of six inches or more on the banks of Ichang. It is in the winter that the gold is washed, and it is said that seven men work about 20 tons of the "pay dirt" in a day.

Trained Rats.

A large London meat house, which had suffered severe loss through the devastations committed by rats, hit upon a novel scheme to abate the nuisance. A regular system of kindness was practiced upon the rodents. Food to their taste was left for them at regular intervals. It was given them to understand that the management considered it a great pleasure to have them about the premises. Also felices were banished from the warehouse. At the end of six months the rats became quite tame and would eat out of the butcher's hands. The dainty meats reserved for larger animals were thenceforth left untouched, rodent notions of honor being exceedingly strict. With the result that although the rats are daily on the increase, with no limit in sight, the firm is many pounds ahead, and on the road to prosperity.

Railroad Ties.

Lewiston (Maine) Journal: T. H. Phair of Presque Isle claims to have filed the largest order for railroad ties ever filled by one man. The past season Mr. Phair has sold to the Boston & Maine 300,000; to the New York, New Haven & Hartford, 125,000; to the Boston & Albany 25,000; to the Portland & Rochester 25,000; to the Canadian Pacific 20,000; and to the Bangor & Aroostook 10,000, besides supplying other roads. Mr. Oak has furnished Mr. Phair 50,000 ties, besides selling 10,000 to the C. P. R. and 15,000 to an electric road in Saratoga Springs, N. Y.

Mrs. Brewer's Humane Work.

A well-to-do Rhode Island lady, who looks after the sick of her city, writes to Dr. Hartman of her practical experience with Pe-ru-na.

HUMANITY

is blessed with some good Samaritans. Mrs. Lizzie M. Brewer, of 196 High St., Westerly, R. I., is a noble woman who devotes a great deal of time and money to caring for the sick of Westerly. She has been for several years one of Pe-ru-na's strongest friends, and under date of March 17, 1898, she writes the following letter to Dr. Hartman, Columbus, O., the originator of Pe-ru-na:

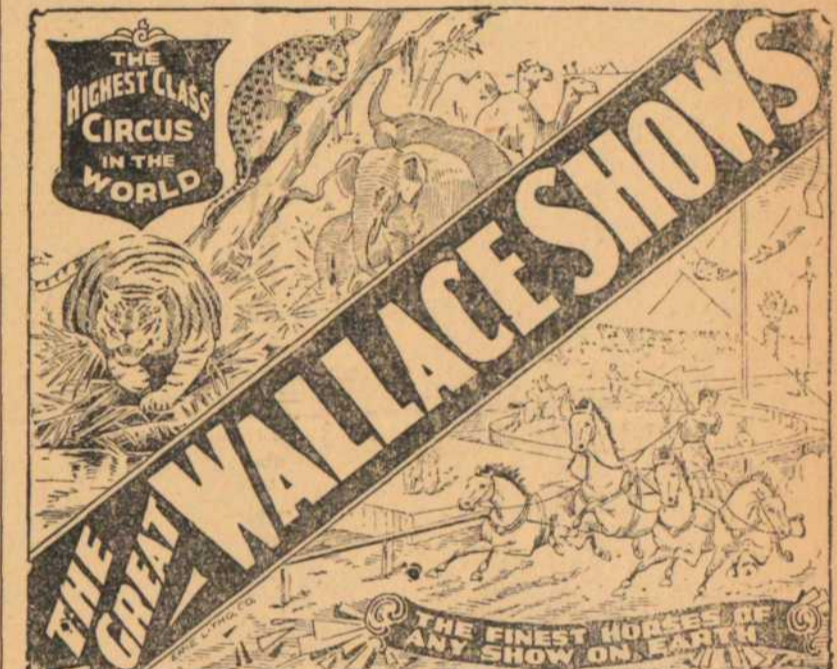

Mrs. LIZZIE M. BREWER.

"Your welcome advice is at hand, and my gratitude is unbounded for the privilege I enjoy of consulting so renowned a physician as yourself, always receiving such prompt and satisfactory replies to my questions. And what amazes me most is that this can be done year after year, with unfailing certainty, free of charge. I have learned that you have become to thousands and thousands of household the same beneficent guide and adviser that you are to my household. "As for your free books, I read them everyone, and treasure their contents as the choicest wisdom. I have used Pe-ru-na in my family for over four years. I find it a sure cure for all catarrhal affections so common in this part of the country. It cures a cold at once; there is no cough medicine that can at all equal Pe-ru-na; as for the gripe there is no other remedy that can at all compare with Pe-ru-na. I notice in medical journals and from the testimony of my neighbors that the doctors seem quite unsuccessful in treating the gripe, especially in removing the after effects of the gripe. From personal observation in many cases I know that Pe-ru-na is a sure specific for these cases. I am among the sick a great deal in our city, and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic in my faith as to its results. I have never known it to fail to quickly and permanently remove that demoralized state of the human system which follows the gripe.

"In cases of weakness peculiar to my sex I am sure that no other remedy can approach in good results the action of Pe-ru-na. It meets all the bad symptoms to which females are subject. The irregularities and nervousness, the debility and misery, which afflict more or less the women from girlhood to change of life, are one and all met and overcome by your excellent Pe-ru-na. I wish every young lady in our city could read your book 'Health and Beauty.' Any one wishing to inquire of me further can do so by enclosing a stamp for reply."

Keep Your Youth Ayer's Hair Vigor. If you are young you naturally appear so. If you are old, why appear so? Keep young inwardly; we will look after the outwardly. You need not worry longer about those little streaks of gray; advance agents of age. will surely restore color to gray hair; and it will also give your hair all the wealth and gloss of early life. Do not allow the falling of your hair to threaten you longer with baldness. Do not be annoyed with dandruff. We will send you our book on the Hair and Scalp, free upon request. Write to the Doctor. If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, DR. J. C. AYER, Lowell, Mass.

NEWS FOR MICHIGANDERS.

A Whole Regiment of News Items From Michigan Towns

CAPTURED FOR BRIEF READING.

The Ionia Prison has for the First Time Since Its Opening got a Life Prisoner—A Houghton Woman Killed by an Electric Light Wire.

Ionia Gets Its First Lifer.

Under the law judges cannot sentence first degree murderers to the Ionia prison. Second degree offenders can be sent there, however, and under this provision the first lifer was received by Warden Fuller on the 5th. The convict is Charles Smith, who murdered an old woman in Barry county. The nature of the crime was rape and he pleaded guilty to murder in the second degree. The judge gave him a life sentence. Don Van Wagoner, who served most of a 20-year sentence, held the long time record of the institution until Smith's appearance.

Killed by an Electric Shock.

Mary Manderfelt, a domestic employed in the family of Congressman Chas. Sheldon at Houghton, was instantly killed the other night by a shock from an incandescent electric lamp of 32 candle power. She had occasion to enter the laundry in the basement and in turning on the light her hand came in contact with a live wire, and her feet being on a wet cement floor the circuit was formed and she was killed by the comparatively weak incandescent current, supposed to be entirely harmless.

Would-be Elopers Roughly Handled.

Alex. Deshano and Mrs. Thos. Laraway, of Black River, started to elope on the south bound D. & M. train on the 3d. The woman had the tickets and they entered different cars. Conductor O'Byran put Deshano off the train two miles from the village because he had no ticket or money. Deshano returned to the village, when he was attacked by a mob of his countrymen. His life was saved only by the interference of officers, but they did not prevent a very severe handling and his recovery is considered doubtful.

Three Shot, One Dead.

A terrible tragedy was enacted at the home of George Stalker, one mile west of Mayville, May 31. Geo. Stalker, Jr., shot his father twice in the head, shot his mother in the back and then placed the revolver to his own forehead and fired a bullet into his brain. Young Stalker lived half an hour. The shot which struck his mother glanced off, inflicting a slight wound. Doctors removed one bullet from the father's neck, and he will recover. The dead man was 23 years old, and had always lived at home.

Has Only Half a Stomach.

Mrs. Bruce, the Dundee woman who submitted to an operation recently for cancer, and in which operation one-half of her stomach was cut out and remaining part sewed together, is improving rapidly in health. She is now able to eat food and retain it upon her stomach, or rather that part of her stomach which is left. It was a most successful operation and one which has excited wide-spread notice from the papers.

Albert Pack Dead.

Albert Pack, the popular Michigan capitalist and politician, is dead. The end came peacefully at 6:15 a. m., May 31, at his home on Jefferson avenue, Detroit. The cause of his demise was hemorrhages, following an operation for the removal of gall stones. Mr. Pack was born in Madison county, N. Y., Nov. 10, 1842. The bulk of his estate, which is valued at \$1,000,000, was left to his wife.

Many Places Visited by Storm.

Benton Harbor, Battle Creek, Traverse City, Eaton Rapids, Muskegon, Niles, Kalamazoo, Lansing, Marshall, Galesburg and St. Clair were all visited by a severe storm on the 5th. At Lansing fully \$50,000 worth of state property was destroyed by fire, the result of the workshop of the reform school being struck by lightning.

They Will Still Have Reminders.

Although the people along the Harbor Beach division of the F. & P. M. are to get a broad gauge railroad, they will have reminders that they once had a narrow gauge road. The present narrow gauge coaches will be placed on broad gauge trucks and continued in service between Palms and Harbor Beach.

The 26th Michigan holds its annual reunion at Ithaca this year, and Co. D, 5th cavalry will hold its reunion at Whitmore Lake in August.

A movement to raise \$5,000 for a monument to the memory of dead heroes of the late war has been started by the Evening News of Calumet.

S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at the foundation of the very worst cases, and routs the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, only to break forth again more violently than ever; S. S. S. forces out every trace of taint, and rids the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was consuming me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy that is guaranteed purely vegetable, and contains no mercury, potash, arsenic, or any other mineral or chemical. It never fails to cure Cancer, Eczema, Scrofula, Rheumatism, Contagious Blood Poison, Pteris, Boils, Carbuncles, Sores, etc. Valuable books mailed free by Swift Specific Company, Atlanta, Ga.

**WELL LIGHTED**  
By an American Electric Plant Is the City of Manila.  
St. Louis Globe-Democrat: One of the first things noticed by American naval officers in the city of Manila was the excellence of the street lighting, which is fully up to the standard of American cities. It seems that in 1895 an American firm made a twenty years' contract with the municipal council for lighting of the city. It was to supply 140 2,000-candle power arc lamps and 1,000 twenty-candle power incandescent lamps for \$60,250 (Mexican) per annum. The contract provided that the lamps should burn every night and all night (i. e., from 20 minutes after sunset to 20 minutes after sunrise). The city lighting covers all streets on both sides of the Pasig river, except a few in several native quarters of the town. As might be expected, the private lighting service has grown largely, and includes, besides many arcs, about 6,000 incandescents. Some of the city residences have as many as 200 lights each. Since the Americans took possession of the city the electric light company has been busy day and night. The barracks selected for the troops had to be lighted, and the churches, cock pits and "godowns," or warehouses, appropriated as quarters for the soldiers, had to be wired and connected with the lighting system. The Chinese merchants were quick to see the advantages of having a flood of electric light in their stores and in one of the business quarters there are over 2,000 incandescents in a space of about four blocks. The agent of the electric company happened to be in Yokohama when the news came that Dewey's fleet had sailed from Hongkong for Manila. He was at once applied to for electric fans for the ships of the fleet, and managed to secure about twenty. Subsequently he bought back at a handsome premium fifty more that he had just delivered to a customer, and the whole consignment was shipped immediately to Manila, where they were a godsend to the officers aboard ship, who had already begun to experience the intense discomfort which is inseparable from living in cramped quarters in a tropical climate.

**TO CURE BY DREAMS.**  
A Doctor's Device for Making the Patient See Pleasant Visions.  
An English physician claims to have discovered a new and efficacious cure for persons afflicted with nervous or mental maladies. If such persons, he says, can only procure pleasant dreams they will soon regain their health, and his aim is, therefore, to furnish them with delightful dreams. For this purpose he uses a soft leather cap, which covers the patient's head and ears and leaves only the face uncovered. Beside the ears are placed two metal plates, which are joined by a rubber tube to a phonograph. The patient rests on a divan in a dark room and in front of him is a sort of magic lantern, from which are projected at brief intervals various enjoyable pictures. In this way, it is claimed, the eyes of the sick person are delighted, while at the same time his ears are soothed by the vibrations of the phonograph. As a result, weariness comes upon him and is soon followed by slumber, and it is while he is dozing in this manner that happy dreams are evoked, thanks to the phonograph and the stereopticon. After this light slumber comes a deep sleep, which, we are assured, is always most beneficial. Several tests of this kind have been made with success, and it is said that not only are tired nerves refreshed by this method, but that the patient's body also rapidly increases in weight. That pleasant sounds and sights are soothing to the nerves we have all known for a long time, but that pleasant dreams have a tendency to make persons fat will certainly be news to the general public.

**COUNTERFEITING MONEY EASY**  
New Precautions Against It Inaugurated by the Government.  
The art of engraving by means of photographing and kindred aids has now reached such a degree of perfection that the government has been forced to redouble its vigilance to prevent frauds in that direction, says the Philadelphia Record. An old engraver said, in speaking of this matter: "The exposure of the recent big counterfeiting conspiracy has worked a change already in the system by which the government has heretofore kept track of dangerous counterfeiting methods. Chief Wilkie, I see, says that Taylor and Bredell employed a new system in imitating the \$100 Monroe head counterfeit. He is wrong. The system has been in vogue for many years and is common to all experts in our line. There are, no doubt, hundreds of engravers who would scorn to do a dishonest act who could make counterfeit plates far better than the ones turned out by Taylor and Bredell. As a matter of fact, the plate that was used to print the counterfeit internal revenue stamps was a very imperfect piece of work, and there are apprentices I know of who could do better. However, they were good enough to fool the ordinary person. In the near future the government will require all engravers and those connected with engraving establishments to register at least once a month and to present a list of the work performed by them."

**DANGER IN SODA.**  
Serious Results Sometimes Follow Its Excessive Use  
Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended as a medicine, and people who use it as such will some day regret it.  
We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.  
The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases ere on record where it has accumulated in the intestines, causing death by inflammation or peritonitis.  
Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia tablets. These tablets are large 20-grain lozengers, very pleasant to taste and contain the natural acids, pepsines and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.  
Dr. Wuert states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangement and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in all stomach troubles except cancer of the stomach. All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package.  
A little book describing all forms of stomach weakness and their cure mailed free by addressing the F. A. Stuart Co., Marshall, Mich.

# A Young Life Saved.

This is a story of a parents' devotion and gratitude. Their fond daughter was seriously ill. The disease baffled eminent physicians. Finally the specific was found, used and perfect health followed.

Florence, the four-year-old daughter of Mr. and Mrs. William H. Sturdivant, of Grindstone, N. Y., was prostrated by a complication of ailments.  
Her case became serious, seemed to be beyond the help of medical science.  
Eminent physicians were unable to benefit her.  
The outlook was discouraging.  
Mrs. Sturdivant's brother advised trying Dr. Williams' Pink Pills for Pale People.  
The advice was timely; the pills proved effective.  
Little Florence was speedily restored to perfect health.  
The parents are positive of the cure and very are apprentices I know of who could do better. However, they were good enough to fool the ordinary person. In the near future the government will require all engravers and those connected with engraving establishments to register at least once a month and to present a list of the work performed by them."  
"Instead of improving, Florence failed."  
"A brother of my wife, who resided in Canada, but was visiting us, advised trying Dr. Williams' Pink Pills."  
"I purchased a box of the pills and began to give them to Florence."  
"After using the pills a short time we could see an improvement."  
"Her strength began to return and her appetite was restored."  
"When she had taken one box the pains in her back and stomach ceased and her recovery seemed certain."  
"We eagerly purchased a second box of pills and watched with delight the change for the better that was being wrought daily."  
"Florence finally became strong enough to walk a little. She gained in flesh and strength rapidly."  
"By the time she had used three boxes of the pills she was evidently well."  
"We continued the treatment using another box, the fourth, to prevent the possibility of a recurrence of the difficulty."  
"We cannot praise too highly the value of Dr. Williams' Pink Pills. I am positive that without their use our child would have been a confirmed invalid."  
"The evidence is irrefutable; Dr. Williams' Pink Pills for Pale People are veritable health restorers. Thousands testify to that fact."  
"Composed of vegetable remedies, they act directly upon that vital element—the blood—in its impure state, and speedily restore it to healthful action."  
"Dr. Williams' Pink Pills for Pale People are sold throughout the land."

One paper was on "Exceptions and Deductions from the record of six thousand cases of diseases of women and two thousand operations which have been performed by him. The other paper was a report of a special case with remarks on the same.

Mr. George Reed, of Pittsfield, says that the report about the past cold winter having killed all the potato bugs is wide of the truth. He states that the bugs are less numerous this spring than usual but he attributes that to the cold, damp weather last fall which affected the crop of bugs that wintered over. He says he can accommodate the man who offered \$5.00 for a live potato bug this spring. In fact Mr. Reed would like to sell all of his at 1 cent each.

Duelling for sweethearts is not a thing of the past. Last Saturday evening, about half a mile west of Dexter, occurred one of the hardest fights that has taken place in that vicinity for some time. The sons of two prominent farmers came together all on account of a rustic beauty who lives in that section. A ring was made in the road, and after fighting until both were tired out, the mill was called a draw. The young lady will decide who is to be the lucky man.

A lady member of the senior literary class called at the School of Shorthand recently and arranged to take a course in the art this summer. She had a chance to secure a position as teacher in a high school providing that in addition to other branches she could teach shorthand. With shorthand being introduced into many high schools it will be necessary for the U. of M. to fit teachers to give instruction in this subject, or else the schools will be compelled to look elsewhere for teachers.

Some thoughtless boy entered the barn belonging to Daniel B. Brown on S. Main street, one day last week, and proceeded to prepare for a feast. He first gathered 15 eggs and then got a pan of water into which he put the eggs. He then placed a pile of hay in the center of the floor and the pan of eggs on top. Lighting the hay he sat down and was waiting for them to boil when a neighbor saw the smoke and rushed in in time to save the barn. The boy escaped.

Sunday morning about 11:30 four cars were piled up on the Ann Arbor road near the athletic field. A north bound train was running into the city, and on coming down the grade near the athletic field a draw bar near the center of the train broke. The front section of the train proceeded for a short distance and then stopped. The rear end, coming at full speed, crashed into section number one, and derailed four cars, two of which were totally wrecked. Fortunately no one was hurt.

Judge of Probate Newkirk has made an order allowing the petition of Gideon L. Hoyt, administrator of the estate of Hiram O. Lamkin, of Saline. Mr. Hoyt sets up that Lamkin died, possessed of a farm worth \$5,000 on which the purchase price is still due, and also an interest with Orton M. Kelsey in a livery stable in Saline. That during the coming year the estate will lose money on both properties, that Mr. Kelsey will buy the farm upon condition that the estate's interest in the livery stable will be given him as a bonus, he to assume the purchase of the farm.

Last Thursday evening, at the home of Mr. and Mrs. Anton Sheffield, 1223 Wright st., occurred the marriage of their daughter, Lillie Louise, to Mr. William Bohnet. The ceremony was performed in the presence of about thirty of the immediate relatives and friends of the bride and groom, by Rev. W. M. Forest, pastor of the Church of Christ. The house was prettily decorated for the occasion with cut ferns, flowers and evergreen. Mr. and Mrs. Bohnet left soon after the ceremony for their home at Carpenter's Corner's, four miles out on the motor road. They have many friends in Ann Arbor who all wish them much happiness.

A GREAT MONEY SAVER. Alabastine, the permanent wall coating, can be cleaned better than paper. The plain coating is more easily re-coated than a painted wall could be cleaned, but it pays to clean Alabastine decorations, friezes, etc.; the plain coats are easily renewed. Send for particulars about cleaning, to the Alabastine Co., Grand Rapids, Mich. The work in applying Alabastine with a brush is about as much as to hang wall paper, but the cost of material averages only about 1/2 cent to 1 cent per yard for plain work. Decorative Alabastine work costs about the same as paper decorating of the same grade, including friezes, etc. Freshing in Alabastine costs less than in other water colors and hardens with age. Alabastine costs much less than to paint walls and forms a permanent foundation for oil painting, but is much better alone. Reject imitations, which cannot offer the test of time like Alabastine.

AIDED BY MRS. PINKHAM.

Mrs. W. E. PAXTON, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.
