

Balmyra Nov. 16<sup>th</sup> 1836.

10

Dear Brother

This has been delayed by various causes but principally  
for want of any news of consequence to send you. I had hoped in the 9<sup>th</sup>  
place to have sent the result of my suit with Sawyer which was to be  
tried the 7<sup>th</sup> Sept, but was disappointed by my Attorney getting in a  
spur which disqualifies him for business and the case in consequence  
was put off to Nov term which will no doubt continue for 4 weeks as  
the last did and I believe most others in Dauphin County and then can-  
not be tried to in December sometime. The term commences on Monday  
next and the first week is allowed for state business; the two next for  
the Common Pleas and the last on 4<sup>th</sup> for argument and Orphans bus-  
iness to which mine belongs; and to put you off to that time would be  
too bad. I have put off going to the West to a more "convenient season"  
on account of that trial not being tried when I had expected in Sept,  
which would have given me an opportunity to do so from the 1<sup>st</sup> of  
Oct. to the commencement of winter, as it will certainly be put to the  
Supreme Court which will not sit to May next. From my failure  
in Michigan to purchase and the doubts thereby created of the possibility  
of doing so to advantage any where this season owing to the very extensive  
speculations and latterly the Secretary Circular I feel satisfied with  
my repeated disappointments and trust that it may be for the best.  
The Secretary's Circular is surely a bold measure and will have power-  
ful effect on those Land monopolizers especially if they have been  
borrowers to any great extent. I was disappointed in not getting your opinion  
of the probable effects of so bold a measure. I fully approve of its principle  
but condemn his want of adopting it as soon as the deposits were  
taken from the Bank for if he wanted to adopt a specie currency  
why not do it at once and not substitute a set of worthless state banks till  
the money accumulated so much as to make those ports unsafe depositories.  
If he had foreseen such a consequence it would be dishonesty in him to  
adopt such a course if not he is entitled to no credit in its adoption  
at present when it required mighty genius to apply the only possible  
remedy but was plainly seen by every one that something must be done  
not only to prevent the money from further accumulating but to make  
safe the enormous sum already accumulated. I feel persuaded that if  
that measure had been taken one year sooner that the <sup>two</sup> thirds of the  
land that has been bought since by speculators would be yet unsold

and that considerable more would have been purchased by the  
actual settling to the great advantage of the whole Western country.  
If then my conjecture is correct the press on the money market made  
by this golden measure will throw those two-thirds of speculators  
lands again into market at less than first cost, and better chances  
will be had to purchase next summer than this. Thomas arrived  
home by the way of Uncle James in time to vote for W. H. Garrison for President  
and found Uncle and family well. Was there four days if I recollect  
right. Uncle talks of visiting Illinois next summer. Van Duren has  
carried this state by between 3 and 4000. Lebanon County gave Garrison  
321 majority and Dauphin 687. In Londonderry we had 123 major-  
ity for Garrison. Received a letter from James yesterday in which  
he says he has good health and had Cousins James and Thomas  
Paul's sons to see him, the first on Oct. 9<sup>th</sup> and the other, the 15<sup>th</sup>  
Thomas has sold out in Bath Valley and bought in Knob county Illi-  
nois and intends coming out in the spring to build and moving in  
the fall or next spring. James has also sold what he owned in Indiana  
and intends purchasing in Illinois next spring. He were much better  
pleased with the country than they thought they would be.  
Our Newville relations are all well but Cousin John and he is a  
little better. Stepmother has sold and intends moving to Newville  
in the spring and live with Am. When she will no doubt live contented  
and happy at least she ought for she will have no diversity of interests  
to disturb her. There has been no sales of land this season here <sup>the</sup> big first  
rate land and but a few of Gravel land at from 15 to 20 per acre.  
And notwithstanding the almost total failure of the wheat and  
Rye crops higher prices have been asked ~~than~~ last year. Clark  
was willing last year to go and this year it is said refused it. I  
suppose since last year they have been calculating the value of  
long and short payments and find that long payments reduce the  
present worth very much and for a low sum they cannot think of selling  
though it were cash. Sawyer asked 65 and was offered it is said 63  
but has not sold. He wants nearly all in hand which shows that he himself  
is afraid of his title. He I have heard said is afraid if he sells for half  
in hand and the rest in payments to some person who may be a little  
twisty will keep both the land and money until he makes the  
title good. Which he never can and consequently would be  
barred from collecting it at law.

The crops of Corn and Oats were fine. Corn is 75 Cents 45 Wheat \$10  
Rye 100 Duckwheat 75 Potatoes 37<sup>1/2</sup> Beef 75 per Cwt. Pork  
Lamb Butter 18 per lb. Tallow 10 Lard 14 Hickory wood 25 to  
per Cord Oak 150 Stan Coal 6.25 per Ton. I have no bills on  
the United States Bank smaller than \$100 so that I cannot send you  
the \$10 that owe you at present. But will when you need it.  
I have bought James's share of the thirds for \$200 and paid him and  
will likely buy Thomas and Agrippa out in the spring if my  
means will allow. I have to make a final settlement sometime  
and think this the best as I cannot well lose and may make.  
Mary Fleming <sup>her</sup> that was Mary Catheart was buried on  
Saturday last after a long spell <sup>of</sup> consumptive sickness. Robert  
Macfarap's wife has recovered and is quite well the old mother  
is still living. Sarah is in Ohio. I have a bad cold and cannot  
have patience enough <sup>to continue</sup> to fill this side. Dr Samuel Wilson  
is returned from Illinois poor in purse and bloated with  
in person. Iquin Phillips is still disturbed by the unruly  
in his newly acquired lodgings in the school house. J. B. Coleman  
has parted this life. George Linneweber's Tavern stand was sold  
at public sale by his executors for \$750 Cash.

All Well

William Geddes
