ANN ARBOR, MICH., Sept. 18, 1891.

To the Common Council, City of Ann Arbor:

I hereby tender you my resignation as a member of The Board of Public Works, the same to take effect Sept. 18th.

Thanking you for past favors, shown me as a member of the Board, I am

Most respectfully yours,

Received and filed.

FROM THE BOARD OF PUBLIC WORKS.

To the Common Council:

The Board of Public Works, beg leave to submit the following report of its doings in the matter of obtaining bids for the construction of lateral sewers in Districts No. 1 and No. 2.

The Board caused notice of the City wants to be published in the local newspapers and also distributed among well-known sewer contractors such notice; and as a result on the day set for closing such offer, had seventeen bids, all of which bids are submitted herewith. Each bid was accompanied with the necessary certified bank check.

After due consideration of all tenders for the construction of the said lateral sewers, the Board of Public Works finds that the bids of Stevenson, Reid & Co., of Port Huron, Mich., for building lateral sewer in District No. 1, and of Herman Hutzler for building lateral sewer in District No. 2, together with estimated extras in each sewer district respectively, are the lowest bids received and recommend that the said bids be accepted and that contracts be made with such parties.

By order of the Board of Public Works,  
W. J. MILLER,  
Clerk.

Received and filed.

FROM THE SAME.

To the Common Council:

The Board of Public Works, to whom was referred the matter of preparing plans and estimate of the cost of rebuilding the main sewer, &c, as recommended by special sewer committee, report that the Board caused the City Engineer to make plans of a change of route, commencing at the man hole north of the M. C. R. R. tracks thence running westerly on the M. C. R. Co. right of way to the east end of their Freight office thence south and intersect with the main sewer on Depot street. The Board have caused an estimate to be made of this route which is \$3,905.35, and an estimate for the repairing of the main sewer on old line, \$4,180.95 with 24-inch iron pipe which plans and estimates are herewith submitted and made a part of this report.
