Office of the Board of Public Works,
Ann Arbor, Michigan.

To the Common Council:

The Board of Public Works beg leave to submit and report to your Honorable Body the tenders received for the construction of the Huron st. pavement, and we return herewith all of the bids so received by us.

We advertised for these tenders in local and Detroit newspapers, and caused to be mailed a notice of the letting to all persons known to us to be engaged in pavement construction, and received in all eight tenders for the work of construction.

This Board, believing its duty under the city charter to be to determine the kinds of material of which this pavement should be constructed, did on this day pass a resolution as follows:

By Mr. Schleicher:

Resolved, That, and this Board of Public Works do hereby determine, that the material to be used in the construction of the pavement on Huron st. shall be asphalt block on a gravel foundation, according to the specifications adopted by the Common Council.

Along with which determination we submit for the consideration of the Common Council a request in writing of all the members of the committee of property owners made to this Board of Public Works, which is attached hereto and made a part of this report.

We herewith submit all of the previous proposals received by us for such pavement construction as follows:

George H. Kneal, of Lansing, Mich., bid for the whole work complete according to the specifications 29,169 57

These bids were all for Lake Erie Asphalt block, which is manufactured at Toledo, Ohio, by the Lake Erie Asphalt Block Co.

The prices of all these bids were computed on curb stone known as Medina, and sand curb stone called Berea; the other styles of curb stone varied little in the bidding, and not sufficient to effect the results above obtained.

We recommend that curb stone be used as follows:

Medina between Ashley st. and Fifth ave., five inches in thickness, and Berea four inches in thickness between Fifth ave. and State st.

We further recommend that this work be constructed of asphalt block on a gravel foundation, and that the contract be awarded to George H. Kneal, of Lansing, Michigan.

By order of the Board of Public Works.

J. E. HARKINS,
City Clerk.

To the Honorable Board of Public Works:

Gentlemen—The committee of Huron st. property owners appointed by you to consider the relative merits of the various kinds of paving brick with which it is proposed to pave Huron st., do hereby recommend asphalt block manufactured by the Lake Erie Asphalt Block Co., understanding that
