Grand Rapids, Nov. 5.—The passenger train due here at 9:30 this morning on the Grand Rapids & Indiana railroad...

We commend to our radical journalistic friends who cannot sleep o' nights for fear that slavery will be re-established, and other evils idly poured out upon the county, the little incident of the girl who boo-hoed out in company without noticeable cause, and explained her grief by saying: "I was thinking if I should marry and have a baby and the baby should die, boo-hoo." Aren't our radical friends borrowing trouble equally prematurely?

—A "Vox Populi" writes from Hillsdale to the Detroit Tribune, protesting against the re-election of Senator Chandler, and entering Judges Campbell, Cooley, Christiancy, and Emmons, for the Senatorial race.

—The Democracy of Detroit held high jubilee on Tuesday evening last. Hon. Robert McClelland presided, and speeches were made by Gen. Williams, Congressman, elect, Hon. G. V. N. Lathrop, Hon. Wm. P. Wells, Hon. Henry Chamberlain (the gentleman who has just resigned elected Governor), Dr. Foster Pratt, chairman of the Democratic State Committee, and others.

—That prohibition journal, the Adrian Times, makes haste to declare in favor of the re-election of that model temperance man, Senator Chandler. "Undoubted courage" (forgetting his Bull Run flight), "undoubted capacity," and "undoubted honesty" are the three leading qualities it assigns him: qualities it is to be presumed no other Republican in Michigan possesses.

—Pennsylvania turns up a Democratic majority in the Legislature on joint ballot, and a Democratic Senator will succeed Senator Scott. Illinois also reports an opposition majority in the Legislature, and John Logan sees his "ticket of leave" in the near distance.

—Four majority: that is the figure officially tallied for Boies, Republican candidate for Senator in Lenawee county. And a dozen or so Republicans go into one branch of the Legislature or the other by like small majorities.

—The Detroit Tribune of Tuesday opened its batteries on Senator Chandler, and demanded his retirement from the high office he has so long failed to ornament. On Wednesday the Post accepted the situation and went for the Tribune in right lively style.

—The entire batch of constitutional amendments submitted to the electors of New York, some of them very important and instituting great changes, were adopted. And now comes the question as to their legal submission, which the Court of Appeals is to be called upon to decide.

—The Michigan Voice for Hard Money. The Indianapolis Sentinel says: "In Michigan the contest was a square one on the financial question. The Democrats were firm for specie payments, and the Republicans rejected a resolution of that nature when offered in the convention."

Railroad Accident.

It is stated that Detroit will petition to the next Legislature to have that city set off into a county by itself.

—The Rev. J. P. Tustin, D. D., late rector of the Episcopal Church at Grand Rapids, is mentioned as a correspondent of the Bishop of the new diocese about to be created in Western Michigan.

—The story of the 11 stubborn jurymen who held out so long to the annoyance of the 12th one, who wouldn't compromise, has been reported in the political history of Chicago for years that town has voted unanimously Republican, except when its one solitary Democrat ventured to express his disapproval. They held out a long time, but George brought them over, finally, and on Tuesday last Chicago gave the vote to the Republican majority.

—A little boy in Corvua chopped off a finger and went to a doctor to get it mended, leaving the severed part at home. The doctor sent back for the missing finger and sewed it on again, and now it is good as new. So says the American.

—Kent county has claimed the champion hunker of the State this fall, in the person of one William M. White, who is now stated, husked 105 bushels in ten hours. Now comes Frank H. Lee, of Lenawee, who claims to have husked 115 bushels in nine hours.

—Charles Loshbaugh, of Charlevoix, Berrien County, without doubt the champion baiter of the State, has been discovered the present fall a number of trees, from six of which he has already secured six hundred and forty pounds of honey.

—A debt of \$2,500 having for some years troubled the Methodist Church of Quincy, the church was about to be sold upon a mortgage when Hiram Bennett, a young citizen and an unbeliever, took the matter in hand, raised sufficient funds and redeemed the meeting house.

—The Baptist Church at Battle Creek is advertised to be sold at sheriff's sale on the 3d of December. It is the finest church in the city, and has been built only about ten years. The society went through their means in building it, and now forced to let it be sold by the sheriff.

—Mrs. C. M. Burgess, a boarding-house keeper in East Lansing, shot one of her boarders, a young man named Whitely, on Monday night last. On examination, his wound proved not to be fatal. The reason Mrs. B. assigns for the act is that Whitely insulted her and attempted to outrage her person.

On Sunday morning last, Geo. R. Williams, of Lima, discovered the oak bin in one of his barns on fire, which was promptly extinguished. About 20 bushels of scorched oats remaining in the bin after the fire.

Mr. Warren, of Boston, is also a competitor, and has sent on for inspection an album of very elegant specimens. The work will amount to at least \$3,000.

In view of the excessively dry weather and the empty cisterns reported in all parts of the city, we deem it duty to call the attention of our citizens to the necessity and importance of guarding against fire with the utmost care. A fire breaking out in the business part of the city could not possibly be checked, and on almost any street great ravages would be made, and without the possibility of offering any resistance. Ash boxes, chimneys, stove-pipes, stoves, etc., should be looked to, and stores, shops, offices and dwellings should be carefully looked over every night at leaving or bed-time.

It is also a good time to express a hope that the capitalists will be found, either at home or in some other locality, who will make propositions for the construction of water works which will come within the requirements of the ordinance recently adopted by the Common Council. Water works are an absolute necessity to our city.

"WE WERE HAPPY SCHOOL FELLOWS TOGETHER NEAR FIFTY YEARS AGO!"—We were presented on the 7th inst. by our old friend, Mr. David Deane, of Pittsfield, and Mr. Charles Allison, manager of Lodi, with a valuable relic—a very neat little mallet made from a swamp oak beam taken out at the first school house of Washtenaw County, erected in 1825 in the town of Pittsfield near Mallet's creek, and between that and Carpenter's corners, but sometime since removed. We understand that a slab, suitably inscribed, is to be cut from the same beam for our County Historical Society. There are persons still living in the vicinity who will recall with pleasure the many religious services that used to be held in that old log school house, to say nothing of singing schools and other neighborhood gatherings; and a kindly throb will pulsate through the heart at the thought of the departed one living and moving among us, and now covered by the dust of death—the boys and girls of "Auld Lang Syne."

M. H. C. The Misses Clark's School. Ann Arbor, November, 1874.

We invite attention to the prospectus of the New York Evening Post for 1875. The several editions of the Post are good news journals, and in addition have a literary character peculiarly their own, and of a very high order, showing the influence of the venerable Bryant. Politically the Post is Republican, though not in full sympathy with the leading measures of the party. In fact, the antipathy it holds against some old Democratic measures (and which induces it at ways to spell Democrat with a small d) is the only thing that induces it to act with the Republican party. But politics aside it is one of the best of our family papers, either daily or weekly, published.

The Ypsilanti correspondent of the Detroit Post, says:

A serious accident occurred here at 3 o'clock Sunday afternoon. It seems that a lady who has been in the practice of jumping on and off freight trains passing this station. Since the completion of the double track most of the freight trains go east have run the station except when it was necessary to stop for wood or water, or to take or leave something. Yesterday a train from this station was passing when a young man, named William Malton, jumped on a freight car and rode the car to the east end of the track. He was caught by the wheels passing over his left arm near the elbow, and his left leg ran the knee. He was picked up and carried to his father's residence near by, and a counsel of physicians called. It was decided by them not to amputate the injured limb, as he could not live long. Late last night it was thought that they would amputate them, but death ensued soon after the operation. It was said by all the doctors present after the accident that he could not survive, and it was a wonder to all that he lived so long.

The other evening, at Ann Arbor, Mr. Geo. W. Julian, after making a speech on Woman Suffrage, asked if any one objected. A Mr. S. rose and said, "Yes." The University boy commenced calling out "speech! speech!" but Mr. S. did not care to make a speech and only said, "I stand on the bank and see everything rush by." "Well," was the quick rejoinder, "I hope you want to find in a week of yourself."

MICHIGAN CENTRAL YARDS, Monday, Nov. 9.

The total receipts for the last two weeks were as follows: For the week ending Nov. 7.

Horses—370, 1,044.

Cattle—370, 1,044.

Sheep—19,144, 3,225, 12,616, 937.

Hogs—11, 27, 28 cars.

An unusual influx followed the very light supply of last week, which is only a repetition of the extremes of the live stock market. Operations were in abundance and transactions moved briskly all day. The yards in this case were totally inadequate, and trains were kept in waiting for relief by shipments East. The run of cattle embraced a very inferior quality. Few lots of choice beef cattle were in and these were quickly secured by home buyers. There were more young cattle in than in any previous market, though they sold very well considering the quantity in.

Hogs revived considerably under a firm home and Eastern demand. Some very choice lots were presented from the State, but the bulk of lots were thin grass-fed. It is generally considered safe now to secure lots ahead, as packers must soon commence operations.

There was not behind in activity and range of qualities. A notable transaction was the purchase by Roe & Tucker of Richardson & Wolcott of 227 very choice sheep, averaging 95 lbs., at \$4.65. The outlook seems very good.

Much credit is due to the various agents of the through routes represented here in shipping the vast quantity of stock over their roads without delay to shippers considering the cramped condition of the yards.

"HOW TO GO WEST."

This is an inquiry which every one should have truthfully answered before he starts on his journey, and a little care taken in examining of routes will in many cases save much trouble, time and money.

The Chicago, Burlington & Quincy Railroad has achieved a splendid reputation in the last three years as the leading Passenger Route to the West.

Starting at Chicago or Peoria, it runs direct through Southern Iowa and Nebraska, with close connections to California and the Territories. It is also the shortest line and best line to Quincy, Missouri, and points in Kansas and New Mexico. Passengers on their way westward cannot do better than to take this route.

This line has published a pamphlet entitled "How to go West," which contains much valuable information; a large, correct map of the Great West, which can be obtained free of charge by addressing the General Western Passenger Agent, Chicago, Burlington & Quincy Railroad, Chicago, Ill. 146171
