

argus eyes for Victory!

Vol 3-No. 11

ANN ARBOR, MICHIGAN

September, 1945

"We Have Fought the Good Fight and Won"

American and Allied fighting men backed by the production of American Industry have won the war. Argus Management and Employees are proud of their patriotic efforts that have helped bring Victory to American arms and to share the merit and gratitude of a world saved from destruction.

Their products played a vital part in knocking out the air armadas of Germany and Japan, and in devastating raids on enemy industrial centers and troop concentrations. They sailed with the fleets to aid in naval victories that sent the fighting ships of our enemies to the bottom of the sea.

Argus products served the big guns, that cleared the way for Allied advances in Africa, Italy, France and Germany. They landed on the beachheads at Guadalcanal, Saipan, Leyte and Iwo Jima.

They were truly the Argus eyes for victory—the precise, impersonal, deadly eyes of fire power that blasted a path straight toward Berlin and Tokyo. And in postwar years, the facilities and personnel acquired by Argus will become part of a greater American optical industry that can take and hold world leadership.

Argus management and employees are proud of the four-time Army-Navy "E" award that flies over the plant—in recognition of their patriotic efforts to solve manufacturing problems and set production records that called for new skills, new methods and new standards of precise workmanship.

This paper is an employees' publication. Its aims are:

1. To present news of individuals throughout the two plants.
2. To keep former employees now in the service informed as to what is going on at Argus, Incorporated.
3. To present up-to-date information on all problems vital to employees which the war has brought about.
4. To give all employees an opportunity to express themselves.

No items will be used which will tend to ridicule or embarrass anyone. Humor and good-natured fun, however, are always acceptable.

An Inspiration for Bowling Again This Season

This first place trophy was won by Laura Egeler in Jackson last spring in the Millers Jeweler's Women's Classic. Laura had games of 158-159-182-191 and 199 for a total of 889. This was two pins under the top score for actual pins. Her handicap gave her a total score of 1044 which won the trophy and seventy-five dollars. Actual pin average was 178; the handicap was 209.

Your Golden Rule

Is your shiny golden rule made out of brass?
Do you display a sign "keep off the grass"?
Have you a chip upon your shoulder?
Are your friendships getting colder?
Perhaps the house you live in is made of glass.
Is the light you cast all trimmed and in first class?
Do you think in all your tests that you will pass?
Are your very best intentions
One or two or three dimensions?
Then perhaps your golden rule's made out of brass.

—James Lattimer

Argus Makes Fine Showing In 7th War Bond Drive

The best showing to date was made by Argus members in the 7th War Loan Drive. Of a quota of \$70,930.00, the total bonds sold was \$68,868.72 and was accomplished by the combined efforts of all bond captains who certainly deserve special commendation for their efforts. We're proud of them as well as every member of our organization who purchased a bond and did their bit towards bringing V-J Day that much nearer.

Each department or group that made its quota was given a \$25.00 war bond, and there were five such groups that qualified and drew names to determine the winners.

Following are the Bond Captains and the lucky bond winners and their departments:

Bond Captain

Annabel Farmer
Lucille Gillespie
Joe Lyons

Frances Watterworth
Charles Barker
Joy Hartman
Ken Kaufman
Brice Bennett
Annabel Farmer
Wilhio Kelly
Harold Peterson
Vincent Swickerath
Ed Girvan
Ivan Benson
Alice Blanchard
Lucille Gillespie
Neil Podewils

Jack Covey
Merrill Rayment
Dora Eichel
Charles Millage

WINNERS IN THE WAR BOND DRAWING

Seated: Cornelius Fox, Headley Downey, William Fike.
Standing: Nellie Meyer, Jeanne Clark.

Department

Lens Polishing	Winner
General Accounting and Administration	Headley Downey
Mechanical Tool Room and Experimental Machines	Jeanne L. Clark
Personnel, Medical and Plant Protection	William Fike
Purchasing, Sales, Advertising and Switchboard Standards and Maintenance (Radio)	Cornelius Fox
Final Processing and Optical Inspection	Nellie Meyer
Blocking, Grinding and Amici Prisms	
Polishing	
Inspection and Paint Shop (Radio)	
Machine Shops	
Radio Assembly	
Optical Assembly Service	
Payroll and Timekeeping, and Factory Cost	
General Accounting and Administration	
Production Engr., Mech. Engr., Electrical Engr., Optical Engr., and Chemical Engineering	
Planning and Planning Records	
Shipping	
Production Service	
Maintenance (Optical) & Paint Shop (Optical)	

POLICY ON EMPLOYEE COLLECTIONS

We all spend most of our day-time hours at Argus, and it is only natural that we make many friends at work. This spirit of friendliness is characteristic of Argus and we all have a right to be proud of it. And when our friends are married, leave the company, or have an event of special importance in their lives, we have a natural desire to remember them with gifts.

The collection of money to purchase gifts is a very delicate matter, however; hard feelings are likely to result either from not asking some people who might like to contribute or from including in the collection those who do not know the employee well or feel they cannot afford to contribute.

So that we may preserve our friendly spirit and avoid possible misunderstandings and hard feelings, the collection of money to purchase gifts for employees should be restricted to the department in which the employee works. And in order to insure the same consideration for all employees, the foreman or department head of the department in which the employee works should be contacted before the collection of money is made.

This policy will enable us to remember our Argus friends and at the same time avoid duplication of gifts and the unpleasantness of hurt feelings that are due to misunderstandings.

R. D. HOWSE, President

ARGUS C-3 RECORDS SCENES AT UNITED NATIONS CONFERENCE

PRESIDENT TRUMAN alighting from car at San Francisco.

PVT. JOHN SMITH was a driver for delegates at the Conference.

Pvt. "Johnny" Smith, brother-in-law of Leona Smith of the Machine Shop had some unusual picture opportunities during the United Nations Conference when he was among the servicemen selected as drivers for the delegates. This picture of President Truman was taken by Pvt. Smith with his Argus C-3 sent him by Leona, and he also procured many other interesting pictures of internationally known people. Pvt. Smith is stationed at Camp Roberts.

Camera Club Meetings Resumed

The first Camera Club meeting of the new season will be held at the studio in the Nichols Arcade on Thursday, September 13, at 8:00 p.m. The print assignment is a marine scene, but let's all turn out whether you have a picture or not.

Bowling News

Argus Ladies' Bowling League of Plant I held a meeting August 20th at the Argus club rooms on Liberty Street. The meeting was well attended and 12 teams were formed, and a goodly number of subs was entered. It was voted to start bowling September 5th at 6:45 at the 20th Century bowling alley.

We're looking forward to a lot of fun next season and are anxiously awaiting the starting date.

BOBBY BILLAU

Bobby is the five months old son of Mr. and Mrs. Robert John Billau. Dad is foreman of Department 28, Lens Blocking and Polishing, and is celebrating five years of service with Argus.

PLANNING

What is this we hear of **Pat Will** eating pickles?? It's the new secret weapon for testing for mumps and by golly, she did have them. The nurse sent her home and luckily enough no one else had them although several tried the "pickle test."

Arlene (Britton) Frost likes married life very much, so we hear from a letter received from her not so very long ago. Cooking isn't so bad either she says for after having made a strawberry shortcake one day and accidentally dropping the biscuit on Jack's toe nothing happened—well, did she expect to cripple her husband?

We would like to introduce a new addition to the Planning Department, namely, **Isabelle Manning** who has charge of D.M.'s and is doing very nicely.

Harriet Lemble has joined us again after a leave of absence. Her husband returned from overseas for a thirty-day furlough and is now in North Carolina.

Another happy woman is our own **Muriel Raaf**. It was one exciting moment for her to hear that her husband was coming home after 19 months overseas. She is now vacationing and spending a second honeymoon all over again—hmmmm!!

Several weeks yet and I'll see "Speicher", says **Flossie**. She has been waiting for a long time now and her husband has been overseas for at least 19 months.

Chicago is some place to spend money not alone spending a vacation, but that is where "**Steffey**" spent part of her vacation and from wild rumors she sure had a wonderful time!

Our own boss, **Ed. Wasem**, must have had a very restful vacation for he spent it at home and looked quite rested up as if getting prepared for that week of inventory.

Nothing like going up north and getting lost in the woods. **Jim Nutt** just returned from a two week's trip spending it up at Houghton Lake.

Tune in again next time and perhaps we'll have some more news for you.

What's What in the Accounting Office

It seems we had quite a few birthdays this month. **Clem** was first on August 3. She didn't seem to be too surprised at the midriff pajamas the gals in the office gave her, but she did get surprised and we might add a little "red" when **Tom Aldrich**, the auditor, asked her to model them for him. He called it "expert advice". After work **Doris Ehnis**, **Bobby Foster**, **Milly LaRue**, **Gerry Brown**, **Mandy Smith** and **Clem**, went out to the Island for a picnic supper and refreshments. All in all it was a gala affair and may you have many more, Clem. Oh yes, we musn't forget! **Kelly Goss**, **Harry Rookes**, and **Doris Ehnis** delivered the official birthday paddle. Ooh! My aching back!

Milly LaRue celebrated her birthday on Sunday the 12th. The office gave her a nice charm bracelet with a horse-shoe and a four leaf clover for good luck. There is talk of a party at Whitmore Lake on Monday night—and it sounds like fun. And by the way, she did get those days counted, and Clare came home. Thus . . . a happy weeks vacation.

Issy Nash says she is past the celebrating stage with birthdays, but she did have a very nice one this year. Many happy returns, Is. She beat us on our suntans when she returned from her boat trip which took her up into Lake Superior as far north as Escanaba.

Gerry Brown spent her weeks vacation showing hubby **Perry** how to catch bullheads. Gerry said there were so many they didn't know what to do with them. A likely fish story!

Ordnance Oracle

VACATION!! . . . And we scattered . . .

Alyce took off for a two-weeks "at-home" in Iron Mountain, and as we hear her Staff-Sergeant brother is also there on furlough from his California station, we expect to greet a very happy Alyce on her return, and hear of lots of exciting adventures and wonderful times.

Silver Lake, at Wolverine in Northern Michigan drew **Arlene**, where she went in for her favorite sport, fishing, in a big way. She caught a 2 lb. black bass—not bad eh?—and a pair of sunburned knees that really had us worried. P.S. The sunburn is OK now. P.P.S. The knees always were.

North for **Lila**, too. Sault Ste. Marie was her vacation playground—fishing, swimming, and RELAXING. And, believe it or not, Lila went ice-skating. Ask her about it—it stunned us, too! . . .

Eileen pushed off for the East—and in five days visited old friends in Washington, Philadelphia, and Mt. Holly, New Jersey—travelling in 5 trains, 8 taxis and 2 buses to do it, and returning to Ann Arbor in time to hear her brother-in-law is back from a year overseas. Yippee!!

Lloyd and his family drove to Muncie, Indiana (his home) for one week, and is now back here busy on his elegant garden and brand-new chickens. He's waiting (im)patiently for a real home-grown meal—well, aren't we all? . . . Look out, Lloyd, here we come!

Ervin was the wise one. Vacations are for rest, and change; so, after all the long hours and days and months of work, he and Lucille stayed at home in their grand new apartment and lived the life of Riley, relaxing in peace and caring for his garden, too. (We all have great hopes for—and from—this tilling of the soil by Ordnance members . . .) AH—VACATION!!!

ARGUS PROFILES

By H. J. R.

WARREN, Russell Lee

Genial, cigar-chewing timekeeper, Plant II. Was born in Ann Arbor on November 3, 1902—has been successfully married for 16 years and lives at 936 Mary Street, where a quick survey among neighbors reveals no severe complaints. Went to Ann Arbor High School for as long as the authorities would permit, picked up a fair knowledge of ancient history and can rattle off all the names of the bad European kings. Consequently spends most of his time pouring over historical novels. Worked irregularly for Argus from 1931 and became a permanent member in 1935. Claims to have worked in every department except First Aid and the Switchboard and is open to any attractive offer. Has travelled in Vermont, Connecticut and New Hampshire and has gone South as far as Memphis but says that he still hasn't found a good ten-cent box of cigars. Has made pie history at Argus by consuming 853 of them since the Cafeteria was opened. May be seen any day during the lunch hour surrounded by 3 pints of ice cream, several varieties of pie and 3 or 4 half chewed cigar butts. Is a great cribbage player and has perfected a neon peg which glows red when an opponent miscounts. Will not discuss his bowling score, however, which we withhold by request.

Bobby Miller Celebrates 4th Birthday

Bobby, son of Mr. and Mrs. R. P. Miller, recently celebrated his fourth birthday by having a lot of his little friends in for a real party. That's **Bobby** in the left background.

Jeanne Clarke has gone on her vacation to California. Watch next month for those details.

Iva Covert stopped in and brought us all a hot fudge sundae the other day. She's just returned from visiting with her husband. Bill has left for overseas and may

he return real soon. Our best wishes to you both, Iva.

Jessie Hack has been spending her weekends out fishing and every Monday morning finds her bragging about getting her limit—1.

Someone told me we never do anything in this office. I wonder!

GALS IN WHITE

Frances Watterworth

"The Boss" is on the sick list . . . "Old man germ and his family have certainly found a haven in her. She really does things the hard way. Seems it would be much easier just to drop in at the old U. of M. Hospital and say 'hello' to all her old co-workers (those were the days—she tells me) instead of going as a patient. Please don't let this frighten you away, just because we didn't 'Do right by our own', we still pledge to give all of you the 'mostest of our bestest'".

Reata Wilkinson is on her well earned vacation, and is in Alma, Michigan visiting all the doctors and nurses at Smith Memorial Hospital, where she was a member of the staff for several years before coming to Argus.

Dept. 71 — Optical Design

Joe Dianetti's frequent jaunts to Rochester, New York have drawn to an end as wedding bells rang out for Mary and Joe August 11, 1945. We all wish you the best of luck Joe.

Vacations of the past month include **Bill Patton's** journey to Lake Placid, N. Y. (which was rather chilly) and upon his return a trip to St. Joseph's Hospital for an appendectomy. Nice going Bill. **Micky Campbell's** trip to New York City to bid her sister "Bon Voyage" on her boat bound for Puerto Rico and her husband.

Arvid Andresen is spending his vacation ridding himself of a drafting room pallor while canoeing in this nice August sunshine.

Tool Room and Maintenance

At this time Hubert Krasney, Sam Ross, August Kirchner, and Fritz Lepins are vacationing.

John Doughty from Dundee is a new employee of the toolroom.

Mr. Wm. Zoellner has resigned and moved his family to Glendale, California.

Mr. Ted Schlemmer is our new foreman. Welcome back, Ted!

Wm. Fraser had to find out the hard way that softball is a youngsters game, and that he is no youngster anymore. "Scotty" hurt his leg quite seriously while playing with Irwin Braatz, Fun & Fumble ball team the other Wednesday night.

Harold Horning's car looks like a new postwar model since he had it painted. But understand it still squeaks and rattles like a prewar model.

Carl Bates made a trip over into Illinois the other day, and reports he couldn't find a good steak dinner any place. Every place was having a meatless Monday or Tuesday or something.

Harold Sweet thinks an atomic bomb has already killed all the fish in his lake, at least they have stopped biting.

Minnie and Mickey Mouse built a nest in the waste basket and proceeded to raise a family, which became the center of attraction in the toolroom, until they were chloroformed. Now there are not so many young lady visitors. Must be the girls came to see the mice and not to hear Joe Majewski sing.

Argus Flying Club Members Have Busy Month

Jimmy (Flying Eagle) Barker

No stranger to the art of flying, Jimmy Barker says he used to fly "crates" during the first world war which were held together with piano wire.

"Rocky" and Mrs. Rockman are both aviation enthusiasts . . . as are their young sons who have already had some dual.

That's "Van" getting ready to do prop honors for brother ace, Vern Heck, who though not shown in the picture is at the throttle of the Argus flying club ship.

Norm Tweed, leaning against the prop, vows he's going to sit upon the cowling and ride the ship like a bucking broncho, if and when he gets his private license.

Leona Hall ("Lee") stands by the Argus steed prior to taking off for a lesson. Lee will be soloing one of these days soon, as did Verne Nelson just as we go to press.

Vern Heck in the center is in good company here with two flying Club members who have their private pilot's licenses: "Chuck" Cole at the left, and "Van" Vanden Broek at the right looking over the top of his sun cheaters.

Jack Pelton and friend with their fine catch of Walleye and Great Northern Pike and Trout caught at Thessalon, Ontario, Canada.

"Hank" Smith has started to worry about his bowling scores for this coming season already. It will soon be that time of year and we can see if "Hank's" worrying was for nought.

When "Bo" Price ran into "Hank" Millage on the ball field the other evening Hank didn't give much but little "Bo" thought he had hit a brick wall. In his dazed condition he immediately asked, "did I hurt you"?

The number-one question of the day: "Did Fritz Lepins drive Bill Zoellner to California or go to Lake Leelanau?"

THE HELLO GALS ("The Argus Vargas")

FLASH —

Did ya know we got "Percy"? We have—Priscilla Stiller is the "keerect" name. "Percy" will be leaving us the first of September to go to Webster College, St. Louis, Mo.

"Tommie" - - - "Flash" Illes has been away for a week on vacation. "Tommie" is Argus' newest "Farmerette" - - - chickens, and stuff and things.

PERSONNEL NEWS

Vacations are almost over. Our current casualty is Ruth Scharren, who is in northern Wisconsin with her parents. We tried to convince her that she didn't need a vacation this year, but off she went in spite of all our arguments. How we miss her, and how we are counting the days until she comes back! Not only is she a capable and efficient boss, she is a swell girl and a lot of fun.

Mrs. Radford is back in the fold after her trip to Fontana, California.

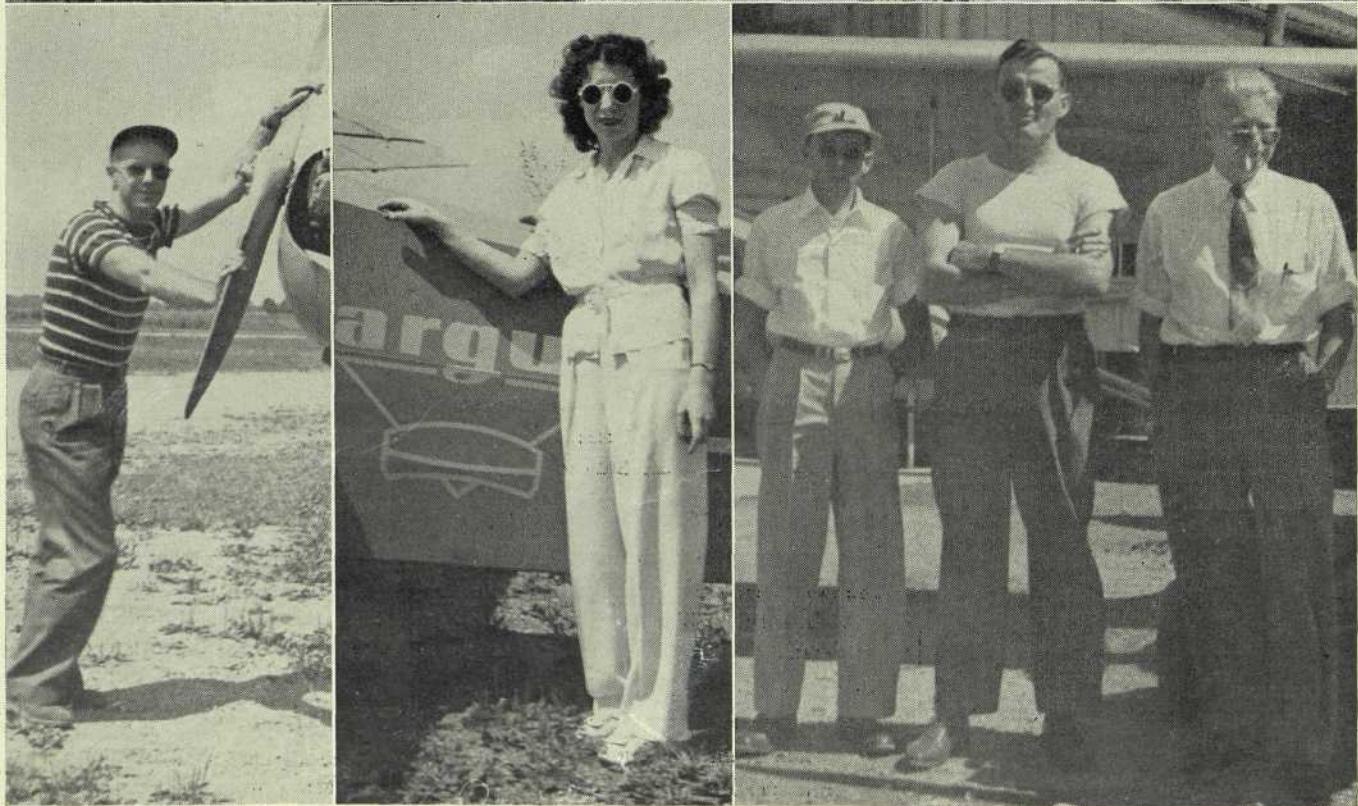

Virginia Fox is still hoarding her vacation in the hope that Duane will be home. She is another girl we hate to be without for even five minutes, and since we never have had to get along without her we dread trying. Since she came to Argus a year ago she has never been absent nor late.

Lib Kivi is with us again for a short time. She is anxiously awaiting her husband's discharge from the Air Corps. Lt. Kivi is in Sioux Falls, S. D. at the moment, where Lib will join him at the end of August. After the war he is going back to school, so the Kivi's will be in Ann Arbor indefinitely.

GUARDS

Sgt. Harry Letsis and Cpl. MacPherson are both on vacation. We wish you both the best of luck and hope to see you back soon.

We also wish Gertie Sutton a fine time on her vacation. Hurry back Gertie.

BELOW DECK

"And so we'll sing and cheer
Vacation time is here."

Ah, yes, vacations! And the tales we hear. Get Roy to tell you his story about what he saw, (without the benefit of snake-bite remedy too, so he says) while vacationing in the Northland. However, he reports a fine time was had by all and hopes to have some pictures for us. Mary Snell enjoyed a week sleeping, reading, and relaxing in general but is saving the second week until later. Joyce spent a week with friends in Denver and plans on another week up north. Harry sent intriguing cards from Interlochen, Mich. Doris Hainen went to Canada again for two weeks too,—guess we'll have to investigate a little. Norm is eating regular again after flying to Chicago and driving his family back. Dorothy Meineke brought her car back from Kansas. How about taking us for a ride Dot? Beulah had a sudden bad attack of vacation fever so took a few days off, went on a shopping bender then went 'down on the farm' to play the role of Papa's little helper. However, she found waiting in line at the grain elevator at 5:00 A.M. (believe it or not) a rather sleepy job, especially as it rained.

We have two new members to welcome, Fae Kaufman is helping us between school terms while Sylvia Feldkamp is now a regular in payroll.

We were sorry to hear of the death of Bob Ward's father and extend to him our sincere sympathy.

Congratulations are in order: Harry Rookes is the very proud papa of a baby girl, Patricia Kay born July 26. He also celebrated his birthday by being on the receiving end of 'the paddle'. Congratulations and all good wishes to our new bride, Mrs. Arthur Rutledge, — Mary Jane to us. Mary Jane got in a bit of cooking practice while Mom Roberts was away last week—a good thing for Arthur.

Warning!! Beware of poison ivy! However if anyone is exposed to an overdose consult Dr. Rockman, the gentleman behind the dark glasses, for specialized treatment.

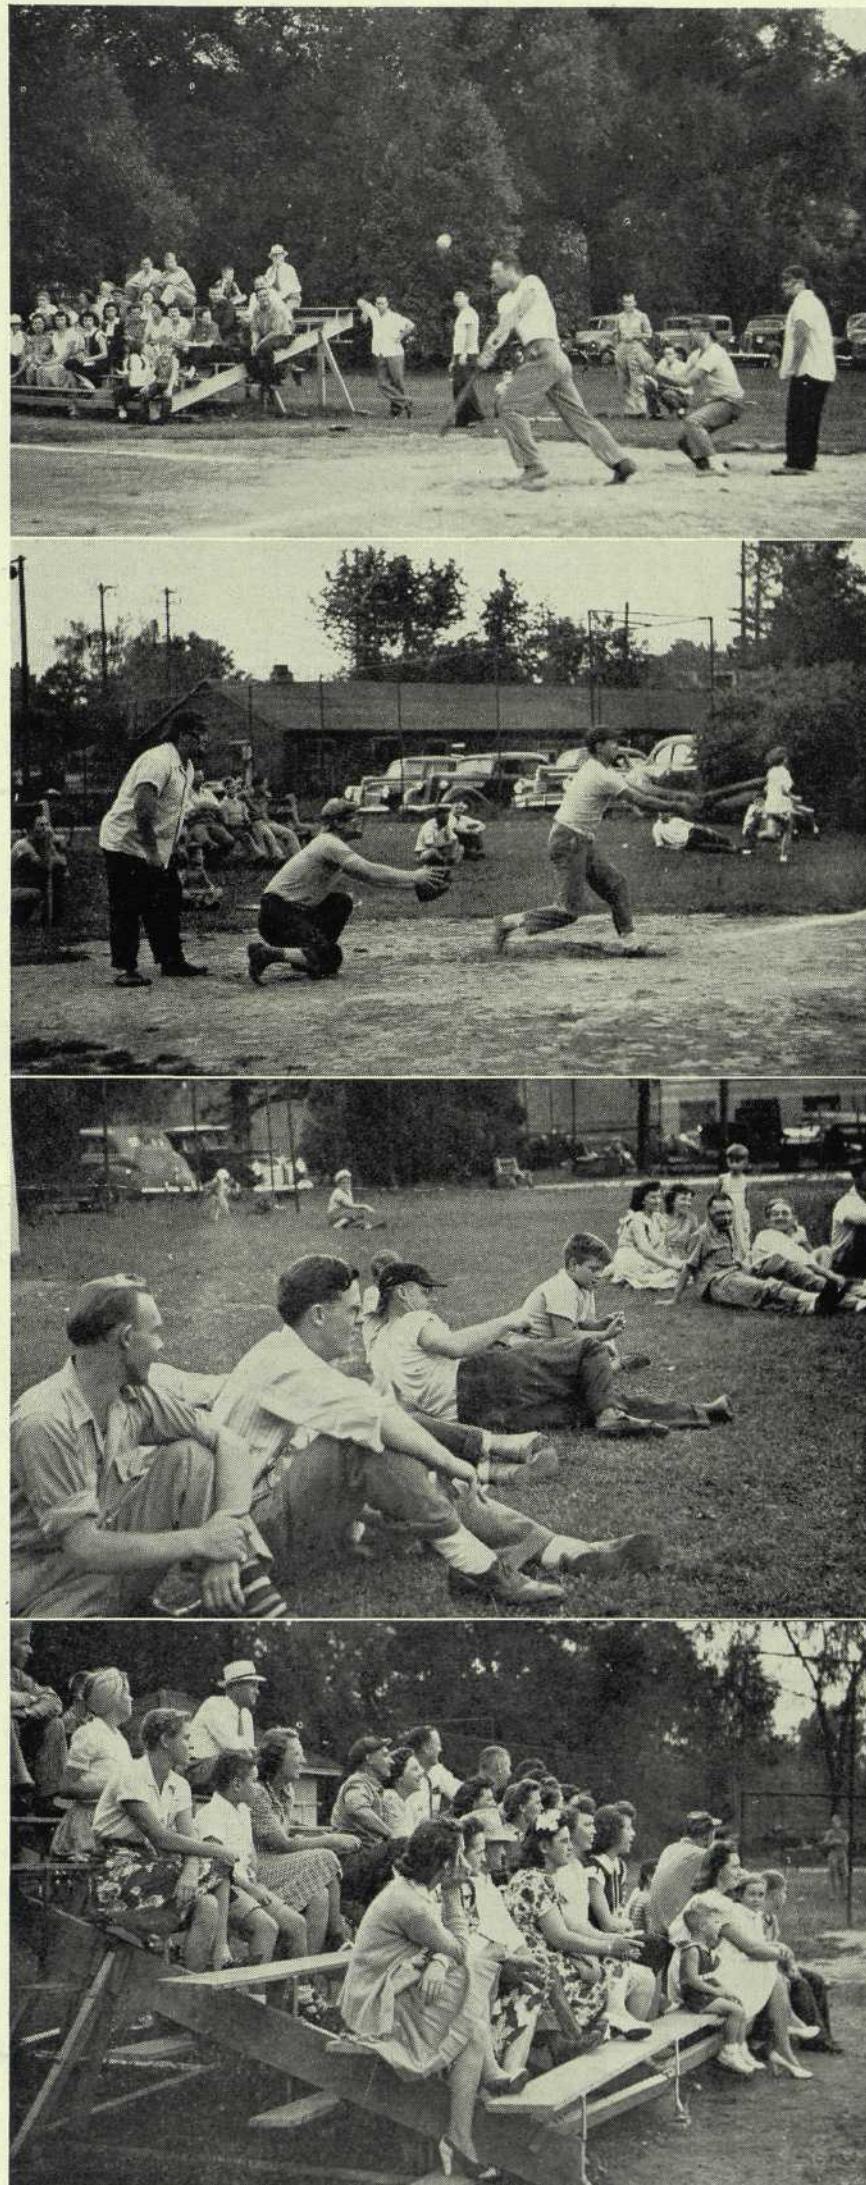

The week-end party at Vonnies cottage was lots of fun except for the rain. However, we did very well amusing ourselves indoors. Inventory may be a head-ache to lots of us, but the hour lunch period was wonderful. Several of us including Irene Leabu and Collette, two gals we don't see much of, took a picnic lunch to Island Park, one noon.

Notes Miscellany:

Doris Ehnis—fishing but no fish.
Dortha—showing us Oriental novelties sent by sailor husband.
Ginny—a first-rate cleaning lady. Just look at the vault and see. Also slightly on the mechanic type but couldn't find the canary in her car.
Alice Blanchard—Pinch hitting for vacationing secretaries in General Accounting.
Mary Jane and Doris—receiving cards from employee Doris Miller.
Clara—Rushing round in a bright red apron.
Joyce—recovering from moving into her new apartment and from routing-book rash.

Grace—received very interesting necklace from husband stationed in South Pacific.
Eunice—having X-Rays.
Glenn—working at both ends of office when Papa Rookes passed the candy.
Alyce Taylor—Canning beans from her garden.
Wilmot—New permanent and hair-do. Also several pairs of new shoes.
Marie—spending her spare minutes grocery shopping and hunting receipts.

The Argus Ramblers and Independents Had an Enthusiastic, If Small, Audience at Their Last Game of the Season

Jim Norris—found elusive raincoat among the time cards during the Saturday A.M. cleaning.

Russ Warren—marking time.

Les—giving the girls a demonstration on how to tie neck-ties without a mirror.

Harry—very fond of opening and closing windows.

Juanita—Gained back lost weight and recovered from cold since Mrs. Dean's

return.

Joe—the exception to prove the rule, would like inventory more often so he could keep on brewing coffee in his private sanctuary.

Tom (the auditor)—went home (Detroit) to get a good night's sleep but very young daughter had different ideas. Likes Clem's up hair-do much better than down-do.

Receiving Inspection

Vacation is over for half of the department while the other half is still sleeping in this week.

Welcome to Virginia Morgan, Thelma McGrew and Sunni Mullreed who have moved in with us from the machine shop. Hope they like us here.

Virginia spent her vacation traveling in the beautiful northern Michigan. It was a lovely trip she says but she is looking forward to something better this week-end. She and her husband and four other couple are going on a yachting trip at Bay City.

Thelma says there is no food shortage in Kentucky where she visited friends. We fairly drooled as she told us about southern fried chicken, home cured hams, steaks and chops.

Rose Judson was afraid to leave the house all week for fear she wouldn't be there when her husband came home from overseas. Cheer up, Rosie, he will get here some day.

Nina Walterhouse and Lillian Stutzman played (or worked, rather) at nursing because of illness in their families. They must have done all right because the patients survived. Hope they can have a better vacation later.

Mabel St. John spent a day in Canada and celebrated her birthday at the lake for a few days. Bet she did some wedding planning too.

Harvey Pitts stayed in town that week. He can't figure out why there is a beer shortage.

Sunni Mullreed visited friends in Detroit and Mabee. She regrets there was no time for horse-back riding.

Mary Raymond is still peeling off gobs of skin from that beautiful sunburn she got while on vacation on Traverse Bay. She fished and swam and likes "The Brook" in Traverse City.

"Scuffle" Wilson has returned to us after a long absence. We are glad to have her come back. She and her husband spent some time with relatives in Tennessee and Georgia. Although she says her vacation wasn't long enough she is glad to be back at Argus.

Art Gerstler's son was home on leave so they spent a lot of time together fishing and resting at the lake.

Aggie Thurston spent a few days visiting her mother in Jackson.

Bessie Coon's long wait is finally over. Her son, who was a German prisoner is home, safe with his family. We are so happy for her.

Evelyn Kearns saw about twenty-five deer including a doe with twin fawns while she was at Grayling and Houghton. She hated to cover all that lovely sun-tan up with so many clothes when she came back to work.

Doris Layer visited relatives in Manchester. She is quite a fisherwoman from the reports of the fish she caught.

Laura Egeler loves boat trips. She took two of them on her vacation. The first week-end she and Rube went to Cleveland and back, over the water. They visited relatives there. The last week-end they went to Buffalo, Niagara Falls, and back to Detroit via Cleveland. Alma Fox and husband, Leola Stoner and John Kendrovis, Roberta Jones and Eddie Kuehn helped to make it a wonderful trip.

Sally Kneiper vacationed at Houghton Lake. She said the fish were plentiful and her husband had quite a struggle with a ten and three quarter pound Great Northern pike. They saw Clara Shallhorn and her husband there and the group celebrated.

(Continued on page 8, column 1)

Kathryn—taking a bevy of mermaids, Nancy, Joyce, Bobbie, Merna, and Norma, swimming. We hope there will be pictures next month.

The Optical Assembly Department Is Well Represented in the Armed Services

Dear Argus Ann:

Well, settle yourself for a long period. I've lots to tell you. We were certainly scattered over the country this past week. I didn't know people could get around so much in one week.

Our Department has been like a beehive ever since vacation and they haven't all turned up yet.

The lakes around here must have risen three or four inches anyway, as many girls as there were in them in one week, and from what I hear all they did was eat, swim and sleep. That is, except Dorothy Schallhorn. She went to Houghton Lake and actually went fishing,—caught a 34 inch pike. That sounds like a big fish to me. But then, who am I to doubt it? They tell me there are fish that big.

Lila Lange spent the week at Whitmore Lake. Says she mastered a sail-boat, but I'm from Missouri and she hasn't offered to take me for a ride yet.

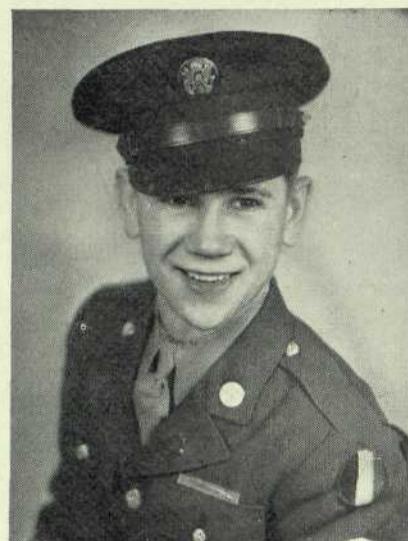

Of course you know there's always a few who have to start their vacation a little early. This group consisted of Katie Bauer, Helen Fraser, Rosie Schosser, Ruth Finkbeiner, Eileen Howell and Marjorie Black, who spent the evening at Lee and Eddies supper club in Detroit. The feature of the evening was Clyde McCoy and his orchestra. Fine time was had by all.—"snuff said".

Ruth covered a bit of Canada, buying her new fall clothes, and got back to her home in time to meet Katie and Helen who motored over to have a swim in Lake Erie. Incidentally, steak is sticking out of their ears, and the results were a few pounds gained—the girls say that all was due to that delicious cooking of Ruth and her mother.

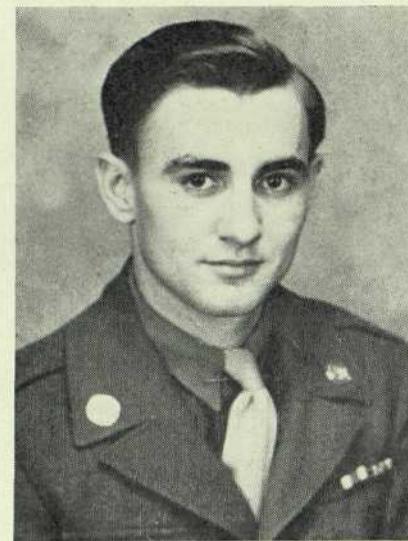

Rosie Schosser spent the week at Portage Lake, picked up a "slight" tan, and got together with a few of the girls and caught up on the latest dirt. And she finally heard the current hit-song, "Rose Mary".

Received a letter from Pvt. Ann Letsis. She says it's "rugged" but she loves it. She's stationed at Fort Des Moines, Iowa.

Betty Glass spent her week at home visiting with her brother. I'll bet that was something—two "Pennsylvania Dutchmen" getting together after several months separation. Betty speaks a language we've never understood anyway.

Pfc. Thomas Glass, who served in the infantry with the Third Army, has just returned home from Germany and is spending a thirty day furlough with his parents in Claysburg, Penna. After another training period in Kentucky he expects to go to the Pacific area. Thomas is the brother of Betty Glass, Optical Assembly.

Raymond L. Wingrove entered service May 30, 1943. He received his training at Camp Stewart, Georgia and Long Island, N. Y. He left for overseas duty December 30, 1944, and served with General Patton's 3rd Army. He is now stationed at Thionville, France. Raymond is the son of Mary Wingrove, Optical Assembly.

L.T. THOMAS C. HEMINGWAY

Clara Hemingway of Optical Assembly is happy these days over the safe return from the Pacific war area of her son, Lt. Thomas C. Hemingway. Lt. Hemingway has been in the service since June 1941 when he left college to enlist in the Army Air Force. For the past year he has served as a B-29 navigator-bombardier in Squadron 882 based at Saipan in the Marianas. He was on the first bombing mission over Tokyo on November 22nd of last year and before that over Japanese-held Iwo Jima five times. After successfully completing thirty-five missions over the Japanese home islands, Lt. Hemingway was furloughed home to the States. Holder of the Air Medal with seven bronze Oak-leaf Clusters and three bronze battle-area stars, the Lieutenant was awarded the Distinguished Flying Cross and Presidential Citation on May 21st . . . along with the other members of his crew. He is now home for a month in Ann Arbor and Ypsilanti, after which he reports for reassignment at San Antonio, Texas.

Doris Smith spent her vacation with her brother John, who is in the Navy, at Norman, Okla. She took the long way home, through Little Rock, Memphis and Louisville. She brought back a strange fact. Jay's quote, "You know, they don't even have refrigerators in Oklahoma".

And half our months schedule could have been built in Kentucky, as many girls as we have went there. They tell me they had everything from "Moonshine" to "Fried Chicken". Pauline Baker and husband Bill, Cecile Eubank, Helen Bybee and Paul Stotts all honored Columbia, Ky. Paul says he really believes in Southern Hospitality. Only, in this day and age, they call it "Southern Comfort" and it comes in the form of a dark red liquid.

Thressel Conley went to Salyersville, Ky. She didn't gain a pound, but it wasn't because she didn't eat enough corn bread.

Marguerite Haylow went to Louisville, Ky.

Dr. and Mrs. R. G. Smock visited in the Upper Peninsula with Dagney's broth-

er, who just returned from 38 months overseas.

Eva Baker visited in South Bend, Indiana, and Dowagiac, Mich.

Lucille Rolkosky went to her home in Vulkan, Michigan.

Ann Daly and Elsie Paradise shopped in Detroit. Mary Green shopped in Toledo.

Virginia Ross went (now, you can believe this or not, but this is what she told me) skiing in Iron Mountain.

Paula Kapeleris and her husband went on their second honeymoon. Took a boat to Cleveland and just "looked and loafed" for three days.

Pauline Johnson and her husband moved to Rose Drive. Pauline says "We don't have a larger place, we just have a lot more room around it".

Della Diuble and Laurain Devlen both frequented the lakes.

Frances Warren really had quite a trip to Mackinac Island and had quite a time with the horses and buggys there, then

crossed over to Beaver Island. Said the water was really rough and she got "slightly seasick". Her brother also arrived home unexpectedly after having spent two years overseas.

Ruth Williams spent four days in Detroit shopping for anything and everything that couldn't be found, and two days at Sugar Loaf Lake trying to catch a fish. She left us today. She is going to Tyler, Texas, with her sister Betty Billau, who is going to be with her husband Pvt. Ernest ("Red") Billau, formerly of Plant II polishing room.

This is a little off Vacation now, but there was a shower given July 11th at Dagney Smock's home, for Helyn Moore. They gave her a baby buggy.

We have a new girl in the Department. Her name is Cord. She seems to be paged quite a lot in Optical Assembly. She's a member of the "Eptic-glyptic" corner, too, on the M-62 line.

Pre-assembly fairly reeks of orange-blossoms. With a big happy smile Etta Graham reveals to us the return of Sgt. Harold Rowkaski from France. She says they'll be sensible and wait awhile before "middle-aisling".

Well, I guess I'll sign off for now.

Yours truly,
OPTIC-AL

S/Sgt Bernard Lyons

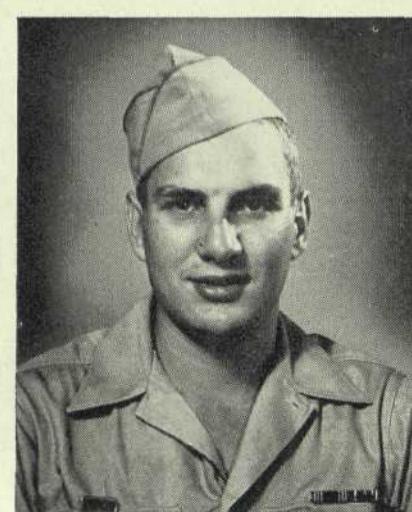

S/Sgt. Lyons, who has been stationed with the 8th Air Force in England for 18 months, recently enjoyed a thirty-day furlough at home after docking in New York on June 29th. Part of his duties in England consisted of preparing "flimsies", which are special instructions and codes that each bombing crew receives just prior to taking off on their missions. "Bunny" left August 5th for Sioux Falls, S. D. via Camp Grant for Pacific area training . . . but we hope that with the recent developments it may be possible for him to remain in this country, and to come home to stay.

Former Argus Boys Pay Us a Visit While on Furlough

ELMER MILLER

"The might mueller" (to the boys in Material Control), who was an artillery spotter with the Field Artillery, brought along some interesting souvenirs from Germany recently, and is spending a couple of weeks with his young son who was about two months old at the time Elmer went into service.

SGT. ROBERT E. WHITMORE

Bob, who formerly worked in the Prism Department under Bob Isaacson, left for the army in December, 1942. After seeing service in Europe, he was captured by the Germans in the battle of the Bulge in December 1944, and was held prisoner until the arrival of the 1st Army in April 1945.

"Birthday Greetings

Etta Graham, Audrey Kett, Jerry Otts, Arlene Satterthwaite, Marjorie Black, Marie Breithaupt, Dagney Smock, Ruth Williams.

T/S Romane Weis Promised to Write From Berlin

ROTBURG, GERMANY
July 21, 1945

"Dear friends:

I promised to write as soon as we reached Berlin, as close as I got was 125 miles south of Berlin, then our division met the Russians so we stopped.

Our trip across Germany was an exciting one as well as a fast one. After crossing the Rhine we were continually on the move. The 69th took Leipzig, the fifth largest city in Germany . . . the biggest fight being for the "The Battle of Nations" monument at the edge of the city. It wasn't long after the end of the war that the street cars were again running.

The summer here has been cooler than it was the summer of '42 when I was in Ann Arbor. We have a few warm days but the nights cool off. The OD (wool) uniform is worn the year around here. I expect to be issued an "Eisenhower" jacket within the next few days.

Germany has some very beautiful scenery and I have some swell pictures I have taken while traveling through and around Germany.

I have been receiving the "Argus Eyes for Victory" regularly since coming overseas. I appreciate it and want to thank the

Service Anniversaries

In last month's issue of Argus Eyes, we listed Leon Vealey as having been with Argus for ten years. We understand that this is in error and that he is really an "old timer", having come with the company about September 1, 1931.

T/S ROMANE P. WEIS receives Bronze Star Medal.

people that make it possible for me to receive it."

Sincerely yours,
Romane P. Weis

Romane was awarded the Bronze Star Medal on July 4th, which was presented to him by Lt. Col. Clark Y. Gunderson, Division Judge Advocate. In the Army 33 months, at the time of the award he had been overseas eight months and participated in two major battles.

PVT. ANN LETSIS WRITES COMPANY SONG

Ann Letsis, who left us recently for Uncle Sammy's Army, has really gotten the true army spirit and when a contest was held for a Company song . . . Ann came through with one that won the contest for Company 4—her company.

Stationed at Ft. Des Moines at present, Ann expects to graduate from there September 11th.

Ye Editor received a letter from Ann expressing appreciation for Argus Eyes, and telling of her great enthusiasm for the WAC organization, and we expect this attitude will bring her the recognition she deserves. Good luck, Ann.

ARGUS SERVICE ANNIVERSARIES

ROSE TEMPLE

Rose and Stella have been with Argus for ten years.

STELLA EDDS

Cpl. Michael, Veteran of German War, Visits Family

Cpl. Bob Michael, son of Lester Michael, supervisor in our Service Department, has just completed a thirty day furlough after his return from Germany.

Cpl. Michael, who is in the 29th Field Artillery attached to the 4th Infantry Division, landed on Utah Beach on D day plus 3 and helped take Cherbourg, St. Lo, Paris, and they cracked the Siegfried line five times; were in the battle of Hertgen Forest, and the battle of the Bulge.

The "Famous Fourth" was the first to enter Germany and they hold the longest combat record of 199 consecutive days of contact with the Germans.

The Fourth Army while in Europe was with the 1st, 3rd, and 7th Armies, and after the war was transferred back to the 3rd. The end of the German war found Bob south of Munich in sight of the Swiss Alps.

CPL. BOB MICHAEL

SALES AND ADVERTISING DEPARTMENTS

The past few months has brought many changes to the Sales Department, and this month we welcome two new girls; Melba Bowden and Carolyn Wilson, who both have husbands in the armed services. We were sorry to have Dorothy Bray leave, and wish her success in her work at the University where she will also take some courses.

Doris Strite and husband, Don, who was home on a thirty-day furlough from Europe, spent an enjoyable vacation visiting Don's folks in Indiana. They also bought a house in Platt while Don was here, and needless to say they are looking forward to the time when they can have a home together. Don has been in the service for four years.

PVT. MARIAN NICHOLS

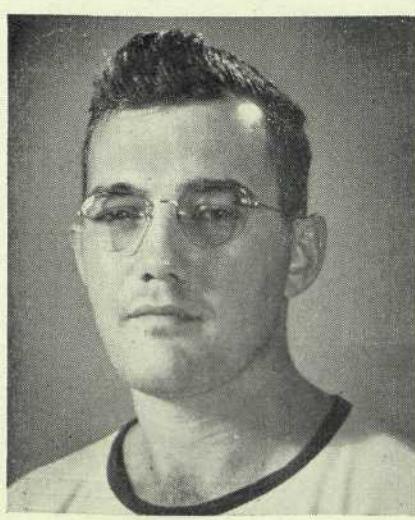

We all enjoyed a visit from Pvt. Marian Nichols, who is now a medical secretary stationed at the Chilton Hospital in Maryland. It was grand seeing you, Marian.

Jackie Schaffer spent her vacation at Whitmore Lake with her family, and a "super" time was had by all as her brother Bob was home on furlough. Jackie generously entertained the girls from the Advertising and Sales Departments by inviting us out to two swell parties while she was at the lake.

We're sure everyone enjoyed the "V-J Day celebration" following the announcement that the war with Japan had come to an end. Stu Gildart took the first bus to Detroit where he took pictures of the crowd's reaction to the wonderful news. We're hoping to see some of the pictures soon, for we hear they are really somethin'.

Up to this point we have said nothing about the male members of the sales organization . . . but this isn't because they haven't been busy. On the contrary, they have been covering the country from coast to coast with a "super" 16 mm. movie film entitled "Argus Eyes for Victory" . . . and have had record dealer attendances at meetings held in Denver, Chicago, Detroit, Boston, Cincinnati, Pittsburgh, Buffalo, Philadelphia, New York, Washington, and so forth.

We don't know whether they've hitched-hiked across any of the route . . . but if the occasion called for such action, we know our faithful sales organization would be up to the occasion, for so far they have travelled more than 10,000 miles by auto, station wagon (there's a difference) train and plane. Within the next few days the sales force will embark by plane on the southern portion of their trip, which will conclude their present series of dealer meetings.

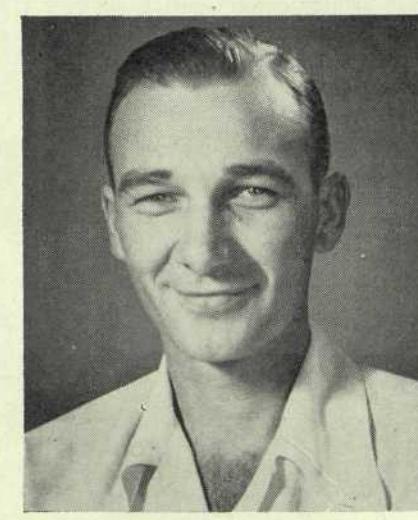

CONRAD GANZHORN

Conrad, Rhea and Bob are celebrating their 5th anniversary with Argus.

RHEA MC LAUGHLIN

BOB BILLAU

Raising Prize Gladioli Is Ed Nimke's Hobby

ED. NIMKE

Genial foreman of the camera line, Ed is also known throughout the organization as a gladioli raiser par excellent, and blossoms from his garden adorn many desks throughout the Argus plants.

With more than 150 varieties of "glads" in his garden, Ed is the champion around these parts and his garden is a source of great pleasure to the Nimke family as his father before him also raised glads.

Some of the varieties are 25 years old, and the bulbs range in cost from 18 cents each to very rare ones costing as high as 15.00, and the blossoms range in every color and shade conceivable . . . they are indeed a treat for the eyes.

Receiving Inspection

(Continued from page 5, column 4)

Sally Stone went ritzy and stayed in a lovely hotel on Lake Michigan at St. Joseph. More fun!!

Leona Baltezor went home to Tennessee to visit her parents.

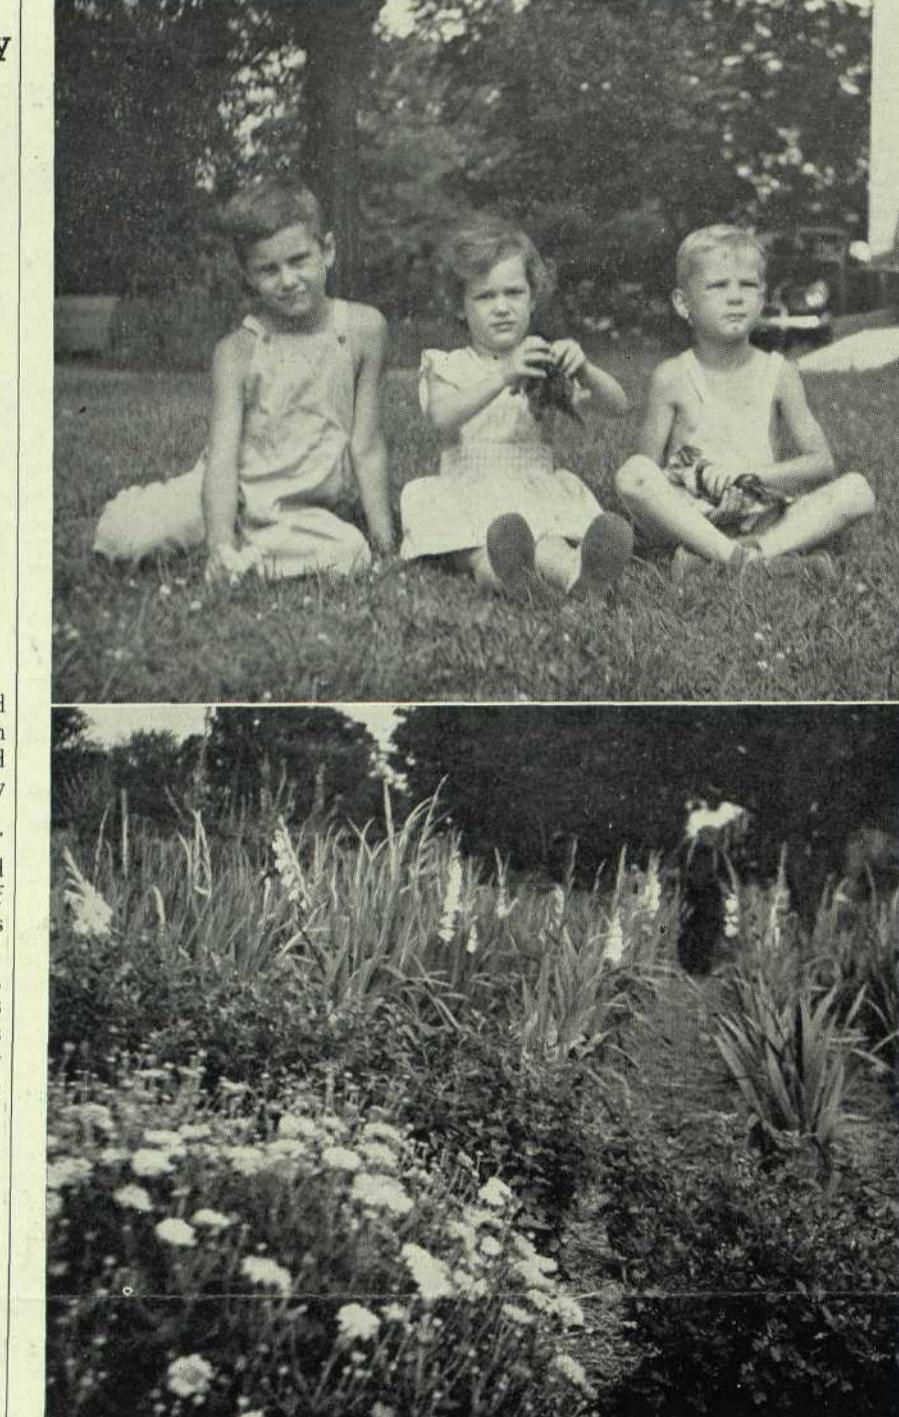

Ethel Soli is visiting her mother at L'Anse in the copper country.

Alma Fox has her house all shining so we know how she spent her week. She topped it off with the trip to Niagara Falls.

Rube Egeler just loves to work. On his vacation he spent most of his time on the farm haying and stuff. Not to be outdone, Laura went along and drove the tractor. Hauling hay in bails is no easy task. The boys really worked until Laura found you could drive a tractor right up to the bail.

Argus Annual Picnic A Success

Despite the three-day holiday following the announcement of the war's end . . . the annual picnic held at German Park was a success and was well attended and everyone reports a "grand time". No photographs were obtained, but Marie Barbier gives us below her impressions of the picnic.

ABOVE: While the Nimke children, Donald, Joyce, and Dale, like flowers too, they have a greater love for their pet kittens which are only a few weeks old.

BETWEEN: A scene from the Nimke garden. That's Ed's father in the right background tying up a gladiolus stalk which had so many blossoms that it bent the stalk.

Expediting and Receiving Department

Everyone in the office is either recovering from their vacations or looking forward to them.

Gene Schumann returned with a red face and a line a mile long about the enormous fish that he just missed catching while spending a week at Vineyard Lake. We wonder whether the red face was from the sun or the laugh he got on the fish stories.

Our blushing bride, Mrs. Meyer, returned to work one Monday morning with a play-by-play description of her first pie since being married. The details were

gruesome but we notice Mr. Meyer still works in Plant II.

Girls, Beware! Our fair haired boy, Mr. Isabelle, is going to be a bachelor for a whole month. His wife is going on a vacation, so naturally so will Bill, or should we call it a field day?

Georgia Watson left us on Friday night and we didn't see her for a whole week. Of course, once you get way out there in Darlington, it's pretty tough coming back to the crowded city. Georgia is really sold on country life.

Our blonde, Katie Olds, is proving to us that you can have your cake and eat it too.

Smitty, Marilyn Smith, to you, gives us a day by day description of the latest

Camera and Radio

Vacations always bring back interesting experiences. While nosing through the department we find: The Jones' and Me drums' spent a week at Clear Lake. We are still wondering how they ate nine dozen eggs, six chickens and a ham. My! What appetites.

Peg Watson spent her vacation at St. Joseph, Michigan with several girl friends.

Grace Hinz entertained Eolah Bucholz, Augusta Butts, Dorothy Andress, and Irene Crippen at her cottage on Island Lake. Irene's favorite song is "Bell Bottom Trousers."

Anabelle Adams traveled to Georgia; she informs us that the cows slowed the bus down and delayed her trip back.

Loma Graham and Mary Roy visited in Tennessee. We'd like to know more about that certain "punk" that they keep talking about.

Libby Cleven spent her vacation at Ishpeming.

Virginia Howard is vacationing in Florida—could it be wedding bells.

Dorothy Flick spent part of her vacation playing eighteen holes of golf. "Have you seen that sunburn?"

Eugene and Thelma Livesay spent their vacation at Mackinaw City and Points North.

Johnny Kendrovics will not reveal who accompanied him to Niagara Falls.

This week finds us saying goodbye to three more of our Argus friends. Eolah Bucholz, Irene Crippen and Mary Tucker. Eolah and Irene are accepting positions in their respective homes as housewives, while Mary has enlisted in the WAVES and has left for Hunter College, N. Y. Argus wishes you the best of luck, Mary.

Welcome back to Helen Rubin and Bob Hurt.

The Nose Who Knows

Marine offensives. Marily is under the impression that one man is enough. It must be love!

Charlotte Harvey finished packing her covered wagon just in time to catch the others who were migrating to the hills of Indiana for a few days. Think of the advantage Charlotte has over the rest of us, we have to wear shoes all the time.

Theresa (Jr.) McCarthy just returned after a delightful week spent at a cottage at Portage Lake. Apparently the one week wasn't enough time to track down that "tall-dark-handsome man" she talks so much about cuz she plans to make tracks into Northern Michigan in the near future. Better luck next time, Theresa.

Leon Vealy spent most of his vacation going back and forth to the hospital to see his little granddaughter who was badly burned. She is getting along fine now. Leon will take another week later to take the kids to the zoo and have a good time in general.

Joe Brahm really believes in the sign "Spend your vacation at home this summer". So he did.
