The appellant shall file with the building inspector and with the board of appeals a notice of appeal specifying the grounds thereof. The building inspector shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. The final disposition of any such appeal shall be in the form of a resolution either revers-

i g, modifying or affirming, wholly or partly, the decision or determination appealed from. Stay—An appeal stays all proceedings in furtherance of the action appealed from unless the building inspector, from whom the appeal is taken, certified to the board of appeals, after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board of appeals or by the circuit court, on application, on notice to the building inspector, from whom the appeal is taken and on due cause shown.

Jurisdiction—The Board of Appeals herein established shall have such jurisdiction as shall be conferred upon it by the laws of the State of Michigan.

Jurisdiction in Specific Cases—In specific cases the Board of Appeals may, after public notice and hearings, authorize by permit a variation of the application of the use and district regulations herein established in harmony with their general purpose and intent as follows:

(2) The erection and use of a building or the use of a premises in any location to a public service corporation or for public utility purpose which the board admits by resolution reasonably necessary for the public convenience or welfare.

(4) Interpret the provisions of this ordinance in harmony with their fundamental purpose and in-

tent where practical difficulties or unnecessary hardships occur.

(5) The board shall have the power to call on any of the other city departments for assistance in the performance of its duties, and it shall be the duty of such other departments to render such assistance as may be reasonably required.

Section 10. Certificate of Occupancy and Compliance.

No premises shall be occupied or used and no building now or hereafter erected or altered shall be occupied, used or changed in use until a certificate of occupancy and compliance shall have been issued by the building inspector, stating that the building or proposed use of a building, or premises, complies with all the building and health laws and ordinances and with the provisions of these regulations.

Certificates of occupancy and compliance shall be applied for coincident with the application for a building permit and shall be issued within ten days after the erection or alteration of such buildings shall have been completed in conformity with the provisions of these regulations. A record of all certificates shall be kept on file in the office of the building inspector and copies shall be furnished, on request, to any person having a proprietary or tenancy interest in the building affected. No fee shall be charged for an original certificate applied for coincident with the application of a building permit; for all other certificates or for copies of any original certificate there shall be a charge of one dollar each.

No permit for excavation for any building shall be issued before application has been made for certificate of occupancy and compliance.

Section 11. Plats.

All applications for building permits shall be accompanied by a plat in duplicate drawn to scale showing the actual dimensions of the lot to be built upon, the size of the building to be erected, and such other information as may be necessary to provide for the enforcement of these regulations. A careful record of such applications and plats shall be kept in the office of the building inspector. No yard, court or other open space

provided about any building for the purpose of complying with the provisions of these regulations shall again be used as a yard, court or other open space for another building.

Section 12. Interpretation, Purpose and Conflict.

In interpreting and applying the provisions of this ordinance, they shall be held to be the minimum requirements for the promotion of the public safety, convenience, health, comfort, prosperity and general welfare. It is not intended by this ordinance to interfere with or abrogate or annul any easements, covenants or other agreements between parties; provided, however, that where this ordinance imposes a greater restriction upon the use of a building or premises or requires larger open spaces than are imposed or required by other ordinances, rules, regulations or permits, or by easements, covenants, or agreements, the provisions of this ordinance shall control.

Section 13. Violation, Penalty

Any person, firm or corporation who violates, disobeys, omits, neglects or refuses to comply or who resists the enforcement of any of the provisions of this ordinance shall be fined not less than \$25 or more than \$100 for each offense. Each day that a violation is permitted to exist shall constitute a separate offense. On imposition of any such fine the court shall have power and authority to make a further order and judgment that any such persons so convicted shall be imprisoned in the county jail until such fine and costs shall be paid and such imprisonment shall not exceed thirty days.

Section 14. Boundaries of Districts.

Where uncertainty exists with respect to the boundaries of the various districts shown on the maps accompanying and made a part of this ordinance the following rules shall apply:

(a) The district boundaries are either streets or alleys unless otherwise shown and where the designation on the maps accompanying and made a part of this ordinance indicating the various districts are approximately bounded by street or alley line, said street or alley line shall be con-

strued to be the boundary of such district.

(b) Where the district boundaries are not otherwise indicated and where the property has been or may hereafter be divided into blocks and lots, the district boundaries shall be construed to be lot lines, and where the designations on the maps accompanying and made a part of this ordinance indicating the various districts are approximately bounded by lot lines, said lot lines shall be construed to be the boundary of such district unless said boundaries are otherwise indicated on the maps.

(c) In unsubdivided property, the district boundary lines on the maps accompanying and made a part of this ordinance shall be determined by use of the scale contained on such maps.

Section 15. Validity.

Should any section, clause or provision of this ordinance be declared by the courts to be invalid, the same shall not affect the validity of the ordinance as a whole or any part thereof, other than the part so declared to be invalid.

Section 16. Changes and Amendments.

The City Council may from time to time amend, supplement or change by ordinance, the boundaries of districts or regulations herein established. Any proposed amendment or supplement or change may be submitted to a committee of the council for its recommendation and report.

A public hearing shall be held by the city council before adoption of any proposed amendment, supplement or change, notice of which hearing shall be given by publishing said notice at least once in some newspaper of general circulation in the city of Ann Arbor, stating the time and place of such hearing, not earlier than 15 days from the date of such publication.

If a protest against any proposed amendment, supplement or change be presented in writing to the city clerk, within ten days from date of last publication duly signed and acknowledged by the owners of 20 per cent or more of any frontage proposed to be altered or by the owners of 20 per cent of the frontage immediately in the rear thereof, or by the owners of 20 per cent

of the frontage directly opposite the frontage proposed to be altered, such amendment, supplement or change shall not be passed except by a three-fourths vote of the legislative body.

Section 17. Enforcement.

The provisions of this ordinance shall be enforced by the building inspector and in the event that a building inspector shall not have been appointed at the time this ordinance takes effect, then the provisions shall be enforced by the city engineer until such time as there shall be appointed a building inspector and the said engineer shall carry out the provisions of this ordinance in accordance with its terms. Appeal from the decisions of the building inspector or the city engineer, in case a building inspector shall not have been appointed, shall be made to the board of appeals, as provided by Section 9.
