City Attorney's Report.

June 20, 1921.

To the Honorable, the Common Council, City of Ann Arbor. Gentlemen:

the last meeting of your Honorable Body Mayor Lewis asked my opinion as to whether the petitions which have been receivfor pavement and under which no pavement has as yet been constructed, would be valid petitions Council adjourned. to proceed with the construction of pavements upon the streets

that the Common Council hereby mentioned in said petitions, I reported to him my opinion upon the matter and he has requested that I report to you relative to the same.

The provision of the Charter relative to petitions for the construction of pavements as well as the provision of the Ordinance relative to the same in no wise limit the time within which a pavement may be constructed upon a street for which a petition has been received asking the construction of the pavement. I be-lieve that since no time limit is set in the Charter or Ordinance that a petition must be acted upon within a reasonable time and that many of the petitions which have been in for the last eight or nine years could not now be considered as valid petitions to authorize the construction of the pavements and assess the cost of construction on the property benefited by the construction of such a pavement.

recommend I would therefore that all of the petitions, other than those recently received, be rejected and allow the property owners to secure new ones, in the event that they decide to have their streets paved.

> Respectfully submitted, FRANK B. DEVINE.
