We are no admirer of the institution of slavery, no hater of the negro; and have no desire to see the former perpetuated out of ill-will to the latter. But slavery existed at the formation of the government, it was recognized by the Constitution, and without such recognition the Constitution could not have been adopted and the Union created. It is a local institution, and can be regulated and abolished by the States alone, and not by Congress or the President. We shall be glad to see its existence terminated whenever it can be done for the benefit of both master and slave, but we protest against the way being perverted from its legitimate object, the putting down of the rebellion, and indefinitely prolonged for the immediate extinction of slavery. To prosecute it for this object, and to its ultimate accomplishment, is to violate the Constitution—and that once buried in wreck and ruin, we hold our rights as States and citizens at the mercy of **ABRAHAM LINCOLN** and his swarm of military subordinates,—to slaughter millions of white men, to pile up an untold debt, of which we can not pay even the interest, and all to confer a doubtful benefit upon the colored race. We say doubtful, for while gradual emancipation might benefit the white race of the South and elevate the black, we fully believe that immediate, unconditional emancipation will sow the seeds of destruction in the black race.

So thinking, and so believing, we shall vote for **GEORGE B. McCLELLAN** on Tuesday next, confident that if he is elected the war will be prosecuted upon Constitutional grounds, the rebellion put down, the Union preserved, and an early and honorable peace given to the country.

Don't be afraid of being called "Copperhead." It's nothing when you are used to it. Pocket the intended insult, thank your neighbor for the compliment, and vote for **GEORGE B. McCLELLAN**.

No loyal citizen need fear the arbitrary acts of the President and his underlings, is the argument with which all complaints are met. And no loyal citizen will if the Courts are permitted to sit in judgment upon their acts.

Filing on the Taxes.

The State and County Taxes for the several years named below, including 1864, just apportioned, have been, in Washtenaw County, as follows:

State	County
1860	16,991.52
1861	22,410.47
1862	28,528.84
1863	25,988.41
1864	27,735.01

The enormous increase is to meet the obligations growing out of the war. The Township taxes—as large summates have been voted—have increased in still greater proportion. It must be remembered, too, that these taxes are largely to pay interest on contracted and bonded debts, and what will we be called upon to pay when the principle shall fall due?

If the debts were being made, and taxes levied solely to preserve the Union, no patriot would grumble, but are the people willing that they shall be increased indefinitely for the sole purpose of waging a crusade against slavery? Let the cost be counted before you vote on Tuesday next.

Indications are strong that if fair play is given, and the soldiers in the Army of the Potomac allowed to vote as they wish, **Gen. McCLELLAN** will get a large majority. The New York soldiers are voting for their old commander in large numbers, and while some regiments give majorities for **LINCOLN**, others vote unanimously for **McCLELLAN**. The returns will surprise those of our citizens who have counted largely on the army vote to save the Republican party from wreck. Our only fear is that letters carrying Democratic tickets to soldiers will be stopped, and that packages sent by Commissioners will not reach their destination.

Three furloughed soldiers were in our office on Tuesday, *en route* for their homes in Livingston County. They were zealous for "little Mac," and predicted that he would get a large army vote. They stated that a vote was taken in the field hospital of the 2d, 5th, and 9th Army Corps, just before their departure, and that **Gen. McCLELLAN** received 450 majority.

If you are ready to sacrifice "the last man and the last dollar," your own person and own dollars included, not for the restoration of the Union under the Constitution, but for the avowed purpose of destroying a local institution, protection to which is guaranteed by the Constitution, then vote for **ABRAHAM LINCOLN**; and if he shall be elected, resolve to do your duty like a man, give your person and your dollars to the work, and not seek to save the one by hiring a substitute, and the other by procuring exemption on plea of physical disability or over-age.

But if you wish the war prosecuted for the sole purpose of putting down the rebellion, restoring the Union, and preserving the Constitution—the charter of our national liberties and guarantee of our individual rights—vote for **GEORGE B. McCLELLAN**.

If **ABRAHAM LINCOLN**, or any other person for the time being occupying the Presidential chair, may violate a single provision of the Constitution on the plea of "military necessity," he may, under the same plea, violate all its provisions. "Military necessity" is the plea of tyrants. It may gore the citizen of South Carolina today, but let the citizen of Michigan beware of the maddened bull tomorrow.

Written Constitutions and written laws are more necessary in times of civil strife and revolution than in times of profound peace. Then let every voter candidly consider whether **ABRAHAM LINCOLN** has obeyed the Constitution, or whether his oath to obey it will be respected in the future. If it is not the guide of his every step, it is dangerous to national and individual liberty to re-elect him.

In the inaugural address of **President LINCOLN**, delivered March 4th, 1861, he said:

"I have no purpose, directly or indirectly, to interfere with the institution of slavery in the States where it exists. I believe I have 'no right to do so; and I have no inclination to do so."

And, yet, in the face of this declaration, the Constitution in the meantime remaining the same, and no new "right" having been legally conferred upon the President, he has violated this pledge, and issued an emancipation proclamation that slightly interferes with the institution of slavery in the States." In view of this record, who will say that the policy of the Administration has not changed; and that for the worse; that the President has not been forced to adopt unconstitutional grounds, to exercise a right that he did not possess; or else that he used meaningless language in his inaugural, and made a solemn promise with the design to violate it at the first opportunity. His partisans may take either horn of the dilemma they choose, but can they claim for him the support of true Union men?

Be careful and not let Republicans get hold of your packages of tickets on Tuesday. If you do they will get back into your hands a little mixed.

VOTE FOR **GEORGE B. McCLELLAN**.

The Fraud Confessed and Defended.

The late Indiana election was notoriously carried by the Republicans by the vilest outrage and fraud. Soldiers from other States voted, minors voted, men voted two, three, twenty times each; Massachusetts regiment's voted all along the railroads at each station. And not satisfied with that, Democratic ballots, honestly given, were not counted. Morton's majority in Indianapolis was larger than the entire vote of the County two and four years ago. And here is how the Indianapolis *Gazette*, the leading Republican organ in the State, defends such corrupt and illegal voting. It says:

"If thousands of soldiers voted in this State, on Tuesday last, who were not legally entitled to vote, it were better, provided they voted the Union (abolition) ticket, than for the election to have been carried by the opponents of the administration. The contest was squarely between the government, (Lincoln) and the rebels (McClellan democrats). The end justifies the means, in such an issue. It were better that half a dozen Massachusetts regiments should vote, than that the State should fall into the hands of the opponents of the Administration. Does any one think that the Administration is going to allow the State of Indiana to fall into hands of its enemies at a time like this? The soldiers are in the national service, and if they can be used in the rear, to gain a victory which is quite as important as a victory at the front and in the field, why not do it?"

Let Democrats guard against the perpetration of such infamous frauds on Tuesday next. If they are to be resorted to to re-elect **LINCOLN**, we may say farewell to the Republic.

The day after the re-nomination of **ABRAHAM LINCOLN** by the Baltimore Convention, HORACE GREENE, one of the chief high-priests of the Republican party, said in the N. Y. Tribune:

"We believe the rebellion would have lost something of its cohesion and venom from the hour in which it was known that a new President would surely be inaugurated on the 4th of March next."

This was no doubt true in June last, and was a good and sufficient reason why the Baltimore Convention should have nominated another man than **ABRAHAM LINCOLN**, that is if the Baltimore Convention desired to do anything towards destroying the "cohesion and venom of the rebellion."

It is equally true now, and is a good and sufficient reason why every patriotic Union loving citizen, why every man of whatever party name, who desires to destroy the "cohesion and venom of the rebellion," should vote for **GEORGE B. McCLELLAN**.

We invite the attention of our citizens, and especially of members of the Boards of Registration and Inspectors of Elections to the following section of the Constitution:

Art. VI., Sec. 5. No elector shall be deemed to have gained or lost a residence by means of his being employed in the service of the United States, or of this State; nor while engaged in the navigation of waters in this State or of the United States, or of the high seas; nor while a student of any seminary of learning; nor while kept at any almshouse or other asylum at public expense; nor while confined in any public prison.

This provision is definite and not to be misunderstood. Students of the University, married or single, who were not bona fide residents of our State and City, and entitled to vote at the time they entered the University, are not entitled to register to-day, or to-morrow, or to vote next Tuesday. Their residence in our City while students of a seminary of learning counts for nothing, and to gain the right to vote at any poll in our City, they must have resided in the State three months, and in the Ward ten days before they entered the University. The same prohibition also attaches to students in our High School.

We wish to deprive no citizen of a vote to which he is legally entitled, no matter what his politics; and on the other hand we do not wish students, temporarily finding a home in our midst, whatever their politics, to meddle in our elections. They should go home to vote, or lose their votes the same as any other temporary absentee.

Secretary SEWARD has sent the following dispatch to the Mayors of the Northern Cities:

WASHINGTON, Nov. 2.

This department has received information from the British Provinces to the effect that there is a conspiracy on foot to set fire to the principal cities in the Northern States on the day of the Presidential election. It is my duty to communicate this information to you.

WILLIAM H. SEWARD.

It is well to be prepared for any emergency, but we confess that it looks to us as though the Administration was seeking a pretense to declare martial law in the Northern States, and take the Presidential election into their family care. "Military necessity" will cover a multitude of sins.

"The Union is the one condition of peace" is the noble utterance of our gallant standard bearer, **GEORGE B. McCLELLAN**. The Democracy endorse the declaration without mental reservation.

"The abandonment of slavery is the only condition of peace," says **ABRAHAM LINCOLN**, and the Republicans have fully endorsed the announcement.

What say the patriotic, Union loving citizens of the country?

VOTE THE DEMOCRATIC STATE TICKET.

HON. C. A. STACY, of Tecumseh, addressed the McCLELLAN Club, at Saline, on Wednesday evening. The hall was filled to its utmost capacity, and many were unable to get in. The Judge spoke two hours, reviewing at length the policy of the Administration. It was an able and convincing speech—at once eloquent and logical, humorous and ironical. At its close a vote of thanks was unanimously given Judge STACY, and the meeting adjourned after giving three hearty cheers for the Union, three for **GEORGE B. McCLELLAN**, and three for the County Ticket. We saw what we had heard before, that the Democracy of Saline are ready for the battle.

ADDRESS OF THE NATIONAL COMMITTEE.

Let Every Citizen Read.

FELLOW CITIZENS—It no longer admits of a doubt that the unscrupulous supporters of the present incumbent of the Presidential chair, have determined to employ for his re-election to that high office a system of violence and fraud, unknown before in our history.

They thereby admit that his honest, legal re-election is impossible. Thereby they already confess defeat.

The polling of every democratic and conservative vote in the loyal States will make his re-election by fraud, impossible. We beseech and exhort you to let nothing whatever prevent your casting that vote.

In the State of Indiana, administration majorities have been manufactured by the indecent exhibition of thousands of illegal votes.

In Maryland military force has been used to silence the democratic press, and the Federal government has dictated the institutions of a State.

In Tennessee, the abolition candidate for the Vice-Presidency, holding, by the appointment, and at the pleasure of the President, a pro-consular office unknown to any law of Congress, has assumed the armed control of polls commanded by him to be opened, and the President of the United States, appealed to by the free citizens of that State to right such wrongs, has treated that appeal with coarse contempt.

Last of all, the legal right of the soldiers of the republic freely to join with their fellow-citizens in the choice of a national Chief Magistrate is menaced and made a mockery. Their camps thrown open to the political agents of the administration, are sought to be closed to the legal representatives of the democracy, under pretenses which leading organs of the abolition party find themselves compelled to denounce as insulting to the common sense of the nation. The mails are violated to seize the votes that have been cast against him, and to place his own ballot in their stead; and when it has been discovered that the votes of the army, which our candidate first organized and led to victory, were cast in great majority for their old commander, a plot was contrived to seize their votes, arrest the agents who had collected them, under pretense of punishing frauds, which can only be discovered by inspectors of election with their poll lists before them, which could only be committed and completed there, and which can justly be punished only under the stringent laws, and by the officers of the States themselves.

In the presence of this odious and unexampled spectacle, the Democratic National Committee call upon all, of whatever name or party creed, lovers of liberty and the Union, now more truly than ever before "one and inseparable," to put forth all their strength in one final and triumphant effort for the salvation of both.

The Republicans are pledged, by the policy of the Administration, to *destroy slavery and let the Union take care of itself*.

The Democrats are pledged, by the policy of the Administration, to *restore the Union and let slavery take care of itself*.

The Republicans are pledged, by the policy of the Administration, to *destroy slavery and let the Union take care of itself*.

It is open complicity in acts of fraud and violence is a full confession that Abraham Lincoln's re-election cannot be accomplished by an honest appeal to the unbought will of a nation of freemen.

By such an appeal the re-election of **ABRAHAM LINCOLN** can yet be prevented, in spite of fraud and violence. Such an appeal the Democratic National Committee now make to their fellow-citizens in all the States, but more especially to the thousands of true and loyal men, who in Maryland, in Indiana, in Ohio, in Kentucky, and in Missouri, now suffering in their persons, their feelings, and their property, from the reckless usurpations of the Executive, and the chartered tyranny of his commissioned agents, have almost deserted the republic.

The democracy never despairs of the republic.

The party whose successive triumphs have marked the stages of the nation's greatness, triumphant now, can rescue the nation from the ruin wrought by the conspiracy of rebels at the South, and fanatics at the North; can restore her liberty, and order, and law, and plant her feet securely in the paths of republican empire.

The day star of victory rose with the elections of September, in Maine. The subsiding deluge of fanaticism will once more bare the granite peaks of New Hampshire to the sunshine of liberty. The State of John Stark and Daniel Webster will give her vote in November to the Union and the Constitution, to McClellan and Pendleton.

Connecticut, the ancestral home of our noble candidate, led by the spirit of Trumbull, a Sherman, and an Ellsworth, pledges herself, by a clean majority in November, to assist in the salvation of the republic.

Beyond peradventure is the result in the Empire State, in Pennsylvania, and in New Jersey. There will be no break in the front of this great triple column in the grand army of the Union. The Keystone State redeemed herself in October; in November she will lead the redemption of the nation. New Jersey stands where she has ever stood, in war and peace alike, true to Union, the Constitution and the laws.

The decisive vote of New York, at the Chicago Convention, gave to the cause of the Union its candidate. In November, the decisive vote of New York will herald the proclamation of that candidate as President of the Union, which the only end for which we could constitutionally take up arms. We believe that this civil policy—if anything the administration has recently done can be called civil [Laughter]—has been calculated to drive those States finally out of the Union, instead of being adapted to draw them back to their old allegiance. [That's so. Cheers.] We believe that this civil policy has tended to breathe a spirit of defiance and desperation into the breasts of every Southern man and woman and child, that it has rendered the work of our own brave soldiers a thousand fold harder to be achieved, and has thus far given them only a barren and fruitless victory, whenever they have succeeded. Who is there wild enough to imagine

The little city of Detroit enjoyed a great scare on Sunday evening last—Mayor BARKER was telegraphed from Toronto that "rebel invaders" were coming. He didn't exactly believe it, but thinking "discredit the better part of valor" provided for the safety of the city. The alarm bells were rung, the volunteer militia called out, the churches dismissed, citizens armed, and the streets patrolled, but nary a rebel raider came. It is well to be on guard, in order that a pretense of disorder may not be given the military authorities to declare martial law before the election next Tuesday, and prescribe a new oath to prevent the raiders voting. A recent order by Maj. Gen. Dix squints at this being done in New York. Great is "military necessity."

Don't vote for ABRAHAM LINCOLN because the telegraph may announce, to-morrow or Monday, real or bogus victories, the taking of Petersburg or Richmond. ABRAHAM LINCOLN does not know the value of brilliant victories won at such great sacrifice by our gallant soldiers. He can not give them to give the nation peace—George B. McCLELLAN has avoided policy that will make victories tell. Vote for him and an honorable peace, and a restored Union will follow them.

Read your ticket carefully before you vote it, and see that it has the right names on it. Bogus tickets will be in circulation to cheat the unwary.

Names are nothing. Don't be caught by the heading, "Union Ticket," which will be followed by LINCOLN Electors. The election of LINCOLN is the doom of the Union.

Let every Democrat in the County of Washtenaw vote before the hour of noon on Tuesday next. Vote first and do your skirmishing afterwards.

The tickets will be printed and ready for delivery on Saturday afternoon and Monday. Send in your orders to H. J. BEAKES, of the County Committee, or to ourselves.

The rebels are threatening to set fire to the principal cities in the Northern States on election day." The "Ann Arbor Guards" should remember their solemn pledge "never to leave town except in case of invasion" and be ready for duty—with knapsacks packed.

We have another letter from our late foreman, W. F. B., now in the Mississippi Navy, which will appear next week. It is crowded out of this issue by a press of political matter.

Hereafter politics will not entirely monopolize our columns, and we shall have more space for miscellaneous and news matter, for which we shall be as glad as any of our readers.

Prof. E. P. EVANS is adver-

tised to deliver the opening lecture before the Students' Lecture Association, to-morrow evening, in the M. E. Church. His subject is "The Fine Arts," and we presume his lecture will be well worth hearing.

Read the interesting letter in another column from our "Forces Correspondent," F. W. B. We shall hope to hear from him more frequently than of late.

The Circuit Court was in session

on Monday, and adjourned until to-day.

FATAL ACCIDENT.—On Saturday evening last, Coroner MERRY, of this city, was called to hold an inquest in New Haven, on the body of ASHER WILMOT, one aged citizen, who was found dead under one of his trees. Mr. Wilmet was last seen alive about half past three o'clock Saturday afternoon, when he was making preparations to pick apples. An hour later he was discovered under a tree, dead, with his neck broken and a broken limb by his side, while his basket was hanging on a limb above. It was evident that he had come to his death by the breaking of a limb, which precipitated him to the ground. The jury rendered a verdict accordingly.

Mr. Wilmet formerly resided in the town of Paris. He was a man of means, and leaves a wife and children. His age was sixty eight years—*Utica (N. Y.) Herald*, Oct. 1864.

Mr. Wilmot was a brother of CHARLES T. WILMOT, of this city.

The Ladies' Repository for November, has an exquisite landscape, "The Bird Catchers," and a finely engraved copy of that well-known picture, "Pest and Future," with a choice list of articles, covering a wide range. The *Repository* literature is just fitted to a refined family circle, and can not be read without exercising an elevating influence \$2.50 a year. Address FOX & BREWER, Cincinnati, Ohio.

The Board of Supervisors com- menced its labors on Saturday last, and adjourned until Tuesday, November 15th.

Died.

In Northfield, on Friday, Oct. 28th, AGNES, wife of Frederick Kempf, aged 61 years, and 10 days.

Why Mr. Lincoln should not be Re-elected.

Hon. Reverdy Johnson is a man against whom no loyal, honest American dare utter one word of reprobation. He has been faithful to the Union cause through every trial. Read again his eloquent words, in which are stated, calmly, and with all the force of masterly language, the reasons why Mr. Lincoln should not be re-elected:

I have thus placed before you grounds enough for opposing Mr. Lincoln's re-election. And, adding one or two that I have thus far omitted to notice, let me briefly recapitulate them.—In the loyal States where the courts were open and the administration of justice was unobstructed, he has imprisoned thousands of citizens without explanation; detained them for months, refusing to bring them to trial before any tribunal, and then discharged them without any redress. He has suffered his agents to suppress hundreds of newspapers in the same States, for no other imaginable reason than because they published articles denouncing his administration. In eighty-five instances it is ascertained that this was done by his own immediate order or subsequent approval. He has suffered churches to be closed, and their pastors to be arrested and imprisoned only because they did not pray specially for him. He has suffered to be issued and enforced, and in Kentucky and Maryland directly approved, orders under which the military grossly interfered with the freedom of elections. He has failed to restore to the Union a single State or a material part of any State that was in rebellion on his accession to power. He has, constantly, to the incalculable injury of the country, appointed and kept in important commands officers who were grossly incompetent. He has interfered, with calamitous results, with our military campaigns. He has suffered our commercial marine to be driven from the ocean. He has proscribed officers of admitted ability and perfect patriotism, because they were supposed to be friendly to McClellan; and not to approve his policy or conduct. He has violated the Constitution by his abolition proclamations, notwithstanding his solemn promise to the contrary. He has violated it by his amnesties proclamation, and by his refusing his assent to a law passed by the last Congress to guard against consequences which his friends correctly thought to be most perilous as well as illegal. He has failed to protect the loyal States, and by such failure subjected them at three several periods to the most destructive invasions. He has suffered the capital itself to be placed at three different periods in the greatest peril. He has, by his policy and conduct, so injured us in the estimation of France, that Napoleon has seized into his hands, unquestioned, the destinies of a neighboring republic, and placed on a throne of his own erection, a monarch belonging to the most despotic family in Europe; and in this he has abandoned the uniform settled policy of his predecessors. It is palpable violation of law and the recorded opinions of Washington, Jefferson, Clay, and every attorney-general to whom the question was submitted, and to the great danger of every foreigner amongst us, whether naturalized or not, without trial or giving an opportunity for trial, in the case of Arguelles, on the request of a Spanish subordinate, he has delivered him to the tender mercies of that official. He has caused the currency of the country to become in a great measure valueless, and what is, if possible, still worse than all, where there was division in the South he has produced unanimity, and where there was division in the North he has produced division.—And lastly, he is seeking a re-election by the most unscrupulous and unexampled abuse of patronage and power.

The Position of the South.

WASHINGTON, Oct. 31.

A gentleman who for twelve months has been attempting to get away from the South, succeeded several days ago in reaching our lines, and is now in this city. He occupied a responsible position under the Confederate government, and had good opportunities for learning the real condition of affairs in that section. He represents the conscription as actively progressing, and that persons between 16 and 55 are being called; also, telegraph, express, and railroad men.

The rebel authorities are making an effort to get every available man into the army. About 30,000 of the new levies have been sent to reinforce Lee. Hood's army numbers about 30,000. There are a few troops beside these two armies, and they are scattered over the South, and there are only forty as provost guards at Fredericksburg, Virginia. There appears to be a deficiency of substantial food, and luxuries can at many places be purchased.

WHAT COMMENCED THE WAR.—The Republicans have denied any responsibility in originating our civil troubles. But Mr. Lincoln, at last, claims for the anti-slavery element the credit it unquestionably deserves, of bringing on the terrible strife. In his Thanksgiving proclamation, published on Saturday, he says:

Moreover, he has been pleased to animate and inspire our minds and hearts with fortitude, courage and resolution sufficient for the great trial of war in which we have been brought by our adherence as a nation, to the cause of freedom and humanity, and to afford to us reasonable hopes of an ultimate and happy deliverance from all our dangers and afflictions.

This is a plain statement that we were brought into civil war by the abolition sentiment, which Mr. Lincoln and his party are fond of calling "the cause of freedom and humanity." How terribly the poor negro has suffered! The awful catalogue of starved and perishing freedmen will be increased by hundreds of thousands this winter, and "the cause of humanity and freedom" will again do its fearful work of destruction on those it pretends to help and pity. But that is not to the present purpose. We have here the claim put forward that the civil war was brought on us by the abolitionists, and we know of no one to dispute the claim.—*Journal of Commerce.*

The rebel papers appear to be unanimous in favor of arming the blacks.—The editor of the *Southern Confederacy*, writing to his paper from Richmond, says the pressure brought upon the authorities here favoring the arming of the blacks has been too strong to resist. It is with gratitude I am able to state officially that arrangements are now being made to arm the spring campaign 300,000 slaves, whose masters are to be compensated by the Confederacy.
